ELEMENT 21 GOLF COMPANY

(A Development Stage Enterprise)

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

SEPTEMBER 30, 2004

(Unaudited)

NOTE 1 NATURE OF BUSINESS AND OPERATIONS:

Element 21 Golf Company and subsidiaries (a development stage enterprise) (the "Company" and or "Element 21") design, develop and expect to market Scandium alloy golf products. The first products manufactured using Company's proprietary technology have been recently produced and management expects that these products will be test-marketed for distribution to wholesalers and retail markets.

Element 21 was incorporated under the laws of the state of Delaware on June 26, 1986 and, until October 2003, was doing business under the name BRL Holdings, Inc. The Company owns 100% of Element 21 Technologies, Inc. ("Technologies"), a development stage company that holds the license to use the proprietary Scandium alloy technology, 34.2% of AssureTec Holdings Inc. ("AssureTec" Formerly Tech Ventures, Inc.), which includes the ownership of 100% of both Advanced Conductor Technologies, Inc. ("ACT") and IJAM Enterprises, Inc., neither of which have had operations.

Immediately following the closing of the Technologies acquisition, the Company declared: 1) a 2 for 1 split of its common stock effected in the form of a dividend and 2) a dividend of 100% of its ownership of AssureTec and ACT, which collectively represented substantially all of the Company's assets prior to the acquisition of Technologies (the "Spin Off") and the officers and directors immediately prior to the acquisition resigned. The shareholders who received common stock in connection with the Technologies acquisition have received the stock dividend, but waived their rights to receive distributions associated with the planned Spin Off. The Spin Off will only occur after compliance with Securities and Exchange Commission ("SEC") regulations. In connection with the planned Spin-Off, AssureTec filed a registration statement on Form 10-SB with the SEC in December 2003 to become a reporting company. Commencing with the quarter ending December 31, 2003, AssureTec began filing quarterly reports with the SEC on Forms 10-QSB. On March 31, 2004 AssureTec completed a common stock and common stock equivalent share exchange with individual stockholders of AssureTec Systems (the "Share Exchange") wherein AssureTec acquired the remaining 65.8% ownership of AssureTec Systems, resulting in Element 21's ownership percentage dropping to the current 26.5%.

Element 21 is considered to be a development stage enterprise because it has not generated revenues. The Company is subject to a number of risks similar to those of other companies in the early stage of development. Principal among these risks are dependencies on key individuals, competition from other current or substitute products and larger companies, the successful development and marketing of its products and the need to obtain adequate financing necessary to fund future operations. Recently, certain consultants who are also stockholders of the Company, advanced funds to allow the Company to acquire aluminum Scandium alloy concentrate from Russia and to acquire critical lateral forging equipment made in the US, both of which were shipped to South Korea to enable the production of Scandium alloy golf shafts.

Table of Contents*ELEMENT 21 GOLF COMPANY**(A Development Stage Enterprise)**NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS**SEPTEMBER 30, 2004**(Unaudited)*

(NOTE 1 CONTINUED). The accompanying unaudited consolidated condensed financial statements have been prepared from the books and records of Element 21 on the same basis as the annual financial statements and are consistent with the instructions to Form 10-QSB and Rule 310 of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete consolidated financial statements and should be read in conjunction with the Company's audited consolidated financial statements as of and for the fiscal year ended June 30, 2004. In the opinion of management, all significant adjustments that are normal, recurring in nature and necessary for a fair presentation of the financial position, cash flows and results of the operations of the Company, have been consistently recorded. The operating results for the interim periods presented are not necessarily indicative of expected performance for the entire year ending June 30, 2005.

NOTE 2 FUTURE OPERATIONS/GOING CONCERN:

These interim financial statements have been presented on the basis that the Company is a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has not yet established revenues on any consistent basis. Even with the expected increase in revenues from the sale of golf shafts now being produced, the Company expects to incur expenses in excess of revenues for an indefinite period.

