Co-Lead Managers:	Banc of America Securities LLC Leerink Swann LLC
Co-Managers:	Cowen and Company LLC Thomas Weisel Partners LLC

We have been advised by the underwriters that, prior to purchasing the shares being offered pursuant to the prospectus supplement and related prospectus, on July 30, 2008 and July 31, 2008 one of the underwriters purchased, on behalf of the syndicate, 13,831 shares at an average price of \$25.5971 per share in stabilizing transactions.

The amounts disclosed in the Company's preliminary prospectus supplement and the related prospectus as to net loss per diluted share for the second quarter of 2007 (\$0.36 per share), net income per diluted share for the first half of 2008 (\$0.06 per share), and net loss per diluted share for the first half of 2007 (\$1.41 per share) are non-GAAP financial measures, adjusted to eliminate the effect of dividends on and accretion of mandatorily redeemable convertible preferred stock, which converted into common stock in the first quarter of 2008. GAAP diluted earnings (loss) per share in the six months ended June 30, 2008 was \$(0.10), and the impact of such dividends and accretion was \$0.16 per share. A reconciliation to GAAP diluted earnings (loss) per share for the other periods is set forth in the Company's prospectus under the caption "Summary Consolidated Financial Information."

The following table sets forth information included in the Company's preliminary prospectus supplement dated July 31, 2008 regarding the numbers of shares being sold in this offering by, and the beneficial ownership of, each of the selling shareholders participating in the underwritten offering, without reference to any shares that may be sold by the selling stockholders by the other means described in the Company's registration statement on Form S-1 (No. 333-151829). The percentage ownership information shown in the table is based on 23,112,265 shares of our common stock

Edgar Filing: CARDIONET INC - Form FWP

outstanding as of May 15, 2008. The percentage ownership information assumes no exercise of the underwriters' over-allotment option.

Each of the selling stockholders has granted to the underwriters an option to purchase from such selling stockholder an additional 15% of the shares to be sold by such selling stockholder as set forth in the table above to cover over-allotments, if any, incurred in connection with the offering. If these options are exercised, the additional shares will be purchased by the underwriters pro rata from the several selling stockholders, and such selling stockholders' number and percentage shares of common stock owned after the offering will proportionately decline.

The following table sets forth information included in the Company's preliminary prospectus dated July 31, 2008 regarding the number of shares registered by, and the beneficial ownership by each person, or group of affiliated persons, known by us to beneficially own more than 5% of our common stock, each of our directors, each of our named executive officers, all of our directors and executive officers as a group, and each selling stockholder. The percentage ownership information is based on 23,112,265 shares of our common stock outstanding as of May 15, 2008, the percentage ownership information assumes no exercise of the underwriters' over-allotment option. For the purposes of the table below, we have assumed that all shares subject to sale under the Company's preliminary prospectus will ultimately be sold by the selling stockholder so that following such sales, the only shares that will continue to be held by the selling stockholders are those not being registered for resale on the

Edgar Filing: CARDIONET INC - Form FWP

preliminary prospectus. The selling stockholders may sell some, all or none of their shares of common stock offered by the preliminary prospectus.
