BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

1. **BASIS OF PRESENTATION**

Buckeye GP Holdings L.P. (BGH) is a publicly traded (NYSE: BGH) master limited partnership organized on June 15, 2006 under the laws of the state of Delaware. BGH owns 100% of Buckeye GP LLC (Buckeye GP), which is the general partner of Buckeye Partners, L.P. (Buckeye). Buckeye is also a publicly traded (NYSE: BPL) master limited partnership that was organized in 1986 under the laws of the state of Delaware. BGH's limited partner units are owned approximately 62% by BGH GP Holdings, LLC (BGH GP), approximately 1% by certain members of senior management and approximately 37% by the public. BGH GP is owned by affiliates of ArcLight Capital Partners, LLC (ArcLight), Kelso & Company (Kelso), and certain investment funds along with certain members of senior management of Buckeye GP. MainLine Management LLC, a Delaware limited liability company (MainLine Management), is the general partner of BGH, and is wholly owned by BGH GP.

BGH's only business is the ownership of Buckeye GP. Buckeye GP's only business is the management of Buckeye and its subsidiaries. At June 30, 2009, Buckeye GP owned an approximately 0.5% general partner interest in Buckeye.

Buckeye has one of the largest independent refined petroleum products pipeline systems in the United States in terms of volumes delivered, with approximately 5,400 miles of pipeline and 64 active products terminals that provide aggregate storage capacity of approximately 24.7 million barrels. In addition, Buckeye operates and maintains approximately 2,400 miles of other pipelines under agreements with major oil and chemical companies. Buckeye also owns and operates a major natural gas storage facility in northern California which provides approximately 33 billion cubic feet (Bcf) of gas storage capacity and is a wholesale distributor of refined petroleum products in the northeastern and midwestern United States in areas also served by Buckeye's pipelines and terminals.

Buckeye conducts business in five reportable operating segments: Pipeline Operations; Terminalling and Storage; Natural Gas Storage; Energy Services; and Other Operations. See Note 18 for a more detailed discussion of Buckeye's operating segments.

Buckeye Pipe Line Services Company (Services Company) was formed in 1996 in connection with the establishment of the Buckeye Pipe Line Services Company Employee Stock Ownership Plan (the ESOP). At June 30, 2009, Services Company owned approximately 4.0% of the publicly traded limited partner units of Buckeye (the LP Units). After the reorganization (as discussed in Note 3), Services Company will employ approximately 850 people who provide services to the operating subsidiaries through which Buckeye conducts its operations. Approximately 15 people are employed directly by Buckeye's operating subsidiary, Lodi Gas Storage, L.L.C. (Lodi Gas) and another approximately 16 people are employed by Buckeye's operating subsidiary, Buckeye Albany Terminal LLC. Pursuant to a services agreement entered into in December 2004 (the Services Agreement), the operating subsidiaries reimburse Services Company for the costs of the services it provides. Pursuant to the Services Agreement and an Executive Employment Agreement, through December 31, 2008 executive compensation costs and related benefits paid to Buckeye GP's four highest salaried officers were not reimbursed by Buckeye or its operating subsidiaries but were reimbursed to Services Company by BGH. Effective January 1, 2009, Buckeye and its operating subsidiaries agreed to pay for all executive compensation and benefits earned by Buckeye GP's four highest salaried officers in return for an annual fixed payment from BGH to Buckeye in the amount of \$3.6 million.

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

BGH has determined that Services Company is a variable interest entity under the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 46R Consolidation of Variable Interest Entities (FIN No. 46R). Using criteria established in FIN No. 46R, BGH has determined that Buckeye GP is the primary beneficiary of Services Company, although 100% of the equity interest of Services Company is owned by the ESOP. Accordingly, as required by FIN No. 46R, Services Company has been consolidated in the financial statements of BGH.

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

BGH's condensed consolidated balance sheet includes a noncontrolling interest capital account that reflects the portion of Buckeye owned by its partners other than BGH and Services Company. Similarly, BGH's condensed consolidated statements of operations includes income attributable to noncontrolling interest that reflects the portion of the earnings due to Buckeye's partners other than BGH and Services Company.

In June 2005, the Emerging Issues Task Force (EITF) of the FASB issued EITF Consensus 04-05 which requires general partners of a limited partnership to consolidate the limited partnership if the general partner is deemed to control the limited partnership. Using criteria established in EITF Consensus 04-05, BGH has determined that consolidation of Buckeye into BGH's financial statements is appropriate.

In the opinion of management, the condensed consolidated financial statements of BGH, which are unaudited except that the balance sheet as of December 31, 2008 is derived from audited financial statements, include all adjustments, consisting of normal recurring accruals, necessary to present fairly BGH's financial position as of June 30, 2009 along with the results of BGH's operations for the three and six months ended June 30, 2009 and 2008 and BGH's cash flows for the six months ended June 30, 2009 and 2008. The results of operations for the three and six months ended June 30, 2009 are not necessarily indicative of the results to be expected for the full year ending December 31, 2009.

Certain prior year amounts have been reclassified in the statement of cash flows to conform to the current-year presentation.

Pursuant to the rules and regulations of the Securities and Exchange Commission (SEC), the condensed consolidated financial statements do not include all of the information and notes normally included with financial statements prepared in accordance with accounting principles generally accepted in the United States of America. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements of BGH and the notes thereto for the year ended December 31, 2008 contained in BGH's Annual Report on Form 10-K as filed with the SEC on March 16, 2009.

Recently Adopted Accounting Pronouncements

On January 1, 2009, BGH adopted Statement of Financial Accounting Standards (SFAS) No. 160, Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51 (SFAS 160). SFAS 160 established accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. These accounting and reporting standards require for-profit entities that prepare consolidated financial statements to: (a) present noncontrolling interests as a component of equity, separate from the parent's equity; (b) separately present the amount of consolidated net income attributable to noncontrolling interests in the income statement; (c) consistently account for changes in a parent's ownership interests in a subsidiary in which the parent entity has a controlling financial interest as equity transactions; (d) require an entity to measure at fair value its remaining interest in a subsidiary that is deconsolidated; and (e) require an entity to provide sufficient disclosures that identify and clearly distinguish between interests of the parent and interests of noncontrolling owners. Accordingly, for periods presented in these condensed consolidated financial statements, BGH has reclassified its noncontrolling interest liability into partners' capital on the condensed consolidated balance sheets and has separately presented and allocated income attributable to noncontrolling interests on the condensed consolidated statements of operations and condensed consolidated statements of

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

partners' capital.

On January 1, 2009, BGH adopted SFAS 161, "Disclosures about Derivative Instruments and Hedging Activities" an amendment of FASB Statement No. 133, and has included the expanded disclosures required by this statement in Note 11 to these condensed consolidated financial statements.

In May 2009, the FASB issued SFAS No. 165, "Subsequent Events" (SFAS 165). The objective of SFAS 165 is to establish general standards of accounting for, and disclosure of, events that occur after the balance sheet

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

date but before financial statements are issued or are available to be issued. SFAS 165 sets forth the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements, and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. SFAS 165 is effective for interim or annual periods ending after June 15, 2009. BGH implemented SFAS 165 during the quarter ended June 30, 2009 and evaluated for subsequent events through July 30, 2009, the issuance date of its financial statements. There were no subsequent events required to be recognized or disclosed in the financial statements through such date.

Recently Issued Accounting Pronouncements

In April 2009, the FASB issued FASB Staff Position No. SFAS 141(R)-1, *Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies* (FSP 141(R)-1), to amend SFAS 141 (revised 2007) *Business Combinations*. FSP 141(R)-1 addresses the initial recognition, measurement and subsequent accounting for assets and liabilities arising from contingencies in a business combination, and requires that such assets acquired or liabilities assumed be initially recognized at fair value at the acquisition date if fair value can be determined during the measurement period. If the acquisition-date fair value cannot be determined, the asset acquired or liability assumed arising from a contingency is recognized only if certain criteria are met. FSP 141(R)-1 also requires that a systematic and rational basis for subsequently measuring and accounting for such assets or liabilities be developed depending on their nature. FSP 141(R)-1 will be effective for assets or liabilities arising from contingencies in business combinations for acquisitions that are consummated on or after January 1, 2009 and, therefore, the adoption of FSP 141(R)-1 has no current impact on BGH's condensed consolidated financial statements.

In June 2009, the FASB issued SFAS No. 166, *Accounting for Transfers of Financial Assets – an Amendment of FASB Statement No. 140* (SFAS 166). The objective of SFAS 166 is to improve the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor's continuing involvement, if any, in transferred financial assets. SFAS 166 is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. BGH is currently evaluating the impact the adoption of SFAS 166 will have on its condensed consolidated financial statements.

In June 2009, the FASB issued SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)* (SFAS 167). The objective of SFAS 167 is to improve financial reporting by companies involved with variable interest entities. SFAS 167 will require companies to perform an analysis to determine whether the companies' variable interest or interests give it a controlling financial interest in a variable interest entity. SFAS 167 is effective as of the beginning of each reporting company's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. Earlier application is prohibited. BGH is currently evaluating the impact the adoption of SFAS 167 will have on its condensed consolidated financial statements.

In June 2009, the FASB issued SFAS No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles* (the *Codification*). The Codification will become the source of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

federal securities laws are also sources of authoritative GAAP for SEC registrants. On the effective date of this Statement, the Codification will supersede all then-existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the Codification will become non-authoritative. This statement is effective for financial statements issued for interim and annual periods ending after September 15, 2009.

BUCKEYE GP HOLDINGS L.P.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(UNAUDITED)****2. IMPAIRMENT OF LONG-LIVED ASSETS AND ASSETS HELD FOR SALE**

Buckeye accounts for long-lived assets in accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* (SFAS 144). This statement requires that long-lived assets and certain identifiable intangible assets to be held and used by an entity be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. This statement also requires that long-lived assets and certain intangible assets to be disposed of be reported at the lower of the carrying amount or fair value less cost to sell. Buckeye considers historical performance and future estimated results in its evaluation of potential impairment and then compares the carrying amount of the asset to the estimated future cash flows expected to result from the use of the asset. If the carrying amount of the asset exceeds the estimated expected undiscounted future cash flows, Buckeye measures the amount of the impairment by comparing the carrying amount of the asset to its fair value. The estimated fair value was based on a probability weighted combination of income and market approaches.

Buckeye owns and operates an approximately 350-mile natural gas liquids pipeline (the Buckeye NGL Pipeline) that runs from Wattenberg, Colorado to Bushton, Kansas. During the second quarter of 2009, Buckeye received notification that several of its shippers, which were currently using the Buckeye NGL Pipeline, intended to migrate to a competing pipeline, which recently went into service. This notification was accompanied by a significant decline in shipment volumes as compared to historical averages. This loss in the customer base represented a triggering event pursuant to SFAS 144 and an impairment evaluation resulted in a charge to earnings of \$72.5 million against the Pipeline Operations segment.

In June 2009, Buckeye's board of directors authorized management to pursue the sale of the Buckeye NGL Pipeline. Accordingly, Buckeye reclassified the net assets and liabilities of the Buckeye NGL Pipeline to Prepaid and other current assets on the June 30, 2009 condensed consolidated balance sheet, as shown in Note 4, and ceased depreciating the assets.

Net assets held for sale by Buckeye NGL Pipe Lines LLC are presented in Note 4. The carrying amounts of the major classes of assets and liabilities at June 30, 2009 were as follows (in thousands):

Assets:		
Inventories	\$	604
Prepaid and other current assets		64
Property, plant and equipment, net		8,639
Assets held for sale	\$	9,307

Liabilities:		
Accounts payable	\$	2,284
Accrued and other current liabilities		1,263
Liabilities held for sale	\$	3,547

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Net assets held for sale \$ 5,760

Revenues for Buckeye NGL Pipe Lines LLC for the three and six months ended June 30, 2009 were \$3.2 million and \$6.5 million, respectively.

BUCKEYE GP HOLDINGS L.P.

(UNAUDITED)

3. REORGANIZATION

On July 20, 2009, Buckeye announced the completion of a company-wide review. During the period ended June 30, 2009, Buckeye commenced a restructuring of its operations based on the findings of the review, including a reorganization of its field operations to combine five of its original pipeline and terminal districts into three districts, as well as a restructuring of certain corporate functions and related corporate support functions. These efforts redefined the roles and responsibilities of certain positions and called for the elimination of resources devoted to such activities. Approximately 260 positions are affected as a result of these restructuring activities.

As part of the restructuring efforts, Buckeye executed a reduction in force comprised of a Voluntary Early Retirement Plan (the VERP) and an involuntary plan. The terms of the VERP were agreed to by approximately 80 employees during the period ended June 30, 2009. Also, an additional approximate 180 employees will be impacted by the involuntary reduction in workforce under Buckeye's ongoing severance plan. The affected employees will receive severance benefits, post-employment benefits including medical and dental coverage, and other services including retirement counseling and outplacement services. Most terminations were effective as of July 20, 2009.

As of June 30, 2009, Buckeye has recorded a reorganization expense of \$28.1 million for the post-employment costs related to these restructuring activities which include: (1) termination benefits pursuant to voluntary and involuntary severance plans of \$16.0 million; (2) post-retirement benefits (see note 17) of \$8.0 million; and (3) other related costs of \$4.1 million. In connection with this organizational restructuring, Buckeye expects to incur additional expenses in 2009 that are estimated to be between \$2.0 to \$4.0 million.

