INCREASED CAPITAL PROPOSAL INCREASE IN AUTHORIZED COMMON STOCK

Amendment

Our Board of Directors and the Majority Stockholders have voted to amend Article V of our Articles of Incorporation to read as follows:

(Beginning of Amended Article V)

2

ARTICLE V CAPITAL STOCK

The total number of shares of all classes of capital stock that the Corporation has the authority to issue is 530,000,000 shares that are divided into two classes as follows: (1) 30,000,000 shares of Preferred Stock (Preferred Stock) \$.01 par value per share, and (2) 500,000,000 shares of Common Stock (Common Stock) \$.01 par value per share. This Corporation is authorized to issue two classes of shares. Except as may be otherwise required by law or this Certificate of Incorporation, each holder of Common Stock has one vote in respect of each share of stock held by him of record on the books of the corporation on all matters voted upon by the Stockholders.

The Board of Directors may determine the preferences, limitations and relative rights, to the extent permitted by the Nevada Revised Statutes, of any class of shares of Preferred Stock before the issuance of any shares of that class, or of one or more series within a class before the issuance of any shares of that series. Each class or series shall be appropriately designated by a distinguishing designation prior to the issuance of any shares thereof. The Preferred Stock of all series shall have preferences, limitations and relative rights identical with those of other shares of the same series and, except to the extent otherwise provided in the description of the series, with those shares of the series of the same class

(End of Amended Article V)

Reasons for Increase in Capital

The purpose of increasing the number of authorized shares of common stock is to provide additional authorized shares which may be issued to fulfill option and warrant obligations, possible future financings, for possible future acquisitions and for such other corporate purposes as our Board of Directors determines appropriate in its discretion. These corporate purposes may include future stock splits, stock dividends or other distributions, future financings, acquisitions and stock options and other equity benefits under our employee benefit plans. We have no current plans for any acquisition but will consider the merits of potential acquisitions as opportunities may arise.

Specifically, we have 300,000,000 common shares authorized and at March 10, 2004, the record date, we had 243,644,240 shares issued and outstanding. Since March 10, 2004, we have issued an additional 10,067,535 shares due to the exercise of options and warrants. We also have issued stock purchase warrants and stock options that may be converted into an additional 74,884,203 shares of common stock. The total of these issued and reserved shares comprises 328,595,978 shares, which is 28,595,978 shares over the 300,000,000 shares authorized. We presently have agreements in place with a number of option/warrant holders, who control 66,322,533 of the 74,884,203 options and warrants that are outstanding, to not exercise until after the increase of authorized shares is finalized. This leaves no shares of common stock available for issuance in connection with any future acquisitions and/or financing

transactions.

The increase in the number of authorized shares of common stock would enable us to promptly take advantage of market conditions and the availability of favorable opportunities without the delay and expense associated with holding a special meeting of stockholders.

We have historically obtained capital for financing for working capital needs by private placements of shares of our common stock or convertible promissory notes and stock purchase warrants convertible into shares of common stock. Since the Company's revenues from operations have not been adequate to fund our operating expenses. We believe that we will likely need to rely upon

3

additional private placements of our common stock and securities convertible into common stock to obtain working capital until we are able to operate at a profit on a regular basis. We have no current financing plans in place but anticipate that we will seek additional capital from the sale of our securities in the future just as we have done in the past.

We believe that the financing that could be provided through authorization and private placements of additional shares of common stock is important to the economic viability of Park City Group. The Board of Directors also believes that it is prudent to have additional shares of common stock available for general corporate purposes. In addition to equity financings, these could include acquisitions of equity interests in potential acquisitions or for, stock dividends, stock splits or other recapitalizations, grants of stock as compensation, stock options and issuance of securities convertible into common stock. Our Board of Directors believes by failing to increase our authorized shares it would adversely affect our potential financing capabilities, which may ultimately affect our financial condition, and our ability to continue operations at the present level.

The Board is authorized to issue shares of stock for consideration it deems adequate and as may be permitted by law. If the Board of Directors deems it to be in the best interests of Park City Group and our shareholders to issue additional shares of common stock in the future from authorized shares, it will generally not seek further authorization by vote of the shareholders, unless authorization is otherwise required by law or regulations. Shareholders of Park City Group have no preemptive right to acquire additional shares of common stock. This means that current shareholders do not have a right to purchase any new issue of shares of common stock in order to maintain their proportionate ownership interests in Park City Group.

