**PROXY STATEMENT
FOR THE ANNUAL MEETING OF STOCKHOLDERS
MAY 25, 2004
INFORMATION CONCERNING SOLICITATION AND VOTING**

General

The enclosed proxy is solicited on behalf of the Board of Directors (the "Board") of Gilead Sciences, Inc., a Delaware corporation ("Gilead"), for use at the Annual Meeting of Stockholders to be held on Tuesday, May 25, 2004 at 10:00 a.m. local time (the "Annual Meeting"), or at any adjournment or postponement thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting. The Annual Meeting will be held on such date at the Hotel Sofitel, 223 Twin Dolphin Drive, Redwood City, California 94065.

Solicitation

Gilead will bear the entire cost of solicitation of proxies including preparation, assembly, printing and mailing of this proxy statement and any additional information furnished to stockholders. Copies of solicitation materials will be furnished to banks, brokerage houses, fiduciaries and custodians holding in their names shares of Gilead's common stock beneficially owned by others to forward to such beneficial owners. Gilead may reimburse persons representing beneficial owners of common stock for their costs of forwarding solicitation materials to such beneficial owners. Original solicitation of proxies by mail may be supplemented by telephone, facsimile or personal solicitation by directors, officers or other employees of Gilead. No additional compensation will be paid to directors, officers or other employees for such solicitation services performed by them.

Gilead intends to mail this Proxy Statement and the accompanying proxy card on or about April , 2004 to all stockholders entitled to vote at the Annual Meeting.

Stockholder Proposals

The deadline for submitting a stockholder proposal for inclusion in Gilead's proxy statement and form of proxy for Gilead's 2005 Annual Meeting of Stockholders pursuant to Rule 14a-8 of the Securities Exchange Act of 1934, as amended, (the "Exchange Act") is December ,

Edgar Filing: GILEAD SCIENCES INC - Form PRE 14A

2004. Stockholders wishing to submit proposals or director nominations that are not to be included in such proxy statement and proxy must do so no later than February 25, 2005 nor earlier than January 24, 2005.

Voting Rights and Outstanding Shares

Only holders of record of common stock at the close of business on April 5, 2004 will be entitled to notice of and to vote at the Annual Meeting. Each holder of record of common stock on such date will be entitled to one vote for each share of common stock held on all matters to be voted upon at the Annual Meeting. At the close of business on April 5, 2004, Gilead had outstanding and entitled to vote _____ shares of common stock.

A quorum of stockholders is necessary to hold a valid meeting. A quorum will be present if at least a majority of the outstanding shares are represented by votes at the meeting or by proxy. Each holder of record of common stock on such date will be entitled to one vote for each share held on all matters to be voted upon at the Annual Meeting. The inspector of election appointed for the meeting will tabulate all votes, and will separately tabulate affirmative and negative votes, abstentions and broker non-votes. Abstentions will be counted towards the tabulation of votes cast on proposals

presented to the stockholders and will have the same effect as negative votes, except they will have no effect on the election of directors. A "broker non-vote" occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that proposal and has not received instructions with respect to that proposal from the beneficial owner (despite voting on at least one other proposal for which it does have discretionary authority or for which it has received instructions). Broker non-votes are counted towards a quorum, but are not counted for any purpose in determining whether a particular matter has been approved, except for Proposal 4. For Proposal 4, broker non-votes will have the same effect as negative votes.

Voting Via the Internet or by Telephone

Stockholders may grant a proxy to vote their shares by means of the telephone or on the Internet. The law of the State of Delaware, under which Gilead is incorporated, specifically permits electronically transmitted proxies, provided that each such proxy contains or is submitted with information from which the inspectors of election can determine that such proxy was authorized by the stockholder.

The telephone and Internet voting procedures below are designed to authenticate stockholders' identities, to allow stockholders to grant a proxy to vote their shares and to confirm that stockholders instructions have been recorded properly. Stockholders granting a proxy to vote via the Internet should understand that there may be costs associated with electronic access, such as usage charges from Internet access providers and telephone companies, which must be borne by the stockholder.

For Shares Registered in Your Name

Stockholders of record may go to <http://www.eproxy.com/gild> to grant a proxy to vote their shares by means of the Internet. They will be required to provide the Gilead number and control number contained on their proxy cards. The voter will then be asked to complete an electronic proxy card. The votes represented by such proxy will be generated on the computer screen and the voter will be prompted to submit or revise them as desired. Any stockholder using a touch-tone telephone may also grant a proxy to vote shares by calling 1-800-435-6710 and following the recorded instructions.

For Shares Registered in the Name of a Broker or Bank

Most beneficial owners whose stock is held in street name receive instruction for granting proxies from their banks, brokers or other agents, rather than Gilead's proxy card.

A number of brokers and banks are participating in a program provided through ADP Investor Communication Services that offers the means to grant proxies to vote shares by means of the telephone and Internet. If your shares are held in an account with a broker or bank participating in the ADP Investor Communications Services program, you may grant a proxy to vote those shares telephonically by calling the telephone number shown on the instruction form received from your broker or bank, or via the Internet at ADP Investor Communication Services' web site at <http://www.proxyvote.com>.

General Information for All Shares Voted Via the Internet or By Telephone

Edgar Filing: GILEAD SCIENCES INC - Form PRE 14A

Votes submitted via the Internet or by telephone must be received by 11:59 p.m., Eastern time on May 24, 2004. Submitting your proxy via the Internet or by telephone will not affect your right to vote in person should you decide to attend the Annual Meeting.

2

Revocability of Proxies

Any person giving a proxy pursuant to this solicitation has the power to revoke it at any time before it is voted. It may be revoked by filing with Gilead's Secretary at Gilead's principal executive office, 333 Lakeside Drive, Foster City, California 94404, a written notice of revocation or a duly executed proxy bearing a later date, or it may be revoked by attending the meeting and voting in person. Attendance at the meeting will not, by itself, revoke a proxy.

PROPOSAL 1

ELECTION OF DIRECTORS

There are eight nominees for the eight Board of Directors positions presently authorized by resolution of the Board. Proxies cannot be voted for a greater number of persons than the number of nominees standing for election. Directors are elected by a plurality of the votes present in person or represented by proxy and entitled to vote. Each director to be elected will hold office until the next Annual Meeting of Stockholders and until his successor is elected and has qualified, or until such director's earlier death, resignation or removal. Each nominee listed below is currently a director of Gilead. Each nominee was previously elected by the stockholders at the 2003 annual meeting of stockholders, except Nicholas G. Moore who was elected by the Board of Directors in March 2004, when the Board temporarily increased the size of the Board to nine members. Dr. Schultz identified Mr. Moore as a Board candidate to the Nominating and Corporate Governance Committee.

Shares represented by executed proxies will be voted, if authority to do so is not withheld, for the election of the eight nominees named below. In the event that any nominee should be unavailable for election as a result of an unexpected occurrence, such shares will be voted for the election of such substitute nominee as Gilead's management may propose. Each person nominated for election has agreed to serve if elected and Gilead's management has no reason to believe that any nominee will be unable to serve.

Gilead has a standing Nominating and Corporate Governance Committee. Each member of the Nominating and Corporate Governance Committee meets the standards for independence described by the Nasdaq Stock Market ("Nasdaq") listing requirements. The Nominating and Corporate Governance Committee recommended each of the listed nominees to the Board for nomination.

Cordell W. Hull, a member of the Board and Chairman of the Audit Committee since April 2001, will retire from the Board after the April 2004 Board meeting and will not stand for election at the Annual Meeting. James M. Denny, Chairman of the Board, will become Chairman of the Audit Committee after the April 2004 Board meeting.

Board Committees and Meetings

Independence of the Board of Directors

The Nasdaq listing standards require that a majority of the members of a listed company's board of directors must qualify as "independent," as affirmatively determined by the board of directors. After review of all relevant transactions or relationships between each director (and his or her family

5

members) and Gilead, its senior management and its independent auditors, the Board of Directors has affirmatively determined that seven of Gilead's eight nominees for director are independent within the meaning of the applicable Nasdaq rules. Dr. Martin, Gilead's President and Chief Executive Officer, is not "independent" within the meaning of the Nasdaq rules.

As required under the Nasdaq listing standards, Gilead's independent directors will meet in regularly scheduled executive sessions at which only independent directors are present.

Meetings of the Board of Directors

During the fiscal year ended December 31, 2003, the Board of Directors held eleven regular meetings. The Board has an Audit Committee, a Compensation Committee, a Nominating and Corporate Governance Committee and a Scientific Committee. No Board members attended Gilead's 2003 annual meeting of stockholders. In October 2003, the Board adopted a policy encouraging but not requiring members to attend annual meetings.

Committees of the Board of Directors

The Audit Committee evaluates the performance of and assesses the qualifications of the independent auditors; determines the engagement of the independent auditors; determines whether to retain or terminate the existing independent auditors or to appoint and engage new independent auditors; reviews and approves the retention of the independent auditors to perform any proposed permissible non-audit services; monitors the rotation of partners of the independent auditors on the Gilead engagement team as required by law; reviews the financial statements to be included in Gilead's Annual Reports on Form 10-K and quarterly reports on Form 10-Q; and discusses with management and the independent auditors the results of the annual audit and the results of the auditor's review of Gilead's quarterly financial statements. The Audit Committee is currently comprised of Mr. Hull (Chairman), Gordon Moore, Nicholas Moore and Dr. Schultz. All members of the Nominating and Corporate Governance Committee are "independent" as independence is currently defined in Rule 4200(a)(15) of the Nasdaq listing standards. During the fiscal year ended December 31, 2003, the Nominating and Corporate Governance Committee met once. The charter of the Nominating and Corporate Governance Committee is available on Gilead's website at .

The Nominating and Corporate Governance Committee will evaluate potential new director candidates based on a variety of criteria including the candidate's relevant experience, other board memberships held, diversity and collective experience of the Board and its committees, independence, and possible conflicts of interest. The committee will also consider whether an individual will meet the highest standards of personal and professional integrity, will be able to contribute to an effective board and will serve the long-term interest of the stockholders of Gilead. Candidates may come to the attention of the committee from current Board members, stockholders, professional search firms, officers or other persons. PROPOSAL 2

RATIFICATION OF THE SELECTION OF INDEPENDENT AUDITORS

The Audit Committee of the Board of Directors has selected Ernst & Young LLP as Gilead's independent auditors for the fiscal year ending December 31, 2004 and has further directed that Gilead submit the selection of independent auditors for ratification by the stockholders at the Annual Meeting. The Audit Committee of the Board has determined that the rendering of non-audit services by Ernst & Young during the fiscal year ended December 31, 2003 was compatible with the auditor's independence. Ernst & Young LLP has audited Gilead's financial statements since Gilead's inception in 1987. Representatives of Ernst & Young LLP are expected to be present at the Annual Meeting, will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

Independent Auditor's Fees

Audit Fees. During the fiscal years ended December 31, 2003 and December 31, 2002, the aggregate fees billed by Ernst & Young LLP for the audit of Gilead's financial statements for such fiscal year and for the review of Gilead's interim financial statements were \$1,290,000 and \$738,000, respectively.

