NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2003 AND 2002

1. BASIS OF PRESENTATION

On June 11, 2003, Advanced Refrigeration Technologies, Inc. a California corporation (" the Company") acquired all of the issued and outstanding common stock of Joystar, Inc., a Nevada corporation ("Joystar") in exchange for the issuance by the Company of a total of 13,880,599 newly issued restricted shares of common voting stock to the Joystar shareholders pursuant the Agreement an Plan of Reorganization dated as if June 10, 2003. Prior to the issuance of the shares, the Company had 3,322,840 shares of common stock issued and outstanding. Subsequent to the exchange there were 17,203,439 shares issued and outstanding. The shareholders of Joystar own 81% of the common stock outstanding of the

Edgar Filing: ADVANCED REFRIGERATION TECHNOLOGIES INC - Form 10QSB/A

Company after the issuance of the 13,880,599 shares.

The acquisition of Joystar by the Company on June 11, 2003 has been accounted for as a purchase and treated as a reverse acquisition since the former owners of Joystar controlled 81% of the total shares of Common Stock of the Company outstanding immediately following the acquisition.

On this basis, the historical financial statements prior to June 11, 2003 have been restated to be those of the accounting acquirer Joystar. The historical stockholders' equity prior to the reverse acquisition has been retroactively restated (a recapitalization) for the equivalent number of shares received in the acquisition after giving effect to any difference in par value of the issuer's and acquirer's stock. The original 3,322,840 shares of common stock outstanding prior to the exchange reorganization have been reflected as an addition in the stockholders' equity account of the Company on June 11, 2003.

The Company has been in the development stage since its inception May 23, 2001.

2. INTERIM FINANCIAL INFORMATION

The financial statements of Advanced Refrigeration Technologies, Inc. (the Company) as of June 30, 2003 and for the six months ended June 30, 2003 and 2002 and related footnote information are un-audited. All adjustments (consisting only of normal recurring adjustments) have been made which, in the opinion of management, are necessary for a fair presentation. Results of operations for the six months and three months ended June 30, 2003 and 2002 are not necessarily indicative of the results that may be expected for any future period. The balance sheet at December 31, 2002 was derived from audited financial statements.

Certain information and footnote disclosures, normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America, have been omitted. These financial statements should be read in conjunction with the financial statements and notes for the year ended December 31, 2002 included in an 8-K filed with the Securities and Exchange Commission on August 26, 2003.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PROPERTY AND EQUIPMENT

Property and equipment is stated at cost and depreciated using the straight-line method over the estimated useful life of the assets, which is seven years for furniture and equipment and three years for computer equipment. No property and equipment has been depreciated.

USE OF ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those

estimates.

INCOME TAXES

Deferred income taxes are reported using the liability method. Deferred tax assets are recognized for deductible temporary differences and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

8

NET LOSS PER SHARE

In February 1997, the Financial Accounting Standards Board (FASB) issued SFAS No. 128 "Earnings Per Share" which requires the Company to present basic and diluted earnings per share, for all periods presented. The computation of loss per common share (basic and diluted) is based on the weighted average number of shares actually outstanding during the period. The Company has no common stock equivalents, which would dilute earnings per share.

FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial instruments consist principally of cash and various current liabilities. The estimated fair value of these instruments approximates their carrying value.

4. GOING CONCERN

The accompanying financial statements, which have been prepared in conformity with accounting principles generally accepted in the United States of America, contemplates the continuation of the Company as a going concern. However, the Company has been in the development stage since its inception (May 23, 2001), sustained significant losses and has used capital raised through the issuance of stock and debt to fund activities. Continuation of the Company as a going concern is contingent upon establishing and achieving profitable operations. Such operations will require management to secure additional financing for the Company in the form of debt or equity.

Management believes that actions currently being taken to revise the Company's funding requirements will allow the Company to continue its development stage operations. However, there is no assurance that the necessary funds will be realized by securing debt or through stock offerings.

5. CAPITAL STOCK

General

Edgar Filing: ADVANCED REFRIGERATION TECHNOLOGIES INC - Form 10QSB/A

Advanced Refrigeration Technologies, Inc. (the "Company") was incorporated in the State of California on February 5, 1998. It designed, manufactured and marketed an energy efficiency evaporator fan motor controller for walk-in refrigerators and freezers until June 11, 2003 when it acquired all of the issued and outstanding common stock of Joystar, Inc., a Nevada corporation ("Joystar") in exchange for the issuance by the Company of a total of 13,880,599 newly issued restricted shares of common voting stock to the Joystar shareholders pursuant the Agreement an Plan of Reorganization dated as if June 10, 2003. Prior to the issuance of the shares, the Company had 3,322,840 shares of common stock issued and outstanding. Subsequent to the exchange there were 17,203,439 shares issued and outstanding. The shareholders of Joystar own 81% of the common stock outstanding of the Company after the issuance of the 13,880,598 shares. Concurrent with the acquisition of Joystar the Company disposed of the fan control business extinguishing approximately \$125,000 of debt for \$105,000 of fan control assets.

Joystar was incorporated on May 23, 2001. Joystar is a provider of online and offline travel services for the leisure and small business traveler.

Joystar has been in the development stage since its inception, May 23, 2001. It is primarily engaged in raising capital to increase sales and marketing activity, licensing and product development, acquisitions and infrastructure development.

The restructuring and re-capitalization has been treated as a reverse acquisition with Joystar becoming the accounting acquirer. The accompanying financial statements represent Joystar's activity since inception May 23, 2001 through June 30, 2003 and includes Advanced Refrigeration Technologies, Inc. activity since June 11, 2003.

The following discussion should be read in conjunction with selected financial data and the financial statements and notes to financial statements.

Results of operations

Because the Company is in the development stage the periods are not easily compared. General and administrative expenses increased due primarily to additional salary expense during the six and three months ended June 30, 2003 and marketing and sales decreased due in a large part to the war in Iraq effecting our entry into the travel markets.

11

Liquidity and sources of capital

At June 30, 2003 our cash position required that we actively seek additional sources of capital. At June 30, 2003 the Company had available cash of \$37,637.

ITEM 3. Controls and Procedures

The Company has disclosure controls and procedures (as defined in Rules 13a-14 and 15d-14 under the Securities Exchange Act of 1934, as amended) to ensure that material information contained in its filings with the Securities and Exchange Commission is recorded, processed, summarized and reported on a timely and accurate basis. Based on such evaluation, the Company's principal executive officer and principal financial officer have concluded that the Company's disclosure controls and procedures are effective at ensuring that material information is recorded, processed, summarized and reported on a timely and accurate basis in the Company's filings with the Securities and Exchange
