**Delivery of Shareholder Documents.** The Securities and Exchange Commission (the "SEC") permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called "householding" and it helps eliminate duplicate mailings to shareholders.

**Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.**

If you would prefer that your Eaton Vance documents not be househanded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

**Portfolio Holdings.** Each Eaton Vance Fund and its underlying Portfolio (if applicable) will file a schedule of its portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website [www.eatonvance.com](http://www.eatonvance.com), by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at [www.sec.gov](http://www.sec.gov). Form N-Q may also be reviewed and copied at the SEC's public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

**Proxy Voting.** From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. **Eaton Vance Municipal Income Trusts as of November of 30, 2005**

**MANAGEMENT'S DISCUSSION OF FUND PERFORMANCE**

Eaton Vance Municipal Income Trusts (the Trusts) are designed to provide current income exempt from regular federal income tax and state personal income taxes. This income is earned by investing primarily in investment grade state municipal securities.

**Economic and Market Conditions**

The economy expanded at a 4.3% pace in the third quarter of 2005, up from the 3.3% growth rate of the second quarter. Despite high energy prices, rising mortgage rates and a persistent tightening by the Federal Reserve, the economy continued to expand and to create jobs 200,000 in November 2005 alone. Recent economic data suggest that the hurricanes that pummeled the Gulf Coast region in late summer and early fall did not have a significant effect on the nation's overall economy. The economy appeared to be performing much the way it was prior to the hurricanes in both the manufacturing and service sectors with little evidence of inflationary pressures. Moreover, worries about a pickup in inflation appear to have waned recently, as prices for crude oil, gasoline and jet fuel have backed off their previous highs.

Investor sentiment regarding the Fed's monetary policy appears to have shifted in recent months as investors have begun to anticipate the end of the Fed's series of interest rate hikes (which began in June 2004). The improved investor sentiment has likely accounted, in part, for the improved performance of the financial markets in the fourth quarter of 2005.

The municipal market continued to be adversely affected by strong primary market supply. Municipal issuers are collectively in the midst of their characteristic year-end rush to bring issues to market. As a result, the municipal market may see a record supply of new issuance for 2006. Combined with lackluster retail demand, the large supply pressures pushed tax-exempt yields to more attractive levels. At November 30, 2005, long-term AAA-rated insured municipal bonds yielded 98% of U.S. Treasury bonds with similar maturities.\*

For the year ended November 30, 2005, the Lehman Brothers Municipal Bond Index (the Index) posted a modest gain of 3.88%. The Index is an unmanaged index commonly used as a broad measure of municipal bond performance. While offering some insights into the overall performance of the municipal market, the Index is broadly based and is not necessarily reflective of the performance of a fund that invests primarily in municipal bonds issued by a particular state. For information about each Trust's performance and the performance of funds in the same Lipper classification as the Trust, see the Performance Information and Portfolio Composition pages that follow.

Management Discussion

The Trusts invest primarily in bonds with maturities of 20 years or longer, as longer-maturity bonds historically have provided greater tax-exempt income for investors than shorter-maturity bonds. Given the flattening of the yield curve over the past 18 months with shorter-maturity yields rising as longer-maturity yields declined slightly the long end of the curve was an attractive place to be positioned. However, given the leveraged nature of the Trusts, the flattening yield curve has negatively affected the borrowing costs associated with the leverage. As borrowing costs have risen, the income generated by the Trusts has declined. Please see the Performance Information and Portfolio Composition pages that follow for a description of each Trust's leverage as of November 30, 2005.

During the year ended November 30, 2005, the Federal Reserve has raised short-term interest rates at regular intervals, commodities prices have raised significantly, and yet the economy has grown at a solid pace with low to moderate inflation. In this environment, we continued to maintain a somewhat cautious outlook on interest rates and adjusted the Trusts' durations accordingly. Duration measures a bond fund's sensitivity to changes in interest rates.

During the past year, credit spreads, which measure the difference in yield between higher-risk bonds and lower risk bonds, have narrowed. As a result, the lower-rated bonds owned by the Trusts have performed well and made an important contribution to performance. Where prudent, we have taken advantage of the narrow credit spreads in an effort to lower the Trusts' exposure to credit risk.

We continued to focus on finding relative value within the marketplace in issuer names, coupons, maturities, and sectors. Relative value trading, which seeks to capitalize on undervalued securities that may have been overlooked, has enhanced the returns of the Trusts during the past year.