The expense incurred by segment for both the three and six months ended June 30, 2009 is as follows (in thousands):

Pipeline Operations	\$	23,054
Terminalling and Storage		2,402
Natural Gas Storage		291
Energy Services		944
Other Operations		1,422
Total	\$	28,113

4. PREPAID AND OTHER CURRENT ASSETS

Prepaid and other current assets consist of the following (in thousands):

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

	June 30, 2009		December 31, 2008
Prepaid insurance	\$ 2,762	\$	7,889
Insurance receivables	9,008		5,101
Ammonia receivable	8,554		12,058
Margin deposits	25,654		32,345
Prepaid services	20,853		
Net assets held for sale	5,760		
Other	26,196		18,013
Total	\$ 98,787	\$	75,406

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

5. INVENTORIES

Inventories consist of the following (in thousands):

	June 30, 2009	December 31, 2008
Refined petroleum products (Ending inventory was 84.0 million and 47.7 million gallons at June 30, 2009 and December 31, 2008, respectively)	\$ 151,754	\$ 69,568
Materials and supplies	14,792	14,661
Total	\$ 166,546	\$ 84,229

Buckeye generally maintains two types of inventory. Within the Energy Services segment, Buckeye principally maintains refined petroleum products inventory, which consists primarily of gasoline, heating oil, and diesel fuel, which is valued at the lower of cost or market, unless such inventory is hedged. At June 30, 2009 and December 31, 2008, 89% and 78% of the inventory was hedged, respectively. Hedged inventory is valued at current market prices with the change in value of the inventory reflected in the condensed consolidated statements of operations. At June 30, 2009 and December 31, 2008, 8% and 17% of the inventory, respectively, was committed against fixed-priced sales contracts, and such inventory was valued at the lower of cost or market, respectively. The remaining inventory was considered unhedged and represented approximately one day of sales.

Buckeye also maintains, principally within its Pipeline Operations segment, an inventory of materials and supplies such as pipes, valves, pumps, electrical/electronic components, drag-reducing agent and other miscellaneous items that are valued at the lower of cost or market based on the first-in, first-out method.

6. INTANGIBLE ASSETS, NET

Intangible assets, net consist of the following (in thousands):

	June 30, 2009	December 31, 2008
Customer relationships	\$ 38,300	\$ 38,300
Accumulated amortization	(4,146)	(2,662)
Net carrying amount	34,154	35,638

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Customer contracts	11,800	11,800
Accumulated amortization	(3,608)	(3,324)
Net carrying amount	8,192	8,476
Total	\$ 42,346	\$ 44,114

For the three months ended June 30, 2009 and 2008, consolidated amortization expense related to intangible assets was \$0.9 million and \$0.1 million, respectively. For the six months ended June 30, 2009 and 2008, consolidated amortization expense related to intangible assets was \$1.8 million and \$0.3 million, respectively. Amortization expense related to intangible assets is expected to be approximately \$3.8 million for each of the next five years.

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

7. EQUITY INVESTMENTS

Equity investments consist of the following (in thousands):

	June 30, 2009	December 31, 2008
Investment in West Shore Pipe Line Company (24.9% owned)	\$ 30,561	\$ 30,340
Investment in West Texas LPG Pipeline Limited Partnership (20.0% owned)	50,760	44,471
Investment in Muskegon Pipeline LLC (40.0% owned)	14,704	14,967
Investment in Transport4, LLC (25.0% owned)	352	332
Total	\$ 96,377	\$ 90,110

In the first six months of 2009, Buckeye invested an additional \$3.9 million in West Texas LPG Pipeline Limited Partnership (WT LPG) as Buckeye's pro rata contribution for an expansion project that was required to meet increased pipeline demand caused by increased product production in the Fort Worth basin and East Texas regions. The expansion project consists of the construction of 39 miles of 12-inch pipeline and the installation of multiple booster stations. The WT LPG expansion pipeline became operational in April 2009. Eighty percent of WT LPG is owned by Chevron Pipe Line Co. and 20% is owned by Buckeye.

The following tables present the equity earnings for the unconsolidated affiliates noted above as well as unaudited summarized income statement information (on a 100% basis), for the periods indicated (in thousands):

Reorganization	18,787	
Other	24,054	18,679
Total	\$ 128,476	\$ 116,464

9. CONTINGENCIES

Claims and Proceedings

Buckeye and its subsidiaries in the ordinary course of business are involved in various claims and legal proceedings, some of which are covered by insurance. Buckeye is generally unable to predict the timing or outcome of these claims and proceedings. Based upon its evaluation of existing claims and proceedings and the probability of losses relating to such contingencies, Buckeye has accrued certain amounts relating to such claims and proceedings, none of which are considered material.

In March 2007, Buckeye was named as a defendant in an action entitled *Madigan v. Buckeye Partners, L.P.* filed in the U.S. District Court for the Central District of Illinois. The action was brought by the State of Illinois Attorney General acting on behalf of the Illinois Environmental Protection Agency. The complaint alleges that Buckeye violated various Illinois state environmental laws in connection with a product release from Buckeye's terminal located in Harristown, Illinois on or about June 11, 2006 and various other product releases from Buckeye's terminals and pipelines in the State of Illinois during the period of 2001 through 2006. The complaint seeks to recover state oversight costs, damages, and civil penalties and seeks injunctive action requiring Buckeye to remediate the environmental contamination resulting from the product releases. Buckeye believes it has meritorious defenses to the allegations set forth in the complaint.

Environmental Contingencies

In accordance with its accounting policy, Buckeye recorded operating expenses of \$1.2 million and \$2.7 million for the three months ended June 30, 2009 and 2008, respectively, and \$6.6 million and \$4.6 million for the six months ended June 30, 2009 and 2008, respectively, related to environmental contingencies unrelated to claims and proceedings.

Ammonia Contract Contingencies

On November 30, 2005, Buckeye Gulf Coast Pipe Lines, L.P. (BGC), an operating subsidiary of Buckeye, purchased an ammonia pipeline and other assets from El Paso Merchant Energy-Petroleum Company (EPME), a subsidiary of El Paso Corporation (El Paso). As part of the transaction, BGC assumed the obligations of EPME under several contracts involving monthly purchases and sales of ammonia. EPME and BGC agreed, however, that EPME would retain the economic risks and benefits associated with those contracts until their expiration at the end of 2012. To effectuate this agreement, BGC passes through to EPME both the cost of purchasing ammonia under a supply contract and the proceeds from selling ammonia under three sales contracts. For the vast majority of monthly periods since the closing of the pipeline acquisition, the pricing terms of the

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

ammonia contracts have resulted in ammonia costs exceeding ammonia sales proceeds. The amount of the shortfall generally increases as the market price of ammonia increases.

EPME has informed BGC that, notwithstanding the parties' agreement, it will not continue to pay BGC for shortfalls created by the pass-through of ammonia costs in excess of ammonia revenues. EPME encouraged BGC to seek payment by invoking the \$40.0 million guaranty made by El Paso which guaranteed EPME's obligations to BGC. If EPME fails to reimburse BGC for these shortfalls for a significant period during the remainder of the term of the ammonia agreements, then such unreimbursed shortfalls could exceed the \$40.0 million cap on El Paso's guaranty. To the extent the unreimbursed shortfalls significantly exceed the \$40.0 million cap, the resulting costs incurred by BGC could adversely affect Buckeye's financial position, results of operations, and cash flows. To date, BGC has continued to receive payment for ammonia costs under the contracts at issue. BGC has not called on El Paso's guaranty and believes only BGC may invoke the guaranty. EPME, however, contends that El Paso's guaranty is the source of payment for the shortfalls, but has not clarified the extent to which it believes the guaranty has been exhausted. Given the uncertainty of future ammonia prices and EPME's future actions, Buckeye is unable to estimate the amount of any such losses. Accordingly, Buckeye has recorded no provision for losses in the accompanying condensed consolidated financial statements because it is unable to determine whether or not a loss has been incurred or, if a loss has been incurred, a reasonable estimate or range of estimates of the amount of such losses. Buckeye is assessing its options, including potential recourse against EPME and El Paso, with respect to this matter.

Less: current portion of long-term debt	(6,236)	(6,294)
Total long-term debt	\$ 1,361,177	\$ 1,453,425

* Buckeye makes semi-annual interest payments on these notes based on the rates noted above with the principal balances outstanding to be paid on or before the due dates as show above.

(1) The June 30, 2009 and December 31, 2008 amounts include \$0.9 million and \$1.1 million, respectively, related to an adjustment to fair value associated with a hedge of fair value and (\$3.3) million and (\$3.6) million, respectively, in unamortized discounts.

The fair value of debt was estimated to be \$1,307.1 million at June 30, 2009 and \$1,285.2 million at December 31, 2008. The fair values at June 30, 2009 and December 31, 2008 were estimated primarily by comparing the historic market prices of Buckeye's publicly issued debt with the market prices of other master limited partnerships' publicly issued debt with similar credit ratings and terms.

BGH Credit Agreement

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

BGH is party to a five-year, \$10.0 million unsecured revolving credit facility with SunTrust Bank, as both administrative agent and lender (the "BGH Credit Agreement"). The BGH Credit Agreement may be used for working capital and other partnership purposes. BGH has pledged all of the limited liability company interests in Buckeye GP as security for its obligations under the BGH Credit Agreement. Borrowings under the BGH Credit Agreement bear interest under one of two rate options, selected by BGH, equal to either (i) the greater of (a) the federal funds rate plus 0.5% and (b) SunTrust Bank's prime commercial lending rate; or (ii) the London Interbank Official Rate ("LIBOR"), plus a margin which can range from 0.40% to 1.40%, based on the ratings assigned by Standard & Poor's Rating Services and Moody's Investor Services to the senior unsecured non-credit enhanced long-term debt of BGH. BGH did not have amounts outstanding under the BGH Credit Agreement at June 30, 2009 and December 31, 2008.

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

The BGH Credit Agreement requires BGH to maintain leverage and funded debt coverage ratios. The leverage ratio covenant requires BGH to maintain, as of the last day of each fiscal quarter, a ratio of the total funded indebtedness of BGH and its Restricted Subsidiaries (as defined below), measured as of the last day of each fiscal quarter, to the aggregate dividends and distributions received by BGH and its Restricted Subsidiaries from Buckeye, plus all other cash received by BGH and the Restricted Subsidiaries, measured for the preceding twelve months, less expenses, of not more than 2.50 to 1.00. The BGH Credit Agreement defines Restricted Subsidiaries as certain of BGH's wholly owned subsidiaries. The funded debt coverage ratio covenant requires BGH to maintain, as of the last day of each fiscal quarter, a ratio of total consolidated funded debt of BGH and all of its subsidiaries to the consolidated EBITDA, as defined in the BGH Credit Agreement, of BGH and all of its subsidiaries, measured for the preceding twelve months, of not more than 5.25 to 1.00, subject to a provision for increases to 5.75 to 1.00 in connection with future acquisitions. At June 30, 2009, BGH's funded debt coverage ratio was 4.55 to 1.00.

The BGH Credit Agreement contains other covenants that prohibit BGH from taking certain actions, including but not limited to, declaring dividends or distributions if any default or event of default has occurred or would result from such a declaration and limiting BGH's ability to incur additional indebtedness, creating negative pledges and granting certain liens, making certain loans, acquisitions, and investments, making material changes to the nature of BGH and its Restricted Subsidiaries' business, and entering into a merger, consolidation, or sale of assets. At June 30, 2009, BGH was not aware of any instances of noncompliance with the covenants under the BGH Credit Agreement.

Services Company Notes

Services Company had total debt outstanding of \$10.8 million and \$14.0 million at June 30, 2009 and December 31, 2008, respectively, consisting of 3.60% Senior Secured Notes (the 3.60% ESOP Notes) due March 28, 2011 payable by the ESOP to a third-party lender. The 3.60% ESOP Notes were issued on May 4, 2004. The 3.60% ESOP Notes are collateralized by Services Company's common stock and are guaranteed by Services Company. In addition, Buckeye has committed that, in the event that the value of Buckeye's LP Units owned by Services Company falls below 125% of the balance payable under the 3.60% ESOP Notes, Buckeye will fund an escrow account with sufficient assets to bring the value of the total collateral (the value of Buckeye's LP Units owned by Services Company and the escrow account) up to the 125% minimum. Amounts deposited in the escrow account are returned to Buckeye when the value of Buckeye's LP Units owned by Services Company returns to an amount that exceeds the 125% minimum. At June 30, 2009, the value of Buckeye's LP Units owned by Services Company exceeded the 125% requirement.

Credit Facility

Buckeye has a borrowing capacity of \$600.0 million (including Lehman Brothers Bank, FSB's \$20.0 million commitment as a lender, which is discussed below) under an unsecured revolving credit agreement (the Credit Facility), which may be expanded up to \$800.0 million subject to certain conditions and upon the further approval of the lenders. The Credit Facility's maturity date is August 24, 2012, which may be extended by Buckeye for up to two additional one-year periods. Borrowings under the Credit Facility bear interest under one of two rate options, selected by Buckeye, equal to either (i) the greater of (a) the federal funds rate plus 0.5% and (b) SunTrust Bank's prime rate plus an applicable margin, or (ii) LIBOR plus an applicable margin. The applicable margin is determined based on the current utilization level of the Credit Facility and ratings assigned by Standard & Poor's and Moody's Investor Services for Buckeye's senior unsecured non-credit enhanced long-term debt. At June 30, 2009 and December 31, 2008, Buckeye had \$209.0 million and \$298.3 million outstanding under the Credit Facility, respectively. At

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

June 30, 2009 and December 31, 2008, Buckeye had committed \$1.4 million and \$1.3 million in support of letters of credit, respectively. The obligations for letters of credit are not reflected as debt on Buckeye's condensed consolidated balance sheet. The weighted average interest rate for borrowings outstanding under the Credit Facility was 0.63% at June 30, 2009.

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

The Credit Facility requires Buckeye to maintain a specified ratio (the Funded Debt Ratio) of no greater than 5.00 to 1.00 subject to a provision that allows for increases to 5.50 to 1.00 in connection with certain future acquisitions. The Funded Debt Ratio is calculated by dividing consolidated debt by annualized EBITDA, which is defined in the Credit Facility as earnings before interest, taxes, depreciation, depletion and amortization, and other adjustments as defined therein, in each case excluding the income of certain majority-owned subsidiaries of Buckeye and equity investments (but including distributions from those majority-owned subsidiaries and equity investments). At June 30, 2009, Buckeye's Funded Debt Ratio was 4.3 to 1.00. As permitted by the Credit Facility, \$99.0 million of borrowings by Buckeye Energy Services LLC (BES) under its separate credit agreement (discussed below) and \$72.5 million related to the Buckeye NGL Pipeline impairment were excluded from the calculation of the Funded Debt Ratio.

