The number of shares of common stock owned prior to the offering includes shares of common stock into which the Debentures are convertible. The number of shares of common stock issuable upon conversion of the Debentures offered hereby is based on a conversion rate of 24.9688 shares of common stock per \$1,000 principal amount of Debentures and a cash payment in lieu of any fractional shares. The conversion rate is subject to adjustment in certain events resulting in the increase or decrease of the number of conversion shares from time to time. Information concerning other Selling Securityholders will be set forth in prospectus supplements from time to time, if required. The number of shares of common stock owned by the other Selling Securityholders or any future transferee from any such holder assumes that they do not beneficially own any common stock other than common stock into which the Debentures are convertible.
