DIAMONDROCK HOSPITALITY COMPANY

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

1. Organization

DiamondRock Hospitality Company (the Company) is a lodging focused real estate company that owns twenty hotels and resorts. The Company is committed to maximizing shareholder value through investing in premium full service hotels and, to a lesser extent, premium urban limited service hotels located throughout the United States. The Company's hotels are concentrated in key gateway cities and in destination resort locations and are all operated under a brand owned by one of the top three national brand companies (Marriott International, Inc. (Marriott), Starwood Hotels & Resorts Worldwide, Inc. (Starwood) or Hilton Hotels Corporation (Hilton)).

The Company owns, as opposed to operates, its hotels. As an owner, the Company receives all of the operating profits or losses generated by its hotels, after paying the hotel managers a fee based on the revenues and profitability of the hotels and reimbursing all of their direct and indirect operating costs. As of June 13, 2008, the Company owned twenty hotels, comprising 9,586 rooms, located in the following markets: Atlanta, Georgia (3); Austin, Texas; Boston, Massachusetts; Chicago, Illinois (2); Fort Worth, Texas; Lexington, Kentucky; Los Angeles, California (2); New York, New York (2); Northern California; Oak Brook, Illinois; Orlando, Florida; Salt Lake City, Utah; Washington D.C.; St. Thomas, U.S. Virgin Islands; and Vail, Colorado.

The Company conducts its business through a traditional umbrella partnership REIT, or UPREIT, in which the Company's hotel properties are owned by subsidiaries of its operating partnership, DiamondRock Hospitality Limited Partnership. The Company is the sole general partner of its operating partnership and currently owns, either directly or indirectly, all of the limited partnership units of the operating partnership.

2. Summary of Significant Accounting Policies

Basis of Presentation

Certain information and footnote disclosures normally included in financial statements presented in accordance with U.S. generally accepted accounting principles, or GAAP, have been condensed or omitted in the accompanying unaudited condensed consolidated financial statements. The Company believes the disclosures made are adequate to prevent the information presented from being misleading. However, the unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto as of and for the year ended December 31, 2007, included in the Company's Annual Report on Form 10-K dated February 28, 2008.

Edgar Filing: DiamondRock Hospitality Co - Form 10-Q

In the Company's opinion, the accompanying unaudited condensed consolidated financial statements reflect all adjustments necessary to present fairly the Company's financial position as of June 13, 2008, and the results of the Company's operations for the fiscal quarters ended June 13, 2008 and June 15, 2007 and for the periods from January 1, 2008 to June 13, 2008 and January 1, 2007 to June 15, 2007 and cash flows for the periods from January 1, 2008 to June 13, 2008 and January 1, 2007 to June 15, 2007. Interim results are not necessarily indicative of full-year performance because of the impact of seasonal and short-term variations.

The Company's financial statements include all of the accounts of the Company and its subsidiaries in accordance with U.S. generally accepted accounting principles. All intercompany accounts and transactions have been eliminated in consolidation.

Reporting Periods

The results reported in the Company's condensed consolidated statements of operations are based on results of its hotels reported by hotel managers. The Company's hotel managers use different reporting periods. Marriott International, the manager of most of the Company's properties, uses a fiscal year ending on the Friday closest to December 31 and reports twelve weeks of operations for each of the first three quarters and sixteen or seventeen weeks for the fourth quarter of the year for its domestic managed hotels. In contrast, Marriott, for its non-domestic hotels (including Frenchman's Reef), Vail Resorts, manager of the Vail Marriott, Noble Management Group, LLC, manager of the Westin Atlanta North at Perimeter, Hilton Hotels Corporation, manager of the Conrad Chicago, and Westin Hotel Management, L.P., manager of the Westin Boston Waterfront Hotel report results on a monthly basis. Additionally, the Company, as a REIT, is required by U.S. federal tax laws to report results on a calendar year basis. As a result, the Company has adopted the reporting periods used by

Table of Contents

Marriott International for its domestic hotels, except that the fiscal year always ends on December 31 to comply with REIT rules. The first three fiscal quarters end on the same day as Marriott International's fiscal quarters but the fourth quarter ends on December 31 and the full year results, as reported in the statement of operations, always include the same number of days as the calendar year.

Two consequences of the reporting cycle the Company has adopted are: (1) quarterly start dates will usually differ between years, except for the first quarter which always commences on January 1, and (2) the first and fourth quarters of operations and year-to-date operations may not include the same number of days as reflected in prior years.

While the reporting calendar the Company adopted is more closely aligned with the reporting calendar used by the manager of most of its properties, one final consequence of the calendar is the Company is unable to report any results for Frenchman's Reef, Vail Marriott, Westin Atlanta North at Perimeter, Conrad Chicago, or Westin Boston Waterfront Hotel for the month of operations that ends after its fiscal quarter-end because neither Westin Hotel Management, L.P., Hilton Hotels Corporation, Noble Management Group, LLC, Vail Resorts nor Marriott International make mid-month results available. As a result, the quarterly results of operations include results from Frenchman's Reef, the Vail Marriott, the Westin Atlanta North at Perimeter, the Conrad Chicago, and the Westin Boston Waterfront Hotel as follows: first quarter (January, February), second quarter (March to May), third quarter (June to August) and fourth quarter (September to December). While this does not affect full-year results, it does affect the reporting of quarterly results.

Revenue Recognition

Revenues from operations of the hotels are recognized when the services are provided. Revenues consist of room sales, golf sales, food and beverage sales, and other hotel department revenues, such as telephone and gift shop sales.

Earnings Per Share

Basic earnings per share is calculated by dividing net income, adjusted for dividends on unvested stock grants, by the weighted-average number of common shares outstanding during the period. Diluted earnings per share is calculated by dividing net income, adjusted for dividends on unvested stock grants, by the weighted-average number of common shares outstanding during the period plus other potentially dilutive securities such as stock grants or shares issuable in the event of conversion of operating partnership units. No adjustment is made for shares that are anti-dilutive during a period.

Stock-based Compensation

The Company accounts for stock-based employee compensation using the fair value based method of accounting under Statement of Financial Accounting Standards No. 123 (revised 2004) (SFAS 123R), *Share-Based Payment*. The Company records the cost of awards with service conditions based on the grant-date fair value of the award. That cost is recognized over the period during which an employee is required to provide service in exchange for the award. No compensation cost is recognized for equity instruments for which employees do not render the requisite service. No awards with performance-based or market-based conditions have been issued.

Key Money

Key money received in conjunction with entering into hotel management agreements is deferred and amortized over the term of the hotel management agreement. Key money is classified as deferred income on the accompanying condensed consolidated balance sheets and amortized against management fees on the accompanying condensed consolidated statements of operations.

Yield Support

Marriott has provided the Company with operating cash flow guarantees for certain hotels to fund shortfalls of actual hotel operating income compared to a negotiated target net operating income. The Company refers to these guarantees as yield support. Yield support received is recognized over the period earned if the yield support is not refundable and there is reasonable uncertainty of receipt at inception of the management agreement. Yield support is recorded as an offset to base management fees.

Table of Contents

Intangible Assets

Intangible assets are recorded on non-market contracts assumed as part of the acquisition of certain hotels. The Company records intangible assets at fair value on the acquisition date. Intangible assets with definite lives are amortized using the straight-line method over the remaining non-cancelable term of the contract. The Company does not amortize intangible assets with indefinite useful lives, but reviews these assets for impairment if events or circumstances indicate that the asset may be impaired.

