Note 1 – NATURE OF BUSINESS

Lifeway Foods, Inc. (The "Company") commenced operations in February 1986 and incorporated under the laws of the state of Illinois on May 19, 1986. The Company's principal business activity is the production of dairy products. Specifically, the Company produces Kefir, a drinkable product which is similar to but distinct from yogurt, in several flavors sold under the name "Lifeway's Kefir;" a plain farmer's cheese sold under the name "Lifeway's Farmer's Cheese;" a fruit sugar-flavored product similar in consistency to cream cheese sold under the name of "Sweet Kiss;" and a dairy beverage, similar to Kefir, with increased protein and calcium, sold under the name "Basics Plus." The Company also produces several soy-based products under the name "Soy Treat" and a vegetable-based seasoning under the name "Golden Zesta." The Company currently distributes its products throughout the Chicago Metropolitan area and various cities in the East Coast through local food stores. In addition, the products are sold throughout the United States and Ontario, Canada by distributors. The Company also distributes some of its products to Eastern Europe.

Note 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies applied in the preparation of the accompanying financial statements follows:

Principles of consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, LFI Enterprises, Inc., Helios Nutrition, Ltd., Pride of Main Street, L.L.C., Starfruit, L.L.C. and Fresh Made, Inc. All significant intercompany accounts and transactions have been eliminated.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates made in preparing the consolidated financial statements include the allowance for doubtful accounts, the valuation of goodwill, intangible assets and deferred taxes.

Revenue Recognition

Sales represent sales of Company produced dairy products that are recorded at the time of shipment and the following four criteria have been met: (i) The product has been shipped and the Company has no significant remaining obligations; (ii) Persuasive evidence of an agreement exists; (iii) The price to the buyer is fixed or determinable and (iv) Collection is probable. In addition, shipping costs invoiced to the customers are included in net sales and the related cost in cost of sales.

Cash and cash equivalents

All highly liquid investments purchased with an original maturity of three months or less are considered to be cash equivalents.

The Company maintains cash deposits at several institutions located in the greater Chicago, Illinois and Philadelphia, Pennsylvania metropolitan areas.

Note 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Bank balances of amounts reported by financial institutions are categorized as follows:

	June 30, 2009	June 30, 2008	December 31, 2008
Amounts insured	$ 1,411,079	$ 251,589	$ 847,711
Uninsured and uncollateralized amounts	402,977	889,463	—
Total bank balances	$ 1,814,056	$ 1,141,052	$ 847,711

Marketable securities
All investment securities are classified as available-for-sale, are carried at fair value or quoted market prices. Unrealized gains and losses on available-for-sale securities are reported as a separate component of stockholders' equity. Amortization, accretion, interest and dividends, realized gains and losses, and declines in value judged to be other-than-temporary on available-for-sale securities are recorded in other income. All of the Company's securities are subject to a periodic impairment evaluation. This evaluation depends on the specific facts and circumstances. Factors that we consider in determining whether an other-than-temporary decline in value has occurred include: the market value of the security in relation to its cost basis; the financial condition of the investee; and the intent and ability to retain the investment for a sufficient period of time to allow for possible recovery in the market value of the investment.

Accounts receivable
Credit terms are extended to customers in the normal course of business. The Company performs ongoing credit evaluations of its customers' financial condition and generally requires no collateral.

Accounts receivable are recorded at invoice amounts, and reduced to their estimated net realizable value by recognition of an allowance for doubtful accounts. The Company's estimate of the allowance for doubtful accounts is based upon historical experience, its evaluation of the current status of specific receivables, and unusual circumstances, if any. Accounts are considered past due if payment is not made on a timely basis in accordance with the Company's credit terms. Accounts considered uncollectible are charged against the allowance.

Inventories
Inventories are stated at the lower of cost or market, cost being determined by the first-in, first-out method.

Property and equipment
Property and equipment are stated at depreciated cost or fair value where depreciated cost is not recoverable. Depreciation is computed using the straight-line method. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in income for the period. The cost of maintenance and repairs is charged to income as incurred; significant renewals and betterments are capitalized.

