PART I

ITEM 1. BUSINESS.

GENERAL

PRIMEDIA Inc. ("PRIMEDIA" or the "Company") is a targeted media company with leading positions in consumer and business-to-business markets. Our properties deliver content via print (magazines, books and directories), video (digital broadband, satellite and cable), live events (trade and consumer shows) and the Internet. Our products serve highly specialized niches and capitalize on the growing trend toward targeted rather than mass information distribution.

Many of the Company's products, such as those provided by PRIMEDIA's consumer magazines, About.com, CHANNEL ONE NEWS, apartment and home guides and business-to-business magazines afford advertisers an opportunity to directly reach niche market audiences. In 2002, 48% of PRIMEDIA's total revenue was from lead generation advertising, 13% was from brand awareness advertising and 39% was from non-advertising sources (subscription revenue and non-advertising sales). Unlike general brand awareness advertising, lead generation advertising is focused on triggering a potential purchase decision by the reader, user or viewer.

The Company's products compete in two principal segments, Consumer and Business-to-Business. The Consumer segment produces and distributes magazines, guides, videos and Internet products for consumers in various niche markets. This segment consists of the Consumer Magazines and Media Group, Consumer Guides, PRIMEDIA Television and About, Inc. ("About"). The Company's Business-to-Business segment produces and distributes magazines, books, directories, databases, vocational training materials and Internet products to business professionals in such fields as communications, agriculture, professional services, media, transportation and healthcare. The Business-to-Business segment includes the Company's trade magazines and trade shows (the Business Magazines and Media Group), as well as Workplace Learning, a provider of video and interactive professional training, and Federal Sources Inc., an information and consulting provider for government contractors. These segment results are regularly reviewed by the Company's chief operating decision maker and the remainder of the executive team to determine how resources will be allocated to the segment and assess its performance.

CONSUMER SEGMENT

CONSUMER MAGAZINE AND MEDIA GROUP

The Company is one of the largest specialty consumer magazine companies in the U.S., with over 125 titles including AUTOMOBILE, MOTOR TREND, NEW YORK, SEVENTEEN, HOT ROD, FLY FISHERMAN and POWER & MOTORYACHT and leadership positions in such categories as automotive, motorcycle, crafts, teens, home entertainment technology and outdoor recreation. In 2002, over half of these specialty consumer magazines were number one in their markets. The principal sources of specialty consumer magazines sales are lead generation advertising, circulation and ancillary revenues. For the year ended December 31, 2002, 50% of sales was from advertising, 34% from circulation and 16% from ancillary sources.

Edgar Filing: PRIMEDIA INC - Form 10-K

Readers value specialty consumer magazines for their targeted editorial content and also rely on them as catalogues of products in the relevant topic areas. This catalogue aspect makes the specialty consumer magazines important media buys for advertisers. Advertising sales for the Company's specialty consumer magazines are generated largely by in-house sales forces. The magazines compete for advertising on the basis of circulation and the niche markets they serve. Each of the Company's specialty consumer magazines faces competition in its subject area from a variety of publishers and competes for readers on the basis of the high quality of its targeted editorial, which is provided by in-house and free lance writers.

The Company publishes 44 automotive enthusiast magazines, including AUTOMOBILE and MOTOR TREND, catering to the high-end automotive market, as well as such highly specialized enthusiast titles as TRUCKIN' and LOWRIDER, the largest retail sales magazines in the automotive category, MUSCLE MUSTANG & FAST FORDS, VETTE and SPORT COMPACT CAR. The Company also publishes nine motorcycle enthusiast magazines, including MOTORCYCLIST and DIRT RIDER. Supplementing the print publications, PRIMEDIA has a strong presence on the Internet with a companion website to each publication or a presence for each publication on the

About.com network. In the high-end and new car markets, PRIMEDIA's publications compete against CAR AND DRIVER and ROAD AND TRACK, both owned by Hachette Filipacchi Magazines.

The Company is a leading publisher of magazines for outdoor enthusiasts with such titles as FLORIDA SPORTSMAN, FLY FISHERMAN, SAIL, POWER & MOTORYACHT, EQUUS and PRACTICAL HORSEMAN. The Company also publishes numerous magazines targeting action sports enthusiasts such as SURFER, SURFING, SKATEBOARDER and SNOWBOARDER. One of the Company's major competitors in the enthusiast market is the Time4Media division of AOL Time Warner. The Company also competes in individual enthusiast markets with a number of smaller, privately-owned or regionally-based magazine publishers.

The Company publishes the flagship magazine for the New York City metropolitan area. Since it was founded in April 1968, NEW YORK has been New York City's magazine of record, with New York City centric news, entertainment, culture, fashion and personalities. NEW YORK competes with other New York-themed magazines for local and national advertising. Competitors include the NEW YORK TIMES MAGAZINE, Advance Magazine Publishers Inc.'s THE NEW YORKER and TIME OUT NEW YORK.

The Company is the largest publisher of teen media in the United States. SEVENTEEN is the leading young women's fashion and beauty magazine based on both circulation and advertising pages, with fashion, boys, beauty, talent and lifestyle editorial targeted to girls ages 12 to 24. SEVENTEEN'S monthly rate base is 2.35 million and its total monthly readership is over 14.4 million. The Company acquired TEEN magazine in 2001. In February 2002, TEEN became a newsstand only special publication with such topics as back to school and teen prom. Competition for newsstand sales, advertising dollars and subscribers in the teen magazine market is especially intense. Competitors of the Company's publications include Gruner & Jahr's YM, AOL Time Warner's TEEN PEOPLE, Hearst's COSMOGIRL, Hachette Filipacchi's ELLEGIRL and Conde Nast's TEEN VOGUE. In December 2002, the Company sold TIGER BEAT and TEEN BEAT. The Company announced on February 5, 2003 that it was exploring strategic, value-creating options for SEVENTEEN and a number of related teen properties.

PRIMEDIA publishes the two leading soap opera magazines, SOAP OPERA DIGEST and SOAP OPERA WEEKLY. Both publications compete for circulation on the basis of editorial content and quality against SOAPS IN DEPTH which has substantially lower circulation.

Edgar Filing: PRIMEDIA INC - Form 10-K

The Company's consumer magazine circulation revenue is divided between retail sales (largely newsstand and other retail outlets) and subscriptions with revenue weighted slightly towards subscriptions. To acquire new subscribers, the Company depends on direct mail, telemarketing and in magazine promotions. The Internet has also become an efficient, cost-effective source of subscription sales for the Company. In 2002, the Company generated an estimated 470,000 paid subscriptions via the Internet.

The Company operates RetailVision, the largest specialty magazine distribution company in the U.S., which distributes over 700 titles, including those of the Company and 98 other publishers, to approximately 50,000 independent niche retailers such as auto parts retailers, craft shops, tackle shops, and record/music stores.

CONSUMER GUIDES

The Company is the largest publisher of rental apartment guides in the U.S. with 88 local versions, most of which are distributed monthly and provide informational listings about featured apartment communities. Apartment community managers, who need to fill vacant apartments, provide virtually 100% of apartment guide advertising revenues.

The Company is the dominant information provider in apartment listings and continues to gain in market share due to the cost effectiveness of its products as measured by cost per lease to the advertiser. The Company's national competitors include Trader Publishing Company (publishers of FOR RENT) and Network Communications Inc. The majority of customers purchase 12-month contracts, and in 2002, approximately 90% of standard listing customers renewed their contracts when they expired.

2

The average number of monthly visitors to the Company's Internet site, apartmentguide.com, grew to approximately 1,230,000 per month in 2002. Apartmentguide.com is the exclusive partner of MSN's House & Home. The site, which carries all of the listings included in the print products, listed approximately 20,000 properties as of December 31, 2002. Rental leads delivered to apartment advertisers were up approximately 99%, from approximately 2,260,000 in 2001 to approximately 4,500,000 in 2002. The site offers many premium features not provided by its print products including virtual tours and search functionality. Approximately 111,000 of these premium products were sold during 2002.

The Company is a leader in new home guides with guides in 18 major markets including Northern California, Denver, Phoenix, Dallas-Fort Worth and Philadelphia.

A major strategic advantage is the Company's DistribuTech Division which is the nation's largest distributor of free publications, including its own consumer directories and over 1,300 other titles. In 2002, it distributed publications to over 19,000 grocery, convenience, video and drug stores in over 80 metropolitan areas, as well as universities, military bases, major employers and over 30,000 other locations. The majority of these locations are operated under exclusive distribution agreements. The guides are typically displayed in free-standing, multi-pocket racks. DistribuTech generates revenues by leasing rack pockets to other third party publications. DistribuTech competes for third-party publication distribution primarily on the basis of its prime retail locations. DistribuTech's principal competitor is Trader Distribution Services, a division of Trader Publishing Company.

PRIMEDIA TELEVISION

Edgar Filing: PRIMEDIA INC - Form 10-K

CHANNEL ONE NETWORK'S news program, CHANNEL ONE NEWS, is the only daily, advertising supported television news program delivered to secondary school students in their classrooms. The award-winning program contains news stories and features on issues of concern to teenagers, delivered in a relevant and engaging way. CHANNEL ONE NEWS broadcasts every school day via satellite to approximately 8.1 million students, 360,000 classrooms and approximately 400,000 educators in approximately 12,000 secondary schools in the United States. On an average school day, ten times more teens watch CHANNEL ONE NEWS than the nightly newscast of ABC, NBC, CBS and the cable networks combined. Channel One's average audience is 25 times larger than MTV's average prime time audience.

CHANNEL ONE NETWORK generates the majority of its revenue by selling the two minutes of advertising shown during each 12-minute CHANNEL ONE NEWS daily newscast. Because it is shown in schools, CHANNEL ONE NEWS airs only during the school year, typically September to June. Accordingly, CHANNEL ONE NETWORK earns the largest share of its revenue in the beginning of the school year, in the Company's fourth quarter. The CHANNEL ONE NEWS program does not air during the summer months and, accordingly, CHANNEL ONE NETWORK sees a seasonal revenue drop in the Company's third quarter each year.

Schools sign up for the CHANNEL ONE NETWORK service under a three-year contract pursuant to which they agree to show CHANNEL ONE NEWS, in its entirety, on at least 90% of all school days. CHANNEL ONE NETWORK provides schools with a turnkey system of videocassette recorders and network televisions. These products and services are provided to schools at no charge. In addition, CHANNEL ONE CONNECTION provides a maximum of 120 minutes of educational programming per school day at no charge.

CHANNEL ONE NETWORK has a library of over 2,300 broadcasts including approximately 200 single subject series, 95 of which have been released as videos. The Company's channelone.com online network and its channeloneteacher.com website provide supplemental information to students and educators.

3

CHANNEL ONE NEWS has no direct competition in the schools but does compete for advertising dollars with other media businesses, such as MTV and the WB Network. The Company's primary competitive advantages are award winning programming and total audience reach.

Films for the Humanities and Sciences ("Films") is a distributor of approximately 2,250 owned and 9,600 licensed educational videos, DVDs, CD-ROMs and related products. These products are sold mostly by direct mail to teachers, instructors and librarians primarily serving students in grades 8 to 12 and the college markets. Films is the largest distributor of such products to colleges and high schools and competes on the basis of exclusivity, quality, breadth and depth of the subject matter.

PRIMEDIA Digital Video ("PDV"), formed in 2000, develops, produces and distributes video properties based on the Company's brands and franchises, and recently launched the Video Magazine Rack, a video-on-demand cable TV service offering a selection of video content related to the Company's print production. Additionally, PDV manages the Company's Dallas-based video production facility where video product is developed and produced for both the Company's own programming needs and for third party customers.

ABOUT

About is a leading producer of information and original content on the Internet. About generates revenue from three sources: brand advertising on the

Edgar Filing: PRIMEDIA INC - Form 10-K

About Network, auction-based pay-per-click classified advertising on the About Network and 3rd party sites, and web-hosting services.

The About Network consists of a network of more than 400 highly-targeted web sites covering over 10,000 discrete topics. The information and original content on the web sites are generated by human guides. Each guide is carefully screened and trained by About. All guides must successfully complete the About training program and maintain standards in user services and community leadership. The About and PRIMEDIA sites combined were the 5th most visited sites on the Internet in December 2002 with over 44 million unique visitors, as measured by MEDIA METRIX.

In the brand advertising arena, the About Network competes with other large-scale Internet properties such as America Online, Yahoo and Microsoft Network, to sell display advertising on About's web sites to national advertisers.

About's auction-based classified advertising business, Sprinks, enables an advertiser to bid for link placement on targeted content web pages, search results and email newsletters on the About Network and on Sprinks affiliate sites. An advertiser pays About a fee when a consumer clicks their link, providing the advertiser with a targeted and efficient means of marketing their services on the Web. Other companies providing pay-per-click classified advertising of this sort include Overture Services Inc. and Google.

About's web-hosting service allows a consumer to register a domain name and then pay a monthly fee for hosting and support of his or her personal web site. Competitors include Yahoo and Terra Lycos.

BUSINESS-TO-BUSINESS SEGMENT

BUSINESS MAGAZINES AND MEDIA GROUP

The Company is a leading publisher of business-to-business magazines in the U.S. with over 65 titles that provide vital information to professionals in such fields as communications (TELEPHONY), agriculture (SOYBEAN DIGEST), broadband (CABLEWORLD), transportation (FLEET OWNER), industrial (ENGINEERING AND MINING JOURNAL), professional services (REGISTERED REPRESENTATIVE) and entertainment (BROADCAST ENGINEERING). In 2002, 78% of these titles ranked number one or number two in their category based on advertising pages. In 2002, over 95% of magazine revenue was derived from advertising as most copies of these magazines are distributed on a controlled circulation basis, meaning that they are distributed free of charge to select qualified readers.

4

Because each of the business-to-business magazines is distributed almost exclusively to purchasing decision-makers in a targeted industry group, product and service providers are able to focus their advertising. Advertising rates are based on the quality and size of the circulation within the target group as well as competitive factors. These magazines compete for advertising on the basis of advertising rates, circulation, reach, editorial content and readership commitment. Advertising sales are made by in-house sales forces and are supplemented by independent representatives in selected regions and overseas.

The Company sponsors conferences and trade shows, serving the advertisers and readers of the corresponding publications, including WASTE AGE, LIGHTING DIMENSIONS and TRANSMISSION & DISTRIBUTION.

On both the publishing and trade show sides of the business, there are large, domestic and internationally-based competitors that vary by the industry served. Some of those competitors are Reed Business Information (owned by Reed

Edgar Filing: PRIMEDIA INC - Form 10-K

Elsevier plc group), VNU Business Media (owned by VNU NV) and Advanstar Communications.

The Company also publishes periodicals that provide in-depth data on selected markets. WARD'S AUTOMOTIVE REPORTS is recognized as the authoritative source for industry-wide statistics on automotive production and sales. In addition, the Company publishes used vehicle valuation information in print and electronic formats including EQUIPMENT WATCH. Other databases include THE ELECTRONICS SOURCE BOOK and AC-U-KWIK.

The Company also operates a business-to-business Internet operation serving numerous industries and leveraging off of PRIMEDIA's already strong traditional media presence. In December 2002, these sites collectively received more than 4.5 million page views.

WORKPLACE LEARNING

PRIMEDIA Workplace Learning is a leading provider of integrated training, education and information solutions, helping public and private enterprises create and retain qualified, competent workforces. The Company largely delivers its products via satellite, videotape, CD-ROM, live events and increasingly over the Internet. It is a leader in such markets as automotive (Automotive Satellite Television Network), industrial (Industrial Training Systems), healthcare (Health and Sciences Television Network), pharmaceuticals (Interactive Medical Networks), government (Law Enforcement Training Network ("LETN")), fire and emergency services (Fire and Emergency Television Network), and banking (Bankers Training and Consulting Company). To provide online learning management services in addition to content, the Company has launched PRIMEnet, a comprehensive e-learning delivery and management platform.

In 2002, the United States Customs Service selected PRIMEDIA Workplace Learning to implement Customs Television Network, which includes LETN. The implementation of a satellite-based training and communications network is designed to provide Customs Officials in 350 locations with the latest techniques in critical emergency response, homeland security, safety and health issues.

The Company has numerous direct and indirect competitors, including BVS, General Physics and Healthstream. In addition, many potential customers continue to do their own in-house training. The Company is pursuing opportunities to capture market share in those markets migrating to e-learning solutions. It is also capitalizing on opportunities to increase product and content sales through resellers, distributors, associations, and consortia.

ADVERTISING

Over 60% of the Company's revenue is derived from advertising. In general, the Company sells two types of advertising: lead generation advertising (48% of total revenue) and brand awareness advertising (13% of total revenue). In a given media market in which the Company competes (e.g. fishing), lead generation advertising is purchased by advertisers who are "endemic" to that market (e.g. fishing rod

5

manufacturers) and are seeking to trigger a direct, specific buying decision. The Company's specialty magazines, consumer guides, About.com and Business-to-Business units derive a majority of their revenue from this type of advertising.

In contrast, brand awareness advertising concentrates on introducing or reinforcing a product's brand image with the reader, user or viewer. The

Edgar Filing: PRIMEDIA INC - Form 10-K

Company's larger circulation magazine properties, such as SEVENTEEN, and television properties, such as CHANNEL ONE NETWORK, generate more of their revenue from brand awareness advertising, primarily from the fashion, health and beauty and entertainment sectors.

PRIMEDIA's focus on lead generation advertising from endemic buyers gives the Company a stable base of advertising revenue, less susceptible to the fluctuations of the business cycle than the brand advertising market. PRIMEDIA's 2001 acquisitions of EMAP and About and its divestiture in 2002 of large circulation magazine titles such as MODERN BRIDE and AMERICAN BABY, have accelerated the Company's trend toward more targeted, niche media and endemic advertising.

In addition, PRIMEDIA has successfully expanded beyond its base in publishing into related, high growth media such as video (Primedia Digital Video) and Internet (About, Consumer Magazine and Media Group and Consumer Guides Internet sites) serving the same base of niche-focused enthusiasts and advertisers. The Company has implemented an integrated sales effort (PRISM) to garner additional revenues from national advertisers across these media platforms and properties.

ACQUISITIONS AND DIVESTITURES

Historically, PRIMEDIA has actively sought to acquire magazines and other media properties to strengthen its competitive position in the segments and markets in which it competes. The Company has also traditionally managed its portfolio of media assets by opportunistically divesting assets no longer core to the Company's overall strategy. In 2002, PRIMEDIA focused on improving its operating results through the integration of its 2001 acquisitions of EMAP Inc. ("EMAP", formerly known as Petersen Publishing) and About, and reducing the amount of debt on its balance sheet through the divestiture of several large consumer magazine properties.

In February 2001, About, a leading producer of information and original content on the Internet, was merged into a subsidiary of PRIMEDIA and as a result became a wholly-owned subsidiary of PRIMEDIA. About's financial results are included in the Company's Consumer segment for the last ten months of 2001 and for the full year 2002. PRIMEDIA has integrated About's operations into the Company's Consumer segment, where it provides a vital platform for the delivery of Internet-based content and advertising. About also serves as a source of subscribers for the Company's magazine businesses. The integration of About has driven headcount reductions and has decreased capital spending and expenses across the Company's Internet and new media businesses.

In August 2001, the Company acquired EMAP from UK-based magazine publisher EMAP plc. EMAP had more than 60 consumer titles reaching over 75 million enthusiasts through a combination of magazines, live events, television shows and web sites. In 2002, these operations were fully integrated into PRIMEDIA's Consumer Magazine and Media Group and its financial results are reported in the Consumer segment for the full year. The results of the acquired EMAP assets are included for the last four months of 2001.

With EMAP, the Company has been able to add scale in the automotive enthusiast market, particularly as the result of the combination of sales efforts for AUTOMOBILE and MOTOR TREND magazines. The acquisition of EMAP also enhanced PRIMEDIA's market position in the action sports and home entertainment technology magazine markets. Finally, the Company expects to continue to achieve efficiencies through increased scale of operations in the areas of paper purchasing, circulation, production, technology and finance.

Edgar Filing: PRIMEDIA INC - Form 10-K

In July 2001, at the time of announcement of the EMAP acquisition, PRIMEDIA announced its intention to sell \$250 million of assets in order to pay down debt associated with the acquisition. Since that time, the Company has sold assets for proceeds of over \$345 million. Asset sales in 2002 accounted for approximately \$228 million of that total.

Major 2002 divestitures included the American Baby Group, CHICAGO magazine, MODERN BRIDE and other small enthusiast titles. The American Baby Group which is comprised of the AMERICAN BABY magazine, web site and cable television show, as well as the Baby Faire consumer expo was sold to Meredith Corporation at the end of 2002 for \$115 million. The Company also sold CHICAGO magazine in August 2002 for \$35 million to an affiliate of The Chicago Tribune Company and sold the Modern Bride Group ("MBG"), including MODERN BRIDE magazine, in February 2002 to Advance Magazine Publishers Inc. for \$50 million. Other 2002 divestitures included the sale of ExitInfo, a publisher of free local travel guides and coupon books, to Trader Publishing for \$24 million, as well as a number of small magazine divestitures including the sale of HORTICULTURE to F&W Publications, DOLL READER to Ashton International Media, Inc. and IN NEW YORK to Best Read Guides LLC. Financial results for these divestitures are reported in Discontinued Operations.

Prior to 2001, the Company was an active acquirer of consumer and business-to-business magazines, rental apartment and other real estate guides, trade shows, directories, educational training content providers and other media businesses. In 2000, major acquisitions included Adams/Laux Company, Inc. and Adams/Intertec International Inc., publishers of business-to-business magazines and other publications relating to the meetings and conference industry and the electric power industry. In that year, the Company also acquired the assets of Paul Kagan Associates Inc. and the stock of Kagan World Media Inc. and certain of its affiliated companies, which is a newsletter, conference, consulting service and content business focused on the media and telecommunications industries.

Management's Discussion and Analysis of Financial Condition and Results of Operations (Item 7, page 13) provides a description of segment results.

PRODUCTION AND FULFILLMENT

Virtually all of the Company's print products are printed and bound by independent printers. The Company believes that because of its buying power, outside printing services can be purchased at favorable prices. The Company provides most of the content for its electronically delivered products but outsources technology and production.

The principal raw material used in the Company's products is paper. PRIMEDIA purchases paper directly from several paper mills, including the three major paper mills. The Company has used strategic sourcing principles to gain stable supplies at favorable prices.

The Company uses the U.S. Postal Service for distribution of many of its products and marketing materials and is therefore subject to postage rate changes. Many of the Company's products are packaged and delivered to the U.S. Postal Service directly by the printer. Other products are sent from warehouses and other facilities operated by the Company.

As discussed below in Item 7 under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations--Impact of Inflation and Other Costs", postal rates increased in 2002 while paper prices decreased. Going forward, the Company may be impacted by future cost increases, driven by inflation or market conditions in these categories.

EMPLOYEES

Edgar Filing: PRIMEDIA INC - Form 10-K

As of December 31, 2002, the Company had approximately 5,100 full-time equivalent employees. During 2002, the Company's headcount declined primarily due to divestitures and consolidation of

7

functions. None of these employees are union members. Management considers its relations with its employees to be good.

EQUITY COMPENSATION PLAN INFORMATION

Information required by this item with respect to equity compensation plans of the Company is included in Part III, Item 12 of this Form 10-K under the caption "Equity Compensation Plan Information."

RECENT SALES OF UNREGISTERED SECURITIES

In February 2002, May 2002 and August 2002, the Company issued to KKR 1996 Fund L.P. ("KKR 1996 Fund") unregistered warrants to purchase 1 million, 1.25 million and 1.5 million shares of the Company's Common Stock, respectively. The warrants were issued in connection with the equity financing by KKR 1996 Fund in August 2001 as more fully described under "Certain Relationships and Related Transactions" in Item 13 of this Form 10-K.

In November 2002, the Company issued 78,000 shares of its unregistered Common Stock to Paul Kagan as deferred purchase price payable in connection with the acquisition by the Company in November 2000 of the assets of Paul Kagan Associates, Inc. and the stock of certain of its affiliated companies. The aggregate purchase price paid by the Company in connection with the transaction was 1,190,000 shares of the Company's Common Stock, of which 390,000 shares are payable in five equal annual installments of 78,000 shares on each annual anniversary of the closing date of the transaction.

In February 2003, the Company issued to Michael Tokarz, a former Director of the Company, 29,284 shares of the Company's unregistered Common Stock as compensation for his services as a director from October 1998 to May 2002. Mr. Tokarz, was permitted to defer the payment of his director's fees and receive the fees in the form of Common Stock pursuant to the Directors' Deferred Compensation Plan. Mr. Tokarz deferred the payment of an aggregate of \$186,367 of directors' fees that he would have otherwise received in cash at the time the services were provided.

The above issuances of securities were made by the Company in reliance on exemptions from registration contained in Section 4(2) of the Securities Act of 1933, as amended, and the rules and regulations thereunder, as offerings not involving a public offering.

ITEM 6. SELECTED FINANCIAL DATA.

The selected consolidated financial data were derived from the audited consolidated financial statements of the Company as of December 31, 2002 and 2001 and for the years ended December 31, 2002, 2001 and 2000. The data should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the consolidated financial statements and the related notes thereto included elsewhere herein. On January 1, 2002, the Company adopted Statement of Financial Accounting Standards ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"). As a result of this adoption, prior year results have been reclassified to reflect the results of the Modern Bride Group, ExitInfo, Chicago, Horticulture, Doll Reader, the American Baby Group and IN New York as discontinued operations for the periods prior to their respective divestiture dates. On January 1, 2002, the Company also adopted Emerging Issues Task Force ("EITF") Consensus No. 00-25, "Vendor Income Statement Characterization of Consideration Paid to a Reseller of the Vendors Products," ("EITF 00-25") and EITF Consensus No. 01-9, "Accounting for Consideration Given by a Vendor to a Customer (Including a Reseller of the Vendor's Products)" ("EITF 01-9") which resulted in a net reclassification of product placement costs previously recorded as operating expenses to reductions of sales from such activities.

NOTES TO SELECTED FINANCIAL DATA

- (1) As a result of the adoption of EITF 00-25, EITF 01-9 and SFAS 144, the Company reclassified amounts from sales, net, for the years ended December 31, 2001, 2000, 1999 and 1998, as follows:

	YEARS ENDED DECEMBER 31,			
	2001	2000	1999	1998
Sales, net (as originally reported).....	\$1,742,293	\$1,690,952	\$1,716,102	\$1,573,573

Sales, net (as reclassified).....	\$1,578,357	\$1,547,491	\$1,587,879	\$1,457,116

- (2) Includes an impairment of long-lived assets of \$11,610 for the year ended December 31, 2002.
- (3) Includes an impairment of intangible assets, goodwill and other, of \$154,828, \$444,699 and \$275,788 for the years ended December 31, 2002, 2001 and 1999, respectively.
- (4) Represents non-cash compensation and non-recurring charges of \$15,665, \$58,181 and \$35,210 for the years ended December 31, 2002, 2001 and 2000, respectively, a provision for severance, closures and restructuring related costs of \$51,914, \$43,920, \$20,798 and \$22,000 for the years ended December 31, 2002, 2001, 2000 and 1999, respectively, and loss (gain) on the sale of businesses and other, net, of \$7,247, (\$57,233), (\$14,438), (\$235,580) and (\$7,216) for the years ended December 31, 2002, 2001, 2000, 1999 and 1998, respectively.
- (5) Represents impairments of the Company's investment in CMGI, Inc. of approximately \$7,000 and \$155,500 for the years ended December 31, 2001 and 2000, respectively, the Company's investment in Liberty Digital of approximately \$700 and \$21,900 for the years ended December 31, 2001 and 2000, respectively, the Company's investments in various assets-for-equity transactions of approximately \$10,000 and \$84,000 for the years ended December 31, 2002 and 2001, respectively, and various other PRIMEDIA investments of approximately \$9,200, \$14,900 and \$11,200 for the years ended December 31, 2002, 2001 and 2000, respectively.
- (6) Historically, the Company did not need a valuation allowance for the portion of the tax effect of net operating losses equal to the amount of deferred income tax liabilities related to tax-deductible goodwill and trademark amortization expected to occur during the carryforward period of the net operating losses based on the timing of the reversal of these taxable temporary differences. As a result of the adoption of SFAS No. 142, "Goodwill and Other Intangible Assets", the reversal will not occur during the carryforward period of the net operating losses.

Edgar Filing: PRIMEDIA INC - Form 10-K

Therefore, the Company recorded a deferred income tax expense of approximately \$52,000 on January 1, 2002 and \$20,500 during 2002 which would not have been required prior to the adoption of SFAS 142. The charge recorded to increase the valuation allowance was reduced by the reversal of tax liabilities of \$23,000 during the third quarter of 2002 as a result of the impairments of goodwill and certain indefinite lived intangible assets. The income tax expense recorded in 2002 is net of tax refunds received. During 2001 and 2000, the Company increased its valuation allowance due to continued historical operating losses and the impairment of long-lived assets, primarily goodwill and investments, resulting in a net provision for income taxes of \$135,000 and \$41,200, respectively. At December 31, 1999 and 1998, the Company's management determined that no adjustment to net deferred income tax assets was required. In 1999, the Company recorded income tax expense of \$6,500 related to a provision for current state and local taxes incurred as a result of the gain on the sale of the Supplemental Education Group. At December 31, 2002, the Company had aggregate net operating and capital loss carryforwards of \$1,722,781 which will be available to reduce future taxable income.

- (7) In connection with the adoption of SFAS 142 on January 1, 2002, the Company recorded an impairment charge related to its goodwill and certain indefinite lived intangible assets as a cumulative effect of a change in accounting principle.
- (8) Includes the premiums paid on the redemptions of the \$11.625 Series B Exchangeable Preferred Stock in 1998, a \$32,788 gain on exchange of exchangeable preferred stock in 2002 and the issuance

11

of warrants valued at \$5,891 and \$498 to KKR 1996 Fund during 2002 and 2001, respectively, in connection with the EMAP acquisition.

