3. SALE OF REAL ESTATE INTERESTS

As previously reported, on February 25, 2013 the Company completed the sale of its interests in Grove Isle Associates LLLP, Grove Isle Yacht Club Associates, Grove Isle Investments Inc. and CII Yacht Club, Inc., which represent interests in the Grove Isle hotel, club, tennis courts and marina (collectively, the "Grove Isle Property") to Grove Isle Yacht & Tennis, LLC, a Florida limited liability company and an unrelated entity ("the Purchaser"), pursuant to a purchase agreement entered into on the same day (the "Agreement"). The purchase price was \$24.4 million, consisting of \$23.4 million in cash and a \$1 million promissory note due from the Purchaser. Approximately \$2.7 million of the proceeds were used to pay off the existing mortgage on the Grove Isle Property. The Company realized gain on the sale of these interests (including transactions in June 2013 described below) of approximately \$19 million (or \$19 per share) net of incentive fee due to the Adviser of approximately \$2.1 million, before provision for corporate income taxes.

In June 2013 the Company received an additional \$327,000 in proceeds for unpaid rent due by the Grove Isle tenant prior to the sale. Also in June 2013 the Purchaser exercised its option to purchase our 50% interest in the spa for \$100,000.

As previously reported, on March 29, 2013, pursuant to a Membership Interests Purchase Agreement (the "Agreement") entered into in December 2012, HMG/Courtland Properties, Inc. and its 95% owned subsidiary, Courtland Investments, Inc. (the "Company"), completed the sale of the Company's 50% membership interests in Bayshore Landing LLC, Bayshore Rawbar LLC and Bayshore Restaurant LLC, (collectively the "Monty's property") to the other 50% owner, The Christoph Family Trusts, which are unrelated entities. The purchase price for the membership interests of \$3 million was paid in cash. The Company realized a loss on the sale of these interests of approximately \$184,000 (or \$.19 per share).

4. INVESTMENTS IN MARKETABLE SECURITIES

Edgar Filing: - Form

Investments in marketable securities consist primarily of large capital corporate equity and debt securities in varying industries or issued by government agencies with readily determinable fair values. These securities are stated at market value, as determined by the most recent traded price of each security at the balance sheet date. Consistent with the Company's overall current investment objectives and activities its entire marketable securities portfolio is classified as trading.

Total net gain from investments in marketable securities	\$ 21,000	\$ 45,000	\$ 54,000	\$ 142,000

For the nine months ended September 30, 2013, net realized loss from sales of marketable securities of was approximately \$7,000, and consisted of approximately \$52,000 of gross losses net of \$45,000 of gross gains.

Investment gains and losses on marketable securities may fluctuate significantly from period to period in the future and could have a significant impact on the Company's net earnings. However, the amount of investment gains or losses on marketable securities for any given period has no predictive value and variations in amount from period to period have no practical analytical value.

5. OTHER INVESTMENTS

The carrying value of these investments is equal to contributions less distributions and loss valuation adjustments. During the nine months ended September 30, 2013, cash distributions received from other investments totaled approximately \$447,000 from several investments in privately owned partnerships owning diversified operating companies. During the same nine months ended September 30, 2013, the Company contributed an additional \$71,000 toward fulfilling capital commitments on existing investments.

When evaluating the investments for other-than-temporary impairment, the Company reviews factors such as the length of time and extent to which fair value has been below cost basis, the financial condition of the issuer and any changes thereto, and the Company's intent to sell, or whether it is more likely than not it will be required to sell, the investment before recovery of the investment's amortized cost basis.

In accordance with ASC Topic 320-10-65, Recognition and Presentation of Other-Than-Temporary Impairments, there were no OTTI impairment valuation adjustments for the three and nine months ended September 30, 2013.

In June 2012 the Company recorded a loss of approximately \$28,000 from an investment in a partnership which operates and leases executive suites in Miami, Florida. The Company has funded \$120,000 to date in this investment and the losses incurred were associated with the initial start up of the venture in 2010.