Audit Related Fees. During the fiscal years ended December 31, 2003 and December 31, 2002, the aggregate fees billed by Ernst & Young LLP for audit related services were \$144,000 and \$324,000, respectively. These services primarily related to fees for statutory audits, due diligence pertaining to business acquisitions, SEC registration statements, and accounting consultations.

Tax Related Fees. During the fiscal years ended December 31, 2003 and December 31, 2002, the aggregate fees billed by Ernst & Young LLP for tax related services were \$486,000 and \$343,000, respectively, primarily in connection with domestic and international tax compliance.

All Other Fees. During fiscal years ended December 31, 2003 and December 31, 2002, the aggregate fees billed by Ernst & Young LLP for all other professional services were \$0 and \$18,000,

9

respectively. These services were not related to financial information, systems, design and implementation.

All fees described above were approved by the Audit Committee.

Stockholder ratification of the selection of Ernst & Young LLP as Gilead's independent auditors is not required by Gilead's bylaws or otherwise. However, the Board is submitting the selection of Ernst & Young LLP to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the Audit Committee will reconsider whether or not to retain that firm. Even if the selection is ratified, the Audit Committee in its discretion may direct the appointment of a different independent accounting firm at any time during the year if they determine that such a change would be in the best interests of Gilead and its stockholders.

The affirmative vote of the holders of a majority of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting will be required to ratify the selection of Ernst & Young LLP. Abstentions will be counted towards the tabulation of votes cast and will have the same effect as negative votes. Broker non-votes are counted towards a quorum, but are not counted for any purpose in determining whether this matter has been approved.

Pre-Approval Policy and Procedures

Edgar Filing: GILEAD SCIENCES INC - Form PRE 14A

The Audit Committee has adopted a policy and procedures for the pre-approval of audit and non-audit services rendered by our independent auditor, Ernst & Young LLP. Under this policy, the Audit Committee and the Corporate Controller must both pre-approve all services to be provided by the independent auditor and the policy prohibits the engagement of the independent auditor for specified services. The policy permits the engagement of the independent auditor for services that are approved by the Audit Committee and the Corporate Controller in defined categories such as audit services, audit-related services, and tax services. The policy also permits engagement of the independent auditor for non-audit services involving transaction due diligence, employee benefit plan audits and other services approved by the Audit Committee to the extent the fees do not exceed 25% of the total audit fees. Pre-approval may be given as part of the Audit Committee's approval of the scope of the engagement of the independent auditor or on an individual explicit case-by-case basis before the independent auditor is engaged to provide each service. The pre-approval of services may be delegated by the Audit Committee. The Audit Committee will receive quarterly reports on the scope of services provided to date and planned to be provided by the independent auditor for that year.

THE BOARD RECOMMENDS A VOTE FOR PROPOSAL 2.

PROPOSAL 3

APPROVAL OF THE GILEAD SCIENCES, INC. 2004 EQUITY INCENTIVE PLAN

Gilead's stockholders are being asked to approve the adoption of Gilead's 2004 Equity Incentive Plan (the "2004 Plan") as a replacement for the Gilead Sciences, Inc. 1991 Stock Option Plan (the "1991 Plan") and the Gilead Sciences, Inc. 1995 Non-Employee Directors' Stock Option Plan (the "1995 Plan"), both of which were approved by our stockholders. If Gilead's stockholders approve the 2004 Plan, no further grants or awards will be issued from the 1991 Plan and the 1995 Plan. The remaining shares available for issuance under those plans and an additional 3.6 million shares will be available for issuance under the 2004 Plan. The 2004 Plan would provide Gilead with the ability to grant other types of equity awards besides stock options. If the shareholders fail to approve this proposal, the Gilead Sciences, Inc. 1991 Stock Option Plan and the Gilead Sciences, Inc. 1995 Non-Employee Directors' Stock Option Plan will remain in existence.

Gilead has reserved an aggregate of 53,000,000 shares of our common stock for issuance under the 1991 Plan and 2,800,000 shares for issuance under the 1995 Plan. As of February 29, 2004, there were 23,658,983 shares to be issued upon exercise of outstanding options under the 1991 Plan and 1,508,200 shares under the 1995 Plan. Of the 53,000,000 and 2,800,000 shares previously approved by our stockholders under the 1991 Plan and 1995 Plan, respectively, 5,653,195 shares remain available for future grants under the 1991 Plan and 781,200 shares remain available under the 1995 Plan. In addition, as of February 29, 2004, options to purchase 36,094 shares of common stock were outstanding under the NeXstar 1993 Incentive Stock Plan, and options to purchase 923,807 shares of common stock were outstanding under the Triangle 1996 Incentive Stock Plan. No shares of common stock remain available for grant under any of the NeXstar or Triangle plans. Gilead acquired NeXstar Pharmaceuticals, Inc. in 1999 and Triangle Pharmaceuticals, Inc. in 2003, and assumed obligations under the option plans of each company. The weighted average exercise price of all outstanding options is \$32.37 and the weighted average remaining term of all options is 7.55 years. If options granted under the 1991 Plan or the 1995 Plan expire or otherwise terminate without being exercised, the shares of our common stock reserved for such options again become available for issuance under such plans. If the 2004 Plan is approved by stockholders, shares reserved for such options will become available under the 2004 Plan.

Gilead is seeking stockholder support of the 2004 Plan to enable Gilead to continue to attract and retain the highest caliber of employees, to link incentive rewards to company performance, to encourage employee ownership in Gilead and to align the interest of employees and directors with those of stockholders.

Equity compensation remains a key component of a competitive compensation package in our industry and, Gilead believes, effectively rewards employees for the success of Gilead over time. Gilead believes providing equity compensation to employees was a significant factor in its recent achievements, as illustrated by significant stockholder returns in the past two years.

Gilead has historically taken a conservative approach to equity compensation relative to its industry peers. For the year ended December 31, 2003, Gilead awarded annual equity compensation to employees which, net of forfeitures, was equal to 2.3% of the number of shares of common stock outstanding at the end of the year, and for the year ended December 31, 2002, Gilead awarded annual equity compensation to employees which, net of forfeitures, was equal to 1.8% of the number of shares of common stock outstanding at the end of the year. Gilead's current intention is to continue to limit net issuances to employees under the plan to no more than 3% of the number of shares of common stock outstanding.

Gilead currently is only able to grant long term incentives in the form of stock options. The 2004 Plan would enable Gilead to grant other forms of long-term incentives, such as restricted stock, performance shares, stock appreciation rights, dividend equivalent rights, performance units and phantom shares. Gilead believes this will allow it the flexibility in the future to tailor the long-term incentives to fit business conditions as they evolve. Should Gilead introduce performance-based grants in the future, the 2004 Plan includes a listing of 24 performance criteria that the plan administrator may consider.

For information regarding stock option grants to our Chief Executive Officer and our four other most highly compensated executive officers for the year ended December 31, 2003, see "Executive Compensation Stock Option Grants and Exercises."

Stockholders are requested in this proposal to approve the adoption of the 2004 Plan, including its performance-based provisions, in the form attached hereto as Exhibit A. The affirmative vote of the holders of a majority of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting will be required to approve the 2004 Plan. Abstentions will be counted towards the tabulation of votes cast and will have the same effect as negative votes. Broker non-votes are counted towards a quorum, but are not counted for any purposes in determining whether this matter has been approved.

A summary of the essential features of the 2004 Plan is outlined below. This summary is not a complete description of all the provisions of the 2004 Plan.

Purpose

The 2004 Plan allows Gilead to provide employees, consultants and members of the Board of Directors who are selected to receive awards under the 2004 Plan the opportunity to acquire an equity interest in Gilead. Subject to the 2004 Plan limits, the Compensation Committee has the discretionary authority to determine the size of an award and whether it will be subject to performance-based requirements. Under the 2004 Plan, an award may be based on any one of, or combination of, the following performance-based criteria:

- (i) revenue
- (ii) achievement of specified milestones in the discovery and development of one or more of Gilead's products
- (iii) achievement of specified milestones in the commercialization of one or more of Gilead's products

Intended Grants to Directors

Gilead intends to use the 2004 Plan to help administer its compensation program for directors. Under the 1995 Plan, grants of stock options to non-employee directors were automatic. Under the 2004 Plan, future option grants to non-employee directors are discretionary. For at least the next year, the Board of Directors expects the 2004 Plan to operate according to the following provisions as approved by the Compensation Committee, however the Compensation Committee may change them at any time.

The Board of Directors expects to grant options to purchase 30,000 shares of stock to each non-employee director upon his or her initial election to Gilead's Board of Directors (the "initial grant") and options to purchase 15,000 shares of common stock on the date of each subsequent annual stockholders' meeting (the "annual grant"), provided the non-employee director is still serving on the Board on the date of the annual meeting. To a non-employee director serving as the Board Chair, the Board will determine the initial grant on election to the Board and expects to grant an additional option to purchase 12,000 shares of common stock as an annual grant going forward and no additional grants for serving on a committee.

To a non-employee director serving as chairperson of a standing committee of the Board of Directors, the Board expects to grant an additional option to purchase 6,000 shares of common stock at the time of his or her initial grant and an additional option to purchase 6,000 shares of common stock

at the time of his or her annual grant. To each non-employee director serving as a member of a standing committee of the Board of Directors, the Board expects to grant an additional option to purchase 3,000 shares of common stock at the time of his or her initial grant and an additional option to purchase 3,000 shares of common stock at the time of his or her annual grant. In addition to the regular annual grants for Board members, committee chairs can be granted an option to purchase no more than 9,000 shares of common stock for service on all committees.

The Board retains the discretion to provide an additional annual option to purchase up to 3,000 shares of common stock in the circumstance where the Board Chair also serves as chair of a committee.

Under the 2004 Plan, non-employee directors may be allowed to make an election to defer receipt of all or a portion of their annual cash retainer in the form of phantom shares granted under the 2004 Plan.

