Paylocity Holding Corporation

Overview

We are a cloud-based provider of payroll and human capital management, or HCM, software solutions for medium-sized organizations, which we define as those having between 20 and 1,000 employees. Our comprehensive and easy-to-use solutions enable our clients to manage their workforces more effectively. As of June 30, 2015, we served approximately 10,350 clients across the U.S., which on average had over 100 employees. Our solutions help drive strategic human capital decision-making and improve employee engagement by enhancing the human resource, payroll and finance capabilities of our clients.

Our multi-tenant software platform is highly configurable and includes a unified suite of payroll and HCM applications, such as time and labor tracking, benefits and talent management. Our solutions have been organically developed from our core payroll solution, which we believe is the most critical system of record for medium-sized organizations and an essential gateway to other HCM functionality. Our payroll and HCM applications use a unified database and provide robust on-demand reporting and analytics. Our platform provides intuitive self-service functionality for employees and managers combined with seamless integration across all our solutions. We supplement our comprehensive software platform with an integrated implementation and client service organization, all of which are designed to meet the needs of medium-sized organizations.

Effective management of human capital is a core function in all organizations and requires a significant commitment of resources. Organizations are faced with complex and ever-changing requirements, including diverse federal, state and local regulations across multiple jurisdictions. In addition, the workplace operating environment is rapidly changing as employees increasingly become mobile, work remotely and expect an end user experience similar to that of consumer-oriented Internet applications. Medium-sized organizations operating without the infrastructure, expertise or personnel of larger enterprises are uniquely pressured in this complex and dynamic environment. Existing solutions offered by third-party payroll service providers can have limited capabilities and configurability while enterprise-focused software vendors can be expensive and time-consuming to implement and manage. We believe that medium-sized organizations are better served by solutions designed to meet their unique needs.

We market and sell our products primarily through our direct sales force. We generate sales leads through a variety of focused marketing initiatives and by referrals from our extensive referral

Table of Contents

network of 401(k) advisors, benefits administrators, insurance brokers, third-party administrators and HR consultants. We derive revenue from a client based on the solutions purchased by the client, the number of client employees and the amount, type and timing of services provided in respect of those client employees. Our annual revenue retention rate was greater than 92% in each of the fiscal years 2013, 2014 and 2015. Our total revenues increased from \$77.3 million in fiscal 2013 to \$108.7 million in fiscal 2014, representing a 41% year-over-year increase, and to \$152.7 million in fiscal 2015, representing a 40% year-over-year increase. Our recurring revenues increased from \$72.8 million in fiscal 2013 to \$101.9 million in fiscal 2014, representing a 40% year-over-year increase, and to \$144.1 million in fiscal 2015, representing a 41% year-over-year increase. Although we do not have long-term contracts with our clients and our agreements with clients are generally terminable on 60 days' or less notice, our recurring revenue model provides significant visibility into our future operating results. We have invested, and continue to invest, in growing our business by expanding our sales and marketing activities, increasing research and development to expand and improve our product offerings, and scaling our technical infrastructure and operations. We incurred net losses of \$7.1 million and \$14.0 million in fiscal 2014 and 2015, respectively. We had net income of \$617,000 in fiscal 2013.

Industry Background

Effective management of human capital is a core function in all organizations and requires a significant commitment of resources. Identifying, acquiring and retaining talent is a priority at all levels of an organization. In today's increasingly complex business and regulatory environment, organizations are being pressured to manage critical payroll and HCM functions more effectively, automate manual processes and decrease their operating costs.

Complex and Dynamic Tax and Regulatory Environment

The tax and regulatory environment in the United States is complex and dynamic. Organizations are subject to a myriad of tax, benefit, workers compensation, healthcare and other rules, regulations and reporting obligations. In addition to U.S. federal taxing and regulatory authorities, there are more than 10,000 state and local tax codes in the United States. Further, federal, state and local government agencies continually enact and amend the rules, regulations and reporting requirements with which organizations must comply.

Growing Demand for Mobility and Enhanced User Experience

Connectivity and mobility are enabling employees to spend less time in traditional office environments and more time working remotely. This trend increases the demand for advanced and intuitive solutions that improve collaboration and foster employee engagement, such as remote self-service access to payroll and timesheet reporting, HR and benefits portals and other talent management applications. Given the prominence of consumer-oriented Internet applications, employees expect the user experience and accessibility of internal systems to be similar to those of the latest Internet applications, such as LinkedIn, Amazon and Facebook.