Favorable Lease Assets and Unfavorable Contract Liabilities

The Company reviews the terms of agreements assumed in conjunction with the purchase of a hotel to determine if the terms are favorable or unfavorable compared to a market agreement at the acquisition date. Favorable lease assets or unfavorable contract liabilities are recorded at the acquisition date and amortized over the term of the agreement.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of cash and cash equivalents. The Company maintains cash and cash equivalents with various high credit-quality financial institutions. The Company performs periodic evaluations of the relative credit standing of these financial institutions and limits the amount of credit exposure with any one institution.

Straight-Line Rent

The Company records rent expense on leases that provide for minimum rental payments that increase in pre-established amounts over the remaining term of the lease on a straight-line basis as required by U.S. generally accepted accounting principles.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. Property and Equipment

Property and equipment as of June 13, 2008 (unaudited) and December 31, 2007 consists of the following (in thousands):

	June 13, 2008	December 31, 2007
Land	\$ 219,590	\$ 219,590
Land improvements	7,994	7,994

Less: accumulated depreciation	(182,922)	(148,101)
	\$ 1,940,350	\$ 1,938,832

As of June 13, 2008 and December 31, 2007, the Company had accrued capital expenditures of \$10.4 million and \$10.8 million, respectively.

4. Capital Stock*Common Shares*

The Company is authorized to issue up to 200,000,000 shares of common stock, \$.01 par value per share. Each outstanding share of common stock entitles the holder to one vote on all matters submitted to a vote of stockholders. Holders

Table of Contents

of the Company's common stock are entitled to receive dividends out of assets legally available for the payment of dividends when authorized by the Company's board of directors.

Share Repurchase Program

On February 27, 2008, the Company's Board of Directors authorized a program to repurchase up to 4.8 million shares of its common stock. The common stock may be purchased in the open market or through private transactions, dependent upon market conditions. The plan does not obligate the Company to repurchase any specific number of shares and may be suspended at any time at its discretion. As of July 21, 2008, the Company has purchased 2.8 million shares under this program for an average price of \$10.74 per share. The Company has retired all shares purchased under the program on the settlement date.

Preferred Shares

The Company is authorized to issue up to 10,000,000 shares of preferred stock, \$.01 par value per share. The Company's board of directors is required to set for each class or series of preferred stock the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications, and terms or conditions of redemption. As of June 13, 2008 and December 31, 2007, there were no shares of preferred stock outstanding.

5. Stock Incentive Plans

As of June 13, 2008, the Company has issued or committed to issue 1,493,491 shares of its common stock under its 2004 Stock Option and Incentive Plan, as amended, including 474,701 shares of unvested restricted common stock and a commitment to issue 445,185 units of deferred common stock.

Restricted Stock Awards

As of June 13, 2008, the Company's officers and employees have been awarded 1,338,246 shares of restricted common stock, including those shares that have since vested. Shares issued to the Company's officers and employees vest over a three-year period from the date of the grant based on continued employment. The Company measures compensation expense for the restricted stock awards based upon the fair market value of its common stock at the date of grant. Compensation expense is recognized on a straight-line basis over the vesting period and is included in corporate expenses in the accompanying condensed consolidated statements of operations.

A summary of the Company's restricted stock awards from January 1, 2006 to June 13, 2008 is as follows:

	Number of Shares		Weighted- Average Grant Date Fair Value
Unvested balance at January 1, 2006	747,000	\$	10.04
Granted	197,360		15.91
Vested	(482,833)		10.02
Unvested balance at December 31, 2006	461,527		12.57
Granted	199,885		17.99
Vested	(314,787)		11.27
Unvested balance at December 31, 2007	346,625		16.88
Granted	194,001		12.59
Vested	(65,925)		18.00
Unvested balance at June 13, 2008	474,701	\$	14.97

The remaining share awards will vest as follows: 81,658 shares during 2008, 197,076 shares during 2009, 131,296 shares during 2010 and 64,671 during 2011. As of June 13, 2008, the unrecognized compensation cost related to restricted stock awards was \$5.4 million and the weighted-average period over which the unrecognized compensation expense will be recorded is approximately 23 months. For the fiscal quarters ended June 13, 2008 and June 15, 2007, the Company recorded \$0.7 million and \$1.1 million, respectively, of compensation expense related to restricted stock awards. For the periods from January 1, 2008 to June 13, 2008 and January 1, 2007 to June 15, 2007, the Company recorded \$1.4 million and \$2.1 million, respectively, of compensation expense related to restricted stock awards.

Table of Contents*Deferred Stock Awards*

At the time of the Company's initial public offering, the Company made a commitment to issue 382,500 shares of deferred stock units to the Company's senior executive officers. These deferred stock units are fully vested and represent the promise of the Company to issue a number of shares of the Company's common stock to each senior executive officer upon the earlier of (i) a change of control or (ii) five years after the date of grant, which was the initial public offering completion date (the Deferral Period). However, if an executive's service with the Company is terminated for cause prior to the expiration of the Deferral Period, all deferred stock unit awards will be forfeited. The executive officers are restricted from transferring these shares until the fifth anniversary of the initial public offering completion date. As of June 13, 2008, the Company has a commitment to issue 445,185 shares under this plan. The share commitment increased from 382,500 to 445,185 since the Company's initial public offering because current dividends are not paid out but instead are effectively reinvested at the dividend payment date's closing price of the Company's common stock. No expense has been recognized during 2008 or 2007 for these awards. During 2005, the Company recorded \$3.7 million of stock based compensation expense related to these awards.

Stock Appreciation Rights and Dividend Equivalent Rights

Beginning in 2008, the equity compensation issued to the Company's corporate officers included stock-settled Stock Appreciation Rights (SARs) and Dividend Equivalent Rights (DERs). The SARs/DERs vest over three years based on continued employment and may be exercised, in whole or in part, at any time after the instrument vests and before the tenth anniversary of issuance. Upon exercise, the holder of a SAR is entitled to receive a number of common shares equal to the positive difference, if any, between the closing price of the Company's common stock on the exercise date and the strike price. The strike price is equal to the closing price of the Company's common stock on the SAR grant date. The Company has also issued one DER for each SAR. A DER will entitle the holder to the value of dividends issued on one share of common stock. No dividends will be paid on a DER prior to its vesting, but upon vesting, the holder of each DER will receive a lump sum equal to the cumulative dividends paid per share of common stock from the grant date through the vesting date. The DER will terminate upon exercise or expiration of each SAR. The Company measures compensation expense of the SAR/DER awards based upon the fair market value of these awards at the date of the grant. Compensation expense is recognized on a straight-line basis over the vesting period and is included in corporate expenses in the accompanying condensed consolidated statements of operations.

On March 4, 2008, the Company issued 300,225 SARs/DERs to its executive officers with an aggregate fair value of approximately \$2.0 million. The strike price of the SARs is \$12.59. For the period from January 1, 2008 to June 13, 2008, the Company has recorded approximately \$0.2 million of compensation expense related to the SARs/DERs. A summary of the Company's unvested SARs/DERs as of June 13, 2008 is as follows:

	Number of SARs/DERs	Weighted- Average Grant Date Fair Value
Balance at January 1, 2008		\$
Granted	300,225	6.62
Vested		
Balance at June 13, 2008	300,225	\$ 6.62

6. Earnings Per Share

Edgar Filing: DiamondRock Hospitality Co - Form 10-Q

Basic earnings per share is calculated by dividing net income available to common shareholders by the weighted-average number of common shares outstanding. Diluted earnings per share is calculated by dividing net income available to common shareholders, that has been adjusted for dilutive securities, by the weighted-average number of common shares outstanding including dilutive securities. No effect is shown for securities that are anti-dilutive. The Company's unvested SARs were not included in the computation of diluted earnings per share because to do so would have been antidilutive.

