Key Practices in Executive Compensation

Our key practices in executive compensation include:

Our compensation program is designed to be straightforward with a clear emphasis on rewarding performance by putting pay at risk and retaining key executives. Our executive compensation philosophy incorporates the following core principles and objectives:

Alignment with Shareholder Interests. We structure our annual cash and long-term equity incentive compensation to put pay at risk and reward performance. Payouts under these plans are tied predominantly to the Company's total return to shareholders, stock price, earnings, and the achievement of measurable and sustainable business and individual goals, so that executives' interests are tied to the success of the Company and are aligned with those of our shareholders.

Key Management Retention. We structure our program to provide compensation at levels necessary to attract, engage and retain an experienced management team who have the skill sets to succeed in our complex operating and regulatory environment, including operating the nation's largest nuclear power station, and to provide consistently strong operating and financial results.

Of the shareholder votes cast at our 2012 Annual Meeting of Shareholders (the "2012 Annual Meeting"), more than 95% were "FOR" the compensation of the executives as disclosed in our 2012 Proxy Statement, excluding abstentions.

We have established director and officer stock ownership guidelines.

We prohibit the pledging or hedging of Company common stock by directors and officers.

We have limited perquisites.

Auditors

Edgar Filing: PINNACLE WEST CAPITAL CORP - Form DEF 14A

We are asking our shareholders to ratify the appointment of D&T as our independent accountants for 2013. A summary of fees paid to D&T in 2011 and 2012 is set forth on page 59.

GENERAL INFORMATION

Place, Date and Time

The Company's 2013 Annual Meeting of Shareholders ("Annual Meeting") will be held at the Heard Museum, 2301 North Central Avenue, Phoenix, Arizona 85004-1323, at 10:30 a.m., Mountain Standard Time, on Wednesday, May 15, 2013.

Notice of Internet Availability

Unless you elected to receive printed copies of the proxy materials in prior years, you will receive a Notice of Internet Availability of Proxy Materials by mail (the "Internet Notice"). The Internet Notice will tell you how to access and review the proxy materials. If you received an Internet Notice by mail and would like to receive a printed copy of the proxy materials, you should follow the instructions included in the Internet Notice.

The Internet Notice is first being sent to shareholders on or about March 28, 2013. The Proxy Statement and the form of proxy relating to the Annual Meeting are first being made available to shareholders on or about March 28, 2013.

Record Date; Shareholders Entitled to Vote

All shareholders at the close of business on March 12, 2013 (the "record date") are entitled to vote at the meeting. Each holder of outstanding Company common stock is entitled to one vote per share held as of the record date on all matters on which shareholders are entitled to vote, except for the election of directors, in which case "cumulative" voting applies (see "Vote Required - Election of directors"). At the close of business on the record date, there were 109,942,373 shares of common stock outstanding.

Voting

Vote by Internet. The website address for Internet voting is on the Internet Notice. Internet voting is available 24 hours a day.

Vote by telephone. The toll-free number for telephone voting is on your proxy card. Telephone voting is available 24 hours a day.

Vote by mail. You may vote by mail by promptly marking, signing, dating, and mailing your proxy card (a postage-paid envelope is provided for mailing in the United States).

Vote in person. You may come to and vote at the Annual Meeting. If you hold your shares in street name, you must obtain a proxy, executed in your favor, from the holder of record if you wish to vote these shares at the meeting.

If you vote by telephone or Internet, DO NOT mail a proxy card.

You may change or revoke your vote at any time before the proxy is exercised by: filing with our Corporate Secretary either a notice of revocation or a signed proxy card bearing a later date; re-voting by telephone; or re-voting by Internet. Your proxy will be suspended with respect to your shares if you attend the meeting in person and so request, although attendance at the meeting will not by itself revoke a previously-granted proxy.

Table of Contents

Your vote is confidential. Only the following persons have access to your vote: election inspectors; individuals who help with processing and counting of votes; and persons who need access for legal reasons. All votes will be counted by an independent inspector of elections appointed for the Annual Meeting.

Quorum

The presence, in person or by proxy, of a majority of the outstanding shares of our common stock is necessary to constitute a quorum at the Annual Meeting. In counting the votes to determine whether a quorum exists, shares that are entitled to vote but are not voted at the direction of the beneficial owner (called abstentions) and votes withheld by brokers in the absence of instructions from beneficial owners (called broker non-votes) will be counted for purposes of determining whether there is a quorum. Shares owned by the Company are not considered outstanding or present at the meeting.

Vote Required

Election of directors. Individuals receiving the highest number of votes will be elected. The number of votes that a shareholder may, but is not required to, cast is calculated by multiplying the number of shares of common stock owned by the shareholder, as of the record date, by the number of directors to be elected. Any shareholder may cumulate his or her votes by casting them for any one nominee or by distributing them among two or more nominees. Abstentions will not be counted toward a nominee's total and will have no effect on the election of directors. You may not cumulate your votes against a nominee. If you hold shares beneficially through a broker, trustee or other nominee and wish to cumulate votes, you should contact your broker, trustee or nominee. If you would like to exercise your cumulative voting rights, you must do so by mail. The Company's Bylaws provide that, in an uncontested election, a director nominee who receives a greater number of votes cast "withheld" for his or her election than "for" such election will promptly tender his or her resignation to the Corporate Governance Committee. The Corporate Governance Committee is required to evaluate the resignation, taking into account the best interests of the Company and its shareholders, and will recommend to the Board whether to accept or reject the resignation.

Under the current rules of the New York Stock Exchange ("NYSE"), your broker is not able to vote on your behalf in any director election unless you give your broker specific voting instructions. We encourage you to provide instructions so that your shares will be counted in the election of directors.

Say-on-Pay. The votes cast "for" must exceed the votes cast "against" to approve the advisory resolution on the compensation disclosed in this Proxy Statement of our Named Executive Officers, as defined later under the heading "Shares of Pinnacle West Stock Owned by Management and Large Shareholders" the Say-on-Pay vote. This resolution is not intended to address any specific item of compensation, but rather the overall compensation of the Named Executive Officers and the compensation philosophy, policies and procedures described in this Proxy Statement. Because your vote is advisory, it will not be binding on the Board or the Company. However, the Board will review the voting results and take them into consideration when making future decisions regarding executive compensation. Abstentions and broker non-votes will have no effect on the outcome of this proposal. We will hold an advisory vote on Say-on-Pay on an annual basis until we next hold an advisory vote of shareholders on the frequency of such votes as required by law.

Ratification of the appointment of the independent accountants. The votes cast "for" must exceed the votes cast "against" to ratify the appointment of the independent accountants for the

year ending December 31, 2013. Abstentions and broker non-votes will have no effect on the outcome of this proposal.

The Board recommends a vote:

FOR the election of the nominated slate of directors (Proposal 1);

FOR the approval, on an advisory basis, of the resolution approving the compensation of our Named Executive Officers, as disclosed in this Proxy Statement (Proposal 2); and

FOR the ratification of the appointment of D&T as the Company's independent accountants for the year ending December 31, 2013 (Proposal 3).

The Board is not aware of any other matters that will be brought before the shareholders for a vote. If any other matters properly come before the meeting, the proxy holders will vote on those matters in accordance with the recommendations of the Board or, if no recommendations are given, in accordance with their own judgment.

Attendance at the Annual Meeting

In order to attend the Annual Meeting, you will need to present a valid picture identification, such as a driver's license or passport, and either:

Please do not carry items such as large handbags and packages to the meeting, as we reserve the right to inspect any items brought into the meeting. We also reserve the right to prohibit bringing weapons, cell phones, pagers, cameras, recording devices, and other items into the meeting room.

INFORMATION ABOUT OUR BOARD AND CORPORATE GOVERNANCE

Director Independence

NYSE rules require companies whose securities are traded on the NYSE to have a majority of independent directors. These rules describe certain relationships that prevent a director from being independent and require a company's board of directors to make director independence determinations in all other circumstances. The Company's Board has also adopted Director Independence Standards to assist the Board in making independence determinations. These Director Independence Standards are available on the Company's website (www.pinnaclewest.com).

Based on the Board's review, the Board has determined that one of the Company's directors is not independent and that all of the other directors are independent. The independent directors are Messrs. Basha, Gallagher, Lopez, and Nordstrom, Drs. Cortese, Herberger and Klein, and Mses. Clark-Johnson and Munro. Mr. Brandt is not independent under the NYSE rules or the Director Independence Standards because of his employment with the Company. Mr. Parker resigned from his position as a director in February 2012. Ms. Grant retired from the Board at the Annual Meeting in May 2012. Mr. Parker and Ms. Grant were independent while they were members of the Board.

In accordance with the NYSE rules and the Director Independence Standards, the Board undertakes an annual review to determine which of its directors are independent. The review generally takes place in the first quarter of each year; however, directors are required to notify the Company of any changes that occur throughout the year that may impact their independence.

Table of Contents

In considering the independence of Mr. Gallagher, the Board considered that the law firm of Gallagher & Kennedy, P.A. ("Gallagher & Kennedy"), where Mr. Gallagher is Chairman Emeritus, provided legal services to the Company in 2012 and is expected to provide legal services to the Company in 2013. However, since: (a) the amounts paid to Gallagher & Kennedy were less than the dollar thresholds set forth in the NYSE rules and the Director Independence Standards, and were less than one percent of the Company's and Gallagher & Kennedy's revenues for fiscal year 2012; (b) Mr. Gallagher does not furnish legal services to the Company; and (c) he has advised the Company that he receives no compensation or benefits from Gallagher & Kennedy as a result of the firm providing legal services to the Company, the Board determined that Mr. Gallagher was independent.

Ms. Clark-Johnson is an employee of Arizona State University ("ASU") in her capacity as the Executive Director of the Morrison Institute for Public Policy. Dr. Cortese is also an employee of ASU in his capacity as the Director of the ASU Health Care Delivery and Policy Program and a Foundation Professor in the Department of Biomedical Informatics, Ira A. Fulton School of Engineering and in the School of Health Management and Policy, W.P. Carey School of Business. ASU is considered a part of the reporting entity for the State of Arizona (the "State") for financial reporting purposes and, as such, the State is the entity considered in applying the independence tests. In considering the independence of Ms. Clark-Johnson and Dr. Cortese, the Board considered the fact that transactions between the State and the Company and its affiliates consist of providing electric service, utility-related construction, building leases, and the payment of various State fees, taxes, memberships, licenses, sponsorships and donations. The Board determined that these matters do not impact Ms. Clark-Johnson's or Dr. Cortese's independence since amounts paid to or received from the State are less than the dollar thresholds set forth in the NYSE rules and the Director Independence Standards. In addition, neither of these directors benefits financially, directly or indirectly, from ASU's business relationships with the Company, most of which consist of receiving electric service at regulated rates.

Mr. Parker is Chairman and Chief Executive Officer of US Airways Group, Inc. and US Airways, Inc. (collectively "US Airways"). In considering the independence of Mr. Parker, the Board considered that directors and employees of the Company and its subsidiaries purchase air travel from time to time for business purposes from US Airways. The amounts paid to US Airways in 2012 were less than the dollar thresholds set forth in the NYSE rules and the Director Independence Standards; were less than one percent of the Company's and US Airways' revenues for fiscal year 2012; and all transactions were at arms-length. As such, the Board determined that Mr. Parker was independent while on the Board.

With respect to all of the directors, the Board considered that many of the directors and/or businesses of which they are officers, directors, shareholders, or employees are located in APS's service territory and purchased electricity from APS at regulated rates in the normal course of business. The Board considered these relationships in determining the directors' independence, but, because the rates and charges for electricity provided by APS are fixed by the ACC, and the directors satisfied the other independence criteria specified in the NYSE rules and the Director Independence Standards, the Board determined that these relationships did not impact the independence of any director. The Board also considered contributions to charitable and non-profit organizations where a director also serves as a director of such charity or organization. However, since no director is also an executive officer of such charitable or non-profit organization, the Board determined that these payments did not impact the independence of any director.

Board Meetings and Attendance

In 2012, our Board held eight meetings and none of our directors attended fewer than 75% of the Board meetings and any meetings of Board committees on which he or she served. Each director is expected to be present at the Annual Meeting. All of the Board members attended the 2012 Annual Meeting.