Medium-Sized Organizations Face Unique Challenges

Medium-sized organizations functioning without the infrastructure, expertise or personnel of larger enterprises are uniquely pressured in the current complex and dynamic environment. Employees in these medium-sized organizations often perform multiple job functions, and many medium-sized organizations have limited financial, technical and other resources needed to effectively manage their critical business requirements and to build and maintain the systems required to do so.

Table of Contents

Large Market Opportunity for Payroll and HCM Solutions

We believe the U.S. market for HCM applications and payroll outsourcing services is significant. The market opportunity is driven by the importance of payroll and HCM solutions to the successful management of organizations.

To estimate our addressable market, we focus our analysis on the number of U.S. medium-sized organizations and the number of their employees. According to the U.S. Census Bureau, there were over 565,000 firms with 20 to 999 employees in the U.S. in 2010, employing over 40 million persons. We estimate that if clients were to buy our entire suite of existing solutions at list prices, they would spend approximately \$230 per employee annually. Based on this analysis, we believe our current target addressable market is approximately \$9.0 billion. Our existing clients do not typically buy our entire suite of solutions, and as we continue to expand our product offerings, we believe that we have an opportunity to increase the amount clients spend on payroll and HCM solutions per employee and to expand our addressable market.

Organizations Are Increasingly Transitioning to SaaS Solutions

SaaS solutions are easier and more affordable to implement and operate than those offered by traditional software providers. SaaS solutions also enable software updates with greater frequency and without new hardware investments, enabling organizations to better react to changes in their environments. Many organizations are transitioning to SaaS solutions for front-office business applications such as salesforce management. Similarly, we believe organizations are adopting back-office SaaS applications, such as payroll and HCM, with increasing frequency.

Limitations of Existing Solutions

We believe that existing payroll and HCM solutions have limitations that cause them to underserve the unique needs of medium-sized organizations. Existing payroll and HCM solutions include traditional payroll service providers, enterprise-focused payroll and HCM software vendors, HCM point solution providers and manual processes for payroll and HCM functions. Given the challenges medium-sized organizations face operating in complex and dynamic environments and the limited ability of traditional offerings to address these challenges, we believe there is a significant market opportunity for a comprehensive, unified SaaS solution designed to serve the payroll and HCM needs of medium-sized organizations.

Our Solution

We are a cloud-based provider of payroll and HCM software solutions for medium-sized organizations. Our solutions enable medium-sized organizations to more efficiently manage payroll and human capital in their complex and dynamic operating environments. As of June 30, 2015, we served approximately 10,350 clients across the U.S., which on average had over 100 employees.

The key benefits of our solution include the following:

Comprehensive Platform Optimized for Medium-Sized Organizations. Our solutions empower finance and HR professionals in medium-sized organizations to drive strategic human capital decisions by providing enterprise-grade payroll and HCM applications, including robust reporting and analytics. Our unified platform fully automates payroll and HCM processes, enabling our clients to focus on core business activities. Our solutions help our clients attract, retain and manage their employees within a single, comprehensive system.

Modern, Intuitive User Experience. Our intuitive, easy-to-use interface is based on current technology and automatically adapts to users' devices, including mobile platforms, thereby significantly increasing accessibility of our solutions and decreasing the need for training.

Table of Contents

Our platform's self-service functionality and performance management applications provide employees with an engaging experience. Our performance management applications include peer-to-peer employee recognition and social employee profiles that create a reward and recognition environment resulting in greater employee engagement.

Flexible and Configurable Platform. We design our solutions to be flexible and configurable, allowing our clients to match their use of our software with their specific business processes and workflows. Our platform has been organically developed from a common code base, data structure and user interface, providing a consistent user experience with powerful features that are easily adaptable to our clients' needs. Our systems centralize payroll and HCM data, minimizing inconsistent and incomplete information that can be produced when using multiple databases.

Highly-Attractive SaaS Solution for Medium-Sized Organizations. Our solutions are cloud-based and offered on a subscription basis, making them easier and more affordable to implement, operate and update and enabling our clients to focus less on their IT infrastructure and more on their core businesses. Our cloud-based software can be operated by a single administrator without the support of an in-house information technology department. Our multi-tenant and modern architecture allows for frequent software enhancements thereby enabling our clients to react to a rapidly changing and complex operating environment. Our cloud-based platform enables our clients to scale their businesses without having to acquire additional hardware or to resolve the integration challenges that often result from traditional outsourcing solutions.