- (9) Basic and diluted loss per common share, as well as the basic and diluted common shares outstanding, were computed as described in Note 15 of the notes to the consolidated financial statements included elsewhere in this Annual Report.
- (10) Includes current maturities of long-term debt and net assets held for sale, where applicable. Consolidated working capital reflects certain industry working capital practices and accounting principles, including the expensing of certain editorial and product development costs when incurred and the recording of deferred revenue from subscriptions as a current liability. Advertising costs are expensed when the promotional activities occur except for certain direct-response advertising costs which are capitalized and amortized over the estimated period of future benefit.
- (11) Excludes current maturities of long-term debt.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS).

INTRODUCTION

The following discussion and analysis summarizes the financial condition and operating performance of the Company and its two segments and should be read in conjunction with the Company's historical consolidated financial statements and notes thereto included elsewhere in this Annual Report.

Edgar Filing: PRIMEDIA INC - Form 10-K

FORWARD-LOOKING INFORMATION

PRIMEDIA, in its fourth quarter 2002 earnings conference call with investors and related earnings release on February 12, 2003, indicated that it expected modest revenue growth and high single-digit Segment EBITDA growth in 2003 as compared to 2002. As noted in the conference call and related earnings release, the Company's revenue and earnings guidance does not factor in the consequences of extended geopolitical conflict and may change as circumstances warrant. PRIMEDIA's 2003 guidance followed a 2002 in which the Company significantly increased its Segment EBITDA by integrating its 2001 acquisitions of About and EMAP, including their results for the full year 2002, and by materially reducing the Company's operating costs.

This report contains certain forward-looking statements concerning the Company's operations, economic performance and financial condition. These statements are based upon a number of assumptions and estimates, which are inherently subject to uncertainties and contingencies, many of which are beyond the control of the Company, and reflect future business decisions, which are subject to change. Some of the assumptions may not materialize and unanticipated events will occur which can affect the Company's results.

WHY WE USE SEGMENT EBITDA

PRIMEDIA believes that Segment EBITDA is the most accurate indicator of its segments' results, because it focuses on revenue and operating cost items driven by operating managers' performance, and excludes non-recurring items and items largely outside of operating managers' control. Internally, the Company's chief operating decision maker and the remainder of the executive team measure performance primarily based on segment EBITDA. Segment EBITDA represents earnings before interest, taxes, depreciation, amortization and other charges (income) ("Segment EBITDA"). Other charges (income) include non-cash compensation and non-recurring charges, provision for severance, closures and restructuring related costs and (gain) loss on the sale of businesses and other, net.

Segment EBITDA is not intended to represent cash flows from operating activities and should not be considered as an alternative to net income or loss (as determined in conformity with generally accepted accounting principles) as an indicator of the Company's operating performance, or to cash flows as a measure of liquidity. Segment EBITDA may not be available for the Company's discretionary use as there are requirements to redeem preferred stock and repay debt, among other payments. Segment EBITDA as presented may not be comparable to similarly titled measures reported by other companies since not all companies necessarily calculate Segment EBITDA in identical manners, and therefore, it is not necessarily an accurate measure of comparison between companies. See reconciliation of Segment EBITDA to operating income detailed below under the caption "Segment Data."

The Company's two segments are Consumer and Business-to-Business. PRIMEDIA groups its businesses into these two segments based on the nature of the products and services they provide and the type or class of customer for these products or services. The Company's Consumer segment produces and distributes content through magazines, guides, videos and over the Internet to consumers primarily in niche and enthusiast markets. The Consumer segment includes the Consumer Magazine and Media Group, Consumer Guides, PRIMEDIA Television and About.com. The Company's Business-to-Business

segment produces and distributes content via magazines, books, video, exhibits, the internet and databases to business professionals in such fields as communications, agriculture, professional services, media, transportation and

Edgar Filing: PRIMEDIA INC - Form 10-K

healthcare. The Business-to-Business segment includes the Business Magazines & Media Group, PRIMEDIA Workplace Learning and PRIMEDIA Information. Corporate represents items not allocated to other business segments such as general corporate administration.

INTRACOMPANY AND INTERCOMPANY TRANSACTIONS

In addition, the information presented below includes certain allocations and intracompany and intercompany transactions and is, therefore, not necessarily indicative of the results had the operations existed as stand-alone businesses. Eliminations represent intracompany and intercompany content and brand licensing, advertising and other services, which are billed at what management believes are prevailing market rates. These intracompany and intercompany transactions, which represent transactions between operating units within the same business segment or transactions between operating units in different business segments, are eliminated in consolidation. Intracompany eliminations were \$104,271, \$61,621 and \$44,696 for the years ended December 31, 2002, 2001 and 2000, respectively. Intercompany eliminations were \$6,106, \$3,830 and \$1,616 for the years ended December 31, 2002, 2001 and 2000, respectively.

NON-CORE BUSINESSES

Management believes a meaningful comparison of the results of operations for 2002, 2001 and 2000 is obtained by using the segment information and by presenting results from continuing businesses ("Continuing Businesses") which exclude the results of the non-core businesses ("Non-Core Businesses"). The Non-Core Businesses are those businesses that have been divested, discontinued or that management is evaluating for turnaround or shutdown. The Non-Core Businesses include: QWIZ, Inc. (divested in April 2001), Bacon's (divested in November 2001) and certain titles of the Business Magazines and Media Group and the Consumer Magazines & Media Group which are discontinued or divested. In addition, the Company has restructured or consolidated several new media properties, whose value can only be realized through the far greater efficiency of having select functions absorbed by the core operations and has included these properties in Non-Core Businesses. For the year ended December 31, 2002, the Company has reclassified certain product lines as Non-Core Businesses and in certain instances has reclassified prior periods accordingly. The Company believes that the amounts that have not been reclassified are not significant. Since June 30, 2002, the Company has not classified any additional businesses as Non-Core Businesses nor have any additional costs been allocated to the Non-Core Businesses subsequent to this date.

DISCONTINUED OPERATIONS AND RECLASSIFICATIONS OF PRODUCT PLACEMENT COSTS

Prior years' results have been restated to reflect the adoption SFAS 144, EITF 00-25 and EITF 01-9.

On January 1, 2002, the Company adopted SFAS 144. As a result of this adoption, prior year results have been reclassified to reflect the results of the Modern Bride Group, ExitInfo, Chicago, Horticulture, Doll Reader, the American Baby Group and IN New York as discontinued operations for the periods prior to their respective divestiture dates.

On January 1, 2002, the Company also adopted EITF 00-25 and EITF 01-9, which resulted in a net reclassification of product placement costs previously recorded as operating expenses to reductions of sales from such activities.

(1) Segment EBITDA represents earnings before interest, taxes, depreciation, amortization and other charges (income) including non-cash compensation and non-recurring charges of \$15,665, \$58,181, and \$35,210 for the years ended December 31, 2002, 2001 and 2000, respectively, provision for severance, closures and restructuring related costs of \$51,914, \$43,920 and \$20,798 for the years ended December 31, 2002, 2001 and 2000, respectively, and loss (gain) on sale of businesses and other, net of \$7,247, (\$57,233) and (\$14,438) for the years ended December 31, 2002, 2001 and 2000, respectively. Segment EBITDA excludes \$8,537 of additional restructuring related costs included in general and administrative expenses for the year ended December 31, 2001. Segment EBITDA is not intended to represent cash flows from operating activities and should not be considered as an alternative to net income or loss (as determined in conformity with generally accepted accounting principles) as an indicator of the Company's operating performance or to cash flows as a measure of liquidity. It is presented herein as the Company evaluates and measures each business unit's performance based on their Segment EBITDA results. Segment EBITDA may not be available for the Company's discretionary use as there are requirements to redeem preferred stock and repay debt, among other payments. Segment EBITDA as presented may not be comparable to similarly titled measures reported by other companies, since not all companies necessarily calculate Segment EBITDA in identical manners, and therefore, is not necessarily an accurate measure of comparison between companies.

Consolidated EBITDA represents operating income (loss) before depreciation of property and equipment and amortization of intangible assets, goodwill and other. Operating income (loss) excludes interest and taxes. Consolidated EBITDA is presented in order to reconcile Segment EBITDA to operating income (loss). Consolidated EBITDA is not intended to represent cash flows from operating activities and should not be considered as an alternative to net income or loss (as determined in conformity with generally accepted accounting principles) as an indicator of the Company's operating performance, or to cash flows as a measure of liquidity. Consolidated EBITDA may not be available for the Company's discretionary use as there are requirements to redeem preferred stock and repay debt,

RESULTS OF OPERATIONS

2002 COMPARED TO 2001

CONSOLIDATED RESULTS:

SALES, NET

Consolidated sales from Continuing Businesses increased 4.6% to \$1,574,073 in 2002 from \$1,504,822 in 2001. 2002 sales growth is attributable mostly to the inclusion of the full year results of EMAP, acquired in the latter part of 2001, in the Consumer segment. The increase in the Consumer segment of \$179,629 was partially offset by a decline in the Business-to-Business segment of \$65,452 before intercompany and intracompany eliminations. Further details about segment

Edgar Filing: PRIMEDIA INC - Form 10-K

performance is included in the segment specific sections below.

Total sales, including Continuing and Non-Core Businesses, increased 0.6% to \$1,587,564 in 2002 from \$1,578,357 in 2001. The adoption of EITF 00-25 and 01-9, on January 1, 2002, resulted in a net reclassification of product placement costs previously classified as distribution, circulation and fulfillment expense on the statements of consolidated operations to reductions of sales from such activities. The change in classification had no impact on the Company's results of operations, cash flows or financial position. The reclassification resulted in a net decrease in sales and a corresponding decrease in operating expenses of \$20,614 for the year ended December 31, 2001.

The Company had entered various assets-for-equity investments in start-ups and early stage companies in 2001 and did so to a much lesser extent in 2002. Some of these transactions included cash consideration paid by the Company. The non-cash consideration was comprised of advertising, content licensing and other services to be rendered by the Company in exchange for equity in these entities. The Company recognizes revenue when these services are delivered in accordance with the Company's revenue recognition policies. Revenue recognized in connection with these assets-for-equity transactions was approximately \$7,600 and \$46,900 during the years ended December 31, 2002 and 2001, respectively. The revenue from these transactions declined substantially throughout 2002 and will continue to decline in future periods. In addition, for the years ended December 31, 2002 and 2001, revenue from barter transactions was approximately \$18,200 and \$36,600, respectively, with equal related expense amounts in each year.

17

SEGMENT EBITDA

Segment EBITDA from Continuing Businesses increased 32.7% to \$250,085 in 2002 from \$188,519 in 2001 due to an increase of \$86,031 in the Consumer segment partially offset by a decline in the Business-to-Business segment of \$24,063, further detailed below. Total Segment EBITDA, including Continuing and Non-Core Businesses, increased 54.1% to \$246,832 in 2002 from \$160,179 in 2001.

OPERATING INCOME (LOSS)

Operating loss from Continuing Businesses was \$114,765 in 2002 compared to \$586,693 in 2001. The decrease was primarily due to a decrease in amortization expense (\$383,076), primarily due to higher impairments of goodwill and other intangible assets in 2001 (\$192,679) as well as the elimination of goodwill and trademark amortization upon the adoption of SFAS 142 on January 1, 2002 (\$181,141). In addition, Segment EBITDA from Continuing Businesses increased by \$61,566 in 2002 over 2001.

NET LOSS

Interest expense decreased by \$5,071 or 3.5% in 2002 compared to 2001 primarily due to lower average levels of indebtedness as a result of the Company's use of divestiture proceeds to pay down borrowings under the Company's credit facilities, as well as a reduction in interest rates.

In connection with the adoption of SFAS 142 effective January 1, 2002, the Company recorded an impairment charge related to its goodwill and certain indefinite lived intangible assets of \$388,508, as a cumulative effect of a change in accounting principle.

The total impairment charge recorded in depreciation and amortization under SFAS 142 and SFAS 144 for the year end December 31, 2002 was \$146,934 related to goodwill, intangibles and other assets and \$11,610 related to property and

Edgar Filing: PRIMEDIA INC - Form 10-K

equipment. In addition, the Company recorded \$49,500 of related non-cash deferred income tax expense. See Recent Accounting Pronouncements for further discussion of SFAS 142 and SFAS 144.

During 2002, the Company completed the sales of the Modern Bride Group ("MBG"), ExitInfo, Chicago, Horticulture, Doll Reader, IN New York and the American Baby Group and, as a result of adopting SFAS 144, reclassified the financial results of these divested units into discontinued operations on the statements of consolidated operations for the years ended December 31, 2002 and 2001. SFAS 144 requires sales or disposals of long-lived assets that meet certain criteria to be classified on the statement of operations as discontinued operations and to reclassify prior periods accordingly. These divestitures resulted in a gain of \$111,449 and were part of the Company's planned program which targeted the divestiture of \$250,000 of assets.

CONSUMER SEGMENT (INCLUDING CONSUMER MAGAZINE AND MEDIA GROUP, CONSUMER GUIDES, PRIMEDIA TELEVISION AND ABOUT):

SALES, NET

Sales from Continuing Businesses increased 15.7% to \$1,326,698 in 2002 from \$1,147,069 in 2001 before eliminations primarily due to the inclusion of the full year results of EMAP (191.8%) acquired in the latter part of 2001, and growth at Consumer Guides (5.8%). Consumer Guides revenue growth was attributable to strong performance at the unit's Apartment Guides division, continuing the sales trend of recent years. The Consumer Magazines and Media Group, excluding EMAP, saw a decline in brand advertising revenues primarily in the Company's larger circulation titles. The revenue decline can also be attributed to a reduction of non-cash revenue items such as barter and assets-for-equity revenue transactions primarily at the PRIMEDIA Television and About units.

These sales include new media sales from Continuing Business which increased 6.4% to \$88,136 in 2002 from \$82,868 in 2001, primarily due to the inclusion of EMAP for the period subsequent to the acquisition date and the organic growth at apartmentguide.com, partially offset by the decreases at About. In general, new media sales reflect the results of About, the Consumer Guides Internet properties including apartmentguide.com, and Internet operations associated with the Company's consumer magazine brands. These new media sales include the allocation of bundled revenues (print and online billed

18

together) and various intracompany and intercompany transactions, which are eliminated in consolidation. As a result, the new media sales from Continuing Businesses are not necessarily indicative of the results had the new media businesses been operated as stand-alone operations. Eliminations of \$86,817 in 2002 and \$50,762 in 2001 represent intersegment sales (\$4,197 and \$3,466 for the years ended December 31, 2002 and 2001, respectively) and intrasegment sales (\$82,620 and \$47,296 for the years ended December 31, 2002 and 2001, respectively) which are eliminated in consolidation. Total Consumer Segment sales, including Continuing and Non-Core Businesses, for the year ended December 31, 2001 reflect reclassifications related to the adoption of EITF 00-25 and 01-9. The adoption of these pronouncements resulted in a reduction of sales, net of \$20,614, and a corresponding reduction of distribution, circulation and fulfillment expense on the statements of consolidated operations for the year ended December 31, 2001. Revenue recognized in connection with assets-for-equity transactions was approximately \$3,500 and \$36,800 for the years ended December 31, 2002 and 2001, respectively. For the years ended December 31, 2002 and 2001, revenue from barter transactions was approximately \$11,000 and \$27,600, respectively, with equal related expense amounts in each year.

Edgar Filing: PRIMEDIA INC - Form 10-K

SEGMENT EBITDA

Segment EBITDA from Continuing Businesses increased 56.6% to \$237,961 in 2002 from \$151,930 in 2001 primarily due to the acquisition of EMAP (183.2%) whose results were included for periods subsequent to its acquisition date, and cost-cutting measures taken across the segment in 2002 and 2001. Cost cutting actions included significant headcount reductions, the shut-down of unprofitable magazine titles and the rationalization of costs at the Company's Internet operations. The Segment EBITDA margin increased to 17.9% in 2002 compared to 13.2% in 2001.

OPERATING INCOME (LOSS)

Operating income (loss) from Continuing Businesses was \$34,613 in 2002 compared to (\$500,269) in 2001. The increase in operating income was attributable to lower amortization expense (\$445,836) as a result of higher impairment charges in 2001 (\$271,940) as well as the elimination of goodwill and trademark amortization upon the adoption of SFAS 142 (\$171,703). In addition, an increase in Segment EBITDA (\$86,031) and a decrease in non-cash compensation expense contributed to the higher operating income.

BUSINESS-TO-BUSINESS SEGMENT (INCLUDING BUSINESS MAGAZINES AND MEDIA GROUP, WORKPLACE LEARNING AND PRIMEDIA INFORMATION):

SALES, NET

Sales from Continuing Businesses decreased 15.5% to \$357,752 in 2002 from \$423,204 in 2001 before eliminations. The decline in revenue was attributable to industry-wide softness in business-to-business advertising. The majority of the drop occurred in the Company's Business Magazines and Media Group, with the steepest declines in advertising revenue at the telecommunications, entertainment technology, agribusiness and trucking divisions. PRIMEDIA Workplace Learning also saw a revenue decline, in part because of a cyclical pull-back in business demand for corporate training.

These sales include new media sales from Continuing Businesses which increased 12.2% to \$14,025 in 2002 from \$12,502 in 2001. The new media sales include various intracompany and intercompany transactions, which are eliminated in consolidation. As a result, the new media sales from Continuing Businesses are not necessarily indicative of the results had the new media businesses been operated as stand-alone operations. Eliminations of \$23,560 in 2002 and \$14,689 in 2001 represent intersegment sales (\$1,909 and \$364 for the years ended December 31, 2002 and 2001, respectively) and intrasegment sales (\$21,651 and \$14,325 for the years ended December 31, 2002 and 2001, respectively) which are eliminated in consolidation. Revenue recognized in connection with assets-for-equity transactions was approximately \$4,100 and \$10,100 for the years ended December 31, 2002 and 2001, respectively. For the years ended December 31, 2002 and 2001, revenue from barter transactions was approximately \$7,200 and \$9,000, respectively, with equal related expense amounts in each year.

SEGMENT EBITDA

Segment EBITDA from Continuing Businesses decreased 34.9% to \$44,834 in 2002 from \$68,897 in 2001 primarily due to weakness at the Business Magazines and Media Group (\$22,311). The Segment EBITDA margin decreased to 12.5% in 2002 compared to 16.3% in 2001 primarily due to softness in business-to-business advertising partially offset by cost cutting measures, including significant staff reductions in the Business Magazines and Media Group. The segment also

Edgar Filing: PRIMEDIA INC - Form 10-K

recorded one-time credits of \$1,842 in 2002 and \$4,000 in 2001 related to reversals of sales tax accruals in both years and an insurance refund of \$521 in 2002.

OPERATING INCOME (LOSS)

Operating loss from Continuing Businesses was \$99,239 in 2002 compared to \$22,938 in 2001. The increase was attributable to lower EBITDA (\$24,063) and an increase in amortization expense (\$62,380) primarily due to higher impairment charges during 2002 (\$79,261), partially offset by the elimination of goodwill and trademark amortization upon the adoption of SFAS 142 (\$9,680) and a decrease in amortization expense in 2002 for definite lived intangible assets.

CORPORATE:

Corporate EBITDA losses reflect corporate overhead and other expenses not allocated to one of the Company's segments. EBITDA losses increased by 1.2% to \$32,710 in 2002 from \$32,308 in 2001. This increase was due to higher professional fees and certain incremental technology and consulting costs partially offset by headcount reductions. The Company is committed to continuing its investment in better systems and technology.

Operating loss decreased to \$50,139 in 2002 from \$63,486 in 2001. Operating loss includes \$11,624 and \$30,199 of non-cash compensation and non-recurring charges during the years ended December 31, 2002 and 2001, respectively, representing executive compensation in the form of stock and option grants and the extension of certain stock option expiration periods. In addition, the operating loss includes a provision for severance, closures and restructuring related costs of \$3,570 and \$7,298 during the years ended December 31, 2002 and 2001, respectively. This provision is comprised of employee related termination costs and real estate lease commitments for space that the Company no longer occupies.

NON-CORE BUSINESSES:

During 2001, the Company shut down or divested approximately 40 properties. Segment EBITDA losses from these properties approximated \$36,800 for the year ended December 31, 2001. These Segment EBITDA losses were partially offset by positive Segment EBITDA at Bacon's, which was divested during 2001, resulting in a net Segment EBITDA loss for the Non-Core Businesses of \$28,340.

Corporate administrative costs of approximately \$1,900 and \$9,900 were allocated to the Non-Core Businesses during the years ended December 31, 2002 and 2001, respectively. The Company believes that these costs, many of which are transaction driven, such as the processing of payables and payroll, will be permanently reduced or eliminated due to the shutdown or divestiture of the Non-Core Businesses.

Effective June 30, 2002, the Company has not classified any additional businesses as Non-Core Businesses nor will any additional costs be allocated to the Non-Core Businesses subsequent to this date.

DISCONTINUED OPERATIONS:

In 2002, the Company completed the sale of the MBG, which included Modern Bride plus 16 regional bridal magazines, ExitInfo, Chicago, Horticulture, Doll Reader, IN New York and the American Baby Group. In accordance with SFAS 144, the operating results of these divested entities have been reclassified to discontinued operations on the statements of consolidated operations for the years ended December 31, 2002 and 2001. Sales from Continuing Businesses excludes sales from discontinued operations of \$82,476 and \$143,322 for the years ended December 31, 2002 and 2001, respectively. Segment EBITDA from

Edgar Filing: PRIMEDIA INC - Form 10-K

Continuing Businesses excludes Segment EBITDA from discontinued operations of \$8,502 and \$11,587 for the years ended December 31, 2002 and 2001, respectively. The discontinued operations include expenses related to certain

20

centralized functions that are shared by multiple titles, such as production, circulation, advertising, human resource and information technology costs but exclude general overhead costs. These costs were allocated to the discontinued entities based upon relative revenues for the related periods. The allocation methodology is consistent with that used across the Company. Management has allocated direct incremental costs of \$3,357 and \$5,112 to the discontinued operations for the years ended December 31, 2002 and 2001, respectively.

RESULTS OF OPERATIONS

2001 COMPARED TO 2000

CONSOLIDATED RESULTS:

SALES, NET

Consolidated sales from Continuing Businesses increased 6.4% to \$1,504,822 in 2001 from \$1,413,758 in 2000. The growth in the consumer segment of \$160,588 was partially offset by a decline in the business-to-business segment of \$50,385 before intercompany and intracompany eliminations, further detailed below. Total sales, including Continuing and Non-Core Businesses, increased 2.0% to \$1,578,357 in 2001 from \$1,547,491 in 2000. On January 1, 2002, the Company adopted EITF No. 00-25 and 01-9 which resulted in a net reclassification of product placement costs previously classified as distribution, circulation and fulfillment expense on the statements of consolidated operations to reductions of sales from such activities. The reclassification resulted in a net decrease in sales and a corresponding decrease in operating expenses of \$20,614 and \$15,298 for the years ended December 31, 2001 and 2000, respectively.

During 2001 and 2000, the Company entered various assets-for-equity transactions, some of which also included cash consideration. The non-cash consideration was comprised of advertising, content licensing and other services to be rendered by the Company in exchange for equity in these entities. The Company recognizes these amounts as revenue in accordance with the Company's revenue recognition policies. Revenue recognized in connection with these assets-for-equity transactions was approximately \$46,900 and \$43,400 during the years ended December 31, 2001 and 2000, respectively. In addition, for the years ended December 31, 2001 and 2000, revenue from barter transactions was approximately \$36,600 and \$7,900, respectively, with equal related expense amounts in each year.

SEGMENT EBITDA

Segment EBITDA from Continuing Businesses decreased 26.5% to \$188,519 in 2001 from \$256,358 in 2000 due to decreases of \$24,326 and \$45,179 related to the Consumer and Business-to-Business segments, respectively, further detailed below. Total Segment EBITDA, including Continuing and Non-Core Businesses, decreased 31.3% to \$160,179 in 2001 from \$233,187 in 2000 due to declines in both segments.

OPERATING INCOME (LOSS)

Operating income (loss) from Continuing Businesses was (\$586,693) in 2001 compared to \$64,037 in 2000. This decrease was primarily due to an increase in amortization expense of \$497,062 of which approximately \$154,400 related to acquisitions and approximately \$345,000 related to the impairment of long-lived

Edgar Filing: PRIMEDIA INC - Form 10-K

assets of our Continuing Businesses, primarily goodwill. These impairments, further detailed below, were the result of certain product discontinuances as well as the Company's determination that the estimated future undiscounted cash flows were not sufficient to cover the carrying value of these assets. Total operating income (loss), including Continuing and Non-Core Businesses, was (\$680,702) in 2001 compared to \$20,401 in 2000.

NET LOSS

Interest expense increased by \$1,972 or 1.4% in 2001 compared to 2000 due to increased borrowings under the Company's bank credit facilities to finance the 2001 EMAP acquisition.

21

During 2001 and 2000, the net deferred income tax asset was reduced by \$135,000 and \$41,200, respectively, as the Company increased its valuation allowance and recorded a related provision for income taxes due to continued historical operating losses and the impairment of long-lived assets, primarily goodwill and investments.

CONSUMER SEGMENT (INCLUDING CONSUMER MAGAZINE AND MEDIA GROUP, CONSUMER GUIDES, PRIMEDIA TELEVISION AND ABOUT):

SALES, NET

Sales from Continuing Businesses increased 16.3% to \$1,147,069 in 2001 from \$986,481 in 2000 before eliminations primarily due to growth at the Company's Consumer Guides (\$26,582) and the acquisitions of About and EMAP whose combined results (approximately \$139,100) are included in the Consumer segment for the periods subsequent to their respective acquisition dates.

Sales includes new media sales from Continuing Businesses which increased 230.6% to \$82,868 in 2001 from \$25,068 in 2000, primarily due to acquisitions and organic growth at apartmentguide.com (approximately \$52,800) of which approximately \$10,200 represents organic growth. These new media sales include the allocation of bundled revenues (print and online billed together) and various intracompany and intercompany transactions, which are eliminated in consolidation. As a result, the new media sales from Continuing Businesses are not necessarily indicative of the results had the new media businesses been operated as stand-alone operations. Eliminations of \$50,762 in 2001 and \$33,114 in 2000 represent intersegment sales (\$3,466 and \$1,616 for the years ended December 31, 2001 and 2000, respectively) and intrasegment sales (\$47,296 and \$31,498 for the years ended December 31, 2001 and 2000, respectively) which are eliminated in consolidation. Total Consumer segment sales, including Continuing and Non-Core Businesses, reflect reclassifications related to the adoption of EITF 00-25 and 01-9. The adoption of these pronouncements resulted in a reduction of sales, net of \$20,614 and \$15,298 and a corresponding reduction of distribution, circulation and fulfillment expense on the statements of consolidated operations for the years ended December 31, 2001 and 2000, respectively. Revenue recognized in connection with assets-for-equity transactions, which was generally in the traditional businesses, was approximately \$36,800 and \$30,000 for the years ended December 31, 2001 and 2000, respectively. For the years ended December 31, 2001 and 2000, revenue from barter transactions was approximately \$27,600 and \$1,900, respectively, with equal related expense amounts in each year.

SEGMENT EBITDA

Segment EBITDA from Continuing Businesses decreased 13.8% to \$151,930 in 2001 from \$176,256 in 2000 primarily due to Segment EBITDA declines at certain consumer magazines (\$35,707 in the aggregate) resulting from advertising

Edgar Filing: PRIMEDIA INC - Form 10-K

softness, partially offset by growth at Consumer Guides (\$19,050) and a Segment EBITDA increase from the acquisitions of EMAP and About (approximately \$2,800 net) whose results are included for periods subsequent to their respective acquisition dates. The Segment EBITDA margin decreased to 13.2% in 2001 compared to 17.9% in 2000 primarily due to increased industry-wide advertising softness as well as increased Internet spending as a result of the About acquisition.

OPERATING INCOME (LOSS)

Operating income (loss) from Continuing Businesses was (\$500,269) in 2001 compared to \$77,466 in 2000. The decrease in operating income was attributable to an increase in goodwill and intangibles amortization expense as a result of the About and EMAP acquisitions (approximately \$154,400) and the write-off of goodwill approximating \$326,300 relating to About. This write-off was the result of the Company's determination that the estimated future undiscounted cash flows were not sufficient to cover the carrying value of the goodwill. This determination did not reflect other benefits realized or expected to be realized, across PRIMEDIA, as a result of the integration of About. In addition, the decrease in Segment EBITDA and increase in provision for severance, closures and restructuring related costs also contributed to the increased operating loss in 2001.

22

BUSINESS-TO-BUSINESS SEGMENT (INCLUDING BUSINESS MAGAZINES AND MEDIA GROUP, WORKPLACE LEARNING AND PRIMEDIA INFORMATION):

SALES, NET

Sales from Continuing Businesses decreased 10.6% to \$423,204 in 2001 from \$473,589 in 2000 before eliminations primarily due to industry advertising softness at certain business-to-business magazines and trade shows (approximately \$49,500).

Sales includes new media sales from Continuing Businesses which decreased 2.8% to \$12,502 in 2001 from \$12,860 in 2000. The new media sales include various intracompany and intercompany transactions which are eliminated in consolidation. As a result, the new media sales from Continuing Businesses are not necessarily indicative of the results had the new media businesses been operated as stand-alone operations. Eliminations of \$14,689 in 2001 and \$13,198 in 2000 represent intersegment sales (\$364 and \$0 for the years ended December 31, 2001 and 2000, respectively) and intrasegment sales (\$14,325 and \$13,198 for the years ended December 31, 2001 and 2000, respectively) which are eliminated in consolidation. Revenue recognized in connection with assets-for-equity transactions was approximately \$10,100 and \$13,400 for the years ended December 31, 2001 and 2000, respectively. For the years ended December 31, 2001 and 2000, revenue from barter transactions was approximately \$9,000 and \$6,000, respectively, with equal related expense amounts in each year.

