NICE-SYSTEMS LTD.

By: /s/ Ran Oz

Name: Ran Oz

Title: Corporate Vice President

And Chief Financial Officer

Dated: October 10, 2005

**NICE Awarded \$2.5 Million Dollar Deal to Supply Digital Video/Audio Capture Solutions with Content Analytics to Isleta Casino and Resort**

*Isleta will deploy in a mass implementation for enhanced security and operational efficiency*

**Ra'anana, Israel, September 15, 2005 - NICE Systems (NASDAQ: NICE)**, a global provider of advanced solutions that enable organizations to extract Insight from Interactions(TM) today announced its selection by Integrated Controls, one of the nation's leading gaming systems integrators, to provide its smart digital video and audio capture and content analytics solutions for the Isleta Casino and Resort in Albuquerque, New Mexico. The solution will be deployed in a mass implementation spanning Isleta's 300,000 square ft. facility, over 1600 slot machines and 30 gaming tables, and is expected to be fully deployed by the end of 2005.

The NICE solution combines superior video quality and the faster frame rate specifically required by gaming surveillance, with advanced video networking and industrial-grade content analytics in one system. The solution will enable Isleta's security personnel to actively detect and act upon security infractions with easy event-driven access for review and investigation. Proactive security management will be fully integrated with the casino's point of sale platform.

"The NICE solution with video analytics will enable us with instant access to view incidents that would take hours and days with an analog system. This places us ahead of the technology curve in securing our facility and ensuring operational efficiency" said Randy Boynton, Director of Surveillance at Isleta

"We are very pleased that Isleta chose NICE, adding to our ever growing roster of casinos and gaming facilities around the globe," said Ian Ehrenberg, vice president and general manager of NICE's digital video security division in the US.

#### **About NICE**

NICE Systems (NASDAQ: NICE) is the leading provider of Insight from Interactions, based on advanced content analytics - of telephony, web, radio and video communications. NICE's solutions improve business and operational performance, as well as security. NICE has over 23,000 customers in 100 countries, including the world's top 10 banks and over 75% of the Fortune 100 companies. More information is available at [www.nice.com](http://www.nice.com).

#### **About Isleta Casino & Resort**

Isleta Casino & Resort is owned and operated by the Pueblo of Isleta located in Albuquerque, New Mexico. The 100,000 square foot casino features over 1600 slots and thirty table games. Isleta Casino and Resort also features a 29 hole championship golf course and recreational facilities on Isleta Lakes.

#### **About Integrated Controls**

Integrated Controls USA, Inc. (IC) began 50 years ago offering security and control equipment to commercial enterprises in the Southwest United States. IC grew as a result of offering impeccable service and state of the art equipment specializing in advanced control room applications. Today IC has emerged as one of the top integrators in the USA offering comprehensive, adaptive and affordable solutions to a wide range of industries around the globe to include government, industrial and gaming entities.

NICE Named Industry Leader by Independent Analyst Firm Frost & Sullivan

*NICE named number one in influential World Agent Performance Optimization Market Report*

**Ra'anana, Israel, September 21, 2005 - NICE Systems (NASDAQ: NICE)**, the global provider of advanced solutions that enable organizations to extract Insight from Interactions(TM) today announced that in the recent 2005 study by Frost & Sullivan entitled World Agent Performance Optimization Market, NICE ranked first in the global quality monitoring market. In addition, NICE was recognized for excellence in all areas of market leadership, including the success of the vision for business performance management that is based on the company's Insight from Interactions strategy, enabled by the capabilities of NICE Perform(TM); as well as successfully transitioning to a solution focused company.

NICE has been singled out as the global quality monitoring industry leader with 33.7% of the worldwide market (products and services). NICE also leads the combined software and hardware market worldwide with 38.4% market share- nearly as much as its two closest competitors combined.

The Frost & Sullivan report shows that NICE also retained its number one position in each major geographical region as well, with 31% of (software and hardware) in North America and 50% in EMEA.

The report discusses NICE Perform`s capabilities in helping "tap the intelligence and gain insight from customer interactions, to enhance business performance throughout the enterprise." Among the capabilities highlighted are word spotting, emotion detection and Talk Analysis.

"NICE also offers an integrated and feature rich coaching module to its customers. The functionality contained in this module enables supervisors to create and send coaching packages to agents," says Seema Lall, industry analyst, Frost & Sullivan. "NICE provides a very comprehensive analytics solution encompassing a broad range of features and capabilities within a single, easy to use interface. Frost & Sullivan lauds NICE System's attempt to help enterprises tap on the hidden 'goldmine' within customer interactions."

The ranking follows on another recent Frost & Sullivan survey of the industry in APAC in which NICE earned the Frost & Sullivan 2005 Market Leadership Award in the Asia Pacific call monitoring systems market. Audrey William, Industry Manager, ICT Practice, Frost & Sullivan Asia Pacific, said, "NICE has emerged as a powerhouse, gaining substantial mindshare and market share in the Asia Pacific call monitoring space in 2004. Its success can be attributed to its excellent strategic alliances, as well as a solid network of channel partners. In addition, NICE's ability to innovate its offerings has given it an edge in the contact center industry."

Manoj Menon, Partner at Frost & Sullivan added, "Frost & Sullivan believes that NICE will continue to be a dominant player in the call monitoring market in years to come. The company has focused exceptionally well in key verticals such as the financial services, telecommunications and outsourcing segments."

"We are happy to see further recognition of our market leadership and validation of our strategy for providing contact centers and the enterprise with the powerful capabilities of extracting Insight from Interactions," said Zvi Baum, NICE President of Enterprise Interactions Solutions. "We are pleased that Frost & Sullivan shares our view that a fully integrated end-to-end solution that performs multi-dimensional interaction analytics is the key to improving performance at the agent, contact center and enterprise levels."