In addition, the Credit Facility contains other covenants including, but not limited to, covenants limiting Buckeye's ability to incur additional indebtedness, to create or incur liens on its property, to dispose of property material to its operations, and to consolidate, merge or transfer assets. At June 30, 2009, Buckeye was not aware of any instances of noncompliance with the covenants under the Credit Facility.

Lehman Brothers Bank, FSB, an affiliate of Lehman Brothers Holdings Inc. (Lehman Brothers), has committed, as a lender under the Credit Facility, 3.3%, or \$20.0 million, of Buckeye's \$600.0 million borrowing capacity under the Credit Facility but has not honored that commitment since October 2008. Buckeye does not believe that the reduction in capacity under the Credit Facility resulting from the unavailability of Lehman Brothers Bank, FSB's commitment will impair Buckeye's ability to meet its liquidity needs. At June 30, 2009, approximately \$4.3 million of the outstanding balance of the Credit Facility related to amounts previously funded by Lehman Brothers Bank, FSB.

BES Credit Agreement

BES has a credit agreement (the BES Credit Agreement) that provides for borrowings of up to \$175.0 million, which amount may be increased to \$250.0 million subject to customary conditions, including procurement of the requisite lender commitments. Under the BES Credit Agreement, borrowings accrue interest, at BES's election, at (i) the Administrative Agent's Cost of Funds (as defined in the BES Credit Agreement) plus 1.75%, (ii) the Eurodollar Rate (as defined in the BES Credit Agreement) plus 1.75% or (iii) the Base Rate (as defined in the BES Credit Agreement) plus 0.25%. The BES Credit Agreement also permits Daylight Overdraft Loans (as defined in the BES Credit Agreement), Swingline Loans (as defined in the BES Credit Agreement) and letters of credit. Such alternative extensions of credit are subject to certain conditions as specified in the BES Credit Agreement. The BES Credit Agreement is secured by liens on certain assets of BES, including its inventory, cash deposits (other than certain accounts), investments and hedging accounts, receivables and intangibles.

The balances outstanding under the BES Credit Agreement were approximately \$99.0 million and \$96.0 million at June 30, 2009 and December 31, 2008, respectively, all of which were classified as current liabilities. The BES Credit Agreement requires BES to meet certain financial covenants, which are summarized below (in millions, except for the leverage ratio):

Borrowings	Minimum	Minimum	Maximum
-------------------	----------------	----------------	----------------

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

outstanding on BES Credit Agreement	Consolidated Tangible Net Worth	Consolidated Net Working Capital	Consolidated Leverage Ratio
\$150	\$ 40	\$ 30	7.0 to 1.0
Above \$150 up to \$200	50	40	7.0 to 1.0
Above \$200 up to \$250	60	50	7.0 to 1.0

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

At June 30, 2009, BES's Consolidated Tangible Net Worth (as defined in the BES Credit Agreement) and Consolidated Net Working Capital (as defined in the BES Credit Agreement) were \$118.6 million and \$75.5 million, respectively, and the Consolidated Leverage Ratio (as defined in the BES Credit Agreement) was 1.44 to 1.0. The weighted average interest rate for borrowing outstanding under the BES Credit Agreement was 2.1% at June 30, 2009.

In addition, the BES Credit Agreement contains other covenants, including, but not limited to, covenants limiting BES's ability to incur additional indebtedness, to create or incur certain liens on its property, to consolidate, merge or transfer its assets, to make dividends or distributions, to dispose of its property, to make investments, to modify its risk management policy, or to engage in business activities materially different from those presently conducted. At June 30, 2009, Buckeye was not aware of any instances of noncompliance with the covenants under the BES Credit Agreement.

11. FINANCIAL INSTRUMENTS

Commodity Derivatives

The Energy Services segment primarily uses exchange-traded petroleum futures contracts to manage the risk of market price volatility on its refined petroleum product inventories and its fixed-price sales contracts. The derivative contracts used to hedge refined petroleum product inventories are designated as fair value hedges. Accordingly, Buckeye's method of measuring ineffectiveness will compare the change in fair value of the New York Mercantile Exchange (NYMEX) futures contracts to the change in fair value of Buckeye's hedged fuel inventory. Any difference between the amounts will be considered ineffective and recorded in current period earnings.

The Energy Services segment has elected not to use hedge accounting with respect to its fixed-price sales contracts. Therefore, its fixed-price sales contracts and the related futures contracts used to offset those fixed-price sales contracts are all marked-to-market on the balance sheet with gains and losses being recognized in earnings during the period.

In order to effectively fix the cost of natural gas purchases used to operate Buckeye's turbine engines at its Linden, New Jersey location, in March 2009, the Pipeline Operations segment bought natural gas futures contracts with terms that coincide with the remaining term of an ongoing natural gas supply contract (April 2009 through August 2011) for a price of \$5.47 per million British thermal units (MMBtu). The aggregate notional quantity is approximately 900,000 MMBtus. This transaction was designated as a cash flow hedge at inception.

Finance Derivatives

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Buckeye manages a portion of its interest rate exposure by utilizing interest rate swaps to convert a portion of its variable-rate debt into fixed-rate debt. Generally, Buckeye utilizes interest rate swaps for specifically identified transactions.

In October 2008, Buckeye borrowed approximately \$50.0 million under the Credit Facility. In order to hedge its variable interest rate risk with respect to the amount borrowed, Buckeye concurrently entered into an interest rate swap agreement for a notional amount of \$50.0 million. Under the swap agreement, Buckeye paid a fixed rate of interest of 3.15% for 180 days and, in exchange, received a series of six monthly payments based on the 30-day LIBOR rate in effect at the beginning of each monthly period. The amounts received by Buckeye corresponded to the 30-day LIBOR rates that Buckeye paid on the \$50.0 million borrowed under the Credit Facility. The swap settled on April 20, 2009. Buckeye had designated the swap agreement as a cash flow hedge on December 3, 2008. Changes in value between the trade date and the designation date were recognized in earnings. On April 21, 2009, Buckeye entered into a new interest rate swap agreement for an additional 180 days on the same terms, except that Buckeye agreed to pay a fixed interest rate of 0.63%.

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

In January 2009, Buckeye entered into an additional interest rate swap agreement to hedge its variable-rate risk on an additional \$50.0 million in borrowings under the Credit Facility. Under the swap agreement, Buckeye is paying a fixed interest rate of 0.81% for 180 days and, in exchange, is receiving a series of six monthly payments based on the 30-day LIBOR rate in effect at the beginning of each monthly period. The amounts received by Buckeye correspond to the 30-day LIBOR rates that Buckeye pays on the additional \$50.0 million borrowed under the Credit Facility. The swap will settle on the maturity date of the last 30-day LIBOR period. Buckeye designated the swap agreement as a cash flow hedge at inception.

For both interest rate swap agreements, Buckeye expects the changes in value of the interest rate swap agreements to be highly correlated with the changes in value of the underlying borrowing.

The following table sets forth the fair value of each classification of derivative instruments as of June 30, 2009 (in thousands):

	Assets Fair value	June 30, 2009 (Liabilities) Fair value	Derivative Net Carrying Value
Derivatives NOT designated as hedging instruments:			
Fixed-price sales contracts	\$ 17,061	\$ (4,302)	\$ 12,759
Futures contracts for fixed-price sales contracts	11,073	(6,565)	4,508
Derivatives designated as hedging instruments:			
Futures contracts for inventory	\$ 1,515	\$ (26,155)	\$ (24,640)
Futures contract for natural gas		(376)	(376)
Interest rate contracts		(52)	(52)
Total			\$ (7,801)

	June 30, 2009
Balance Sheet Locations:	
Derivative assets	\$ 19,901
Derivative liabilities	(27,650)
Accrued and other current liabilities	(52)
Total	\$ (7,801)

Substantially all of the unrealized loss of \$24.6 million at June 30, 2009 for inventory hedges represented by futures contracts will be realized by the first quarter of 2010 as the related inventory is sold. Gains recorded on inventory hedges that were ineffective were approximately \$3.3

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

million and \$7.6 million for the three and six months ended June 30, 2009, respectively. As of June 30, 2009, open petroleum derivative contracts (represented by the fixed-price sales contracts and futures contracts for fixed-price sales contracts noted above) varied in duration, but did not extend beyond December 2010. In addition, at June 30, 2009, Buckeye had refined product inventories which it intends to use to satisfy a portion of the fixed-price sales contracts.

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

The gains and losses on Buckeye's derivative instruments for the three and six months ended June 30, 2009 were as follows (in thousands):

Derivatives designated as hedging instruments:		
Cost of product sales *	\$ 31,251	\$ 27,429
Cost of product sales - hedged inventory	\$ (31,183)	\$ (55,179)

* Commodity contracts

12. FAIR VALUE MEASUREMENTS

Fair value measurements are characterized in one of three levels based upon the input used to arrive at the measurement. The three levels include:

Level 1: Level 1 inputs are quoted prices in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2: Level 2 inputs include the following:

- Quoted prices in active markets for similar assets or liabilities.
- Quoted prices in markets that are not active for identical or similar assets or liabilities.

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived primarily from or corroborated by observable market data by correlation or other means.

Level 3: Level 3 inputs are unobservable inputs for the asset or liability.

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

The following table sets forth financial assets and liabilities, measured at fair value on a recurring basis as of the measurement date, June 30, 2009, and the basis for that measurement, by level within the fair value hierarchy (in thousands):

Recurring

	June 30, 2009		December 31, 2008	
	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)
Financial Assets:				
Commodity derivatives	\$ 4,508	\$ 15,769	\$ 25,225	\$ 79,322
Asset held in trust	1,793		3,648	
Financial Liabilities:				
Interest rate derivatives		(52)		(333)
Commodity derivatives	(24,640)	(3,010)	(50,806)	(1,045)
Total	\$ (18,339)	\$ 12,707	\$ (21,933)	\$ 77,944

The value of the Level 1 commodity derivative assets and liabilities were based on quoted market prices obtained from the NYMEX. The value of the Level 1 asset held in trust was obtained from quoted market prices. The value of the Level 2 commodity derivative assets and liabilities were based on observable market data related to the obligations to provide petroleum products. The value of the Level 2 interest rate derivative was based on observable market data related to similar obligations.

The commodity derivative assets of \$15.8 million and \$79.3 million as of June 30, 2009 and December 31, 2008, respectively, are net of credit valuation adjustments (CVA) of (\$0.8) million and (\$0.6) million, respectively. Because few of the Energy Services segment's customers entering into these fixed-price sales contracts are large organizations with nationally-recognized credit ratings, the Energy Services segment determined that a CVA, which is based on the credit risk of such contracts, is appropriate. The CVA is based on the historical and expected payment history of each customer, the amount of product contracted for under the agreement, and the customer's historical and expected purchase performance under each contract.

Non-Recurring

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

In addition, the net assets held for sale of \$5.8 million, as discussed in Note 2, are Level 3 assets and liabilities and are measured at fair value on a nonrecurring basis and are subject to fair value adjustments only in certain circumstances. The estimated fair value was based on a probability weighted combination of income and market approaches as disclosed in Note 2.

13. EARNINGS PER PARTNERSHIP UNIT

Basic and diluted net income per partnership unit is calculated by dividing net income attributable to BGH by the weighted-average number of partnership units outstanding during the period.

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

The following table is a reconciliation of the weighted average number of partnership units used in the basic and diluted earnings per partnership unit calculations for the three and six months ended June 30, 2009 and 2008 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Basic:				
Weighted average common units outstanding	27,770	27,770	27,770	27,770
Weighted average management units outstanding	530	530	530	530
Units for basic	28,300	28,300	28,300	28,300
Diluted:				
Units used for basic calculation	28,300	28,300	28,300	28,300
Dilutive effect of additional management units				
Units for diluted	28,300	28,300	28,300	28,300

14. CASH DISTRIBUTIONS

BGH generally makes quarterly cash distributions of substantially all of its available cash, generally defined as consolidated cash receipts less consolidated cash expenditures and such retentions for working capital, anticipated cash expenditures and contingencies as MainLine Management deems appropriate.

On July 28, 2009, MainLine Management declared a quarterly cash distribution of \$0.37 per unit to be paid on August 31, 2009 to unitholders of record on August 7, 2009. This distribution is expected to be approximately \$10.5 million.

15. RELATED PARTY TRANSACTIONS

Buckeye incurred a senior administrative charge (the charge) for certain management services performed by affiliates of Buckeye GP of \$0.5 million for the three months ended June 30, 2008, and \$0.5 million and \$0.9 million for the six months ended June 30, 2009 and 2008, respectively. The charge was waived indefinitely on April 1, 2009. As a result, there was no charge recorded in the second quarter of 2009.

Services Company and Buckeye are considered related parties of BGH. As discussed in Note 1, the condensed consolidated financial statements for BGH include the accounts of Services Company and Buckeye on a consolidated basis, and all intercompany transactions have been eliminated.

16. UNIT-BASED COMPENSATION PLANS

BGH GP's Override Units

Effective on June 25, 2007, BGH GP instituted an equity incentive plan for certain members of senior management of BGH GP and BGH. This equity incentive plan includes both time-based and performance-based participation in the equity of BGH GP (but not in BGH) referred to as Override Units. BGH determined that, under the requirements of SFAS 123R, Share-Based Payment (SFAS 123R), BGH is required to reflect, as compensation expense and a corresponding contribution to Unitholders' equity, the fair value of this compensation measured under the provisions of SFAS 123R. Compensation expense with respect to the Override Units was \$0.4 million for both three month periods ended June 30, 2009 and 2008, and \$0.7 million for both six month periods ended June 30, 2009 and 2008. BGH is not the sponsor of this plan and has no liabilities with respect to it.