SEGMENT EBITDA

Segment EBITDA from Continuing Businesses decreased 39.6% to \$68,897 in 2001 from \$114,076 in 2000 primarily due to weakness at the Business Magazines and Media Group (approximately \$42,800). The Segment EBITDA margin decreased to 16.3% in 2001 compared to 24.1% in 2000 primarily due to softness in business-to-business advertising.

OPERATING INCOME (LOSS)

Operating income (loss) from Continuing Businesses, was (\$22,938) in 2001 compared to \$50,750 in 2000. The decrease in operating income was attributable

Edgar Filing: PRIMEDIA INC - Form 10-K

to lower EBITDA levels and an increase in amortization expense related to the write-off of goodwill and intangible assets at certain Business-to-Business segment products (approximately \$17,700). This write-off was the result of the Company's determination that the estimated future undiscounted cash flows were not sufficient to cover the carrying value of certain long-lived assets, primarily goodwill.

CORPORATE:

Segment EBITDA losses decreased to \$32,308 in 2001 from \$33,974 in 2000.

Operating loss decreased to \$63,486 in 2001 from \$64,179 in 2000. Operating loss includes \$30,199 and \$27,810 of non-cash compensation and non-recurring charges during the years ended December 31, 2001 and 2000, respectively, representing executive compensation in the form of stock and option grants and the extension of certain stock option expiration periods. In addition, the operating loss includes a provision for severance, closures and restructuring related costs of \$7,298 and \$14,371 during the years ended December 31, 2001 and 2000, respectively.

NON-CORE BUSINESSES:

Sales from Non-Core Businesses decreased to \$73,535 in 2001 from \$133,733 in 2000 due to the completion of certain divestitures.

Segment EBITDA from the Non-Core Businesses was \$(28,340) in 2001 compared to \$(23,171) in 2000. Corporate administrative costs of approximately \$9,900 and \$9,600 were allocated to the Non-Core Businesses during the years ended December 31, 2001 and 2000, respectively. The Company believes that

23

these costs, many of which are transaction driven, such as the processing of payables and payroll, will be permanently reduced or eliminated due to the shutdown or divestiture of the Non-Core Businesses.

During 2001, the Company shut down or divested approximately 40 properties. Segment EBITDA losses from these properties approximated \$36,800 for the year ended December 31, 2001 and were partially offset by positive Segment EBITDA at Bacon's, which was divested during 2001, resulting in a net Segment EBITDA loss for the Non-Core businesses of \$28,340.

Operating loss from Non-Core Businesses increased to \$94,009 in 2001 from \$43,636 in 2000 due to the decline in Segment EBITDA. Operating loss includes an increase in depreciation and amortization primarily due to impairments of long-lived assets, primarily goodwill (approximately \$111,000), resulting from the Company's decision to shutdown certain operations which was offset by the gain on the sale of Bacon's of approximately \$54,600. In November 2001, the Company completed the sale of Bacon's to Observer AB for \$90,000, \$15,000 of which represented a note receivable as of December 31, 2001 which was collected in 2002. The proceeds from the sale were used primarily to pay down borrowings under the Company's credit facilities.

DISCONTINUED OPERATIONS

In 2002, the Company completed the sale of the MBG, which includes Modern Bride plus 16 regional bridal magazines, ExitInfo, Chicago, Horticulture, Doll Reader, IN New York and the American Baby Group. Upon adoption of SFAS 144 on January 1, 2002, the operating results of these divested entities have been reclassified to discontinued operations on the statements of consolidated operations for the years ended December 31, 2001 and 2000, respectively. Sales from Continuing Businesses excludes sales from discontinued operations of

Edgar Filing: PRIMEDIA INC - Form 10-K

\$143,322 and \$128,163 for the years ended December 31, 2001 and 2000, respectively. Segment EBITDA from Continuing Businesses excludes Segment EBITDA from discontinued operations of \$11,587 and \$23,492 for the years ended December 31, 2001 and 2000, respectively. The discontinued operations include expenses related to certain centralized functions that are shared by multiple titles, such as production, circulation, advertising, human resource and information technology costs but exclude general overhead costs. These costs were allocated to the discontinued entities based upon relative revenues for the related periods. The allocation methodology is consistent with that used across the Company. Management has allocated direct incremental costs of \$5,112 and \$4,020 to the discontinued operations for the years ended December 31, 2001 and 2000, respectively.

RISK FACTORS

Set forth below are risks and uncertainties that could cause actual results to differ materially from the results contemplated by the forward-looking statements contained in this Annual Report.

GENERAL ECONOMIC TRENDS MAY REDUCE OUR ADVERTISING REVENUES.

Our advertising revenues are subject to the risks arising from adverse changes in domestic and global economic conditions. A decline in the level of business activity of our advertisers has had an adverse effect on our revenues and profit margins. Because of the recent economic slowdown in the United States, many advertisers, particularly business-to-business advertisers, are reducing advertising expenditures. The further impact of this slowdown on us is difficult to predict, but it may result in further reductions in advertising revenue. If the current economic slowdown continues or worsens, or if the current geopolitical risk materializes, our results of operations may be adversely affected.

WE HAVE SUBSTANTIAL INDEBTEDNESS AND OTHER MONETARY OBLIGATIONS, WHICH CONSUME A SUBSTANTIAL PORTION OF THE CASH FLOW THAT WE GENERATE.

A substantial portion of our cash flow is dedicated to the payment of interest on indebtedness and to the payment of dividends on our preferred stock, which reduces funds available for capital expenditures

24

and business opportunities and may limit our ability to respond to adverse developments in our business or in the economy.

OUR DEBT INSTRUMENTS LIMIT OUR BUSINESS FLEXIBILITY BY IMPOSING OPERATING AND FINANCIAL RESTRICTIONS ON OUR OPERATIONS.

The agreements and indentures governing our indebtedness impose specific operating and financial restrictions on us. These restrictions impose limitations on our ability to, among other things:

- change the nature of our business;
- incur additional indebtedness;
- create liens on our assets;
- sell assets;
- issue stock;
- engage in mergers, consolidations or transactions with our affiliates;

Edgar Filing: PRIMEDIA INC - Form 10-K

- make investments in or loans to specific subsidiaries;
- make guarantees or specific restricted payments; and
- declare or make dividend payments on our common or preferred stock.

INCREASES IN PAPER AND POSTAGE COSTS MAY HAVE AN ADVERSE IMPACT ON OUR FUTURE FINANCIAL RESULTS.

The price of paper is a significant expense relating to our print products and direct mail solicitations. Paper price increases may have an adverse effect on our future results. Postage for product distribution and direct mail solicitations is also a significant expense. We use the U.S. Postal Service for distribution of many of our products and marketing materials. Postage costs increased in July 2002 and can be expected to increase in the future. We may not be able to pass these cost increases through to our customers.

INCOMPATIBLE FINANCIAL SYSTEMS LIMIT THE COMPANY'S ABILITY TO OPERATE EFFICIENTLY.

PRIMEDIA is the result of numerous acquisitions since its inception in 1989. Many of the companies acquired had financial systems which are incompatible. Incompatible financial systems across PRIMEDIA have negatively impacted the Company's ability to efficiently analyze data and respond to business opportunities on a timely basis. Significant capital expenditures are necessary to upgrade and standardize financial systems across the Company. Despite the economic slowdown, the Company is engaged in upgrading its key financial systems, which are designed to make the financial reporting and analysis functions more efficient. To address management's concerns regarding the current lack of compatible financial systems across the Company and the demands surrounding increased financial disclosure, the Company has begun to install an integrated enterprise-wide financial system across all companies. Several smaller units have already been converted to an integrated enterprise-wide financial system this year with the remaining units to be converted over the next 12 months. Despite the difficult economic environment, the Company plans to spend approximately \$20 million on the systems upgrade, of which approximately \$5 million has been spent during 2002. However, it will take approximately 18 months to complete the systems upgrade and fully realize the planned benefits of an integrated enterprise-wide financial system. The Company recognizes that there are inherent risks in a system implementation and has taken reasonable steps to mitigate these risks.

25

WE DEPEND ON SOME IMPORTANT EMPLOYEES, AND THE LOSS OF ANY OF THOSE EMPLOYEES MAY HARM OUR BUSINESS.

Our performance is substantially dependent on the performance of our executive officers and other key employees. In addition, our success is dependent on our ability to attract, train, retain and motivate high quality personnel, especially for our management team. The loss of the services of any of our executive officers or key employees may harm our business.

The decline in advertising revenues has necessitated cost cuts including the reduction of certain personnel at the Company. Such workforce reductions may impact the ability of remaining personnel to perform their assigned responsibilities in an efficient manner, due to the increased volume of work being generated in the financial area, among other things, by the process of converting our systems. The Company believes that it has in place the necessary financial workforce to analyze data and has put in place additional financial personnel during the period prior to the completion of the financial systems

Edgar Filing: PRIMEDIA INC - Form 10-K

upgrade, in order to improve the efficiency of financial analysis and mitigate the risk of employee turnover.

The Company's management is concerned about the intense competition in this economy for the hiring and retention of qualified financial personnel, the current lack of compatible financial systems across the Company and the demands surrounding increased financial disclosure. To mitigate management's concerns regarding the hiring and retention of qualified financial personnel and to ensure future stability in the financial workforce, the Company has upgraded the skill level of its back office personnel, consolidated certain back office functions and cross trained and continues to cross train individuals in the performance of multiple job functions, and is continuing to aggressively recruit qualified professionals to strengthen and increase its financial personnel. The Company is currently close to being fully staffed in the finance area.

LIQUIDITY, CAPITAL AND OTHER RESOURCES

The Company believes its liquidity, capital resources and cash flow are sufficient to fund planned capital expenditures, working capital requirements, interest and principal payments on its debt, the payment of preferred stock dividends and other anticipated expenditures in 2003. The Company has implemented and continues to implement various cost-cutting programs and cash conservation plans, which involve the limitation of capital expenditures and the control of working capital. These plans should help mitigate any future possible cash flow shortfalls.

WORKING CAPITAL

Consolidated working capital deficiency, which includes current maturities of long-term debt, was \$248,280 at December 31, 2002 compared to \$221,047 at December 31, 2001. The change in working capital is primarily attributable to a decrease in accounts receivable attributable to lower sales which was only partially offset by a decrease in accounts payable and accrued expenses related to company-wide cost reductions. Consolidated working capital reflects certain industry working capital practices and accounting principles, including the recording of deferred revenue from subscriptions as a current liability as well as the expensing of certain advertising, editorial and product development costs as incurred.

As of December 31, 2002, the Company had cash and unused credit facilities of \$302,165 as further discussed below.

CASH FLOW - 2002 COMPARED TO 2001

Net cash provided by (used in) operating activities, as reported, during 2002 after interest payments of \$141,696, increased to \$50,281 as compared to (\$101,348) during 2001, primarily due to the increase in Segment EBITDA. Net capital expenditures decreased 35.5% to \$39,163 during 2002 compared to \$60,740 during 2001 due primarily to the Company's efforts to control capital spending. As in 2001, the Company also continued to reduce capital investment in its new media operations. The Company expects the level of capital spending to increase in 2003 as it continues to invest in enterprise-wide financial systems. Net cash

26

provided by (used in) investing activities during 2002 was \$194,783 primarily due to proceeds from the divestiture program compared to (\$407,057) during 2001 primarily due to the acquisition of EMAP. Net cash provided by (used in) financing activities during 2002 was (\$260,099) primarily due to the use of divestiture proceeds to pay down debt compared to \$518,303 during 2001, which represented proceeds from equity and debt issuances primarily used to finance the acquisition activity.

Edgar Filing: PRIMEDIA INC - Form 10-K

CASH FLOW - 2001 COMPARED TO 2000

Net cash provided by (used in) operating activities, as reported, during 2001 after interest payments of \$128,639, decreased to (\$101,348) as compared to \$52,546 during 2000, primarily due to the decrease in Segment EBITDA of \$73,008, as well as payments related to accounts payable and other accrued expenses of approximately \$59,974. Net capital expenditures decreased 21.7% to \$60,740 during 2001 compared to \$77,579 during 2000 due primarily to higher levels of spending during 2000 on new office space and capitalized software expenditures associated with the Company's new media operations. Net cash used in investing activities during 2001 was \$407,057 compared to \$54,644 during 2000. This increase was primarily due to the EMAP acquisition of \$515,000 partially offset by the cash acquired from the About acquisition of \$109,490. Net cash provided by (used in) financing activities during 2001 was \$518,303 compared to (\$2,873) during 2000. The change was primarily attributable to proceeds from the debt drawdowns of approximately \$265,000 and equity issuances associated with the EMAP financing of approximately \$250,000.

FINANCING ARRANGEMENTS

On June 20, 2001, the Company completed a refinancing of its existing bank credit facilities pursuant to new bank credit facilities with The Chase Manhattan Bank, Bank of America, N.A., The Bank of New York, and The Bank of Nova Scotia, as agents. The debt under the credit agreement and as otherwise permitted under the credit agreement and the indebtedness relating to the Senior Notes of the Company is secured by a pledge of the stock of PRIMEDIA Companies Inc., an intermediate holding company owned directly by the Company which owns directly or indirectly all shares of PRIMEDIA subsidiaries that guarantee such debt (as well as certain of the Company's other equally and ratably secured indebtedness). Borrowings under the bank credit facilities are guaranteed by each of our wholly owned domestic restricted subsidiaries as determined by the Company's management in accordance with the provisions and limitations of the Company's credit agreement. Certain of our subsidiaries are not guarantors of the bank credit facilities.

Substantially all proceeds from sales of businesses and other investments were used to pay down borrowings under the credit agreement. Amounts under the bank credit facilities may be reborrowed and used for general corporate and working capital purposes as well as to finance certain future acquisitions. The bank credit facilities consist of the following:

	REVOLVER	TERM A	TERM B	TOTAL
	-----	-----	-----	-----
Credit Facility.....	\$451,000	\$ 95,000	\$ 397,731	\$ 943,731
Borrowings Outstanding.....	(148,000)	(95,000)	(397,731)	(640,731)
Letters of Credit Outstanding.....	(19,388)	--	--	(19,388)
	-----	-----	-----	-----
Unused Bank Commitments.....	\$283,612	\$ --	\$ --	\$ 283,612
	=====	=====	=====	=====

With the exception of the Term Loan B, the amounts borrowed bear interest, at the Company's option, at either the base rate plus an applicable margin ranging from .125% to 1.5% or the Eurodollar Rate plus an applicable margin ranging from 1.125% to 2.5%. The term loan B bears interest at the base rate plus 1.75% or the Eurodollar Rate plus 2.75%. At December 31, 2002, the weighted average variable interest rate on all outstanding borrowings under the bank credit facilities was approximately 4.4%.

Under the bank credit facilities, the Company has agreed to pay commitment fees at a per annum rate of either .375% or .5%, depending on its debt to EBITDA ratio, as defined in the credit agreement, on the daily average aggregate unutilized commitment under the revolving loan commitment. During 2002, the Company's commitment fees totaling \$953 were paid at a weighted average rate of .5%. The Company also has agreed to pay certain fees with respect to the issuance of letters of credit and an annual administration fee.

The commitments under the revolving loan facility are subject to mandatory reductions semi-annually on June 30 and December 31, commencing December 31, 2004, with the final reduction on June 30, 2008. The aggregate mandatory reductions of the revolving loan commitments under the bank credit facilities are \$22,550 in 2004, \$45,100 in 2005, \$67,650 in 2006, \$135,300 in 2007 and a final reduction of \$180,400 in 2008. To the extent that the total revolving credit loans outstanding exceed the reduced commitment amount, these loans must be paid down to an amount equal to or less than the reduced commitment amount. However, if the total revolving credit loans outstanding do not exceed the reduced commitment amount, then there is no requirement to pay down any of the revolving credit loans. In 2002, the Company voluntarily reduced the commitment under the revolving loan facility by \$24,000. Aggregate term loan payments under the bank credit facilities are \$4,038 in 2003, \$15,913 in 2004, \$27,788 in 2005, 2006 and 2007, \$15,913 in 2008 and \$373,503 in 2009. During 2002, the Company made voluntary pre-payments towards the Term Loans A and B in the amounts of \$5,000 and \$21,000, respectively.

The bank credit facilities, among other things, limit the Company's ability to change the nature of its businesses, incur indebtedness, create liens, sell assets, engage in mergers, consolidations or transactions with affiliates, make investments in or loans to certain subsidiaries, issue guarantees and make certain restricted payments including dividend payments on and or repurchases of the Company's common stock in excess of \$75,000 in any given year.

The bank credit facilities and senior notes of the Company contain certain customary events of default which generally give the banks or the noteholders, as applicable, the right to accelerate payments of outstanding debt. Under the bank credit facilities, these events include:

- failure to maintain required covenant ratios, as described below;
- failure to make a payment of principal, interest or fees within five days of its due date;
- default, beyond any applicable grace period, on any aggregate indebtedness of PRIMEDIA exceeding \$20,000;
- occurrence of certain insolvency proceedings with respect to PRIMEDIA or any of its material subsidiaries;
- entry of one judgment or decree involving a liability of \$15,000 or more (or more than one involving an aggregate liability of \$25,000 or more); and
- occurrence of certain events constituting a change of control of the Company.

The events of default contained in PRIMEDIA's senior notes are similar to, but generally less restrictive than, those contained in the Company's bank credit facilities.

Edgar Filing: PRIMEDIA INC - Form 10-K

Under the most restrictive debt covenants as defined in the Company's credit agreement, the Company must maintain a minimum interest coverage ratio, as defined, of 1.80 to 1 and a minimum fixed charge coverage ratio, as defined, of 1.05 to 1. The Company's maximum allowable debt leverage ratio, as defined, is 6.0 to 1. The maximum leverage ratio decreases to 5.75 to 1, 5.5 to 1, 5.0 to 1 and 4.5 to 1, respectively, on July 1, 2003, January 1, 2004, January 1, 2005 and January 1, 2006. The minimum interest coverage ratio increases to 2.0 to 1, 2.25 to 1 and 2.5 to 1, respectively, on July 1, 2003, January 1, 2004 and January 1, 2005. The Company is in compliance with the financial and operating covenants of its financing arrangements.

28

The Company is herewith providing detailed information and disclosure as to the methodology used in determining compliance with the leverage test in the credit agreements. The purpose for providing this information is to provide more clarity as to the substantial amount of disclosure already provided. Under its various credit and senior note agreements, the Company is allowed to designate certain businesses as unrestricted subsidiaries to the extent that the value of those businesses does not exceed the permitted amounts, as defined in these agreements. The Company has designated certain of its businesses as unrestricted (the "Unrestricted Group"), which primarily represent Internet businesses, trademark and content licensing and service companies, new launches (including traditional start-ups), other properties under evaluation for turnaround or shutdown and foreign subsidiaries. Indebtedness under the bank credit facilities and senior note agreements is guaranteed by each of the Company's domestic restricted subsidiaries in accordance with the provisions and limitations of the Company's credit and senior note agreements. The guarantees are full, unconditional and joint and several. The Unrestricted Group does not guarantee the bank credit facilities or senior notes, and its results (positive or negative) are not reflected in the EBITDA of the Restricted Group, as defined in the Company's credit and senior note agreements for purposes of determining compliance with certain financial covenants under these agreements. The Company has established intracompany and intercompany arrangements that implement transactions, such as leasing, licensing, sales and related services and cross-promotion, between restricted and unrestricted subsidiaries, on an arms' length basis and as permitted by the credit and senior note agreements. These intracompany and intercompany arrangements afford strategic benefits across the Company's properties and, in particular, enable the Unrestricted Group to utilize established brands and content, promote brand awareness and increase traffic and revenue to the Company's new media properties. For company-wide consolidated financial reporting, these intracompany and intercompany transactions are eliminated in consolidation. Additionally, the EBITDA of the Restricted Group, as determined for purposes of the leverage ratio and the pricing of the loans under the credit agreement in accordance with these agreements, omits restructuring charges and is adjusted for the trailing four quarters results of acquisitions and divestitures and estimated savings for acquired businesses.

As calculated per the definition within leverage covenants in the Company's credit agreement, EBITDA of the Restricted Group (as defined) for the year ended December 31, 2002 was \$379,225. The EBITDA of the Restricted Group can be derived by adding back the EBITDA loss of the Unrestricted Group to the EBITDA set forth on the condensed statements of consolidated operations and adjusting for the net pro forma effect of acquisitions/divestitures and a number of other adjustments.

Total Segment EBITDA for the year ended December 31, 2002 was \$246,832. The EBITDA of the Unrestricted Group for 2002 was a loss of \$131,966. Adjustments (such as divestitures and non-recurring cash charges), which are included in the compliance calculations, were \$427 for the year ended December 31, 2002. The EBITDA loss of the Unrestricted Group is comprised of the following categories

Edgar Filing: PRIMEDIA INC - Form 10-K

in the following percentages for the year ended December 31, 2002: Internet properties 65%; traditional turnaround and start-up properties 26%; non-core properties 2%; and related overhead and other charges 7%. The majority of the losses on Internet properties for the year ended December 31, 2002 relates to intercompany and intracompany transactions (including trademark/content licensing and cross promotion).

The calculation of the Company's leverage ratio, as required under the credit agreement for covenant purposes, is defined as the Company's consolidated debt divided by the EBITDA of the Restricted Group. At December 31, 2002, this leverage ratio was approximately 4.6 to 1, an improvement from the corresponding ratio at December 31, 2001 of approximately 5.5 to 1.

As a result of the refinancing of the Company's existing bank credit facilities in 2001, the Company wrote-off the remaining balances of deferred financing costs originally recorded approximating \$7,250. This write-off is included within amortization of deferred financing costs on the statement of consolidated operations for the year ended December 31, 2001 included elsewhere in this Annual Report.

The 8 1/2% Senior Notes are due in February 2006, the 7 5/8% Senior Notes are due in April 2008 and the 8 7/8% Senior Notes are due in May 2011. On March 5, 2003, the Company redeemed its \$84,175 10 1/4%

29

Senior Notes. These notes were called at redemption value plus accrued interest of \$2,229. These notes were redeemed 15 months ahead of maturity and this redemption will save the Company approximately \$7,000 in net cash interest payments. The Company funded this transaction with additional borrowings under its credit facilities.

During the third quarter of 2002, the Board of Directors authorized the Company to expend up to \$20,000 for the purchase of its senior notes in private or public transactions. In the fourth quarter of 2002, the Board of Directors increased the authorization to an aggregate of \$90,000. In 2002, the Company repurchased \$15,825 of the 10 1/4% Senior Notes (carrying value of \$15,825) for \$14,300 plus accrued interest, \$8,500 of the 8 1/2% Senior Notes (carrying value of \$8,485) for \$7,838 plus accrued interest, \$23,885 of the 7 5/8% Senior Notes (carrying value of \$23,806) for \$21,089 plus accrued interest and \$24,500 of the 8 7/8% Senior Notes (carrying value of \$24,176) for \$21,210 plus accrued interest. The Senior Note purchases include fees associated with these purchases. These purchases resulted in a gain of \$7,855 recorded in other, net on the statement of consolidated operations for the year ended December 31, 2002, included elsewhere in this Annual Report.

A change in the rating of our debt instruments by the outside rating agencies does not negatively impact our ability to use our available lines of credit or the borrowing rate under our credit facilities. As of March 1, 2003, the Company's senior debt rating from Moody's was B3 and from Standard and Poor's was B.

There are no significant required debt repayments until 2006. The contractual obligations of the Company, adjusted to reflect the Company's early redemption of its 10 1/4% Senior Notes in March 2003, are as follows:

CONTRACTUAL CASH OBLIGATIONS	TOTAL	LESS THAN 1 YEAR	1-3 YEARS	4-5 YEARS	AFTER 5 YEAR
-----	-----	-----	-----	-----	-----

The Company has no variable interest (otherwise known as "special purpose") entities or off balance sheet debt, other than as related to operating leases in the ordinary course of business and the contingent liability with NBC Sports relating to the Gravity Games, which are more fully disclosed below.

OTHER ARRANGEMENTS

Two senior executives of About entered into share lockup agreements with the Company. Under the terms of those agreements, during the first year after the closing of the merger, the executives could sell a portion of their shares of the Company's common stock, subject to the Company's right of first refusal with respect to any sale. In the event that the gross proceeds received on sale were less than \$33,125 (assuming all shares are sold), the Company agreed to pay the executives the amount of such shortfall ("the Shortfall Payment").

A liability of approximately \$18,400, representing the Shortfall Payment based on the fair value of the Company's common stock, was included as a component of accrued expenses and other on the consolidated balance sheet at December 31, 2001. In 2002, the Company paid approximately \$21,000 related to these agreements.

As a result of one of these executives leaving the Company, effective December 2001, half of his restricted shares (1,105,550 shares) and options (1,302,650 options) were accelerated and the remainder were forfeited, resulting in a reversal of unearned compensation of \$19,166 during the fourth quarter of 2001. The accelerated options expired unexercised during the first quarter of 2002.

30

During the first quarter of 2002, the Board of Directors authorized the exchange by the Company of up to approximately \$100,000 of exchangeable preferred stock. During May 2002, the Board of Directors increased the authorization to an aggregate of approximately \$165,000 of exchangeable preferred stock. During 2002, the Company exchanged \$23,013 liquidation value of Series D Exchangeable Preferred Stock (carrying value of \$22,650) for 4,467,033 shares of common stock, \$22,667 liquidation value of Series F Exchangeable Preferred Stock (carrying value of \$22,103) for 4,385,222 shares of common stock and \$35,911 liquidation value of Series H Exchangeable Preferred Stock (carrying value of \$35,152) for 8,368,516 shares of common stock. The Company recognized a gain of \$32,788 on these exchanges which is included in additional paid in capital on the Company's consolidated balance sheet as of December 31, 2002 and in preferred stock dividends and related accretion, net, on the statement of consolidated operations for the year ended December 31, 2002. The Company expects to realize approximately \$7,000 in annualized cash savings from reduced dividend payments associated with its exchangeable preferred stock.

FINANCING ARRANGEMENTS - EMAP FINANCING

On August 24, 2001, the Company acquired 100% of the outstanding common stock of the publishing business of EMAP. The total consideration was \$525,000, comprised of \$515,000 in cash, including an estimate of working capital settlements of \$10,000 (which is subject to final settlement), and warrants to

Edgar Filing: PRIMEDIA INC - Form 10-K

acquire 2,000,000 shares of the Company's common stock at \$9 per share. The fair value of the warrants was approximately \$10,000 and was determined using a Black Scholes pricing model. These warrants expire ten years from the date of issuance.

The Company financed the acquisition of EMAP by (1) issuing 1,000,000 shares of Series J Convertible Preferred Stock to KKR 1996 Fund (a limited partnership associated with Kohlberg Kravis Roberts & Co. L.P., ("KKR") a related party of the Company) for \$125,000 and (2) drawing upon its revolving credit facility in an amount of approximately \$265,000. In addition, KKR 1996 Fund purchased from the Company \$125,000 of common stock and Series K Convertible Preferred Stock, both at a price per share equal to \$4.70. This resulted in an additional 10,800,000 shares of common stock and 15,795,745 shares of Series K Convertible Preferred Stock. On September 27, 2001, all of the issued and outstanding shares of the Series K Convertible Preferred Stock were, in accordance with their terms, converted into 15,795,745 shares of the Company's common stock.

The Series J Convertible Preferred Stock is convertible at the option of the holder into approximately 17,900,000 shares of the Company's common stock at a conversion price of \$7 per share, subject to adjustment. Dividends on the Series J Convertible Preferred Stock accrue at an annual rate of 12.5% and are payable quarterly in-kind. During 2002, the Company paid dividends-in-kind (135,076 shares of Series J Convertible Preferred Stock) valued at approximately \$16,884.

In connection with the equity financing by KKR 1996 Fund, the Company paid KKR 1996 Fund a commitment fee consisting of warrants to purchase 1,250,000 shares of common stock ("commitment warrants") of the Company at an exercise price of \$7 per share, subject to adjustment, and a funding fee consisting of warrants to purchase an additional 2,620,000 shares of the Company's common stock ("funding warrants") at an exercise price of \$7 per share, subject to adjustment. These warrants may currently be exercised and expire on the earlier of August 24, 2011 or upon a change in control, as defined therein. In addition, the Company was required to issue to KKR 1996 Fund additional warrants to purchase up to 4,000,000 shares of the Company's common stock at an exercise price of \$7 per share, subject to adjustment, contingent upon the length of time that the Series J Convertible Preferred Stock was outstanding. As the Series J Convertible Preferred Stock was outstanding for twelve months from the date of issuance, KKR 1996 Fund received the additional warrants to purchase four million shares of common stock. These warrants expire on the earlier of ten years from the date of issuance or upon a change in control.

31

All of the above described financing transactions between the Company and KKR were reviewed by and recommended for approval by a Special Committee of the Company's Board of Directors, comprised solely of independent directors (neither employees of the Company nor affiliated with KKR). In connection therewith, the Special Committee retained its own counsel and investment banker to advise it as to the financing transactions. Such financing transactions were approved by the full Board of Directors, following such recommendation.

CONTINGENCIES AND OTHER

The Company is involved in ordinary and routine litigation incidental to its business. In the opinion of management, there is no pending legal proceeding that would have a material adverse effect on the consolidated financial statements of the Company.

