BUYERS UNITED, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2002
(unaudited)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of Buyers United, Inc. ("the Company" or "Buyers United") have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB of Regulation S-B. Accordingly, they do not include all the information and footnotes necessary for a comprehensive presentation of financial position and results of operations.

It is management's opinion, however, that all material adjustments (consisting of normal recurring accruals) have been made which are necessary for a fair financial statement presentation. The results for the interim period are not necessarily indicative of the results to be expected for the year.

For further information, refer to the consolidated financial statements and footnotes included in the Company's annual report on Form 10-KSB for the year ended December 31, 2001.

2. Long-term Debt

In January 2002, the Company issued a \$100,000 unsecured note payable to the Chairman of the Board, which bears interest at 12% with both principal and interest due July 5, 2003.

Also in January 2002 the Company issued \$79,998 in unsecured notes payable to three officers of the Company that bear interest at 12%, which are payable monthly with the principal due July 5, 2003.

In April and May of 2002 the Company issued \$2,265,000 in unsecured promissory notes bearing interest at 10% to 12%, payable monthly. Principal payments are due monthly based on 38% to 40% of billings

Edgar Filing: BUYERS UNITED INC - Form 10QSB

collected from specifically identified customers. These percentages will increase if the notes are not fully repaid within a specified period. After the notes' principal balance is paid in full, the Company will continue to remit a percentage of the billings collected from these customers but the percentage will be reduced to 18% to 20%. These payments will continue as long as the customers continue purchasing long distance services from the Company. In addition, each note holder received a two-year warrant to purchase shares of common stock at an exercise price of \$2.50 per share. The amount of warrants issued equaled 10% of the note proceeds.

In August 2002 the Company also issued \$1,725,000 in unsecured promissory notes bearing interest at 10%, payable monthly. Principal payments are due monthly based on 40% of billings collected from specifically identified customers. After the notes' principal balance is paid in full, the Company will continue to remit a percentage of the billings collected from these customers but the percentage will be reduced to 24%. These payments will continue as long as the customers continue purchasing long distance services from the Company. There were no warrants issued in connection with these notes.

3. Capital Transactions

During the last half of 2001, preferred stock dividends amounted to \$378,316, consisting of \$150,942 on outstanding shares of Series A 8% cumulative convertible preferred stock, and \$227,374 on outstanding shares of Series B 8% cumulative convertible preferred stock. These dividends were paid through the issuance of 374,534 shares of common stock to the holders of the preferred stock in February 2002. Dividends for the first half of 2002 amounted to \$148,370 on Series A and \$223,666 on Series B, and were paid through the issuance of 200,101 shares of common stock.

On January 15, 2002, the Company issued 7,998 shares to three officers in consideration of notes payable in the amount of \$79,998. The value of the shares was \$8,798.

On January 18, 2002, the Company issued 10,000 shares to Theodore Stern, the Company's CEO and Chairman of the Board of Directors, in consideration of a note payable in the amount of \$100,000. The value of the shares was \$10,000.

On February 15, 2002, the Company issued 25,000 shares to Mr. Stern in consideration of him granting a \$250,000 guaranty to MCI WorldCom, Inc. on behalf of Buyers United in connection with the Company entering in to a resale contract. The value of the shares was \$30,750.

In May 2002 the Board of Directors approved a plan to modify the exercise price on certain warrants from \$2.50 to \$2.00 per share, extend the expiration date of certain warrants from December 31, 2002 to December 31, 2004, and amend the redemption provisions of certain warrants so that the warrants could be called for redemption when the market price for our common stock is \$4.00 per share, rather than \$6.00 per share.

4. Major suppliers

Approximately, 95% and 66% of the Company's costs of revenue for the nine months ended September 30, 2002 and 2001, respectively, was generated from two (three in 2002) telecommunications providers. As of September 30, 2002 two of these providers had filed for bankruptcy protection under Chapter 11, and the other provider is currently being scrutinized by the Securities

Edgar Filing: BUYERS UNITED INC - Form 10QSB

and Exchange Commission over certain accounting matters. Although the Company has not experienced a disruption of service and feels it could replace any one of these sources with other wholesale telecommunications providers, the effect on the Company's operations of potentially losing all three of these service providers can not be determined.

5. Subsequent events

On November 1, 2002, the Company issued a \$250,000 unsecured promissory note bearing interest at 12% to a member of its Board of Directors. Interest is payable monthly, with principal due at the end of two years. The note is convertible at the director's option into common stock at a rate of \$2.00 per share.

