QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the quarterly period ended July 31, 2009

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 1-12803

Urstadt Biddle Properties Inc.
(Exact Name of Registrant in its Charter)

Maryland (State or other jurisdiction of incorporation or organization)	04-2458042 (I.R.S. Employer Identification Number)
----------------------------------------------------------------------------------	----------------------------------------------------------

321 Railroad Avenue, Greenwich, CT (Address of principal executive offices)	06830 (Zip Code)
--------------------------------------------------------------------------------------	---------------------

Registrant's telephone number, including area code: (203) 863-8200

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of

this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act (Check one):

Large accelerated filer <input type="radio"/>	Accelerated filer <input checked="" type="checkbox"/>
Non-accelerated filer <input type="radio"/>	Smaller reporting company <input type="radio"/>

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of September 4, 2009, the number of shares of the Registrant's classes of Common Stock and Class A Common Stock was:

8,208,452 Common Shares, par value \$.01 per share, and 18,244,731 Class A Common Shares, par value \$.01 per share

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) ORGANIZATION, BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business

Urstadt Biddle Properties Inc. (“Company”), a real estate investment trust (REIT), is engaged in the acquisition, ownership and management of commercial real estate, primarily neighborhood and community shopping centers in the northeastern part of the United States. Non-core properties include two distribution service facilities. The Company's major tenants include supermarket chains and other retailers who sell basic necessities. At July 31, 2009, the Company owned or had interests in 43 properties containing a total of 3.9 million square feet of Gross Leasable Area (“GLA”).

Principles of Consolidation and Use of Estimates

The accompanying consolidated financial statements include the accounts of the Company, its wholly owned subsidiaries, and joint ventures in which the Company meets certain criteria of a sole general partner in accordance with Emerging Issues Task Force (“EITF”) Issue 04-5, “Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights.” The Company has determined that such joint ventures should be consolidated into the consolidated financial statements of the Company. All significant intercompany transactions and balances have been eliminated in consolidation.

The accompanying financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been omitted. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Results of operations for the nine month period ended July 31, 2009 are not necessarily indicative of the results that may be expected for the year ending October 31, 2009. It is suggested that these financial statements be read in conjunction with the financial statements and notes thereto included in the Company’s annual report on Form 10-K for the fiscal year ended October 31, 2008.

The preparation of financial statements requires management to make estimates and assumptions that affect the disclosure of contingent assets and liabilities, the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the periods covered by the financial statements. The most significant assumptions and estimates relate to the valuation of real estate, depreciable lives, revenue recognition, fair value estimates, and the collectibility of tenant and mortgage notes receivables. Actual results could differ from these estimates. The balance sheet at October 31, 2008 has been derived from audited financial statements at that date.

Federal Income Taxes

The Company has elected to be treated as a real estate investment trust under Sections 856-860 of the Internal Revenue Code (Code). Under those sections, a REIT that, among other things, distributes at least 90% of real estate trust taxable income and meets certain other qualifications prescribed by the Code will not be taxed on that portion of its taxable income that is distributed. The Company believes it qualifies as a REIT and intends to distribute all of its taxable income for fiscal 2009 in accordance with the provisions of the Code. Accordingly, no provision has been made for Federal income taxes in the accompanying consolidated financial statements.

The Company follows the provisions of FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes – an interpretation of SFAS No. 109" ("FIN No. 48"), that defines a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN No. 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. Based on its evaluation, the Company determined that it has no uncertain tax positions and no unrecognized tax benefits as of July 31, 2009. The Company records interest and penalties relating to unrecognized tax benefits, if any, as interest expense. As of July 31, 2009, the tax years 2006 through and including 2008 remain open to examination by the Internal Revenue Service. There are currently no federal tax examinations in progress.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents, marketable securities, mortgage notes receivable and tenant receivables. The Company places its cash and cash equivalents in excess of insured amounts with high quality financial institutions. The Company performs ongoing credit evaluations of its tenants and may require certain tenants to provide security deposits or letters of credit. Though these security deposits and letters of credit are insufficient to meet the terminal value of a tenant's lease obligation, they are a measure of good faith and a source of funds to offset the economic costs associated with lost rent and the costs associated with retenanting the space. The Company has no dependency upon any single tenant.

Marketable Securities

Marketable securities consist of short-term investments and marketable equity securities. Short-term investments (consisting of investments with original maturities of greater than three months when purchased) and marketable equity securities are carried at fair value. The Company has classified marketable securities as available for sale. Unrealized gains and losses on available for sale securities are recorded as other comprehensive income (loss) in Stockholders' Equity. During the nine month period ended July 31, 2009 the Company sold 400,000 shares of REIT common stocks for an aggregate sales price, net of commissions, of approximately \$3.6 million. The securities had a purchase cost of approximately \$3.2 million. The Company realized a gain on the transaction using the specific identification method of \$381,000. The gain is included in the consolidated statement of income for the nine month period ended July 31, 2009. There were no sales of marketable securities during the nine month period ended July 31, 2008.

As of July 31, 2009, all of the Company's marketable securities consisted of REIT Common and Preferred Stocks. At July 31, 2009, the Company has recorded a net unrealized loss on available for sale securities in the amount of \$314,000. For each of the securities in the Company's portfolio with unrealized losses, the Company reviews the underlying cause of the decline in value and the estimated recovery period, as well as the severity and duration of the decline and management's estimate of fair value of the security. In the Company's evaluation, the Company considers its ability and intent to hold these investments until the Company can recover its cost basis. The Company deems these unrealized losses to be temporary. If and when the Company deems the unrealized losses to be other than temporary, unrealized losses will be realized and reclassified into earnings. The net unrealized loss at July 31, 2009 is detailed below (In thousands):

Description:	Fair Market Value	Cost Basis	Net Unrealized Gain/(Loss)	Gross Unrealized Gains	Gross Unrealized (Loss)
REIT Common and Preferred Stocks	\$ 835	\$ 1,149	\$ (314)	\$ 48	\$ (362)

Comprehensive Income

Comprehensive income is comprised of net income applicable to common and class A common stockholders and other comprehensive income (loss). Other comprehensive income (loss) includes items that are otherwise recorded directly in stockholders' equity, such as unrealized gains or losses on marketable securities. At July 31, 2009, other comprehensive income (loss) consisted of net unrealized gain (losses) on marketable securities of approximately (\$314,000). Unrealized gains and losses included in other comprehensive income (loss) will be reclassified into earnings as gains and losses are realized. During the nine month period ended July 31, 2009, approximately \$40,000 of unrealized gains on marketable securities that were previously recorded in other comprehensive income (loss) were realized upon the sale of the securities and re-classified into earnings.

Asset Impairment

On a periodic basis, management assesses whether there are any indicators that the value of its real estate investments may be impaired. A property value is considered impaired when management's estimate of current and projected operating cash flows (undiscounted and without interest) of the property over its remaining useful life is less than the net carrying value of the property. Such cash flow projections consider factors such as expected future operating income, trends and prospects, as well as the effects of demand, competition and other factors. To the extent impairment has occurred, the loss is measured as the excess of the net carrying amount of the property over the fair value of the asset. Changes in estimated future cash flows due to changes in the Company's plans or market and

economic conditions could result in recognition of impairment losses which could be substantial. Management does not believe that the value of any of its real estate investments is impaired at July 31, 2009.

Earnings Per Share

The Company calculates basic and diluted earnings per share in accordance with SFAS No. 128, "Earnings Per Share." Basic earnings per share ("EPS") excludes the impact of dilutive shares and is computed by dividing net income applicable to Common and Class A Common stockholders by the weighted number of Common shares and Class A Common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue Common shares or Class A Common shares were exercised or converted into Common shares or Class A Common shares and then shared in the earnings of the Company. Since the cash dividends declared on the Company's Class A Common stock are higher than the dividends declared on the Common Stock, basic and diluted EPS have been calculated using the "two-class" method. The two-class method is an earnings allocation formula that determines earnings per share for each class of common stock according to the weighted average of the dividends declared, outstanding shares per class and participation rights in undistributed earnings.