Adjustments

In the event of a stock dividend, recapitalization, stock split, reorganization, merger, spin-off, repurchase or exchange of Gilead's common stock or similar event affecting the common stock, the Compensation Committee may, in its discretion, adjust the number and kind of shares granted under the 2004 Plan, the number and kind of shares subject to outstanding stock options and restricted stock awards and the exercise price of outstanding stock options.

Stock Options

The exercise price of stock options granted under the 2004 Plan may not be less than the fair market value of the common stock on the date of grant and no stock option will be exercisable more than ten years after the date it is granted. The Compensation Committee will determine at the time of grant when each stock option becomes exercisable. Payment of the exercise price of a stock option may be in cash, common stock owned by the participant or by a combination of cash and common stock. Gilead may require, prior to issuing common stock under the 2004 Plan, that the participant remit an amount in cash or common stock sufficient to satisfy tax withholding requirements.

Restricted Stock

Except with respect to a maximum of 5% of the shares authorized for issuance, any awards of restricted stock and restricted stock units which vest on the basis of a participant's continuous active service with Gilead or a related entity will not provide for vesting which is any more rapid than annual pro rata vesting over a three-year period and any awards of restricted stock or restricted stock units which provide for vesting upon the attainment of performance goals shall provide for a performance period of at least 12 months.

Transferability

Stock options granted under the 2004 Plan are transferable only as provided by the rules of the Compensation Committee, by the participant's last will and testament, and by the applicable laws of descent and distribution and, in the case of nonstatutory stock options during the participant's lifetime, by gift or pursuant to a domestic relations order. Restricted stock may not be sold, transferred, assigned, pledged or otherwise encumbered or disposed of until the applicable restrictions lapse. Other awards granted under the 2004 Plan may not be sold, transferred, assigned, pledged or otherwise encumbered or disposed of while the award is outstanding.

Change in Control

Stock options and other awards granted to employees and consultants under the 2004 Plan will become exercisable/fully vested upon the occurrence of a change in control as defined in the 2004 Plan if the participant's active service is terminated involuntarily or the participant resigns due to certain specified reasons within a designated period following the change in control.

Termination of Employment

Upon termination of a participant's employment, a participant has a limited period of time in which to exercise outstanding stock options for any shares in which the participant is vested at that time. This period will be specified by the Compensation Committee, need not be uniform among all options issued under the 2004 Plan, and may reflect distinctions based on the reasons for termination of employment. All outstanding awards will be forfeited to Gilead to the extent they are not vested when the participant terminates employment.

Administration

Under Section 162(m) of the Internal Revenue Code (the "Code"), grants may be made only by a committee comprised solely of two or more directors eligible to serve as a committee making awards qualified as performance-based compensation. The Compensation Committee will select the employees of Gilead who shall receive awards, determine the number of shares covered thereby, and establish the terms, conditions and other provisions of the grants. The Compensation Committee may interpret the 2004 Plan and establish, amend and rescind any rules relating to the 2004 Plan. The Compensation Committee may delegate all or part of its responsibilities to anyone it selects.

Amendments

The Board of Directors may at any time terminate, amend or suspend the 2004 Plan, provided that no action may be taken by the Board of Directors (except those described earlier under the heading "Adjustments") without the approval of the stockholders if that action would constitute a material change in the 2004 Plan, including, without limitation, an increase in the number of shares that may be issued under the 2004 Plan or an amendment permitting repricing.

Federal Income Tax Information

The following is only a brief summary of the effect of U.S. federal income taxation on the award recipient and on Gilead of an award of a stock option or restricted stock and this summary does not discuss the income tax laws of any other jurisdiction (such as municipality or state) in which the recipient of the award may reside.

Stock option grants under the 2004 Plan may be either incentive stock options which satisfy the requirements of Section 422 of the Code or nonstatutory stock options which are not intended to meet such requirements. With respect to incentive stock options, no federal income tax is payable by a participant either upon the grant of an incentive stock option or at the time the option is exercised. The participant will, however, recognize taxable income in the year in which the purchased shares are sold or otherwise made the subject of a disposition. For Federal tax purposes, dispositions are divided into two categories: (i) qualifying and (ii) disqualifying. A qualifying disposition occurs if the sale or other disposition of the shares is made more than two years after the date the option is granted for those shares and more than one year after the date the option is exercised for those shares. If the sale or disposition occurs before these periods are satisfied, then a disqualifying disposition will result.

Upon a qualifying disposition of the shares, the participants will recognize long-term capital gain in an amount equal to the excess of (i) the amount realized upon the sale or other disposition of the

purchased shares over (ii) the exercise price paid for those shares. If there is a disqualifying disposition of the shares, then the excess of (i) the fair market value of the shares on the exercise date over (ii) the exercise price paid for those shares will be taxable as ordinary income to the participant. Any additional gain or loss recognized upon the disposition will be taxable as a capital gain or loss.

If the participant makes a disqualifying disposition of the purchased shares, then Gilead will be entitled to an income tax deduction, for the taxable year in which such disposition occurs, equal to the excess of (i) the fair market value of such shares on the option exercise date over (ii) the exercise price paid for the shares. In no other instance will Gilead be allowed a deduction with respect to the participant's disposition of the purchased shares.

Edgar Filing: GILEAD SCIENCES INC - Form PRE 14A

Generally, no federal income tax is payable by a participant upon the grant of a nonstatutory stock option and no deduction is taken by Gilead. Under current tax laws, if a participant exercises a nonstatutory stock option, he or she will be taxed on the difference between the fair market value of the common stock on the exercise date and the option price. Gilead will be entitled to a corresponding deduction on its income tax return.

Restricted stock is taxed under Section 83 of the Code. Generally, no taxes are due when the award is initially made and no deduction will be taken by Gilead at that time. The award becomes taxable when it is no longer subject to a "substantial risk of forfeiture" (i.e., become vested or transferable). Income tax is paid on the value of the stock at ordinary rates when the restrictions lapse and Gilead will be entitled to a corresponding deduction on its income tax return.

Generally, no taxes are due when an award of restricted stock units, performance shares, performance units, dividend equivalent rights, stock appreciation rights or phantom shares is made and no deduction will be taken by Gilead at that time. When such awards are distributed, ordinary income tax is paid on the fair market value of the shares (if any) and the amount of cash received. Gilead will be entitled to a tax deduction equal to that ordinary income.

PROPOSAL 4

APPROVAL OF INCREASE IN NUMBER OF AUTHORIZED SHARES OF COMMON STOCK

Gilead's Board of Directors has adopted, subject to stockholder approval, an amendment to Gilead's restated certificate of incorporation. This amendment would increase the authorized number of shares of Gilead common stock from 500,000,000 shares to 700,000,000 shares. These additional shares would be used by Gilead for business and financial purposes, including future stock splits, raising capital, establishing strategic relationships, acquisitions of other companies, businesses or products, equity incentives and compensation for employees and other transactions that Gilead's Board of Directors deems are in Gilead's best interest. The additional authorized shares would enable Gilead to act quickly in response to appropriate opportunities that may arise for these types of transactions, in most cases without the necessity of obtaining further stockholder approval. Gilead has no current plans, arrangements or understandings regarding the additional shares that would be authorized pursuant to this proposal.

As of February 29, 2004, there were 213,780,787 shares of common stock outstanding and held by Gilead stockholders. In addition to these shares, as of February 29, 2004, there were 33,958,328 shares of common stock reserved for issuance under our equity incentive plans. Of this number, 26,127,084 shares were reserved for issuance upon exercise of outstanding options that were previously granted under our stock option plans, 6,434,395 shares were reserved for issuance upon exercise of options that may be granted in the future under our stock option plans and 1,396,849 shares were reserved for issuance under the Employee Stock Purchase Plan. 7,340,425 shares of common stock are also reserved for issuance on the conversion of Gilead's \$345.0 million of 2% convertible senior notes due December 15, 2007.

The additional shares of common stock would have rights identical to the currently outstanding Gilead common stock. Adoption of the proposed amendment and any issuance of the common stock would not affect the rights of Gilead stockholders except for effects incidental to increasing the number of shares of the common stock outstanding. Incidental effects of the increase in the outstanding number of shares may include dilution of the earnings per share and voting rights of current holders of common stock. If the amendment is adopted, it will become effective upon filing of a certificate of amendment of Gilead's restated certificate of incorporation with the Secretary of State of Delaware.

Gilead could also use the additional shares of common stock to oppose a hostile takeover attempt or delay or prevent changes in control or management of Gilead. For example, without further stockholder approval, the Board could sell shares of common stock in a private transaction to purchasers who would oppose a takeover or favor the current Board. Although this proposal to increase the authorized common stock has been prompted by business and financial considerations and not by the threat of any known or threatened hostile takeover attempt, stockholders should be aware that approval of this proposal could facilitate future efforts by Gilead to deter or prevent changes in control of Gilead, including transactions that the Board determines are not in the best interests of Gilead or its stockholders, even though the stockholders would have received a premium for their shares over then current market prices.

The affirmative vote of the holders of a majority of the outstanding shares of Gilead common stock will be required to approve this amendment to Gilead's restated certificate of incorporation. As a result, abstentions and broker non-votes will have the same effect as negative votes.

THE BOARD RECOMMENDS A VOTE FOR PROPOSAL 4.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires Gilead's directors and executive officers, and persons who own more than ten percent of a registered class of Gilead's equity securities, to file with the SEC initial reports of ownership and reports of changes in ownership of common stock and other equity securities of Gilead. Executive officers, directors and greater than ten percent stockholders are required by SEC regulation to furnish Gilead with copies of all Section 16(a) forms they file.

Edgar Filing: GILEAD SCIENCES INC - Form PRE 14A

To Gilead's knowledge, based solely on a review of the copies of such reports furnished to Gilead and written representations that no other reports were required during the fiscal year ended December 31, 2003, Gilead's executive officers, directors and greater than ten percent beneficial owners complied with all Section 16(a) filing requirements applicable to these executive officers, directors and greater than ten percent beneficial owners except as follows: each of the following officers filed one report on Form 4 late: Dr. Martin, Dr. Milligan, Mr. Perry, Dr. Bischofberger, Mr. Inouye, Dr. Lee, Dr. Toole and Mr. Caracciolo.

Compensation Committee Interlocks and Insider Participation

Gilead's Compensation Committee consists of Gordon Moore (Chairman), Nicholas Moore and Mrs. Wilson. None of the members of the Compensation Committee is currently or has been, at any time since Gilead's formation, one of Gilead's officers or employees. No executive officer of Gilead has served as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on Gilead's Board of Directors or Compensation Committee.

