NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS
(UNAUDITED)
March 31, 2001 and 2000

NOTE A - BASIS OF PRESENTATION

The accompanying unaudited consolidated condensed financial statements of CirTran Corporation and Subsidiary (the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) for interim financial information and with the instructions to Form 10-QSB. Accordingly, these financial statements do not include all of the information and footnote disclosures required by US GAAP for complete financial statements. These financial statements and footnote disclosures should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended December 31, 2000. In the opinion of management, the accompanying unaudited consolidated condensed financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to fairly present the Company's consolidated financial position as of March 31, 2001, its consolidated results of operations and cash flows for the three months ended March 31, 2001 and 2000. The results of operations for the three months ended March 31, 2001, may not be indicative of the results that may be expected for the year ending December 31, 2001.

NOTE B - INVENTORIES

Inventories consist of the following:

	March 31, 2001	December 31, 2000
	-----	-----
Raw materials	\$ 1,746,262	\$ 1,634,178

Less reserve for obsolescence	545,866	545,866
	-----	-----
	\$ 1,783,168	\$ 1,755,786
	=====	=====

NOTE C - MERGER AGREEMENT

Effective July 1, 2000, all of the assets and certain liabilities of Circuit Technology Corporation (Circuit) were acquired by CTI Systems, Inc. (CTISI), a wholly owned subsidiary of Vermillion Ventures, Inc. (VVI), an inactive corporation. The stockholders of Circuit received 150,000,000 shares of VVI common stock in the transaction of which 12,000,000 shares were paid by Circuit to Cogent Capital Corp. for services performed in facilitating the transaction. CTISI subsequently changed its name to CirTran Corporation.

The merger was accounted for as a reverse acquisition of CirTran Corporation by Circuit. Although CirTran Corporation is the surviving legal entity, for accounting purposes Circuit was treated as the

Edgar Filing: CIRTRAN CORP - Form 10QSB/A

surviving accounting entity.

NOTE D - LITIGATION

Circuit (the surviving accounting entity, Note C) is a defendant in an alleged breach of a facilities sublease agreement in Colorado. A lawsuit was filed in which the plaintiff seeks to recover past due rent, future rent, and other lease charges. Management and the Company's attorneys have estimated the range of potential loss to be between \$0 and \$2,500,000. The wide range is due to two rent calculation methods written in the master lease. Under one calculation, the amount would be minimal. Under the other calculation, the amount would represent all future rent (reduced by rent received from future tenants). The Company filed a suit against the landlord for an amount in excess of \$500,000 for missing equipment. Rent has been accrued through December 31, 2000 and is included in accrued liabilities.

Circuit is also the defendant in numerous legal actions primarily resulting from nonpayment of vendors for goods and services received. The Company has accrued the payables and is currently in the process of negotiating settlements with these vendors.

NOTE E - SEGMENT INFORMATION

Segment information has been prepared in accordance with SFAS No. 131, "Disclosure about Segments of an Enterprise and Related Information." The Company has two reportable segments; electronics assembly and Ethernet technology. The electronics assembly segment manufactures and assembles circuit boards and electronic component cables. The Ethernet technology segment designs and manufactures Ethernet cards. The accounting policies of the segments are consistent with those described in the summary of significant accounting policies included in the Company's Form 10-KSB for the year ended December 31, 2000. The Company evaluates performance of each segment based on earnings or loss from operations. Selected segment information is as follows:

March 31, 2001 -----	Electronics Assembly -----	Ethernet Technology -----	T
Sales to external customers	\$ 381,534	\$ 268,951	\$
Intersegment sales	177,749	-

		=====	=====

NOTE F - RESTATEMENT

The consolidated financial statements at and for the year ended December 31, 2000 have been restated to reflect corrections to recognize \$300,900 reduction in inventory, \$45,213 reduction of accounts receivables and other assets, \$1,041,653 of additional accounts payable and accrued liabilities. It has been determined that adjustments are necessary to write down inventory purchased for specific customers that does not have alternative use and record accounts payable and accrued liabilities that should have been recognized in 2000.