The following table sets forth the reconciliation between basic and diluted EPS (in thousands):

	Nine Months Ended July 31,		Three Months Ended July 31,	
	2009	2008	2009	2008
Numerator				
Net income applicable to common stockholders – basic	\$3,026	\$3,319	\$997	\$1,117
Effect of dilutive securities:				
Stock awards	74	99	30	41
Net income applicable to common stockholders – diluted	\$3,100	\$3,418	\$1,027	\$1,158
Denominator				
Denominator for basic EPS – weighted average common shares	7,062	6,986	7,078	6,996
Effect of dilutive securities:				
Restricted stock and other awards	277	352	350	424
Denominator for diluted EPS – weighted average common equivalent shares	7,339	7,338	7,428	7,420
Numerator				
Net income applicable to Class A common stockholders-basic	\$8,466	\$9,606	\$2,782	\$3,201
Effect of dilutive securities:				
Stock awards	(74)	(99)	(30)	(41)
Net income applicable to Class A common stockholders – diluted	\$8,392	\$9,507	\$2,752	\$3,160
Denominator				
Denominator for basic EPS – weighted average Class A common shares	17,906	18,296	17,902	18,143
Effect of dilutive securities:				
Restricted stock and other awards	101	179	129	188
Denominator for diluted EPS – weighted average Class A common equivalent shares	18,007	18,475	18,031	18,331

Segment Reporting

The Company operates in one industry segment, ownership of commercial real estate properties which are located principally in the northeastern United States. The Company does not distinguish its property operations for purposes of measuring performance. Accordingly, the Company believes it has a single reportable segment for disclosure purposes.

Stock-Based Compensation

The Company accounts for its stock-based compensation plans under FASB Statement No. 123R, "Share-Based Payment" ("SFAS No. 123R"), which requires that compensation expense be recognized based on the fair value of the stock awards less estimated forfeitures. The fair value of stock awards is equal to the fair value of the Company's stock on the grant date.

Recently Issued Accounting Pronouncements

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS No. 159"), which provides companies with an option to report selected financial assets and liabilities at fair value. SFAS No. 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 does not affect any existing accounting literature that requires certain assets and liabilities to be carried at fair value nor does it eliminate disclosure requirements included in other accounting standards. The Company adopted SFAS No. 159 effective November 1, 2008, and did not elect the fair value option for any existing eligible items.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" ("SFAS No. 157"). SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 does not impose fair value measurements on items not already accounted for at fair value; rather it applies, with certain exceptions, to other accounting pronouncements that either require or permit fair value measurements. Under SFAS No. 157, fair value refers to the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market. The standard clarifies that fair value should be based on the assumptions market participants would use when pricing the asset or liability. In February 2008, the FASB issued Staff Position No. 157-2, "Effective Date of FASB Statement No. 157" ("FSP FAS 157-2"), which delays the effective date of SFAS No. 157 for all non-financial assets and liabilities, except those that are recognized or disclosed at fair value in the Financial Statements on a recurring basis until fiscal years beginning after November 15, 2008. The Company adopted the provisions of SFAS No. 157 for assets and liabilities recognized at fair value on a recurring basis effective November 1, 2008. The partial adoption of SFAS No. 157 did not have a material impact on the Company's Financial Statements. See Note 6 for additional discussion of fair value measurements.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements," which, among other things, provides guidance and establishes amended accounting and reporting standards for a parent company's noncontrolling interest in a subsidiary. The Company is currently evaluating the impact of adopting the statement, which is effective for fiscal years beginning on or after December 15, 2008.

In December 2007, the FASB issued SFAS No. 141R, "Business Combinations" ("SFAS No. 141R"), which replaces SFAS No. 141 "Business Combinations." SFAS No. 141R, among other things, establishes principles and requirements for how an acquirer entity recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed (including intangibles) and any noncontrolling interests in the acquired entity. The Company is currently evaluating the impact of adopting the statement, which is effective for fiscal years beginning on or after December 15, 2008.

In April 2009, the FASB issued FSP FAS 107-1 and APB 28-1, "Interim Disclosures about Fair Value of Financial Instruments" ("FSP 107-1"), which requires fair value disclosures for financial instruments that are not reflected in the consolidated balance sheets at fair value. Prior to the issuance of FSP 107-1, the fair values of those assets and liabilities were only disclosed annually. With the issuance of FSP107-1, the Company is now required to disclose this information on a quarterly basis, providing quantitative and qualitative information about fair value estimates for all financial instruments not measured in the consolidated balance sheets at fair value. FSP 107-1 was adopted by the Company beginning with its fiscal 2009 third quarter ended July 31, 2009. See footnote 6, "Fair Value Measurements" for related disclosures.

In May 2009, the FASB issued SFAS No. 165, "Subsequent Events" ("SFAS 165"), which establishes the accounting for and disclosures of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. It requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date, that is, whether that date represents the date the financial statements were issued or were available to be issued. SFAS 165 was adopted by the Company in its fiscal third quarter ended July 31, 2009 and the adoption of which did not have a material impact on our financial statements. See Footnote 8, "Subsequent Events" for the related disclosures.

In June 2009, the FASB issued SFAS No. 168, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles ("GAAP")", ("SFAS 168"). SFAS 168 establishes an Accounting Codification ("Codification") as the source of all authoritative GAAP recognized by FASB to be applied by non-governmental

entities, including public companies, in the preparation of their financial statements in accordance with GAAP. Prior to the issuance of the Codification all GAAP pronouncements were issued in separate topical pronouncements and referred to as such. As a public company, the Company will still follow rules and interpretive releases of the Securities and Exchange Commission ("SEC") under federal securities laws. The SEC rules and regulations generally rank one level higher than GAAP for public companies in the preparation of their financial statements. SFAS 168 will be effective for the Company beginning with its year ended October 31, 2009. Once effective the Company will conform to SFAS 168 and make all references to GAAP using the Codification reference numbers. Prior to the effective date, the Company will continue to refer to original GAAP individual pronouncements when referencing GAAP. The Company does not believe the adoption of this pronouncement will have a material impact on the Company's financial statements.

(2) CORE PROPERTIES

In January 2009, the Company sold a 3,400 square foot vacant retail property located in Eastchester, New York for a sales price of approximately \$925,000. This property was acquired by the Company in fiscal 2008 and there was no significant gain or loss recorded on the sale. The property had no operating activity and the Company will not report any discontinued operations as required by SFAS No. 144, "Accounting for the Impairment or Disposal of Long Lived Assets".

On July 24, 2009 the state of Connecticut acquired certain areas of a property owned by two of the Company's wholly owned subsidiaries through a combination of condemnation and easement due to the construction of a bridge that runs over the property and awarded the Company's subsidiaries a total of approximately \$2.0 million which amount is recorded in other assets on the consolidated balance sheet at July 31, 2009. Approximately \$1.8 million of the total award represents amounts to be paid to the Company for easements provided to the state of Connecticut for certain areas of the property for the next 10 years, loss of rental income and property restoration costs. The Company will amortize the easement and loss of rental income proceeds as an addition to income on a straight line basis evenly over the 10 year life of the easement and lost rent period.

The Company has accounted for the condemnation portion of the aforementioned award in accordance with FASB Interpretation No. 30: Accounting for Involuntary Conversions of Non-monetary Assets to Monetary Assets (“FIN 30”) which requires the Company to record a gain or loss on the excess or deficit of the proceeds received over the estimated net book value of the condemned non-monetary asset. As a result of the transaction the company has recorded a gain on condemnation of approximately \$70,000 which is recorded in other income on the consolidated statement of income for the three and nine months ended July 31, 2009.