Key financial ratios are as follows:

	<i>September 30, 2004</i>	<i>June 30, 2004</i>
<i>Negative working capital</i>	<i>\$ 203,125</i>	<i>\$ 123,781</i>
<i>Accumulated deficit during the development stage</i>	<i>3,687,319</i>	<i>3,261,401</i>
<i>Net loss</i>	<i>425,918</i>	<i>2,229,011</i>

Edgar Filing: ELEMENT 21 GOLF CO - Form 10QSB

As shown in the accompanying financial statements, during the three months ended September 30, 2004 the Company incurred net losses of \$425,918 and for the three months ended September 30, 2003 realized net income of \$206,953. Cash utilized by operations during the three months ended September 30, 2004 was \$54,579 and cumulative loss from September 17, 2002 to September 30, 2004 (the development state period) was \$3,687,319.

These factors, among others, raise significant doubt about the Company's ability to continue as a going concern. The unaudited consolidated financial statements do not include any adjustments relating to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The Company's continuation as a going concern is dependent upon its ability to generate sufficient cash flow and meet its obligations on a timely basis and ultimately attain profitability. Since acquiring the Element 21 Technologies golf development business, the Company has depended on advances and consulting services from consultants engaged by the Company. Absent these continuing advances and services, the Company could not continue with the development and marketing of its golf products.

7

Table of Contents

ELEMENT 21 GOLF COMPANY

(A Development Stage Enterprise)

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

SEPTEMBER 30, 2004

(Unaudited)

(NOTE 2 CONTINUED). Management's plans for the Company include implementation of the plan to sell the Company's products into wholesale and retail golf sales channels, raising additional capital and other strategies designed to optimize shareholder values. However, no assurance can be made that management will be successful in fulfilling all elements of its plan. The failure to achieve this plan will have a material adverse effect on the Company's financial position, results of operations and ability to continue as a going concern.

During fiscal 2004 the Company issued 32,644,927 shares of its common stock to consultants for services rendered by them and recorded an expense of \$2,352,770. For the three months ended September 30, 2004 the Company issued 4,000,000 shares of its common stock to two consultants and recorded an expense of \$288,000.

NOTE 3 EQUIPMENT:

During the first quarter ended September 30, 2004, certain consultants and stockholders acquired, for the benefit of the Company, furniture and equipment on behalf of the Company in the amount of \$3,057. This equipment value has been reflected at cost.

NOTE 4 RELATED PARTY ADVANCES:

During the first quarter ended September 30, 2004, certain stockholders of the Company advanced to the Company a total of \$43,545. These advances are recorded as an increase in related party liabilities.

NOTE 5 NET LOSS PER SHARE:

Basic net loss per share is computed by dividing net loss by the weighted average number of common shares outstanding for the periods. Diluted net loss per share reflects, in addition to the weighted average number of common shares, the potential dilution if stock options and warrants outstanding were exercised and/or converted into common stock, unless the effect of such equivalent shares was anti-dilutive.

For the three months ended September 30, 2004 and 2003, the effect of stock options and other potentially dilutive shares were excluded from the calculation of diluted net loss per common shares, as their inclusion would have been anti-dilutive. Therefore diluted loss per share is equal to basic loss per share.

8

Table of Contents

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Cautionary Statement Regarding Forward-Looking Information

Under the Private Securities Litigation Reform Act of 1995, companies are provided with a "safe harbor" for making forward-looking statements about the potential risks and rewards of their strategies. Forward-looking statements often include the words "believe", "expect", "anticipate", "intend", "plan", "estimate" or similar expressions. In this Form

10-QSB, forward-looking statements also include:

- *statements about our business plans;*
- *statements about the potential for the development, regulatory approval and public acceptance of new services;*
- *estimates of future financial performance;*
- *predictions of national or international economic, political or market conditions;*
- *statements regarding other factors that could affect our future operations or financial position; and*
- *other statements that are not matters of historical fact.*

These statements may be found under “Management’s Discussion and Analysis or Plan of Operation” as well as in this Form 10-QSB generally. Our ability to achieve our goals depends on many known and unknown risks and uncertainties, including changes in general economic and business conditions. These factors could cause our actual performance and results to differ materially from those described or implied in forward-looking statements.

These forward looking statements speak only as of the date of this Form 10-QSB. We believe it is in the best interest of our investors to use forward-looking statements in discussing future events. However, we are not required to, and you should not rely on us to, revise or update these statements or any factors that may materially affect actual results, whether as a result of new information, future events or otherwise. You should carefully review the risk factors described in this Form 10-QSB and also review the other documents we file from time to time with the Securities and Exchange Commission (“SEC”).