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

The Override Units consist of three equal tranches of units consisting of: Value A Units, Value B Units and Operating Units. The Operating Units vest over four years semi-annually beginning with a one-year cliff. The Value A Units generally vest based on the occurrence of an exit event as discussed below, an investment return of 2.0 times the original investment, and an internal rate of return of at least 10%. The Value B Units generally vest based on the occurrence of an exit event, an investment return of 3.5 times the original investment and an internal rate of return of at least 10% or they can vest on a pro-rata basis on an investment return ranging from 2.0 to 3.5 times the original investment and an internal rate of return of at least 10%.

The above-noted exit event is generally defined as the sale by ArcLight, Kelso and their affiliates of their interests in BGH GP, the sale of substantially all the assets of BGH GP and its subsidiaries, or any other extraordinary transaction that the board of directors of BGH GP determines is an exit event.

The investment return is calculated generally as the sum of all the distributions that ArcLight and Kelso have received from BGH GP prior to and through the exit event, divided by the total amount of capital contributions to BGH GP that ArcLight and Kelso have made prior to the exit event.

In general, the Override Units are subject to forfeiture if a grantee resigns or is terminated for cause. Under certain conditions, as declared by the Board of BGH GP, grantees can receive interim distributions on the Override Units.

There have been no Override Units granted in 2009. The following is a summary of the activity of the Override Units as of June 30, 2009 (in thousands, except per unit amounts):

	Number of Override Units			Total Number of Units Awarded
	Value A Units	Value B Units	Operating Units	
Granted June 25, 2007	1,530	1,530	1,530	4,590
Forfeited in 2007	(149)	(149)	(149)	(447)
Outstanding at December 31, 2007	1,381	1,381	1,381	4,143
Granted in the first quarter of 2008	297	297	297	891
Granted in the third quarter of 2008	85	85	85	255
Forfeited in the second quarter of 2009	(170)	(170)	(170)	(510)
Outstanding at June 30, 2009	1,593	1,593	1,593	4,779

	Compensation Costs for Override Units			
	Value A Units	Value B Units	Operating Units	Totals
Total fair value of all outstanding Override Units	\$ 3,664	\$ 2,163	\$ 5,861	\$ 11,688
			2,746	2,746

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Less: Expense recorded from plan inception to
June 30, 2009

Estimated future compensation costs at June 30, 2009	\$	3,664	\$	2,163	\$	3,115	\$	8,942
---	----	-------	----	-------	----	-------	----	-------

June 30, 2009		Value A		Value B		Operating
Weighted average fair value per Override Unit granted	\$	2.07	\$	1.17	\$	3.42

The vesting of the Value A and Value B Units is contingent on a performance condition, namely the completion of the exit event as discussed above. Accordingly, no compensation expense for the Value A and Value B Units will be recorded until an exit event occurs.

BUCKEYE GP HOLDINGS L.P.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(UNAUDITED)**

The Override Units were valued using the Monte Carlo simulation method that incorporated the market-based vesting condition into the grant date fair value of the unit awards as required by SFAS 123R. The Monte Carlo simulation is a procedure to estimate the future equity value from the time of the valuation dates to the exit event. The following assumptions were used in the first six months of 2008:

	June 30, 2008	
Current equity value (in millions)	\$	439.0
Expected life in years		5.5
Risk-free interest rate		4.92%
Volatility		26.0%
Dividends	\$	0.00

Buckeye's Long-Term Incentive Plan

On March 20, 2009, Buckeye's 2009 Long-Term Incentive Plan (the "LTIP") became effective. The LTIP, which is administered by the Compensation Committee of the Board of Directors of Buckeye GP (the "Compensation Committee"), provides for the grant of phantom units ("Phantom Units"), performance units ("Performance Units") and in certain cases distribution equivalent rights ("DERs") which provide the participant a right to receive payments based on distributions made by Buckeye on the LP Units. Phantom Units are notional LP Units whose vesting is subject to service-based restrictions or other conditions established by the Compensation Committee in its discretion. Phantom Units entitle a participant to receive an LP Unit, without payment of an exercise price, upon vesting. Performance Units are notional LP Units whose vesting is subject to the attainment of one or more performance goals, and which entitle a participant to receive LP Units, without payment of an exercise price, upon vesting. DERs are rights to receive a cash payment per Phantom Unit or Performance Unit, as applicable, equal to the per unit cash distribution paid by Buckeye on its LP Units. Generally, all LTIP awards granted automatically vest upon a change of control, as defined in the LTIP.

The number of LP Units that may be granted under the LTIP may not exceed 1,500,000, subject to certain adjustments. The number of LP Units that may be granted to any one individual in a calendar year will not exceed 100,000. If awards are forfeited, terminated or otherwise not paid in full, the LP Units underlying such awards will again be available for purposes of the LTIP. Persons eligible to receive grants under the LTIP are (i) officers and employees of Buckeye, Buckeye GP and any of their affiliates and (ii) independent members of the Board of Directors of Buckeye GP or of MainLine Management. Phantom Units or Performance Units may be granted to participants at any time and from time to time as may be determined by the Compensation Committee.

The fair value of both the Performance Unit and Phantom Unit grants is based on the average market price of Buckeye's LP Units on the date of grant adjusted for an estimated forfeiture rate as appropriate. Compensation expense is estimated and recorded over the period the grants are earned, which is the vesting period. Compensation expense estimates are updated periodically. The aggregate compensation expense recorded is based only on those awards that actually vest. The vesting of the Performance Unit awards is also contingent upon the attainment of predetermined performance goals, which, depending on the level of attainment, could increase or decrease the value of the awards at settlement. Quarterly distributions paid on DERs associated with Phantom Units will be recorded as a reduction of Limited Partners' Capital on Buckeye's condensed consolidated balance sheet.

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

2009 LTIP Awards

On April 30, 2009, the Compensation Committee granted 43,755 Phantom Units to employees, 18,000 Phantom Units to independent directors, and 87,520 Performance Units to employees. The vesting period for the Phantom Units is one year or three years of service for grants to directors or employees, respectively. The vesting criteria for the Performance Units is three years of service and the attainment of a performance goal (by Buckeye), defined in the award agreements as distributable cash flow, over the three-year period.

Phantom Unit grantees will be paid quarterly distributions on DERs associated with Phantom Units over their respective vesting periods of one year or three years in the same amounts per Phantom Unit as distributions paid on Buckeye's LP Units over those same three-year or one-year periods. The amount paid with respect to Phantom Unit distributions was \$0.05 million for the three months ended June 30, 2009. Distributions may be paid on Performance Units at the end of the three year vesting period. In such case, DERs will be paid on the number of LP Units for which the Performance Units will be settled.

The following table sets forth the LTIP activity for the six months ended June 30, 2009:

LTIP Units	
Outstanding, January 1, 2009	
Granted (1)	149,275
Vested	
Forfeited	
Outstanding, June 30, 2009 (2)	149,275

(1) The weighted average price per unit for the 2009 Phantom Unit and Performance Unit awards on the date of grant of April 30, 2009, which is utilized in the calculation of compensation expense, was \$39.06.

(2) The aggregate intrinsic value of all outstanding LTIP units at June 30, 2009 was approximately \$6.4 million.

At June 30, 2009, Buckeye had approximately \$4.9 million of unrecognized compensation expense related to unvested outstanding awards under the LTIP based upon the grant-date fair value of the awards.

Buckeye's Unit Option Plan

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Buckeye also sponsors the Unit Option and Distribution Equivalent Plan (the Option Plan), pursuant to which it historically granted to employees options to purchase LP Units at the market price of the LP Units on the date of grant. Generally, the options vest three years from the date of grant and expire ten years from the date of grant.

Due to regulations adopted under Internal Revenue Code Section 409A, holders of unit options granted during 2008 would have been subject to certain adverse tax consequences if the terms of the grant were not modified. Buckeye received the approval of the holders of unit options granted in 2008 to shorten the term of those options to avoid the adverse tax consequences under Section 409A. Unit options granted before January 1, 2008 were not impacted by the IRS regulations. This modification will not have a material impact on Buckeye s financial results. Following the adoption of the LTIP on March 20, 2009, Buckeye ceased making additional grants under the Option Plan. The impact of expenses associated with Buckeye s Option Plan is immaterial to BGH s consolidated financial statements.

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

17. PENSIONS AND OTHER POSTRETIREMENT BENEFITS

Services Company, which employs the majority of Buckeye's workforce, sponsors a retirement income guarantee plan (the RIGP), which is a defined benefit plan, that generally guarantees employees hired before January 1, 1986 a retirement benefit at least equal to the benefit they would have received under a previously terminated defined benefit plan. Services Company's policy is to fund amounts necessary to meet at least the minimum funding requirements of the Employee Retirement Income Security Act of 1974.

Services Company also provides post-retirement health care and life insurance benefits to certain of its retirees (the Retiree Medical Plan). To be eligible for these benefits an employee must have been hired prior to January 1, 1991 and must meet certain service requirements. Services Company does not pre-fund its post-retirement benefit obligation.

For the three months ended June 30, 2009 and 2008, the components of the net periodic benefit cost recognized by Buckeye for the RIGP and Retiree Medical Plan were as follows (in thousands):

	RIGP Three Months Ended June 30,		Retiree Medical Plan Three Months Ended June 30,	
	2009	2008	2009	2008
Components of net periodic benefit cost:				
Service cost	\$ 207	\$ 352	\$ 105	\$ 233
Interest cost	369	478	491	694
Expected return on plan assets	(189)	(468)		
Amortization of prior service benefit	(118)	(218)	(859)	(1,124)
Amortization of unrecognized losses	355	155	261	410
Settlement/ curtailment charge (1)	7,171		800	
Net periodic benefit costs	\$ 7,795	\$ 299	\$ 798	\$ 213

For the six months ended June 30, 2009 and 2008, the components of the net periodic benefit cost recognized by Buckeye for the RIGP and Retiree Medical Plan were as follows (in thousands):

	RIGP Six Months Ended June 30,		Retiree Medical Plan Six Months Ended June 30,	
	2009	2008	2009	2008
Components of net periodic benefit cost:				
Service cost	\$ 415	\$ 705	\$ 210	\$ 465
Interest cost	740	956	983	1,387

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Expected return on plan assets	(380)	(936)		
Amortization of prior service benefit	(235)	(436)	(1,719)	(2,248)
Amortization of unrecognized losses	712	311	522	821
Settlement/ curtailment charge (1)	7,171		800	
Net periodic benefit costs	\$ 8,423	\$ 600	\$ 796	\$ 425

(1) In connection with Buckeye's reorganization, \$8.0 million of the aggregate amount of \$28.1 million of expenses incurred has been recorded as an adjustment to the funded status of the RIGP and the Retiree Medical Plan, which represent settlement and curtailment adjustments (see Note 3).

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

On April 8, 2009, Buckeye voluntarily contributed \$0.3 million to the RIGP. Buckeye expects to fund approximately \$3.5 million to the RIGP during the third quarter of 2009.

18. SEGMENT INFORMATION

BGH conducts business in five reportable operating segments: Pipeline Operations; Terminalling and Storage; Natural Gas Storage; Energy Services; and Other Operations. BGH also has certain consolidated-level assets, principally consisting of goodwill, which are not allocable to the individual reporting segments because they are not used by the chief operating decision maker to make operating decisions or to allocate resources.

Pipeline Operations:

The Pipeline Operations segment receives refined petroleum products from refineries, connecting pipelines, and bulk and marine terminals and transports those products to other locations for a fee. This segment owns and operates approximately 5,400 miles of pipeline systems in 17 states. This segment also has three refined petroleum products terminals with aggregate storage capacity of approximately 0.5 million barrels in three states.

Terminalling and Storage:

The Terminalling and Storage segment provides bulk storage and terminal throughput services. This segment has 56 products terminals with aggregate storage capacity of approximately 23.3 million barrels in ten states.

Natural Gas Storage:

The Natural Gas Storage segment provides natural gas storage services at a natural gas storage facility in northern California that is owned and operated by Lodi Gas. The facility currently provides approximately 33 Bcf of natural gas storage capacity and is connected to Pacific Gas and Electric's intrastate gas pipelines that service natural gas demand in the San Francisco and Sacramento areas. The Natural Gas Storage segment does not trade or market natural gas.

BUCKEYE GP HOLDINGS L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

Energy Services:

The Energy Services segment is a wholesale distributor of refined petroleum products in the northeastern and midwestern United States. The segment recognizes revenues when products are delivered. The segment's products include gasoline, propane, and petroleum distillates such as heating oil, diesel fuel, and kerosene. The segment also has five terminals with aggregate storage capacity of approximately 1.0 million barrels. The segment's customers consist principally of product wholesalers as well as major commercial users of refined petroleum products.

Other Operations:

The Other Operations segment consists primarily of Buckeye's contract operation of approximately 2,400 miles of third-party pipeline systems, which are owned principally by major oil and chemical companies and are located primarily in Texas and Louisiana. This segment also performs pipeline construction management services, typically for cost plus a fixed fee, for these same customers. The Other Operations segment also includes Buckeye's ownership and operation of an ammonia pipeline and its majority ownership of the Sabina Pipeline in Texas.

Each segment uses the same accounting policies as those used in the preparation of BGH's condensed consolidated financial statements. All inter-segment revenues, operating income, and assets have been eliminated. All periods are presented on a consistent basis. All of BGH's operations and assets are conducted and located in the United States.

(1) All equity investments are included in the assets of the Pipeline Operations segment.

(2) Goodwill decreased as of June 30, 2009 from December 31, 2008 due to the finalization of the purchase price allocation of a terminal in Albany, New York which was purchased on August 28, 2008. Goodwill decreased by approximately \$1.8 million and was allocated to property, plant, and equipment as a result of the finalization of the purchase price allocation.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

OVERVIEW

The following discussion provides an analysis of the financial condition and results of operations for Buckeye GP Holdings L.P. (BGH) and each of BGH's operating segments, including an overview of BGH's liquidity and capital resources and certain other items related to BGH. The following discussion and analysis should be read in conjunction with (i) the accompanying interim condensed consolidated financial statements and related notes and (ii) BGH's consolidated financial statements, related notes, and management discussion and analysis of financial condition and results of operations included in BGH's Annual Report on Form 10-K for the year ended December 31, 2008.

