Fulton Financial Affiliates'

401(k) Savings Plan and Trust

Lancaster, Pennsylvania

We have audited the accompanying statements of net assets available for benefits of Fulton Financial Affiliates' 401(k) Savings Plan and Trust (the Plan) as of December 31, 2005 and 2004 and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2005 and 2004 and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole.

The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2005 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2005 financial statements taken as a whole.

FULTON FINANCIAL AFFILIATES'

401(k) SAVINGS PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

December 31, 2005 and 2004

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Fulton Financial Affiliates' 401(k) Savings Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan which covers eligible employees of certain merged bank subsidiaries. The Plan was established in 1991 and provides for retirement, death, and disability benefits. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions: Eligible employees may elect to make contributions up to a maximum dollar amount prescribed by law. Any participant who has attained age 50 by the end of the Plan year may make catch-up contributions in accordance with Code Section 414(v). Participants direct the investment of their contributions into various investment options offered by the Plan. Fulton Financial Corporation (the Company) may contribute, at its discretion, a percentage of the employee's salary deferral contribution, to be determined each year (the employer match). An employer matching contribution of 100% of the first 3% of compensation deferred was made in 2005 and 2004 for all participants except those who were former participants in the Drovers Mechanics Bank Salary Deferral Plan (Drovers 401(k) Plan) or the First Washington Bank 401(k) Savings Plan (First Washington 401(k) Plan). The employer matching contribution formula for the former Drovers 401(k) Plan and First Washington 401(k) Plan participants was 50% of the first 6% of compensation deferred.

Participant Accounts: Each participant's account is credited with the participant's contribution, the employer's contributions and an allocation of Plan earnings. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Vesting: Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the remainder of the accounts is based on years of service. Participants become 100% vested after completion of three years of credited service. Effective June 1, 2003, the Plan was amended to immediately 100% vest former Drovers 401(k) Plan participants in their accounts.

Payment of Benefits: Upon termination of service, death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account. Benefit payments are distributed in one of the following forms: a joint and survivor annuity, a lump sum payment or installment payments. Effective January 1, 2006, the Plan was amended to eliminate annuity payments as an allowable form of benefit payment.

NOTES TO FINANCIAL STATEMENTS

December 31, 2005 and 2004

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Loans: No participant loans secured by participant's Plan accounts shall be permitted under the Plan with the exception of any loans that were outstanding under the terms of the First Washington Plan at the time of its merger into the Fulton Financial Affiliates 401(k) Savings Plan and Trust on March 1, 2005.

The terms of First Washington loan policy are loans are secured by the balance in the participant's account. These loans are limited to the lesser of \$50,000 or 50% of the participant's vested account balance. Loan principal and interest payments are made in accordance with the note's amortization schedule, and made via payroll.

Forfeitures: Forfeitures represent the nonvested portion of the participant's account plus earnings thereon that are not fully distributable to participants who terminate employment before they are 100% vested. Forfeitures are used to reduce the future contributions to the Plan. As of December 31, 2005 and 2004, forfeitures of \$19,869 and \$0, respectively were available. Forfeitures used to reduce the employer matching contribution for the plan year ended December 31, 2005 and 2004 were \$0 and \$698, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Method: The Plan's financial statements are prepared on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles.

Investments: The investments held by the Plan are shown at fair value. Securities which are traded on a national securities exchange, including Fulton Financial Corporation common stock, are valued at the last reported sales price on the last business day of the year. The Plan's investments in common trust funds are valued at the aggregate of the fair values of the underlying securities. Loans to participants are valued at their outstanding balances, which approximates fair value.

Purchases and sales are recorded on a trade date basis.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risk and Uncertainties: The Plan provides for various investment options including any combination of certain mutual funds, common stock of the Company, or common/collective trust funds. The underlying investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Payment of Benefits: Benefits are recorded when paid.

Concentration of Credit Risk: At December 31, 2005 and 2004, approximately 20% and 22%, respectively, of the Plan's assets were invested in Fulton Financial Corporation common stock.

NOTE 3 RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.