Seamless Integration with Extensive Ecosystem of Partners. Our platform offers our clients automated data integration with over 200 related third-party partner systems, such as 401(k), benefits and insurance provider systems. This integration reduces the complexity and risk of error of manual data transfers and saves time for our clients and their employees. We integrate data with these related systems through a secure connection, which significantly decreases the risk of unauthorized third-party access and other security breaches. Our direct and automated data transmission improves the accuracy of data and facilitates data collection in our partners' systems. We believe having automated data integration with a payroll and HCM provider like us differentiates our partners' product offerings, strengthening their competitive positioning in their own markets.

Our Strategy

We intend to strengthen and extend our position as a provider of cloud-based payroll and HCM software solutions to medium-sized organizations. Key elements of our strategy include:

Grow Our Client Base. We believe that our current client base represents only a small portion of the medium-sized organizations that could benefit from our solutions. While we served approximately 10,350 clients across the U.S. as of June 30, 2015, there were over 565,000 firms with 20 to 999 employees in the United States, employing more than 40 million persons, according to the U.S. Census Bureau in 2010. In order to acquire new clients, we plan to continue to grow our sales organization aggressively across all U.S. geographies.

Expand Our Product Offerings. We believe that our leadership position is in significant part the result of our investment and innovation in our product offerings designed for medium-sized organizations. Therefore, we plan to increase investment in software development to continue to advance our platform and expand our product offerings. For example, in June 2015 we announced the release of ACA Enhanced, which will provide compliance and reporting for the Affordable Care Act.

Table of Contents

Increase Average Revenue Per Client. Our average revenue per client has consistently increased in each of the last three years as we have broadened our product offerings. We plan to further grow average revenue per client by selling a broader selection of products to new and existing clients.

Extend Technological Leadership. We believe that our organically developed cloud-based multi-tenant software platform, combined with our unified database architecture, enhances the experience and usability of our products, providing what we believe to be a competitive advantage over alternative solutions. Our modern, intuitive user interface utilizes features found on many popular consumer Internet sites, enabling users to use our solutions with limited training. We plan to continue our technology innovation, as we have done with our mobile applications, social features and analytics capabilities.

Further Develop Our Referral Network. We have developed a strong network of referral participants, such as 401(k) advisors, benefits administrators, insurance brokers, third-party administrators and HR consultants that recommend our solutions and provide referrals. We believe that our platform's automated data integration with over 200 related third-party partner systems is valuable to our referral participants, as they are able to access payroll and HR data through a single system which decreases complexity and cost and complements their own product offerings. We plan to increase integration with third-party providers and expand our referral network to grow our client base and lower our client acquisition costs.

Summary Risk Factors

Investing in our common stock involves significant risks and uncertainties. You should carefully consider the risks and uncertainties discussed under the section titled "Risk Factors" elsewhere in this prospectus and in the "Risk Factors" section of our Annual Report on Form 10-K for the fiscal year ended June 30, 2015 before making a decision to invest in our common stock. If any of these risks and uncertainties occur, our business, financial condition or results of operations may be materially adversely affected. In such case, the trading price of our common stock would likely decline and you may lose all or part of your investment. Below is a summary of some of the principal risks we face:

We have incurred losses in the past, and we may not be able to achieve or sustain profitability for the foreseeable future.

Our quarterly operating results have fluctuated in the past and may continue to fluctuate.

Failure to manage our growth effectively could increase our expenses, decrease our revenue and prevent us from implementing our business strategy.

The markets in which we participate are highly competitive, and if we do not compete effectively, our operating results could be adversely affected.

If we fail to adequately expand our direct sales force with qualified and productive sales representatives, we may not be able to grow our business effectively.

Insiders will continue to have substantial control over us after this offering, which control may limit our stockholders' ability to influence corporate matters and delay or prevent a third party from acquiring control over us.

Our stock price may be subject to wide fluctuations.

Upon completion of this offering, our directors, executive officers and holders of more than 5% of our common stock, together with their respective affiliates, will beneficially own, in the aggregate, approximately 58.3% of our outstanding common stock. See "Risk Factors Insiders will continue

to have substantial control over us after this offering, which control may limit our stockholders' ability to influence corporate matters and delay or prevent a third party from acquiring control over us."

Corporate Information

We were incorporated in July 1997 as an Illinois corporation. In November 2005, we changed our name to Paylocity Corporation. In November 2013, we effected a restructuring whereby Paylocity Corporation became a wholly-owned subsidiary of Paylocity Holding Corporation, a Delaware corporation. Except as otherwise provided herein, this prospectus gives effect to this restructuring. All of our business operations are conducted by Paylocity Corporation.

We are headquartered in Arlington Heights, Illinois. Our principal executive offices are located at 3850 N. Wilke Road, Arlington Heights, Illinois 60004. Our telephone number is (847) 463-3200. Our corporate website address is www.paylocity.com. The information contained in, or that can be accessed through, our website is not part of this prospectus.