The following is a reconciliation of the calculation of basic and diluted earnings per share (in thousands, except share and per share data):

7. Debt

The Company has incurred limited recourse, property specific mortgage debt in conjunction with certain of its hotels. In the event of default, the lender may only foreclose on the pledged assets; however, in the event of fraud, misapplication of funds and other customary recourse

provisions, the lender may seek payment from the Company. As of June 13, 2008, twelve of the Company's twenty hotel properties were secured by mortgage debt. The Company's mortgage debt contains certain property specific covenants and restrictions, including minimum debt service coverage ratios that trigger cash management provisions as well as restrictions on incurring additional debt without lender consent. As of June 13, 2008, the Company was in compliance with the financial covenants of its mortgage debt.

The following table sets forth information regarding the Company's debt as of June 13, 2008 (unaudited), in thousands:

The Company is party to a four-year, \$200.0 million unsecured credit facility (the Facility) expiring in February 2011. The Company may extend the maturity date of the Facility for an additional year upon the payment of applicable fees and the satisfaction of certain other customary conditions.

Interest is paid on the periodic advances under the Facility at varying rates, based upon either LIBOR or the alternate base rate, plus an agreed upon additional margin amount. The interest rate depends upon the Company s level of outstanding indebtedness in relation to the value of its assets from time to time, as follows:

	Leverage Ratio			
	60% or greater	55% to 60%	50% to 55%	Less than 50%
Alternate base rate margin	0.65%	0.45%	0.25%	0.00%
LIBOR margin	1.55%	1.45%	1.25%	0.95%

The Facility contains various corporate financial covenants. A summary of the most restrictive covenants is as follows:

Covenant	Actual at June 13, 2008
Maximum leverage ratio	65% / 35.6%
Minimum fixed charge coverage ratio	1.6x / 3.9x
Minimum tangible net worth	\$738.4 million / \$1.2 billion
Unhedged floating rate debt as a percentage of total indebtedness	35% / 4.3%

Edgar Filing: DiamondRock Hospitality Co - Form 10-Q

The Facility requires that the Company maintain a specific pool of unencumbered borrowing base properties. The unencumbered borrowing base assets are subject to the following limitations and covenants:

	Covenant	Actual at June 13, 2008
Minimum implied debt service ratio	1.5x	24.9x
Maximum unencumbered leverage ratio	65%	3.7%
Minimum number of unencumbered borrowing base properties	4	8
Minimum unencumbered borrowing base value	\$150 million	\$869.0 million
Percentage of total asset value owned by borrowers or guarantors	90%	100%

In addition to the interest payable on amounts outstanding under the Facility, the Company is required to pay an amount equal to 0.20% of the unused portion of the Facility if the unused portion of the Facility is greater than 50% and

Table of Contents

0.125% if the unused portion of the Facility is less than 50%. The Company incurred interest and unused credit facility fees on the Facility of \$0.4 million and \$0.6 million for the fiscal quarters ended June 13, 2008 and June 15, 2007, respectively and \$0.6 million and \$1.0 million for the periods from January 1, 2008 to June 13, 2008 and January 1, 2007 to June 15, 2007, respectively. As of June 13, 2008, the Company had \$32.0 million outstanding under the Facility. Subsequent to June 13, 2008, the Company drew an additional \$34 million, net, under the Facility.

8. Discontinued Operations

On December 21, 2007, the Company sold the SpringHill Suites Atlanta Buckhead for \$36.0 million, resulting in a gain of approximately \$3.8 million, net of \$0.1 million of income taxes. The following table summarizes the components of discontinued operations in the condensed consolidated statements of operations for the periods presented (in thousands):

10. Transactions with Hotel Managers

Key Money

Edgar Filing: DiamondRock Hospitality Co - Form 10-Q

Marriott has contributed to the Company certain amounts in exchange for the right to manage hotels the Company has acquired or for the completion of certain brand enhancing capital projects. The Company refers to these amounts as key money. Marriott has provided the Company with key money of approximately \$22 million in the aggregate in connection with the acquisitions of six of its hotels, \$10 million of which was offered for the Chicago Marriott in exchange for a commitment to complete the renovation of certain public spaces and meeting rooms at the hotel. The Company received \$5 million during the third fiscal quarter of 2007 and the remaining \$5 million in January 2008.

On September 27, 2007, the Company and Hilton Hotels Corporation, the manager of the Conrad Chicago, amended the management agreement of the hotel to allow an exception to the territorial restriction and permit a new Chicago suburban airport Conrad hotel. In connection with this amendment, the Company will receive up to \$1.8 million over the new hotel development period. These payments will be accounted for as key money when received and amortized over the remaining term of the management agreement.

11. Commitments and Contingencies

Litigation

The Company is not involved in any material litigation nor, to its knowledge, is any material litigation threatened against the Company. The Company is involved in routine litigation arising out of the ordinary course of business, all of

which is expected to be covered by insurance and none of which is expected to have a material impact on its financial condition or results of operations.

Income Taxes

The Company had no accruals for tax uncertainties as of June 13, 2008 and December 31, 2007. As of June 13, 2008, all of the Company's federal income tax returns and state tax returns for the jurisdictions in which the Company's hotels are located remain subject to examination by the respective jurisdiction tax authorities.

12. Fair Value Measurements

The Company implemented the provisions of Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157), on January 1, 2008 for financial assets and liabilities recognized or disclosed at fair value. The implementation of SFAS 157 did not have a material impact on the Company's results of operations, financial position or cash flows. There were no assets or liabilities that would have been measured differently had the unimplemented provisions of SFAS 157 deferred by FASB Staff Position No. 157-2 been implemented as of January 1, 2008.

13. Subsequent Event

On July 7, 2008, the Company announced that Mark W. Brugger had been named Chief Executive Officer, effective September 1, 2008. After that date, William W. McCarten, the Company's current Chief Executive Officer and Chairman of the Board of Directors, will continue in his role as Executive Chairman. In addition, the Board of Directors has announced that, effective September 1, 2008, it will expand the Board of Directors from 6 members to 7 members in connection with the appointment of Mr. Brugger as a member of the Board of Directors.

Overview

We are a lodging focused real estate company that owns, as of July 22, 2008, twenty premium hotels and resorts which contain approximately 9,600 guestrooms. We are committed to maximizing shareholder value through investing in premium full service hotels and, to a lesser extent, premium urban limited service hotels located throughout the United States. Our hotels are concentrated in key gateway cities and in destination resort locations and are all operated under a brand owned by one of the top three national brand companies (Marriott, Starwood or Hilton).

We are owners, as opposed to operators, of hotels. As owners, we receive all of the operating profits or losses generated by our hotels, after we pay the hotel managers a fee based on the revenues and profitability of the hotels and reimburse all of their direct and indirect operating costs.

As owners, we create value by acquiring the right hotels with the right brands in the right markets, prudently financing our hotels, thoughtfully re-investing capital in our hotels, implementing profitable operating strategies and approving the annual operating and capital budgets for our hotels, closely monitoring the performance of our hotels, and deciding if and when to sell our hotels. In addition, we are committed to enhancing the value of our operating platform by being open and transparent in our communications with investors, monitoring our corporate overhead and following corporate governance best practice.

We differentiate ourselves from our competitors because of our adherence to three basic principles:

- high quality urban and resort focused real estate;
- conservative capital structure; and
- thoughtful asset management.

High Quality Urban and Resort Focused Real Estate

We own twenty premium hotels and resorts in North America. These hotels and resorts are primarily categorized as upper upscale as defined by Smith Travel Research and are generally located in high barrier to entry markets with multiple demand generators.