6. FAIR VALUE OF FINANCIAL INSTRUMENTS

In accordance with ASC Topic 820, the Company measures cash and equivalents, marketable debt and equity securities at fair value on a recurring basis. Other investments are measured at fair value on a nonrecurring basis.

Edgar Filing: - Form

The following are the major categories of assets and liabilities measured at fair value on a recurring basis at September 30, 2013 and December 31, 2012, using quoted prices in active markets for identical assets (Level 1) and significant other observable inputs (Level 2). For the periods presented, there were no major assets measured at fair value on a recurring basis which uses significant unobservable inputs (Level 3):

Other investments measured at fair value on a non recurring basis include investments in certain entities that calculate net asset value per share (or its equivalent such as member units or an ownership interest in partners' capital to which a proportionate share of net assets is attributed, "NAV"). This class primarily consists of private equity funds that have varying investment focus. These investments can never be redeemed with the funds. Instead, the nature of the investments in this class is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held it is estimated that the underlying assets of the fund would be liquidated over 5 to 10 years. As of September 30, 2013, it is probable that all of the investments in this class will (a) be sold at an amount different from the NAV of the Company's ownership interest in partners' capital. Therefore, the fair values of the investments in this class have been estimated using recent observable information such as audited financial statements and/or statements of partners' capital obtained directly from investees on a quarterly or other regular basis. During the nine months ended September 30, 2013, the Company received distributions of approximately \$464,000 from this type of investment primarily from investments in diversified businesses and real estate. During the nine months ended September 30, 2013 the Company made contributions totaling \$71,000 in this type of investment. As of September 30, 2013, the amount of the Company's unfunded commitments related to the aforementioned investments is approximately \$952,000.

Other investments above which are measured on a nonrecurring basis using Level 3 unobservable inputs consist of investments primarily in commercial real estate in Florida through private partnerships and two investments in the stock of private banks in Florida and Texas. The Company does not know when it will have the ability to redeem the investments and has categorized them as a Level 3 fair value measurement. The Level 3 real estate and related investments of approximately \$953,000 include one investment in a commercial building located near the Company's offices purchased in 2005 with a carrying value as of September 30, 2013 of \$724,000. These (b) investments are measured using primarily inputs provided by the managing member of the partnerships with whom the Company has done similar transactions in the past and is well known to management. The fair values of these real estate investments have been estimated using the net asset value of the Company's ownership interest in partners' capital. The investments in private bank stocks include a private bank and trust located in Coral Gables, Florida in the amount of \$250,000 made in 2009, and a \$50,000 investment in a bank located in El Campo, Texas made in 2010. The fair values of these bank stock investments have been estimated using the cost method less distributions received and other than temporary impairments. This investment is valued using inputs provided by the management of the banks.

7. INCOME TAXES

The Company (excluding CII) qualifies as a real estate investment trust and distributes its taxable ordinary income to stockholders in conformity with requirements of the Internal Revenue Code and is not required to report deferred items due to its ability to distribute all taxable income. In addition, net operating losses can be carried forward to reduce future taxable income but cannot be carried back. Distributed capital gains on sales of real estate as they relate to REIT activities are not subject to taxes; however, undistributed capital gains may be subject to corporate tax.

As of September 30, 2013 the Company (excluding CII) had an estimated net operating loss carryover of approximately \$5.1 million which is available to reduce 2013 REIT taxable income generated from gains realized from discontinued operations in 2013. The estimated REIT tax capital gain from the sales of real estate interests in 2013 is \$14.6 million, net of incentive fee due to the Adviser of approximately \$2.1 million.

As previously reported, on October 21, 2013 the Company declared a cash dividend of \$4.00 per share payable to shareholders of record as of November 1, 2013, payable on November 8, 2013. This dividend will reduce the REIT 2013 taxable income and, accordingly, as of September 30, 2013 the Company (excluding CII) has estimated a corporate tax liability of approximately \$1.7 million which is netted in gain from sale of discontinued operations.

The Company's 95%-owned subsidiary, CII, files a separate income tax return and its operations are not included in the REIT's income tax return.