Upon the acquisition of real estate properties, the fair value of the real estate purchased is allocated to the acquired tangible assets (consisting of land, buildings and building improvements), and identified intangible assets and liabilities (consisting of above-market and below-market leases and in-place leases), in accordance with SFAS No. 141, “Business Combinations”. The Company utilizes methods similar to those used by independent appraisers in estimating the fair value of acquired assets and liabilities. The fair value of the tangible assets of an acquired property considers the value of the property “as-if-vacant”. The fair value reflects the depreciated replacement cost of the asset. In allocating purchase price to identified intangible assets and liabilities of an acquired property, the value of above-market and below-market leases are estimated based on the differences between (i) contractual rentals and the estimated market rents over the applicable lease term discounted back to the date of acquisition utilizing a discount rate adjusted for the credit risk associated with the respective tenants and (ii) the estimated cost of acquiring such leases giving effect to the Company’s history of providing tenant improvements and paying leasing commissions, offset by a vacancy period during which such space would be leased. The aggregate value of in-place leases is measured by the excess of (i) the purchase price paid for a property after adjusting existing in-place leases to market rental rates over (ii) the estimated fair value of the property “as-if-vacant,” determined as set forth above.

In April 2009, the Company completed its evaluation of the acquired leases at its Veteran’s Plaza property which was acquired in August 2008. As a result of its evaluation, the Company has allocated \$355,000 to a liability associated with the net fair value assigned to the acquired leases at the property, which amount represents a non-cash investing activity and is therefore not included in the accompanying consolidated statement of cash flows for the nine month period ended July 31, 2009.

For the nine months ended July 31, 2009 and 2008 the net amortization of above-market and below-market leases was approximately \$100,000 and \$52,000, respectively, which amounts are included in base rents in the accompanying consolidated statements of income.

The Company is the general partner in two consolidated limited partnerships which own shopping centers. The limited partnerships have defined termination dates of December 31, 2097 and December 31, 2099, respectively. The partners are entitled to receive an annual cash preference payable from available cash of the partnerships. Any unpaid preferences accumulate and are paid from future cash, if any. The balance of available cash, if any, is distributed in accordance with the respective partner’s interests. The limited partners in both consolidated limited partnerships have the right to require the Company to repurchase all or a portion of their limited partner interests at prices as defined in the two limited partner agreements at various times over the life of the agreements. Upon liquidation of the partnership, proceeds from the sale of partnership assets are to be distributed in accordance with the respective partnership interests. The partners are not obligated to make any additional capital contributions to the partnership. The Company retains an affiliate of one of the limited partners in one of the partnerships to provide management and leasing services to the property at an annual fee equal to two percent of rental income collected, as defined. The limited partner interests in both partnerships are reflected in the accompanying consolidated financial statements as Minority Interests.

In July 2009, the Company borrowed \$2.1 million on its Unsecured Revolving Credit Facility (defined below) and used the proceeds to purchase an additional 14.6% of the limited partner interests in a consolidated partnership which owns the Ferry Plaza shopping center in Newark, New Jersey for approximately \$2.1 million. The Company

continues to be the sole general partner of the partnership. As a result of the purchase, the Company increased its economic ownership percentage in the limited partnership from 60% to approximately 75%.

(3) MORTGAGE NOTES PAYABLE AND BANK LINES OF CREDIT

The Company has a \$50 million Unsecured Revolving Credit Agreement (the "Facility") with The Bank of New York Mellon and Wells Fargo Bank N.A. The Facility gives the Company the option, under certain conditions, to increase the Facility's borrowing capacity up to \$100 million. The maturity date of the Facility is February 11, 2011 with two one year extensions at the Company's option. Borrowings under the Facility can be used for, among other things, acquisitions, working capital, capital expenditures, repayment of other indebtedness and the issuance of letters of credit (up to \$10 million). Borrowings will bear interest at the Company's option of Eurodollar rate plus 0.85% to 1.15% or The Bank of New York Mellon's prime lending rate plus 0.50%. The Company will pay an annual fee on the unused commitment amount of up to 0.175% based on outstanding borrowings during the year. The Facility contains certain representations, financial and other covenants typical for this type of facility. The Company's ability to borrow under the Facility is subject to its compliance with the covenants and other restrictions on an ongoing basis. The principal financial covenants limit the Company's level of secured and unsecured indebtedness and additionally require the Company to maintain certain debt coverage ratios. The Company was in compliance with such covenants at July 31, 2009.

In April 2008, borrowings under the Facility were used to refinance an existing mortgage note payable, which was secured by the Company's Staples property in the amount of \$7.9 million. In conjunction with that transaction, the mortgage was assigned to the lender of the Facility and as a result \$7.9 million of the outstanding balance on the Facility is shown as a mortgage note payable on the accompanying July 31, 2009 and October 31, 2008 consolidated balance sheets.

The Company also has a Secured Revolving Credit Facility with the Bank of New York Mellon (the “Secured Credit Facility”). The Secured Credit Facility provides for borrowings of up to \$30 million. The maturity date of the Secured Credit Facility is April 15, 2011 and is collateralized by first mortgage liens on two of the Company’s properties. Interest on outstanding borrowings is at prime plus 0.50% or the Eurodollar rate plus 1.75%. The Secured Credit Facility requires the Company to maintain certain debt service coverage ratios during its term. The Company was in compliance with such covenants at July 31, 2009. The Company pays an annual fee of 0.25% on the unused portion of the Secured Credit Facility. The Secured Credit Facility is available to fund acquisitions, capital expenditures, mortgage repayments, working capital and other general corporate purposes.

In March 2009, the Company borrowed \$12 million on the Facility to repay the maturing mortgage on one of its properties in the amount of \$12.1 million. On May 15, 2009, the Company, through a wholly-owned subsidiary, completed a new first mortgage financing on the aforementioned property in the amount of \$18.9 million. The new mortgage has a fixed rate of interest of 6.55% per annum with required monthly payments of principal and interest based on a 25 year amortization schedule. The mortgage has a term of ten years and is due in May of 2019. A portion of the proceeds from the mortgage financing in the amount of \$17.1 million were used to repay outstanding borrowings on the Facility.

On July 31, 2009, the Company completed a new first mortgage financing on another of its properties in the amount of \$17.8 million. The new mortgage has a fixed rate of interest of 6.66% per annum with required monthly payments of principal and interest based on a 25 year amortization schedule. The mortgage has a term of ten years and is due in August of 2019. The Company expects to use the proceeds for the acquisition of shopping centers in accordance with its business strategy or general corporate purposes.

(4) REDEEMABLE PREFERRED STOCK

The Company is authorized to issue up to 20,000,000 shares of Preferred Stock. At July 31, 2009, the Company had issued and outstanding 400,000 shares of Series C Senior Cumulative Preferred Stock (Series C Preferred Stock), 2,450,000 shares of Series D Senior Cumulative Preferred Stock (Series D Preferred Stock) (see Note 5) and 2,400,000 shares of Series E Senior Cumulative Preferred Stock (Series E Preferred Stock).

The following table sets forth the details of the Company’s redeemable preferred stock as of July 31, 2009 and October 31, 2008 (amounts in thousands, except share data):

	July 31, 2009	October 31, 2008
8.50% Series C Senior Cumulative Preferred Stock; liquidation preference of \$100 per share; issued and outstanding 400,000 shares	\$38,406	\$38,406
8.50% Series E Senior Cumulative Preferred Stock; liquidation preference of \$25 per share; issued and outstanding 2,400,000 shares	57,797	57,797
Total Redeemable Preferred Stock	\$96,203	\$96,203

The Series E Preferred Stock and Series C Preferred Stock have no stated maturity, are not subject to any sinking fund or mandatory redemption and are not convertible into other securities or property of the Company. Commencing May 2013 (Series C Preferred Stock) and March 2013 (Series E Preferred Stock), the Company, at its option, may redeem the preferred stock issues, in whole or in part, at a redemption price equal to the liquidation preference per share, plus all accrued and unpaid dividends.

Upon a change in control of the Company (as defined), each holder of Series C Preferred Stock and Series E Preferred Stock has the right, at such holder's option, to require the Company to repurchase all or any part of such holder's stock for cash at a repurchase price equal to the liquidation preference per share plus all accrued and unpaid dividends.