During 2002, PRIMEDIA contributed the Gravity Games, acquired from EMAP, to a limited liability company (the "LLC") formed jointly by PRIMEDIA, on the one hand, and Octagon Marketing and Athlete Representation, Inc., on the other hand,

Edgar Filing: PRIMEDIA INC - Form 10-K

with each party owning 50%. To date, the Company has contributed \$2,803 in cash to this venture. The LLC has entered into an agreement with NBC Sports, a division of National Broadcasting Company, Inc., which requires the LLC to pay specified fees to NBC for certain production services performed by NBC and network air time provided by NBC, during each of 2002 and 2003. Under the terms of this agreement and a related guarantee, PRIMEDIA could be responsible for the payment of a portion of such fees, in the event that the LLC failed to satisfy its payment obligations to NBC. The LLC satisfied all of its payment obligations due to NBC in 2002. The maximum amount for which PRIMEDIA could be liable in 2003 is \$2,200. As this liability is contingent on the LLC's failure to pay and the occurrence of certain other events and existence of certain other conditions, the Company has not recorded a liability on the accompanying consolidated balance sheet as of December 31, 2002; however, the asset representing the Company's 50% investment in the LLC as well as the Company's share of the LLC's losses are reflected in the Company's consolidated financial statements. The Company's investment in the LLC (\$1,526) is reflected as a component of other investments on the accompanying consolidated balance sheet at December 31, 2002. The Company's share of the LLC's losses (\$1,277) is reflected as a component of other, net on the accompanying statements of consolidated operations for the year ended December 31, 2002.

The Company anticipates that a capital investment will be required after 2003 to continue the current business operations and to maintain profit margins at Channel One. We expect spending would begin in 2004 and extend over a three-year period. However, management is pursuing alternative solutions which would decrease the required capital investment of the Company and provide additional significant revenue streams.

As of and for the year ended December 31, 2002, no officers or directors of the Company have been granted loans by the Company, nor has the Company guaranteed any obligations of such persons.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements require us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to allowances for doubtful accounts, reserves for sales returns and allowances, reserves for severance, closures and restructuring related costs, purchase price allocations, impairments of investments, divestiture reserves and the recoverability of long-lived assets including goodwill. We base our estimates on historical experience and on various other assumptions that we believe are reasonable under the circumstances. These estimates or assumptions form the basis of our judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates which would affect our reported results from operations. We believe the following is a

32

description of the critical accounting policies and estimates used in the preparation of our consolidated financial statements.

Allowances for doubtful accounts are estimated losses resulting from our customers' failure to make required payments. The Company continually monitors collections from customers and provides a provision for estimated credit losses. The Company aggressively pursues collection efforts on these overdue accounts and upon collection reverses the write-off in future periods. If future payments

Edgar Filing: PRIMEDIA INC - Form 10-K

by our customers were to differ from our estimates, we may need to increase or decrease our allowances for doubtful accounts.

Reserves for sales returns and allowances are primarily related to our newsstand sales. The Company estimates and maintains these reserves based primarily on its distributors' historical return practices and our actual return experience. If actual sales returns and allowances were to differ from our estimates, we may need to increase or decrease our reserve for sales returns and allowances.

Reserves for severance, closures and restructuring related costs are estimated costs resulting from management's plans and actions to integrate the Company and consolidate certain back office functions. If the future payments of these costs were to differ from our estimates, we may need to increase or decrease our reserves.

The Company records purchase price allocations for acquisitions based on preliminary information received at the date of acquisition and based on our acquisition experience. These allocations are subject to adjustments and are finalized once additional information concerning asset and liability valuations is obtained, typically from an independent appraisal. The final asset and liability fair values may differ from the preliminary allocations. If the final allocations for the acquisitions differ from the preliminary allocations, we may need to increase or decrease our depreciation and/or amortization expense, for the acquired assets.

The Company has held or currently holds investments in various companies. Investments where the Company has the ability to exercise significant influence over financial and accounting policies are accounted for under the equity method of accounting and the Company records its share of income (losses) of these investments based upon the investee's most recent available financial information, typically on a three-month lag. Investments where the Company does not have significant influence are accounted for under the cost method. Some of the investments that we have made have been in publicly traded companies, which may have highly volatile share prices. Other investments are in private companies that have no active market by which fair values can be easily assessed. For significant transactions involving equity securities in private companies, the Company obtains and considers independent third-party valuations where appropriate. Such valuations use a variety of methodologies to estimate fair value, including comparing the security with securities of publicly traded companies in similar lines of business, comparing the nature of security, price, and related terms of investors in the same round of financing, applying price multiples to estimated future operating results for the private company, and then also estimating discounted cash flows for that company. Using these valuations and other information available to the Company, such as the Company's knowledge of the industry and knowledge of specific information about the Investee, the Company determines the estimated fair value of the securities received. As required by EITF No. 00-8, "Accounting by a Grantee for an Equity Instrument to Be Received in Conjunction with Providing Goods and Services," the fair value of the equity securities received is determined as of the earlier of the date a performance commitment is reached or the vesting date.

We record an investment impairment charge when we believe an investment has experienced a decline in value that is other than temporary. Future adverse changes in market conditions or poor operating results of underlying investments could result in losses or an inability to recover the carrying value of the investments, thereby possibly requiring an impairment charge to the carrying value of the asset in the future.

Reserves for estimated obligations relating to divestitures may arise as a

Edgar Filing: PRIMEDIA INC - Form 10-K

result of the sale of certain titles or business units. These reserves are established for such items that we remain liable for after the sale is completed and are recorded at the time of the divestiture as part of the gain or loss on the sale of the divested asset or business. If the future payments for such items differ from our estimates, there could be a change in the determination of the gain or loss on sale.

On January 1, 2002, the Company adopted SFAS 142 for all remaining goodwill and indefinite lived intangible assets. Upon adoption, the Company ceased the amortization of goodwill and indefinite lived intangible assets, which consist primarily of trademarks. All of the Company's other intangible assets are subject to amortization.

The Company's SFAS 142 evaluations at both January 1, 2002 and October 31, 2002, including the reassessment of its trademark valuation during the third quarter, were performed by an independent valuation firm, utilizing reasonable and supportable assumptions and projections and reflects management's best estimate of projected future cash flows. The Company's discounted cash flow evaluation used a range of discount rates that represented the Company's weighted-average cost of capital and included an evaluation of other companies in each reporting unit's industry. The assumptions utilized by the Company in these evaluations are consistent with those utilized in the Company's annual planning process. If the assumptions and estimates underlying these goodwill and trademark impairment evaluations are not achieved, the ultimate amount of the impairment could be adversely affected.

The Company periodically evaluates the recoverability of our long-lived assets, including property and equipment and intangible assets, whenever events or changes in circumstances indicate that the carrying amount may not be recoverable or in connection with its annual financial review process. Our evaluations include analyses based on the cash flows generated by the underlying assets, profitability information, including estimated future operating results, trends or other determinants of fair value. If the value of the asset determined by these evaluations is less than its carrying amount, an impairment is recognized for the difference between the fair value and the carrying value of the asset. Future adverse changes in market conditions or poor operating results of the related business may indicate an inability to recover the carrying value of the assets, thereby possibly requiring an impairment charge to the carrying value of the asset, in the future.

NET OPERATING LOSS CARRYFORWARDS

During 2001 and 2000, the Company increased its valuation allowance due to continued historical operating losses and the impairment of investments, resulting in a net provision for income taxes of \$135,000 and \$41,200, respectively. To the extent that the Company achieves positive net income in the future, the net operating loss carryforwards may be able to be utilized and the Company's valuation allowance will be adjusted accordingly.

At December 31, 2002, the Company had aggregate net operating and capital loss carryforwards of \$1,722,781 which will be available to reduce future taxable income through 2022.

PROVISION FOR SEVERANCE, CLOSURES AND RESTRUCTURING RELATED COSTS

During 2001 and 2000, the Company implemented plans to integrate the operations of the Company and consolidate many functions and facilities. The Company expects that these plans will continue to result in future savings. All restructuring related charges were expensed as incurred.

During 2002, the Company undertook additional cost initiatives that would continue to implement and expand upon the cost initiatives enacted during 2001

Edgar Filing: PRIMEDIA INC - Form 10-K

and 2000.

34

Details of the initiatives implemented and the payments made in furtherance of these plans in the years ended December 31, 2002 and 2001 are presented in the following tables:

The remaining costs, comprised primarily of real estate lease commitments for space that the Company no longer occupies, are expected to be paid through 2015. To reduce the lease related costs, the Company is aggressively pursuing subleases of its available office space. These leases have been recorded at their net present value amounts and are net of estimated sublease income amounts.

Included in the net provision for the years ended December 31, 2002 and 2001 are reversals of \$4,847 and \$1,884, respectively, of previously recorded accruals.

As a result of the implementation of these plans, the Company has closed and consolidated in excess of twenty office locations and has notified a total of 1,756 individuals that they would be terminated under these plans. As of December 31, 2002, all but three of those individuals have been terminated.

35

The Company expects to realize sufficient savings from its plans to integrate the operations of the Company and to recover the costs associated with employee termination costs within approximately a one-year period. Savings from terminations of contracts and lease costs will be realized over the estimated life of the contract or lease.

The liabilities representing the provision for severance, closures and restructuring related costs are included in accrued expenses and other on the consolidated balance sheets as of December 31, 2002 and 2001. The provision for severance, closures and restructuring related costs is omitted from the Company's calculation of consolidated EBITDA in accordance with the Company's Credit and Senior Note agreements.

RECENT ACCOUNTING PRONOUNCEMENTS

In 2001 and 2002 the Company adopted a series of accounting changes, as recommended by the Financial Accounting Standard Board ("FASB") and Emerging Issues Task Force ("EITF"), that impact year-over-year comparisons of financial results. These changes are summarized below.

ADOPTION OF EITF 00-25 AND EITF 01-9, EFFECTIVE JANUARY 1, 2002

In April 2001, the EITF issued Consensus No. 00-25, which addresses whether consideration from a vendor to a reseller of the vendor's products is an adjustment to the selling price or the cost of the product. This issue was further addressed by EITF Consensus No. 01-9, issued in September 2001. The Company adopted EITF 00-25 and EITF 01-9 effective January 1, 2002. The adoption of EITF 00-25 and EITF 01-9 resulted in a net reclassification of product placement costs relating to single copy sales, previously classified as distribution, circulation and fulfillment expense on the accompanying statements of consolidated operations, to reductions of sales from such activities. The

Edgar Filing: PRIMEDIA INC - Form 10-K

change in classifications is industry-wide and had no impact on the Company's results of operations, cash flows or financial position. The reclassification resulted in a net decrease in sales and a corresponding decrease in operating expenses of \$20,614 and \$15,298 for the years ended December 31, 2001 and 2000, respectively.

ADOPTION OF SFAS 141 AND CERTAIN PROVISIONS OF SFAS 142 DURING 2001

In July 2001, the Financial Accounting Standards Board ("FASB") issued, SFAS No.141 "Business Combinations" and SFAS 142. SFAS No. 141 requires that the purchase method be used for all business combinations initiated after June 30, 2001 and prohibits the use of the pooling of interest method. SFAS No.142 changes the method by which companies may recognize intangible assets in purchase business combinations and generally requires identifiable intangible assets to be recognized separately from goodwill. In addition, it eliminates the amortization of all existing and newly acquired goodwill and indefinite lived intangible assets on a prospective basis and requires companies to assess goodwill and indefinite lived intangible assets for impairment, at least annually.

During 2001, the Company adopted SFAS 141 and certain provisions of SFAS 142 in connection with the EMAP acquisition as required by the statements. The goodwill and indefinite lived intangible assets related to the acquisition of EMAP have not and will not be amortized. The other identifiable intangible assets are being amortized over a five to ten year useful life.

ADOPTION OF SFAS 142 REGARDING IMPAIRMENT OF GOODWILL AND INDEFINITE-LIVED INTANGIBLE ASSETS, EFFECTIVE JANUARY 1, 2002

On January 1, 2002, the Company adopted SFAS 142, which requires an evaluation of goodwill for impairment at the reporting unit level within six months of mandatory adoption of this Standard. As required by SFAS 142, the Company reviewed its indefinite lived intangible assets (primarily trademarks) for impairment as of January 1, 2002 using a relief from royalty valuation model, and determined that certain indefinite lived intangible assets were impaired. As a result, the Company recorded an impairment

36

charge within cumulative effect of a change in accounting principle of \$21,535 (\$0.08 per share) during the first quarter of 2002. The impairment of \$21,535 referred to above relates to the consumer segment.

During the second quarter of 2002, the Company completed its assessment of whether there was an indication that goodwill was impaired at any of its eight identified reporting units (step one). Step one of the transitional impairment test uses a fair value methodology, which differs from the undiscounted cash flow methodology that continues to be used for intangible assets with an identifiable life. Based on the results of step one of the transitional impairment test, the Company identified two reporting units in the Consumer segment and one reporting unit in the Business-to-Business segment for which the carrying values exceeded the fair values at January 1, 2002, indicating a potential impairment of goodwill in those individual reporting units.

During the third quarter of 2002, the Company completed step two of the transitional impairment test for the reporting units in which an indication of goodwill impairment existed. The Company determined the implied fair value of each of those reporting units, principally using a discounted cash flow analysis and compared such values to the respective reporting unit's carrying amounts. This evaluation indicated that goodwill associated with two reporting units in the Consumer segment and one reporting unit in the Business-to-Business segment was impaired as of January 1, 2002. As a result, the Company recorded an

Edgar Filing: PRIMEDIA INC - Form 10-K

impairment charge within cumulative effect of a change in accounting principle of \$329,659 (\$1.30 per share) as of January 1, 2002 related to the impairment of goodwill. Of the goodwill impairment noted above, \$174,076 relates to the Consumer segment and \$155,583 relates to the Business-to-Business segment. In connection with step two of the SFAS 142 implementation as it relates to goodwill, the Company reassessed its trademark valuation as of January 1, 2002 and recorded an additional \$37,314 (\$0.15 per share) impairment and has included such impairment in the cumulative effect of change in accounting principle. Of the impairment of \$37,314 referred to above, \$23,703 relates to the Consumer segment and \$13,611 relates to the Business-to-Business segment.

SFAS 142 also requires that companies assess goodwill and indefinite lived intangible assets for impairment at least once per year subsequent to adoption of the statement. Any impairment subsequent to the initial implementation is recorded in operating income. The Company performed its first annual impairment test as of October 31, 2002. Step one of this subsequent impairment test indicated that there may be a goodwill impairment at two reporting units in the Business-to-Business segment and two reporting units in the Consumer segment. Step two of the October 31, 2002 impairment test indicated that goodwill associated with the two reporting units in the Business-to-Business segment and the two reporting units in the Consumer segment was impaired as of October 31, 2002. As a result, the Company recorded an impairment charge within amortization of \$97,227 (\$0.38 per share) as of October 31, 2002 related to the impairment of goodwill. Of the goodwill impairment referred to above, \$23,676 relates to the Consumer segment and \$73,551 relates to the Business-to-Business segment. In connection with step two of the subsequent impairment test, the Company assessed its trademark valuation as of October 31, 2002, and recorded \$819 (\$0.00 per share) as an impairment within amortization. Of the trademark impairment noted above, \$710 relates to the Consumer segment and \$109 relates to the Business-to-Business segment.

The Company's SFAS 142 evaluations at both January 1, 2002 and October 31, 2002, including the reassessment of its trademark valuation during the third quarter, were performed by an independent valuation firm, utilizing reasonable and supportable assumptions and projections and reflects management's best estimate of projected future cash flows. The Company's discounted cash flow evaluation used a range of discount rates that represented the Company's weighted-average cost of capital and included an evaluation of other companies in each reporting unit's industry. The assumptions utilized by the Company in these evaluations are consistent with those utilized in the Company's annual planning process. If the assumptions and estimates underlying these goodwill and trademark impairment evaluations are not achieved, the ultimate amount of the impairment could be adversely affected. Subsequent impairments, if any, will be classified as an operating expense. Future impairment tests will be performed at least annually (as of October 31) in conjunction with the Company's annual budgeting and forecasting process.

37

Historically, the Company did not need a valuation allowance for the portion of the net operating losses equal to the amount of tax-deductible goodwill and trademark amortization expected to occur during the carryforward period of the net operating losses based on the timing of the reversal of these taxable temporary differences. As a result of the adoption of SFAS 142, the reversal will not occur during the carryforward period of the net operating losses. Therefore, the Company recorded a deferred income tax expense of approximately \$52,000 on January 1, 2002 and \$20,500 during 2002 which would not have been required prior to the adoption of SFAS 142. The charge recorded to increase the valuation allowance was reduced by \$23,000 during the third quarter as a result of the impairment of goodwill and certain indefinite lived intangible assets discussed above.

Edgar Filing: PRIMEDIA INC - Form 10-K

In addition, since amortization of tax-deductible goodwill and trademarks ceased on January 1, 2002, the Company will have deferred tax liabilities that will arise each quarter because the taxable temporary differences related to the amortization of these assets will not reverse prior to the expiration period of the Company's deductible temporary differences unless the related assets are sold or an impairment of the assets is recorded. The Company expects that it will record approximately \$13,300 to increase deferred tax liabilities during 2003.

SFAS 143, EFFECTIVE JANUARY 1, 2003

In August 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations". The standard requires entities to record the fair value of a liability for an asset retirement obligation in the period in which it is incurred. When the liability is initially recorded, the entity capitalizes a cost by increasing the carrying amount of the related long-lived asset. Over time, the liability is accreted to its present value each period, and the capitalized cost is depreciated over the useful life of the related asset. Upon settlement of the liability, an entity either settles the obligation for its recorded amount or incurs a gain or loss upon settlement. The standard is effective for the Company beginning January 1, 2003. The adoption of SFAS 143 is not expected to have a material impact on the Company's results of operations or financial position.

ADOPTION OF SFAS 144 REGARDING DISPOSAL OF LONG-LIVED ASSETS, EFFECTIVE JANUARY 1, 2002

In August 2001, the FASB issued SFAS 144, which superseded SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of". This statement also supersedes accounting and reporting provisions of Accounting Principles Board ("APB") Opinion 30, "Reporting the Results of Operations--Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions," relating to the disposal of a segment of a business. SFAS 121 did not address the accounting for business segments accounted for as discontinued operations under APB Opinion 30 and therefore two accounting models existed for long-lived assets to be disposed of. SFAS 144 established one accounting model for long-lived assets to be held and used, long-lived assets (including those accounted for as a discontinued operation) to be disposed of by sale and long-lived assets to be disposed of other than by sale, and resolved certain implementation issues related to SFAS 121. The Company adopted SFAS 144 on January 1, 2002 and, as a result, the operations of the Modern Bride Group, ExitInfo, Chicago, Horticulture, Doll Reader, the American Baby Group and IN New York were recorded as discontinued operations for the periods prior to their respective divestiture dates. Discontinued operations includes sales of \$82,476, \$143,322 and \$128,163 and income of \$115,273 (including a gain on sale of \$111,449), \$3,042 and \$13,433 for the years ended December 31, 2002, 2001 and 2000, respectively. The discontinued operations include expenses related to certain centralized functions that are shared by multiple titles, such as production, circulation, advertising, human resource and information technology costs but exclude general overhead costs. These costs were allocated to the discontinued entities based upon relative revenues for the related periods. The allocation methodology is consistent with that used across the Company. These allocations amounted to \$3,357, \$5,112 and \$4,020 for the years ended December 31, 2002, 2001 and 2000, respectively.

38

ADOPTION OF SFAS 144 REGARDING IMPAIRMENT OF LONG-LIVED ASSETS, EFFECTIVE JANUARY 1, 2002

The independent valuation reports received in connection with step two of

Edgar Filing: PRIMEDIA INC - Form 10-K

the SFAS 142 impairment test completed during the third and fourth quarters indicated that the carrying value of certain finite-lived assets might not be recoverable. Accordingly, impairment testing under SFAS 144 was undertaken resulting in an impairment charge of \$60,498 (\$35,577 and \$24,921 in the Consumer and Business-to-Business segments, respectively). These charges are included in depreciation of property and equipment (\$11,610) and amortization of intangible assets, goodwill and other (\$48,888) in the statement of consolidated operations for the year ended December 31, 2002.

SALES RECLASSIFICATIONS RESULTING FROM THE ADOPTION OF EITF 00-25, EITF 01-9 AND SFAS 144

As a result of the adoption of EITF 00-25, EITF 01-9 and SFAS 144, the Company reclassified amounts from sales, net for the years ended December 31, 2001 and 2000, as follows:

EARLY ADOPTION FOR 2002 OF SFAS 145

In April 2002, the FASB issued SFAS 145 "Rescission of FASB Statements Nos. 4, 44 and 64, Amendment of FASB Statement No. 13 and Technical Corrections". For most companies, SFAS 145 will require gains and losses on extinguishments of debt to be classified within income or loss from continuing operations rather than as extraordinary items as previously required under SFAS 4, "Reporting Gains and Losses from Extinguishment of Debt an amendment of APB Opinion No. 30." Extraordinary treatment will be required for certain extinguishments as provided under APB Opinion No. 30. The Company has early adopted SFAS 145 in accordance with the provisions of the statement. Accordingly, during the year ended December 31, 2002, the Company recorded a gain in other expense of \$7,855 related to the repurchase and retirement of \$72,710 of the Company's notes, which had a carrying value of \$72,292, at a discount.

SFAS 146, EFFECTIVE FOR TRANSACTIONS INITIATED AFTER DECEMBER 31, 2002

In June 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" which will supersede EITF Consensus No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)". SFAS 146 will affect the timing of the recognition of costs associated with an exit or disposal plan by requiring them to be recognized when incurred rather than at the date of a commitment to an exit or disposal plan. SFAS 146 is to be applied prospectively to exit or disposal activities initiated after December 31, 2002.

SFAS 148, EFFECTIVE FOR ANNUAL PERIODS ENDING AFTER DECEMBER 15, 2002

In December 2002, the FASB issued SFAS No. 148 "Accounting for Stock-Based

Edgar Filing: PRIMEDIA INC - Form 10-K

Compensation--Transition and Disclosure--an amendment of FASB Statement No. 123, "Accounting for Stock-Based Compensation". This Statement amends SFAS 123 to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS 148 amends the disclosure requirements of SFAS 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee

39

compensation and the effect of the method used on reported results. SFAS 148 is effective for annual periods ending after December 15, 2002 and interim periods beginning after December 15, 2002.

SFAS No. 123, "Accounting for Stock Based Compensation," provides for a fair-value based method of accounting for employee options and measures compensation expense using an option valuation model that takes into account, as of the grant date, the exercise price and expected life of the option, the current price of the underlying stock and its expected volatility, expected dividends on the stock, and the risk-free interest rate for the expected term of the option. The Company has elected to continue accounting for employee stock-based compensation under Accounting Principles Board ("APB") No. 25, "Accounting for Stock Issued to Employees," and related interpretations. Under APB No. 25, when the exercise price of the Company's stock options equals or exceeds the market price of the underlying stock on the date of grant, no compensation expense is recognized. Assuming the Company had accounted for the options in accordance with SFAS 123, the estimated non-cash option expense would have approximated \$36,309, \$37,409 and \$19,785 for the years ended December 31, 2002, 2001 and 2000, respectively. As of December 31, 2002, approximately 25% of the stock options outstanding were granted in connection with the About merger. The options granted in connection with the About merger replaced options granted to certain employees of About prior to the merger. Approximately 55% of the About replacement options have expired or have been forfeited as of December 31, 2002, and the majority of the remaining About options are expected to expire during 2003. We do not expect a material amount of these options to be exercised, as the various exercise prices of the outstanding options significantly exceed the current price of the underlying stock.

FASB INTERPRETATION NO. 45

In November 2002, the FASB approved FASB Interpretation No. 45 "Guarantor's Accounting and Disclosure Requirements for Guarantees, including Indirect Guarantees of Indebtedness of Others, an Interpretation of FASB Statement No. 5, 57 and 107 and Rescission of FASB Interpretation No. 34" ("FIN 45"). FIN 45 clarifies the requirements of SFAS No. 5, "Accounting for Contingencies", relating to a guarantor's accounting for, and disclosure of, the issuance of certain types of guarantees. Specifically, FIN 45 requires a guarantor to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The provisions for initial recognition and measurement are effective on a prospective basis for guarantees that are issued or modified after December 31, 2002, irrespective of a guarantor's fiscal year-end. However, the disclosure provisions of FIN 45 are effective for financial statements of interim or annual periods ending after December 15, 2002. The adoption of FIN 45 is not expected to have a material impact on the Company's results of operations or financial position.

FASB INTERPRETATION NO. 46, EFFECTIVE FOR VARIABLE INTEREST ENTITIES CREATED AFTER JANUARY 31, 2003

In January 2003, the FASB issued FASB Interpretation No. 46 "Consolidation of Variable Interest Entities" ("FIN 46"). FIN 46 clarifies the application of Accounting Research Bulletin No. 51, "Consolidated Financial Statements", to

Edgar Filing: PRIMEDIA INC - Form 10-K

certain entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The Company is required to adopt the provisions of FIN 46 for variable interest entities created after January 31, 2003. The adoption of FIN 46 is not expected to have a material impact on the Company's results of operations or financial position.

IMPACT OF INFLATION AND OTHER COSTS

The impact of inflation was immaterial during 2002, 2001 and 2000. Postage for product distribution and direct mail solicitations is a significant expense of the Company. The Company uses the U.S. Postal Service for distribution of many of its products and marketing materials. Postage rates increased approximately 10% in January 2001, approximately 3% in July 2001 and approximately 12% effective July 1, 2002.

40

In the past, the effects of inflation on operating expenses have substantially been offset by PRIMEDIA's ability to increase selling prices. No assurances can be given that the Company can pass such cost increases through to its customers in the future. In addition to pricing actions, the Company is continuing to examine all aspects of the manufacturing and purchasing processes to identify ways to offset some of these price increases. The Company's paper expense decreased approximately 20% and 7% in 2002 and 2001, respectively. During 2002, 2001 and 2000, paper cost represented approximately 5%, 5% and 8%, respectively, of the Company's total operating costs and expenses. The Company attributes the decrease in paper expenses to the continuing decline in 2002 of paper prices generally, as well as the smaller folio sizes of magazines, primarily in the business-to-business sector, that have seen significant advertising drops.

SEASONALITY

The Company's operations are seasonal in nature. Operating results have historically been stronger in the second half of the year with generally strongest results generated in the fourth quarter of the year. The seasonality of the Company's business reflects (i) the relationship between advertising purchases and the retail and academic cycles and (ii) subscription promotions and the holiday season. As discussed above in the Business section, PRIMEDIA Television, including Channel One and Films for the Humanities, conducts most of its business during the school year, with the majority of sales occurring in the fourth quarter. The Company's Business-to-Business trade shows also generally occur in the second and fourth quarters. This seasonality causes, and will likely continue to cause, a variation in the Company's quarterly operating results. Such variations have an effect on the timing of the Company's cash flows and the reported quarterly results.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

The Company is exposed to the impact of changes in interest rates. In the normal course of business, the Company had managed fluctuations in interest rates through the use of swap agreements to hedge a portion of its floating rate borrowings. The Company's objective in managing this exposure was to reduce fluctuations in earnings and cash flows associated with changes in interest rates. At December 31, 2002, the Company was not a party to any interest rate swap contracts.

The following table provides information about our financial instruments that are sensitive to changes in interest rates, including debt obligations at December 31, 2002 and 2001. For debt obligations, the table presents mandatory principal reductions, repayment schedules of outstanding debt and projected

Edgar Filing: PRIMEDIA INC - Form 10-K

weighted average interest rates by expected maturity dates and reflects the Company's early redemption of its 10 1/4% Senior Notes in March 2003 through increased borrowings under its credit facilities. For interest rate swaps, the table presents notional amounts and projected weighted average interest rates by contractual maturity dates. For variable rate instruments, we have indicated the applicable floating rate index. The fair value of financial instruments are estimates based upon market conditions and perceived risks at December 31, 2002 and 2001 and may not be indicative of their actual fair values.

INDEPENDENT AUDITORS' REPORT

To the Shareholders and Board of Directors of
PRIMEDIA Inc.
New York, New York:

We have audited the accompanying consolidated balance sheets of PRIMEDIA Inc. and subsidiaries (the "Company") as of December 31, 2002 and 2001, and the related statements of consolidated operations, shareholders' deficiency, and cash flows for each of the three years in the period ended December 31, 2002. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company at December 31, 2002 and 2001, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2002, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Notes 2 and 19 to the consolidated financial statements, the Company adopted Statement of Financial Accounting Standards No. 133, "Accounting

Edgar Filing: PRIMEDIA INC - Form 10-K

for Derivative Instruments and Hedging Activities," as amended, effective January 1, 2001. Also, as discussed in Notes 2 and 8 and Notes 2 and 4 to the consolidated financial statements, the Company adopted Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" and Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", respectively, on January 1, 2002.

PRIMEDIA INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS)

1. DESCRIPTION OF BUSINESS

PRIMEDIA Inc. (which together with its subsidiaries is herein referred to as either "PRIMEDIA" or the "Company" unless the context implies otherwise) is a targeted media company with leading positions in consumer and

Edgar Filing: PRIMEDIA INC - Form 10-K

business-to-business markets. PRIMEDIA's properties deliver content via print (magazines, books and directories), video (digital broadband, satellite and cable), live events (trade and consumer shows) and the Internet. PRIMEDIA's products serve highly specialized niches and capitalize on the growing trend toward targeted rather than mass information distribution.

The Company's two business segments are consumer and business-to-business. The Company's consumer segment produces and distributes magazines, guides, videos and internet products for consumers in various niche markets. The consumer segment includes the Consumer Magazine and Media Group, Consumer Guides, PRIMEDIA Television and About.com, Inc. ("About"). The Company's business-to-business segment produces and distributes magazines, books, directories, databases, vocational training materials and internet products to business professionals in such fields as communications, agriculture, professional services, media, transportation and healthcare. The business-to-business segment includes the Business Magazines and Media Group, Workplace Learning and PRIMEDIA Information.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION. The consolidated financial statements include the accounts of PRIMEDIA and its subsidiaries. All significant intracompany and intercompany accounts and transactions have been eliminated in consolidation. Certain reclassifications have been made to the prior years' consolidated financial statements to conform with the current year presentation.

