Item 2.02 Results of Operations and Financial Condition.

On July 26, 2018, Republic Services, Inc. (the Company) issued a press release containing information about the Company's financial results for the three and six months ended June 30, 2018. A copy of this press release is furnished as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

The results presented in this press release for the three and six months ended June 30, 2017 reflect our historical presentation prior to the adoption of the new revenue recognition standard. A pro forma presentation of our financial results for the three and six months ended June 30, 2017 had we adopted the revenue recognition standard as of January 1, 2017 is furnished as Exhibit 99.2 to this Current Report on Form 8-K and is incorporated herein by reference.

Full-Year 2018 EPS Guidance

Our guidance is based on current economic conditions and does not assume any significant changes in the overall economy in 2018.

The Company reaffirmed its full-year diluted earnings per share guidance and expects it to be in a range of \$2.99 to \$3.04 and adjusted diluted earnings per share to be in a range of \$3.05 to \$3.10. Adjusted diluted earnings per share excludes the impact of restructuring charges and incremental contract startup costs - large municipal contract.

We believe that presenting adjusted diluted earnings per share provides an understanding of operational activities before the financial impact of certain items. We use this measure, and believe investors will find it helpful, in understanding the ongoing performance of our operations separate from items that have a disproportionate impact on our results for a particular period. We have incurred comparable charges in prior periods, and similar types of adjustments can reasonably be expected to be recorded in future periods. Although our business regularly incurs startup costs under municipal contracts, we specifically identify startup costs with respect to an individual municipal contract (and do not adjust for other startup costs under other contracts in 2018). We do this because of the magnitude of the costs involved with this particular municipal contract and the unusual nature for the time period in which they are incurred. Our definition of adjusted diluted earnings per share may not be comparable to similarly titled measures presented by other companies.

Cash provided by operating activities for 2018 is expected to be in a range of \$2,145 million and \$2,170 million.

Adjusted free cash flow for 2018 is expected to be in a range of \$1,090 million to \$1,115 million. Adjusted free cash flow consists of cash provided by operating activities, less property and equipment received of \$1,085 million, plus proceeds from the sale of property and equipment of \$15 million and is exclusive of cash paid for restructuring activities of \$15 million, net of tax.

We believe that presenting adjusted free cash flow provides useful information regarding our recurring cash provided by operating activities after certain expenditures. It also demonstrates our ability to execute our financial strategy and is a key metric we use to determine compensation. The presentation of adjusted free cash flow has material limitations. Adjusted free cash flow does not represent our cash flow available for discretionary expenditures because it excludes certain expenditures that are required or to which we have committed, such as debt service requirements and dividend payments. Our definition of adjusted free cash flow may not be comparable to similarly titled measures presented by other companies.

Item 8.01 Other Events.

On July 26, 2018, the Company issued a press release announcing that its board of directors approved a 3-cent increase in the

Company's regular quarterly dividend to \$0.375 per share. A copy of this press release is filed as Exhibit 99.3 to this Current Report on Form 8-K and is incorporated herein by reference.

Item 9.01 Financial Statements and Exhibits.