The Series C Preferred Stock and Series E Preferred Stock contain covenants that require the Company to maintain certain financial coverages relating to fixed charge and capitalization ratios. Shares of both Preferred Stock series are non-voting; however, under certain circumstances (relating to non-payment of dividends or failure to comply with the financial covenants) the preferred stockholders will be entitled to elect two directors. The Company was in compliance with such covenants at July 31, 2009.

As the holders of the Series C Preferred Stock and Series E Preferred Stock only have a contingent right to require the Company to repurchase all or part of such holders shares upon a change of control of the Company (as defined), the Series C Preferred Stock and Series E Preferred Stock are classified as redeemable equity instruments as a change in control is not certain to occur.

(5) STOCKHOLDERS' EQUITY

Restricted Stock Plan

The Company has a restricted stock plan for key employees and directors of the Company. The restricted stock plan ("Plan") provides for the grant of up to 2,350,000 shares of the Company's common equity consisting of 350,000 Common shares, 350,000 Class A Common shares and 1,650,000 shares which, at the discretion of the Company's compensation committee, may be awarded in any combination of Class A Common shares or Common shares.

Prior to November 1, 2005, the grant date fair value of nonvested restricted stock awards was expensed over the explicit stock award vesting periods. Such awards provided for continued vesting after retirement. Upon adoption of SFAS No. 123R, the Company changed its policy for recognizing compensation expense for restricted stock awards to the earlier of the explicit vesting period or the date a participant first becomes eligible for retirement. For nonvested restricted stock awards granted prior to the adoption of SFAS No. 123R, the Company continues to recognize compensation expense over the explicit vesting periods and accelerates any remaining unrecognized compensation cost when a participant actually retires.

Had compensation expense for nonvested restricted stock awards issued prior to the adoption of SFAS 123R been determined based on the date a participant first becomes eligible for retirement, restricted stock compensation would have decreased in the nine months months ended July 31, 2009 and 2008 by approximately \$188,000 and \$231,000, respectively.

In January 2009, the Company awarded 170,900 shares of Common Stock and 63,200 shares of Class A Common Stock to participants in the Plan. In March of 2009, the Company awarded an additional 1,000 shares of Class A Common stock to a participant under the plan. The grant date fair value of restricted stock grants awarded to participants in 2009 was approximately \$3.4 million.

A summary of the status of the Company's non-vested Common and Class A Common shares as of July 31, 2009, and changes during the nine months ended July 31, 2009 are presented below:

Non-vested Shares	Common Shares		Class A Common Shares	
	Shares	Weighted-Average Grant-Date Fair Value	Shares	Weighted-Average Grant-Date Fair Value
Non-vested at November 1, 2008	961,750	\$ 14.54	321,200	\$ 14.21
Granted	170,900	\$ 14.23	64,200	\$ 15.42
Vested	(37,200)	\$ 7.91	(44,700)	\$ 9.11
Forfeited	-	-	-	-
Non-vested at July 31, 2009	1,095,450	\$ 14.72	340,700	\$ 15.11

As of July 31, 2009, there was \$12.5 million of unamortized restricted stock compensation related to non-vested restricted stock grants awarded under the Plan. The remaining unamortized expense is expected to be recognized over a weighted average period of 5.55 years. For the nine months ended July 31, 2009 and 2008 amounts charged to compensation expense totaled \$1,939,000 and \$1,295,000, respectively.

Share Repurchase Program

In a prior year, the Board of Directors of the Company approved a share repurchase program ("Program") for the repurchase of up to 500,000 shares of Common Stock and Class A Common Stock in the aggregate. On March 6, 2008, the Board of Directors amended the Program to allow the Company to repurchase up to 1,000,000 shares of Common and Class A Common stock in the aggregate. In December 2008, the Board of Directors further amended the Program to allow the Company to repurchase up to 1,500,000 shares of Common and Class A Common stock in the aggregate and to allow the Company to repurchase shares of the Company's Series C and Series D Senior Cumulative Preferred Stock (Preferred Stock) in open-market transactions. As of July 31, 2009, the Company had repurchased 3,600 shares of Common Stock and 724,578 shares of Class A Common Stock under the Program, (including 38,700 shares of Class A Common Stock that were repurchased at an average price of \$13.01 during the nine month period ended July 31, 2009).

Preferred Stock

The Series D Preferred Stock has no maturity and is not convertible into any other security of the Company and is redeemable at the Company's option on or after April 2010 at a price of \$25.00 per share plus accrued and unpaid dividends.

(6) FAIR VALUE MEASUREMENTS

On November 1, 2008, the Company adopted SFAS No. 157, "Fair Value Measurements". The Company measures marketable equity and debt securities classified as available for sale securities at fair value on a recurring basis. The fair value of these financial assets was determined using the following inputs at July 31, 2009:

	Total	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Available for Sale Securities	\$835,000	\$835,000	\$ -	\$ -

Fair Value of Financial Instruments

During the fiscal third quarter ended July 31, 2009, the Company adopted FSP SFAS No. 107-1 and APB 28-1, "Interim Disclosures About Fair Value of Financial Instruments" which requires disclosures about fair value of financial instruments in both interim and annual financial statements (Note 1).

The carrying values of cash and cash equivalents, restricted cash, tenant receivables, prepaid expenses and other assets, accounts payable, accrued expenses, revolving lines of credit and other liabilities are reasonable estimates of their fair values because of the short-term nature of these instruments.

The estimated fair value of mortgage notes receivable collateralized by real property is based on discounting the future cash flows at a year-end risk adjusted lending rate that the Company would utilize for loans of similar risk and duration. At July 31, 2009 and October 31, 2008, the estimated aggregate fair value of the mortgage notes receivable was \$698,000 and \$814,000, respectively.

The estimated fair value of mortgage notes payable was \$116,862,000 and \$102,440,000 at July 31, 2009 and October 31, 2008, respectively. The estimated fair value of mortgage notes payable is based on discounting the future cash flows at a year-end risk adjusted borrowing rate currently available to the Company for issuance of debt with similar terms and remaining maturities.

Although management is not aware of any factors that would significantly affect the estimated fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since that date and current estimates of fair value may differ significantly from the amounts presented herein.

(7) COMMITMENTS AND CONTINGENCIES

In the normal course of business, from time to time, the Company is involved in legal actions relating to the ownership and operations of its properties. In management's opinion, the liabilities if any that may ultimately result from such legal actions are not expected to have a material adverse effect on the consolidated financial position, results of operations or liquidity of the Company.

At July 31, 2009, the Company had commitments of approximately \$794,000 for tenant related obligations.

(8) SUBSEQUENT EVENTS

The Company has reviewed activities for the period July 31, 2009 to September 9, 2009 (the date the financial statements are issued or are available to be issued) and discloses the following items:

In August 2009, the Company repaid \$2.1 million in outstanding borrowings on its Facility from available cash.

In August 2009, the Company acquired three retail properties in Westchester County, New York, for a cash purchase price of approximately \$596,000 including closing costs.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the consolidated financial statements of the Company and the notes thereto included elsewhere in this report.

Forward Looking Statements

This Item 2 includes certain statements that may be deemed to be “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical facts, included in this Item 2 that address activities, events or developments that the Company expects, believes or anticipates will or may occur in the future, including such matters as future capital expenditures, dividends and acquisitions (including the amount and nature thereof), business strategies, expansion and growth of the Company’s operations and other such matters, are forward-looking statements. These statements are based on certain assumptions and analyses made by the Company in light of its experience and its perception of historical trends, current conditions, expected future developments and other factors it believes are appropriate. Such statements are subject to a number of assumptions, risks and uncertainties including, among other things, general economic and business conditions, the business opportunities that may be presented to and pursued by the Company, changes in laws or regulations and other factors, many of which are beyond the control of the Company. For a more detailed discussion of some of these factors, see the risk factors set forth in “Item 1A Risk Factors” of the Company’s Annual Report on Form 10-K for the fiscal year ended October 31, 2008. Any forward-looking statements are not guarantees of future performance and actual results or developments may differ materially from those anticipated in the forward-looking statements.