Finally, we continued to closely monitor call protection in the Trusts. Call protection remains an important strategic consideration for municipal bond investors, especially since refinancing activity has increased over the past 12 months.

\* The leverage amount is a percentage of the Trust's total assets. The Trust uses leverage through the issuance of preferred shares. Use of financial leverage creates an opportunity for increased income, but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

(1) Returns are historical and are calculated by determining the percentage change in share price or net asset value with all distributions reinvested. The Trust's performance at market share price will differ from its results at NAV. Although share price performance generally reflects investment results over time, during shorter periods, returns at share price can also be affected by factors such as changing perceptions about the Trust, market conditions, fluctuations in supply and demand for the Trust's shares, or changes in Trust distributions. Performance results reflect the effect of leverage resulting from the Trust's issuance of Auction Preferred Shares. (2) It is not possible to invest directly in an Index. The Index's total return does not reflect the expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Index. Index performance is available as of month-end only. (3) The Lipper Average is the average total return of the funds that are in the same Lipper Classification as the Trust. It is not possible to invest in a Lipper Classification. Lipper Classifications may include insured and uninsured funds, as well as leveraged and unleveraged funds. The Lipper New York Municipal Debt Funds Classification contained 20, 9, and 8 funds for the 1-year, 5-year, and Life-Of-Trust time periods, respectively. Lipper Averages are available as of month-end only. (4) The Trust's market yield is calculated by dividing the last dividend per share of the fiscal year by the share price at the end of the period and annualizing the result. ## NOTES TO FINANCIAL STATEMENTS

## 1 Significant Accounting Policies

Eaton Vance California Municipal Income Trust (California Trust), Eaton Vance Florida Municipal Income Trust (Florida Trust), Eaton Vance Massachusetts Municipal Income Trust (Massachusetts Trust), Eaton Vance Michigan Municipal Income Trust (Michigan Trust), Eaton Vance New Jersey Municipal Income Trust (New Jersey Trust), Eaton Vance New York Municipal Income Trust (New York Trust), Eaton Vance Ohio Municipal Income Trust (Ohio Trust), and Eaton Vance Pennsylvania Municipal Income Trust (Pennsylvania Trust), (individually referred to as the Trust or collectively the Trusts) are registered under the Investment Company Act of 1940, as amended, as non-diversified, closed-end management investment companies. The Trusts were organized under the laws of the Commonwealth of Massachusetts by an Agreement and Declaration of Trust dated December 10, 1998. Each Trust's investment objective is to provide current income exempt from regular federal income taxes and taxes in its specified state. Each Trust seeks to achieve its objective by investing primarily in investment grade municipal obligations issued by its specified state.

The following is a summary of significant accounting policies consistently followed by each Trust in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

**A Investment Valuation** Municipal bonds and taxable obligations, if any, are normally valued on the basis of valuations furnished by a pricing service. Financial futures contracts and options on financial futures contracts listed on commodity exchanges are valued at closing settlement prices. Over-the-counter options on futures contracts are normally valued at the mean between the latest bid and asked prices. Short-term obligations, maturing in sixty days or less, are valued at amortized cost, which approximates value. Investments for which valuations or market quotations are not readily available, and investments for which the price of the security is not believed to represent its fair market value, are valued at fair value using methods determined in good faith by or at the direction of the Trustees.

**B Income** Interest income is determined on the basis of interest accrued, adjusted for amortization of premium or discount.

**C Federal Taxes** Each Trust's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable, if any, and tax-exempt income, including any net realized gain on investments. Therefore, no provision for federal income or excise tax is necessary. At November 30, 2005, the Trusts, for federal income tax purposes, had capital loss carryovers which will reduce taxable income arising from future net realized gain on investments, if any, to the extent permitted by the Internal Revenue Code, and thus will reduce the amount of the distributions to shareholders which would otherwise be necessary to relieve the Trusts of any liability for federal income or excise tax. The amounts and expiration dates of the capital loss carryovers of each Trust are as follows:

## Eaton Vance Municipal Income Trusts as of November 30, 2005

### NOTES TO FINANCIAL STATEMENTS CONT'D

In addition, each Trust intends to satisfy conditions which will enable it to designate distributions from the interest income generated by its investments in municipal obligations, which are exempt from regular federal income taxes when received by each Trust, as exempt-interest dividends. The portion of such interest, if any, earned on private activity bonds issued after August 7, 1986, may be considered a tax preference item for investors.