USE OF ESTIMATES. The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Significant accounting estimates include the establishment of the allowances for doubtful accounts, reserves for sales returns and allowances, provisions for severance, closures and restructuring related costs, purchase price allocations, impairments of investments, divestiture reserves and the recoverability of long-lived assets including goodwill.

CASH AND CASH EQUIVALENTS. Management considers all highly liquid instruments purchased with an original maturity of 90 days or less to be cash equivalents.

CONCENTRATIONS OF CREDIT RISK. Substantially all of the Company's trade receivables are from subscription and advertising customers located throughout the United States. The Company establishes its credit policies based on an ongoing evaluation of its customers' credit worthiness and competitive market conditions and establishes its allowance for doubtful accounts based on an assessment of exposures to credit losses at each balance sheet date. The Company believes its allowance for doubtful accounts is sufficient based on the credit exposures outstanding at December 31, 2002.

INVENTORIES. Inventories, including paper, purchased articles, photographs and art, are valued at the lower of cost or market, principally on a first-in, first-out ("FIFO") basis.

PROPERTY AND EQUIPMENT. Property and equipment, net are stated at cost less accumulated depreciation and amortization. Depreciation of property and equipment, including the amortization of leasehold

Edgar Filing: PRIMEDIA INC - Form 10-K

(DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

improvements, is provided at rates based on the estimated useful lives or lease terms, if shorter, using primarily the straight-line method. Improvements are capitalized while maintenance and repairs are expensed as incurred. Whenever significant events or changes occur, such as those affecting general market conditions or pertaining to a specific industry or an asset category, the Company reviews the property and equipment for impairment. When such factors, events or circumstances indicate that property and equipment should be evaluated for possible impairment, the Company uses an estimate of cash flows (undiscounted and without interest charges) over the remaining lives of the assets to measure recoverability. If the estimated cash flows are less than the carrying value of the asset, the loss is measured as the amount by which the carrying value of the asset exceeds fair value.

GOODWILL AND OTHER INTANGIBLE ASSETS. On January 1, 2002, the Company adopted Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets". Under SFAS 142, goodwill and intangible assets deemed to have an indefinite life (primarily trademarks) are no longer amortized but are subject to annual impairment tests. Upon adoption, the Company ceased amortizing goodwill and indefinite lived intangible assets.

The Company tests goodwill for impairment, at least annually, using a fair value approach at the reporting unit level. A reporting unit is an operating segment or one level below an operating segment for which discrete financial information is available and reviewed regularly by management. Assets and liabilities of the Company have been assigned to the reporting units to the extent that they are employed in or are considered a liability related to the operations of the reporting unit and were considered in determining the fair value of the reporting unit. See Note 8 for further discussion on SFAS 142.

Indefinite lived intangible assets will also be tested at least annually for impairment using a fair value approach and intangible assets with a finite life will continue to be tested for impairment in accordance with the guidance in SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." See Note 8 for further discussion on SFAS 144.

OTHER INVESTMENTS. Investments where the Company has the ability to exercise significant influence over financial and accounting policies are accounted for under the equity method of accounting. The Company records its share of income (losses) of certain equity investees based upon the investee's most recent available financial information, typically on a three month lag. Investments where the Company does not have significant influence are accounted for under the cost method.

In accordance with the provisions of SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities," investments in marketable securities are classified as available-for-sale and are carried at fair market value, with the unrealized gains and losses reported in accumulated other comprehensive income (loss) ("OCI").

Other investments are periodically reviewed by the Company for impairment whenever significant events or changes occur, such as those affecting general market conditions or those pertaining to a specific industry or an individual investment, which could result in the carrying value of an investment exceeding its fair value. An impairment will be considered to have occurred when it is determined that the decline in fair value below its carrying value is other than temporary, based on consideration of all available evidence. If it has been determined that an impairment in value has occurred, the carrying value of the

Edgar Filing: PRIMEDIA INC - Form 10-K

investment would be written down to an amount equivalent to the fair value of the investment. The determination of fair value begins with a contemporaneous market price because that price reflects the market's most recent

53

PRIMEDIA INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

evaluation of the total mix of available information. Absent a contemporaneous market price, determination of fair value is based on all other available information, including but not limited to, recent financing obtained and/or projected revenue streams.

DEFERRED FINANCING COSTS. Deferred financing costs are being amortized by the straight-line method over the terms of the related indebtedness.

DEFERRED WIRING AND INSTALLATION COSTS. Wiring and installation costs incurred by PRIMEDIA Workplace Learning and Channel One have been capitalized and are being amortized by the straight-line method over the related estimated useful lives which are 5 years for PRIMEDIA Workplace Learning and 3 years for Channel One. In 2000, management reduced the estimated remaining useful life of all wiring and installation costs at Channel One from 5 years to 3 years due to the anticipated obsolescence of such assets in the beginning of 2003. The change in estimated useful life of all wiring and installation costs at Channel One resulted in a decrease in operating income and an equal increase in net loss of approximately \$6,500 (\$.04 per share) for the year ended December 31, 2000. In 2002, the Company extended the estimated remaining useful life of all wiring and installation costs at Channel One through the end of 2003 to coincide with the likely implementation of the technological upgrade of a new video distribution platform, which resulted in a decrease in amortization expense and an equal increase in operating income and a decrease in net loss of \$4,035 (\$0.02 per share) for the year ended December 31, 2002.

\$10.00 SERIES D EXCHANGEABLE PREFERRED STOCK ("SERIES D PREFERRED STOCK"), \$9.20 SERIES F EXCHANGEABLE PREFERRED STOCK ("SERIES F PREFERRED STOCK"), \$8.625 SERIES H EXCHANGEABLE PREFERRED STOCK ("SERIES H PREFERRED STOCK") AND SERIES J CONVERTIBLE PREFERRED STOCK ("SERIES J CONVERTIBLE PREFERRED STOCK"). The Series D Preferred Stock, Series F Preferred Stock, Series H Preferred Stock and Series J Convertible Preferred Stock were stated at fair value on the date of issuance less issuance costs. The difference between their carrying values and their redemption values is being accreted (using the interest method) by periodic charges to additional paid-in capital. The accretion is deducted in the calculation of net loss applicable to common shareholders.

STOCK-BASED COMPENSATION. At December 31, 2002, the Company has a stock-based employee compensation plan, which is described more fully in Note 14. The Company accounts for the plan under the recognition and measurement principles of APB Opinion ("APB") No. 25, "Accounting for Stock Issued to Employees ("APB 25")," and related Interpretations. In general, no stock-based employee compensation cost is reflected in net income, as most options granted under the plan had an exercise price equal to or greater than the market value of the underlying common stock on the date of grant.

REVENUE RECOGNITION. Advertising revenues for all consumer magazines are recognized as income at the on-sale date, net of provisions for estimated rebates, adjustments and discounts. Other advertising revenues are generally recognized based on the publications' cover dates. Online advertising is generally recognized as advertisements are run. Newsstand sales are recognized as revenue at the on-sale date for all publications, net of provisions for estimated returns. Subscriptions are recorded as deferred revenue when received and recognized as revenue over the term of the subscription. Workplace Learning's subscription and broadcast fees for satellite and videotape network services are recognized in the month services are rendered. Sales of books and other items are recognized as revenue upon shipment, net of an allowance for returns. In compliance with Emerging Issues Task Force ("EITF") No. 00-10, "Accounting for Shipping and Handling Fees and Costs," distribution costs charged to customers are recognized as revenue when the related product is shipped. Channel One's advertising revenue, net of commissions, is recognized as advertisements are aired on the program. Certain advertisers are guaranteed a minimum number of viewers per advertisement shown; the revenue recognized is based on the actual viewers delivered not to exceed the original contract value. The Company also derives revenue from various licensing agreements, which grant the licensee rights to use the trademarks and brand names of the Company in connection with the manufacture and sale of certain designated products. Licensing revenue is generally recognized by the Company as earned.

From time to time, the Company enters into multiple element arrangements whereby it may provide a combination of services including print advertising, content licensing, customer lists, on-line advertising and other services. Revenue from each element is recorded when the following conditions exist: (1) the product or service provided represents a separate earnings process; (2) the fair value of each element can be determined separately and; (3) the undelivered elements are not essential to the functionality of a delivered element. If the conditions for each element described above do not exist,

Edgar Filing: PRIMEDIA INC - Form 10-K

revenue is recognized as earned using revenue recognition principles applicable to those elements as if it were one arrangement, generally on a straight-line basis. In November 2002, the EITF reached a consensus on EITF No. 00-21, "Accounting for Revenue Arrangements with Multiple Element Deliverables". The Issue addresses how to account for arrangements that may involve the delivery or performance of multiple products, services

55

PRIMEDIA INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

and/or rights to use assets. Revenue arrangements with multiple deliverables should be divided into separate units of accounting if the deliverables in the arrangement meet certain criteria. Arrangement consideration should be allocated among the separate units of accounting based on their relative fair values. EITF 00-21 also supersedes certain guidance set forth in Staff Accounting Bulletin Number 101, "Revenue Recognition in Financial Statements", issued by the Securities and Exchange Commission. The final consensus is applicable to agreements entered into in quarters beginning after June 15, 2003, with early adoption permitted. Additionally, companies are permitted to apply the consensus guidance to all existing arrangements as a cumulative effect of a change in accounting principle. The adoption of EITF 00-21 is not expected to have a material impact on the Company's results of operations or financial position.

BARTER TRANSACTIONS. The Company trades advertisements in its traditional and online properties in exchange for trade show space and booths and advertising in properties of other companies. Revenue and related expenses from barter transactions are recorded at fair value in accordance with EITF No. 99-17, "Accounting for Advertising Barter Transactions." Revenue from barter transactions is recognized in accordance with the Company's revenue recognition policies. Expense from barter transactions is generally recognized as incurred. Revenue from barter transactions was approximately \$18,200, \$36,600 and \$7,900 for the years ended December 31, 2002, 2001 and 2000, respectively with equal related expense amounts in each year.

EDITORIAL AND PRODUCT DEVELOPMENT COSTS. Editorial costs and product development costs are generally expensed as incurred. Product development costs include the cost of artwork, graphics, prepress, plates and photography for new products.

ADVERTISING AND SUBSCRIPTION ACQUISITION COSTS. Advertising and subscription acquisition costs are expensed the first time the advertising takes place, except for certain direct-response advertising, the primary purpose of which is to elicit sales from customers who can be shown to have responded specifically to the advertising and that results in probable future economic benefits. Direct-response advertising consists of product promotional mailings, catalogues, telemarketing and subscription promotions. These direct-response advertising costs are capitalized as assets and amortized over the estimated period of future benefit. The amortization periods range from one to two years subsequent to the promotional event. Amortization of direct-response advertising costs is included in marketing and selling expenses on the accompanying statements of consolidated operations. Advertising expense was approximately \$100,000, \$141,000 and \$142,000 during the years ended December 31, 2002, 2001 and 2000, respectively.

FOREIGN CURRENCY. Gains and losses on foreign currency transactions, which are not significant, have been included in other, net on the accompanying

INTERNAL-USE SOFTWARE. In compliance with American Institute of Certified Public Accountants ("AICPA") Statement of Position ("SOP") 98-1, "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use," the Company expenses costs incurred in the preliminary project stage and, thereafter, capitalizes costs incurred in the developing or obtaining of internal use software and includes them in property and equipment, net. Certain costs, such as maintenance and training, are expensed as incurred. Capitalized costs are amortized over a period of not more than three years using the

straight-line method. In addition, in compliance with SOP 98-1 and EITF No. 00-2, "Accounting for Web Site Development Costs," direct internal and external costs associated with the development of the features and functionality of the Company's websites incurred during the application and infrastructure development phase have been capitalized, and are included in property and equipment, net on the accompanying consolidated balance sheets. Typical capitalized costs include but are not limited to, acquisition and development of software tools required for the development and operation of the website, acquisition and registration costs for domain names and costs incurred to develop graphics for the website. These capitalized costs are amortized over the estimated useful life of up to three years using the straight-line method. Capitalized software costs are subject to impairment evaluation in accordance with the provisions of SFAS 144.

DERIVATIVE FINANCIAL INSTRUMENTS. Effective January 1, 2001, the Company adopted SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS 133, as amended and interpreted, establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities.

SFAS 133 requires that all derivatives, whether designated in hedging relationships or not, be recorded on the balance sheet at fair value regardless of the purpose or intent for holding them. If a derivative is designated as a fair-value hedge, changes in the fair value of the derivative and the related change in the hedged item are recognized in operations. If a derivative is designated as a cash-flow hedge, changes in the fair value of the derivative are recorded in OCI and are recognized in the statement of consolidated operations when the hedged item affects operations. For a derivative that does not qualify as a hedge, changes in fair value are recognized in operations.

RECENT ACCOUNTING PRONOUNCEMENTS

EITF 00-25 "VENDOR INCOME STATEMENT CHARACTERIZATION OF CONSIDERATION PAID TO A RESELLER OF THE VENDOR'S PRODUCTS," AND EITF 01-9 "ACCOUNTING FOR CONSIDERATION GIVEN BY A VENDOR TO A CUSTOMER (INCLUDING A RESELLER OF THE VENDOR'S PRODUCTS)"

In April 2001, the EITF issued Consensus No. 00-25 which addresses whether consideration from a vendor to a reseller of the vendor's products is an adjustment to the selling price or the cost of the product. This issue was

Edgar Filing: PRIMEDIA INC - Form 10-K

further addressed by EITF Consensus No. 01-9 issued in September 2001. The Company adopted EITF 00-25 and 01-9 effective January 1, 2002, which resulted in a net reclassification of product placement costs, relating to single copy sales, previously classified as distribution, circulation and fulfillment expense on the accompanying statements of consolidated operations, to reductions of sales from such activities. The change in classifications is industry-wide and had no impact on the Company's results of operations, cash flows or financial position. The reclassification resulted in a net decrease in sales and a corresponding decrease in operating expenses of \$20,614 and \$15,298 for the years ended December 31, 2001 and 2000, respectively.

SFAS 141 "BUSINESS COMBINATIONS" AND SFAS 142 "GOODWILL AND OTHER INTANGIBLE ASSETS"

In July 2001, the Financial Accounting Standards Board ("FASB") issued SFAS 141, and SFAS 142. SFAS 141 requires, among other matters, that the purchase method be used for all business combinations initiated after June 30, 2001 and prohibits the use of the pooling of interest method. SFAS 142 changes the

method by which companies may recognize intangible assets in purchase business combinations and generally requires identifiable intangible assets to be recognized separately from goodwill.

During 2001, the Company adopted SFAS 141 and certain provisions of SFAS 142 in connection with the EMAP Inc. ("EMAP") acquisition as required by the statements. The goodwill and indefinite lived intangible assets related to the acquisition of EMAP have not and will not be amortized. The other identifiable intangible assets are being amortized over a five to ten year useful life.

SFAS 143 "ACCOUNTING FOR ASSET RETIREMENT OBLIGATIONS"

In August 2001, the FASB issued SFAS 143 which requires entities to record the fair value of a liability for an asset retirement obligation in the period in which it is incurred. When the liability is initially recorded, the entity capitalizes a cost by increasing the carrying amount of the related long-lived asset. Over time, the liability is accreted to its present value each period, and the capitalized cost is depreciated over the useful life of the related asset. Upon settlement of the liability, an entity either settles the obligation for its recorded amount or incurs a gain or loss upon settlement. The standard is effective for the Company beginning January 1, 2003. The adoption of SFAS 143 is not expected to have a material impact on the Company's results of operations or financial position.

SFAS 144 "ACCOUNTING FOR THE IMPAIRMENT OR DISPOSAL OF LONG-LIVED ASSETS"

In August 2001, the FASB issued SFAS 144 which superseded SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of". This statement also supersedes accounting and reporting provisions of APB 30, "Reporting the Results of Operations--Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions," relating to the disposal of a

Edgar Filing: PRIMEDIA INC - Form 10-K

segment of a business. SFAS 121 did not address the accounting for business segments accounted for as discontinued operations under APB 30 and therefore two accounting models existed for long-lived assets to be disposed of. SFAS 144 established one accounting model for long-lived assets to be held and used, long-lived assets (including those accounted for as a discontinued operation) to be disposed of by sale and long-lived assets to be disposed of other than by sale, and resolved certain implementation issues related to SFAS 121. The Company adopted SFAS No. 144 on January 1, 2002, and as a result, the results of the Modern Bride Group, ExitInfo, Chicago, Horticulture, Doll Reader, the American Baby Group and IN New York, which were divested during 2002 were recorded as discontinued operations. As a result, prior year statements of operations have been reclassified to reflect the operations of these entities in discontinued operations. Discontinued operations includes sales of \$82,476, \$143,322 and \$128,163 and income of \$115,273 (including a gain on sale of \$111,449), \$3,042 and \$13,433 for the years ended December 31, 2002, 2001 and 2000, respectively. The discontinued operations include expenses related to certain centralized functions that are shared by multiple titles, such as production, circulation, advertising, human resource and information technology costs but exclude general overhead costs. These costs were allocated to the discontinued entities based upon relative revenues for the related periods. The allocation methodology is consistent with that used across the Company. These allocations amounted to \$3,357, \$5,112 and \$4,020 for the years ended December 31, 2002, 2001 and 2000, respectively.

SFAS 145 "RESCISSION OF FASB STATEMENTS NO.S 4, 44 AND 64, AMENDMENT OF FASB STATEMENT NO. 13 AND TECHNICAL CORRECTIONS"

In April 2002, the FASB issued SFAS 145 which for most companies, will require gains and losses on extinguishments of debt to be classified within income or loss from continuing operations rather than as extraordinary items as previously required under SFAS 4, "Reporting Gains and Losses from Extinguishment of Debt an amendment of APB Opinion No. 30." Extraordinary treatment will be required for certain extinguishments as provided under APB Opinion No. 30. The Company has early adopted SFAS 145 in accordance with the

Edgar Filing: PRIMEDIA INC - Form 10-K

provisions of the statement. Accordingly, during the year ended December 31, 2002, the Company recorded a gain in other expense of \$7,855 related to the repurchase and retirement of \$72,710 of the Company's notes, which had a carrying value of \$72,292, at a discount (see Note 11).

SFAS 146 "ACCOUNTING FOR COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES"

In June 2002, the FASB issued SFAS 146 which superseded EITF Consensus No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)". SFAS 146 will affect the timing of the recognition of costs associated with an exit or disposal plan by requiring them to be recognized when incurred rather than at the date of a commitment to an exit or disposal plan. SFAS 146 is to be applied prospectively to exit or disposal activities initiated after December 31, 2002. The Company is currently evaluating the impact of this adoption.

SFAS 148 "ACCOUNTING FOR STOCK-BASED COMPENSATION--TRANSITION AND DISCLOSURE--AN AMENDMENT OF FASB STATEMENT NO. 123 ACCOUNTING FOR THE STOCK BASED COMPENSATION"

In December 2002, the FASB issued SFAS 148 which amends SFAS 123 to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS 148 amends the disclosure requirements of SFAS 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. SFAS 148 is effective for annual periods ending after December 15, 2002 and interim periods beginning after December 15, 2002.

In November 2002, the FASB approved FASB Interpretation No. 45 "Guarantor's Accounting and Disclosure Requirements for Guarantees, including Indirect Guarantees of Indebtedness of Others, an Interpretation of FASB Statement No. 5, 57 and 107 and Rescission of FASB Interpretation No. 34" ("FIN 45"). FIN 45 clarifies the requirements of SFAS No. 5, "Accounting for Contingencies", relating to a guarantor's accounting for, and disclosure of, the issuance of certain types of guarantees. Specifically, FIN 45 requires a guarantor to recognize a liability for the non-contingent component of certain guarantees, representing the obligation to stand ready to perform in the event that specified triggering events or conditions occur. The provisions for initial recognition and measurement are effective on a prospective basis for guarantees that are issued or modified after December 31, 2002, irrespective of a guarantor's fiscal year-end. However, the disclosure provisions of FIN 45 are effective for financial statements of interim or annual periods ending after December 15, 2002. The adoption of FIN 45 is not expected to have a material impact on the Company's results of operations or financial position.

FASB INTERPRETATION NO. 46, "CONSOLIDATION OF VARIABLE INTEREST ENTITIES"

Edgar Filing: PRIMEDIA INC - Form 10-K

In January 2003, the FASB issued FASB Interpretation No. 46, "Consolidation of Variable Interest Entities" ("FIN 46"). FIN 46 clarifies the application of Accounting Research Bulletin No. 51, "Consolidated Financial Statements", to certain entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The Company is required to adopt the provisions of FIN 46 for variable interest entities created after January 31, 2003. The adoption of FIN 46 is not expected to have a material impact on the Company's results of operations or financial position.

3. ACQUISITIONS AND OTHER INVESTMENTS

ACQUISITIONS. The Company acquired certain net assets or stock of:

2000--Adams/Laux Company, Inc. and Adams/Intertec International, Inc. which publish, sell advertising in and distribute magazines and other publications relating to the meeting and conference industry and the electric power industry and Kagan World Media, Inc. and affiliated companies which publish, host seminars and provide consulting services dealing with the professional sports, media, telecommunications, cable, internet and broadcast industries. In addition, the Company completed several other smaller acquisitions. The 2000 acquisitions were primarily financed through borrowings under the Company's credit agreements. The cash payments for these acquisitions on an aggregate basis were approximately \$70,100, in addition to the issuance of 800,000 shares of the Company's common stock valued at approximately \$12,400.

2001--About, a platform comprised of a network of more than 400 highly targeted topic-specific websites and EMAP from EMAP America Partners. EMAP publishes more than 60 consumer titles reaching over 75 million enthusiasts through a combination of magazines, network and cable television shows, web sites and live consumer events. The acquisitions have been accounted for by the purchase method. The consolidated financial statements include the operating results of the acquisitions subsequent to their respective dates of acquisition. In addition, the Company completed several other smaller

acquisitions. The other acquisitions, if they had occurred on January 1, 2001 would not have had a material impact on the results of operations. The cash payments for these acquisitions, net of cash received were approximately \$425,800. The payments were net of liabilities assumed of approximately \$160,800. The excess of purchase price over net assets acquired and other intangible assets were approximately \$1,112,500. The pro forma effect of the About and EMAP acquisitions on the Company's operations is presented below.

ABOUT

On February 28, 2001, the Company completed its merger with About. This merger created an integrated traditional and new media company, providing an array of potential marketing solutions to advertisers and niche content to users. Through the efforts of knowledgeable human guides who manage the About sites, the sites provide high-quality original articles, moderated forums and chat rooms and links to related websites.

Edgar Filing: PRIMEDIA INC - Form 10-K

Under terms of the merger agreement, shareholders of About received approximately 45,000,000 shares of the Company's common stock or 2.3409 shares for each About share. An independent appraisal was completed during 2001 and was used to allocate the purchase price to the fair value of assets acquired and liabilities assumed including identifiable intangibles. The goodwill related to the About merger was amortized during 2001 over an estimated useful life of three years. The Company believed that a three-year life was responsive to the rapid rate of change in the Internet industry and was consistent with other recent mergers of a comparable nature. Other finite lived identifiable intangible assets are being amortized over a period of three years. The Company determined that the value of its shares of common stock issued was \$11.81 per share, based on the weighted-average market values for the two days prior and two days succeeding the acquisition announcement date. The fair value of the vested and unvested options issued was determined using a Black Scholes pricing model. The following is a summary of the calculation of the purchase price, as well as the allocation of purchase price to the fair value of net assets acquired:

Total number of shares of PRIMEDIA common stock issued to consummate the merger.....	44,951,034
Fair value per share of PRIMEDIA common stock.....	\$ 11.81

Value of shares of PRIMEDIA common stock issued.....	\$ 530,872

	=====

In connection with the merger with About, outstanding options to purchase shares of About common stock held by certain individuals were converted into 13,383,579 options to purchase shares of PRIMEDIA common stock. The fair value of the vested and unvested options issued by PRIMEDIA was \$102,404 determined using a Black Scholes pricing model. On February 28, 2001, the date that the Company granted these unvested replacement options, the intrinsic value of the "in-the-money" unvested replacement options was \$19,741. Based on a four-year service period from the original date that these options were

granted, the Company classified \$7,592 as unearned compensation relating to unvested options. The Company recorded charges related to the amortization of

the intrinsic value of unvested "in-the-money" options of \$2,775 and \$3,360 for the years ended December 31, 2002 and 2001, respectively (see Note 17). The remaining \$12,149 is included within the total purchase price. As of December 31, 2002, a number of these options have been forfeited or expired unexercised. Most of these remaining outstanding options have an exercise price which exceeded the Company's share price on December 31, 2002.

In the fourth quarter of 2001, concurrent with its annual financial review process, the Company determined that the estimated future undiscounted cash flows of About were not sufficient to recover the carrying value of the goodwill. Accordingly, the Company recorded an impairment charge of \$326,297 to write down About's goodwill to the estimated fair value.

In connection with the acquisition, the Company entered into various agreements with two key executives of About as discussed in Note 17.

EMAP

On August 24, 2001, the Company acquired 100% of the outstanding common stock of the publishing business of EMAP. The strategic acquisition of EMAP has strengthened the Company's unique mix of category specific endemic advertising as well as circulation revenue. This acquisition solidified PRIMEDIA as the leader in the specialty magazine industry in terms of revenue and single copy sales. The total consideration was \$525,000, comprised of \$515,000 in cash, including an estimate of working capital settlements of \$10,000 (which is subject to final settlement), and warrants to acquire 2,000,000 shares of the Company's common stock at \$9 per share. The fair value of the warrants was approximately \$10,000 and was determined using a Black Scholes pricing model. These warrants expire ten years from the date of issuance.

The Company financed the acquisition of EMAP by (1) issuing 1,000,000 shares of Series J Convertible Preferred Stock to KKR 1996 Fund (a limited partnership associated with Kohlberg Kravis Roberts & Co. L.P., ("KKR") a related party of the Company) for \$125,000 and (2) drawing upon its revolving credit facility in an amount of approximately \$265,000. In addition, KKR 1996 Fund purchased from the Company \$125,000 of common stock and Series K Convertible Preferred Stock, both at a price per share equal to \$4.70. This resulted in an additional 10,800,000 shares of common stock and 15,795,745 shares of Series K Convertible Preferred Stock. On September 27, 2001, all of the issued and outstanding shares of the Series K Convertible Preferred Stock were, in accordance with their terms, converted into 15,795,745 shares of the Company's common stock.

The Series J Convertible Preferred Stock is convertible at the option of the holder into approximately 17,900,000 shares of the Company's common stock at a conversion price of \$7 per share, subject to adjustment. Dividends on the Series J Convertible Preferred Stock accrue at an annual rate of 12.5% and are payable quarterly in-kind. The Company paid dividends-in-kind (135,076 shares of Series J Convertible Preferred Stock) valued at \$16,884 for the year ended December 31, 2002. The Company has the option to redeem any or all of the shares of the Series J Convertible Preferred Stock at any time for cash at 100% of the liquidation preference of each share being redeemed. On any dividend payment date, the Company has the option to exchange, in whole but not in part, the Series J Convertible Preferred Stock into 12.5% Class J Subordinated Notes. The Company's ability to redeem or exchange the Series J Convertible Preferred Stock into debt is subject to the approval of a majority of the independent directors.

3. ACQUISITIONS AND OTHER INVESTMENTS (CONTINUED)

In connection with the equity financing by KKR 1996 Fund, the Company paid KKR 1996 Fund a commitment fee consisting of warrants to purchase 1,250,000 shares of common stock ("commitment warrants") of the Company at an exercise price of \$7 per share, subject to adjustment, and a funding fee consisting of warrants to purchase an additional 2,620,000 shares of the Company's common stock ("funding warrants") at an exercise price of \$7 per share, subject to adjustment. These warrants may be currently exercised and expire on the earlier of August 24, 2011 or upon a change in control, as defined therein. In addition, the Company was required to issue to KKR 1996 Fund additional warrants to purchase up to 4,000,000 shares of the Company's common stock at an exercise price of \$7 per share, subject to adjustment. The issuance of the additional 4,000,000 warrants was contingent upon the length of time that the Series J Convertible Preferred Stock was outstanding. As the Series J Convertible Preferred Stock was outstanding for three, six, nine and twelve months from the date of issuance, KKR 1996 Fund received the additional warrants to purchase 250,000, 1 million, 1.25 million and 1.5 million shares of common stock, respectively. The Company ascribed a value of \$498, \$2,160, \$1,988 and \$1,743 respectively, to these warrants using the Black Scholes pricing model. These warrants expire on the earlier of ten years from the date of issuance or upon a change in control.

The 1,250,000 commitment warrants issued to KKR 1996 Fund represent a commitment fee related to the financing transaction as a whole. The Company valued these warrants at \$5,622 using the Black Scholes pricing model and recorded them as a component of additional paid-in capital.

The Company attributed the 2,620,000 funding warrants to the issuance of the Series J Convertible Preferred Stock. The Company valued these warrants at \$9,679 using the Black Scholes pricing model and has accordingly reduced the face value of the Series J Convertible Preferred Stock. The Company accreted the difference between the carrying value and the redemption value of the Series J Convertible Preferred Stock to additional paid-in capital using the effective interest method over a one year period as the earliest date at which the preferred stock was convertible was one year from the date of issuance. The accretion was deducted in the calculation of loss applicable to common shareholders.

During 2002, the Company elected to account for the EMAP acquisition as an asset acquisition for income tax purposes. An independent valuation of EMAP's intangible assets and other aspects of the purchase cost allocation resulted in a reclassification of \$37,532 from other intangible assets to goodwill on the accompanying consolidated balance sheet at December 31, 2002.

