Currency of presentation and certain defined terms

In this Annual Report on Form 20-F, references to "U.S." or "United States" are to the United States of America, its territories and its possessions. References to "India" are to the Republic of India. References to "\$" or "dollars" or "U.S. dollars" are to the legal currency of the United States and references to "₹" or "Rupees" or "Indian rupees" are to the legal currency of India. Our financial statements are presented in U.S. dollars and are prepared in accordance with the International Financial Reporting Standards as issued by the International Account Standards Board, or IFRS. References to "Indian GAAP" are to Indian Generally Accepted Accounting Principles. References to a particular "fiscal" year are to our fiscal year ended March 31 of such year.

All references to "we," "us," "our," "Infosys" or the "Company" shall mean Infosys Limited, and, unless specifically indicated otherwise or the context indicates otherwise, our consolidated subsidiaries. "Infosys" is a registered trademark of Infosys Limited in the United States and India. All other trademarks or tradenames used in this Annual Report on Form 20-F are the property of their respective owners.

Except as otherwise stated in this Annual Report on Form 20-F, all translations from Indian rupees to U.S. dollars effected on or after April 1, 2009 are based on the fixing rate in the City of Mumbai on March 31, 2012 for cable transfers in Indian rupees as published by the Foreign Exchange Dealers' Association of India, or FEDAI, which was 50.88 per \$1.00. No representation is made that the Indian rupee amounts have been, could have been or could be converted into U.S. dollars at such a rate or any other rate. Any discrepancies in any table between totals and sums of the amounts listed are due to rounding.

Special Note Regarding Forward Looking Statements

This Annual Report on Form 20-F contains 'forward-looking statements', as defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that are based on our current expectations, assumptions, estimates and projections about our Company, our industry, economic conditions in the markets in which we operate, and certain other matters. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as 'anticipate', 'believe', 'estimate', 'expect', 'intend', 'will', 'project', 'seek', 'should' and similar expressions. Those statements include, among other things, the discussions of our business strategy and expectations concerning our market position, future operations, margins, profitability, liquidity and capital resources. These statements are subject to known and unknown risks, uncertainties and other factors, which may cause actual results or outcomes to differ materially from those implied by the forward-looking statements. Important factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements include, but are not limited to, those discussed in the "Risk Factors" section in this Annual Report on Form 20-F. In light of these and other uncertainties, you should not conclude that the results or outcomes referred to in any of the forward-looking statements will be achieved. All forward-looking statements included in this Annual Report on Form 20-F are based on information available to us on the date hereof, and we do not undertake to update these forward-looking statements to reflect future events or circumstances.

This Annual Report on Form 20-F includes statistical data about the IT industry that comes from information published by sources including Forrester Research, Inc., providers of market information and strategic information for

Edgar Filing: Infosys Ltd - Form 20-F

the IT industry and the National Association of Software and Service Companies, or NASSCOM, an industry trade group. This type of data represents only the estimates of Forrester, NASSCOM, and other sources of industry data. In addition, although we believe that data from these companies is generally reliable, this type of data is inherently imprecise. We caution you not to place undue reliance on this data.

SELECTED FINANCIAL DATA

Summary of Consolidated Financial Data

You should read the summary consolidated financial data below in conjunction with the Company's consolidated financial statements and the related notes, as well as the section entitled "Operating and Financial Review and Prospects," all of which are included elsewhere in this Annual Report on Form 20-F. The summary consolidated statements of comprehensive income for the five years ended March 31, 2012 and the summary consolidated balance sheet data as of March 31, 2012, 2011, 2010, 2009 and 2008 have been derived from our audited consolidated financial statements and related notes which were prepared and presented in accordance with International Financial Reporting Standards as issued by International Accounting Standards Board (IFRS). Historical results are not necessarily indicative of future results.

Exchange rates

Our functional currency is the Indian rupee. We generate a major portion of our revenues in foreign currencies, particularly the U.S. dollar, the United Kingdom Pound Sterling, Euro and the Australian dollar, whereas we incur a majority of our expenses in Indian rupees. The exchange rate between the rupee and the U.S. dollar has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of our operations are adversely affected as the rupee appreciates against the U.S. dollar. For fiscal 2012, 2011, 2010, 2009 and 2008, U.S. dollar denominated revenues represented 71.7%, 72.8%, 73.3%, 71.1% and 69.5% of total revenues. For the same periods, revenues denominated in United Kingdom Pound Sterling represented 6.8%, 7.2%, 9.2%, 12.7% and 14.9% of total revenues, revenues denominated in the Euro represented 7.7%, 6.9%, 6.9%, 7.1% and 5.7% of total revenues while revenues denominated in the Australian dollar represented 7.6%, 6.5%, 5.8%, 4.6% and 4.8% of total revenues. As such, our exchange rate risk primarily arises from our foreign currency revenues, receivables and payables.

Fluctuations in the exchange rate between the Indian rupee and the U.S. dollar will also affect the U.S. dollar equivalent of the Indian rupee price of our equity shares on the Indian stock exchanges and, as a result, will likely affect the market price of our ADSs, and vice versa. Such fluctuations also impact the U.S. dollar conversion by the Depository of any cash dividends paid in Indian rupees on our equity shares represented by the ADSs.

The following table sets forth, for the fiscal years indicated, information concerning the number of Indian rupees for which one U.S. dollar could be exchanged based on the fixing rate in the City of Mumbai on business days during the period for cable transfers in Indian rupees as published by the Foreign Exchange Dealers' Association of India, or FEDAI. The column titled "Average" in the table below is the average of the last business day of each month during the year.

| Fiscal | Period End | Average | High | Low |
|--------|------------|---------|-------|-------|
| 2012 | 50.88 | 48.10 | 54.28 | 44.00 |
| 2011 | 44.60 | 45.54 | 47.36 | 44.07 |
| 2010 | 44.90 | 47.43 | 50.57 | 44.87 |
| 2009 | 50.72 | 46.54 | 52.00 | 39.88 |
| 2008 | 40.02 | 40.00 | 43.05 | 38.48 |

The following table sets forth the high and low exchange rates for the previous six months and is based on the fixing rate in the City of Mumbai on business days during the period for cable transfers in Indian rupees as published by the FEDAI.

| Month | High | Low |
|------------|-------|-------|
| April 2012 | 52.71 | 50.53 |

| | | |
|---------------|-------|-------|
| March 2012 | 51.27 | 49.15 |
| February 2012 | 49.67 | 48.67 |
| January 2012 | 53.17 | 49.38 |
| December 2011 | 54.28 | 51.31 |
| November 2011 | 52.68 | 48.86 |

On May 3, 2012, the fixing rate in the City of Mumbai for cash transfers in Indian rupees as published by FEDAI was 53.24.

The exchange rates for month-end and period-end reporting purposes have been based on the FEDAI rates. We believe that exchange rates published by FEDAI are more representative of market exchange rates than exchange rates published by individual banks. However, FEDAI does not publish exchange rates on a daily basis, and in the absence of availability of daily exchange rates from FEDAI, we utilize exchange rates from Deutsche Bank, Mumbai, for daily transactions in the ordinary course of business.

Risk Factors

This Annual Report on Form 20-F contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth in the following risk factors and elsewhere in this Annual Report on Form 20-F.

Risks Related to Our Company and Our Industry

Our revenues and expenses are difficult to predict and can vary significantly from period to period, which could cause our share price to decline.

Our revenues and profitability have grown rapidly in certain years and are likely to vary significantly in the future from period to period. Therefore, we believe that period-to-period comparisons of our results of operations are not necessarily meaningful and should not be relied upon as an indication of our future performance. It is possible that in the future our results of operations may be below the expectations of market analysts and our investors, which could cause the share price of our equity shares and our ADSs to decline significantly.

Factors which affect the fluctuation of our operating results include:

- the size, timing and profitability of significant projects, including large outsourcing deals;
- changes in our pricing policies or the pricing policies of our competitors;
- economic fluctuations that affect the strength of the economy of the United States, Europe or any of the other markets in which we operate;
- foreign currency fluctuations and our hedging activities that are intended to address such fluctuations;
- the effect of wage pressures, seasonal hiring patterns, attrition, and the time required to train and productively utilize new employees, particularly information technology, or IT professionals;
- the proportion of services that we perform at our development centers or at our client sites;
- utilization of billable employees;
- the size and timing of facilities expansion and resulting depreciation and amortization costs;
- varying expenditures and lead times in connection with responding to, and submission of, proposals for large client engagements including on account of changing due diligence requirements
- unanticipated cancellations, contract terminations, deferrals of projects or delays in purchases, including those resulting from our clients reorganizing their operations, mergers or acquisitions involving our clients and changes in management;
- the inability of our clients and potential clients to forecast their business and IT needs, and the resulting impact on our business;

- unanticipated cancellations, contract terminations, deferrals of projects or delays in purchases resulting from our clients' efforts to comply with regulatory requirements;
- the proportion of our customer contracts that are on a fixed-price, fixed-timeframe basis, compared with time and material contracts; and
- unanticipated variations in the duration, size and scope of our projects, as well as in the corporate decision-making process of our client base.

A significant part of our total operating expenses, particularly expenses related to personnel and facilities, are fixed in advance of any particular period. As a result, unanticipated variations in the number and timing of our projects or employee utilization rates, or the accuracy of our estimates of the resources required to complete ongoing projects, may cause significant variations in our operating results in any particular period.

There are also a number of factors, other than our performance, that are not within our control that could cause fluctuations in our operating results from period to period. These include:

- the duration of tax holidays or tax exemptions and the availability of other incentives from the Government of India;
- changes in regulations and taxation in India or the other countries in which we conduct business;
- currency fluctuations, particularly if the rupee appreciates in value against the U.S. dollar, the United Kingdom Pound Sterling, the Euro or the Australian dollar, since the majority of our revenues are in these currencies and a significant part of our costs are in Indian rupees; and
- other general economic and political factors, including the economic conditions in the United States, Europe or any other geographies in which we operate.

In addition, the availability of visas for working in the United States may vary substantially from quarter to quarter. Visas for working in the United States may be available during one quarter, but not another, or there may be differences in the number of visas available from one quarter to another. As such, the variable availability of visas may require us to incur significantly higher visa-related expenses in certain quarters when compared to others. For example, we incurred \$7 million in costs for visas in the three months ended March 31, 2012, compared to \$15 million in costs for visas in the three months ended September 30, 2011.

We may not be able to sustain our previous profit margins or levels of profitability.

Our profitability could be affected by pricing pressures on our services, volatility of the exchange rates between the Indian rupee, the U.S. dollar and other currencies in which we generate revenues or incur expenses, increased wage pressures in India and at other locations where we maintain operations, and increases in taxes or the expiration of tax benefits.

Since fiscal 2003, we have incurred substantially higher selling and marketing expenses as we have invested to increase brand awareness among target clients and promote client loyalty and repeat business among existing clients. We may incur increased selling and marketing expenses in the future, which could result in declining profitability. In addition, while our Global Delivery Model allows us to manage costs efficiently, if the proportion of our services delivered at client sites increases we may not be able to keep our operating costs as low in the future, which would also have an adverse impact on our profit margins. Further, in recent years, our profit margin has been adversely impacted by the expiration of certain tax holidays and benefits in India, and we expect that our profit margin may be further adversely affected as additional tax holidays and benefits expire in the future.

During fiscal 2012, fiscal 2011 and fiscal 2010, there was volatility in the exchange rate of the Indian rupee against the U.S. dollar. The exchange rate for one dollar as published by FEDAI was 50.88 as of March 31, 2012 as against 44.60 as of March 31, 2011 and 44.90 as of March 31, 2010. Exchange rate fluctuations and our hedging activities have in the past adversely impacted, and may in the future adversely impact, our operating results.

Increased selling and marketing expenses, and other operating expenses in the future, as well as fluctuations in foreign currency exchange rates including, in particular, the appreciation of the rupee against foreign currencies or the appreciation of the U.S. dollar against other foreign currencies, could materially and adversely affect our profit margins and results of operations in future periods.

The economic environment, pricing pressure and decreased employee utilization rates could negatively impact our revenues and operating results.

Spending on technology products and services is subject to fluctuations depending on many factors, including the economic environment in the markets in which our clients operate. For example, there was a decline in the growth rate of global IT purchases in the latter half of 2008 due to the global economic slowdown. This downward trend continued into 2009, with global IT purchases declining due to the challenging global economic environment. We believe that the economic environment in the markets in which many of our clients operate remains unstable, and that the economic conditions in many countries remain challenging and may continue to be challenging in the near future. For instance, in many European countries, large government deficits together with a downgrading of government debt and credit ratings, have escalated concerns about continuing weakness in the economies of such countries.

Reduced IT spending in response to the challenging economic environment has also led to increased pricing pressure from our clients, which has adversely impacted our revenue productivity, which we define as our revenue divided by billed person months. For instance, during the year ended March 31, 2011, our offshore revenue productivity, other than for business process management, decreased by 3.1% when compared to the year ended March 31, 2010.

Further, many of our clients have also been seeking extensions in credit terms from the standard terms that we provide, including pursuing credit from us for periods of up to 60 days or more. Such extended credit terms may result in reduced revenues in a given period as well as the delay of the realization of revenues, and may adversely affect our cash flows. Additionally, extended credit terms also increase our exposure to customer-specific credit risks. Reductions in IT spending, reductions in revenue productivity, increased credit risk and extended credit terms arising from or related to the global economic slowdown have in the past adversely impacted, and may in the future adversely impact, our revenues, gross profits, operating margins and results of operations.

Moreover, in the past, reduced or delayed IT spending has also adversely impacted our utilization rates for technology professionals. For instance, in fiscal 2012, our utilization rate for technology professionals, including trainees, was approximately 69.0%, as compared to 72.1% during fiscal 2011. This decrease in employee utilization rates adversely affected our profitability for fiscal 2012, and any decrease in employee utilization rates in the future, whether on account of reduced or delayed IT spending, may adversely impact our results of operations.

In addition to the business challenges and margin pressure resulting from the global economic slowdown and the response of our clients to such slowdown, there is also a growing trend among consumers of IT services towards consolidation of technology service providers in order to improve efficiency and reduce costs. Our success in the competitive bidding process for new consolidation projects or in retaining existing projects is dependent on our ability to fulfill client expectations relating to staffing, efficient offshoring of services, absorption of transition costs, deferment of billing and more stringent service levels. If we fail to meet a client's expectations in such consolidation projects, this would likely adversely impact our business, revenues and operating margins. In addition, even if we are successful in winning the mandates for such consolidation projects, we may experience significant pressure on our operating margins as a result of the competitive bidding process.

Moreover, our ability to maintain or increase pricing is restricted as clients often expect that as we do more business with them, they will receive volume discounts or special pricing incentives. In addition, existing and new customers are also increasingly using third-party consultants with broad market knowledge to assist them in negotiating contractual terms. Any inability to maintain or increase pricing on this account may also adversely impact our revenues, gross profits, operating margins and results of operations.

Our revenues are highly dependent on clients primarily located in the United States and Europe, as well as on clients concentrated in certain industries, and an economic slowdown or other factors that affect the economic health of the United States, Europe or those industries, or any other impact on the growth of such industries, may affect our business.

In fiscal 2012, fiscal 2011 and fiscal 2010, approximately 63.9%, 65.3% and 65.8% of our revenues were derived from projects in North America. In the same periods, approximately 21.9%, 21.5% and 23.0% of our revenues were derived from projects in Europe. The recent instability in the global economy, driven by slower growth in developed markets coupled with the European debt crisis, has had an impact on the growth of the IT industry and may continue to impact it in the future. This instability also impacts our business and results of operations, and may continue to do so in the future. The global economy, driven by slower growth in developed markets coupled with the European debt crisis, could have an impact on the growth of the IT industry. If the United States or European economy remains weak or unstable or weakens further, our clients may reduce or postpone their technology spending significantly, which may in turn lower the demand for our services and negatively affect our revenues and profitability.

In fiscal 2012, fiscal 2011 and fiscal 2010, we derived approximately 35.1%, 35.9% and 34.0% of our revenues from the financial services and insurance industry. The crisis in the financial and credit markets in the United States led to significant changes in the financial services industry, with the United States federal government being forced to take over or provide financial support to many leading financial institutions and with some leading investment banks going bankrupt or being forced to sell themselves in distressed circumstances. Global economic uncertainty may result in the reduction, postponement or consolidation of IT spending by our clients, contract terminations, deferrals of projects or delays in purchases, especially in the financial services sector. Any reduction, postponement or consolidation in IT spending may lower the demand for our services or impact the prices that we can obtain for our services and consequently, adversely affect our revenues and profitability.

Any lingering instability or weakness in the United States economy could have a material adverse impact on our revenues, particularly from businesses in the financial services industry and other industries that are particularly vulnerable to a slowdown in consumer spending. In fiscal 2012, fiscal 2011 and fiscal 2010, we derived approximately 35.1%, 35.9% and 34.0% of our revenues from clients in the financial services and insurance industry, approximately 21.4%, 24.0% and 25.6% of our revenues from clients in the energy, utilities and telecommunications services industry and approximately 22.9%, 20.5% and 20.6% of our revenues from clients in the retail, logistics, consumer product group, life sciences and health care industry, which industries are especially vulnerable to a slowdown in the U.S. economy. Any weakness in the United States economy or in the industry segments from which we generate revenues could have a negative effect on our business and results of operations.

Some of the industries in which our clients are concentrated, such as the financial services industry or the energy and utilities industry, are, or may be, increasingly subject to governmental regulation and intervention. For instance, clients in the financial services sector have been subject to increased regulation following the enactment of the Dodd-Frank Wall Street Reform and Consumer Protection Act in the United States. Increased regulation, changes in existing regulation or increased governmental intervention in the industries in which our clients operate may adversely affect the growth of their respective businesses and therefore negatively impact our revenues.

Currency fluctuations may affect the results of our operations or the value of our ADSs.

Our functional currency is the Indian rupee although we transact a major portion of our business in several currencies and accordingly face foreign currency exposure through our sales in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. Generally, we generate the majority of our revenues in foreign currencies, such as the U.S. dollar or the United Kingdom Pound Sterling, and incur the majority of our expenses in Indian rupees. Recently, as a result of the increased volatility in foreign exchange currency markets, there has been increased demand from our clients that all risks associated with foreign exchange fluctuations be borne by us. Also,

historically, we have held a substantial majority of our cash funds in Indian rupees. Accordingly, changes in exchange rates may have a material adverse effect on our revenues, other income, cost of services sold, gross margin and net income, and may have a negative impact on our business, operating results and financial condition. The exchange rate between the Indian rupee and foreign currencies, including the U.S. dollar, the United Kingdom Pound Sterling, the Euro and the Australian dollar, has changed substantially in recent years and may fluctuate substantially in the future, and this fluctuation in currencies had a material and adverse effect on our operating results in fiscal 2011 and fiscal 2010. We expect that a majority of our revenues will continue to be generated in foreign currencies, including the U.S. dollar, the United Kingdom Pound Sterling, the Euro and the Australian dollar, for the foreseeable future and that a significant portion of our expenses, including personnel costs, as well as capital and operating expenditures, will continue to be denominated in Indian rupees. Consequently, the results of our operations are adversely affected as the Indian rupee appreciates against the U.S. dollar and other foreign currencies.

We use derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in foreign exchange rates on accounts receivable and forecast cash flows denominated in certain foreign currencies. As of March 31, 2012, we had outstanding forward contracts of U.S.\$729 million, Euro 51 million, United Kingdom Pound Sterling 35 million and Australian dollar 24 million and options of U.S.\$50 million. We may not purchase derivative instruments adequate to insulate ourselves from foreign currency exchange risks. For instance, during fiscal 2009, we incurred significant losses as a result of exchange rate fluctuations that were not offset in full by our hedging strategy.

Additionally, our hedging activities have also contributed to increased losses in recent periods due to volatility in foreign currency markets. For example, in fiscal 2009, we incurred losses of \$165 million in our forward and option contracts. These losses, partially offset by gains of \$71 million as a result of foreign exchange translations during the same period, resulted in a total loss of \$94 million related to foreign currency transactions, which had a significant and adverse effect on our profit margin and results of operations. If foreign currency markets continue to be volatile, such fluctuations in foreign currency exchange rates could materially and adversely affect our profit margins and results of operations in future periods. Also, the volatility in the foreign currency markets may make it difficult to hedge our foreign currency exposures effectively.

Further, the policies of the Reserve Bank of India may change from time to time which may limit our ability to hedge our foreign currency exposures adequately. In addition, a high-level committee appointed by the Reserve Bank of India recommended that India move to increased capital account convertibility over the next few years and proposed a framework for such increased convertibility. Full or increased capital account convertibility, if introduced, could result in increased volatility in the fluctuations of exchange rates between the rupee and foreign currencies.

During fiscal 2012, we derived 28.3% of our revenues in currencies other than the U.S. dollar, including 6.8%, 7.7% and 7.6% of our revenues in United Kingdom Pound Sterling, Euro and Australian dollars, respectively. During fiscal 2012, the U.S. dollar depreciated against a majority of the currencies in which we transact business, depreciating by 3.2%, 4.5% and 11.7% against the United Kingdom Pound Sterling, Euro and Australian dollar, respectively.

Fluctuations in the exchange rate between the Indian rupee and the U.S. dollar will also affect the dollar conversion by Deutsche Bank Trust Company Americas, the Depositary with respect to our ADSs, of any cash dividends paid in Indian rupees on the equity shares represented by the ADSs. In addition, these fluctuations will affect the U.S. dollar equivalent of the Indian rupee price of equity shares on the Indian stock exchanges and, as a result, the prices of our ADSs in the United States, as well as the U.S. dollar value of the proceeds a holder would receive upon the sale in India of any equity shares withdrawn from the Depositary under the Depositary Agreement. Holders may not be able to convert Indian rupee proceeds into U.S. dollars or any other currency, and there is no guarantee of the rate at which any such conversion will occur, if at all.

Our success depends largely upon our highly skilled technology professionals and our ability to hire, attract, motivate, retain and train these personnel.

Our ability to execute projects, maintain our client relationships and obtain new clients depends largely on our ability to attract, train, motivate and retain highly skilled technology professionals, particularly project managers and other mid-level professionals. If we cannot hire, motivate and retain personnel or pay market competitive salaries to our professionals, our ability to bid for projects, obtain new projects and expand our business will be impaired and our revenues could decline.

We believe that there is significant worldwide competition for skilled technology professionals. Additionally, technology companies, particularly in India, have recently increased their hiring efforts. Increasing worldwide competition for skilled technology professionals and increased hiring by technology companies may affect our ability to hire an adequate number of skilled and experienced technology professionals and may have an adverse effect on our business, results of operations and financial condition.

Increasing competition for technology professionals in India may also impact our ability to retain personnel. For example, our attrition rate for the twelve months ended March 31, 2012 was 14.7%, compared to our attrition rate for the twelve months ended March 31, 2011, which was 17.0%, without accounting for attrition in Infosys BPO or our other subsidiaries.

We may not be able to hire enough skilled and experienced technology professionals to replace employees who we are not able to retain. If we are unable to motivate and retain technology professionals, this could have an adverse effect on our business, results of operations and financial condition.

Changes in policies or laws may also affect the ability of technology companies to attract and retain personnel. For instance, the central government or state governments in India may introduce legislation requiring employers to give preferential hiring treatment to underrepresented groups. The quality of our work force is critical to our business. If any such central government or state government legislation becomes effective, our ability to hire the most highly qualified technology professionals may be hindered.

In addition, the demands of changes in technology, evolving standards and changing client preferences may require us to redeploy and retrain our technology professionals. If we are unable to redeploy and retrain our technology professionals to keep pace with continuing changes in technology, evolving standards and changing client preferences, this may adversely affect our ability to bid for and obtain new projects and may have a material adverse effect on our business, results of operations and financial condition.

Any inability to manage our growth could disrupt our business and reduce our profitability.

We have grown significantly in recent periods. Between March 31, 2008 and March 31, 2012 our total employees grew from approximately 91,200 to approximately 150,000. We added approximately 19,174, 17,000 and 8,900 new employees, net of attrition, in fiscal 2012, fiscal 2011 and fiscal 2010, respectively. As of March 31, 2012, we had approximately 150,000 employees.

In addition, in the last five years we have undertaken and continue to undertake major expansions of our existing facilities, as well as the construction of new facilities. We expect our growth to place significant demands on our management team and other resources. Our growth will require us to continuously develop and improve our operational, financial and other internal controls, both in India and elsewhere. In addition, continued growth increases the challenges involved in:

- recruiting, training and retaining sufficient skilled technical, marketing and management personnel;
- adhering to and further improving our high quality and process execution standards;
- preserving our culture, values and entrepreneurial environment;
- successfully expanding the range of services offered to our clients;

- developing and improving our internal administrative infrastructure, particularly our financial, operational, communications and other internal systems; and
- maintaining high levels of client satisfaction.

Our growth strategy also relies on the expansion of our operations to other parts of the world, including Europe, Australia, Latin America and other parts of Asia. During fiscal 2004, we established Infosys China and also acquired Infosys Australia to expand our operations in those countries. In addition, we have embarked on an expansion of our business in China, and have expended significant resources in this expansion. During fiscal 2008, we established a wholly owned subsidiary and opened a development center in Mexico. Also, during fiscal 2008, as part of an outsourcing agreement with a client, Philips Electronics Nederland B.V. (Philips), our majority owned subsidiary, Infosys BPO, acquired from Koninklijke Philips Electronics N.V. certain shared services centers in India, Poland and Thailand that were engaged in the provision of finance, accounting and procurement support services to Philips' operations worldwide. During fiscal 2010, Infosys BPO acquired 100% of the voting interest in McCamish Systems LLC (McCamish), a business process solutions provider based in Atlanta, Georgia, in the United States. In fiscal 2010, we established a wholly-owned subsidiary, Infosys Tecnologia do Brasil, Ltda, in Brazil to provide information technology services in Latin America. Further, during fiscal 2010, we formed Infosys Public Services, Inc. to focus on governmental outsourcing and consulting in the United States. In fiscal 2011, we formed Infosys Technologies (Shanghai) Company Limited. In January 2012, Infosys BPO completed the acquisition of Portland Group Pty Ltd., a leading provider of strategic sourcing and category management services based in Australia.

The costs involved in entering and establishing ourselves in new markets, and expanding such operations, may be higher than expected and we may face significant competition in these regions. Our inability to manage our expansion and related growth in these markets or regions may have an adverse effect on our business, results of operations and financial condition.

We may face difficulties in providing end-to-end business solutions for our clients, which could lead to clients discontinuing their work with us, which in turn could harm our business.

Over the past several years, we have been expanding the nature and scope of our engagements by extending the breadth of services that we offer. The success of some of our newer service offerings, such as operations and business process consulting, IT consulting, business process management, systems integration and infrastructure management, depends, in part, upon continued demand for such services by our existing and new clients and our ability to meet this demand in a cost-competitive and effective manner. In addition, our ability to effectively offer a wider breadth of end-to-end business solutions depends on our ability to attract existing or new clients to these service offerings. To obtain engagements for our end-to-end solutions, we are competing with large, well-established international consulting firms as well as other India-based technology services companies, resulting in increased competition and marketing costs. Accordingly, our new service offerings may not effectively meet client needs and we may be unable to attract existing and new clients to these service offerings.

The increased breadth of our service offerings may result in larger and more complex client projects. This will require us to establish closer relationships with our clients and potentially with other technology service providers and vendors, and require a more thorough understanding of our clients' operations. Our ability to establish these relationships will depend on a number of factors including the proficiency of our technology professionals and our management personnel.

Larger projects often involve multiple components, engagements or stages, and a client may choose not to retain us for additional stages or may cancel or delay additional planned engagements. These terminations, cancellations or delays may result from the business or financial condition of our clients or the economy generally, as opposed to factors related to the quality of our services. Cancellations or delays make it difficult to plan for project resource requirements, and resource planning inaccuracies may have a negative impact on our profitability.

Intense competition in the market for technology services could affect our cost advantages, which could reduce our share of business from clients and decrease our revenues.

The technology services market is highly competitive. Our competitors include large consulting firms, captive divisions of large multinational technology firms, infrastructure management services firms, Indian technology services firms, software companies and in-house IT departments of large corporations.

The technology services industry is experiencing rapid changes that are affecting the competitive landscape, including recent divestitures and acquisitions that have resulted in consolidation within the industry. These changes may result in larger competitors with significant resources. In addition, some of our competitors have added or announced plans to add cost-competitive offshore capabilities to their service offerings. These competitors may be able to offer their services using the offshore and onsite model more efficiently than we can. Many of these competitors are also substantially larger than us and have significant experience with international operations. We may face competition in countries where we currently operate, as well as in countries in which we expect to expand our operations. We also expect additional competition from technology services firms with current operations in other countries, such as China and the Philippines. Many of our competitors have significantly greater financial, technical and marketing resources, generate greater revenues, have more extensive existing client relationships and technology partners and have greater brand recognition than we do. We may be unable to compete successfully against these competitors, or may lose clients to these competitors. Additionally, we believe that our ability to compete also depends in part on factors outside our control, such as the price at which our competitors offer comparable services, and the extent of our competitors' responsiveness to their clients' needs.

Our revenues are highly dependent upon a small number of clients, and the loss of any one of our major clients could significantly impact our business.

We have historically earned, and believe that in the future we will continue to earn, a significant portion of our revenues from a limited number of clients. In fiscal 2012, fiscal 2011 and fiscal 2010, our largest client accounted for 4.3%, 4.7% and 4.6% of our total revenues, respectively, and our five largest clients together accounted for 15.5%, 15.4% and 16.4% of our total revenues respectively. The volume of work we perform for specific clients is likely to vary from year to year, particularly since we historically have not been the exclusive external technology services provider for our clients. Thus, a major client in one year may not provide the same level of revenues in a subsequent year. However, in any given year, a limited number of clients tend to contribute a significant portion of our revenues. There are a number of factors, other than our performance, that could cause the loss of a client and that may not be predictable. In certain cases, we have significantly reduced the services provided to a client when the client either changed its outsourcing strategy by moving more work in-house or replaced its existing software with packaged software supported by the licensor. Reduced technology spending in response to a challenging economic or competitive environment may also result in our loss of a client. If we lose one of our major clients or one of our major clients significantly reduces its volume of business with us or there is an increase in the accounts receivables from any of our major clients, our revenues and profitability could be reduced.

Legislation in certain countries in which we operate, including the United States and the United Kingdom, may restrict companies in those countries from outsourcing work to us, or may limit our ability to send our employees to certain client sites.

Recently, some countries and organizations have expressed concerns about a perceived association between offshore outsourcing and the loss of jobs. With the growth of offshore outsourcing receiving increased political and media attention, especially in the United States, which is our largest market, and particularly given the prevailing economic environment, it is possible that there could be a change in the existing laws or the enactment of new legislation restricting offshore outsourcing or imposing restrictions on the deployment of, and regulating the wages of, work visa holders at client locations, which may adversely impact our ability to do business in the jurisdictions in which we operate, especially with governmental entities. For instance, the Governor of the State of Ohio issued an executive

order that prohibits governmental entities of the State of Ohio from expending public funds for services that are provided offshore. It is also possible that private sector companies working with these governmental entities may be restricted from outsourcing projects related to government contracts or may face disincentives if they outsource certain operations.

The recent credit crisis in the United States and elsewhere has also resulted in the United States federal government and governments in Europe acquiring or proposing to acquire equity positions in leading financial institutions and banks. If either the United States federal government or another governmental entity acquires an equity position in any of our clients, any resulting changes in management or reorganizations may result in deferrals or cancellations of projects or delays in purchase decisions, which may have a material adverse effect on our business, results of operations or financial condition. Moreover, equity investments by governmental entities in, or governmental financial aid to, our clients may involve restrictions on the ability of such clients to outsource offshore or otherwise restrict offshore IT vendors from utilizing the services of work visa holders at client locations. Any restriction on our ability to deploy our trained offshore resources at client locations may in turn require us to replace our existing offshore resources with local resources, or hire additional local resources, which local resources may only be available at higher wages. Any resulting increase in our compensation, hiring and training expenses could adversely impact our revenues and operating profitability.

In addition, the European Union (EU) member states have adopted the Acquired Rights Directive, while some European countries outside of the EU have enacted similar legislation. The Acquired Rights Directive and certain local laws in European countries that implement the Acquired Rights Directive, such as the Transfer of Undertakings (Protection of Employees) Regulations, or TUPE, in the United Kingdom, allow employees who are dismissed as a result of "service provision changes", which may include outsourcing to non-EU companies, to seek compensation either from the company from which they were dismissed or from the company to which the work was transferred. This could deter EU companies from outsourcing work to us and could also result in us being held liable for redundancy payments to such workers. Any such event could adversely affect our revenues and operating profitability.

Restrictions on immigration may affect our ability to compete for and provide services to clients in the United States, Europe and other jurisdictions, which could hamper our growth or cause our revenues to decline.

The vast majority of our employees are Indian nationals. Most of our projects require a portion of the work to be completed at the client's location. The ability of our technology professionals to work in the United States, Europe and in other countries depends on the ability to obtain the necessary visas and work permits.

As of March 31, 2012, the majority of our technology professionals in the United States held either H-1B visas (approximately 10,115 persons, not including Infosys BPO employees or employees of our wholly owned subsidiaries), which allow the employee to remain in the United States for up to six years during the term of the work permit and work as long as he or she remains an employee of the sponsoring firm, or L-1 visas (approximately 1,988 persons, not including Infosys BPO employees or employees of our wholly owned subsidiaries), which allow the employee to stay in the United States only temporarily.

Although there is no limit to new L-1 visas, there is a limit to the aggregate number of new H-1B visas that the U.S. Citizenship and Immigration Services, or CIS, may approve in any government fiscal year which is 85,000 annually. 20,000 of these visas are only available to skilled workers who possess a Master's or higher degree from institutions of higher education in the United States. Further, in response to the terrorist attacks in the United States, the CIS has increased its level of scrutiny in granting new visas. This may, in the future, also lead to limits on the number of L-1 visas granted. In addition, the granting of L-1 visas precludes companies from obtaining such visas for employees with specialized knowledge: (1) if such employees will be stationed primarily at the worksite of another company in the U.S. and the employee will not be controlled and supervised by his or her employer, or (2) if such offsite placement is essentially an arrangement to provide labor for hire rather than in connection with the employee's specialized knowledge. Immigration laws in the United States may also require us to meet certain levels of

compensation, and to comply with other legal requirements, including labor certifications, as a condition to obtaining or maintaining work visas for our technology professionals working in the United States.

Immigration laws in the United States and in other countries are subject to legislative change, as well as to variations in standards of application and enforcement due to political forces and economic conditions. For instance, the United States government is considering the enactment of an Immigration Reform Bill, and the United Kingdom government has recently introduced an interim limit on the number of visas that may be granted. Further, effective August 14, 2010, the CIS had announced a fee increase of \$2,000 for certain H-1B visa petitions and \$2,250 for certain L-1 visa petitions. It is difficult to predict the political and economic events that could affect immigration laws, or the restrictive impact they could have on obtaining or monitoring work visas for our technology professionals. Our reliance on work visas for a significant number of technology professionals makes us particularly vulnerable to such changes and variations as it affects our ability to staff projects with technology professionals who are not citizens of the country where the work is to be performed. We have recently observed that there has been an increase in the number of rejections of visa applications as well as requests for evidence on visas from Indian companies. This may affect our ability to get timely visas and accordingly staff projects. As a result, we may not be able to obtain a sufficient number of visas for our technology professionals or may encounter delays or additional costs in obtaining or maintaining the conditions of such visas. Additionally, we may have to apply in advance for visas and this could result in additional expenses during certain quarters of the fiscal year.

On May 23, 2011, we received a subpoena from a grand jury in the United States District Court for the Eastern District of Texas. The subpoena requires that we provide to the grand jury certain documents and records related to our sponsorships for, and uses of, B1 business visas. We are complying with the subpoena. In connection with the subpoena, during a recent meeting with the United States Attorney's Office for the Eastern District of Texas, we were advised that we and certain of our employees are targets of the investigation. We intend to have further discussions with the U.S. Attorney's Office regarding this matter, however, we cannot predict the final outcome of the investigation by, or discussions with, the U.S. Attorney's Office.

In addition, the U.S. Department of Homeland Security (DHS or the Department) is undertaking a review of our employer eligibility verifications on Form I-9 with respect to our employees working in the United States. In connection with this review, we have been advised that the DHS has found errors in a significant percentage of our Forms I-9 that the Department has reviewed. In the event that the DHS ultimately concludes that our Forms I-9 contained errors, the Department would likely impose fines and penalties on us. At this time, we cannot predict the final outcome of the review by, or the discussions with, the DHS or other governmental authority regarding the review of our Forms I-9.

In light of the fact that, among other things, the foregoing investigation and review are ongoing and we remain in discussions with the U.S. Attorney's Office regarding these matters, we are unable to make an estimate of the amount or range of loss that we could incur from unfavorable outcomes in such matters.

In the event that any government undertakes any actions which limit any visa program that we utilize, or imposes sanctions, fines or penalties on us or our employees, this could materially and adversely affect our business and results of operations. This could potentially increase the rejection rates of our visa applications which could have potential impact our onsite staffing.

Our success depends in large part upon our management team and key personnel and our ability to attract and retain them.

We are highly dependent on the senior members of our Board of Directors (Board) and the management team, including the continued efforts of our Co-Chairman, our Chief Executive Officer, our Chief Financial Officer, other executive members of the Board and members of our executive council which consists of certain executive and other officers. Our future performance will be affected by any disruptions in the continued service of our directors,

executives and other officers. For instance, significant changes to our Board and senior management became effective in August 2011, including the appointment of a new Chief Executive Officer and a new Chairman of our Board. In the past year, we have also internally reorganized our business units, which could have potential operational risks, including attrition of some key senior management personnel. We cannot assure you that the departure of directors and the transition of management personnel will not cause disruption to our operations or customer relationships, or materially impact our results of operations.

Competition for senior management in our industry is intense, and we may not be able to retain senior management personnel or attract and retain new senior management personnel in the future. Furthermore, we do not maintain key man life insurance for any of the senior members of our management team or other key personnel. The loss of any member of our senior management or other key personnel may have a material adverse effect on our business, results of operations and financial condition.

Our failure to complete fixed-price, fixed-timeframe contracts or transaction-based pricing contracts within budget and on time may negatively affect our profitability.

As an element of our business strategy, in response to client requirements and pressures on IT budgets, we are offering an increasing portion of our services on a fixed-price, fixed-timeframe basis, rather than on a time-and-materials basis. In fiscal 2012, fiscal 2011 and fiscal 2010, revenues from fixed-price, fixed-timeframe projects accounted for 39.3%, 40.3% and 38.5% of our total services revenues, respectively, including revenues from our business process management services. In addition, pressure on the IT budgets of our clients has led us to deviate from our standard pricing policies and to offer varied pricing models to our clients in certain situations in order to remain competitive. For example, we have recently begun entering into transaction-based pricing contracts with certain clients who were not previously offered such terms in order to give our clients the flexibility to pay as they use our services.

The risk of entering into fixed-price, fixed-timeframe arrangements and transaction-based pricing arrangements is that if we fail to properly estimate the appropriate pricing for a project, we may incur lower profits or losses as a result of being unable to execute projects on the timeframe and with the amount of labor we expected. Although we use our software engineering methodologies and processes and past project experience to reduce the risks associated with estimating, planning and performing fixed-price, fixed-timeframe projects and transaction-based pricing projects, we bear the risk of cost overruns, completion delays and wage inflation in connection with these projects. If we fail to estimate accurately the resources and time required for a project, future wage inflation rates, or currency exchange rates, or if we fail to complete our contractual obligations within the contracted timeframe, our profitability may suffer. We expect that we will continue to enter into fixed-price, fixed-timeframe and transaction-based pricing engagements in the future, and such engagements may increase in relation to the revenues generated from engagements on a time-and-materials basis, which would increase the risks to our business.

Our client contracts can typically be terminated without cause and with little or no notice or penalty, which could negatively impact our revenues and profitability.

Our clients typically retain us on a non-exclusive, project-by-project basis. Most of our client contracts, including those that are on a fixed-price, fixed-timeframe basis, can be terminated with or without cause, with between zero and 90 days notice and without any termination-related penalties. Our business is dependent on the decisions and actions of our clients, and there are a number of factors relating to our clients that are outside of our control which might lead to termination of a project or the loss of a client, including:

- financial difficulties for a client;
- a change in strategic priorities, resulting in a reduced level of technology spending;
- a demand for price reductions;
- a change in outsourcing strategy by moving more work to the client's in-house technology departments or to our competitors;

- the replacement by our clients of existing software with packaged software supported by licensors;
- mergers and acquisitions;
- consolidation of technology spending by a client, whether arising out of mergers and acquisitions, or otherwise; and
- sudden ramp-downs in projects due to an uncertain economic environment.

Our inability to control the termination of client contracts could have a negative impact on our financial condition and results of operations.

Our engagements with customers are singular in nature and do not necessarily provide for subsequent engagements.

Our clients generally retain us on a short-term, engagement-by-engagement basis in connection with specific projects, rather than on a recurring basis under long-term contracts. Although a substantial majority of our revenues are generated from repeat business, which we define as revenue from a client who also contributed to our revenue during the prior fiscal year, our engagements with our clients are typically for projects that are singular in nature. Therefore, we must seek out new engagements when our current engagements are successfully completed or are terminated, and we are constantly seeking to expand our business with existing clients and secure new clients for our services. In addition, in order to continue expanding our business, we may need to significantly expand our sales and marketing group, which would increase our expenses and may not necessarily result in a substantial increase in business. If we are unable to generate a substantial number of new engagements for projects on a continual basis, our business and results of operations would likely be adversely affected.

Our client contracts are often conditioned upon our performance, which, if unsatisfactory, could result in less revenue than previously anticipated.

A number of our contracts have incentive-based or other pricing terms that condition some or all of our fees on our ability to meet defined performance goals or service levels. Our failure to meet these goals or a client's expectations in such performance-based contracts may result in a less profitable or an unprofitable engagement.

Some of our long-term client contracts contain benchmarking provisions which, if triggered, could result in lower future revenues and profitability under the contract.

As the size and duration of our client engagements increase, clients may increasingly require benchmarking provisions. Benchmarking provisions allow a customer in certain circumstances to request a benchmark study prepared by an agreed upon third-party comparing our pricing, performance and efficiency gains for delivered contract services to that of an agreed upon list of other service providers for comparable services. Based on the results of the benchmark study and depending on the reasons for any unfavorable variance, we may be required to reduce the pricing for future services performed under the balance of the contract, which could have an adverse impact on our revenues and profitability. Benchmarking provisions in our client engagements may have a greater impact on our results of operations during an economic slowdown, because pricing pressure and the resulting decline in rates may lead to a reduction in fees that we charge to clients that have benchmarking provisions in their engagements with us.

Our increasing work with governmental agencies may expose us to additional risks.

Currently, the vast majority of our clients are privately or publicly owned. However, we are increasingly bidding for work with governments and governmental agencies, both within and outside the United States. Projects involving governments or governmental agencies carry various risks inherent in the government contracting process, including the following:

- Such projects may be subject to a higher risk of reduction in scope or termination than other contracts due to political and economic factors such as changes in government, pending elections or the reduction in, or

absence of, adequate funding;

- Terms and conditions of government contracts tend to be more onerous than other contracts and may include, among other things, extensive rights of audit, more punitive service level penalties and other restrictive covenants. Also, the terms of such contracts are often subject to change due to political and economic factors;
- Government contracts are often subject to more extensive scrutiny and publicity than other contracts. Any negative publicity related to such contracts, regardless of the accuracy of such publicity, may adversely affect our business or reputation;
- Participation in government contracts could subject us to stricter regulatory requirements, which may increase our cost of compliance; and
- Such projects may involve multiple parties in the delivery of services and require greater project management efforts on our part, and any failure in this regard may adversely impact our performance.

In addition, we operate in jurisdictions in which local business practices may be inconsistent with international regulatory requirements, including anti-corruption and anti-bribery regulations prescribed under the U.S. Foreign Corrupt Practices Act (FCPA), and the Bribery Act 2010 (U.K.), which, among other things, prohibits giving or offering to give anything of value with the intent to influence the awarding of government contracts. Although we believe that we have adequate policies and enforcement mechanisms to ensure legal and regulatory compliance with the FCPA, the Bribery Act 2010 and other similar regulations, it is possible that some of our employees, subcontractors, agents or partners may violate any such legal and regulatory requirements, which may expose us to criminal or civil enforcement actions, including penalties and suspension or disqualification from U.S. federal procurement contracting. If we fail to comply with legal and regulatory requirements, our business and reputation may be harmed.

Any of the above factors could have a material and adverse effect on our business or our results of operations.

Our business will suffer if we fail to anticipate and develop new services and enhance existing services in order to keep pace with rapid changes in technology and in the industries on which we focus.

The technology services market is characterized by rapid technological change, evolving industry standards, changing client preferences and new product and service introductions. Our future success will depend on our ability to anticipate these advances and develop new product and service offerings to meet client needs. We may fail to anticipate or respond to these advances in a timely basis, or, if we do respond, the services or technologies that we develop may not be successful in the marketplace. The development of some of the services and technologies may involve significant upfront investments and the failure of these services and technologies may result in our being unable to recover these investments, in part or in full. Further, products, services or technologies that are developed by our competitors may render our services non-competitive or obsolete.

We have recently introduced, and propose to introduce, several new solutions involving complex delivery models combined with innovative, and often transaction based, pricing models. Some of our solutions, including the Software as a Service, or SaaS, solution, are often based on a transaction-based pricing model even though these solutions require us to incur significant upfront costs. The advent of new technologies like cloud computing, and new initiatives such as enterprise mobility and environment sustainability and the pace of adoption of new technologies and initiatives by clients could have potential impact on our growth. The complexity of these solutions, our inexperience in developing or implementing them and significant competition in the markets for these solutions may affect our ability to market these solutions successfully. Further, customers may not adopt these solutions widely and we may be unable to recover any investments made in these solutions. Even if these solutions are successful in the market, the dependence of these solutions on third party hardware and software and on our ability to meet stringent service levels in providing maintenance or support services may result in our being unable to deploy these solutions successfully or profitably. Further, where we offer a transaction-based pricing model in connection with an engagement, we may also be unable to recover any upfront costs incurred in solutions deployed by us in full.

Compliance with new and changing corporate governance and public disclosure requirements adds uncertainty to our compliance policies and increases our costs of compliance.

Changing laws, regulations and standards relating to accounting, corporate governance and public disclosure, including the Sarbanes-Oxley Act of 2002, new SEC regulations, NASDAQ Global Select Market rules, Securities and Exchange Board of India or SEBI rules and Indian stock market listing regulations are creating uncertainty for companies like ours. These new or changed laws, regulations and standards may lack specificity and are subject to varying interpretations. Their application in practice may evolve over time as new guidance is provided by regulatory and governing bodies. This could result in continuing uncertainty regarding compliance matters and higher costs of compliance as a result of ongoing revisions to such governance standards.

In particular, continuing compliance with Section 404 of the Sarbanes-Oxley Act of 2002 and the related regulations regarding our required assessment of our internal control over financial reporting requires the commitment of significant financial and managerial resources and external auditor's independent assessment of the internal control over financial reporting.

In connection with this Annual Report on Form 20-F for fiscal 2012, our management assessed our internal controls over financial reporting, and determined that our internal controls were effective as of March 31, 2012, and our independent auditors have expressed an unqualified opinion over the effectiveness of our internal control over financial reporting as of the end of such period. However, we will undertake management assessments of our internal control over financial reporting in connection with each annual report, and any deficiencies uncovered by these assessments or any inability of our auditors to issue an unqualified opinion could harm our reputation and the price of our equity shares and ADSs.

Further, since 2009 and continuing into 2012, there has been an increased focus on corporate governance by the U.S. Congress and by the SEC in response to the recent credit and financial crisis in the United States. As a result of this increased focus, additional corporate governance standards have been promulgated with respect to companies whose securities are listed in the United States, including by way of the enactment of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and more governance standards are expected to be imposed on companies whose securities are listed in the United States in the future.

It is also possible that laws in India may be made more stringent with respect to standards of accounting, auditing, public disclosure and corporate governance. We are committed to maintaining high standards of corporate governance and public disclosure, and our efforts to comply with evolving laws, regulations and standards in this regard have resulted in, and are likely to continue to result in, increased general and administrative expenses and a diversion of management time and attention from revenue-generating activities to compliance activities.

In addition, it may become more expensive or more difficult for us to obtain director and officer liability insurance. Further, our Board members, Chief Executive Officer, and Chief Financial Officer could face an increased risk of personal liability in connection with their performance of duties and our SEC reporting obligations. As a result, we may face difficulties attracting and retaining qualified Board members and executive officers, which could harm our business. If we fail to comply with new or changed laws or regulations, our business and reputation may be harmed.

Disruptions in telecommunications, system failures, or virus attacks could harm our ability to execute our Global Delivery Model, which could result in client dissatisfaction and a reduction of our revenues.

A significant element of our distributed project management methodology, which we refer to as our Global Delivery Model, is to continue to leverage and expand our global development centers. We currently have 74 global development centers located in various countries around the world. Our global development centers are linked with a telecommunications network architecture that uses multiple service providers and various satellite and optical links with alternate routing. We may not be able to maintain active voice and data communications between our various

global development centers and our clients' sites at all times due to disruptions in these networks, system failures or virus attacks. Any significant failure in our ability to communicate could result in a disruption in business, which could hinder our performance or our ability to complete client projects on time. This, in turn, could lead to client dissatisfaction and a material adverse effect on our business, results of operations and financial condition.

We may be liable to our clients for damages caused by disclosure of confidential information, system failures, errors or unsatisfactory performance of services.

We are often required to collect and store sensitive or confidential client and customer data. Many of our client agreements do not limit our potential liability for breaches of confidentiality. If any person, including any of our employees, penetrates our network security or misappropriates sensitive data, we could be subject to significant liability from our clients or from our clients' customers for breaching contractual confidentiality provisions or privacy laws. Unauthorized disclosure of sensitive or confidential client and customer data, whether through breach of our computer systems, systems failure or otherwise, could damage our reputation and cause us to lose clients.

Many of our contracts involve projects that are critical to the operations of our clients' businesses, and provide benefits which may be difficult to quantify. Any failure in a client's system or breaches of security could result in a claim for substantial damages against us, regardless of our responsibility for such failure. Furthermore, any errors by our employees in the performance of services for a client, or poor execution of such services, could result in a client terminating our engagement and seeking damages from us.

Although we generally attempt to limit our contractual liability for consequential damages in rendering our services, these limitations on liability may be unenforceable in some cases, or may be insufficient to protect us from liability for damages. We maintain general liability insurance coverage, including coverage for errors or omissions, however, this coverage may not continue to be available on reasonable terms and may be unavailable in sufficient amounts to cover one or more large claims. Also an insurer might disclaim coverage as to any future claim. A successful assertion of one or more large claims against us that exceeds our available insurance coverage or changes in our insurance policies, including premium increases or the imposition of a large deductible or co-insurance requirement, could adversely affect our operating results.

Recently, many of our clients have been seeking more favorable terms from us in our contracts, particularly in connection with clauses related to the limitation of our liability for damages resulting from unsatisfactory performance of services. The inclusion of such terms in our client contracts, particularly where they relate to our attempt to limit our contractual liability for damages, may increase our exposure to liability in the case of our failure to perform services in a manner required under the relevant contracts. Further, any damages resulting from such failure, particularly where we are unable to recover such damages in full from our insurers, may adversely impact our business, revenues and operating margins.

We are investing substantial cash assets in new facilities and physical infrastructure, and our profitability could be reduced if our business does not grow proportionately.

As of March 31, 2012, we had contractual commitments of approximately \$205 million for capital expenditures, particularly related to the expansion or construction of facilities. We may encounter cost overruns or project delays in connection with new facilities. These expansions will increase our fixed costs. If we are unable to grow our business and revenues proportionately, our profitability will be reduced.

We may be unable to recoup our investment costs to develop our software products.

In fiscal 2012, fiscal 2011 and fiscal 2010, we earned 4.6%, 4.9% and 4.2% of our total revenue from the licensing of software products, respectively. The development of our software products requires significant investments. The markets for our primary suite of software products which we call Finacle™ are competitive. Our current software

products or any new software products that we develop may not be commercially successful and the costs of developing such new software products may not be recouped. Since software product revenues typically occur in periods subsequent to the periods in which the costs are incurred for the development of such software products, delayed revenues may cause periodic fluctuations in our operating results.

We may engage in acquisitions, strategic investments, strategic partnerships or alliances or other ventures that may or may not be successful.

We may acquire or make strategic investments in complementary businesses, technologies, services or products, or enter into strategic partnerships or alliances with third parties in order to enhance our business. For example, during fiscal 2008, as part of an outsourcing agreement with Philips, our majority-owned subsidiary, Infosys BPO, acquired from Koninklijke Philips Electronics N.V. certain shared services centers in India, Poland and Thailand that were engaged in the provision of finance, accounting and procurement support services to Philips' operations worldwide. Further, during fiscal 2010, Infosys BPO completed the acquisition of McCamish Systems LLC. In January 2012, Infosys BPO completed the acquisition of Portland Group Pty Ltd., a leading provider of strategic sourcing and category management services based in Australia.

It is possible that we may not identify suitable acquisitions, candidates for strategic investment or strategic partnerships, or if we do identify suitable targets, we may not complete those transactions on terms commercially acceptable to us, or at all. Our inability to identify suitable acquisition targets or investments or our inability to complete such transactions may affect our competitiveness and growth prospects.

Even if we are able to identify an acquisition that we would like to consummate, we may not be able to complete the acquisition on commercially reasonable terms or because the target is acquired by another company. Furthermore, in the event that we are able to identify and consummate any future acquisitions, we could:

- issue equity securities which would dilute current shareholders' percentage ownership;
- incur substantial debt;
- incur significant acquisition-related expenses;
- assume contingent liabilities; or
- expend significant cash.

These financing activities or expenditures could harm our business, operating results and financial condition or the price of our common stock. Alternatively, due to difficulties in the capital and credit markets, we may be unable to secure capital on acceptable terms, if at all, to complete acquisitions.

Moreover, even if we do obtain benefits from acquisitions in the form of increased sales and earnings, there may be a delay between the time when the expenses associated with an acquisition are incurred and the time when we recognize such benefits.

Further, if we acquire a company, we could have difficulty in assimilating that company's personnel, operations, technology and software. In addition, the key personnel of the acquired company may decide not to work for us. These difficulties could disrupt our ongoing business, distract our management and employees and increase our expenses.

We have made and may in the future make strategic investments in early-stage technology start-up companies in order to gain experience in or exploit niche technologies. However, our investments may not be successful. The lack of profitability of any of our investments could have a material adverse effect on our operating results.

We may be the subject of litigation which, if adversely determined, could harm our business and operating results.

We are, and may in the future be, subject to legal claims arising in the normal course of business. An unfavorable outcome on any litigation matter could require that we pay substantial damages, or, in connection with any intellectual property infringement claims, could require that we pay ongoing royalty payments or could prevent us from selling certain of our products. In addition, we may decide to settle any litigation, which could cause us to incur significant costs. A settlement or an unfavorable outcome on any litigation matter could have a material adverse effect on our business, operating results, financial position or cash flows.

The markets in which we operate are subject to the risk of earthquakes, floods, tsunamis and other natural and manmade disasters.

Some of the regions that we operate in are prone to earthquakes, floods, tsunamis and other natural and manmade disasters. In the event that any of our business centers are affected by any such disasters, we may sustain damage to our operations and properties, suffer significant financial losses and be unable to complete our client engagements in a timely manner, if at all. Further, in the event of a natural disaster, we may also incur costs in redeploying personnel and property. For instance, as a result of the natural disasters in Japan in March 2011, and the resulting fallout of nuclear radiation from damaged nuclear power plants, we were required to temporarily relocate some of the employees from our offices in Japan to India. In addition if there is a major earthquake, flood or other natural disaster in any of the locations in which our significant customers are located, we face the risk that our customers may incur losses, or sustained business interruption, which may materially impair their ability to continue their purchase of products or services from us. A major earthquake, flood or other natural disaster in the markets in which we operate could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Risks Related to Investments in Indian Companies and International Operations Generally

Our net income would decrease if the Government of India reduces or withdraws tax benefits and other incentives it provides to us or when our tax holidays expire or terminate.

We have benefited from certain tax incentives the Government of India had provided to the export of software from specially designated software technology parks, or STPs, in India and we continue to benefit from certain tax incentives for facilities set up under the Special Economic Zones Act, 2005.

As per the original provisions of the Indian Income Tax Act, the STP tax holiday was available for ten consecutive years beginning from the financial year when the unit started producing computer software or April 1, 1999, whichever is earlier. The Indian Government, through the Finance Act, 2009, had extended the tax holiday for STP units until March 31, 2011. During the fiscal 2011, one of our STP units was under tax holiday. Since the Finance Act, 2011 has not extended the tax holiday for STP units beyond March 31, 2011, the tax benefits for the unit have expired. All of our STP units are now taxable.

In the Finance Act, 2005, the Government of India introduced a separate tax holiday scheme for units set up under designated special economic zones, or SEZs, engaged in manufacture of articles or in provision of services. Under this scheme, units in designated SEZs which begin providing services on or after April 1, 2005, will be eligible for a deduction of 100 percent of profits or gains derived from the export of software or services for the first five years from commencement of provision of software or services and 50 percent of such profits or gains for a further five years. Certain tax benefits are also available for a further five years subject to the unit meeting defined conditions.

As a result of these tax incentives, a portion of our pre-tax income has not been subject to tax in recent years.

These tax incentives resulted in a decrease of \$202 million, \$173 million and \$223 million in our income tax expense for fiscal 2012, fiscal 2011 and fiscal 2010 respectively, compared to the effective tax amounts that we estimate we would have been required to pay if these incentives had not been available. The per share effect of these tax incentives for the fiscal 2012, fiscal 2011 and fiscal 2010 is \$0.35, \$0.30 and \$0.39, respectively.

In August 2010, the Direct Taxes Code Bill, 2010 was introduced in the Indian Parliament. The Direct Taxes Code Bill, if enacted, is intended to replace the Indian Income Tax Act. The Direct Taxes Code Bill proposes that while profit-linked tax benefits for existing units in SEZs will continue for the unexpired portions of the applicable tax holiday period, such tax benefits will not be available to new units in SEZs that were notified after March 31, 2012 and will become operational after March 31, 2014.

Further, the Finance Act, 2007, had included income eligible for deductions under Section 10A of the Indian Income Tax Act in the computation of book profits for the levy of a Minimum Alternative Tax, or MAT. Effective April 1, 2011, the Finance Act, 2011 extended MAT to SEZ operating as well as SEZ developer units. Income in respect of which a deduction may be claimed under section 10AA or section 80IAB of the Indian Income Tax Act therefore has to be included in book profits for computing MAT liability. The Finance Act, 2011 increased the effective rate of MAT for domestic companies from 19.93% to 20.01% (inclusive of a surcharge and education cess) of book profits. With our growth of business in SEZ units, we may have to compute our tax liability under MAT in future years.

The Income Tax Act provides that the MAT paid by us can be adjusted against our regular tax liability over the next ten years. Although MAT paid by us can be set off against our future tax liability, due to the introduction of MAT, our net income and cash flows for intervening periods could be adversely affected.

The Direct Taxes Code Bill also proposes the rate of MAT to be 20% (including surcharges) on the book profits of domestic companies, and the amounts paid towards MAT are expected to be adjusted against regular tax liability over a fifteen year period.

The expiration, modification or termination of any of our tax benefits or holidays, including on account of non-availability of the SEZ tax holiday scheme pursuant to the enactment of the Direct Taxes Code Bill, would likely increase our effective tax rates significantly. Any increase in our effective tax liability in India could have a material and adverse effect on our net income.

In the event that the Government of India or the government of another country changes its tax policies in a manner that is adverse to us, our tax expense may materially increase, reducing our profitability.

In the Finance Bill, 2012, the Government of India has proposed to levy service tax based on a negative list of services. Consequently, all services are likely to become taxable, except notified exempted services. Further, the rate of service tax has been proposed to be increased from 10% to 12%. This would increase the cost of input services. Although currently there are no material pending or threatened claims against us for service taxes, such claims may be asserted against us in the future. Defending these claims would be expensive, time consuming and may divert our management's attention and resources from operating our Company.

The Finance Bill 2012 has also proposed the General Anti-Avoidance Rule (GAAR), wherein the tax authority may declare an arrangement as an impermissible avoidance arrangement if an arrangement is not entered at arm's length, results in misuse/abuse of provisions of the Income Tax Act, 1961, lacks commercial substance or the purpose of arrangement is for obtaining a tax benefit. The authority has yet to issue the guidelines and conditions relating to implementation of GAAR. The Finance Bill 2012 also amended certain of the tax provisions retrospectively.