Results of Operations

The following discussion includes the business of Element 21 Golf Company (the “Company” or “Element 21”) and its wholly-owned subsidiaries. The Company currently has no operations. Where relevant, all numbers retroactively take into account the operations of both Element 21 and Element 21 Technologies, Inc. (“Technologies”). The Company has announced its plans to spin off Assure Tec Holdings, Inc. (“AssureTec”) as an independent company, but the spin-off will only occur after compliance with SEC regulations.

Three Months Ended September 30, 2004 and 2003

For the three months ended September 30, 2004 the Company, had no revenue and incurred general and administrative expenses of \$425,918 yielding a net loss of \$425,918, as compared with the three months ended September 30, 2003 in which the Company had no revenues and general and administrative expenses of \$155,009, with gain on settlements of liabilities of \$361,962 resulting in net income of \$206,953 for the three months ended September 30, 2003. General and administrative costs for both three-month periods consisted primarily of consulting costs and legal and accounting fees.

9

Table of Contents

The Development Stage Period – September 17, 2002 to September 30, 2004

During the development stage period (September 17, 2002 to September 30, 2004), the Company, had revenues of \$0, cost of goods sold of \$0, purchased technology costs of \$2,445, incurred administrative costs of \$3,509,611, including stock-based compensation of \$2,662,404, and realized loss from investments of \$385,280 and other income of \$210,017, yielding an accumulated net loss of \$3,687,319.

Financial Condition, Liquidity and Capital Resources

The Company has a negative working capital. The Company retains consultants who are also significant stockholders of the Company to perform development and public company reporting activities in exchange for stock of the Company. At September 30, 2004, we had a working capital deficiency of \$203,125. Our continuation as a going concern will require that we raise significant additional capital.

Absent continued issuance of common stock for services by these consultants and continued advances by stockholders of the Company, the Company cannot manufacture its golf shaft product line or market golf products based on its technologies. The Company is actively searching for capital to implement its business plans, supply the Company with products for distribution, and develop collateral materials for its potential customer base. There can be no assurance such capital will be raised on terms acceptable to the Company and if this capital is raised, it, may cause significant dilution to the Company's stockholders.

Dividend Policy

The Company has not declared or paid any cash dividends on its common stock since its inception and does not

anticipate the declaration or payment of cash dividends in the foreseeable future. The Company intends to retain earnings, if any, to finance the development and expansion of its business. The Company's future dividend policy will be subject to the discretion of the Board of Directors and will be contingent upon future earnings, if any, the Company's financial condition, capital requirements, general business conditions and other factors. Therefore, there can be no assurance that dividends of any kind will ever be paid.

Effect of Inflation

Management believes that inflation has not had a material effect on its operations for the periods presented.

Risk Factors

We Have A Limited Operating History And A History Of Substantial Operating Losses.

We have a history of substantial operating losses and an accumulated deficit of \$11,789,468 as of September 30, 2004, of which \$3,687,319 represents development stage losses and the remainder of \$8,102,149 represents accumulated losses prior to the merger with Technologies. For the three months ended September 30, 2004, our net loss was \$425,918. We have historically experienced cash flow difficulties primarily because our expenses have exceeded our revenues. We expect to incur additional operating losses. These factors, among others, raise significant doubt about our ability to continue as a going concern. If we are unable to generate sufficient revenue from our operations to pay expenses or we are unable to obtain additional financing on commercially reasonable terms, our business, financial condition and results of operations will be materially and adversely affected.

10

Table of Contents

We Will Need Additional Financing In Order to Continue Our Operations Which We May Not Be Able to Raise.

We will require additional capital to finance our future operations. We can provide no assurance that we will obtain additional financing sufficient to meet our future needs on commercially reasonable terms or otherwise. If we are unable to obtain the necessary financing, our business, operating results and financial condition will be materially

and adversely affected.

We Have No Employees and Our Success Is Dependent On Our Ability to Retain And Attract Consultants to Operate Our Business and There Is No Assurance That We Can Do So.