Executive Summary

The Company, a REIT, is a fully integrated, self-administered real estate company, engaged in the acquisition, ownership and management of commercial real estate, primarily neighborhood and community shopping centers in the northeastern part of the United States. Other real estate assets include office and industrial properties. The Company’s major tenants include supermarket chains and other retailers who sell basic necessities. At July 31, 2009, the Company owned or had interests in 43 properties containing a total of 3.9 million square feet of GLA of which approximately 91% was leased.

The Company derives substantially all of its revenues from rents and operating expense reimbursements received pursuant to long-term leases and focuses its investment activities on community and neighborhood shopping centers, anchored principally by regional supermarket chains. The Company believes, because of the need of consumers to purchase food and other staple goods and services generally available at supermarket-anchored shopping centers, that the nature of its investments provide for relatively stable revenue flows even during difficult economic times. The Company is experiencing and, in the remainder of fiscal 2009 and fiscal 2010, expects that it will continue to experience increased vacancy rates at some of its shopping centers and a lengthening in the time required for releasing of vacant space, as the current economic downturn continues to negatively affect retail companies. However, the Company believes it is well positioned to weather these difficulties. Notwithstanding the increase in vacancy rates at various properties, approximately 91% of the Company’s portfolio remains leased. The Company has a strong capital structure with a small amount of debt maturing in the next 12 months that the Company believes it can refinance or repay with available cash or borrowings under its credit facilities. The Company expects to continue to explore acquisition opportunities that might present themselves during this economic downturn consistent with its business strategy.

Primarily as a result of recent property acquisitions, the Company’s financial data shows increases in total revenues and expenses from period to period.

The Company focuses on increasing cash flow, and consequently the value of its properties, and seeks continued growth through strategic re-leasing, renovations and expansion of its existing properties and selective acquisition of income producing properties, primarily neighborhood and community shopping centers in the northeastern part of the United States.

Key elements of the Company's growth strategies and operating policies are to:

- § Acquire neighborhood and community shopping centers in the northeastern part of the United States with a concentration in Fairfield County, Connecticut; Westchester and Putnam Counties, New York; and Bergen County, New Jersey
- § Hold core properties for long-term investment and enhance their value through regular maintenance, periodic renovation and capital improvement
- § Selectively dispose of non-core and underperforming properties and re-deploy the proceeds into properties located in the northeast region
 - § Increase property values by aggressively marketing available GLA and renewing existing leases
 - § Renovate, reconfigure or expand existing properties to meet the needs of existing or new tenants
 - § Negotiate and sign leases which provide for regular or fixed contractual increases to minimum rents
 - § Control property operating and administrative costs

Critical Accounting Policies

Critical accounting policies are those that are both important to the presentation of the Company's financial condition and results of operations and require management's most difficult, complex or subjective judgments. Set forth below is a summary of the accounting policies that management believes are critical to the preparation of the consolidated financial statements. This summary should be read in conjunction with the more complete discussion of the Company's accounting policies included in Note 1 to the consolidated financial statements of the Company for the year ended October 31, 2008 included in the Company's Annual Report on Form 10-K for the year ended October 31, 2008.

Revenue Recognition

Revenues from operating leases include revenues from core properties and non-core properties. Rental income is generally recognized based on the terms of leases entered into with tenants. In those instances in which the Company funds tenant improvements and the improvements are deemed to be owned by the Company, revenue recognition will commence when the improvements are substantially completed and possession or control of the space is turned over to the tenant. When the Company determines that the tenant allowances are lease incentives, the Company commences revenue recognition when possession or control of the space is turned over to the tenant for tenant work to begin.

The Company records base rents on a straight-line basis over the term of each lease. The excess of rents recognized over amounts contractually due pursuant to the underlying leases is included in tenant receivables on the accompanying balance sheets. Most leases contain provisions that require tenants to reimburse a pro-rata share of real estate taxes and certain common area expenses. Adjustments are also made throughout the year to tenant receivables and the related cost recovery income based upon the Company's best estimate of the final amounts to be billed and collected.

Allowance for Doubtful Accounts

The allowance for doubtful accounts is established based on a quarterly analysis of the risk of loss on specific accounts. The analysis places particular emphasis on past-due accounts and considers information such as the nature and age of the receivables, the payment history of the tenants or other debtors, the financial condition of the tenants and any guarantors and management's assessment of their ability to meet their lease obligations, the basis for any disputes and the status of related negotiations, among other things. Management's estimates of the required allowance is subject to revision as these factors change and is sensitive to the effects of economic and market conditions on tenants, particularly those at retail properties. Estimates are used to establish reimbursements from tenants for common area maintenance, real estate tax and insurance costs. The Company analyzes the balance of its estimated accounts receivable for real estate taxes, common area maintenance and insurance for each of its properties by comparing actual recoveries versus actual expenses and any actual write-offs. Based on its analysis, the Company may record an additional amount in its allowance for doubtful accounts related to these items. For the nine month periods ended July 31, 2009 and 2008 the Company increased its allowance for doubtful accounts by \$341,000 and \$329,000, respectively. It is also the Company's policy to maintain an allowance of approximately 10% of the deferred straight-line rents receivable balance for future tenant credit losses.

Real Estate

Land, buildings, property improvements, furniture/fixtures and tenant improvements are recorded at cost. Expenditures for maintenance and repairs are charged to operations as incurred. Renovations and/or replacements, which improve or extend the life of the asset, are capitalized and depreciated over their estimated useful

lives.

The amounts to be capitalized as a result of an acquisition and the periods over which the assets are depreciated or amortized are determined based on estimates as to fair value and the allocation of various costs to the individual assets. The Company allocates the cost of an acquisition based upon the estimated fair value of the net assets acquired. The Company also estimates the fair value of intangibles related to its acquisitions. The valuation of the fair value of intangibles involves estimates related to market conditions, probability of lease renewals and the current market value of in-place leases. This market value is determined by considering factors such as the tenant's industry, location within the property and competition in the specific region in which the property operates. Differences in the amount attributed to the intangible assets can be significant based upon the assumptions made in calculating these estimates.

The Company is required to make subjective assessments as to the useful life of its properties for purposes of determining the amount of depreciation. These assessments have a direct impact on the Company's net income.

Properties are depreciated using the straight-line method over the estimated useful lives of the assets. The estimated useful lives are as follows:

Buildings	30-40 years
Property Improvements	10-20 years
Furniture/Fixtures	3-10 years
Tenant Improvements	Shorter of lease term or their useful life

Asset Impairment

On a periodic basis, management assesses whether there are any indicators that the value of its real estate investments may be impaired. A property value is considered impaired when management's estimate of current and projected operating cash flows (undiscounted and without interest) of the property over its remaining useful life is less than the net carrying value of the property. Such cash flow projections consider factors such as expected future operating income, trends and prospects, as well as the effects of demand, competition and other factors. To the extent impairment has occurred, the loss is measured as the excess of the net carrying amount of the property over the fair value of the asset. Changes in estimated future cash flows due to changes in the Company's plans or market and economic conditions could result in recognition of impairment losses which could be substantial. Management does not believe that the value of any of its real estate investments is impaired at July 31, 2009.

Liquidity and Capital Resources

At July 31, 2009, the Company had unrestricted cash and cash equivalents of \$22.2 million compared to \$1.7 million at October 31, 2008. The Company's sources of liquidity and capital resources include its cash and cash equivalents, proceeds from bank borrowings and long-term mortgage debt, capital financings and sales of real estate investments. Payments of expenses related to real estate operations, debt service, management and professional fees, and dividend requirements place demands on the Company's short-term liquidity.

Cash Flows

The Company expects to meet its short-term liquidity requirements primarily by generating net cash from the operations of its properties. The Company believes that its net cash provided by operations will be sufficient to fund its short-term liquidity requirements for the balance of fiscal 2009 and to meet its dividend requirements necessary to maintain its REIT status.