We operate in jurisdictions that impose transfer pricing and other tax-related regulations on us, and any failure to comply could materially and adversely affect our profitability.

We are required to comply with various transfer pricing regulations in India and other countries. Failure to comply with such regulations may impact our effective tax rates and consequently affect our net margins. Additionally, we operate in several countries and our failure to comply with the local and municipal tax regime may result in additional taxes, penalties and enforcement actions from such authorities. In the event that we do not properly comply with

transfer pricing and tax-related regulations, our profitability may be adversely affected.

Wage pressures in India and the hiring of employees outside India may prevent us from sustaining our competitive advantage and may reduce our profit margins.

Wage costs in India have historically been significantly lower than wage costs in the United States and Europe for comparably skilled professionals, which has been one of our competitive strengths. Although, currently, a vast majority of our workforce consists of Indian nationals, we expect to increase hiring in other jurisdictions, including the United States and Europe. Any such recruitment of foreign nationals is likely to be at wages higher than those prevailing in India and may increase our operating costs and adversely impact our profitability.

Further, in certain jurisdictions in which we operate, legislation has been adopted that requires our non-resident alien employees working in such jurisdictions to earn the same wages as similarly situated residents or citizens of such jurisdiction. In jurisdictions where this is required, the compensation expenses for our non-resident alien employees would adversely impact our results of operations. For example, recently, the minimum wages for certain work permit holders in the United Kingdom have been increased, thereby increasing the cost of conducting business in that jurisdiction.

Additionally, wage increases in India may prevent us from sustaining this competitive advantage and may negatively affect our profit margins. We have historically experienced significant competition for employees from large multinational companies that have established and continue to establish offshore operations in India, as well as from companies within India. This competition has led to wage pressures in attracting and retaining employees, and these wage pressures have led to a situation where wages in India are increasing at a faster rate than in the United States, which could result in increased costs for companies seeking to employ technology professionals in India, particularly project managers and other mid-level professionals. We may need to increase our employee compensation more rapidly than in the past to remain competitive with other employers, or seek to recruit in other low labor cost jurisdictions to keep our wage costs low. For example, we established a long term retention bonus policy for our senior executives and employees. Under this policy, certain senior executives and employees will be entitled to a yearly cash bonus upon their continued employment with us based upon seniority, their role in the company and their performance. Typically, we undertake an annual compensation review, and, pursuant to such review, the average salaries of our employees have increased significantly. Any compensation increases in the future may result in a material adverse effect on our business, results of operations and financial condition. In certain years, we may not give wage increases due to adverse market conditions for our business while our competitors may still give wage increases. This may result in higher attrition rates and may impact our ability to hire the best talent.

Terrorist attacks or a war could adversely affect our business, results of operations and financial condition.

Terrorist attacks, such as the attacks of September 11, 2001 in the United States, the attacks of July 25, 2008 in Bangalore, the attacks of November 26 to 29, 2008 and July 13, 2011 in Mumbai and other acts of violence or war, such as the continuing conflict in Afghanistan, have the potential to have a direct impact on our clients or on us. To the extent that such attacks affect or involve the United States or Europe, our business may be significantly impacted, as the majority of our revenues are derived from clients located in the United States and Europe. In addition, such attacks may destabilize the economic and political situation in India, may make travel more difficult, may make it more difficult to obtain work visas for many of our technology professionals who are required to work in the United States or Europe, and may effectively reduce our ability to deliver our services to our clients. Such obstacles to business may increase our expenses and negatively affect the results of our operations. Furthermore, any attacks in India could cause a disruption in the delivery of our services to our clients, and could have a negative impact on our business, personnel, assets and results of operations, and could cause our clients or potential clients to choose other vendors for the services we provide. Terrorist threats, attacks or war could make travel more difficult, may disrupt our ability to provide services to our clients and could delay, postpone or cancel our clients' decisions to use our services.

Regional conflicts in South Asia could adversely affect the Indian economy, disrupt our operations and cause our business to suffer.

South Asia has, from time to time, experienced instances of civil unrest and hostilities among neighboring countries, including between India and Pakistan. In recent years there have been military confrontations between India and Pakistan that have occurred in the region of Kashmir and along the India-Pakistan border. Further, in recent months, Pakistan has been experiencing significant instability and this has heightened the risks of conflict in South Asia. Military activity or terrorist attacks in the future could influence the Indian economy by disrupting communications and making travel more difficult and such political tensions could create a greater perception that investments in Indian companies involve higher degrees of risk. This, in turn, could have a material adverse effect on the market for securities of Indian companies, including our equity shares and our ADSs, and on the market for our services.

Changes in the policies of the Government of India or political instability could delay the further liberalization of the Indian economy and adversely affect economic conditions in India generally, which could impact our business and prospects.

Since 1991, successive Indian governments have pursued policies of economic liberalization, including significantly relaxing restrictions on the private sector. Nevertheless, the role of the Central and State governments in the Indian economy as producers, consumers and regulators has remained significant. The current Government of India, formed in May 2009, has announced policies and taken initiatives that support the continued economic liberalization policies pursued by previous governments. However, these liberalization policies may not continue in the future. The rate of economic liberalization could change, and specific laws and policies affecting technology companies, foreign investment, currency exchange and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could adversely affect business and economic conditions in India generally, and our business in particular.

The Indian Government has also announced its intent to make further changes in the policies applicable to Special Economic Zones, or SEZs. Some of our software development centers located at Chandigarh, Chennai, Hyderabad, Mangalore, Mysore, Pune, Trivandrum and Jaipur currently operate in SEZs and many of our proposed development centers are likely to operate in SEZs. If the Government of India changes its policies affecting SEZs in a manner that adversely impact the incentives for establishing and operating facilities in SEZs, our business, results of operations and financial condition may be adversely affected.

Political instability could also delay the reform of the Indian economy and could have a material adverse effect on the market for securities of Indian companies, including our equity shares and our ADSs, and on the market for our services.

Our international expansion plans subject us to risks inherent in doing business internationally.

Currently, we have global development centers in 16 countries around the world, with our largest development centers located in India. We have recently established or intend to establish new development facilities. During fiscal 2004, we established Infosys China and also acquired Infosys Australia to expand our operations in those countries. In fiscal 2005, we formed Infosys Consulting to focus on consulting services in the United States. In fiscal 2008, we established a wholly-owned subsidiary, Infosys Technologies S.de.R.L.de.C.V. (Infosys Mexico), in Monterrey, Mexico, to provide business consulting and information technology services for clients in North America, Latin America and Europe. Also, during fiscal 2008, as part of an outsourcing agreement with Philips, our majority-owned subsidiary, Infosys BPO, acquired from Koninklijke Philips Electronics N.V. certain shared services centers in India, Poland and Thailand that are engaged in the provision of finance, accounting and procurement support services to Philips' operations worldwide. During fiscal 2010, Infosys BPO acquired 100% of the voting interest in McCamish Systems LLC (McCamish), a business process solutions provider based in Atlanta, Georgia, in the United States. In fiscal 2010, we established a wholly-owned subsidiary, Infosys Tecnologia do Brasil Ltda in Brazil to provide

information technology services in Latin America. Further, during fiscal 2010, we formed Infosys Public Services, Inc. to focus on governmental outsourcing and consulting in the United States and in fiscal 2011, we formed Infosys Technologies (Shanghai) Company Limited to further expand our operations in China. In January 2012, Infosys BPO completed the acquisition of Portland Group Pty Ltd., a leading provider of strategic sourcing and category management services based in Australia.

We also have a very large workforce spread across our various offices worldwide. As of March 31, 2012, we employed approximately 150,000 employees worldwide, and approximately 31,200 of those employees were located outside of India. Because of our global presence, we are subject to additional risks related to our international expansion strategy, including risks related to compliance with a wide variety of treaties, national and local laws, including multiple and possibly overlapping tax regimes, privacy laws and laws dealing with data protection, export control laws, restrictions on the import and export of certain technologies and national and local labor laws dealing with immigration, employee health and safety, and wages and benefits, applicable to our employees located in our various international offices and facilities. We may from time to time be subject to litigation or administrative actions resulting from claims against us by current or former employees, individually or as part of a class action, including for claims of wrongful termination, discrimination (including on grounds of nationality, ethnicity, race, faith, gender, marital status, age or disability), misclassification, payment of redundancy payments under TUPE-type legislation, or other violations of labor laws, or other alleged conduct. Our being held liable for unpaid compensation, redundancy payments, statutory penalties, and other damages arising out of such actions and litigations could adversely affect our revenues and operating profitability. For example, in December 2007, we entered into a voluntary settlement with the California Division of Labor Standards Enforcement regarding the potential misclassification of certain of our current and former employees, whereby we agreed to pay overtime wages that may have been owed to such employees. The total settlement amount was approximately \$26 million, including penalties and taxes.

In addition, we may face competition in other countries from companies that may have more experience with operations in such countries or with international operations generally. We may also face difficulties integrating new facilities in different countries into our existing operations, as well as integrating employees that we hire in different countries into our existing corporate culture. As an international company, our offshore and onsite operations may also be impacted by disease, epidemics and local political instability. For instance, some of the regions in which we operate, including North Africa, have experienced political instability in recent times, which required us to temporarily redeploy some of our personnel and property from those regions. Political instability in the regions in which we operate could have a material adverse effect on revenues and profitability.

Our international expansion plans may not be successful and we may not be able to compete effectively in other countries. Any of these events could adversely affect our revenues and operating profitability.

It may be difficult for holders of our ADSs to enforce any judgment obtained in the United States against us or our affiliates.

We are incorporated under the laws of India and many of our directors and executive officers reside outside the United States. Virtually all of our assets are located outside the United States. As a result, holders of our ADSs may be unable to effect service of process upon us outside the United States. In addition, holders of our ADSs may be unable to enforce judgments against us if such judgments are obtained in courts of the United States, including judgments predicated solely upon the federal securities laws of the United States.

The United States and India do not currently have a treaty providing for reciprocal recognition and enforcement of judgments (other than arbitration awards) in civil and commercial matters. Therefore, a final judgment for the payment of money rendered by any federal or state court in the United States on the basis of civil liability, whether or not predicated solely upon the federal securities laws of the United States, would not be enforceable in India. However, the party in whose favor such final judgment is rendered may bring a new suit in a competent court in India based on a final judgment that has been obtained in the United States. The suit must be brought in India within three

years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action is brought in India. Furthermore, it is unlikely that an Indian court would enforce foreign judgments if it viewed the amount of damages awarded as excessive or inconsistent with Indian practice. A party seeking to enforce a foreign judgment in India is required to obtain approval from the Reserve Bank of India under the Foreign Exchange Management Act, 1999, to repatriate any amount recovered pursuant to the execution of such a judgment.

Holders of ADSs are subject to the Securities and Exchange Board of India's Takeover Code with respect to their acquisitions of ADSs or the underlying equity shares, and this may impose requirements on such holders with respect to disclosure and offers to purchase additional ADSs or equity shares.

In September 2011, the Securities and Exchange Board of India notified the Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 (the Takeover Code) which replaces the Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 1997.

The Takeover Code is applicable to a publicly listed Indian company. Therefore, the provisions of the Takeover Code apply to us and to any person acquiring our equity shares or voting rights in our Company, such as those represented by our ADSs.

Upon the acquisition of shares or voting rights in a publicly listed Indian company such that the aggregate share-holding of the acquirer (meaning a person who directly or indirectly, acquires or agrees to acquire shares or voting rights in a target company, or acquires or agrees to acquire control over the target company, either by himself or together with any person acting in concert) is 5% or more of the shares of the company, the acquirer is required to, within two working days of such acquisition, has to disclose the aggregate shareholding and voting rights in the company to the company and to the stock exchanges in which the shares of the company are listed.

Further, an acquirer, who, together with persons acting in concert with him, holds shares or voting rights entitling them to 5% or more of the shares or voting rights in a target company must disclose if there has been a sale or acquisition of shares representing 2% or more of the shares or voting rights of the company and the acquirer's revised shareholding to the company and to the stock exchanges in which the shares of the company are listed within two working days of such acquisition or sale or receipt of intimation of allotment of such shares.

The Takeover Code may impose conditions that discourage a potential acquirer, which could prevent an acquisition of the company in a transaction that could be beneficial for the holders of our equity.

The laws of India do not protect intellectual property rights to the same extent as those of the United States, and we may be unsuccessful in protecting our intellectual property rights. We may also be subject to third party claims of intellectual property infringement.

We rely on a combination of patent, copyright, trademark and design laws, trade secrets, confidentiality procedures and contractual provisions to protect our intellectual property. However, the laws of India do not protect proprietary rights to the same extent as laws in the United States. Therefore, our efforts to protect our intellectual property may not be adequate. Our competitors may independently develop similar technology or duplicate our products or services. Unauthorized parties may infringe upon or misappropriate our products, services or proprietary information.

The misappropriation or duplication of our intellectual property could disrupt our ongoing business, distract our management and employees, reduce our revenues and increase our expenses. We may need to litigate to enforce our intellectual property rights or to determine the validity and scope of the proprietary rights of others. Any such litigation could be time consuming and costly. As the number of patents, copyrights and other intellectual property rights in our industry increases, and as the coverage of these rights increase, we believe that companies in our industry will face more frequent infringement claims. Defense against these claims, even if such claims are not meritorious,

could be expensive, time consuming and may divert our management's attention and resources from operating our Company. From time to time, third parties have asserted, and may in the future assert, patent, copyright, trademark and other intellectual property rights against us or our customers. Our business partners may have similar claims asserted against them. A number of third parties, including companies with greater resources than Infosys, have asserted patent rights to technologies that we utilize in our business. If we become liable to third parties for infringing their intellectual property rights, we could be required to pay a substantial damage award and be forced to develop non-infringing technology, obtain a license or cease selling the applications or products that contain the infringing technology. We may be unable to develop non-infringing technology or to obtain a license on commercially reasonable terms, or at all. An unfavorable outcome in connection with any infringement claim against us as a result of litigation, other proceeding or settlement, could have a material and adverse impact on our business, results of operations and financial position.

Our ability to acquire companies organized outside India depends on the approval of the Government of India and/or the Reserve Bank of India, and failure to obtain this approval could negatively impact our business.

Generally, the Reserve Bank of India must approve any acquisition by us of any company organized outside of India. The Reserve Bank of India permits acquisitions of companies organized outside of India by an Indian party without approval if the transaction consideration is paid in cash, the transaction value does not exceed 400% of the net worth of the acquiring company as on the date of the latest audited balance sheet, or unless the acquisition is funded with cash from the acquiring company's existing foreign currency accounts or with cash proceeds from the issue of ADRs/GDRs.

It is possible that any required approval from the Reserve Bank of India or any other government agency may not be obtained. Our failure to obtain approvals for acquisitions of companies organized outside India may restrict our international growth, which could negatively affect our business and prospects.

Indian laws limit our ability to raise capital outside India and may limit the ability of others to acquire us, which could prevent us from operating our business or entering into a transaction that is in the best interests of our shareholders.

Indian law relating to foreign exchange management constrains our ability to raise capital outside India through the issuance of equity or convertible debt securities. Generally, any foreign investment in, or acquisition of an Indian company does not require the approval from relevant government authorities in India, including the Reserve Bank of India. However, in a number of industrial sectors, there are restrictions on foreign investment in an Indian company. Changes to the policies may create restrictions on our capital raising abilities. For example, a limit on the foreign equity ownership of Indian technology companies or pricing restrictions on the issue of ADRs/GDRs may constrain our ability to seek and obtain additional equity investment by foreign investors. In addition, these restrictions, if applied to us, may prevent us from entering into certain transactions, such as an acquisition by a non-Indian company, which might otherwise be beneficial for us and the holders of our equity shares and ADSs.

Risks Related to the ADSs

Historically, our ADSs have traded at a significant premium to the trading prices of our underlying equity shares, and may not continue to do so in the future.

Historically, our ADSs have traded on NASDAQ at a premium to the trading prices of our underlying equity shares on the Indian stock exchanges. We believe that this price premium has resulted from the relatively small portion of our market capitalization previously represented by ADSs, restrictions imposed by Indian law on the conversion of equity shares into ADSs, and an apparent preference of some investors to trade dollar-denominated securities. We have already completed three secondary ADS offerings and the completion of any additional secondary ADS offering will significantly increase the number of our outstanding ADSs. Also, over time, some of the restrictions on the issuance of ADSs imposed by Indian law have been relaxed and we expect that other restrictions may be relaxed in the future. As

a result, the historical premium enjoyed by ADSs as compared to equity shares may be reduced or eliminated upon the completion of any additional secondary offering of our ADSs or similar transactions in the future, a change in Indian law permitting further conversion of equity shares into ADSs or changes in investor preferences.

In the past several years, we have observed the conversion of a significant number of our ADSs into equity shares in India as the premium on ADSs compared to equity shares has significantly narrowed. If a substantial amount of our ADSs are converted into underlying equity shares in India, it could affect the liquidity of such ADSs on the NASDAQ market and could impact the price of our ADSs.

Sales of our equity shares may adversely affect the prices of our equity shares and ADSs.

Sales of substantial amounts of our equity shares, including sales by our insiders in the public market, or the perception that such sales may occur, could adversely affect the prevailing market price of our equity shares or the ADSs or our ability to raise capital through an offering of our securities. In the future, we may also sponsor the sale of shares currently held by some of our shareholders as we have done in the past, or issue new shares. We can make no prediction as to the timing of any such sales or the effect, if any, that future sales of our equity shares, or the availability of our equity shares for future sale, will have on the market price of our equity shares or ADSs prevailing from time to time.

Negative media coverage and public scrutiny may adversely affect the prices of our equity shares and ADSs.

Media coverage and public scrutiny of our business practices, policies and actions has increased dramatically over the past several years, particularly through the use of Internet forums and blogs. Any negative media coverage in relation to our business, regardless of the factual basis for the assertions being made, may adversely impact our reputation. Responding to allegations made in the media may be time consuming and could divert the time and attention of our senior management from our business. Any unfavorable publicity may also adversely impact investor confidence and result in sales of our equity shares and ADSs, which may lead to a decline in the share price of our equity shares and our ADSs.

Indian law imposes certain restrictions that limit a holder's ability to transfer the equity shares obtained upon conversion of ADSs and repatriate the proceeds of such transfer which may cause our ADSs to trade at a premium or discount to the market price of our equity shares.

Under certain circumstances, the Reserve Bank of India must approve the sale of equity shares underlying ADSs by a non-resident of India to a resident of India. The Reserve Bank of India has given general permission to effect sales of existing shares or convertible debentures of an Indian company by a resident to a non-resident, subject to certain conditions, including the price at which the shares may be sold. Additionally, except under certain limited circumstances, if an investor seeks to convert the rupee proceeds from a sale of equity shares in India into foreign currency and then repatriate that foreign currency from India, he or she will have to obtain Reserve Bank of India approval for each such transaction. Required approval from the Reserve Bank of India or any other government agency may not be obtained on terms favorable to a non-resident investor or at all.

An investor in our ADSs may not be able to exercise preemptive rights for additional shares and may thereby suffer dilution of such investor's equity interest in us.

Under the Companies Act, 1956, or the Indian Companies Act, a company incorporated in India must offer its holders of equity shares preemptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless such preemptive rights have been waived by three-fourths of the shareholders voting on the resolution to waive such rights. Holders of ADSs may be unable to exercise preemptive rights for equity shares underlying ADSs unless a registration statement under the Securities Act of 1933 as amended, or the Securities Act, is effective with respect to such rights or an exemption from the

registration requirements of the Securities Act is available. We are not obligated to prepare and file such a registration statement and our decision to do so will depend on the costs and potential liabilities associated with any such registration statement, as well as the perceived benefits of enabling the holders of ADSs to exercise their preemptive rights, and any other factors we consider appropriate at the time. No assurance can be given that we would file a registration statement under these circumstances. If we issue any such securities in the future, such securities may be issued to the Depositary, which may sell such securities for the benefit of the holders of the ADSs. There can be no assurance as to the value, if any, the Depositary would receive upon the sale of such securities. To the extent that holders of ADSs are unable to exercise preemptive rights granted in respect of the equity shares represented by their ADSs, their proportional interests in us would be reduced.

ADS holders may be restricted in their ability to exercise voting rights.

At our request, the Depositary will electronically mail to holders of our ADSs any notice of shareholders' meeting received from us together with information explaining how to instruct the Depositary to exercise the voting rights of the securities represented by ADSs. If the Depositary receives voting instructions from a holder of our ADSs in time, relating to matters that have been forwarded to such holder, it will endeavor to vote the securities represented by such holder's ADSs in accordance with such voting instructions. However, the ability of the Depositary to carry out voting instructions may be limited by practical and legal limitations and the terms of the securities on deposit. We cannot assure that holders of our ADSs will receive voting materials in time to enable such holders to return voting instructions to the Depositary in a timely manner. Securities for which no voting instructions have been received will not be voted. There may be other communications, notices or offerings that we only make to holders of our equity shares, which will not be forwarded to holders of ADSs. Accordingly, holders of our ADSs may not be able to participate in all offerings, transactions or votes that are made available to holders of our equity shares.

Item 4. Information on the Company

COMPANY OVERVIEW

Infosys provides business consulting, technology, engineering and outsourcing services to help clients in over thirty countries to build tomorrow's enterprise.

Our comprehensive end-to-end business solutions include:

- Consulting and systems integration comprising consulting, enterprise solutions, systems integration and advanced technologies;
- Business IT services comprising application development and maintenance, independent validation services, infrastructure management, engineering services comprising product engineering and life cycle solutions and business process management;
- Products, business platforms and solutions to accelerate intellectual property led innovation, including Finacle™, our banking product, which offers solutions to address core banking, mobile banking and e-banking needs of retail, corporate and universal banks worldwide; and
- Newer areas such as cloud computing, enterprise mobility and sustainability.

Our professionals deliver high quality solutions through our Global Delivery Model. Using our Global Delivery Model, we divide projects into components that we execute simultaneously at client sites and at our development centers in India and around the world. We optimize our cost structure by maintaining the flexibility to execute project components where it is most cost effective. Our Global Delivery Model, with its scalable infrastructure and ability to execute project components around the clock and across time zones, enables us to reduce project delivery times.

We have organized our sales, marketing and business development departments into teams that focus on specific geographies and industries, enabling us to better customize our service offerings to our clients' needs. Our primary geographic markets are the Americas, Europe, Asia Pacific (APAC) and Middle East and Africa (MEA) regions. We

serve clients in financial services and insurance, manufacturing, energy, utilities, communications and services, retail, consumer packaged goods, logistics and life sciences, healthcare and public services.

Our revenues grew from \$4,176 million in fiscal 2008 to \$6,994 million in fiscal 2012, representing an compound annualized growth of 10.9%. Our net income grew from \$1,163 million to \$1,716 million during the same period, representing an compound annualized growth of 8.1%. Between March 31, 2008 and March 31, 2012, our total employees grew from approximately 91,200 to approximately 150,000, representing a compound annualized growth rate of approximately 10.5%.

We believe we have some of the best talent in the technology services industry, and we are committed to remaining among the industry's leading employers.

We were incorporated on July 2, 1981 in Maharashtra, India, as Infosys Consultants Private Limited, a private limited company under the Indian Companies Act, 1956. We changed our name to Infosys Technologies Private Limited in April 1992, to Infosys Technologies Limited in June 1992, when we became a public limited company. In June 2011, we changed our name from "Infosys Technologies Limited" to "Infosys Limited," following approval of the name change by our Board, shareholders and the Indian regulatory authorities. The name change was intended to reflect our transition from a provider of technology services to a partner with our clients solving business problems by leveraging technology. We completed our initial public offering of equity shares in India in 1993 and our initial public offering of ADSs in the United States in 1999. In August 2003, June 2005 and November 2006, we completed sponsored secondary offerings of ADSs in the United States on behalf of our shareholders. Our 2005 and 2006 offerings also each included a public offering without listing in Japan, or POWL. In December 2006, we became the first Indian company to be added to the NASDAQ - 100 index. In 2008, we were selected as an original component member of 'The Global Dow', a world-wide stock index made up of 150 leading blue-chip stocks.

Infosys BPO Limited (Infosys BPO) is our majority-owned and controlled subsidiary. Infosys Australia, Infosys Brazil, Infosys China, Infosys Consulting India Limited, Infosys Mexico, Infosys Sweden, Infosys Public Services and Infosys Shanghai are our wholly-owned and controlled subsidiaries.

The address of our registered office is Electronics City, Hosur Road, Bangalore-560 100, Karnataka, India. The telephone number of our registered office is +91-80-2852-0261. Our agent for service of process in the United States is CT Corporation System, 1350 Treat Boulevard, Suite 100, Walnut Creek, CA 94597-2152. Our website address is www.infosys.com and the information contained in our website does not constitute a part of this Annual Report.

Principal Capital Expenditures and Divestitures

In fiscal 2012, 2011 and 2010, we spent \$301 million, \$285 million and \$138 million, respectively, on capital expenditure. As of March 31, 2012, we had contractual commitments of approximately \$205 million for capital expenditure. These commitments included approximately \$164 million in domestic purchases and \$41 million in imports and overseas commitments for hardware, supplies and services. All our capital expenditures were financed out of cash generated from operations.

During fiscal 2010, Infosys BPO acquired 100% of the voting interests in McCamish Systems LLC (McCamish), a business process solutions provider based in Atlanta, Georgia, in the United States. The business acquisition was conducted by entering into a Membership Interest Purchase Agreement for a cash consideration of \$37 million and a contingent consideration of up to \$20 million. The fair value of the contingent consideration on the date of acquisition was \$9 million.

On February 21, 2011, Infosys incorporated a wholly owned subsidiary Infosys Technologies (Shanghai) Company Limited.

During the year ended March 31, 2011, Infosys BPO (Thailand) Limited was liquidated.

On October 7, 2011, the board of directors of Infosys Consulting Inc., approved the termination and winding down of the entity, and entered into an assignment and assumption agreement with Infosys Limited. The termination of Infosys Consulting, Inc. became effective on January 12, 2012, in accordance with the Texas Business Organizations Code. Effective January 12, 2012, the assets and liabilities of Infosys Consulting, Inc., were transferred to Infosys Limited.

On January 4, 2012, Infosys BPO acquired 100% of the voting interest in Portland Group Pty Ltd a strategic sourcing and category management services provider based in Australia. This business acquisition was conducted by entering into a share sale agreement for a cash consideration of \$41 million.

INDUSTRY OVERVIEW

Changing economic and business conditions, evolving consumer preferences, rapid technological innovation and adoption and globalization are creating an increasingly competitive market environment that is driving corporations to transform the manner in which they operate. Companies in this environment are now focusing even more on their core business objectives, such as revenue growth, profitability and asset efficiency.

Technology has evolved from merely driving cost efficiency – technology is now also driving tangible business value. The ability to define, design, develop, implement and maintain advanced technology platforms and business solutions to address business needs has become a competitive advantage and a priority for corporations worldwide.

As a result, there is an increasing need for highly skilled professionals in the market to help corporations transform their business, optimize operations and drive innovation by leveraging technology. At the same time, enterprises are reluctant to expand their internal IT departments and increase costs. These factors have led to the increased reliance of corporations on their outsourcing providers and are expected to continue to drive future growth for outsourced technology services.

According to the Global Tech Market Outlook for 2012 and 2013, an independent report published by Forrester Research, Inc. in January 2012, purchases of IT consulting, systems integration services and IT outsourcing by global businesses and governments are estimated to grow by 6.3% in calendar year 2012, when calculated in U.S. dollars.

Corporations are increasingly turning to offshore service providers to meet their need for higher quality, cost competitive technology solutions. As a result, offshore service providers have become critical to the operations of many enterprises and these service providers continue to grow in recognition and sophistication. In view of this, the addressable market for offshore technology services has expanded.

The India Advantage

India is widely recognized as the premier destination for offshore technology services. According to the NASSCOM Strategic Review 2012, IT services exports (excluding exports relating to business process outsourcing (BPO), hardware, engineering design and product development) from India are estimated to grow by 16.3% in fiscal 2012, to record revenues of \$40 billion. According to the NASSCOM Strategic Review 2012, BPO exports from India are estimated to record revenues of \$16 billion, which is a growth of over 12% compared to fiscal 2011. There are several key factors contributing to the growth of IT and IT-enabled services (ITES) in India and by Indian companies.

High Quality Delivery. According to the Process Maturity Profile published by the Carnegie Mellon Software Engineering Institute in September 2011, only 5.1% of 4,220 organizations most recently appraised are operating at Level 5, which is the highest level of the CMMi assessment. Out of 462 organizations appraised recently in India, 108 companies are at SEI-CMMi Level 5, higher than any other country in the world. SEI-CMMi is the Carnegie Mellon

Software Engineering Institute's Capability Maturity Model, which assesses the quality of organizations' management system processes and methodologies.

Significant Cost Benefits. The NASSCOM Strategic Review 2012 indicates that India offers the lowest cost of delivery as compared to other offshore locations, with certain cities in India offering savings of approximately 50%-80% over source locations.

Abundant Skilled Resources. India has a large and highly skilled English-speaking labor pool. According to the NASSCOM Strategic Review 2012, approximately 4.5 million students are expected to graduate from Indian universities in fiscal 2012, including approximately 917,000 graduates with technical and post-graduate degrees.

The factors described above also make India the premier destination for services such as business process management. While these advantages apply to many companies with offshore capabilities in India, we believe that there are additional factors critical to a successful, sustainable and scalable technology services business. These factors include the ability to:

- effectively integrate onsite and offshore execution capabilities to deliver seamless, scalable services;
- increase depth and breadth of service offerings to provide a one-stop solution in an environment where enterprises are increasingly reducing the number of technology services vendors they are using;
- develop and maintain knowledge of a broad range of existing and emerging technologies;
- demonstrate significant domain knowledge to understand business processes and requirements;
- leverage in-house industry expertise to customize business solutions for clients;
- attract and retain high-quality technology professionals; and
- make strategic investments in human resources and physical infrastructure or facilities throughout the business cycle.

Evolution of Technology Outsourcing

The nature of technology outsourcing is changing. Historically, enterprises either outsourced their technology requirements entirely or on a standalone project-by-project basis. In an environment of rapid technological change, globalization and regulatory changes, the complete outsourcing model is often perceived to limit a company's operational flexibility and not fully deliver potential cost savings and efficiency benefits. Similarly, project-by-project outsourcing is also perceived to result in increased operational risk and coordination costs and as failing to fully leverage technology service providers' full ranges of capabilities. To address these issues, companies are looking at outsourcing approaches that require their technology service providers to develop specialized systems, processes and solutions along with cost-effective delivery capabilities.

OUR COMPETITIVE STRENGTHS

We believe our competitive strengths include:

Leadership in sophisticated solutions that enable clients to deliver improved business results in addition to optimizing the efficiency of their business. We bring together our expertise in consulting, IT services and business process management to create solutions that allow our clients to transform their business, optimize operations and drive innovation, thus making them more competitive in their market. Our suite of comprehensive, end-to-end business solutions that leverage technology enables us to offer services through our broad network of relationships, increase our dialogue with key decision makers within each client, and increase the points of sale for new clients. As a result, we believe we are able to capture a greater share of our clients' budgets. Our suite of business solutions includes business and technology consulting, enterprise solutions, systems integration, custom application development, application maintenance and production support, infrastructure management, independent testing and validation, product engineering, lifecycle solutions, business process management, software products, business platforms and

solutions.

Proven Global Delivery Model We have a highly evolved Global Delivery Model, which enables us to take work to the location where the best talent is available and to where it makes the best economic sense with the least amount of acceptable risk. Over the last thirty years, we have developed our onsite and offshore execution capabilities to deliver high quality and scalable services. In doing so, we have made substantial investments in our processes, infrastructure and systems and have refined our Global Delivery Model to effectively integrate onsite and offshore technology services. Our Global Delivery Model provides clients with seamless, high quality solutions in reduced timeframes, enabling our clients to achieve operating efficiencies. To address changing industry dynamics, we are continuously refining our Global Delivery Model. Through our Modular Global Sourcing framework, we assist clients in segmenting their internal business processes and applications and outsourcing these segments selectively on a modular basis to reduce risk and cost and to increase operational flexibility. We believe that this approach enables us to retain our leadership position in the industry.

Commitment to Quality and Process Execution. We have developed a new integrated engineering methodology, enabling improved execution capabilities along with our own sophisticated project and program management. We have also developed a service management methodology to enable timely, consistent and accurate delivery of superior quality solutions to maintain a high level of client satisfaction. We benchmark our services and processes against globally recognized quality standards. Our Australia center has been assessed to SEI-CMMi V1.3 Level 5. Mi. Infosys BPO has been certified for eSCM – SP v. 2.0 Level 5, the eSourcing Capability Model for service providers developed by a consortium led by Carnegie Mellon University's Information Technology Services Qualification Center. Our other international quality standards certifications got renewed are ISO 9001: 2008, ISO 27001, ISO 20000, AS EN 9100, BS25999, TL 9000-SV, OHSAS 18001, ISO 14001. We have also received an independent auditors assurance report on compliance to ISAE 3402/SSAE16 and a certification of compliance on PCIDSS V 2.0 for Infosys BPO.

Strong Brand and Long-Standing Client Relationships. We have long-standing relationships with large multinational corporations built on successful prior engagements with them. Our track record of delivering high quality solutions across the entire software life cycle and our strong domain expertise helps us to solidify these relationships and gain increased business from our existing clients. As a result, we have a history of client retention and derive a significant proportion of revenues from repeat clients.

Status as an Employer of Choice. We believe we have some of the best talent in the Indian technology services industry and we are committed to remaining among the industry's leading employers. We have a presence in 13 cities in India, allowing us to recruit technology professionals with specific geographic preferences. Our diverse workforce includes employees of 89 nationalities. Our training programs ensure that new hires enhance their skills in alignment with our requirements and are readily deployable upon completion of their training programs.

Ability to Scale. We have successfully managed our growth by investing in infrastructure and by rapidly recruiting, training and deploying new professionals. We currently have 74 global development centers, the majority of which are located in India. We also have development centers in various countries including Australia, Brazil, Canada, China, Japan, Mauritius, Mexico, Poland, Philippines and at multiple locations in the United States and Europe. Our financial position allows us to make the investments in infrastructure and personnel required to continue growing our business. We can rapidly deploy resources and execute new projects through the scalable network of our global delivery centers. Between March 31, 2008 and March 31, 2012, our total employees grew from approximately 91,200 to approximately 150,000.

Innovation and Leadership. We are a pioneer in the technology services industry. We were one of the first Indian companies to achieve a number of significant milestones, which has enhanced our reputation in the marketplace. For example, we were one of the first companies to develop and deploy a global delivery model and attain SEI-CMMI Level 5 certification for both our offshore and onsite operations. In addition, we were the first Indian company to be

listed on a U.S. stock exchange, and we were also the first Indian company to complete a POWL (Public Offer Without Listing) in Japan. In December 2006, we became the first Indian company to be added to the NASDAQ - 100 index. In 2008, we were selected as an original component member of 'The Global Dow', a world-wide stock index made up of 150 leading blue-chip stocks.

OUR STRATEGY

We seek to further strengthen our position as a leading global consulting and technology company by:

- Strengthening our strategic partnership with our clients;
- Increasing our relevance to clients by being able to work in the entire spectrum of their business; and
- Delivering higher business value to clients through the alignment of our structure and offerings to their business objectives.

To achieve these goals, we seek to:

Increase Business from Existing and New Clients. Our goal is to build enduring relationships with both existing and new clients. With existing clients, we aim to expand the nature and scope of our engagements by increasing the size and number of projects and extending the breadth of our service offerings. For new clients, we seek to provide value-added solutions by leveraging our in-depth industry expertise and expanding the breadth of services offered to them beyond those in the initial engagement. We also seek to increase our recurring business with existing clients by providing product engineering, maintenance, infrastructure management and business process management services which are long-term in nature and require frequent client contact. In order to further improve our business generation capabilities, we have established a Strategic Global Sourcing Group, which is comprised of senior professionals, and seeks to identify, secure and manage new, large, and long-term client engagements.

Continue to Enhance our Engagement Models and Offerings. We seek to continually enhance our portfolio of solutions as a means of developing and growing our business. To differentiate our services, we focus on emerging trends, new technologies, specific industries and pervasive business issues that confront our clients. In the changing world of today, many opportunities are closely linked with advances in IT. In our endeavor to assist our clients in taking advantage of business and technological change, we have identified seven key drivers – digital consumers, emerging economies, sustainable tomorrow, smarter organizations, new commerce, pervasive computing and healthcare economy. We believe that realizing the full potential of these drivers is important for tomorrow's enterprise to forge ahead of its competition. We have aligned our offerings to enable our clients to take advantage of these trends. In 2011, we internally re-organized our offerings into - consulting and systems integration, business IT services and products, and platforms and solutions. By categorizing our offerings this way, we believe we will be able to engage with clients across their key areas of investment: transformation, optimization and innovation. We have also extended our capability into areas such as cloud computing, enterprise mobility and sustainability.

Expand Geographically. We seek to selectively expand our global presence to enhance our ability to serve clients. We plan to accomplish this by establishing new sales and marketing offices, representative offices and global development centers to expand our geographical reach. We intend to further increase our presence in China through Infosys China and Infosys Shanghai, in the Czech Republic and Eastern Europe directly and through Infosys BPO, in Australia through Infosys Australia and Infosys BPO and in Latin America, through Infosys Brazil and Infosys Mexico. We intend to use our operations in these regions to eventually support clients in the local market as well as our global clients.

Continue to Develop Deep Industry Knowledge. We intend to continue to build specialized industry expertise in the financial services and insurance, manufacturing, energy, utilities, communications and services, retail, consumer packaged goods, logistics, life sciences, healthcare and public services industries. We combine deep industry knowledge with an understanding of our clients' needs and technologies to provide high value, quality services. Our

industry expertise can be leveraged to assist clients throughout an industry, thereby improving quality and reducing the cost of services to our clients. We will continue to build on our extensive industry expertise and we plan to provide our services to new industries in the future.

Pursue Alliances and Strategic Acquisitions. We intend to continue to develop alliances that complement our core competencies. Our alliance strategy is targeted at partnering with leading technology providers, which allows us to take advantage of emerging technologies in a mutually beneficial and cost-competitive manner. We also intend to selectively pursue acquisitions that augment our existing expertise, client base or geographical presence. For example, in December 2011, Infosys BPO signed a definitive share sale agreement to acquire 100% of the voting interest in Portland Group Pty Ltd., a strategic sourcing and procurement management services provider based in Australia, for a cash consideration of approximately \$38 million. This business acquisition was completed in January 2012.

Enhance Brand Visibility. We intend to continue to invest in the development of our premium brand identity in the marketplace. Our branding efforts include participating in media and industry analyst events, sponsorship of, and participation in, targeted industry conferences, trade shows, recruiting efforts, community outreach programs and investor relations. We have instituted the ACM-Infosys Foundation Award jointly with the Association of Computing Machinery, or ACM, for the recognition of young scientists and system developers whose innovations have an impact on the computing field. Additionally, the Infosys Science Foundation has instituted an annual award to honor outstanding achievements of researchers and scientists across six categories: Engineering and Computer Sciences, Humanities, Life Sciences, Mathematical Sciences, Physical Sciences and Social Sciences. We believe that a strong and recognizable Infosys brand will continue to facilitate the new-business lead generation process and enhance our ability to attract talented personnel globally.

Continue to Invest in Infrastructure and Employees. We intend to continue to invest in physical and technological infrastructure to support our growing worldwide development and sales operations and to increase our productivity. To enhance our ability to hire and successfully deploy increasingly greater numbers of technology professionals, we intend to continue investing in recruiting, training and maintaining a challenging and rewarding work environment. During fiscal 2012, we received approximately 622,970 employment applications, interviewed approximately 60,860 applicants and extended offers of employment to approximately 41,460 applicants. These statistics do not include Infosys BPO or our other subsidiaries. We have also completed the construction of an employee training facility, the Infosys Global Education Center, in our campus in Mysore, India to further enhance our employee training capabilities. The Infosys Global Education Center can train approximately 14,000 employees at a time.

OUR GLOBAL DELIVERY MODEL

Our Global Delivery Model allows us to take work to the location where the best talent is available and to where it makes the best economic sense with the least amount of acceptable risk. Our Global Delivery Model enables us to derive maximum benefit from:

- access to our large pool of highly skilled technology professionals;
- 24-hour execution capabilities across multiple time zones;
- the ability to accelerate delivery times of large projects by simultaneously processing project components;
- cost competitiveness across geographic regions;
- built-in redundancy to ensure uninterrupted services; and
- a knowledge management system that enables us to re-use solutions where appropriate.

In a typical offshore development project, we assign a team of our technology professionals to visit a client's site to determine the scope and requirements of the project. Once the initial specifications of the project have been established, our project managers return to the relevant global development center to supervise a larger team of technology professionals dedicated to the development or implementation of the solution. Typically, a small team remains at the client's site to manage project coordination and address changes in requirements as the project

progresses. Teams return to the client's site when necessary to ensure seamless integration. To the extent required, a dedicated team provides ongoing maintenance from our global development centers. The client's systems are linked to our facilities enabling simultaneous processing in our global development centers. Our model ensures that project managers remain in control of execution throughout the life of the project regardless of their geographical location.

We have successfully executed projects at all of our global development centers. We have 74 global development centers, of which 33 are located in India, 16 are in North and South America, 20 are in the Asia-Pacific region and five are in Europe. Our largest development centers are located in India. Approximately 72.8% of the total billed person-months for our services rendered during fiscal 2012 originated from our global development centers in India, with the balance efforts being rendered at client sites and our global development centers located outside India.

Our quality control processes and programs are designed to minimize defects and ensure adherence to pre-determined project parameters. Additionally, software quality advisors help individual teams establish appropriate processes for projects and adhere to multi-level testing plans. The project manager is responsible for tracking metrics, including actual effort spent versus initial estimates, project budgeting and estimating the remainder of efforts required on a project.

Our Global Delivery Model mitigates risks associated with providing offshore technology services to our clients. For our communications needs, we use multiple service providers and a mix of terrestrial and optical fiber links with alternate routing. In India, we rely on two telecommunications carriers to provide high-speed links connecting our global development centers. Internationally, we rely on multiple links on submarine cable paths provided by various service providers to connect our Indian global development centers with network hubs in other parts of the world. Our significant investment in redundant infrastructure enables us to provide uninterrupted service to our clients.

MODULAR GLOBAL SOURCING

The nature of technology outsourcing is changing. Historically, enterprises either outsourced their technology requirements entirely or on a standalone project-by-project basis. The complete outsourcing model is perceived to be deficient as a result of:

- the increased pace of technological change;
- continuous change in the business environment due to globalization and deregulation;
- the need to better manage risk in an evolving regulatory environment;
- the failure to deliver promised cost savings and expected benefits; and
- the changing role of technology from merely improving operational efficiency to becoming an integral part of a corporation's strategy.

Similarly, project-by-project outsourcing is also perceived to have its deficiencies, resulting in increased operational risk and coordination costs, as well as the failure to fully leverage service providers' complete range of capabilities.

We have developed our Modular Global Sourcing framework to address these issues and assist clients in evaluating and defining, on both a modular and an enterprise-wide basis, the client's business processes and applications that can be outsourced, and the capabilities required to effectively deliver those processes and applications to the organization. We then assist the client in assessing whether a particular process, application or infrastructure is best retained within the organization or is suitable for outsourcing based on various factors including third-party capabilities, potential cost savings, risks to the organization and importance of the function. Thereafter, we assist in sourcing decisions, the related risk assessments, transitioning, and program management and execution.

Our systematic approach to evaluating an enterprise's IT systems and business processes under the Modular Global Sourcing framework allows us to better align our solutions to our clients' business, operations and IT platforms. As a result, our clients are able to benefit from our Global Delivery Model and potentially realize cost savings, enhanced

efficiencies and competitive advantages, while retaining control and flexibility. Modular Global Sourcing also positions us to offer the broadest range of services to the greatest number of clients and to capture a greater share of our clients' technology budgets.

ORGANIZATION RESTRUCTURING

We internally reorganized ourselves in 2011, which we believe will:

- strengthen our strategic partnership with our clients;
- increase our relevance to clients by being able to work in the entire spectrum of their business; and
- enable us to deliver higher business value to clients through alignment of our structure and offerings to their business objectives.

This internal reorganization consolidated our previous seven business units into four industry units. These new units are:

- Financial Services & Insurance;
- Energy, Utilities, Communications & Services;
- Manufacturing; and
- Retail, Consumer Packaged Goods, Logistics and Life Sciences.

These units are global encompassing the Americas, Europe, APAC and MEA. They each contain complete client service and delivery capabilities for meeting client needs, allowing these units to respond to client needs with domain specific service capabilities.

India and Finacle™ business units continue to be organized as before.

To complement the new internal business unit structure, we have consolidated our offerings into three groups:

- Consulting and Systems Integration comprising consulting, enterprise solutions, systems integration and advanced technologies to transform our clients business;
- Business IT Services comprising application development and maintenance, independent validation services, infrastructure management and business process management to optimize client operations; and
- Products, Platforms and Solutions to accelerate intellectual property led innovation.

OUR SOLUTIONS

Consulting and Systems Integration Services

Infosys' Consulting and Systems Integration (C&SI) services group focuses on delivering best-in-class end-to-end business transformation with a focus on delivering tangible, traceable and quantifiable business value. Our portfolio of services includes providing front-end business strategy consulting services, business requirements definition, business process re-engineering, business and technology solution design, package evaluation and implementation, complex program management, organizational design and change management, systems integration services and upgrades and maintenance. We have a best-in-class value realization method that enables delivery of real business value through tightly linking operational metrics with technology and process decisions.

Additionally, we work with our clients as they leverage commercially available enterprise software packages for large, complex business transformation programs. We provide solutions to help our clients implement and utilize these software packages developed by third party vendors. Our solutions largely relate to product suites from SAP and Oracle and also extend to certain product suites from IBM Corporation, Microsoft Corporation, Pegasystems Inc., Salesforce.com Inc., Software AG and TIBCO Software Inc.

We also provide services to clients in areas such as customer relationship management, supply chain management, human capital management, corporate performance management, business analytics, business process management, enterprise application integration and system integration

For example, for a leading global consumer packaged goods company, we were engaged to re-engineer their order-to-cash process for their largest customers worldwide. These customers included large retailers and processed over 60% of the client's orders. The first phase of the program involved the design and re-engineering of all the core business processes associated with managing orders from these large customers. The second phase involved the configuration and implementation of a leading enterprise software package to enable the new capabilities. The final phase involved rolling out the new application to over 13 countries in Western Europe and the U.S.

For a leading specialty retailer, we were asked to help create an integrated multi-channel retail strategy and roadmap. The client historically had two separate organizations managing its direct (online and catalog) and store businesses, leading to a very fragmented customer experience and little integration or leverage across the enterprise. We first helped create the overarching strategy for integrating the business and creating a smooth customer experience, followed by the development of a three-year roadmap for what capabilities were needed and the initiatives necessary to realize the vision.

Business IT Services

We work with clients worldwide to help them run more efficient IT operations. Our charter for the Business Optimization services is to partner with clients in their journey towards unlocking greater efficiency from their existing IT assets – systems, processes and infrastructure. With our Business Optimization services, we believe clients can achieve sustained operational superiority with the ability to significantly differentiate themselves in the marketplace.

At the heart of our work we deliver best-in-class services ranging across application development, application maintenance, third party testing, large scale IT infrastructure rationalization and business process outsourcing. These offerings are provided to clients across geographies and industry verticals including banking and capital markets, insurance, technology, communications, media, entertainment, energy, utilities, manufacturing, aerospace and defense, pharmaceuticals, healthcare, retail, consumer goods, logistics and public services. We complement our industry expertise with specialized support for our clients. We also leverage the expertise of our various Technology Centres of Excellence and Infosys Labs, our research arm, to create customized solutions for our clients. Finally, we ensure the integrity of our service delivery by utilizing a scalable and secure infrastructure.

We generally assume full project management responsibility in each of our solution offerings. We strictly adhere to our SEI-CMMI Level 5 internal quality and project management processes. Our project delivery focus is supplemented by our knowledge management system that enables us to leverage existing solutions across our company, where appropriate, and develop in-house tools for project management and software life-cycle support. We believe that these processes, methodologies, knowledge management systems and tools help deliver cost-effective solutions to clients, mitigate project-related risks, enhance the quality of our offerings and allow our clients to improve the time-to-market for their solutions.

Custom Software Application Development

We develop customized software solutions for our clients. We aim to provide high-quality solutions that are secure, easy-to-deploy and modular so as to facilitate enhancements and extensions. Our proprietary methodologies also allow our software applications to integrate stringent security measures throughout the software development lifecycle.

We create new applications or enhance the functionalities of our clients' existing software applications. Our projects vary in size and duration. Each project typically involves all aspects of the software development process including

defining requirements, designing, prototyping, programming and module integration, user acceptance testing, user training, installation and maintenance and support of these systems.

We perform system design and software coding and run pilots primarily at our global development centers, while activities relating to the defining of requirements, transition planning, user training, user acceptance testing and deployment are performed at the client's site. Our application development services span the entire range of mainframe, client server, Internet and mobile technologies.

As an example, we were recently engaged by a mobile application and software solutions provider to integrate its award-winning service to a cloud-based platform, which resulted in significant performance improvement, scalability and cost savings. The client's service allows small businesses and consumers to quickly create personalized mobile Internet sites, without code-creation. Infosys developed a usage-based platform for the client that provided a set of developer services for creating a range of flexible, cost-effective solutions via the cloud.

In another instance, we developed a services oriented architecture based order management system for a large global automotive company that operated in multiple countries. The application we developed enables the client to rationalize its order management systems by converging applications across geographies and order management business models. Our development of this application resulted in a significant reduction in the duplication of technology platforms and related services across our client's organization, and a reduction in the cost and time required for the development of new functionality enhancements. In addition, the costs of maintaining the application were significantly reduced compared to the client's legacy systems.

Maintenance and Production Support Services

Our maintenance and production support services help clients improve the availability of their applications portfolio and reduce cost of maintenance. These services also provide clients with insights into their application portfolio and help them optimize the value of that portfolio and manage the risks associated with it. We take a proactive approach to software maintenance and production support, by focusing on long-term functionality, stability and preventive maintenance to avoid problems that typically arise from incomplete or short-term solutions. The practice focus on Application Services has been deepened and it works constantly with the Maintenance Center of Excellence (CoE) to pioneer next generation enhanced maintenance services that enable our clients to reduce lights-on operational spends and focus on strategic transformation. This approach is coupled with stringent quality control processes and global shared services centers. We have also invested in knowledge management and internal development of software processes and tools to increase automation of our delivery systems and thereby enhance productivity.

Our new Integrated Application Management Platform (IAM) has adopted a set of tools to aid in the acquisition, collating and use of organizational knowledge and incident diagnosis in production support. IAM's knowledge management features are able to address multiple issues that commonly arise in the maintenance and support of software and enable our clients to get the benefit of reduced IT support cost, higher-quality first level problem resolution and operational efficiency.

As an example, we have strengthened our relationship with an agribusiness company for a range of IT applications catering to various business functions, including manufacturing, supply chain management, marketing, finance and other enabling functions. Our team of approximately 400 professionals is working with the client's IT and business teams from multiple locations in Europe, the U.S. and India to maintain these applications based on specified service levels. These service levels are monitored regularly for service penalties applicable across the portfolio and tracked consistently with the client.

In another instance, we are working with a leading financial services company that needs to operate continuously in different time zones and maintain high levels of data security and operational reliability. The client partnered with us for continuous production support, including beeper support, life cycle support for bug fixes and enhancements, and

support for analysis requests for one of the critical applications at the company. Using these features, we significantly reduced the time taken to transition production support activities from the client, thereby freeing the company's resources to focus on other business critical tasks. It also enabled the project team to reduce the training period and the number of incidents and increase annual productivity.

Independent Validation Solutions

We offer end-to-end validation solutions, including test consulting, quality assurance organization transformation, testing for large business transformation and testing for package implementations, upgrades and rollouts. These solutions are provided to clients across various industry verticals in relation to custom application engagements, software products and packaged software. Also, keeping in line with the ever changing market and client demands, we have introduced new service offerings such as cloud testing and mobility testing. Our quality assurance solutions are aimed at building high reliability and predictability in our client technology systems within a fixed time frame and at minimal cost.

We have invested internally in developing testing solutions comprising of technology based solutions for test life cycle automation and non-functional testing and vertical specific solutions. We have also built alliances with leading test tool vendors such as HP, IBM, Microsoft, iTKO Lisa, Green Hat, Micro Focus and are involved in building joint solutions with these alliance partners. These testing solutions facilitate high-reliability in our client applications and products while ensuring that they are delivered cost-effectively and with reduced time-to-market. Our dedicated testing professionals are trained at an in-house testing academy along various dimensions including industry domains, technology, quality processes, testing methodologies and project management.

As an example, we are a major quality assurance partner for a leading global financial services firm. Our engagement spans across multiple geographies and business lines of the client, and we provide a broad range of services, including customer relationship management (CRM) package implementation testing, test environment management, data warehouse testing, capacity assessment and performance monitoring of systems and user acceptance testing for risk management applications. We provide these offerings through a "Managed Testing Services" model with centers of specialization for test automation, performance testing, data warehouse testing and user acceptance testing. With our managed testing services model and our test consulting services, we have played a key role in transforming the client's testing organization leading to continuous improvement in quality at reduced costs.

Infrastructure Management Services

Through our infrastructure management services offering, we assist with the transformation of our clients' IT infrastructure. Our service offerings span the areas of Managed Infrastructure Services, Datacenter Optimization, End User Computing, Infrastructure Operations Optimization, and Infrastructure Refresh services. These end-to-end solutions leverage our technical expertise and benchmarked operational processes to help our clients achieve technology-led business transformation with better alignment to business goals, agility in responding to changing business needs, and to manage the costs and complexity of their ever-changing IT infrastructure. Leveraging our consulting-led approach to infrastructure management services, we assist our clients with new IT operations process paradigms, such as virtualization, cloud computing, grid computing, infrastructure-as-utility, "green" IT and help transform our clients' IT environments to leverage these next generation technologies across their data centers, networks, production and end-user computing environments.

Engineering Services

We provide engineering solutions to support our clients across the product lifecycle of our clients' offerings, ranging from product ideation to realization but also from and sustenance to end of life management. Our solutions offerings include the execution of product and software development programs where we operate our development teams as businesses with a relentless pursuit of quality and productivity (e.g., R&D research and development services, design

and development of mechanical, electronic and embedded systems, product globalization, testing and validation), the management of products and commodities management where we combine our engineering, supply chain and business process outsourcing capabilities (e.g., benchmarking, value analysis/engineering, prototyping and sourcing, commodity management, digital manufacturing and automation, manufacturing support, professional services), the participation to product co-innovation where we work with our clients to take their offerings to market and invest along the way (with our solution offerings relating to engineering consulting and mobility), the development, implementation and implementation of business platforms where we design, implement and needed by our client to run operations and ensure full connectivity to the rest of the enterprise maintain engineering systems to support our clients' business processes (e.g., product lifecycle management, manufacturing execution, knowledge-based engineering, innovation and collaboration platforms, telecom network operations, and contact centers), and finally the operation of cross-industry services as shared services where we provide specialized engineering capabilities and assets that allow our client to leverage our scale. as shared services to our clients. Our solution offerings caters to a cross-section of industries including aerospace, automotive, banking and financial services, business services, chemicals, consumer products, energy, high technology, industrial products and equipment, media and entertainment, medical devices, metals and mining, pharmaceuticals, retail, telecommunications and utilities.

Our engagement models vary widely across domains and industry verticals. Our teams vary in size from a few experts working closely with a client engineering leadership team on improving core processes or designing a new technology roadmap to several hundred engineers deeply engaged in all facets of a new program launch be it for a section of an aircraft fuselage or a next generation wireless communication platform. We adjust our approach, execution methodology and KPIs to the specific nature of each situation to ensure that our engineers focus on achieving the right outcome for our clients and that our teams get measured and rewarded in a way that is consistent with our client's own internal business objectives.

Business Process Management

We offer business process management services through Infosys BPO. Infosys BPO enables clients to outsource several process-intensive operations that relate to specific industry vertical processes and functional horizontal processes. Infosys BPO's industry-specific service offerings include the following:

- Banking and financial services -- For our clients in the banking and financial services industry, we offer services in credit card operations, collections, banking operations, mortgage and loan account servicing, payments processing, trade clearing and settlement services, registrar and transfer agency services, fund administration and reporting, reference data management, hedge fund servicing and platform solutions;
- Telecommunications -- For our clients in the telecommunications industry, we offer services in order fulfilment, service assurance, billing and revenue assurance, data cleansing and validation services, telecom-specific analytic offerings, technology-led point solutions;
- Insurance, Healthcare and Life Sciences -- For our clients in the insurance, healthcare and life sciences industries, we offer services in new business fulfilment, pensions and annuities, policy maintenance, claims administration, reinsurance finance and accounting, underwriting, statutory reporting services;
- Manufacturing -- For our clients in the manufacturing industry, we offer services in customer operations, master data management, material planning, mid-office support, product data management, quoting and demand fulfilment, supply chain and logistics support;
- Media and Entertainment -- For our clients in the media and entertainment industry, we offer services in advertisement analytics, content development, content management and desktop publishing;
- Retail and Consumer Packaged Goods (CPG) -- For our clients in the CPG industry, we offer services in master data management, trade promotions management, store solutions, supply chain solutions, reporting and analytics; and
- Energy, Utilities and Services -- For our clients in the energy, utilities and services industries, we offer services in master data management, supplier performance management and analytics, engineering documentation, advanced metering infrastructure support, data validation, new product/feature support and

meter data analytics.

The function-specific service offerings of Infosys BPO include the following:

- Customer Service – Our customer services include customer engagement solutions including sales, ongoing service and recoveries situations, and customer relationship management through various service channels;
- Finance and Accounting – Our finance and accounting services include accounts payable, accounts receivable, billing and invoicing, collections and credit management, general ledger operations, financial planning and control and compliance related services;
- HR Outsourcing – Our HR outsourcing services include payroll processing, benefits administration, learning and development, HR helpdesk, recruitment and staffing services, workforce administration;
- Legal Process Outsourcing – Our legal process outsourcing services include contract management services and solutions, legal process outsourcing, document review services;
- Sales and Fulfillment Operations – Our sales and fulfilment operations services include sales support operations, customer data management, account planning, order administration, customer advocacy, returns management, warranty management, demand forecasting, material and inventory management, reverse logistics; and
- Sourcing and Procurement – Our sourcing and procurement services include sourcing, category management, transactional procurement, performance and compliance management, eBusiness solutions and spend, demand and supply market analytics.

As an example, we manage the end-to-end sales and fulfilment processes, including sales operations, fulfilment operations and revenue operations, for a leading network equipment manufacturer with operations in over 60 countries. By leveraging our domain expertise, operational excellence and technology-focused approach, our customer service representatives provide processing and management support for the consolidation and integration of the client's sales and fulfilment processes. Infosys BPO handles service requests received from partners, resellers and end customers of the client through voice and data support and has, among other things, enabled a reduction in response and resolution time from 56 hours to about 38 hours, leading to increased working capital efficiency.

As another example, we manage the securities processing services across the middle office and back office functions for a global investment bank. We are responsible for the timely clearing of transactions and manage the clearing process for the client's exchange-traded derivatives business globally across 56 exchanges. We perform a number of key functions for this client, including transaction clearing, confirmations, deliveries and reconciliations. We have also partnered with this client to create a shared-services reconciliation utility, which provides end-to-end reconciliation services across product classes such as derivatives, fixed income securities and equity securities within the investment banking operations and aids in the management of operational risk. Our client has experienced significant efficiency improvements and operational benefits as a result of our partnership.

Products, Platforms & Solutions Services

Our products, platforms & solutions are geared to drive innovation-led growth for our clients. They cater to next generation market needs driven by global trends, including digital consumers, emerging economies, new commerce and healthcare. Our offerings leverage technologies in the areas of cloud computing, mobility, big data, rich media and social. By combining products from us and our partners, cloud-based hosting and platform operations, we help clients accelerate the business outcomes they seek.

Our products are licensable systems that deliver functionalities that clients value. They can be used as standalone, customized or as building blocks in a larger enterprise application. They drive a business model that encompasses larger service engagements around the product license. We are investing in both industry-specific and cross-industry products.