As of September 30, 2004, we have no employees. Consultants Nataliya Hearn, PhD, who is also our CEO and President, and David Sindalovsky, both of whom are based in Toronto, Canada, oversee the Company's engineering, alloy supply and production. Jim Morin, who is also our Vice-President, Secretary and Treasurer, and Frank Gojny, both of whom are based in California, oversee the development, testing and United States Golf Association compliance for golf products, and consultants Bruce Reeves and Kevin McGuire (formerly officers of the Company operating through entities based in New Hampshire) and Randy Renken (operating through Profit Consultants, Inc.) oversee our accounting and public company compliance issues. Mr. Peter A'costa was added in April 2004 as a key member to consult on the sales and marketing of the Company. Our future success will depend in large part upon our ability to attract and retain highly skilled technical, managerial, sales and marketing personnel and consultants. There is significant competition for such personnel in our industry. There can be no assurance that we will continue to be successful in attracting and retaining the consultants and/or personnel we require to develop new and enhanced technologies and to grow and operate profitably.

Our Performance Depends On Market Acceptance Of Our Products and We Cannot Be Sure That Our Products Are Commercially Viable.

We expect to derive a substantial portion of our future revenues from the sales of Scandium alloy golf shafts that are only now entering the initial marketing phase. Although we believe our products and technologies will be commercially viable, these are new and untested products. If markets for our products fail to develop, develop more slowly than expected or are subject to substantial competition, our business, financial condition and results of operations will be materially and adversely affected.

We Depend On Strategic Marketing Relationships and If We Fail to Maintain or Establish Them, Our Business Plan May Not Succeed.

We expect our future marketing efforts will focus in part on developing business relationships with distributors that will market our products to their customers. The success of our business depends on selling our products and technologies to a large number of distributors and retail customers. Our inability to enter into and retain strategic relationships, or the inability to effectively market our products, could materially and adversely affect our business,

operating results and financial condition.

Competition From Traditional Golf Equipment Providers May Increase And We May Not Be Able to Adequately Compete.

The market for golf shafts is highly competitive. There are number of other established providers that have greater resources, including more extensive research and development, marketing and capital than we do and also have greater name recognition and market presence. These competitors could reduce their prices and thereby decrease the demand for our products and technologies. These competitors may lower their prices to compete with us. We expect competition to intensify in the future, which could also result in price reductions, fewer customer and lower gross margins.

11

Table of Contents

Rapidly Changing Technology And Substantial Competition May Adversely Affect Our Business.

Our business is subject to rapid changes in technology. We can provide no assurances that research and development by competitors will not render our technology obsolete or uncompetitive. We compete with a number of companies that have technologies and products similar to those offered by us and have greater resources, including more extensive research and development, marketing and capital than we do. We can provide no assurances that we will be successful in marketing our existing products and developing and marketing new products in such a manner as to be effective against our competition. If our technology is rendered obsolete or we are unable to compete effectively, our business, operating results and financial condition will be materially and adversely affected.

Litigation Concerning Intellectual Property Could Adversely Affect Our Business.

We rely on a combination of trade secrets, copyright and trademark law, contractual provisions, confidentiality agreements and certain technology and security measures to protect our trademarks, patents, proprietary technology and know-how. However, we can provide no assurance that competitors will not infringe upon our rights in our

intellectual property or that competitors will not similarly make claims against us for infringement. If we are required to be involved in litigation involving intellectual property rights, our business, operating results and financial condition will be materially and adversely affected.

It is possible that third parties might claim infringement by us with respect to past, current or future technologies. We expect that participants in our markets will increasingly be subject to infringement claims as the number of services and competitors in our industry grows. Any claims, whether meritorious or not, could be time-consuming, result in costly litigation and could cause service upgrade delays or require us to enter into royalty or licensing agreements. These royalty or licensing agreements might not be available on commercially reasonable terms or at all.

Defects In Our Products May Adversely Affect Our Business.

Complex technologies such as the technologies developed by us may contain defects when introduced and also when updates and new products are released. Our introduction of technology with defects or quality problems may result in adverse publicity, product returns, reduced orders, uncollectible or delayed accounts receivable, product redevelopment costs, loss of or delay in market acceptance of our products or claims by customers or others against us. Such problems or claims may have a material and adverse effect on our business, financial condition and results of operations.