Executive Compensation

Compensation of Directors

In 2003, each non-employee director of Gilead received an annual retainer of \$25,000, a fee of \$1,500 for each Board meeting attended and an additional \$1,000 (\$1,500 for a Committee Chair) for each committee meeting attended. For the year ended December 31, 2003, the total compensation paid to current non-employee directors was \$234,500 including amounts earned but deferred at the election of the non-employee director pursuant to Gilead's Deferred Compensation Plan. Effective January 1, 2004, each non-employee director will receive an annual retainer of \$35,000 and a fee of \$2,000 for each meeting attended. The fees for committee meetings were not changed. The members of the Board are also eligible for reimbursement for their expenses incurred in connection with attendance at Board and committee meetings and related activities in accordance with Company policy.

In addition to compensation received as a director and member of various committees of the Board, Dr. Berg earned \$25,000 in fees for consulting services provided to Gilead during the fiscal year ended December 31, 2003 pursuant to a consulting agreement between Dr. Berg and Gilead. Under such consulting agreement, Dr. Berg was retained as a member of Gilead's Scientific Advisory Board ("SAB") to provide ongoing scientific advice to Gilead with respect to the development of new therapeutic substances. Under the terms of the consulting agreement, Dr. Berg was paid a flat annual fee of \$25,000 and was reimbursed for reasonable expenses incurred in providing consulting services, including travel expenses. The consulting agreement was terminated on December 31, 2003, and Dr. Berg is no longer a member of Gilead's SAB.

Each non-employee director of Gilead also receives stock option grants under the Plan. The 1995 Plan provides for non-discretionary grants of nonstatutory stock options to non-employee directors of Gilead, on an automatic basis pursuant to a pre-approved schedule. Options granted under the 1995 Plan are at prices not less than fair market value on the date of grant. Annual option grants made between January 29, 2003 and December 30, 2003 vest in full on the first anniversary of the grant. Annual options granted after December 31, 2003 vest immediately on the date of grant. Initial option grants made prior to December 31, 2002 vested over a five-year period in equal quarterly installments. No initial option grants for new Board members were made between January 29, 2003 and December 30, 2003. Initial option grants for new Board members granted after December 30, 2003 will vest in two years at the rate of 50% on the first anniversary of the date of grant and 50% on the second anniversary of the date of grant. Initial option grants for new committee members and chairpersons granted after December 30, 2003 are vested when granted. Vesting in each case is conditioned upon continuous service as a non-employee director of or consultant to Gilead. The exercise price of options granted must be paid in cash or shares of common stock of Gilead at the time the option is exercised.

Under the 1995 Plan, each non-employee director was granted as of January 2, 1996, or on such later date as he or she first became a non-employee director, an initial stock option grant to purchase 100,000 shares of common stock of Gilead. Thereafter, on each anniversary date of a non-employee director's initial grant, the non-employee director was automatically, without further action by Gilead, the Board or stockholders of Gilead, granted an annual stock option grant to purchase 15,000 shares of common stock of Gilead. A non-employee director who is also the Chairperson of the Board was granted an option to purchase an additional 80,000 shares of common stock of Gilead at the time of his or her initial grant or later on election as Chairperson of the Board, and an option to purchase an additional 12,000 shares of common stock of Gilead at the time of his or her annual grant. Each non-employee director who serves on a standing committee of the Board of Directors is automatically granted an option to purchase an additional 4,000 shares of common stock of Gilead at the time of his or her initial grant, and an option to purchase additional 3,000 shares of common stock of Gilead at the time of his or her annual grant, for each such committee. Each non-employee director who serves

21

on a standing committee and who is also the chairperson of that committee is automatically granted an option to purchase an additional 8,000 shares at the time of the initial grant or later election as chairperson of the committee and an option to purchase an additional 6,000 shares of common stock of Gilead at the time of his or her annual grant. No other options may be granted under the 1995 Plan.

Effective January 2004, the Board of Directors reduced the number of options to be given as initial grants and annual grants to Board members. After January 1, 2004, new non-employee directors will be granted an initial option to purchase 30,000 shares of common stock of Gilead. Thereafter, on the date of each annual stockholders' meeting, the non-employee director will be granted an annual option to purchase 15,000 shares of common stock of Gilead. A non-employee director who is also the Chairperson of the Board will be granted an option to purchase additional shares of common stock of Gilead at the time of his or her initial grant or later upon election as Chairperson of the Board. The Board will determine the amount of additional shares that a new Chairperson of the Board will receive as an initial grant at the time of appointment. The Chairperson of the Board will receive an option to purchase an additional 12,000 shares of common stock of Gilead at the date of each annual stockholders' meeting thereafter as an annual grant. The Board retains the discretion to provide an additional annual option to purchase up to 3,000 shares of common stock in the circumstance where the Board Chair also serves as chair of a committee. Each non-employee director who serves on a standing committee of the Board of Directors will be granted an initial option to purchase an additional 3,000 shares of common stock of Gilead at the time of his or her election to a committee and an option to purchase an additional 3,000 shares at the date of each annual stockholders' meeting thereafter. Each non-employee director who serves on a standing committee and who is also chairperson of that committee will be granted an option to purchase an additional 6,000 shares of common stock at the time of the initial grant or later upon election as chairperson of the committee and an option to purchase an additional 6,000 shares of common stock of Gilead at the date of each annual stockholders' meeting thereafter. Committee chairpersons can be granted an option to purchase an aggregate of 9,000 shares of common stock of Gilead annually for service on all committees combined.

If the 2004 Plan is approved by the stockholders at this Annual Meeting, the 1995 Plan will automatically terminate and all future option grants to directors will be made under the 2004 Plan.

Effective January 1, 2004, the Board of Directors established a guideline to encourage Board members to hold Gilead shares with a fair market value of at least three times the annual retainer. This target is to be achieved over time.

During 2003, Gilead granted options to purchase 141,000 shares to its current non-employee directors, at exercise prices ranging from \$34.00 to \$58.41 per share. Each option granted had an exercise price equal to the fair market value of Gilead's common stock on the date of grant (based on the closing sales price for Gilead's common stock reported on the Nasdaq National Market on the date prior to the date of such grant).

As of February 29, 2004, options to purchase a total of 1,508,200 shares of common stock of Gilead were outstanding under the 1995 Plan. As of February 29, 2004, there have been 510,600 options exercised under the 1995 Plan.

Gilead grants both incentive stock options and nonstatutory stock options to its executive officers under the 1991 Plan. The following tables show, for the year ended December 31, 2003, certain information regarding options granted to, exercised by, and held at year-end by the Named Executive Officers:

The options vest at the rate of 20% after one year and 5% per quarter thereafter during the optionee's employment. Subject to certain exceptions, the maximum term of options granted under the 1991 Plan is ten years. No stock appreciation rights have been granted in fiscal year 2003.
- (2) Based on options to purchase 5,734,395 shares of common stock granted to employees, including executive officers, for the year ended December 31, 2003.
- (3) The potential realizable value is based on the term of the option at the date of the grant. It is calculated by assuming that the stock price on the date of grant appreciates at the indicated annual rate, compounded annually for the entire term, and that the option is exercised and sold on the last day of the option term for the appreciated stock price. Actual gains, if any, are dependent on the actual future performance of Gilead's common stock and the timing of exercise and sale transactions by the holder. These numbers are based on the SEC requirements and do not reflect Gilead's projection or estimate of future stock price growth.

Compensation Committee Report(1)

During the fiscal year ended December 31, 2003, the Compensation Committee of the Board (the "Compensation Committee") was comprised of Gordon Moore (Chairman), Dr. Berg and Mrs. Wilson. Mr. Berg's service on the Compensation Committee ended in March 2004 and Nicholas Moore joined the Compensation Committee at that time. None of the Compensation Committee members is currently or has been at any time an officer or an employee of Gilead. The Compensation Committee is responsible for making recommendations and taking actions concerning the compensation levels of executive officers of Gilead, including but not limited to the development of compensation policies that will attract and retain the highest quality executives, that will clearly articulate the relationship of corporate performance to executive compensation and that will reward executives for Gilead's progress. The Compensation Committee is also responsible for administering the company's equity compensation plans. The Compensation Committee produces the annual report on executive compensation for inclusion in the annual proxy statement. In particular, the Compensation Committee evaluates the performance of management and determines the compensation of the Chief Executive Officer and other Named Executive Officers on an annual basis. The Chief Executive Officer is not present during the discussion of his compensation.

Gilead's executive compensation philosophy is to attract and retain executive officers capable of leading Gilead to fulfillment of its business objectives by offering competitive compensation opportunities that reward individual contributions as well as corporate performance. In addition, long-term equity compensation is awarded to align the interests of management and stockholders. Gilead provides executive officers (and key employees) of Gilead with a substantial economic interest in the long-term appreciation of Gilead's common stock through the grant of stock options, subject to vesting restrictions.

There are three main components to Gilead's Executive Compensation Program:

Base salary

Annual Bonus

Equity

For each of these three elements, Gilead's strategy has been to examine peer group practice and place Gilead executive officer compensation appropriately, given individual and company performance. Our peer group is generally defined as biopharmaceutical and biotech companies that are in a similar range with respect to several metrics, principally market capitalization, revenues, and number of employees. The peer group is reviewed annually and adjustments made as necessary to ensure the group continues to properly reflect the market in which we are competing for talent.

Increases to base salary reflect the individual's contribution to the organization for the preceding year, as well as consideration of his/her pay level compared with similar positions in our peer group, taking performance into account. Assuming the executive's salary is already appropriately placed versus the peer group, the increase percentage range for executives generally reflects peer group practice with respect to base pay levels of similar positions, along with consideration of market pay movement for the upcoming year.

Bonus targets as a percentage of salary may or may not match peer group bonuses as a percentage of salary because Gilead's target bonus is designed to deliver total cash compensation (base salary plus bonus) when coupled with base salary, that reflects appropriate placement versus peer group practice. Annual bonuses reflect the contribution of the executive and his/her business unit to the organization,

as well as Gilead's overall achievement of pre-specified corporate goals for the preceding year. For Senior Vice Presidents and Executive Vice Presidents, 75% of the annual bonus is based on company performance and 25% is based on individual/business unit performance. For the Chief Executive Officer, 100% of the annual bonus is based on company performance.

At the beginning of each year, the Compensation Committee approves specific corporate goals for the upcoming year, along with associated weightings, for purposes of the bonus plan. After the end of the year, the Compensation Committee approves the percent of goal achieved for each corporate goal, along with the overall percent of corporate goal achievement for purposes of bonus plan payouts.