Table of Contents

Board Committees

The Board has the following standing committees: Audit; Corporate Governance; Finance; Human Resources; and Nuclear and Operating. All of the charters of the Board's committees are publicly available on the Company's website (www.pinnaclewest.com). The Board has determined that each member of the Audit Committee meets the NYSE experience requirements and that Mr. Nordstrom, the Chair of the Audit Committee, is an "audit committee financial expert" under applicable SEC rules.

The Corporate Governance Committee held six meetings in 2012. Among other things, the Corporate Governance Committee:

Human Resources Committee

The Human Resources Committee held five meetings in 2012. Among other things, the Human Resources Committee:

- reviews management's programs for the attraction, retention, and development of the Company's human resources;
- recommends to the full Board persons for election as officers;
- annually reviews the goals and performance of the officers of our Company and APS;
- approves corporate goals and objectives relevant to the compensation of the Company's CEO, assesses the CEO's performance in light of these goals and objectives, and sets the CEO's compensation based on this assessment;
- makes recommendations to the Board with respect to non-CEO executive compensation and director compensation; and
- acts as the "committee" under the Company's long-term incentive plans.

Under the Human Resources Committee's charter, the Human Resources Committee may delegate authority to subcommittees, but did not do so in 2012. Additional information on the processes and procedures of the Human Resources Committee is provided under the heading "Compensation Discussion and Analysis."

Nuclear and Operating Committee

The Nuclear and Operating Committee held four meetings in 2012. Among other things, the Nuclear and Operating Committee:

- receives regular reports from management and monitors the overall performance of Palo Verde;
- reviews the results of major Palo Verde inspections and evaluations by external oversight groups, such as the Nuclear Regulatory Commission ("NRC") and the Institute of Nuclear Power Operations ("INPO");
- reviews and monitors the power plant operations, energy transmission and delivery, and customer service functions of the Company; and
- reviews and monitors the Company's compliance with environmental, health and safety policies.

In addition, the Nuclear and Operating Committee receives regular reports from the Offsite Safety Review Committee (the "OSRC"). The OSRC provides independent assessments of the safe and reliable operations of Palo Verde. Pursuant to Palo Verde's operating licenses, the OSRC focuses its assessment on operations, engineering, maintenance, safety, security and other support functions. The OSRC is comprised of non-employee individuals with senior management experience in the nuclear industry and the Palo Verde Director of Nuclear Assurance, and it meets periodically throughout the year.

The Board's Leadership Structure

Lead Director. Kathryn L. Munro serves as the Company's Lead Director and chairs the Corporate Governance Committee. The Lead Director performs the following functions:

- serves as a liaison between the Chairman of the Board (the "Chairman") and the independent directors;

Table of Contents

Chairman and CEO Positions. The Chairman is Donald E. Brandt, the Company's CEO and President. The Board believes that combining the roles of the CEO and Chairman enhances the Board's ability to communicate clearly and effectively with management, and that an independent Board Chairman would create an additional level of hierarchy that would only duplicate the activities already being vigorously carried out by its Lead Director.

The Board's Role in Risk Oversight

The ultimate responsibility for the management of the Company's risks rests with the Company's senior management team. The Board's oversight of the Company's risk management function is designed to provide assurance that the Company's risk management processes are well adapted to and consistent with the Company's business and strategy, and are functioning as intended. The Board focuses on fostering a culture of risk awareness and risk-adjusted decision-making and ensuring that an appropriate "tone at the top" is established. The Board regularly discusses and updates a listing of areas of risk and a suggested allocation of responsibilities for them among the Board committees. The charter for each of our committees requires each committee to periodically review risks in their respective areas. Each committee:

receives periodic presentations from management about its assigned risk areas;

considers the effectiveness of the risk identification and mitigation measures being employed; and

discusses their risk reviews with the full Board at least annually.

Consistent with the requirements of the NYSE's corporate governance standards, the Audit Committee periodically reviews the Company's major financial risk exposures and the steps management has taken to monitor and control such exposures. The Audit Committee also reviews the comprehensiveness of the Board's risk oversight and the Company's risk assessment process, and plays a coordinating role designed to ensure that no gaps exist in the coverage by the Board committees of risk areas. In recommending the composition of the Board's committees and the selection of committee Chairs, the Corporate Governance Committee takes into account the effective functioning of the risk oversight role of each Board committee and the risk areas assigned to it.

The Executive Risk Committee is comprised of senior level officers of the Company and is chaired by the Chief Financial Officer. Among other responsibilities, this Committee is responsible for ensuring that the Board receives timely information concerning the Company's material risks and risk management processes. The Executive Risk Committee annually provides the Board with a list of the Company's top risks. The internal enterprise risk management group reports to the Vice President, Controller and Chief Accounting Officer, who reports to the Chief Financial Officer of APS. The

internal risk management group is responsible for (1) implementing a consistent risk management framework and reporting process across APS, and (2) ensuring that the Executive Risk Committee is informed of those processes and regularly apprised of existing material risks and the emergence of additional material risks.

Director Qualifications; Selection of Nominees for the Board

Director Qualifications. The Corporate Governance Guidelines contain Board membership criteria that apply to nominees recommended by the Corporate Governance Committee for a position on the Board. Under these criteria, a director must be a shareholder of the Company. In determining whether an individual should be considered for Board membership, the Corporate Governance Committee considers the following qualities, among others: integrity; knowledge, including regulatory and political knowledge, and nuclear expertise at the strategic level; judgment; understanding of the Company's business environment; and the potential contribution of each candidate to the diversity of backgrounds, experience and competencies which the Board desires to have represented, including large organizational leadership, public company experience and risk oversight skills. The Corporate Governance Committee considers diversity in its selection of nominees utilizing a broad meaning to include not only factors such as race and gender, but also background, experience, skills, accomplishments, financial expertise, and professional interests. The Corporate Governance Committee also considers the amount of time that a person will likely have to devote to his or her duties as a director, including responsibilities as an executive officer, board member or trustee of businesses and charitable institutions.

Selection of Nominees for the Board. The Corporate Governance Committee uses a variety of methods to identify and evaluate nominees for a director position. The Corporate Governance Committee regularly assesses the appropriate size of the Board, whether any vacancies on the Board are expected due to retirement or otherwise, and whether the Board reflects the appropriate balance of knowledge, skills, expertise, and diversity required for the Board as a whole. In the event that vacancies are anticipated, or otherwise arise, the Corporate Governance Committee may consider various potential candidates. Candidates may be considered at any point during the year and come to the attention of the Corporate Governance Committee through current Board members, professional search firms or shareholders, and the Corporate Governance Committee evaluates all nominees from these sources against the same criteria. Any shareholder nominations proposed for consideration by the Corporate Governance Committee should include the nominee's name and qualifications for Board membership and should be addressed to:

Corporate Secretary
Pinnacle West Capital Corporation
400 North Fifth Street, Mail Station 8602
Phoenix, Arizona 85004

Any shareholder who wishes to submit a nomination for a director to the Board must deliver that nomination to our Corporate Secretary by November 15, 2013 and comply with the information requirements in the Company's Bylaws.

Director Resignation Due to Substantial Change in Their Primary Business Position

Under the Company's Corporate Governance Guidelines, upon a substantial change in a director's primary business position, a director is required to apprise the Corporate Governance Committee and to offer his or her resignation for consideration to the Corporate Governance Committee. The Corporate Governance Committee will recommend to the Board the action, if any, to be taken with respect to the tendered resignation.

Employees, directors and officers are provided with the Code of Ethics when they join the Company or APS, and any updates to the Code of Ethics are provided to them from time to time. All of the employees of the Company and APS, and all of our directors, complete the training.

Both of the codes are available on the Company's website (www.pinnaclewest.com).

The Company's Strategic Framework. APS has adopted a strategic framework that defines its vision, mission, areas of focus, and values. RELATED PARTY TRANSACTIONS

The Corporate Governance Committee is responsible for reviewing and approving all transactions with any related party, which consists of any of our directors, director nominees, executive officers, shareholders owning more than 5% of the Company's common stock and, with respect to each of them, their immediate family members and certain entities in which they are an officer or a shareholder, partner, member or other participant who, directly or indirectly, has a substantial ownership interest in or otherwise substantially controls or shares control of such entity (a "Related Party"). EXECUTIVE COMPENSATION

Compensation Discussion and Analysis ("CD&A")

Executive Summary

Our Philosophy and Objectives. Our compensation program is designed to be straightforward with a clear emphasis on putting pay at risk and retaining key executives. Our executive compensation philosophy incorporates the following core principles and objectives:

Alignment with Shareholder Interests. We structure our annual cash and long-term equity incentive compensation to put pay at risk and reward performance. Payouts under these plans are tied predominantly to the Company's total return to shareholders, stock price, earnings, and the achievement of measurable and sustainable business and individual goals, so that executives' interests are tied to the success of the Company and are aligned with those of our shareholders.

Key Management Retention. We structure our program to provide compensation at levels necessary to attract, engage and retain an experienced management team who have the skill sets to succeed in our complex operating and regulatory environment, including operating the nation's largest nuclear power station, and to provide consistently strong operating and financial results.

Table of Contents

Our Compensation Components. At the 2012 Annual Meeting, our shareholders overwhelmingly approved the compensation of our executive officers. As a result, while the Human Resources Committee (for purposes of this CD&A, the "Committee") reviewed and discussed developments in executive compensation practices, we made only modest modifications to our compensation program in 2012. The key elements of our program are:

base salary base salary is fixed with reference to competitive market components and our need to retain key management;

annual cash incentive the cash incentive plans are 100% pay at risk tied directly to earnings and business and individual performance;

three-year long-term equity grants of performance shares (55% of the equity grant) payout is 100% pay at risk tied to TSR and business performance;

four-year long-term equity grants of RSUs (45% of the equity grant) RSUs encourage retention and are considered by the Company to be pay at risk because the value rises and falls with the Company's stock price;

benefits we offer customary benefits and limited perquisites; and

stock ownership guidelines and prohibitions on the pledging and hedging of Company common stock.

Overview of 2012 Company Performance. Pinnacle West is a holding company that derives substantially all of its revenues and earnings from APS, our vertically-integrated electric utility. Our 2012 accomplishments included:

the Company's stock price increased 5.8% and set a new all-time high;

the Company increased the common dividend by 4%;

TSR was 10.3%, 34.4%, 60.6% and 57.8% for 1, 2, 3 and 5-year periods, respectively;

major rating agencies raised the Company's and APS's credit ratings thereby reducing our borrowing costs;

the Company achieved its safest year on record, placing us near the top decile within the industry;

we achieved a customer reliability metric of 0.77 outages per customer, outperforming the industry median of 1.14 and the industry first quartile of 0.91;

APS secured ACC approval of the settlement agreement of its most recent retail rate case in less than 12 months;

APS ranked in the top decile nationally among large investor-owned utilities in the 2012 J.D. Power customer survey results;

Palo Verde had a capacity factor of 92.3%; and

fossil plants achieved 92.6% commercial availability.

Setting Executive Compensation

The Human Resources Committee. The Committee monitors executive officer compensation throughout the year and undertakes a thorough analysis of our executive officer compensation each Fall. This review includes consideration of competitive positions relative to specified labor markets, the mix of elements of compensation, performance requirements, the degree of pay that is at risk with respect to performance, and a consideration of individual officer evaluations. From December through February, the Committee then makes adjustments to executive officer compensation, including salary and cash and non-cash incentives.

Role of Executive Officers in Determining Executive Compensation. The Committee makes all compensation decisions relating to our CEO's compensation, makes awards under the 2012 Long-Term Incentive Plan (the "2012 Plan"), and determines the awards under the 2012 Incentive Plans, as defined

later in this CD&A. The Committee recommends other executive officer compensation decisions, which are approved by the Board for Pinnacle West officers and the Board of Directors of APS for APS officers. Management works with the Committee in establishing the agenda for Committee meetings and in preparing meeting information. Management conducts evaluations and provides information on the performance of the executive officers for the Committee's consideration and provides such other information as the Committee may request. Management also assists the Committee in recommending: salary levels; annual incentive plan structure and design, including earnings and business unit performance targets or other goals; long-term incentive plan structure and design, including award levels; and the type, structure, and amount of other awards. The executive officers are available to the Committee's compensation consultant to provide information as requested by the consultant. At the request of the Chair of the Committee, the CEO or other officers may attend and participate in portions of the Committee's meetings.