To the extent that additional authorized shares are issued in the future, they will decrease the existing shareholders' percentage equity ownership. Also, depending upon the price at which shares might be issued, they could have a dilutive effect upon earnings per share and on the voting power of existing shareholders, among other impacts. They could also reduce the amounts available on liquidation of Park City Group, if that should occur.

Anti-Takeover Implications. The increase in the authorized number of shares of common stock and the subsequent issuance of such shares could have the effect of delaying or preventing a change in control of the Company without further action by the stockholders. Shares of authorized and unissued common stock could (within the limits imposed by applicable law) be issued in one or more transactions that would make a change in control of the Company more difficult, and therefore less likely. Any such issuance of additional stock could have the effect of diluting the earnings per share and book value per share of outstanding shares of common stock, and such additional shares could be

Edgar Filing: PARK CITY GROUP INC - Form PRER14C

used to dilute the stock ownership or voting rights of a person seeking to obtain control of the Company. The Board is not aware of any attempt to take control of the Company and has not presented this proposal with the intention that the increase in the authorized shares of common stock be used as a type of anti-takeover device. We have not entered into any agreements or adopted any plans, which we believe would give rise to anti-takeover efforts on our behalf. Neither our Articles of Incorporation nor our Bylaws have any specific provisions dealing with anti-takeover matters.

4

Summary

We have no immediate specific plans to issue any of the additional shares of common stock that the proposed amendment would authorize except for use in connection with outstanding warrants and options. However, we believe it is appropriate to increase our authorized capital at this time. In summary, there are certain advantages and disadvantages of voting for an increase in our authorized common stock.

The advantages include:

- o The ability to raise capital by issuing capital stock in financing transactions.
- o The ability to fulfill our obligations by having common stock available upon the exercise of outstanding options and warrants.
- o To have shares of common stock available to pursue business expansion opportunities, if any.

The disadvantages include:

- o The issuance of authorized but unissued stock could be used to deter a potential takeover of Park City Group that may otherwise be beneficial to stockholders by diluting the shares held by a potential suitor or issuing shares to a shareholder that will vote in accordance with our Board of Directors' desires. A takeover may be beneficial to independent stockholders because, among other reasons, a potential suitor may offer such stockholders a premium for their shares of stock compared to the then-existing market price. We do not have any plans or proposals to adopt provisions or enter into agreements that may have material anti-takeover consequences.
- o Stockholders do not have any preemptive or similar rights to subscribe for or purchase any additional shares of common stock that may be issued in the future, and therefore, future issuances of common stock may, depending on the circumstances, have a dilutive effect on the earnings per share, voting power and other interests of the existing stockholders.

Blank Check Preferred Stock

We have authorized 30,000,000 shares of preferred stock. Our class of preferred stock is "blank check" preferred stock. The term "blank check" refers to preferred stock, the creation and issuance of which is authorized in advance by the stockholders and the terms, rights and features of which are determined by our Board of Directors upon issuance without further stockholder approval.

Edgar Filing: PARK CITY GROUP INC - Form PRER14C

The authorization of such blank check preferred stock would permit the Board of Directors to authorize and issue preferred stock from time to time in one or more series.

Subject to the provisions of our amended Articles of Incorporation and the limitations prescribed by law, the Board of Directors would be expressly authorized, at its discretion, to adopt resolutions to issue shares, to fix the number of shares and to change the number of shares constituting any series and to provide for or change the voting powers, designations, preferences and relative, participating, optional or other special rights, qualifications, limitations or restrictions thereof, including dividend rights (including whether the dividends are cumulative), dividend rates, terms of redemption (including sinking fund provisions), redemption prices, conversion rights and

5

liquidation preferences of the shares constituting any series of the preferred stock, in each case without any further action or vote by the stockholders. The Board of Directors would be required to make any determination to issue shares of preferred stock based on its judgment as to the best interests of Park City Group and its stockholders.

Although we have no plans to do so, our Board of Directors could use our preferred stock in an anti-takeover manner as described above.

There are no dissenters' rights applicable to the amendment of our Articles of Incorporation relating to Increased Capital Proposal.