Edgar Filing: GILEAD SCIENCES INC - Form PRE 14A

The guidelines for equity grants are structured in consideration of peer group practice with respect to equity, but also taking company performance compared to peer group into account. The value of equity grants reflects the success of Gilead over time. Equity grants to individual executives are generally based on individual/business unit performance in the preceding year, but also on long term retention of the executive. Gilead has chosen to continue granting stock options as a long term incentive in 2004 because we believe that, given Gilead's current stage of development as a company with expected significant future growth opportunity, this is the most effective vehicle to encourage employee ownership in Gilead, to link pay with performance and to align the interest of officers with those of stockholders. Moreover, Gilead's current equity compensation awards to employees, net of forfeitures, as a percentage of Gilead's outstanding common stock is conservative in our industry (under 2.5%); our current intent is to limit annual long term incentive awards to employees to up to 3% of the number of shares of common stock outstanding. While we may currently grant only stock options as long term incentives, if stockholders approve the 2004 Equity Incentive Plan we may use other types of grants, such as restricted stock, performance shares and stock appreciation rights to tailor the long term incentive vehicles to business conditions as they evolve.

The Compensation Committee met in January 2004 to determine salary and incentive compensation for Gilead's Chief Executive Officer and other Named Executive Officers. As described above, compensation for the Chief Executive Officer and each of Gilead's other Named Executive Officers generally consists of three elements: cash salary, a performance-based cash bonus and stock option grants with exercise prices set at fair market value at the time of grant. In determining compensation for all Named Executive Officers, in addition to considering the compensation strategy described above, the Compensation Committee also takes into consideration the financial condition and prospects of Gilead, as well as any promotions or changes in responsibilities that may have taken place during the fiscal year. Total compensation paid by Gilead to its Chief Executive Officer and its other Named Executive Officers is designed to be competitive with compensation packages paid to the management of comparable companies in the biopharmaceutical industry, taking relative performance into account. As in previous years, in making its compensation decisions, the Compensation Committee took into consideration executive compensation information from other biopharmaceutical companies, including industry surveys, publicly available information and reports from compensation consulting firms. The information reviewed by the Compensation Committee may, but does not necessarily, include information from some or all of the companies that are included in the market indices in the graph included under "Performance Measurement Comparison" in this Proxy Statement.

Many traditional measures of corporate performance, such as earnings per share or sales growth, are less important in reviewing performance of executives in the biopharmaceutical industry, as compared to more established industries. Because of Gilead's current stage of development, the Compensation Committee emphasizes other indications of performance, such as the progress of Gilead's research and development programs and corporate development activities. These qualitative factors necessarily involve a subjective assessment by the Compensation Committee of corporate performance. Moreover, the Compensation Committee does not base its considerations on any single performance factor, but rather considers a mix of factors and evaluates company and individual performance against that mix.

27

In its January 2004 meeting, the Compensation Committee authorized increased compensation, including base salaries, performance-based cash bonuses to be paid in February 2004 and stock option grants for the Chief Executive Officer and the other Named Executive Officers based on the objective criteria discussed in this report. Specifically, the Compensation Committee concluded that Gilead achieved or made progress towards the following stated performance goals and objectives established by Gilead for the year 2003:

Gilead exceeded its revenue targets for AmBisome, Viread, Hepsera and Emtriva.

Worldwide filings and regulatory commitments were completed for Viread, Hepsera and Emtriva. FDA approval was obtained for alternative trade dress and drug applications were filed in 12 African countries an unplanned activity to take advantage of President Bush's AIDS funding initiative.

Viread was launched in Brazil, Belgium and Switzerland, and approved for launch in Canada.

Emtriva NDA approval and CPMP (European) positive opinion was obtained for Emtriva in July 2003, earlier than anticipated.

Hepsera was approved for marketing in the European Union in the first quarter of 2003, and launched in all European countries except Italy and Switzerland by year-end 2003. Hepsera was also approved for launch in Australia. This represented more launches than targeted for completion in 2003.

Appropriate supply and inventory levels for all commercial products were ensured. Alternative synthesis was developed and new manufacturers for Emtriva were identified in time for launch. Secondary manufacturers for Hepsera, Emtriva and a potential combination product were identified.

IND was filed for HIV protease inhibitor and progress was made in identifying a second IND candidate.

The Triangle Pharmaceuticals, Inc. organization was successfully integrated into the Gilead organization. Portfolio reviews were completed and development activities prioritized. The former Triangle Pharmaceuticals site is now engaged in a number of major company projects.

In addition to the foregoing planned objectives, the Compensation Committee considered the fact that Gilead had successfully completed the purchase of the Foster City site, an unplanned event.

The Compensation Committee believes that the continued commitment and leadership of Gilead's executive officers through fiscal year 2004 were and continue to be important factors in accomplishing Gilead's achievements.

Chief Executive Officer Compensation

The base salary and long-term incentives paid to Dr. Martin in 2003 and the bonus paid to him in early 2004 for 2003 performance were generally determined in accordance with Gilead's compensation philosophy and practices, as outlined above. Dr. Martin is eligible to participate in the same compensation plans, including the annual and long-term incentive plans available to other officers and employees of Gilead.

Effective February 1, 2003, the Compensation Committee increased Dr. Martin's base salary from \$660,000 to \$760,000 in recognition of Dr. Martin's performance in leading Gilead to exceptional performance relative to peers. The Compensation Committee used the peer group described above for purposes of determining the Chief Executive Officer's compensation. This base salary was generally on par with the median of chief executive officers in the peer group at the time of the increase. Dr. Martin's target bonus under the bonus plan was 80% of salary; 100% of the bonus payout is

determined based on achievement of pre-specified company goals. Due to the fact that Gilead far exceeded the specified goals for 2003, the Compensation Committee awarded Dr. Martin a bonus of \$887,680 in February 2004, which represented 146% of target.

Dr. Martin was also eligible to receive an annual stock option grant in 2003 based on performance and for retention purposes. At the beginning of 2003, Dr. Martin received an option to purchase 400,000 shares of Gilead common stock.

Compliance with Internal Revenue Code Section 162(m).

Section 162(m) of the Internal Revenue Code (the "Code") generally provides that publicly held companies may not deduct compensation paid to certain of its top executive officers to the extent that such compensation exceeds \$1 million per officer in a calendar year. Compensation that is "performance-based compensation" within the meaning of the Code does not count toward the \$1 million limit. The Compensation Committee has determined that ordinary income recognized by Gilead's Named Executive Officers as a result of their exercise of stock options granted by the Compensation Committee under the 1991 Plan having an exercise price at least equal to the fair market value of Gilead's common stock on the date of grant, qualifies as performance-based compensation as defined under Section 162(m) of the Code. Except for compensation paid to the Chief Executive Officer, Gilead expects that amounts of compensation paid to each of its Named Executive Officers in a taxable year which is subject to the deduction limit will not exceed the \$1 million limit under Section 162(m) of the Code.

Audit Committee Report(1)

During the fiscal year ended December 31, 2003 the Audit Committee consisted of Mr. Hull (Chairman), Dr. Shultz and Gordon Moore. Mr. Denny, Chairman of the Board of Directors, attended all of the Audit Committee meetings in 2003 in an ex-officio capacity. Mr. Hull's service on the Board and the Audit Committee will end in April 2004. Nicholas Moore joined the Audit Committee in March 2004 and Mr. Denny will become Chairman of the Audit Committee in April 2004. None of the Audit Committee members is currently or has ever been an officer or an employee of the Company and all are "independent" directors and meet the financial literacy requirements as currently set forth under NASD rules.

The Audit Committee oversees Gilead's financial reporting process on behalf of the Board. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed the audited financial statements included in the Annual Report on Form 10-K with management including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity and completeness of disclosures in the financial statements.

The Audit Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States, their judgments as to the quality, not just the acceptability, of Gilead's accounting principles and such other matters as are required to be discussed with the Audit Committee under generally accepted auditing standards. The Audit Committee has discussed with the independent auditors the matters required to be discussed by Statement of Auditing Standards 61 as well as the auditors' independence from management and Gilead, including the matters in the written disclosures and the letter from the independent auditors received by the Audit Committee in accordance with the requirements of the Independence Standards Board Standard No. 1. The Audit Committee has also considered whether the provision of non-audit services by the independent auditors is compatible with the auditors' independence.

The Audit Committee discussed with Gilead's independent auditors the overall scope and plans for their audit. The Audit Committee met with the independent auditors, with and without management present, to discuss the results of their audit and quarterly reviews, their evaluations of Gilead's internal controls and the overall quality of Gilead's financial reporting. The Audit Committee held four regular meetings during 2003.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board (and the Board approved) that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2003 for filing with the SEC. The Audit Committee has also recommended, subject to stockholder ratification, the retention of Ernst & Young LLP as the Company's independent auditors.

Performance Measurement Comparison

The following graph compares total stockholder returns of Gilead for the past five years to two indices: the Nasdaq CRSP Total Return Index for The Nasdaq Stock Market (U.S. companies), labeled Nasdaq-US, and the Nasdaq Pharmaceutical Index, labeled

Edgar Filing: GILEAD SCIENCES INC - Form PRE 14A

Nasdaq-Pharmaceutical. The total return for Gilead's common stock and for each index assumes the reinvestment of dividends, although cash dividends have never been declared on Gilead's common stock, and is based on the returns of the component companies weighted according to their capitalizations as of the end of each monthly period. The Nasdaq-US tracks the aggregate price performance of equity securities of U.S. companies traded on The Nasdaq Stock Market. The Nasdaq-Pharmaceutical tracks the aggregate price performance of equity securities of pharmaceutical companies traded on The Nasdaq Stock Market. Gilead's common stock is traded on The Nasdaq Stock Market and is a component of both the Nasdaq-US and the Nasdaq-Pharmaceutical Indices.

Certain Transactions

Executive Officer Loans

In October 1994, Gilead entered into a loan agreement with Mark L. Perry, currently Gilead's Executive Vice President, Operations. The original principal amount of the loan was \$100,000 with a term of ten years. The loan is non-interest bearing and 50% of the principal amount will be forgiven on a pro rata basis over a period of five years beginning on the sixth anniversary of the loan as long as Mr. Perry is still employed by Gilead. In the event Mr. Perry ceases to be employed by Gilead, the loan becomes interest-bearing and due and payable within sixty days of such termination of employment. The loan is secured by a deed of trust on Mr. Perry's residence. As of December 31, 2003, the

outstanding balance of the loan was \$60,000.