The Company expects to continue paying regular dividends to its stockholders. These dividends will be paid from operating cash flows which are expected to increase due to property acquisitions and growth in operating income in the existing portfolio and from other sources. The Company derives substantially all of its revenues from rents under existing leases at its properties. The Company's operating cash flow therefore depends on the rents that it is able to charge to its tenants, and the ability of its tenants to make rental payments. The Company believes that the nature of the properties in which it typically invests primarily grocery-anchored neighborhood and community shopping centers provides a more stable revenue flow in uncertain economic times, in that consumers still need to purchase basic staples and convenience items. However, even in the geographic areas in which the Company owns properties, general economic downturns may adversely impact the ability of the Company's tenants to make lease payments and the Company's ability to re-lease space as leases expire. In either of these cases, the Company's cash flow could be adversely affected.

Net Cash Flows from:

Operating Activities

Net cash flows provided by operating activities amounted to \$30.3 million in the nine months ended July 31, 2009, compared to \$33.9 million in the comparable period of fiscal 2008. The net decrease in operating cash flows in fiscal 2009 when compared with the corresponding prior period was as follows: a) an increase in tenant receivables relating to common area maintenance and real estate tax billings for increased expenses in those two categories at some of the Company's properties; b) an increase in other assets as a result of payments made in advance for real estate taxes on

properties with increased real estate tax assessments when compared with similar payments made in the prior period for those same properties; c) a decrease in net operating results at some of the Company's properties owned during both periods offset by: d) the addition of the net operating results of the Company's acquired properties in the latter part of fiscal 2008.

Investing Activities

Net cash flows used by investing activities amounted to \$2.0 million in the first nine months of fiscal 2009 compared to \$26.6 million in the comparable period of fiscal 2008. The reduction in cash flows used by investing activities was primarily the result of a) the Company acquiring \$17 million in properties consistent with its strategic plan in fiscal 2008 when compared with \$2.1 million in fiscal 2009 and b) the Company incurring \$8.4 million for improvements and deferred charges for the first nine months of fiscal 2008 (a majority of which was specifically related to an expansion project at one of the Company's properties) when compared with only \$1.7 million in the comparable period of fiscal 2009.

The Company invests in its properties and regularly pays for capital expenditures for property improvements, tenant costs and leasing commissions.

Financing Activities

Net cash flows used in financing activities amounted to \$7.7 million in the first nine months of fiscal 2009 compared to \$2.7 million in the comparable period of fiscal 2008. The increase in net cash used by financing activities from the first nine months of fiscal 2008 to the first nine months of fiscal 2009 was attributable to:

Cash generated:

Fiscal 2009: (Total \$51.6 million)

- Mortgage proceeds of \$36.7 million from the refinancing of one property with a larger mortgage and the placing of a mortgage on another property which was unencumbered.
 - Proceeds from revolving credit line borrowings in the amount of \$14.1 million.

Fiscal 2008: (Total \$73.0 million)

- Net proceeds from the issuance of Series E Preferred stock in the amount of \$58.0 million.
 - Proceeds from revolving credit line borrowings in the amount of \$13.0 million.
- Repayment to the Company of an officers note receivable in the amount of \$1.3 million

Cash used:

Fiscal 2009: (Total \$59.3 million)

- Dividends to shareholders in the amount of \$28.3 million
- Repayment of revolving credit line borrowings in the amount of \$17.1 million.
 - Repayment of mortgage note payable in amount of \$12.1 million

Fiscal 2008: (Total \$75.7 million)

- Dividends to shareholders in the amount of \$26.7 million
- Repayment of Series B Preferred stock in the amount of \$15.0 million
- Repayment of revolving credit line borrowings in the amount of \$ 25.2 million.
 - Repurchase of Class A common stock in the amount of \$7.5 million

Capital Resources

The Company expects to fund its long-term liquidity requirements such as property acquisitions, repayment of indebtedness and capital expenditures through other long-term indebtedness (including indebtedness assumed in acquisitions), borrowings on its unsecured and secured credit facilities, proceeds from sales of properties and/or the issuance of equity securities. The Company believes that these sources of capital will continue to be available to it in the future to fund its long-term capital needs; however, there are certain factors that may have a material adverse effect on its access to capital sources. The Company's ability to incur additional debt is dependent upon its existing leverage, the value of its unencumbered assets and borrowing limitations imposed by existing lenders. The Company's ability to raise funds through sales of equity securities is dependent on, among other things, general market conditions for REITs, market perceptions about the Company and its stock price in the market. The Company's ability to sell properties in the future to raise cash will be dependent upon market conditions at the time of sale.

Financings and Debt

The Company is exposed to interest rate risk primarily through its borrowing activities. There is inherent rollover risk for borrowings as they mature and are renewed at current market rates. The extent of this risk is not quantifiable or predictable because of the variability of future interest rates and the Company's future financing requirements. Mortgage notes payable of \$128 million consist principally of fixed rate mortgage loan indebtedness with a weighted average interest rate of 6.1% at July 31, 2009. The mortgage loans with fixed interest rates are secured by 11 properties with a net book value of \$173 million and have fixed rates of interest ranging from 5.1% to 7.8%. The Company has one variable rate mortgage loan in the amount of \$7.9 million for which interest is currently accruing at approximately 1.16%. The Company made principal payments of \$13.4 million (including the repayment

of a mortgage payable in the amount of \$12.1 million in fiscal 2009) in the nine months ended July 31, 2009 compared to \$1.3 million in the comparable period of fiscal 2008. The Company may refinance its mortgage loans, at or prior to scheduled maturity, through replacement mortgage loans. The ability to do so, however, is dependent upon various factors, including the income level of the properties, interest rates and credit conditions within the commercial real estate market. Accordingly, there can be no assurance that such refinancings can be achieved.

The Company has a \$50 Million Unsecured Revolving Credit Agreement (the "Unsecured Facility") with The Bank of New York Mellon and Wells Fargo Bank N.A. The agreement gives the Company the option, under certain conditions, to increase the Facility's borrowing capacity up to \$100 million. The maturity date of the Unsecured Facility is February 11, 2011 with two one year extensions at the Company's option. Borrowings under the Unsecured Facility can be used for, among other things, acquisitions, working capital, capital expenditures, repayment of other indebtedness and the issuance of letters of credit (up to \$10 million). Borrowings will bear interest at the Company's option of Eurodollar rate plus 0.85% to 1.15% or The Bank of New York Mellon's prime lending rate plus 0.50%. The Company pays an annual fee on the unused commitment amount of up to 0.175% based on outstanding borrowings during the year. The Unsecured Facility contains certain representations, financial and other covenants typical for this type of facility. The Company's ability to borrow under the Unsecured Facility is subject to its compliance with the covenants and other restrictions on an ongoing basis. The principal financial covenants limit the Company's level of secured and unsecured indebtedness and additionally require the Company to maintain certain debt coverage ratios. As of July 31, 2009, the Company was in compliance with such covenants on the Secured Facility discussed below and Unsecured Facility.

The Company also has a secured revolving credit facility with a commercial bank (the “Secured Facility”) which provides for borrowings of up to \$30 million. The maturity date of the Secured Facility is April 15, 2011. The Secured Facility is collateralized by first mortgage liens on two of the Company’s properties. Interest on outstanding borrowings is at prime plus 0.50% or Eurodollar plus 1.75%. The Secured Facility requires the Company to maintain certain debt service coverage ratios during its term. The Company pays an annual fee of 0.25% on the unused portion of the Secured Facility. The Secured Facility is available to fund acquisitions, capital expenditures, mortgage repayments, working capital and other general corporate purposes.

As of September 9, 2009 the Company has approximately \$72 million available to be drawn down under its two revolving credit facilities.

In May 2009, the Company, through a wholly-owned subsidiary, completed a new first mortgage financing on one of its properties in the amount of \$18.9 million. The new mortgage has a fixed rate of interest of 6.55% per annum with required monthly payments of principal and interest based on a 25 year amortization schedule. The mortgage has a term of ten years and is due in May of 2019. Proceeds from the mortgage financing in the amount of \$17.1 million were used to repay the Facility.