For example, our Customer Self - Service Energy Manager, a home energy and demand side management product enables our customers to provide sustainable energy management and revitalized customer service to their own clients. Our Health Benefit Exchange, provides a competitive insurance hub, for individuals and small businesses to buy qualified plans. Infosys Trading Platform helps companies to strategically differentiate their brokerage services by providing superior trading experience to customers. Infosys Omni-Channel Personalization Engine helps retailers foster consumer relationship by presenting personalized content across channels. Our Supply Chain Performance Management Suite provides insight into the supply-demand service chain performance.

Our suite of business platforms, which we refer to as InfosysEdge™, is built around specific themes that provide significant opportunities to enterprises. This suite drives deeper engagement with digital consumers, builds smarter organizations and addresses the needs of emerging markets. Our offerings are powered by best-in-class domain expertise, IP and cloud computing. Our focus is on delivering guaranteed business outcomes that impact either our client's top-line or bottom-line. We host, operate and manage these business platforms on a subscription-based pricing model, providing our clients with rapid time-to-value.

For example, Infosys SocialEdge™, our social media marketing and employee engagement platform helps companies monetize digital demand by harnessing the power of social media to deepen consumer & employee engagement. Infosys BrandEdge™, our digital marketing platform built using our proprietary Infosys BLUE™ framework addresses the comprehensive marketing needs of organizations – from building digital assets and launching marketing campaigns to listening to customers as well as analyzing and acting on customer insights. Infosys CommerceEdge™, our ecommerce and social commerce platform drives multi-channel commerce by enhancing consumer experience, driving traffic and increasing order value. Infosys TalentEdge™, our comprehensive talent management platform enables enterprises to deepen employee engagement and simplify the entire Hire-to-Retire lifecycle of human resource function. Infosys ProcureEdge™, our end-to-end Source-to-Pay helps enterprises realize rapid and sustainable savings across their source-to-pay lifecycle. Infosys WalletEdge™, our mobile commerce and payments platforms enables a financial ecosystem of consumers, merchants, telecoms, banks, government, & enterprises, to tap the potential of mobile commerce. Infosys TradeEdge™, our comprehensive trader partner platform enables global companies to accelerate long-term growth in emerging markets by driving better trade collaboration and bringing visibility and reach on secondary sales.

Infosys BPO's platforms include (i) McCamish Systems' proprietary VPAS and PMACS platforms which provide innovative solutions to the insurance and financial services industries; (ii) solutions in strategic sourcing, category management and managed procurement services provided by Portland Group; and (iii) integrated technology and BPO offerings on a cloud model for human resources and sourcing and procurement services using the TalentEdge™ and Infosys ProcureEdge™ platforms.

Each of our solutions address a specific business opportunity or a challenge, often domain-specific. This includes a unique viewpoint, a method for value delivery and innovation accelerators. Our solutions are early instances of a future product or platform and are typically co-created with clients. We are investing significantly on solutions in the areas of cloud, enterprise mobility and sustainability.

Banking Software Products

Finacle™, our universal banking solution, partners with banks to transform product, process and customer experience, equipping them with 'accelerated innovation' that is key to building tomorrow's bank. Finacle™ is a comprehensive, flexible and fully Web-enabled solution that addresses the core, e-banking, mobile, CRM, wealth management, treasury, and Islamic banking requirements of universal, retail and corporate banks worldwide. Other offerings include the Finacle™ core banking solution for regional rural banks; Finacle™ digital commerce solution, which enables next generation digital payments; Finacle™ alerts solution, which alerts end-users on events recorded by diverse business systems; Finacle™ Advizor, which combines the convenience of human intervention with

banking self-service channels through the interplay of video, audio and data communication; and Finacle™ WatchWiz, a comprehensive new-generation monitoring solution that allows banks to monitor, diagnose and resolve issues.

Our professional services complement the solutions portfolio and include consulting, package implementation, independent validation, migration, application development and maintenance, system integration, software performance engineering and support.

As of March 31, 2012, Finacle™ is the choice of 160 banks across 78 countries and powers operations across 48,500 branches and enables its customer banks to serve 423 million accounts and 347 million consumers worldwide.

OUR CLIENTS

We market our services to large enterprises in North America, Europe and the Asia Pacific region. We have a strong market presence in North America and are working towards expanding our presence in Europe.

Our revenues for the last three fiscal years by geographic area are as follows:

| | Fiscal | | |
|-------------------|--------|--------|--------|
| | 2012 | 2011 | 2010 |
| North America | 63.9% | 65.3% | 65.8% |
| Europe | 21.9% | 21.5% | 23.0% |
| India | 2.2% | 2.2% | 1.2% |
| Rest of the World | 12.0% | 11.0% | 10.0% |
| Total | 100.0% | 100.0% | 100.0% |

We have in-depth expertise in the financial services, manufacturing, telecommunications and retail industries, as well as, to a lesser extent, the utilities and logistics industries. Our revenues for the last three fiscal years by market segment are as follows:

| | Fiscal | | |
|--|--------|--------|--------|
| | 2012 | 2011 | 2010 |
| Financial services and insurance (FSI) | 35.1% | 35.9% | 34.0% |
| Manufacturing enterprises (MFG) | 20.6% | 19.6% | 19.8% |
| Energy, utilities and telecommunication services (ECS) | 21.4% | 24.0% | 25.6% |
| Retail, logistics, consumer product group, life sciences and health care enterprises (RCL) | 22.9% | 20.5% | 20.6% |
| Total | 100.0% | 100.0% | 100.0% |

For fiscal 2012, 2011 and 2010 our largest client contributed 4.3%, 4.7% and 4.6%, respectively, of our total revenues.

The volume of work we perform for specific clients is likely to vary from year to year, particularly since we are not the exclusive external IT services provider for our clients. Thus, a major client in one year may not provide the same level of revenues in a subsequent year. However, in any given year, a limited number of clients tend to contribute a significant portion of our revenues.

SALES AND MARKETING

Our sales and marketing strategies are distinct and complementary.

Sales Strategy: Our sales strategy focuses on the following:

- Adding Value for Our Clients – One of the cornerstones of our sales strategy is to demonstrate the improvements that we are capable of instituting in the operating efficiency and competitiveness of our clients. We highlight to our clients how our solutions can lower a client's cost structure through outsourcing and operational efficiency initiatives, increase their revenues through new and improved product and service offerings, and promote innovation and flexibility in the use of IP and business platforms;
- Enhancing Our Client Base – We seek to win new business from targeted prospects around the globe, and undertake initiatives that promote client loyalty and repeat business among our existing clients. A significant portion of our existing clients, and our target prospects, are Global 2000 companies;
- Expanding Our Geographical Footprint – We seek to accelerate sales growth in underpenetrated markets in developed and emerging economies; and
- Promoting and Building Sustainable Ecosystems – We leverage our alliance relationships in order to capture specific sales opportunities and to support our longer-term vision of creating sustainable ecosystems between us, our partners and our clients. We believe that our focus on our ecosystem is becoming an increasingly important part of our sales strategy as the traditional boundaries between customers and service providers continue to erode and create new opportunities for business generation.

Marketing Strategy: Our marketing strategy complements our sales strategy by:

- Building on our brand as a global company to lead the new wave of global consulting and IT services;
- Providing a defined and robust Internet presence and leveraging social media tools in ways that reflect our image as an innovator and thought leader;
- Collaborating with business partners to market joint solutions and showcase our vision for organizational transformation; and
- Helping identify and manage client and industry events that are aligned to drive sales by showcasing our services, products and strategic alliances.

Sales Execution Strategy: Our sales teams are trained to promote and sell our solutions by articulating the business value that we are able to deliver to our prospects and clients. To do so, we use a cross-functional, integrated sales approach in which our account managers, sales personnel, project managers and business consultants analyze potential projects and collaboratively develop strategies to sell our solutions to potential clients.

Also, all significant sales efforts have an executive-level sponsor to provide requisite oversight and institutionalize the relationship with the prospect or client organization.

This integrated sales approach allows for a smooth transition to execution once the sale is completed, and the institutionalized connection between the organizations strengthens the relationship and helps to address client concerns and changes in project requirements rapidly and effectively.

With existing clients, we constantly seek to expand the nature and scope of our engagements by extending the breadth and volume of services offered, with a focus on increasing our clients' competitiveness through our proven and reliable Global Delivery Model. During fiscal 2012, 2011 and 2010, 97.8%, 98.0% and 97.3% of our revenue came as repeat business from existing clients, respectively. Our onsite project and account managers proactively identify client needs and work with our sales team to structure solutions to address those needs.

Further, client visits offshore also serve as an important mechanism to strengthen client loyalty and trust. Clients interact with their respective Infosys teams, share their own experiences and expectations with us, and in turn get a much better perspective about our strengths and capabilities.

Besides these one-on-one contacts between our clients and Infosys, we also promote client loyalty through a sales, marketing and alliances program that includes media and industry analyst events, sponsorship of, and participation in,

targeted industry conferences, trade shows, recruiting efforts, community outreach and investor relations.

As a result of our growing worldwide brand and presence, prospective clients proactively reach out to us in many cases.

Sales and Marketing Organization. We sell and market our services from 65 sales and marketing offices located in 29 countries. With our global sales operations spread across different parts of the world, we target our efforts towards the world's largest companies. Our sales efforts are complemented by our marketing team, which assists in brand building and other corporate and field-level marketing efforts. As of March 31, 2012, we had 1,132 sales and marketing employees.

COMPETITION

We operate in a highly competitive and rapidly changing market and compete with:

- Consulting firms such as Accenture Limited, Atos Origin S.A., Cap Gemini S.A., and Deloitte Consulting LLP;
- Divisions of large multinational technology firms such as Hewlett-Packard Company and IBM Corporation;
- IT outsourcing firms such as Computer Sciences Corporation, and Dell Perot Systems;
- Offshore technology services firms such as Cognizant Technology Solutions Corporation, Tata Consultancy Services Limited and Wipro Technologies Limited;
- Software firms such as Oracle Corporation and SAP A.G.;
- Business process outsourcing firms such as Genpact Limited and WNS Global Services;
- In-house IT departments of large corporations; and
- Specialty Platform and SaaS companies.

For larger projects, we typically bid against other technology services providers in response to requests for proposals. Clients often cite our Global Delivery Model, comprehensive end-to-end solutions, ability to scale, superior quality and process execution, industry expertise, experienced management team, talented professionals, track record and competitive pricing as reasons for awarding us contracts.

In the future we expect intensified competition from some of the firms above, and may also experience competition from new competitors. In particular, we expect increased competition from firms that strengthen their offshore presence in India or other low-cost locations and from firms in market segments that we have recently entered.

We understand that price alone cannot constitute a sustainable competitive advantage. We believe that the principal competitive factors in our business are:

- the ability to attract and retain high-quality management, technology professionals, and sales personnel;
- the ability to articulate and demonstrate long-term value to potential customers;
- the ability to effectively integrate onsite and offshore execution capabilities to deliver high quality, seamless, scalable, cost-effective services
- the ability to increase the scale and breadth of service offerings to provide one-stop solutions for customer needs;
- the ability to keep pace with ever-changing technology and customer requirements;
- a strong and well-recognized brand;
- a proven track record of performance excellence and customer satisfaction;
- the financial strength to be able to invest in personnel and infrastructure to support the evolving demands of customers; and
- high ethical and corporate governance standards to ensure honest and professional business practices and protect the reputation of the company and its customers.

We believe we compete favorably with respect to these factors.

HUMAN CAPITAL

Our professionals are our most important assets. We believe that the quality and level of service that our professionals deliver are among the highest in the global technology services industry. We are committed to remaining among the industry's leading employers.

As of March 31, 2012, we employed approximately 150,000 employees, of which approximately 141,790 are technology professionals, including trainees. During fiscal 2012, we recorded approximately 19,174 new hires, net of attrition. Our culture and reputation as a leader in the technology services industry enables us to recruit and retain some of the best available talent in India. The key elements that define our culture include:

Recruitment

We have built our global talent pool by recruiting new students from premier universities, colleges and institutes in India and through need-based hiring of project leaders and middle managers. We typically recruit only students in India who have consistently shown high levels of achievement. We also selectively recruit students from campuses in the United States, the United Kingdom, Australia and China. We rely on a rigorous selection process involving a series of aptitude tests and interviews to identify the best applicants. This selection process is continually assessed and refined based on the performance tracking of past recruits.

Our reputation as a premier employer enables us to select from a large pool of qualified applicants. For example, during fiscal 2012, we received approximately 622,970 employment applications, interviewed approximately 60,860 applicants and extended offers of employment to approximately 41,460 applicants. In fiscal 2012, we added approximately 16,069 new employees, net of attrition. These statistics do not include Infosys BPO and our wholly-owned subsidiaries, which together, recruited approximately 3,105 new hires, net of attrition, during fiscal 2012.

Training and Development

Our focus on developing our employees and providing continuing education training continues to be a key element of our strategy. We train the new engineering graduates that join us at our Global Education Center in Mysore. With a total built-up area of 1.44 million square feet, the Infosys Global Education Center can train approximately 14,000 employees at a time.

Our education programs are designed based on the competencies needed to service our clients and are aligned with the specific roles of our professionals. Our training curriculum and offerings are frequently upgraded to meet our business needs. During fiscal 2012 we introduced programs in emerging areas like cloud programming and mobile application development.

As of March 31, 2012, we employed 891 full-time employees as educators, including 310 with doctorate or masters degrees. Our educators conduct training programs for both the new entrants and experienced employees. Our researchers published extensively during the financial year with articles, white papers in prestigious journals and conferences as well as books and invited chapters in reputed publications.

Our engagement with engineering colleges through our Campus Connect program continued last year. Last year, we conducted over 190 faculty enablement workshops covering more than 4,500 faculty members from various colleges.

Leadership development is a core part of our training programs. We established the Infosys Leadership Institute in our 337-acre campus in Mysore, India, to enhance leadership skills that are required to manage the complexities of the

rapidly changing marketplace and to further instill our culture through leadership training.

Compensation

Our technology professionals receive competitive salaries and benefits. We have a performance-linked compensation program that links compensation to individual performance, as well as our company performance.

INTELLECTUAL PROPERTY

Our intellectual property rights are critical to our business. We rely on a combination of patent, copyright, trademark and design laws, trade secrets, confidentiality procedures and contractual provisions to protect our intellectual property. We currently have 47 issued patents granted by the United States Patent and Trademark Office and 1 patent issued by the Luxembourg Patent Office. An aggregate of 474 unique patent applications are pending under various stages of prosecution. We have 18 trademarks registered across classes identified for various goods and services in India and in other countries. We require employees, independent contractors and, whenever possible, vendors to enter into confidentiality agreements upon the commencement of their relationships with us. These agreements generally provide that any confidential or proprietary information developed by us or on our behalf be kept confidential. These agreements also provide that any confidential or proprietary information disclosed to third parties in the course of our business be kept confidential by such third parties. However, our clients usually own the intellectual property in the software we develop for them.

Our efforts to protect our intellectual property may not be adequate. Our competitors may independently develop similar technology or duplicate our products and/or services. Unauthorized parties may infringe upon or misappropriate our products, services or proprietary information. In addition, the laws of India do not protect intellectual property rights to the same extent as laws in the United States. In the future, litigation may be necessary to enforce our intellectual property rights or to determine the validity and scope of the proprietary rights of others. Any such litigation could be time-consuming and expensive.

We could be subject to intellectual property infringement claims as the number of our competitors grows and our product or service offerings overlap with competitive offerings. In addition, we may become subject to such claims since we may not always be able to verify the intellectual property rights of third parties from whom we license a variety of technologies. Defending against these claims, even if they are not meritorious, could be expensive and divert our attention from operating our company. If we become liable to third parties for infringing upon their intellectual property rights, we could be required to pay substantial damage awards and be forced to develop non-infringing technology, obtain licenses or cease selling the applications that contain the infringing technology. The loss of some of our existing licenses could delay the introduction of software enhancements, interactive tools and other new products and services until equivalent technology could be licensed or developed. We may be unable to develop non-infringing technology or obtain licenses on commercially reasonable terms, if at all.

We regard our trade name, trademarks, service marks and domain names as important to our success. We rely on the law to protect our proprietary rights to them, and we have taken steps to enhance our rights by filing trademark applications where appropriate. We have obtained registration of our key brand 'INFOSYS' as a trademark in both India and in the United States. We also aggressively protect these names and marks from infringement by others.

RESEARCH AND DEVELOPMENT

Our research and development efforts focus on developing and refining our methodologies, tools and techniques, improving estimation processes and adopting new technologies. We have several groups engaged in our research and development activities. These groups are listed below.

Education and Research Group. This group is the home to all of our educators engaged in designing, developing and conducting our competency development programs. The group partners with world class academic institutions to conduct joint research in areas that are relevant to our business.

Infosys Labs.

Infosys Labs is organized as a global network of research labs and innovation hubs. We have identified large, multidisciplinary problem spaces that embody the challenges facing our clients and, through Infosys Labs, we are creating technological solutions to solve them. Our enterprise technology research group focuses on a number of topics including visualization, semantic technology, context aware systems and others. Our research also focuses on the software engineering and services innovation aspects.

To enable co-creation of new solutions, an important vehicle that we believe drives innovation, we have set up innovation centers with a number of our clients, university partners, technology partners and industry research bodies. These centers focus on creating affordable solutions for tomorrow's enterprise. These research centers also help increase the productivity of our current service offerings and help create new services.

During the year, we, as a result of the research generated from Infosys Labs, filed 143 unique patent applications in the United States Patent and Trademark Office (USPTO), the Indian Patent Office and other jurisdictions. Our research and development expenses for fiscal 2012, 2011 and 2010 were \$140 million, \$116 million and \$92 million respectively.

EFFECT OF GOVERNMENT REGULATION ON OUR BUSINESS

Regulation of our business by the Indian government affects our business in several ways. We benefit from certain tax incentives promulgated by the Government of India, including a ten-year tax holiday from Indian corporate income taxes for the operation of our Indian facilities located in STPs and tax holidays for operation of our Indian facilities located in SEZs. As a result of these incentives, our operations have been subject to relatively insignificant Indian tax liabilities. The tax holiday for all of our STP units expired as of March 31, 2011. We have also benefited from the liberalization and deregulation of the Indian economy by the successive Indian governments since 1991, including the current Indian government. Further, there are restrictive Indian laws and regulations that affect our business, including regulations that require us to obtain approval from the Reserve Bank of India and/or the Ministry of Finance of the Government of India to acquire companies organized outside India, and regulations that require us, subject to some exceptions, to obtain approval from relevant government authorities in India in order to raise capital outside India. The conversion of our equity shares into ADSs is governed by guidelines issued by the Reserve Bank of India.

In addition, the ability of our technology professionals to work in the United States, Europe and in other countries depends on the ability to obtain the necessary visas and work permits.

As of March 31, 2012, the majority of our technology professionals in the United States held either H-1B visas (approximately 10,115 persons, not including Infosys BPO employees or employees of our wholly owned subsidiaries), which allow the employee to remain in the United States for up to six years during the term of the work permit and work as long as he or she remains an employee of the sponsoring firm, or L-1 visas (approximately 1,988 persons, not including Infosys BPO employees or employees of our wholly owned subsidiaries), which allow the employee to stay in the United States only temporarily. Although there is no limit to new L-1 visas, there is a limit to the aggregate number of new H-1B visas that the U.S. Citizenship and Immigration Services, or CIS, may approve in any government fiscal year which is 85,000 annually. 20,000 of these visas are only available to skilled workers who possess a Master's or higher degree from institutions of higher education in the United States. Further, in response to the terrorist attacks in the United States, the CIS has increased its level of scrutiny in granting new visas. This may, in the future, also lead to limits on the number of L-1 visas granted. In addition, the granting of L-1 visas precludes companies from obtaining such visas for employees with specialized knowledge: (1) if such employees will be

stationed primarily at the worksite of another company in the U.S. and the employee will not be controlled and supervised by his or her employer, or (2) if such offsite placement is essentially an arrangement to provide labor for hire rather than in connection with the employee's specialized knowledge. Immigration laws in the United States may also require us to meet certain levels of compensation, and to comply with other legal requirements, including labor certifications, as a condition to obtaining or maintaining work visas for our technology professionals working in the United States.

Immigration laws in the United States and in other countries are subject to legislative change, as well as to variations in standards of application and enforcement due to political forces and economic conditions. For instance, the U.S. government is considering the enactment of an Immigration Reform Bill, and the United Kingdom government has recently introduced an interim limit on the number of visas that may be granted. Further, effective August 14, 2010, the CIS has announced a fee increase of \$2,000 for certain H-1B visa petitions and \$2,250 for certain L-1 visa petitions. It is difficult to predict the political and economic events that could affect immigration laws, or the restrictive impact they could have on obtaining or monitoring work visas for our technology professionals. Our reliance on work visas for a significant number of technology professionals makes us particularly vulnerable to such changes and variations as it affects our ability to staff projects with technology professionals who are not citizens of the country where the work is to be performed. As a result, we may not be able to obtain a sufficient number of visas for our technology professionals or may encounter delays or additional costs in obtaining or maintaining the conditions of such visas. Additionally, we may have to apply in advance for visas and this could result in additional expenses during certain quarters of the fiscal year.

One of our employees has filed a lawsuit against us which alleged, among other things, that we were improperly utilizing the U.S. B-1 business visitor visa program. Following the filing of such lawsuit, a United States senator submitted a letter to U.S. Secretary of State and Secretary of Homeland Security, requesting that their respective departments review the B-1 business visa program and investigate the manner in which it is being utilized by companies, including Infosys. In the event that the U.S. government undertakes any actions which limit the B-1 business visa program or other visa program that we utilize, this could materially and adversely affect our business and results of operations.

LEGAL PROCEEDINGS

On May 23, 2011, we received a subpoena from a grand jury in the United States District Court for the Eastern District of Texas. The subpoena requires that we provide to the grand jury certain documents and records related to our sponsorships for, and uses of, B1 business visas. We are complying with the subpoena. In connection with the subpoena, during a recent meeting with the United States Attorney's Office for the Eastern District of Texas, we were advised that we and certain of our employees are targets of the investigation. We intend to have further discussions with the U.S. Attorney's Office regarding this matter, however, we cannot predict the outcome of the investigation by, or discussions with, the U.S. Attorney's Office.

In addition, the U.S. Department of Homeland Security (DHS or the Department) is undertaking a review of our employer eligibility verifications on Form I-9 with respect to our employees working in the United States. In connection with this review, we have been advised that the DHS has found errors in a significant percentage of our Forms I-9 that the Department has reviewed. In the event that the DHS ultimately concludes that our Forms I-9 contained errors, the Department would likely impose fines and penalties on us. At this time, we cannot predict the final outcome of the review by, or the discussions with, the DHS or other governmental authority regarding the review of our Forms I-9.

In addition, we are subject to legal proceedings and claims, which have arisen in the ordinary course of our business. Our management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on our results of operations or financial condition.

ORGANIZATIONAL STRUCTURE

We hold a majority interest in the following company:

Infosys BPO. Infosys established Infosys BPO in April 2002, under the laws of India. As of March 31, 2012, Infosys holds 99.98% of the outstanding equity shares of Infosys BPO.

Infosys is the sole shareholder of the following companies:

Infosys Australia. In January 2004, we acquired, for cash, 100% of the equity in Expert Information Services Pty. Limited, Australia. The acquired company was renamed as 'Infosys Technologies (Australia) Pty. Limited'.

Infosys China. In October 2003, we established a wholly-owned subsidiary, Infosys China in Shanghai, China, to expand our business operations in China.

Infosys Mexico. In June 2007, we established a wholly-owned subsidiary, Infosys Mexico to expand our business operations in Latin America.

Infosys Sweden. In March 2009, we incorporated a wholly owned subsidiary, Infosys Technologies (Sweden) AB to expand our operations in Europe.

Infosys Brasil. On August 7, 2009, we incorporated a wholly owned subsidiary, Infosys Tecnologia do Brasil Ltda to expand our operations in South America

Infosys Public Services. On October 9, 2009, we incorporated a wholly-owned subsidiary, Infosys Public Services, to focus and expand our operations in the U.S public services market.

Infosys Shanghai. On February 21, 2011, we incorporated a wholly-owned subsidiary, Infosys Technologies (Shanghai) Company Limited.

Infosys Consulting Inc. In April 2004, we incorporated a wholly-owned subsidiary, Infosys Consulting Inc., in the State of Texas to add high-end consulting capabilities to our global delivery model. On October 7, 2011, the board of directors of Infosys Consulting Inc., approved the termination and winding down of the entity, and entered into an assignment and assumption agreement with Infosys Limited. The termination of Infosys Consulting, Inc. became effective on January 12, 2012, in accordance with the Texas Business Organizations Code. Effective January 12, 2012, the assets and liabilities of Infosys Consulting, Inc., were transferred to Infosys Limited.

Infosys Consulting India Limited. Infosys Consulting India is a wholly owned subsidiary of Infosys Consulting Inc. Effective January 12, 2012, the assets and liabilities of Infosys Consulting, Inc., were transferred to Infosys Limited. Consequently, Infosys Consulting India Limited is now a wholly owned subsidiary of Infosys Limited.

PROPERTY, PLANTS AND EQUIPMENT

Our principal campus, "Infosys City" is located at Electronics City, Bangalore, India. Infosys City consists of approximately 3.55 million square feet of land and 4 million square feet of operational facilities. The campus features:

- 1,200,000 square feet of landscaped area;
- 453 conference rooms;
- An Education and Research unit consisting of 115,000 square feet of facilities space, including a library, 6 class rooms, 12 laboratories, computer-based learning and audio-visual aids, and 60 faculty rooms;

Edgar Filing: Infosys Ltd - Form 20-F

- A Management Development Center consisting of 75,500 square feet of facilities space, with 16 class rooms, 6 rooms with workstations and 24 faculty rooms;
- A world-class conference room with the capacity to simultaneously video-conference 24 locations across the globe;
- A Convention Centre with a seating capacity of 1,400, state-of-the-art audio and video technology and basement car parking facilities with a capacity of 150 cars;
- A banquet hall with a seating capacity of 900 with video conferencing facilities;
- Redundant power supply through captive generators;
- Leisure facilities, including tennis courts, a miniature golf course, a basketball court, a swimming pool, health club and a bookstore;
- A multi-level parking lot with a capacity to park 1,600 cars and 800 two wheelers;
- A multi-cuisine restaurant, six food courts and accommodation facilities; and
- A store selling Infosys branded merchandise.

Additionally, we have leased independent facilities measuring approximately 373,500 square feet in Electronics City which accommodates approximately 4,100 employees.

Our capital expenditure on property, plant and equipment for fiscal 2012, 2011 and 2010 was \$301 million, \$285 million and \$138 million, respectively. As of March 31, 2012 we had contractual commitments for capital expenditure of \$205 million. All our capital expenditures are financed out of cash generated from operations.

Our software development facilities are equipped with a world-class technology infrastructure that includes networked workstations, servers, data communication links and video-conferencing.

We have 18 sales and marketing offices in the United States, four each in Australia, India and Germany, three each in Canada, Switzerland, UAE and UK, two each in the Czech Republic, Japan and France and one each in Belgium, Brazil, Denmark, Finland, Hong Kong, Ireland, Malaysia, Mauritius, Mexico, the Netherlands, New Zealand, Norway, Russia, Singapore, Spain, South Africa and Sweden. We believe our facilities are adequately utilized. Appropriate expansion plans are being undertaken to meet our expected future growth.

Our most significant leased and owned properties are listed in the table below. We have only listed our leased and owned properties that are in excess of 100,000 square feet, and each such facility is located in India.

| Location | Building Approx. Sq. ft. | Land Approx Sq. ft. | Ownership |
|---|-----------------------------|------------------------|-----------|

Item 4A. Unresolved Staff Comments

None

Item 5. Operating and Financial Review and Prospects

The consolidated financial statements of the Company included in this Annual Report on Form 20-F have been prepared in accordance with International Financial Reporting Standards as issued by International Accounting Standards Board. The discussion, analysis and information presented in this section should be read in conjunction with our consolidated financial statements included herein and the notes thereto.

OPERATING RESULTS

This information is set forth under the caption entitled 'Management's Discussion and Analysis of Financial Condition and Results of Operations' below and is incorporated herein by reference.

LIQUIDITY AND CAPITAL RESOURCES

This information is set forth under the caption entitled 'Management's Discussion and Analysis of Financial Condition and Results of Operations' below and is incorporated herein by reference.

RESEARCH AND DEVELOPMENT, PATENTS AND LICENSES, ETC.

We have committed and expect to continue to commit in the future, a material portion of our resources to research and development. Efforts towards research and development are focused on refinement of methodologies, tools and techniques, implementation of metrics, improvement in estimation process and the adoption of new technologies.

Our research and development expenses for the fiscal year ended March 31, 2012, 2011 and 2010 were \$140 million, \$116 million and \$92 million, respectively.

TREND INFORMATION

This information is set forth under the caption entitled “Management's Discussion and Analysis of Financial Condition and Results of Operations” below and is incorporated herein by reference.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are a leading global technology services company that provides business consulting, technology, engineering and outsourcing services. In addition, we offer software products for clients in the banking industry.

Our professionals deliver high quality solutions by leveraging our Global Delivery Model through which we divide projects into components that we execute simultaneously at client sites and at our development centers in India and around the world. We seek to optimize our cost structure by maintaining the flexibility to execute project components where it is most cost effective. Our Global Delivery Model also allows us to provide clients with high quality solutions in reduced time-frames enabling them to achieve operational efficiencies. Our sales, marketing and business development teams are organized to focus on specific geographies and industries and this helps us to customize our service offerings to our client's needs. Our primary geographic markets are North America, Europe and the Asia Pacific region. We serve clients in financial services, manufacturing, telecommunications, retail, utilities, logistics and other industries.

There is an increasing need for highly skilled technology professionals in the markets in which we operate and in the industries to which we provide services. At the same time, companies are reluctant to expand their internal IT departments and increase costs. These factors have increased the reliance of companies on their outsourced technology service providers and are expected to continue to drive future growth for outsourced technology services. We believe that because the effective use of offshore technology services may offer lower total costs of ownership of IT infrastructure, lower labor costs, improved quality and innovation, faster delivery of technology solutions and more flexibility in scheduling, companies are increasingly turning to offshore technology service providers. India, in particular, has become a premier destination for offshore technology services. The key factors contributing to the growth of IT and IT enabled services in India include high quality delivery, significant cost benefits and the availability of skilled IT professionals. Our proven Global Delivery Model, our comprehensive end to end solutions, our commitment to superior quality and process execution, our long standing client relationships and our ability to scale make us one of the leading offshore technology service providers in India.

There are numerous risks and challenges affecting the business. These risks and challenges are discussed in detail in the section entitled 'Risk Factors' and elsewhere in this Annual Report on Form 20-F.

We were founded in 1981 and are headquartered in Bangalore, India. We completed our initial public offering of equity shares in India in 1993 and our initial public offering of ADSs in the United States in 1999. We completed three sponsored secondary ADS offerings in the United States in August 2003, June 2005 and November 2006. We did not receive any of the proceeds from any of our sponsored secondary offerings.

During fiscal 2010, we incorporated two wholly-owned subsidiaries, Infosys Tecnologia do Brasil Ltda and Infosys Public Services, Inc., and, Infosys Consulting incorporated a wholly-owned subsidiary, Infosys Consulting India Limited.

During fiscal 2011, we incorporated a wholly owned subsidiary, Infosys Technologies (Shanghai) Company Limited.

In June 2011, we officially changed our name from “Infosys Technologies Limited” to “Infosys Limited,” following approval of the name change by our board of directors, shareholders and Indian regulatory authorities.

On October 7, 2011, the board of directors of Infosys Consulting Inc., approved the termination and winding down of the entity, and entered into an assignment and assumption agreement with Infosys Limited. The termination of Infosys Consulting, Inc. became effective on January 12, 2012, in accordance with the Texas Business Organizations Code. Effective January 12, 2012, the assets and liabilities of Infosys Consulting, Inc., were transferred to Infosys Limited.

At our Annual General Meeting held on June 11, 2011, our shareholders approved a final dividend of \$0.45 per equity share, which in the aggregate resulted in a cash outflow of \$296 million, inclusive of corporate dividend tax of \$42 million.

Our Board of Directors, at their meeting held on October 12, 2011, approved payment of an interim dividend of approximately \$0.31 per equity share. The dividend payment resulted in a cash outflow of approximately \$205 million, including a corporate dividend tax of \$28 million, and was paid to holders of our equity shares and ADSs in October 2011.

Further, our Board of Directors, in its meeting on April 13, 2012, proposed a final dividend of approximately \$0.43 per equity share (22 per equity share) and a special dividend, recognizing ten years of Infosys BPO’s operations, of approximately \$0.20 per equity share (10 per equity share). The proposal is subject to the approval of shareholders at the Annual General Meeting to be held on June 9, 2012, and if approved, would result in a cash outflow of approximately \$420 million, inclusive of corporate dividend tax of \$59 million.

Infosys BPO is our majority-owned subsidiary. During fiscal 2008, Infosys BPO acquired 100% of the equity shares of P-Financial Services Holding B.V. This business acquisition was conducted by entering into a Sale and Purchase Agreement with Koninklijke Philips Electronics N.V. (Philips), a company incorporated under the laws of the Netherlands, for acquiring the shared service centers of Philips for finance, accounting and procurement business in Poland, Thailand and India for a cash consideration of \$27 million. During fiscal 2009, the investments held by P-Financial Services Holding B.V. in its wholly owned subsidiaries Pan-Financial Shared Services India Private Limited, Infosys BPO (Poland) Sp. Z.o.o., and Infosys BPO (Thailand) Limited were transferred to Infosys BPO, consequent to which P-Financial Services Holding B.V. was liquidated. Further, Infosys BPO merged its wholly owned subsidiary Pan-Financial Shared Services India Private Limited, retrospectively with effect from April 1, 2008, through a scheme of amalgamation sanctioned by the Karnataka and Madras High courts. During the year ended March 31, 2011 Infosys BPO (Thailand) Limited was liquidated.

During fiscal 2010, Infosys BPO acquired 100% of the voting interests in McCamish Systems LLC (McCamish), a business process solutions provider based in Atlanta, Georgia, in the United States. The business acquisition was conducted by entering into a Membership Interest Purchase Agreement for a cash consideration of \$37 million and a contingent consideration of up to \$20 million. The fair value of the contingent consideration on the date of acquisition was \$9 million. On January 4, 2012, Infosys BPO acquired 100% of the voting interest in Portland Group Pty Ltd a strategic sourcing and category management services provider based in Australia. This business acquisition was conducted by entering into a share sale agreement for a cash consideration of \$41 million.

The following table illustrates our growth in revenues, net profit, earnings per equity share and number of employees from fiscal 2008 to fiscal 2012:

(Dollars in millions except share data)

| | 2012 | 2008 | Compound annual growth rate |
|--|------|------|-----------------------------|
| | | | |

Edgar Filing: Infosys Ltd - Form 20-F

| | | | |
|---|---------|---------|-------|
| Revenues | \$6,994 | \$4,176 | 10.9% |
| Net profit | \$1,716 | \$1,163 | 8.1% |
| Earnings per equity share (Basic) | \$3.00 | \$2.04 | 8.0% |
| Earnings per equity share (Diluted) | \$3.00 | \$2.04 | 8.0% |
| Approximate number of employees at the end of the fiscal year | 150,000 | 91,200 | 10.5% |

Our revenue growth was attributable to a number of factors, including an increase in the size and number of projects executed for clients, as well as an expansion in the solutions that we provide to our clients. We added 172 new customers during fiscal 2012 as compared to 139 new customers during fiscal 2011 and 141 new customers during fiscal 2010. For fiscal 2012, 2011 and 2010, 97.8%, 98.0% and 97.3%, respectively, of our revenues came from repeat business, which we define as revenue from a client who also contributed to our revenue during the prior fiscal year.

Our business is designed to enable us to seamlessly deliver our onsite and offshore capabilities using a distributed project management methodology, which we refer to as our Global Delivery Model. We divide projects into components that we execute simultaneously at client sites and at our geographically dispersed development centers in India and around the world. Our Global Delivery Model allows us to provide clients with high quality solutions in reduced time-frames enabling them to achieve operational efficiencies.

Revenues

Our revenues are generated principally from technology services provided on either a time-and-materials or a fixed-price, fixed-timeframe basis. Revenues from services provided on a time-and-materials basis are recognized as the related services are performed. Revenues from services provided on a fixed-price, fixed-timeframe basis are recognized pursuant to the percentage-of-completion method. Most of our client contracts, including those that are on a fixed-price, fixed-timeframe basis can be terminated by clients with or without cause, without penalties and with short notice periods of between 0 and 90 days. Since we collect revenues on contracts as portions of the contracts are completed, terminated contracts are only subject to collection for portions of the contract completed through the time of termination. Most of our contracts do not contain specific termination-related penalty provisions. In order to manage and anticipate the risk of early or abrupt contract terminations, we monitor the progress on all contracts and change orders according to their characteristics and the circumstances in which they occur. This includes a focused review of our ability and our client's ability to perform on the contract, a review of extraordinary conditions that may lead to a contract termination, as well as historical client performance considerations. Since we also bear the risk of cost overruns and inflation with respect to fixed-price, fixed-timeframe projects, our operating results could be adversely affected by inaccurate estimates of contract completion costs and dates, including wage inflation rates and currency exchange rates that may affect cost projections. Losses on contracts, if any, are provided for in full in the period when determined. Although we revise our project completion estimates from time to time, such revisions have not, to date, had a material adverse effect on our operating results or financial condition. We also generate revenue from software application products, including banking software. Such software products represented 4.6%, 4.9% and 4.2% of our total revenues for fiscal 2012, 2011 and 2010, respectively.

We experience from time to time, pricing pressure from our clients. For example, clients often expect that as we do more business with them, they will receive volume discounts. Additionally, clients may ask for fixed-price, fixed-time frame arrangements or reduced rates. We attempt to use fixed-price arrangements for engagements where the specifications are complete, so individual rates are not negotiated.

Cost of Sales

Cost of sales represented 58.9%, 57.9% and 57.2% of total revenues for fiscal 2012, 2011 and 2010, respectively. Our cost of sales primarily consists of salary and other compensation expenses, depreciation, amortization of intangible assets, overseas travel expenses, cost of software purchased for internal use, third party items bought for service delivery to clients, cost of technical subcontractors, rent and data communication expenses. We depreciate our

personal computers, mainframe computers and servers over two to five years and amortize intangible assets over their estimated useful life. Third party items bought for service delivery to clients are expensed on acceptance of delivery by the client. We recorded share-based compensation expense of less than \$1 million under cost of sales during fiscal 2010 using the fair value recognition provisions contained in IFRS 2, Share-based Payment. For fiscal 2012 and 2011, the share-based compensation expense was nil. Amortization expense for fiscal 2012, 2011 and 2010 included under cost of sales was \$3 million, \$2 million and \$8 million, respectively.

We typically assume full project management responsibility for each project that we undertake. Approximately 72.8%, 74.0% and 75.8% of the total billed person-months for our services during fiscal 2012, 2011 and 2010, respectively, were performed at our global development centers in India, and the balance of the work was performed at client sites and global development centers located outside India. The proportion of work performed at our facilities and at client sites varies from quarter to quarter. We charge higher rates and incur higher compensation and other expenses for work performed at client sites and global development centers located outside India. Services performed at a client site or at a global development center located outside India typically generate higher revenues per-capita at a lower gross margin than the same services performed at our facilities in India. As a result, our total revenues, cost of sales and gross profit in absolute terms and as a percentage of revenues fluctuate from quarter- to- quarter based in part on the proportion of work performed outside India. We intend to hire more local employees in many of the overseas markets in which we operate, which could decrease our gross profits due to increased wage and hiring costs. Additionally, any increase in work performed at client sites or global development centers located outside India may decrease our gross profits. We hire subcontractors on a limited basis from time to time for our own technology development needs, and we generally do not perform subcontracted work for other technology service providers. For fiscal 2012, 2011 and 2010, approximately 3.9%, 3.8% and 2.9%, respectively, of our cost of sales was attributable to cost of technical subcontractors. We do not anticipate that our subcontracting needs will increase significantly as we expand our business.

Revenues and gross profits are also affected by employee utilization rates. We define employee utilization as the proportion of total billed person months to total available person months, excluding administrative and support personnel. We manage utilization by monitoring project requirements and timetables. The number of software professionals that we assign to a project will vary according to the size, complexity, duration, and demands of the project. An unanticipated termination of a significant project could also cause us to experience lower utilization of technology professionals, resulting in a higher than expected number of unassigned technology professionals. In addition, we do not utilize our technology professionals when they are enrolled in training programs, particularly during our 20-29 week training course for new employees.

Selling and Marketing Expenses

Selling and marketing expenses represented 5.2%, 5.5% and 5.2% of total revenues for fiscal 2012, 2011 and 2010, respectively. Our selling and marketing expenses primarily consist of expenses relating to salaries and other compensation expenses of sales and marketing personnel, travel expenses, brand building, commission charges, rental for sales and marketing offices and telecommunications. We recorded share-based compensation expense of less than \$1 million in selling and marketing expenses during fiscal 2010, using the fair value recognition provisions contained in IFRS 2. For fiscal 2012 and 2011, the share-based compensation expense was nil. We may increase our selling and marketing expenses as we seek to increase brand awareness among target clients and promote client loyalty and repeat business among existing clients.

Administrative Expenses

Administrative expenses represented 7.1%, 7.2% and 7.2% of total revenues for fiscal 2012, 2011 and 2010, respectively. Our administrative expenses primarily consist of expenses relating to salaries and other compensation expenses of senior management and other support personnel, travel expenses, legal and other professional fees, telecommunications, office maintenance, power and fuel charges, insurance, other miscellaneous administrative costs

and provisions for doubtful accounts receivable. The factors which affect the fluctuations in our provisions for bad debts and write offs of uncollectible accounts include the financial health of our clients and of the economic environment in which they operate. We recorded share-based compensation expense of less than \$1 million in administrative expenses during fiscal 2010 using the fair value recognition provisions contained in IFRS 2. For fiscal 2012 and 2011, the share-based compensation expense was nil.

Other Income

Other income includes interest income, income from certificates of deposit, income from available-for-sale financial assets, marked to market gains / (losses) on foreign exchange forward and option contracts and foreign currency exchange gains / (losses) on translation of other assets and liabilities. For fiscal 2012, the interest income on deposits and certificates of deposit was \$374 million and income from available-for-sale financial assets / investments was \$6 million. In fiscal 2012, we also recorded a foreign exchange gain of \$70 million on translation of other assets and liabilities partially offset by a foreign exchange loss of \$57 million on forward and options contracts. For fiscal 2011, the interest income on deposits and certificates of deposit was \$250 million and income from available-for-sale financial assets / investments was \$5 million. In fiscal 2011, we also recorded a foreign exchange gain of \$13 million on forward and options contracts, partially offset by a foreign exchange loss of \$4 million on translation of other assets and liabilities. For fiscal 2010, the interest income on deposits and certificates of deposit was \$164 million and income from available-for-sale financial assets / investments was \$34 million. In fiscal 2010, we also recorded a foreign exchange gain of \$63 million on forward and options contracts, partially offset by a foreign exchange loss of \$57 million on translation of other assets and liabilities. Income from available-for-sale financials assets/investments includes \$11 million of income from sale of an unlisted equity securities.

Functional Currency and Foreign Exchange

The functional currency of Infosys, Infosys BPO and Infosys Consulting India is the Indian rupee. The functional currencies for Infosys Australia, Infosys China, Infosys Mexico, Infosys Sweden, Infosys Brasil, Infosys Public Services and Infosys Shanghai are the respective local currencies. The consolidated financial statements included in this Annual Report on Form 20-F are presented in U.S. dollars (rounded off to the nearest million) to facilitate global comparability. The translation of functional currencies of foreign operations to U.S. dollars is performed for assets and liabilities using the exchange rate in effect at the balance sheet date, and for revenue, expenses and cash flow items using a monthly average exchange rate for the respective periods. The gains or losses resulting from such translation are included in other comprehensive income and presented as currency translation reserves under other components of equity.

Generally, Indian law requires residents of India to repatriate any foreign currency earnings to India to control the exchange of foreign currency. More specifically, Section 8 of the Foreign Exchange Management Act, or FEMA, requires an Indian company to take all reasonable steps to realize and repatriate into India all foreign currency earned by the company outside India, within such time periods and in the manner specified by the Reserve Bank of India, or RBI. The RBI has promulgated guidelines that require the company to repatriate any realized foreign currency back to India, and either:

- sell it to an authorized dealer for Rupees within seven days from the date of receipt of the foreign currency;
- retain it in a foreign currency account such as an Exchange Earners Foreign Currency, or EEFC, account with an authorized dealer; or
- use it for discharge of debt or liabilities denominated in foreign currency.

We typically collect our earnings and pay expenses denominated in foreign currencies using a dedicated foreign currency account located in the local country of operation. In order to do this, we are required to, and have obtained, special approval from the RBI to maintain a foreign currency account in overseas countries like the United States. However, the RBI approval is subject to limitations, including a requirement that we repatriate all foreign currency in

the account back to India within a reasonable time, except an amount equal to our local monthly operating cost for our overseas branch. We currently pay such expenses and repatriate the remainder of the foreign currency to India on a regular basis. We have the option to retain those in an EEFC account (foreign currency denominated) or an Indian-rupee-denominated account. We convert substantially all of our foreign currency to Indian rupees to fund operations and expansion activities in India.

Our failure to comply with these regulations could result in RBI enforcement actions against us.

Income Taxes

Our net profit earned from providing software development and other services outside India is subject to tax in the country where we perform the work. Most of our taxes paid in countries other than India can be applied as a credit against our Indian tax liability to the extent that the same income is subject to tax in India.

We benefit from the tax incentives the Government of India gives to the export of software from specially designated software technology parks, or STPs, in India and for facilities set up under the Special Economic Zones Act, 2005. The STP Tax Holiday was available for ten consecutive years beginning from the financial year when the unit started producing computer software or April 1, 1999, whichever was earlier. The Indian Government through the Finance Act, 2009 had extended the tax holiday for the STP units until March 31, 2011. The tax holidays for all of our STP units expired by the end of fiscal 2011. Under the Special Economic Zones Act, 2005 scheme, units in designated special economic zones which begin providing services on or after April 1, 2005 are eligible for a deduction of 100 percent of profits or gains derived from the export of services for the first five years from commencement of provision of services and 50 percent of such profits or gains for the five years thereafter. Certain tax benefits are also available for a further five years subject to the unit meeting defined conditions. When our tax holidays expire or terminate, our tax expense will materially increase, reducing our profitability.

As a result of these tax incentives, a portion of our pre-tax income has not been subject to significant tax in recent years. These tax incentives resulted in a decrease in our income tax expense of \$202 million, \$173 million and \$223 million for fiscal 2012, 2011 and 2010, respectively, compared to the effective tax amounts that we estimate we would have been required to pay if these incentives had not been available. The per share effect of these tax incentives for fiscal 2012, 2011 and 2010 was \$0.35, \$0.30, and \$0.39, respectively.

Further, as a result of such tax incentives our effective tax rate for fiscal 2012, 2011 and 2010 was 28.8%, 26.7% and 21.3%, respectively. The increase in the effective tax rate to 28.8% for fiscal 2012 was mainly due to the expiration of the tax holiday period for our STP units and movement of one of our SEZ units from the 100% tax exempt category to the 50% tax exempt category due to completion of its first five years of operations and increase in taxes on non operating income. Our Indian statutory tax rate for the same period was 32.45%.

Pursuant to the enacted changes in the Indian Income Tax Laws effective April 1, 2007, a Minimum Alternate Tax (MAT) has been extended to income in respect of which a deduction may be claimed under section 10A of the Income Tax Act for STP units. Further, the Finance Act, 2011, which became effective April 1, 2011, extended MAT to SEZ operating and SEZ developer units also. Consequently, Infosys BPO has calculated its tax liability for current domestic taxes after considering MAT. The excess tax paid under MAT provisions being over and above regular tax liability can be carried forward and set off against future tax liabilities computed under regular tax provisions. Infosys BPO was required to pay MAT, and, accordingly, a deferred tax asset of \$11 million and \$14 million has been recognized on the balance sheet as of March 31, 2012 and March 31, 2011, respectively, which can be carried forward for a period of ten years from the year of recognition.

In addition, the Finance Act, 2011, which became effective April 1, 2011, extended MAT to SEZ operating and SEZ developer units also, which means that income in respect of which a deduction may be claimed under section 10AA or 80IAB of the Income Tax Act has to be included in book profits for computing MAT liability. With the growth of our

business in SEZ units, we may be required to compute our tax liability under MAT in future years.

We, as an Indian resident, are required to pay taxes in India on the entire global income in accordance with Section 5 of the Indian Income Tax Act, 1961, which is reflected as domestic taxes. The geographical segment disclosures on revenue in note 2.20.2 of Item 18 of this Annual Report are based on the location of customers and do not reflect the geographies where the actual delivery or revenue-related efforts occur. The income on which domestic taxes are imposed are not restricted to the income generated from the “India” geographic segment. As such, amounts applicable to domestic income taxes and foreign income taxes will not necessarily correlate to the proportion of revenue generated from India and other geographical segments as per the geographic segment disclosure set forth in note 2.20.2 of Item 18 of this Annual Report.

Results of Operations

The following table sets forth certain financial information as a percentage of revenues:

| | Fiscal | | |
|--------------------------------|--------|--------|--------|
| | 2012 | 2011 | 2010 |
| Revenues | 100.0% | 100.0% | 100.0% |
| Cost of sales | 58.9% | 57.9% | 57.2% |
| Gross profit | 41.1% | 42.1% | 42.8% |
| Operating expenses: | | | |
| Selling and marketing expenses | 5.2% | 5.5% | 5.2% |
| Administrative expenses | 7.1% | 7.2% | 7.2% |
| Total operating expenses | 12.3% | 12.7% | 12.4% |
| Operating profit | 28.8% | 29.4% | 30.4% |
| Other income, net | 5.7% | 4.4% | 4.3% |
| Profit before income taxes | 34.5% | 33.8% | 34.7% |
| Income tax expense | 9.9% | 9.0% | 7.4% |
| Net profit | 24.6% | 24.8% | 27.3% |

Results for Fiscal 2012 compared to Fiscal 2011

Revenues

The following table sets forth the growth in our revenues in fiscal 2012 from fiscal 2011:
(Dollars in millions)

| | Fiscal 2012 | Fiscal 2011 | Change | Percentage Change |
|----------|-------------|-------------|--------|-------------------|
| Revenues | \$6,994 | \$6,041 | \$953 | 15.8% |

Revenues increased across all segments of our business. The increase in revenues was attributable primarily to an increase in business from existing clients, particularly in industries such as financial services and insurance (FSI), manufacturing (MFG) and retail, logistics, consumer products group, life sciences and health care enterprises (RCL).

Effective as of the quarter ended June 30, 2011, we internally reorganized our business to increase our client focus. Consequent to this internal reorganization there were changes effected in the reportable segments based on the “management approach” as defined in IFRS 8, Operating Segments (Refer Note 2.20, Segment reporting, of Item 18 of this Annual Report).

The following table sets forth our revenues by industry segments for fiscal 2012 and fiscal 2011:

| Industry Segments | Percentage of Revenues | |
|--|------------------------|-------------|
| | Fiscal 2012 | Fiscal 2011 |
| Financial services and insurance (FSI) | 35.1% | 35.9% |
| Manufacturing enterprises (MFG) | 20.6% | 19.6% |
| Energy, utilities and telecommunication services (ECS) | 21.4% | 24.0% |
| Retail, logistics, consumer product group, life sciences and health care enterprises (RCL) | 22.9% | 20.5% |

During fiscal 2012, the U.S. dollar depreciated against a majority of the currencies in which we transact business. The U.S. dollar depreciated by 3.2%, 4.5% and 11.7% against the United Kingdom Pound Sterling, Euro and Australian dollar, respectively.

There were significant currency movements during fiscal 2012. Had the average exchange rate between each of these currencies and the U.S. dollar remained constant, during fiscal 2012 in comparison to fiscal 2011, our revenues in constant currency terms for fiscal 2012 would have been lower by \$103 million at \$6,891 million as against our reported revenues of \$6,994 million, resulting in a growth of 14.1% as against a reported growth of 15.8%. The following table sets forth our revenues by industry segments for fiscal 2012, had the average exchange rate between each of the currencies namely, the United Kingdom Pound Sterling, Euro and Australian dollar, and the U.S. dollar remained constant, during fiscal 2012 in comparison to fiscal 2011, in constant currency terms:

| Industry Segments | Fiscal 2012 |
|--|-------------|
| Financial services and insurance (FSI) | 35.1% |
| Manufacturing enterprises (MFG) | 20.6% |
| Energy, utilities and telecommunication services (ECS) | 23.1% |
| Retail, logistics, consumer product group, life sciences and health care enterprises (RCL) | 21.2% |

The following table sets forth our industry segment profit (revenues less identifiable operating expenses and allocated expenses) as a percentage of industry segment revenue for fiscal 2012 and fiscal 2011 (refer note 2.20.1 under Item 18 of this Annual Report):

| Industry Segments | Fiscal 2012 | Fiscal 2011 |
|--|-------------|-------------|
| Financial services and insurance (FSI) | 32.2% | 33.3% |
| Manufacturing enterprises (MFG) | 29.8% | 31.6% |
| Energy, utilities and telecommunication services (ECS) | 31.9% | 32.3% |
| Retail, logistics, consumer product group, life sciences and health care enterprises (RCL) | 31.9% | 32.5% |

Our revenues are also segmented into onsite and offshore revenues. Onsite revenues are for those services which are performed at client sites or at our global development centres outside India, as part of software projects, while offshore revenues are for services which are performed at our software development centers located in India. The table below sets forth the percentage of our revenues by location for fiscal 2012 and fiscal 2011:

| | Percentage of revenues | |
|----------|------------------------|-------------|
| | Fiscal 2012 | Fiscal 2011 |
| Onsite | 49.9% | 49.2% |
| Offshore | 50.1% | 50.8% |

The services performed onsite typically generate higher revenues per-capita, but at lower gross margins in percentage as compared to the services performed at our own facilities. The table below sets forth details of billable hours expended as a percentage of revenue for onsite and offshore for fiscal 2012 and fiscal 2011:

| | Fiscal 2012 | Fiscal 2011 |
|----------|-------------|-------------|
| Onsite | 25.0% | 24.2% |
| Offshore | 75.0% | 75.8% |

Revenues from services represented 95.4% of total revenues for fiscal 2012 as compared to 95.1% for fiscal 2011. Sales of our software products represented 4.6% of our total revenues for fiscal 2012 as compared to 4.9% for fiscal 2011.

The following table sets forth the revenues from fixed-price, fixed-timeframe contracts and time-and-materials contracts as a percentage of total services revenues for fiscal 2012 and fiscal 2011:

| | Percentage of total services revenues | |
|---|---------------------------------------|-------------|
| | Fiscal 2012 | Fiscal 2011 |
| Fixed-price, fixed-time frame contracts | 39.3% | 40.3% |
| Time-and-materials contracts | 60.7% | 59.7% |

The following table sets forth our revenues by geographic segments for fiscal 2012 and fiscal 2011:

| | Percentage of revenues | |
|---------------------|------------------------|-------------|
| Geographic Segments | Fiscal 2012 | Fiscal 2011 |
| North America | 63.9% | 65.3% |
| Europe | 21.9% | 21.5% |
| India | 2.2% | 2.2% |
| Rest of the World | 12.0% | 11.0% |

A focus of our growth strategy is to expand our business to parts of the world outside North America, including Europe, Australia and other parts of Asia, as we expect that increases in the proportion of revenues generated from customers outside of North America would reduce our dependence upon our sales to North America and the impact on us of economic downturns in that region.

There were significant currency movements during fiscal 2012. The following table sets forth our revenues by geographic segments for fiscal 2012, had the average exchange rate between each of the currencies namely, the United Kingdom Pound Sterling, Euro and Australian dollar, and the U.S. dollar remained constant, during fiscal 2012 in comparison to fiscal 2011, in constant currency terms:

| Geographic Segments | Fiscal 2012 |
|---------------------|-------------|
| North America | 64.8% |
| Europe | 21.7% |
| India | 2.2% |
| Rest of the World | 11.3% |

The following table sets forth our geographic segment profit (revenues less identifiable operating expenses and allocated expenses) as a percentage of geographic segment revenue for fiscal 2012 and fiscal 2011 (refer note 2.20.2 under Item 18 of this Annual Report):

| Geographic Segments | Fiscal 2012 | Fiscal 2011 |
|---------------------|-------------|-------------|
| North America | 31.3% | 31.9% |
| Europe | 30.5% | 33.4% |
| India | 27.7% | 29.5% |

| | | |
|-------------------|-------|-------|
| Rest of the World | 35.8% | 35.5% |
|-------------------|-------|-------|

The decline in geographic segment profit as a percentage of geographic segment revenue in the Indian geographic segment during fiscal 2012 as compared to fiscal 2011 was primarily due to the initial operational costs incurred in connection with certain projects.

During fiscal 2012, the total billed person-months for our services other than business process management grew by 11.1% compared to fiscal 2011. The onsite and offshore billed person-months growth for our services other than business process management were 14.8% and 9.5% during fiscal 2012 compared to fiscal 2011. During fiscal 2012, there was a 5.1% increase in offshore revenue productivity, and a 2.2% increase in the onsite revenue productivity when compared to fiscal 2011. On a blended basis, the revenue productivity increased by 4.7% during fiscal 2012 when compared to fiscal 2011.

Cost of sales

The following table sets forth our cost of sales for fiscal 2012 and fiscal 2011:

| | Fiscal 2012 | Fiscal 2011 | Change | Percentage Change |
|-----------------------------|-------------|-------------|--------|-----------------------|
| | | | | (Dollars in millions) |
| Cost of sales | \$4,118 | \$3,497 | \$621 | 17.8% |
| As a percentage of revenues | 58.9% | 57.9% | | |

| | Fiscal 2012 | Fiscal 2011 | Change |
|--|-------------|-------------|-----------------------|
| | | | (Dollars in millions) |
| Employee benefit costs | \$3,377 | \$2,850 | \$527 |
| Depreciation and amortization | 195 | 189 | 6 |
| Travelling costs | 164 | 152 | 12 |
| Cost of technical sub-contractors | 160 | 132 | 28 |
| Software packages for own use | 101 | 77 | 24 |
| Third party items bought for service delivery to clients | 34 | 30 | 4 |
| Operating lease payments | 26 | 20 | 6 |
| Communication costs | 19 | 18 | 1 |
| Repairs and maintenance | 13 | 12 | 1 |
| Provision for post-sales client support | 13 | 1 | 12 |
| Other expenses | 16 | 16 | – |
| Total | \$4,118 | \$3,497 | \$621 |

The increase in cost of sales as a percentage of revenues during fiscal 2012 from fiscal 2011 was attributable primarily to an increase in our employee benefit costs, cost of technical sub-contractors, software packages for own use and provision for post-sales client support. The increase in employee benefit costs during fiscal 2012 from fiscal 2011 was due to an increase in employees, excluding sales and support personnel, from 123,811 as of fiscal 2011 to 141,788 as of fiscal 2012. Further, the offshore and onsite wages of our employees increased on an average by 10% to 12% and 2% to 3%, respectively, with effect from April 2011. The increase in cost of technical sub-contractors was due to increased engagement of technical sub-contractors to meet certain skill requirement in large projects. The increase in software packages for own use, is due to an increase in volume of system integration projects executed in the Indian market and also general increase in software bought for internal use. The increase in provision for post-sales client support during fiscal 2012 from fiscal 2011 was due to increase in provision made for contracts especially in certain financial services clients.

Gross profit

Edgar Filing: Infosys Ltd - Form 20-F

The following table sets forth our gross profit for fiscal 2012 and fiscal 2011:

| | (Dollars in millions) | | | |
|-----------------------------|-----------------------|-------------|--------|-------------------|
| | Fiscal 2012 | Fiscal 2011 | Change | Percentage Change |
| Gross profit | \$2,876 | \$2,544 | \$332 | 13.1% |
| As a percentage of revenues | 41.1% | 42.1% | | |

The increase in gross profit during fiscal 2012 from fiscal 2011 was attributable to a 15.8% increase in revenue, partially offset by a 1.0% increase in cost of sales as a percentage of revenue.