The following is a summary of the calculation of the purchase price, as described above, as well as the allocation of the purchase price to the fair value of the net assets acquired:

Purchase consideration (including working capital and other settlements).....	\$525,000
Direct acquisition costs.....	6,565

Total purchase price.....	531,565
Add: Fair value of net tangible liabilities of EMAP.....	40,435
Less: Fair value of identifiable intangible assets.....	121,600

Goodwill.....	\$450,400
	=====

Edgar Filing: PRIMEDIA INC - Form 10-K

Of the \$121,600 fair value of identifiable intangible assets, \$99,200 represents trademarks not subject to amortization and \$22,400 represents amortizable membership, subscriber and customer lists.

The Company's consolidated results of operations includes results of operations of About and EMAP from their respective dates of acquisition. The results of About and EMAP are included in the Company's

consumer segment. The unaudited pro forma information below presents the consolidated results of operations as if the About and EMAP acquisitions had occurred as of January 1, 2001. In accordance with SFAS 142, these pro forma adjustments assume that none of the goodwill and indefinite lived intangible assets associated with the EMAP acquisition are amortized. If the Company had recorded amortization of the goodwill and indefinite lived intangible assets in connection with the EMAP acquisition in accordance with the Company's historical amortization policies, assuming the acquisition occurred on January 1, 2001, amortization expense would have increased by approximately \$13,700 in 2001. The unaudited pro forma information has been included for comparative purposes and is not indicative of the results of operations of the consolidated Company had the transactions occurred as of January 1, 2001, nor is it necessarily indicative of future results.

3. ACQUISITIONS AND OTHER INVESTMENTS (CONTINUED)

The Company recorded provisions for impairment of various PRIMEDIA Ventures' investments of approximately \$5,600, \$6,500 and \$11,200 in 2002, 2001 and 2000, respectively. These provisions for impairment are included as a component of provision for impairment of investments on the accompanying statements of consolidated operations for the years ended December 31, 2002 and 2001.

The Company sold certain PRIMEDIA Ventures' investments and received proceeds of approximately \$323, \$3,100 and \$10,100, and realized gains on these sales of approximately \$28, \$1,400 and \$8,600 in 2002, 2001 and 2000, respectively. These gains are included in gain on the sale of businesses and other, net on the accompanying statements of consolidated operations.

Since inception, proceeds from the sales of certain PRIMEDIA Ventures' investments as well as related distributions have exceeded amounts invested.

INVESTMENT IN CMGI, INC.

In May 2000, the Company acquired 1,530,000 shares of common stock of CMGI, Inc. in exchange for 8,000,000 shares of the Company's common stock (par value \$.01) subject to a one year lockup. The transaction was valued at \$164,000, which represents the fair value of the Company's common stock exchanged on the exchange date. The Company recorded provisions for impairment of \$7,000 and \$155,500 related to its investment in CMGI, Inc. in 2001 and 2000, respectively, as the decline in the market value of the investment was deemed to be other than temporary. In October 2001, the Company sold its investment in CMGI for total proceeds and gain on sale of \$2,149 and \$619, respectively. The

gain on sale is included as a component of gain on sale of businesses and other, net on the accompanying statement of consolidated operations for the year ended December 31, 2001.

INVESTMENT IN LIBERTY DIGITAL.

In April 2000, the Company completed its purchase of 625,000 shares of Liberty Digital Series A common stock at forty dollars per share for an aggregate purchase price of \$25,000. The Company recorded provisions for impairment of \$658 and \$21,869 related to its investment in Liberty Digital in 2001 and 2000, respectively, as the decline in the market value of the investment was deemed to be other than temporary. During 2001, the Company sold its investment in Liberty Digital for total proceeds and loss on sale of \$1,838 and \$668, respectively. The loss on sale is included as a component of gain on sale of businesses and other, net on the accompanying statement of operations for the year ended December 31, 2001.

ASSETS-FOR-EQUITY TRANSACTIONS.

During 2000, the Company began making strategic investments in companies ("Investees") which included various assets-for-equity transactions. Under these transactions, the Company provides promotional services, such as print advertising, content licensing, customer lists, online advertising and other services in exchange for equity in these entities. Additionally, the Company made cash investments in certain of these Investees. The Company's investments in Investees, included in other investments on the accompanying consolidated balance sheets, totaled \$16,870 (\$15,956 representing cost method investments and \$914 representing equity method investments) and \$32,753 (\$27,313 representing cost method investments and \$5,440 representing equity method investments) at December 31, 2002 and 2001, respectively. At December 31, 2002 and 2001, respectively, \$4,963 and \$12,696 relating to these agreements is included as deferred revenues on the accompanying consolidated balance sheets. This deferred revenue represents advertising, content licensing and other services to be rendered by the Company in exchange for

the equity in these entities. The Company recognizes these amounts as revenue in accordance with the Company's revenue recognition policies. The Company recorded revenue from these agreements related to its continuing operations of approximately \$7,600, \$46,900 and \$43,400 for the years ended December 31, 2002, 2001 and 2000, respectively. The Company recorded revenue from these agreements related to its discontinued operations of approximately \$6,900 and \$3,400 for the years ended December 31, 2001 and 2000.

These transactions are recorded at the fair value of the equity securities received, which are typically based on cash consideration for like securities. For significant transactions involving equity securities in private companies, the Company obtains and considers independent third-party valuations where appropriate. Such valuations use a variety of methodologies to estimate fair value, including comparing the security with the securities of publicly traded companies in similar lines of business, comparing the nature of the security, price, and related terms of investors in the same round of financing, applying price multiples to estimated future operating results for the private company, and then also estimating discounted cash flows for that company. Using these

Edgar Filing: PRIMEDIA INC - Form 10-K

valuations and other information available to the Company, such as the Company's knowledge of the industry and knowledge of specific information about the Investee, the Company determines the estimated fair value of the securities received. As required by EITF No. 00-8, "Accounting by a Grantee for an Equity Instrument to Be Received in Conjunction with Providing Goods and Services," the fair value of the equity securities received is determined as of the earlier of the date a performance commitment is reached or the vesting date.

The Company continually evaluates all of its investments for potential impairment in accordance with APB No. 18, "The Equity Method of Accounting for Investments in Common Stock". If an investment is deemed to be other than temporarily impaired, its carrying value will be reduced to fair market value. The Company recorded a net provision for impairment of its investments in certain Investees of \$10,030 and \$83,959, for the years ended December 31, 2002 and 2001, respectively, as the decline in value of the investments was deemed to be other than temporary. No provision for impairment was recorded for assets-for-equity investments in 2000.

The Company recorded \$3,474, \$35,784 and \$7,721 of equity method losses from Investees for the years ended December 31, 2002, 2001 and 2000, respectively. These equity method losses from Investees are included in other, net on the accompanying statements of consolidated operations. The Company recognized \$1,493, \$14,500 and \$16,314 of revenue related to the equity method Investees for the years ended December 31, 2002, 2001 and 2000, respectively.

INVESTMENTS IN ABOUT

During 2000, the Company entered into additional business arrangements with About whereby the Company has provided or will provide approximately \$89,000 of advertising and promotional services, over a five-year period, as well as the right to use a mailing list owned by the Company, in exchange for an aggregate of 2,873,595 shares of common stock of About. The Company and About have also entered into certain agreements pursuant to which the Company has agreed to purchase advertising and promotional services on the About network. These agreements provide for payments to About in the aggregate of \$15,900. At the merger completion date, these agreements became intercompany agreements, the activity of which, subsequent to the merger completion date, has been and will continue to be eliminated in consolidation. During the two months ended February 28, 2001 and the year ended December 31, 2000, in accordance with the terms of these agreements, the Company recorded revenue of approximately \$21,000 and \$9,000, respectively, and expenses of approximately \$3,500 and \$4,700, respectively.

3. ACQUISITIONS AND OTHER INVESTMENTS (CONTINUED)

In addition, during 2000, the Company purchased 316,500 shares of About on the open market for approximately \$7,800. The Company recorded an unrealized gain of \$693 relating to its investment in About, which met the criteria of SFAS No. 115.

4. DIVESTITURES

2000

On March 30, 2000, the Company announced its intention to divest

Edgar Filing: PRIMEDIA INC - Form 10-K

QWIZ, Inc., Pictorial, Inc. and 18 business directories ("Directories"). At that time, in accordance with SFAS 121, these businesses ceased to depreciate their property and equipment and ceased to amortize their other intangible assets and excess of purchase price over net assets acquired.

On June 30, 2000, the Company completed the sale of Pictorial, Inc. to BISYS for total consideration of \$129,000 in cash, which includes proceeds from the sale of the business as well as payments received related to a non-compete agreement. The value of the non-compete agreement is approximately \$25,000 and is included in deferred revenues on the accompanying consolidated balance sheets. The non-compete agreement is being amortized over a 15-year period. In connection with the sale, the Company recorded a gain of approximately \$17,300, net of estimated selling costs. The Company has used the proceeds from this sale for repayment of borrowings under its credit facilities.

During the quarter ended June 30, 2000, the Company received \$10,000 related to the final settlement on a prior period divestiture. This receipt is included in other, net on the accompanying statement of consolidated operations.

On October 18, 2000, the Company completed the sale of Directories to an acquisition group formed by Bariston Partners, LLC for \$34,000 in cash. In connection with the sale, the Company recorded a gain of approximately \$10,800. Proceeds from the sale of Directories were primarily used to pay down borrowings under the Company's credit facilities.

During the fourth quarter of 2000, the Company recorded a provision of approximately \$28,200, to write-down the assets of QWIZ, Inc. to their net realizable value. This provision is included in gain on the sales of businesses and other, net on the accompanying statement of consolidated operations for the year ended December 31, 2000.

2001

In April 2001, the Company completed the sale of QWIZ, Inc. for \$7,000 of cash. The related gain on the sale of QWIZ, Inc. approximates \$300 and is included in the gain on sales of businesses and other, net on the accompanying statement of consolidated operations for the year ended December 31, 2001. Proceeds from the sale of QWIZ, Inc. were primarily used to pay down borrowings under the Company's credit facilities.

In November 2001, the Company completed the sale of Bacon's Information, Inc. ("Bacon's") to Observer AB for \$90,000, \$15,000 of which represented a note receivable and is included as a component of prepaid expenses and other on the accompanying balance sheet as of December 31, 2001. The gain on the sale of Bacon's approximates \$54,600 and is included in gain on the sales of businesses and other, net on the accompanying statement of consolidated operations for the year ended December 31, 2001. Proceeds from the sale of Bacon's were primarily used to pay down borrowings under the Company's credit facilities.

4. DIVESTITURES (CONTINUED)

In addition, during 2001, the Company completed several other smaller divestitures which were not material to the results of operations or cash flows of the Company for the year ended December 31, 2001.

Edgar Filing: PRIMEDIA INC - Form 10-K

2002

In 2002, the Company completed several divestitures, the results of which have been included in discontinued operations in accordance with SFAS 144. These divestitures include the Modern Bride Group, ExitInfo, Chicago, the American Baby Group, IN New York, Horticulture and Doll Reader which were sold. The related net gain on sale of businesses of \$111,449 for the year ended December 31, 2002 has been included in discontinued operations on the accompanying statement of consolidated operations.

During 2002, the Company completed the sale of several other properties which did not qualify as discontinued operations under SFAS 144 since they had been previously classified as non-core businesses. The related net loss on sale of businesses of \$7,247 is included in loss (gain) on sale of businesses and other, net, on the accompanying statement of consolidated operations for the year ended December 31, 2002.

Proceeds from these sales were approximately \$228,000 (\$1,000 of which is in escrow) and were used to pay down the Company's outstanding debt and borrowings under the credit facilities. In connection with certain of the divestitures, the Company agreed to provide certain services to the purchasers including space rental and finance, sales and systems support at negotiated rates over specified terms.

During 2002, the Company received \$15,000, representing the entire amount of the note receivable on the sale of Bacon's.

8. GOODWILL, OTHER INTANGIBLE ASSETS AND OTHER

On January 1, 2002, the Company adopted SFAS 142, which requires, among other matters, an evaluation of goodwill for impairment at the reporting unit level within six months of mandatory adoption of this Standard, as well as subsequent annual evaluations (more frequently if circumstances indicate a possible impairment). As required by SFAS 142, the Company reviewed its indefinite lived intangible assets (primarily trademarks) for impairment as of January 1, 2002 using a relief from royalty valuation model, and determined that certain indefinite lived intangible assets were impaired. As a result, the Company recorded an impairment charge within cumulative effect of a change in accounting principle of \$21,535 (\$0.08 per share) during the first quarter of 2002. The impairment of \$21,535 referred to above relates to the consumer segment.

Edgar Filing: PRIMEDIA INC - Form 10-K

During the second quarter of 2002, the Company completed its assessment of whether there was an indication that goodwill was impaired at any of its eight identified reporting units (step one). Step one of the transitional impairment test uses a fair value methodology, which differs from the undiscounted cash flow methodology that continues to be used for intangible assets with an identifiable life. Based on the results of step one of the transitional impairment test, the Company identified two reporting units in the Consumer segment and one reporting unit in the Business-to-Business segment for which the carrying values exceeded the fair values at January 1, 2002, indicating a potential impairment of goodwill in those individual reporting units.

During the third quarter of 2002, the Company completed step two of the transitional impairment test for the reporting units in which an indication of goodwill impairment existed. The Company determined the implied fair value of each of those reporting units, principally using a discounted cash flow analysis and compared such values to the respective reporting unit's carrying amounts. This evaluation indicated that

69

PRIMEDIA INC. AND SUBSIDIARIES

8. GOODWILL, OTHER INTANGIBLE ASSETS AND OTHER (CONTINUED)

goodwill associated with two reporting units in the Consumer segment and one reporting unit in the Business-to-Business segment were impaired as of January 1, 2002. As a result, the Company recorded an impairment charge within cumulative effect of a change in accounting principle of \$329,659 (\$1.30 per share) as of January 1, 2002 related to the impairment of goodwill. Of the goodwill impairment noted above, \$174,076 relates to the Consumer segment and \$155,583 relates to the Business-to-Business segment. In connection with step two of the SFAS 142 implementation as it relates to goodwill, the Company reassessed its trademark valuation as of January 1, 2002 and recorded an additional \$37,314 (\$0.15 per share) impairment and has included such impairment in the cumulative effect of a change in accounting principle. Of the impairment of \$37,314 referred to above, \$23,703 relates to the Consumer segment and \$13,611 relates to the Business-to-Business segment.

SFAS 142 also requires that companies assess goodwill and indefinite lived intangible assets for impairment at least once per year subsequent to adoption of the statement. Any impairment subsequent to the initial implementation is recorded in operating income. The Company performed its first annual impairment test as of October 31, 2002. Step one of this subsequent impairment test indicated that there may be a goodwill impairment at two reporting units in the Business-to-Business segment and two reporting units in the Consumer segment. Step two of the October 31, 2002 impairment test indicated that goodwill associated with the two reporting units in the Business-to-Business segment and the two reporting units in the Consumer segment was impaired as of October 31, 2002. As a result, the Company recorded an impairment charge within amortization of \$97,227 (\$0.38 per share) as of October 31, 2002 related to the impairment of goodwill. Of the goodwill impairment referred to above, \$23,676 relates to the Consumer segment and \$73,551 relates to the Business-to-Business segment. In connection with step two of the subsequent impairment test, the Company assessed its trademark valuation as of October 31, 2002, and recorded \$819 (\$0.00 per share) as an impairment within amortization. Of the trademark impairment noted above, \$710 relates to the Consumer segment and \$109 relates to the Business-to-Business segment.

The Company's SFAS 142 evaluations at both January 1, 2002 and October 31,

Edgar Filing: PRIMEDIA INC - Form 10-K

2002, including the reassessment of its trademark valuation during the third quarter, were performed by an independent valuation firm, utilizing reasonable and supportable assumptions and projections and reflects management's best estimate of projected future cash flows. The Company's discounted cash flow evaluation used a range of discount rates that represented the Company's weighted-average cost of capital and included an evaluation of other companies in each reporting unit's industry. The assumptions utilized by the Company in these evaluations are consistent with those utilized in the Company's annual planning process. If the assumptions and estimates underlying these goodwill and trademark impairment evaluations are not achieved, the ultimate amount of the impairment could be adversely affected. Subsequent impairments, if any, will be classified as an operating expense. Future impairment tests will be performed at least annually (as of October 31) in conjunction with the Company's annual budgeting and forecasting process.

Historically, the Company did not need a valuation allowance for the portion of the tax effect of net operating losses equal to the amount of deferred tax liabilities related to tax-deductible goodwill and trademark amortization expected to occur during the carryforward period of the net operating losses based on the timing of the reversal of these taxable temporary differences. As a result of the adoption of SFAS 142, the reversal will not occur during the carryforward period of the net operating losses. Therefore, the Company recorded a deferred income tax expense of approximately \$52,000 on January 1, 2002 and \$20,500 during 2002 which would not have been required prior to the adoption of SFAS 142. The charge

8. GOODWILL, OTHER INTANGIBLE ASSETS AND OTHER (CONTINUED)

recorded to increase the valuation allowance was reduced by the reversal of tax liabilities of \$23,000 during the third quarter of 2002 as a result of the impairment of goodwill and certain indefinite lived intangible assets discussed above.

In addition, since amortization of tax-deductible goodwill and trademarks ceased on January 1, 2002, the Company will have deferred tax liabilities that will arise each quarter because the taxable temporary differences related to the amortization of these assets will not reverse prior to the expiration period of the Company's deductible temporary differences unless the related assets are sold or an impairment of the assets is recorded. The Company expects that it will record approximately \$13,300 to increase deferred tax liabilities during 2003.

The independent valuation reports received in connection with step two of the SFAS 142 impairment test completed during the third and fourth quarters indicated that the carrying value of certain finite-lived assets might not be recoverable. Accordingly, impairment testing under SFAS 144 was undertaken resulting in an impairment charge of \$60,498 (\$35,577 and \$24,921 in the Consumer and Business-to-Business segments, respectively). These charges are included in depreciation of property and equipment (\$11,610) and amortization of intangible assets, goodwill and other (\$48,888) in the accompanying statement of consolidated operations for the year ended December 31, 2002.

Changes in the carrying amount of goodwill for the year ended December 31, 2002, by operating segment, are as follows:

On June 20, 2001, the Company completed a refinancing of its existing bank credit facilities pursuant to new bank credit facilities with The Chase Manhattan Bank, Bank of America, N.A., The Bank of New York, and The Bank of Nova Scotia, as agents. The debt under the new credit agreement and as otherwise permitted under the credit agreement and the indebtedness relating to the Senior Notes of the Company is secured by a pledge of the stock of PRIMEDIA Companies Inc., an intermediate holding company, owned

directly by the Company, which owns directly or indirectly all shares of PRIMEDIA subsidiaries that guarantee such debt (as well as certain of the Company's other equally and ratably secured indebtedness).

Substantially all proceeds from sales of businesses and other investments were used to pay down borrowings under the credit agreement. Amounts under the bank credit facilities may be reborrowed and used for general corporate and working capital purposes as well as to finance certain future acquisitions. The bank credit facilities consist of the following:

With the exception of the term loan B, the amounts borrowed bear interest, at the Company's option, at either the base rate plus an applicable margin ranging from 0.125% to 1.5% or the Eurodollar Rate plus an applicable margin ranging from 1.125% to 2.5%. The term loan B bears interest at the base rate plus 1.75% or the Eurodollar Rate plus 2.75%. At December 31, 2002, the weighted average variable interest rate on all outstanding borrowings under the bank credit facilities was approximately 4.4%.

Under the bank credit facilities, the Company has agreed to pay commitment fees at a per annum rate of either 0.375% or 0.5%, depending on its debt to EBITDA ratio, as defined in the credit agreement, on the daily average aggregate unutilized commitment under the revolving loan commitment. During 2002, the Company's commitment fees totaling \$953 were paid at a weighted average rate of .5%. The Company also has agreed to pay certain fees with respect to the issuance of letters of credit and an annual administration fee.

The commitments under the revolving loan facility are subject to mandatory reductions semi-annually on June 30 and December 31, commencing December 31, 2004, with the final reduction on June 30, 2008. The aggregate mandatory reductions of the revolving loan commitments under the bank credit facilities are \$22,550 in 2004, \$45,100 in 2005, \$67,650 in 2006, \$135,300 in 2007 and a final reduction of \$180,400 in 2008. To the extent that the total revolving credit loans outstanding exceed the reduced commitment amount, these loans must be paid down to an amount equal to or less than the reduced commitment amount. However, if the total revolving credit loans outstanding do not exceed the reduced commitment amount, then there is no requirement to pay down any of the revolving credit loans. In 2002, the Company voluntarily reduced the commitment under the revolving loan facility by \$24,000. Aggregate term loan payments under the bank credit facilities are \$4,038 in 2003, \$15,913 in 2004, \$27,788 in 2005, 2006 and 2007, \$15,913 in 2008 and \$373,503 in 2009. During 2002, the Company made voluntary pre-payments towards the term loans A and B in the amounts of \$5,000 and \$21,000, respectively.

The bank credit facilities, among other things, limit the Company's ability to change the nature of its businesses, incur indebtedness, create liens, sell assets, engage in mergers, consolidations or transactions with affiliates, make investments in or loans to certain subsidiaries, issue guarantees and make certain

Company's common stock in excess of \$75,000 in any given year.

The bank credit facilities and senior notes of the Company contain certain customary events of default which generally give the banks or the noteholders, as applicable, the right to accelerate payments of outstanding debt. Under the bank credit facilities, these events include:

- failure to maintain required covenant ratios, as described below;
- failure to make a payment of principal, interest or fees within five days of its due date;
- default, beyond any applicable grace period, on any aggregate indebtedness of PRIMEDIA exceeding \$20,000;
- occurrence of certain insolvency proceedings with respect to PRIMEDIA or any of its material subsidiaries;
- entry of one judgment or decree involving a liability of \$15,000 or more (or more than one involving an aggregate liability of \$25,000 or more); and
- occurrence of certain events constituting a change of control of the Company.

The events of default contained in PRIMEDIA's senior notes are similar to, but generally less restrictive than, those contained in the Company's bank credit facilities.

Under the most restrictive debt covenants as defined in the Company's credit agreement, the Company must maintain a minimum interest coverage ratio, as defined, of 1.80 to 1 and a minimum fixed charge coverage ratio, as defined, of 1.05 to 1. The Company's maximum allowable debt leverage ratio, as defined, is 6.0 to 1. The maximum leverage ratio decreases to 5.75 to 1, 5.5 to 1, 5.0 to 1 and 4.5 to 1, respectively, on July 1, 2003, January 1, 2004, January 1, 2005 and January 1, 2006. The minimum interest coverage ratio increases to 2.0 to 1, 2.25 to 1 and 2.5 to 1, respectively, on July 1, 2003, January 1, 2004 and January 1, 2005. The Company is in compliance with the financial and operating covenants of its financing arrangements.

As a result of the refinancing of the Company's existing bank credit facilities, in 2001, the Company wrote-off the remaining balances of deferred financing costs originally recorded approximating \$7,250. This write-off is included within amortization of deferred financing costs on the accompanying statement of consolidated operations for the year ended December 31, 2001.

10 1/4% SENIOR NOTES. Interest is payable semi-annually in June and December at an annual rate of 10 1/4%. The 10 1/4% Senior Notes mature on June 1, 2004, with no sinking fund requirements. The 10 1/4% Senior Notes are redeemable at 100% in 2003 plus accrued and unpaid interest.

On March 5, 2003 the Company redeemed its \$84,175 10 1/4% Senior Notes. These notes were called at redemption value plus accrued interest of \$2,229. These notes were redeemed 15 months ahead of maturity. The Company funded this transaction with additional borrowings under its credit facilities.

8 1/2% SENIOR NOTES. Interest is payable semi-annually in February and August at an annual rate of 8 1/2%. The 8 1/2% Senior Notes mature on February 1, 2006, with no sinking fund requirements. The 8 1/2% Senior Notes are redeemable in whole or in part, at the option of the Company, at 100% in 2003 plus accrued and unpaid interest. The unamortized discount for these notes totaled \$493 and \$646 at December 31, 2002 and 2001, respectively.

7 5/8% SENIOR NOTES. Interest is payable semi-annually in April and October at the annual rate of 7 5/8%. The 7 5/8% Senior Notes mature on April 1, 2008, with no sinking fund requirements. The 7 5/8% Senior Notes may not be redeemed prior to April 1, 2003 other than in connection with a change of control. Beginning on April 1, 2003 and thereafter, the 7 5/8% Senior Notes are redeemable in whole or in part, at the option of the Company, at prices ranging from 103.813% in 2003 with annual reductions to 100% in 2006 and thereafter, plus accrued and unpaid interest. The unamortized discount for these notes totaled \$803 and \$989 at December 31, 2002 and 2001, respectively.

8 7/8% SENIOR NOTES. In 2001, the Company completed an offering of \$500,000 of 8 7/8% Senior Notes. Net proceeds from this offering of \$492,685 were used to repay borrowings under the revolving credit facilities. The 8 7/8% Senior Notes mature on May 15, 2011, with no sinking fund requirements, and have interest payable semi-annually in May and November at an annual rate of 8 7/8%. Beginning in 2006, the 8 7/8% Senior Notes are redeemable at 104.438% with annual reductions to 100% in 2009 plus accrued and unpaid interest. The unamortized discount for these notes totaled \$6,201 and \$7,022 at December 31, 2002 and 2001, respectively.

If the Company becomes subject to a change of control, each holder of the notes will have the right to require the Company to purchase any or all of the notes at a purchase price equal to 101% of the aggregate principal amount of the notes plus accrued and unpaid interest, if any, to the date of purchase.

During the third quarter of 2002, the Board of Directors authorized the Company to expend up to \$20,000 for the purchase of its senior notes in private or public transactions. During the fourth quarter of 2002, the Board of Directors increased the authorization to an aggregate of \$90,000. In 2002, the Company repurchased \$15,825 of the 10 1/4% Senior Notes (carrying value of \$15,825) for \$14,300 plus accrued interest, \$8,500 of the 8.50% Senior Notes (carrying value of \$8,485) for \$7,838 plus accrued interest, \$23,885 of the 7 5/8% Senior Notes (carrying value of \$23,806) for \$21,089 plus accrued interest and \$24,500 of the 8 7/8% Senior Notes (carrying value of \$24,176) for \$21,210 plus accrued interest. The Senior Note purchases include fees associated with these purchases. These purchases resulted in a gain of \$7,855 recorded in other, net on the accompanying statement of consolidated operations for the year ended December 31, 2002.

The 10 1/4% Senior Notes, 8 1/2% Senior Notes, 7 5/8% Senior Notes, and the 8 7/8% Senior Notes (together referred to as the "Senior Notes"), and the credit facilities, all rank senior in right of payment to all subordinated obligations which PRIMEDIA Inc. (a holding company) may incur. The Senior Notes are secured by a pledge of stock of PRIMEDIA Companies Inc.

The Company is herewith providing detailed information and disclosure as to the methodology used in determining compliance with the leverage test in the credit agreements. Under its various credit and

senior note agreements, the Company is allowed to designate certain businesses as unrestricted subsidiaries to the extent that the value of those businesses does not exceed the permitted amounts, as defined in these agreements. The Company has designated certain of its businesses as unrestricted (the "Unrestricted Group"), which primarily represent Internet businesses, trademark and content licensing and service companies, new launches (including traditional start-ups), other properties under evaluation for turnaround or shutdown and foreign subsidiaries. Indebtedness under the bank credit facilities and senior note agreements is guaranteed by each of the Company's domestic restricted subsidiaries in accordance with the provisions and limitations of the Company's credit and senior note agreements. The guarantees are full, unconditional and joint and several. The Unrestricted Group does not guarantee the bank credit facilities or senior notes, and its results (positive or negative) are not reflected in the EBITDA of the Restricted Group, as defined in the Company's credit and senior note agreements for purposes of determining compliance with certain financial covenants under these agreements. The Company has established intracompany and intercompany arrangements that implement transactions, such as leasing, licensing, sales and related services and cross-promotion, between restricted and unrestricted subsidiaries, which management believes is on an arms length basis and as permitted by the credit and senior note agreements. These intracompany and intercompany arrangements afford strategic benefits across the Company's properties and, in particular, enable the Unrestricted Group to utilize established brands and content, promote brand awareness and increase traffic and revenue to the Company's new media properties. For company-wide consolidated financial reporting, these intracompany and intercompany transactions are eliminated in consolidation. Additionally, the EBITDA of the Restricted Group, as determined for purposes of the leverage ratio and the pricing of the loans under the credit agreement in accordance with these agreements, omits restructuring charges and is adjusted for the trailing four quarters results of acquisitions and divestitures and estimated savings for acquired businesses.

The scheduled repayments of all debt outstanding, net of unamortized discount, including capital leases and adjusted to reflect the Company's early redemption of its 10 1/4% Senior Notes in March 2003, are as follows:

At December 31, 2002, the Company had aggregate net operating and capital loss carryforwards for Federal and State income tax purposes of \$1,722,781 which will be available to reduce future taxable income. The utilization of such net operating losses ("NOLs") and capital losses is subject to certain limitations under Federal income tax laws. In certain instances, such NOLs may only be used to reduce future taxable income of the respective company which generated the NOLs. The capital losses may only be used to offset future capital gains. The NOLs and capital losses are scheduled to expire in the following years:

At December 31, 2002, 2001, and 2000, management of the Company reviewed recent operating results and projected future operating results. At the end of 2000, management determined that a portion of the net deferred income tax assets would likely be realized. However, at the end of 2001, management determined that the net deferred income tax assets would not likely be realized. Historically, the Company did not need a valuation allowance for the portion of the tax effect of net operating losses equal to the amount of tax-deductible goodwill and trademark amortization expected to occur during the carryforward period of the net operating losses based on the timing of the reversal of these taxable temporary differences. As a result of the adoption of SFAS 142, the reversal will not occur during the carryforward period of the net operating losses. Therefore, the Company recorded a deferred income tax expense of approximately \$52,000 on January 1, 2002 and \$20,500 during 2002 which would not have been required prior to the adoption of SFAS 142. The charge recorded to increase the valuation allowance was reduced by the reversal of tax liabilities of \$23,000 during the third quarter of 2002 as a result of the impairments of goodwill and certain indefinite lived intangible assets. The income tax expense recorded in 2002 is net of tax refunds received. During 2001 and 2000, the Company increased its valuation allowance due to continued historical operating losses and the impairment of investments, resulting in a net provision for income taxes of \$135,000 and \$41,200, respectively. In addition, during 2001 and 2000, the Company's valuation allowance was impacted by the acquisition of About and various dispositions. This change in valuation allowance did not impact the provision for income taxes.