**D Financial Futures Contracts** Upon the entering of a financial futures contract, a Trust is required to deposit (initial margin) either in cash or securities an amount equal to a certain percentage of the purchase price indicated in the financial futures contract. Subsequent payments are made or received by a Trust (margin maintenance) each day, dependent on the daily fluctuations in the value of the underlying security, and are recorded for book purposes as unrealized gains or losses by a Trust. A Trust's investment in financial futures contracts is designed for both hedging against anticipated future changes in interest rates and investment purposes. Should interest rates move unexpectedly, a Trust may not achieve the anticipated benefits of the financial futures contracts and may realize a loss.

**E Options on Financial Futures Contracts** Upon the purchase of a put option on a financial futures contract by a Trust, the premium paid is recorded as an investment, the value of which is marked-to-market daily. When a purchased option expires, a Trust will realize a loss in the amount of the cost of the option. When a Trust enters into a closing sale transaction, a Trust will realize a gain or loss depending on whether the sales proceeds from the closing sale transaction are greater or less than the cost of the option. When a Trust exercises a put option, settlement is made in cash. The risk associated with purchasing put options is limited to the premium originally paid.

**F When-Issued and Delayed Delivery Transactions** The Funds may engage in when-issued and delayed delivery transactions. The Funds record when-issued securities on trade date and maintain security positions such that sufficient liquid assets will be available to make payments for the securities purchased. Securities purchased on a when-issued or delayed delivery basis are marked-to-market daily and begin earning interest on settlement date.

**G Use of Estimates** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

**H Indemnifications** Under each Trust's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to each Trust and shareholders are indemnified against personal liability for the obligations of each Trust. Additionally, in the normal course of business, each Trust enters into agreements with service providers that may contain indemnification clauses. Each Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against each Trust that have not yet occurred.

**I Expense Reduction** Investors Bank & Trust Company (IBT) serves as custodian of the Trusts. Pursuant to the respective custodian agreements, IBT receives a fee reduced by credits which are determined based on the average daily cash balances each Trust maintains with IBT. All credit balances used to reduce the Trusts' custodian fees are reported as a reduction of total expenses in the Statements of Operations.

**J Other** Investment transactions are accounted for on a trade date basis. Realized gains and losses are computed based on the specific identification of the securities sold.

### 2 Auction Preferred Shares (APS)

Each Trust issued Auction Preferred Shares on March 1, 1999 in a public offering. The underwriting discounts and other offering costs were recorded as a reduction of capital of the common shares of each Trust. Dividends on the APS, which accrue daily, are cumulative at a rate which was established at the offering of each Trust's APS and have been reset every seven days thereafter by an auction.

The Trusts distinguish between distributions on a tax basis and a financial reporting basis. Accounting principles generally accepted in the United States of America require that only distributions in excess of tax basis earnings and profits be reported in the financial statements as a return of capital. Permanent differences between book and tax accounting relating to distributions are reclassified to paid in capital.

The tax character of distributions paid for the years ended November 30, 2005 and November 30, 2004 was as follows:

Year Ended 11/30/05	California	Florida	Massachusetts	Michigan

## 8 Financial Instruments

Each Trust regularly trades in financial instruments with off-balance sheet risk in the normal course of its investing activities to assist in managing exposure to various market risks. These financial instruments include futures contracts and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment a Trust has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered.

### DIVIDEND REINVESTMENT PLAN

Each Trust offers a dividend reinvestment plan (the Plan) pursuant to which shareholders automatically have dividends and capital gains distributions reinvested in common shares (the Shares) of the same Trust unless they elect otherwise through their investment dealer. On the distribution payment date, if the net asset value per Share is equal to or less than the market price per Share plus estimated brokerage commissions, then new Shares will be issued. The number of Shares shall be determined by the greater of the net asset value per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by the Plan Agent. Distributions subject to income tax (if any) are taxable whether or not shares are reinvested.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the Plan on your behalf. If the nominee does not offer the Plan, you will need to request that your shares be re-registered in your name with each Trust's transfer agent, PFPC Inc., or you will not be able to participate.

The Plan Agent's service fee for handling distributions will be paid by each Trust. Each participant will be charged their pro rata share of brokerage commissions on all open-market purchases.