In addition, the financial statements at and for the three months ended March 31, 2001 have been restated to reflect corrections to recognize \$220,245 of additional accounts payable and accrued liabilities. Accordingly, the cost of sales has been increased by \$85,077 and interest expense has been increased by \$135,168 in the consolidated statement of operations for the three months then ended.

The statement of operations for the three months ended March 31, 2000 has also been restated to correct overstatements in accounts payable. Accordingly, cost of sales has been decreased by \$362,621 and other income has been decreased \$32,276 in the consolidated statement of operations for the three months then ended.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Edgar Filing: CIRTRAN CORP - Form 10QSB/A

Overview

We provide a mixture of high and medium size volume turnkey manufacturing services using surface mount technology, ball-grid array assembly, pin-through-hole and custom injection molded cabling for leading electronics OEMs in the communications, networking, peripherals, gaming, consumer products, telecommunications, automotive, medical, and semiconductor industries. Our services include pre-manufacturing, manufacturing and post-manufacturing services. Through our subsidiary, Racore Technology Corporation, we design and manufacture Ethernet technology products. Our goal is to offer customers the significant competitive advantages that can be obtained from manufacture outsourcing, such as access to advanced manufacturing technologies, shortened product time-to-market, reduced cost of production, more effective asset utilization, improved inventory management, and increased purchasing power.

Results of Operations

Sales and Cost of Sales

Net sales decreased 10.7% to \$650,485 for the three-month period ended March 31, 2001 as compared to \$728,537 during the same period in 2000. The decrease primarily reflects the loss of two major customers, Andrew Corporation and Entrada Networks, Inc. In addition, management has shifted its marketing effort away from high-volume, low-margin orders to lower-volume, higher margin orders, and this change has contributed to a lower sales volume. The results of this shift are partially reflected in lower sales figures, but also in an improved gross profit margin. Cost of sales decreased by 60.7%, from \$1,386,484 during the three-month period ended March 31, 2000 to \$545,478 during the same period in 2001. Our gross profit margin improved significantly, increasing from less than 0% for the three-month period ended March 31, 2000 to 16.1% for the same period in 2001.

Selling, General and Administrative Expenses

During the three-month period ended March 31, 2001 selling, general and administrative expenses were \$660,404, as compared to \$583,409 during the same period in 2000, representing a 13.2% increase. This increase was primarily attributable to increased legal fees incurred in connection with several debt settlements arranged in the fall of 2000, preparation of our annual report on Form 10-KSB, and the litigation with Entrada Networks.

Interest Expense

Interest expense for the three months ended March 31, 2001 was \$245,221, compared to \$2,247 during the same period in 2000. This represents an increase of \$242,974 and is primarily attributable the restructuring during the last calendar quarter of 2000 of accounts payable to interest-bearing installment obligations.

As a result of the above factors, and primarily due to the significant decrease in cost of sales between the two periods, our overall net loss decreased 36% to \$800,618 for the three-month period ended March 31, 2001, from \$1,243,446 during the same period in 2000.

Liquidity and Capital Resources

Our expenses are currently greater than our revenues. We have had a history of losses and our accumulated deficit was \$10,147,408 at December 31, 2000 and \$10,948,026 at March 31, 2001. Our current liabilities exceeded our current assets by \$5,664,395 as of December 31, 2000 and \$6,304,043 as of March 31, 2001..

Edgar Filing: CIRTRAN CORP - Form 10QSB/A

Cash

At December 31, 2000, we had \$11,068 cash on hand. By March 31, 2001, our cash on hand was \$200, a decrease of \$10,868. We also increased checks written in excess of cash in bank by \$72,739 from \$5,491 at December 31, 2000 to \$78,230 at March 31, 2001.