Paylocity and "Apple and Orange" and other trademarks or service marks of Paylocity appearing in this prospectus are our property. Trade names, trademarks and service marks of other companies appearing in this prospectus are the property of their respective holders.

We are an "emerging growth company" as defined in the Jumpstart Our Business Startups Act of 2012, or the JOBS Act, and we have elected to take advantage of certain exemptions from various public company reporting requirements, including not being required to have our internal control over financial reporting audited by our independent registered public accounting firm pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and any golden parachute payments. We may take advantage of these exemptions until we are no longer an "emerging growth company."

We use Adjusted Gross Profit, Adjusted Recurring Gross Profit, and Adjusted EBITDA to evaluate our operating results. We prepare Adjusted Gross Profit, Adjusted Recurring Gross Profit and Adjusted EBITDA to eliminate the impact of items we do not consider indicative of our ongoing operating performance. However, Adjusted Gross Profit, Adjusted Recurring Gross Profit and Adjusted EBITDA are not measurements of financial performance under generally accepted accounting principles in the United States, or GAAP, and these metrics may not be comparable to similarly-titled measures of other companies.

We define Adjusted Gross Profit as gross profit before amortization of capitalized internal-use software costs, stock-based compensation expense and employer payroll taxes related to stock releases and option exercises and one-time founder funded bonus pay-outs, if any. We define Adjusted Recurring Gross Profit as total recurring revenues after cost of recurring revenues and before amortization of capitalized internal-use software costs, stock-based compensation expense and employer payroll taxes related to stock releases and option exercises and one-time founder funded bonus pay-outs, if any. We define Adjusted EBITDA as net income (loss) before interest expense, income tax expense (benefit), depreciation and amortization, stock-based compensation expense and employer payroll taxes related to stock releases and option exercises and one-time founder funded bonus pay-outs, if any.

We disclose Adjusted Gross Profit, Adjusted Recurring Gross Profit and Adjusted EBITDA, which are non-GAAP measures, because we believe these metrics assist investors and analysts in comparing our performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our core operating performance. We believe these metrics are commonly used in the financial community to aid in comparisons of similar companies, and we present them to enhance investors' understanding of our operating performance and cash flows.

Adjusted Gross Profit, Adjusted Recurring Gross Profit and Adjusted EBITDA have limitations as analytical tools. Some of these limitations are:

Adjusted EBITDA does not reflect our cash expenditures, or future requirements, for capital expenditures;

Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

Adjusted EBITDA does not reflect our income tax expense or the cash requirement to pay our taxes;

Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements; and

Edgar Filing: Paylocity Holding Corp - Form S-3/A

Other companies in our industry may calculate Adjusted Gross Profit, Adjusted Recurring Gross Profit and Adjusted EBITDA differently than we do, limiting their usefulness as a comparative measure.

Additionally, stock-based compensation will be an element of our overall compensation strategy, although we exclude it from Adjusted Gross Profit, Adjusted Recurring Gross Profit and Adjusted EBITDA as an expense when evaluating our ongoing operating performance for a particular period.

Because of these limitations, you should not consider Adjusted Gross Profit as an alternative to gross profit, Adjusted Recurring Gross Profit as an alternative to total recurring revenues, or Adjusted EBITDA as an alternative to net income (loss) or cash provided by operating activities, in each case as determined in accordance with GAAP. We compensate for these limitations by relying primarily on our

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the risks and uncertainties described below and discussed under the section titled "Risk Factors" contained in our Annual Report on Form 10-K for the year ended June 30, 2015, together with the other information in this prospectus, the information and documents incorporated by reference herein, and in any free writing prospectus that we have authorized for use in connection with this offering. Our business, prospects, financial condition or operating results could be materially adversely affected by any of these risks, which we believe are the material risks currently facing us, as well as other risks not currently known to us or that are currently considered immaterial. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment.

Risks Related to this Offering

Insiders will continue to have substantial control over us after this offering, which control may limit our stockholders' ability to influence corporate matters and delay or prevent a third party from acquiring control over us.

Upon completion of this offering, our directors, executive officers and holders of more than 5% of our common stock, together with their respective affiliates, will beneficially own, in the aggregate, approximately 58.3% of our outstanding common stock. This significant concentration of ownership may adversely affect the trading price for our common stock because investors often perceive disadvantages in owning stock in companies with controlling stockholders. In addition, these stockholders will be able to exercise influence over all matters requiring stockholder approval, including the election of directors and approval of corporate transactions, such as a merger or other sale of our company or its assets. This concentration of ownership could limit your ability to influence corporate matters and may have the effect of delaying or preventing a change in control, including a merger, consolidation, or other business combination involving us, or discouraging a potential acquirer from making a tender offer or otherwise attempting to obtain control, even if that change in control would benefit our other stockholders.