Our properties are concentrated in five key gateway cities (New York City, Los Angeles, Chicago, Boston and Atlanta) and in destination resorts (such as the U.S. Virgin Islands and Vail, Colorado). We believe that these gateway cities and destination resorts are high growth markets because they are attractive business and leisure destinations. We also believe that these locations are better insulated from new supply due to relatively high barriers to entry and expensive construction costs.

We believe that higher quality lodging assets create more dynamic cash flow growth and superior long-term capital appreciation.

Table of Contents

Conservative Capital Structure

We are committed to maintaining a conservative and flexible capital structure with prudent leverage levels. During 2004 through early 2007, we took advantage of the low interest rate environment by fixing our debt rates for an extended period of time. Depending on the outlook for interest rates in the future, we maintain the flexibility to modify these strategies.

As of June 13, 2008, 95.7% of our debt carried fixed interest rates, with a weighted-average interest rate of 5.5%, and a weighted-average maturity of 6.9 years. As of June 13, 2008, we had \$855.1 million of debt outstanding, representing a net debt-to-enterprise value ratio of 42.1%, which is calculated as our net debt (debt less unrestricted cash) divided by our enterprise value, which is our market capitalization plus net debt.

We prefer a relatively simple but efficient capital structure. We have not invested in joint ventures and have not issued any operating partnership units or preferred stock. We endeavor to structure our hotel acquisitions so that they will not overly complicate our capital structure; however, we will consider a more complex transaction if we believe that the projected returns to our stockholders will significantly exceed the returns that would otherwise be available.

Thoughtful Asset Management

We believe that we are able to create significant value in our portfolio by utilizing our management's extensive experience and our innovative asset management strategies.

Our senior management team has established a broad network of hotel industry contacts and relationships, including relationships with hotel owners, financiers, operators, project managers and contractors and other key industry participants.

We use our broad network to maximize the value of our hotels. Under the regulations governing REITs, we are required to engage a hotel manager through one of our subsidiaries to manage each of our hotels pursuant to a management agreement. Our philosophy is to negotiate management agreements that give us the right to exert significant influence over the management of our properties, annual budgets and all capital expenditures, and then to use those rights to continually monitor and improve the performance of our properties. We cooperatively partner with the managers of our hotels in an attempt to increase operating results and long-term asset values at our hotels. In addition to working directly with the personnel at our hotels, our senior management team also has long-standing professional relationships with our hotel managers' senior executives, and we work directly with these senior executives to improve the performance of our portfolio.

We believe we can create significant value in our portfolio through innovative asset management strategies such as rebranding, renovating and repositioning. We are committed to regularly evaluating our portfolio to determine if we can employ these value-added strategies at our hotels. During 2006, 2007 and the period from January 1, 2008 to June 13, 2008, we completed a significant amount of capital reinvestment in our hotels completing projects that ranged from room renovations (Courtyard Manhattan/Midtown East, Los Angeles Airport Marriott, Bethesda Marriott Suites, Orlando Airport Marriott, Frenchman's Reef & Morning Star Marriott Beach Resort and Westin Atlanta North at Perimeter) to a

Edgar Filing: DiamondRock Hospitality Co - Form 10-Q

total renovation and repositioning of the hotel (Torrance Marriott South Bay and the Oak Brook Hills Marriott Resort) to the addition of new meeting space, spa or restaurant repositioning (Westin Boston Waterfront, Chicago Marriott and Marriott Griffin Gate Resort). By the end of 2008, we expect to have fully renovated nearly all of the hotels in our portfolio. In connection with our planned renovations and repositionings, our senior management team and our asset managers are individually committed to completing these renovations on time, on budget and with minimum disruption at our hotels.

A core tenet of our asset management strategy is to leverage national hotel brands. We strongly believe in the value of powerful national brands because we believe that they are able to produce incremental revenue and profits compared to similar unbranded hotels. Dominant national hotel brands typically have very strong reservation and reward systems and sales organizations, as a result, all of our hotels are operated under a brand owned by one of the top three national brand companies (Marriott, Starwood or Hilton) and all but two of the hotels are operated by the brand company directly. Generally, we are interested in acquiring only those hotels that are operated under a nationally recognized brand or can be converted into a branded hotel.

Key Indicators of Financial Condition and Operating Performance

We use a variety of operating and other information to evaluate the financial condition and operating performance of our business. These key indicators include financial information that is prepared in accordance with GAAP, as well as other financial information that is not prepared in accordance with GAAP. In addition, we use other information that may not be financial in nature, including statistical information and comparative data. We use this information to measure the performance of individual hotels, groups of hotels and/or our business as a whole. We periodically compare historical information to our internal budgets as well as industry-wide information. These key indicators include:

- Occupancy percentage;
- Average Daily Rate (or ADR);
- Revenue per Available Room (or RevPAR);
- Earnings Before Interest, Income Taxes, Depreciation and Amortization (or EBITDA); and
- Funds From Operations (or FFO).

Occupancy, ADR and RevPAR are commonly used measures within the hotel industry to evaluate operating performance. RevPAR, which is calculated as the product of ADR and occupancy percentage, is an important statistic for monitoring operating performance at the individual hotel level and across our business as a whole. We evaluate individual hotel RevPAR performance on an absolute basis with comparisons to budget and prior periods, as well as on a company-wide and regional basis. ADR and RevPAR include only room revenue. Room revenue comprised approximately 64% of our total revenues for the fiscal quarter ended June 13, 2008, and is dictated by demand, as measured by occupancy percentage, pricing, as measured by ADR, and our available supply of hotel rooms.

Our ADR, occupancy percentage and RevPAR performance may be impacted by macroeconomic factors such as regional and local employment growth, personal income and corporate earnings, office vacancy rates and business relocation decisions, airport and other business and leisure travel, new hotel construction and the pricing strategies of competitors. In addition, our ADR, occupancy percentage and RevPAR performance is dependent on the continued success of Marriott and its brands as well as the Westin and Conrad brands.

We also use EBITDA and FFO as measures of the financial performance of our business. See Non-GAAP Financial Matters.

The following table sets forth certain operating information for each of our hotels for the period from January 1, 2008 to June 13, 2008. (1) The Frenchman's Reef & Morning Star Marriott Beach Resort, Vail Marriott Mountain Resort & Spa, Westin Atlanta North at Perimeter, Conrad Chicago and the Westin Boston Waterfront Hotel report operations on a calendar month and year basis. The period from January 1, 2008 to June 13, 2008 includes the operations for the period from January 1, 2008 to May 31, 2008 for these five hotels.

Recent Development

On July 7, 2008, we announced that Mark W. Brugger had been named Chief Executive Officer, effective September 1, 2008. After that date, William W. McCarten, our current Chief Executive Officer and Chairman of the Board of Directors, will continue in his role as Executive Chairman. In addition, the Board of Directors has announced that, effective September 1, 2008, it will expand the Board of Directors from 6 members to 7 members in connection with the appointment of Mr. Brugger as a member of the Board of Directors.

Outlook

After several years of above-average growth in the lodging industry, the operating environment has become challenging. The economic drivers that impact underlying lodging demand, such as GDP growth, corporate earnings, consumer confidence and employment, have deteriorated during the first half of 2008. We believe that such economic drivers may remain weak or further weaken in the second half of the year and into 2009. The decline in these lodging demand drivers has resulted in a significantly lower revenue growth rate for our hotels, and thus we currently project that our total revenue from continuing operations will contract during the second half of 2008 compared to the same period in 2007. We have a strong balance sheet and have maintained one of the lowest levels of leverage in the industry.