Net cash used in operating activities was \$54,334 for the quarter ended March 31, 2001, compared to \$43,654 provided by operations for the quarter ended March 31, 2000. During the three-month period ended March 31, 2001, net cash used in operations was primarily attributable to our net loss of \$800,618, partially offset by non-cash charges, increases in accrued liabilities of \$140,769 and in accounts payable of \$137,032, and a decrease in accounts receivable of 329,082. The non-cash charges include depreciation and amortization of \$175,243.

Net cash used in investing activities during the quarters ended March 31, 2001 and 2000, consisted of equipment purchases of \$1,844 and \$7,553, respectively.

Net cash provided by financing activities during the three-month period ended March 31, 2001 was \$45,310, representing \$72,739 provided by checks written in excess of cash in bank, less \$27,429 used for principal payments on long-term obligations.

Accounts Receivable

By March 31, 2001, accounts receivable had decreased from \$874,097 net of an allowance for doubtful accounts of \$82,500 at December 31, 2001 to \$545,015, net of an allowance for doubtful accounts of approximately \$66,000. This significant decrease in accounts receivable is reflective of both our decrease in sales during the first three months of 2001, as well as our efforts to improve the aging and quality of our current receivables.

Accounts Payable

Accounts payable were approximately \$1,699,000 at March 31, 2001 as compared to \$1,562,000 at December 31, 2000. This increase is primarily attributable to additional credit purchases of inventory and a lack of available cash to pay vendors as invoices become due.

Liquidity and Financing Arrangements

We sustained losses from operations of approximately \$801,000 and \$1,243,000 for the quarters ended March 31, 2001 and 2000, respectively. We had accumulated deficits of \$10,948,026 and \$10,147,408 at March 31, 2001 and December 31, 2000, respectively, and total stockholders' deficits of \$4,326,953 and \$5,127,571 as of such dates.

Since February 1999, we have operated without a line of credit. Abacus Ventures, Inc. purchased our line of credit of \$2,792,609, and this amount was converted into a note payable to Abacus bearing an interest rate of 10%. We have had, and are continuing to have, discussions with Abacus concerning their willingness to exchange the principal amount of the note and accrued interest for shares of our common stock, and while we believe that these negotiations may ultimately be successful, we can offer no assurance that they will agree to any such exchange of debt for equity or upon what terms such exchange would occur.

Despite our efforts to make our debt-load more serviceable, significant amounts of additional cash will be needed to reduce our debt and fund our losses until such time as we are able to become profitable. In conjunction with our efforts to improve our results of operations, as discussed above, we are also actively seeking infusions of capital from investors and are seeking to replace our line

Edgar Filing: CIRTRAN CORP - Form 10QSB/A

of credit. It is unlikely that we will be able, in our current financial condition, to obtain additional debt financing; and if we did acquire more debt, we would have to devote additional cash flow to debt service and secure the debt with assets. We will, therefore, have to rely on equity financing to meet our anticipated capital needs. There can be no assurances that we will be successful in obtaining any such capital. If we issue additional shares for debt and/or equity, this will serve to dilute the value of our common stock and existing shareholders' positions.

Subsequent to our acquisition of Circuit in July 2000, we took steps to increase the marketability of our shares of common stock and to make an investment in our company by potential investors more attractive. There can be no assurance, however, that we will ultimately be successful in obtaining more debt and/or equity financing or that our results of operations will materially improve in either the short- or the long-term. If we fail to obtain such financing and/or improve our results of operations, we will be unable to meet our obligations as they become due. That would raise substantial doubt about our ability to continue as a going concern.

Forward-looking statements

All statements made herein, other than statements of historical fact, which address activities, actions, goals, prospects, or new developments that we expect or anticipate will or may occur in the future, including such things as expansion and growth of operations and other such matters, are forward-looking statements. Any one or a combination of factors could materially affect our operations and financial condition. These factors include competitive pressures, success or failure of marketing programs, changes in pricing and availability of parts inventory, creditor actions, and conditions in the capital markets. Forward-looking statements made by us are based on knowledge of our business and the environment in which we currently operate. Because of the factors listed above, as well as other factors beyond our control, actual results may differ from those in the forward-looking statements.