Our stock price may be subject to wide fluctuations.

The trading price of our common stock has been highly volatile and could be subject to wide fluctuations in response to various factors, some of which are beyond our control. These factors include those discussed in this section of this prospectus and others such as:

Our operating performance and the operating performance of similar companies;

Announcements by us or our competitors of acquisitions, business plans or commercial relationships;

Any major change in our board of directors or senior management;

Publication of research reports or news stories about us, our competitors, or our industry, or positive or negative recommendations or withdrawal of research coverage by securities analysts;

The public's reaction to our press releases, our other public announcements and our filings with the SEC;

Sales of our common stock by our directors and executive officers;

Adverse market reaction to any indebtedness we may incur or securities we may issue in the future;

Table of Contents

Short sales, hedging and other derivative transactions in our common stock;

The market's reaction to our reduced disclosure as a result of being an emerging growth company under the JOBS Act;

Threatened or actual litigation; and

Other events or factors, including changes in general conditions in the United States and global economies or financial markets (including those resulting from ongoing budget negotiations and intermittent government shutdowns in the United States, acts of God, war, incidents of terrorism, or responses to such events).

In addition, the stock market in general and the market for Internet-related companies in particular, have experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of those companies. These fluctuations might be even more pronounced in the trading market for our stock shortly following this offering. Securities class action litigation has often been instituted against companies following periods of volatility in the overall market and in the market price of a company's securities. This litigation, if instituted against us, could result in substantial costs, divert our management's attention and resources, and harm our business, operating results, and financial condition.

We do not currently intend to pay dividends on our common stock and, consequently, your ability to achieve a return on your investment will depend on appreciation in the price of our common stock.

We have only declared or paid cash dividends on our common stock once since 2008 and do not currently intend to do so for the foreseeable future. We currently intend to invest our future earnings, if any, to fund our growth. Therefore, you are not likely to receive any dividends on your common stock for the foreseeable future, and the success of an investment in shares of our common stock will depend upon future appreciation in its value, if any. There is no guarantee that shares of our common stock will appreciate in value or even maintain the price at which our stockholders purchased their shares.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus, including the sections titled "Prospectus Summary" and "Risk Factors," contains forward-looking statements. Forward-looking statements convey our current expectations or forecasts of future events. All statements contained in this prospectus, other than statements of historical fact or statements related to present facts or current conditions, are forward-looking. You can identify forward-looking statements by terminology such as "anticipates," "believes," "can," "continue," "could," "estimates," "expects," "intends," "may," "plans," "predicts," "potential," "seeks," "should," "will" or "would," or the negative of these terms, or similar expressions.

There are a number of important factors that could cause our actual results to differ materially from the results anticipated by these forward-looking statements. These important factors include, but are not limited to:

Our ability to attract new clients to enter into subscriptions for our products;

Our ability to service clients effectively and induce them to continue to use our products and subscribe to additional products;

Our ability to expand our sales organization to address effectively new geographies which we may target;

Our ability to continue to expand our referral network of third parties, and to continue to provide data integration services compatible with other third-party service providers;

Our ability to accurately forecast revenue and appropriately plan our expenses;

Continued acceptance of SaaS as an effective method for delivery payroll and HCM solutions;

The attraction and retention of qualified employees and key personnel;

Our ability to protect and defend our intellectual property;

Costs associated with defending intellectual property infringement and other claims;

Unexpected events in the market for our solutions;

Future regulatory, judicial and legislative changes in our industry;

Changes in the competitive environment in our industry and in the market in which we operate; and

Other factors that we discuss in this prospectus in the sections titled "Prospectus Summary" and "Risk Factors" in this prospectus as well as the risk factors contained in our filings with the SEC that are incorporated by reference in this prospectus.