Role of Compensation Consultants. The Committee's charter gives the Committee the sole authority to retain and terminate any consulting firm used by the Committee in evaluating non-employee director and officer compensation. The Committee engaged Frederick W. Cook & Co. to assist the Committee in its evaluation of 2012 compensation for our executive officers (the "Consultant"). The Consultant does not provide any other services to the Company or its affiliates. The Committee has assessed the independence of the Consultant and has concluded that no conflict of interest exists that would prevent the Consultant from serving as an independent consultant to the Committee. The Committee instructed the Consultant to prepare a competitive analysis of the compensation of the executive officers of the Company and of APS, and to make recommendations for changes to the existing compensation program, if warranted.

Consultant's Report and Peer Group. The Consultant reviewed our executive compensation practices and considered the extent to which these practices support our executive compensation objectives and philosophy. As part of this study, the Consultant performed competitive pay comparisons for our executive officers based on:

compensation information as disclosed in 2011 SEC filings for the Peer Group, as defined later in this CD&A;

general industry data based on surveys published by Hewitt Associates, Inc. (averaging data for companies in the \$2.5 - \$5 billion revenue bracket and the \$5 - \$10 billion revenue bracket) and Towers Watson & Co. ("Towers Watson") (averaging data for companies in the \$3 - \$6 billion revenue bracket and the \$6 - \$10 billion revenue bracket); and

industry-specific survey data from the Towers Watson Energy Services Industry Survey (reflecting the average between companies in the \$3 - \$6 billion revenue bracket and companies with revenues greater than \$6 billion).

From these sources, the Consultant developed a consensus in which the competitive industry comparison for Messrs. Brandt, Hatfield, Falck and Robinson reflects one-third proxy statement data, one-third Energy Services Industry Survey, and one-third general industry surveys. For Mr. Edington there was not a general industry survey match, so his competitive industry comparison reflects one-half proxy statement data and one-half Energy Services Industry Survey. Compensation levels were updated to July 2012 using a 3% annual growth factor that the Consultant indicated reflected projected executive-level market movement from major salary-planning surveys selected by the Consultant.

As part of the executive compensation review for 2012, the Committee reviewed the Peer Group for its continued appropriateness. As a result of such review, the Committee approved the use of the same Peer Group that was used in setting 2011 executive compensation (excluding Allegheny Energy, which was eliminated due to it being acquired by First Energy). The Peer Group is broadly similar to the Company with respect to industry, complexity, and business lines, and positions the Company close

Table of Contents

to the median with respect to revenues (adjusted as explained below). The Peer Group consisted of the following predominantly rate-regulated utilities (the "Peer Group"):

Peer Group

Alliant Energy	Ameren Corporation	DTE Energy Company	Entergy Corporation
NextEra Energy	Northeast Utilities	NV Energy, Inc.	OGE Energy Corporation
PPL Corporation	Progress Energy, Inc.	SCANA Corporation	Southern Company
TECO Energy, Inc.	Wisconsin Energy Corporation	Xcel Energy, Inc.	

In determining both the composition of the Peer Group and the Company's relative position to that group, APS revenues were adjusted to take revenues attributable to managed assets, in addition to owned assets, into account. This adjustment was based on the following:

Palo Verde is the United States' largest nuclear generating facility, with a net generation rating of approximately 4,003 megawatts. APS owns 29.1% of Units 1 and 3 and owns or leases 29.1% of Unit 2; however, APS is responsible for the successful operation of 100% of the facility.

Four Corners is a 5-unit coal-fired plant located in New Mexico, with a net generation rating of approximately 2,100 megawatts. APS owns Units 1, 2 and 3 and 15% of Units 4 and 5. However, similar to Palo Verde, APS is responsible for the successful operation of 100% of the facility.

While APS contracts with the other owners for reimbursement of costs attributable to them, APS is subject to additional business risks and operational requirements as the operator of 100% of the Palo Verde and the Four Corners plants, including hiring and supervising the expanded work force necessary to operate these facilities.

As a result, for purposes of its relative position in the Peer Group, APS adjusted revenues from \$3.3 billion to \$5.2 billion. The adjustment places APS near the median of the Peer Group for revenues. The Committee believes that the senior executives of the Company face challenges in the operation of Palo Verde that require skill sets similar to those that executives at a number of the Peer Group companies with nuclear operations also have, which reinforces the appropriateness of the inclusion of these companies for benchmarking purposes.

In providing information to the Committee with respect to setting 2012 compensation, the Consultant reviewed the total compensation of the Named Executive Officers and presented its analysis in October 2011. The Consultant also reviewed the individual elements of compensation, including the type of annual incentives and long-term incentives, and evaluated the competitiveness of the individual elements of compensation of each such officer based on the survey data discussed above.

In its analysis the Consultant looked at competitive findings for base salary, base incentive, and long-term equity incentives to the Named Executive Officers as compared to the 25th, 50th and 75th percentile (compensation data was treated at the 25th, 50th or the 75th percentile if it was within

+/- 10%). The conclusions of the report as to competitive pay comparisons of the Named Executive Officers for these three compensation elements are as follows:

Officer	Base Salary	2010 Actual Annual Incentive as a Percentage of Base Salary	Long-Term Incentive¹
Mr. Brandt	at the 50 th percentile	at the 50 th percentile	above the 25 th percentile but below the 50 th percentile
Mr. Hatfield	at the 25 th percentile	at the 50 th percentile	below the 25 th percentile
Mr. Edington	above the 75 th percentile	at the 75 th percentile	at the 25 th percentile
Mr. Falck	at the 50 th percentile	at the 50 th percentile	at the 50 th percentile
Mr. Robinson	at the 25 th percentile	above the 50 th percentile but below the 75 th percentile	at the 25 th percentile

¹ Long-term incentive comparison excludes the one-time award of the supplemental grants of RSUs that were granted in February 2011 for performance prior to 2011 and that were discussed in our 2011 and 2012 Proxy Statements (the "Supplemental RSUs").

Application of the Committee's Judgment. The analysis in the Consultant's report and its recommendations regarding the competitiveness and structure of compensation are factors that the Committee takes into account in its evaluation of compensation for the Named Executive Officers. The Committee has determined that in order to meet its objectives, the Committee should, and does, take into consideration the competitive market survey data presented by the Consultant as an important reference point to assure the Committee of the reasonableness of the compensation levels and programs provided to executive management; however, actual compensation levels also take into account the individual executives and their responsibilities, skills, expertise, value added, and other external factors, such as the competitive marketplace for executive talent.

In setting Mr. Edington's compensation and entering into his 2012 Supplemental Agreement, which is discussed later in the narrative disclosure to the Summary Compensation Table and the Grants of Plan-Based Awards table, the Committee took into account Mr. Edington's critical skills, nuclear expertise, the demand in the competitive market place for Chief Nuclear Officers, and his demonstrated performance to date in significantly improving the operating performance of Palo Verde.

Company, business unit, and individual officer performance, as well as compensation competitiveness, are the primary factors in determining the level of total direct compensation for the Named Executive Officers. While the Committee considers internal pay equity in making compensation decisions, we do not have a policy requiring any set levels of internal pay differentiation. Finally, the Committee evaluates other factors that it considers relevant, such as the financial condition of the Company and APS. The Company does not have a pre-established policy or target for allocation between cash and non-cash compensation or between short-term and long-term incentive compensation. The Committee does allocate between the two forms of equity grants as stated under the heading "Executive Summary" in this CD&A.

As noted above, at our 2012 Annual Meeting, the shareholders cast an advisory vote on our executive compensation. The vote was not binding upon the Company, our directors or the Committee. Of the shareholder votes cast, more than 95% were "FOR" the compensation of the executives as

Table of Contents

disclosed in our 2012 Proxy Statement, excluding abstentions. The Committee was cognizant of this result in its consideration of the key components, design, implementation and amounts of our compensation program.

Executive Compensation Components

The Company's executive compensation program consists of the following components:

In addition, the Company provides pension programs, a deferred compensation program, change of control arrangements and limited perquisites.

The chart below indicates how each element of our 2012 executive compensation program was intended to achieve our compensation objectives of aligning the interests of executives and shareholders and attracting and retaining qualified, experienced executives.

RSUs	ü	ü	ü	Performance shares also encourage retention. The value of RSUs is dependent upon share price appreciation which in turn reflects Company performance and enhances alignment with shareholder interests.
Benefits	ü		ü	Four-year vesting encourages retention. Our pension programs and deferred compensation program are designed to attract and retain talented executives. Our change of control agreements provide alignment in change of control situations by removing job loss concern and promoting executive retention. Because the Company offers limited perquisites, we do not believe that they are a material component of our compensation program. We provide them to attract and retain key management.

Compensation Design

Pay at Risk. The Company believes that a significant portion of each Named Executive Officer's total compensation opportunity should reflect both upside potential and downside risk and the illustrations below show how the Company sees the allocation of the Named Executive Officers' compensation between guaranteed pay (base salary) and pay at risk (annual incentive plan, other cash incentives, performance shares, and RSUs (excluding the Retention Grant discussed below in this CD&A)).

Risk-Taking. The compensation program is designed to put pay at risk for performance but not encourage unacceptable risk-taking. The Committee evaluates the potential for unacceptable risk-taking in compensation design on an ongoing basis. We believe that the design of our executive compensation program does not unduly incentivize our executives to take actions that may conflict with our risk-based decision-making. Material risk in our compensation design is mitigated in several ways:

earnings goals and award opportunities in our annual cash incentive programs are at levels intended to be challenging without the need to take inappropriate risks;

our long-term incentives consist of time-based RSUs that vest over a multi-year period and performance shares that are earned at the end of a three-year period, both of which provide upside potential and downside risk; moreover, the use of RSUs in our long-term incentive program mitigates the likelihood of risk-taking because RSUs, as opposed to stock options, for example, retain some value even in a depressed market;

payouts are capped under the annual cash and long-term incentive plans at no more than twice the target amount of the award or the Base Grant;

more than one performance metric is used in our long-term performance share awards and the award opportunities under our annual cash incentive program are based on multiple considerations, thereby minimizing the ability of the executive to manipulate results;

the stock components inherent in our long-term incentive program, combined with our stock ownership guidelines and retention requirements, align the interests of our executives with a goal of long-term appreciation of shareholder value; and

our program is consistent throughout the Company so that no one area or group is incentivized in a manner that would encourage risk-taking.

In addition, the Committee has reviewed the overall compensation program for the Company's employees and has concluded that its program is balanced and does not encourage imprudent risk-taking. Employee compensation generally consists of some or all of the compensation components described in this CD&A. Our Officer Stock Ownership and Retention Guidelines (the "Guidelines") prohibit our officers from pledging or hedging shares of Company common stock owned by them. Future equity award agreements for our management employees will contain a similar prohibition in respect of shares received by them under such awards.

Table of Contents**2012 Compensation****Base Salary**

The Committee reviews competitive salary information and individual salaries for executive officers on an annual basis. In considering individual salaries, the Committee reviews the scope of job responsibilities, individual contributions, business performance, retention concerns, and current compensation compared to market practices. In setting base salaries, the Committee also considers that base salary is used as the basis for calculating annual incentive awards. The base salary for Messrs. Brandt, Hatfield, Falck and Robinson are set toward the median of the Peer Group and, based on competitive considerations, Mr. Edington's base salary is set above the 75th percentile of the Peer Group.

In January 2012, the Committee, based on the considerations set forth above, made the following adjustments to the base salaries of the following Named Executive Officers for fiscal year 2012:

Name	2011 Base Salary	2012 Base Salary
	(\$)	(\$)
Mr. Brandt	1,091,000	1,146,000
Mr. Hatfield	490,000	515,000
Mr. Falck	473,000	487,000
Mr. Robinson	610,000	685,000

In June 2012, the Committee approved an adjustment to Mr. Edington's base salary from \$800,000 to \$900,000 pursuant to his Supplemental Agreement, effective as of January 1, 2012. In December 2012, Mr. Hatfield was promoted to Executive Vice President and Chief Financial Officer of the Company and APS and his base salary was increased to \$540,000.

Annual Cash Incentives

We have used annual cash incentive programs for all our employees for a number of years. The performance criteria that underlie the annual incentive programs generally focus on the Strategic Framework and important business objectives (the "General Performance Objectives") such as:

shareholder value creation;

our safety record;

customer satisfaction;

financial strength; and

operating performance.

We use the annual incentive programs to further the Strategic Framework and achieve the General Performance Objectives.