In October 1995, Gilead entered into a loan agreement with Michael K. Inouye, currently Gilead's Senior Vice President, Commercial Operations. The original principal amount of the loan was \$100,000 with a term of ten years. The loan is non-interest bearing and 50% of the principal amount will be forgiven on a pro rata basis over a period of five years beginning on the sixth anniversary of the loan as long as Mr. Inouye is still employed by Gilead. In the event Mr. Inouye ceases to be employed by Gilead, the loan becomes interest-bearing and due and payable within sixty days of such termination of employment. As of December 31, 2003, the outstanding balance of the loan was \$70,000.

In May 2001, Gilead entered into a loan agreement with John F. Milligan, currently Gilead's Executive Vice President and Chief Financial Officer. The original principal amount of the loan was \$110,000 with a term of ten years. The loan is non-interest bearing and 50% of the principal amount will be forgiven on a pro rata basis over a period of five years beginning on the sixth anniversary of the loan as long as Dr. Milligan is still employed by Gilead. In the event Dr. Milligan ceases to be employed by Gilead, the loan becomes interest-bearing and due and payable within sixty days of such termination of employment. The loan is secured by a deed of trust on Dr. Milligan's residence. As of December 31, 2003, the outstanding balance of the loan was \$110,000.

Indemnity Agreements

Gilead has entered into indemnity agreements with each of its officers (including the Named Executive Officers) and directors which provide, among other things, that Gilead will indemnify such officer or director, under the circumstances and to the extent provided for therein, for expenses, damages, judgments, fines and settlements he or she may be required to pay in actions or proceedings which he or she is or may be made a party to by reason of his or her position as a director, officer or other agent of Gilead, and otherwise to the full extent permitted under Delaware law and Gilead's bylaws.

Consulting Agreements

Under a consulting agreement between Gilead and Dr. Berg, a member of Gilead's Board of Directors, Dr. Berg was retained as a member of Gilead's Scientific Advisory Board ("SAB"). As a member of the SAB, Dr. Berg provided ongoing scientific advice to Gilead with respect to the development of new therapeutic substances. In the course of providing services under the consulting agreement, Dr. Berg was required to participate in the full annual meeting of the SAB by meeting with employees of Gilead, consultants and other SAB members, review Gilead's development goals, assist in developing strategies for achieving such goals and to provide advice with respect to Gilead's research and development activities. In addition to his participation in the annual SAB meeting, Dr. Berg provided scientific consulting services upon request, including participation in meetings of the SAB and reasonable telephone consultation. Under the terms of the consulting agreement, Dr. Berg was paid a flat annual fee of \$25,000, payable in quarterly installments. Dr. Berg was also reimbursed for

reasonable expenses incurred in providing consulting services, including travel expenses. The consulting agreement was terminated on December 31, 2003, and Dr. Berg is no longer a member of the SAB.

Severance Plan

Gilead adopted a Severance Plan in January 2003 that provides for severance benefits for employees, including executive officers, upon involuntary termination by Gilead in the event of a company-wide lay-off, departmental reorganization, significant restructuring of an individual's job duties or due to a change in work location of more than 50 miles from the previous location. For executive officers these benefits are: (a) a cash benefit calculated as a multiple of the executive officer's regular salary and most recent actual bonus or current target bonus; (b) outplacement services for a specified period; and (c) continued coverage under Gilead's health and welfare plans for a specified period only if the executive officer has elected to receive the cash salary under the Severance Plan in a series of installment payments.

The Severance Plan also provides the foregoing benefits for executive officers who are involuntarily terminated or who resign due to certain specified reasons within a designated period following a change in control of Gilead. A change in control would occur in the case of a dissolution or liquidation of Gilead; a merger or consolidation in which Gilead was not the surviving corporation; a reverse merger in which Gilead was the surviving corporation but the shares of common stock were converted into other property; or a capital reorganization involving an exchange of more than 50% of the voting stock of Gilead. If the Chief Executive Officer resigns or is involuntarily terminated following a change in control event, the cash benefit noted in (a) in the preceding paragraph is three times annual regular earnings and bonus if within 24 months following a change in control event and two times annual earnings and bonus upon termination by Gilead in the event of a company-wide lay-off, departmental reorganization, significant restructuring, or change in job location of more than 50 miles. If an Executive Vice President or Senior Vice President resigns or is involuntarily terminated following a change in control, the cash benefit is two and a half

times annual regular earnings and bonus if within 18 months following such change in control event and one and a half times annual regular earnings and bonus upon termination by Gilead in the event of a company-wide lay-off, departmental reorganization, significant restructuring, or change in job location of more than 50 miles. An executive officer who qualifies for such change in control benefits under the Severance Plan will also receive an additional cash payment equal to the amount of any estimated excise tax to be imposed on the compensation benefits received under the Severance Plan as well as any other amount payable under any other Gilead compensation program (such as stock option acceleration) deemed to be a parachute payment subject to excise tax.

No benefits will be paid to executive officers or eligible employees under the Severance Plan if the termination is due to death, for cause, for failure to meet specified performance objectives or for a voluntary resignation (other than as set forth above).

Householding of Proxy Materials

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as "householding," potentially means extra convenience for stockholders and cost savings for companies.

This year, a number of brokers with account holders who are Gilead stockholders will be "householding" our proxy materials. A single proxy statement will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker that they will be "householding" communications to your

33

address, "householding" will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in "householding" and would prefer to receive a separate proxy statement and annual report, please notify your broker, direct your written request to Gilead Sciences, Inc., Susan Hubbard, Senior Director, Investor Relations, 333 Lakeside Drive, Foster City, California 94404 or contact ADP Investor Communication Services at 1-800-542-1061. Stockholders who currently receive multiple copies of the proxy statement at their address and would like to request "householding" of their communications should contact their broker.

Other Matters

The Board knows of no other matters that will be presented for consideration at the Annual Meeting. If any other matters are properly brought before the meeting, it is the intention of the persons named in the accompanying proxy to vote on such matters in accordance with their best judgment.

By Order of the Board of Directors,

Mark L. Perry
Secretary

A-5

Restricted Stock, or other Award shall be subject to stockholder approval as provided in Section 7(b), unless the cancellation and exchange occurs in connection with a Change in Control as provided in Section 11;

(vii) to construe and interpret the terms of the Plan and Awards, including without limitation, any notice of award or Award Agreement, granted pursuant to the Plan;

(viii) to establish additional terms, conditions, rules or procedures to accommodate the rules or laws of applicable non-U.S. jurisdictions and to afford Grantees favorable treatment under such rules or laws; provided, however, that no Award shall be granted under any such additional terms, conditions, rules or procedures with terms or conditions which are inconsistent with the provisions of the Plan; and

(ix) to take such other action, not inconsistent with the terms of the Plan, as the Administrator deems appropriate.

(c) *Indemnification.* In addition to such other rights of indemnification as they may have as members of the Board or as Officers or Employees of the Company or a Related Entity, members of the Board and any Officers or Employees of the Company or a Related Entity to whom authority to act for the Board, the Administrator or the Company is delegated shall be defended and indemnified by the Company to the extent permitted by law on an after-tax basis against all reasonable expenses (including attorneys' fees), actually and necessarily incurred in connection with the defense of any claim, investigation, action, suit or proceeding, or in connection with any appeal therein, to which they or any of them may be a party by reason of any action taken or failure to act under or in connection with the Plan, or any Award granted hereunder, and against all amounts paid by them in settlement thereof (provided such settlement is approved by the Company) or paid by them in satisfaction of a judgment in any such claim, investigation, action, suit or proceeding, except in relation to matters as to which it shall be adjudged in such claim, investigation, action, suit or proceeding that such person is liable for gross negligence, bad faith or intentional misconduct; provided, however, that within 30 days after the institution of such claim, investigation, action, suit or proceeding, such person shall offer to the Company, in writing, the opportunity at the Company's expense to handle and defend the same.

5. *Eligibility.* Awards other than Incentive Stock Options may be granted to Employees, Directors and Consultants. Incentive Stock Options may be granted only to Employees of the Company or a Parent or a Subsidiary of the Company. An Employee, Director or Consultant who has been granted an Award may, if otherwise eligible, be granted additional Awards. Awards may be granted to such Employees, Directors or Consultants who are residing in non-U.S. jurisdictions as the Administrator may determine.

6. *Terms and Conditions of Awards.*

(a) *Type of Awards.* The Administrator is authorized under the Plan to award any type of arrangement to an Employee, Director or Consultant that is not inconsistent with the provisions of the Plan and that by its terms involves or might involve the issuance of (i) Shares, (ii) cash or (iii) an Option, a SAR, or similar right with a fixed or variable price related to the Fair Market Value of the Shares and with an exercise or conversion privilege related to the passage of time, the occurrence of one or more events, or the satisfaction of performance criteria or other conditions. Such awards include, without limitation, Options, SARs, Restricted Stock, Dividend Equivalent Rights, Performance Units, Performance Shares, or Phantom Shares. An Award may consist of one such security or benefit, or two or more of them in any combination or alternative.

(b) *Designation of Award.* Each Award shall be designated in the Award Agreement. In the case of an Option, the Option shall be designated as either an Incentive Stock Option or a Nonstatutory Stock Option. However, notwithstanding such designation, to the extent that the aggregate Fair Market Value of Shares subject to Options designated as Incentive Stock Options

A-6

which become exercisable for the first time by a Grantee during any calendar year (under all plans of the Company or any Parent or Subsidiary of the Company) exceeds \$100,000, such excess Options, to the extent of the Shares covered thereby in excess of the foregoing limitation, shall be treated as Nonstatutory Stock Options. For this purpose, Incentive Stock Options shall be taken into account in the order in which they were granted, and the Fair Market Value of the Shares shall be determined as of the grant date of the relevant Option.