Edgar Filing: Paylocity Holding Corp - Form S-3/A

You should read these factors and the other cautionary statements made in this prospectus as being applicable to all related forward-looking statements wherever they appear in this prospectus. If one or more of these factors materialize, or if any underlying assumptions prove incorrect, our actual results, performance or achievements may vary materially from any future results, performance or achievements expressed or implied by these forward-looking statements. Forward-looking statements represent our management's beliefs and assumptions only as of the date of this prospectus. You should read this prospectus and the documents that we have filed as exhibits to the registration statement, of which this prospectus is a part, as well as the documents incorporated by reference herein, completely and with the understanding that our actual future results may be materially different from what we expect. We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

INDUSTRY AND MARKET DATA

Unless otherwise indicated, information contained in this prospectus concerning our industry and the markets in which we operate, including our general expectations and market position, market opportunity and market share, is based on information from various sources (including industry publications, surveys and forecasts and our internal research), on assumptions that we have made, which we believe are reasonable, based on the data and other sources available to us and on our knowledge of the markets for our services. Our internal research has not been verified by any independent source. While we believe the market position, market opportunity and market share information included in this prospectus are generally reliable, such information is inherently imprecise. In addition, projections, assumptions and estimates of our future performance and the future performance of the industry in which we operate are necessarily subject to a high degree of uncertainty and risk due to a variety of factors, including those described in "Prospectus Summary" and "Risk Factors" and elsewhere in this prospectus and the documents incorporated herein by reference, including the "Risk Factors" section of our Annual Report on Form 10-K for the year ended June 30, 2015. These and other factors could cause results to differ materially from those expressed in the estimates included in this prospectus.

USE OF PROCEEDS

The shares of common stock offered by this prospectus are being registered for the account of the selling stockholders named in the prospectus. As a result, all proceeds from the sales of the common stock will go to the selling stockholders and we will not receive any proceeds from the resale of the common stock by the selling stockholders. We will incur all costs associated with this registration statement and prospectus.

Table of Contents**SELLING STOCKHOLDERS**

The following table and footnotes set forth information with respect to the beneficial ownership of our common stock as of September 9, 2015, subject to certain assumptions set forth in the footnote and as adjusted to reflect the sale of the shares of common stock offered in the public offering under this prospectus for each of the selling stockholders.

Beneficial ownership of shares is determined under the rules of the SEC and generally includes any shares over which a person exercises sole or shared voting or investment power and includes shares issuable upon exercise of options held by the person which may be exercised or converted within 60 days of September 9, 2015. Except as indicated by footnote, and subject to applicable community property laws, we believe each person identified in the table possesses sole voting and investment power with respect to all shares of common stock beneficially owned by them. Shares of common stock subject to options currently exercisable or exercisable within 60 days of September 9, 2015, are deemed to be outstanding for calculating the number and percentage of outstanding shares of the person holding such options, but are not deemed to be outstanding for calculating the percentage ownership of any other person.

Applicable percentage ownership in the following table is based on 50,776,293 shares of common stock outstanding as of September 9, 2015.

Unless otherwise noted below, the address of each person listed on the table is c/o 3850 N. Wilke Road, Arlington Heights, IL 60004.

UNDERWRITING

Subject to the terms and conditions of the underwriting agreement, the underwriters named below, through their representatives Deutsche Bank Securities Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated, William Blair & Company, L.L.C. and Stifel, Nicolaus & Company, Incorporated, have severally agreed to purchase from the selling stockholders the following respective number of shares of common stock at a public offering price less the underwriting discounts and commissions set forth on the cover page of this prospectus:

Underwriters	Number of Shares
Deutsche Bank Securities Inc.	
Merrill Lynch, Pierce, Fenner & Smith Incorporated	
William Blair & Company, L.L.C.	
Stifel, Nicolaus & Company, Incorporated	
JMP Securities LLC	
Raymond James & Associates, Inc.	
Needham & Company, LLC	
First Analysis Securities Corporation	
Total	3,740,000

The underwriting agreement provides that the obligations of the several underwriters to purchase the shares of common stock offered hereby are subject to certain conditions precedent and that the underwriters will purchase all of the shares of common stock offered by this prospectus, other than those covered by the option to purchase additional shares described below, if any of these shares are purchased. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may also be increased or this offering may be terminated.

The selling stockholders have agreed to indemnify the underwriters against specified types of liabilities, including liabilities under the Securities Act, and to contribute to payments the underwriters may be required to make in respect of any of these liabilities.

