Exhibit - Press Release dated September 15, 2004 Disclosing First Quarter Results	14

[BONSO LETTERHEAD]

Dear Shareholders:

27 September 2004

The first quarter results were mixed with profits flat while sales decreased 10% as compared to the same period last year. Our sensor-based scale product sales remained strong but were offset by reduced telecommunications product sales. We are cautiously optimistic that our telecommunications business may recover in the coming quarters.

For the three months ended 30 June 2004, net income stayed approximately equal at \$693,000 or \$0.12 per share when compared to the same period last year. With net sales declining approximately 10% to \$18,041,000 compared to \$20,045,000 posted during the same period last year, diluted earnings per share

Edgar Filing: BONSO ELECTRONICS INTERNATIONAL INC - Form 6-K

remained at \$0.12 per share in spite of the decline in net sales. This was primarily the result of improved gross profit margins.

We were not able to surpass the record sales we posted in the first quarter last year, but our improved gross profit margins allowed us to make the same amount of profit on fewer sales. We attribute this improvement in gross profit margins to a formal program dedicated to improving manufacturing efficiencies and overall business processes.

Customer demand for our products and services is strong, and we are continuing to discover business opportunities for new products within our sensor-based and telecommunications manufacturing services. Our management team is up to the challenge and by the end of this calendar year; we anticipate adding over 100,000 square feet of additional factory and dormitory capacity to support our future growth. This will increase the size of our facilities by more than 15% to over 700,000 square feet.

Hopefully, by now, you have had an opportunity to read our Annual Report for last year. I was pleased to report that last year was the best year in our history. We delivered record revenue, earnings and cash flow, strengthened our balance sheet, lowered our interest costs, increased investments in the future growth of our businesses and provided a dividend to our shareholders. We are dedicated to continuing these trends in the future. In the first quarter we delivered on maintaining earnings, improving cash flow, strengthening our balance sheet, lowering our interest costs and increasing the investment in future growth. For the items we missed, we will continue to attempt to improve in these categories.

We invite you to visit our improved web site: www.bonso.com. Be sure to view the six minute corporate video which highlights our high technology factory in China.

4

We are keeping one eye on the future and one eye on the bottom line. We're working hard to protect and increase the value of the investments that our shareholders and customers have made in us. And we are excited to share with you the results we've delivered.

We thank you for your patience and support as we strive for consistency in our earnings and revenue growth in the future.

Best regards,
Bonso Electronics International, Inc.

Anthony So
Chairman, President and Chief Executive Officer

Management Discussion and Analysis of Financial Conditions and

Results of Operations

Period ended June 30, 2004 compared to period ended June 30, 2003

Net Sales. Our sales decreased 10% from approximately \$20,045,000 for the period ended June 30, 2003, to approximately \$18,041,000 for the period ended June 30, 2004, primarily as a result of the decreased demand for our telecommunication and scales products. Sales from our scales segment decreased from approximately \$11,319,000 for the period ended June 30, 2003, to approximately \$10,842,000 for the period ended June 30, 2004 and telecommunication segment dropped from approximately \$8,726,000 for the period ended June 30, 2003, to approximately \$7,199,000 for the period ended June 30, 2004.

Gross Margin. Gross margin expressed as a percentage of sales increased by 1% to 20% for the three month period ended June 30, 2004, as compared with 19% for the three months ended June 30, 2003. The improved Gross Margin is attributed to a formal program dedicated to improving manufacturing efficiencies and overall business processes.

Selling Expenses. Selling expenses decreased by 15.6% from approximately \$829,000 for the period ended June 30, 2003 to approximately \$699,000 for the period ended June 30, 2004. This increase is attributable primarily to decreased export transportation costs and less air flight cost.

Salaries And Related Costs. Salaries and related costs decreased 1.9% from approximately \$1,276,000 for the period ended June 30, 2003 to approximately \$1,252,000 for the period ended June 30, 2004. This decrease was primarily the result of a minor reduction in workforce.