In order to promote specific goals for 2012, the Committee approved the Pinnacle West 2012 Annual Incentive Award Plan (the "CEO Incentive Plan") in December 2011, which covers Mr. Brandt. Also in December 2011, acting on the recommendation of the Committee, the Board approved the APS 2012 Annual Incentive Award Plan (the "APS Incentive Plan"), which covers Messrs. Hatfield, Falck, and Robinson, and the 2012 APS Palo Verde Employee Incentive Plan (the "Palo Verde Incentive Plan"), which covers Mr. Edington. The APS Incentive Plan and the Palo Verde Incentive Plan are collectively referred to as the "APS Incentive Plans," and the APS Incentive Plans and the CEO Incentive Plan are collectively referred to as the "2012 Incentive Plans."

Table of Contents

The award opportunity under the 2012 Incentive Plans for each of the Named Executive Officers was as follows (the percentages shown are of base salary):

Mr. Robinson:

Target	75.0		75.0
Maximum	150.0		150.0

The 2012 Incentive Plans also allow the Committee to consider the General Performance Objectives and make adjustments for individual performance.

In respect of the earnings measures, the calculated incentive award is generally proportional to the actual earnings achieved and begins when earnings exceed any indicated threshold performance level. In designing the 2012 Incentive Plans, the Committee set the target earnings level based on a reasonable range of expectations for the year, while taking into account prior year performance and current economic conditions.

Individual business unit goals that could be directly correlated to earnings were set at levels that, if achieved at target, would contribute to earnings being achieved at target. However, some of the metrics, like safety and customer satisfaction, are not directly correlated to earnings, and are instead set with reference to prior year performance and a reasonable range of expectations of performance of comparable companies in our industry.

The business unit performance measures are tied to the components of our Strategic Framework. The following table details the business unit performance measures under the 2012 Incentive Plans, as correlated to the Strategic Framework, and compares the targets to actual results. For Fossil Generation and Palo Verde, minimum performance targets were required to be met before any award could be made and these performance targets were met.

The following chart summarizes the target and maximum award opportunities and the actual amount awarded to each of the Named Executive Officers:

Summary of 2012 Incentive Awards

Name	Target Award Opportunity (\$)	Maximum Award Opportunity (\$)	Actual Award Amount (\$)	Actual Amount as a Percent of Target (%)
Mr. Brandt	1,146,000	2,292,000	1,795,782	157%
Mr. Hatfield	270,000	540,000	392,715	145%
Mr. Edington	450,000	900,000	590,175	131%
Mr. Falck	243,500	487,000	354,171	145%
Mr. Robinson	513,750	1,027,500	824,055	160%

Under the CEO Incentive Plan, Pinnacle West's 2012 earnings of \$344.5 million exceeded both the threshold and target earnings levels. That result equates to 12% of the potential earnings range between target and maximum and thus a total achievement level of 112% of target. Under the APS Incentive Plans, APS's earnings of \$351.5 million exceeded both the threshold and target earnings levels. That result equates to 14% of the potential earnings range between target and maximum and thus a total achievement of 114% of target. Based only upon the achievement of actual earnings, Mr. Brandt's award would have been \$1,283,520 and Mr. Robinson's award would have been \$585,675. As permitted by the CEO Incentive Plan and the APS Incentive Plan, the Committee further took into account the 2012 achievements of the General Performance Objectives by considering the Company's performance against the business unit performance measures discussed above (the average of all business units were considered for Mr. Brandt and the average of all business units excluding Palo Verde were considered for Mr. Robinson). As a result of these factors, the Committee awarded Mr. Brandt \$1,795,782 and Mr. Robinson \$824,055. Under the APS Incentive Plans, the earnings achievement of 114% of target, combined with the applicable business unit performance results set forth above resulted in the indicated incentive awards, without further adjustment, for Messrs. Edington, Falck and Hatfield.

Table of Contents

In December 2011, the Board approved a separate award opportunity for Mr. Edington, as provided in his offer letter, of up to \$125,000 for the achievement of various Palo Verde operational targets during 2012. We describe this award in more detail in the narrative disclosure accompanying the Summary Compensation Table and the Grants of Plan-Based Awards table. In January 2013, Mr. Brandt determined that the performance metrics were met and approved an award amount of \$125,000 under this opportunity for Mr. Edington.

Long-Term Incentives

The Company currently uses two types of equity grants: performance shares and RSUs. In 2012, awards consisted of 55% performance shares and 45% RSUs to further focus the equity awards on the achievement of specific multi-year performance goals. The regular 2012 grants to the Named Executive Officers were as follows:

Name	Performance Shares (#)	RSUs (#)	Total Shares (#)	Total Value ¹ (\$)
Mr. Brandt	41,772	34,184	75,956	3,600,315
Mr. Hatfield	5,802	4,752	10,554	500,260
Mr. Edington	5,802	4,752	10,554	500,260
Mr. Falck	8,122	6,648	14,770	700,098
Mr. Robinson	16,246	13,296	29,542	1,400,290

¹ Based on the closing price of Pinnacle West common stock on the date of grant of \$47.40 per share and the 2012 Performance Shares valued at 100% of the Base Grant, as defined below.

To determine the amount of performance share and RSU awards, the Committee first establishes a target compensation value for each officer that it wants to deliver through long-term equity award opportunities. The Committee considers various factors, including the retention value of the total compensation package, the long-term equity component in light of the competitive environment, and individual performance. The Committee also considers target value in light of the Company's achievement of earnings targets and overall performance. Once the target value is established, the Committee determines the number of shares subject to the awards by reference to the then-current market value of the Company's common stock and then allocates 55% of the awards to performance shares and 45% of the awards to RSUs.

Performance Shares. We granted performance shares to our Named Executive Officers in February 2012 for a three-year performance period (the "2012 Performance Shares").

The following graph illustrates how the 2012 Performance Shares work:

The Committee grants each award recipient a specified number of performance shares, which is considered the "Base Grant." The maximum award opportunity is 200% of the Base Grant. The 2012 Performance Shares have two distinct elements – TSR and six operational performance metrics. The TSR metric provides a well-understood linkage to overall shareholder return. The operational performance metrics provide a clear line of sight to factors in the utility industry that drive management

performance to increase earnings. We believe that the combination of these two elements in the same equity award provides a mix of motivations for performance that is superior to utilizing all one element or the other.

TSR is the measure of a company's stock price appreciation plus any dividends paid during the performance period. We believe using TSR strengthens the link between officer performance and shareholder return. Additionally, TSR is the most prevalent long-term incentive metric used among the Peer Group. We anticipate that the common stock payout, if any, related to this element will be made in February 2015.

The Company's "Average Performance" with respect to the metrics listed below will be the average of the Company's percentile ranking for each of these metrics during each of the three years of the performance period:

the J.D. Power Residential National Large Segment Survey for investor-owned utilities percentile ranking of the Company relative to other participating companies;

the Company's percentile ranking based on customer reliability results relative to other companies reported in the Edison Electric Institute ("EEI") data;

the Company's ranking for a customer-to-employee improvement ratio, based on data provided by SNL Financial ("SNL"), an independent third-party data system, relative to other companies reported in the SNL data;

the Company's percentile ranking based on the OSHA rate (All Incident Injury Rate) relative to other companies reported in the EEI data;

the Company's percentile ranking based on nuclear generation capacity factors relative to other companies reported in the SNL data; and

the Company's percentile ranking based on coal generation capacity factors relative to other companies reported in the SNL data.

The metrics selected encompass performance inclusive of all departments and are direct indicators of key business performance success. The metrics can be readily benchmarked and will provide a clear barometer of top-tier performance excellence. We believe a focus on these performance metrics over a three-year period aligns long-term compensation with key operational goals, thereby

enhancing overall Company performance. We anticipate that the common stock payout, if any, related to this performance element will be made in October 2015.

The recipient must also remain employed with the Company throughout the performance period, unless the recipient retires. In the case of the recipient's retirement, the employee is deemed to have been employed through the end of the performance period, provided that, in the event the recipient is terminated for cause (regardless of the recipient's retirement), the recipient shall not be deemed to have been employed through the end of the performance period and will forfeit the right to receive any payout. The 2012 Performance Shares also contain confidentiality protections that apply during employment and survive termination, and non-competition and employee solicitation restrictions that survive for a period of one year following termination of employment.

A recipient of performance shares will receive additional shares of common stock equal to the amount of dividends that the recipient would have received had the recipient directly owned the shares from the date of grant to the date of payment, plus interest on such dividends at the rate of 5% per annum, compounded quarterly, divided by the fair market value of one share of stock on the date of the stock payout. This common stock is paid out when and only if the related common stock payout is made. The 2012 Performance Shares are not included in calculating pension benefits.

If a change of control occurs, immediately prior to the change of control the performance shares will convert to either cash or RSUs payable in stock, at the election of the recipient, and shall immediately vest. In converting the performance shares, the recipient will receive the number of shares of stock or the cash equivalent that would have been earned at the target level of performance, unless the Committee determines that a higher level of attained performance is reasonably ascertainable as of a specified date prior to the closing of the change of control transaction. The dividend equivalent awards will be paid in cash or stock as determined in accordance with the applicable award agreement. However, prior to a change of control, the Board may determine that no change of control shall be deemed to have occurred or that some or all of the enhancements to the rights of the recipient shall not apply to specified awards. The Board may exercise such override authority only if, before or immediately upon the occurrence of the specified event that would otherwise constitute a change of control, the Board reasonably concludes in good faith, that: (1) recipients holding awards affected by action of the Board override shall be protected by legally binding obligations of the Company or the surviving entity or the parent thereof because such awards (A) shall remain outstanding following consummation of all transactions involved in or contemplated by such change of control, (B) shall be assumed and adjusted by the surviving entity resulting from such transactions or the parent thereof, or (C) shall be exchanged for new awards issued by the surviving entity resulting from such transaction or the parent thereof; and (2) changes in the terms of the award resulting from such transactions will not materially impair the value of the awards to the participants or their opportunity for future appreciation in respect of such awards.

The 2012 Performance Shares are included in the Summary Compensation Table in the column under "Stock Awards" and in the Grants of Plan-Based Awards table. Performance Shares granted in previous years that vested in 2012 are identified in the Option Exercises and Stock Vested table.

RSUs. We granted RSUs to our Named Executive Officers in February 2012. RSUs are incentive awards that vest in equal 25% installments over four-years if the award recipient remains employed by the Company or one of its subsidiaries. Each RSU represents the fair market value of one share of our common stock on the applicable vesting date and the value rises and falls with the Company's stock price. Since a portion of multiple RSU awards may vest each February, the

Table of Contents

Committee selected February 20 as the vesting date for all RSUs as an administrative convenience. The following graph illustrates how the 2012 RSUs work:

The 2012 RSUs:

are payable at the election of the participant made shortly after the date of the initial grant, either 100% in stock or 50% cash and 50% stock and will vest each February 20 in an amount equal to the number of RSUs vesting on such date multiplied by the closing price of a share of our common stock on that date (in the case of a participant's retirement before the end of the vesting period other than for cause, as discussed above, the RSUs are payable on the dates and in the percentages specified in the vesting schedule even though fully-vested prior to those dates and with respect to Mr. Edington, pursuant to his Supplemental Agreement, will vest in full on his retirement if he retires after December 31, 2014);

accrue dividend rights on the vested RSUs, equal to the amount of dividends that the participant would have received had the participant directly owned stock equal to the number of vested RSUs from the date of grant to the date of payment, plus interest at the rate of 5% per annum, compounded quarterly, with such amount paid either in stock or 50% stock and 50% cash;

will fully vest and no longer be subject to the restrictions of and forfeiture upon the recipient's retirement, provided that all RSUs and associated dividend rights not vested prior to retirement will be forfeited in the event the recipient's employment is terminated for cause regardless of retirement;

are not included in the calculation of pension benefits;

subject to Board discretion as discussed above with respect to the performance shares, if a change of control occurs, immediately prior to the change of control, the time-based restriction imposed on the RSUs and the risk of forfeiture will lapse and all RSUs shall become immediately payable and shall be paid in stock or cash, in accordance with the terms of the applicable award agreement; and

contain confidentiality protections that apply during employment and survive termination, and non-competition and employee solicitation restrictions that survive for a period of one year following termination of employment.

The 2012 RSUs are included in the Summary Compensation Table in the column under "Stock Awards" and in the Grants of Plan-Based Awards table. RSUs granted in previous years that vested in 2012 are identified in the Option Exercises and Stock Vested table.

