These statements and other statements made elsewhere by us or our representatives, which are identified or qualified by words such as "likely," "will," "suggests," "expects," "might," "believe," "could," "should," "may," "estimates," "potential," "predict," "continue," "would," "anticipates" or "plans," or similar expressions, are based on a number of assumptions that are subject to risks and uncertainties. Actual results could differ materially from those currently anticipated or suggested due to a number of factors, including those set forth herein, those set forth in our Annual Report on Form 10-K and in our other SEC filings, and including risks relating to uncertainties relating to clinical trials, the need for additional funds, the failure to satisfy the listing requirements of the Nasdaq Stock market, dependence on collaborative partners, the early stage of products under development and regulatory reviews and competition.