Furthermore, we believe that slowing economy and its impact on demand drivers has resulted in lower transient demand in the lodging industry, primarily from the customers in the corporate and leisure segments that comprise approximately 60% of our room sales. In an uncertain economy where consumers and corporations have a negative outlook, it is very difficult to accurately forecast the behavior of these individual travelers, but it is clear that lodging demand has declined compared to the prior year. We believe that a number of these individual travelers will continue to postpone or eliminate travel, or travel on a reduced budget, until consumer and business sentiment improves. As a result, we currently expect full year RevPAR to contract by 1 to 3 percent.

Moreover, while we are taking cost containment measures at our hotels certain of our cost categories are increasing at a rate greater than the current rate of inflation, including wages, benefits, utilities and real estate taxes. The combination of declining revenues and increasing operating costs will impact our operating results over the next several fiscal quarters and into 2009. In addition, certain of our markets will experience new hotel supply in 2009, the most significant of which is in Fort Worth, Texas, where we have one hotel.

Although negative operating trends are likely to extend for some period of time, we expect operating results to improve when the general economy improves.

Results of Operations

Edgar Filing: DiamondRock Hospitality Co - Form 10-Q

As of June 13, 2008, we owned twenty hotels. Our total assets were \$2.1 billion as of June 13, 2008. Total liabilities were \$1.1 billion as of June 13, 2008, including \$855.1 million of debt. Shareholders' equity was approximately \$1.1 billion as of June 13, 2008. Our total assets were \$2.1 billion as of December 31, 2007. Total liabilities were \$1.1 billion as of December 31, 2007, including \$824.5 million of debt. Shareholders' equity was approximately \$1.1 billion as of December 31, 2007.

Comparison of the Fiscal Quarter Ended June 13, 2008 to the Fiscal Quarter Ended June 15, 2007

Our net income for the fiscal quarter ended June 13, 2008 was \$21.8 million compared to \$20.5 million for the fiscal quarter ended June 15, 2007.

Revenue. Revenue from continuing operations consists primarily of the room, food and beverage and other operating revenues from our hotels. Revenues for the fiscal quarters ended June 13, 2008 and June 15, 2007, respectively, consist of the following (in thousands):

Our total revenues from continuing operations increased \$3.1 million, from \$177.9 million for the fiscal quarter ended June 15, 2007 to \$181.0 million for the fiscal quarter ended June 13, 2008. This increase is primarily the result of a 1.5 percent RevPAR increase at our hotels driven by a 2.2 percent increase in the average daily rate and a 0.5 percent decrease in occupancy. The performance of our hotels varied by market. For instance, our New York City and Chicago markets were stronger while certain of our other markets, including Atlanta and Boston, were softer.

Hotel operating expenses. Hotel operating expenses from continuing operations consist primarily of operating expenses of our hotels, including non-cash ground rent expense. The operating expenses for the fiscal quarters ended June 13, 2008 and June 15, 2007, respectively, consist of the following (in millions):

	Fiscal Quarter Ended June 13, 2008	Fiscal Quarter Ended June 15, 2007
Rooms departmental expenses	\$ 26.2	\$ 25.1
Food and beverage departmental expenses	36.4	35.7

Depreciation and amortization. Depreciation and amortization is recorded on our hotel buildings over 40 years for the periods subsequent to acquisition. Depreciable lives of hotel furniture, fixtures and equipment are estimated as the time period between the acquisition date and the date that the hotel furniture, fixtures and equipment will be replaced. Our depreciation and amortization expense increased \$0.7 million from \$17.4 million for the fiscal quarter ended June 15, 2007 to \$18.1 million for the fiscal quarter ended June 13, 2008 due to increased capital expenditures in 2008, primarily consisting of the capital projects at the Chicago Marriott and the Westin Boston Waterfront Hotel.

Corporate expenses. Our corporate expenses were \$3.3 million for the fiscal quarters ended June 15, 2007 and June 13, 2008. Corporate expenses principally consist of employee-related costs, including base payroll, bonus and restricted stock. Corporate expenses also include corporate operating costs, professional fees and directors' fees.

Interest expense. Our interest expense decreased \$0.5 million from \$11.9 million for the fiscal quarter ended June 15, 2007 to \$11.4 million for the fiscal quarter ended June 13, 2008. The decrease in interest expense is primarily attributable to the refinancing of our mortgage on the Bethesda Marriott in 2007, which resulted in reduced borrowings at a lower interest rate, and a lower interest rate on the outstanding borrowings under our credit facility during the second fiscal quarter of 2008. The 2008 interest expense is comprised of mortgage debt (\$10.8 million), amortization of deferred financing costs (\$0.2 million) and interest and unused facility fees on our credit facility (\$0.4 million). The 2007 interest expense is comprised of mortgage debt (\$11.2 million), amortization of deferred financing costs (\$0.1 million) and interest and unused facility fees on our credit facility (\$0.6 million).

As of June 13, 2008, we had property-specific mortgage debt outstanding on twelve of our hotels. On all but one of the hotels, we have fixed-rate secured debt, which bears interest at rates ranging from 5.11% to 6.48% per year. Amounts drawn under the credit facility bear interest at a variable rate that fluctuates based on the level of outstanding indebtedness in relation to the value of our assets from time to time. The weighted-average interest rate as of June 13, 2008 on the outstanding balance under our credit facility was 3.40% as compared to 6.27% as of June 15, 2007. We had \$32.0 million drawn on the credit facility as of June 13, 2008. Subsequent to June 13, 2008, we drew an additional \$34.0 million, net, under the credit facility. Our weighted-average interest rate on all debt as of June 13, 2008 was 5.5%.

Interest income. Interest income decreased \$0.4 million from \$0.7 million for the fiscal quarter ended June 15, 2007 to \$0.3 million for the fiscal quarter ended June 13, 2008 primarily due to lower interest rates earned on our corporate cash in 2008.

Discontinued operations. Income from discontinued operations for the fiscal quarter ended June 15, 2007 was the result of the sale of the SpringHill Suites Atlanta Buckhead on December 21, 2007.

Income taxes. We recorded an income tax expense for income from continuing operations of \$0.9 million and \$3.2 million for the fiscal quarters ended June 13, 2008 and June 15, 2007, respectively. The second quarter 2008 income tax expense was incurred on the \$0.6 million pre-tax income of our taxable REIT subsidiary, or TRS, for the fiscal quarter ended June 13, 2008, together with foreign income tax expense of \$0.5 million related to the taxable REIT subsidiary that owns the Frenchman's Reef & Morning Star Marriott Beach Resort. The second quarter 2007 income tax expense was incurred on the \$7.4 million pre-tax income of our TRS for the fiscal quarter ended June 15, 2007, together with foreign income tax expense

Comparison of the Period from January 1, 2008 to June 13, 2008 to the Period from January 1, 2007 to June 15, 2007

Our net income for the period from January 1, 2008 to June 13, 2008 was \$26.9 million compared to \$27.3 million for the period from January 1, 2007 to June 15, 2007.

Revenue. Revenue from continuing operations consists primarily of the room, food and beverage and other operating revenues from our hotels. Revenues for the periods from January 1, 2008 to June 13, 2008 and January 1, 2007 to June 15, 2007, respectively, consist of the following (in thousands):

Food and beverage	95,614	95,722
Other	16,327	15,429
Total revenues	\$ 313,879	\$ 310,157

Our total revenues from continuing operations increased \$3.7 million, from \$310.2 million for the period from January 1, 2007 to June 15, 2007 to \$313.9 million for the period from January 1, 2008 to June 13, 2008. The increase is primarily due to a 1.0 percent increase in RevPAR, driven by a 2.7 percent increase in average daily rate and a 1.2 percent decrease in occupancy. Throughout the first half of 2008 our hotels experienced a wide range in operating performance, varying by market. The results for the period from January 1, 2008 to June 13, 2008 were significantly impacted by the performance of the Chicago Marriott Downtown, which experienced both disruption from a substantial renovation as well as a weak convention calendar during the first quarter of 2008, partially offset by a stronger market during the second quarter of 2008.