Revenues and gross profits are also affected by employee utilization rates. The following table sets forth the utilization rates of billable employees for services and software application products, excluding business process outsourcing services:

| | Fiscal | |
|--------------------|--------|-------|
| | 2012 | 2011 |
| Including trainees | 69.0% | 72.1% |
| Excluding trainees | 75.9% | 79.6% |

Selling and marketing expenses

The following table sets forth our selling and marketing expenses for fiscal 2012 and fiscal 2011:

| | (Dollars in millions) | | | |
|--------------------------------|-----------------------|-------------|--------|-------------------|
| | Fiscal 2012 | Fiscal 2011 | Change | Percentage Change |
| Selling and marketing expenses | \$366 | \$332 | \$34 | 10.2% |
| As a percentage of revenues | 5.2% | 5.5% | | |

| | (Dollars in millions) | | |
|--------------------------------------|-----------------------|-------------|--------|
| | Fiscal 2012 | Fiscal 2011 | Change |
| Employee benefit costs | \$283 | \$268 | \$15 |
| Travelling costs | 37 | 28 | 9 |
| Branding and marketing | 25 | 21 | 4 |
| Operating lease payments | 5 | 4 | 1 |
| Commission | 6 | 3 | 3 |
| Consultancy and professional charges | 5 | 3 | 2 |
| Other expenses | 5 | 5 | — |
| Total | \$366 | \$332 | \$34 |

The number of our sales and marketing personnel increased to 1,132 as of March 31, 2012 from 1,001 as of March 31, 2011. The increase in selling and marketing expenses during fiscal 2012 from fiscal 2011 was primarily attributable to an increase in employee benefit costs as a result of increased head count and the result of the salary increase in April 2011.

Administrative expenses

The following table sets forth our administrative expenses for fiscal 2012 and fiscal 2011:

| | (Dollars in millions) | | | |
|-------------------------|-----------------------|-------------|--------|-------------------|
| | Fiscal 2012 | Fiscal 2011 | Change | Percentage Change |
| Administrative expenses | \$497 | \$433 | \$64 | 14.8% |

Edgar Filing: Infosys Ltd - Form 20-F

As a percentage of revenues 7.1% 7.2%

| (Dollars in millions) | | | |
|---|--------------|--------------|-------------|
| | Fiscal 2012 | Fiscal 2011 | Change |
| Employee benefit costs | \$155 | \$147 | \$8 |
| Consultancy and professional charges | 94 | 72 | 22 |
| Repairs and maintenance | 76 | 67 | 9 |
| Power and fuel | 38 | 37 | 1 |
| Communication costs | 34 | 30 | 4 |
| Travelling costs | 32 | 30 | 2 |
| Rates and taxes | 13 | 12 | 1 |
| Operating lease payments | 9 | 9 | - |
| Insurance charges | 8 | 7 | 1 |
| Postage and courier | 3 | 3 | - |
| Printing and stationery | 3 | 3 | - |
| Provisions for doubtful accounts receivable | 14 | - | 14 |
| Other expenses | 18 | 16 | 2 |
| Total | \$497 | \$433 | \$64 |

The increase in administrative expenses for fiscal 2012 compared to fiscal 2011 was primarily due to an increase in employee benefit costs and an increase in consultancy, professional charges and provisions for doubtful accounts receivable. The increase in consultancy and professional charges is primarily due to an increase in hiring charges of employees as well as increased legal charges. The increase in employee cost during fiscal 2012 from fiscal 2011 is primarily due to an increase in head count from 6,008 as at March 31, 2011 to 7,074 as at March 31, 2012, as well as increased salaries in April 2011. The increase in provision for doubtful account receivable was based on the management's estimation on the collectability of the receivables.

Operating profit

The following table sets forth our operating profit for fiscal 2012 and fiscal 2011:

| (Dollars in millions) | | | | |
|-----------------------------|-------------|-------------|--------|-------------------|
| | Fiscal 2012 | Fiscal 2011 | Change | Percentage Change |
| Operating profit | \$2,013 | \$1,779 | \$234 | 13.2% |
| As a percentage of revenues | 28.8% | 29.4% | | |

The decrease in operating profit as a percentage of revenues for fiscal 2012 from fiscal 2011 was attributable to a 1.0% decrease in gross profit as a percentage of revenue, partially offset by a 0.3% decrease in selling and marketing expenses and 0.1% decrease in administrative expenses.

Other income

The following table sets forth our other income for fiscal 2012 and fiscal 2011:

| (Dollars in millions) | | | | |
|-----------------------|-------------|-------------|--------|-------------------|
| | Fiscal 2012 | Fiscal 2011 | Change | Percentage Change |
| Other income, net | \$397 | \$267 | \$130 | 48.7% |

Other income for fiscal 2012 includes interest income on deposits and certificates of deposit of \$374 million, foreign exchange gain of \$70 million on translation of other assets and liabilities, and income from available-for-sale financial assets/investments of \$6 million partially offset by a foreign exchange loss of \$57 million on forward and options

contracts. Other income for fiscal 2011 includes interest income on deposits and certificates of deposit of \$250 million, foreign exchange gain of \$13 million on forward and options contracts and income from available-for-sale financial assets/investments of \$5 million, partially offset by a foreign exchange loss of \$4 million on translation of other assets and liabilities.

We generate substantially all of our revenues in foreign currencies, particularly the U.S. dollar, the United Kingdom Pound Sterling, Euro and the Australian dollar, whereas we incur a majority of our expenses in Indian rupees. The exchange rate between the Indian rupee and the U.S. dollar has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of our operations are adversely affected as the Indian rupee appreciates against the U.S. dollar. Foreign exchange gains and losses arise from the appreciation and depreciation of the Indian rupee against other currencies in which we transact business and from foreign exchange forward and option contracts.

The following table sets forth the currency in which our revenues for fiscal 2012 and fiscal 2011 were denominated:

| Currency | Percentage of Revenues | |
|-------------------------------|------------------------|-------------|
| | Fiscal 2012 | Fiscal 2011 |
| U.S. dollar | 71.7% | 72.8% |
| United Kingdom Pound Sterling | 6.8% | 7.2% |
| Euro | 7.7% | 6.9% |
| Australian dollar | 7.6% | 6.5% |
| Others | 6.2% | 6.6% |

The following table sets forth information on the foreign exchange rates in Rupees per U.S. dollar, United Kingdom Pound Sterling, Euro and Australian dollar for fiscal 2012 and fiscal 2011:

| | Fiscal | | Appreciation / (Depreciation) in percentage |
|--|----------|----------|---|
| | 2012 () | 2011 () | |
| Average exchange rate during the period: | | | |
| U.S. dollar | 48.10 | 45.54 | (5.6)% |
| United Kingdom Pound Sterling | 76.79 | 70.77 | (8.5)% |
| Euro | 66.28 | 60.14 | (10.2)% |
| Australian dollar | 50.33 | 42.95 | (17.2)% |

| | Fiscal | |
|---|----------|----------|
| | 2012 () | 2011 () |
| Exchange rate at the beginning of the period: | | |
| U.S. dollar | 44.60 | 44.90 |
| United Kingdom Pound Sterling | 71.80 | 67.96 |
| Euro | 63.38 | 60.45 |
| Australian dollar | 46.11 | 41.16 |
| Exchange rate at the end of the period: | | |
| U.S. dollar | 50.88 | 44.60 |
| United Kingdom Pound Sterling | 81.46 | 71.80 |
| Euro | 67.87 | 63.38 |
| Australian dollar | 52.91 | 46.11 |
| Appreciation / (Depreciation) of the rupee against the relevant currency during the period (as a percentage): | | |

Edgar Filing: Infosys Ltd - Form 20-F

| | | |
|-------------------------------|---------|---------|
| U.S. dollar | (14.1)% | 0.7% |
| United Kingdom Pound Sterling | (13.5)% | (5.7)% |
| Euro | (7.1)% | (4.8)% |
| Australian dollar | (14.7)% | (12.0)% |

The following table sets forth information on the foreign exchange rates in U.S. dollar per United Kingdom Pound Sterling, Euro and Australian dollar for fiscal 2012 and fiscal 2011:

| | Fiscal | | Appreciation / (Depreciation) in percentage |
|--|-----------|-----------|---|
| | 2012 (\$) | 2011 (\$) | |
| Average exchange rate during the period: | | | |
| United Kingdom Pound Sterling | 1.60 | 1.55 | (3.2)% |
| Euro | 1.38 | 1.32 | (4.5)% |
| Australian dollar | 1.05 | 0.94 | (11.7)% |

| | Fiscal | |
|---|-----------|-----------|
| | 2012 (\$) | 2011 (\$) |
| Exchange rate at the beginning of the period: | | |
| United Kingdom Pound Sterling | 1.61 | 1.51 |
| Euro | 1.42 | 1.35 |
| Australian dollar | 1.03 | 0.92 |
| Exchange rate at the end of the period: | | |
| United Kingdom Pound Sterling | 1.60 | 1.61 |
| Euro | 1.33 | 1.42 |
| Australian dollar | 1.04 | 1.03 |
| Appreciation / (Depreciation) of U.S. dollar against the relevant currency during the period: | | |
| United Kingdom Pound Sterling | 0.6% | (6.6)% |
| Euro | 6.3% | (5.2)% |
| Australian dollar | (1.0)% | (12.0)% |

For fiscal 2012, every percentage point depreciation/appreciation in the exchange rate between the Indian rupee and the U.S. dollar has affected our operating margins by approximately 0.5%. The exchange rate between the Indian rupee and U.S. dollar has fluctuated substantially in recent years and may continue to do so in the future. We are unable to predict the impact that future fluctuations may have on our operating margins.

We have recorded a loss of \$57 million and a gain of \$13 million for fiscal 2012 and fiscal 2011, respectively, on account of foreign exchange forward and option contracts, which are included in total foreign currency exchange gains/ losses. Our accounting policy requires us to mark to market and recognize the effect in profit immediately of any derivative that is either not designated a hedge, or is so designated but is ineffective as per IAS 39.

Income tax expense

The following table sets forth our income tax expense and effective tax rate for fiscal 2012 and fiscal 2011:

| | (Dollars in millions) | | | |
|--------------------|-----------------------|-------------|--------|-------------------|
| | Fiscal 2012 | Fiscal 2011 | Change | Percentage Change |
| Income tax expense | \$694 | \$547 | \$147 | 26.9% |

| | | |
|--------------------|-------|-------|
| Effective tax rate | 28.8% | 26.7% |
|--------------------|-------|-------|

The increase in the effective tax rate during fiscal 2012 from fiscal 2011 is primarily due to the expiration of the tax holiday period for all units operating under the Software Technology Park (STP) scheme and movement of one of the SEZ units from the 100% tax exempt category to the 50% tax exempt category, due to the completion of its first five years of operations and increase in taxes on non operating income.

Net profit

The following table sets forth our net profit for fiscal 2012 and fiscal 2011:

| | (Dollars in millions) | | | |
|-----------------------------|-----------------------|-------------|--------|-------------------|
| | Fiscal 2012 | Fiscal 2011 | Change | Percentage Change |
| Net profit | \$1,716 | \$1,499 | \$217 | 14.5% |
| As a percentage of revenues | 24.5% | 24.8% | | |

The decrease in net profit as a percentage of revenues for fiscal 2012 from fiscal 2011 was attributable to a 0.6% decrease in operating profit as a percentage of revenue and an increase of 2.1% in our effective tax rate, partially offset by an increase in other income.

Results for Fiscal 2011 compared to Fiscal 2010

Effective the quarter ended June 30, 2011, the company reorganized its business to increase its client focus. Consequent to the internal reorganization there were changes effected in the reportable segments based on the “management approach” as defined in IFRS 8, Operating Segments.

Revenues

The following table sets forth the growth in our revenues in fiscal 2011 from fiscal 2010:

| | (Dollars in millions) | | | |
|----------|-----------------------|-------------|---------|-------------------|
| | Fiscal 2011 | Fiscal 2010 | Change | Percentage Change |
| Revenues | \$6,041 | \$4,804 | \$1,237 | 25.7% |

Revenues increased in almost all segments of our business. The increase in revenues was attributable primarily to an increase in business from existing clients, particularly in industries such as financial services, manufacturing and retail.

The following table sets forth our revenues by industry segments for fiscal 2011 and fiscal 2010:

| Industry Segments | Percentage of Revenues | |
|--|------------------------|-------------|
| | Fiscal 2011 | Fiscal 2010 |
| Financial services and insurance (FSI) | 35.9% | 34.0% |
| Manufacturing enterprises (MFG) | 19.6% | 19.8% |
| Energy, utilities and telecommunication services (ECS) | 24.0% | 25.6% |
| Retail, logistics, consumer product group, life sciences and health care enterprises (RCL) | 20.5% | 20.6% |

The increase in the percentage of revenues from the financial services and insurance (FSI) segment during fiscal 2011 as compared to fiscal 2010 was due to an increase in business from existing clients and the addition of new clients. The decline in the percentage of revenues from the Energy, utilities and telecommunication services (ECS) segment

during fiscal 2011 as compared to fiscal 2010 was due to a decrease in business from existing clients.

During fiscal 2011, the U.S. dollar appreciated against a majority of the currencies in which we transact business. The U.S. dollar appreciated by 3.1% and 6.4% against the United Kingdom Pound Sterling and Euro respectively and depreciated by 10.6% against the Australian dollar.

There were significant currency movements during fiscal 2011. Had the average exchange rate between each of these currencies and the U.S. dollar remained constant, during fiscal 2011 in comparison to fiscal 2010, our revenues in constant currency terms for fiscal 2011 would have been lower by \$13 million at \$6,028 million as against our reported revenues of \$6,041 million, resulting in a growth of 25.5% as against a reported growth of 25.7%. The following table sets forth our revenues by industry segments for fiscal 2011, had the average exchange rate between each of the currencies namely, the United Kingdom Pound Sterling, Euro and Australian dollar, and the U.S. dollar remained constant, during fiscal 2011 in comparison to fiscal 2010, in constant currency terms:

| Industry Segments | Fiscal 2011 |
|--|-------------|
| Financial services and insurance (FSI) | 35.8% |
| Manufacturing enterprises (MFG) | 19.7% |
| Energy, utilities and telecommunication services (ECS) | 20.6% |
| Retail, logistics, consumer product group, life sciences and health care enterprises (RCL) | 23.9% |

The following table sets forth our industry segment profit (revenues less identifiable operating expenses and allocated expenses) as a percentage of industry segment revenue for fiscal 2011 and fiscal 2010 (refer note 2.20.1 under Item 18 of this Annual Report):

| Industry Segments | Fiscal 2011 | Fiscal 2010 |
|--|-------------|-------------|
| Financial services and insurance (FSI) | 33.3% | 35.1% |
| Manufacturing enterprises (MFG) | 31.6% | 30.5% |
| Energy, utilities and telecommunication services (ECS) | 32.3% | 37.8% |
| Retail, logistics, consumer product group, life sciences and health care enterprises (RCL) | 32.5% | 33.5% |

Our revenues are also segmented into onsite and offshore revenues. Onsite revenues are for those services which are performed at client sites or at our global development centres outside India, as part of software projects, while offshore revenues are for services which are performed at our software development centers located in India. The table below sets forth the percentage of our revenues by location for fiscal 2011 and fiscal 2010:

| | Percentage of revenues | |
|----------|------------------------|-------------|
| | Fiscal 2011 | Fiscal 2010 |
| Onsite | 49.2% | 46.1% |
| Offshore | 50.8% | 53.9% |

The services performed onsite typically generate higher revenues per-capita, but at lower gross margins in percentage as compared to the services performed at our own facilities. The table below sets forth details of billable hours expended as a percentage of revenue for onsite and offshore for fiscal 2011 and fiscal 2010:

| | Fiscal 2011 | Fiscal 2010 |
|----------|-------------|-------------|
| Onsite | 24.2% | 22.6% |
| Offshore | 75.8% | 77.4% |

Revenues from services represented 95.1% of total revenues for fiscal 2011 as compared to 95.8% for fiscal 2010. Sales of our software products represented 4.9% of our total revenues for fiscal 2011 as compared to 4.2% for fiscal

2010.

The following table sets forth the revenues from fixed-price, fixed-timeframe contracts and time-and-materials contracts as a percentage of total services revenues for fiscal 2011 and fiscal 2010:

| | Percentage of total services revenues | |
|---|---------------------------------------|-------------|
| | Fiscal 2011 | Fiscal 2010 |
| Fixed-price, fixed-time frame contracts | 40.3% | 38.5% |
| Time-and-materials contracts | 59.7% | 61.5% |

The following table sets forth our revenues by geographic segments for fiscal 2011 and fiscal 2010:

| Geographic Segments | Percentage of revenues | |
|---------------------|------------------------|-------------|
| | Fiscal 2011 | Fiscal 2010 |
| North America | 65.3% | 65.8% |
| Europe | 21.5% | 23.0% |
| India | 2.2% | 1.2% |
| Rest of the World | 11.0% | 10.0% |

A focus of our growth strategy is to expand our business to parts of the world outside North America, including Europe, Australia and other parts of Asia, as we expect that increases in the proportion of revenues generated from customers outside of North America would reduce our dependence upon our sales to North America and the impact on us of economic downturns in that region.

There were significant currency movements during fiscal 2011. The following table sets forth our revenues by geographic segments for fiscal 2011, had the average exchange rate between each of the currencies namely, the United Kingdom Pound Sterling, Euro and Australian dollar, and the U.S. dollar remained constant, during fiscal 2011 in comparison to fiscal 2010, in constant currency terms:

| Geographic Segments | Fiscal 2011 |
|---------------------|-------------|
| North America | 65.3% |
| Europe | 22.2% |
| India | 2.2% |
| Rest of the World | 10.3% |

The following table sets forth our geographic segment profit (revenues less identifiable operating expenses and allocated expenses) as a percentage of geographic segment revenue for fiscal 2011 and fiscal 2010 (refer note 2.20.2 under Item 18 of this Annual Report):

| Geographic Segments | Fiscal 2011 | Fiscal 2010 |
|---------------------|-------------|-------------|
| North America | 31.9% | 34.2% |
| Europe | 33.4% | 34.8% |
| India | 29.5% | 44.8% |
| Rest of the World | 35.5% | 35.1% |

The decline in geographic segment profit as a percentage of geographic segment revenue in the Indian geographic segment during fiscal 2011 as compared to fiscal 2010 was primarily due to the initial operational costs incurred in connection with certain projects.

Edgar Filing: Infosys Ltd - Form 20-F

During fiscal 2011 the total billed person-months for our services other than business process management grew by 23.4% compared to fiscal 2010. The onsite and offshore billed person-months growth for our services other than business process management were 25.3% and 22.6% during fiscal 2011 compared to fiscal 2010. During fiscal 2011 there was a 3.1% decrease in offshore revenue productivity compared to fiscal 2010 for our services other than business process management. There was a 5.4% increase in the onsite revenue productivity of fiscal 2011 when compared to fiscal 2010. On a blended basis, the revenue productivity increased by 1.8% in fiscal 2011 when compared to fiscal 2010.

Cost of sales

The following table sets forth our cost of sales for fiscal 2011 and fiscal 2010:

| | (Dollars in millions) | | | |
|-----------------------------|-----------------------|-------------|--------|-------------------|
| | Fiscal 2011 | Fiscal 2010 | Change | Percentage Change |
| Cost of sales | \$3,497 | \$2,749 | \$748 | 27.2% |
| As a percentage of revenues | 57.9% | 57.2% | | |

| | (Dollars in millions) | | |
|--|-----------------------|-------------|--------|
| | Fiscal 2011 | Fiscal 2010 | Change |
| Employee benefit costs | \$2,850 | \$2,241 | \$609 |
| Depreciation and amortization | 189 | 199 | (10) |
| Travelling costs | 152 | 103 | 49 |
| Cost of technical sub-contractors | 132 | 79 | 53 |
| Software packages for own use | 77 | 71 | 6 |
| Third party items bought for service delivery to clients | 30 | 3 | 27 |
| Operating lease payments | 20 | 15 | 5 |
| Communication costs | 18 | 18 | — |
| Repairs and maintenance | 12 | 6 | 6 |
| Provision for post-sales client support | 1 | — | 1 |
| Other expenses | 16 | 14 | 2 |
| Total | \$3,497 | \$2,749 | \$748 |

The increase in cost of sales as a percentage of revenues during fiscal 2011 from fiscal 2010 was attributable primarily to an increase in our employee benefit costs, travelling costs, cost of technical sub-contractors and third party items bought for service delivery to clients. The increase in employee benefit costs during fiscal 2011 from fiscal 2010 was due to an increase in employees, excluding sales and support personnel, from 106,900 as of fiscal 2010 to 123,800 as of fiscal 2011. Further, the offshore and onsite wages of our employees increased on an average by 15.5% and 2.0% to 3.0%, respectively, with effect from April 2010. The increase in the cost of technical sub-contractors was due to increased engagements of technical sub-contractors to meet specific skill requirements in certain large projects. Travelling cost increased during fiscal 2011 from fiscal 2010 due to an overall increase in business and increased spending for visas which has increased from \$21 million in fiscal 2010 to \$42 million in fiscal 2011. The increase in third party items bought for service delivery to clients is due to an increase in volume of system integration projects executed in the Indian market.

Gross profit

The following table sets forth our gross profit for fiscal 2011 and fiscal 2010:

| | (Dollars in millions) | | | |
|--------------|-----------------------|-------------|--------|-------------------|
| | Fiscal 2011 | Fiscal 2010 | Change | Percentage Change |
| Gross profit | \$2,544 | \$2,055 | \$489 | 23.8% |

Edgar Filing: Infosys Ltd - Form 20-F

| | | |
|-----------------------------|-------|-------|
| As a percentage of revenues | 42.1% | 42.8% |
|-----------------------------|-------|-------|

The increase in gross profit during fiscal 2011 from fiscal 2010 was attributable to a 25.7% increase in revenue, marginally offset by a 0.7% increase in cost of sales as a percentage of revenue.

Revenues and gross profits are also affected by employee utilization rates. The following table sets forth the utilization rates of billable employees for services and software application products, excluding business process outsourcing services:

| | Fiscal | |
|--------------------|--------|-------|
| | 2011 | 2010 |
| Including trainees | 72.1% | 67.5% |
| Excluding trainees | 79.6% | 74.2% |

Selling and marketing expenses

The following table sets forth our selling and marketing expenses for fiscal 2011 and fiscal 2010:

| | (Dollars in millions) | | | |
|--------------------------------|-----------------------|-------------|--------|-------------------|
| | Fiscal 2011 | Fiscal 2010 | Change | Percentage Change |
| Selling and marketing expenses | \$332 | \$251 | \$81 | 32.3% |
| As a percentage of revenues | 5.5% | 5.2% | | |

| | (Dollars in millions) | | | |
|--------------------------------------|-----------------------|-------------|--------|-------------------|
| | Fiscal 2011 | Fiscal 2010 | Change | Percentage Change |
| Employee benefit costs | \$268 | \$198 | \$70 | 35.4% |
| Travelling costs | 28 | 23 | 5 | 21.7% |
| Branding and marketing | 21 | 16 | 5 | 31.3% |
| Operating lease payments | 4 | 3 | 1 | 33.3% |
| Commission | 3 | 3 | 0 | 0% |
| Consultancy and professional charges | 3 | 5 | (2) | (40.0%) |
| Other expenses | 5 | 3 | 2 | 66.7% |
| Total | \$332 | \$251 | \$81 | 32.3% |

The number of our sales and marketing personnel increased to 1,001 as of March 31, 2011 from 896 as of March 31, 2010. The increase in selling and marketing expenses during fiscal 2011 from fiscal 2010 was primarily attributable to an increase in employee benefit costs as a result of increased head count and the result of the salary increase in April 2010.

Administrative expenses

The following table sets forth our administrative expenses for fiscal 2011 and fiscal 2010:

| | (Dollars in millions) | | | |
|-----------------------------|-----------------------|-------------|--------|-------------------|
| | Fiscal 2011 | Fiscal 2010 | Change | Percentage Change |
| Administrative expenses | \$433 | \$344 | \$89 | 25.9% |
| As a percentage of revenues | 7.2% | 7.2% | | |

| | (Dollars in millions) | | | |
|------------------------|-----------------------|-------------|--------|-------------------|
| | Fiscal 2011 | Fiscal 2010 | Change | Percentage Change |
| Employee benefit costs | \$147 | \$114 | \$33 | 28.9% |

Edgar Filing: Infosys Ltd - Form 20-F

| | | | |
|---|-------|-------|------|
| Consultancy and professional charges | 72 | 54 | 18 |
| Repairs and maintenance | 67 | 49 | 18 |
| Power and fuel | 37 | 30 | 7 |
| Communication costs | 30 | 27 | 3 |
| Travelling costs | 30 | 21 | 9 |
| Rates and taxes | 12 | 7 | 5 |
| Operating lease payments | 9 | 8 | 1 |
| Insurance charges | 7 | 7 | – |
| Postage and courier | 3 | 2 | 1 |
| Printing and stationery | 3 | 2 | 1 |
| Provisions for doubtful accounts receivable | – | – | – |
| Other expenses | 16 | 23 | (7) |
| Total | \$433 | \$344 | \$89 |

The increase in administrative expenses for fiscal 2011 compared to fiscal 2010 was primarily due to an increase in employee benefit costs as a result of salary increases in April 2010. The increase in consultancy and professional charges is primarily due to an increase in hiring charges of employees. The gross and net addition of employees was 27,600 and 8,900 in fiscal 2010 and 43,000 and 17,000 in fiscal 2011. The increase in repairs and maintenance is due to an overall increase in the size of our business in fiscal 2011.

Operating profit

The following table sets forth our operating profit for fiscal 2011 and fiscal 2010:

| | (Dollars in millions) | | | |
|-----------------------------|-----------------------|-------------|--------|-------------------|
| | Fiscal 2011 | Fiscal 2010 | Change | Percentage Change |
| Operating profit | \$1,779 | \$1,460 | \$319 | 21.8% |
| As a percentage of revenues | 29.4% | 30.4% | | |

The decrease in operating profit as a percentage of revenues for fiscal 2011 from fiscal 2010 was attributable to a 0.7% decrease in gross profit as a percentage of revenue and 0.3% increase in selling and marketing expenses as a percentage of revenue.

Other income

The following table sets forth our other income for fiscal 2011 and fiscal 2010:

| | (Dollars in millions) | | | |
|-------------------|-----------------------|-------------|--------|-------------------|
| | Fiscal 2011 | Fiscal 2010 | Change | Percentage Change |
| Other income, net | \$267 | \$209 | \$58 | 27.8% |

Other income for fiscal 2011 includes interest income on deposits and certificates of deposit of \$250 million, income from available-for-sale financial assets/investments of \$5 million and foreign exchange gain of \$13 million on forward and options contracts, partially offset by a foreign exchange loss of \$4 million on translation of other assets and liabilities. Other income for fiscal 2010 includes interest income on deposits and certificates of deposit of \$164 million, income from available-for-sale financial assets/investments of \$34 million and foreign exchange gain of \$63 million on forward and options contracts, partially offset by a foreign exchange loss of \$57 million on translation of other assets and liabilities. Income from available-for-sale financial assets/investments for fiscal 2010 includes \$11 million of income from sale of an unlisted equity securities.

Edgar Filing: Infosys Ltd - Form 20-F

We generate substantially all of our revenues in foreign currencies, particularly the U.S. dollar, the United Kingdom Pound Sterling, Euro and the Australian dollar, whereas we incur a majority of our expenses in Indian rupees. The exchange rate between the Indian rupee and the U.S. dollar has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of our operations are adversely affected as the Indian rupee appreciates against the U.S. dollar. Foreign exchange gains and losses arise from the appreciation and depreciation of the Indian rupee against other currencies in which we transact business and from foreign exchange forward and option contracts.

The following table sets forth the currency in which our revenues for fiscal 2011 and fiscal 2010 were denominated:

| Currency | Percentage of Revenues | |
|-------------------------------|------------------------|-------------|
| | Fiscal 2011 | Fiscal 2010 |
| U.S. dollar | 72.8% | 73.3% |
| United Kingdom Pound Sterling | 7.2% | 9.2% |
| Euro | 6.9% | 6.9% |
| Australian dollar | 6.5% | 5.8% |
| Others | 6.6% | 4.8% |

The following table sets forth information on the foreign exchange rates in Rupees per U.S. dollar, United Kingdom Pound Sterling, Euro and Australian dollar for fiscal 2011 and fiscal 2010:

| | Fiscal | | Appreciation / (Depreciation) in percentage |
|--|----------|----------|---|
| | 2011 () | 2010 () | |
| Average exchange rate during the period: | | | |
| U.S. dollar | 45.54 | 47.43 | 4.0% |
| United Kingdom Pound Sterling | 70.77 | 75.74 | 6.6% |
| Euro | 60.14 | 67.02 | 10.3% |
| Australian dollar | 42.95 | 40.30 | (6.6)% |

| | Fiscal | |
|---|----------|----------|
| | 2011 () | 2010 () |
| Exchange rate at the beginning of the period: | | |
| U.S. dollar | 44.90 | 50.72 |
| United Kingdom Pound Sterling | 67.96 | 72.49 |
| Euro | 60.45 | 67.44 |
| Australian dollar | 41.16 | 35.03 |
| Exchange rate at the end of the period: | | |
| U.S. dollar | 44.60 | 44.90 |
| United Kingdom Pound Sterling | 71.80 | 67.96 |
| Euro | 63.38 | 60.45 |
| Australian dollar | 46.11 | 41.16 |
| Appreciation / (Depreciation) of the rupee against the relevant currency during the period (as a percentage): | | |
| U.S. dollar | 0.7% | 11.5% |
| United Kingdom Pound Sterling | (5.7)% | 6.2% |
| Euro | (4.8)% | 10.4% |
| Australian dollar | (12.0)% | (17.5)% |

Edgar Filing: Infosys Ltd - Form 20-F

The following table sets forth information on the foreign exchange rates in U.S. dollar per United Kingdom Pound Sterling, Euro and Australian dollar for fiscal 2011 and fiscal 2010:

| | Fiscal | | Appreciation / (Depreciation) in percentage |
|--|-----------|-----------|---|
| | 2011 (\$) | 2010 (\$) | |
| Average exchange rate during the period: | | | |
| United Kingdom Pound Sterling | 1.55 | 1.60 | 3.1% |
| Euro | 1.32 | 1.41 | 6.4% |
| Australian dollar | 0.94 | 0.85 | (10.6)% |

| | Fiscal | |
|---|-----------|-----------|
| | 2011 (\$) | 2010 (\$) |
| Exchange rate at the beginning of the period: | | |
| United Kingdom Pound Sterling | 1.51 | 1.43 |
| Euro | 1.35 | 1.33 |
| Australian dollar | 0.92 | 0.69 |
| Exchange rate at the end of the period: | | |
| United Kingdom Pound Sterling | 1.61 | 1.51 |
| Euro | 1.42 | 1.35 |
| Australian dollar | 1.03 | 0.92 |
| Appreciation / (Depreciation) of U.S. dollar against the relevant currency during the period: | | |
| United Kingdom Pound Sterling | (6.6)% | (5.6)% |
| Euro | (5.2)% | (1.5)% |
| Australian dollar | (12.0)% | (33.3)% |

For fiscal 2011, every percentage point depreciation/appreciation in the exchange rate between the Indian rupee and the U.S. dollar has affected our operating margins by approximately 0.5%. The exchange rate between the rupee and U.S. dollar has fluctuated substantially in recent years and may continue to do so in the future. We are unable to predict the impact that future fluctuations may have on our operating margins.

Income tax expense

The following table sets forth our income tax expense and effective tax rate for fiscal 2011 and fiscal 2010:

| | (Dollars in millions) | | | |
|--------------------|-----------------------|-------------|--------|-------------------|
| | Fiscal 2011 | Fiscal 2010 | Change | Percentage Change |
| Income tax expense | \$547 | \$356 | \$191 | 53.7% |
| Effective tax rate | 26.7% | 21.3% | | |

The increase in the effective tax rate is primarily due to the expiration of the tax holiday period for approximately 15.4% of our revenues from STP and SEZ units that were benefiting from a tax holiday in fiscal 2010.

Net profit

The following table sets forth our net profit for fiscal 2011 and fiscal 2010:

| | (Dollars in millions) | | |
|--|-----------------------|-------------|--------|
| | Fiscal 2011 | Fiscal 2010 | Change |

| | | | | Percentage Change |
|-----------------------------|---------|---------|-------|----------------------|
| Net profit | \$1,499 | \$1,313 | \$186 | 14.2% |
| As a percentage of revenues | 24.8% | 27.3% | | |

The decrease in net profit as a percentage of revenues for fiscal 2011 from fiscal 2010 was attributable to a 1.0% decrease in operating profit as a percentage of revenue and an increase of 5.4% in our effective tax rate.

Sensitivity analysis for significant defined benefit plans

In accordance with the Payment of Gratuity Act, 1972, we provide for gratuity, a defined benefit retirement plan (the Gratuity Plan) covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment.

The defined benefit obligations as of March 31, 2012 and March 31, 2011 are \$118 million and \$108 million respectively.

The weighted-average assumptions used to determine benefit obligations as of March 31, 2012 and March 31, 2011 is set out below:

| Particulars | Fiscal 2012 | Fiscal 2011 |
|--|-------------|-------------|
| Discount rate | 8.6% | 8.0% |
| Weighted average rate of increase in compensation levels | 7.3% | 7.3% |

As of March 31, 2012, every percentage point increase / decrease in discount rate will affect our gratuity benefit obligation by approximately \$8 million.

As of March 31, 2012, every percentage point increase / decrease in weighted average rate of increase in compensation levels will affect our gratuity benefit obligation by approximately \$8 million.

Liquidity and capital resources

Our growth has been financed largely by cash generated from operations and, to a lesser extent, from the proceeds from the issuance of equity. In 1993, we raised approximately \$4.4 million in gross aggregate proceeds from our initial public offering of equity shares in India. In 1994, we raised an additional \$7.7 million through private placements of our equity shares with foreign institutional investors, mutual funds, Indian domestic financial institutions and corporations. On March 11, 1999, we raised \$70.4 million in gross aggregate proceeds from our initial public offering of ADSs in the United States.

As of March 31, 2012, 2011 and 2010, we had \$5,008 million, \$4,496 million and \$3,943 million in working capital, respectively. The working capital as of March 31, 2012, includes \$4,047 million in cash and cash equivalents, \$6 million in available-for-sale financial assets and \$68 million in Investments in certificates of deposit. The working capital as of March 31, 2011, includes \$3,737 million in cash and cash equivalents, \$5 million in available-for-sale financial assets and \$27 million in Investments in certificates of deposit. The working capital as of March 31, 2010, includes \$2,698 million in cash and cash equivalents, \$561 million in available-for-sale financial assets and \$265 million in Investments in certificates of deposit. We have no outstanding bank borrowings. We believe that our current working capital is sufficient to meet our requirements for the next 12 months. We believe that a sustained reduction in IT spending, a longer sales cycle, or a continued economic downturn in any of the various geographic locations or industry segments in which we operate, could result in a decline in our revenue and negatively impact our liquidity and cash resources.

Our principal sources of liquidity are our cash and cash equivalents and the cash flow that we generate from our operations. Our cash and cash equivalents comprise of cash and bank deposits and deposits with corporations which can be withdrawn at any point of time without prior notice or penalty. These cash and cash equivalents included a restricted cash balance of \$52 million, \$24 million and \$16 million as of March 31, 2012, March 31, 2011 and March 31, 2010, respectively. These restrictions are primarily on account of unclaimed dividends and cash balances held by irrevocable trusts controlled by us.

In summary, our cash flows were:

| | (Dollars in millions) | | |
|--|-----------------------|---------|---------|
| | Fiscal | 2012 | 2011 |
| Net cash provided by operating activities | \$1,681 | \$1,298 | \$1,452 |
| Net cash provided / (used) in investing activities | \$(429) | \$490 | \$(925) |
| Net cash (used) in financing activities | \$(500) | \$(811) | \$(310) |

Net cash provided by operations consisted primarily of net profit adjusted for depreciation and amortization, deferred taxes and income taxes and changes in working capital.

Trade receivables increased by \$247 million and \$254 million during fiscal 2012 and fiscal 2011, respectively, compared to a decrease of \$41 million during fiscal 2010. Trade receivables as a percentage of last 12 months revenues were 16.5%, 17.3% and 16.2% as of March 31, 2012, 2011 and 2010, respectively. Days sales outstanding on the basis of last 12 months revenues were 60 days, 63 days and 59 days as of March 31, 2012, 2011 and 2010, respectively. Prepayments and other assets increased by \$13 million in fiscal 2012, compared to an increase of \$52 million and \$49 million during fiscal 2011 and fiscal 2010, respectively. There was an increase in unbilled revenues of \$131 million during fiscal 2012, \$88 million during fiscal 2011, of \$19 million during fiscal 2010. Unbilled revenues represent revenues that are recognized but not yet invoiced. The increase in unbilled revenues is primarily due to efforts spent in certain large projects for which the billing milestones have not yet crystallized. Other liabilities and provisions increased by \$123 million and \$98 million during fiscal 2012 and fiscal 2011, respectively, as compared to a decrease of \$23 million during fiscal 2010. Unearned revenues increased by \$6 million during fiscal 2012, as compared to a decrease of \$3 million during fiscal 2011, and increased by \$42 million during fiscal 2010. Unearned revenue resulted primarily from advance client billings on fixed-price, fixed-timeframe contracts for which related efforts had not been expended. Revenues from fixed-price, fixed-timeframe contracts represented 39.3%, 40.3% and 38.5% of total services revenues for fiscal 2012, 2011 and 2010, respectively, whereas revenues from time-and-materials contracts represented 60.7%, 59.7% and 61.5% of total services revenues for fiscal 2012, 2011 and 2010, respectively.

Income taxes paid increased by \$29 million, \$257 million and \$176 million during fiscal 2012, 2011 and 2010, respectively.

We expect to contribute \$29 million to our gratuity trusts during fiscal 2013 (refer to note 2.12.1 under Item 18 of this Annual Report on Form 20-F). We believe that our current working capital is sufficient to meet our gratuity obligations.

Net cash used in investing activities, relating to our acquisition business for fiscal 2012 was \$41 million. Net cash used in investing activities, relating to acquisition of additional property, plant and equipment for fiscal 2012, 2011 and 2010 was \$301 million, \$285 million and \$138 million, respectively for our software development centers. During fiscal 2012, we invested \$1,247 million in available-for-sale financial assets, \$75 million in certificates of deposit, \$23 million in deposits with corporations and redeemed available-for-sale financial assets of \$1,245 million and \$31 million of certificates of deposit. During fiscal 2011, we invested \$425 million in available-for-sale financial assets, \$185 million in certificates of deposit, \$22 million in non-current deposits with corporations and redeemed

available-for-sale financial assets of \$973 million and \$436 million of certificates of deposit. During fiscal 2010 we invested \$2,091 million in available-for-sale financial assets, \$249 million in certificates of deposit, \$6 million in non-current deposits with corporations and redeemed available-for-sale financial assets of \$1,571 million. The proceeds realized from the redemption of available-for-sale financial assets were used in our day to day business activities.

On January 4, 2012, Infosys BPO acquired 100% of the voting interest in Portland Group Pty Ltd a strategic sourcing and category management services provider based in Australia. This business acquisition was conducted by entering into a share sale agreement for a cash consideration of \$41 million. The entire amount was paid by March 31, 2012.

During fiscal 2010, Infosys BPO acquired 100% of the voting interests in McCamish Systems LLC (McCamish), a business process solutions provider based in Atlanta, Georgia, in the United States. The business acquisition was conducted by entering into Membership Interest Purchase Agreement for a cash consideration of \$37 million. Of this contingent consideration, \$12 million was outstanding as of March 31, 2012.

Previously, we provided various loans to employees including car loans, home loans, personal computer loans, telephone loans, medical loans, marriage loans, personal loans, salary advances, education loans and loans for rental deposits. These loans were provided primarily to employees in India who were not executive officers or directors. Housing and car loans were available only to middle level managers, senior managers and non-executive officers. These loans were generally collateralized against the assets of the loan and the terms of the loans ranged from 1 to 100 months.

We have discontinued fresh disbursements under all of these loan schemes except for personal loans and salary advances which we continue to provide primarily to employees in India who are not executive officers or directors.

The annual rates of interest for these loans vary between 0% and 4%. Loans aggregating \$33 million, \$32 million and \$24 million were outstanding as of March 31, 2012, 2011 and 2010, respectively.

The timing of required repayments of employee loans outstanding as of March 31, 2012 are as detailed below.

| | (Dollars in millions) |
|----------------------------|-----------------------|
| 12 months ending March 31, | Repayment |
| 2013 | \$32 |
| 2014 | 1 |
| | \$33 |

Net cash used in financing activities for fiscal 2012 was \$500 million, which was comprised primarily of dividend payments of \$501 million, partially offset by \$1 million of proceeds received from the issuance of 78,442 equity shares on exercise of share options by employees. Net cash used in financing activities for fiscal 2011 was \$811 million, which was comprised primarily of dividend payments of \$816 million, partially offset by \$5 million of proceeds received from the issuance of 326,367 equity shares on exercise of share options by employees. Net cash used in financing activities for fiscal 2010 was \$310 million, which was comprised primarily of dividend payments of \$330 million, partially offset by \$20 million of proceeds received from the issuance of 995,149 equity shares on exercise of share options by employees.

The Board of Directors, in their meeting on April 13, 2012, proposed a final dividend of approximately \$0.43 per equity share (22 per equity share) and a special dividend, recognizing ten years of Infosys BPO's operations, of approximately \$0.20 per equity share (10 per equity share). The proposal is subject to the approval of shareholders at the Annual General Meeting to be held on June 9, 2012, and if approved, would result in a cash outflow of approximately \$420 million, inclusive of corporate dividend tax of \$59 million.

As of March 31, 2012, we had contractual commitments for capital expenditure of \$205 million, as compared to \$183 million and \$67 million of contractual commitments as of March 31, 2011 and 2010, respectively. These commitments include approximately \$164 million in commitments for domestic purchases as of March 31, 2012, as compared to \$177 million and \$53 million as of March 31, 2011 and 2010, respectively, and \$41 million in commitments for imports of hardware, supplies and services to support our operations generally as of March 31, 2012, as compared to \$6 million and \$14 million as of March 31, 2011 and 2010, respectively. We expect our outstanding contractual commitments as of March 31, 2012 to be significantly completed by September 2012.

Quantitative and Qualitative Disclosures about Market Risk

General

Market risk is attributable to all market sensitive financial instruments including foreign currency receivables and payables. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market risk sensitive instruments.

Our exposure to market risk is a function of our revenue generating activities and any future borrowing activities in foreign currency. The objective of market risk management is to avoid excessive exposure of our earnings and equity to loss. Most of our exposure to market risk arises out of our foreign currency accounts receivable.

We have chosen alternative 1 provided by Item 11 of Form 20-F to disclose quantitative information about market risk. All the required information under alternative 1 has been either included in components of market risk as given below or in note 2.7 under Item 18 of this Annual Report and such information has been incorporated herein by reference.

The following table provides the cross references to notes under Item 18 of this Annual Report which contains disclosures required under alternative 1 of Item 11 of Form 20-F.

| Sl. No. | Requirements of Alternative 1 of Item 11 | Cross reference to notes in the financial statements for instruments held for trading (Derivative financial instruments) | Cross reference to notes in the financial statements for instruments other than for trading purposes (All other financial instruments) |
|---------|---|---|---|
| 1. | Fair values of market risk sensitive instruments | Table: The carrying value and fair value of financial instruments by categories under Note 2.7, Financial Instruments, of Item 18 of this Annual Report. | Table: The carrying value and fair value of financial instruments by categories under Note 2.7, Financial Instruments, of Item 18 of this Annual Report. |
| 2. | Contract terms to determine future cash flows, categorized by expected maturity terms | Section: Derivative Financial Instruments under Note 2.7, Financial Instruments, of Item 18 of this Annual Report describing the terms of forward and options contracts and the table depicting the relevant maturity groupings based on the remaining period as of March 31, 2012 and March 31, 2011. We have provided the outstanding | Current Financial Assets: The expected maturity of these assets falls within one year, hence no additional disclosures are required. Non Current Financial Assets: Prepayments and Other Assets - Primarily consist of deposit held with corporation to settle certain employee-related obligations as and |

| | | |
|----|--|--|
| | contract amounts in Note 2.7, Financial Instruments, of Item 18 of this Annual Report, table giving details in respect of outstanding foreign exchange forward and option contracts. | when they arise during the normal course of business. Consequently, the period of maturity could not be estimated. (Refer to Note 2.4, Prepayments and Other Assets, of Item 18 of this Annual Report). Hence we have not made any additional disclosures for the maturity of non-current financial assets. Financial Liabilities: Refer to Section “Liquidity Risk” under Note 2.7 of Item 18 of this Annual Report, table containing the details regarding the contractual maturities of significant financial liabilities as of March 31, 2012 and March 31, 2011. |
| 3. | Contract terms to determine cash flows for each of the next five years and aggregate amount for remaining years. | Same table as above however as all our forward and option contracts mature between 1-12 months, we do not require further classification. Refer to Section “Liquidity Risk” under Note 2.7 of Item 18 of this Annual Report, table containing the details regarding the contractual maturities of significant financial liabilities as of March 31, 2012 and March 31, 2011. |
| 4. | Categorization of market risk sensitive instruments | We have categorized the forwards and option contracts based on the currency in which the forwards and option contracts were denominated in accordance with instruction to Item 11(a) 2 B (v). Refer to section entitled: Derivative Financial Instruments under Note 2.7, Financial Instruments, of Item 18 of this Annual Report; table giving details in respect of outstanding foreign exchange forward and option contracts. We have categorized the financial assets and financial liabilities based on the currency in which the financial instruments were denominated in accordance with instruction to Item 11(a) 2 B (v). Refer to section entitled: Financial Risk Management under Note 2.7, Financial Instruments, under Item 18 of this Annual Report; table analyzing the foreign currency risk from financial instruments as of March 31, 2012 and March 31, 2011. |
| 5. | Descriptions and assumptions to understand the above disclosures | All the tables given under Note 2.7, Financial Instruments, under Item 18 of this Annual Report have explanatory headings and the necessary details to understand the information contained in the tables. All the tables given under Note 2.7, Financial Instruments, under Item 18 of this Annual Report have explanatory headings and the necessary details to understand the information contained in the tables. |

Risk Management Procedures

We manage market risk through treasury operations. Our treasury operations' objectives and policies are approved by senior management and our Audit Committee. The activities of treasury operations include management of cash resources, implementing hedging strategies for foreign currency exposures, borrowing strategies, if any, and ensuring compliance with market risk limits and policies.

Components of Market Risk

Exchange rate risk. Our exposure to market risk arises principally from exchange rate risk. Even though our functional currency is the Indian rupee, we generate a major portion of our revenues in foreign currencies, particularly the U.S. dollar, the United Kingdom Pound Sterling, Euro and the Australian dollar, whereas we incur a majority of our expenses in Indian rupees. The exchange rate between the Indian rupee and the U.S. dollar has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of our operations are adversely affected as the Indian rupee appreciates against the U.S. dollar. For fiscal 2012, 2011 and 2010, U.S. dollar denominated revenues represented 71.7%, 72.8% and 73.3% of total revenues, respectively. For the same periods, revenues denominated in United Kingdom Pound Sterling represented 6.8%, 7.2% and 9.2% of total revenues, revenues denominated in the Euro represented 7.7%, 6.9% and 6.9% of total revenues while revenues denominated in the Australian dollar represented 7.6%, 6.5% and 5.8% of total revenues. Our exchange rate risk primarily arises from our foreign currency revenues, receivables and payables.

We use derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in foreign exchange rates on accounts receivable and forecasted cash flows denominated in certain foreign currencies. The counterparty for these contracts is generally a bank.

As of March 31, 2012, we had outstanding forward contracts of \$729 million, Euro 51 million, United Kingdom Pound Sterling 35 million and Australian dollar 24 million and option contracts of \$50 million. As of March 31, 2011, we had outstanding forward contracts of \$546 million, Euro 28 million, United Kingdom Pound Sterling 15 million and Australian dollar 10 million. As of March 31, 2010, we had outstanding forward contracts of \$267 million, Euro 22 million, United Kingdom Pound Sterling 11 million and Australian dollar 3 million and option contracts of \$200 million. The forward contracts typically mature within one to twelve months, must be settled on the day of maturity and may be cancelled subject to the payment of any gains or losses in the difference between the contract exchange rate and the market exchange rate on the date of cancellation. We use these derivative instruments only as a hedging mechanism and not for speculative purposes. We may not purchase adequate instruments to insulate ourselves from foreign exchange currency risks. In addition, any such instruments may not perform adequately as a hedging mechanism. The policies of the Reserve Bank of India may change from time to time which may limit our ability to hedge our foreign currency exposures adequately. We may, in the future, adopt more active hedging policies, and have done so in the past.

Fair value. The fair value of our market rate risk sensitive instruments approximates their carrying value.

Recent Accounting Pronouncements

IFRS 9 Financial Instruments: In November 2009, the International Accounting Standards Board issued IFRS 9, Financial Instruments: Recognition and Measurement, to reduce the complexity of the current rules on financial instruments as mandated in IAS 39. The effective date for IFRS 9 is annual periods beginning on or after January 1, 2015 with early adoption permitted. IFRS 9 has fewer classification and measurement categories as compared to IAS 39 and has eliminated the categories of held to maturity, available for sale and loans and receivables. Further it eliminates the rule-based requirement of segregating embedded derivatives and tainting rules pertaining to held to maturity investments. For an investment in an equity instrument which is not held for trading, IFRS 9 permits an irrevocable election, on initial recognition, on an individual share-by-share basis, to present all fair value changes from the investment in other comprehensive income. No amount recognized in other comprehensive income would ever be reclassified to profit or loss. IFRS 9 was further amended in October 2010, and such amendment introduced

requirements on accounting for financial liabilities. This amendment addresses the issue of volatility in the profit or loss due to changes in the fair value of an entity's own debt. It requires the entity, which chooses to measure a liability at fair value, to present the portion of the fair value change attributable to the entity's own credit risk in the Other Comprehensive Income. We are required to adopt IFRS 9 by accounting year commencing April 1, 2015. We are currently evaluating the requirements of IFRS 9, and have not yet determined the impact on the consolidated financial statements.

IFRS 10, Consolidated Financial Statements, IFRS 11, Joint Arrangements and IFRS 12, Disclosure of Interests in Other Entities: In May 2011, the International Accounting Standards Board issued IFRS 10, IFRS 11 and IFRS 12. The effective date for IFRS 10, IFRS 11 and IFRS 12 is annual periods beginning on or after January 1, 2013 with early adoption permitted.

IFRS 10 Consolidated Financial Statements builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent Company. IFRS 10 replaces the consolidation requirements in SIC-12 Consolidation of Special Purpose Entities and IAS 27 Consolidated and Separate Financial Statements. The standard provides additional guidance for determining of control in cases of ambiguity for instance in case of franchisor franchisee relationship, de facto agent, silos and potential voting rights.

IFRS 11 Joint Arrangements determines nature of arrangement by focusing on the rights and obligations of the arrangement, rather than its legal form. IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC-13 Jointly-controlled Entities-Non-monetary Contributions by Venturers. IFRS 11 addresses only forms of joint arrangements (joint operations and joint ventures) where there is joint control whereas IAS 31 had identified three forms of joint ventures, namely jointly controlled operations, jointly controlled assets and jointly controlled entities. The standard addresses inconsistencies in the reporting of joint arrangements by requiring a single method to account for interests in jointly controlled entities, which is the equity method.

IFRS 12 Disclosure of Interests in Other Entities is a new and comprehensive standard on disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles. One major requirement of IFRS 12 is that an entity needs to disclose the significant judgment and assumptions it has made in determining:

- a. Whether it has control, joint control or significant influence over another entity.
- b. The type of joint arrangement when the joint arrangement is structured through a separate vehicle.

IFRS 12 also expands the disclosure requirements for subsidiaries with non-controlling interest, joint arrangements and associates that are individually material. IFRS 12 introduces the term "structured entity" by replacing Special Purpose entities and requires enhanced disclosures by way of nature and extent of, and changes in, the risks associated with its interests in both its consolidated and unconsolidated structured entities.

We will be adopting IFRS 10, IFRS 11 and IFRS 12 effective April 1, 2013. We are currently evaluating the requirements of IFRS 10, IFRS 11 and IFRS 12, and have not yet determined the impact on the consolidated financial statements.

IFRS 13 Fair Value Measurement: In May 2011, the International Accounting Standards Board issued IFRS 13, Fair Value Measurement to provide a specific guidance on fair value measurement and requires enhanced disclosures for all assets and liabilities measured at fair value, not restricting to financial assets and liabilities. The standard introduces a precise definition of fair value and a consistent measure for fair valuation across assets and liabilities, with a few specified exceptions. The effective date for IFRS 13 is annual periods beginning on or after January 1, 2013 with early adoption permitted. The Company is required to adopt IFRS 13 by accounting year commencing

April 1, 2013. We are currently evaluating the requirements of IFRS 13, and have not yet determined the impact on the consolidated financial statements.

IAS 1 (Amended) Presentation of Financial Statements: In June 2011, the International Accounting Standard Board published amendments to IAS 1 Presentation of Financial Statements. The amendments to IAS 1, Presentation of Financial Statements, require companies preparing financial statements in accordance with IFRS to group items within other comprehensive income that may be reclassified to the profit or loss separately from those items which would not be recyclable in the profit or loss section of the income statement. It also requires the tax associated with items presented before tax to be shown separately for each of the two groups of other comprehensive income items (without changing the option to present items of other comprehensive income either before tax or net of tax). The amendments also reaffirm existing requirements that items in other comprehensive income and profit or loss should be presented as either a single statement or two consecutive statements. This amendment is applicable to annual periods beginning on or after July 1 2012, with early adoption permitted. We are required to adopt IAS 1 (Amended) by accounting year commencing April 1, 2013. We have evaluated the requirements of IAS 1 (Amended) and we do not believe that the adoption of IAS 1 (Amended) will have a material effect on our consolidated financial statements.

IAS 19 (Amended) Employee Benefits: In June 2011, International Accounting Standards Board issued IAS 19 (Amended), Employee Benefits. The effective date for adoption of IAS 19 (Amended) is annual periods beginning on or after January 1, 2013, though early adoption is permitted. IAS 19 (Amended) has eliminated an option to defer the recognition of gains and losses through re-measurements and requires such gain or loss to be recognized through other comprehensive income in the year of occurrence to reduce volatility. The amended standard requires immediate recognition of effects of any plan amendments. Further it also requires asset in profit or loss to be restricted to government bond yields or corporate bond yields, considered for valuation of Projected Benefit Obligation, irrespective of actual portfolio allocations. The actual return from the portfolio in excess of such yields is recognized through other comprehensive income. These amendments enhance the disclosure requirements for defined benefit plans by requiring information about the characteristics of defined benefit plan and risks that entities are exposed to through participation in those plans. The amendments need to be adopted retrospectively. We are required to adopt IAS 19 (Amended) by accounting year commencing April 1, 2013. We are currently evaluating the requirements of IAS 19 (Amended), and have not yet determined the impact on the consolidated financial statements.

Critical Accounting Policies

We consider the policies discussed below to be critical to an understanding of our financial statements as their application places the most significant demands on management's judgment, with financial reporting results relying on estimation about the effect of matters that are inherently uncertain. Specific risks for these critical accounting policies are described in the following paragraphs. For all of these policies, future events rarely develop exactly as forecast, and the best estimates routinely require adjustment.

Estimates

We prepare financial statements in conformity with IFRS, which requires us to make estimates, judgments and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies which require critical accounting estimates involving complex and subjective judgments and the use of assumptions in the consolidated financial statements have been disclosed below. However, accounting estimates could change from period to period and actual results could differ from those estimates. Appropriate changes in estimates are made as and when we become aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the period in which changes are made and, if material, their effects are disclosed in the notes to the consolidated financial statements.

a. Revenue recognition

We use the percentage-of-completion method in accounting for fixed-price contracts. Use of the percentage-of-completion method requires us to estimate the efforts expended to date as a proportion of the total efforts to be expended. Efforts expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

b. Income taxes

Our two major tax jurisdictions are India and the U.S., though we also file tax returns in other foreign jurisdictions. Significant judgments are involved in determining the provision for income taxes, including the amount expected to be paid/recovered for uncertain tax positions.

c. Business combinations and Intangible assets

Our business combinations are accounted for using IFRS 3 (Revised), Business Combinations. IFRS 3 requires us to fair value identifiable intangible assets and contingent consideration to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets. These valuations are conducted by independent valuation experts.

Revenue Recognition

We derive our revenues primarily from software development and related services and the licensing of software products. Arrangements with customers for software development and related services are either on a fixed-price, fixed-timeframe or on a time-and-material basis.

We recognize revenue on time-and-material contracts as the related services are performed. Revenue from the end of the last billing to the balance sheet date is recognized as unbilled revenues. Revenue from fixed-price, fixed-timeframe contracts, where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current contract estimates. Costs and earnings in excess of billings have been classified as unbilled revenue while billings in excess of costs and earnings have been classified as unearned revenue.

At the end of every reporting period, we evaluate each project for estimated revenue and estimated efforts. Any revisions or updates to existing estimates are made wherever required by obtaining approvals from officers having the requisite authority. Management regularly reviews and evaluates the status of each contract in progress to estimate the profit or loss. As part of the review, detailed actual efforts and a realistic estimate of efforts to complete all phases of the project are compared with the details of the original estimate and the total contract price. To date, we have not had any fixed-price, fixed-timeframe contracts that resulted in a material loss. We evaluate change orders according to their characteristics and the circumstances in which they occur. If such change orders are considered by the parties to be a normal element within the original scope of the contract, no change in the contract price is made. Otherwise, the adjustment to the contract price may be routinely negotiated. Contract revenue and costs are adjusted to reflect change orders approved by the client and us, regarding both scope and price. Changes are reflected in revenue recognition only after the change order has been approved by both parties. The same principle is also followed for escalation clauses.

In arrangements for software development and related services and maintenance services, the Company has applied the guidance in IAS 18, Revenue, by applying the revenue recognition criteria for each separately identifiable component of a single transaction. The arrangements generally meet the criteria for considering software development and related services as separately identifiable components. For allocating the consideration, the Company has measured the revenue in respect of each separable component of a transaction at its fair value, in accordance with principles given in IAS 18. The price that is regularly charged for an item when sold separately is the best evidence of its fair value. In cases where the Company is unable to establish objective and reliable evidence of fair value for the software development and related services, the Company has used a residual method to allocate the arrangement consideration. In these cases the balance consideration after allocating the fair values of undelivered components of a transaction has been allocated to the delivered components for which specific fair values do not exist.

License fee revenues have been recognized when the general revenue recognition criteria given in IAS 18 are met. Arrangements to deliver software products generally have three components: license, implementation and Annual Technical Services (ATS). We have applied the principles given in IAS 18 to account for revenues from these multiple element arrangements. Objective and reliable evidence of fair value has been established for ATS. Objective and reliable evidence of fair value is the price charged when the element is sold separately. When other services are provided in conjunction with the licensing arrangement and objective and reliable evidence of their fair values have been established, the revenue from such contracts are allocated to each component of the contract in a manner, whereby revenue is deferred for the undelivered services and the residual amounts are recognized as revenue for delivered components. In the absence of objective and reliable evidence of fair value for implementation, the entire arrangement fee for license and implementation is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the services are performed. ATS revenue is recognized ratably over the period in which the services are rendered.

Advances received for services and products are reported as client deposits until all conditions for revenue recognition are met.

We account for volume discounts and pricing incentives to customers by reducing the amount of discount from the amount of revenue recognized at the time of sale. In some arrangements, the level of discount varies with increases in the levels of revenue transactions. The discounts are passed on to the customer either as direct payments or as a reduction of payments due from the customer. Further, we recognize discount obligations as a reduction of revenue based on the ratable allocation of the discount to each of the underlying revenue transactions that result in progress by the customer toward earning the discount. We recognize the liability based on an estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. We recognize changes in the estimated amount of obligations for discounts using a cumulative catch-up adjustment. We present revenues net of sales and value-added taxes in our consolidated statement of comprehensive income.

Income Tax

Our income tax expense comprises current and deferred income tax and is recognized in net profit in the statement of comprehensive income except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of

the transaction. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantially enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and branches outside India where it is expected that the earnings of the foreign subsidiary or branch will not be distributed in the foreseeable future. We offset current tax assets and current tax liabilities, where we have a legally enforceable right to set off the recognized amounts and where we intend either to settle on a net basis, or to realise the asset and settle the liability simultaneously. We offset deferred tax assets and deferred tax liabilities wherever we have a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to income are credited to share premium.

Business Combinations, Goodwill and Intangible Assets

Business combinations have been accounted for using the acquisition method under the provisions of IFRS 3 (Revised), Business Combinations. The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition. Transaction costs that we incur in connection with a business combination such as finders' fees, legal fees, due diligence fees, and other professional and consulting fees are expensed as incurred.