Retention Grant for Mr. Brandt. In December 2012, the Committee made a special performance-linked retention grant of RSUs to Mr. Brandt (the "Retention Grant"). This grant recognized his important contributions as CEO and is intended to provide a strong incentive for his continued retention in a competitive market for executives in the utility industry. The size of the ultimate award varies, depending upon Company performance and Mr. Brandt's performance over the performance period, so that the grant incents continued levels of strong performance. Since Mr. Brandt became CEO in March 2009, the following achievements, among others, have been attained:

TSR increased \$3.2 billion over the last four years;

Table of Contents

the Company increased the common stock dividend by 4% the first dividend increase since 2006;

the Company effectively implemented a wind-down strategy for its non-regulated businesses;

APS successfully resolved its most recent rate case with an approved settlement in less than 12 months; and

major rating agencies raised the Company's and APS's credit ratings, thereby reducing our borrowing costs.

In view of these significant advances under Mr. Brandt's leadership, the Committee believes that incentivizing Mr. Brandt to remain with the Company over the next several years as it faces regulatory, management succession, environmental and other challenges, is appropriate and beneficial to our shareholders. Under the Retention Grant, Mr. Brandt may, depending on Company and individual performance, receive up to 84,362 RSUs in accordance with the following terms if he is employed through December 31, 2016:

each RSU represents the right to receive one share of the Company's common stock;

the RSUs will vest and be paid in whole shares of the Company's common stock on or promptly following December 31, 2016 (the "Receipt Date") if Mr. Brandt has remained employed by the Company through the Receipt Date;

the RSUs will accrue notional dividends that will vest and be paid in shares of the Company's common stock (the "Dividend Shares") on or promptly following the Receipt Date but only to the extent that the related RSUs vest; and

the RSUs and any related Dividend Shares will be forfeited if Mr. Brandt's employment is terminated prior to the Receipt Date, unless such termination is due to Mr. Brandt's death, disability, termination by the Board without cause, or termination of employment after a change of control of the Company under circumstances that would entitle Mr. Brandt to severance payments under his Change of Control Agreement, as defined later in this CD&A, in which event the payout of the award will occur at the time of such event and will consist of the Target Grant (as defined below) plus any additional RSUs in excess of the Target Grant subject to application of the performance conditions described below, on a pro-rated basis.

The performance criteria linked to the number of shares to be received by Mr. Brandt on the Receipt Date are the following:

if the Company's average return on equity over the period from December 19, 2012 until the Receipt Date (the "Performance Period") meets or exceeds 8.75% (the "Target ROE"), Mr. Brandt will receive 67,489 shares (the "Target Grant"). In addition, the Committee may, in its discretion, award Mr. Brandt up to another 25% of the Target Grant (for a maximum total of 84,362 shares) based upon the Committee's evaluation of Mr. Brandt's overall leadership during the Performance Period, including his management of executive retirement and successions and rate case resolutions; and

if the Company's average return on equity over the Performance Period is less than the Target ROE, Mr. Brandt will receive 75% of the Target Grant (50,617 shares).

Benefits

Pension Programs. The Named Executive Officers participate in the Pinnacle West Retirement Plan ("Retirement Plan") and the Supplemental Excess Benefit Retirement Plan (the "Supplemental Plan"). We describe these plans in more detail under "Discussion of Pension Benefits." The Company believes that the pension programs are important recruitment and retention tools. In October 2010, the Committee reviewed the terms of the Supplemental Plan and decided to reduce the salary credits to a range of 8% to 18% as compared to the previous range of 12% to 28%, generally eliminate the retroactive application of the Supplemental Plan with respect to certain promoted employees and the 25-year service limit, and remove the joint and survivor subsidy. These changes went into effect for executive officers elected after January 1, 2011. The Committee changed the Supplemental Plan in order to better align it with existing market practices but still provide a competitive benefit.

Deferred Compensation Program. The Company offers to its executive officers the ability, if the officer so chooses, to participate in a deferred compensation program. We describe our deferred compensation program in more detail under "Discussion of Nonqualified Deferred Compensation." We offer our deferred compensation program because the Committee believes that it is standard market practice to permit officers to defer some portion of their cash compensation. However, we generally consider the value in the deferred compensation plan to be the participant's own money and do not give this amount significant weight in making compensation decisions. In October 2011, the Company amended the 2005 Plan to provide for a single interest rate and eliminate the five-year vesting requirement as discussed in more detail and as defined below under the heading "Discussion of Nonqualified Deferred Compensation." Discretionary credits under the Deferred Compensation Plan for Messrs. Falck and Edington are discussed under the heading "Discussion of Nonqualified Deferred Compensation" and for Mr. Edington, under the narrative disclosure to the Summary Compensation Table and Grants of Plan-Based Awards table.

Change of Control Agreements. The Company maintains Key Executive Employment and Severance Agreements (the "Change of Control Agreements") for our officers, including the Named Executive Officers. Similar to our deferred compensation programs, Change of Control Agreements do not have a significant impact on compensation design. However, in setting annual incentives, we do consider that the change of control payment, if triggered, would be based on the average of the incentives for the prior four years. We discuss our Change of Control Agreements in more detail under "Potential Payments Upon Termination or Change of Control." Our Change of Control Agreements are "double trigger" agreements that provide severance benefits if, during a specified period following a change of control, the Company terminates an employee without "cause" or the employee terminates employment "for good reason." We believe that the possibility of strategic transactions or unsolicited offers creates job uncertainty for executives, and that the Change of Control Agreements are effective tools to provide incentives for executives to stay with the Company in light of these uncertainties. In addition, we believe that if the agreements are appropriately structured they do not deter takeovers or disadvantage shareholders. The Company's agreements are terminable on six months prior notice, prior to a change of control.

In May 2009, in connection with a review of its executive compensation practices, the Company determined that, on a going-forward basis, it would no longer provide excise tax gross-up payments in new and materially amended Change of Control Agreements with its Named Executive Officers. In unusual circumstances where the Company believes that accommodations have to be made to recruit a new executive to the Company, limited reimbursement for taxes payable on change of control payments may be included in executives' contracts, but even in those circumstances, the excise tax gross-ups will be limited to payments triggered by both a change of control and termination of employment and will be subject to a three-year sunset provision.

Table of Contents

Perquisites. We have had a long-standing practice of providing only limited perquisites to our executive officers. We describe our perquisites paid to each of the Named Executive Officers in footnote 4 to the Summary Compensation Table.

Taxation and Accounting Considerations Regarding Executive Compensation

Publicly-traded corporations generally are not permitted to deduct, for federal income tax purposes, annual compensation in excess of \$1 million paid to any of certain top executives, except to the extent the compensation qualifies as "performance-based" under rules set forth in the Internal Revenue Code (the "Code"). The Company does not use the deduction as a justification for awarding compensation below \$1 million. To the extent the awards do exceed \$1 million, the Company believes that it is in the shareholders' best interests to not only consider what components qualify for the deduction, but also preserve flexibility in designing a compensation program. For example, the regular RSUs described above do not qualify as performance-based compensation under the applicable tax provisions. The Committee and the Board may weigh the tax and accounting consequences of the total compensation program and the individual components of compensation when setting total compensation and determining the individual elements of an officer's compensation package. However, the Committee and the Board do not routinely apply the tax-deductibility rules to limit what they determine otherwise to be necessary and appropriate compensation awards.

Stock Ownership and Retention Guidelines

We believe that linking a significant portion of an officer's current and potential future net worth to the Company's success, as reflected in our stock price, helps to ensure that officers have a stake similar to that of our shareholders. Stock ownership guidelines also encourage the long-term management of the Company for the benefit of the shareholders.

The Company's Guidelines are based on the officer's position and his or her base salary. The ownership requirements are shown below in respect of the indicated officer position:

Officer	Multiple of Base Salary
Chief Executive Officer	4 times Base Salary
APS President and all Executive and Senior Vice Presidents	2 times Base Salary
All Other Vice Presidents and Officers	1 times Base Salary

Each officer is expected to meet his or her ownership requirement within five years following the later of January 2010 or such officer's election (the "Phase-in Period"). In the event of (i) a promotion or a change in these Guidelines that would cause the officer to move into a higher multiple level or (ii) a base salary increase of more than 20% over the officer's previous base salary, an officer will have an additional three years to meet his or her applicable ownership requirement.

The types of ownership arrangements counted toward the Guidelines are: common stock, whether held individually or jointly or in trust with or for the benefit of an immediate family member; shares issued upon the vesting of RSUs or the payout of performance shares; and unvested RSUs to the extent they will result in the issuance of common stock to the officer.

Officers may not sell or otherwise transfer ("Dispose") any shares of Company stock received by them pursuant to any of the Company's compensation or benefit programs (net of shares sold or surrendered to meet tax withholding or exercise requirements) until his or her ownership requirement has been met. Thereafter, the officer may Dispose of any shares to the extent such transaction would not cause the officer's share ownership to fall below his or her applicable requirement. The retention requirement applies both during and after the Phase-in Period. In addition, officers may not pledge, margin, hypothecate, hedge, or otherwise grant an economic interest in any shares of Company stock whether or not his or her ownership requirement has been met. This restriction extends to the purchase or creation of any short sales, zero-cost collars, forward sales contracts, puts, calls, options or

other derivative securities in respect of any shares of Company stock. If the officer does not attain compliance with his or her ownership requirement by the end of the Phase-in Period, any subsequent grants of equity compensation to such officer will be payable solely in shares of stock until the ownership requirement is met. Under the Guidelines, the CEO may grant exceptions for hardship and other special circumstances.

All of the Named Executive Officers are in compliance with the Guidelines.

¹ This column reflects the aggregate grants of performance shares and RSUs, which are discussed under "2012 Compensation Long-Term Incentives" in the CD&A and which are shown by individual grant on the Grants of Plan-Based Awards table. This column represents the grant date fair value computed in accordance with FASB ASC Topic 718. December 31, 2012 (the "2012 Form 10-K"). These amounts are allocated between the various equity grants as follows:

<u>Name</u>	<u>RSUs</u> (\$)	<u>Performance</u> <u>Shares</u> (\$)	<u>Retention Grant</u> <u>(Target Grant)</u> (\$)
Mr. Brandt	1,620,322	1,979,993	3,499,980
Mr. Hatfield	225,245	275,015	
Mr. Edington	225,245	275,015	
Mr. Falck	315,115	384,983	
Mr. Robinson	630,230	770,060	

The amounts included in the Summary Compensation Table for the 2012 Performance Shares, based on the probable outcome at the time of the grant, assume that the 2012 Performance Shares will be paid at 100% of the Base Grant. The 2012 Performance Shares amounts are calculated as follows:

<u>Name</u>	<u>Grant Number of</u> <u>Performance Shares</u> (#)	<u>Award Value</u> <u>Reflected in Table</u> (\$)	<u>Maximum Award</u> <u>Value</u> (\$)
Mr. Brandt	41,772	1,979,993	3,959,986
Mr. Hatfield	5,802	275,015	550,030
Mr. Edington	5,802	275,015	550,030
Mr. Falck	8,122	384,983	769,966
Mr. Robinson	16,246	770,060	1,540,121

For the Retention Grant to Mr. Brandt, the amount in the column reflects only the Target Grant and not the maximum potential award, because the receipt by Mr. Brandt of shares in excess of the Target Grant is subject to the Human Resources Committee's discretion and, pursuant to applicable financial reporting rules, such excess shares are treated as a separate award that will be reflected in the Summary Compensation Table for the year in which it is received. The grant date fair value of the maximum award for the Retention Grant is \$4,375,013 (the maximum award of 84,362 RSUs multiplied by the closing stock price on the date of grant (\$51.86)). There were no forfeitures in 2012.

² These amounts represent the payments described under "2012 Compensation Annual Incentives" in the CD&A and, with respect to Mr. Edington, \$1,600 for incentive payments received in connection with the outage incentive plans for the 2012 Spring and Fall refueling outages for Palo Verde Units 3 and 2, respectively (collectively, the "Refueling Outages").