Our Common Stock Could Be Delisted From Trading On the OTC Bulletin Board

Pursuant to a notice from The Nasdaq Stock Market, Inc. stating the intent to delist our common stock from trading on the OTC Bulletin Board, we requested a hearing to request that our common stock continue to be traded on the OTC Bulletin Board. The reason for the delisting notice was the fact that we were delinquent in filing our Form 10-KSB for the fiscal year ended June 30, 2004 with the Securities and Exchange Commission (the "SEC"). The hearing was held December 16, 2004, and as of the date of this Form 10-QSB report, the hearing panel had not rendered its decision. On or about December 20, 2004, we filed our Form 10-KSB with the SEC, and upon the filing of this report on Form 10-QSB, we are now current with our SEC filings. Nevertheless, it is still possible that our common stock could be delisted from the OTC Bulletin Board and we would be required to have a new application filed and accepted before our stock could trade again on the OTC Bulletin Board.

Our Common Stock Is Classified As Penny Stock and Is Extremely Illiquid, So Investors May Not Be Able To Sell As Much Stock As They Want At Prevailing Market Prices.

Our common stock is classified as penny stock. Penny stocks generally are equity securities with a price of less than \$5.00 and trade on the over-the-counter market. As a result, an investor may find it more difficult to dispose of or obtain accurate quotations as to the price of the shares of the common stock being registered in this registration statement. In addition, the “penny stock” rules adopted by the SEC under the Securities Exchange Act of 1934 subject the sale of the shares of the common stock to regulations which impose sales practice requirements on broker-dealers, causing many broker-dealers to not trade penny stocks or to only offer the stocks to sophisticated investors that meet specified net worth or net income criteria identified by the SEC. These regulations contribute to the lack of liquidity of penny stocks. A more detailed description of the penny stock rules is included in this prospectus under. If limited trading in our stock continues, it may be difficult for investors to sell their shares in the public market at any given time at prevailing prices.

ITEM 3 CONTROLS AND PROCEDURES:

(a) Evaluation of disclosure controls and procedures. Management, including our Chief Executive Officer and Principal Financial Officer, carried out an evaluation of the effectiveness of our disclosure controls and procedures as of the end the period covered by this quarterly report. Based on this evaluation, our Chief Executive Officer concluded that our disclosure controls and procedures were effective to provide a reasonable level of assurance that the information required to be disclosed in the reports filed or submitted by us under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the requisite time periods.

(b) Changes in internal control over financial reporting. There were no changes in our internal control over financial reporting that occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

CERTIFICATION PURSUANT TO

SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Nataliya Hearn, President and Director of Element 21 Golf Company (the "Registrant"), certify that:

1. I have reviewed this Quarterly Report on Form 10-QSB of the Registrant;
2. Based on my knowledge, this Quarterly Report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this Quarterly Report;
3. Based on my knowledge, the financial statements, and other financial information included in this Quarterly Report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this Quarterly Report;
4. The Registrant's other certifying officer and I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the Registrant and we have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the

period in which this Quarterly Report is being prepared;

b) evaluated the effectiveness of the Registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this Quarterly Report (the "Evaluation Date"); and

c) presented in this Quarterly Report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;

5. The Registrant's other certifying officer and I have disclosed, based on our most recent evaluation, to the Registrant's auditors and the audit committee of Registrant's board of directors (or persons performing the equivalent function);

a) all significant deficiencies in the design or operation of internal controls which could adversely affect the Registrant's ability to record, process, summarize and report financial data and have identified for the Registrant's auditors any material weaknesses in internal controls; and

b) any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal controls; and

6. The Registrant's other certifying officer and I have indicated in this Quarterly Report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

Exhibit 32.1

CERTIFICATION PURSUANT TO 8 U.S.C. SECTION 1350,

AS ADOPTED PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of Element 21 Golf Company (formerly BRL Holdings, Inc.) (the "Registrant") on Form 10-QSB for the quarter ended September 30, 2004, as filed with the Securities and Exchange Commission on the date hereof, we, Nataliya Hearn, Ph.D., President and Chief Executive Officer, and Jim Morin, Secretary/Treasurer and Chief Financial Officer of the Registrant, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to the best of our knowledge and belief:

(1) The Quarterly Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and

(2) The information contained in the Quarterly Report fairly presents, in all material respects, the financial condition and result of operations of the Registrant.