Note 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Property and equipment are being depreciated over the following useful lives:

Category	Years
Buildings and improvements	31 and 39
Machinery and equipment	5 – 12
Office equipment	5 – 7
Vehicles	5

Intangible assets
The Company accounts for intangible assets at historical cost. Intangible assets acquired in a business combination are recorded under the purchase method of accounting at their estimated fair values at the date of acquisition. Goodwill represents the excess purchase price over the fair value of the net tangible and other intangible assets acquired. Goodwill is not amortized and is reviewed for impairment at least annually. Brand assets represent the fair value of brands acquired. Brand assets have an indefinite life, therefore are not amortized, rather are reviewed periodically for impairment. The Company amortizes other intangible assets over their estimated useful lives, as disclosed in the table below.

The Company reviews intangible assets and their related useful lives at least once a year to determine if any adverse conditions exist that would indicate the carrying value of these assets may not be recoverable. The Company conducts more frequent impairment assessments if certain conditions exist, including: a change in the competitive landscape, any internal decisions to pursue new or different strategies, a loss of a significant customer, or a significant change in the market place including changes in the prices paid for the Company's products or changes in the size of the market for the Company's products.

If the estimate of an intangible asset's remaining useful life is changed, the remaining carrying amount of the intangible asset is amortized prospectively over the revised remaining useful life.

Intangible assets are being amortized over the following useful lives:

Category	Years
Recipes	4
Customer lists and other customer related intangibles	7-10
Lease agreement	7
Trade names	15
Formula	10
Customer relationships	12

Note 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Income taxes
Deferred income taxes arise from temporary differences resulting from income and expense items reported for financial accounting and tax purposes in different periods. Deferred taxes are classified as current or non-current, depending on the classification of the assets and liabilities to which they relate. Deferred taxes arising from temporary differences that are not related to an asset or liability are classified as current or non-current depending on the periods in which the temporary differences are expected to reverse.

The principal sources of temporary differences are different depreciation and amortization methods for financial statement and tax purposes, unrealized gains or losses related to marketable securities, capitalization of indirect costs for tax purposes, and the recognition of an allowance for doubtful accounts for financial statement purposes.

As of January 1, 2007, the Company adopted FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes — an interpretation of FASB Statement No. 109" (FIN 48), which clarifies the accounting and disclosure for uncertainty in tax positions, as defined. Pursuant to FIN 48, the Company has analyzed filing positions in all of the federal and state jurisdictions where it is required to file income tax returns, as well as all open tax years in these jurisdictions. The only periods subject to examination for the Company's federal return are the 2004 through 2007 tax years. The Company believes that its income tax filing positions and deductions would be sustained on audit and does not anticipate any adjustments that would result in a material change to its financial position. Therefore, no reserves for uncertain income tax positions have been recorded pursuant to FIN 48. In addition, the Company did not record a cumulative effect adjustment related to the adoption of FIN 48.

The Company's policy for recording interest and penalties associated with audits is to record such items as a component of income before taxes. There were no such items during the periods covered in this report.

Treasury stock
Treasury stock is recorded using the cost method.

Advertising costs
The Company expenses advertising costs as incurred. During the year ended December 31, 2008 and for the six months ended June 30, 2009 and 2008, approximately $1,530,207, $780,116 and $893,710 of such costs respectively, were expensed.

Earning per common share
Earnings per common share were computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding during the period. For the six months ended June 30, 2009 and 2008 and the year ended December 31, 2008, diluted and basic earnings per share were the same, as the effect of dilutive securities options outstanding was not significant.

Note 3 – ACQUISITION

On February 6, 2009, Lifeway Foods, Inc., a Illinois corporation ("Lifeway") completed a Stock Purchase Agreement (the "Stock Agreement") by and among Lifeway, Ilya Mandel, an individual and Michael Edelson, an individual (each a "Seller" and collectively "Sellers").