Research And Development. Research and development expenses decreased 8.8% from approximately \$98,000 for the period ended June 30, 2003 to approximately \$90,000 for the period ended June 30, 2004 due to decreased research and development activities for both scales and telecommunications products.

Administration And General Expenses. Administration and general expenses decreased by 14.7% from approximately \$789,000 for the period ended June 30, 2003 to approximately \$673,000 for the period ended June 30, 2004. This decrease was primarily due to a decrease in professional and legal fees relating to the Augusta matter. See "Legal Proceedings."

Amortization Of Brand Names and Goodwill. The brand name is amortized using the straight line method over the related estimated useful life of 15 years. Pursuant to U.S. GAAP, goodwill is no longer required to be amortized.

Income From Operations. As a result of the above changes, income from operations increased 11% from approximately \$767,000 for the period ended June 30, 2003 to \$854,000 for the period ended June 30, 2004.

Edgar Filing: BONSO ELECTRONICS INTERNATIONAL INC - Form 6-K

Interest Income. Interest income was approximately \$43,000 for the period ended June 30, 2004, compared to approximately \$12,000 for the period ended June 30, 2003. This increase was mainly due to maintaining greater cash balances with our banks.

Interest Expenses. Interest expenses decreased 24.4% from approximately \$274,000 for the period ended June 30, 2003 to approximately \$207,000 for the period ended June 30, 2004. The decrease is primarily the result of the decreased utilization of our banking facilities.

Foreign Exchange Losses/Gains. We experienced a foreign currency exchange loss of approximately \$51,000 for the three month period ended June 30, 2004 as compared to a gain of approximately \$18,000 for the period ended June 30, 2002. The loss was primarily attributable to the stronger U.S. Dollar against the Canadian dollar and the Euro.

Other Income. Other income decreased 68.5% from approximately \$127,000 for the period ended June 30, 2003 to approximately \$40,000 for the period ended June 30, 2004. This decrease was the result of decreased sales of scrape material.

Income tax benefit/expense. We recorded a tax expense in the amount of approximately \$10,000 for the period ended June 30, 2004 as compared to an income tax benefit of approximately \$81,000.

Net Income. As a result of the above changes, net income decreased from approximately \$708,000 for the period ended June 30, 2003 to \$693,000 for the period ended June 30, 2004, an decrease of approximately \$15,000, or 2.1%.

Legal Proceedings.

Augusta Arbitration

We have been involved in a dispute with Augusta Technologie AG ("Augusta"), relating to the acquisition of Korona from Augusta. On October 22, 2002, Augusta filed a request for arbitration in New York asserting breach of the Agreement and registration rights agreement. Several hearings were held before an ICC arbitration panel ("Tribunal").

On July 28, 2004, the Tribunal issued a Final Award in favor of Augusta. The Final Award provided for aggregate payments to Augusta of \$2,387,704, including: (i) an award of monetary damages in the amount of \$1,802,029.07 (including principal and interest), (ii) costs arising out of the arbitration in the amount of (euro)418,956.42 (approximately \$504,675 based upon the noon buying rate in New York City for cable transfers as certified for customs purposes by the Federal Reserve Bank of New York on July 28, 2004 of 1.2046 dollars per Euro); and (iii) reimbursement of \$76,000 of the fees and expenses of the Tribunal. Management intends to satisfy the award in the near future.

In the fourth quarter of 2004 (i.e. the quarter ended March 31, 2004) a reserve in the amount of \$1.2 million was accrued for interest, attorney fees and expenses. Management believes this reserve will be sufficient to cover all items impacting earnings associated with the Award. Therefore, management

believes that no further significant financial impact to earnings will be carried into the current fiscal year (i.e. the year ended March 31, 2005) for

Edgar Filing: BONSO ELECTRONICS INTERNATIONAL INC - Form 6-K

this issue. The cash impact (balance sheet impact only) is estimated to be \$2.3 million and will be taken in FY 2004 - 2005.