6. Going concern

Up through the end of 2001, the Company had experienced recurring losses from operations. As of September 30, 2002, the Company had a working capital deficit of \$6.7 million and an accumulated deficit of \$26 million. Although the Company has achieved profitability during the first three quarters of 2002, and management believes the Company will continue to be profitable for the fourth quarter of 2002, the foregoing matters raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might result should the Company be unable to continue as a going concern.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

Buyers United is engaged in the business of selling to small to mid-size businesses and consumers telecommunications services. Our business model is to offer these services at what we believe to be competitive prices, and provide additional value to the customer through specialized service, convergent billing, product rebates, and other promotions. Buyers United uses the purchasing power of its customer base to obtain favorable rates for long distance and Internet access service and obtain rebates on products and services we offer to our customers as an added benefit for purchasing long distance through us. Buyers United's goal is to continue to expand and develop as a national reseller of our services. Our strategy for achieving this goal is to focus on expanding service and product offerings, continue our customer rebate program, continue development of our agent sales program, and pursue Internet marketing opportunities to obtain new customers.

Buyers United provides services that it believes are perceived by businesses and consumers as essential or are compatible with their normal annual expenditures. Since its inception in January 1996, Buyers United has focused on selling long distance service. This focus has enabled Buyers United to build the size of its customer base.

Buyers United currently has over 115,000 customers. Our target market includes networking professionals, small businesses, and middle-class families with an annual household income between \$30,000 and \$100,000, as these are the

Edgar Filing: BUYERS UNITED INC - Form 10QSB

most likely to respond actively to the cost savings opportunity offered by Buyers United. Customers reside mostly in high population centers and they tend to spend more than the average on long distance services. Buyers United believes that approximately one-third of the present customers consist of small businesses and entrepreneurs who operate home-based businesses.

RESULTS OF OPERATIONS

Total revenues from telecommunications and other services increased 120% to \$8.7 million for the three months ended September 30, 2002 as compared to \$3.9 million for the same period in 2001. Year-to-date revenues increased 95% to \$20.3 million as compared to \$10.4 million during the first nine months of 2001. The increase in revenue is due to an increase in the number of customers we serve resulting from our ongoing promotional efforts, primarily involving independent agents and referrals from an online shopping comparison service.

Costs of revenues for the three-month period ended September 30, 2002 were \$4.8 million, an 82% increase as compared to \$2.6 million incurred during the comparable three-month period for the prior year. For the nine-month periods, costs of revenue increased 54%. Such costs as a percentage of revenue for the three and nine-month periods ended September 30, 2002 were 55% and 54%, respectively, as compared to 66% and 69% during 2001. The higher gross margins during 2002 is a result of obtaining better costs from our long distance carriers, along with an increase in sales to residential customers which earn higher gross margins.

Total operating expenses other than costs of revenues were 5% higher during the quarter ended September 30, 2002 as compared to the same period of 2001, and were 1% lower during the nine-month period as compared to the previous year. These changes are a result of the following factors:

- * General and administrative costs in 2002's third quarter increased 54% to \$1.9 million compared to \$1.2 million in 2001. For the nine months ended September 30, 2002, expenses were higher by 2% as compared to the previous year. Increases during the third quarter resulted primarily from higher billing expenses and allowances for uncollectible accounts directly proportional to the increase in revenues. The revenue increase also necessitated the hiring of an additional customer support and collection personnel. Year-to-date, such increases were offset partially by lower compensation costs incurred earlier in 2002 due to reduced employee levels in 2001. In addition, certain occupancy and maintenance costs throughout 2002 were lower due to the cancellation of an equipment lease during the third quarter of 2001.
- * Selling and promotion expenses increased 49% to \$1.2 million during the third quarter of 2002 from \$828,254 in 2001. Expenses for the nine-month period ended September 30, 2002 rose 33% as compared to the same period of 2001. Such expenses as a percentage of revenue were 14% for 2002's third quarter as compared to 21% in 2001, and year-to-date were 16% during 2002 as compared to 23% during the comparable period of 2001. The increases resulted primarily from the proportionate higher commission amounts paid on higher revenue. Included in selling and promotion expenses for the first half of 2001 was \$150,000 in celebrity contract renewal costs in connection with an infomercial marketing tool originally intended to air later in 2001. The infomercial was not used and we did not incur any contract renewal costs in the first half of 2002. Consequently, commissions on revenue represent a substantially higher proportion of selling and promotion expense in the first nine months of 2002 as compared to 2001.
- * During the three months ended September 30, 2001, we cancelled an

Edgar Filing: BUYERS UNITED INC - Form 10QSB

equipment lease resulting in \$922,076 of expense. Since there were no such comparable costs during 2002, this partially offset the 2002 increases in the other types of expenses.

Interest income was \$5,896 for the quarter ended September 30, 2002, and was \$12,698 for the nine months then ended. This compares to \$4,361 and \$13,485, respectively, earned during the comparable periods of 2001. The differences resulted from lower cash balances on hand during 2002 as compared to the corresponding periods in 2001.