Lifeway purchased from Sellers all of the issued and outstanding stock (the "Shares") of Fresh Made, Inc., a Pennsylvania corporation ("Fresh"). The consideration for the Shares was an aggregate of $8,048,000, less certain offsets for any selling expenses in excess of certain limits set forth in the Stock Agreement and other payments and funded debt all as set forth in the Stock Agreement, a note in the principal amount of $2,735,000, due on February 6, 2011, 128,948 shares of common stock of Lifeway valued at a total of $980,000 ("Lifeway's Common Stock"), the cancellation of a loan in the principal amount of $265,000 and not more than $98,000 in funds held in Fresh's two accounts with Vist Financial Corp. The issuance of Lifeway's Common Stock was exempted from registration pursuant to Section 4(2) of the Securities Act of 1933, as amended.

Also on February 6, 2009, Lifeway entered into and consummated a Real Property Purchase Agreement (the "Real Property Agreement") by and among Sellers and Lifeway. Pursuant to the Real Property Agreement, Lifeway acquired 1.1355 acres of land in Philadelphia, PA (the "Property") from Sellers. The consideration for the Property was approximately $2,000,000.

The acquisition was accounted for using the purchase accounting method of accounting, and accordingly, the purchase price was allocated to assets acquired and the liabilities assumed based on the fair value as of the merger date. Acquisition costs for legal and professional fees have been included in General and Administrative costs.

The estimated fair value of assets acquired, including the real property, and liabilities assumed consisted of the following:

Cash and cash equivalents	$ 226,000
Accounts receivable (contractual amounts totaling $546,000)	546,000
Other current assets	361,000
Building and other fixed assets	2,617,000
Customer list	4,000,000
Non amortizable goodwill and brand asset	6,739,000
Current liabilities	(461,000)
Total fair value of assets acquired and liablities assumed	$ 14,028,000

For the year ended December 31, 2008, we recorded other than temporary impairments related to investments in marketable securities in certain investments of $958,879. The impairments recognized relate to securities that were in an unrealized loss position at December 31, 2008 that were subsequently sold and equity holdings that we consider other than temporarily impaired due to the recent performance of the issuers of those securities.

Equities, Mutual Funds, Corporate Bonds and Government Agency Obligations - The Company's investments in equity securities, mutual funds, corporate bonds and government agency obligations consist of investments in common stock, preferred stock and debt securities of companies in various industries. The Company evaluated the near-term prospects of the issuer in relation to the severity and duration of the impairment. Based on that evaluation and the Company's ability and intent to hold these investments for a reasonable period of time sufficient for a forecasted recovery of fair value, the Company does not consider any material investments to be other-than-temporarily impaired at June 30, 2009.

Preferred Securities - The Company's investments in preferred securities consist of investments in preferred stock of companies in various industries. The Company evaluated the continuing performance of the securities, the credit worthiness of the issuers as well as the near-term prospects of the security in relation to the severity and duration of the impairment. Based on that evaluation and the Company's ability and intent to hold these investments for a reasonable period of time sufficient for a forecasted recovery of fair value, the Company does not consider any material investments to be other-than-temporarily impaired at June 30, 2009.

On June 13, 2008, Lifeway's Board of Directors approved awards of an aggregate amount of 10,500 shares to be awarded under its Employee and Consulting Services and Compensation Plan to certain key employees and consultants for services rendered to the Company. The stock awards were made on June 13, 2008 and have vesting periods of one year. The expense for the awards is measured as of July 1, 2008 at $11.87 per share for 10,500 shares, or a total stock award expense of $124,635. This expense will be recognized as the stock awards vest in 12 equal portions of $10,386, or 875 shares per month for one year.

On May 18, 2007, Lifeway's Board of Directors approved awards of an aggregate amount of 8,400 shares to be awarded under its Employee and Consulting Services and Compensation Plan to certain key employees and consultants for services rendered to the Company. The stock awards were made on June 1, 2007 and have vesting periods of one year. The expense for the awards is measured as of June 1, 2007 at $9.90 per share for 8,400 shares, or a total stock award expense of $83,160. This expense will be recognized as the stock awards vest in 12 equal portions of $6,930, or 700 shares per month for one year.