Jefferson County Colorado Litigation

On or about August 20, 2003, Bonso and three of Bonso's directors were served with a copy of a Complaint filed on July 23, 2003 in District Court of Jefferson County, State of Colorado, Case No. 03CV2505. Plaintiffs Doug Moreland, William Pinard, Richard Pinard, Leigh Investment Company, LP, Patricia Johnson, Jason Pinard and Larry Rowe (collectively the "Plaintiffs") named Anthony So, George O'Leary, Henry F. Schlueter, Cathy Pang, and John Stewart Jackson (the "Individual Defendants") and Bonso as defendants in the case.

The Complaint alleged that the Individual Defendants breached their fiduciary duties for insider trading and misappropriation of information by selling shares of Bonso's common stock while in possession of material adverse non-public information pertaining to Bonso's financial outlook. The Complaint also alleged that the Individual Defendants breached their fiduciary duties of care, loyalty, and good faith by causing Bonso, through its directors, to disseminate to the market materially misleading and inaccurate information and its failure to correct such information. In addition, further the Complaint alleged that each of the Individual Defendants failed to disclose materially adverse information so the stock price would trade at artificially inflated prices. The Complaint also alleged the Defendants committed corporate waste by possessing confidential proprietary information and using such information for their personal benefit by selling shares of Bonso's common stock while providing no consideration to the Company for such benefit. The Complaint also alleged negligent misrepresentations and fraud by Bonso and the Individual Defendants for misrepresenting information concerning Bonso's financial outlook and its intention to conduct a share buyback. The Complaint sought unspecified damages in an amount to be determined at trial, plus pre- and post-judgment interest, and attorneys' fees costs.

On September 26, 2003, Bonso and the Individual Defendants filed a motion to dismiss the Complaint for lack of standing, failure to state a claim, and failure to comply with the appropriate procedural requirements for out of state defendants instituting and maintaining a legal action in the state of Colorado.

On October 30, 2003, the Plaintiff's filed an amended complaint (the "Amended Complaint") with the substantially the same factual allegations as asserted in the original Complaint. The Amended Complaint alleged derivative claims (the "Derivative Claims") against the Individual Defendants for breaches of fiduciary duties for: (i) insider selling and misappropriation of information, (ii) dissemination of misleading and inaccurate information and (iii) waste of corporate assets. The Derivative Claims allege that Bonso has sustained damages as a result of the Individual Defendants actions. The Amended Complaint sought disgorgement of all profits realized by the Individual Defendants, the imposition of a constructive trust in favor of Bonso for the amount of profits received by the Individual Defendants as a result of their sales of Bonso stock and damages in favor of Bonso for breaches of the Individual Defendants fiduciary duties. In response, Bonso engaged an independent counsel to review the validity and appropriateness of the Derivative Claims.

10

The Amended Complaint also alleged individual claims (the "Individual Claims") against the Individual Defendants for breach of fiduciary duty against the individual defendants for: (i) insider selling and misappropriation of

Edgar Filing: BONSO ELECTRONICS INTERNATIONAL INC - Form 6-K

information, (ii) dissemination of misleading and inaccurate information, (iii) negligent misrepresentations, and (iv) fraud.

On November 20, 2003, Bonso and the Individual Defendants filed a motion to dismiss the Amended Complaint for lack of standing and failure to comply with the appropriate procedural requirements for out of state defendants instituting and maintaining a legal action in the state of Colorado. On January 8, 2004, the Court entered an Order denying Defendants' motion to dismiss but requiring the non-resident Plaintiff to file a cost bond.