Plan participants may withdraw from the Plan at any time by writing to the Plan Agent at the address noted on the following page. If you withdraw, you will receive shares in your name for all Shares credited to your account under the Plan. If a participant elects by written notice to the Plan Agent to have the Plan Agent sell part or all of his or her Shares and remit the proceeds, the Plan Agent is authorized to deduct a \$5.00 fee plus brokerage commissions from the proceeds.

If you wish to participate in the Plan and your shares are held in your own name, you may complete the form on the following page and deliver it to the Plan Agent.

Any inquires regarding the Plan can be directed to the Plan Agent, PFPC Inc., at 1-800-331-1710.

### BOARD OF TRUSTEES' ANNUAL APPROVAL OF THE INVESTMENT ADVISORY AGREEMENTS

The investment advisory agreements between each of Eaton Vance California Municipal Income Trust, Eaton Vance Florida Municipal Income Trust, Eaton Vance Massachusetts Municipal Income Trust, Eaton Vance Michigan Municipal Income Trust, Eaton Vance New Jersey Municipal Income Trust, Eaton Vance New York Municipal Income Trust, Eaton Vance Ohio Municipal Income Trust, and Eaton Vance Pennsylvania Municipal Income Trust (collectively the "Funds" or individually the "Fund"), and the investment adviser, Eaton Vance Management ("Eaton Vance"), each provide that the advisory agreement will continue in effect from year to year so long as its continuance is approved at least annually (i) by a vote of a majority of the noninterested Trustees of the Fund cast in person at a meeting called for the purpose of voting on such approval and (ii) by the Trustees of the Fund or by vote of a majority of the outstanding interests of the Fund.

In considering the annual approval of the investment advisory agreements between the Funds and the investment adviser, the Special Committee of the Board of Trustees considered information that had been provided throughout the year at regular Board meetings, as well as information furnished for a series of meetings held in February and March in preparation for a Board meeting held on March 21, 2005 to specifically consider the renewal of the investment advisory agreements. Such information included, among other things, the following:

An independent report comparing the advisory fees of each Fund with those of comparable funds;

An independent report comparing the expense ratio of each Fund to those of comparable funds;

Information regarding Fund investment performance in comparison to relevant peer groups of funds and appropriate indices;

The economic outlook and the general investment outlook in relevant investment markets;

Eaton Vance's results and financial condition and the overall organization of the investment adviser;

The procedures and processes used to determine the fair value of Fund assets and actions taken to monitor and test the effectiveness of such procedures and processes;

Eaton Vance's management of the relationship with the custodian, subcustodians and fund accountants;

The resources devoted to compliance efforts undertaken by Eaton Vance on behalf of the funds it manages and the record of compliance with the investment policies and restrictions and with policies on personal securities transactions;

The quality, nature, cost and character of the administrative and other non-investment management services provided by Eaton Vance and its affiliates; and

The terms of each advisory agreement and the reasonableness and appropriateness of the particular fee paid by each Fund for the services described therein.

The Special Committee also considered the nature, extent and quality of the management services provided by the investment adviser. In so doing, the Special Committee considered the investment adviser's management capabilities with respect to the types of investments held by each Fund, including information relating to the education, experience and number of investment professionals and other personnel who provide services under the investment advisory agreements. Specifically, the Special Committee considered the investment adviser's 30-person municipal bond team, which includes six portfolio managers and nine credit specialists who provide services to each Fund. The Special Committee noted that the investment adviser's municipal bond team affords the investment adviser extensive in-house research capabilities in addition to the other resources available to the investment adviser. The Special Committee also took into account the time and attention to be devoted by senior management to the Funds and the other funds in the complex. The Special Committee evaluated the level of skill required to manage each Fund and concluded that the human resources available at the investment adviser were appropriate to fulfill effectively its duties on behalf of each Fund.

In its review of comparative information with respect to each Fund's investment performance, the Special Committee concluded that each Fund has performed within a range that the Special Committee deemed competitive. With respect to its review of the advisory fees paid by each Fund and each Fund's expense ratio, the Special Committee noted the benefits that have accrued to shareholders as a result of the financial resources committed by Eaton Vance in structuring the Funds at the time of their initial public offering and concluded that the fees paid by each Fund and each Fund's expense ratio are reasonable.