Interest expense for the three and nine-month periods ended September 30, 2002 was \$431,834 and \$1,120,558, respectively, compared to \$334,341 and \$705,852 for the comparative periods of 2001. The higher amounts were the result of higher debt balances outstanding in 2002 as compared to the previous year.

As a result of the above factors overall net income before preferred stock dividends was \$317,608 during the quarter ended September 30, 2002, as compared to a \$2.0 million net loss for the same period during 2001. Net income for the first nine months of 2002 was \$395,140, as compared to a net loss of \$5.3 million incurred during the comparable period of 2001.

LIQUIDITY AND CAPITAL RESOURCES

Buyers United's current ratio as of September 30, 2002 increased slightly to 0.55:1 from 0.48:1 at the end of 2001. The components of current assets and current liabilities that changed significantly since the end of 2001 were accounts receivable, other current assets, the current portion of long-term debt, and accrued liabilities.

Accounts receivable and accrued commission and rebates increased as a result of higher revenue amounts during 2002 as compared to 2001. Other current assets increased 393% since the end of December 2001, due primarily to higher capitalized amounts associated with our direct response advertising campaign, the benefits of which are expected to be received during the next twelve months.

The current portion of long-term debt rose 612%, due to a \$1.05 million promissory note, due February 28, 2003, that was reclassified from a long-term to a current liability, and other promissory notes aggregating \$2,544,998 due July 5, 2003 that were similarly reclassified. In addition, although the majority of new promissory notes issued during 2002 have no stated maturity date, management believes these notes will be repaid over a period of approximately twelve months. Accordingly, the entire amount of these loans have also been included in current liabilities.

As of September 30, 2002, we had a \$1.05 million note payable to an individual bearing interest at 18%, payable monthly. The note is due February 28, 2003 and provides that 50,000 shares of common stock will be issued to the note holder at maturity. Should the note be prepaid, we are required to issue 100,000 shares to the note holder. The note provides a conversion feature whereby the holder may convert the note into common stock at \$2.50 per share.

During October and November of 2001, we raised \$825,000 via promissory notes to fund our participation in an unrelated comparison shopping service and to fund working capital needs. The notes are unsecured and bear interest at 12%, payable monthly. Principal is also payable monthly, based on 20% of billings collected during each monthly billing period from specifically designated existing customers or from any new customers that subscribed via the on-line shopping service in which the shopping services fee was paid from the proceeds. After the notes are repaid, we will continue to remit a percentage of the billings collected from these customers, but the percentage will be reduced to 10%. These payments will continue as long as the specific

Edgar Filing: BUYERS UNITED INC - Form 10QSB

customers continue purchasing long distance services from Buyers United.

During the first half of 2002, Buyers United raised \$2,265,000 through the sale of promissory notes to continue in the comparison shopping service and to fund working capital needs. These notes bear interest at 10% to 12%, and interest and principal payments are due monthly. Similar to the notes issued during 2001, principal is repaid out of collected billings from new customers generated through the online shopping service. However, only half the note proceeds are to be used for this service, the rest being allocated for working capital purposes, as needed. With respect to these 2002 notes, 38% to 40% of the new customer billings are to be reserved for principal repayment, depending on the particular note agreement. After the notes are repaid, we will continue to remit a percentage of the billings collected from these customers, but the percentage will be reduced to 18% to 20%. These payments will continue as long as the specific customers continue purchasing long distance services from Buyers United.

In August 2002, we sold an additional \$1,750,000 in promissory notes bearing interest at the rate of 10% per annum that will be repaid out of a portion of billings to new customers obtained via the shopping service, similar to the terms of the promissory notes describe above.

At June 30, 2002, Buyers United had several unsecured promissory notes payable to Theodore Stern, an officer and director, totaling \$2,465,000. All but one of the notes (for \$200,000) bear interest at a rate of 12%, with interest payable upon maturity. The \$200,000 note, along with the noteholder's personal guaranty, originated in connection with securing more favorable rates with certain of our telecommunication providers. Accordingly, based on savings in terms of these costs, interest on this note is calculated based on the monthly vendor billings incurred by Buyers United, not to exceed \$7,500 per month, payable monthly. All the notes mature on July 5, 2003.

During the first quarter of 2002, we issued \$79,998 in unsecured promissory notes payable to Paul Jarman, G. Douglas Smith, and Kenneth D. Krogue, all executive officers. The notes mature in July 2003 and bear interest at 12%, payable monthly.

Buyers United has a line of credit agreement with RFC Capital Corporation. The facility allows us to finance up to \$2.5 million based on our eligible accounts receivable, and allows us to borrow against unbilled receivables as well as finance regular monthly billings. The facility bears interest at a rate of prime plus 6% and expires in June 2004. At September 30, 2002, we had financed the maximum amount available based on eligible accounts receivable at that time, which amounted to \$1,452,548. This agreement also requires us to maintain a restricted cash account for the collection of our receivables. As of September 30, 2002 we had \$890,944 of restricted cash primarily relating to the RFC Capital agreement.