BUCKEYE GP HOLDINGS L.P.

BGH's limited partner units are owned approximately 62% by BGH GP Holdings, LLC (BGH GP), approximately 1% by certain members of senior management and approximately 37% by the public. BGH owns and controls Buckeye GP LLC (Buckeye GP), which is the general partner of Buckeye Partners, L.P. (Buckeye), a publicly traded Delaware limited partnership. BGH is managed by its general partner, MainLine Management LLC (MainLine Management), which is owned by BGH GP. BGH's only cash-generating assets are its partnership interests in Buckeye, comprised primarily of the following:

- the incentive distribution rights in Buckeye;
- the general partner interests in Buckeye (representing 243,914 general partner units (the GP Units), or an approximate 0.5% interest in Buckeye);
- the indirect ownership of the general partner interests in certain of Buckeye's operating subsidiaries (representing an approximate 1% interest in each of such operating subsidiaries); and
- 80,000 Buckeye limited partner units (the LP Units).

The incentive distribution rights noted above entitle BGH to receive amounts equal to specified percentages of the incremental amount of cash distributed by Buckeye to the holders of Buckeye's LP Units (each, a unitholder) when target distribution levels for each quarter are exceeded. The 2,573,146 LP Units originally issued to Buckeye's Employee Stock Ownership Plan (ESOP) are excluded for the purpose of calculating incentive distributions. The target distribution levels begin at \$0.325 and increase in steps to the highest target distribution level of \$0.525 per eligible LP Unit. When Buckeye makes quarterly distributions above this level, the incentive distributions include an amount equal to 45% of the incremental cash distributed to each eligible unitholder for the quarter, or approximately 29.5% of total incremental cash distributed by Buckeye above \$0.525 per LP Unit.

BGH's earnings and cash flows are, therefore, directly dependent upon the ability of Buckeye and its operating subsidiaries to make cash distributions to Buckeye's unitholders. The actual amount of cash that Buckeye will have available for distribution will depend primarily on Buckeye's ability to generate earnings and cash flows beyond its working capital requirements.

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

The following table summarizes BGH's cash received for the three and six months ended June 30, 2009 and 2008 as a result of its partnership interests in Buckeye (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Incentive distributions from Buckeye	\$ 11,466	\$ 9,731	\$ 21,971	\$ 18,657
Distributions from the ownership of 243,914 of Buckeye's GP Units	220	207	436	412
Distributions from the indirect 1% ownership in certain of Buckeye's operating subsidiaries	534	224	896	349
Distributions from the ownership of 80,000 of Buckeye's LP Units	72	68	143	135
	\$ 12,292	\$ 10,230	\$ 23,446	\$ 19,553

BUCKEYE PARTNERS, L.P.

Buckeye has one of the largest independent refined petroleum products pipeline systems in the United States in terms of volumes delivered with approximately 5,400 miles of pipeline and 64 active products terminals that provide aggregate storage capacity of approximately 24.7 million barrels. In addition, Buckeye operates and maintains approximately 2,400 miles of other pipelines under agreements with major oil and chemical companies. Buckeye also owns and operates a major natural gas storage facility in northern California which provides approximately 33 billion cubic feet (Bcf) of gas capacity and a wholesale distributor of refined petroleum products in the northeastern and midwestern United States in areas also served by Buckeye s pipelines and terminals.

BGH conducts business in five reportable operating segments: Pipeline Operations; Terminalling and Storage; Natural Gas Storage; Energy Services; and Other Operations. See Note 18 to the condensed consolidated financial statements for a more detailed discussion of BGH s operating segments.

RECENT DEVELOPMENTS

In early 2009, Buckeye began a best practices review of its business processes and organizational structure to identify improved efficiencies and cost savings in response to rapidly changing needs in the energy markets. This review culminated in the approval of an organizational restructuring by the Board.

The organizational restructuring includes a workforce reduction of approximately 260 employees, or nearly 25% of Buckeye s workforce. The program was initiated in the second quarter and is expected to be substantially completed by the end of 2009. From June 18 to June 29, 2009, Buckeye offered certain eligible employees the option of enrolling in a voluntary early retirement program, of which approximately 80 employees accepted. The remaining affected positions were eliminated involuntarily under Buckeye s ongoing severance plan. The restructuring also will include the relocation of some employees consistent with the goals of the reorganization. In connection with this organizational restructuring, Buckeye incurred \$28.1 million of expenses in the second quarter of 2009 and expects to incur additional expenses in 2009 that are estimated to be \$2.0 to \$4.0 million (see Note 3 to the condensed consolidated financial statements).

Buckeye also recorded a non-cash charge in the second quarter of 2009 of \$72.5 million for a material impairment to its natural gas liquids pipeline system (the Buckeye NGL Pipeline) that spans from Wattenberg, Colorado to Bushton, Kansas. This impairment was the result of significant volume losses to a competitive pipeline system during the second quarter (see Note 2 to the condensed consolidated financial statements).

RESULTS OF OPERATIONS

The results of operations discussed below principally reflect the activities of Buckeye. Since the accompanying condensed consolidated financial statements of BGH include the consolidated results of Buckeye, BGH s consolidated statements are substantially similar to Buckeye s except as noted below:

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

- Interest of noncontrolling partners in Buckeye BGH's condensed consolidated balance sheet includes a noncontrolling interest capital account that reflects the proportion of Buckeye owned by its partners other than BGH. Similarly, the ownership interests in Buckeye held by its partners other than BGH are reflected in BGH's condensed consolidated statement of operations as income attributable to noncontrolling interest. These noncontrolling interest accounts are not reflected in Buckeye's condensed consolidated financial statements.
- BGH's capital structure In addition to incorporating the assets and liabilities of Buckeye, BGH's condensed consolidated balance sheet includes BGH's own indebtedness and related debt placement costs, and the partners' capital on BGH's balance sheet represents BGH's partners capital as opposed to the capital reflected in Buckeye's balance sheet, which reflects the ownership interest of all its partners, including its owners other than BGH. Consequently, BGH's statement of operations reflects additional interest expense, interest income, and debt amortization expense that is not reflected in Buckeye's financial statements.

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

- **Inclusion of Buckeye Pipe Line Services Company** The financial statements of Buckeye Pipe Line Services Company (Services Company), which employs the employees who manage and operate the assets of Buckeye, are consolidated into BGH s financial statements. The financial statements of Buckeye do not include the financial statements of Services Company.

- **BGH s general and administrative expenses** BGH incurs general and administrative expenses that are independent from Buckeye s operations and are not reflected in Buckeye s condensed consolidated financial statements.

- **Elimination of intercompany transactions** Intercompany obligations and payments among Buckeye and its consolidated subsidiaries, BGH and Services Company are reflected in Buckeye s consolidated financial statements but are eliminated in BGH s consolidated financial statements.

Summary operating results for BGH were as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Second Quarter of 2009 Compared to Second Quarter of 2008

Consolidated

Consolidated income attributable to BGH's unitholders was \$9.8 million in the second quarter of 2009 compared to \$5.3 million in the second quarter of 2008. The increase in income attributable to BGH's unitholders was due to increases in Buckeye's quarterly distribution. As mentioned above, the incentive distribution rights entitle BGH to receive amounts equal to specified percentages of the incremental amount of cash distributed by Buckeye to the holders of Buckeye's LP Units when target distribution levels for a quarter are exceeded. As a result, increases in Buckeye's distribution causes increases in income attributable to BGH's unitholders. In the second quarter of 2009, Buckeye paid a \$0.90 per LP Unit distribution as compared to an \$0.85 per LP Unit distribution in the second quarter of 2008, which resulted in an increase of \$2.1 million in incentive distribution rights in the second quarter of 2009 as compared to the second quarter of 2008.

Revenue was \$351.2 million in the second quarter of 2009, which is a decrease of \$141.3 million or 28.7% from the corresponding period in 2008. This overall decrease was caused primarily by a decrease in revenue from the Energy Services segment of \$146.1 million resulting from a reduction in petroleum product prices in the current quarter, which correspondingly lowered the cost of product sales. Generally, revenues in the Pipeline Operations segment and Terminalling and Storage segment remained constant, as volume declines were equally offset by tariff increases.

Total costs and expenses were \$386.7 million in the second quarter of 2009, which is a decrease of \$48.9 million from the corresponding period in 2008. Total costs and expenses include the \$72.5 million asset impairment expense and the \$28.1 million reorganization expense (see Notes 2 and 3 to the condensed consolidated financial statements). Other factors impacting total costs and expenses include a decrease in petroleum product prices which resulted in a \$145.0 million decrease in the Energy Services segment's cost of product sales in the current quarter as compared to the corresponding period last year as well as delays in pipeline maintenance programs of \$3.5 million in the current quarter of 2009. In addition, depreciation and amortization increased by \$1.2 million in the second quarter of 2009 due to acquisitions made during 2008 and 2009.

Costs and expenses attributable to Buckeye, Services Company and BGH were as follows (in thousands):

	Three Months Ended	
	June 30,	
	2009	2008
Attributable to Buckeye	\$ 385,728	\$ 433,880
Elimination of Buckeye deferred charge	(1,175)	(1,175)
Net effect of ESOP charges in Services Company	246	880
Attributable to BGH	1,853	1,977
Total	\$ 386,652	\$ 435,562

Amounts attributable to BGH consist of the following (in thousands):

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

	Three Months Ended			
	June 30,			
	2009		2008	
Salaries and benefits	\$	1,182	\$	1,287
Professional fees		359		405
Other		312		285
Total	\$	1,853	\$	1,977

As described in Note 1 to the condensed consolidated financial statements, effective January 1, 2009, Buckeye and its operating subsidiaries agreed to pay for all executive compensation and benefits earned by Buckeye GP's four highest salaried officers in return for an annual fixed payment from BGH to Buckeye in the amount of \$3.6 million. The \$3.6 million consisted of the anticipated 2009 salaries, incentive compensation and benefits of these executives plus 15%. Salaries and benefits shown above for 2009 consist of the anticipated

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

salaries, incentive compensation and benefits included in the \$3.6 million annual fixed payment, plus allocations of the cost of Buckeye personnel performing administrative services directly for BGH. Salaries and benefits costs in 2008 include salaries and benefits for the four highest paid executives performing services on behalf of Buckeye under the prior arrangement plus the allocated administrative salaries.

BGH reported an operating loss of \$35.4 million in the second quarter of 2009 as compared to operating income of \$57.0 million in the second quarter of 2008 primarily as a result of reorganization expenses of \$28.1 million and asset impairment expenses of \$72.5 million (see Notes 2 and 3 to the condensed consolidated financial statements) related to the operations of Buckeye. The remainder of the decrease is more fully described within the segments discussed below.

The current quarter results also include a decrease of \$2.0 million in interest and debt expense from the second quarter 2008 amount of \$18.0 million related to lower borrowing rates on Buckeye's revolving credit facility and the Energy Services segment's credit agreement and an increase in capitalized interest for the gas storage facility expansion.

Loss attributable to non-controlling interests, which represents the allocation of Buckeye's loss to its limited partner interests not owned by BGH, was \$58.2 million in the second quarter of 2009 as compared to income attributable to non-controlling interest of \$35.0 million in the second quarter of 2008. The loss attributable to non-controlling interests in the second quarter reflects Buckeye's loss, which primarily resulted from the reorganization and asset impairment expenses.

Pipeline Operations

Revenue was \$98.2 million in the second quarter of 2009, which is a decrease of \$0.7 million or 0.7% from the corresponding period in 2008. Despite a decrease in transportation volumes of 5.8%, net transportation revenues were up \$3.1 million due to increased tariffs and settlement revenues compared with the prior quarter. Revenues from storage, rentals, product sales and other incidental services were down \$3.8 million from the second quarter of 2008.

Total costs and expenses were \$149.3 million in the second quarter of 2009, which is an increase of \$88.4 million from the corresponding period in 2008. Total costs and expenses include the \$72.5 million asset impairment expense and \$23.1 million of reorganization expense (see Notes 2 and 3 to the condensed consolidated financial statements). Other factors impacting total costs and expenses include decreases in integrity expenditures of \$3.0 million, lower remediation and other expenses of \$1.7 million and reduced costs of product sales of \$2.9 million.

Product volumes transported in the Pipeline Operations segment for the second quarter of 2009 and 2008 were as follows:

Product	Average Barrels Per Day Three Months Ended June 30,	
	2009	2008
Gasoline	685,700	698,800
Distillate	245,400	279,400
Jet Fuel	345,100	371,900

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

LPG s	18,800	22,400
Natural gas liquids	20,500	22,100
Other products	10,000	12,100
Total	1,325,500	1,406,700

Terminalling and Storage

Revenue was \$29.4 million in the second quarter of 2009, which is an increase of \$2.3 million or 8.5% from the corresponding period in 2008. This overall increase resulted primarily from \$3.1 million of revenue in 2009 from terminals that were acquired at various times in 2008. These increases were partially offset by a decrease in settlement revenue and an 11.9% volume decrease in the second quarter of 2009 as compared to the second quarter of 2008.

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Total costs and expenses were \$18.3 million in the second quarter of 2009, which is an increase of \$1.1 million from the corresponding period in 2008. Total costs and expenses include \$2.4 million of reorganization expense (see Note 3 to the condensed consolidated financial statements). Other factors impacting total costs and expenses include an increase of \$1.7 million of operating expenses associated with the terminals acquired at various times in 2008 offset by a reduction of \$1.9 million for environmental remediation expenses and tank integrity expenses.