In addition to the factors mentioned above, the Special Committee reviewed the level of the investment adviser's profits in providing investment management services for each Fund and for all Eaton Vance funds as a group. The Special Committee also reviewed the

benefits to Eaton Vance and its affiliates in providing administration services for the Fund and for all Eaton Vance funds as a group. In addition, the Special Committee considered the fiduciary duty assumed by the investment adviser in connection with the services rendered to each Fund and the business reputation of the investment adviser and its financial resources. The Trustees concluded that in light of the services rendered, the profits realized by the investment adviser are not unreasonable. The Special Committee also considered the fact that each Fund is not continuously offered and concluded that, in light of the level of the investment adviser's profits with respect to each Fund, the implementation of breakpoints is not appropriate.

The Special Committee did not consider any single factor as controlling in determining whether or not to renew the investment advisory agreements. Nor are the items described herein all the matters considered by the Special Committee. In assessing the information provided by Eaton Vance and its affiliates, the Special Committee also took into consideration the benefits to shareholders of investing in a fund that is a part of a large family of funds which provides a large variety of shareholder services.

Based on its consideration of the foregoing factors and conclusions, and such other factors and conclusions as it deemed relevant, and assisted by independent counsel, the Special Committee concluded that the renewal of the investment advisory agreements, including the fee structures, is in the interests of shareholders.

**Item 6. Schedule of Investments**

Please see schedule of investments contained in the Report to Stockholders included under Item 1 of this Form N-CSR.

**Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies**

The Board of Trustees of the Trust has adopted a proxy voting policy and procedure (the Fund Policy), pursuant to which the Trustees have delegated proxy voting responsibility to the Fund's investment adviser and adopted the investment adviser's proxy voting policies and procedures (the Policies) which are described below. The Trustees will review the Fund's proxy voting records from time to time and will annually consider approving the Policies for the upcoming year. In the event that a conflict of interest arises between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund, the investment adviser will generally refrain from voting the proxies related to the companies giving rise to such conflict until it consults with the Board's Special Committee except as contemplated under the Fund Policy. The Board's Special Committee will instruct the investment adviser on the appropriate course of action.

The Policies are designed to promote accountability of a company's management to its shareholders and to align the interests of management with those shareholders. The investment adviser will generally support company management on proposals relating to environmental and social policy issues, on matters regarding the state of organization of the company and routine matters related to corporate administration which are not expected to have a significant economic impact on the company or its shareholders. On all other matters, the investment adviser will review each matter on a case-by-case basis and reserves the right to deviate from the Policies' guidelines when it believes the situation warrants such a deviation. The Policies include voting guidelines for matters relating to, among other things, the election of directors, approval of independent auditors, executive compensation, corporate structure and anti-takeover defenses. The investment adviser may abstain from voting from time to time where it determines that the costs associated with voting a proxy outweighs the benefits derived from exercising the right to vote.

In addition, the investment adviser will monitor situations that may result in a conflict of interest between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund by maintaining a list of significant existing and prospective corporate clients. The investment adviser's personnel responsible for reviewing and voting proxies on behalf of the Fund will report any proxy received or expected to be received from a company included on that list to members of senior management of the investment adviser identified in the Policies. Such members of senior management will determine if a conflict exists. If a conflict does exist, the investment adviser will seek instruction on how to vote from the Special Committee.

Information on how the Fund voted proxies relating to portfolio securities during the most recent 12 month period ended June 30 is available (1) without charge, upon request, by calling 1-800-262-1122, and (2) on the Securities and Exchange Commission's website at <http://www.sec.gov>.

**Item 8. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.**

No such purchases this period.

**Item 9. Submission of Matters to a Vote of Security Holders.**

Effective February 7, 2005, the Governance Committee of the Board of Trustees revised the procedures by which a Fund's shareholders may recommend nominees to the registrant's Board of Trustees to add the following (highlighted):

The Governance Committee shall, when identifying candidates for the position of Independent Trustee, consider any such candidate recommended by a shareholder of a Fund if such recommendation contains (i) sufficient background information concerning the candidate, **including evidence the candidate is willing to serve as an Independent Trustee if selected for the position; and (ii)** is received in a sufficiently timely manner (and in any event no later than the date specified for receipt of shareholder proposals in any applicable proxy statement with respect to a Fund). Shareholders shall be directed to address any such recommendations **in writing** to the attention of the Governance Committee, c/o the Secretary of the Fund. **The Secretary shall retain copies of any shareholder recommendations which meet the foregoing requirements for a period of not more than 12 months following receipt. The Secretary shall have no obligation to acknowledge receipt of any shareholder recommendations.**

**Item 10. Controls and Procedures**
