Item 2.02. Results of Operations and Financial Condition.

On February 20, 2007, United Therapeutics Corporation (the Company) issued a press release setting forth its earnings for the Company's quarterly fiscal period and year ended December 31, 2006.

The press release contains certain financial measures that do not comply with generally accepted accounting principles in the United States (GAAP). Such measures supplement the Company's financial results prepared in accordance with GAAP. The Company believes such non-GAAP pro forma measures contained in the press release are meaningful to investors because they help investors understand the impact of: (1) employee stock option expense resulting from the adoption of SFAS 123(R); and (2) the HeartBar® trade name write down on the Company's financial results for the three- and twelve-month periods ended December 31, 2006 and aid investors in comparing the Company's financial results for such periods to the financial results of the comparable periods in 2005. The presentation of these non-GAAP financial measures is not to be considered in isolation or as a substitute for the Company's financial results prepared in accordance with GAAP.

A copy of this press release is attached hereto as Exhibit 99.1.

Item 9.01. Exhibits