Average daily throughput for the refined products terminals for the second quarter of 2009 and 2008 were as follows:

	Average Barrels Per Day Three Months Ended June 30,	
	2009	2008
Products throughput	489,400	554,000

Natural Gas Storage

Revenue was \$16.7 million in the second quarter of 2009, which is an increase of \$1.5 million or 9.8% from the corresponding period in 2008. Lease revenue increased \$1.4 million from the second quarter of 2008 while hub services and other revenue decreased \$0.1 million.

Total costs and expenses were \$10.9 million in the second quarter of 2009, which is an increase of \$3.3 million from the corresponding period in 2008. Total costs and expenses include \$0.3 million of reorganization expense (see Note 3 to the condensed consolidated financial statements). The remaining increase in costs and expenses was primarily attributable to delays in the completion of a natural gas storage expansion project known as the Kirby Hills II project (the Kirby Hills II project).

Energy Services

Revenue was \$201.7 million in the second quarter of 2009, which is a decrease of \$146.1 million or 42.0% from the corresponding period in 2008. This overall decrease was primarily due to a decrease in petroleum product prices, which correspondingly lowered the cost of product sales, partially offset by a 31% increase in volumes.

Total costs and expenses were \$203.1 million in the second quarter of 2009, which is a decrease of \$145.0 million from the corresponding period in 2008. Total costs and expenses include \$0.9 million of reorganization expense (see Note 3 to the condensed consolidated financial statements). Other factors impacting total costs and expenses include a decrease in petroleum product prices in the current quarter as compared to the same period last year.

Other Operations

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Revenue for the Other Operations segment, which consists principally of Buckeye's contract operations and engineering services for third party pipelines, was \$8.8 million in the second quarter of 2009 compared to \$10.8 million in the corresponding period in 2008. The decrease in revenues resulted from reduced operating services revenues of \$2.0 million reflecting a customer's termination of a contract in the second quarter of 2008.

Total costs and expenses were \$8.7 million in the second quarter of 2009, which is a \$0.4 million decrease from the corresponding period in 2008. Total costs and expenses include \$1.4 million of reorganization expense (see Note 3 to the condensed consolidated financial statements). Other factors impacting total costs and expenses include reduced operating expenses associated with the terminated customer contract discussed above.

Six Months of 2009 Compared to Six Months of 2008*Consolidated*

Consolidated income attributable to BGH's unitholders was \$19.9 million in the first six months of 2009 compared to \$11.2 million in the first six months of 2008. The increase in income attributable to BGH's unitholders was due to increases in Buckeye's quarterly distribution. As mentioned above, the incentive distribution rights entitle BGH to receive amounts equal to specified percentages of the incremental amount of cash distributed by Buckeye to the holders of Buckeye's LP Units when target distribution levels for a quarter are exceeded. As a result, increases in Buckeye's distribution causes increases in income attributable to BGH's unitholders. In first six months of 2009, Buckeye paid distributions of \$0.8875 and \$0.90 per LP Unit as compared to distributions of the \$0.8375 and \$0.85 per LP Unit in the first six months of 2008, which resulted in an increase of \$3.9 million in incentive distribution rights in the first six months of 2009 as compared to the first six months of 2008.

Revenue was \$768.1 million in the first six months of 2009, which is a decrease of \$104.8 million or 12.0% from the corresponding period in 2008. This overall decrease was caused primarily by a decrease in revenues from the Energy Services segment of \$112.2 million. This decline reflects an overall reduction in petroleum product prices in the first six months of 2009 as compared to the corresponding period last year. Increased volumes in the Terminalling and Storage segment partially offset the overall decrease in revenues.

Total costs and expenses were \$734.6 million in the first six months of 2009, which is a decrease of \$25.1 million from the corresponding period in 2008. Total costs and expenses include the \$72.5 million asset impairment expense and the \$28.1 million reorganization expense (see Notes 2 and 3 to the condensed consolidated financial statements). Other factors impacting total costs and expenses include a decrease in petroleum product prices which resulted in a \$115.6 million decrease in the Energy Services segment's cost of product sales in the first six months of 2009 as compared to the corresponding period last year as well as overall cost management efforts offset by operating costs for new terminals and the cost of gas stored by third parties. In addition, depreciation and amortization expense increased by \$3.2 million in the first six months of 2009 due to acquisitions made in 2008 and 2009.

Costs and expenses attributable to Buckeye, Services Company and BGH were as follows (in thousands):

	Six Months Ended	
	June 30,	
	2009	2008
Attributable to Buckeye	\$ 732,465	\$ 756,024
Elimination of Buckeye deferred charge	(2,349)	(2,349)
Net effect of ESOP charges in Services Company	645	1,845
Attributable to BGH	3,866	4,224
Total	\$ 734,627	\$ 759,744

Amounts attributable to BGH consist of the following (in thousands):

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

	Six Months Ended			
	June 30,			
	2009		2008	
Salaries and benefits	\$	2,369	\$	2,621
Professional fees		656		988
Other		841		615
Total	\$	3,866	\$	4,224

BGH reported operating income of \$33.4 million and \$113.1 million in the first six months of 2009 and 2008, respectively. The decrease of \$79.7 million primarily resulted from the reorganization expense of \$28.1 million and asset impairment expense of \$72.5 million (see Notes 2 and 3 to the condensed consolidated financial statements) related to operations at Buckeye. The remainder of the decrease is more fully described within the segments discussed below.

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

The current period results also include a decrease of \$2.8 million in interest and debt expense from \$36.4 million in the same period in 2008 due to lower borrowing rates on Buckeye's revolving credit facility and the Energy Services segment's credit agreement in 2009 as compared to 2008 and an increase in capitalized interest for a gas storage facility expansion.

Loss attributable to non-controlling interests, which represents the allocation of Buckeye's loss (earnings) to its limited partner interests not owned by BGH, was \$14.6 million in the first six months of 2009 as compared to income attributable to non-controlling interest of \$69.7 million in the first six months of 2008. The loss attributable to non-controlling interests in the first six months of 2009 reflects Buckeye's loss, which primarily resulted from the reorganization and asset impairment expenses.

Pipeline Operations

Revenue was \$197.4 million in the first six months of 2009, which is an increase of \$2.1 million or 1.1% from the corresponding period in 2008. While transportation volumes were down 3.5%, net transportation revenues were up \$11.6 million due to increased tariffs and settlement revenues compared with the prior year period. Revenues from product sales, rentals and other incidental services were down \$9.5 million from the prior year period. The decreased product sales were the result of reduced product volumes sold to a wholesale distributor.

Total costs and expenses were \$204.0 million in the first six months of 2009, which is an increase of \$82.3 million from the corresponding period in 2008. Total costs and expenses include the \$72.5 million asset impairment expense and \$23.1 million of reorganization expense (see Notes 2 and 3 to the condensed consolidated financial statements). Other factors impacting total costs and expenses include decreases in integrity program expenditures of \$4.3 million, reduced costs of product sales and other services of \$7.7 million, partially offset by increased remediation expenses of \$1.3 million.

Product volumes transported in the Pipeline Operations segment during the first six months of 2009 and 2008 were as follows:

Product	Average Barrels Per Day	
	Six Months Ended June 30,	
	2009	2008
Gasoline	659,200	670,000
Distillate	299,000	308,400
Jet Fuel	339,200	364,100
LPG's	16,600	18,900
Natural gas liquids	20,900	21,600
Other products	11,700	12,100
Total	1,346,600	1,395,100

Terminalling and Storage

Revenue was \$60.1 million during the first six months of 2009, which is an increase of \$5.3 million or 9.7% from the corresponding period in 2008. This overall increase resulted primarily from \$7.4 million of revenue in the first six months of 2009 from terminals that were acquired at

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

various times in 2008. Terminalling revenue increased by \$5.0 million as a result of increases in rates and terminalling services consisting primarily of ethanol blending. These increases were partially offset by a decrease of \$7.1 million resulting from decreases in settlement revenue and terminal volumes which declined 6.1%.

Total costs and expenses were \$38.3 million during the first six months of 2009, which is an increase of \$6.0 million from the corresponding period in 2008. Total costs and expenses include \$2.4 million of reorganization expense (see Note 3 to the condensed consolidated financial statements). Other factors impacting total costs and expenses include an increase of \$3.2 million of operating expenses for the terminal acquisitions made at various times in 2008 and an increase in remediation expenses totaling \$1.1 million.

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Average daily throughput for the refined products terminals during the first six months of 2009 and 2008 were as follows:

	Average Barrels Per Day Six Months Ended June 30,	
	2009	2008
Products throughput	505,100	538,100

Natural Gas Storage

Revenue was \$31.7 million during the first six months of 2009, which is an increase of \$5.1 million or 19.1% from the corresponding period in 2008. This overall increase resulted primarily from the inclusion of a full six months of revenue in 2009 compared to approximately five and one half months in the corresponding period in 2008, reflecting Buckeye's purchase of Lodi Gas Storage, L.L.C. on January 18, 2008, as well as increased hub services revenues in the first six months of 2009 driven by increased marketing efforts.

Total costs and expenses were \$19.8 million during the first six months of 2009, which is an increase of \$5.5 million from the corresponding period in 2008. Total costs and expenses include \$0.3 million of reorganization expense (see Note 3 to the condensed consolidated financial statements). Other factors impacting total costs and expenses include expenses related to the acquisition of Lodi Gas Storage, L.L.C., which experienced a full six months of activity in 2009 versus five and one half months in 2008.

Energy Services

Revenue was \$470.2 million in the first six months of 2009, which is a decrease of \$112.2 million or 19.3% from the corresponding period in 2008. This overall decrease was primarily due to a decline in petroleum product prices, which correspondingly lowers the cost of products sales, partially offset by a 71% higher in volumes due to the inclusion of a full six months of revenue in 2009 compared to approximately four and one half months in the corresponding period in 2008 for the acquisition of Farm & Home Oil Company LLC.

Total costs and expenses were \$465.4 million in the first six months of 2009, which is a decrease of \$115.6 million from the corresponding period in 2008. Total costs and expenses include \$0.9 million of reorganization expense (see Note 3 to the condensed consolidated financial statements). Other factors impacting total costs and expenses include a decrease in commodity prices in the first six months of 2009 as compared to the same period last year. This decrease was partially offset by the inclusion of six months of operations in 2009 for the acquisition of Farm & Home Oil Company LLC.

Other Operations

Revenue for the Other Operations segment, which consists principally of Buckeye's contract operations and engineering services for third-party pipelines, was \$17.9 million during the first six months of 2009 compared to \$21.6 million during the first six months of 2008. The decrease in revenues resulted from reduced operating services and construction revenues of \$3.7 million reflecting a customer's termination of a contract in the second quarter of 2008.

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Total costs and expenses were \$16.4 million during the first six months of 2009, a reduction of \$1.9 million from the corresponding period in 2008. Total costs and expenses include \$1.4 million of reorganization expense (see Note 3 to the condensed consolidated financial statements). Other factors impacting total costs and expenses include reduced operating expenses associated with a terminated customer contract and construction contract activity.

LIQUIDITY AND CAPITAL RESOURCES

BGH

BGH currently has no capital requirements apart from Buckeye's capital requirements. Buckeye's capital requirements consist of maintenance and capital expenditures, expenditures for acquisitions, and debt service requirements.

As noted in Buckeye GP Holdings L.P. above, BGH's only cash-generating asset is its ownership interest in Buckeye GP. BGH's cash flow is, therefore, directly dependent upon the ability of Buckeye and its operating subsidiaries to make cash distributions to Buckeye's partners. The actual amount of cash that Buckeye will have available for distribution depends primarily on Buckeye's ability to generate cash beyond its working capital requirements. Buckeye's primary future sources of liquidity are operating cash flow, proceeds from borrowings under Buckeye's revolving credit facility, and proceeds from the issuance of Buckeye's LP Units or public debt.

BGH's principal use of cash is the payment of its operating expenses and distributions to its unitholders. BGH generally makes quarterly cash distributions of substantially all of its available cash, generally defined as consolidated cash receipts less consolidated cash expenditures and such retentions for working capital, anticipated cash expenditures and contingencies as MainLine Management deems appropriate. In the first six months of 2009, BGH paid cash distributions of \$0.35 per unit on May 29, 2009 and \$0.33 per unit on February 28, 2009. In the first six months of 2008, BGH paid cash distributions of \$0.30 per unit on May 30, 2008 and \$0.285 per unit on February 29, 2008. Total cash distributed to BGH unitholders in the six months ended June 30, 2009 and 2008 was approximately \$19.3 million and \$16.6 million, respectively.

On July 28, 2009, MainLine Management declared a distribution of \$0.37 per unit to be paid on August 31, 2009 to unitholders of record on August 7, 2009. This distribution is expected to be approximately \$10.5 million.

Buckeye

Typically, Buckeye's principal sources of liquidity are cash from operations, borrowings under its unsecured revolving credit agreement (the Credit Facility) and proceeds from the issuance of LP Units. Buckeye will, from time to time, issue debt securities to permanently finance amounts borrowed under the Credit Facility. Buckeye Energy Services LLC (BES) funds its working capital needs principally from operations and a secured credit facility (the BES Credit Agreement). Buckeye's principal uses of cash are capital expenditures, distributions to LP Unit holders and acquisitions as described in Cash Flows from Investing Activities below.

In Buckeye's Annual Report on Form 10-K, which was filed on March 2, 2009, it was disclosed that, as a result of the financial credit crisis which emerged in the third and fourth quarters of 2008, Buckeye had taken steps to preserve its liquidity. These steps included maintaining increased cash balances, reducing discretionary capital expenditures and appropriately managing operating and administrative expenses. In the first six months of 2009, credit, capital markets and overall economic conditions remained difficult. However, credit and capital markets conditions improved enough that certain businesses with investment grade credit ratings were able to issue publicly-traded debt and other master limited partnerships were able to issue equity. Buckeye continued to evaluate the condition of the debt and equity capital markets and, on March 31, 2009, Buckeye sold and issued 2.6 million LP Units in an underwritten public offering at a net price of \$35.08 per LP Unit, after

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

underwriting discounts and commissions of \$1.17 per LP Unit, for net proceeds of approximately \$91.2 million. Proceeds from this offering were used to reduce outstanding borrowings under the Credit Facility. On April 29, 2009, the underwriters of the March 31 equity offering exercised their option to purchase an additional 390,000 LP Units. Buckeye also used the net proceeds from this offering of approximately \$13.6 million to reduce outstanding borrowings under the Credit Facility.