In July 2009, the Company completed a new first mortgage financing on another of its properties in the amount of \$17.8 million. The new mortgage has a fixed rate of interest of 6.66% per annum with required monthly payments of principal and interest based on a 25 year amortization schedule. The mortgage has a term of ten years and is due in August of 2019. The Company hopes to use the proceeds for the acquisition of shopping centers in accordance with its business strategy or for general corporate purposes.

The Company has various standing or renewable service contracts with vendors related to its property management. In addition, the Company also has certain other utility contracts entered into in the ordinary course of business which may extend beyond one year, which vary based on usage. These contracts include terms that provide for cancellation with insignificant or no cancellation penalties. Contract terms are generally one year or less.

Off-Balance Sheet Arrangements

During the nine month periods ended July 31, 2009 and 2008, the Company did not have any material off-balance sheet arrangements.

Capital Expenditures

The Company invests in its existing properties and regularly incurs capital expenditures in the ordinary course of business to maintain its properties. The Company believes that such expenditures enhance the competitiveness of its properties. In the nine months ended July 31, 2009, the Company paid approximately \$1,677,000 for property improvements, tenant improvement and leasing commission costs. The amounts of these expenditures can vary significantly depending on tenant negotiations, market conditions and rental rates. The Company expects to incur approximately \$1.3 million for anticipated capital improvements and leasing costs during the balance of fiscal 2009. These expenditures are expected to be funded from operating cash flows or bank borrowings.

Acquisitions and Significant Property Transactions

In January 2009, the Company sold a 3,400 square foot vacant retail property located in Eastchester, New York for a sales price of approximately \$925,000. This property was acquired by the Company in fiscal 2008 and there was no significant gain or loss recorded on the sale. The property had no operating activity and the Company will not report

any discontinued operations as required by SFAS No. 144, "Accounting for the Impairment or Disposal of Long Lived Assets".

In July 2009, the Company borrowed \$2.1 million on its Facility and used the proceeds to purchase an additional 14.6% of the outstanding limited partner interests in a consolidated partnership which owns the Ferry Plaza shopping center in Newark New Jersey for approximately \$2.1 million. The Company continues to be the sole general partner of the partnership. As a result of the purchase, the Company increased its economic ownership percentage in the limited partnership from 60% to approximately 75%.

On July 24, 2009 the state of Connecticut acquired certain areas of a property owned by two of the Company's wholly owned subsidiaries through a combination of condemnation and easement due to the construction of a bridge that runs over the property and awarded the Company's subsidiaries a total of approximately \$2.0 million which amount is recorded in other assets on the consolidated balance sheet at July 31, 2009. Approximately \$1.8 million of the total award represents amounts to be paid to the Company for easements provided to the state of Connecticut for certain areas of the property for the next 10 years, loss of rental income and property restoration costs. The Company will amortize the easement and loss of rental income proceeds as an addition to income on a straight line basis evenly over the 10 year life of the easement and lost rent period.

The Company has accounted for the condemnation portion of the aforementioned award in accordance with FASB Interpretation No. 30: Accounting for Involuntary Conversions of Non-monetary Assets to Monetary Assets ("FIN 30") which requires the Company to record a gain or loss on the excess or deficit of the proceeds received over the estimated net book value of the condemned non-monetary asset. As a result of the transaction the company has recorded a gain on condemnation of approximately \$70,000 which is recorded in other income on the consolidated statement of income for the three and nine months ended July 31, 2009.

Non-Core Properties

In a prior year, the Company's Board of Directors expanded and refined the strategic objectives of the Company to refocus its real estate portfolio into one of self-managed retail properties located in the northeast and authorized the sale of the Company's non-core properties in the normal course of business over a period of several years. The Company's current non-core properties consist of two distribution service facilities (both of which are located outside of the northeast region of the United States).

The Company intends to sell these two remaining non-core properties as opportunities become available. The Company's ability to generate cash from asset sales is dependent upon market conditions and will be limited if market conditions make such sales unattractive. At July 31, 2009, the two remaining non-core properties have a net book value of approximately \$563,000.

Funds from Operations

The Company considers Funds from Operations ("FFO") to be an additional measure of an equity REIT's operating performance. The Company reports FFO in addition to its net income applicable to common stockholders and net cash provided by operating activities. Management has adopted the definition suggested by The National Association of Real Estate Investment Trusts ("NAREIT") and defines FFO to mean net income (computed in accordance with generally accepted accounting principles ("GAAP")) excluding gains or losses from sales of property, plus real estate related depreciation and amortization and after adjustments for unconsolidated joint ventures.

Management considers FFO a meaningful, additional measure of operating performance because it primarily excludes the assumption that the value of its real estate assets diminishes predictably over time and industry analysts have accepted it as a performance measure. FFO is presented to assist investors in analyzing the performance of the Company. It is helpful as it excludes various items included in net income that are not indicative of the Company's operating performance, such as gains (or losses) from sales of property and depreciation and amortization.

However, FFO:

§ does not represent cash flows from operating activities in accordance with GAAP (which, unlike FFO, generally reflects all cash effects of transactions and other events in the determination of net income); and

§ should not be considered an alternative to net income as an indication of the Company's performance.

FFO as defined by us may not be comparable to similarly titled items reported by other real estate investment trusts due to possible differences in the application of the NAREIT definition used by such REITs. The table below provides a reconciliation of net income applicable to Common and Class A Common Stockholders in accordance with GAAP to FFO for each of the nine months and three months ended July 31, 2009 and 2008 (amounts in thousands).

	Nine Months Ended July 31,		Three Months Ended July 31,	
	2009	2008	2009	2008
Net Income Applicable to Common and Class A Common Stockholders	\$11,492	\$12,925	\$3,779	\$4,318
Plus: Real property depreciation	8,608	8,222	2,871	2,858
Amortization of tenant improvements and allowances	2,504	2,008	648	682
Amortization of deferred leasing costs	546	395	144	106

Funds from Operations Applicable to Common and Class A				
Common Stockholders	\$23,150	\$23,550	\$7,442	\$7,964
Net Cash Provided by (Used in):				
Operating Activities	\$30,273	\$33,862	\$10,483	\$12,762
Investing Activities	\$(1,982)	\$(26,614)	\$(3,306)	\$(2,960)
Financing Activities	\$(7,723)	\$(2,697)	\$12,069	\$(12,249)

FFO amounted to \$23.2 million in the first nine months of fiscal 2009 compared to \$23.6 million in the first nine months of fiscal 2008. The net decrease in FFO is attributable, among other things, to: a) a decrease in the occupancy percentage at some of the Company's core properties which resulted in a reduction in base rent billed at some of our properties owned in both periods, b) an increase in preferred stock dividends in the first five months of fiscal 2009 as a result of the Company's \$60 million preferred stock sale in the second quarter of fiscal 2008, c) an increase in operating expenses from both acquired properties and properties held in both periods and d) a decrease in the timing of percentage rents collected in 2009 when compared with the same period in 2008 offset by: a) a gain on the sale of marketable equity securities of \$381,000 during the second quarter of fiscal 2009, b) an increase in operating results at some of the Company's properties as a result of property acquisitions in fiscal 2008 and c) a decrease in interest expense as a result of paying off a \$12.1 million mortgage with proceeds from the Company's Facility at a lower rate of interest. (See more detailed explanations which follow).