Goodwill represents the cost of business acquisition in excess of our interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceed the cost of the business acquisition, we recognize a gain immediately in net profit in the statement of comprehensive income. Goodwill arising on the acquisition of a non-controlling interest in a subsidiary represents the excess of the cost of the additional investment over the fair value of the net assets acquired at the acquisition date and is measured at cost less accumulated impairment losses.

Intangible assets are stated at cost less accumulated amortization and impairments. They are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

We expense research costs as and when the same are incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, we have the intention and ability to complete and use or sell the software and the costs can be measured reliably. The costs which can be capitalized include the cost of material, direct labour, overhead costs that are directly attributable to preparing the asset for its intended use. Research and development costs and software development costs incurred under contractual arrangements with customers are accounted as cost of sales.

OFF-BALANCE SHEET ARRANGEMENTS

None.

CONTRACTUAL OBLIGATIONS

Set forth below are our outstanding contractual obligations as of March 31, 2012.

| Contractual obligations | Total | (Dollars in millions) | | | |
|--------------------------------------|--------------|-----------------------|--------------|-------------|-------------------|
| | | Less than 1 year | 1-3 years | 3-5 years | More than 5 years |
| Operating lease obligations | \$101 | \$31 | \$37 | \$18 | \$15 |
| Purchase obligations | 278 | 206 | 70 | 2 | — |
| Other liabilities | 14 | — | 8 | 6 | — |
| Unrecognized tax benefits | 194 | 194 | — | — | — |
| Post retirement benefits obligations | 219 | 15 | 61 | 27 | 116 |
| Total | \$806 | \$446 | \$176 | \$53 | \$131 |

We have various operating leases, mainly for office buildings, that are renewable on a periodic basis. The operating lease arrangements extend up to a maximum of ten years from their respective dates of inception and relate to rented overseas premises.

Purchase obligation means an agreement to purchase goods or services that are enforceable and legally binding on the Company that specifies all significant terms, including fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction.

Other liabilities comprises of liability towards acquisition of business on a discounted basis and incentive accruals.

Unrecognized tax benefits relate to liability towards uncertain tax positions taken in various tax jurisdictions. The period in which these uncertain tax positions will be settled is not practically determinable.

Post retirement benefits obligations are the benefit payments, which are expected to be paid under our gratuity plans.

Item 6. Directors, Senior Management and Employees

DIRECTORS AND EXECUTIVE OFFICERS

Set forth below are the respective ages and positions of our directors and executive officers as of the date of this Annual Report on Form 20-F.

| Name | Age | Position |
|-------------------------------|-----|---|
| K. V. Kamath(1) | 64 | Chairman of the Board |
| S. Gopalakrishnan(7) | 57 | Executive Co-Chairman of the Board |
| S. D. Shibulal(7) | 57 | Chief Executive Officer and Managing Director |
| Deepak M. Satwalekar(1)(2)(5) | 63 | Director |
| Omkar Goswami(1)(5)(6) | 55 | Director |
| Sridar A. Iyengar(1)(2)(6) | 64 | Director |
| David L. Boyles(1)(3)(6) | 63 | Director |
| Jeffrey Sean Lehman(1)(4)(5) | 55 | Director |
| R. Seshasayee(1)(2)(6) | 64 | Director |
| Ravi Venkatesan(1)(2)(3)(4) | 49 | Director |
| Ann M. Fudge(1)(3)(4) | 61 | Director |
| Srinath Batni(7) | 57 | Director and Head-Delivery Excellence |

Edgar Filing: Infosys Ltd - Form 20-F

- (6) Member of the Risk Management Committee
- (7) Member of Executive Council

K. V. Kamath has served as one of the directors on our Board since May 2009 and has been the Chairman of the Board since August 2011.

Mr. Kamath is the non-executive Chairman of the Board of Directors of ICICI Bank Limited, India's second largest bank. He started his career in 1971 at ICICI, an Indian financial institution that founded ICICI Bank and merged with it in 2002. In 1988, he moved to the Asian Development Bank and spent several years in South-east Asia before returning to ICICI as its Managing Director and Chief Executive Officer in 1996. He retired as Managing Director and Chief Executive Officer of ICICI Bank Limited in April 2009.

Mr. Kamath serves as a director on the boards of ICICI Bank Limited and Schlumberger Limited.

Mr. Kamath was awarded the Padma Bhushan, one of India's highest civilian honors, in 2008. He has been conferred with the Lifetime Achievement Award at the NDTV Profit Business Leadership Awards 2008 and was named Forbes Asia's 'Businessman of the Year' and The Economic Times 'Business Leader of the Year' in 2007; Business Standard's 'Banker of the Year' and CNBC-TV18's 'Outstanding Business Leader of the Year' in 2006; Business India's 'Businessman of the Year' in 2005; and CNBC's 'Asian Business Leader of the Year' in 2001. He was conferred with an honorary Ph.D. by the Banaras Hindu University. Mr. Kamath has also served as the president of the Confederation of Indian Industry between 2008 and 2009.

Mr. Kamath received a degree in mechanical engineering from Karnataka Regional Engineering College and a Post Graduate Diploma in Business Management from the Indian Institute of Management (IIM), Ahmedabad.

S. Gopalakrishnan is one of the founders of Infosys Limited. As the Executive Co-Chairman, he is responsible for working with the Chief Executive Officer to maintain strong channels of communication between the Company's

management and the Board, and to ensure that the Board receives all appropriate information in a timely manner.

In 1981, Mr. Gopalakrishnan, along with N.R. Narayana Murthy and five others, founded Infosys Limited. His initial responsibilities included the management of design, development, implementation, and support of information systems for clients in the consumer products industry in the U.S.

Between 1987 and 1994, Mr. Gopalakrishnan headed the technical operations of KSA/Infosys (a joint venture between Infosys and KSA at Atlanta, U.S.) as Vice President (Technical). In 1994, Mr. Gopalakrishnan returned to India and was appointed Deputy Managing Director of Infosys.

On June 22, 2007, Mr. Gopalakrishnan was appointed the CEO and Managing Director of Infosys. Mr. Gopalakrishnan previously served as the Chief Operating Officer (April 2002), and as the President and Joint Managing Director (August 2006). His responsibilities included customer services, technology, investments, and acquisitions.

In April 2012, Mr. Gopalakrishnan was appointed as a member of the reconstituted United Nations Global Compact Board for three years. The Global Compact Board is the UN's highest level advisory body, involving business, civil society, labor and employers organizations. He is also a member of the China Europe International Business School (CEIBS) International Advisory Board.

Kris is the President designate of the Confederation of Indian Industry (CII) National Council and on the Board of Governors at the Indian Institute of Management (IIM), Bangalore. He is also the Chairman of Indian Institute of Information Technology and Management (IIITM), Kerala. He is a member of ACM, IEEE and IEEE Computer Society.

In January 2011, Mr. Gopalakrishnan was awarded the Padma Bhushan, the country's third highest civilian honor, by the Government of India.

Mr. Gopalakrishnan holds master's degrees in Physics (1977) and Computer Science (1979) from the Indian Institute of Technology, Madras.

S. D. Shibulal has served took charge as our Chief Executive Officer and Managing Director since August 2011. Mr. Shibulal has been a director on our Board since 1997 and he is the Chairman of the board of Infosys Sweden and Infosys Shanghai.

Prior to becoming the Chief Executive Officer and Managing Director, Mr. Shibulal served as the Chief Operating Officer between June 22, 2007 and August 20, 2011. Earlier, Mr. Shibulal held a number of senior leadership roles including: Head of Worldwide Sales and Customer Delivery, Worldwide Head of Customer Delivery, and Head of Infosys Manufacturing and Distribution and Internet Consulting practice.

Mr. Shibulal is a member of the Board of Trustees, the International Advisory Board and the Metropolitan College Dean's Advisory Board of Boston University. He is also a member of the International Board of Foundation, Globethics.net, the Seoul International Business Advisory Council (SIBAC), and the Global Corporate Governance Forum's Private Sector Advisory Group.

Mr. Shibulal holds an MS degree in Computer Science from Boston University and a master's degree in Physics from the University of Kerala.

Deepak M. Satwalekar has served as one of the directors on our Board since October 1997 and is the Chairperson of our Audit Committee and member of the Investor Grievance Committee.

Mr. Satwalekar served as the Managing Director and Chief Executive Officer of HDFC Standard Life Insurance Company Limited between 2000 and 2008. Prior to that, he served as the Managing Director of HDFC between 1993 and 2000.

Mr. Satwalekar has been a consultant to the World Bank, the Asian Development Bank, the United States Agency for International Development (USAID), and the United Nations Centre for Human Settlements (HABITAT). He is on the Advisory Council of IIT, Bombay and has chaired and is a member of several expert groups related to industry, government and the Reserve Bank of India. Mr. Satwalekar has been honored as a "Distinguished Alumnus" of IIT, Bombay. He is currently active on the Board of Trustees of two organizations engaged in the field of primary education for the low income and socially disadvantaged members of society in rural and urban India.

Mr. Satwalekar also serves as a director on the boards of Asian Paints (India) Limited, Piramal Healthcare Limited, The Tata Power Company Limited, ILFS Transportation Networks Limited and National Stock Exchange of India Limited. Additionally, during the past five years, Mr. Satwalekar has served as a director on the boards of Arvind Mills Limited, HDFC Investments Limited, HDFC Holdings Limited, Entertainment Network (India) Limited, Housing Development Finance Corporation Limited and HDFC Standard Life Insurance Company Limited.

Mr. Satwalekar received a B.Tech. in Mechanical Engineering from IIT, Bombay and an M.B.A. from The American University, Washington, D.C.

Dr. Omkar Goswami has served as one of the directors on our Board since November 2000 and is the Chairperson of the Investor Grievances Committee and member of the Risk Management committee.

Dr. Goswami is the founder and chairman of CERG Advisory Private Limited. Before that, from 1998 to 2004, Dr. Goswami served as the Chief Economist to the Confederation of Indian Industries (CII). Between 1997 and 1998, he was the Editor of Business India magazine. From 1981 to 1996, Mr. Goswami taught and researched economics at Oxford University, Delhi School of Economics, Harvard University, Tufts University, Jawaharlal Nehru University, Rutgers University and the Indian Statistical Institute.

Dr. Goswami has served on several government committees in India. He was the chairman of the Committee on Industrial Sickness and Corporate Restructuring; a member of the Working Group on the Companies Act; the CII Committee on Corporate Governance; the Vijay Kelkar Committee on Direct Tax Reforms; the Naresh Chandra Committee on Auditor-Company Relationship and the N.R. Narayana Murthy SEBI Committee on Corporate Governance Reforms. He has been a consultant to the World Bank, the International Monetary Fund, the Asian Development Bank and the Organization for Economic Co-operation and Development.

Dr. Goswami also serves as a director on the boards of Ambuja Cements Limited, Cairn India Limited, Crompton Greaves Limited, Dr. Reddy's Laboratories Limited, Infrastructure Development and Finance Company Limited, Godrej Consumer Products Limited, Avantha Power and Infrastructure Limited, Max India Limited and Max New York Life Insurance Co. Limited. Additionally, during the past five years, Dr. Goswami has served as a director on the boards of SRF Limited and Sona Koyo Steering Systems Limited.

Dr. Goswami received his M.A. in Economics from the Delhi School of Economics and his D. Phil. in Economics from Oxford University.

Sridar A. Iyengar has served as one of the directors on our Board since April 2003. Mr. Iyengar also serves as a director on the board of Infosys BPO Limited. He is the audit committee financial expert and member of the Risk Management Committee.

Mr. Iyengar is associated with Bessemer Venture Partners and is also an independent investor in early stage entrepreneurs and companies. Between 1978 and 2002, Mr. Iyengar was a senior partner with KPMG in the U.S. and

the U.K. and he has also served as Chairperson and Chief Executive Officer of KPMG's operations in India between 1997 and 2000. Mr. Iyengar serves as a director of Foundation for Economic Reforms in India and the American Indian Foundation, both of which are U.S.-based non-profit organizations.

Mr. Iyengar serves as a director on the boards of several other companies, including AverQ Inc., CL Educate Limited, ICICI Bank Limited, ICICI Prudential Life Insurance Company Limited, Kovair Software Inc., Mahindra Holidays and Resorts India Limited, Rediff.com India Limited, Rediff Holding Inc., Dr. Reddy's Laboratories Limited, Cleartrip Inc. and iYogi Limited.

Mr. Iyengar received a B.Com. (Honors) degree from the University of Calcutta and is a Fellow of the Institute of Chartered Accountants in England and Wales.

David L. Boyles has served as one of the directors on our Board since July 2005. Mr. Boyles is the Chairperson of our Risk Management Committee and member of the compensation committee.

Mr. Boyles currently operates a boutique consulting practice focused on IT strategy / governance, risk management and business innovation. Mr. Boyles also chairs the State of Victoria TAFE ICT Board.

Mr. Boyles has held senior leadership positions at large multinational corporations, including American Express, Bank of America and ANZ Banking Group (ANZ). In December 2003, he retired from his position as Chief Operations Officer at ANZ, where he was responsible for technology, payments, property, strategic sourcing and other shared services. Prior to joining ANZ, from 1991 to 1998, Mr. Boyles held various positions at American Express, the most recent being that of Senior Vice President, eCommerce.

Mr. Boyles received an M.B.A. from Washington State University and an M.A. and B.A. (summa cum laude) in Psychology from the University of Northern Colorado and A.A. from Mesa State College.

Jeffrey Sean Lehman has served as one of the directors on our Board since April 2006. Mr. Lehman is the Chairperson of our Nominations Committee, a member of the Investors Grievance Committee and also serves as the Chairman of Infosys Public Services, Inc.

Mr. Lehman, Chancellor and founding dean of the Peking University School of Transnational Law, is also professor of law and former president at Cornell University and a Senior Scholar at the Woodrow Wilson International Center for Scholars. Mr. Lehman is also an honorary professor at China Agricultural University and at Xiamen University. Mr. Lehman has been named the Vice-Chancellor of NYU Shanghai effective, July 1, 2012.

Mr. Lehman taught tax law and public policy at the University of Michigan before becoming dean of the University of Michigan Law School in 1994. During his last two years as dean, he also served as president of the American Law Deans Association. Prior to entering academia, Mr. Lehman practiced tax law in Washington, D.C.

In 2005, Peking University awarded Mr. Lehman an honorary doctorate degree in recognition of his service as a bridge between scholars in the United States and China. Mr. Lehman chairs the board of the University Consortium for Advanced Internet Development, also known as Internet2.

Mr. Lehman received an A.B. in Mathematics from Cornell University, and M.P.P. and J.D. degrees from the University of Michigan.

R. Seshasayee has served as one of the directors on our Board since January 2011. He is member of the audit committee and the Risk Management Committee.

R. Seshasayee is the Executive Vice Chairman of Ashok Leyland Limited. He was the Managing Director of Ashok Leyland since 1998 through March 2011, leading its transformation into a globally competitive technology leader seeking growth through globalization and diversification, via global acquisitions and joint ventures with Nissan Motor Company, John Deere, Continental AG and the Alteams Group, to name a few. He is also the Executive Vice Chairman of Hinduja Automotive Limited, UK, the holding company of Ashok Leyland.

He began his career as a Chartered Accountant with Hindustan Lever Limited in 1971 and joined Ashok Leyland five years later in 1976.

Seshasayee has been on the National Council of Confederation of Indian Industry (CII) for over fifteen years and served as its President for the year 2006-07. He served as the President of Society of Indian Automobile Manufacturers (SIAM), the apex body representing the Indian automobile industry during 2001-03. He was the Co-Chairman of Core Group on Auto-Research (CAR), a joint initiative of the Government of India and the auto industry for developing advanced technology.

As a member of Government of India delegations, Seshasayee was a participant at the Doha Ministerial Round of WTO in 2001 and the Hong Kong Ministerial at Hong Kong in 2005. Seshasayee was also the Co-chair of the World Economic Forum - Middle East during 2007.

Mr. Seshasayee serves on the boards of Ashok Leyland Limited, Ashley Airways Limited, Ashley Alteams India Limited, Hinduja Foundries Limited, IndusInd Bank Limited, Hinduja Automotive Limited, UK, Ashok Leyland Nissan Vehicles Limited, Hinduja Group India Limited, Hinduja Energy India Limited, Hinduja Leyland Finance Limited, Hinduja National Power Corporation Limited, Irizar TVS Limited, Nissan Ashok Leyland Technologies Limited, Nissan Ashok Leyland Powertrain Limited, Optare plc., U.K. and Ashok Leyland Defense Systems Limited. Mr. Seshasayee was also a director on the Boards of various companies, including ICICI Bank, E.I.D Parry (India) Ltd., etc. He is also associated with several charitable, educational, cultural and social welfare organizations, including the Indian Cancer Institute.

Mr. Seshasayee received a B.Com from the University of Madras and is member of the Institute of Chartered Accountants of India.

Ravi Venkatesan has served as one of the directors on our Board since April 2011. He is also a member of our audit committee, compensation committee and nominations committee. Mr. Venkatesan was the Chairman of Microsoft India between 2004-2011.

Prior to joining Microsoft, Mr. Venkatesan worked for over 17 years with Cummins Inc., the world leader in engines and related technologies.

Mr. Venkatesan is a member of the Board of Directors of AB Volvo and a member of the Advisory Boards of Harvard Business School and Bunge Inc.

Mr. Venkatesan received a B.Tech. in Mechanical Engineering from the Indian Institute of Technology, Bombay, an M.S. in Industrial Engineering from Purdue University and an MBA from Harvard University, where he was a Baker Scholar. Mr. Venkatesan was awarded the Purdue University's Outstanding Industrial Engineer award in 2000 and the Distinguished Alumnus award by the Indian Institute of Technology in 2003.

Ann Fudge has served as one of the directors on our Board since October 2011. She is the chairperson of the compensation committee and a member of the nominations committee of the Board.

She was the Chairman and CEO of Young & Rubicam Brands, a global network of pre-eminent companies across the full range of marketing communications.

Prior to Young & Rubicam Brands, Ms. Fudge served as the President, Beverages, Desserts and Post Division - a US\$ 5 billion unit of Kraft Foods. She served on Kraft's Management Committee and has managed many businesses including Maxwell House Coffee, Gevalia Kaffe, Kool Aid, Crystal Light, Post Cereals, Jell-O desserts and Altoids. Before joining General Foods, she spent nine years at General Mills, where she began as a Marketing Assistant and rose to the level of Marketing Director.

Ms. Fudge serves on the Board of Directors of General Electric Company, Novartis International AG and Unilever. She is a trustee of Morehouse College and the Brookings Institution. She also serves on the Boards of the Rockefeller Foundation, the Council on Foreign Relations, and is the Chair of U.S. Program Advisory Panel for the Gates Foundation. She has served as the Vice Chair of Harvard Board of Overseers, on the Board of Catalyst, the NY Philharmonic and on the Board of Governors for the Boys and Girls Clubs of America. She has also served on the Board of the Federal Reserve Bank of New York, Liz Claiborne, Allied Signal, Honeywell, and Marriott International.

Ms. Fudge holds a bachelor's degree from Simmons College and an MBA from Harvard University Graduate School of Business.

Srinath Batni has served as one of the directors on our Board since May 2000. Mr. Batni is currently Head - Delivery Excellence at Infosys. He serves as a director on the boards of Infosys China, Infosys Shanghai and Infosys Australia.

Mr. Batni joined Infosys in June 1992 as Project Manager. Since then, he has held several senior positions in our Customer Delivery function.

Mr. Batni is also a Member of the Executive Council of NASSCOM.

Mr. Batni received a B.E. in Mechanical Engineering from the University of Mysore and an M.E. in Mechanical Engineering from the Indian Institute of Science, Bangalore.

V. Balakrishnan has served as one of the directors on our Board since June 2011 and is our Chief Financial Officer. He serves as a Chairman on the Board of Infosys BPO. He is also the member of the board in Tejas Networks Limited and Extensible Business Reporting Language(XBRL) India.

Mr. Balakrishnan was our Company Secretary and Senior Vice President - Finance from 2001 to 2006. Since he joined us in 1991, Mr. Balakrishnan has served in various capacities in our Finance department.

Prior to joining Infosys, Mr. Balakrishnan was Senior Accounts Executive with Amco Batteries Limited.

Mr. Balakrishnan was conferred the CNBC TV-18 "Best Performing CFO" award for IT & ITES sector for 2008 and 2009. He was voted the best CFO by Finance Asia in its Asia's Best Companies Poll for 2008, 2009 and 2011. He won the Best CFO (Information Technology, Media, Communications and Entertainment) award from the ICAI (Institute of Chartered Accountants of India) for 2008.

Mr. Balakrishnan received a B.Sc. from the University of Madras. He is an Associate Member of the Institute of Chartered Accountants of India, the Institute of Company Secretaries of India and the Institute of Cost and Works Accountants of India.

Ashok Vemuri has served as one of the directors on our Board since June 2011 and is Head of Americas and Global Head of Manufacturing, Engineering Services, and Enterprise Mobility. He serves as a chairman of the Boards of Infosys China and Infosys Shanghai and a director on the board of Infosys Public Services Inc.

Mr. Vemuri joined Infosys in 1999 and has served in a number of leadership roles, including Head of Infosys Canada and Eastern North America Region operations, before leading the company's entry into the financial services industry

as the Head of Banking and Capital Markets in 2004.

Mr. Vemuri holds a degree in Physics from St. Stephens College, Delhi, and a degree in Business Management from the Indian Institute of Management, Ahmedabad.

B. G. Srinivas has served as one of the directors on our Board since June 2011 and is Head of Europe and Global Head of Financial Services & Insurance. He serves as a director on the boards of Infosys Sweden, Infosys Consulting India Limited and Chairman of board of Infosys Australia.

As the Head of Europe since 2004, Mr. Srinivas is responsible for business operations and growth in the region and for ensuring both client and employee satisfaction. Under his leadership, the region has been characterized by market expansion, new service offerings and new client acquisitions.

In 2007, Mr. Srinivas was appointed the Head of Infosys' Manufacturing and Product Development and Engineering units. Following the consolidation and reorganization of industry groups, he is responsible for the worldwide manufacturing sector.

Upon joining Infosys in 1999, Mr. Srinivas's first leadership role was to establish and manage the Enterprise Solutions (ES) practice with a focus on consulting and package implementation.

In addition to his primary responsibilities, Mr. Srinivas is a Member of the boards of Infosys Australia, Infosys Sweden, Infosys Consulting India Limited and is a member of the advisory board of Ovum, a leading European IT and business research and advisory firm.

Mr. Srinivas holds a degree in Mechanical Engineering from Bangalore University, and has participated in executive programs at IIM Ahmedabad and Wharton Business School.

Chandrashekhara Kakal is a Member of our Executive Council and Senior Vice President and heads the Enterprise Solutions business unit at Infosys.

Mr. Kakal joined Infosys in 1999. He was part of the group that started the Enterprise Solutions practice. Mr. Kakal also established Infosys' Hyderabad Development Center in 2000, which he headed until 2004.

Prior to joining Infosys, Mr. Kakal had worked with several manufacturing and IT companies, including Ashok Leyland Limited, Wipro Technologies Limited, Larsen & Toubro Limited and Ramco Systems Limited.

Mr. Kakal received a B.E. in Mechanical Engineering from Bangalore University and an M.B.A. from the Asian Institute of Technology, Bangkok.

Nandita Gurjar is a member of our Executive Council and Senior Vice President and Global Head – Human Resources. Ms. Gurjar was appointed the Head of Infosys Human Resources in 2007.

Earlier, Nandita established and headed the Human Resources department at Infosys BPO. Ms. Gurjar joined Infosys in 1999 and founded the Learning and Development unit to implement learning and training effectiveness and set benchmarks for growth and development.

Ms. Gurjar holds a degree in Literature from Nizam College, Hyderabad, and a master's degree in Psychology from Osmania University

Basab Pradhan is a member of our Executive Council and Senior Vice President - Global Head of Sales and Marketing for Infosys. He is responsible for shaping Infosys' field force and go-to-market to enable the company's

strategy and goals.

Over two stints at Infosys, Mr. Pradhan has played many roles in the organization across Sales, Marketing, Industry Solutions and P&L leadership. Starting with opening the company's first sales office in the New York area in 1995, Mr. Pradhan has been intimately involved in the formation and growth of the offshore services industry.

Outside of Infosys, Mr. Pradhan was the co-founder and CEO of a venture-funded technology startup in the area of unstructured data in financial information. Prior to Infosys, he worked for Hindustan Unilever in Mumbai.

Mr. Pradhan is an engineer from IIT Kanpur and has a Post Graduate Diploma in Business Management from IIM Ahmedabad. He is a trustee on the board of Digjyoti, an educational trust that provides scholarships to needy students in the state of Orissa in India.

Stephen R. Pratt is the Global Head of Consulting and Systems Integration and a Member of our Executive Council. In 2003, he co-founded Infosys Consulting.

Mr. Pratt joined Infosys after 12 years as a senior partner at Deloitte Consulting, where he established the company's CRM practice. Before Deloitte, he worked for eight years at Booz, Allen & Hamilton.

Mr. Pratt holds a bachelor's degree in Electrical Engineering from Northwestern University, and a master's degree from the George Washington University. He is currently based in California.

U. B. Pravin Rao is a member of our Executive Council and Senior Vice President, Global Head of Retail, Consumer Packaged Goods, Logistics and Life Sciences. Pravin is responsible for providing services to Retail, Consumer Packaged Goods, Logistics and Life Sciences clients.

He joined Infosys in 1986 and has over 25 years of experience working on engagements with clients, primarily in Retail and Financial Services.

Prior to his current role, Mr. Rao held a number of senior leadership roles including: Head of Infrastructure Management Services and Delivery Head for Europe.

As a member of the Executive Council, he participates in formulation and deployment of business strategy along with the Board. Mr. Rao also serves as a Director on the board of Infosys Australia.

Mr. Rao holds a bachelor's degree in engineering from Bangalore University and is currently based in Bangalore, India.

Prasad Thrikutam is a member of our Executive Council and Senior Vice President, Global Head of Energy, Utilities, Communications and Services.

Mr. Thrikutam heads the Energy, Utilities, Communications and Services (ECS) industry group. Mr. Thrikutam also has the overall responsibility of Infosys Cloud and Sustainability services, and serves on the board of Infosys China.

A 21-year industry veteran, Mr. Thrikutam joined Infosys in 1995 as a Regional Head of Business Development in the U.S. From 2004 to 2008, he led the Hi-tech and Discrete Manufacturing unit (HTDM). In 2008, he took on the leadership of the Energy, Utilities & Services (EUS) unit.

Mr. Thrikutam is a frequent speaker at industry events including those organized by the University of Austin, MIT, University of Arizona Eller School of Business and the Fuqua School of Business at Duke University. He serves on the Board of Energistics, the upstream oil and gas open standards consortium.

Prior to joining Infosys, Mr. Thrikutam headed the regional operations at a leading IT company in India, selling solutions to the Enterprise market. Prior to that, he was at Bosch GmbH, India, where he held leadership roles in Manufacturing and Operations.

Mr.Thrikutam holds a degree in Mechanical Engineering from Visheveshwarayya College of Engineering, Bangalore and a Post Graduate Diploma in Business Management from IIM, Bangalore.

Ramadas Kamath U. is a Member of our Executive Council and Senior Vice President and Head of Infrastructure, Commercial, Facilities, Administration and Security.

Mr. Kamath plays a vital role in the management of Infosys' facilities and administration worldwide. From managing the company's infrastructural growth to ensuring physical security across campuses, he has been instrumental in ensuring that Infosys' growth as a global IT leader has been reflected across the locations and facilities from which it operates.

Mr. Kamath is a Chartered Accountant and has a bachelor's degree in Business Management from Poorna Prajna College, Udupi, Karnataka.

COMPENSATION

Our Compensation Committee determines and recommends to the Board the compensation payable to the directors. All Board-level compensation is approved by shareholders. The annual compensation of the executive directors is approved by the Compensation Committee, within the parameters set by the shareholders at the shareholders meetings. Remuneration of the executive directors consists of a fixed component, bonus and a variable performance linked incentive. The Compensation Committee makes a half-yearly appraisal of the performance of the employee directors based on a detailed performance-related matrix.

We have a variable compensation structure for all of our employees. Each employee's compensation consists of performance incentives payable upon the achievement by the company of certain financial performance targets and is also based on individual performance. Our Board aligned the compensation structure of our employee directors in line with that applicable to all of our other employees. All of our executive directors are entitled to a bonus of up to 20% of their fixed salary. All of our executive directors are entitled to receive company-linked performance incentives payable on our achievement of certain financial performance targets. All our executive directors are entitled to receive individual performance-linked incentives. The bonus and various incentives are payable quarterly or at other intervals as may be decided by our Board.

In fiscal 2012, our non-executive directors were paid an aggregate of \$1,471,300. Directors are also reimbursed for certain expenses in connection with their attendance at Board and committee meetings. Executive directors do not receive any additional compensation for their service on the Board.

We operate in numerous countries and compensation for our officers and employees may vary significantly from country to country. As a general matter, we seek to pay competitive salaries in all the countries in which we operate.

The table below describes the compensation for our officers and directors, for the fiscal year ended March 31, 2012.

| Name | Salary (\$) | Bonus/ Incentive (\$) | Other Annual Compensation (\$) | Amount accrued for long term benefits (\$) |
|--------------------------|-------------|-----------------------|--------------------------------|--|
| N. R. Narayana Murthy(1) | – | – | 67,100 | – |

- (1) Mr. N R Narayana Murthy retired from the Board effective August 20, 2011. Remuneration paid is for the period April 1, 2011 to August 20, 2011.
- (2) Mr. K Dinesh retired from the Board effective June 11, 2011. Remuneration paid is for the period April 1, 2011 to June 11, 2011.
- (3) Mr. Marti G Subrahmanyam retired from the Board effective August 23, 2011. Remuneration paid is for the period April 1, 2011 to August 23, 2011.
- (4) Ms. Ann M Fudge joined the Board effective October 1, 2011. Remuneration paid is for the period October 1, 2011 to March 31, 2012.
- (5) Mr. T V Mohandas Pai resigned from the Board effective June 11, 2011. Remuneration paid is for the period April 1, 2011 to June 11, 2011.
- (6) Mr. V Balakrishnan, Mr. Ashok Vemuri and Mr. B G Srinivas joined the Board effective June 11, 2011. Remuneration paid to them includes entitlements during their tenure as members of Executive Council.
- (7) Mr. Subhash Dhar resigned from the Executive Council effective July 15, 2011. Remuneration paid is for the period April 1, 2011 to July 15, 2011.
- (8) Appointed as a Member of the Executive Council effective July 15, 2011. Remuneration paid is for the period April 1, 2011 to March 31, 2012.

All compensation to directors and officers disclosed in the table above that was paid in Indian rupees has been converted, for the purposes of the presentation in such table, at an exchange rate of 50.88 per U.S. dollar.

Option Grants

There were no option grants to our Executive Co-Chairman, Chief Executive Officer or Chief Financial Officer in the fiscal years ended March 31, 2012, 2011 and 2010. Details of options granted to other senior executives are reported elsewhere in Item 6 in the section titled "Compensation".

Option Exercises and Holdings

Edgar Filing: Infosys Ltd - Form 20-F

Our Executive Co-Chairman, Chief Executive Officer or Chief Financial Officer did not hold or exercise any options during the fiscal year ended March 31, 2012. The details of stock options held and exercised with respect to other senior executives are reported elsewhere in Item 6 in the section titled "Share Ownership".

All executive directors are also liable to retire by rotation. The term of office of each of the directors is given below:

| Name | Date Current Term of Office Began(2) | Expiration/Renewal Date of Current Term of Office(3) | Whether Office is subject to retirement by rotation |
|------------------------|--|--|--|
| S. Gopalakrishnan(1) | August 21, 2011 | August 20, 2016 | Yes |
| S. D. Shibulal | August 21, 2011 | August 20, 2016 | Yes |
| Srinath Batni | May 27, 2010 | May 26, 2015 | Yes |
| Deepak M. Satwalekar | June 11, 2011 | – | Yes |
| Omkar Goswami | June 11, 2011 | – | Yes |
| Sridar A. Iyengar | June 11, 2011 | – | Yes |
| David L. Boyles(1) | June 20, 2009 | – | Yes |
| Jeffrey Sean Lehman(1) | June 20, 2009 | – | Yes |
| K. V. Kamath(1) | June 20, 2009 | – | Yes |
| R. Seshasayee | June 11, 2011 | – | Yes |
| Ravi Venkatesan | June 11, 2011 | – | Yes |
| Balakrishnan V(4) | – | – | Yes |
| B.G. Srinivas(4) | – | – | Yes |
| Ashok Vemuri(4) | – | – | Yes |
| Ann M Fudge(5) | – | – | Yes |

(1) Is a director who is retiring by rotation in the ensuing Annual General Meeting scheduled for June 09, 2012 and is seeking re-appointment.

(2) For executive directors, this date is the date they were appointed by our shareholders as executive directors. For non-executive directors, this date is the date they were appointed/re-appointed as directors liable to retire by rotation by our shareholders. The term of office of a non-whole time director, i.e. a non-executive director is determined by rotation and may not be more than three years.

(3) For executive directors, this date is the date when their current term of appointment as an executive director expires.

(4) Appointed by the Board as additional director and whole-time director w.e.f. June 11, 2011. Their appointment will come up for shareholder confirmation at the ensuing AGM on June 9, 2012.

(5) Appointed by the Board as additional director w.e.f. October 1, 2011. Her appointment will come up for shareholder confirmation at the ensuing AGM on June 9, 2012.

Employment and Indemnification contracts

Under the Indian Companies Act, our shareholders must approve the salary, bonus and benefits of all executive directors at a General Meeting of shareholders. Each of our executive directors has signed an agreement containing the terms and conditions of employment, including a monthly salary, bonus and benefits including vacation, medical reimbursement and gratuity contributions. There are no benefits payable upon termination of this agreement. These agreements are made for a five-year period, but either we or the executive director may terminate the agreement upon six months' notice to the other party. The form of the employment agreement for our executive directors has been filed previously and is incorporated by reference as an exhibit to this Annual Report on Form 20-F.

We have also entered into agreements to indemnify our directors and officers for claims brought under U.S. laws to the fullest extent permitted by Indian law. These agreements, among other things, indemnify our directors and officers

for certain expenses, judgments, fines and settlement amounts incurred by any such person in any action or proceeding, including any action by or in the right of Infosys, arising out of such person's services as our director or officer. The form of the indemnification agreement for our directors and officers has been filed previously and is incorporated by reference as an exhibit to this Annual Report on Form 20-F. Other than the indemnification agreements referred to in this paragraph, we have not entered in to any agreements with our non-executive directors.

Board Composition

Our Articles of Association provide that the minimum number of directors shall be 3 and the maximum number of directors shall be 16. Currently, we have 15 directors, nine of whom are independent as defined by NASDAQ Rule 4200(a)(15). Our Articles of Association and the Indian Companies Act require that at least two-thirds of our directors be subject to retirement by rotation. One-third of these directors must retire from office at each Annual General Meeting of the shareholders. A retiring director is eligible for re-election. Our executive directors are appointed for five-year terms by the shareholders. They customarily retire every three years and are eligible for re-election at that time. Executive directors are required to retire at age 60 in accordance with our India-based employee retirement policies.

Other Board members must retire from the Board at age 65. The age of retirement for independent directors joining the board on or after October 15, 2010, is 70 years.

An independent board chair is generally permitted to serve in the capacity until the age of 70 years.

Board Leadership Structure

Independent Chairman of the Board

Our Board leadership is comprised of an independent Chairman, Mr. K. V. Kamath, an Executive Co-Chairman, Mr. S. Gopalakrishnan and a Chief Executive Officer (CEO) and Managing Director, Mr. S. D. Shibulal. In the current structure, the roles of CEO and Chairman of the Board are separated.

The Independent Chairman of the Board (Chairman) is the leader of the Board. As Chairman, he will be responsible for fostering and promoting the integrity of the Board while nurturing a culture where the Board works harmoniously for the long-term benefit of the Company and all its stakeholders. The Chairman is primarily responsible for ensuring that the Board provides effective governance for the Company. In doing so, the Chairman will preside at meetings of the Board and at meetings of the shareholders of the Company.

The Chairman will take a lead role in managing the Board and facilitating communication among directors. The Chairman will be responsible for matters pertaining to governance, including the organization and composition of the Board, the organization and conduct of Board meetings, effectiveness of the Board. Board, Board committees and individual directors in fulfilling their responsibilities. The Chairman will provide independent leadership to the Board, identify guidelines for the conduct and performance of directors, evaluate and manage directors' performance and with the assistance of Co-Chairman and the Company Secretary, oversee the management of the Board's administrative activities such as meetings, schedules, agendas, communication flow and documentation.

The Chairman will actively work with nominations committee to plan the Board and Board committee's composition, induction of directors to the Board, plan for director succession, participate in the Board effectiveness evaluation process and meet with individual directors to provide constructive feedback and advice.

Executive Co-Chairman of the Board

The Executive Co-Chairman of the Board (Co- Chairman), being an executive of the Company, will focus on maintaining key client relationships, dealing with broader industry issues, providing global thought leadership, directing research and innovation, leading transformation initiatives, contributing to strategy and representing the Company as its brand ambassador. The Co-Chairman will serve as a trusted mentor to the CEO and provide insights and thought leadership to manage a large and complex organization.

The Co-Chairman will also be responsible for mentoring the core management team in transforming the Company into a world-class, next-generation organization that provides state-of-the-art, technology-leveraged business solutions to corporations around the world. Further the Co-Chairman will be responsible for working with the Chief Executive Officer to maintain an effective communication between the Company's management and the Board, and for ensuring that the directors receive all appropriate information in a timely manner. Also, the Co-Chairman in the absence of the Chairman, will preside over the meetings of the Board as well as the Annual Meeting of the shareholders.

Chief Executive Officer and Managing Director

The Chief Executive Officer is responsible for corporate strategy, brand equity, planning, external contacts and all management matters. He is also responsible for achieving the annual business targets and acquisitions.

Board's Role in Risk Oversight

Our Board as a whole is responsible for overall oversight of risk management. The risk management committee, comprising of four independent directors, assists the Board in fulfilling its corporate governance oversight responsibilities with regard to the identification, evaluation and mitigation of operational, strategic and external risks. The risk management committee also monitors and approves our risk policies and associated practices. The risk management committee is also responsible for reviewing and approving risk disclosure statements in any public documents or disclosures. Our senior management, including a risk council comprising our Executive Co-Chairman, Chief Executive Officer and Chief Financial Officer is tasked with the direct management of enterprise risks, initiating mitigation actions, identifying owners for such actions and reviewing progress. Our senior management also provides regular reports and updates to the risk management committee and our Board from time to time on the enterprise risks and actions taken.

Board and Management Changes

On August 21, 2011, Mr. K V Kamath took became the Chairman of the Board, Mr. S Gopalakrishnan became the Executive Co-Chairman of the Board and Mr. S. D. Shibulal became the Chief Executive Officer and Managing Director.

Effective June 11, 2011, Mr. V. Balakrishnan, Mr. B. G. Srinivas, and Mr. Ashok Vemuri were appointed as members of the Board. Ms. Ann Fudge was appointed as a member of the Board effective October 1, 2011.

Effective June 11, 2011, Mr. T.V. Mohandas Pai resigned as a member of the Board. Mr. Subhash Dhar, Senior Vice President - Communication, Media and Entertainment, Global Sales, Alliances and Marketing and Independent Validation Solutions and member of the Executive Council, resigned from the Company effective July 15, 2011.

At our AGM, held on 11 June, 2011, Mr. K. Dinesh retired by rotation from our Board. In accordance with the retirement policy for our Board, Mr. N R Narayana Murthy and Prof. Marti G. Subrahmanyam retired from the Board effective August 20, 2011 and August 23, 2011 respectively. During the year, our Board appointed Mr. N R Narayana Murthy as the Chairman Emeritus in recognition of his founding the company, mentoring his co-founders, and nurturing the organization over the last thirty years.

Board Committee Information

Details relating to the Audit, Compensation, Nominations and Risk Management Committees of our Board are provided below.

Audit Committee

As of March 31, 2012, our Audit Committee was comprised of four independent directors, each of whom was determined by our Board to be an independent director under applicable NASDAQ rules. They were:

- Mr. Deepak M. Satwalekar, Chairperson
- Mr. Sridar A. Iyengar, Audit Committee Financial Expert
- Mr. R. Seshasayee
- Mr. Ravi Venkatesan

Our Board has determined that each of the current members of the Audit Committee is an independent director under applicable NASDAQ rules.

The primary objective of the Audit Committee is to monitor and provide effective supervision of our financial reporting process with a view towards ensuring accurate, timely and proper disclosures and the transparency, integrity and quality of financial reporting. Our Audit Committee oversees the work carried out in the financial reporting process - by our management, the internal auditors and the independent auditor - and reviews the processes and safeguards employed by each. In addition, our Audit Committee has the responsibility of oversight and supervision over our system of internal control over financial reporting, our audit process, and process for monitoring the compliance with related laws and regulations. The Audit Committee recommends to our shareholders the appointment of our independent auditors and approves the scope of both audit and non-audit services. The Audit Committee held four meetings in person and three meetings via conference calls during fiscal 2012. The Audit Committee has adopted a charter. The charter has been filed previously and is incorporated by reference as an exhibit to this Annual Report on Form 20-F.

See Item 18 for the report of the Audit Committee.

Compensation Committee

As of March 31, 2012, our Compensation Committee was comprised of three non-executive independent directors, each of whom was determined by our Board to be an independent director under applicable NASDAQ rules. They were:

Ms. Ann Fudge, Chairperson
Mr. David Boyles
Mr. Ravi Venkatesan

Our Board has determined that each of the current members of the Compensation Committee is an independent director under applicable NASDAQ rules.

The purpose of our Compensation Committee is to discharge the Board of Directors' responsibilities relating to compensation of our executive directors and senior management. The Compensation Committee has overall responsibility for approving and evaluating our compensation plans, policies and programs for executive directors and senior management.

The Compensation Committee held five meetings in person during fiscal 2012 and held one conference call.

The Compensation Committee has adopted a charter. The charter has been filed previously and is incorporated by reference as an exhibit to this Annual Report on Form 20-F.

Nominations Committee

As of March 31, 2012, our Nominations Committee was comprised of three independent directors, each of whom was determined by our Board to be an independent director under applicable NASDAQ rules. They were:

- Prof. Jeffrey Lehman, Chairperson
- Ms. Ann Fudge
- Mr. Ravi Venkatesan

Our Board has determined that each of the current members of the Nominations Committee is an independent director under applicable NASDAQ rules.

The purpose of our Nominations Committee is to oversee our nomination process for our top level management and specifically to identify, screen and review individuals qualified to serve as our Executive Directors, Non Executive Directors and Independent Directors consistent with criteria approved by our Board and to recommend, for approval by our Board, nominees for election at our annual meeting of shareholders.

The Nominations Committee held five meetings in fiscal 2012.

The Nominations Committee has adopted a charter. The charter has been filed previously and is incorporated by reference as an exhibit to this Annual Report on Form 20-F.

Risk Management Committee

As of March 31, 2012, our Risk Management Committee was comprised of four independent directors, each of whom was determined by our Board to be an independent director under applicable NASDAQ rules. They were:

- Mr. David L. Boyles, Chairperson
- Dr. Omkar Goswami
- Mr. Sridar A. Iyengar
- Mr. R. Seshasayee

Our Board has determined that each of the current members of the Risk Management Committee is an independent director under applicable NASDAQ rules.

The purpose of the Risk Management Committee is to assist our Board in fulfilling its corporate governance oversight responsibilities with regard to the identification, evaluation and mitigation of operational, strategic and external risks. The Risk Management Committee has overall responsibility for monitoring and approving our risk policies and associated practices. The Risk Management Committee is also responsible for reviewing and approving risk disclosure statements in any public documents or disclosures.

The Risk Management Committee held four meetings in person and four meetings via conference call during fiscal 2012.

The Risk Management Committee has adopted a charter. The charter has been filed previously and is incorporated by reference as an exhibit to this Annual Report on Form 20-F.

EMPLOYEES

Edgar Filing: Infosys Ltd - Form 20-F

As of March 31, 2012, we employed approximately 150,000 employees, of which 141,790 were IT professionals. As of March 31, 2011, we employed approximately 130,820 employees, of which approximately 123,811 were IT professionals. As of March 31, 2010, we employed approximately 113,800 employees, of which approximately 106,900 were IT professionals. As of March 21, 2009, we employed approximately 104,900 employees, including approximately 97,300 IT professionals. As of March 31, 2008, we employed approximately 91,200 employees, including approximately 85,000 IT professionals.

As of March 31, 2012, we employed approximately 118,800 employees in India, 16,400 employees in North America, 7,780 employees in the Asia-Pacific region, 6,560 employees in Europe, 270 employees in South America and 190 employees in the Middle East region and Africa.

We seek to attract and motivate IT professionals by offering:

- an entrepreneurial environment that empowers IT professionals;
- programs that recognize and reward performance;
- challenging assignments;
- constant exposure to new skills and technologies; and
- a culture that emphasizes openness, integrity and respect for the employee.

Some of our employees in jurisdictions across Europe, including employees located in France, Spain, Sweden, Italy and Belgium are covered by collective bargaining agreements that have been adopted at a government level, across the information technology sector or otherwise. We believe that our management maintains good relations with our employees, including those employees covered under collective bargaining agreements.

Recruiting

We focus our recruiting on the top 20% of students from engineering departments of Indian schools and rely on a rigorous selection process involving a series of tests and interviews to identify the best applicants. Our reputation as a premier employer enables us to select from a large pool of qualified applicants. For example, during fiscal 2012, we received approximately 622,970 employment applications, interviewed approximately 60,860 applicants and extended offers of employment to approximately 41,460 applicants. In fiscal 2012, we hired approximately 16,069 new employees, net of attrition. These statistics do not include Infosys BPO or our wholly-owned subsidiaries, which recorded approximately 3,105 new hires, net of attrition, in fiscal 2012. We do not have significant recruiting activities outside India.

Performance appraisals

We have instituted an appraisal program that incorporates a 360-degree feedback system recognizing high performers and providing constructive feedback and coaching to underperformers.

Training and development

We have established a world-class training facility, the Infosys Global Education Center, in our campus in Mysore, India, with a view to consolidate learning activities across the company. With a total built-up area of 1.44 million square feet, the Infosys Global Education Center can train approximately 14,000 employees at a time.

Our training, continuing education and career development programs are designed to ensure our technology professionals enhance their skill-sets in alignment with their respective roles. Fresh engineering graduate hires complete approximately 20 to 23 weeks of integrated training prior to being assigned to a business unit.

As of March 31, 2012, we employed 698 full-time employees as educators, including 255 with doctorate or masters degrees. Our educators conduct training program for our new and experienced employees. We also have our experienced employees undergo certification programs to develop their skills relevant for their roles. Our researchers published extensively during the financial year with articles, white papers in prestigious journals and conferences as well as books and invited chapters in reputed publications.

In addition, we also have been working with several colleges across India through our Campus Connect program, enabling their faculty to develop industry related training to students at the colleges.

We provide a challenging, entrepreneurial and empowering work environment that rewards dedication and a strong work ethic. We continually build the competence of our professionals with training and exposure to new skills, technologies and global opportunities.

Leadership development is a core part of our training programs. We established the Infosys Leadership Institute in our 337-acre campus in Mysore, India, to enhance leadership skills that are required to manage the complexities of the rapidly changing marketplace and to further instill our culture through leadership training.

Compensation

Our technology professionals receive competitive salaries and benefits. We have also adopted a variable compensation program which links compensation to company, team and individual performance.

Visas

As of March 31, 2012, the majority of our technology professionals in the United States held either H-1B visas (approximately 10,115 persons, not including Infosys BPO employees or employees of our wholly owned subsidiaries), or L-1 visas (approximately 1,988 persons, not including Infosys BPO employees or employees of our wholly owned subsidiaries).

SHARE OWNERSHIP

The following table sets forth as of March 31, 2012, for each director and executive officer, the total number of equity shares, ADSs and options to purchase equity shares and ADSs exercisable within 60 days from March 31, 2012. Beneficial ownership is determined in accordance with rules of the Securities and Exchange Commission. All information with respect to the beneficial ownership of any principal shareholder has been furnished by such shareholder and, unless otherwise indicated below, we believe that persons named in the table have sole voting and sole investment power with respect to all the shares shown as beneficially owned, subject to community property laws, where applicable. The shares beneficially owned by the directors include the equity shares owned by their family members to which such directors disclaim beneficial ownership.

The stock option grant price has been translated into U.S. dollars from Indian rupees based on fixing rate in the City of Mumbai on March 31, 2012 for cable transfers in Indian rupees as published by the FEDAI, which was 50.88 per \$1.00. The share numbers and percentages listed below are based on 574,230,001 Equity Shares outstanding as of March 31, 2012. Percentage of shareholders representing less than 1% are indicated with an '*'.

| Name beneficially owned | Equity Shares beneficially owned | % of equity shares | Equity Shares underlying options granted | Exercise price | Date of Expiration |
|-------------------------|----------------------------------|--------------------|--|----------------|--------------------|
| S. Gopalakrishnan(1) | 19,555,717 | 3.41 | — | — | — |

| Ramadas Kamath U. | 120 | * | — | — | — |
| Total (all directors and executive officers) | 33,690,992 | 5.87 | — | — | — |

- (1) Shares beneficially owned by Mr. Gopalakrishnan include 12,898,991 Equity Shares owned by members of Mr. Gopalakrishnan's immediate family. Mr. Gopalakrishnan disclaims beneficial ownership of such shares.
- (2) Shares beneficially owned by Mr. Shibulal include 10,159,200 Equity Shares owned by members of Mr. Shibulal's immediate family. Mr. Shibulal disclaims beneficial ownership of such shares.
- (3) Shares beneficially owned by Mr. Batni include 72,400 Equity Shares owned by members of Mr. Batni's immediate family. Mr. Batni disclaims beneficial ownership of such shares.
- (4) Shares beneficially owned by Mr. Balakrishnan include 150,000 Equity Shares owned by members of Mr. Balakrishnan's immediate family. Mr. Balakrishnan disclaims beneficial ownership of such shares.

Option plans

1998 Stock Option Plan

Our 1998 Stock Option Plan, or the 1998 Plan, provides for the grant of two types of options to our employees and directors: incentive stock options, which may provide our employees with beneficial tax treatment, and non-qualified stock options. The 1998 Plan was approved by our Board of Directors in December 1997 and by our shareholders in January 1998. The term of the 1998 Plan ended on January 6, 2008, and consequently no further shares will be issued to employees under this plan. A total of 11,760,000 ADSs, representing 11,760,000 Equity Shares, were reserved for issuance under the 1998 Plan. All options granted under the 1998 Plan are exercisable for our ADSs.

Our Compensation Committee administers the 1998 Plan. In addition, the committee has the authority to amend, suspend, or terminate the 1998 Plan, provided that no such action may affect any ADS previously issued and sold or any option to purchase an ADS previously granted under the 1998 Plan.

The 1998 Plan generally does not allow for transfer of options, and only the optionee may exercise an option during his or her lifetime. An optionee generally must exercise an option within three months of termination of service. If an optionee's termination is due to death or disability, his or her option will fully vest and become exercisable and the option must be exercised within twelve months after such termination. The exercise price of incentive stock options granted under the 1998 Plan must at least equal the fair market value of the ADSs on the date of grant. The exercise price of nonstatutory stock options granted under the 1998 Plan must at least equal 90% of the fair market value of the ADSs on the date of grant. The term of options granted under the 1998 Plan may not exceed 10 years.

The 1998 Plan provides that in the event of our merger with or into another corporation or a sale of substantially all of our assets, the successor corporation shall either assume the outstanding options or grant equivalent options to the holders. If the successor corporation neither assumes the outstanding options nor grants equivalent options, such outstanding options shall vest immediately, and become exercisable in full.

1999 Stock Option Plan

In fiscal 2000, we instituted the 1999 Stock Option Plan, or the 1999 Plan. Our shareholders and Board of Directors approved the 1999 Plan in June 1999. The 1999 Plan provides for the issue of 52,800,000 Equity Shares to employees. The 1999 Plan is administered by our Compensation Committee. Under the 1999 Plan, options will be issued to employees at an exercise price, which shall not be less than the fair market value, or FMV. Under the 1999 Plan, options may also be issued to employees at exercise prices that are less than FMV only if specifically approved by our members in a General Meeting. All options under the 1999 Plan are exercised for equity shares.

The 1999 Plan generally does not allow for transfer of options, and only the optionee may exercise an option during his or her lifetime. An optionee generally must exercise an option within three months of termination of service. If an optionee's termination is due to death or disability, his or her option will fully vest and become exercisable and the option must be exercised within twelve months after such termination. Unless a prior shareholder approval has been obtained, the exercise price of stock options granted under the 1999 Plan must at least equal the fair market value of the equity shares on the date of grant.

The 1999 Plan provides that in the event of our merger with or into another corporation or a sale of substantially all of our assets, the successor corporation shall either assume the outstanding options or grant equivalent options to the holders. If the successor corporation neither assumes the outstanding options nor grants equivalent options, such outstanding options shall vest immediately, and become exercisable in full.

During the fiscal year ended March 31, 2012, there were no options to purchase ADSs or equity shares granted to our executive officers and directors.

Item 7. Major Shareholders and Related Party Transactions

MAJOR SHAREHOLDERS

The following table sets forth as of March 31, 2012, certain information with respect to beneficial ownership of our equity shares by each shareholder or group known by us to be the beneficial owner of 5% or more of our outstanding equity shares.

Beneficial ownership is determined in accordance with rules of the Securities and Exchange Commission, which generally attribute beneficial ownership of securities to persons who possess sole or shared voting power or investment power with respect to those securities and includes equity shares issuable pursuant to the exercise of stock options or warrants that are immediately exercisable or exercisable within 60 days of March 31, 2012. These shares are deemed to be outstanding and to be beneficially owned by the person holding those options or warrants for the purpose of computing the percentage ownership of that person, but are not treated as outstanding for the purpose of computing the percentage ownership of any other person. Unless otherwise indicated, all information with respect to the beneficial ownership of any principal shareholder has been furnished by such shareholder and, unless otherwise indicated, we believe that persons named in the table have sole voting and sole investment power with respect to all the equity shares shown as beneficially owned, subject to community property laws where applicable. The shares beneficially owned by the directors include equity shares owned by their family members to which such directors disclaim beneficial ownership.

Edgar Filing: Infosys Ltd - Form 20-F

The share numbers and percentages listed below are based on 574,230,001 Equity Shares outstanding, as of March 31, 2012.

| Name of the beneficial owner | Class of security | No. of shares | % of class | No. of shares | % of class | No. of shares | % of class |
|------------------------------|-------------------|-------------------|------------|-------------------|------------|-------------------|------------|
| | | beneficially held | of shares | beneficially held | of shares | beneficially held | of shares |
| | | March 31, 2012 | | March 31, 2011 | | March 31, 2010 | |

| | | | | | | | |
|---|---|------------|---------|---------------|----------|------------|----------|
| Shareholding of all directors and officers as a group and officers as a group | – | 33,690,992 | 5.87(1) | 74,460,585(2) | 12.97(2) | 74,521,371 | 13.04(3) |
|---|---|------------|---------|---------------|----------|------------|----------|

(1) Comprised of 1,506,354 shares owned by non-founder directors and officers. The percentage ownership of the group is calculated on a base of 574,237,430 equity shares which includes 7,429 options that are currently exercisable or exercisable by all optionees within 60 days of March 31, 2012.

(2) Comprised of 2,131,152 shares owned by non-founder directors and officers. The percentage ownership of the group is calculated on a base of 574,250,349 equity shares which includes 98,790 options that are currently exercisable or exercisable by all optionees within 60 days of March 31, 2011.

(3) Comprised of 2,192,038 shares owned by non-founder directors and officers. The percentage ownership of the group is calculated on a base of 571,438,320 equity shares which includes 446,728 options that are currently exercisable or exercisable by all optionees within 60 days of March 31, 2010.

Our American Depository Shares are listed on the NASDAQ Global Select Market. Each ADS currently represents one equity share of par value 5 per share. Our ADSs are registered pursuant to Section 12(b) of the Securities Exchange Act of 1934 and as of March 31, 2012 are held by 41,689 holders of record in the United States.

Our equity shares can be held by Foreign Institutional Investors or FIIs, and Non Resident Indians or NRIs, who are registered with the Securities and Exchange Board of India, or SEBI, and the Reserve Bank of India, or RBI. As of March 31, 2012, 39.90% of our equity shares were held by these FIIs and NRIs, some of which may be residents or bodies corporate registered in the United States and elsewhere. We are not aware of which FIIs and NRIs hold our equity shares as residents or as corporate entities registered in the United States.

Our major shareholders do not have differential voting rights with respect to the equity shares. To the best of our knowledge, we are not owned or controlled directly or indirectly by any government, by any other corporation or by any other natural or legal person. We are not aware of any arrangement, the operation of which may at a subsequent date result in a change in control.

RELATED PARTY TRANSACTIONS

Infosys BPO. Infosys established Infosys BPO in April 2002, under the laws of India.

As of March 31, 2012, Infosys holds 99.98% of the outstanding equity shares of Infosys BPO.

During fiscal 2012, 2011 and 2010, we engaged Infosys BPO and its subsidiaries for management services for which we have been billed approximately \$21 million, \$25 million and \$12 million, respectively. Further, during fiscal 2012, 2011 and 2010, Infosys BPO and its subsidiaries engaged us for certain management services for which we billed them approximately \$12 million, \$17 million and \$15 million, respectively. During fiscal 2012 and 2011, we engaged Infosys BPO and its subsidiaries for software development services for which we have been billed approximately \$6 million and \$4 million, respectively. Further, during fiscal 2012 and 2011, Infosys BPO and its subsidiaries engaged us for certain software development services for which we billed them approximately \$7 million and \$5 million, respectively.

Infosys Australia. In January 2004, we acquired, for cash, 100% of the equity in Expert Information Services Pty. Limited, Australia for \$14 million. The acquired company was renamed as Infosys Technologies (Australia) Pty. Limited. During fiscal 2009, Infosys Australia acquired 100% of the equity shares of Mainstream Software Pty. Limited (MSPL) for a cash consideration of \$3 million. During fiscal 2012, 2011 and 2010, we engaged Infosys Australia for software development services for which we have been billed approximately \$277 million, \$195 million and \$134 million, respectively. Further, during fiscal 2012, 2011 and 2010, Infosys Australia engaged us for certain software development services for which we billed them approximately \$3 million, \$7 million and \$5 million, respectively. During fiscal 2012, 2011 and 2010, we received dividend from Infosys Australia of approximately \$120 million, Nil and Nil, respectively.

Infosys China. In October 2003, we established a wholly-owned subsidiary, Infosys China, to expand our business operations in China. During fiscal 2009, we disbursed an amount of \$2 million as loans to Infosys China, for expansion of business operations, at an interest rate of 6.0% per annum. The loan is repayable within five years from the date of disbursement at the discretion of the subsidiary. During fiscal 2012, Infosys China repaid the entire loan. The largest amount outstanding during the fiscal year 2012 was \$5 million. Further, during the year ended March 31, 2012 and March 31, 2011, we made an additional investment of Nil and \$9 million, respectively, in Infosys China. As of March 31, 2012, we have invested an aggregate of \$23 million as equity capital in Infosys China. During fiscal 2012, 2011 and 2010, we engaged Infosys China for software development services for which we have been billed approximately \$55 million, \$53 million and \$28 million, respectively. Further, during fiscal 2012, 2011 and 2010 Infosys China engaged us for certain software development services for which we billed them approximately \$2 million, \$1 million and \$2 million, respectively.

Infosys Mexico. In June 2007, we established a wholly-owned subsidiary, Infosys Mexico, to expand our business operations in Latin America. During fiscal 2012, 2011 and 2010, we made an additional investment of Nil, \$3 million and \$4 million, respectively, in Infosys Mexico. As of March 31, 2012, we have invested an aggregate of \$12 million in the subsidiary. During fiscal 2012, 2011 and 2010, we engaged Infosys Mexico for software development services for which we have been billed approximately \$6 million, \$11 million and \$9 million, respectively. Further, during fiscal 2012, Infosys Mexico engaged us for certain software development services for which we billed them approximately \$1 million.

Infosys Sweden. In March 2009, we established a wholly-owned subsidiary, Infosys Technologies (Sweden) AB to expand our business operations in Europe. During fiscal 2012, 2011 and 2010 we engaged Infosys Sweden for software development services for which we have been billed approximately \$2 million, \$3 million and \$2 million, respectively.