Debt

BGH

BGH is party to a five-year, \$10.0 million revolving credit facility with SunTrust Bank, as both administrative agent and lender (the BGH Credit Agreement). See Note 10 to BGH s condensed consolidated financial statements for a description of the terms of the BGH Credit Agreement.

Services Company

Services Company had total debt outstanding of \$10.8 million and \$14.0 million at June 30, 2009 and December 31, 2008, respectively, consisting of 3.60% Senior Secured Notes (the 3.60% ESOP Notes) due March 28, 2011 payable by the ESOP to a first-party lender. See Note 10 to BGH s condensed consolidated financial statements for a description of the terms of the 3.60% ESOP Notes.

Buckeye

At June 30, 2009, Buckeye had an aggregate face amount of \$1,458.0 million of debt, which consisted of \$300.0 million of the 4.625% Notes due 2013 (the 4.625% Notes), \$275.0 million of the 5.300% Notes due 2014 (the 5.300% Notes), \$150.0 million of the 6.75% Notes due 2033 (the 6.75% Notes), \$125.0 million of the 5.125% Notes due 2017 (the 5.125% Notes), \$300.0 million of the 6.05% Notes due 2018 (the 6.05% Notes), \$209.0 million outstanding under the Credit Facility and \$99.0 million outstanding under the BES Credit Agreement (as discussed below). See Note 10 to the condensed consolidated financial statements for more information about the terms of the debt discussed above.

The fair value of Buckeye s aggregate long-term debt was estimated to be \$1,296.2 million at June 30, 2009 and \$1,271.7 million at December 31, 2008. The fair values at June 30, 2009 and December 31, 2008 were estimated primarily by comparing the historic market prices of Buckeye s publicly issued debt with the market prices of publicly issued debt of other master limited partnerships that has similar credit ratings and terms.

Buckeye Credit Facility

Buckeye has a borrowing capacity of \$600.0 million under the Credit Facility (including Lehman Brothers Bank, FSB s commitment as a lender as discussed below), which may be expanded up to \$800.0 million subject to certain conditions and upon further approval of the lenders. The Credit Facility requires Buckeye to maintain a specified ratio (the Funded Debt Ratio) of no greater than 5.0 to 1.0, subject to a provision that allows for an increase to 5.5 to 1.0 in connection with certain future acquisitions. The Funded Debt Ratio is calculated by dividing consolidated debt by annualized EBITDA, which is defined in the Credit Facility as earnings before interest, taxes, depreciation, depletion and amortization, and other adjustments as defined, in each case excluding the income of certain majority-owned subsidiaries and equity investments (but including distributions from those majority-owned subsidiaries and equity investments). At June 30, 2009, Buckeye s Funded Debt Ratio was 4.30 to 1.0. As permitted by the Credit Facility, \$99.0 million of borrowings by BES under its separate credit agreement (discussed below) and \$72.5 million related to the Buckeye NGL impairment were excluded from the calculation of the Funded Debt Ratio. At June 30, 2009, Buckeye

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

had committed \$1.4 million in support of letters of credit. The obligations for letters of credit are not reflected as debt on Buckeye's consolidated balance sheet. The weighted average interest rate for borrowing outstanding under the Credit Facility was 0.63% at June 30, 2009.

In addition, the Credit Facility contains other covenants including, but not limited to, covenants limiting Buckeye's ability to incur additional indebtedness, to create or incur certain liens on its property, to dispose of property material to its operations, and to consolidate, merge, or transfer assets. At June 30, 2009, Buckeye was not aware of any instances of noncompliance with the covenants under the Credit Facility. See Note 10 to the consolidated financial statements for more information about the terms of the Credit Facility.

Lehman Brothers Bank, FSB, an affiliate of Lehman Brothers Holdings Inc., has committed, as a lender under the Credit Facility, \$20.0 million, or 3.3% of Buckeye's \$600.0 million borrowing capacity under the Credit Facility but has recently not honored that commitment. Buckeye does not believe that the reduction in

capacity under the Credit Facility resulting from the unavailability of Lehman Brothers Bank, FSB's commitment will impair Buckeye's ability to meet its liquidity needs. At June 30, 2009, approximately \$4.3 million of the outstanding balance of the Credit Facility related to amounts previously funded by Lehman Brothers Bank, FSB.

BES Credit Agreement

On May 20, 2008, BES entered into the BES Credit Agreement, which was subsequently amended on July 18, 2008 and September 15, 2008. The credit facility provided by the BES Credit Agreement provides for borrowings of up to \$175.0 million, which amount may be increased to \$250.0 million subject to customary conditions, including procurement of the requisite lender commitments.

The BES Credit Agreement requires BES to meet certain financial covenants, which are summarized below (in millions except for leverage ratio):

Borrowings outstanding on BES Credit Agreement	Minimum Consolidated Tangible Net Worth	Minimum Consolidated Net Working Capital	Maximum Consolidated Leverage Ratio
\$150	\$ 40	\$ 30	7.0 to 1.0
Above \$150 up to \$200	50	40	7.0 to 1.0
Above \$200 up to \$250	60	50	7.0 to 1.0

At June 30, 2009, BES's Consolidated Tangible Net Worth (as defined in the BES Credit Agreement) and Consolidated Net Working Capital (as defined in the BES Credit Agreement) were \$118.6 million and \$75.5 million, respectively, and the Consolidated Leverage Ratio (as defined in the BES Credit Agreement) was 1.44 to 1.0. The weighted average interest rate for borrowing outstanding under the BES Credit Agreement was 2.1% at June 30, 2009.

In addition, the BES Credit Agreement contains other covenants, including, but not limited to, covenants limiting BES's ability to incur additional indebtedness, to create or incur certain liens on its property, to consolidate, merge or transfer its assets, to make dividends or distributions, to dispose of its property, to make investments, to modify its risk management policy, or to engage in business activities materially different from those presently conducted. At June 30, 2009, Buckeye was not aware of any instances of noncompliance with the covenants under the BES Credit Agreement. See Note 10 to the consolidated financial statements for more information about the terms of the BES Credit Agreement.

Derivatives

See Item 3. Quantitative and Qualitative Disclosures About Market Risk - Market Risk - Non-Trading Instruments for a discussion of commodity derivatives used by Buckeye's Energy Services segment.

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

In October 2008, Buckeye borrowed approximately \$50.0 million under the Credit Facility. In order to hedge its variable interest rate risk with respect to the amount borrowed, Buckeye concurrently entered into an interest rate swap agreement for a notional amount of \$50.0 million. Under the swap agreement, Buckeye paid a fixed rate of interest of 3.15% for 180 days and, in exchange, received a series of six monthly payments based on the 30-day London Interbank Offered Rate (LIBOR) in effect at the beginning of each monthly period. The amounts received by Buckeye corresponded to the 30-day LIBOR that Buckeye paid on the \$50 million borrowed under the Credit Facility. The swap settled on April 20, 2009. Buckeye had designated the swap agreement as a cash flow hedge on December 3, 2008. Changes in value between the trade date and the designation date were recognized in earnings. On April 21, 2009, Buckeye entered into another interest rate swap agreement for an additional 180 days on the same terms as the interest rate swap agreement entered into in October 2008, except that Buckeye agreed to pay a fixed interest rate of 0.63%. Buckeye designated the swap agreement as a cash flow hedge on the date the transaction occurred.

In January 2009, Buckeye entered into an additional interest rate swap agreement to hedge its variable rate risk on an additional \$50.0 million in borrowing under the Credit Facility. Under the swap agreement, Buckeye is paying a fixed interest rate of 0.81% for 180 days and, in exchange, is receiving a series of six monthly payments based on the 30-day LIBOR in effect at the beginning of each monthly period. The amounts received

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

by Buckeye correspond to the 30-day LIBOR that Buckeye pays on the additional \$50.0 million borrowed under the Credit Facility. The swap agreement will settle on the maturity date of the last 30-day LIBOR period. Buckeye designated the swap agreement as a cash flow hedge at inception.

For both interest rate swap agreements, Buckeye expects the changes in value of the interest rate swap agreements to be highly correlated with the changes in value of the underlying borrowing.

Ammonia Contract Contingencies

On November 30, 2005, Buckeye Gulf Coast Pipe Lines, L.P. (BGC), a subsidiary of Buckeye, purchased an ammonia pipeline and other assets from El Paso Merchant Energy-Petroleum Company (EPME), a subsidiary of El Paso Corporation (El Paso). As part of the transaction, BGC assumed the obligations of EPME under several contracts involving monthly purchases and sales of ammonia. EPME and BGC agreed, however, that EPME would retain the economic risks and benefits associated with those contracts until their expiration at the end of 2012. To effectuate this agreement, BGC passes through to EPME both the cost of purchasing ammonia under a supply contract and the proceeds from selling ammonia under three sales contracts. For the vast majority of monthly periods since the closing of the pipeline acquisition, the pricing terms of the ammonia contracts have resulted in ammonia costs exceeding ammonia sales proceeds. The amount of the shortfall generally increases as the market price of ammonia increases.

EPME has informed BGC that, notwithstanding the parties' agreement, it will not continue to pay BGC for shortfalls created by the pass-through of ammonia costs in excess of ammonia revenues. EPME encouraged BGC to seek payment by invoking the \$40.0 million guaranty made by El Paso which guaranteed EPME's obligations to BGC. If EPME fails to reimburse BGC for these shortfalls for a significant period during the remainder of the term of the ammonia agreements, then such unreimbursed shortfalls could exceed the \$40.0 million cap on El Paso's guaranty. To the extent the unreimbursed shortfalls significantly exceed the \$40.0 million cap, the resulting costs incurred by BGC could adversely affect Buckeye's financial position, results of operations, and cash flows. To date, BGC has continued to receive payment for ammonia costs under the contracts at issue. BGC has not called on El Paso's guaranty and believes only BGC may invoke the guaranty. EPME, however, contends that El Paso's guaranty is the source of payment for the shortfalls, but has not clarified the extent to which it believes the guaranty has been exhausted. Given the uncertainty of future ammonia prices and EPME's future actions, Buckeye is unable to estimate the amount of any such losses. Accordingly, Buckeye has recorded no provision for losses in the accompanying condensed consolidated financial statements because it is unable to determine whether or not a loss has been incurred or, if a loss has been incurred, a reasonable estimate or range of estimates of the amount of such losses. Buckeye is assessing its options, including potential recourse against EPME and El Paso, with respect to this matter.

Cash Flows from Operations

The components of cash flows from operations for the six months ended June 30, 2009 and 2008 are as follows (in thousands):

	Six Months Ended			
	June 30,			
	2009		2008	
Net income	\$	5,312	\$	80,882
Value of ESOP shares released		380		1,671
Depreciation and amortization		26,923		23,725
Asset impairment expense		72,540		

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Reorganization expense	28,113		
Net changes in fair value of derivatives	4,672		
Changes in current assets and liabilities	(43,681)	341	
Changes in non-current assets and liabilities	2,355	(1,415)	
Other	3,023	3,275	
Net cash provided by discontinued operations		572	
Total	\$ 99,637	\$ 109,051	

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Cash flows from operations were \$99.6 million for the first six months of 2009, which decreased by \$9.4 million compared to the first six months of 2008.

For the six months ended June 30, 2009, cash used in working capital resulted primarily from increases in inventories of \$27.7 million, prepaid and other current assets of \$17.7 million, and trade receivables of \$2.8 million, and a decrease in accrued and other current liabilities of \$5.5 million. These cash uses were partially offset by an increase in accounts payable of \$5.2 million and a decrease in construction and pipeline relocation receivables of \$4.9 million.

Increases in inventory are primarily due to an increase in inventory purchases which are hedged with futures contracts that expire primarily in the winter months. These inventory purchases were made for the purposes of storing inventory through the summer and selling the inventory in the next winter. Increases in prepaid and other current assets are due to an increase in prepaid services within the Natural Gas Storage segment as well as an increase in customer deposits within the Energy Services segment. The increase in trade receivables is due to the timing of collections as compared to amounts outstanding at year end. The decrease in accrued and other current liabilities is due to the payment of accrued ammonia purchases at year end which were paid in the first quarter of 2009. These decreases in accrued and other current liabilities were partially offset by an increase in accrued taxes. The increase in accounts payable is due to an increase in trading activity within the Energy Services segment. The decrease in construction and pipeline relocation receivables is due to a decrease in construction activity during the first six months of 2009.

Cash Flows from Investing Activities

Net cash used in investing activities for the six months ended June 30, 2009 and 2008 are as follows (in thousands):

	Six Months Ended	
	2009	2008
Capital expenditures	\$ (39,819)	\$ (32,501)
Acquisitions and equity investments	(3,880)	(610,616)
Net expenditures for disposal of property, plant and equipment	21	(103)
Proceeds from sale of discontinued operations		52,584
Total	\$ (43,678)	\$ (590,636)

In the first six months of 2009, Buckeye invested an additional \$3.9 million in West Texas LPG Pipeline Limited Partnership (WT LPG) as Buckeye's pro-rata contribution for an expansion project that was required to meet increased pipeline demand caused by increased product production in the Fort Worth basin and East Texas regions. The expansion project consists of the construction of 39 miles of 12-inch pipeline and the installation of multiple booster stations. The WT LPG expansion pipeline became operational in April 2009. Eighty percent of WT LPG is owned by Chevron Pipe Line Co. and 20% is owned by Buckeye.

In the first six months of 2008, Buckeye expended \$438.8 million for the acquisition of Lodi Gas Storage, L.L.C., \$143.1 million for the acquisition of Farm & Home Oil Company LLC, and an aggregate of \$28.7 million for the acquisitions of three terminals in Niles and Ferrysburg, Michigan, and Wethersfield, Connecticut and the acquisition of the 50% member interest in WesPac Pipelines - San Diego LLC that Buckeye did not already own.