Results of Operations

The following information summarizes the Company's results of operations for the nine month and three month periods ended July 31, 2009 and 2008 (amounts in thousands):

	Nine Months Ended July 31,		Increase (decrease)	%	Change Attributable to:	
	2009	2008			Property Acquisitions	Properties Held In Both Periods
Revenues						
Base rents	\$46,055	\$45,527	\$528	1.2	\$1,578	\$(1,050)
Recoveries from tenants	16,339	14,173	2,166	15.3	1,027	1,139
Mortgage interest and other	572	472	100	21.2	49	51
Operating Expenses						
Property operating expenses	10,524	9,330	1,194	12.8	450	744
Property taxes	9,899	8,707	1,192	13.7	324	868
Depreciation and amortization	11,704	10,684	1,020	9.5	452	568
General and administrative expenses	4,915	4,375	540	12.3	n/a	n/a
Other Income/Expenses						
Interest expense	4,754	5,162	(408)	(7.9)	507	(915)
Interest, dividends and other investment income	256	276	(20)	(7.2)	n/a	n/a

	Three Months Ended July 31,		Increase (Decrease)	%	Change Attributable to:	
	2009	2008			Property Acquisitions	Properties Held In Both Periods
Revenues						
Base rents	\$15,081	\$15,589	\$(508)	(3.3)	\$176	\$(684)

	23	87	(64)	(73.6)	n/a	n/a

Interest, dividends, and other
investment income

Revenues

Base rents increased by 1.2% to \$46.1 million for the nine month period ended July 31, 2009 as compared with \$45.5 million in the comparable period of 2008. Base rents decreased 3.3% to \$15.1 million for the three months ended July 31, 2009 as compared with \$15.6 million in the comparable period of 2008. The change in base rentals during each period was attributable to:

Property Acquisitions:

During fiscal 2008 the Company purchased or acquired interests in four properties totaling 205,500 square feet of GLA. These properties accounted for all of the revenue and expense changes attributable to property acquisitions during the three and nine month periods ended July 31, 2009.

Properties Held in Both Periods:

The decrease in base rents for properties held during the nine month and three month periods ended July 31, 2009 compared to the same periods in fiscal 2008, reflects an increase in vacancies occurring in fiscal 2008 and the first three quarters of fiscal 2009 at several of the Company's core properties offset by an increase in rental rates for in place leases over the period. For the first nine months of fiscal 2009, the Company leased or renewed approximately 465,000 square feet (or approximately 11.9% of total property leasable area). At July 31, 2009 the Company's core properties were approximately 90% leased. Overall core property occupancy decreased to 90% at July 31, 2009 from 93% at July 31, 2008.

Recoveries from tenants for properties owned in both periods (which represents reimbursements from tenants for operating expenses and property taxes) increased by \$1,139,000 and \$501,000 for the nine months and three months periods ended July 31, 2009 when compared to the same period in fiscal 2008. This increase was a result of an increase in property tax expense for properties held in both periods caused by increased assessments and municipal tax rate increases on certain properties. In addition, the increase was further caused by increases in the amount billed to tenants for increased operating expenses including snow removal and maintenance costs in the first nine months of fiscal 2009 when compared to the same period in the prior year.

Expenses

Operating expenses for properties held in both periods increased by \$744,000 and \$154,000 in the nine months and three month periods ended July 31, 2009, compared to the same periods a year ago primarily as a result of increased snow removal and maintenance costs for the nine month period ended July 31, 2009 and increased maintenance costs for the three month period ended July 31, 2009.

Property taxes for properties held in both periods increased \$868,000 and \$241,000 during the nine month and three month period ended July 31, 2009 compared to the same period a year ago as a result of increased assessments and municipal tax rates on certain properties.

Interest expense decreased \$408,000 and \$44,000 in the nine month and three month period ended July 31, 2009 compared to the same periods in fiscal 2008 as a result of scheduled principal payments on mortgage notes, and the repayment of a \$12.1 million mortgage note payable in March 2009 and \$12.9 million in mortgage notes payable in fiscal 2008.

Depreciation and amortization expense from properties held in both periods increased \$568,000 during the nine month period ended July 31, 2009 compared to the same period a year ago as a result of depreciation on \$17 million in acquisitions in fiscal 2008 and a full quarter of depreciation for the \$6.7 million in property improvements made in fiscal 2008 and the acceleration of depreciation and amortization on tenant improvements and deferred leasing charges related to two lease terminations in the first quarter of fiscal 2009. Depreciation and amortization expense from properties held in both periods for the three month period ended July 31, 2009 was relatively unchanged.

General and administrative expenses increased by \$540,000 and \$131,000 in the nine month and three month periods ended July 31, 2009 compared to the same periods in fiscal 2008, primarily due to an increase in legal and professional, consulting and restricted stock compensation amortization expense.

Inflation

The Company's long-term leases contain provisions to mitigate the adverse impact of inflation on its operating results. Such provisions include clauses entitling the Company to receive (a) scheduled base rent increases and (b) percentage rents based upon tenants' gross sales, which generally increase as prices rise. In addition, many of the Company's

non-anchor leases are for terms of less than ten years, which permits the Company to seek increases in rents upon renewal at then current market rates if rents provided in the expiring leases are below then existing market rates. Most of the Company's leases require tenants to pay a share of operating expenses, including common area maintenance, real estate taxes, insurance and utilities, thereby reducing the Company's exposure to increases in costs and operating expenses resulting from inflation.

Environmental Matters

Based upon management's ongoing review of its properties, management is not aware of any environmental condition with respect to any of the Company's properties that would be reasonably likely to have a material adverse effect on the Company. There can be no assurance, however, that (a) the discovery of environmental conditions, which were previously unknown, (b) changes in law, (c) the conduct of tenants or (d) activities relating to properties in the vicinity of the Company's properties, will not expose the Company to material liability in the future. Changes in laws increasing the potential liability for environmental conditions existing on properties or increasing the restrictions on discharges or other conditions may result in significant unanticipated expenditures or may otherwise adversely affect the operations of the Company's tenants, which would adversely affect the Company's financial condition and results of operations.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk is the exposure to loss resulting from changes in interest rates, foreign currency exchange rates, commodity prices and equity prices. The primary market risk to which we are exposed is interest rate risk, which is sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors that are beyond the Company's control.

Interest Rate Risk

The Company is exposed to interest rate risk primarily through its borrowing activities. There is inherent rollover risk for borrowings as they mature and are renewed at current market rates. The extent of this risk is not quantifiable or predictable because of the variability of future interest rates and the Company's future financing requirements.

As of July 31, 2009, the Company had \$7.9 million in outstanding variable rate debt. The Company does not enter into any derivative financial instrument transactions for speculative or trading purposes. The Company believes that its weighted average interest rate of 6.1% on its fixed rate debt is not materially different from current fair market interest rates for debt instruments with similar risks and maturities.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective.

Changes in Internal Controls

During the quarter ended July 31, 2009, there were no significant changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

The Company is not involved in any litigation, nor to its knowledge is any litigation threatened against the Company or its subsidiaries, that in management's opinion, would result in a material adverse effect on the Company's ownership, management or operation of its properties, or which is not covered by the Company's liability insurance.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In a prior year, the Board of Directors of the Company approved a share repurchase program ("Program") for the repurchase of up to 500,000 shares of Common Stock and Class A Common Stock in the aggregate. On March 6, 2008, the Board of Directors amended the Program to allow the Company to repurchase up to 1,000,000 shares of Common and Class A Common Stock in the aggregate. In December 2008, the Board of Directors further amended the Program to allow the Company to repurchase up to 1,500,000 shares of Common and Class A Common Stock in the aggregate. In addition the Board of Directors amended the Program to allow the Company to repurchase shares of the Company's Series C and Series D Senior Cumulative Preferred Stock (Preferred Stock) in open market transactions. There were no purchases of either Common, Class A Common Stock or Preferred Stock under the Program during any month in the quarter ended July 31, 2009 and there is no assurance that the Company will repurchase the full amount of shares authorized. Any combination of either Common Stock, Class A Common Stock or Preferred Stock not exceeding 771,822 shares, in the aggregate, may yet be purchased under the Program.

Item 6. Exhibits

- 31.1 Certification of the Chief Executive Officer of Urstadt Biddle Properties Inc. pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934, as amended.
- 31.2 Certification of the Chief Financial Officer of Urstadt Biddle Properties Inc. pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934, as amended.
- 32 Certification of the Chief Executive Officer and Chief Financial Officer of Urstadt Biddle Properties Inc. pursuant to Section 906 of Sarbanes-Oxley Act of 2002.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
