Item 2.02. Results of Operation and Financial Condition

Willdan Group, Inc. (Willdan) issued a press release on March 22, 2007. The press release announced its financial results for the fourth quarter and fiscal year ended December 29, 2006. The press release is filed as Exhibit 99.1 and is hereby incorporated by reference in its entirety. The information in this Form 8-K and the exhibit attached hereto is being furnished (not filed) under Item 2.02 of Form 8-K.

Adjusted EBITDA is a supplemental measure used by Willdan s management to measure Willdan s operating performance. Willdan defines Adjusted EBITDA as net income plus net interest expense, income tax expense (benefit), depreciation and amortization, loss (gains) on sales of assets, accrued expenses related to a litigation matter and a one-time stock-based compensation expense recorded in anticipation of Willdan s initial public offering, less proceeds from life insurance policies carried on Willdan s former chief executive officer. Willdan s definition of Adjusted EBITDA may differ from those of many companies reporting similarly named measures. This measure should be considered in addition to, and not as a substitute for or superior to, other measures of financial performance prepared in accordance with U.S. generally accepted accounting principles, or GAAP, such as operating income and net income. Willdan believes Adjusted EBITDA enables management to separate non-recurring income and expense items from our results of operations to provide a more normalized and consistent view of operating performance on a period-to-period basis. Willdan uses Adjusted EBITDA to evaluate Willdan s performance for, among other things, budgeting, forecasting and incentive compensation purposes. Willdan also believes Adjusted EBITDA is useful to investors, research analysts, investment bankers and lenders because it removes from Willdan s operational results the impact of certain non-recurring income and expense items, which may facilitate comparison of Willdan s results from period to period.