(c) *Conditions of Award.* Subject to the terms of the Plan, the Administrator shall determine the provisions, terms, and conditions of each Award including, but not limited to, the Award vesting schedule, repurchase provisions, rights of first refusal, forfeiture provisions, form of payment (cash, Shares, or other consideration) upon settlement of the Award, payment contingencies, and satisfaction of any performance criteria. The performance criteria established by the Administrator may be based on any one of, or combination of, the following: (i) revenue, (ii) achievement of specified milestones in the discovery and development of one or more of the Company's products, (iii) achievement of specified milestones in the commercialization of one or more of the Company's products, (iv) achievement of specified milestones in the manufacturing of one or more of the Company's products, (v) expense targets, (vi) personal management objectives, (vii) share price (including, but not limited to, growth measures and total shareholder return), (viii) earnings per share, (ix) operating efficiency, (x) operating margin, (xi) gross margin, (xii) return measures (including, but not limited to, return on assets, capital, equity, or sales), (xiii) net sales growth, (xiv) productivity ratios, (xv) operating income, (xvi) net operating profit, (xvii) net earnings or net income (before or after taxes), (xviii) cash flow (including, but not limited to, operating cash flow, free cash flow, and cash flow return on capital), (xix) earnings before or after interest, taxes, depreciation, and/or amortization, (xx) economic value added, (xxi) market share, (xxii) customer satisfaction, (xxiii) working capital targets, and (xxiv) other measures of performance selected by the Administrator. Partial achievement of the specified criteria may result in a payment or vesting corresponding to the degree of achievement as specified in the Award Agreement.

(d) *Acquisitions and Other Transactions.* The Administrator may issue Awards under the Plan in settlement, assumption or substitution for, outstanding awards or obligations to grant future awards in connection with the Company or a Related Entity acquiring another entity, an interest in another entity or an additional interest in a Related Entity whether by merger, stock purchase, asset purchase or other form of transaction.

(e) *Deferral of Award Payment.* The Administrator may establish one or more programs under the Plan to permit selected Grantees the opportunity to elect to defer receipt of consideration upon exercise of an Award, satisfaction of performance criteria, or other event that absent the election would entitle the Grantee to payment or receipt of Shares or other consideration under an Award. The Administrator may establish the election procedures, the timing of such elections, the mechanisms for payments of, and accrual of interest or other earnings, if any, on amounts, Shares or other consideration so deferred, and such other terms, conditions, rules and procedures that the Administrator deems advisable for the administration of any such deferral program.

Edgar Filing: GILEAD SCIENCES INC - Form PRE 14A

(f) *Separate Programs.* The Administrator may establish one or more separate programs under the Plan for the purpose of issuing particular forms of Awards to one or more classes of Grantees on such terms and conditions as determined by the Administrator from time to time.

(g) *Individual Limitations on Awards.* The maximum number of Shares with respect to which Options and/or SARs may be granted to any Grantee in any fiscal year of the Company shall be 1,000,000 Shares. The maximum number of Shares with respect to which Restricted Stock, Performance Shares, or Phantom Shares, in the aggregate, may be granted to any Grantee in any fiscal year of the Company shall be 100,000 Shares. In connection with a Grantee's

A-7

(i) commencement of Continuous Active Service or (ii) promotion, a Grantee may be granted Options and/or SARs for up to an additional 500,000 Shares or Restricted Stock, Performance Shares, or Phantom Shares, in the aggregate, for up to an additional 50,000 shares which shall not count against the limit set forth in the preceding sentence. The foregoing limitations shall be adjusted proportionately in connection with any change in the Company's capitalization pursuant to Section 10, below. The value of all Awards denominated in U.S. dollars granted in any single calendar year to any Participant shall not exceed \$7,000,000. For this purpose, the value of an Award denominated in U.S. dollars shall be determined on the date of grant without regard to any conditions imposed on the Award. To the extent required by Section 162(m) of the Code or the regulations thereunder, in applying the foregoing limitations with respect to a Grantee, if any Awards are canceled, the canceled Awards shall continue to count against the maximum number of Shares with respect to which Awards may be granted to the Grantee. For this purpose, the repricing of an Option (or in the case of a SAR, the base amount on which the stock appreciation is calculated is reduced to reflect a reduction in the Fair Market Value of the Common Stock), if such repricing is approved by the stockholders of the Company, shall be treated as the cancellation of the existing Option or SAR and the grant of a new Option or SAR. If the vesting or receipt of Shares under the Award is deferred to a later date, any amount (whether denominated in Shares or U.S. dollars) paid in addition to the original number of Shares subject to the Award will not be treated as an increase in the number of Shares subject to the Award if the additional amount is based either on a reasonable rate of interest or on one or more predetermined actual investments such that the amount payable by the Company at the later date will be based on the actual rate of return of a specific investment (including any decrease as well as any increase in the value of an investment).

(h) *Early Exercise.* The Award Agreement may, but need not, include a provision whereby the Grantee may elect at any time while an Employee, Director or Consultant to exercise any part or all of the Award prior to full vesting of the Award. Any unvested Shares received pursuant to such exercise may be subject to a repurchase right in favor of the Company or a Related Entity or to any other restriction the Administrator determines to be appropriate.

(i) *Term of Award.* The term of each Award shall be the term stated in the Award Agreement, provided, however, that the term of an Award shall be no more than ten years from the date of grant thereof. However, in the case of an Incentive Stock Option granted to a Grantee who, at the time the Option is granted, owns stock representing more than 10% of the voting power of all classes of stock of the Company or any Parent or Subsidiary of the Company, the term of the Incentive Stock Option shall be five years from the date of grant thereof or such shorter term as may be provided in the Award Agreement.

(j) *Transferability of Awards.* Incentive Stock Options may not be sold, pledged, assigned, hypothecated, transferred, or disposed of in any manner other than by will or by the laws of descent or distribution and may be exercised, during the lifetime of the Grantee, only by the Grantee. Other Awards shall be transferable by will and by the laws of descent and distribution, and during the lifetime of the Grantee, by gift or pursuant to a domestic relations order to members of the Grantee's Immediate Family to the extent and in the manner determined by the Administrator. Notwithstanding the foregoing, the Grantee may designate a beneficiary of the Grantee's Award in the event of the Grantee's death on a beneficiary designation form provided by the Administrator.

(k) *Time of Granting Awards.* The date of grant of an Award shall for all purposes be the date on which the Administrator makes the determination to grant such Award, or such later date as is determined by the Administrator.

A-8

Edgar Filing: GILEAD SCIENCES INC - Form PRE 14A

7. Award Exercise or Purchase Price; Consideration and Taxes.

(a) *Exercise or Purchase Price.* The exercise or purchase price, if any, for an Award shall be as follows:

(i) In the case of an Incentive Stock Option:

(A) granted to an Employee who, at the time of the grant of such Incentive Stock Option owns stock representing more than 10% of the voting power of all classes of stock of the Company or any Parent or Subsidiary of the Company, the per Share exercise price shall be not less than 110% of the Fair Market Value per Share on the date of grant; or

(B) granted to any Employee other than an Employee described in the preceding paragraph, the per Share exercise price shall be not less than 100% of the Fair Market Value per Share on the date of grant.

(ii) In the case of a Nonstatutory Stock Option, the per Share exercise price shall be not less than 100% of the Fair Market Value per Share on the date of grant.

(iii) In the case of a SAR, the base amount on which the stock appreciation is calculated shall be not less than 100% of the Fair Market Value per Share on the date of grant.

(iv) In the case of other Awards, such price as is determined by the Administrator.

(v) Notwithstanding the foregoing provisions of this Section 7(a), in the case of an Award issued pursuant to Section 6(d), above, the exercise or purchase price for the Award shall be determined in accordance with the provisions of the relevant instrument evidencing the agreement to issue such Award.

(b) *No Authority to Reprice.* Without the consent of stockholders of the Company, the Board shall have no authority to effect (i) the repricing of any outstanding Options under the Plan and/or (ii) the cancellation of any outstanding Options under the Plan and the grant in substitution therefor of new Options under the Plan covering the same or different numbers of shares of Common Stock.

(c) *Consideration.* Subject to Applicable Laws, the consideration to be paid for the Shares to be issued upon exercise or purchase of an Award including the method of payment, shall be determined by the Administrator (and, in the case of an Incentive Stock Option, shall be determined at the time of grant). In addition to any other types of consideration the Administrator may determine, the Administrator is authorized to accept as consideration for Shares issued under the Plan the following, provided that the portion of the consideration equal to the par value of the Shares must be paid in cash or other legal consideration permitted by the Delaware General Corporation Law:

(vi) cash;

(vii) check;

(viii) surrender of Shares or delivery of a properly executed form of attestation of ownership of Shares as the Administrator may require (including withholding of Shares otherwise deliverable upon exercise of the Award) which have a Fair Market Value on the date of surrender or attestation equal to the aggregate exercise price of the Shares as to which said Award shall be exercised, provided, however, that Shares acquired under the Plan or any other equity compensation plan or agreement of the Company must have been held by the Grantee for a period of more than six months;

(ix) with respect to Options, payment through a traditional broker-dealer sale and remittance procedure pursuant to which the Grantee (A) shall provide written instructions to a Company designated brokerage firm to effect the immediate sale of some or all of the

such brokerage firm in order to complete the sale transaction;

(x) with respect to Options, payment through an internet-based broker-dealer sale and remittance procedure pursuant to which the Grantee (A) shall establish and maintain an account with the internet-based broker-dealer to effect the sale of some or all of the purchased Shares and ensure that such account contains sufficient funds to cover the aggregate exercise price payable for the purchased Shares and (B) shall execute the transaction with the internet-based broker-dealer who will then cause the purchased Shares to be deposited into the Grantee's account in order to complete the sale transaction; or

(xi) any combination of the foregoing methods of payment.

(d) *Taxes.* No Shares shall be delivered under the Plan to any Grantee or other person until such Grantee or other person has made arrangements acceptable to the Administrator for the satisfaction of any federal, state, local or non-U.S. income and employment tax withholding obligations, including, without limitation, obligations incident to the receipt of Shares or the disqualifying disposition of Shares received on exercise of an Incentive Stock Option. Upon exercise of an Award the Company shall withhold or collect from Grantee an amount sufficient to satisfy such tax obligations.

8. *Exercise of Award.*

(a) *Procedure for Exercise; Rights as a Stockholder.*

(i) Any Award granted hereunder shall be exercisable at such times and under such conditions as determined by the Administrator under the terms of the Plan and specified in the Award Agreement. Notwithstanding any other provision of the Plan to the contrary, except with respect to a maximum of 5% of the Shares authorized for issuance under Section 3(a), any Awards of Restricted Stock which vest on the basis of the Grantee's Continuous Active Service with the Company or a Related Entity shall not provide for vesting which is any more rapid than annual pro rata vesting over a three-year period and any Awards of Restricted Stock which provide for vesting upon the attainment of performance goals shall provide for a performance period of at least 12 months.

(ii) An Award shall be deemed to be exercised when written notice of such exercise has been given to the Company or its designee in accordance with the terms of the Award by the person entitled to exercise the Award and full payment for the Shares with respect to which the Award is exercised, including, to the extent selected, use of the broker-dealer sale and remittance procedure to pay the purchase price as provided in Section 7(c)(iv).