The underwriters are offering the shares, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commission and Discounts

We have been advised by the representatives of the underwriters that the underwriters propose to offer the shares of common stock to the public at the public offering price set forth on the cover of this prospectus and to dealers at a price that represents a concession not in excess of \$ _____ per share under the public offering price. After the initial offering, representatives of the underwriters may change the offering price and other selling terms. This offering of the shares of common stock by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

The underwriting discounts and commissions per share are equal to the public offering price per share of common stock less the amount paid by the underwriters to the selling stockholders per share of common stock. The underwriting discounts and commissions are _____ % of the public

offering price. The selling stockholders have agreed to pay the underwriters the following discounts and commissions, assuming either no exercise or full exercise by the underwriters of the underwriters' option to purchase additional shares:

	Per share	Total Fees	
		Without Exercise of Option to Purchase Additional Shares	With Full Exercise of Option to Purchase Additional Shares
Discounts and commissions paid by the selling stockholders	\$	\$	\$

The expenses of this offering, not including the underwriting discounts and commissions, are estimated at approximately \$ _____, including an amount not to exceed \$15,000 in connection with the qualification of the offering with FINRA by counsel to the underwriters.

The representatives of the underwriters have advised us that the underwriters do not intend to confirm sales to any accounts over which they exercise discretionary authority.

Option to Purchase Additional Shares

The selling stockholders have granted to the underwriters an option, exercisable not later than 30 days after the date of this prospectus, to purchase up to 561,000 additional shares of common stock at the public offering price less the underwriting discounts and commissions set forth on the cover page of this prospectus. To the extent that the underwriters exercise this option, each of the underwriters will become obligated, subject to conditions, to purchase approximately the same percentage of these additional shares of common stock as the number of shares of common stock to be purchased by it in the above table bears to the total number of shares of common stock offered by this prospectus. The selling stockholders will be obligated, pursuant to the option, to sell these additional shares of common stock to the underwriters to the extent the option is exercised. If any additional shares of common stock are purchased, the underwriters will offer the additional shares on the same terms as those on which the initial shares referred to in the above table shares are being offered.

No Sales of Similar Securities

We, all of our executive officers, directors and selling stockholders have agreed that for a period of 60 days from the date of this prospectus, we and they will not, without the prior written consent of the representatives of the underwriters, dispose of or hedge any shares or any securities convertible into or exchangeable for our common stock, subject to certain exceptions. Deutsche Bank Securities Inc. and Merrill Lynch, Pierce, Fenner & Smith Incorporated in their sole discretion may release any of the securities subject to these lock-up agreements at any time, which, in the case of officers and directors, shall be with notice. If the restrictions under the lock-up agreements are waived, shares of our common stock may become available for resale into the market, subject to applicable law, which could reduce the market price for our common stock. There are no other agreements between the representatives and any of our stockholders or affiliates releasing them from these lock-up agreements prior to the expiration of the 60-day period.

Price Stabilization, Short Positions and Penalty Bids

In connection with this offering, the underwriters may purchase and sell shares of our common stock in the open market. These transactions may include short sales, purchases to cover positions created by short sales and stabilizing transactions.

Table of Contents

Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in this offering. "Covered" short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares of common stock from us in this offering. The underwriters may close out any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares of common stock pursuant to such option.

Naked short sales are any sales in excess of the underwriters' option to purchase additional shares. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if underwriters are concerned that there may be downward pressure on the price of the shares in the open market prior to the completion of this offering.

Stabilizing transactions consist of various bids for or purchases of our common stock made by the underwriters in the open market prior to the completion of this offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the other underwriters a portion of the underwriting discount received by it because the representatives of the underwriters have repurchased shares sold by or for the account of that underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions may have the effect of preventing or slowing a decline in the market price of our common stock. Additionally, these purchases, along with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the NASDAQ Global Select Market, in the over-the-counter market or otherwise.

Listing

Our common stock is listed on the NASDAQ Global Select Market, under the symbol "PCTY."

Electronic Offer, Sale and Distribution of Shares

In connection with this offering, certain of the underwriters or securities dealers may distribute prospectuses by electronic means, such as e-mail. In addition, Deutsche Bank Securities Inc. may facilitate Internet distribution for this offering to certain of its Internet subscription customers. Deutsche Bank Securities Inc. may allocate a limited number of shares for sale to its online brokerage customers. A prospectus in electronic format is being made available on Internet websites maintained by one or more of the lead underwriters of this offering and may be made available on websites maintained by other underwriters. Other than the prospectus in electronic format, the information on any underwriter's web site and any information contained in any other web site maintained by an underwriter is not part of the prospectus or the registration statement of which the prospectus forms a part.