A portion of the valuation allowances in the amount of approximately \$103,900 at December 31, 2002 relates to net deferred tax assets which were recorded in accounting for the acquisitions of various entities. The recognition

Edgar Filing: PRIMEDIA INC - Form 10-K

of such amount in future years will be allocated to reduce the excess of the purchase price over the net assets acquired and other non-current intangible assets.

agreement. As of December 31, 2002 and 2001, the liquidation and redemption value of the Series F Preferred Stock was \$102,333 and \$125,000, respectively.

\$8.625 SERIES H EXCHANGEABLE PREFERRED STOCK. Annual dividends of \$8.625 per share on the Series H Preferred Stock are cumulative and payable quarterly, in cash. On or after April 1, 2003, the Series H Preferred Stock may be redeemed in whole or in part, at the option of the Company, at prices ranging from 104.313% with annual reductions to 100% in 2006, plus accrued and unpaid dividends. The Company is required to redeem the Series H Preferred Stock on April 1, 2010 at a redemption price equal to the liquidation preference of \$100 per share, plus accrued and unpaid dividends. The Series H Preferred Stock is exchangeable, in whole but not in part, at the option of the Company, on any scheduled dividend payment date into 8 5/8% Class H Subordinated Exchange Debentures due 2010 provided the Company is in compliance with the terms of its credit agreement. As of December 31, 2002 and 2001, the liquidation and redemption value of the Series H Preferred Stock was \$214,089 and \$250,000, respectively.

During the first quarter of 2002, the Board of Directors authorized the exchange by the Company of up to approximately \$100,000 of exchangeable preferred stock. During May 2002, the Board of Directors

increased the authorization to an aggregate of approximately \$165,000 of exchangeable preferred stock. In 2002, the Company exchanged \$23,013 liquidation value of Series D Exchangeable Preferred Stock, with a carrying value of \$22,650, for 4,467,033 shares of common stock, \$22,667 liquidation value of Series F Exchangeable Preferred Stock, with a carrying value of \$22,103, for 4,385,222 shares of common stock and \$35,911 liquidation value of Series H Exchangeable Preferred Stock, with a carrying value of \$35,152, for 8,368,516 shares of common stock. The cumulative gain on these exchanges of \$32,788 for the year ended December 31, 2002 is included as a component of additional paid-in capital on the accompanying consolidated balance sheet at December 31, 2002. This gain is included in the calculation of basic and diluted loss applicable to common shareholders per common share on the statements of consolidated operations for year ended December 31, 2002.

There are no required maturity payments for the Company's Exchangeable Preferred Stock during the next five years.

14. COMMON STOCK

During the second quarter of 2002, the Board of Directors approved and the shareholders ratified an amendment to the Company's Certificate of Incorporation, which increased the number of authorized shares of the Company's common stock from 300,000,000 to 350,000,000.

STOCK ISSUANCES. In April 2000, Liberty Media Corporation ("Liberty Media") invested \$200,000 in cash in exchange for 8,000,000 shares of the Company's issued and outstanding shares of common stock, subject to a one-year lockup, and a warrant to purchase an additional 1,500,000 shares of the Company's common stock. The warrant received by Liberty Media is exercisable at \$25 per share on or before April 19, 2003. Additionally, Liberty Media has received an option to acquire a 12.5% stake in the Company's subsidiary, PRIMEDIA Digital Video.

Edgar Filing: PRIMEDIA INC - Form 10-K

During 2000, in connection with PRIMEDIA's investment in Internet Gift Registries, Inc. ("IGR"), PRIMEDIA agreed to make an offer to exchange shares of its common stock ("the exchange offering") for up to 3,764,000 shares of IGR stock and up to 556,088 shares of IGR Series B Preferred Stock. In July 2001, pursuant to the exchange offering, PRIMEDIA issued 969,633 shares of common stock. The exchange was recorded at approximately \$6,500, the fair market value of the Company's shares on the date of issuance.

Pursuant to PRIMEDIA's acquisition of About in February 2001, the Company exchanged approximately 52,400,000 shares of its common stock for the common stock of About. Of the total shares exchanged, approximately 7,500,000 were held by PRIMEDIA prior to the acquisition and were classified as treasury shares after the exchange.

In August 2001, in connection with PRIMEDIA's acquisition of EMAP, KKR 1996 Fund L.P. ("KKR 1996 Fund"), a limited partnership associated with KKR purchased 10,800,000 shares of newly issued common stock for \$50,760. Concurrently, KKR 1996 Fund purchased 15,796,000 shares of PRIMEDIA's Series K Convertible Preferred Stock for \$74,240. These shares were converted into approximately 15,796,000 shares of the Company's common stock in September 2001 (See Note 3).

SHARE REPURCHASES. Under its share repurchase program, the Company's board of directors authorized the repurchase of up to \$30,000 of its outstanding common stock from time to time in the open market and through privately negotiated transactions. In connection with the exchange of \$6,150 of Series H Preferred Stock in December 2002, the Company repurchased the related 2,860,465 common shares exchanged for the Series H Preferred Stock for \$1.48 per share. The transaction settled in January

2003. There were no repurchases during 2001. During 2000, the Company repurchased 29,500 shares of common stock for \$512 at a weighted average price of \$17.36. All repurchases above are recorded at cost.

STOCK PURCHASE AND OPTION PLANS. The PRIMEDIA Inc. 1992 Stock Purchase and Option Plan (the "Stock Option Plan") authorizes sales of shares of common stock and grants of incentive awards in the form of, among other things, stock options to key employees and other persons with a unique relationship with the Company. The Stock Option Plan has authorized grants of up to 35,000,000 shares of the Company's common stock or options to management personnel.

During 1999, the Company granted 1,380,711 restricted shares of common stock from the treasury, to a senior executive. During 2000, pursuant to the grant, the vesting period accelerated based upon the achievement of certain stock performance measures. Accordingly, non-cash compensation expense of \$15,250 was recognized in 2000. In addition, in 2001, 2,955,450 restricted shares of the Company's common stock were issued to About executives in connection with the employment agreements entered into as a result of the About merger (see Note 17).

As part of the merger with About, the Company assumed certain About stock purchase and option plans. No stock purchases will be allowed and no options will be granted under these plans and grantees will be issued the Company's

Edgar Filing: PRIMEDIA INC - Form 10-K

common stock upon exercise of options. On the date of merger, the Company assumed approximately 13,400,000 options outstanding under the About plan (see Note 3). These have been included as options granted in 2001 in the table below.

Stock options are generally granted with exercise prices at or above quoted market value at time of issuance. Most of the options are exercisable at the rate of 20% per year over a five-year period commencing on the effective date of the grant. Most options granted pursuant to the Stock Option Plan will expire no later than ten years from the date the option was granted.

During 1999, the Company granted 5,000,000 stock options to a senior executive. These options were to vest over 4 years, with accelerated vesting upon the achievement of certain stock performance measures. During 2000, 2,000,000 of these options vested in accordance with the accelerated vesting provisions of the original grant. During 2001, the Company granted approximately 2,200,000 stock options to its employees at an exercise price of \$1.85 per share, the market price of the Company's common stock on the date of issuance.

In addition, in connection with the employment agreements entered into as a result of the About merger, 3,482,300 stock options were issued to About executives at an exercise price equal to 30% of the fair market value per share on the date of issuance (see Note 17).

In August 2001, in connection with the EMAP financing, the Company paid the KKR 1996 Fund a commitment fee consisting of warrants to purchase 1,250,000 shares of common stock of the Company at an exercise price of \$7.00 per share and a funding fee consisting of warrants to purchase an additional 2,620,000 shares of the Company's stock at an exercise price of \$7.00 per share. The Company also granted 4,000,000 warrants to the KKR 1996 Fund in 2001 and 2002. The grants were based on the length of time that the Series J Preferred Stock was outstanding. See Note 3 for further discussion.

In April 2002, the Company granted certain executives an aggregate total of 6,630,000 options to purchase shares of the Company's common stock. The exercise prices of these options range from \$4.00 per share to \$6.00 per share. The options granted at \$4.00 per share vest monthly over a four-year period following the date of the grant. The remaining options vest in 2010 unless the Company achieves certain earnings targets. Upon the achievement of these targets, the vesting of the respective options is accelerated upon the financial statements for the relevant year being finalized.

The weighted-average fair value per option for options granted in 2002, 2001 and 2000 was \$2.52, \$5.39 and \$13.02, respectively.

Consistent with the past practices of the Company, as part of director's compensation for non-management, non-KKR directors, on May 24, 2002, the Company granted Messrs. Bell, Feldberg and Greeniaus 50,000 options to purchase common stock of the Company at an exercise price of \$2.02 per share under the Stock Option Plan. These options are included in the above stock option table.

In 2001, the Company retained Capstone Consulting LLC ("Capstone") to provide consulting services to the Company primarily to identify and advise on potential opportunities to reduce costs at the Company. In 2002, the Company paid Capstone \$800 in cash for consulting services received. In addition, on July 26, 2002, the Company granted 1,800,000 options to purchase the Company's common stock to Capstone for services received. These options are fully vested as of the grant date, have a ten year life and an exercise price of \$1.80 per share. The exercise price equals 200% of the share price on the grant date. Although neither KKR nor any entity affiliated with KKR owns any of the equity of Capstone, KKR has provided financing to Capstone. Related non-cash compensation of \$990, determined using the Black Scholes pricing model, was recorded for the year ended December 31, 2002. These options are not included in the above stock option table.

SFAS 123 provides for a fair-value based method of accounting for employee options and measures compensation expense using an option valuation model that takes into account, as of the grant date, the exercise price and expected life of the option, the current price of the underlying stock and its expected volatility, expected dividends on the stock, and the risk-free interest rate for the expected term of the option. The Company has elected to continue accounting for employee stock-based compensation under APB 25. Under APB 25, when the exercise price of the Company's employee stock options equals or exceeds the market price of the underlying stock on the date of grant, no compensation expense is recognized.

Pro forma information regarding net income and earnings per share is required by SFAS 123, and has been determined as if the Company had accounted for its employee stock options under the fair value method of SFAS 123. The fair value of these options was estimated at the date of grant using the Black-Scholes pricing model for options granted in 2002, 2001 and 2000. The following weighted-average assumptions were used for 2002, 2001 and 2000, respectively: risk-free interest rates of 4.61%, 4.70% and 6.29%; dividend yields of 0.0%, 0.0% and 0.0%; volatility factors of the expected market price of the Company's common stock of 122.20%, 100.42% and 72.12%; and a weighted-average expected life of the

Edgar Filing: PRIMEDIA INC - Form 10-K

(DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS)

14. COMMON STOCK (CONTINUED)

option of ten years. The estimated fair value of options granted during 2002, 2001 and 2000 was \$17,630, \$110,007 and \$18,467, respectively.

The Black Scholes pricing model was developed for use in estimating the fair value of traded options which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility. Because the Company's employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its employee stock options. See Note 2 for discussion of pro forma information and SFAS 148.

The Company had reserved approximately 13,200,000 shares of the Company's common stock for future grants in connection with the Stock Option Plan at December 31, 2002.

15. LOSS PER COMMON SHARE

Loss per common share for the years ended December 31, 2002, 2001 and 2000 has been determined based on net loss available to common shareholders, divided by the weighted average number of common shares outstanding for all years presented.

Diluted net loss per share is computed using the weighted average number of common and potentially dilutive common shares outstanding during the period using the treasury stock method. Potentially dilutive common shares include the effect of stock options, warrants and convertible preferred stock. Options to purchase 29,068,881, 28,752,939, and 13,463,101 shares of common stock were outstanding at December 31, 2002, 2001 and 2000, respectively, but were not included in the computation of diluted loss per share because the effect of their inclusion would be antidilutive. In addition, warrants to purchase 11,370,000, 7,620,000 and 1,500,000 shares of common stock, and the potential conversion of the Series J Convertible Preferred Stock including declared dividends into approximately 20,800,000, 18,400,000 and 0 shares of common stock were not included in the computation of diluted loss per share for 2002, 2001 and 2000, respectively, because the effect of their inclusion would be antidilutive.

16. ACCUMULATED OTHER COMPREHENSIVE LOSS

Accumulated other comprehensive loss as of December 31, 2002 and 2001 is presented in the following table:

17. NON-CASH COMPENSATION AND NON-RECURRING CHARGES

In connection with the About merger, certain senior executives were granted 2,955,450 shares of restricted PRIMEDIA common stock. These shares of restricted PRIMEDIA common stock, which were valued at \$9.50 per share, the closing stock price on February 28, 2001, vest at a rate of 25% per year and are subject to the executives' continued employment. Unearned compensation of \$28,077 was recorded for the year ended December 31, 2001. Non-cash compensation of \$2,210 and \$13,572, which reflects pro rata vesting on a graded basis, were recorded for the years ended December 31, 2002 and 2001, respectively.

17. NON-CASH COMPENSATION AND NON-RECURRING CHARGES (CONTINUED)

In addition, these senior executives were granted options to purchase 3,482,300 shares of PRIMEDIA common stock at an exercise price of \$2.85 per share, equal to thirty percent of the fair market value per share on that date. These options vest at a rate of 25% per year and are subject to the executives' continued employment. Unearned compensation of \$23,157 was recorded for the year ended December 31, 2001. Non-cash compensation of \$1,823 and \$11,194, which reflects pro rata vesting on a graded basis was recorded for the years ended December 31, 2002 and 2001 respectively. Amounts reflect a 70% market value discount (\$6.65 per share) based on a PRIMEDIA per share market value of \$9.50 which was the closing price on February 28, 2001.

Two senior executives of About also entered into share lockup agreements with the Company, pursuant to which they agreed to specific restrictions regarding the transferability of their shares of PRIMEDIA common stock issued in the merger. Under the terms of those agreements, during the first year after the closing of the merger, the executives could sell a portion of their shares of the Company's common stock, subject to the Company's right of first refusal with respect to any sale. In the event that the gross proceeds received on sale were less than \$33,125 (assuming all shares are sold), the Company agreed to pay the executives the amount of such shortfall ("the Shortfall Payment").

During the third quarter of 2001, one of the executives, who subsequently left the Company, advised the Company that he was selling 1,429,344 shares of the Company's common stock in the market. Concurrently therewith, the executive assigned to a financial institution the right to receive his Shortfall Payment on that number of shares. The financial institution advised the Company that it purchased 1,429,344 shares of the Company's common stock in the market. The financial institution agreed to waive its right to the Shortfall Payment in exchange for the Company's agreement to make the financial institution whole if it sold such shares, which it purchased in the market, for proceeds of less than approximately \$23,400. As of March 8, 2002, the financial institution had sold all of the shares in the open market for proceeds of approximately \$3,300. A liability of approximately \$18,400 representing the Shortfall Payments due under both agreements, based on the fair value of the Company's stock was included as a component of accrued expenses and other on the accompanying consolidated balance sheet at December 31, 2001. In 2002, the Company recorded an additional expense of \$2,635 related to the mark to market of the shortfall payment. In April 2002, the Company paid approximately \$20,300 to the financial institution upon which the liability has been fully settled. In addition, in 2002, the Company paid approximately \$700 to the other executive under this agreement.

As a result of this executive leaving the Company, effective December 2001,

Edgar Filing: PRIMEDIA INC - Form 10-K

half of his restricted shares (1,105,550 shares) and options (1,302,650 options) were accelerated and the remainder were forfeited, resulting in a reversal of unearned compensation of \$19,166 in 2001. The accelerated options expired unexercised during the first quarter of 2002.

On July 26, 2002, the Company granted 1,800,000 options to purchase the Company's common stock to Capstone for services received. Related non-cash compensation of \$990, determined using the Black Scholes pricing model, was recorded for the year ended December 31, 2002. See Note 14 for additional information regarding the terms of the option grant and the services provided by Capstone.

For the year ended December 31, 2002, the Company recorded \$15,665 of non-cash compensation and non-recurring charges. These non-cash compensation charges consisted of a \$4,033 charge related to the restricted stock and option grants to the senior executives of About discussed above, a \$2,775 related to the amortization of the intrinsic value of unvested "in-the-money" options issued in connection with the About merger, a \$5,232 charge related to the issuance of stock in connection with an acquisition and a \$990

charge for the options granted for consulting services received as discussed above. Additionally, a charge of \$2,635 was recorded to account for the mark to market of the Shortfall Payment discussed above.

For the year ended December 31, 2001, the Company recorded \$58,181 of non-cash compensation and non-recurring charges. These non-cash compensation charges consisted of a \$24,766 charge related to the restricted stock and option grants to the senior executives of About discussed above, a \$3,360 charge related to the amortization of the intrinsic value of unvested "in-the-money" options issued in connection with the About merger and a \$1,502 charge related to the vesting of stock in connection with an acquisition. These non-recurring charges included a \$26,480 charge related to the share lockup arrangements with certain executives of About discussed above and a \$2,073 charge related to certain non-recurring compensation arrangements with certain senior executives.

During the year ended December 31, 2000, the Company recorded \$27,810 of non-cash compensation charges relating to the hiring and retention of certain key executives. These non-cash compensation charges consisted of a \$15,250 charge related to 1,380,711 restricted shares of common stock granted to a senior executive in 1999, a \$12,437 charge related to the extension of the expiration period of 1,000,000 options, previously granted to a senior executive, for an additional 10 year period beyond the original expiration date and a \$123 charge related to the granting of stock options to certain directors. During the second quarter of 2000, the Company recorded \$7,400 of non-recurring charges relating to the recoverability of certain assets of the business-to-business segment.

Non-cash compensation and non-recurring charges are omitted from the Company's calculation of EBITDA, as defined in the Company's Credit and Senior Note agreements (see Note 11).

18. PROVISION FOR SEVERANCE, CLOSURES AND RESTRUCTURING RELATED COSTS

Edgar Filing: PRIMEDIA INC - Form 10-K

During 2001 and 2000, the Company implemented plans to integrate the operations of the Company and consolidate many functions and facilities. The Company expects that these plans will continue to result in future savings. All restructuring related charges were expensed as incurred.

During 2002, the Company announced additional cost initiatives that would continue to implement and expand upon the cost initiatives enacted during 2001 and 2000.

The remaining costs, comprised primarily of real estate lease commitments for space that the Company no longer occupies, are expected to be paid through 2015. To reduce the lease related costs, the Company is aggressively pursuing subleases of its available office space. These leases have been recorded at their net present value amounts and are net of estimated sublease income amounts.

18. PROVISION FOR SEVERANCE, CLOSURES AND RESTRUCTURING RELATED COSTS (CONTINUED)

Included in the net provision for the years ended December 31, 2002 and 2001 are reversals of \$4,847 and \$1,884, respectively, of previously recorded accruals.

As a result of the implementation of these plans, the Company has closed and consolidated in excess of twenty office locations and has notified a total of 1,756 individuals that they would be terminated under these plans. As of December 31, 2002, all but three of those individuals have been terminated.

The Company expects to realize sufficient savings from its plans to integrate the operations of the Company and to recover the costs associated with these plans, related to employee termination costs, within approximately a one-year period. Savings from terminations of contracts and lease costs will be realized over the estimated life of the contract or lease.

The liabilities representing the provision for severance, closures and restructuring related costs are included in accrued expenses and other on the consolidated balance sheets as of their respective year. The provision for severance, closures and restructuring related costs is omitted from the

Edgar Filing: PRIMEDIA INC - Form 10-K

Company's calculation of EBITDA, as defined in the Company's Credit and Senior Note agreements (see Note 11).

19. DERIVATIVE FINANCIAL INSTRUMENTS

In 2001, the Company recorded an expense of approximately \$27 as a cumulative transition adjustment to earnings, which is included in other, net on the statement of consolidated operations, relating to derivatives not designated as hedges prior to the adoption of SFAS No. 133, and \$1,247 as a reduction to OCI as a cumulative transition adjustment for derivatives designated as cash flow-type hedges prior to adopting SFAS No. 133.

INTEREST RATE SWAP CONTRACTS

In 2001, the Company was a party to several interest rate swap contracts in order to manage the risks associated with interest rate fluctuations on its floating rate borrowings. Interest rate swap contracts are used to adjust the proportion of total debt that is subject to variable interest rates. Under the terms of the interest rate swap contracts, the Company agreed to pay an amount equal to a specified fixed-rate of interest times a notional principal amount, and to receive in return an amount equal to a specified variable-rate of interest times the same notional principal amount. The notional amounts of the contract are not exchanged. No other cash payments are made unless the contract is terminated prior to maturity, in which case the amount paid or received in settlement is established by agreement at the time of termination, and usually represents the net present value, at current rates of interest, of the remaining obligations to exchange payments under the terms of the contract. Interest rate swap contracts were entered into with major financial institutions in order to minimize credit risk. Prior to entering into any interest rate swap contracts, the Company considers, among other things, swap terms including the reference rate, payment and maturity dates and the notional amount in determining if the interest rate swap contract will be effective at modifying an existing debt obligation.

The Company's interest rate swap contracts were considered to be a hedge against changes in the amount of future cash flows associated with the Company's interest payments. Accordingly, the interest rate swap contracts are reflected at fair value on the Company's consolidated 2001 balance sheet and the related gains and losses on these contracts are deferred in shareholders' deficiency as a component of OCI. These gains and losses are amortized as an adjustment to interest expense over the same period in which the related interest payments being hedged are recognized in operations. However, to the extent that any of these contracts are not considered to be perfectly effective in offsetting the change in the value of the interest payments being hedged, any changes in fair value relating to the ineffective portion of these contracts are immediately recognized in operations. The net effect of this accounting on the Company's

91

19. DERIVATIVE FINANCIAL INSTRUMENTS (CONTINUED)

operating results is that interest expense on the portion of variable-rate debt being hedged is generally recorded based on fixed interest rates.

At December 31, 2001, the Company had interest rate swap contracts to pay fixed-rates of interest and receive variable-rates of interest on \$200,000 of notional amount of indebtedness. These swaps matured on January 2, 2002 and have

Edgar Filing: PRIMEDIA INC - Form 10-K

not been renewed. For the year ended December 31, 2001, the Company's interest rate swap contracts, which are included as a component of accrued interest payable on the accompanying consolidated balance sheet as of December 31, 2001, were considered to be highly effective. Accordingly, the decrease in fair value of these contracts of \$650 for the year ended December 31, 2001 was recognized as a component of OCI. As of December 31, 2002, the Company is not a party to any interest rate swap contracts.

20. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following disclosure of the estimated fair value of financial instruments is made in accordance with the requirements of SFAS No. 107, "Disclosures about Fair Value of Financial Instruments". The estimated fair value amounts have been determined by the Company, using available market information and appropriate valuation methodologies. However, considerable judgment is necessarily required in interpreting market data to develop the estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that the Company could realize in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

Series H Preferred Stock.....	209,950	144,866	244,497

The estimated fair value of the senior notes was determined based on the quoted market prices and the fair value of the preferred stocks was based on recent bid prices. The estimated fair value of the interest rate swap agreements was determined using discounted cash flow models.

For instruments including cash and cash equivalents, accounts receivable, accounts payable and accrued expenses, the carrying amount approximates fair value because of the short maturity of these instruments. The estimated fair value of floating-rate long-term debt approximates carrying value because these instruments re-price frequently at current market prices.

21. BENEFIT PLANS AND OTHER EMPLOYEE COSTS

RETIREMENT PLANS. Substantially all of the Company's employees are eligible to participate in defined contribution plans. The expense recognized for all of these plans was approximately \$5,100 in 2002, \$5,500 in 2001 and \$5,800 in 2000.

EMPLOYEE STOCK PURCHASE PLAN ("ESPP"). During March 2000, the Company approved and implemented the PRIMEDIA Employee Stock Purchase Plan. The ESPP is intended to encourage long-term

investment in the Company and to assist eligible employees of the Company and its eligible subsidiaries to purchase common stock of the Company through payroll deductions at a discount. The ESPP permits full-time or part-time employees who customarily work at least 20 hours per week and five months a year to purchase shares of the Company's common stock at the lesser of 90% of the closing stock price on the first or last day of the offering period.

For the offering period ended December 31, 2000, 132,793 shares were issued in January 2001, at a share price of \$10.7438. For the offering period ended June 30, 2001, 182,106 shares were issued in July 2001, at a share price of \$6.111 and for the offering period ended December 31, 2001, 207,044 shares were issued in January 2002, at a share price of \$3.915. For the offering period ended June 30, 2002, 573,986 shares were issued in July 2002, at a share price of \$1.098 and for the offering period ended December 31, 2002, 365,207 shares were issued in January 2003, at a share price of \$1.206.

22. COMMITMENTS AND CONTINGENCIES

COMMITMENTS. Total rent expense under operating leases was \$41,953, \$49,388 and \$41,310 for the years ended December 31, 2002, 2001 and 2000, respectively. Certain leases are subject to escalation clauses and certain leases contain renewal options. The leases primarily relate to real estate and equipment. The following annual rental commitments includes an aggregate of \$138,656 which has been reserved for as part of the provision for severance, closures and restructuring related costs (see Note 18) and is included in accrued expenses and other in the accompanying December 31, 2002 consolidated balance sheet at its net present value and net of related sublease income. 22. COMMITMENTS AND CONTINGENCIES (CONTINUED)

CONTINGENCIES. The Company is involved in ordinary and routine litigation incidental to its business. In the opinion of management, there is no pending legal proceeding that would have a material adverse effect on the consolidated financial statements of the Company.

During 2002, PRIMEDIA contributed the Gravity Games, a product previously acquired from EMAP, to a limited liability company (the "LLC") formed jointly by PRIMEDIA, on the one hand, and Octagon Marketing and Athlete Representation, Inc., on the other hand, with each party owning 50%. To date, the Company has contributed \$2,803 in cash to this venture. The LLC has entered into an agreement with NBC Sports, a division of National Broadcasting Company, Inc., which requires the LLC to pay specified fees to NBC for certain production services performed by NBC and network air time provided by NBC, during each of 2002 and 2003. Under the terms of this agreement and a related guarantee, PRIMEDIA could be responsible for the payment of a portion of such fees, in the event that the LLC failed to satisfy its payment obligations to NBC. The LLC satisfied all of its payment obligations due to NBC in 2002. The maximum amount for which PRIMEDIA could be liable in 2003 is \$2,200. As this liability is contingent on the LLC's failure to pay and the occurrence of certain other events and existence of certain other conditions, the Company has not recorded a liability on the accompanying consolidated balance sheet as of December 31, 2002; however, the asset representing the Company's 50% investment in the LLC as well as the Company's share of the LLC's losses are reflected in the Company's consolidated financial statements. The Company's investment in the LLC (\$1,526) is reflected as a component of other investments on the accompanying consolidated balance sheet at December 31, 2002. The Company's share of the LLC's losses (\$1,277) is reflected as a component of other, net on the accompanying statements of consolidated operations for the year ended December 31, 2002.

At December 31, 2002, the Company had \$19,388 aggregate face amount of letters of credit outstanding (see Note 11).

As of and for the year ended December 31, 2002, no officers or directors of the Company have been granted loans by the Company, nor has the Company

Edgar Filing: PRIMEDIA INC - Form 10-K

guaranteed any obligations of such persons.

23. RELATED PARTY TRANSACTIONS

The Company and the KKR 1996 Fund completed the financing transactions described in Note 3. In addition, during each of the years ended December 31, 2002, 2001 and 2000, the Company incurred and paid administrative and other fees to KKR, an affiliated party, of \$1,000. For the years ended December 31, 2002, 2001 and 2000, \$250, \$750 and \$250, respectively, of these fees were capitalized as acquisition and financing costs. During the years ended December 31, 2002, 2001 and 2000, the Company paid directors' fees to certain partners of KKR aggregating \$206, \$220 and \$206, respectively. In February 2003, \$186 of director fees were paid to Michael Tokarz, a former director of the Company, in the form of 29,284 shares of the Company's common stock as he was permitted to defer the payment of his fees and receive them in the form of common stock pursuant to the Directors' Deferred Compensation Plan.

During 2000, a partnership affiliated with KKR purchased shares of About on the open market. These shares converted to shares of the Company at the merger completion date.

On July 26, 2002, the Company granted 1,800,000 options to purchase the Company's common stock to Capstone for services received. See Note 14 for additional information regarding the terms of the option grant, the services provided by Capstone and the Company's relationship with Capstone.

25. BUSINESS SEGMENT INFORMATION

Upon adoption of SFAS 144, prior year results have been reclassified to reflect the results of the Modern Bride Group, Exitinfo, Chicago, Horticulture, Doll Reader, the American Baby Group and IN New York as discontinued operations for the years prior to their respective divestiture dates. In addition, the Company adopted EITF 00-25 and 01-9 which resulted in a net reclassification of product placement costs previously recorded as operating expenses to reductions of sales from such activities.