³ The amounts in this column for 2012 consist of: (i) the estimated aggregate change in the actuarial present value from December 31, 2011 to December 31, 2012 of each of the Named Executive Officer's accumulated benefit payable under all defined benefit and actuarial pension plans (including supplemental plans and employment agreements) as follows: Mr. Brandt \$1,337,679 (Mr. Brandt is currently eligible for retirement at a reduced retirement benefit; however, this amount represents the amount he would be entitled to receive at age 60, at which time he would receive the full retirement benefit); Mr. Hatfield \$315,809; Mr. Edington \$2,902,803; Mr. Falck \$230,438; and Mr. Robinson \$2,492,447 (Mr. Robinson is currently eligible for retirement at a reduced retirement benefit; however, this amount represents the amount he would be entitled to receive at age 60, at which time he would receive the full retirement benefit); (ii) the above-market portion of interest accrued under the deferred compensation plan as follows: Mr. Brandt \$53,944; Mr. Hatfield \$3,282; Mr. Edington \$87,910; Mr. Falck \$19,229; and Mr. Robinson \$26,580. We describe the special agreements we have with Mr. Edington regarding his benefits in the narrative disclosure accompanying this Summary Compensation Table and the Grants of Plan-Based Awards table. We describe the present value of Mr. Edington's accumulated benefit under our agreements with him and our pension plans in the Pension Benefits table.

¹ In this column the abbreviation "PS" means performance share awards and "RSU" means restricted stock unit awards.

² The amount in this column represents the full grant date fair value for financial reporting purposes for the 2012 Performance Shares, RSUs, and the Retention Grant. We describe the 2012 Performance Shares, RSUs and the Retention Grant under "2012 Compensation Long-Term Incentives" in the CD&A.

³ As required by SEC rules, the "Estimated Possible Payouts" represent the "threshold," "target," and "maximum" payouts the Named Executive Officers were eligible to receive under the 2012 Incentive Plans, although any awards are subject to the discretion of the Human Resources Committee. The actual awards paid to the Named Executive Officers under the 2012 Incentive Plans are disclosed in the "Non-Equity Incentive Plan Compensation" column of the Summary Compensation Table. With respect to Messrs. Hatfield, Edington and Falck under the 2012 Incentive Plans, the minimum amount each officer would have been eligible to receive was calculated based on APS earnings achieving the threshold amount, which would result in no payment with respect to the earnings portion of the 2012 Incentive Plans, and the business unit results at the lowest possible award. See "2012 Compensation Annual Incentives" in the CD&A for additional information about the 2012 Incentive Plans.

⁴ This amount represents the 2012 Performance Shares described under "2012 Compensation Long-Term Incentives Performance Shares" in the CD&A. In accordance with SEC rules, we valued the awards based on the probable outcome at the time of the grant, which assumes the grant will be paid at 100% of the Base Grant and, in accordance with FASB ASC Topic 718, the closing stock price on the date of the grant. There were no forfeitures in 2012.

⁵ This amount represents the 2012 RSU awards described under "2012 Compensation Long-Term Incentives RSUs" in the CD&A. In accordance with FASB ASC Topic 718, we valued the RSUs using the number of RSUs awarded multiplied by the closing stock price on the date of the grant. There were no forfeitures in 2012.

⁶ This amount represents the Retention Grant described under "2012 Compensation Long-Term Incentives Retention Grant for Mr. Brandt" in the CD&A. In accordance with FASB ASC Topic 718, we valued the Retention Grant using the Target Grant multiplied by the closing stock price on the date of the grant. There were no forfeitures in 2012.

⁷ This amount represents the dollar value of the 2012 Palo Verde Specific Compensation Opportunity described below. The actual amount paid to Mr. Edington is included in the "Non-Equity Incentive Plan Compensation" column of the Summary Compensation Table.

⁸ These amounts represent the payout opportunity under the outage incentive plans for the Refueling Outages. These incentive plans do not provide for a threshold or maximum payment.

Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table

See the CD&A for further information regarding the terms of awards reported in the Summary Compensation Table and the Grants of Plan-Based Awards table, and for discussions regarding the formulas or criteria to be applied in determining the amounts payable, vesting schedules, and the treatment of dividends.

The Company does not have formal employment agreements with its Named Executive Officers, however we typically enter into offer letters with new executive officers. Grants of RSUs that were made to Messrs. Hatfield and Falck in connection with their offer letters that were outstanding in 2012 or that vested in 2012 are reflected in the Outstanding Equity Awards at Fiscal Year End table and the Option Exercises and Stock Vested table. Deferred compensation credits granted to Mr. Falck are discussed under the heading "Discussion of Nonqualified Deferred Compensation".

APS and Mr. Edington executed an offer letter dated December 20, 2006. The remaining portions of that letter still in effect are lifetime medical coverage for Mr. Edington and his spouse and a total pension benefit (including the benefit due under the Company's qualified plan, general non-qualified plan, and the 2008 Agreement discussed below) that will accrue at 10% per year, up to a maximum of 60%, which benefit vested in January 2012. The percentage is applied to his final average wage (highest 3 years in the final 10 years of employment and includes both base salary and annual incentives) to determine his lifetime benefit. In addition, retention units granted to him in January 2007 are also included in the calculation of pension benefits. The vested pension benefit will be paid to Mr. Edington in two forms: one-half of the benefit will be paid to him in a lump sum; and the second half of the benefit will be paid to Mr. Edington in a 100% joint and survivor annuity.

Mr. Edington's offer letter provides that he will participate in specific Palo Verde annual incentive opportunities. APS adopted the 2012 Palo Verde Specific Compensation Opportunity, which provided Mr. Edington the opportunity to receive an amount of up to \$125,000 upon the achievement of the following Palo Verde operational and performance targets: successful accreditation by INPO in all maintenance and technical training programs; the achievement of a site capacity factor equal to or greater than 92%; no substantive cross-cutting issues existing by the end of 2012; and no NRC colored findings by the end of 2012.

In recognition of Mr. Edington's significant contributions to Palo Verde's improvement since he joined APS in early 2007 and his critical role in returning Palo Verde to long-term excellence, on July 18, 2008, APS and Mr. Edington entered into a letter agreement (the "2008 Agreement"). The remaining portions of that agreement still in effect provide that:

Mr. Edington's base salary was increased to \$800,000, effective June 1, 2008; and

APS entered into a separate deferred compensation arrangement with Mr. Edington, pursuant to which APS credited Mr. Edington's deferred compensation account with \$1 million, effective as of July 15, 2008. APS increased this account balance by an additional \$1 million on June 1 of each year beginning June 1, 2009, until the account reached \$4 million on June 1, 2011. The account vested and the payment was made to Mr. Edington in June 2012 (the "Deferred Compensation Account").

In December 2008, APS and Mr. Edington entered into a supplemental agreement further defining Mr. Edington's pension benefits as set forth in the December 20, 2006 letter, and the Deferred Compensation Account as set forth in the 2008 Agreement.

In June 2012, the Committee approved a supplemental agreement for Mr. Edington in order to incentivize the retention of his critical skills and nuclear expertise (the "2012 Supplemental Agreement"). This agreement provides:

Mr. Edington's base salary increased to \$900,000 effective January 1, 2012, will increase to \$925,000 effective January 1, 2013, and will increase to \$950,000 effective January 1, 2014;

the Company will provide interest-bearing, deferred compensation credits to Mr. Edington consisting of \$350,000 as of January 1, 2012; \$350,000 as of January 1, 2013; and \$350,000 as of January 1, 2014. The discretionary credits will vest on December 31, 2014 if Mr. Edington is employed by the Company on that date, and will be payable over a 10-year period following his termination of employment (the "Edington DCP Discretionary Credits");

if Mr. Edington is actively employed with the Company on December 31, 2013, his existing supplemental pension benefit set forth in the 2008 Agreement will increase by an amount equal to 5% of the benefit otherwise payable. If Mr. Edington is actively employed with the Company on December 31, 2014, the supplemental pension benefit will increase by an amount equal to 10% (inclusive of the preceding 5% increase) of the benefit otherwise payable;

if Mr. Edington terminates his employment after December 31, 2014, within six months thereafter decides to relocate from Arizona, and is unable to recover the original purchase price on the sale of his residence in Arizona (after making reasonable efforts to do so), the Company will purchase his home for the original purchase price. The Company will then resell the home, so the Company's financial exposure, if any, will be the difference between the sales price and the original purchase price. The Company believes the terms of this home purchase arrangement, including its conditions, appropriately balances the desire to retain Mr. Edington's services compared to the modest economic exposure to the Company, if any; and

RSUs awarded to Mr. Edington in 2011 and 2012 were amended to provide that they will vest in full on Mr. Edington's retirement if it occurs on or after December 31, 2014.

APS pays 29.1% of Mr. Edington's compensation expense. The balance is reimbursed to APS by the other owners of Palo Verde.

Discussion of Pension Benefits

Retirement Plan and Supplemental Plan. The Company's Retirement Plan is a tax-qualified, non-contributory retirement plan for salaried and hourly employees. The Supplemental Plan provides retirement benefits for key salaried employees in addition to those provided under the Retirement Plan. The Supplemental Plan pays only the difference between the total benefit payable under the Supplemental Plan and the benefit payable under the Retirement Plan. As a result, an executive who participates in the Supplemental Plan does not receive duplicative benefits.

Prior to April 1, 2003, benefits under the Retirement Plan and the Supplemental Plan (the "Traditional Formula Benefit") accrued in accordance with a traditional retirement plan formula based on average annual compensation and years of service (the "Traditional Formula"). Effective April 1, 2003, the Company changed the benefit accrual formula for both the Retirement Plan and the Supplemental Plan (the "Account Balance Benefit") to a retirement account balance formula (the "Account Balance Formula"). As part of the modification, all then current participants were able to elect to either (1) continue to earn benefits calculated under the Traditional Formula, or (2) earn benefits calculated (A) under the Traditional Formula for service through March 31, 2003, and (B) under the Account Balance Formula for service after that date. Messrs. Brandt's and Robinson's benefits are calculated under the combined Traditional Formula/Account Balance Formula. Messrs. Hatfield's and Falck's benefits are calculated under the Account Balance Formula. Mr. Edington's benefits under the Retirement Plan are calculated under the Account Balance Formula. His benefits under the Supplemental Plan are calculated in accordance with his agreements with the Company, which are described in the narrative disclosure accompanying the Summary Compensation Table and the Grants of Plan-Based Awards table.

Under the Traditional Formula of the Supplemental Plan, a participant's monthly benefit for life beginning at normal retirement age (age 65 or age 60 with 20 years of service) is equal to the following:

3% of the participant's average monthly compensation multiplied by the participant's first 10 years of service, plus
2% of the participant's average monthly compensation multiplied by the participant's next 15 years of service, minus
benefits payable under the Retirement Plan.

A participant's Traditional Formula Benefit under the Retirement Plan is a monthly benefit for life beginning at normal retirement age and is equal to the participant's average monthly compensation multiplied by 1.65% for the first 33 years of service, plus 1% of average monthly compensation for each year of service credited in excess of 33 years. A participant's Traditional Formula Benefit begins when the participant reaches age 65 with 5 years of service or age 60 with 33 years of service. The maximum Traditional Formula Benefit a participant may receive under both the Retirement Plan and the Supplemental Plan is a monthly benefit of 60% of the participant's average monthly compensation.

Under both the Supplemental Plan and the Retirement Plan, a participant may elect to begin receiving the Traditional Formula Benefit after attaining early retirement age, which is defined as age 55 with 10 years of service. The Traditional Formula Benefit of an individual who makes this election is reduced to reflect the early commencement of benefits; the reduction equals 3% per year for each year for which the individual receives benefits prior to normal retirement. Messrs. Brandt and Robinson currently qualify for early retirement, but not normal retirement, under the Retirement Plan and the Supplemental Plan. Messrs. Hatfield, Edington and Falck do not currently qualify for early or normal retirement under either the Supplemental Plan or the Retirement Plan.

Table of Contents

Under the Account Balance Formula, a notional account is established for each eligible participant and benefits are generally payable at termination of employment. The Company credits monthly amounts to a participant's account.

Under the Supplemental Plan, Company credits are based on the following formula:

Age at End of Plan Year	Percent of Monthly Compensation Contribution Rate (%)
Less than 35	12
35-39	14
40-44	16
45-49	20
50-54	24
55 and over	28

Company credits under the Supplemental Plan stop at the end of the year in which a participant attains 25 years of service (the "25-Year Cap").

Under the Retirement Plan, Company credits are based on the following formula:

Age Plus Whole Years of Service at End of Plan Year	Percent of Monthly Compensation Contribution Rate (%)
Less than 40	4
40-49	5
50-59	6
60-69	7
70-79	9
80 and over	11

In addition, participants in the Retirement Plan on December 31, 2002 are eligible for up to 10 years of transition credits based on age and years of service (with the maximum transition credit being equal to 2.75% of average monthly compensation).