Infosys Brasil. In August 2009, we established a wholly-owned subsidiary, Infosys Tecnologia do Brasil Ltda, to expand our operations in South America and invested an aggregate of \$6 million in the subsidiary. During fiscal 2012 and 2011, we made an additional investment of \$5 million and \$2 million, respectively, in Infosys Brasil. Further, during fiscal 2012 and 2011 we disbursed Nil and \$2 million, respectively, as loan to Infosys Brasil for expansion of business at an interest rate of 6.0% per annum. The loan is repayable within six months at the discretion of the subsidiary. During fiscal 2012, Infosys Brasil repaid the entire loan. The largest amount outstanding during the fiscal year 2012 was \$2 million. As of March 31, 2012 we have invested an aggregate of \$13 million as equity capital in the subsidiary. During fiscal 2012, 2011 and 2010 we engaged Infosys Brasil for software development services for which we have been billed approximately less than \$1 million, \$1 million and \$1 million respectively. Further, during fiscal 2012, Infosys Brasil engaged us for certain software development services for which we billed them approximately less than \$1 million.

Infosys Public Services. In October 2009 we incorporated a wholly-owned subsidiary, Infosys Public Services, Inc., to focus and expand our operations in the U.S public services market and invested an aggregate of \$5 million in the subsidiary. During fiscal 2012, Infosys Public Services engaged us for certain software development services for

which we billed them approximately \$36 million.

Infosys Shanghai. On February 21, 2011 we incorporated a wholly-owned subsidiary, Infosys Technologies (Shanghai) Company Limited and invested \$3 million in the subsidiary. Further, in fiscal 2012 we have made an additional investment of \$17 million in Infosys Shanghai. As of March 31, 2012, we have invested an aggregate of \$20 million in the subsidiary.

Infosys Consulting Inc. In April 2004, we incorporated a wholly-owned subsidiary, Infosys Consulting, in the State of Texas to add high-end consulting capabilities to our Global Delivery Model. On October 7, 2011, the board of directors of Infosys Consulting Inc., approved the termination and winding down of the entity, and entered into an assignment and assumption agreement with Infosys Limited. The termination of Infosys Consulting, Inc. became effective on January 12, 2012, in accordance with the Texas Business Organizations Code. Effective January 12, 2012, the assets and liabilities of Infosys Consulting, Inc., were transferred to Infosys Limited. During fiscal 2012, 2011 and 2010, we engaged Infosys Consulting and its subsidiary for consulting services for which we have been billed approximately \$31 million, \$79 million and \$80 million, respectively. Further, during fiscal 2012, 2011 and 2010 Infosys Consulting and its subsidiary engaged us for certain software development services for which we billed them approximately \$9 million, \$16 million and \$5 million, respectively. Further, during fiscal 2012 and 2011, we billed Infosys Consulting Inc., approximately \$4 million and \$1 million, respectively, for certain shared facilities.

Infosys Consulting India Limited. Infosys Consulting India is a wholly owned subsidiary of Infosys Consulting Inc. Effective January 12, 2012, the assets and liabilities of Infosys Consulting, Inc., were transferred to Infosys Limited. Consequently, Infosys Consulting India Limited is now a wholly owned subsidiary of Infosys Limited.

Employment and indemnification agreements

We have entered into agreements with our executive directors that provide for a monthly salary, bonuses, and benefits including, vacation, medical reimbursements and gratuity contributions. These agreements have a five-year term and either party may terminate the agreement with six months' notice. The form of the employment agreement for our executive directors has been filed previously and is incorporated by reference as an exhibit to this Annual Report on Form 20-F.

We have also entered into agreements to indemnify our directors and officers for claims brought under U.S. laws to the fullest extent permitted by Indian law. These agreements, among other things, indemnify our directors and officers for certain expenses, judgments, fines and settlement amounts incurred by any such person in any action or proceeding, including any action by or in the right of Infosys Limited, arising out of such person's services as our director or officer. The form of the indemnification agreement for our directors and officers has been filed previously and is incorporated by reference as an exhibit to this Annual Report on Form 20-F.

Loans to employees

We provide personal loans and salary advances to our employees in India who are not executive officers or directors.

The annual rates of interest for these loans vary between 0% and 4%. Loans aggregating \$33 million, \$32 million and \$24 million were outstanding as of March 31, 2012, 2011 and 2010, respectively.

Item 8. Financial Information

CONSOLIDATED STATEMENTS AND OTHER FINANCIAL INFORMATION

The following financial statements and auditors' report appear under Item 18 in this Annual Report on Form 20-F and are incorporated herein by reference:

- Report of Independent Registered Public Accounting Firm
- Consolidated balance sheets as of March 31, 2012 and 2011
- Consolidated statements of comprehensive income for the years ended March 31, 2012, 2011 and 2010
- Consolidated statements of changes in equity for the years ended March 31, 2012, 2011 and 2010
- Consolidated statements of cash flows for the years ended March 31, 2012, 2011 and 2010
- Notes to the consolidated financial statements
- Financial Statement Schedule II- Valuation and qualifying accounts

Export revenue

For the fiscal year ended March 31, 2012, 2011 and 2010, we generated \$6,839 million, \$5,909 million and \$4,746 million, or 97.8%, 97.8% and 98.8% of our total revenues of \$6,994 million, \$6,041 million and \$4,804 million, respectively, from the export of our products and rendering of services outside of India.

Legal proceedings

This information is set forth under Item 4 under the heading “Legal proceedings” and such information is incorporated herein by reference

Dividends

Under Indian law, a corporation pays dividends upon a recommendation by the board of directors and approval by a majority of the shareholders, who have the right to decrease but not increase the amount of the dividend recommended by the board of directors. Dividends may be paid out of profits of an Indian company in the year in which the dividend is declared or out of the undistributed profits of previous fiscal years.

In fiscal 2012, 2011 and 2010, we paid cash dividends of approximately \$0.76, \$1.22 and \$0.48 per equity share, respectively. Holders of ADSs will be entitled to receive dividends payable on equity shares represented by such ADSs. Cash dividends on equity shares represented by ADSs are paid to the Depository in Indian rupees and are generally converted by the Depository into U.S. dollars and distributed, net of Depository fees, taxes, if any, and expenses, to the holders of such ADSs. Although we have no current intention to discontinue dividend payments, future dividends may not be declared or paid and the amount, if any, thereof may be decreased.

Translations from Indian rupees to U.S. dollars effected on or after April 1, 2008 are based on the fixing rate in the City of Mumbai for cable transfers in Indian rupees as published by the FEDAI.

| Fiscal | Dividend per Equity Share () | Dividend per Equity Share (\$) | Dividend per ADS (\$) |

None.

Item 9. The Offer and Listing

PRICE HISTORY

Edgar Filing: Infosys Ltd - Form 20-F

Our equity shares are traded in India on the Bombay Stock Exchange Limited, or BSE, and the National Stock Exchange of India Limited, or NSE, or collectively, the Indian stock exchanges. Our ADSs are traded on NASDAQ Global Select Market under the ticker symbol 'INFY'. Each ADS represents one equity share. Our ADSs began trading on the NASDAQ on March 11, 1999. The Deutsche Bank Trust Company Americas serves as a depository with respect to our ADSs traded on the market pursuant to the Deposit Agreement dated March 10, 1999, as amended and restated. Our equity shares were previously traded on the Bangalore Stock Exchange, or BgSE. There have been no trades of our shares on the BgSE since August 2002, and we delisted from the BgSE on June 22, 2004.

As of March 31, 2012, we had 574,230,001 equity shares issued and outstanding. There were 41,689 record holders of ADRs, evidencing 77,363,322 ADSs (equivalent to 77,363,322 equity shares). As of March 31, 2012, there were 460,138 record holders of our equity shares listed and traded on the Indian stock exchanges.

The following tables set forth for the periods indicated the price history of the equity shares and the ADSs on the Indian stock exchanges and the NASDAQ. Each ADS currently represents one equity share. All translations from Indian rupees to U.S. dollars are based on fixing rate in the City of Mumbai on March 31, 2012 for cable transfers in Indian rupees as published by the FEDAI, which was 50.88 per \$1.00. The high and low prices for the Indian stock exchanges and NASDAQ are based on the closing prices for each day of the relevant period.

On May 3, 2012, the closing price of equity shares on the BSE was 2,484.35 equivalent to \$46.51 per equity share based on the exchange rate on that date and on May 2, 2012, the closing price of ADSs on the NASDAQ was \$47.61 per ADS.

The Indian securities trading market

The information in this section has been extracted from publicly available documents from various sources, including officially prepared materials from the Securities and Exchange Board of India, the BSE, and the NSE.

Indian Stock Exchanges

The major stock exchanges in India, the BSE and the NSE, account for a majority of trading volumes of securities in India. The BSE and NSE together dominate the stock exchanges in India in terms of number of listed companies, market capitalization and trading.

The stock exchanges in India operate on a trading day plus two, or T+2, rolling settlement system. At the end of the T+2 period, obligations are settled with buyers of securities paying for and receiving securities, while sellers transfer and receive payment for securities. For example, trades executed on a Monday would typically be settled on a Wednesday. The SEBI has proposed to move to a T settlement system. In order to contain the risk arising out of the transactions entered into by the members of various stock exchanges either on their own account or on behalf of their clients, the Stock Exchanges have designed risk management procedures, which include compulsory prescribed margins on the individual broker members, based on their outstanding exposure in the market, as well as stock-specific margins from the members.

To restrict abnormal price volatility, SEBI has instructed stock exchanges to apply the following price bands calculated at the previous day's closing price (there are no restrictions on price movements of index stocks):

Market Wide Circuit Breakers. Market wide circuit breakers are applied to the market for movement by 10%, 15% and 20% for two prescribed market indices: the BSE Sensex for the BSE and the Nifty for the NSE. If any of these circuit breaker thresholds are reached, trading in all equity and equity derivatives markets nationwide is halted.

Price Bands. Price bands are circuit filters of up to 20% movements either up or down, and are applied to most securities traded in the markets, excluding securities included in the BSE Sensex and the NSE Nifty and derivatives products. The equity shares of Infosys are included in the BSE Sensex and the NSE Nifty.

The National Stock Exchange of India Limited

The market capitalization of the capital markets (equities) segment of the NSE as of March 31, 2012 was approximately 62.33 trillion or approximately \$1,238.69 billion. The clearing and settlement operations of the NSE are managed by the National Securities Clearing Corporation Limited. Funds settlement takes place through designated clearing banks. The National Securities Clearing Corporation Limited interfaces with the depositories on the one hand and the clearing banks on the other to provide delivery versus payment settlement for depository-enabled trades.

Bombay Stock Exchange Limited

The estimated aggregate market capitalization of stocks trading on the BSE as of March 31, 2012 was approximately 62.10 trillion or approximately \$1,233.98 billion. The BSE began allowing online trading in May 1995. As of March

31, 2012, the BSE had 1384 members, comprised of 206 individual members, 1150 Indian companies and 28 foreign institutional investors. Only a member of the stock exchange has the right to trade in the stocks listed on the stock exchange.

Trading on both the NSE and the BSE occurs Monday through Friday, between 9:15 a.m. and 3:30 p.m. (Indian Standard Time).

Derivatives

Trading in derivatives in India takes place either on separate and independent derivatives exchanges or on a separate segment of an existing stock exchange. The derivative exchange or derivative segment of a stock exchange functions as a self-regulatory organization under the supervision of the SEBI.

Depositories

The National Securities Depository Limited and Central Depository Services (India) Limited are the two depositories that provide electronic depository facilities for trading in equity and debt securities in India. The Securities and Exchange Board of India (SEBI) mandates that a company which proposes to make an offer of its securities (by way of an initial public offering, rights issue or further public offering) to the public and list them on a recognised stock exchange in India must enter into an agreement with a depository for dematerialization of securities already issued or proposed to be issued to the public or existing shareholders. The SEBI has also provided that the issue and allotment of shares in initial public offerings or private placements and/or the trading of shares shall only be in electronic form.

Securities Transaction Tax

Since June 1, 2006, with respect to a sale and purchase of equity shares entered into on a recognized stock exchange, (i) both the buyer and seller are required to pay a Securities Transaction Tax (STT) at the rate of 0.125% of the transaction value of the securities, if the transaction is a delivery based transaction, i.e. the transaction involves actual delivery or transfer of shares; (ii) the seller of the shares is required to pay a STT at the rate of 0.025% of the transaction value of the securities if the transaction is a non-delivery based transaction, i.e. a transaction settled without taking delivery of the shares. STT has been introduced, effective April, 1 2008, with respect to a sale and purchase of a derivative in a recognized stock exchange as follows: (i) in case of sale of an option in securities, the seller is required to pay an STT at the rate of 0.017% of the option premium; (ii) in case of a sale of an option in securities, where the option is exercised, the buyer is required to pay a STT at the rate of 0.125% of the settlement price; and (iii) in case of sale of futures in securities, the seller is required to pay STT at 0.017% on transaction value. The Finance Bill 2012 reduces STT in Cash Delivery segment from the existing 0.125% to 0.1%. The rate change becomes effective on July 1 2012. Therefore, as of July 1, 2012 in case of delivery based purchase/sale of securities, the buyer/seller will have to pay STT @ 0.1%. See 'Taxation' for a further description of the securities transaction tax and capital gains treatment under Indian law.

Item 10. Additional Information

MEMORANDUM AND ARTICLES OF ASSOCIATION

Set forth below is the material information concerning our share capital and a brief summary of the material provisions of our Articles of Association, Memorandum of Association and the Indian Companies Act, all as currently in effect. The following description of our equity shares and the material provisions of our Articles of Association and Memorandum of Association does not purport to be complete and is qualified in its entirety by our Articles of Association and Memorandum of Association that are incorporated by reference to this Annual Report on Form 20-F. The summary below is not intended to constitute a complete analysis of the Indian Companies Act and is not intended to be a substitute for professional legal advice.

Our Articles of Association provide that the minimum number of directors shall be 3 and the maximum number of directors shall be 16. Currently, we have 15 directors. As per the Indian Companies Act, unless the articles of association of a company provide for all directors to retire at every Annual General Meeting, not less than two-third of the directors of a public company must retire by rotation, while the remaining one-third may remain on the Board until they resign or are removed. Our Articles of Association require two thirds of our directors to retire by rotation. One-third of the directors who are subject to retirement by rotation must retire at each Annual General Meeting. A retiring director is eligible for re-election.

Executive directors are required to retire at age 60 in accordance with our employee retirement policies applicable in India. Other Board members must retire from the Board at age 65. The age of retirement for independent directors joining the board on or after October 15, 2010, shall be 70 years. An independent board chair is generally permitted to serve in the capacity for a fixed term of five years and until the age of 70 years.

Our Articles of Association do not require that our directors have to hold shares of our company in order to serve on our Board of Directors.

Our Articles of Association and the Indian Companies Act provide that any director who has a personal interest in a transaction being discussed by the board of directors must disclose such interest, must abstain from voting on such a transaction and may not be counted for the purposes of determining whether a quorum is present at the meeting at the time of discussing the transaction. A director is required to disclose his personal interest to the board of directors at the first meeting of the board of directors after the interest arises. The remuneration payable to our directors may be fixed by the Board of Directors in accordance with the Indian Companies Act and provisions prescribed by the Government of India. Our Articles of Association provide that our Board of Directors may generally borrow any sum of money for the Company's business purposes, provided, that the consent of the shareholders is required where any amounts to be borrowed, when combined with any already outstanding debt (excluding temporary loans from the Company's bankers in the ordinary course of business), exceeds the aggregate of our paid-up capital and free reserves.

Objects and Purposes of our Memorandum of Association

The following is a summary of our Objects as set forth in Section 3 of our Memorandum of Association:

- To provide services of every kind including commercial, statistical, financial, accountancy, medical, legal, management, educational, engineering, data processing, communication and other technological, social or other services;
- To carry on all kinds of business as importer, exporter, buyers, sellers and lessors of and dealers in all types of components and equipments necessary to provide the services our objects enlist;
- To manufacture, export, import, buy, sell, rent, hire or lease or otherwise acquire or dispose or deal in all kinds of digital equipments, numerical controller, flexible manufacturing systems, robots, communication systems, computers, computer peripherals, computer software, computer hardware, computer technology, machines, computer software, computer hardware, computer technology, machines, computer aided teaching aids, energy saving devices, alternative sources of energy, electrical and electronics components, devices, instruments, equipments and controls for any engineering applications, and all other related components, parts and products used in communication and computers;
- To conduct or otherwise subsidize or promote research and experiments for scientific, industrial, commercial economic, statistical and technical purposes; and
- To carry on any other trade or business whatsoever as can in our opinion can be advantageously or conveniently carried on by us.

General

Our authorized share capital is 3,000,000,000 divided into 600,000,000 Equity Shares, having a par value of 5/- per share.

As of March 31, 2012, 574,230,001 Equity Shares were issued, outstanding and fully paid. The equity shares are our only class of share capital. We currently have no convertible debentures or warrants outstanding. As of March 31, 2012, we had outstanding options to purchase 11,683 Equity Shares. For the purposes of this Annual Report on Form 20-F, "shareholder" means a shareholder who is registered as a member in our register of members or whose name appears in the beneficiary position maintained by the depositories.

Dividends

Under the Indian Companies Act, our Board of Directors recommends the payment of a dividend which is then declared by our shareholders in a general meeting. However, the Board is not obliged to recommend a dividend.

Under our Articles of Association and the Indian Companies Act, our shareholders may, at the Annual General Meeting, declare a dividend of an amount less than that recommended by the Board of Directors, but they cannot increase the amount of the dividend recommended by the Board of Directors. In India, dividends are generally declared as a percentage of the par value of a company's equity shares and are to be distributed and paid to shareholders in cash and in proportion to the paid up value of their shares, within 30 days of the Annual General Meeting at which the dividend is approved by shareholders. Pursuant to our Articles of Association, our Board of Directors has the discretion to declare and pay interim dividends without shareholder approval. As per the terms of our listing of the equity shares and ADSs of the Company, we are required to inform the stock exchanges, on which our equity shares and ADSs are listed, of the rate of dividend declared and the record date for determining the shareholders who are entitled to receive dividends. Under the Indian Companies Act, dividend can be paid only in cash to registered shareholders as of the record date. Dividend may also be paid in cash to the shareholder's order or the shareholder's banker.

The Indian Companies Act provides that any dividends that remain unpaid or unclaimed after a period of 30 days from the date of declaration of a dividend are to be transferred to a special bank account opened by the company at an approved bank. We transfer any dividends that remain unclaimed after 30 days to such an account. If any amount in this account has not been claimed by the eligible shareholders within seven years from the date of the transfer, we transfer the unclaimed dividends to an Investor Education and Protection Fund established by the Government of India under the provisions of the Indian Companies Act. After the transfer to this fund, such unclaimed dividends may not be claimed by the shareholders entitled to receive such dividends from the company.

Under the Indian Companies Act, dividends may be paid out of profits of a company in the year in which the dividend is declared or out of the undistributed profits of previous fiscal years after providing for depreciation. Before declaring a dividend greater than 10% of the paid-up capital, a company is required to transfer to its reserves a minimum percentage of its profits for that year, ranging from 2.5% to 10% depending upon the dividend to be declared in such year.

The Indian Companies Act further provides that in the event of an inadequacy or absence of profits in any year, a dividend may be declared for such year out of the company's accumulated profits that have been transferred to its reserves, subject to the following conditions:

- The rate of dividend to be declared may not exceed 10% of its paid up capital or the average of the rate at which dividends were declared by the company in the prior five years, whichever is less;
- The total amount to be drawn from the accumulated profits earned in the previous years and transferred to the reserves may not exceed an amount equivalent to 10% of the sum of its paid up capital and free reserves, and the amount so drawn is to be used first to set off the losses incurred in the fiscal year before any dividends in respect of preference or equity shares are declared; and

- The balance of reserves after such withdrawals shall not fall below 15% of the company's paid up capital.

Bonus Shares

In addition to permitting dividends to be paid out of current or retained earnings as described above, the Indian Companies Act permits a company to distribute an amount transferred from the reserves or surplus in the company's profit and loss account to its shareholders in the form of bonus shares (similar to a stock dividend). The Indian Companies Act also permits the issuance of bonus shares from capitalization of the securities premium account. Bonus shares are distributed to shareholders in the proportion recommended by the Board of Directors. Shareholders of the company on a fixed record date are entitled to receive such bonus shares.

Any issue of bonus shares would be subject to the guidelines issued by the SEBI in this regard. The relevant SEBI guidelines prescribe that no company shall, pending conversion of convertible debt securities, issue any shares by way of bonus unless similar benefit is extended to the holders of such convertible debt securities, through reservation of shares in proportion to such conversion (which bonus shares may be issued at the time of conversion of the debt securities). The bonus issue must be made out of free reserves built out of the genuine profits or share premium collected in cash only. The bonus issue cannot be made unless the partly paid shares, if any existing, are made fully paid-up. Further, for the issuance of such bonus shares a company should not have defaulted in the payment of interest or principal in respect of fixed deposits and interest on existing debentures or principal on redemption of such debentures. The declaration of bonus shares in lieu of dividend cannot be made. Further a company should have sufficient reason to believe that it has not defaulted in respect of the payment of statutory dues of the employees such as contribution to provident fund, gratuity, bonus, etc. The issuance of bonus shares must be implemented within 15 days from the date of approval by the Board of Directors and cannot be withdrawn after the decision to make a bonus issue has been made.

Consolidation and Subdivision of Shares

The Indian Companies Act permits a company to split or combine the par value of its shares with the approval of its shareholders, provided such split or combination is not made in fractions. Shareholders of record on a fixed record date are entitled to receive the split or combination.

Pre-emptive Rights and Issue of Additional Shares

The Indian Companies Act gives shareholders the right to subscribe for new shares in proportion to their respective existing shareholdings in the event of a further issue of shares by a company, unless otherwise determined by a special resolution passed by a General Meeting of the shareholders. Under the Indian Companies Act, in the event of a pre-emptive issuance of shares, subject to the limitations set forth above, a company must first offer the new shares to the shareholders on a fixed record date. The offer must include: (i) the right, exercisable by the shareholders on record, to renounce the shares offered in favor of any other person; and (ii) the number of shares offered and the period of the offer, which may not be less than 15 days from the date of offer. If the offer is not accepted it is deemed to have been declined and thereafter the Board of Directors is authorized under the Indian Companies Act to distribute any new shares not purchased by the pre-emptive rights holders in the manner that it deems most beneficial to the company.

Meetings of Shareholders

We must convene an Annual General Meeting of shareholders each year within 15 months of the previous annual general meeting or within six months of the end of the previous fiscal year, whichever is earlier. In certain circumstances a three month extension may be granted by the Registrar of Companies to hold the Annual General Meeting. The Annual General Meeting of the shareholders is generally convened by our Secretary pursuant to a resolution of the Board of Directors. In addition, the Board may convene an Extraordinary General Meeting of shareholders when necessary or at the request of a shareholder or shareholders holding at least 10% of our paid up

capital carrying voting rights. Written notice setting out the agenda of any meeting must be given at least 21 days prior to the date of any General Meeting to the shareholders of record, excluding the days of mailing and date of the meeting. Shareholders who are registered as shareholders on the date of the General Meeting are entitled to attend or vote at such meeting. The Annual General Meeting of shareholders must be held at our registered office or at such other place within the city in which the registered office is located, and meetings other than the Annual General Meeting may be held at any other place if so determined by the Board of Directors.

Voting Rights

At any General Meeting, voting is by show of hands unless a poll is demanded by a shareholder or shareholders present in person or by proxy holding at least 10% of the total shares entitled to vote on the resolution or by those holding shares with an aggregate paid up capital of at least 50,000. Upon a show of hands, every shareholder entitled to vote and present in person has one vote and, on a poll, every shareholder entitled to vote and present in person or by proxy has voting rights in proportion to the paid up capital held by such shareholders. The Chairperson has a casting vote in the case of any tie. Any shareholder of the company entitled to attend and vote at a meeting of the company may appoint a proxy. The instrument appointing a proxy must be delivered to the company at least 48 hours prior to the meeting. Unless the articles of association otherwise provide, a proxy may not vote except on a poll. A corporate shareholder may appoint an authorized representative who can vote on behalf of the shareholder, both upon a show of hands and upon a poll. An authorized representative is also entitled to appoint a proxy.

Ordinary resolutions may be passed by simple majority of those present and voting at any General Meeting for which the required period of notice has been given. However, special resolutions for matters such as amendments to the articles of association, commencement of a new line of business, the waiver of preemptive rights for the issuance of any new shares and a reduction of share capital, require that votes cast in favor of the resolution (whether by show of hands or on a poll) are not less than three times the number of votes, if any, cast against the resolution by members so entitled and voting. Further, the Indian Companies Act requires certain resolutions such as those listed below to be voted on only by a postal ballot:

- Amendments of the memorandum of association to alter the objects of the company and to change the registered office of the company under section 146 of the Indian Companies Act;
- The issuance of shares with differential rights with respect to voting, dividend or other provisions of the Indian Companies Act;
- The sale of the whole or substantially the whole of an undertaking or facilities of the company;
- Providing loans, extending guarantees or providing a security in excess of the limits allowed under Section 372A of the Indian Companies Act;
- Varying the rights of the holders of any class of shares or debentures;
- The election of a director by minority shareholders; and
- The buy back of shares.

Register of Shareholders; Record Dates; Transfer of Shares

We maintain a register of shareholders held in electronic form through National Securities Depository Limited and the Central Depository Services (India) Limited. To determine which shareholders are entitled to specified shareholder rights such as a dividend or a rights issue, we may close the register of shareholders for a specified period. The date on which this period begins is the record date. The Indian Companies Act requires us to give at least seven days prior notice to the public before such closure. We may not close the register of shareholders for more than thirty consecutive days, and in no event for more than forty-five days in a year. Trading of our equity shares, however, may continue while the register of shareholders is closed.

Following the introduction of the Depositories Act, 1996, and the repeal of Section 22A of the Securities Contracts (Regulation) Act, 1956, which enabled companies to refuse to register transfers of shares in some circumstances, the

equity shares of a public company are freely transferable, subject only to the provisions of Section 111A of the Indian Companies Act and the listing agreement entered into between the company and the relevant stock exchange on which the shares of the company are listed. Since we are a public company, the provisions of Section 111A will apply to us. In accordance with the provisions of Section 111A(2) of the Indian Companies Act, our Board of Directors may refuse to register a transfer of shares if they have sufficient cause to do so. If our Board of Directors refuses to register a transfer of shares, the shareholder wishing to transfer his, her or its shares may file a civil suit or an appeal with the Company Law Board/Tribunal.

Pursuant to Section 111A (3), if a transfer of shares contravenes any of the provisions of the Indian Companies Act and Securities and Exchange Board of India Act, 1992 or the regulations issued thereunder or any other Indian laws, the Tribunal may, on application made by the relevant company, a depository incorporated in India, an investor, a participant, or the Securities and Exchange Board of India, direct the rectification of the register, record of members and/or beneficial owners. Pursuant to Section 111A(4) the Company Law Board/Tribunal may, in its discretion, issue an interim order suspending the voting rights attached to the relevant shares before making or completing its investigation into the alleged contravention.

Under the Indian Companies Act, unless the shares of a company are held in a dematerialized form, a transfer of shares is effected by an instrument of transfer in the form prescribed by the Indian Companies Act and the rules thereunder, together with delivery of the share certificates. A stamp duty to the extent of 0.25% of the value of the shares (regardless of the consideration paid) is due and payable on the transfer of shares in physical form. Our transfer agent for our equity shares is Karvy Computershare Private Limited located in Hyderabad, India.

Disclosure of Ownership Interest

Section 187C of the Indian Companies Act requires holders of record who do not hold beneficial interests in shares of Indian companies to declare to the company certain details, including the nature of the holder's interest and details of the beneficial owner. Any person who fails to make the required declaration within 30 days may be liable for a fine of up to 1,000 for each day that the declaration is not made. Any charge, promissory note or other collateral agreement created, executed or entered into with respect to any share by the ostensible owner thereof, or any hypothecation by the ostensible owner of any share, pursuant to which a declaration is required to be made under Section 187C, shall not be enforceable by the beneficial owner or any person claiming through the beneficial owner if such declaration is not made. Failure to comply with Section 187C will not affect the obligation of the company to register a transfer of shares or to pay any dividends to the registered holder of any shares pursuant to which such declaration has not been made. While it is unclear under Indian law whether Section 187C applies to holders of ADSs of the company, investors who exchange ADSs for the underlying equity shares of the company will be subject to the restrictions of Section 187C. Additionally, holders of ADSs may be required to comply with such notification and disclosure obligations pursuant to the provisions of the Deposit Agreement to be entered into by such holders, the company and a depository.

Audit and Annual Report

Under the Indian Companies Act, a company must file its annual accounts with the Registrar of Companies within 30 days from the date of the Annual General Meeting. Copies of the annual report are also required to be simultaneously sent to stock exchanges on which the company's shares are listed under the applicable listing agreements. At least 21 days before the Annual General Meeting of shareholders, a company must distribute a detailed version of the company's audited balance sheet and profit and loss account and the reports of the board of directors and the auditors thereon to its shareholders.

A company must also file an annual return containing a list of the company's shareholders and other company information, within 60 days of the conclusion of the Annual General Meeting.

Company Acquisition of Equity Shares

Under the Indian Companies Act, approval by way of a special resolution of a company's shareholders voting on the matter (votes cast in favor should be three times the votes cast against) and approval of the Court/ Tribunal of the state in which the registered office of the company is situated is required to reduce the share capital of a company, provided such reduction is authorized by the articles of association of the company. A company is not permitted to acquire its own shares for treasury operations.

A company may, under some circumstances, acquire its own equity shares without seeking the approval of the Court/Tribunal in compliance with prescribed rules, regulations and conditions of the Indian Companies Act. In addition, public companies which are listed on a recognized stock exchange in India must comply with the provisions of the Securities and Exchange Board of India (Buy-back of Securities) Regulations, 1998 (Buy-back Regulations). Since we are a public company listed on two recognized stock exchanges in India, we would have to comply with the relevant provisions of the Indian Companies Act and the provisions of the Buy-back Regulations. Any ADS holder may participate in a company's purchase of its own shares by withdrawing his or her ADSs from the depository facility, acquiring equity shares upon the withdrawal and then selling those shares back to the company.

There can be no assurance that equity shares offered by an ADS investor in any buyback of shares by us will be accepted by us. The regulatory approvals required for ADS holders to participate in a buyback are not entirely clear. ADS investors are advised to consult their legal advisors for advice prior to participating in any buyback by us, including advice related to any related regulatory approvals and tax issues.

Liquidation Rights

As per the Indian Companies Act, certain payments have preference over payments to be made to equity shareholders. These payments having preference include payments to be made by the Company to its employees, taxes, payments to secured and unsecured lenders and payments to holders of any shares entitled by their terms to preferential repayment over the equity shares. In the event of our winding-up, the holders of the equity shares are entitled to be repaid the amounts of paid up capital or credited as paid upon those equity shares after payments have been made by the company as set out above. Subject to such payments having been made by the company, any surplus assets are paid to holders of equity shares in proportion to their shareholdings.

Redemption of Equity Shares

Subject to the buy-back of shares as set out in the section titled "Company Acquisition of Equity Shares", under the Indian Companies Act, equity shares are not redeemable.

Discriminatory Provisions in Articles

There are no provisions in our Articles of Association discriminating against/ in favor of any existing or prospective holder of such securities as a result of such shareholder owning a substantial number of shares.

Alteration of Shareholder Rights

Under the Indian Companies Act, and subject to the provisions of the articles of association of a company, the rights of any class of shareholders can be altered or varied (i) with the consent in writing of the holders of not less than three-fourths of the issued shares of that class; or (ii) by special resolution passed at a separate meeting of the holders of the issued shares of that class. In the absence of any such provision in the articles, such alteration or variation is permitted as long as it is not prohibited by the terms of the issue of shares of such a class.

Limitations on the Rights to Own Securities

The limitations on the rights to own securities of Indian companies, including the rights of non-resident or foreign shareholders to hold securities, are discussed in the sections entitled 'Currency Exchange Controls' and 'Risk Factors' in this Annual Report on Form 20-F.

Provisions on Changes in Capital

Our authorized capital can be altered by an ordinary resolution of the shareholders in a General Meeting. The additional issue of shares is subject to the pre-emptive rights of the shareholders. In addition, a company may increase its share capital, consolidate its share capital into shares of larger face value than its existing shares or sub-divide its shares by reducing their par value, subject to an ordinary resolution of the shareholders in a General Meeting.

Takeover Code and Listing Agreements

In September 2011, the Securities and Exchange Board of India notified the Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 (the Takeover Code) which replaces the Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 1997.

Under Takeover Code, upon acquisition of shares or voting rights in a publicly listed Indian company such that the aggregate share-holding of the acquirer (meaning a person who directly or indirectly, acquires or agrees to acquire shares or voting rights in a target company, or acquires or agrees to acquire control over the target company, either by himself or together with any person acting in concert) is 5% or more of the shares of the company, the acquirer is required to, within two working days of such acquisition, disclose the aggregate shareholding and voting rights in the company to the company and to the stock exchanges in which the shares of the company are listed.

Further, an acquirer, who, together with persons acting in concert with him, holds shares or voting rights entitling them to 5% or more of the shares or voting rights in a target company must disclose every sale or acquisition of shares representing 2% or more of the shares or voting rights of the company to the company and to the stock exchanges in which the shares of the company are listed within two working days of such acquisition or sale or receipt of intimation of allotment of such shares.

Every person, who together with persons acting in concert with him, holds shares or voting rights entitling him to exercise 25% or more of the voting rights in a target company, has to disclose to the company and to stock exchanges, their aggregate shareholding and voting rights as of the thirty-first day of March, in such target company within seven working days from the end of the financial year of that company.

The acquisition of shares or voting rights which entitles the acquirer to exercise 25% or more of the voting rights in or control over the target company triggers a requirement for the acquirer to make an open offer to acquire at least 26% of the total shares of the target company for an offer price determined as per the provisions of the Takeover Code. The acquirer is required to make a public announcement for an open offer on the date on which it is agreed to acquire such shares or voting rights. Such open offer shall only be for such number of shares as is required to adhere to the maximum permitted non-public shareholding.

Where the public shareholding in the target company is reduced to a level below the limit specified in the listing agreement on account of shares being acquired pursuant to an open offer, the acquirer is required to take necessary steps to facilitate compliance with the public shareholding threshold within the time prescribed in the Securities Contract (Regulation) Rules, 1957. Such an acquirer will not be eligible to make voluntary delisting offer under the Securities & Exchange Board of India (Delisting of Existing shares) Regulations 2009, unless 12 months have elapsed from the date of the completion of offer.

Since we are a listed company in India, the provisions of the Takeover Code will apply to us and to any person acquiring our equity shares or voting rights in our Company.

The ADSs entitle ADS holders to exercise voting rights in respect of the Deposited Equity Shares (as described in the section titled "Voting Rights of Deposited Equity Shares Represented by ADSs"). Accordingly, the requirement to make an open offer of at least 20% of the shares of a company to the existing shareholders of the company would be triggered by an ADS holder where the shares that underlie the holder's ADSs represent 15% or more of the shares or voting rights of the company.

We have entered into listing agreements with each of the Indian stock exchanges on which our equity shares are listed, pursuant to which we must report to the stock exchanges any disclosures made to the Company pursuant to the Takeover Code.

Although the provisions of the listing agreements entered into between us and the Indian stock exchanges on which our equity shares are listed will not apply to equity shares represented by ADSs, holders of ADSs may be required to comply with such notification and disclosure obligations pursuant to the provisions of the Deposit Agreement entered into by such holders, our Company and the depositary.

Maintenance of Minimum Public Shareholding as a Condition for Continuous Listing

The Securities Contracts (Regulation) Rules 1957 were amended on June 4, 2010 to make it mandatory for all listed companies in India to have a minimum public shareholding of 25%.

As of March 31, 2012, our public shareholding was approximately at 70.49%.

Voting Rights of Deposited Equity Shares Represented by ADSs

Under Indian law, voting of the equity shares is by show of hands unless a poll is demanded by a member or members present in person or by proxy holding at least 10% of the total shares entitled to vote on the resolution or by those holding shares with an aggregate paid up capital of at least 50,000. A proxy (other than a body corporate represented by an authorized representative) may not vote except on a poll.

As soon as practicable after receipt of notice of any general meetings or solicitation of consents or proxies of holders of shares or other deposited securities, our Depositary shall fix a record date for determining the holders entitled to give instructions for the exercise of voting rights. The Depositary shall then mail to the holders of ADSs a notice stating (i) such information as is contained in such notice of meeting and any solicitation materials, (ii) that each holder on the record date set by the Depositary will be entitled to instruct the Depositary as to the exercise of the voting rights, if any pertaining to the deposited securities represented by the ADSs evidenced by such holder's ADRs, (iii) the manner in which such instruction may be given, including instructions to give discretionary proxy to a person designated by us, and (iv) if the Depositary does not receive instructions from a holder, he would be deemed to have instructed the Depositary to give a discretionary proxy to a person designated by us to vote such deposited securities, subject to satisfaction of certain conditions.

On receipt of the aforesaid notice from the Depositary, our ADS holders may instruct the Depositary on how to exercise the voting rights for the shares that underlie their ADSs. For such instructions to be valid, the Depositary must receive them on or before a specified date.

The Depositary will try, as far as is practical, and subject to the provisions of Indian law and our Memorandum of Association and our Articles of Association, to vote or to have its agents vote in relation to the shares or other deposited securities as per our ADS holders' instructions. The Depositary will only vote or attempt to vote as per an ADS holder's instructions. The Depositary will not itself exercise any voting discretion.

Neither the Depository nor its agents are responsible for any failure to carry out any voting instructions, for the manner in which any vote is cast, or for the effect of any vote. There is no guarantee that our shareholders will receive voting materials in time to instruct the Depository to vote and it is possible that ADS holders, or persons who hold their ADSs through brokers, dealers or other third parties, will not have the opportunity to exercise a right to vote.

Insider Trading Regulations

Under the SEBI (Prohibition of Insider Trading) Regulations, 1992 (Insider Trading Regulations), any person who holds more than 5% of the shares or of the voting rights in any listed company is required to disclose to the company the number of shares or voting rights held by such person and any change in shareholding or voting rights (even if such change results in the shareholding falling below 5%), exceeding 2% of the total shareholding or voting rights in the company, from the date of last disclosure made by the person. Such disclosure is required to be made within two working days of: (i) the receipt of intimation of allotment of the shares; or (ii) the acquisition or the sale of the shares or voting rights. As a result of a clarification issued by SEBI on June 22, 2009 under the SEBI (Informal Guidance) Scheme, 2003, disclosures would be required to be made by a holder of ADSs under the Insider Trading Regulations as set out above where the shares that underlie that holder's ADSs represent 5% or more of the shares or voting rights of the Company.

As per the SEBI (Prohibition of Insider Trading) (Amendment) Regulations, 2011, any person who is a promoter or part of promoter group of a listed company shall disclose to the company in the number of shares or voting rights held by such person. Further, any person who is a promoter or part of promoter group of a listed company, shall disclose to the company and the stock exchange where the securities are listed, the total number of shares or voting rights held and any change in shareholding or voting rights, if there has been a change in such holdings of such person from the last disclosure made under Listing Agreement or under the Insider Trading Regulations and the change exceeds Rs. 500,000 in value or 25,000 shares or 1% of total shareholding or voting rights, whichever is lower. Such disclosure is required to be made within two working days of becoming such promoter or person belonging to promoter group

MATERIAL CONTRACTS

We have entered into agreements with our employee directors that provide for a monthly salary, bonuses, and benefits including, vacation, medical reimbursements and gratuity contributions. These agreements have a five-year term and either party may terminate the agreement with six months notice. The form of the employment agreement for our executive directors has been filed previously and is incorporated by reference as an exhibit to this Annual Report on Form 20-F.

We have also entered into agreements to indemnify our directors and officers for claims brought under U.S. laws to the fullest extent permitted by Indian law. These agreements, among other things, indemnify our directors and officers for certain expenses, judgments, fines and settlement amounts incurred by any such person in any action or proceeding, including any action by or in the right of Infosys Limited, arising out of such person's services as our director or officer. The form of the indemnification agreement for our directors and officers has been filed previously and is incorporated by reference as an exhibit to this Annual Report on Form 20-F.

CURRENCY EXCHANGE CONTROLS

General

The subscription, purchase and sale of shares of an Indian company are governed by various Indian laws restricting the issuance of shares by the company to non-residents or subsequent transfer of shares by or to non-residents. These restrictions have been relaxed in recent years. Set forth below is a summary of various forms of investment, and the restrictions applicable to each, including the requirements under Indian law applicable to the issuance of ADSs.

Foreign Direct Investment Issuances by the Company

Subject to certain conditions, under current regulations, foreign direct investment in most industry sectors does not require prior approval of the Foreign Investment Promotion Board (FIPB), or the Reserve Bank of India (RBI), if the percentage of equity holding by all foreign investors does not exceed specified industry-specific thresholds. These conditions include certain minimum pricing requirements, compliance with the Takeover Code (as described below), and ownership restrictions based on the nature of the foreign investor (as described below). Purchases by foreign investors of ADSs are treated as direct foreign investment in the equity issued by Indian companies for such offerings. Foreign investment of up to 100% of our share capital is currently permitted by Indian laws.

Subsequent Transfers

Restrictions for subsequent transfers of shares of Indian companies between residents and non-residents were relaxed significantly as of October 2004. As a result, for a transfer by way of a private arrangement between a resident and a non-resident of securities of an Indian company in the IT sector, such as ours, no prior approval of either the RBI or the Government of India is required, as long as certain conditions are met. These conditions include compliance, as applicable, with pricing guidelines, the Takeover Code (as described above), and the ownership restrictions based on the nature of the foreign investor (as described below). In case of a sale of shares of a listed Indian company by a resident to a non-resident, the minimum price per share payable by a non-resident to acquire the shares is the higher of:

- a. the average of the weekly high and low of the closing prices of equity shares on a stock exchange during the 6-month period prior to the date of transfer of shares; and
- b. the average of the closing price of equity shares on a stock exchange during the 2 weeks period prior to the date of transfer of shares.

The relevant date is the date of the purchase of the shares by the non-resident.

In case of a sale of shares of a listed Indian company by a non-resident to a resident, the price computed in accordance with the procedure set above will be the maximum price per share that can be paid by the resident for the purchase of shares from a non-resident.

A non-resident, other than a non-resident registered as a foreign institutional investor (FII) with the SEBI or persons of Indian nationality or origin residing outside of India (NRIs), cannot acquire shares on a stock exchange.

Transfers of shares or convertible debentures of the company, by way of sale or gift, between two non-residents are not subject to RBI approvals or pricing restrictions. However, for industries other than the technology sector, approval from the Government of India may be required for a transfer between two non-residents.

Portfolio Investment by Non-Resident Indians

Investments by persons of Indian nationality or origin residing outside of India (NRIs), or registered Foreign Institutional Investors (FIIs) (as described below) made through a stock exchange are known as Portfolio Investments.

NRIs are permitted to make Portfolio Investments on favorable tax and other terms under India's Portfolio Investment Scheme. Under the scheme, an NRI can purchase up to 5% of the paid up value of the shares issued by a company, subject to the condition that the aggregate paid up value of shares purchased by all NRIs does not exceed 10% of the paid up capital of the company. The 10% ceiling may be exceeded if a special resolution is passed in a General Meeting of the shareholders of a company, subject to an overall ceiling of 24%. In addition to Portfolio Investments in Indian companies, NRIs may also make foreign direct investments in Indian companies pursuant to the foreign direct

investment route discussed above.

Overseas corporate bodies controlled by NRIs, or OCBs, were previously permitted to invest on favorable terms under the Portfolio Investment Scheme. The RBI no longer recognizes OCBs as an eligible class of investment vehicle under various routes and schemes under the foreign exchange regulations.

Investment by Foreign Institutional Investors

Currently, FIIs such as pension funds, investment trusts, and asset management companies are eligible to make Portfolio Investments on favorable terms in all the securities traded on the primary and secondary markets in India. Investments by FIIs in certain sectors, such as the retail sector, are prohibited.

SEBI regulations provide that no single FII may hold more than 10% of a company's total equity shares.

Under SEBI and the RBI regulations, unless shareholders' approval has been obtained, FIIs in aggregate may hold not more than 24% of an Indian company's equity shares. However, we have obtained the required shareholders' approval and our shares may be owned completely by FIIs, subject to the 10% individual holding limitation described above.

There is uncertainty under Indian law about the tax regime applicable to FIIs that hold and trade ADSs. FIIs are urged to consult with their Indian legal and tax advisers about the relationship between the FII guidelines and the ADSs and any equity shares withdrawn upon surrender of the ADSs.

Investment by QFIs

Recently, Qualified Foreign Investors (QFI) have been permitted to invest through Securities Exchange Board of India (SEBI) registered Depository Participants only in equity shares of listed Indian companies through SEBI registered stock brokers on recognized stock exchanges in India as well as in equity shares of Indian companies which are offered to the public in India in terms of the relevant and applicable SEBI guidelines/regulations. The individual and aggregate investment limits for the QFIs shall be 5% and 10% respectively of the paid up capital of an Indian company.

A QFI has been defined by the SEBI as a non-resident investor (other than SEBI registered FIIs and SEBI registered Foreign Venture Capital Investor) who meets the requirements of SEBI for the purpose of making investments in accordance with the regulations/orders/circulars of RBI/SEBI.

QFIs are also permitted to acquire equity shares by way of right shares, bonus shares or equity shares on account of stock split / consolidation or equity shares on account of amalgamation, demerger or such corporate actions subject to the prescribed investment limits. QFIs are allowed to sell the equity shares so acquired through SEBI registered stock brokers or pursuant to the relevant SEBI guidelines such as in an open offer under the Takeover Code of in a buy back.

Dividend payments on equity shares held by QFIs can either be directly remitted to the designated overseas bank accounts of the QFIs or credited to the single rupee pool bank account. In case dividend payments are credited to the single rupee pool bank account they shall be remitted to the designated overseas bank accounts of the QFIs within five working days (including the day of credit of such funds to the single rupee pool bank account). Within these five working days, the dividend payments can be also utilized for fresh purchases of equity shares under this scheme, if so instructed by the QFI.

Takeover Code

Please refer to the detailed description of the Takeover Code provided under 'Takeover Code and Listing Agreements' above.

ADSs

Issue of ADSs

Shares of Indian companies represented by ADSs may be approved for issuance to foreign investors by the Government of India under the Issue of Foreign Currency Convertible Bonds and Ordinary Shares (Through Depository Receipt Mechanism) Scheme, 1993 (the 1993 Regulations), as modified from time to time. The 1993 Regulations are in addition to the other policies or facilities, as described above, relating to investments in Indian companies by foreign investors.

Fungibility of ADSs

In March 2001, the RBI amended the Foreign Exchange Management (Transfer or Issue of Securities by a Person Resident Outside India) Regulations, 2000 and established two alternative methods to allow equity shares to be converted into and sold as ADSs.

First, a registered broker in India (registered with SEBI) can purchase shares of an Indian company that has issued ADSs on behalf of a person resident outside India, for the purposes of converting the shares into ADSs. However, such conversion of equity shares into ADSs is possible only if the following conditions are satisfied:

- The shares are purchased on a recognized stock exchange;
- There are ADSs issued in respect of the shares of the company;
- The shares are purchased with the permission of the custodian to the ADS offering of the Indian company and are deposited with the custodian;
- The shares purchased for conversion into ADSs do not exceed the number of shares that have been released by the custodian pursuant to conversions of ADSs into equity shares under the Depository Agreement; and
- A non-resident investor, broker, the custodian and the Depository comply with the provisions of the 1993 Regulations and any related guidelines issued by the Central Government from time to time.

Second, the amendment to the regulations permit an issuer in India to sponsor the issue of ADSs through an overseas depository against underlying equity shares accepted from holders of its equity shares in India for offering outside of India. The sponsored issue of ADSs is possible only if the following conditions are satisfied:

- The price of the offering is determined by the lead manager of the offering. The price shall not be less than the average of the weekly high and low prices of the shares of the company during the 2 weeks preceding the relevant date (i.e. the date on which the Board of Directors of the company decides to open the issue);
- The ADS offering is approved by the FIPB;
- The ADS offering is approved by a special resolution of the shareholders of the issuer in a general meeting;
- The facility is made available to all the equity shareholders of the issuer;
- The proceeds of the offering are repatriated into India within one month of the closing of the offering;
- The sales of the existing equity shares are made in compliance with the Foreign Direct Investment Policy (as described above) in India;
- The number of shares offered by selling shareholders are subject to limits in proportion to the existing holdings of the selling shareholders when the offer is oversubscribed; and
- The offering expenses do not exceed 7% of the offering proceeds and are paid by shareholders on a pro-rata basis.

The issuer is also required to furnish a report to the RBI specifying the details of the offering, including the amount raised through the offering, the number of ADSs issued, the underlying shares offered and the percentage of equity in the issuer represented by the ADSs.

Transfer of ADSs and Surrender of ADSs

A person resident outside India may transfer the ADSs held in Indian companies to another person resident outside India without any permission. An ADS holder is permitted to surrender the ADSs held by him in an Indian company and to receive the underlying equity shares under the terms of the Deposit Agreement. Under Indian regulations, the re-deposit of these equity shares with the Depository for ADSs may not be permitted, other than as set out above.

Government of India Approvals

Pursuant to the RBI's regulations relating to sponsored ADS offerings, an issuer in India can sponsor the issue of ADSs through an overseas depository against underlying equity shares accepted from holders of its equity shares in India. The guidelines specify, among other conditions, that:

- The ADSs must be offered at a price determined by the lead manager of such offering. The price shall not be less than the average of the weekly high and low prices of the shares of the company during the 2 weeks preceding the relevant date (i.e. the date on which the Board of Directors of the company decides to open the issue);
- All equity holders may participate;
- The issuer must obtain special shareholder approval; and
- The proceeds must be repatriated to India within one month of the closure of the issue

TAXATION

Indian Taxation

General. The following summary is based on the law and practice of the Income-tax Act, 1961, or Income-tax Act, including the special tax regime contained in Sections 115AC and 115ACA of the Income-tax Act read with the Issue of Foreign Currency Convertible Bonds and Ordinary Shares (through Depository Receipt Mechanism) Scheme, 1993, or the Scheme, as amended. The Income-tax Act is amended every year by the Finance Act of the relevant year. Some or all of the tax consequences of Sections 115AC and 115ACA may be amended or changed by future amendments to the Income-tax Act.

The Finance Bill 2012 has also proposed the General Anti-Avoidance Rule (GAAR), wherein the tax authority may declare an arrangement as an impermissible avoidance arrangement if an arrangement is not entered at arm's length, results in misuse/abuse of provisions of Income Tax Act, 1961 lacks commercial substance or the purpose of arrangement is for obtaining a tax benefit. The authority has yet to issue the guidelines and conditions relating to implementation of GAAR.

We believe this information is materially complete as of the date hereof. However, these details are not intended to constitute a complete analysis of the individual tax consequences to non-resident holders or employees under Indian law for the acquisition, ownership and sale of ADSs and equity shares.

EACH PROSPECTIVE INVESTOR SHOULD CONSULT HIS, HER OR ITS OWN TAX ADVISORS WITH RESPECT TO INDIAN AND LOCAL TAX CONSEQUENCES OF ACQUIRING, OWNING OR DISPOSING OF EQUITY SHARES OR ADSs.

Residence. For purposes of the Income-tax Act, an individual is considered to be a resident of India during any fiscal year if he or she is in India in that year for a period or periods amounting to at least 182 days; or at least 60 days and, within the four preceding years has been in India for a period or periods amounting to at least 365 days.

The period of 60 days referred to above shall be read as 182 days (i) in case of a citizen of India who leaves India in a previous year for the purposes of employment outside of India or (ii) in the case of a citizen of India or a person of Indian origin living abroad who visits India.

A company is a resident of India if it is incorporated in India or the control and the management of its affairs is situated wholly in India. Individuals and companies that do not fulfil the above criteria would be treated as non-residents for purposes of the Income-tax Act.

Taxation of Distributions. Dividend income is currently exempt from tax for shareholders. Domestic companies are currently liable to pay a dividend distribution tax at the rate of 16.22% inclusive of applicable surcharge and education cess. The Finance Act, 2008 introduced Section 115 O (1A) effective April 1, 2008 under which a domestic company, subject to certain conditions, can set off the dividend income received from its subsidiary from the amount of dividend income declared by it to its shareholders and would therefore be liable to dividend distribution tax only on the balance dividend after such set-off. Any distributions of additional ADSs or equity shares to resident or non-resident holders will not be subject to Indian tax.

Minimum Alternate Tax. Section 115JA to the Income Tax Act which came into effect in April 1, 1997, brought certain zero tax companies under the ambit of a Minimum Alternative Tax, or MAT. Effective April 1, 2001, Finance Act, 2000 introduced Section 115JB, under which the income of companies eligible for tax holiday under section 10A of the Act was exempted from MAT. The amount of income to which any of the provisions of section 10A apply, was reduced from the book profit for the purposes of calculation of income tax payable under the aforesaid section. The Finance Act, 2007 included income eligible for deductions under sections 10A of the Act in the computation of book profits for the levy of MAT. However, income earned by SEZ developers and units operating in SEZ were kept out of computation of book profit subjected to MAT. The Finance Act, 2011 included income earned by SEZ developers and SEZ operating units in the computation of book profits for the levy of MAT. The Finance Act, 2011 increased the effective rate of MAT to 20.01% from 19.93% (inclusive of surcharge and education cess).

The Income Tax Act provides that the MAT paid by companies can be adjusted against its tax liability over the next ten years.

Taxation of Employee Stock Options. Through the Finance Act, 2009, Section 17 (2) of the Income Tax Act was amended to provide that any specified securities or sweat equity shares allotted or transferred, directly or indirectly, by a company free of cost or at concessional rate to its current or former employees are taxable in the hands of employees as a "perquisite". This treatment extends to all options granted under a company's stock option plan, where such option is exercised on or after April 1, 2009. The value of the perquisite is the fair market value, or FMV, of the specified security or share as on the date of exercise of the option by the employee as reduced by the amount actually paid by, or recovered from the employee in respect of such security or share. The value of the perquisite so computed is added to the income chargeable to tax in the hands of the employee under the head "salaries" and subject to tax at the rate applicable to the individual employee. Securities or sweat equity shares allotted or transferred by a company free of cost or at concessional rate to its employees were earlier subject to a fringe benefit tax, which now stands abolished.

Taxation of Capital Gains. The following is a brief summary of capital gains taxation of non-resident holders and resident employees relating to the sale of ADSs and equity shares received upon conversion of ADSs. The relevant provisions are contained mainly in sections 45, 47(viia), 115AC and 115ACA, of the Income-tax Act, in conjunction with the Scheme. Effective April 1, 2002, the Finance Act, 2001 introduced a new section 115AC in place of the prevailing section 115AC of the Income-tax Act. You should consult your own tax advisor concerning the tax consequences of your particular situation.

Shares (including shares issuable on the conversion of the ADSs) held by the non-resident investor for a period of more than 12 months is treated as long term capital assets. If the shares are held for a period of less than 12 months from the date of conversion, the same is treated as short term capital asset.

Capital gains are taxed as follows:

- As per the applicable scheme, gains from a sale of ADSs outside India by a non-resident to another non-resident are not taxable in India;
- Long-term capital gains realized by a resident from the transfer of the ADSs will be subject to tax at the rate of 10% excluding the applicable surcharge and education cess; short-term capital gains on such a transfer will be taxed at graduated rates with a maximum of 30%, excluding the applicable surcharge and education cess;
- Subject to the following, long-term capital gains realized by a non-resident upon the sale of equity shares obtained from the conversion of ADSs are subject to tax at a rate of 10% excluding the applicable surcharge and education cess; and short-term capital gains on such a transfer will be taxed at the rate of tax applicable to the seller;
- Long-term capital gain realized by a non-resident upon the sale of equity shares obtained from the conversion of ADSs is exempt from tax if the sale of such shares is made on a recognized stock exchange and Securities Transaction Tax, or STT (described below) is paid; and
- Any short term capital gain is taxed at 15% excluding the applicable surcharge and education cess, if the sale of such equity shares is settled on a recognized stock exchange and STT is paid on such sale.

The rate of surcharge is currently 5% in the case of domestic companies whose taxable income is greater than 10,000,000. For foreign companies, the rate of surcharge is 2% if the taxable income exceeds 10,000,000.

Since June 1, 2006, with respect to a sale and purchase of equity shares entered into on a recognized stock exchange, (i) both the buyer and seller are required to pay a STT at the rate of 0.125% of the transaction value of the securities, if the transaction is a delivery based transaction, i.e. the transaction involves actual delivery or transfer of shares; (ii) the seller of the shares is required to pay a STT at the rate of 0.025% of the transaction value of the securities if the transaction is a non-delivery based transaction, i.e. a transaction settled without taking delivery of the shares. STT has been introduced, effective from April 1 2008, with respect to a sale and purchase of a derivative in a recognized stock exchange as follows: (i) in case of sale of an option in securities, the seller is required to pay an STT at the rate of 0.017% of the option premium; (ii) in case of a sale of an option in securities, where the option is exercised, the buyer is required to pay a STT at the rate of 0.125% of the settlement price; and (iii) in case of sale of futures in securities, the seller is required to pay STT at 0.017% on transaction value. The Finance Bill 2012 reduces STT in Cash Delivery segment from the existing 0.125% to 0.1%. The rate change becomes effective on July 1 2012. Therefore, as of July 1, 2012 in case of delivery based purchase/sale of securities, the buyer/seller will have to pay STT @ 0.1%.

Any resulting taxes on capital gains arising out of such transaction may be offset by the applicable credit mechanism allowed under double tax avoidance agreements. The capital gains tax is computed by applying the appropriate tax rates to the difference between the sale price and the purchase price of the ADSs or equity shares. Under the Scheme, the purchase price of equity shares in an Indian listed company received in exchange for ADSs will be the market price of the underlying shares on the date that the Depository gives notice to the custodian of the delivery of the equity shares in exchange for the corresponding ADSs, or the "stepped up" basis purchase price. The market price will be the price of the equity shares prevailing on the Bombay Stock Exchange or the National Stock Exchange, as applicable. There is no corresponding provision under the Income-tax Act in relation to the "stepped up" basis for the purchase price of equity shares. However, to the best of our knowledge, the tax department in India has not denied this benefit. In the event that the tax department denies this benefit, the original purchase price of ADSs would be considered the purchase price for computing the capital gains tax.

According to the Scheme, a non-resident holder's holding period for the purposes of determining the applicable Indian capital gains tax rate relating to equity shares received in exchange for ADSs commences on the date of the notice of the redemption by the Depository to the custodian. However, the Scheme does not address this issue in the case of resident employees, and it is therefore unclear when the holding period for the purposes of determining capital gains tax commences for such a resident employee.

It is unclear whether section 115AC and the Scheme are applicable to a non-resident who acquires equity shares outside India from a non-resident holder of equity shares after receipt of the equity shares upon conversion of the ADSs.

It is unclear whether capital gains derived from the sale of subscription rights or other rights by a non-resident holder not entitled to an exemption under a tax treaty will be subject to Indian capital gains tax. If such subscription rights or other rights are deemed by the Indian tax authorities to be situated within India, the gains realized on the sale of such subscription rights or other rights will be subject to Indian taxation. The capital gains realized on the sale of such subscription rights or other rights, which will generally be in the nature of short-term capital gains, will be subject to tax at

- a maximum rate of 40% excluding the applicable surcharge and education cess, in case of a foreign company, and
- a maximum rate of 30% excluding the applicable surcharge and education cess, in case of resident employees, and non-resident individuals with taxable income over 800,000.

Withholding Tax on Capital Gains. Any taxable gain realized by a non-resident on the sale of ADSs or equity shares is to be withheld at the source by the buyer. According to section 196 C of the Income Tax Act, where any income by way of interest or dividends in respect of bonds or global depository receipts referred to in section 115AC or by way of long-term capital gains arising from the transfer of such bonds or global depository receipts is payable to a non-resident, the person responsible for making the payment shall, at the time of credit of such income to the account of the payee or at the time of payment thereof in cash or by the issue of a cheque or draft or by any other mode, whichever is earlier, deduct income tax thereon at the rate of ten per cent. However, as per the provisions of Section 196D(2) of the Income Tax Act, no withholding tax is required to be deducted from any income by way of capital gains arising to Foreign Institutional Investors as defined in Section 115AD of the Income Tax Act on the transfer of securities defined in Section 115AD of the Income Tax Act.