As of September 30, 2013 CII has an estimated net operating loss carryover of approximately \$1.4 million which is available to reduce 2013 CII taxable income generated primarily from capital gains realized from the sale of real estate interests in 2013. As of September 30, 2013, after utilization of net operating loss carryover, CII has estimated a current provision for state and federal income taxes of \$156,000.

The Company accounts for income taxes in accordance with ASC Topic 740, "Accounting for Income Taxes". ASC Topic 740 requires a Company to use the asset and liability method of accounting for income taxes. Under this method, deferred income taxes are recognized for the tax consequences of "temporary differences" by applying enacted statutory tax rates applicable to future years to differences between the financial statement carrying amounts and the tax bases of existing assets and liabilities. The effect on deferred income taxes of a change in tax rates is recognized in income in the period that includes the enactment date. Deferred taxes only pertain to CII. As of September 30, 2013 the Company has recorded a net deferred tax liability of \$140,000 as a result of timing differences associated with the carrying value of other investments and depreciable assets and the future benefit of a net operating loss. This increase from deferred tax asset to deferred tax liability of \$838,000 is a deferred tax expense and was primarily the result of the reduction in the deferred tax asset of \$471,000 for utilization of CII NOL carryover of \$471,000 and a net decrease in investments with tax basis in excess of book of \$228,000 primarily relating to Grove Isle entities sold in 2013.

The provision for income taxes in the condensed consolidated statements of comprehensive income consists of the following:

We adopted the provisions of ASC Topic 740-10, "Accounting for Uncertainty in Income Taxes" on January 1, 2007. This topic clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with ASC Topic 740, "Accounting for Income Taxes", and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Topic 740-10 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

Based on our evaluation, we have concluded that there are no significant uncertain tax positions requiring recognition in our consolidated financial statements. Our evaluation was performed for the tax years ended December 31, 2009, 2010, 2011 and 2012, the tax years which remain subject to examination by major tax jurisdictions as of September 30, 2013.

We may from time to time be assessed interest or penalties by major tax jurisdictions, although any such assessments historically have been minimal and immaterial to our financial results. In the event we have received an assessment for interest and/or penalties, it has been classified in the consolidated financial statements as selling, general and administrative expense.

8. STOCK OPTIONS

Stock based compensation expense is recognized using the fair-value method for all awards. The Company granted reload options related to options previously granted which were exercised during the nine months ended September 30, 2013. A reload stock option is granted for the number of shares tendered as payment for the exercise price and tax withholding obligation (if any) upon the exercise of a stock option with a reload provision. The exercise price of the reload option is equal to the market price of the stock on the date of grant and the reload option will expire on the same date as the original option which was exercised. The Company determined the fair value of its option awards using the Black-Scholes option pricing model. The following assumptions were used to value the reload options granted during the nine months ended September 30, 2013: 3 year expected life; expected volatility of approximately 37%; risk-free of .11% and annual dividend yield of 17%. The expected life for options granted during the period represents the period of time that options are to be outstanding based on the expiration date of the Plan. Expected volatilities are based upon historical volatility of the Company's stock over a period equal to the 3 year expected life.

The weighted average fair value for reload options granted during the nine months ended September 30, 2013 was \$18.35 per share. For the three and nine months ended the Company recorded approximately \$20,000 in non-employee stock option expense relating to the reload options granted in 2013.

The following table summarizes stock option activity during the nine months ended September 30, 2013:

	Options Outstanding	Weighted Average Exercise Price
Outstanding at January 1, 2013	102,100	\$ 4.99

Exercised	(89,100)	\$ 5.02
Outstanding at September 30, 2013	30,700	\$ 12.61

The intrinsic value of options exercised during the nine months ended September 30, 2013 was approximately \$1.2 million.