(b) *Exercise of Award Following Termination of Continuous Active Service.*

(i) An Award may not be exercised after the termination date of such Award set forth in the Award Agreement and may be exercised following the termination of a Grantee's Continuous Active Service only to the extent provided in the Award Agreement.

(ii) Where the Award Agreement permits a Grantee to exercise an Award following the termination of the Grantee's Continuous Active Service for a specified period, the Award shall terminate to the extent not exercised on the last day of the specified period or the last day of the original term of the Award, whichever occurs first.

(iii) Any Award designated as an Incentive Stock Option to the extent not exercised within the time permitted by law for the exercise of Incentive Stock Options following the termination of a Grantee's Continuous Active Service shall convert automatically to a

A-10

Nonstatutory Stock Option and thereafter shall be exercisable as such to the extent exercisable by its terms for the period specified in the Award Agreement.

9. *Conditions Upon Issuance of Shares.*

Edgar Filing: GILEAD SCIENCES INC - Form PRE 14A

(a) Shares shall not be issued pursuant to the exercise of an Award unless the exercise of such Award and the issuance and delivery of such Shares pursuant thereto shall comply with all Applicable Laws, and shall be further subject to the approval of counsel for the Company with respect to such compliance.

(b) As a condition to the exercise of an Award, the Company may require the person exercising such Award to represent and warrant at the time of any such exercise that the Shares are being purchased only for investment and without any present intention to sell or distribute such Shares if, in the opinion of counsel for the Company, such a representation is required by any Applicable Laws.

10. *Adjustments Upon Changes in Capitalization.* If any change is made in the Common Stock subject to the Plan, or subject to any Award (through merger, consolidation, reorganization, recapitalization, stock dividend, dividend in property other than cash, stock split, liquidating dividend, combination of shares, exchange of shares, change in corporate structure or otherwise), the Plan will be appropriately adjusted in the class(es) and maximum number of shares subject to the Plan pursuant to Section 3(a), and the maximum number of shares subject to award to any person during any calendar year pursuant to Section 6(g), and the outstanding Awards (other than an Award of Restricted Stock that is outstanding at the time of the event described in this paragraph) will be appropriately adjusted in the classes(es) and the number of shares and price per Share subject to such outstanding Awards, including any price required to be paid for Restricted Stock not yet outstanding at the time of the event described in this paragraph

11. *Change in Control.*

(a) *Effect of Change in Control on Awards.* In the event of a Change in Control, then, at the sole discretion of the Board and to the extent permitted by applicable law: (i) any surviving corporation shall assume any Awards outstanding under the Plan or shall substitute similar Awards for those outstanding under the Plan, (ii) the time during which such Awards may be exercised shall be accelerated and the Awards terminated if not exercised prior to the Change in Control, or (iii) such Awards shall continue in full force and effect.

(b) *Acceleration of Award Upon Change in Control.* Notwithstanding any other provisions of this Plan to the contrary, if a Change in Control occurs and if within one month before or within the Applicable Acceleration Period after the date of such Change in Control the Continuous Active Service of an Employee or a Consultant terminates due to an involuntary termination (not including death or Disability) without Cause (as such term is defined below) or a voluntary termination by the Employee or Consultant due to a Constructive Termination (as such term is defined below), then the vesting and exercisability of all Awards held by such Employee or Consultant shall be accelerated, or any reacquisition or repurchase rights held by the Company with respect to an Award shall lapse, as follows. With respect to those Awards held by an Employee or a Consultant at the time of such termination, 100% of the unvested Shares covered by such Awards shall vest and become exercisable (or reacquisition or repurchase rights held by the Company shall lapse with respect to 100% of the Shares still subject to such rights, as appropriate) as of the date of such termination.

(c) *Definition of "Cause".* For the purposes of Section 11(b) only, "Cause" means (i) conviction of, a guilty plea with respect to, or a plea of *non contendere* to a charge that a Grantee has committed a felony under the laws of the United States or of any state or a crime involving moral turpitude, including, but not limited to, fraud, theft, embezzlement or any crime that results in or is intended to result in personal enrichment at the expense of the Company or a

A-11

Related Entity; (ii) material breach of any agreement entered into between the Grantee and the Company or a Related Entity that impairs the Company's or the Related Entity's interest therein; (iii) willful misconduct, significant failure of the Grantee to perform the Grantee's duties, or gross neglect by the Grantee of the Grantee's duties; or (iv) engagement in any activity that constitutes a material conflict of interest with the Company or a Related Entity.

(d) *Definition of "Constructive Termination".* For purposes of Section 11(b) only, "Constructive Termination" means the occurrence of any of the following events or conditions: (i) (A) a change in the Grantee's status, title, position or responsibilities (including reporting responsibilities) which represents an adverse change from the Grantee's status, title, position or responsibilities as in effect at any time within 90 days preceding the date of a Change in Control or within the Applicable Acceleration Period after the date of a Change in Control; (B) the assignment to the Grantee of any duties or responsibilities which are inconsistent with the Grantee's status, title, position or responsibilities as in effect at any time within 90 days preceding the date of a Change in Control or at any time within the Applicable Acceleration Period after the Change in Control; or (C) any removal of the Grantee from or failure to reappoint or reelect the Grantee to any of such offices or positions, except in connection with the termination of the Grantee's Continuous Active Service for Cause, as a result of the Grantee's Disability or death or by the Grantee other than as a result of

Constructive Termination; (ii) a reduction in the Grantee's annual base compensation or any failure to pay the Grantee any compensation or benefits to which the Grantee is entitled within five days of the date due; (iii) the Company's requiring the Grantee to relocate to any place outside a 50 mile radius of the Grantee's current work site, except for reasonably required travel on the business of the Company or a Related Entity which is not materially greater than such travel requirements prior to the Change in Control; (iv) the failure by the Company to (A) continue in effect (without reduction in benefit level and/or reward opportunities) any material compensation or employee benefit plan in which the Grantee was participating at any time within 90 days preceding the date of a Change in Control or at any time within the Applicable Acceleration Period after the Change in Control, unless such plan is replaced with a plan that provides substantially equivalent compensation or benefits to the Grantee, or (B) provide the Grantee with compensation and benefits, in the aggregate, at least equal (in terms of benefit levels and/or reward opportunities) to those provided for under each other employee benefit plan, program and practice in which the Grantee was participating at any time within 90 days preceding the date of a Change in Control or at any time within the Applicable Acceleration Period after the Change in Control; (v) any material breach by the Company of any provision of an agreement between the Company and the Grantee, whether pursuant to this Plan or otherwise, other than a breach which is cured by the Company within 15 days following notice by the Grantee of such breach; or (vi) the failure of the Company to obtain an agreement, satisfactory to the Grantee, from any successors and assigns to assume and agree to perform the obligations created under this Plan.

(e) *Effect of Acceleration on Incentive Stock Options.* Any Incentive Stock Option accelerated under this Section 11 in connection with a Change in Control shall remain exercisable as an Incentive Stock Option under the Code only to the extent the \$100,000 dollar limitation of Section 422(d) of the Code is not exceeded. To the extent such dollar limitation is exceeded, the excess Options shall be treated as Nonstatutory Stock Options.

12. *Effective Date and Term of Plan.* The Plan shall become effective upon its approval by the stockholders of the Company. It shall continue in effect for a term of ten years unless sooner terminated. Subject to Applicable Laws, Awards may be granted under the Plan upon its becoming effective.

A-12

13. *Amendment, Suspension or Termination of the Plan.*

(a) The Board may at any time amend, suspend or terminate the Plan; provided, however, that no such amendment shall be made without the approval of the Company's stockholders to the extent such approval is required by Applicable Laws, or if such amendment would change any of the provisions of Section 4(b)(vi) or this Section 13(a).

(b) No Award may be granted during any suspension of the Plan or after termination of the Plan.

(c) No suspension or termination of the Plan (including termination of the Plan under Section 12, above) shall adversely affect any rights under Awards already granted to a Grantee.

14. *Reservation of Shares.*

(a) The Company, during the term of the Plan, will at all times reserve and keep available such number of Shares as shall be sufficient to satisfy the requirements of the Plan.

(b) The inability of the Company to obtain authority from any regulatory body having jurisdiction, which authority is deemed by the Company's counsel to be necessary to the lawful issuance and sale of any Shares hereunder, shall relieve the Company of any liability in respect of the failure to issue or sell such Shares as to which such requisite authority shall not have been obtained.

15. *No Effect on Terms of Employment/Consulting Relationship.* The Plan shall not confer upon any Grantee any right with respect to the Grantee's Continuous Active Service, nor shall it interfere in any way with his or her right or the right of the Company or any Related Entity to terminate the Grantee's Continuous Active Service at any time, with or without Cause, and with or without notice. The ability of the Company or any Related Entity to terminate the employment of a Grantee who is employed at will is in no way affected by its determination that the Grantee's Continuous Active Service has been terminated for Cause for the purposes of this Plan.

16. *No Effect on Retirement and Other Benefit Plans.* Except as specifically provided in a retirement or other benefit plan of the Company or a Related Entity, Awards shall not be deemed compensation for purposes of computing benefits or contributions under any retirement plan of the Company or a Related Entity, and shall not affect any benefits under any other benefit plan of any kind or any benefit plan subsequently instituted under which the availability or amount of benefits is related to level of compensation. The Plan is not a "Pension Plan" or "Welfare Plan" under the Employee Retirement Income Security Act of 1974, as amended.

17. *Unfunded Obligation.* Grantees shall have the status of general unsecured creditors of the Company. Any amounts payable to Grantees pursuant to the Plan shall be unfunded and unsecured obligations for all purposes, including, without limitation, Title I of the Employee Retirement Income Security Act of 1974, as amended. Neither the Company nor any Related Entity shall be required to segregate any monies from its general funds, or to create any trusts, or establish any special accounts with respect to such obligations. The Company shall retain at all times beneficial ownership of any investments, including trust investments, which the Company may make to fulfill its payment obligations hereunder. Any investments or the creation or maintenance of any trust or any Grantee account shall not create or constitute a trust or fiduciary relationship between the Administrator, the Company or any Related Entity and a Grantee, or otherwise create any vested or beneficial interest in any Grantee or the Grantee's creditors in any assets of the Company or a Related Entity. The Grantees shall have no claim against the Company or any Related Entity for any changes in the value of any assets that may be invested or reinvested by the Company with respect to the Plan.