Note 13 – FAIR VALUE MEASUREMENTS

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements." SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP, and expands disclosures about fair value measurements. The Statement clarifies that the exchange price is the price in an orderly transaction between market participants to sell an asset or transfer a liability at the measurement date. The statement emphasizes that fair value is a market-based measurement and not an entity-specific measurement. The statement establishes a fair value hierarchy used in fair value measurements and expands the required disclosures of assets and liabilities measured at fair value.

Level 1 – Inputs use quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.

Level 2 – Inputs use other inputs that are observable, either directly or indirectly. These inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 – Inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Company's assessment of the significance of particular inputs to these fair measurements requires judgment and considers factors specific to each asset or liability.

Note 14 – RECENT ACCOUNTING PRONOUNCEMENTS

In December 2007, the FASB issued SFAS No. 141(R) "Business Combinations." SFAS No. 141(R) states that all business combinations (whether full, partial or step acquisitions) will result in all assets and liabilities of an acquired business being recorded at their acquisition date fair values. Earn-outs and other forms of contingent consideration and certain acquired contingencies will also be recorded at fair value at the acquisition date. SFAS No. 141(R) also states acquisition costs will generally be expensed as incurred; in-process research and development will be recorded at fair value as an indefinite-lived intangible asset at the acquisition date; changes in deferred tax asset valuation allowances and income tax uncertainties after the acquisition date generally will affect income tax expense; and restructuring costs will be expensed in periods after the acquisition date. This statement is effective for financial statements issued for fiscal years beginning after December 15, 2008. The Company will apply the provisions of this standard to any acquisitions that it completes on or after December 15, 2008.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51." This statement amends ARB No. 51 to establish accounting and reporting standards for the noncontrolling interest (minority interest) in a subsidiary and for the deconsolidation of a subsidiary. Upon its adoption, noncontrolling interests will be classified as equity in the consolidated balance sheets. This statement also provides guidance on a subsidiary deconsolidation as well as stating that entities need to provide sufficient disclosures that clearly identify and distinguish between the interests of the parent and the interests of the noncontrolling owners. This statement is effective for financial statements issued for fiscal years beginning after December 15, 2008. The adoption of this standard did not have a material impact on the Company's financial condition, results of operations or liquidity.

Note 14 – RECENT ACCOUNTING PRONOUNCEMENTS - Continued

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133" ("SFAS No. 161"). This statement requires enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS No. 161 also requires that objectives for using derivative instruments be disclosed in terms of underlying risk and accounting designation and requires cross-referencing within the footnotes. This statement also suggests disclosing the fair values of derivative instruments and their gains and losses in a tabular format. This statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The adoption of this standard did not have a material impact on the Company's financial condition, results of operations or liquidity.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Comparison of Quarter Ended June 30, 2009 to Quarter Ended June 30, 2008.

The following analysis should be read in conjunction with the unaudited financial statements of the Company and related notes included elsewhere in this quarterly report and the audited financial statements and Management's Discussion and Analysis contained in our Form 10-K, for the fiscal year ended December 31, 2008, and in the Management's Discussion and Analysis contained in our Form 10-Q, for the fiscal quarter ended March 31, 2009.

Results of Operations

Total consolidated group sales increased by $2,956,036, (approximately 26%) to $14,479,429 during the three month period ended June 30, 2009 from $11,523,393 during the same three month period in 2008. This increase is primarily attributable to increased sales and awareness of Lifeway's flagship line, Kefir, as well as ProBugs® Organic Kefir for kids. Additionally, Lifeway recorded revenues from its February 6, 2009 acquisition of Fresh Made Dairy. Included in the total group sales was $2,152,730 of revenue related to this acquisition and recorded during the second quarter 2009.

Cost of goods sold as a percentage of sales was approximately 58% during the second quarter 2009, compared to approximately 66% during the same period in 2008. The decrease was primarily attributable to the decreased cost of conventional milk, our largest raw material, and the cost of transportation and other petroleum based production supplies. Gross profit increased approximately 59% during the second quarter 2009, when compared with the same period in 2008.