Edgar Filing: PRIMEDIA INC - Form 10-K

The Company's operations have been classified into two business segments: consumer and business-to-business. The Company's consumer segment produces and distributes magazines, guides, videos and internet products for consumers in various niche markets. The Company's business-to-business segment produces and distributes magazines, books, directories, databases, vocational training materials and internet products to business professionals in such fields as communications, agriculture, professional services, media, transportation and healthcare. These segment results are regularly reviewed by the Company's chief operating decision-maker and the remainder of the executive team to make decisions about resources to be allocated to the segment and assess its performance. The information presented below includes certain allocations and intracompany and intercompany transactions and is therefore, not necessarily indicative of the results had the operations existed as stand-alone businesses. Eliminations include intracompany and intercompany content and brand licensing, advertising and other services, which are billed at what management believes are prevailing market rates. These transactions, which represent transactions between operating units within the same business segment or transactions between operating units in different business segments, are eliminated in consolidation. Intracompany eliminations were \$104,271, \$61,621 and \$44,696 for the years ended December 31, 2002, 2001 and 2000, respectively. Intercompany eliminations were \$6,106, \$3,830 and \$1,616 for the years ended December 31, 2002, 2001 and 2000, respectively.

The Non-Core Businesses include: QWIZ, Inc. (divested in April 2001), Bacon's (divested in November 2001) and certain titles of The Business Magazines & Media Group and The Consumer Magazines & Media Group which are discontinued or divested. In addition, during 2001, the Company has restructured or consolidated several new media properties, whose value can be realized with far greater efficiency by having select functions absorbed by the core operations and has included these properties in Non-Core Businesses. The Company has segregated the Non-Core Businesses from the aforementioned segments because the Company's chief operating decision-maker and the remainder the executive team view these businesses separately when evaluating and making decisions regarding ongoing operations. In the ordinary course of business, corporate administrative costs of approximately \$1,900, \$9,900 and \$9,600 were allocated to the Non-Core Businesses for the years ended December 31, 2002, 2001 and 2000, respectively. In 2002, the Company has reclassified certain product lines as Non-Core Businesses and in certain instances has reclassified prior periods accordingly. The Company believes that the amounts that have not been reclassified are not significant. Effective June 30, 2002, the Company has not classified any additional businesses as Non-Core Businesses nor have any additional costs been allocated to the Non-Core Businesses subsequent to June 30, 2002.

Information as to the operations of the Company in different business segments is set forth below based on the nature of the targeted audience. Corporate represents items not allocated to other business segments. PRIMEDIA evaluates performance based on several factors, of which the primary financial measure is segment earnings before interest, taxes, depreciation, amortization and other (income) charges ("EBITDA"). Other (income) charges include non-cash compensation and non-recurring charges, provision for severance, closures and restructuring related costs and (gain) loss on sale of businesses and other, net.

	=====	=====	=====

(1) Segment EBITDA represents earnings before interest, taxes, depreciation, amortization and other (income) charges including non-cash compensation and non-recurring charges of \$15,665, \$58,181, and \$35,210 for the years ended December 31, 2002, 2001 and 2000, respectively, a provision for severance, closures and restructuring related costs of \$51,914, \$43,920 and \$20,798 for the years ended December 31, 2002, 2001 and 2000, respectively, and gain (loss) on sale of businesses and other, net of (\$7,247), \$57,233 and \$14,438 for years ended December 31, 2002, 2001 and 2000, respectively. Segment EBITDA excludes \$8,537 of additional restructuring related costs included in general and administrative expenses for year ended December 31, 2001. Segment EBITDA is not intended to represent cash flow from operating activities and should not be considered as an alternative to net income or loss (as determined in conformity with generally accepted accounting principles) as an indicator of the Company's operating performance or to cash flows as a measure of liquidity. It is presented herein as the Company evaluates and measures each business unit's performance based on their Segment EBITDA results. Segment EBITDA may not be available for the Company's discretionary use as there are requirements to redeem preferred stock and repay debt, among other payments. Segment EBITDA as presented may not be comparable to similarly titled measures reported by other companies, since not all companies necessarily calculate Segment EBITDA in identical manners, and therefore, is not necessarily an accurate measure of comparison between companies.

(2) Includes reversals of sales tax accruals that were no longer required of \$1,321 and \$4,000 for the years ended December 31, 2002 and 2001, respectively. Also includes a one-time insurance refund of \$521 in 2002 related to the prior year.

Edgar Filing: PRIMEDIA INC - Form 10-K

- (3) Depreciation includes an impairment of long-lived assets of \$11,610 for the year ended December 31, 2002. Amortization includes a provision for the impairment of intangible assets, goodwill and other of \$154,828 and \$444,699 for the years ended December 31, 2002 and 2001 respectively.
- (4) Includes certain integration costs primarily related to the About merger and other Company-wide integration efforts. These costs principally represent internal personnel costs associated with the consolidation of company-wide functions as well as fees paid to consultants related to the centralization of certain support functions and implementation of certain standardized technology.

26. FINANCIAL INFORMATION FOR GUARANTORS OF THE COMPANY'S DEBT

The information that follows presents condensed consolidating financial information as of December 31, 2002 and 2001 and for years ended December 31, 2002, 2001 and 2000 for a) PRIMEDIA Inc. (as the Issuer), b) the guarantor subsidiaries, which are with limited exceptions, the restricted subsidiaries, represent the core PRIMEDIA businesses and exclude investment and other development properties included in the unrestricted category, c) the non-guarantor subsidiaries (primarily representing Internet assets and businesses, new launches and other properties under evaluation for turnaround or shutdown and foreign subsidiaries), which are with limited exceptions the unrestricted subsidiaries, d) elimination entries and e) the Company on a consolidated basis. Certain businesses, which were included as either guarantor or non-guarantor in 2001 have been reclassified in 2002.

The condensed consolidating financial information includes certain allocations of revenues, expenses, assets and liabilities based on management's best estimates which are not necessarily indicative of financial position, results of operations and cash flows that these entities would have achieved on a stand-alone basis and should be read in conjunction with the consolidated financial statements of the Company. The intercompany balances in the accompanying condensed consolidating financial statements include cash management activities, management fees, cross promotional activities and other intercompany charges between Corporate and the business units and among the business units. The non-guarantor subsidiary results of operations include: internet operations, foreign operations, certain distribution operations, certain start-up magazine businesses, revenues and related expenses derived from the licensing of certain products of guarantor subsidiaries and expenses associated with the cross promotion by the guarantor subsidiaries of the activities of the non-guarantor subsidiaries. The transactions described above are billed, by the Company, at what the Company believes are market rates. All intercompany related activities are eliminated in consolidation.

The business address of the above executive officers of the Company, with the exception of Messrs. Metz and Ritts, is the address of the principal executive office of PRIMEDIA. The business addresses of Messrs. Metz and Ritts are 3119 Campus Drive, Norcross, GA 30071 and 1440 Broadway, New York, New York 10018, respectively.

PRIMEDIA CODE OF BUSINESS CONDUCT AND ETHICS

The Board of Directors of the Company adopted a Code of Business Conduct and Ethics (the "Code") effective March 21, 2003. The Code applies to all officers, directors and employees of the Company, including the principal executive officer, the principal financial officer, the principal accounting officer and persons performing similar functions (the "Officers"). The Code addresses a variety of areas of professional and business conduct, including employment practices, conflicts of interest, compliance with laws and insider trading, marketing practices, antitrust and unfair competition, and relations with government agencies and outside organizations. A copy of the Code has been distributed to all employees of the Company and is also found on the Company's website at www.primedia.com under the caption "Company Overview--Code of Business Conduct and Ethics." The full text of the Code is also attached as an exhibit to this Annual Report. We intend to disclose future amendments to, or waivers from, certain provisions of the Code for Officers on our web site promptly following the date of such amendment or waiver.

The Company has also established a toll-free hotline for employees to register concerns about the Company's accounting and auditing practices. The Company has informed all of the employees of the Company of the availability of the hotline and how to use it. The hotline is administered by an outside provider and reports of all calls will be provided directly to the Chairman of the Audit Committee. Employees who call the hotline have the option of registering their concerns anonymously.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's Directors, executive officers, and persons who own more than 10% of a registered class of its equity securities to file reports of ownership and reports of changes in ownership of such equity securities with the Securities and Exchange Commission (the "SEC"). Directors, executive officers and greater than 10% stockholders are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file.

To the Company's knowledge, based solely on a review of the copies of such forms furnished to the Company and written representations that no other reports were required, the Company believes that all of its Directors, executive officers and greater than 10% stockholders complied with all Section 16(a) filing requirements, except that due to the recent changes in the law requiring expedited filings of Form 4 statements, Form 4 statements were inadvertently filed late by Perry Golkin and George Roberts in connection with the "crediting" of the Company's Common Stock to their accounts in lieu of their director's fees on September 30, 2002 and December 31, 2002. In addition, Mr. Feldberg was late in filing a Form 4 Statement required to be filed in connection with the purchase by Mr. Feldberg of 50,000 shares of the Company's Common Stock on June 28, 2002.

(1) During the calendar year ended December 31, 2002, all executive officers participated in the Company's annual executive incentive and discretionary performance plans. Under these plans, cash awards are contingent and are based on various factors including earnings performance and cash flow of the Company (or in the case of Messrs. Metz and Ferm, earnings and cash flow of the operations they respectively manage) and the executive's individual performance during the calendar year in question as evaluated by the committee overseeing the Executive Incentive Plan.

(2) Payments made in 2000 were contingent on the attainment of cash flow targets pursuant to a Long-Term Incentive Compensation Plan. Ms. Chell and Mr. McCurdy are the only current employees of the Company who were eligible to participate in the Long-Term Incentive Compensation Plan. The Long-Term Incentive Compensation Plan was cancelled effective May 2000.

(3) Represents contributions made by the Company for the benefit of the executives to the PRIMEDIA Thrift & Retirement Plan, a defined contribution

plan covering most of the Company's employees, and interest and contributions to the PRIMEDIA Restoration Plan, a deferred unfunded program restoring to employees the amount of the Company contribution to the PRIMEDIA Thrift & Retirement Plan which the Company was not permitted to contribute because of the compensation limit on contributions to qualified plans under the Internal Revenue Code. Commencing January 1, 2001, the Company suspended contribution accruals to the Restoration Plan but continues to accrue interest on existing balances, which amounts are reflected under "All Other Compensation." In addition, the amounts set forth in the table for Mr. Rogers include payments made by the Company for additional Life Insurance and Long Term Disability Insurance.

- (1) The options have exercise prices of \$4, \$5 and \$6. The \$4 options vest in equal monthly installments over the first four years following the date of grant. The \$5 options automatically vest in 2010 but may vest earlier if the Company's EBITDA (as defined in the agreement) from continuing businesses exceeds \$300 million in 2003. The \$6 options vest automatically in 2010 but may vest earlier if (as to 75% thereof) 2004 EBITDA is \$340 million and (as to the remainder) 2005 EBITDA is \$380 million. In the event an EBITDA acceleration target (as set forth above) is met, the underlying options will vest when the financial statements for the relevant year are finalized. EBITDA acceleration targets are subject to adjustment by the Board of Directors to reflect acquisitions, divestitures and other material items not contemplated when the acceleration targets were set.
 - (2) No Stock Appreciation Rights were granted to the named executive officers during 2002.
 - (3) The options described above are intended to be treated for federal income tax purposes as Incentive Stock Options under section 422 of the Internal Revenue Code of 1986, as amended (the "Code"), to the maximum extent permissible under the Code. If for any reason, all or any of these options cannot be treated as Incentive Stock Options under the Code, the part of these options that cannot be treated as Incentive Stock Options shall be valid and outstanding non-qualified stock options.
 - (4) Potential Realizable Value is based on the assumed annual growth rates for each of the grants shown over their ten-year option term. Actual gains, if any, on stock option exercises are dependent on the future performance of the stock.

COMPENSATION OF DIRECTORS

Directors who are full-time employees of the Company receive no additional compensation for services as a director. In 2002, non-employee directors received an annual all inclusive fee of \$55,000 for all services on the Board and all committees, except that in connection with serving on the Audit Committee of the Board, and in recognition of the additional duties and time commitments required of audit committee members, each of Messrs. Bell, Feldberg and Greeniaus received an additional \$25,000. Consistent with the past practices of the Company, as part of director's compensation for non-management, non-KKR directors, on May 24, 2002, the Company granted Messrs. Bell, Feldberg and Greeniaus 50,000 options to purchase Common Stock of the Company at an exercise price of \$2.02 per share under the Stock Option Plan.

Pursuant to the Directors' Deferred Compensation Plan, a non-employee director may elect to defer all or part of the fee. Deferred amounts are "credited" to an unfunded cash account or Common Stock equivalent account, as selected by the director. Interest, at PRIMEDIA's average borrowing rate, is credited quarterly for bookkeeping purposes to a director's cash account. Subject to certain restrictions, a director is permitted to take distributions in cash from a cash account or in shares of Common Stock or cash equivalent equal to the then value of credited shares, at the Company's option, in whole or in part, from his account following retirement or termination of service. Two of the non-employee directors have elected to defer their fees in Common Stock equivalents.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The Compensation Committee consisted of Messrs. Kravis, Tokarz and Golkin in 2002, and upon Mr. Tokarz's resignation from the Board in May 2002, Mr. Bae became a member of the Compensation Committee. None of Messrs. Kravis, Tokarz, Bae or Golkin have been an officer or employee of the Company. Mr. Tokarz was through his resignation from the Board and each of Messrs. Kravis and Golkin are general partners of KKR Associates and members of KKR 1996 GP LLC, the general partners of the partnerships, which own as of February 28, 2003, approximately 63.89% of the outstanding Common Stock. As general partners of KKR Associates and members of KKR 1996 GP LLC, Messrs. Kravis and Golkin may be deemed to share beneficial ownership of the Common Stock beneficially owned by KKR Associates; however, they disclaim such beneficial ownership. See "Certain Relationships and Related Transactions" and "Security Ownership of Certain Beneficial Owners and Management."

EMPLOYMENT AGREEMENTS

In September 1999, Mr. Rogers and the Company entered into an employment agreement expiring in December 2003 providing for an annual salary of \$1,200,000, an annual target performance bonus of \$800,000 and a potential annual discretionary bonus of up to \$1,000,000 based on extraordinary performance. In May 2001, Mr. Rogers was granted a 7% increase in base salary which took effect in July 2001.

117

Under the agreement, Mr. Rogers was granted 1,300,000 shares of restricted stock and 5,000,000 stock options. Under the terms of Mr. Rogers' agreement, if his employment is terminated by reason of death or disability, he is entitled to receive (a) his base salary through the end of the month in which death occurs or in which disability benefits commence, as applicable, (b) his annual incentive bonus based on his annual target bonus for such year, and (c) vesting of outstanding unvested stock options and restricted stock. If Mr. Rogers'

Edgar Filing: PRIMEDIA INC - Form 10-K

employment is terminated by the Company without cause or by Mr. Rogers following a Constructive Termination without Cause (as defined in the agreement), he is entitled to receive (a) his base salary through the date of termination, (b) his base salary for a period of 24 months following such termination, (c) a prorated portion of his annual incentive bonus based on his annual target bonus for such year, (d) his annual incentive bonus for a period of 24 months following such termination based on his annual target bonus in the year the termination occurs, (e) vesting of outstanding unvested stock options and restricted stock, and (f) continued coverage in PRIMEDIA's health benefit plans for a period of time determined by the agreement. Mr. Rogers shall be entitled to (a) all of the entitlements set forth in the immediately preceding sentence if Mr. Rogers' agreement is not renewed by the Company except that any reference to 24 months shall be substituted with 12 months and (b) all of the rights and benefits set forth in the immediately preceding sentence and all other rights or benefits granted by the Company to Mr. Rogers, whether pursuant to this Agreement or otherwise, shall become vested, in the event of a Change of Control (as defined in the agreement) of the Company. If Mr. Rogers' employment is terminated by the Company with cause or Mr. Rogers voluntarily terminates this employment (excluding any termination following a Constructive Termination without Cause), Mr. Rogers shall be entitled to (a) his base salary through the date of termination, and (b) exercise all vested options by the earlier of 45 days and the expiration date of such options and all unvested options and restricted stock shall be forfeited.

In April 2001, Ms. Chell entered into an agreement with the Company providing for an annual salary of \$700,000, an annual target performance bonus of \$385,000, and an additional annual discretionary bonus of \$700,000 based on performance of certain start-up business areas for the Company. In the event of a Change of Control (as defined by the agreement) or if Ms. Chell's employment is terminated by reason of retirement or any other termination at or after age 65, Ms. Chell shall be entitled to receive \$200,000 annually for life. If Ms. Chell's retirement occurs between the age of 60 and 65, the \$200,000 annual payment shall be reduced by 7% for each year that payments commence prior to age 65, subject to adjustment in certain limited circumstances.

In April 2002, Mr. McCurdy entered into a four-year employment agreement providing for an annual salary of \$700,000, an annual target performance bonus of \$385,000, and an additional discretionary bonus based on his performance in connection with the restructuring/reformation program. Under the terms of Mr. McCurdy's agreement, if his employment is terminated by reason of death or disability, he is entitled to receive (a) his base salary through the end of the month in which death occurs or in which disability benefits commence, as applicable, (b) his annual incentive bonus based on his annual target bonus for such year, and (c) vesting of outstanding unvested stock options granted prior to 2002. If Mr. McCurdy's employment is terminated by the Company without cause or by Mr. McCurdy following a Constructive Termination without Cause (as defined in the agreement), he is entitled to receive (a) his base salary through the date of termination, (b) his base salary for a period of 24 months following the date of termination, (c) a prorated portion of his annual incentive bonus based on his annual target bonus for such year, (d) his annual incentive bonus for a period of 24 months following such termination based on his annual target bonus in the year the termination occurs, (e) vesting of outstanding unvested stock options granted prior to 2002, and (f) continued coverage in PRIMEDIA's health benefit plans for a period of time determined by the agreement. Mr. McCurdy shall be entitled to (a) all of the entitlements set forth in the immediately preceding sentence except that any reference to 24 months shall be substituted with 12 months if Mr. McCurdy's agreement is not renewed by the Company and (b) all of the rights and benefits set forth in the immediately preceding sentence and all other rights or benefits granted by the Company to Mr. McCurdy, whether pursuant to this Agreement or otherwise, shall become vested (excluding any stock options granted in 2002 or thereafter which shall be governed by the relevant stock

option agreement), in the event of a Change of Control (as defined in the agreement) of the Company. If Mr. McCurdy's employment is terminated by the Company with cause or Mr. McCurdy voluntarily terminates this employment (excluding any termination following a Constructive Termination without Cause), Mr. McCurdy shall be entitled to (a) his base salary through the date of termination, and (b) exercise all vested options by the earlier of 45 days and the expiration date of such options and all unvested options shall be forfeited.

In March 2002, Mr. Ferm and the Company entered into an agreement extending his employment agreement through December 31, 2003. The agreement provides for a base salary of \$750,000, an annual target performance bonus of \$450,000 based on the performance of the PRIMEDIA Magazine and Media Group, of which Mr. Ferm is President and Chief Executive Officer. The agreement provides for the grant of stock options as described in the Executive Compensation Table. Under the terms of Mr. Ferm's agreement, if his employment is not renewed by the Company following its expiration or his employment is terminated by reason of death or disability or by Mr. Ferm voluntarily due to a material reduction of his duties, removal by the Company from his current position, relocation or a breach of the agreement by the Company, he is entitled to receive (a) his base salary through the date of termination, (b) his base salary for a period of 12 months from the date of termination, and (c) a prorated portion of his annual incentive bonus for the year in which such termination occurs. In the event of a Change of Control (as defined by the agreement), all unvested stock options granted pursuant to the agreement shall vest.

In February 2002, a three-year compensation plan was established for Mr. Metz and three other senior executives in the Consumer Guides Group. Under this plan, Mr. Metz has target payouts of \$100,000, \$150,000 and \$450,000 for 2002, 2003 and 2004, respectively. This plan replaced a prior plan (payments to Mr. Metz in 2001 and 2000 under this prior plan are reflected on the Executive Compensation Table). Payment of any amount is contingent on the Consumer Guides Group achieving certain financial targets.

In 1999, Messrs. Rogers, McCurdy and Metz and Ms. Chell and in 2000, Mr. Ferm were granted stock options in some of the Company's subsidiaries generally known as the Internet entities. No information has been given about such options because such options have no value or liquidity. In March 2003, Messrs. Rogers and McCurdy and Ms. Chell waived and released all of the stock options granted to each of them in those Internet entities.

121

(2) The number of shares issuable pursuant to the Directors' Deferred Compensation Plan described in Item 11 of this Form 10-K under the caption "Compensation of Directors" is not presently determinable.

(3) The table does not include information for the following equity compensation plans and options and other warrants and rights assumed by the Company in connection with mergers and acquisitions pursuant to which there remain outstanding options or other warrants or rights (collectively, the "Assumed Plans"): Amended and Restated 1999 Non-Officer Stock Option/Stock Issuance Plan of About.com, Inc.; Glowbug.com, Inc. 2000 Stock Option/Stock Issuance Plan; Sombasa Media Inc. 1999 Stock Option Plan; 1999 Stock Option Plan of Wiseads Interactive, Inc.; About.com, Inc. Second Amended and Restated 1998 Stock Option/Stock Issuance Plan; and North Sky, Inc. (formerly Direct Connect, Inc.) 1997 Stock Option Plan. A total of 6,346,379 shares of the Company's Common Stock may be purchased under the Assumed Plans, at a weighted average price of \$10.84. No further grants may be made under any Assumed Plan.

(4) Excludes warrants to purchase 7,870,000 shares of the Company's Common Stock owned by KKR 1996 GP LLC. The warrants to purchase shares of the Company's Common Stock owned by KKR 1996 GP LLC are owned of record by KKR 1996 Fund L.P., of which KKR Associates 1996 L.P. is the sole general partner. KKR 1996 GP LLC is the sole general partner of KKR Associates 1996 L.P., and possesses sole voting and investment power. Messrs. Kravis, Roberts and Golkin (directors of PRIMEDIA) and nine other individuals are the members of KKR 1996 GP LLC. Each of such individuals disclaims beneficial ownership of such warrants. Messrs. Kravis and Roberts constitute the Executive Committee of KKR 1996 GP LLC. Mr. Bae (a director of PRIMEDIA) is a limited partner of KKR Associates and an executive of KKR. He disclaims beneficial ownership of such warrants.

(5) Represents 1,800,000 options to purchase the Company's Common Stock issued to Capstone, a consultant of the Company, for services performed, and 877,000 options to purchase the Company's Common Stock issued to Bill Day pursuant to the PRIMEDIA Inc. 2001 Stock Incentive Plan (the "2001 Plan"). See Item 13 of this Form 10-K for a description of the stock options issued to Capstone.

(6) Represents 3,710,850 shares of the Company's Common Stock which may be issued pursuant to future awards under the 2001 Plan. In connection with the Company's acquisition of About, the Company established the 2001 Plan to provide certain key executives of About grants of stock options in the Company's Common Stock. The 2001 Plan permits the grant of stock options,

Edgar Filing: PRIMEDIA INC - Form 10-K

Incentive Stock Options, stock appreciation rights, restricted stock, purchase stock, dividend equivalent rights, performance units, performance shares and other stock-based grants. The only outstanding incentive award under the 2001 Plan is the 877,000 options to purchase Common Stock granted to Mr. Day in 2001 and reflected in the table above. The Company has no present intention to issue any additional incentive awards under the 2001 Plan. The stock options that were granted pursuant to the 2001 Plan expire ten years from the date of grant, vest at a rate of 20% per year over a five-year period commencing on the effective date of the grant and have an exercise price of \$2.85.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Company financed its acquisition of EMAP in part by issuing 1,000,000 shares of Series J Convertible Preferred Stock to KKR 1996 Fund (a limited partnership associated with KKR) for \$125 million. The Company was required to issue to KKR 1996 Fund additional warrants to purchase up to 4,000,000 shares of the Company's Common Stock at an exercise price of \$7 per share, subject to adjustment contingent upon the length of time that the Series J Convertible Preferred Stock was outstanding. If the Series J Convertible Preferred Stock was outstanding for three, six, nine or twelve months from the date of issuance, KKR 1996 Fund was required to receive additional warrants to purchase 250,000, 1 million, 1.25 million and 1.5 million shares of the Company's Common Stock, respectively. Since the Series J Convertible Preferred Stock was outstanding for three, six, nine and twelve months from the date of issuance, in November 2001, February 2002, May 2002 and August 2002, the Company issued to KKR 1996 Fund warrants to purchase 250,000, 1 million, 1.25 million and 1.5 million shares of the

122

Company's Common Stock, respectively. The Company ascribed a value of \$498,000, \$2,160,000, \$1,988,000 and \$1,743,000 to these warrants using the Black Scholes pricing model. These warrants expire on the earlier of ten years from the date of issuance or a change in control.

All of the above described financing transactions between the Company and KKR were reviewed by and recommended for approval by the Special Committee of the Board which retained its own counsel and investment banker to advise it as to the financing transactions.

From time to time, KKR, which is an affiliate of KKR Associates, may receive customary investment banking fees for services rendered to the Company in connection with divestitures, acquisitions and certain other transactions. In addition, KKR renders management, consulting, acquisition and financial services to the Company for an annual fee of \$1 million payable quarterly in arrears. The Company believes that this fee is no less favorable than that which could be obtained for comparable services from unaffiliated third parties. Partners of KKR who also serve as directors of the Company do not receive additional compensation for service in such capacity, other than customary director's fees.

On April 5, 2001, the Company sold the capital stock of QWIZ, Inc. and QWIZ (UK) Limited to QWIZ Acquisition Corporation ("QWIZ Acquisition") in exchange for \$7 million in cash plus preferred stock of QWIZ Acquisition having a liquidation value at such time of \$3 million. On May 17, 2002, QWIZ Acquisition repurchased from the Company all of the preferred stock in QWIZ Acquisition held by the Company for a cash payment in the amount of \$735,872. Mr. Tokarz, a former director of the Company, owns more than 10% of QWIZ Acquisition.

See Item 11 of Part III, "Executive Compensation--Employment Agreements" for a description of the employment agreements between the Company and certain executive officers.

Edgar Filing: PRIMEDIA INC - Form 10-K

In 2001, the Company retained Capstone to provide consulting services to the Company primarily to identify and advise on potential opportunities to reduce costs at the Company. In 2002, the Company paid Capstone \$800,000 in cash for consulting services received. In addition, on July 26, 2002, the Company granted 1,800,000 options to purchase the Company's Common Stock to Capstone for services received. These options are fully vested as of the grant date, have a ten year life and an exercise price of \$1.80 per share. The exercise price equals 200% of the share price on the grant date. Although neither KKR nor any entity affiliated with KKR owns any of the equity of Capstone, KKR has provided financing to Capstone. Related non-cash compensation of \$990,000 determined using the Black Scholes pricing model, was recorded for the year ended December 31, 2002.

ITEM 14. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") are responsible for, and have established and maintained Disclosure Controls and Procedures, as well as evaluated the effectiveness of those controls and procedures as of a date within 90 days prior to the filing date of this report (the "Evaluation Date").

In discharging these responsibilities, among other actions, the CEO and CFO have caused the Company to do the following:

- Required that the Certification Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 adapted to their particular responsibilities be signed by key senior operating executives and financial executives responsible for the various operations of the Company (aggregating over 50 key executives).
 - Distributed an updated version of the PRIMEDIA Financial Policies to the business units to ensure compliance with internal policies, as well as generally accepted accounting principles.
 - Distributed a Section 302 Certification Diagnostics Form to be followed and completed by the Company's operating units which is designed to help ensure that the appropriate control processes are in place to support the CEO's and CFO's disclosure controls certification responsibilities.
- 123
- Distributed Disclosure Controls and Procedures Guidelines to ensure that the Company has effective mechanisms for the timely collection, analysis, and dissemination of material information.
 - Established, in accordance with SEC regulations, a Disclosure Committee consisting of five senior executives of the Company whose charge is to ensure that disclosure issues are identified and communicated to the Disclosure Committee.
 - On March 12, 2003, the Board of Directors adopted a Code of Business Conduct and Ethics (the "Code"). The Code applies to all officers, directors and employees of the Company, including the principal executive officer, the principal financial officer, the principal accounting officer and persons performing similar functions. A copy of the Code has been distributed to all employees of the Company and is also found on the Company's website under the caption "Company Overview--Code of Business Conduct and Ethics". A copy of the Code is also included as an exhibit to this Annual Report.

Edgar Filing: PRIMEDIA INC - Form 10-K

- Established a toll-free hotline for employees to register concerns about the Company's accounting and auditing practices. The Company has informed all of the employees of the Company of the availability of the hotline and how to use it. The hotline is administered by an outside provider and reports of all calls will be provided directly to the Chairman of the Audit Committee.

Based upon the above policies and procedures that are in place within the Company, the CEO and CFO have concluded that (i) as of the Evaluation Date, the Disclosure Controls and Procedures are effective in ensuring that all material information required to be filed in this annual report has been made known to them in a timely fashion, and (ii) there were no significant changes in our internal controls or, in other factors that could significantly affect our disclosure controls and procedures subsequent to the Evaluation Date.

INDEPENDENT AUDITORS' REPORT ON SCHEDULE

To the Shareholders and Board of Directors of
PRIMEDIA Inc.
New York, New York:

We have audited the consolidated balance sheets of PRIMEDIA Inc. and subsidiaries (the "Company") as of December 31, 2002 and 2001, and the related statements of consolidated operations, shareholders' deficiency and cash flows for each of the three years in the period ended December 31, 2002, and have issued our report thereon dated February 28, 2003 (March 5, 2003 as to Note 11) (which report on the consolidated financial statements expresses an unqualified opinion and includes an explanatory paragraph referring to the Company's adoption of Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended, effective January 1, 2001 and Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" and Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," effective January 1, 2002), such financial statements and report are included elsewhere in this Form 10-K. Our audits also included the financial statement schedule of the Company, listed in Item 15. This financial statement schedule is the responsibility of the Company's management. Our responsibility is to express an opinion based on our audits. In our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly in all material respects the information set forth therein.