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Capital expenditures are summarized below (net of amounts accrued at June 30, 2009 and 2008) (in thousands):

	Six Months Ended	
	June 30,	
	2009	2008
Sustaining capital expenditures	\$ (7,773)	\$ (8,067)
Expansion and cost reduction	(32,046)	(24,434)
Total	\$ (39,819)	\$ (32,501)

Buckeye incurred \$7.8 million and \$8.1 million of sustaining capital expenditures and \$32.0 million and \$24.4 million of expansion and cost-reduction expenditures in the first six months of 2009 and 2008, respectively. Expansion and cost reduction projects in 2009 included the Kirby Hills II project, as well as ethanol and butane blending projects at certain of Buckeye's terminals, and the construction of three additional tanks with capacity of 0.4 million barrels in Linden, New Jersey. Expansion and cost-reduction projects in 2008 included ethanol and butane blending projects, the construction of three additional tanks with capacity of 0.4 million barrels in Linden, New Jersey and the Kirby Hills II project.

Buckeye expects to spend approximately \$80.0 million to \$110.0 million in capital expenditures in 2009, of which approximately \$20.0 million to \$30.0 million is expected to relate to sustaining capital expenditures and \$65.0 million to \$80.0 million is expected to relate to expansion and cost-reduction projects. Sustaining capital expenditures include renewals and replacement of tank floors and roofs and upgrades to station and terminalling equipment, field instrumentation and cathodic protection systems. In 2009, major expansion and cost-reduction expenditures, which represent growth capital, include the completion of the Kirby Hills II project and will include the completion of the construction of additional product storage tanks at Linden, New Jersey and the construction of a 4.7 mile pipeline in central Connecticut to connect Buckeye's pipeline in Connecticut to a third party's electric generation plant which is currently under construction.

Cash Flows from Financing Activities

BGH did not borrow under the BGH Credit Agreement in the first six months of 2009 or 2008. BGH's distributions to its unitholders totaled \$19.3 million and \$16.6 million in the first six months of 2009 and 2008, respectively.

On March 31, 2009, Buckeye issued 2.6 million LP Units in an underwritten public offering at \$35.08 per LP Unit. Total proceeds from the offering, after underwriter's discount of \$1.17 per LP Unit and offering expenses, were approximately \$91.2 million, and were used to reduce amounts outstanding under the Credit Facility. On April 29, 2009, the underwriters of the March 31 equity offering exercised their option to purchase an additional 390,000 LP Units. Buckeye also used the net proceeds from this offering of approximately \$13.6 million to reduce outstanding borrowings under the Credit Facility.

During the first six months of 2009 and 2008, Buckeye borrowed \$77.3 million and \$313.0 million under its Credit Facility, respectively, and repaid \$166.6 million and \$156.0 million, respectively. Buckeye borrowed \$3.0 million under the BES Credit Agreement during the six months ended June 30, 2009. In 2008, net payments under the BES Credit Agreement and BES' previous credit agreement were \$27.3 million. In January 2008, Buckeye received net proceeds of \$298.0 million for the sale of the 6.05% Notes in an underwritten public offering to partially pre-fund the Lodi Gas acquisition.

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Distributions to non-controlling interests, consisting primarily of Buckeye's distributions to holders of its LP Units, were \$87.1 million in the first six months of 2009 compared to \$77.3 million in the first six months of 2008. The increase in distributions resulted from increases in the unit distribution rate and the issuance of 3.0 million LP Units in the first six months of 2009.

OTHER MATTERS

Accounting Pronouncements

See Note 1 to BGH's condensed consolidated financial statements for a description of recently adopted and issued accounting pronouncements.

Forward Looking Statements

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

The information contained above in this Management's Discussion and Analysis and elsewhere in this Form 10-Q includes forward-looking statements. Such statements use forward-looking words such as anticipate, continue, estimate, expect, may, believe, will, or other similar words, although some forward-looking statements are expressed differently. These statements discuss future expectations and contain projections.

Specific factors that could cause actual results to differ from those in the forward-looking statements include, but are not limited to: (1) BGH's ability to pay distributions to its unitholders; (2) BGH's expected receipt of distributions and incentive distributions from Buckeye; (3) anticipated trends in Buckeye's business; (4) price trends and overall demand for petroleum products and natural gas in the United States in general and in Buckeye's service areas in particular (economic activity, weather, alternative energy sources, conservation and technological advances may affect price trends and demands); (5) competitive pressures from other transportation services or alternative fuel sources; (6) changes, if any, in laws and regulations, including, among others, safety, environmental, tax and accounting matters or Federal Energy Regulatory Commission regulation of Buckeye's tariff rates; (7) liability for environmental claims; (8) nonpayment or nonperformance by Buckeye's customers; (9) security issues affecting Buckeye's assets, including, among others, potential damage to its assets caused by vandalism, acts of war or terrorism; (10) construction costs, unanticipated capital expenditures and operating expenses to repair or replace Buckeye's assets; (11) nonpayment or nonperformance by Buckeye's customers; (12) Buckeye's ability to successfully identify and complete strategic acquisitions and make cost saving changes in operations; (13) expansion in the operations of Buckeye's competitors; (14) Buckeye's ability to integrate any acquired operations into its existing operations and to realize anticipated cost savings and efficiencies; (15) shut-downs or cutbacks at major refineries that use Buckeye's services; (16) deterioration in Buckeye's labor relations; (17) regional economic conditions; (18) changes in real property tax assessments; (19) disruptions to the air travel system; (20) interest rate fluctuations and other capital market conditions; (21) BGH's future results of operations; (22) BGH's liquidity and ability to finance its activities; (23) market conditions in Buckeye's industry; (24) availability and cost of insurance on BGH's and Buckeye's assets and operations; (25) conflicts of interest between Buckeye, its general partner and BGH; (26) the treatment of Buckeye or BGH as a corporation for federal income tax purposes or if BGH or Buckeye become subject to entity-level taxation for state tax purposes; (27) the impact of governmental legislation and regulation on BGH and Buckeye and (28) Buckeye's ability to realize the efficiencies expected to result from Buckeye's reorganization.

These factors are not necessarily all of the important factors that could cause actual results to differ materially from those expressed in any of our forward-looking statements. Other unknown or unpredictable factors could also have material adverse effects on future results. Although the expectations in the forward-looking statements are based on our current beliefs and expectations, we do not assume responsibility for the accuracy and completeness of such statements. When considering forward-looking statements, you should keep in mind the risk factors and other cautionary statements in BGH's Annual Report on Form 10-K for 2008, including those described in the Risk Factors section of that report. Further, we undertake no obligation to update publicly any forward-looking statement whether as a result of new information or future events.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market Risk Trading Instruments

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Neither BGH nor Buckeye has any trading derivative instruments and neither engages in hedging activity with respect to trading instruments.

Market Risk Non-Trading Instruments

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Buckeye is exposed to financial market risk resulting from changes in commodity prices and interest rates. Buckeye does not currently have foreign exchange risk.

Commodity Risk

The Energy Services segment primarily uses exchange-traded petroleum futures contracts to manage the risk of market price volatility on its refined petroleum product inventories and its fixed-price sales contracts. The derivative contracts used to hedge refined petroleum product inventories are designated as fair value hedges. Accordingly, Buckeye's method of measuring ineffectiveness will compare the changes in the fair value of the New York Mercantile Exchange futures contracts to the change in fair value of Buckeye's hedged fuel inventory. Any difference between the amounts will be considered ineffectiveness and recorded in current period earnings.

The Energy Services segment has elected not to use hedge accounting with respect to its fixed-price sales contracts. Therefore, its fixed-price sales contracts and the related futures contracts used to offset those fixed-price sales contracts are all marked-to-market on Buckeye's balance sheet with gains and losses being recognized in earnings during each reporting period.

As of June 30, 2009, the Energy Services segment had commodity derivative assets and liabilities as follows (in thousands):

	June 30, 2009	
Assets:		
Fixed-price sales contracts	\$	12,759
Futures contracts for fixed-price sales contracts		4,508
Liability:		
Futures contracts for inventory		(24,640)
Futures contract for natural gas		(376)
Total	\$	(7,749)

Substantially all of the unrealized loss of \$24.6 million at June 30, 2009 for inventory hedges represented by futures contracts will be realized by the first quarter of 2010 as the related inventory is sold. Gains recorded on inventory hedges that were ineffective were approximately \$3.3 million and \$7.6 million for the three and six months ended June 30, 2009, respectively. As of June 30, 2009, open petroleum derivative contracts (represented by the fixed-price sales contracts and futures contracts for fixed-price sales contracts noted above) varied in duration, but did not extend beyond December 2010. In addition, at June 30, 2009, Buckeye had refined product inventories which it intends to use to satisfy a portion of the fixed-price sales contracts.

Based on a hypothetical 10% movement in the underlying quoted market prices of the commodity financial instruments outstanding at the dates indicated in the following table, the estimated fair value of portfolio of commodity financial instruments would be as follows (in thousands):

Scenario	Resulting Classification	Instrument Portfolio Fair Value Gain (Loss)
Fair value assuming NO CHANGE in underlying commodity prices (as is)	Liability	\$ (7,749)
Fair value assuming 10% INCREASE in underlying commodity prices	Liability	\$ (24,886)

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

Fair value assuming 10% DECREASE in underlying commodity prices	Asset	\$	11,686
---	-------	----	--------

Interest Rate Risk

Buckeye is exposed to risk resulting from changes in interest rates. Buckeye does not have material foreign exchange risk. Buckeye is exposed to fair value risk with respect to the fixed-rate portion of its financing arrangements (the 5.125% Notes, the 5.300% Notes, the 4.625% Notes, the 6.75% Notes and the 6.05% Notes) and to cash flow risk with respect to its variable rate obligations (the Credit Facility and the BES Credit Agreement). Fair value risk represents the risk that the value of the fixed portion of Buckeye's financing arrangements will rise or fall depending on changes in interest rates. Cash flow risk represents the risk that interest costs related to the Credit Facility and the BES Credit Agreement will rise or fall depending on changes in interest rates.

At June 30, 2009, Buckeye had total fixed-rate debt obligations at face value of \$1,150.0 million, consisting of \$125.0 million of the 5.125% Notes, \$275.0 million of the 5.300% Notes, \$300.0 million of the 4.625% Notes, \$150.0 million of the 6.75% Notes and \$300.0 million of the 6.05% Notes. The fair value of these obligations at June 30, 2009 was approximately \$1,087.2 million. Buckeye estimates that a 1% decrease in rates for obligations of similar maturities would increase the fair value of its fixed-rate debt obligations by \$81.7 million. Buckeye's variable debt obligation was \$209.0 million under the Credit Facility and \$99.0 million under the BES Credit Agreement at June 30, 2009. Based on the balances outstanding at June 30, 2009, a 1% increase or decrease in interest rates would increase or decrease annual interest expense by \$3.1 million.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures.

The management of MainLine Management, with the participation of its Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of its disclosure controls and procedures for BGH as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that MainLine Management's disclosure controls and procedures for BGH as of the end of the period covered by this report are operating effectively to provide reasonable assurance that the information required to be disclosed by MainLine Management in reports filed on behalf of BGH under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. A controls system cannot provide absolute assurance, however, that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

(b) Changes in Internal Control over Financial Reporting

There have been no changes in MainLine Management's internal control over financial reporting for BGH during the most recent fiscal quarter with respect to BGH's operations that has materially affected, or is reasonably likely to materially affect, management's internal control over financial reporting for BGH.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

In March 2007, Buckeye was named as a defendant in an action entitled *Madigan v. Buckeye Partners, L.P.* filed in the U.S. District Court for the Central District of Illinois. The action was brought by the State of Illinois Attorney General acting on behalf of the Illinois Environmental Protection Agency. The complaint alleges that Buckeye violated various Illinois state environmental laws in connection with a product release from Buckeye's terminal located in Harristown, Illinois on or about June 11, 2006 and various other product releases from Buckeye's terminals and pipelines in the State of Illinois during the period of 2001 through 2006. The complaint seeks to recover state oversight costs, damages, and civil penalties and seeks injunctive action requiring Buckeye to remediate the environmental contamination resulting from the product releases. Buckeye believes it has meritorious defenses to the allegations set forth in the complaint.

Item 1A. Risk Factors

In addition to the factors included in BGH's Annual Report on Form 10-K for 2008, the reader should also consider the following risk factor:

Buckeye may not be able to realize the benefits of the organizational restructuring commenced in the second quarter of 2009, which could adversely impact Buckeye or our business and financial results.

In the second quarter of 2009, following Buckeye's comprehensive best practices review of its business, Buckeye commenced a significant organizational restructuring designed to improve efficiencies and realize cost savings. If Buckeye is unable to successfully realize the efficiencies and benefits of Buckeye's reorganization, Buckeye and our financial results may be adversely impacted. In addition, if Buckeye is unable to successfully realize the operational benefits of Buckeye's reorganization, Buckeye's relationships with customers, suppliers and employees, and, accordingly, Buckeye and our business and results of operations, may be adversely affected.

Item 6. Exhibits

10.1 Full Waiver and Release of Claims, dated as of May 8, 2009, by Vance E. Powers (incorporated by reference to Exhibit 10.1 to Buckeye Partners, L.P.'s Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2009 filed on July 30, 2009).

31.1 Certification of Chief Executive Officer pursuant to Rule 13a-14(a) under the Securities Exchange Act of 1934.

31.2 Certification of Chief Financial Officer pursuant to Rule 13a-14(a) under the Securities Exchange Act of 1934.

Edgar Filing: Buckeye GP Holdings L.P. - Form 10-Q

32.1 Certification of Chief Executive Officer, Pursuant to 18 U.S.C. Section 1350.

32.2 Certification of Chief Financial Officer, Pursuant to 18 U.S.C. Section 1350.