Up through the end of 2001, we had experienced recurring losses from operations. As of September 30, 2002, we had a working capital deficit of \$6.7 million and an accumulated deficit of \$26 million. Although we achieved profitability during the first three quarters of 2002, the foregoing matters raise substantial doubt about our ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might result should we be unable to continue as a going concern. We are currently experiencing significant revenue growth and have seen the results of several fixed-cost reduction initiatives begun in 2001. While there can be no assurance that such will be the case, management believes that the trend of revenue increases will continue, and that we will continue to be profitable during last quarter of 2002 and into 2003.

FORWARD-LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1985 provides a safe harbor for forward-looking statements made by Buyers United, except where such statements are made in connection with an initial public offering. All statements, other than statements of historical fact, which address activities, actions, goals, prospects, or new developments that we expect or anticipate will or may occur in the future, including such things as expansion and growth of our operations and other such matters are forward-looking statements. Any one or a combination of factors could materially affect our operations and financial condition. These factors include competitive pressures, success or failure of marketing programs, changes in pricing and availability of services and products offered to members, legal and regulatory initiatives affecting member marketing and rebate programs or long distance service, and conditions in the capital markets. Forward-looking statements made by us are based on knowledge of our business and the environment in which we operate as of the date of this report. Because of the factors listed above, as well as other factors beyond its control, actual results may differ from those in the forward-looking statements.

Item 3. CONTROLS AND PROCEDURES

With the participation of management, Buyers United's chief executive officer and chief financial officer evaluated its disclosure controls and procedures on October 31, 2002. Based on this evaluation, the chief executive officer and the chief financial officer concluded that the disclosure controls and procedures are effective in connection with Buyers United's filing of its quarterly report on Form 10-QSB for the quarterly period ended September 30, 2002.

Subsequent to October 31, 2002 through the date of this filing of Form 10-QSB for the quarterly period ended September 30, 2002, there have been no significant changes in Buyers United's internal controls or in other factors that could significantly affect these controls, including any significant deficiencies or material weaknesses of internal controls that would require corrective action.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

On June 14, 2001, a lawsuit was filed against Buyers United by Profitec, Inc., in New Haven, Connecticut. Profitec asserted that it agreed to perform certain billing services in 1999 for our telecommunication customers and that we agreed to pay Profitec for such services. Profitec further claimed that we breached the contract by terminating the contract and failing to pay fees allocable under a "liquidated damage" provision for early termination. Profitec claimed damages in excess of \$140,000, based upon the contract's liquidated damage provisions. Buyers United retained counsel to defend this action. Our defenses included that Profitec breached the contract with respect to manner and time of performance and failed to cure these breaches after notice. We filed a general denial answer and asserted affirmative defenses, including breach of contract, failure of consideration, and other issues. We also filed a counter claim seeking damages for Profitec's breach of the contract. In November 2001, Profitec answered and denied the counter-

Edgar Filing: BUYERS UNITED INC - Form 10QSB

claim. We finally reached an out-of-court settlement on October 17, 2002 whereby we agreed to pay \$17,500.

We are a party to certain other legal proceedings that we consider incidental to our business activities. It is the opinion of management, after discussion with legal counsel, that the ultimate disposition of these other matters will not have a material impact on our financial position, liquidity, or results of operations.

Item 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

In August 2002, Buyers United raised \$1,750,000 through the sale of promissory notes, the proceeds of which was used to fund our continued participation in an unrelated online comparison shopping service and to fund working capital needs. These notes bear interest at 10%, and interest and principal payments are due monthly. Principal is repaid out of collected billings from new customers generated through the online shopping service. With respect to these notes, 40% of the new customer billings are to be reserved for principal repayment, depending on the particular note agreement. After the notes are repaid, we will continue to remit a percentage of the billings collected from these customers, but the percentage will be reduced to 24%. These payments will continue as long as the specific customers continue purchasing long distance services from Buyers United. vFinance Investments, Inc. acted as agent for us in the placement of the notes and was paid commissions of 6% of the loan proceeds.

All of the aforementioned securities were issued in reliance on the exemption from registration provided by Section 4(2) of the Securities Act of 1933 or Rule 506 of Regulation D promulgated there under. Based on information provided by the investors, we believe each investor was an accredited investor within the meaning of Rule 501 of Regulation D.

CERTIFICATION

I, Theodore Stern, certify that:

1. I have reviewed this quarterly report on Form 10-QSB of Buyers United, Inc.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;

Edgar Filing: BUYERS UNITED INC - Form 10QSB

3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;

4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and have:

- a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
- b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
- c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):

- a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
- b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and

6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