For purposes of calculating the Traditional Formula Benefit and the Account Balance Benefit under the Retirement Plan, compensation consists solely of base salary up to \$245,000, including any employee contributions under the Company's 401(k) plan, flexible benefits plan and qualified transportation arrangement under Section 132(f) of the Code. Amounts voluntarily deferred under other deferred compensation plans, bonuses and incentive pay are not taken into account under the Retirement Plan. The Supplemental Plan takes these amounts into account (with certain exceptions) plus base salary beyond the \$250,000 limit. In addition, the retention units granted in December 2006 and January 2007 are included in compensation under the Supplemental Plan.

For purposes of the Traditional Formula under the Retirement Plan, the average monthly compensation is the average of the highest 36 consecutive months of compensation in the final 10 years of employment; under the Supplemental Plan, the average monthly compensation is the average of the highest 36 consecutive months of compensation during employment. For purposes of the Account

Table of Contents

Balance Formula, contributions are based on the participant's then current monthly compensation calculated as described above.

A participant's years of service begin accruing on the date of employment. However, benefits do not vest until the completion of three years of service. Under both the Retirement Plan and the Supplemental Plan, benefits are generally payable, as the participant elects, in the form of a level annuity, with or without survivorship, or a lump sum. However, Traditional Formula Benefits generally are not available as a lump sum, but are paid in the form of an annuity. Optional benefit forms are of relative actuarial value under the Retirement Plan. Under the Supplemental Plan, the 50% joint and survivor benefit form is fully subsidized, and the other benefit forms are partially subsidized. The Supplemental Plan offers an optional five-year certain form of payment (payable in 60 monthly installments).

Effective January 1, 2011, the Supplemental Plan was amended to reduce the Company credits for individuals who became participants on or after January 1, 2011 to the levels listed in the following table:

Age at End of Plan Year	Percent of Monthly Compensation Contribution Rate (%)
Less than 35	8
35-39	9
40-44	10
45-49	12
50-54	15
55 and over	18

In addition, individuals who became participants in the Supplemental Plan on or after January 1, 2011 are no longer entitled to receive a fully subsidized 50% joint and survivor annuity form of benefit, but the 25-Year Cap has been eliminated. Prior to the amendment, participants who were promoted to officer status were entitled to retroactive treatment as an officer for their entire period of employment. This feature has been eliminated for individuals promoted to officer status on or after January 1, 2011.

Pursuant to the 2012 Supplemental Agreement, if Mr. Edington is actively employed by APS on December 31, 2013, the supplemental pension benefit amount calculated in accordance with the 2008 Agreement will be increased by an amount equal to 5% of the benefit that would have otherwise been payable. If Mr. Edington is actively employed by the Company on December 31, 2014, the supplemental pension benefit amount calculated in accordance with the 2008 Agreement will be increased by an amount equal to 10% (inclusive of the preceding 5% increase) of the benefit that would have otherwise been payable.

Benefits under the Retirement Plan are paid from a tax-exempt trust. Benefits under the Supplemental Plan are paid from the general assets of the Company.

² A portion of the amounts reported in this column is also reported as compensation in the Summary Compensation Table, including, Mr. Brandt \$53,944; Mr. Hatfield \$3,282; Mr. Edington \$87,910; Mr. Falck \$19,229; and Mr. Robinson \$26,580. See clause (ii) of the first sentence of footnote 3 to the Summary Compensation Table.

³ The historical contributions of each Named Executive Officer to his aggregate balance at December 31, 2012, including "market rate" interest (as defined by the SEC) from the date of each contribution, is as follows: Mr. Brandt \$1,060,443; Mr. Hatfield \$69,357; Mr. Edington \$1,499,572; Mr. Falck \$25,130; and Mr. Robinson \$535,603. Of the totals in this column, the following amounts have been reported in the Summary Compensation Table in this Proxy Statement or in the Company's prior Proxy Statements: Mr. Brandt \$994,037; Mr. Hatfield \$70,032; Mr. Edington \$1,516,570; Mr. Falck \$50,638; and Mr. Robinson \$350,868.

⁴ Mr. Edington received a payout under the Deferred Compensation Account discussed under the narrative disclosure accompanying the Summary Compensation table and Grants of Plan-Based Awards table. Pursuant to the 2012 Supplemental Agreement, the Company also granted the Edington DCP Discretionary Credits to Mr. Edington. Amounts paid to Mr. Edington under the Edington DCP Discretionary Credits will be included in the Summary Compensation Table when the performance conditions are met. The terms of the Edington DCP Discretionary Credits are also discussed under the heading identified above.

⁵ Pursuant to Mr. Falck's offer letter, the terms of which are described under "Discussion of Nonqualified Deferred Compensation - DCP and 2005 Plan" below, the Company granted the Falck DCP Discretionary Credits to Mr. Falck. Amounts paid to Mr. Falck under the Falck DCP Discretionary Credits will be included in the Summary Compensation Table when the performance conditions are met.

DCP and 2005 Plan. Effective January 1, 1992, the Company established The Pinnacle West Capital Corporation, Arizona Public Service Company, SunCor Development Company, and El Dorado Investment Company Deferred Compensation Plan (the "DCP"). Under the DCP, a participant who was an employee was allowed to defer up to 50% of annual base salary and up to 100% of year-end bonus, which would include awards under regular annual incentive plans, but not special incentive payments. A participant who is a member of the Board is allowed

to defer up to 100% of the annual

cash fees payable to the participant. Amounts deferred by participants are credited with interest at various rates in substantially the same manner as interest is credited pursuant to the 2005 Plan, as described below. Distributions may be made (1) within 30 days after the fifth year an amount was deferred, (2) on account of an unforeseen emergency, (3) on account of retirement after attaining age 65 with five years of service or after attaining age 55 with 10 years of service ("Retirement Benefit"), (4) on account of termination prior to retirement ("Termination Benefit"), (5) on account of disability, or (6) on account of death before termination of employment.

The Retirement Benefit and Termination Benefit are payable in a lump sum or in 5, 10, or 15 equal annual installments, as elected by the participant. Other benefits are generally paid in a lump sum. The method of crediting interest on lump sum and installment payments under the DCP is substantially the same as the method used in the 2005 Plan, as described below.

On December 15, 2004, the Board authorized the adoption of a new nonqualified deferred compensation plan for post-2004 deferrals (the "2005 Plan"). No future deferrals will be permitted under the DCP. The 2005 Plan, effective as of January 1, 2005, is based in large part on the DCP as described above. The 2005 Plan was adopted to comply with the requirements of Section 409A of the Code.

Under the 2005 Plan, a participant who is an employee is allowed to defer up to 50% of the participant's base salary and up to 100% of the participant's bonus, including regular awards under annual incentive plans, but not special awards. A participant who is a member of the Board is allowed to defer up to 100% of the annual cash fees payable to the participant. Amounts deferred by participants are credited with interest at various rates, as described below. Deferral elections of base salary and director's fees must be made prior to the calendar year in which such base salary or director's fees will be paid. A deferral election with respect to a bonus must be made before the first day of the calendar year in which the bonus is earned. When making a deferral election, a participant also makes an election regarding the time and form of the participant's distributions from the 2005 Plan. Distributions from the 2005 Plan must be made in accordance with Section 409A of the Code. Distributions are made (1) in January of the fifth year following the year in which an amount was deferred, (2) on account of an unforeseeable financial emergency, (3) on the later of termination of employment or attainment of age 55, or (4) on account of death before termination of employment.

In the event of termination of employment, attainment of age 55 or death, the benefit is payable in a lump sum or in 5, 10 or 15 equal annual installments, as elected by the participant. Benefits in the other circumstances are generally paid in a lump sum.

Up until October 2011, the Company used two different interest rates to determine the amount of the participant's benefit under the 2005 Plan. The first was the "Base Rate," which, for any calendar year, was the 10-year U.S. Treasury Note rate published on the last business day of the first week of October preceding such calendar year. The second was the "Plan Rate," which was the sum of the "Base Rate" and the "Supplemental Rate." The plan committee appointed by the Board determined the "Supplemental Rate." From January 2011 until October 2011, the "Base Rate" was 2.54% and the "Supplemental Rate" was 4.96%.

As a general rule, the interest rate used to determine the amount of the benefit payable in a lump sum is as follows:

Years of Plan Participation	Interest Rate
Less than five (and termination occurs other than due to retirement and more than six months prior to change of control)	Base Rate
All other situations	Plan Rate

- 50 -

Table of Contents

The interest rate used to determine the amount of the benefit payable in installments is a fixed rate equal to the average Plan Rate for the plan year in which the participant becomes eligible to receive the benefit and the four prior plan years. If the participant has fewer than five plan years of participation and terminates employment for reasons other than retirement, the interest rate used to calculate installments is a fixed rate equal to the average Base Rate for the plan years of participation. If the participant's installment payout begins on or after the date that is six months prior to a change of control of the Company, the Company is required to pay benefits using an average of the Plan Rate for the plan years of participation.

In October 2011, the Company amended the 2005 Plan to provide for a single rate of interest that will be determined by the plan committee, but which rate shall in no event be less than the rate of interest equal to the 10-year U.S. Treasury Note rate as published on the last business day of the first week of October preceding a plan year. The amendment also removed the five-year vesting provision. The plan committee set the rate at 7.5%, which rate was in effect until the end of 2012.

Effective January 1, 2009, the Company amended the 2005 Plan to permit the Company, in its discretion, to award discretionary credits to participants. Discretionary credits generally will be paid at the time and in the form provided in the written award agreement.

The Company agreed in Mr. Falck's offer letter to make a \$350,000 discretionary credit award to Mr. Falck in 2009, pursuant to the 2005 Plan (the "Falck DCP Discretionary Credits"). The first \$250,000 will vest on July 29, 2014 and the remaining \$100,000 will vest on July 29, 2016. The \$350,000 discretionary credit award earns interest in accordance with the 2005 Plan. The full amount of the discretionary credit award vests and becomes payable if the Company terminates Mr. Falck's employment without cause within two years following a change of control, or in the event of his death. If Mr. Falck terminates employment, for any reason other than those discussed above, prior to July 29, 2014, he forfeits the entire discretionary credit award; if such termination occurs between July 30, 2014 and July 29, 2016, Mr. Falck forfeits \$100,000.

The Company agreed in Mr. Edington's 2008 Agreement to the Deferred Compensation Account. The Company further agreed in Mr. Edington's 2012 Supplemental Agreement to the Edington DCP Discretionary Credits. These awards are described in the narrative disclosure accompanying the Summary Compensation Table and the Grants of Plan-Based Awards table.

Participation in both the DCP and the 2005 Plan is limited to officers, the Company's senior management group and directors of the Company and participating affiliates. The Company's obligations under the DCP and the 2005 Plan are unfunded (except in the limited change of control circumstance discussed below) and unsecured.

Potential Payments Upon Termination or Change of Control

This section describes the potential payments that each of the Named Executive Officers could receive following termination of employment, including through death, disability, retirement, resignation, involuntary termination (with and without cause) or a change of control of the Company (each, a "Termination Event"). We describe plans, agreements, or arrangements under which each Named Executive Officer could receive payments following a Termination Event, excluding those that do not discriminate in favor of our executive officers and that are available generally to all salaried employees and awards that are already vested ("Termination Plans"). The payments to the Named Executive Officers under the various Termination Event scenarios described in this section are not intended to affect the Company's obligations to the Named Executive Officers. Those obligations are subject to, and qualified by, the contracts or arrangements giving rise to such obligations. Unless we note

Table of Contents

otherwise, the discussion below assumes that any Termination Event took place on December 31, 2012 for each Named Executive Officer.

The Company does not have a severance plan that covers the Named Executive Officers. We also do not have traditional severance agreements or arrangements with our Named Executive Officers. We do have Change of Control Agreements which are discussed below.

In addition to the termination payments set forth below, the Named Executive Officers would also receive a full distribution under the 2005 Plan (except in the case of the Falck DCP Discretionary Credits and the Edington DCP Discretionary Credits, which are discussed separately below) and pension benefits. Amounts payable to Messrs. Brandt, Hatfield, Edington and Robinson under the 2005 Plan are set forth in the Nonqualified Deferred Compensation table, which also shows which part of the payment was interest paid by the Company and which part is the executive's contribution.

