## **Section 4 Matters Related to Accountants and Financial Statements**

### **Item 4.01 Changes in Registrant's Certifying Accountant.**

Further to the 8K of the Issuer filed February 29, 2008, on February 28, 2008 the Board of Directors elected to dismiss the then existing auditor from continuing the existing auditor's role for the Issuer. This was due to the fact that a new Board of Directors was taking over the operations of the Issuer. During the transition, Board of Directors reviewed the October 2007 10Q filed on behalf of the Issuer and was concerned that there was insufficient evidence of a forgiveness of debt which that previous auditor concluded no longer existed which if substantiated would be contrary to generally accepted accounting principles.

Based on this information, the Board of Directors determined that it was appropriate to re-engage a former auditor to the Issuer as that auditor would be able to more quickly assess the underlying facts contained within the financial statements of the Issuer.

As required, the Issuer provided to the former auditor the draft of the 8k which was filed on February 28, 2008 seeking input from that auditor and assistance in communicating with the new management and new auditor and responses thereto. Attached to this 8k filing as Exhibit 16.1 is the response of that former auditor which is the only communication from that former auditor which is in possession of the current Board of Directors. There have been no further letters or comment from that former auditor of which new management is aware.

### **Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.**

Upon re-engagement of the new auditor, management proceeded to, as noted in the 8K filed February 28, 2008 work through in detail its concerns regarding the thereto prior filed financial statements. On or about April 8, 2008, the Board of Directors confirmed its suspicions with the auditor to conclude, that the financial statements although still under the certification of the former independent accountant needed to be modified to properly reflect the state of the obligations of the Issuer in relation to:

#### **Matters to do with Forgiveness of Debt**

Previously the Issuer reported through its financial statements a forgiveness of Debt however based on an investigation of the Board of Directors and the auditor it was concluded that there is not sufficient evidence for the forgiveness of debt and hence that debt remains an obligation of the Company

This filing is done with financial statements under certification as the fact of forgiveness of debt is material and the existing Board of Directors who wants to properly present the financial statements to its to attorneys, auditors, investors and the Securities and Exchange Commission by the certification required by Rule 13a-14(b) or Rule 15d-14(b) and section 906 of the Sarbanes-Oxley Act of 2002, 18 U.S.C. Section 1350.

As the Board of Directors has discussed these matters with its independent accountant and thereafter having received a certification from its current independent accountant is now filing herewith revised consolidated financial statements along with an explanation therefore. The Board of Directors makes this filing as it has now determined that this filing more accurately states the financial position of the Issuer. Further, as the Board of Directors is not in possession of any removal of prior certifications of financial statements, the Issuer will not be attending to refilling any prior certified statements.