Individual hotel revenues for the periods from January 1, 2008 to June 13, 2008 and January 1, 2007 to June 15, 2007, respectively, consist of the following (in millions):

Corporate expenses. Our corporate expenses decreased from \$6.4 million for the period from January 1, 2007 to June 15, 2007 to \$6.3 million for the period from January 1, 2008 to June 13, 2008 primarily due to lower stock compensation expense in 2008 partially offset by higher legal and payroll costs. Corporate expenses principally consist of employee-related costs, including base payroll, bonus and restricted stock. Corporate expenses also include corporate operating costs, professional fees and directors' fees.

Interest expense. Our interest expense decreased \$1.3 million from \$23.4 million for the period from January 1, 2007 to June 15, 2007 to \$22.1 million for the period from January 1, 2008 to June 13, 2008. The decrease in interest expense is primarily attributable to the refinancing of our mortgage on the Bethesda Marriott in 2007, which resulted in reduced borrowings at a lower interest rate and a lower interest rate on outstanding borrowings under our credit facility during the period from January 1, 2008 to June 13, 2008. Our weighted-average interest rate on all debt as of June 13, 2008 was 5.5%.

Interest income. Interest income decreased \$0.5 million from \$1.3 million for the period from January 1, 2007 to June 15, 2007 to \$0.8 million for the period from January 1, 2008 to June 13, 2008 primarily due to lower interest rates earned on our corporate cash in 2008.

Discontinued operations. Income from discontinued operations for the period from January 1, 2007 to June 15, 2007 was the result of the sale of the SpringHill Suites Atlanta Buckhead on December 21, 2007.

Income taxes. We recorded an income tax benefit of \$2.8 million for the period from January 1, 2008 to June 13, 2008 and an income tax expense of \$1.6 million for the period January 1, 2007 to June 15, 2007, respectively. The 2008 income tax benefit was incurred on the \$9.9 million pre-tax loss of our taxable REIT subsidiary, or TRS, for the period from January 1, 2008 to June 13, 2008, together with foreign income tax expense of \$0.9 million related to the taxable REIT subsidiary that owns the Frenchman's Reef & Morning Star Marriott Beach Resort. The 2007 income tax expense was incurred on the \$3.1 million pre-tax income of our TRS for the period from January 1, 2007 to June 15, 2007, together with foreign income tax expense of \$0.4 million related to the taxable REIT subsidiary that owns the Frenchman's Reef & Morning Star Marriott Beach Resort.

Liquidity and Capital Resources

Our short-term liquidity requirements consist primarily of funds necessary to fund future distributions to our stockholders to maintain our REIT status, funds required to purchase shares under our share repurchase program and funds required for corporate expenses as well as to pay for operating expenses and other expenditures directly associated with our hotels, including maintenance and recurring capital expenditures as well as payments of interest and principal. We expect to meet our short-term liquidity requirements generally through net cash provided by operations, existing cash balances and short-term borrowings under our credit facility.

Our long-term liquidity requirements consist primarily of funds necessary to pay for the costs of acquiring additional hotels, renovations, expansions and other capital expenditures that need to be made periodically to our hotels, scheduled debt payments and making distributions to our stockholders. We expect to meet our long-term liquidity requirements through various sources of capital, cash provided by operations, existing cash balances, and borrowings as well as through the issuances of additional equity or debt securities. Our ability to incur additional debt is dependent upon a number of factors, including our degree of leverage, the value of our unencumbered assets and borrowing restrictions imposed by existing lenders. Our ability to raise funds through the issuance of debt and equity securities is dependent upon, among other things, general market conditions for REITs and market perceptions about us.

Our Financing Strategy

We are committed to maintaining a conservative capital structure with aggregate leverage weighted towards long-term fixed-rate debt. However, we maintain the flexibility to modify these strategies if we believe fundamental changes have occurred in the capital or lodging markets.

As of June 13, 2008, 95.7% of our debt carries fixed interest rates, with a weighted-average interest rate of 5.5%, and a weighted-average maturity of 6.9 years. As of June 13, 2008, we had \$855.1 million of debt outstanding.

We have a strong preference towards fixed-rate, long-term, limited recourse, single property specific debt. When possible and desirable, we will seek to replace short-term sources of capital with long-term financing. In addition to property-specific debt and our credit facility, we intend to use other financing methods as necessary, including obtaining funds from banks, institutional investors or other lenders, bridge loans, letters of credit and other arrangements, any of which may be unsecured or may be secured by mortgages or other interests in our investments. In addition, we may issue publicly or privately placed debt instruments.

Share Repurchase Program

On February 27, 2008, our Board of Directors authorized a program to repurchase up to 4.8 million shares of our common stock. The common stock may be purchased in the open market or through private transactions, dependent upon market conditions. The plan does not obligate us to repurchase any specific number of shares and may be suspended at any time at our discretion. As of July 21, 2008, we have purchased 2.8 million shares under this program at an average price of \$10.74 per share. We have retired all shares purchased under the program on the settlement date.

Credit Facility

We are party to a four-year, \$200.0 million unsecured credit facility (the Facility) expiring in February 2011. We may extend the maturity date of the Facility for an additional year upon the payment of applicable fees and the satisfaction of certain other customary conditions.

Interest is paid on the periodic advances under the Facility at varying rates, based upon either LIBOR or the alternate base rate, plus an agreed upon additional margin amount. The interest rate depends upon our level of outstanding indebtedness in relation to the value of our assets from time to time, as follows:

	Leverage Ratio			
	60% or greater	55% to 60%	50% to 55%	less than 50%
Alternate base rate margin	0.65%	0.45%	0.25%	0.00%
LIBOR margin	1.55%	1.45%	1.25%	0.95%

Our Facility contains various corporate financial covenants. A summary of the most restrictive covenants is as follows:

	Covenant	Actual at June 13, 2008
Maximum leverage ratio	65%	35.6%
Minimum fixed charge coverage ratio	1.6x	3.9x
Minimum tangible net worth	\$738.4 million	\$1.2 billion
Unhedged floating rate debt as a percentage of total indebtedness	35%	4.3%

Our Facility requires that we maintain a specific pool of unencumbered borrowing base properties. The unencumbered borrowing base assets are subject to the following limitations and covenants:

Covenant	Actual at June 13, 2008
-----------------	------------------------------------

Edgar Filing: DiamondRock Hospitality Co - Form 10-Q

Minimum implied debt service ratio	1.5x	24.9x
Maximum unencumbered leverage ratio	65%	3.7%
Minimum number of unencumbered borrowing base properties	4	8
Minimum unencumbered borrowing base value	\$150 million	\$869.0 million
Percentage of total asset value owned by borrowers or guarantors	90%	100%

In addition to the interest payable on amounts outstanding under the Facility, we are required to pay an amount equal to 0.20% of the unused portion of the Facility if the unused portion of the Facility is greater than 50% and 0.125% if the unused portion of the Facility is less than 50%. We incurred interest and unused credit facility fees on the Facility of \$0.4 million and \$0.6 million for the fiscal quarters ended June 13, 2008 and June 15, 2007, respectively and we incurred interest and unused credit facility fees on the Facility of \$0.6 million and \$1.0 million for the periods from January 1, 2008 to June 13, 2008 and January 1, 2007 to June 15, 2007, respectively. As of June 13, 2008, we had \$32.0 million outstanding on the Facility. Subsequent to June 13, 2008, we drew an additional \$34.0 million, net, under the Facility.