Thereafter, Defendants filed a Verified Second Amended Complaint (the "Second Amended Complaint") on January 21, 2004. While the Second Amended Complaint asserts essentially the same derivative and direct claims as the Amended Complaint, it includes new factual allegations concerning Bonso's December 17, 2003 announcement to extend the expiration date of its December 31, 2003 warrants (the "Warrants") and reduce the exercise price. Specifically, Plaintiffs allege, upon information and belief, that one or more of the Individual Defendants purchased Warrants between November 11, 2003 and December 17, 2003 based on information that the Warrants would be extended and the strike price reduced. We are currently proceeding with discovery in this matter. As with each of the previous complaints filed by Plaintiffs, Bonso and the Individual Defendants believe there is no basis for the claims asserted in the Second Amended Complaint and both intend to defend this action vigorously.

Stock Repurchase Program

In August 2001, the Company's Board of Directors authorized a program for the Company to repurchase up to \$500,000 of its common stock. This repurchase program does not obligate the Company to acquire any specific number of shares or acquire shares over any specified period of time. No shares were repurchased during the first quarter of fiscal 2005. The Company may from time to time repurchase shares of its Common Stock under this program.

Submission of Matters to a Vote of Security Holders

The Annual Meeting of the Company's shareholders was held on September 7, 2004. The matters considered at the meeting were:

1. The election of Anthony So; Kim Wah Chung; Cathy Kit Teng Pang; Woo Ping Fok; John Stewart Jackson IV; George O'Leary; and Henry F. Schlueter as members of the Company's Board of Directors;
 2. The approval and ratification of the Company's 2004 Stock Bonus Plan which authorizes the issuance of up to 500,000 shares of the Company's \$0.003 par value common stock that may be issued under the 2004 Stock Bonus Plan;
- 11
3. The ratification of the selection of PricewaterhouseCoopers as the independent public accountants of the Company for the fiscal year ending March 31, 2005.

Each of the nominees was elected to the Board of Directors, the 2004 Stock Bonus Plan was approved and PricewaterhouseCoopers were ratified as the Company's independent public accountants. The votes cast at the annual meeting upon the matters considered were as follows:

Bonso Electronics Reports Mixed Results For The First Quarter
Wednesday September 15, 8:30 am ET

HONG KONG, Sept. 15 /Xinhua-PRNewswire-FirstCall/ -- Bonso Electronics International, Inc (Nasdaq: BNSO - News) a designer and manufacturer of sensor

based and telecommunications products, today announced financial results for the first quarter ended 30 June 2004.

The company reported net income of \$693,000 or \$0.12 per share on revenues of \$18,041,000 for the three month period ended 30 June 2004. Net income and earnings per share when compared to the same period last year were approximately

Edgar Filing: BONSO ELECTRONICS INTERNATIONAL INC - Form 6-K

equal, with net sales declining approximately 10%, compared to net sales of \$20,045,000 posted during the same period last year. Diluted earnings per share remained at \$0.12 per share in spite of the decline in net sales primarily as a result of improved gross margins.

Anthony So, Bonso's Chairman, President and Chief Executive Officer, stated, "We were not able to surpass the record sales we posted in the first quarter last year, but both our gross profit margin and net profit margin improved 1.0 %and 0.3%, respectively. We attribute this improvement in gross and net profit percentages to a formal program dedicated to improving manufacturing efficiencies and overall business processes. Our sensor based product sales remained strong but were offset by reduced telecommunications product sales in the first quarter."

"Customer demand for our traditional products and services is strong, and we are continuing to discover business opportunities for new products within our sensor-based and telecommunications manufacturing services," said Anthony So. "Our management team is up to the challenge and by end of this calendar year, we anticipate adding over 100,000 square feet of additional factory and dormitory capacity to support our future growth. This will bring our total factory size to over 700,000 square feet".

About Bonso Electronics

Headquartered in Hong Kong, Bonso Electronics designs, develops, manufactures, assembles and markets a comprehensive line of telecommunications products, electronic scales and weighing instruments and health care products. Bonso products are manufactured in the People's Republic of China on behalf of customers primarily located in North America and Europe. Company services include product design and prototyping, production tooling, procurement of components, total quality management, and just-in-time delivery. Bonso also independently designs and develops electronic products for private label markets. For further information, visit the company's web site at www.bonso.com.