Buy-back of Securities. Indian companies are not subject to any tax on the buy-back of their shares. However, the shareholders will be taxed on any resulting gains. Indian companies would be required to deduct tax at source according to the capital gains tax liability of a non-resident shareholder.

Stamp Duty and Transfer Tax. A transfer of ADSs is not subject to Indian stamp duty. A sale of equity shares in physical form by a non-resident holder will be subject to Indian stamp duty at the rate of 0.25% of the market value of the equity shares on the trade date, although customarily such tax is borne by the transferee. Shares must be traded in dematerialized form. The transfer of shares in dematerialized form is currently not subject to stamp duty.

Wealth Tax. The holding of the ADSs and the holding of underlying equity shares by resident and non-resident holders is not subject to Indian wealth tax. Non-resident holders are advised to consult their own tax advisors regarding this issue.

Service Tax. Brokerage or commission paid to stock brokers in connection with the sale or purchase of shares is subject to a service tax of 12%, excluding surcharges and education cess. The stock broker is responsible for collecting the service tax from the shareholder and paying it to the relevant authority.

Material United States Federal Tax Consequences

The following is a summary of the material U.S. federal income and estate tax consequences that may be relevant with respect to the ownership and disposition of equity shares or ADSs and is for general information only. This summary addresses the U.S. federal income and estate tax considerations of holders that are U.S. holders. U.S. holders are beneficial holders of equity shares or ADSs who are citizens or residents of the United States, or corporations (or other entities treated as corporations for U.S. federal tax purposes) created in or under the laws of the United States or any political subdivision thereof or therein, estates, the income of which is subject to U.S. federal income taxation regardless of its source, and trusts for which a U.S. court exercises primary supervision and a U.S. person has the authority to control all substantial decisions or that has a valid election under applicable U.S. Treasury regulation to be treated as a U.S. person. This summary is limited to U.S. holders who will hold equity shares or ADSs as capital assets for U.S. federal income tax purposes, generally for investment. In addition, this summary is limited to U.S. holders who are not resident in India for purposes of the Convention Between the Government of the United States of America and the Government of the Republic of India for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion With Respect to Taxes on Income. If a partnership, including any entity treated as a partnership for U.S. federal income tax purposes, holds the equity shares or ADSs, the tax treatment of a partner will generally depend upon the status of the partner and upon the activities of the partnership. A partner in a partnership holding equity shares or ADSs should consult his, her or its own tax advisor regarding the tax treatment of an investment in the equity shares or ADSs.

This summary does not address tax considerations applicable to holders that may be subject to special tax rules, such as banks, insurance companies, financial institutions, dealers in securities or currencies, tax-exempt entities, persons that will hold equity shares or ADSs as a position in a 'straddle' or as part of a 'hedging' or 'conversion' transaction for tax purposes, persons that have a 'functional currency' other than the U.S. dollar or holders of 10% or more, by voting power or value, of the shares of our company. This summary is based on the Internal Revenue Code of 1986, as amended and as in effect on the date of this Annual Report on Form 20-F and on United States Treasury Regulations in effect or, in some cases, proposed, as of the date of this Annual Report on Form 20-F, as well as judicial and administrative interpretations thereof available on or before such date, and is based in part on the assumption that each obligation in the deposit agreement and any related agreement will be performed in accordance with its terms. All of the foregoing are subject to change, which change could apply retroactively, or the Internal Revenue Service may interpret existing authorities differently, any of which could affect the tax consequences described below. This summary does not address U.S. federal tax laws other than income or estate tax or U.S. state or local or non-U.S. tax laws.

EACH PROSPECTIVE INVESTOR SHOULD CONSULT HIS, HER OR ITS OWN TAX ADVISOR WITH RESPECT TO THE U.S. FEDERAL, STATE, LOCAL AND NON-U.S. TAX CONSEQUENCES OF ACQUIRING, OWNING OR DISPOSING OF EQUITY SHARES OR ADSs.

Ownership of ADSs. For U.S. federal income tax purposes, holders of ADSs will generally be treated as the holders of equity shares represented by such ADSs.

Dividends. Subject to the passive foreign investment company rules described below, the gross amount of any distributions of cash or property with respect to ADSs or equity shares (before reduction for any Indian withholding taxes) generally will be included in income by a U.S. holder as ordinary dividend income at the time of receipt, which in the case of a U.S. holder of ADSs generally should be the date of receipt by the Depositary, to the extent such distributions are made from the current or accumulated earnings and profits (as determined under U.S. federal income tax principles) of our company. Such dividends will not be eligible for the dividends received deduction generally allowed to corporate U.S. holders. To the extent, if any, that the amount of any distribution by our company exceeds our company's current and accumulated earnings and profits (as determined under U.S. federal income tax principles) such excess will be treated first as a tax-free return of capital to the extent of the U.S. holder's tax basis in the equity shares or ADSs, and thereafter as capital gain.

Subject to certain limitations, dividends paid prior to January 1, 2013 to non-corporate U.S. holders, including individuals, may be eligible for a reduced rate of taxation if we are deemed to be a 'qualified foreign corporation' for United States federal income tax purposes. A qualified foreign corporation includes a foreign corporation if (1) its shares (or, according to legislative history, its ADSs) are readily tradable on an established securities market in the United States or (2) it is eligible for the benefits under a comprehensive income tax treaty with the United States. In addition, a corporation is not a qualified foreign corporation if it is a passive foreign investment company (as discussed below). The ADSs are traded on the NASDAQ Global Select Market. Due to the absence of specific statutory provisions addressing ADSs, however, there can be no assurance that we are a qualified foreign corporation solely as a result of our listing on NASDAQ Global Select Market. Nonetheless, we may be eligible for benefits under the comprehensive income tax treaty between India and the United States. Unless legislation to the contrary is enacted, dividends paid on or after January 1, 2013 are taxable at ordinary income rates. Each U.S. holder should consult its own tax advisor regarding the treatment of dividends and such holder's eligibility for a reduced rate of taxation.

Subject to certain conditions and limitations, any Indian withholding tax imposed upon distributions paid to a U.S. holder with respect to ADSs or equity shares should be eligible for credit against the U.S. holder's federal income tax liability. Alternatively, a U.S. holder may claim a deduction for such amount, but only for a year in which a U.S. holder does not claim a credit with respect to any foreign income taxes. The overall limitation on foreign taxes eligible for credit is calculated separately with respect to specific classes of income. For this purpose, distributions on ADSs or ordinary shares generally will be foreign source income for purposes of computing the United States foreign tax credit allowable to a U.S. holder.

If dividends are paid in Indian rupees, the amount of the dividend distribution included in the income of a U.S. holder will be in the U.S. dollar value of the payments made in Indian rupees, determined at a spot exchange rate between Indian rupees and U.S. dollars applicable to the date such dividend is included in the income of the U.S. holder, regardless of whether the payment is in fact converted into U.S. dollars. Generally, gain or loss, if any, resulting from currency exchange fluctuations during the period from the date the dividend is paid to the date such payment is converted into U.S. dollars will be treated as U.S. source ordinary income or loss.

Sale or exchange of equity shares or ADSs. Subject to the passive foreign investment company rules described below, a U.S. holder generally will recognize gain or loss on the sale or exchange of equity shares or ADSs equal to the difference between the amount realized on such sale or exchange and the U.S. holder's adjusted tax basis in the equity shares or ADSs, as the case may be. Such gain or loss will be capital gain or loss, and will be long-term capital gain or loss if the equity shares or ADSs, as the case may be, were held for more than one year. Gain or loss, if any, recognized by a U.S. holder generally will be treated as U.S. source passive category income or loss for U.S. foreign tax credit purposes. Capital gains realized by a U.S. holder upon the sale of equity shares (but not ADSs) may be subject to certain tax in India. See 'Taxation - Indian Taxation - Taxation of Capital Gains.' Due to limitations on foreign tax credits, however, a U.S. holder may not be able to utilize such taxes as a credit against the U.S. holder's federal income tax liability.

Estate taxes. An individual U.S. holder will have the value of the equity shares or ADSs held by such holder included in his or her gross estate for U.S. federal estate tax purposes. An individual holder who actually pays Indian estate tax with respect to the equity shares will, however, be entitled to credit the amount of such tax against his or her U.S. federal estate tax liability, subject to a number of conditions and limitations.

Additional Tax on Investment Income. For taxable years beginning after December 31, 2012, U.S. holders that are individuals, estates or trusts and whose income exceeds certain thresholds will be subject to a 3.8% Medicare contribution tax on unearned income, including, among other things, dividends on, and capital gains from the sale or other taxable disposition of, equity shares or ADSs, subject to certain limitations and exceptions.

Backup withholding tax and information reporting requirements. Any dividends paid on, or proceeds from a sale of, equity shares or ADSs to or by a U.S. holder may be subject to U.S. information reporting, and a backup withholding tax (currently at a rate of 28%, which such rate is scheduled to increase to 31% on or after January 1, 2013) may apply unless the holder is an exempt recipient or provides a U.S. taxpayer identification number and certifies under penalty of perjury that such number is correct and that such holder is not subject to backup withholding and otherwise complies with any applicable backup withholding requirements. Any amount withheld under the backup withholding rules will be allowed as a refund or credit against the holder's U.S. federal income tax liability, provided that the required information is timely furnished to the Internal Revenue Service.

Certain U.S. holders are required to report information with respect to their investment in equity shares or ADSs not held through a custodial account with a U.S. financial institution on Internal Revenue Service Form 8938, which must be attached to the U.S. holder's annual income tax return. Investors who fail to report required information could become subject to substantial penalties. These disclosure requirements are effective for taxable years beginning after March 18, 2010 (which, for a U.S. individual taxpayer who has a calendar taxable year, would include the taxable year ending December 31, 2011). Each U.S. holder should consult its tax advisor concerning its obligation to file new Internal Revenue Service Form 8938.

Passive foreign investment company. A non-U.S. corporation generally will be classified as a passive foreign investment company for U.S. federal income tax purposes if either:

- 75% or more of its gross income for the taxable year is passive income; or
- on average for the taxable year by value, if 50% or more of its assets (generally by value) produce or are held for the production of passive income.

We do not believe that we satisfy either of the tests for passive foreign investment company status for the fiscal year ended March 31, 2012. Because this determination is made on an annual basis, however, no assurance can be given that we will not be considered a passive foreign investment company in future taxable years. If we were to be a passive foreign investment company for any taxable year, U.S. holders:

- may be required to pay an interest charge together with tax calculated at ordinary income rates on 'excess distributions,' as the term is defined in relevant provisions of the U.S. tax laws and on any gain on a sale or other disposition of equity shares;
- may avoid the 'excess distribution' rules described above by making a 'qualified electing fund election' (as the term is defined in relevant provisions of the U.S. tax laws) and including in their taxable income their prorata share of undistributed amounts of our income. We do not plan to provide information necessary for U.S. holders to make a 'qualified electing fund' election;
- may avoid the 'excess distribution rules described above if the equity shares are 'marketable' by making a mark-to-market election, in which case the U.S. holder must mark-to-market the equity shares each taxable year and recognize ordinary gain and, to the extent of prior ordinary gain, ordinary loss for the increase or decrease in market value for such taxable year; or
- may be subject to additional annual return requirements and may be required to file Internal Revenue Service Form 8621.

THE ABOVE SUMMARY IS NOT INTENDED TO CONSTITUTE A COMPLETE ANALYSIS OF ALL TAX CONSEQUENCES RELATING TO THE OWNERSHIP OF EQUITY SHARES OR ADSS. YOU SHOULD CONSULT YOUR OWN TAX ADVISOR CONCERNING THE TAX CONSEQUENCES TO YOU BASED ON YOUR PARTICULAR SITUATION.

DOCUMENTS ON DISPLAY

This report and other information filed or to be filed by Infosys Limited can be inspected and copied at the public reference facilities maintained by the SEC at 100 F Street, N.E., Washington, D.C. 20459.

The SEC maintains a web site at www.sec.gov that contains reports, proxy and information statements, and other information regarding registrants that make electronic filings with the SEC using its EDGAR system.

Additionally, documents referred to in this Form 20-F may be inspected at our corporate offices which are located at Electronics City, Hosur Road, Bangalore-560 100.

Item 11. Quantitative and Qualitative Disclosures About Market Risk

This information is set forth under the caption 'Operating and Financial Review and Prospects' is as set out above in this Annual Report on Form 20-F and such information is incorporated herein by reference.

Item 12. Description of Securities Other Than Equity Securities

Fees and charges payable by holders of our ADSs

The fees and charges payable by holders of our ADSs include the following:

- (i) a fee not in excess of US\$ 0.05 per ADS is charged for each issuance of ADSs including issuances resulting from distributions of shares, share dividends, share splits, bonuses and rights distributions;
- (ii) a fee not in excess of US\$ 0.05 per ADS is charged for each surrender of ADSs in exchange for the underlying deposited securities;
- (iii) a fee not in excess of US\$ 0.02 per ADS for each cash distribution pursuant to the deposit agreement; and
- (iv) a fee for the distribution of the deposited securities pursuant to the deposit agreement, such fee being an amount equal to the fee for the execution and delivery of ADSs referred to in item (i) above which would have been charged as a result of the deposit of such securities, but which securities were instead distributed by the depository to ADS holders.

Additionally, under the terms of our deposit agreement, the depository is entitled to charge each registered holder the following:

- (i) taxes and other governmental charges incurred by the depository or the custodian on any ADS or an equity share underlying an ADS;
- (ii) transfer or registration fees for the registration or transfer of deposited securities on any applicable register in connection with the deposit or withdrawal of deposited securities, including those of a central depository for securities (where applicable);
- (iii) any cable, telex, facsimile transmission and delivery expenses incurred by the depository; and
- (iv) customary expenses incurred by the depository in the conversion of foreign currency, including, without limitation, expenses incurred on behalf of registered holders in connection with compliance with foreign exchange control restrictions and other applicable regulatory requirements.

In the case of cash distributions, fees are generally deducted from the cash being distributed. Other fees may be collected from holders of ADSs in a manner determined by the depository with respect to ADSs registered in the name of investors (whether certificated or in book-entry form) and ADSs held in brokerage and custodian accounts (via DTC). In the case of distributions other than cash (i.e., stock dividends, etc.), the depository charges the applicable ADS record date holder concurrent with the distribution. In the case of ADSs registered in the name of the investor (whether certificated or in book-entry form), the depository sends invoices to the applicable record date ADS holders.

If any tax or other governmental charge is payable by the holders and/or beneficial owners of ADSs to the depository, the depository, the custodian or the Company may withhold or deduct from any distributions made in respect of deposited securities and may sell for the account of the holder and/or beneficial owner any or all of the deposited securities and apply such distributions and sale proceeds in payment of such taxes (including applicable interest and penalties) or charges, with the holder and the beneficial owner thereof remaining fully liable for any deficiency.

Fees and other payments made by the depository

During fiscal 2012, expenses in an aggregate amount of approximately \$ 1,780,899.16 have been borne by the depository in relation to the Company's ADS program, including approximately:

- \$ 11,445 towards payments made to Thomson Reuters (Markets) LLC for IR tool – Reuters Knowledge; and
- \$47,480 towards payments made to I-Deal LLC for IR tools for market intelligence.

Apart from this, the Company has not received any other reimbursements or payments from the depository, either directly or indirectly, during fiscal 2012.

Part II

Item 13. Defaults, Dividend Arrearages and Delinquencies

None

Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds

None

Item 15. Controls and Procedures

DISCLOSURE CONTROLS AND PROCEDURES

As of the end of the period covered by this Annual Report on Form 20-F, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has carried out an evaluation of the effectiveness of our disclosure controls and procedures. The term "disclosure controls and procedures" means controls and other procedures that are designed to ensure that information required to be disclosed in the reports we file or submit under the Securities Exchange Act of 1934, as amended, or the Exchange Act, is recorded, processed, summarized and reported, within the time periods specified in the rules and forms of the SEC. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in our reports that we file or submit under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding our required disclosure. In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well conceived and operated, can only provide reasonable assurance that the objectives of the disclosure controls and procedures are met.

Based on their evaluation as of the end of the period covered by this Annual Report on Form 20-F, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective to provide reasonable assurance that the information required to be disclosed in filings and submissions under the Exchange Act, is recorded, processed, summarized, and reported within the time periods specified by the SEC's rules and forms, and that material information related to us and our consolidated subsidiaries is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions about required disclosure.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Our internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with International Financial Reporting Standards, as issued by the International Accounting Standards Board. Our internal control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with applicable accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of our internal control over financial reporting as of March 31, 2012. In conducting its assessment of internal control over financial reporting, management based its evaluation on the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on our assessment, management has concluded that our internal control over financial reporting was effective as of March 31, 2012.

Our independent registered public accounting firm, KPMG, has audited the consolidated financial statements included in this Annual Report on Form 20-F, and as part of their audit, has issued their report, included herein, on the effectiveness of our internal control over financial reporting as of March 31, 2012.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders
Infosys Limited

We have audited Infosys Limited's internal control over financial reporting as of March 31, 2012, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Infosys Limited's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our

audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Infosys Limited maintained, in all material respects, effective internal control over financial reporting as of March 31, 2012, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Infosys Limited and subsidiaries as of March 31, 2012 and 2011, and the related consolidated statements of comprehensive income, changes in equity and cash flows for each of the years in the three-year period ended March 31, 2012, and the related financial statement schedule II, and our report dated May 3, 2012 expressed an unqualified opinion on those consolidated financial statements and financial statement schedule II.

KPMG

Bangalore, India
May 3, 2012

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

During the period covered by this Annual Report on Form 20-F, there were no changes in our internal control over financial reporting that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

Item 16A. Audit Committee Financial Expert

Mr. Sridar A. Iyengar is a member of our board of directors and is a member of its audit committee. Our board of directors has determined that Mr. Sridar A. Iyengar is an audit committee financial expert as defined in Item 401(h) of Regulation S-K, and is independent pursuant to applicable NASDAQ rules.

Item 16B. Code of Ethics

On April 15, 2011, our Board of Directors adopted a revised Code of Conduct and Ethics that is intended to replace the earlier Code of Ethics for Principal Executive and Senior Financial Officers and the earlier Code of Business Conduct and Ethics and ensure compliance with Section 406 of the Sarbanes-Oxley Act. The revised Code of Conduct

and Ethics is applicable to all officers, directors and employees and is posted on our website at www.infosys.com.

Our Audit Committee has also adopted a Whistleblower Policy wherein it has established procedures for receiving, retaining and treating complaints received, and procedures for the confidential, anonymous submission by employees of complaints regarding questionable accounting or auditing matters, conduct which results in a violation of law by Infosys or in a substantial mismanagement of company resources. Under this policy, our employees are encouraged to report questionable accounting matters, any reporting of fraudulent financial information to our shareholders, the government or the financial markets any conduct that results in a violation of law by Infosys to our management (on an anonymous basis, if employees so desire). Under this policy, we have prohibited discrimination, retaliation or harassment of any kind against any employee who, based on the employee's reasonable belief that such conduct or practices have occurred or are occurring, reports that information or participates in an investigation. On April 13, 2012, our Board of Directors adopted a revised Whistleblower Policy that is intended to replace the Whistleblower Policy adopted by the Board of Directors on April 9, 2003. The revised Whistleblower Policy is attached to this Annual Report as Exhibit 11.1 and is posted on our website at www.infosys.com.

Item 16C. Principal Accountant Fees and Services

The following table sets forth fees for professional audit services for the audit of our annual financial statements, and fees for other services rendered by our principal accountant and their associated entities for fiscal 2012 and 2011:

| Type of Service | Fiscal 2012 | Fiscal 2011 | Description of Services |
|--------------------|--------------------|------------------|--|
| (a) Audit Fees | \$883,160 | \$876,220 | Audit and review of financial statements |
| (b) Tax Fees | 11,801 | 2,141 | Tax returns and filing and advisory services |
| (c) All Other Fees | 295,769 | 13,548 | Statutory certifications, quality registrar, due diligence, work permit related services and other advisory services |
| Total | \$1,190,730 | \$891,909 | |

Our Audit Committee charter requires us to take the prior approval of our Audit Committee on every occasion we engage our principal accountants or their associated entities to provide us any non-audit services. We disclose to our Audit Committee the nature of services that are provided and the fees to be paid for the services. All of the non-audit services provided by our principal accountants or their associated entities in the previous two fiscal years have been pre-approved by our Audit Committee.

Item 16D. Exemptions from the Listing Standards for Audit Committees

We have not sought any exemption from the listing standards for audit committees applicable to us as a foreign private issuer, pursuant to Rule 10(A)-3(d) of the Securities Exchange Act of 1934.

Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers

None

Item 16F. Change in Registrant's Certifying Accountant

Not applicable.

Item 16G. Corporate Governance

NASDAQ Rule 5615(a)(3) provides that a foreign private issuer may follow its home country practice in lieu of the requirements of Rule 5600 series of the NASDAQ, provided such foreign private issuer shall disclose in its annual reports filed with the SEC or on its website each requirement that it does not follow and describe the home country

practice followed by the issuer in lieu of such requirements.

Under the NASDAQ Rule 5620(c), companies, other than limited partnerships, that maintain a listing on NASDAQ are required to provide for a quorum as specified in its by-laws for any meeting of its stockholders, and in no case shall the quorum be less than 33-1/3% of the outstanding shares of a company's common voting stock. In India, the requirement for a quorum is the presence of at least five shareholders in person. Our Articles of Association provide that a quorum for a General Meeting of our shareholders is constituted by the presence of at least five shareholders in person. Hence, we do not meet the quorum requirements under Rule 5620(c), and instead we follow our home country practice. Under the NASDAQ Rule 5620(b), companies, other than limited partnerships, that maintain a listing on NASDAQ are required to solicit proxies and provide proxy statements for all meetings of shareholders and also provide copies of such proxy solicitation to NASDAQ. However, Section 176 of the Indian Companies Act prohibits a company incorporated under that Act from soliciting proxies. Because we are prohibited from soliciting proxies under Indian law, we will not meet the proxy solicitation requirement of Rule 5620(b). However, as described above, we give written notices of all our shareholder meetings to all the shareholders and we also file such notices with the SEC.

Item 16H. Mine Safety Disclosure

Not applicable.

Part III

Item 17. Financial statements

See Item 18.

Item 18. Financial statements

CONSOLIDATED STATEMENTS AND OTHER FINANCIAL INFORMATION

Report of the Audit Committee

To the members of Infosys Limited

In connection with the March 31, 2012 consolidated financial statements prepared under International Financial Reporting Standards as issued by the International Accounting Standards Board, the Audit Committee: (1) reviewed and discussed the consolidated financial statements with management; (2) discussed with the auditors the matters required by Statement on Auditing Standards No. 61, and the Sarbanes-Oxley Act of 2002; and (3) reviewed and discussed with the auditors the matters required by the Public Company Accounting Oversight Board (United States), Ethics and Independence Rule 3526, Communication with Audit Committees Concerning Independence. Based upon these reviews and discussions, the Audit Committee recommended to the board of directors that the audited consolidated financial statements be included in the Annual Report on Form 20-F to be filed with the Securities and Exchange Commission of the United States of America.

Report of management

The management is responsible for preparing the company's consolidated financial statements and related information that appears in this Annual Report. The management believes that the consolidated financial statements fairly reflect the form and substance of transactions, and reasonably present the financial condition and results of operations of Infosys Limited and subsidiaries in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board. The management has included, in the company's consolidated financial statements, amounts that are based on estimates and judgments, which it believes are reasonable under the circumstances.

The company maintains a system of internal procedures and controls intended to provide reasonable assurance, at appropriate cost, that transactions are executed in accordance with company authorization and are properly recorded and reported in the consolidated financial statements, and that assets are adequately safeguarded.

KPMG audits the company's consolidated financial statements in accordance with the Standards of the Public Company Accounting Oversight Board (United States).

The Board of Directors has appointed an Audit Committee composed of outside directors. The committee meets with the management, internal auditors, and the independent auditors to review internal accounting controls and accounting, auditing, and financial reporting matters.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders
Infosys Limited

We have audited the accompanying consolidated balance sheets of Infosys Limited and subsidiaries as of March 31, 2012 and 2011, the related consolidated statements of comprehensive income, changes in equity and cash flows for each of the years in the three-year period ended March 31, 2012. In connection with our audits of the consolidated financial statements, we also have audited financial statement schedule II. These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Infosys Limited and subsidiaries as of March 31, 2012 and 2011, and the results of their operations and their cash flows for each of the years in the three-year period ended March 31, 2012, in conformity with International Financial Reporting Standards as issued by International Accounting Standards Board ("IFRS"). Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Infosys Limited's internal control over financial reporting as of March 31, 2012, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated May 3, 2012 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Notes to the Consolidated Financial Statements

1. Company Overview and Significant Accounting Policies

1.1 Company overview

Infosys Limited (Infosys or the company) along with its controlled trusts, majority owned and controlled subsidiary, Infosys BPO Limited (Infosys BPO) and wholly owned and controlled subsidiaries, Infosys Technologies (Australia) Pty. Limited (Infosys Australia), Infosys Technologies (China) Co. Limited (Infosys China), Infosys Technologies S. DE R.L. de C.V. (Infosys Mexico), Infosys Technologies (Sweden) AB (Infosys Sweden), Infosys Consulting India Limited (Infosys Consulting India), Infosys Tecnologia do Brasil Ltda (Infosys Brasil), Infosys Public Services, Inc., (Infosys Public Services), and Infosys Technologies (Shanghai) Company Limited (Infosys Shanghai) is a leading global technology services company. The Infosys group of companies (the Group) provides business consulting, technology, engineering and outsourcing services. In addition, the Group offers software products for the banking industry.

In June 2011, the name of the company was changed from “Infosys Technologies Limited” to “Infosys Limited,” following approval of the name change by the company’s board of directors, shareholders and the Indian regulatory authorities.

The company is a public limited company incorporated and domiciled in India and has its registered office at Bangalore, Karnataka, India. The company has its primary listings on the Bombay Stock Exchange and National Stock Exchange in India. The company’s American Depositary Shares representing equity shares are also listed on the NASDAQ Global Select Market. The company’s consolidated financial statements were authorized for issue by the company’s Board of Directors on May 3, 2012.

1.2 Basis of preparation of financial statements

These consolidated financial statements have been prepared in compliance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS), under the historical cost convention on the accrual basis except for certain financial instruments and prepaid gratuity benefits which have been measured at fair values. Accounting policies have been applied consistently to all periods presented in these financial statements.

1.3 Basis of consolidation

Infosys consolidates entities which it owns or controls. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that are currently exercisable are also taken into account. Subsidiaries are consolidated from the date control commences until the date control ceases.

The financial statements of the Group companies are consolidated on a line-by-line basis and intra-group balances and transactions including unrealized gain / loss from such transactions are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group. Non-controlling interests which represent part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the Company, are excluded.

1.4 Use of estimates

The preparation of the financial statements in conformity with IFRS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note 1.5. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the consolidated financial statements.

1.5 Critical accounting estimates

a. Revenue recognition

The company uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the company to estimate the efforts expended to date as a proportion of the total efforts to be expended. Efforts expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts

are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

b. Income taxes

The company's two major tax jurisdictions are India and the U.S., though the company also files tax returns in other overseas jurisdictions. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. Also refer to Note 2.17.

c. Business combinations and intangible assets

Business combinations are accounted for using IFRS 3 (Revised), Business Combinations. IFRS 3 requires the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets. These valuations are conducted by independent valuation experts.

1.6 Revenue recognition

The company derives revenues primarily from software related services and from the licensing of software products. Arrangements with customers for software related services are either on a fixed-price, fixed-timeframe or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last billing to the balance sheet date is recognized as unbilled revenues. Revenue from fixed-price, fixed-timeframe contracts, where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability revenue recognition is postponed until such uncertainty is resolved. Efforts expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current contract estimates. Costs and earnings in excess of billings are classified as unbilled revenue while billings in excess of costs and earnings are classified as unearned revenue. Maintenance revenue is recognized ratably over the term of the underlying maintenance arrangement.

In arrangements for software development and related services and maintenance services, the company has applied the guidance in IAS 18, Revenue, by applying the revenue recognition criteria for each separately identifiable component of a single transaction. The arrangements generally meet the criteria for considering software development and related services as separately identifiable components. For allocating the consideration, the company has measured the revenue in respect of each separable component of a transaction at its fair value, in accordance with principles given in IAS 18. The price that is regularly charged for an item when sold separately is the best evidence of its fair value. In cases where the company is unable to establish objective and reliable evidence of fair value for the software development and related services, the company has used a residual method to allocate the arrangement consideration. In these cases the balance of the consideration, after allocating the fair values of undelivered components of a transaction has been allocated to the delivered components for which specific fair values do not exist.

License fee revenues are recognized when the general revenue recognition criteria given in IAS 18 are met. Arrangements to deliver software products generally have three elements: license, implementation and Annual Technical Services (ATS). The company has applied the principles given in IAS 18 to account for revenues from these multiple element arrangements. Objective and reliable evidence of fair value has been established for ATS. Objective and reliable evidence of fair value is the price charged when the element is sold separately. When other services are provided in conjunction with the licensing arrangement and objective and reliable evidence of their fair values have

been established, the revenue from such contracts are allocated to each component of the contract in a manner, whereby revenue is deferred for the undelivered services and the residual amounts are recognized as revenue for delivered elements. In the absence of objective and reliable evidence of fair value for implementation, the entire arrangement fee for license and implementation is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the services are performed. ATS revenue is recognized ratably over the period in which the services are rendered.

Advances received for services and products are reported as client deposits until all conditions for revenue recognition are met.

The company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts/ incentives amount to each of the underlying revenue transaction that results in progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs. The discounts are passed on to the customer either as direct payments or as a reduction of payments due from the customer.

The company presents revenues net of value-added taxes in its statement of comprehensive income.

1.7 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairments, if any. The direct costs are capitalized until the property, plant and equipment are ready for use, as intended by management. The company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets for current and comparative periods are as follows:

| | |
|------------------------|-----------|
| Buildings | 15 years |
| Plant and machinery | 5 years |
| Computer equipment | 2-5 years |
| Furniture and fixtures | 5 years |
| Vehicles | 5 years |

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the statement of comprehensive income when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in net profit in the statement of comprehensive income. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

1.8 Business combinations

Business combinations have been accounted for using the acquisition method under the provisions of IFRS 3 (Revised), Business Combinations.

The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is transferred to the Group. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Transaction costs that the Group incurs in connection with a business combination such as finders' fees, legal fees, due diligence fees, and other professional and consulting fees are expensed as incurred.

1.9 Goodwill

Goodwill represents the cost of business acquisition in excess of the Group's interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceeds the cost of business acquisition, a gain is recognized immediately in net profit in the statement of comprehensive income. Goodwill is measured at cost less accumulated impairment losses.

1.10 Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the company has an intention and ability to complete and use or sell the software and the costs can be measured reliably. The costs which can be capitalized include the cost of material, direct labour, overhead costs that are directly attributable to preparing the asset for its intended use. Research and development costs and software development costs incurred under contractual arrangements with customers are accounted as cost of sales.

1.11 Financial instruments

Financial instruments of the Group are classified in the following categories: non-derivative financial instruments comprising of loans and receivables, available-for-sale financial assets and trade and other payables; derivative financial instruments under the category of financial assets or financial liabilities at fair value through profit or loss; share capital and treasury shares. The classification of financial instruments depends on the purpose for which those were acquired. Management determines the classification of its financial instruments at initial recognition.

a. Non-derivative financial instruments

(i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are presented as current assets, except for those maturing later than 12 months after the balance

sheet date which are presented as non-current assets. Loans and receivables are measured initially at fair value plus transaction costs and subsequently carried at amortized cost using the effective interest method, less any impairment loss or provisions for doubtful accounts. Loans and receivables are represented by trade receivables, net of allowances for impairment, unbilled revenue, cash and cash equivalents, prepayments, certificates of deposit and other assets. Cash and cash equivalents comprise cash and bank deposits and deposits with corporations. The company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents. Certificates of deposit is a negotiable money market instrument for funds deposited at a bank or other eligible financial institution for a specified time period. For these financial instruments, the carrying amounts approximate fair value due to the short maturity of these instruments.

(ii) Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or are not classified in any of the other categories. Available-for-sale financial assets are recognized initially at fair value plus transactions costs. Subsequent to initial recognition these are measured at fair value and changes therein, other than impairment losses and foreign exchange gains and losses on available-for-sale monetary items are recognized directly in other comprehensive income. When an investment is derecognized, the cumulative gain or loss in other comprehensive income is transferred to net profit in the statement of comprehensive income. These are presented as current assets unless management intends to dispose off the assets after 12 months from the balance sheet date.

(iii) Trade and other payables

Trade and other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest method. For these financial instruments, the carrying amounts approximate fair value due to the short maturity of these instruments.

b. Derivative financial instruments

Financial assets or financial liabilities, at fair value through profit or loss.

This category has two sub-categories wherein, financial assets or financial liabilities are held for trading or are designated as such upon initial recognition. A financial asset is classified as held for trading if it is acquired principally for the purpose of selling in the short term. Derivatives are categorized as held for trading unless they are designated as hedges.

The company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in foreign exchange rates on trade receivables and forecasted cash flows denominated in certain foreign currencies. The counterparty for these contracts is generally a bank or a financial institution. Although the company believes that these financial instruments constitute hedges from an economic perspective, they do not qualify for hedge accounting under IAS 39, Financial Instruments: Recognition and Measurement. Any derivative that is either not designated a hedge, or is so designated but is ineffective per IAS 39, is categorized as a financial asset, at fair value through profit or loss.

Derivatives are recognized initially at fair value and attributable transaction costs are recognized in net profit in the statement of comprehensive income when incurred. Subsequent to initial recognition, derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income. Assets/ liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the balance sheet date.

c. Share capital and treasury shares

Ordinary Shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

Treasury Shares

When any entity within the Group purchases the company's ordinary shares, the consideration paid including any directly attributable incremental cost is presented as a deduction from total equity, until they are cancelled, sold or reissued. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to/ from retained earnings.

1.12 Impairment

a. Financial assets

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset is considered impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset. Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

(i) Loans and receivables

Impairment loss in respect of loans and receivables measured at amortized cost are calculated as the difference between their carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. Such impairment loss is recognized in net profit in the statement of comprehensive income.

(ii) Available-for-sale financial assets

Significant or prolonged decline in the fair value of the security below its cost and the disappearance of an active trading market for the security are objective evidence that the security is impaired. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its fair value and is recognized in net profit in the statement of comprehensive income. The cumulative loss that was recognized in other comprehensive income is transferred to net profit in the statement of comprehensive income upon impairment.

b. Non-financial assets

(i) Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that goodwill may be impaired, relying on a number of factors including operating results, business plans and future cash flows. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the Group's cash generating units (CGU) expected to benefit from the synergies arising from the business combination. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets. Impairment occurs when the carrying amount of a CGU including the goodwill, exceeds the estimated recoverable amount of the CGU. The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. Value-in-use is the present value of future cash flows expected to be derived from the CGU.

Total impairment loss of a CGU is allocated first to reduce the carrying amount of goodwill allocated to the CGU and then to the other assets of the CGU pro-rata on the basis of the carrying amount of each asset in the CGU. An impairment loss on goodwill is recognized in net profit in the statement of comprehensive income and is not reversed in the subsequent period.

(ii) Intangible assets and property, plant and equipment

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in net profit in the statement of comprehensive income is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset.

c. Reversal of impairment loss

An impairment loss for financial assets is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. An impairment loss in respect of goodwill is not reversed. In respect of other assets, an impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of an asset other than goodwill is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years. A reversal of impairment loss for an asset other than goodwill and available-for-sale financial assets that are equity securities is recognized in net profit in the statement of comprehensive income. For available-for-sale financial assets that are equity securities, the reversal is recognized in other comprehensive income.

1.13 Fair value of financial instruments

In determining the fair value of its financial instruments, the company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

For all other financial instruments, the carrying amounts approximate fair value due to the short maturity of those instruments. The fair value of securities, which do not have an active market and where it is not practicable to determine the fair values with sufficient reliability, are carried at cost less impairment.

1.14 Provisions

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

a. Post sales client support

The company provides its clients with a fixed-period post sales support for corrections of errors and telephone support on all its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time

related revenues are recorded and included in cost of sales. The company estimates such costs based on historical experience and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

b. Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established the Group recognizes any impairment loss on the assets associated with that contract.

1.15 Foreign currency

Functional currency

The functional currency of Infosys, Infosys BPO and Infosys Consulting India is the Indian rupee. The functional currencies for Infosys Australia, Infosys China, Infosys Consulting, Infosys Mexico, Infosys Sweden, Infosys Brasil, Infosys Public Services and Infosys Shanghai are the respective local currencies. These financial statements are presented in U.S. dollars (rounded off to the nearest million).

Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the balance sheet date. The gains or losses resulting from such translations are included in net profit in the statement of comprehensive income. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

The translation of financial statements of the foreign subsidiaries to the functional currency of the company is performed for assets and liabilities using the exchange rate in effect at the balance sheet date and for revenue, expense and cash-flow items using the average exchange rate for the respective periods. The gains or losses resulting from such translation are included in currency translation reserves under other components of equity. When a subsidiary is disposed off, in part or in full, the relevant amount is transferred to net profit in the statement of comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the exchange rate in effect at the balance sheet date.

1.16 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number

of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The diluted potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

1.17 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of comprehensive income except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and branches where it is expected that the earnings of the subsidiary or branch will not be distributed in the foreseeable future. The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to income are credited to share premium.

1.18 Employee benefits

1.18.1 Gratuity

In accordance with the Payment of Gratuity Act, 1972, Infosys provides for gratuity, a defined benefit retirement plan (the Gratuity Plan) covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each balance sheet date using the projected unit credit method. The company fully contributes all ascertained liabilities to the Infosys Limited Employees' Gratuity Fund Trust (the Trust). In case of Infosys BPO, contributions are made to the Infosys BPO's Employees' Gratuity Fund Trust. Trustees administer contributions made to the Trusts and contributions are invested in a scheme with Life Insurance Corporation as permitted by law.

The Group recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability, respectively in accordance with IAS 19, Employee benefits. The discount rate is based on the Government securities yield. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to net profit in the statement of comprehensive income in the period in which they arise. When the computation results in a benefit to the Group, the recognized asset is limited to the net total of any unrecognized past service costs and the present value of any future refunds from the plan or reductions in future contributions to the plan.

1.18.2 Superannuation

Certain employees of Infosys are also participants in a defined contribution plan. The company has no further obligations to the Plan beyond its monthly contributions. Certain employees of Infosys BPO are also eligible for superannuation benefit. Infosys BPO has no further obligations to the superannuation plan beyond its monthly contribution which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

Certain employees of Infosys Australia are also eligible for superannuation benefit. Infosys Australia has no further obligations to the superannuation plan beyond its monthly contribution.

1.18.3 Provident fund

Eligible employees of Infosys receive benefits from a provident fund, which is a defined benefit plan. Both the employee and the company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The company contributes a part of the contributions to the Infosys Limited Employees' Provident Fund Trust. The trust invests in specific designated instruments as permitted by Indian law. The remaining portion is contributed to the government administered pension fund. The rate at which the annual interest is payable to the beneficiaries by the trust is being administered by the government. The company has an obligation to make good the shortfall, if any, between the return from the investments of the Trust and the notified interest rate.

In respect of Infosys BPO, eligible employees receive benefits from a provident fund, which is a defined contribution plan. Both the employee and Infosys BPO make monthly contributions to this provident fund plan equal to a specified percentage of the covered employee's salary. Amounts collected under the provident fund plan are deposited in a government administered provident fund. The company has no further obligation to the plan beyond its monthly contributions.

1.18.4 Compensated absences

The Group has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is measured based on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

1.19 Share-based compensation

The Group recognizes compensation expense relating to share-based payments in net profit using a fair-value measurement method in accordance with IFRS 2, Share-Based Payment. Under the fair value method, the estimated fair value of awards is charged to income on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in-substance, multiple awards. The Group includes a forfeiture estimate in the amount of compensation expense being recognized.

The fair value of each option is estimated on the date of grant using the Black-Scholes-Merton valuation model. The expected term of an option is estimated based on the vesting term and contractual term of the option, as well as

expected exercise behaviour of the employee who receives the option. Expected volatility during the expected term of the option is based on historical volatility, during a period equivalent to the expected term of the option, of the observed market prices of the company's publicly traded equity shares. Expected dividends during the expected term of the option are based on recent dividend activity. Risk-free interest rates are based on the government securities yield in effect at the time of the grant over the expected term.

1.20 Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

1.21 Operating profit

Operating profit for the Group is computed considering the revenues, net of cost of sales, selling and marketing expenses and administrative expenses

1.22 Other income

Other income is comprised primarily of interest income and dividend income. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

1.23 Leases

Leases under which the company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognised as an expense on a straight line basis in net profit in the statement of comprehensive income over the lease term.

1.24 Government grants

The Group recognizes government grants only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received. Government grants related to assets are treated as deferred income and are recognized in net profit in the statement of comprehensive income on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in net profit in the statement of comprehensive income over the periods necessary to match them with the related costs which they are intended to compensate.

1.25 Recent accounting pronouncements

1.25.1 Standards issued but not yet effective

IFRS 9 Financial Instruments: In November 2009, the International Accounting Standards Board issued IFRS 9, Financial Instruments: Recognition and Measurement, to reduce the complexity of the current rules on financial instruments as mandated in IAS 39. The effective date for IFRS 9 is annual periods beginning on or after January 1, 2015 with early adoption permitted. IFRS 9 has fewer classification and measurement categories as compared to IAS 39 and has eliminated the categories of held to maturity, available for sale and loans and receivables. Further it eliminates the rule-based requirement of segregating embedded derivatives and tainting rules pertaining to held to maturity investments. For an investment in an equity instrument which is not held for trading, IFRS 9 permits an irrevocable election, on initial recognition, on an individual share-by-share basis, to present all fair value changes from the investment in other comprehensive income. No amount recognized in other comprehensive income would ever be reclassified to profit or loss. IFRS 9, was further amended in October 2010, and such amendment introduced

requirements on accounting for financial liabilities. This amendment addresses the issue of volatility in the profit or loss due to changes in the fair value of an entity's own debt. It requires the entity, which chooses to measure a liability at fair value, to present the portion of the fair value change attributable to the entity's own credit risk in the other comprehensive income. The company is required to adopt IFRS 9 by accounting year commencing April 1, 2015. The company is currently evaluating the requirements of IFRS 9, and has not yet determined the impact on the consolidated financial statements.

IFRS 10, Consolidated Financial Statements, IFRS 11, Joint Arrangements and IFRS 12, Disclosure of Interests in Other Entities: In May 2011, the International Accounting Standards Board issued IFRS 10, IFRS 11 and IFRS 12. The effective date for IFRS 10, IFRS 11 and IFRS 12 is annual periods beginning on or after January 1, 2013 with early adoption permitted.

IFRS 10 Consolidated Financial Statements builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent company. IFRS 10 replaces the consolidation requirements in SIC-12 Consolidation of Special Purpose Entities and IAS 27 Consolidated and Separate Financial Statements. The standard provides additional guidance for the determination of control in cases of ambiguity such as franchisor franchisee relationship, de facto agent, silos and potential voting rights.

IFRS 11 Joint Arrangements determines the nature of an arrangement by focusing on the rights and obligations of the arrangement, rather than its legal form. IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC-13 Jointly-controlled Entities-Non-monetary Contributions by Venturers. IFRS 11 addresses only forms of joint arrangements (joint operations and joint ventures) where there is joint control whereas IAS 31 had identified three forms of joint ventures, namely jointly controlled operations, jointly controlled assets and jointly controlled entities. The standard addresses inconsistencies in the reporting of joint arrangements by requiring a single method to account for interests in jointly controlled entities, which is the equity method.

IFRS 12 Disclosure of Interests in Other Entities is a new and comprehensive standard on disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles. One major requirement of IFRS 12 is that an entity needs to disclose the significant judgments and assumptions it has made in determining:

- a. whether it has control, joint control or significant influence over another entity; and
- b. the type of joint arrangement when the joint arrangement is structured through a separate vehicle.

IFRS 12 also expands the disclosure requirements for subsidiaries with non-controlling interest, joint arrangements and associates that are individually material. IFRS 12 introduces the term "structured entity" by replacing Special Purpose entities and requires enhanced disclosures by way of nature and extent of, and changes in, the risks associated with its interests in both its consolidated and unconsolidated structured entities.

The company will be adopting IFRS 10, IFRS 11 and IFRS 12 effective April 1, 2013. The company is currently evaluating the requirements of IFRS 10, IFRS 11 and IFRS 12, and has not yet determined the impact on the consolidated financial statements.

IFRS 13 Fair Value Measurement: In May 2011, the International Accounting Standards Board issued IFRS 13, Fair Value Measurement to provide specific guidance on fair value measurement and requires enhanced disclosures for all assets and liabilities measured at fair value, and not restricted to financial assets and liabilities. The standard introduces a precise definition of fair value and a consistent measure for fair valuation across assets and liabilities, with a few specified exceptions. The effective date for IFRS 13 is annual periods beginning on or after January 1, 2013 with early adoption permitted. The company is required to adopt IFRS 13 by accounting year commencing April 1, 2013 and is currently evaluating the requirements of IFRS 13, and has not yet determined the impact on the

consolidated financial statements.

IAS 1 (Amended) Presentation of Financial Statements: In June 2011, the International Accounting Standard Board published amendments to IAS 1 Presentation of Financial Statements. The amendments to IAS 1, Presentation of Financial Statements, require companies preparing financial statements in accordance with IFRS to group items within other comprehensive income that may be reclassified to the profit or loss separately from those items which would not be recyclable in the profit or loss section of the income statement. It also requires the tax associated with items presented before tax to be shown separately for each of the two groups of other comprehensive income items (without changing the option to present items of other comprehensive income either before tax or net of tax).

The amendments also reaffirm existing requirements that items in other comprehensive income and profit or loss should be presented as either a single statement or two consecutive statements. This amendment is applicable to annual periods beginning on or after July 1, 2012, with early adoption permitted. The company is required to adopt IAS 1 (Amended) by accounting year commencing April 1, 2013. The company has evaluated the requirements of IAS 1 (Amended) and the company does not believe that the adoption of IAS 1 (Amended) will have a material effect on its consolidated financial statements.

IAS 19 (Amended) Employee Benefits: In June 2011, International Accounting Standards Board issued IAS 19 (Amended), Employee Benefits. The effective date for adoption of IAS 19 (Amended) is annual periods beginning on or after January 1, 2013, though early adoption is permitted.

IAS 19 (Amended) has eliminated an option to defer the recognition of gains and losses through re-measurements and requires such gain or loss to be recognized through other comprehensive income in the year of occurrence to reduce volatility. The amended standard requires immediate recognition of effects of any plan amendments. Further it also requires assets in profit or loss to be restricted to government bond yields or corporate bond yields, considered for valuation of Projected Benefit Obligation, irrespective of actual portfolio allocations. The actual return from the portfolio in excess of or less than such yields is recognized through other comprehensive income.

These amendments enhance the disclosure requirements for defined benefit plans by requiring information about the characteristics of defined benefit plans and risks that entities are exposed to through participation in those plans.

The amendments need to be adopted retrospectively. The company is required to adopt IAS 19 (Amended) by accounting year commencing April 1, 2013. The company is currently evaluating the requirements of IAS 19 (Amended) and has not yet determined the impact on the consolidated financial statements.

2 Notes to the Consolidated Financial Statements

2.1 Cash and cash equivalents

Cash and cash equivalents consist of the following:

| | (Dollars in millions) | |
|----------------------------|-----------------------|----------------|
| | As of | |
| | March 31, 2012 | March 31, 2011 |
| Cash and bank deposits | \$3,746 | \$3,385 |
| Deposits with corporations | 301 | 352 |
| | \$4,047 | \$3,737 |

Cash and cash equivalents as of March 31, 2012 and March 31, 2011 include restricted cash and bank balances of \$52 million and \$24 million, respectively. The restrictions are primarily on account of cash and bank balances held by irrevocable trusts controlled by the company, bank balances held as margin money deposits against guarantees and balances held in unclaimed dividend bank accounts.

Edgar Filing: Infosys Ltd - Form 20-F

The deposits maintained by the Group with banks and corporations comprise of time deposits, which can be withdrawn by the Group at any point without prior notice or penalty on the principal.

The table below provides details of cash and cash equivalents:

| | (Dollars in millions) | |
|---|-----------------------|----------------|
| | As of | |
| | March 31, 2012 | March 31, 2011 |
| Current accounts | | |
| ABN Amro Bank, China | \$8 | \$4 |
| ABN Amro Bank, China (U.S. dollar account) | 1 | 5 |

2.2 Available-for-sale financial assets

Investments in liquid mutual fund units and unlisted equity securities are classified as available-for-sale financial assets.

Cost and fair value of investments in liquid mutual fund units and unlisted equity securities are as follows:

(Dollars in millions)

| | As of | |
|---------|-------------------|-------------------|
| | March 31, 2012 | March 31, 2011 |
| Current | | |

Liquid mutual fund units:

| | | |
|---------------------|-----|-----|
| Cost and fair value | \$6 | \$5 |
|---------------------|-----|-----|

Non Current

Unlisted equity securities:

| | | |
|--------------------------------|---|---|
| Cost | — | — |
| Gross unrealised holding gains | 2 | 5 |
| Fair value | 2 | 5 |

| | | |
|---|-----|------|
| Total available-for-sale financial assets | \$8 | \$10 |
|---|-----|------|

During fiscal 2010, Infosys sold 3,231,151 shares of OnMobile Systems Inc, U.S.A, at a price of \$3.64 per share (166.58 per share), derived from quoted prices of the underlying marketable equity securities. The total consideration amounted to \$12 million, net of taxes and transaction costs. Additionally, the remaining 2,154,100 shares had a fair value of \$8 million as at March 31, 2010. As of March 31, 2011, these 2,154,100 shares were fair valued at \$5 million.

As of March 31, 2012 the 2,154,100 shares were fair valued at \$2 million and the resultant unrealized loss of \$2 million, net of taxes of \$1 million has been recognized in other comprehensive income for the year ended March 31, 2012. The fair value of \$2 million has been derived based on an agreed upon exchange ratio between these unlisted equity securities and quoted prices of the underlying marketable equity securities.

2.3 Business combinations

During fiscal 2010, Infosys BPO acquired 100% of the voting interests in McCamish Systems LLC (McCamish), a business process solutions provider based in Atlanta, Georgia, in the United States. The business acquisition was conducted by entering into a Membership Interest Purchase Agreement for a cash consideration of \$37 million and a contingent consideration of up to \$20 million. The fair values of the contingent consideration and its undiscounted value on the date of acquisition were \$9 million and \$15 million, respectively.

The payment of the contingent consideration is dependent upon the achievement of certain revenue targets and net margin targets by McCamish over a period of 4 years ending March 31, 2014. Further, in the event that McCamish signs a deal with a customer with total revenues of \$100 million or more, the aforesaid period will be extended by 2 years. The total contingent consideration can range between \$14 million and \$20 million.

During the year ended March 31, 2012, the liability related to the contingent consideration increased by \$1 million due to passage of time. As of March 31, 2012 and March 31, 2011, the liability related to contingent consideration was \$11 million and \$10 million, respectively.

The fair value of the contingent consideration is determined by discounting the estimated amount payable to the previous owners of McCamish on achievement of certain financial targets. The key inputs used for the determination of fair value of contingent consideration are the discount rate of 13.9% and the probabilities of achievement of the net margin and the revenue targets ranging from 50% to 100%.

On January 4, 2012, Infosys BPO acquired 100% of the voting interest in Portland Group Pty Ltd a strategic sourcing and category management services provider based in Australia. This business acquisition was conducted by entering into a share sale agreement for a cash consideration of \$41 million.

This business acquisition is expected to strengthen Infosys BPO's capabilities and domain expertise in sourcing and procurement practice and its service offering in the strategic sourcing and category management functions. Consequently, the excess of the purchase consideration paid over the fair value of assets acquired has been accounted for as goodwill.

The purchase price has been allocated based on management's estimates and an independent appraisal of fair values as follows:

| Component | Acquiree's carrying amount | (Dollars in millions) | |
|--|-------------------------------|---------------------------|-----------------------------|
| | | Fair value adjustments | Purchase price allocated |
| Property, plant and equipment | \$1 | – | \$1 |
| Net current assets | 4 | – | 4 |
| Intangible assets-Customer contracts and relationships | – | 8 | 8 |
| Deferred tax liabilities on intangible assets | – | (2) | (2) |
| | 5 | 6 | 11 |
| Goodwill | | | 30 |
| Total purchase price | | | \$41 |

The goodwill is not tax deductible.

The acquisition date fair value of the total consideration transferred is \$41 million in cash.

The amount of trade receivables included in net current assets, acquired from the above business acquisition was \$8 million. Majority of the amount has been collected subsequently and based on past experience the management expects the balance to be fully collected.

The identified intangible customer contracts and relationships are being amortized over a period of ten years based on management's estimate of the useful life of the assets.

The transaction costs of \$1 million related to the acquisition have been included under cost of sales in the consolidated statement of comprehensive income.

2.4 Prepayments and other assets

Prepayments and other assets consist of the following:

| | As of | |
|---|----------------|----------------|
| | March 31, 2012 | March 31, 2011 |
| (Dollars in millions) | | |
| Current | | |
| Rental deposits | \$3 | \$10 |
| Security deposits with service providers | 7 | 14 |
| Loans to employees | 32 | 31 |
| Prepaid expenses (1) | 10 | 10 |
| Interest accrued and not due | 8 | 5 |
| Withholding taxes (1) | 134 | 123 |
| Deposit with corporation | 97 | – |
| Advance payments to vendors for supply of goods (1) | 7 | 8 |
| Other assets | 2 | 5 |
| | \$300 | \$206 |
| Non-current | | |
| Loans to employees | \$1 | \$1 |
| Security deposits with service providers | 6 | – |
| Deposit with corporation | 11 | 98 |
| Prepaid gratuity and other benefits (1) | 3 | – |

Edgar Filing: Infosys Ltd - Form 20-F

| | | |
|--|-------|-------|
| Prepaid expenses (1) | 3 | 4 |
| Rental Deposits | 8 | — |
| | \$32 | \$103 |
| | \$332 | \$309 |
| Financial assets in prepayments and other assets | \$175 | \$164 |

(1) Non financial assets

Withholding taxes primarily consist of input tax credits. Other assets primarily represent travel advances and other recoverable from customers. Security deposits with service providers relate principally to leased telephone lines and electricity supplies.

Deposit with corporation represents amounts deposited to settle certain employee-related obligations as and when they arise during the normal course of business.

2.5 Property, plant and equipment

Following are the changes in the carrying value of property, plant and equipment for the year ended March 31, 2012:

(Dollars in millions)

| | Land | Buildings | Plant and machinery | Computer equipment | Furniture and fixtures | Vehicles | Capital work-in-progress | Total |
|--|-------|-----------|---------------------|--------------------|------------------------|----------|--------------------------|---------|
| Gross Carrying value as of April 1, 2011 | \$124 | \$813 | \$288 | \$299 | \$173 | \$1 | \$118 | \$1,816 |
| Additions | 33 | 50 | 33 | 61 | 22 | — | 106 | 305 |
| Additions through business combinations (Refer Note 2.3) | — | — | — | — | 1 | — | — | 1 |
| Deletions | — | — | (40) | (54) | (27) | — | — | (121) |
| Translation difference | (17) | (103) | (35) | (33) | (18) | 1 | (21) | (226) |
| Gross Carrying value as of March 31, 2012 | 140 | 760 | 246 | 273 | 151 | 2 | 203 | 1,775 |
| Accumulated depreciation as of April 1, 2011 | — | (219) | (166) | (240) | (105) | — | — | (730) |
| Depreciation | — | (52) | (51) | (55) | (33) | (1) | — | (192) |
| Accumulated depreciation on deletions | — | — | 40 | 54 | 27 | — | — | 121 |
| Translation difference | — | 30 | 21 | 27 | 11 | — | — | 89 |
| Accumulated depreciation as of March 31, 2012 | — | (241) | (156) | (214) | (100) | (1) | — | (712) |
| Carrying value as of March 31, 2012 | 140 | 519 | 90 | 59 | 51 | 1 | 203 | 1,063 |
| Carrying value as of March 31, 2011 | \$124 | \$594 | \$122 | \$59 | \$68 | \$1 | \$118 | \$1,086 |

During fiscal 2012, certain assets which were not in use having gross book value of \$112 million (carrying value nil) were retired.

Following are the changes in the carrying value of property, plant and equipment for the year ended March 31, 2011:

(Dollars in millions)

| | Land | Buildings | Plant and machinery | Computer equipment | Furniture and fixtures | Vehicles | Capital work-in-progress | Total |
|--|------|-----------|---------------------|--------------------|------------------------|----------|--------------------------|-------|
|--|------|-----------|---------------------|--------------------|------------------------|----------|--------------------------|-------|

Edgar Filing: Infosys Ltd - Form 20-F

| | | | | | | | | |
|---|-------|-------|-------|-------|-------|-----|-------|---------|
| Gross carrying value as of April 1, 2010 | \$73 | \$735 | \$281 | \$279 | \$170 | \$1 | \$91 | \$1,630 |
| Additions | 49 | 72 | 37 | 64 | 28 | – | 25 | 275 |
| Deletions | – | – | (32) | (48) | (27) | – | – | (107) |
| Translation difference | 2 | 6 | 2 | 4 | 2 | – | 2 | 18 |
| Gross Carrying value as of March 31, 2011 | 124 | 813 | 288 | 299 | 173 | 1 | 118 | 1,816 |
| Accumulated depreciation as of April 1, 2010 | – | (166) | (144) | (233) | (98) | – | – | (641) |
| Depreciation | – | (51) | (52) | (52) | (32) | – | – | (187) |

| Translation difference | – | (2) | (2) | (3) | (2) | – | – | (9) |
| Accumulated depreciation as of March 31, 2011 | – | (219) | (166) | (240) | (105) | – | – | (730) |
| Carrying value as of April 1, 2010 | 73 | 569 | 137 | 46 | 72 | 1 | 91 | 989 |
| Carrying value as of March 31, 2011 | \$124 | \$594 | \$122 | \$59 | \$68 | \$1 | \$118 | \$1,086 |

During fiscal 2011, certain assets which were not in use having gross book value of \$107 million (carrying value nil) were retired.

Following are the changes in the carrying value of property, plant and equipment for the year ended March 31, 2010:

(Dollars in millions)

| | Land | Buildings | Plant and Computer machinery equipment | Furniture and fixtures | Vehicles | Capital work-in-progress | Total |
|---|------|-----------|--|------------------------|----------|--------------------------|---------|
| Gross carrying value as of April 1, 2009 | \$56 | \$574 | \$233 | \$243 | \$153 | \$1 | \$1,394 |
| Additions | 11 | 82 | 45 | 44 | 21 | – | 143 |
| Acquisition through Business combination | – | – | – | 1 | – | – | 1 |
| Deletions | – | – | (28) | (39) | (23) | – | (90) |
| Translation difference | 6 | 79 | 31 | 30 | 19 | – | 182 |
| Gross carrying value as of March 31, 2010 | 73 | 735 | 281 | 279 | 170 | 1 | 1,630 |
| Accumulated depreciation as of April 1, 2009 | – | (106) | (103) | (189) | (76) | – | (474) |
| Depreciation | – | (44) | (55) | (57) | (35) | – | (191) |
| Accumulated depreciation on deletions | – | – | 28 | 39 | 23 | – | 90 |
| Translation difference | – | (16) | (14) | (26) | (10) | – | (66) |
| Accumulated depreciation as of March 31, 2010 | – | (166) | (144) | (233) | (98) | – | (641) |
| Carrying value as of April 1, 2009 | 56 | 468 | 130 | 54 | 77 | 1 | 920 |
| Carrying value as of March 31, 2010 | \$73 | \$569 | \$137 | \$46 | \$72 | \$1 | \$989 |

During fiscal 2010, certain assets which were not in use having an aggregate gross book value of \$82 million (carrying value nil), were retired.

The depreciation expense for the year ended March 31, 2012, 2011 and 2010 is included in cost of sales in the statement of comprehensive income.

Carrying value of land includes \$56 million and \$33 million as of March 31, 2012 and March 31, 2011, respectively, towards deposits paid under certain lease-cum-sale agreements to acquire land, including agreements where the company has an option to purchase the properties on expiry of the lease period. The company has already paid 99% of the market value of the properties prevailing at the time of entering into the lease-cum-sale agreements with the balance payable at the time of purchase.

The contractual commitments for capital expenditure were \$205 million and \$183 million as of March 31, 2012 and March 31, 2011, respectively.