Sources and Uses of Cash

Our principal sources of cash are revenues from operations, borrowing under mortgage financings, draws on the Facility and the proceeds from our equity offerings. Our principal uses of cash are debt service, share repurchases, capital expenditures, operating costs, corporate expenses and dividends.

Cash Provided by Operating Activities. Our cash provided by operating activities was \$48.0 million for the period from January 1, 2008 to June 13, 2008, which is the result of our \$26.9 million net income adjusted for the impact of several non-cash charges, including \$34.8 million of depreciation, \$3.6 million of non-cash ground rent, \$0.4 million of amortization of deferred financing costs, \$0.8 million of yield support received and \$1.6 million of stock compensation, offset by \$0.8 million of amortization of unfavorable agreements, \$0.3 million of amortization of deferred income and unfavorable working capital changes of \$19.0 million.

Our cash provided by operating activities was \$53.4 million for the period from January 1, 2007 to June 15, 2007, which is the result of our \$27.3 million net income, adjusted for the impact of several non-cash charges, including \$33.7 million of depreciation, \$3.6 million of non-cash straight line ground rent, \$1.7 of yield support received, \$0.3 million of amortization of deferred financing costs, \$2.1 million of stock compensation, offset by \$0.9 million of amortization of debt premium and unfavorable agreements, and unfavorable working capital changes of \$14.2 million.

Cash Used In Investing Activities. Our cash used in investing activities was \$33.6 million for the period from January 1, 2008 to June 13, 2008. During the period from January 1, 2008 to June 13, 2008, we incurred capital expenditures at our hotels of \$36.8 million and a decrease in restricted cash of \$1.8 million, which was offset by the receipt of \$5.0 million of key money related to the Chicago Marriott Downtown.

Our cash used in investing activities was \$354.4 million for the period from January 1, 2007 to June 15, 2007. During the period from January 1, 2007 to June 15, 2007, we utilized \$331.3 million of cash for the acquisition of the Westin Boston Waterfront Hotel and incurred capital expenditures at our hotels of \$22.5 million.

Cash Used In Financing Activities. Our cash used in financing activities was \$19.2 million for the period from January 1, 2008 to June 13, 2008 consisted of \$1.4 million of scheduled debt principal payments, \$3.2 million of share repurchases and \$46.6 million of dividend payments offset by \$32.0 million of net draws under our credit facility.

Our cash provided by financing activities for the period from January 1, 2007 to June 15, 2007, primarily consists of \$317.6 million of net proceeds from sale of our common stock and \$61.5 million in draws under our credit facility. The cash provided by financing activities for the period from January 1, 2007 to June 15, 2007 was offset by the \$35.0 million in repayments of the credit facility, \$1.7 million of scheduled debt principal payments, \$1.1 million payment of financing costs and \$36.7 million of dividend payments.

The following table summarizes our significant financing activities through July 22, 2008:

Transaction Date	Description of Transaction	Amount
Debt:		
January	Draw under credit facility	\$ 8.0 million

Edgar Filing: DiamondRock Hospitality Co - Form 10-Q

February	Draw under credit facility	3.0 million
March	Draws under credit facility	23.0 million
April	Draws under credit facility	5.0 million
May	Repayments of credit facility	(15.0 million)
June	Draws under credit facility	32.0 million
July	Draw under credit facility	18.0 million
July	Repayment of credit facility	(8.0 million)

Equity:

January	Payment of fourth quarter 2007 dividends	(22.8 million)
April	Payment of first quarter 2008 dividends	(23.8 million)
June	Payment of second quarter 2008 dividends	(23.8 million)
June	Share repurchases	(14.1 million)
July	Share repurchases	(16.3 million)

Dividend Policy

Generally, we intend to continue to distribute to our stockholders each year on a regular quarterly basis sufficient amounts of our REIT taxable income so as to avoid paying corporate income tax and excise tax on our earnings (other than the earnings of our TRS and TRS lessees, which are all subject to tax at regular corporate rates) and to qualify for the tax benefits afforded to REITs under the Internal Revenue Code of 1986, as amended (the Code). In order to qualify as a REIT under the Code, we generally must make distributions to our stockholders each year in an amount equal to at least:

- 90% of our REIT taxable income determined without regard to the dividends paid deduction, plus

Table of Contents

- 90% of the excess of our net income from foreclosure property over the tax imposed on such income by the Code, minus
- any excess non-cash income.

We pay quarterly cash dividends to common stockholders at the discretion of our Board of Directors. The following table sets forth the dividends paid to common stockholders since January 1, 2008:

Payment Date	Record Date	Dividend per Share	
January 10, 2008	December 31, 2007	\$	0.24
April 1, 2008	March 21, 2008	\$	0.25
June 24, 2008	June 13, 2008	\$	0.25

Capital Expenditures

The management agreements for each of our hotels provide for the establishment of separate property improvement funds to cover, among other things, the cost of replacing and repairing furniture and fixtures at our hotels. Contributions to the property improvement fund are calculated as a percentage of hotel sales. In addition, we may be required to pay for the cost of certain additional improvements that are not permitted to be funded from the property improvement fund under the applicable management agreement. As of June 13, 2008, we have set aside \$32.2 million for capital projects in property improvement funds. Funds held in property improvement funds for one hotel are typically not permitted to be applied to any other property.

We have and continue to make significant capital investments in our hotels. In 2008, we expect to incur approximately \$70 to \$80 million of capital improvements at our hotels. We incurred \$36.8 million of capital projects in the period from January 1, 2008 to June 13, 2008. The most significant projects are as follows:

- ***Chicago Marriott Downtown:*** We completed a \$35 million renovation of the hotel in April 2008. The renovation, which began in the third quarter of 2007, included a complete redo of all the meeting and ballrooms, adding 17,000 square feet of new meeting space, reconcepting and relocating the restaurant, expanding the lobby bar and creating a Marriott great room in the lobby.
- ***Westin Boston Waterfront:*** We have completed the construction of additional meeting rooms in the building attached to the hotel in March 2008. The \$19 million project, which began in the third quarter of 2007, included the creation of over 37,000 square feet to meeting/exhibit space.

- Conrad Chicago: We completed a renovation of the guestrooms and corridors during the first quarter and plans to upgrade the arrival experience with a front entrance repositioning to be completed in the fourth quarter of 2008.
- Salt Lake City: We plan to significantly renovate the guestrooms at the hotel in late 2008.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Non-GAAP Financial Measures

We use the following two non-GAAP financial measures that we believe are useful to investors as key measures of our operating performance: (1) EBITDA and (2) FFO. These measures should not be considered in isolation or as a substitute for measures of performance in accordance with GAAP.

EBITDA represents net income excluding: (1) interest expense; (2) provision for income taxes, including income taxes applicable to sale of assets; and (3) depreciation and amortization. We believe EBITDA is useful to an investor in evaluating our operating performance because it helps investors evaluate and compare the results of our operations from period to period by removing the impact of our capital structure (primarily interest expense) and our asset base (primarily depreciation and amortization) from our operating results. In addition, covenants included in our indebtedness use EBITDA

Edgar Filing: DiamondRock Hospitality Co - Form 10-Q

as a measure of financial compliance. We also use EBITDA as one measure in determining the value of hotel acquisitions and dispositions.

We compute FFO in accordance with standards established by the National Association of Real Estate Investment Trusts, which defines FFO as net income (determined in accordance with GAAP), excluding gains (losses) from sales of property, plus depreciation and amortization. We believe that the presentation of FFO provides useful information to investors regarding our operating performance because it is a measure of our operations without regard to specified non-cash items, such as real estate depreciation and amortization and gain or loss on sale of assets. We also use FFO as one measure in assessing our results.