The following table summarizes information concerning outstanding and exercisable options as of September 30, 2013:

Strike Prices	Number Outstanding and exercisable	Weighted Average Strike Prices

10. DISCONTINUED OPERATIONS AND REAL ESTATE INTERESTS HELD FOR SALE

As previously reported, on February 25, 2013 the Company completed the sale of its interests in Grove Isle Associates LLLP, Grove Isle Yacht Club Associates, Grove Isle Investments Inc. and CII Yacht Club, Inc., which represent interests in the Grove Isle hotel, club, tennis courts and marina (collectively, the "Grove Isle Property") to Grove Isle Yacht & Tennis, LLC, a Florida limited liability company and an unrelated entity ("the Purchaser"), pursuant to a purchase agreement entered into on the same day (the "Agreement"). The purchase price was \$24.4 million, consisting of \$23.4 million in cash and a \$1 million promissory note due from the Purchaser. Approximately \$2.7 million of the proceeds were used to pay off the existing mortgage on the Grove Isle Property. The Company realized a gain on the sale of these interests (including amounts received in June 2013 described below) of approximately \$19 million (or \$19.00 per share) net of incentive fee due to the Adviser of approximately \$2.1 million and before provision for corporate income taxes.

Edgar Filing: - Form

In June 2013 the Company received approximately \$327,000 of past due rental payments from the Grove Isle tenant. This amount is included in the realized gain on the sale of Grove Isle. Also in June 2013 the Purchaser exercised its option to purchase our 50% interest in the spa for \$100,000 as provided in the Agreement. There was no gain or loss realized on this transaction.

As previously reported, on March 29, 2013, pursuant to a Membership Interests Purchase Agreement (the "Agreement") entered into in December 2012, HMG/Courtland Properties, Inc. and its 95% owned subsidiary, Courtland Investments, Inc. (the "Company"), completed the sale of the Company's 50% membership interests in Bayshore Landing LLC, Bayshore Rawbar LLC and Bayshore Restaurant LLC, (collectively the "Monty's property) to the other 50% owner, The Christoph Family Trusts, which are unrelated entities. The purchase price for the membership interests of \$3 million was paid in cash. The Company realized a loss on the sale of these interests of approximately \$184,000 (or \$.19 per share).

We have classified the results of operations for the real estate interests discussed above into discontinued operations in the accompanying condensed consolidated financial statements of comprehensive income.

As previously reported, on February 25, 2013 the Company completed the sale the Grove Isle Property to Grove Isle Yacht & Tennis, LLC, a Florida limited liability company and an unrelated entity ("the Purchaser"), pursuant to a purchase agreement entered into on the same day (the "Agreement"). The purchase price was \$24.4 million, consisting of \$23.4 million in cash and a \$1 million promissory note due from the Purchaser. Approximately \$2.7 million of the proceeds were used to pay off the existing mortgage on the Grove Isle Property. The Company realized gain on the sale of these interests (including amounts received in June 2013) of approximately \$19 million (or \$19 per share) net of incentive fee due to the Adviser of approximately \$2.1 million, before provision for corporate income taxes. In June 2013 the Company received approximately \$327,000 of past due rental payments from the Grove Isle tenant which is included in the realized gain on the sale of Grove Isle.

As previously reported, on March 29, 2013, pursuant to a Membership Interests Purchase Agreement (the "Agreement") entered into in December 2012, HMG/Courtland Properties, Inc. and its 95% owned subsidiary, Courtland Investments, Inc. (the "Company"), completed the sale of the Company's 50% membership interests in Bayshore Landing LLC, Bayshore Rawbar LLC and Bayshore Restaurant LLC, (collectively the "Monty's property") to the other 50% owner, The Christoph Family Trusts, which are unrelated entities. PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Grove Isle Associates, LLLP was a co-defendant in two lawsuits in the circuit court in Miami Dade County Florida. These cases arose from claims by a condominium association and resident seeking a declaratory judgment regarding certain provisions of the declaration of condominium relating to the Grove Isle Club and the developer. The claim by the association has been dismissed as to all counts related to the Company; however the association has filed an appeal. Pursuant to an agreement dated February 25, 2013, in which the company sold its interests in Grove Isle Associates, LLLP, the Company will continue to defend the lawsuit in the event the appellate court reverses the dismissal and will indemnify the purchaser for any related judgment. The ultimate outcome of this litigation cannot presently be determined. However, in management's opinion the likelihood of a material adverse outcome is remote. Accordingly, adjustments, if any that might result from the resolution of this matter have not been reflected in the condensed consolidated financial statements.
