The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements that would substantially duplicate the disclosure contained in the audited financial statements for 2003 as reported in the 10-KSB have been omitted.

#### NOTE 4- MARKETABLE SECURITIES

On September 8, 2004, NutraCea purchased 1,272,026 shares of Langley Park Investment Trust, PLC, a United Kingdom closed-end mutual fund that is actively traded on a London exchange. Per the Stock Purchase Agreement, NutraCea paid with 7,000,000 shares of its own common stock.

Per the Agreement, NutraCea may sell 636,013 shares of Langley at any time, and the remaining 636,013 shares of Langley and the 7,000,000 shares of NutraCea are escrowed together for a 2-year period. At the end of the period, Langley's NutraCea shares are measured for any loss in market value and if so, NutraCea must give up that pro-rata portion of its Langley shares up to the escrowed 636,013 shares.

As of September 30, 2004, the NutraCea shares have not lost any value. However, the Langley shares are marked down to their fair market value of \$712,334, with one-half or \$356,167 shown as a current asset because they may be sold at any time, and the other one-half shown as long-term because they are held in escrow pending the 2-year review of NutraCea's stock valuation.

Any unrealized holding gains and losses on the marketable securities are excluded from operating results and are recognized as other comprehensive income. The fair value of the securities is determined based on prevailing market prices.

Incorporated.

The Company posted an operating loss of \$1,084,920 for the quarter ended September 30, 2004 compared to an operating loss of \$816,998 for the same quarter in 2003. The operating losses are due to the significant operating expenses consisting primarily of non-cash stock option and warrant awards made to certain officers and consultants of NutraCea.

Interest expense decreased to zero for the quarter ended September 30, 2004 compared to interest expense of \$25,997 for the same period in 2003. This decrease is due primarily to the elimination of interest expense on notes that were paid off or converted in 2003.

The net loss for the quarter ended September 30, 2004 was \$1,083,893 compared to a net loss of \$876,420 recorded for the quarter ended September 30, 2003. This 24% increase in net loss was due primarily to the increase in operating losses for the third quarter of 2004 offset somewhat by interest income of \$1,027.

The decrease in revenues is primarily attributable to decreased purchases by the major customer of the Company's subsidiary NutraGlo Incorporated.

Costs of goods sold decreased by \$238,479 to \$396,494 for the nine months ended September 30, 2004 from \$634,973 for the nine months ended September 30, 2003. The decrease in costs of goods sold generally reflects the decrease in revenues during the first nine months of 2004.

Operating expenses have increased to \$21,567,575 for the nine months ended September 30, 2004 compared to \$2,434,722 for the similar period of 2003. The substantial increase in 2004 was attributable primarily to non-cash stock and option awards which increased by \$18,396,104 to \$19,409,999 for the nine months ended September 30, 2004 compared to \$1,013,895 for the first nine months of 2003. ## Edgar Filing: NUTRACEA - Form 10QSB

Interest expense decreased by \$65,379 to \$495 for the nine months ended September 30, 2004 from \$65,874 for the nine months ended September 30, 2003. This decrease is due to the substantial reduction in the number of promissory notes outstanding.

The Company posted a net loss of \$21,297,570 for the nine-month period ended September 30, 2004 compared to \$1,928,917 for the first nine months of 2003. The substantially larger nine-month operating loss in 2004 was due primarily to the significant operating expenses incurred in the first half of 2004 relating to the issuance of the Company's common stock as compensation.

### Off-Balance Sheet Arrangements

-----

During the quarter ended September 30, 2004, the Company did not engage in any off-balance sheet arrangements as defined in Item 303 (c) of the SEC's Regulation S-B

### LIQUIDITY AND SOURCES OF CAPITAL

NutraCea has incurred significant operating losses since its inception, and, as of September 30, 2004 NutraCea had an accumulated deficit of \$42,650,898. However, at September 30, 2004, NutraCea had cash and cash equivalents of \$377,035 and working capital of \$530,775.

To date, NutraCea has funded its operations, in addition to sales revenues, through a combination of short-term debt and the issuance of common and preferred stock. During the nine months ended September 30, 2004, NutraCea has issued a total of 22,559,405 shares of common stock of which approximately 8.4 million shares were issued as compensation to officers and consultants of the Company. During the nine months ended September 30, 2004, NutraCea raised a total of \$2,771,868 from the exercise of options and warrants to purchase 6,954,323 shares of common stock. NutraCea continues to

16

pursue cost cutting or expense deferral strategies in order to conserve working capital.

Based on management's financial projections, NutraCea has enough cash reserves to finance its business plan through fiscal year 2004.

Due to the Company's limited cash flow and operating losses, it is unlikely that the Company could obtain financing through commercial or banking sources. Consequently, the Company is dependent on continuous cash infusions from major investors and the exercise of outstanding warrants and options in order to fund its current operations. If these sources of capital were unwilling or unable to provide additional working capital to the Company, the Company would probably not be able to sustain its full range of operations. There is no written agreement or contractual obligation which would require the Company's past funding sources to fund the Company's future operations up to certain amounts or indeed continue to finance the Company's operations at all.

As of September 30, 2004, NutraCea's principal commitments include a lease commitment that expires in 2006 of \$ 5,358 per month for the Company's corporate offices.

Management of NutraCea believes that it will need to raise additional capital to continue to develop, promote and conduct its operations. Such additional capital may be raised through public or private financing as well as borrowing from other sources. Although the Company believes that current and/or future

## Edgar Filing: NUTRACEA - Form 10QSB

investors will continue to fund the Company's expenses, there is no assurance that such investors will continue to fund the Company's ongoing operations or the terms upon which such investments will be made.

### CRITICAL ACCOUNTING POLICIES

NutraCea's discussion and analysis of its financial condition and results of operations are based upon its consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of financial statements require managers to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses and disclosures on the date of the financial statements. On an on-going basis, the Company's accountants' evaluate the estimates, including, but not limited to, those related to revenue recognition. The Company uses authoritative pronouncements, historical experience and other assumptions as the basis for making judgments. Actual results could differ from those estimates.

The Company has adopted the fair value based method of accounting prescribed in Financial Accounting Standards Board ("FASB") Statement No. 123, "Accounting for Stock-Based Compensation," for its employee stock option plans.

The Company has adopted SFAS No. 145, "Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13 and Technical Corrections" which requires gains and losses from extinguishment of debt to be reported as part of recurring operations.

### ITEM 3. CONTROLS AND PROCEDURES

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's President and Chief Executive

17

Officer along with the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-14 as of the end of the period covered by this report. Based upon that evaluation, the Company's President and Chief Executive Officer along with the Company's Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective to ensure the information required to be disclosed by the Company in reports filed or submitted under the Exchange Act were timely recorded, processed and reported within the time periods specified in the Securities and Exchange Commission rules and forms.

There have been no significant changes in the Company's internal controls over financing reporting or in other factors which occurred during the quarter covered by this report, which could materially affect or are unreasonably likely to materially affect the Company's internal controls over financing reporting.

The share certificate contains a legend indicating that such shares can only be transferred in compliance with the provisions of Regulation S. In light of the foregoing, such sales were deemed exempt from registration pursuant to Regulation S of the Securities Act of 1933 (the "1933 Act").