Critical Accounting Policies

Our consolidated financial statements include the accounts of the DiamondRock Hospitality Company and all consolidated subsidiaries. The preparation of financial statements in conformity with U.S. generally accepted accounting principles, or GAAP, requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of our financial statements and the reported amounts of revenues and expenses during the reporting period. While we do not believe the reported amounts would be materially different, application of these policies involves the exercise of judgment and the use of assumptions as to future uncertainties and, as a result, actual results

Edgar Filing: DiamondRock Hospitality Co - Form 10-Q

could differ materially from these estimates. We evaluate our estimates and judgments, including those related to the impairment of long-lived assets, on an ongoing basis. We base our estimates on experience and on various other assumptions that are believed to be reasonable under the circumstances. All of our significant accounting policies are disclosed in the notes to our consolidated financial statements. The following represent certain critical accounting policies that require us to exercise our business judgment or make significant estimates:

Investment in Hotels. Acquired hotels, land improvements, building and furniture, fixtures and equipment and identifiable intangible assets are initially recorded at fair value in accordance with Statement of Financial Accounting Standards No. 141, *Business Combinations*. Additions to property and equipment, including current buildings, improvements, furniture, fixtures and equipment are recorded at cost. Property and equipment are depreciated using the straight-line method over an estimated useful life of 15 to 40 years for buildings and land improvements and one to ten years for furniture and equipment. Identifiable intangible assets are typically related to contracts, including ground lease agreements and hotel management agreements, which are recorded at fair value. Above-market and below-market contract

Table of Contents

values are based on the present value of the difference between contractual amounts to be paid pursuant to the contracts acquired and our estimate of the fair market contract rates for corresponding contracts. Contracts acquired that are at market do not have significant value. We typically enter into a new hotel management agreement based on market terms at the time of acquisition. Intangible assets are amortized using the straight-line method over the remaining non-cancelable term of the related agreements. In making estimates of fair values for purposes of allocating purchase price, we may utilize a number of sources that may be obtained in connection with the acquisition or financing of a property and other market data. Management also considers information obtained about each property as a result of its pre-acquisition due diligence in estimating the fair value of the tangible and intangible assets acquired.

We review our investments in hotels for impairment whenever events or changes in circumstances indicate that the carrying value of the investments in hotels may not be recoverable. Events or circumstances that may cause us to perform a review include, but are not limited to, adverse changes in the demand for lodging at our properties due to declining national or local economic conditions and/or new hotel construction in markets where our hotels are located. When such conditions exist, management performs an analysis to determine if the estimated undiscounted future cash flows from operations and the proceeds from the ultimate disposition of an investment in a hotel exceed the hotel's carrying value. If the estimated undiscounted future cash flows are less than the carrying amount of the asset, an adjustment to reduce the carrying value to the estimated fair market value is recorded and an impairment loss recognized.

Revenue Recognition. Hotel revenues, including room, golf, food and beverage, and other hotel revenues, are recognized as the related services are provided.

Stock-based Compensation. We account for stock-based employee compensation using the fair value based method of accounting described in Statement of Financial Accounting Standards No. 123 (revised 2004) (SFAS 123R), *Share-Based Payment.* We record the cost of awards with service conditions based on the grant-date fair value of the award. That cost is recognized over the period during which an employee is required to provide service in exchange for the award. No compensation cost is recognized for equity instruments for which employees do not render the requisite service. No awards with performance-based or market-based conditions have been issued.

Accounting for Key Money. Marriott has contributed to us certain amounts, which we refer to as key money , in exchange for the right to manage certain of our hotels. We defer key money received from a hotel manager in conjunction with entering into a long-term hotel management agreement or completing certain brand-enhancing capital projects and amortize the amount received against management fees over the term of the management agreement.

Accounting for Yield Support. Marriott has provided us with operating cash flow guarantees for certain hotels to fund shortfalls of actual hotel operating income, which is net of management fees, compared to a negotiated target net operating income. We refer to these guarantees as yield support . Yield support received is recognized over the period earned if the yield support is not refundable and there is reasonable uncertainty of receipt at inception of the management agreement. Yield support is recorded as an offset to base management fees.

Inflation

Operators of hotels, in general, possess the ability to adjust room rates daily to reflect the effects of inflation. However, competitive pressures may limit the ability of our management companies to raise room rates.

Seasonality

The operations of hotels historically have been seasonal depending on location, and accordingly, we expect some seasonality in our business. Historically, we have experienced approximately two-thirds of our annual income in the second and fourth fiscal quarters.

New Accounting Pronouncements Not Yet Implemented

Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157), defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. On February 12, 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position No. 157-2, which delays the effective date of SFAS 157 for certain nonfinancial assets and liabilities. We do not expect the unimplemented provisions of SFAS 157 to have a material impact on our results of operations, financial position or cash flows.

Statement of Financial Accounting Standards No. 141 (revised 2007), *Business Combinations* (SFAS 141R), significantly changes how business acquisitions are accounted for and will impact financial statements both on the acquisition date and in subsequent periods. We are currently evaluating the impact of the adoption of SFAS 141R, which includes the

Table of Contents

expensing of transaction costs incurred to acquire assets. SFAS 141R is effective for fiscal years beginning on or after December 15, 2008.

Statement of Financial Accounting Standards No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51* (SFAS 160), changes the accounting and reporting for minority interests, which will be recharacterized as noncontrolling interests and classified as a component of equity. SFAS 160 is effective for fiscal years beginning on or after December 15, 2008. We currently do not have any minority interests and, as such, do not expect SFAS 160 to have a material impact on our results of operations, financial position or cash flows.

Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (SFAS 161) is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity's financial position, financial performance and cash flows. SFAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. We do not expect SFAS 161 to have a material impact on our results of operations, financial position or cash flows.

Item 3. Qualitative Disclosure about Market Risk

Market risk includes risks that arise from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market sensitive instruments. In pursuing our business strategies, the primary market risk to which we are currently exposed, and, to which we expect to be exposed in the future, is interest rate risk. The face amount of our outstanding debt at June 13, 2008 was approximately \$855.1 million, of which \$37.0 million or 4.3% was variable rate debt. As of June 13, 2008, the fair value of the \$818.1 million of fixed-rate debt was approximately \$753.4 million. If market rates of interest were to increase by 1.0%, or approximately 100 basis points, the decrease in the fair value of our fixed-rate debt would be \$40.7 million. On the other hand, if market rates of interest were to decrease by one percentage point, or approximately 100 basis points, the increase in the fair value of our fixed-rate debt would be \$44.0 million.

Item 4. Controls and Procedures

The Company's management has evaluated, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)), as required by paragraph (b) of Rules 13a-15 and 15d-15 under the Exchange Act, and has concluded that as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective to give reasonable assurances that information we disclose in reports filed with the Securities and Exchange Commission is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commissions rules and forms.

There was no change in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act during the Company's most recent fiscal quarter that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents**PART II****Item 1. Legal Proceedings**

We are not involved in any material litigation nor, to our knowledge, is any material litigation threatened against us other than routine litigation arising out of the ordinary course of business or which is expected to be covered by insurance and none of which is expected to have a material impact on our business, financial condition or results of operations.

Item 1A. Risk Factors

There have been no material changes in the risk factors described in Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(1) Includes shares surrendered to the Company in connection with vesting of restricted stock as payment of taxes.

(2) On February 27, 2008, our Board of Directors authorized a program to repurchase up to 4.8 million shares of our common stock. The common stock may be purchased in the open market or through private transactions, dependent upon market conditions. The plan does not obligate us to repurchase any specific number of shares and may be suspended at any time at our discretion. As of July 21, 2008, we have purchased 2.8 million shares under this program at an average price of \$10.74 per share.