With respect to pension benefits, the amounts that each of the Named Executive Officers would receive under the Supplemental Plan in the event of a Termination Event are set forth in the Pension Benefits table; however, assuming that the Named Executive Officer had died on December 31, 2012, the amounts payable under the Supplemental Plan (and in the case of Mr. Edington, under the Supplemental Plan and his employment agreements), would have been as follows: Mr. Brandt \$5,069,302; Mr. Hatfield \$842,391; Mr. Edington \$12,081,726; Mr. Falck \$666,586; and Mr. Robinson \$9,687,115. These amounts are based on the following assumptions: (i) the Traditional Formula Benefit is paid in the form of a monthly annuity to the Named Executive Officer's spouse for life following his death and benefit payments commence immediately; (ii) the Account Balance Benefit is paid in the form of an immediate lump sum to his spouse; and (iii) in the case of Mr. Edington, 50% of the benefit is paid as an annuity and 50% of the benefit is paid as a lump sum to his spouse as provided in his employment agreements. With respect to Mr. Robinson, he would have received \$10,270,990 in the event of a Termination Event other than death, disability or change of control due to his qualification for early retirement on December 31, 2012 this amount is based on the assumption that the benefit would be payable as a monthly annuity beginning on January 1, 2013. With respect to Mr. Brandt, he would have received \$5,809,118 in the event of a Termination Event other than death, disability or change of control due to his qualification for early retirement on December 31, 2012 this amount is based on the assumption that the benefit would be payable as a monthly annuity beginning on January 1, 2013.

The Falck DCP Discretionary Credits and the Edington DCP Discretionary Credits would trigger a payment in connection with certain Termination Events, which are identified below. The agreements are discussed in the narrative disclosure accompanying the Summary Compensation Table and the Grants of Plan-Based Awards table and in the Discussion of Nonqualified Deferred Compensation.

The Company has entered into identical Change of Control Agreements with each of its executive officers, including each of the Named Executive Officers. The Company believes that these agreements provide stability in its key management in the event the Company experiences a change of control. The agreements contain a "double-trigger" that provides for certain payments if, during the two-year period following a change of control of the Company (the "first trigger"), the Company involuntarily terminates the officer's employment or the executive terminates his or her own employment following a significant and detrimental change in the executive's employment (the "second trigger"). In case of an officer's retirement, death or disability, no payments are made under the officer's Change of Control Agreement, except for the payment of accrued benefits; however, if the officer dies following the officer's receipt of a second trigger termination notice, the officer's estate will receive the change of control payments the officer would have received if the officer had survived. Pursuant to the Change of Control Agreement, each of the Named Executive Officers is obligated to

Table of Contents

hold in confidence any and all information in his possession as a result of his employment, during and after the Named Executive Officer's employment with the Company is terminated.

The termination payment, if required, is an amount equal to 2.99 times the sum of the executive's annual salary at the change of control as increased to the date of termination plus the annual bonus (including incentive plan payments), as determined by an average over the last four years preceding termination. In addition, the executive is entitled to continued medical, dental, and group life insurance benefits at a shared cost until the end of the second year following the calendar year of termination. Outplacement services are also provided. If the limitations described in Section 280G of the Code are exceeded, the Company will not be able to deduct a portion of its payments. In addition, if these limitations are exceeded, Section 4999 of the Code imposes an excise tax on all or part of the total payments. The agreement provides for an additional gross-up payment equal to the excise tax (plus any penalties and interest) imposed on or with respect to the total payments.

In May 2009, the Company determined that, on a going forward basis, it will no longer provide excise tax gross-up payments in new and materially amended agreements with its Named Executive Officers. In unusual circumstances where the Company believes that accommodations have to be made to recruit a new executive to the Company, limited reimbursement for taxes payable may be included in an executive's contract; but even in those circumstances, the excise tax gross-ups will be subject to a three-year sunset provision.

A change of control under the Change of Control Agreement includes: (1) an unrelated third party's acquisition of 20% or more of the Company's or APS's voting stock; (2) a merger or consolidation where either the Company or APS combines with any other corporation such that the Company's or APS's outstanding voting stock immediately prior to merger or consolidation represents less than 60% of the voting stock of the Company or APS immediately after the merger or consolidation, but excluding a merger or consolidation effected to implement a recapitalization in which no unrelated third party acquires more than 20% of the voting stock of the Company or APS; (3) a sale, transfer, or other disposition of all or substantially all of the assets of the Company or APS to an unrelated third party; or (4) the case where the composition of either the Board of the Company or of APS changes such that the members of the Board of the Company (the "Company Incumbent Board") or of APS (the "APS Incumbent Board"), as of July 31, 2007 (and with respect to Mr. Hatfield and Mr. Falck as of July 31, 2008) no longer comprises at least two-thirds of the Company's or APS's Board of Directors. For purposes of this later provision, a person elected to either Board, is treated as a member of the Company Incumbent Board or APS Incumbent Board if his or her nomination or election by shareholders was approved by a two-thirds vote of the members then comprising the Company Incumbent Board or APS Incumbent Board, and it does not include anyone who became a director in an actual or threatened election contest relating to the election of directors.

Each of the agreements terminates on December 31 of each year upon six months advance notice by the Company to the executive officer; if the six months advance notice is not given, the agreements will continue for successive one-year periods until the notice is given. The Company is required to deposit into a trust sufficient funds to pay obligations under the DCP, 2005 Plan and the Supplemental Plan in the case of an actual or potential change of control.

The following tables quantify the amounts that would have been payable to each Named Executive Officer if the indicated Termination Event had taken place on December 31, 2012. In the tables:

We assume full vesting of outstanding performance shares (at the target level), RSUs, and a pro-rata portion of the Retention Grant (in the case of Mr. Brandt) upon a change of control. The performance shares and RSUs (excluding the Retention Grant) vest whether or

not there is a subsequent termination of employment (subject however, to the Board's ability to override the vesting), plus, where applicable, dividend equivalents.

Retirement benefits payable to Messrs. Brandt and Robinson include full vesting of outstanding performance shares (at the target level) and RSUs (excluding the Supplemental RSUs and the Retention Grant), plus, where applicable, dividend equivalents. These Named Executive Officers were eligible for retirement on December 31, 2012.

The amounts in the "All Other Termination Events" columns consist of payments upon: death or disability for Mr. Brandt; death, disability or involuntary termination by the Company other than for cause for Mr. Edington; and death for Mr. Falck.

Subject to the foregoing, the following tables describe the amounts that would have been payable to each Named Executive Officer if a Termination Event had taken place on December 31, 2012:

¹ In accordance with FASB ASC Topic 718, this amount reflects the aggregate grant date fair value of the stock award. On June 29, 2012, all of the directors at the time received a grant of either common stock or RSUs, based on an election previously delivered to the Company. All directors received common stock except for Mr. Gallagher, Drs. Herberger and Klein, and Ms. Munro, who each received RSUs. Under the terms of the RSUs, Mr. Gallagher and Dr. Herberger will receive 50% of the RSUs in cash and 50% of the RSUs in common stock and Dr. Klein and Ms. Munro will receive one share of common stock for each RSU, in all cases, on the last business day of the month following the month in which they separate from service on the Board. The number of shares of common stock or RSUs granted was 1,730 and the grant date fair value of each share of common stock or RSU is \$51.74, which was the closing stock price on June 29, 2012.

² The Company does not have a pension plan for directors. The amount in this column consists solely of the above-market portion of annual interest accrued under a deferred compensation plan pursuant to which directors may defer all or a portion of their Board fees. See the discussion of the rates of interest applicable to the deferred compensation program under "Discussion of Nonqualified Deferred Compensation."

³ This amount represents an insurance premium for a business travel and accident policy that covers all directors and officers.

⁴ Mr. Brandt is a Named Executive Officer and his compensation is set forth in the Summary Compensation Table. Only non-management directors are compensated for Board service.

Table of Contents**Discussion of Directors' Compensation**

The Human Resources Committee makes recommendations to the Board for compensation, equity participation, and other benefits for directors. The director compensation program consists of the following components:

Compensation Component	Amount
Annual Retainer	\$80,000
Audit Committee, Human Resources Committee, Finance Committee, and Nuclear and Operating Committee Chairs Annual Retainers	\$12,500
Lead Director Annual Retainer (Lead Director serves as Chair of Corporate Governance Committee for no additional compensation)	\$20,000
Annual Equity Grant	Shares with a value of approximately \$90,000 on the grant date

Directors had an option to either receive the stock grant on July 1 or defer the receipt until a later date. A director who elected to defer his or her receipt of stock received RSUs in lieu of the stock grant. Those directors who elected to receive RSUs were able to elect to receive payment for the RSUs in either (1) stock or (2) 50% in stock and 50% in cash. The directors also elected whether to receive these payments either (1) as of the last business day of the month following the month in which the director separates from service on the Board, or (2) as of a date specified by the director, which date must be after December 31 of the year in which the grant was received. The RSUs accrue dividend rights equal to the amount of dividends the director would have received if the director had directly owned one share of our common stock for each RSU held, plus interest at the rate of 5% per annum, compounded quarterly. The manner of payment for the dividends and interest will be based on the director's election for payment of the RSUs.

Directors of Pinnacle West also serve on the APS Board of Directors for no additional compensation. The Company reimburses Board members for expenses associated with Board meetings and director education programs.

A comparison against the compensation programs of our current peer group is generally performed every two years, and was last performed in January 2012, at which time the Board approved increasing the value of the annual equity grant from \$75,000 to \$90,000 and the Lead Director annual retainer from \$15,000 to \$20,000. These changes went into effect for the 2012-2013 term of the Board beginning in May 2012.

Director Stock Ownership Guidelines

The Company believes that directors should have a meaningful financial stake in the Company to align their personal financial interests with those of the Company's shareholders.

In January 2010, the Board adopted a revised stock ownership policy for non-management directors. Each director is required to hold or control Company common stock or RSUs with a value of at least three times the annual cash retainer fee paid to directors. Directors will have until the later of January 2013 or three years following the date they become a director to reach the required ownership level. A director may not pledge, margin, hypothecate, hedge, or otherwise grant an economic interest in any shares of Company stock while serving as a director whether or not his or her ownership requirement is met. This restriction shall extend to the purchase or creation of any short sales,

zero-cost collars, forward sales contracts, puts, calls, options or other derivative securities in respect of any shares of Company stock. The Corporate Governance Committee may grant exceptions to this policy for hardship or other special circumstances. All of the directors are in compliance with the Director Stock Ownership Guidelines.

PROPOSAL 2 ADVISORY VOTE ON EXECUTIVE COMPENSATION

Section 14A of the Exchange Act requires U.S. public corporations to provide for an advisory (non-binding) vote on executive compensation ("Say-on-Pay").

As discussed in more detail in our CD&A and the accompanying tables and narrative, the Company has designed its executive compensation program to align executives' interests with those of our shareholders, make executives accountable for business and individual performance by putting pay at risk, and attract, retain and reward the executive talent required to achieve our corporate objectives and to increase long-term shareholder value. We believe that our compensation policies and practices promote a pay at risk philosophy and, as such, are aligned with the interests of our shareholders.

In deciding how to vote on this proposal, the Board points out the following factors, many of which are more fully discussed in the CD&A:

Our Human Resources Committee has designed the compensation packages for our Named Executive Officers to depend significantly on putting pay at risk tied to the achievement of goals that the Human Resources Committee believes drive long-term shareholder value;

The Company had a highly successful year in 2012, as discussed under "Overview of 2012 Company Performance";

Our pay practices are designed to encourage management to not take unacceptable risks;

We engage in continual benchmarking in order to confirm that our programs are comparable to the companies in our Peer Group; and

We believe the Company's executive compensation program is well suited to promote the Company's objectives in both the short and long-term.

The Board strongly endorses the Company's executive compensation program and recommends that the shareholders vote in favor of the following resolution:

RESOLVED, that the compensation paid to the Company's Named Executive Officers as disclosed in this Proxy Statement in the CD&A, the compensation tables and the narrative discussion, is hereby approved.

Because your vote is advisory, it will not be binding upon the Human Resources Committee or the Board. However, we value our shareholders' opinions, and we will consider the outcome of the vote when determining future executive compensation arrangements.

The Audit Committee has selected D&T as the Company's independent accountants for the year ending December 31, 2013 and has directed management to submit such selection for ratification by the shareholders at the Annual Meeting. In the event the shareholders fail to ratify the appointment, the Audit Committee may reconsider this appointment. Even if the appointment is ratified, the Audit Committee, in its discretion, may direct the appointment of a different independent accounting firm at any time during the year if the Audit Committee determines that such a change would be in the Company's and the shareholders' best interests.

These representatives will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.