2.6 Goodwill and intangible assets

Following is a summary of changes in the carrying amount of goodwill:

| | (Dollars in millions) | |
|--|-----------------------|----------------|
| | As of | |
| | March 31, 2012 | March 31, 2011 |
| Carrying value at the beginning | \$185 | \$183 |
| Goodwill recognized on acquisition (refer to note 2.3) | 30 | — |
| Translation differences | (20) | 2 |
| Carrying value at the end | \$195 | \$185 |

During the quarter ended June 30, 2011, the Company internally reorganized its business to increase its client focus. Consequent to the internal reorganization, there were changes effected in the reportable segments based on the “management approach” as defined in IFRS 8, Operating Segments. (Refer Note 2.20). Accordingly, the goodwill has been allocated to the new operating segments as at March 31, 2012 and as at March 31, 2011.

Goodwill has been allocated to the cash generating units (CGU), identified to be the operating segments as follows:

| Segment | (Dollars in millions) | |
|--|-----------------------|----------------|
| | As of | |
| | March 31, 2012 | March 31, 2011 |
| Financial services and insurance (FSI) | \$85 | \$90 |
| Manufacturing enterprises (MFG) | 22 | 21 |
| Energy, utilities and telecommunication services (ECS) | 28 | 21 |
| Retail, logistics, consumer product group, life sciences enterprises (RCL) | 60 | 53 |
| Total | \$195 | \$185 |

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the CGU which are operating segments regularly reviewed by the chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance. The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. The fair value of a CGU is determined based on the market capitalization. The value-in-use is determined based on specific calculations. These calculations use pre-tax cash flow projections over a period of five years, based on financial budgets approved by management and an average of the range of each assumption mentioned below. As of March 31, 2012, the estimated recoverable amount of the CGU exceeded its carrying amount. The recoverable amount was computed based on the fair value being higher than value-in-use and the carrying amount of the CGU was computed by allocating the net assets to operating segments for the purpose of impairment testing. The key assumptions used for the calculations are as follows:

| | In % |
|-----------------------|-------|
| Long term growth rate | 8-10 |
| Operating margins | 17-20 |
| Discount rate | 12.7 |

The above discount rate is based on the Weighted Average Cost of Capital (WACC) of the Company. These estimates are likely to differ from future actual results of operations and cash flows.

Following is a summary of changes in the carrying amount of acquired intangible assets:

| | (Dollars in millions) | |
|---|-----------------------|----------------|
| | As of | |
| | March 31, 2012 | March 31, 2011 |
| Gross carrying value at the beginning | \$25 | \$24 |
| Additions through business combinations (Refer to note 2.3) | 8 | – |
| Additions | 18 | – |
| Translation differences | – | 1 |
| Gross carrying value at the end | \$51 | \$25 |
| Accumulated amortization at the beginning | \$14 | \$12 |
| Amortization expense | 3 | 2 |
| Accumulated amortization at the end | \$17 | \$14 |
| Net carrying value | \$34 | \$11 |

During the quarter ended June 30, 2011, Infosys Australia entered into an agreement with Telecom New Zealand Limited (Telecom) to purchase assets primarily pertaining to the rights to mutual subcontracting agreement for the existing customer contracts of Telecom's Gen-I division. Consequent to the transaction, Infosys Australia recognized the subcontracting rights amounting to \$4 million as intangible assets and is amortizing the same over a period of three years, being the management's estimate of useful life of such intangible assets.

During the quarter ended September 30, 2011, Infosys Shanghai paid \$11 million towards the acquisition of land use rights. The land use rights are being amortized over the initial term of 50 years. Further during the three months ended March 31, 2012, government grant has been received for the land use right and is amortized over the initial term of 50 years.

During the quarter ended March 2012, Infosys recognised \$3 million as intangible assets on account of software purchase and is amortizing the same over a period of five years being the management's estimate of useful life of such intangible assets.

The intangible customer contracts recognized at the time of Philips acquisition are being amortized over a period of seven years, being management's estimate of the useful life of the respective assets, based on the life over which economic benefits are expected to be realized. However, during fiscal 2010 the amortization of this intangible asset has been accelerated based on the usage pattern of the asset. As of March 31, 2012, the customer contracts have a remaining amortization period of approximately three years.

The intangible customer contracts and relationships recognized at the time of the McCamish acquisition are being amortized over a period of nine years, being management's estimate of the useful life of the respective assets, based on the life over which economic benefits are expected to be realized. As of March 31, 2012, the customer contracts and relationships have a remaining amortization period of approximately seven years.

Edgar Filing: Infosys Ltd - Form 20-F

The intangible computer software platform recognized at the time of the McCamish acquisition having a useful life of four months, being management's estimate of the useful life of the asset, based on the life over which economic benefits were expected to be realized, was fully amortized in fiscal 2010.

The aggregate amortization expense included in cost of sales, for the year ended March 31, 2012, 2011 and 2010 were \$3 million, \$2 million and \$8 million, respectively

Research and development expense recognized in net profit in the consolidated statement of comprehensive income, for the year ended March 31, 2012, 2011 and 2010 were \$140 million, \$116 million and \$92 million, respectively.

2.7 Financial instruments

The carrying value and fair value of financial instruments by categories as of March 31, 2012 were as follows:
(Dollars in millions)

| | Loans and receivables | Financial assets/liabilities at fair value through profit and loss | Available for sale | Trade and other payables | Total carrying value/fair value |
|---|--------------------------|---|-----------------------|--------------------------------|--|
| Assets: | | | | | |
| Cash and cash equivalents (Refer Note 2.1) | \$4,047 | – | – | – | \$4,047 |
| Available-for-sale financial assets (Refer Note 2.2) | – | – | 8 | – | 8 |
| Investment in certificates of deposit | 68 | – | – | – | 68 |
| Trade receivables | 1,156 | – | – | – | 1,156 |
| Unbilled revenue | 368 | – | – | – | 368 |
| Prepayments and other assets (Refer Note 2.4) | 175 | – | – | – | 175 |
| Total | \$5,814 | – | \$8 | – | \$5,822 |
| Liabilities: | | | | | |
| Derivative financial instruments | – | \$9 | – | – | \$9 |
| Trade payables | – | – | – | 5 | 5 |
| Client deposits | – | – | – | 3 | 3 |
| Employee benefit obligations (Refer Note 2.8) | – | – | – | 98 | 98 |
| Other liabilities (Refer Note 2.10) | – | – | – | 384 | 384 |
| Liability towards acquisition of business on a discounted basis (Refer Note 2.10) | – | – | – | 11 | 11 |
| Total | – | \$9 | – | \$501 | \$510 |

The carrying value and fair value of financial instruments by categories as of March 31, 2011 were as follows:
(Dollars in millions)

| | Loans and receivables | Financial assets/liabilities at fair value through profit and loss | Available for sale | Trade and other payables | Total carrying value/fair value |
|--|--------------------------|--|-----------------------|--------------------------------|--|
| Assets: | | | | | |
| Cash and cash equivalents (Refer Note 2.1) | \$3,737 | – | – | – | \$3,737 |
| | – | – | 10 | – | 10 |

Available-for-sale financial assets (Refer Note 2.2)

| | | | | | |
|---|----------------|-------------|-------------|--------------|----------------|
| Investment in certificates of deposit | 27 | – | – | – | 27 |
| Trade receivables | 1,043 | – | – | – | 1,043 |
| Unbilled revenue | 279 | – | – | – | 279 |
| Derivative financial instruments | – | 15 | – | – | 15 |
| Prepayments and other assets (Refer Note 2.4) | 164 | – | – | – | 164 |
| Total | \$5,250 | \$15 | \$10 | – | \$5,275 |
| Liabilities: | | | | | |
| Trade payables | – | – | – | \$10 | \$10 |
| Client deposits | – | – | – | 5 | 5 |
| Employee benefit obligations (Refer Note 2.8) | – | – | – | 89 | 89 |
| Other liabilities (Refer Note 2.10) | – | – | – | 376 | 376 |
| Liability towards acquisition of business on a discounted basis (Refer Note 2.10) | – | – | – | 10 | 10 |
| Total | – | – | – | \$490 | \$490 |

Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as of March 31, 2012:

| | As of March 31, 2012 | (Dollars in millions) | | |
|---|----------------------|---|---------|---------|
| | | Fair value measurement at end of the reporting period using | | |
| | | Level 1 | Level 2 | Level 3 |
| Assets | | | | |
| Available- for- sale financial asset- Investments in liquid mutual fund units (Refer Note 2.2) | \$6 | \$6 | – | – |
| Available- for- sale financial asset- Investments in unlisted equity securities (Refer Note 2.2) | \$2 | – | \$2 | – |
| Derivative financial instruments- loss on outstanding foreign exchange forward and option contracts | \$9 | – | \$9 | – |

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as of March 31, 2011:

| | As of March 31, 2011 | (Dollars in millions) | | |
|--|----------------------|---|---------|---------|
| | | Fair value measurement at end of the reporting period using | | |
| | | Level 1 | Level 2 | Level 3 |
| Assets | | | | |
| Available- for- sale financial asset- Investments in liquid mutual fund units (Refer Note 2.2) | \$5 | \$5 | – | – |

Edgar Filing: Infosys Ltd - Form 20-F

| | | | | |
|--|------|---|------|---|
| Available- for- sale financial asset- Investments in unlisted equity securities (Refer Note 2.2) | \$5 | – | \$5 | – |
| Derivative financial instruments- gains on outstanding foreign exchange forward and option contracts | \$15 | – | \$15 | – |

Income from financial assets or liabilities that are not at fair value through profit or loss is as follows:

| | (Dollars in millions) | | |
|---|-----------------------|-------|-------|
| | Year ended March 31, | | |
| | 2012 | 2011 | 2010 |
| Interest income on deposits and certificates of deposit (Refer Note 2.14) | \$374 | \$250 | \$164 |
| Income from available-for-sale financial assets (Refer Note 2.14) | 6 | 5 | 34 |
| | \$380 | \$255 | \$198 |

Derivative financial instruments

The company uses derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in foreign exchange rates on trade receivables and forecasted cash flows denominated in certain foreign currencies. The counterparty for these contracts is generally a bank or a financial institution. These derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace. The following table gives details in respect of outstanding foreign exchange forward and option contracts:

| | (In millions) | |
|----------------------------------|----------------|----------------|
| | As of | |
| | March 31, 2012 | March 31, 2011 |
| Forward contracts | | |
| In U.S. dollars | 729 | 546 |
| In Euro | 51 | 28 |
| In United Kingdom Pound Sterling | 35 | 15 |
| In Australian dollars | 24 | 10 |
| Option contracts | | |
| In U.S. dollars | 50 | – |

The company recognized a loss on derivative financial instruments of \$57 million for the year ended March 31, 2012 and a gain on derivative financial instruments of \$13 million and \$63 million for the year ended March 31, 2011 and 2010, respectively, which are included under other income.

The foreign exchange forward and option contracts mature between 1 to 12 months. The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as of the balance sheet date:

| | (Dollars in millions) | |
|--|-----------------------|----------------|
| | As of | |
| | March 31, 2012 | March 31, 2011 |
| Not later than one month | \$68 | \$97 |
| Later than one month and not later than three months | 155 | 146 |
| Later than three months and not later than one year | 666 | 377 |
| | \$889 | \$620 |

Financial risk management

Financial risk factors

The company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the company is foreign exchange risk. The company uses derivative financial instruments to mitigate foreign exchange related risk exposures. The company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. The demographics of the customer including the default risk of the industry and country in which the customer operates also has an influence on credit risk assessment.

Market risk

The company operates internationally and a major portion of the business is transacted in several currencies and consequently the Company is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The company uses derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in foreign exchange rates on trade receivables and forecasted cash flows denominated in certain foreign currencies. The exchange rate between the rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the company's operations are adversely affected as the rupee appreciates/ depreciates against these currencies.

The following table gives details in respect of the outstanding foreign exchange forward and option contracts:

| | (Dollars in millions) | |
|--|-----------------------|----------------|
| | As of | |
| | March 31, 2012 | March 31, 2011 |
| Aggregate amount of outstanding forward and option contracts | \$889 | \$620 |
| Gains / (losses) on outstanding forward and option contracts | \$(9) | \$15 |

The outstanding foreign exchange forward and option contracts as of March 31, 2012 and March 31, 2011, mature between one to twelve months.

The following table analyzes foreign currency risk from financial instruments as of March 31, 2012:

| | (Dollars in millions) | | | | | |
|------------------------------|-----------------------|-------|-------------------------------------|-----------------------|---------------------|---------|
| | U.S. dollars | Euro | United Kingdom Pound Sterling | Australian dollars | Other currencies | Total |
| Cash and cash equivalents | \$137 | \$11 | \$7 | \$16 | \$32 | \$203 |
| Trade receivables | 770 | 116 | 110 | 78 | 47 | 1,121 |
| Unbilled revenue | 201 | 59 | 24 | 12 | 31 | 327 |
| Other assets | 128 | 4 | 5 | – | 22 | 159 |
| Trade payables | – | – | – | – | (2) | (2) |
| Client deposits | (3) | – | – | – | – | (3) |
| Accrued expenses | (85) | (8) | – | (1) | (13) | (107) |
| Employee benefit obligations | (38) | – | – | (1) | (18) | (57) |
| Other liabilities | (242) | (49) | (1) | (5) | (17) | (314) |
| Net assets / (liabilities) | \$868 | \$133 | \$145 | \$99 | \$82 | \$1,327 |

The following table analyzes foreign currency risk from financial instruments as of March 31, 2011:

| | (Dollars in millions) | | | | | |
|--|-----------------------|------|-------------------------|-----------------------|---------------------|-------|
| | U.S. dollars | Euro | United Kingdom Pound | Australian dollars | Other currencies | Total |

Edgar Filing: Infosys Ltd - Form 20-F

| | | | Sterling | | | |
|------------------------------|-------|------|----------|-------|------|---------|
| Cash and cash equivalents | \$132 | \$9 | \$16 | \$119 | \$31 | \$307 |
| Trade receivables | 694 | 91 | 106 | 66 | 49 | 1,006 |
| Unbilled revenue | 164 | 40 | 22 | 15 | 16 | 257 |
| Other assets | 132 | 3 | 13 | – | 9 | 157 |
| Trade payables | – | – | – | – | (2) | (2) |
| Client deposits | (5) | – | – | – | – | (5) |
| Accrued expenses | (52) | (4) | 3 | – | (8) | (61) |
| Employee benefit obligations | (30) | – | (3) | – | (14) | (47) |
| Other liabilities | (329) | (40) | (6) | (1) | (15) | (391) |
| Net assets / (liabilities) | \$706 | \$99 | \$151 | \$199 | \$66 | \$1,221 |

For the year ended March 31, 2012, 2011 and 2010, every percentage point depreciation / appreciation in the exchange rate between the Indian rupee and the U.S. dollar, has affected the company's operating margins by approximately 0.5%, 0.5% and 0.6%, respectively.

Sensitivity analysis is computed based on the changes in the income and expenses in foreign currency upon conversion into functional currency, due to exchange rate fluctuations between the previous reporting period and the current reporting period.

Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to \$1,156 million and \$1,043 million as of March 31, 2012 and March 31, 2011, respectively and unbilled revenue amounting to \$368 million and \$279 million as of March 31, 2012 and March 31, 2011, respectively. Trade receivables are typically unsecured and are derived from revenue earned from customers primarily located in the United States. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the company grants credit terms in the normal course of business.

The following table gives details in respect of percentage of revenues generated from top customer and top five customers:

| | (In %) | | |
|---------------------------------|----------------------|------|------|
| | Year ended March 31, | | |
| | 2012 | 2011 | 2010 |
| Revenue from top customer | 4.3 | 4.7 | 4.6 |
| Revenue from top five customers | 15.5 | 15.4 | 16.4 |

Financial assets that are neither past due nor impaired

Cash and cash equivalents, available-for-sale financial assets and investment in certificates of deposit are neither past due nor impaired. Cash and cash equivalents include deposits with banks and corporations with high credit-ratings assigned by international and domestic credit-rating agencies. Available-for-sale financial assets include investment in liquid mutual fund units and unlisted equity instruments. Certificates of deposit represent funds deposited at a bank or other eligible financial institution for a specified time period. Of the total trade receivables, \$838 million and \$752 million as of March 31, 2012 and March 31, 2011, respectively, were neither past due nor impaired.

Financial assets that are past due but not impaired

There is no other class of financial assets that is not past due but impaired except for trade receivables of less than \$1 million and \$1 million as of March 31, 2012 and March 31, 2011, respectively.

The Company's credit period generally ranges from 30-45 days. The age analysis of the trade receivables have been considered from the due date. The age wise break up of trade receivables, net of allowances of \$17 million and \$18 million as of March 31, 2012 and March 31, 2011, respectively, that are past due, is given below:

| Period (in days) | (Dollars in millions) | |
|------------------|-----------------------|----------------|
| | As of | |
| | March 31, 2012 | March 31, 2011 |
| Less than 30 | \$218 | \$208 |
| 31 – 60 | 37 | 43 |
| 61 – 90 | 37 | 14 |
| More than 90 | 26 | 26 |
| | \$318 | \$291 |

The provisions for doubtful accounts receivable for the year ending March 31, 2012 was \$14 million and the provisions for doubtful accounts receivable for each of the years ended March 31, 2011 and March 31, 2010 was less than \$1 million.

The movement in the provisions for doubtful accounts receivable is as follows:

| | (Dollars in millions) | | |
|---|-----------------------|------|------|
| | Year ended March 31, | | |
| | 2012 | 2011 | 2010 |
| Balance at the beginning | \$19 | \$23 | \$21 |
| Translation differences | (3) | (1) | 3 |
| Provisions for doubtful accounts receivable | 14 | – | – |
| Trade receivables written off | (13) | (3) | (1) |
| Balance at the end | \$17 | \$19 | \$23 |

Liquidity risk

As of March 31, 2012, the company had a working capital of \$5,008 million including cash and cash equivalents of \$4,047 million, available-for-sale financial assets of \$6 million and investments in certificates of deposit of \$68 million. As of March 31, 2011, the company had a working capital of \$4,496 million including cash and cash equivalents of \$3,737 million, available-for-sale financial assets of \$5 million and investments in certificates of deposit of \$27 million.

As of March 31, 2012 and March 31, 2011, the outstanding employee benefit obligations were \$98 million and \$89 million, respectively, which have been fully funded. Further, as of March 31, 2012 and March 31, 2011, the company had no outstanding bank borrowings. Accordingly, no liquidity risk is perceived.

The table below provides details regarding the contractual maturities of significant financial liabilities as of March 31, 2012:

| Particulars | (Dollars in millions) | | | | |
|--|-----------------------|-----------|-----------|-----------|-------|
| | Less than 1 year | 1-2 years | 2-4 years | 4-7 years | Total |
| Trade payables | \$5 | – | – | – | \$5 |
| Client deposits | \$3 | – | – | – | \$3 |
| Other liabilities (Refer Note 2.10) | \$381 | \$3 | – | – | \$384 |
| Liability towards acquisition of business on an undiscounted basis (Refer Note 2.10) | \$1 | \$2 | \$10 | \$2 | \$15 |

Edgar Filing: Infosys Ltd - Form 20-F

The table below provides details regarding the contractual maturities of significant financial liabilities as of March 31, 2011:

| Particulars | (Dollars in millions) | | | | |
|--|-----------------------|-----------|-----------|-----------|-------|
| | Less than 1 year | 1-2 years | 2-4 years | 4-7 years | Total |
| Trade payables | \$10 | – | – | – | \$10 |
| Client deposits | \$5 | – | – | – | \$5 |
| Other liabilities (Refer Note 2.10) | \$371 | \$5 | – | – | \$376 |
| Liability towards acquisition of business on an undiscounted basis (Refer Note 2.10) | \$1 | \$2 | \$10 | \$2 | \$15 |

As of March 31, 2012 and March 31, 2011, the company had outstanding financial guarantees of \$4 million and \$5 million, respectively, towards leased premises. These financial guarantees can be invoked upon breach of any term of the lease agreement. To the company's knowledge there has been no breach of any term of the lease agreement as of March 31, 2012 and March 31, 2011.

2.8 Employee benefit obligations

Employee benefit obligations comprise the following:

| | (Dollars in millions) | |
|---------------------|-----------------------|----------------------|
| | As of March 31, 2012 | As of March 31, 2011 |
| Current | | |
| Compensated absence | \$98 | \$31 |
| | \$98 | \$31 |
| Non-current | | |
| Compensated absence | – | \$58 |
| | – | \$58 |
| | \$98 | \$89 |

2.9 Provisions

Provisions comprise the following:

| | (Dollars in millions) | |
|---|-----------------------|----------------------|
| | As of March 31, 2012 | As of March 31, 2011 |
| Provision for post sales client support | \$26 | \$20 |

Provision for post sales client support represent cost associated with providing sales support services which are accrued at the time of recognition of revenues and are expected to be utilized over a period of 6 months to 1 year. The movement in the provision for post sales client support is as follows:

| | (Dollars in millions) | | |
|---------------------------------|-----------------------|------|------|
| | Year ended March 31, | | |
| | 2012 | 2011 | 2010 |
| Balance at the beginning | \$20 | \$18 | \$18 |
| Translation differences | (3) | 1 | – |
| Provision recognized/(reversed) | 13 | 1 | – |
| Provision utilized | (4) | – | – |
| Balance at the end | \$26 | \$20 | \$18 |

Provision for post sales client support for the year ended March 31, 2012, 2011 and 2010 is included in cost of sales in the statement of comprehensive income.

2.10 Other liabilities

Other liabilities comprise the following:

| | (Dollars in millions) | |
|---|-----------------------|----------------|
| | As of | |
| | March 31, 2012 | March 31, 2011 |
| Current | | |
| Accrued compensation to employees | \$127 | \$164 |
| Accrued expenses | 213 | 173 |
| Withholding taxes payable (1) | 100 | 74 |
| Retainage | 10 | 6 |
| Unamortized negative past service cost (Refer Note 2.12.1) (1) | 1 | 5 |
| Liabilities of controlled trusts | 29 | 27 |
| Liability towards acquisition of business (Refer Note 2.3) | – | 1 |
| Others | 2 | 1 |
| | \$482 | \$451 |
| Non-current | | |
| Liability towards acquisition of business (Refer Note 2.3) | \$11 | \$9 |
| Accrued expenses | 1 | 5 |
| Unamortized negative past service cost (Refer Note 2.12.1) (1) | 3 | – |
| Incentive accruals | 2– | |
| Deferred income - government grant on land use rights(1) (Refer Note 2.6) | 5– | |
| | \$22 | \$14 |
| | \$504 | \$465 |
| Financial liabilities included in other liabilities (excluding liability towards acquisition of business) | \$384 | \$376 |
| Financial liability towards acquisition of business on a discounted basis (Refer Note 2.3) | \$11 | \$10 |
| Financial liability towards acquisition of business on an undiscounted basis (Refer Note 2.3) | \$15 | \$15 |
| (1)Non financial liabilities | | |

Accrued expenses primarily relates to cost of technical sub-contractors, telecommunication charges, legal and professional charges, brand building expenses, overseas travel expenses and office maintenance. Others include unclaimed dividend balances.

2.11 Expenses by nature

| | (Dollars in millions) | | |
|--|-----------------------|---------|---------|
| | Year ended March 31, | | |
| | 2012 | 2011 | 2010 |
| Employee benefit costs (Refer Note 2.12.4) | \$3,815 | \$3,265 | \$2,553 |
| Depreciation and amortization charges (Refer Note 2.5 and 2.6) | 195 | 189 | 199 |
| Travelling costs | 233 | 210 | 147 |
| Consultancy and professional charges | 99 | 75 | 59 |
| Rates and taxes | 13 | 12 | 6 |
| Cost of software packages | 101 | 77 | 71 |
| Third party items bought for service delivery to clients | 34 | 30 | 3 |

Edgar Filing: Infosys Ltd - Form 20-F

| | | | |
|---|---------|---------|---------|
| Communication costs | 57 | 52 | 48 |
| Cost of technical sub-contractors | 160 | 132 | 79 |
| Consumables | 6 | 6 | 5 |
| Power and fuel | 38 | 37 | 30 |
| Repairs and maintenance | 89 | 79 | 55 |
| Commission | 6 | 3 | 3 |
| Branding and marketing expenses | 26 | 21 | 16 |
| Provision for post-sales client support (Refer Note 2.9) | 13 | 1 | — |
| Provisions for doubtful accounts receivable (Refer Note 2.7) | 14 | — | — |
| Operating lease payments (Refer Note 2.15) | 40 | 33 | 26 |
| Postage and courier | 3 | 3 | 2 |
| Printing and stationery | 3 | 3 | 2 |
| Insurance charges | 8 | 7 | 6 |
| Donations | 5 | — | 9 |
| Others | 23 | 27 | 25 |
| Total cost of sales, selling and marketing expenses and administrative expenses | \$4,981 | \$4,262 | \$3,344 |

2.12 Employee benefits

2.12.1 Gratuity

The following tables set out the funded status of the gratuity plans and the amounts recognized in the Company's financial statements as of March 31, 2012, 2011, 2010, 2009 and 2008:

(Dollars in millions)

| | As of | | | | |
|--|----------------|----------------|----------------|----------------|----------------|
| | March 31, 2012 | March 31, 2011 | March 31, 2010 | March 31, 2009 | March 31, 2008 |
| Change in benefit obligations | | | | | |
| Benefit obligations at the beginning | \$108 | \$72 | \$52 | \$56 | \$51 |
| Service cost | 33 | 39 | 17 | 11 | 14 |
| Interest cost | 8 | 5 | 4 | 3 | 4 |
| Actuarial losses/(gains) | (1) | 4 | (1) | — | (2) |
| Benefits paid | (14) | (14) | (8) | (5) | (6) |
| Plan amendments | — | — | — | — | (9) |
| Translation differences | (16) | 2 | 8 | (13) | 4 |
| Benefit obligations at the end | \$118 | \$108 | \$72 | \$52 | \$56 |
| Change in plan assets | | | | | |
| Fair value of plan assets at the beginning | \$108 | \$73 | \$52 | \$59 | \$51 |
| Expected return on plan assets | 10 | 8 | 5 | 4 | 4 |
| Actuarial (losses)/gains | — | — | — | — | 1 |
| Employer contributions | 32 | 40 | 14 | 7 | 4 |
| Benefits paid | (14) | (14) | (8) | (5) | (6) |
| Translation differences | (15) | 1 | 10 | (13) | 5 |
| Fair value of plan assets at the end | \$121 | \$108 | \$73 | \$52 | \$59 |
| Funded status | \$3 | — | \$1 | — | \$3 |
| Prepaid benefit | \$3 | — | \$1 | — | \$3 |

Edgar Filing: Infosys Ltd - Form 20-F

Net gratuity cost for the year ended March 31, 2012, 2011 and 2010 comprises the following components:

(Dollars in millions)

| | Year ended March 31, | | |
|--------------------------------|----------------------|------|------|
| | 2012 | 2011 | 2010 |
| Service cost | \$33 | \$39 | \$17 |
| Interest cost | 8 | 5 | 4 |
| Expected return on plan assets | (10) | (8) | (5) |
| Actuarial (gains)/loss | (1) | 4 | (1) |
| Plan amendments | (1) | (1) | (1) |
| Net gratuity cost | \$29 | \$39 | \$14 |

The net gratuity cost has been apportioned between cost of sales, selling and marketing expenses and administrative expenses on the basis of direct employee cost as follows:

(Dollars in millions)

| | Year ended March 31, | | |
|--------------------------------|----------------------|------|------|
| | 2012 | 2011 | 2010 |
| Cost of sales | \$26 | \$34 | \$12 |
| Selling and marketing expenses | 2 | 3 | 1 |
| Administrative expenses | 1 | 2 | 1 |
| | \$29 | \$39 | \$14 |

Effective July 1, 2007, the company amended its Gratuity Plan, to suspend the voluntary defined death benefit component of the Gratuity Plan. This amendment resulted in a negative past service cost amounting to \$9 million, which is being amortized on a straight-line basis over the average remaining service period of employees which is 10 years. The unamortized negative past service cost of \$4 million and \$5 million as of March 31, 2012 and March 31, 2011, respectively, has been included under other current and other non-current liabilities.

The weighted-average assumptions used to determine benefit obligations as of March 31, 2012, March 31, 2011, March 31, 2010, March 31, 2009 and March 31, 2008 are set out below:

| | As of | | | | |
|--|----------------|----------------|----------------|----------------|----------------|
| | March 31, 2012 | March 31, 2011 | March 31, 2010 | March 31, 2009 | March 31, 2008 |
| Discount rate | 8.6% | 8.0% | 7.8% | 7.0% | 7.9% |
| Weighted average rate of increase in compensation levels | 7.3% | 7.3% | 7.3% | 5.1% | 5.1% |

The weighted-average assumptions used to determine net periodic benefit cost for the year ended March 31, 2012, 2011 and 2010 are set out below:

| | Year ended March 31, | | |
|--|----------------------|------|------|
| | 2012 | 2011 | 2010 |
| Discount rate | 8.0% | 7.8% | 7.0% |
| Weighted average rate of increase in compensation levels | 7.3% | 7.3% | 7.3% |
| Rate of return on plan assets | 9.5% | 9.4% | 9.0% |

The company contributes all ascertained liabilities towards gratuity to the Infosys Employees' Gratuity Fund Trust. In case of Infosys BPO, contributions are made to the Infosys BPO Employees' Gratuity Fund Trust. Trustees administer contributions made to the trust and contributions are invested in a scheme with Life Insurance Corporation of India as

permitted by Indian law. As of March 31, 2012 and March 31, 2011, the plan assets have been primarily invested in government securities.

Actual return on assets for the year ended March 31, 2012, 2011 and 2010 was \$10 million, \$8 million and \$5 million respectively.

The company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The company's overall expected long-term rate-of-return on assets has been determined based on consideration of available market information, current provisions of Indian law specifying the instruments in which investments can be made, and historical returns. Historical returns during the year ended March 31, 2012, 2011 and 2010 have not been lower than the expected rate of return on plan assets estimated for those years. The discount rate is based on the government securities yield.

Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India.

The company expects to contribute \$29 million to the gratuity trusts during the fiscal 2013.

2.12.2 Superannuation

The company contributed \$30 million, \$24 million and \$19 million to the superannuation plan during the year ended March 31, 2012, 2011 and 2010, respectively.

Superannuation contributions have been apportioned between cost of sales, selling and marketing expenses and administrative expenses on the basis of direct employee cost as follows:

| | (Dollars in millions) | | |
|--------------------------------|-----------------------|------|------|
| | Year ended March 31, | | |
| | 2012 | 2011 | 2010 |
| Cost of sales | \$26 | \$21 | \$17 |
| Selling and marketing expenses | 2 | 2 | 1 |
| Administrative expenses | 2 | 1 | 1 |
| | \$30 | \$24 | \$19 |

2.12.3 Provident fund

The company has an obligation to fund any shortfall on the yield of the trust's investments over the administered interest rates on an annual basis. These administered rates are determined annually predominantly considering the social rather than economic factors and in most cases the actual return earned by the company has been higher in the past years. The Actuarial Society of India has issued the final guidance for measurement of provident fund liabilities during the quarter ended December 31, 2011. The actuary has accordingly provided a valuation and based on the below provided assumptions there is no shortfall as at March 31, 2012, 2011, 2010, 2009 and 2008, respectively.

The details of fund and plan asset position are given below:

| | (Dollars in millions) | | | | |
|---|-----------------------|-------------------|-------------------|------------------|-------------------|
| Particulars | As of | | | | |
| | March 31, 2012 | March 31, 2011 | March 31, 2010 | March 31,2009 | March 31, 2008 |
| Plan assets at period end, at fair value | \$357 | \$354 | \$288 | \$197 | \$186 |
| Present value of benefit obligation at period end | 357 | 354 | 288 | 197 | 186 |
| Asset recognized in balance sheet | - | - | - | - | - |

Assumptions used in determining the present value obligation of the interest rate guarantee under the Deterministic Approach:

| | As of | | | | |
|--------------------------------------|-------------------|-------------------|-------------------|-------------------|-------------------|
| | March 31, 2012 | March 31, 2011 | March 31, 2010 | March 31, 2009 | March 31, 2008 |
| Government of India (GOI) bond yield | 8.57% | 7.98% | 7.83% | 7.01% | 7.96% |
| Remaining term of maturity | 8 years | 7 years | 7 years | 6 years | 6 years |
| Expected guaranteed interest rate | 8.25% | 9.50% | 8.50% | 8.50% | 8.50% |

The company contributed \$49 million, \$44 million and \$36 million to the provident fund during the year ended March 31, 2012, 2011 and 2010, respectively.

Provident fund contributions have been apportioned between cost of sales, selling and marketing expenses and administrative expenses on the basis of direct employee cost as follows:

| | (Dollars in millions) | | |
|--------------------------------|-----------------------|------|------|
| | Year ended March 31, | | |
| | 2012 | 2011 | 2010 |
| Cost of sales | \$44 | \$38 | \$32 |
| Selling and marketing expenses | 4 | 4 | 2 |
| Administrative expenses | 1 | 2 | 2 |
| | \$49 | \$44 | \$36 |

2.12.4 Employee benefit costs include:

| | (Dollars in millions) | | |
|----------------------------|-----------------------|---------|---------|
| | Year ended March 31, | | |
| | 2012 | 2011 | 2010 |
| Salaries and bonus | \$3,707 | \$3,158 | \$2,484 |
| Defined contribution plans | 35 | 28 | 23 |
| Defined benefit plans | 73 | 79 | 46 |
| Share-based compensation | — | — | — |
| | \$3,815 | \$3,265 | \$2,553 |

The employee benefit cost is recognized in the following line items in the consolidated statement of comprehensive income:

| | (Dollars in millions) | | |
|--------------------------------|-----------------------|---------|---------|
| | Year ended March 31, | | |
| | 2012 | 2011 | 2010 |
| Cost of sales | \$3,377 | \$2,850 | \$2,241 |
| Selling and marketing expenses | 283 | 268 | 198 |
| Administrative expenses | 155 | 147 | 114 |
| | \$3,815 | \$3,265 | \$2,553 |

2.13 Equity

Share capital and share premium

The Company has only one class of shares referred to as equity shares having a par value of \$0.16. The amount received in excess of the par value has been classified as share premium. Additionally, share-based compensation recognized in net profit in the consolidated statement of comprehensive income is credited to share premium.

2,833,600 shares were held by controlled trusts, each as of March 31, 2012, 2011 and 2010.

Retained earnings

Retained earnings represent the amount of accumulated earnings of the Company.

Other components of equity

Other components of equity consist of currency translation and fair value changes on available-for-sale financial assets.

The company's objective when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value. In order to maintain or achieve an optimal capital structure, the company may adjust the amount of dividend payment, return capital to shareholders, issue new shares or buy back issued shares. As of March 31, 2012, the company had only one class of equity shares and had no debt. Consequent to the above capital structure there are no externally imposed capital requirements.

The rights of equity shareholders are set out below.

2.13.1 Voting

Each holder of equity shares is entitled to one vote per share. The equity shares represented by American Depositary Shares (ADS) carry similar rights to voting and dividends as the other equity shares. Each ADS represents one underlying equity share.

2.13.2 Dividends

The company declares and pays dividends in Indian rupees. Indian law mandates that any dividend be declared out of accumulated distributable profits only after the transfer to a general reserve of a specified percentage of net profit computed in accordance with current regulations. Section 205 (2A) of the Indian Companies Act 1956 (the Act) along with the Companies (Transfer of Profits to Reserves) Rules, 1975 and Companies (Declaration of Dividend out of Reserves) Rules, 1975, provide that certain conditions must be satisfied prior to the declaration of dividends. These conditions relate to the transfer of profits for that year to the company's general reserves, and in the event of inadequacy of profits, a company must comply with conditions relating to the percentage of dividend that can be declared and minimum reserve balances that need to be maintained by the company.

The remittance of dividends outside India is governed by Indian law on foreign exchange and is subject to applicable taxes.

Consequent to the requirements of the Act, the company has transferred \$144 million, \$481 million and \$45 million, to general reserves during the year ended March 31, 2012, March 31, 2011 and March 31, 2010, respectively. As of March 31, 2012 and March 31, 2011 the company has \$1,446 million and \$1,302 million, respectively, in its general reserves.

The amount of per share dividend recognized as distributions to equity shareholders for the year ended March 31, 2012, 2011 and 2010 was \$0.76 (35.00), \$1.22 (55.00) and \$0.48(23.50), respectively.

The Board of Directors, in their meeting on April 13, 2012, proposed a final dividend of approximately \$0.43 per equity share (22 per equity share) and a special dividend, recognizing ten years of Infosys BPO's operations, of approximately \$0.20 per equity share (10 per equity share). The proposal is subject to the approval of shareholders at the Annual General Meeting to be held on June 09, 2012, and if approved, would result in a cash outflow of

approximately \$420 million, inclusive of corporate dividend tax of \$59 million.

2.13.3 Liquidation

In the event of liquidation of the company, the holders of shares shall be entitled to receive any of the remaining assets of the company, after distribution of all preferential amounts. However, no such preferential amounts exist currently, other than the amounts held by irrevocable controlled trusts. The amount that would be distributed to the shareholders in the event of liquidation of the company would be in proportion to the number of equity shares held by the shareholders. For irrevocable controlled trusts, the corpus would be settled in favor of the beneficiaries.

2.13.4 Share options

There are no voting, dividend or liquidation rights to the holders of options issued under the company's share option plans.

As of March 31, 2012 and 2011, the company had 11,683 and 98,790 number of shares reserved for issue under the employee stock option plans, respectively.

2.14 Other income

Other income consists of the following:

(Dollars in millions)

| | Year ended March 31, | | |
|---|----------------------|-------|-------|
| | 2012 | 2011 | 2010 |
| Interest income on deposits and certificates of deposit | \$374 | \$250 | \$164 |
| Exchange gains/ (losses) on forward and options contracts | (57) | 13 | 63 |
| Exchange gains/ (losses) on translation of other assets and liabilities | 70 | (4) | (57) |
| Income from available-for-sale financial assets/ investments | 6 | 5 | 34 |
| Others | 4 | 3 | 5 |
| | \$397 | \$267 | \$209 |

2.15 Operating leases

The company has various operating leases, mainly for office buildings, that are renewable on a periodic basis. Rental expense for operating leases was \$40 million, \$33 million and \$26 million for the year ended March 31, 2012, 2011 and 2010, respectively.

The schedule of future minimum rental payments in respect of non-cancellable operating leases is set out below:

(Dollars in millions)

| | As of | |
|---|----------------|----------------|
| | March 31, 2012 | March 31, 2011 |
| Within one year of the balance sheet date | \$31 | \$25 |
| Due in a period between one year and five years | \$55 | \$56 |
| Due after five years | \$15 | \$16 |

The operating lease arrangements extend up to a maximum of ten years from their respective dates of inception, and relate to rented overseas premises. Some of these lease agreements have price escalation clauses.

2.16 Employees' Stock Option Plans (ESOP)

1998 Employees Stock Option Plan (the 1998 Plan): The company's 1998 Plan provides for the grant of non-statutory share options and incentive share options to employees of the company. The establishment of the 1998 Plan was approved by the Board of Directors in December 1997 and by the shareholders in January 1998. The Government of India has approved the 1998 Plan, subject to a limit of 11,760,000 equity shares representing 11,760,000 ADS to be issued under the 1998 Plan. All options granted under the 1998 Plan are exercisable for equity shares represented by ADSs. The options under the 1998 Plan vest over a period of one through four years and expire five years from the date of completion of vesting. The 1998 Plan is administered by a compensation committee comprising four members, all of whom are independent members of the Board of Directors. The term of the 1998 Plan ended on January 6, 2008, and consequently no further shares will be issued to employees under this plan.

1999 Employees Stock Option Plan (the 1999 Plan): In fiscal 2000, the company instituted the 1999 Plan. The Board of Directors and shareholders approved the 1999 Plan in June 1999. The 1999 Plan provides for the issue of 52,800,000 equity shares to employees. The 1999 Plan is administered by a compensation committee comprising four members, all of whom are independent members of the Board of Directors. Under the 1999 Plan, options will be issued to employees at an exercise price, which shall not be less than the fair market value (FMV) of the underlying equity shares on the date of grant. Under the 1999 Plan, options may also be issued to employees at exercise prices that are less than FMV only if specifically approved by the shareholders of the company in a general meeting. All options under the 1999 Plan are exercisable for equity shares. The options under the 1999 Plan vest over a period of one through six years, although accelerated vesting based on performance conditions is provided in certain instances and expire over a period of 6 months through five years from the date of completion of vesting. The term of the 1999 plan ended on June 11, 2009, and consequently no further shares will be issued to employees under this plan.

The activity in the 1998 Plan and 1999 Plan during the year ended March 31, 2012, 2011 and 2010 are set out below.

| | Year ended March 31, 2012 | | Year ended March 31, 2011 | | Year ended March 31, 2010 | |
|------------------------------|-------------------------------|---------------------------------|-------------------------------|---------------------------------|-------------------------------|---------------------------------|
| | Shares arising out of options | Weighted average exercise price | Shares arising out of options | Weighted average exercise price | Shares arising out of options | Weighted average exercise price |
| 1998 Plan: | | | | | | |
| Outstanding at the beginning | 50,070 | \$15 | 242,264 | \$14 | 916,759 | \$18 |
| Forfeited and expired | (480) | \$18 | (3,519) | \$16 | (60,424) | \$33 |
| Exercised | (49,590) | \$15 | (188,675) | \$13 | (614,071) | \$18 |
| Outstanding at the end | – | – | 50,070 | \$15 | 242,264 | \$14 |
| Exercisable at the end | – | – | 50,070 | \$15 | 242,264 | \$14 |
| 1999 Plan: | | | | | | |
| Outstanding at the beginning | 48,720 | \$22 | 204,464 | \$19 | 925,806 | \$25 |
| Forfeited and expired | (8,185) | \$9 | (18,052) | \$21 | (340,264) | \$41 |
| Exercised | (28,852) | \$13 | (137,692) | \$18 | (381,078) | \$17 |
| Outstanding at the end | 11,683 | \$42 | 48,720 | \$22 | 204,464 | \$19 |
| Exercisable at the end | 7,429 | \$42 | 40,232 | \$16 | 184,759 | \$16 |

The weighted average share price of options exercised under the 1998 Plan during the year ended March 31, 2012, 2011 and 2010 were \$58.18, \$64.78 and \$47.78, respectively. The weighted average share price of options exercised under the 1999 Plan during the year ended March 31, 2012, 2011 and 2010 were \$56.18, \$63.72 and \$46.83, respectively.

Edgar Filing: Infosys Ltd - Form 20-F

The cash expected to be received upon the exercise of vested options for 1999 Plan is less than \$1 million.

The following table summarizes information about share options outstanding and exercisable as of March 31, 2012:

| Range of exercise prices per share (\$) | Options outstanding | | | Options exercisable | | |
|---|--|---------------------------------|---------------------------------|--|---------------------------------|---------------------------------|
| | No. of shares arising out of contractual options | Weighted average remaining life | Weighted average exercise price | No. of shares arising out of contractual options | Weighted average remaining life | Weighted average exercise price |
| 1998 Plan: | | | | | | |
| 4-15 | - | - | - | - | - | - |
| 16-30 | - | - | - | - | - | - |
| | - | - | - | - | - | - |
| 1999 Plan: | | | | | | |
| 5-15 | - | - | - | - | - | - |
| 16-53 | 11,683 | 0.71 | \$42 | 7,429 | 0.71 | \$42 |
| | 11,683 | 0.71 | \$42 | 7,429 | 0.71 | \$42 |

The following table summarizes information about share options outstanding and exercisable as of March 31, 2011:

| Range of exercise prices per share (\$) | Options outstanding | | | Options exercisable | | |
|---|--|---------------------------------|---------------------------------|--|---------------------------------|---------------------------------|
| | No. of shares arising out of contractual options | Weighted average remaining life | Weighted average exercise price | No. of shares arising out of contractual options | Weighted average remaining life | Weighted average exercise price |
| 1998 Plan: | | | | | | |
| 4-15 | 24,680 | 0.73 | \$13 | 24,680 | 0.73 | \$13 |
| 16-30 | 25,390 | 0.56 | \$17 | 25,390 | 0.56 | \$17 |
| | 50,070 | 0.65 | \$15 | 50,070 | 0.65 | \$15 |
| 1999 Plan: | | | | | | |
| 5-15 | 33,759 | 0.65 | \$10 | 33,759 | 0.65 | \$10 |
| 16-53 | 14,961 | 1.71 | \$48 | 6,473 | 1.71 | \$48 |
| | 48,720 | 0.97 | \$22 | 40,232 | 0.82 | \$16 |

The share-based compensation recorded for each of the years ended March 31, 2012 and 2011, was nil. The share-based compensation recorded for the year ended March 31, 2010 was less than \$1 million.

2.17 Income taxes

Income tax expense in the consolidated statement of comprehensive income comprises:

| | (Dollars in millions) | | |
|-----------------------|-----------------------|--------|---------|
| | Year ended March 31, | | |
| | 2012 | 2011 | 2010 |
| Current taxes | | | |
| Domestic taxes | \$630 | \$452 | \$339 |
| Foreign taxes | 54 | 124 | 98 |
| | \$684 | \$576 | \$437 |
| Deferred taxes | | | |
| Domestic taxes | \$12 | \$(21) | \$(103) |

Edgar Filing: Infosys Ltd - Form 20-F

| | | | |
|--------------------|-------|--------|--------|
| Foreign taxes | (2) | (8) | 22 |
| | \$10 | \$(29) | \$(81) |
| Income tax expense | \$694 | \$547 | \$356 |

During the year ended March 31, 2012, the company has, across its tax jurisdictions based on reassessment of circumstances at the reporting date, made additional provisions and reversed provisions no longer considered necessary on its income tax positions. The net effect of such additional provisions and reversals did not have a significant effect on the company's effective tax rate for fiscal 2012.

Entire deferred income tax for the year ended March 31, 2012 relates to origination and reversal of temporary differences and utilization of deferred tax assets on subsidiary losses upon the transfer of the assets and liabilities of Infosys Consulting Inc., to Infosys Limited. The entire deferred income tax for years ended March 31, 2011 and 2010 relates to origination and reversal of temporary differences.

For each of the years ended March 31, 2012 and 2011 a reversal of a deferred tax liability of \$1 million, relating to an available-for-sale financial asset has been recognized in other comprehensive income. A deferred tax liability of \$2 million relating to an available-for-sale financial asset has been recognized in other comprehensive income during the year ended March 31, 2010.

The company, as an Indian resident, is required to pay taxes in India on the Company's entire global income in accordance with Section 5 of the Indian Income Tax Act, 1961, which taxes are reflected as domestic taxes. The income on which domestic taxes are imposed are not restricted to the income generated from the "India" geographic segment. The geographical segment disclosures on revenue in note 2.20.2 are solely based on the location of customers and do not reflect the geographies where the actual delivery or revenue-related efforts occur. As such, amounts applicable to domestic income taxes and foreign income taxes will not necessarily correlate to the proportion of revenue generated from India and other geographical segments as per the geographic segment disclosure set forth in note 2.20.2.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

| | (Dollars in millions) | | |
|--|-----------------------|---------|---------|
| | Year ended March 31, | | |
| | 2012 | 2011 | 2010 |
| Profit before income taxes | \$2,410 | \$2,046 | \$1,669 |
| Enacted tax rates in India | 32.45% | 33.22% | 33.99% |
| Computed expected tax expense | \$782 | \$680 | \$567 |
| Tax effect due to non-taxable income for Indian tax purposes | (202) | (173) | (223) |
| Overseas taxes | 96 | 88 | 83 |
| Tax reversals, overseas and domestic | (22) | (52) | (103) |
| Tax effect due to set off provisions on brought forward losses | - | - | (22) |
| Effect of exempt income | (2) | (1) | (10) |
| Interest and penalties | - | - | 5 |
| Effect of unrecognized deferred tax assets | 8 | 4 | 3 |
| Effect of differential foreign tax rates | (3) | (2) | (3) |
| Effect of non-deductible expenses | 3 | 1 | 5 |
| Temporary difference related to branch profits | 13 | - | 52 |
| Taxes on dividend received from subsidiary | 20 | - | - |
| Others | 1 | 2 | 2 |
| Income tax expense | \$694 | \$547 | \$356 |

Edgar Filing: Infosys Ltd - Form 20-F

The applicable Indian statutory tax rate for fiscal 2012, 2011 and 2010 is 32.45%, 33.22% and 33.99%, respectively. The decrease in the applicable statutory tax rate in fiscal 2012 is consequent to changes made in the Finance Act 2011.

The foreign tax expense is due to income taxes payable overseas, principally in the United States of America. The company benefits from certain significant tax incentives provided to software firms under Indian tax laws. These incentives include those for facilities set up under the Special Economic Zones Act, 2005 and software development facilities designated as "Software Technology Parks" (the STP Tax Holiday). The STP Tax Holiday was available for ten consecutive years, beginning from the financial year when the unit started producing computer software or April 1, 1999, whichever is earlier. The Indian Government, through the Finance Act, 2009, had extended the tax holiday for the STP units until fiscal 2011. The tax holiday for all of our STP units expired as of March 31, 2011. Under the Special Economic Zones Act, 2005 scheme, units in designated special economic zones which begin providing services on or after April 1, 2005 are eligible for a deduction of 100 percent of profits or gains derived from the export of services for the first five years from commencement of provision of services and 50 percent of such profits or gains for a further five years. Certain tax benefits are also available for a further period of five years subject to the unit meeting defined conditions.

As a result of these tax incentives, a portion of our pre-tax income has not been subject to significant tax in recent years. These tax incentives resulted in a decrease in our income tax expense of \$202 million, \$173 million and \$223 million for fiscal 2012, 2011 and 2010, respectively, compared to the effective tax amounts that we estimate we would have been required to pay if these incentives had not been available. The per share effect of these tax incentives for fiscal 2012, 2011 and 2010 was \$0.35, \$0.30, and \$0.39, respectively.

The company is subject to a 15% Branch Profit Tax (BPT) in the U.S. to the extent its U.S. branch's net profit during the year is greater than the increase in the net assets of the U.S. branch during the fiscal year, computed in accordance with the Internal Revenue Code. As of March 31, 2012, Infosys' U.S. branch net assets amounted to approximately \$658 million. As of March 31, 2012, the Company has provided for branch profit tax of \$53 million for its U.S. branch, as the company estimates that these branch profits are expected to be distributed in the foreseeable future.

Deferred income tax liabilities have not been recognized on temporary differences amounting to \$316 million and \$308 million as of March 31, 2012 and March 31, 2011, respectively, associated with investments in subsidiaries and branches as it is probable that the temporary differences will not reverse in the foreseeable future.

The gross movement in the current income tax asset/ (liability) for the year ended March 31, 2012, 2011 and 2010 is as follows:

| | (Dollars in millions) | | |
|--|-----------------------|--------|--------|
| | Year ended March 31, | | |
| | 2012 | 2011 | 2010 |
| Net current income tax asset/ (liability) at the beginning | \$40 | \$(13) | \$(61) |
| Translation differences | (15) | (1) | (3) |
| Income tax benefit arising on exercise of stock options | – | 3 | 2 |
| Minimum alternate tax credit utilized(1) | – | – | 116 |
| Income tax paid | 656 | 627 | 370 |
| Current income tax expense (Refer Note 2.17) | (684) | (576) | (437) |
| Net current income tax asset/ (liability) at the end | \$(3) | \$40 | \$(13) |

(1) Minimum alternate tax of \$61 million was recognised and utilized during the year ended March 31, 2010.

Edgar Filing: Infosys Ltd - Form 20-F

The tax effects of significant temporary differences that resulted in deferred income tax assets and liabilities are as follows:

| | (Dollars in millions) | |
|--|-----------------------|----------------|
| | As of | |
| | March 31, 2012 | March 31, 2011 |
| Deferred income tax assets | | |
| Property, plant and equipment | \$58 | \$58 |
| Minimum alternate tax credit carry-forwards | 11 | 14 |
| Computer software | 7 | 5 |
| Trade receivables | 4 | 5 |
| Compensated absences | 25 | 23 |
| Accumulated subsidiary losses | – | 9 |
| Accrued compensation to employees | 6 | 6 |
| Others | 5 | 6 |
| Total deferred income tax assets | \$115 | \$126 |
| Deferred income tax liabilities | | |
| Temporary difference related to branch profits | \$(53) | \$(40) |
| Available-for-sale financial asset | – | (1) |
| Intangibles | (3) | – |
| Total deferred income tax liabilities | \$(56) | \$(41) |
| Deferred income tax assets to be recovered after 12 months | \$88 | \$88 |
| Deferred income tax assets to be recovered within 12 months | 27 | 38 |
| Total deferred income tax assets | \$115 | \$126 |
| Deferred income tax liability to be settled after 12 months | \$(42) | (14) |
| Deferred income tax liability to be settled within 12 months | (14) | (27) |
| Total deferred income tax liabilities | \$(56) | \$(41) |

Deferred tax assets and deferred tax liabilities have been offset wherever the company has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

The gross movement in the deferred income tax account for the year ended March 31, 2012, 2011 and 2010 is as follows:

| | (Dollars in millions) | | |
|--|-----------------------|------|-------|
| | Year ended March 31, | | |
| | 2012 | 2011 | 2010 |
| Net deferred income tax asset at the beginning | \$85 | \$52 | \$81 |
| Translation differences | (16) | 3 | 8 |
| Credits relating to temporary differences | (10) | 29 | 81 |
| Minimum alternate tax credit utilized(1) | – | – | (116) |

| | | | |
|--|------|------|------|
| Temporary difference on available-for-sale financial asset | 1 | 1 | (2) |
| Net deferred income tax asset at the end | \$60 | \$85 | \$52 |

(1) Minimum alternate tax of \$61 million was recognised and utilized during the year ended March 31, 2010

The debits/credits relating to temporary differences during the year ended March 31, 2012 are primarily on account of compensated absences, accrued compensation to employees, property, plant and equipment and utilization of deferred tax assets on subsidiary losses upon transfer of assets and liabilities of Infosys Consulting Inc., to Infosys Limited. The credits relating to temporary differences during the year ended March 31, 2011 and 2010 are primarily on account of compensated absences, accrued compensation to employees, property, plant and equipment.

Pursuant to the enacted changes in the Indian Income Tax Laws effective April 1, 2007, a Minimum Alternate Tax (MAT) had been extended to income in respect of which a deduction could be claimed under section 10A of the Income Tax Act for STP units. Further, the Finance Act, 2011, which became effective April 1, 2011, extended MAT to SEZ operating and SEZ developer units also. Consequent to the enacted changes, Infosys BPO has calculated its tax liability for current domestic taxes after considering MAT. The excess tax paid under MAT provisions being over and above regular tax liability can be carried forward and set off against future tax liabilities computed under regular tax provisions. Infosys BPO was required to pay MAT, and, accordingly, a deferred income tax asset of \$11 million and \$14 million has been recognized on the balance sheet of the company as of March 31, 2012 and March 31, 2011, respectively, which can be carried forward for a period of ten years from the year of recognition.

The company has received demands from the Indian income tax authorities for payments of additional taxes totalling \$214 million, including interest of \$62 million upon completion of their tax review for fiscal 2005, fiscal 2006, fiscal 2007 and fiscal 2008. The tax demands are mainly on account of disallowance of a portion of the deduction claimed by the company under Section 10A of the income tax Act. The deductible amount is determined by the ratio of export turnover to total turnover. The disallowance arose from certain expenses incurred in foreign currency being reduced from export turnover but not reduced from total turnover. The tax demand for fiscal 2007 and fiscal 2008 also includes disallowance of portion of profit earned outside India from the STP units and disallowance of profits earned from SEZ units. The matter for fiscal 2005, fiscal 2006 and fiscal 2007 is pending before the Commissioner of Income tax (Appeals) Bangalore.

The company is contesting the demand and management, including its tax advisors, believes that its position will likely be upheld in the appellate process. Management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of operations.

2.18 Earnings per equity share

The following is a reconciliation of the equity shares used in the computation of basic and diluted earnings per equity share:

| | Year ended March 31, | | |
|---|----------------------|-------------|-------------|
| | 2012 | 2011 | 2010 |
| Basic earnings per equity share - weighted average number of equity shares outstanding(1) | 571,365,494 | 571,180,050 | 570,475,923 |
| Effect of dilutive common equivalent shares - share options outstanding | 30,648 | 188,308 | 640,108 |
| Diluted earnings per equity share - weighted average number of equity shares and common equivalent shares outstanding | 571,396,142 | 571,368,358 | 571,116,031 |

(1) Excludes treasury shares

For the year ended March 31, 2012, 2011 and 2010 there were no outstanding options to purchase equity shares which had an anti-dilutive effect.

| | 2012 | 2011 | 2010 |
| Salaries and other employee benefits | \$10 | \$7 | \$7 |

2.20 Segment reporting

IFRS 8 establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. The company's operations predominantly relate to providing end-to-end business solutions that enable clients to enhance business performance, delivered to customers globally operating in various industry segments. Effective the quarter ended June 30, 2011, the company reorganized its business to increase its client focus. Consequent to the internal reorganization there were changes effected in the reportable segments based on the "management approach" as defined in IFRS 8, Operating Segments. The Chief Operating Decision Maker evaluates the company's performance and allocates resources based on an analysis of various performance indicators by industry classes and geographic segmentation of customers. Accordingly, segment information has been presented both along industry classes and geographic segmentation of customers. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the significant accounting policies.

Industry segments for the company are primarily financial services and insurance (FSI) comprising enterprises providing banking, finance and insurance services, manufacturing enterprises (MFG), enterprises in the energy, utilities and telecommunication services (ECS) and retail, logistics, consumer product group, life sciences and health care enterprises (RCL). Geographic segmentation is based on business sourced from that geographic region and delivered from both on-site and off-shore. North America comprises the United States of America, Canada and Mexico, Europe includes continental Europe (both the east and the west), Ireland and the United Kingdom, and the Rest of the World comprising all other places except those mentioned above and India. Consequent to the above change in the composition of reportable segments, the prior period comparatives have been restated.

Revenue and identifiable operating expenses in relation to segments are categorized based on items that are individually identifiable to that segment. Allocated expenses of segments include expenses incurred for rendering services from the company's offshore software development centers and on-site expenses, which are categorized in relation to the associated turnover of the segment. Certain expenses such as depreciation, which form a significant component of total expenses, are not specifically allocable to specific segments as the underlying assets are used interchangeably. Management believes that it is not practical to provide segment disclosures relating to those costs and expenses, and accordingly these expenses are separately disclosed as "unallocated" and adjusted against the total income of the company.

Assets and liabilities used in the company's business are not identified to any of the reportable segments, as these are used interchangeably between segments. Management believes that it is currently not practicable to provide segment disclosures relating to total assets and liabilities since a meaningful segregation of the available data is onerous.

Geographical information on revenue and industry revenue information is collated based on individual customers invoiced or in relation to which the revenue is otherwise recognized.

2.20.3 Significant clients

No client individually accounted for more than 10% of the revenues for the year ended March 31, 2012, 2011 and, 2010.

2.21 Litigation

On May 23, 2011, we received a subpoena from a grand jury in the United States District Court for the Eastern District of Texas. The subpoena requires that we provide to the grand jury certain documents and records related to our sponsorships for, and uses of, B1 business visas. We are complying with the subpoena. In connection with the subpoena, during a recent meeting with the United States Attorney's Office for the Eastern District of Texas, we were advised that we and certain of our employees are targets of the investigation. We intend to have further discussions with the U.S. Attorney's Office regarding this matter, however, we cannot predict the final outcome of the investigation by, or discussions with, the U.S. Attorney's Office.

In addition, the U.S. Department of Homeland Security (DHS or the Department) is undertaking a review of our employer eligibility verifications on Form I-9 with respect to our employees working in the United States. In connection with this review, we have been advised that the DHS has found errors in a significant percentage of our Forms I-9 that the Department has reviewed. In the event that the DHS ultimately concludes that our Forms I-9 contained errors, the Department would likely impose fines and penalties on us. At this time, we cannot predict the final outcome of the review by, or the discussions with, the DHS or other governmental authority regarding the review of our Forms I-9.

In light of the fact that, among other things, the foregoing investigation and review are ongoing and we remain in discussions with the U.S. Attorney's Office regarding these matters, we are unable to make an estimate of the amount or range of loss that we could incur from unfavorable outcomes in such matters.

In the event that any government undertakes any actions which limit any visa program that we utilize, or imposes sanctions, fines or penalties on us or our employees, this could materially and adversely affect our business and results of operations.