Operating expenses as a percentage of sales were approximately 21% during the second quarter 2009, compared to approximately 20% during the same period in 2008. This increase is primarily attributable to the increase in professional fees related to the February 6, 2009 acquisition of Fresh Made Dairy and a 111% increase in amortization expense, a non cash expense, also related to the Fresh Made acquisition. Many of the acquisition related professional fees are non recurring expenses.

Total operating income increased by $1,608,486, (approximately 104%) to $3,154,647 during the second quarter 2009, from $1,546,161 during the same period in 2008.

Interest expense during the second quarter 2009 was $110,090 compared with interest expense of $68,969 during the same period a year ago. This higher interest expense is primarily attributable to the issuance of the note payable related to the February 6, 2009 Fresh Made acquisition. Notes payable are discussed in Note 9 of the Notes to Consolidated Financial Statements.

Total net income was $2,531,905 or $.15 per share for the second quarter ended June 30, 2009, compared with $911,718 or $.05 per share in the same period in 2008. This represents a 178% increase in net income from the second quarter 2009 when compared to the same period in 2008.

Comparison of Six-Month Period Ended June 30, 2009 to Six-Month Period Ended June 30, 2008

Results of Operations

Sales increased by $5,569,878, (approximately 25%) to $28,215,509 during the six-month period ended June 30, 2009 from $22,645,631 during the same six-month period in 2008. This increase is primarily attributable to increased sales and awareness of Lifeway's flagship line, Kefir, as well as Lifeway's kids Kefir drink, ProBugs®. Aditionally, Lifeway recorded revenues from its February 6, 2009 acquisition of Fresh Made Dairy. Included in the total group sales was

$3,543,603 of revenue related to this acquisition and recorded during the six-month period ended June 30, 2009.

Cost of goods sold as a percentage of sales, excluding depreciation expense, was approximately 57% during the six-month period ended June 30, 2009, compared to about 66% during the same period in 2008. The decrease was primarily attributable to the decreased cost of conventional milk, our largest raw material, and the cost of transportation and other petroleum based production supplies.

Operating expenses as a percentage of sales for Lifeway Foods were approximately 21% during the six-month period ended June 30, 2009, compared to approximately 20% during the same period in 2008. This increase is primarily attributable to the increase in professional fees related to the February 6, 2009 acquisition of Fresh Made Dairy and a 112% in amortization expense, a non cash expense, also related to the Fresh Made acquisition. Many of the acquisition related professional fees are non recurring expenses.

Total other expenses during the six-month period ending June 30, 2009 were $231,439, compared with total other expenses of $1,780 during the same period in 2008. This increase is primarily attributable to a higher interest expense related to the February 6, 2009 Fresh Made acquisition. Interest expenses during the six-month period ending June 30, 2009 were $264,473, which includes approximately a $55,000 pre -payment penalty on one of Lifeway's real estate mortgages related to the financing of the acquisition. This pre-payment expense is a non recurring expense.

Total net income was $4,079,370, or $.24 per split adjusted share for the six-month period ended June 30, 2009, compared with $1,800,324, or $.11 per split adjusted share in the same period in 2008.

Sources and Uses of Cash

Net cash provided by operating activities was $3,390,715 during the six months ended June 30, 2009, which is an increase of $762,708 when compared to the same period in 2008. This increase is primarily attributable to the increase in net income of $2,279,046.

Net cash used in investing activities was $2,827,272 during the six months ended June 30, 2009, which is an increase of $1,568,612 when compared to the same period in 2008. This increase is primarily due to the Company's acquisition of Fresh Made, net of cash acquired. The Company purchased $714,052 worth of property, plant and equipment during the first six months of 2009 when compared to the purchase of $1,475,280 worth of property, plant in equipment during the same period in 2008. This represents a decrease of $761,228 in the purchase of equipment during the six months ended June 30, 2009, when compared to the same period in 2008. The Company also repaid its short term liability in the form of a margin loan in the amount of $407,479 during it's second quarter of 2009.