Other Relationships

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

Table of Contents

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Notice to Investors in Canada

The securities may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the securities must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus/offering memorandum (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 (or, in the case of securities issued or guaranteed by the government of a non-Canadian jurisdiction, section 3A.4) of National Instrument 33-105 Underwriting Conflicts (NI 33-105), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

Notice to Investors in the European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State) an offer to the public of any shares which are the subject of the offering contemplated by this prospectus may not be made in that Relevant Member State other than the offers contemplated in the prospectus once the prospectus has been approved by the competent authority in such Member State and published and passported in accordance with the Prospectus Directive as implemented in the Relevant Member State except that an offer to the public in that Relevant Member State of any shares may be made at any time under the following exemptions under the Prospectus Directive, if they have been implemented in that Relevant Member State:

To legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;

To any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €43,000,000, and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts;

By the underwriters to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the underwriters for any such offer; or

In any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of shares shall result in a requirement for the publication by the Issuer or any underwriter of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an "offer to the public" in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any shares to be offered so as to enable an investor to decide to purchase any shares, as the same may be varied in that member state by any measure implementing the Prospectus Directive in that member state and the expression "Prospectus Directive" means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

that it is lawful to offer the shares without disclosure to investors under Chapter 6D of the Corporations Act.

The shares applied for by Exempt Investors in Australia must not be offered for sale in Australia in the period of 12 months after the date of allotment under the offering, except in circumstances where disclosure to investors under Chapter 6D of the Corporations Act would not be required pursuant to an exemption under section 708 of the Corporations Act or otherwise or where the offer is pursuant to a disclosure document which complies with Chapter 6D of the Corporations Act. Any person acquiring shares must observe such Australian on-sale restrictions.

This prospectus contains general information only and does not take account of the investment objectives, financial situation or particular needs of any particular person. It does not contain any securities recommendations or financial product advice. Before making an investment decision, investors need to consider whether the information in this prospectus is appropriate to their needs, objectives and circumstances, and, if necessary, seek expert advice on those matters.

Notice to Prospective Investors in Japan

The securities have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948, as amended) and, accordingly, will not be offered or sold, directly or indirectly, in Japan, or for the benefit of any Japanese Person or to others for re-offering or resale, directly or indirectly, in Japan or to any Japanese Person, except in compliance with all applicable laws, regulations and ministerial guidelines promulgated by relevant Japanese governmental or regulatory authorities in effect at the relevant time. For the purposes of this paragraph, "Japanese Person" shall mean any person resident in Japan, including any corporation or other entity organized under the laws of Japan.

Item 15. Indemnification of Directors and Officers.

Section 145 of the Delaware General Corporation Law authorizes a court to award, or a corporation's board of directors to grant, indemnity to directors and officers in terms sufficiently broad to permit such indemnification under certain circumstances for liabilities (including reimbursement for expenses incurred) arising under the Securities Act.

As permitted by the Delaware General Corporation Law, our restated certificate of incorporation includes a provision that eliminates the personal liability of our directors for monetary damages for breach of fiduciary duty as a director, except for liability:

For any breach of the director's duty of loyalty;

For acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law;

Under section 174 of the Delaware General Corporation law regarding unlawful dividends and stock purchases; or

For any transaction for which the director derived an improper personal benefit.

As permitted by the Delaware General Corporation Law, our bylaws provide that:

We are required to indemnify our directors and officers to the fullest extent permitted by the Delaware General Corporation Law, subject to very limited exceptions;

We may indemnify our other employees and agents to the fullest extent permitted by the Delaware General Corporation Law, subject to very limited exceptions;

We are required to advance expenses, as incurred, to our directors and officers in connection with a legal proceeding to the fullest extent permitted by the Delaware General Corporation Law, subject to very limited exceptions;

Edgar Filing: Paylocity Holding Corp - Form S-3/A

We may advance expenses, as incurred, to our employees and agents in connection with a legal proceeding; and

The rights conferred in the bylaws are not exclusive.

II-1

Edgar Filing: Paylocity Holding Corp - Form S-3/A

Table of Contents

We have entered into indemnity agreements with each of our current directors and officers to give these directors and officers additional contractual assurances regarding the scope of the indemnification set forth in our restated certificate of incorporation and to provide additional procedural protections. At present, there is no pending litigation or proceeding involving our directors, officers or employees regarding which indemnification is sought, nor are we aware of any threatened litigation that may result in claims for indemnification.

The indemnification provisions in our restated certificate of incorporation and amended and restated bylaws and the indemnity agreements entered into between us and each of our directors and officers may be sufficiently broad to permit indemnification of the our directors and officers for liabilities arising under the Securities Act.

We maintain directors' and officers' liability insurance that includes coverage for securities matters.

Reference is also made to the underwriting agreement, which provides for the indemnification of our officers, directors and controlling persons against certain liabilities.

Item 17. Undertakings.

The undersigned registrant hereby undertakes the following:

That, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

That, insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

That:

- (1) for purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b) (1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective; and
- (2) for the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.