Lifeway had a net increase in cash and cash equivalents of $305,518 during the six months ended June 30, 2009, compared to a net decrease in cash and cash equivalents of $253,846 during the same period in 2008.

Assets and Liabilities

Total assets were $49,706,668 during the six months ended June 30, 2009, which is an increase of $13,969,737 when compared to the same period in 2008. This is primarily due the Company's acquisition of Fresh Made, which increased intangible assets by $10,240,123 as of June 30, 2009 when compared to June 30, 2008. Additionally, the value of the Company's property, plant and equipment was $13,793,929 as of June 30, 2009, which is an increase of $3,024,253 from June 30, 2008.

Total current liabilities were $8,861,787 during the six months ended June 30, 2009, which is an increase of $4,506,253 when compared to the same period in 2008. This is primarily due the Company's acquisition of Fresh Made, which increased current maturities of notes payable by $5,089,176 as of June 30, 2009 when compared to June 30, 2008.

Significant portions of our assets are held in marketable securities. The majority of our marketable securities are classified as available-for-sale on our balance sheet, while the mortgage-backed securities are classified as trading. All of these securities are stated thereon at market value as of the end of the applicable period. Gains and losses on the portfolio are determined by the specific identification method.

We anticipate being able to fund the Company's foreseeable liquidity requirements internally. We continue to explore potential acquisition opportunities in our industry in order to boost sales while leveraging our distribution system to consolidate and lower costs.

Other Developments

On June 13, 2008, Lifeway's Board of Directors approved awards of an aggregate amount of 10,500 shares to be awarded under its Employee and Consulting Services and Compensation Plan to certain key employees and consultants for services rendered to the Company. The stock awards were made on June 13, 2008 and have vesting periods of one year. The expense for the awards is measured as of July 1, 2007 at $11.87 per share for 10,500 shares, or a total stock award expense of $124,634. This expense will be recognized as the stock awards vest in 12 equal portions of $10,386, or 875 shares per month for one year.

The Company has previously identified and disclosed the following material weaknesses in our internal control for financial reporting: (1) an incomplete and undocumented financial reporting process, including an overview of the financial disclosure principals, (2) no documented accounting procedures manual available for employee use, and (3) no documented accounting procedures in valuing of marketable securities other than temporary impairment. The Company has previously disclosed its intent to take corrective action and to implement additional controls in order to address these material weaknesses. With respect to (1), the Company has implemented use of a software program called Microsoft Business Solutions-Navision ("NAV") as of June 1, 2009 to increase the financial reporting ability of the Company over the previous accounting software, to implement additional controls and strengthen the existing controls over the financial reporting process, and to allow for additional documentation of the financial reporting process. With respect to (2), the Company has recently engaged a firm to assist with development of such manual which should be completed this year. Finally, with respect to (3), the Company has undertaken more frequent and vigorous discussions with its accountants and recently engaged a firm to assist with documenting such procedures.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not applicable.

ITEM 4T. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

As of June 30, 2009, we carried out an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were not effective at the reasonable assurance level as of June 30, 2009 in ensuring that information required to be disclosed by us under the Exchange Act is recorded, processed, summarized and reported within the time periods specified under the Exchange Act rules and forms due to the material weaknesses as disclosed in our Form 10-K filed on March 31, 2009 which we cannot yet determine have been remedied by implementation of the NAV software as described below. As a result, we performed additional analysis and other post-closing procedures to ensure our consolidated financial statements were prepared in accordance with generally accepted accounting principles.

Accordingly, management believes the consolidated financial statements included in this Form 10-Q fairly present, in all material respects, our financial condition, results of operations and cash flows for the periods presented.

There was no change in our internal control over financial reporting during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting, other than the following. As of June 1, 2009, the Company implemented the software program Microsoft Business Solutions-Navision ("NAV"). The Company intends for the NAV software to increase the financial reporting ability of the Company over the Company's previous accounting software, to implement additional controls and strengthen the existing controls over the financial reporting process, and to allow for additional documentation of the financial reporting process.
