**Notes to Condensed Consolidated Financial Statements**

**Note 1. Basis of Financial Statement Presentation**

The condensed consolidated financial statements contained herein are unaudited and have been prepared from the books and records of KEMET Corporation and its subsidiaries ( KEMET or the Company ). In the opinion of management, the condensed consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results for the interim periods. The condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q, and therefore, do not include all information and footnotes necessary for a complete presentation of financial position, results of operations, and cash flows in conformity with U.S. generally accepted accounting principles ( U.S. GAAP ). Although the Company believes the disclosures are adequate to make the information presented not misleading, it is suggested that these condensed consolidated financial statements be read in conjunction with the audited financial statements and notes thereto included in the Company s Form 10-K for the fiscal year ended March 31, 2013 (the Company s 2013 Annual Report ).

The accompanying condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. In consolidation, all significant intercompany amounts and transactions have been eliminated. Certain prior year amounts have been reclassified to conform to current year presentation. Net sales and operating results for the quarter and six month periods ended September 30, 2013 are not necessarily indicative of the results to be expected for the full year.

The Company s significant accounting policies are presented in the Company s 2013 Annual Report.

***Use of Estimates and Assumptions***

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates, assumptions, and judgments based on historical data and other assumptions that management believes are reasonable. These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements. In addition, they affect the reported amounts of revenues and expenses during the reporting period.

The Company s judgments are based on management s assessment as to the effect certain estimates, assumptions, or future trends or events may have on the financial condition and results of operations reported in the unaudited condensed consolidated financial statements. It is important that readers of these unaudited financial statements understand that actual results could differ from these estimates, assumptions, and judgments.

***Recently Issued Accounting Pronouncements***

*New accounting standards adopted*

In July 2013, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update ( ASU ) No. 2013-11, Income Taxes (Topic 740). ASU 2013-11 requires that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, with certain exceptions. This ASU is effective for fiscal years, and interim periods within those years, beginning after December 15, 2013, with early adoption permitted. The Company does not expect the adoption of this guidance to have any material impact on its financial position, results of operations, comprehensive income or liquidity.

In March 2013, the FASB issued ASU No. 2013-05, Foreign Currency Matters (Topic 830). The ASU revised the authoritative guidance on accounting for cumulative translation adjustment specifying that a cumulative translation adjustment should be released into earnings when an entity ceases to have a controlling financial interest in a subsidiary or a group of assets within a consolidated foreign entity and the sale or transfer results in the complete or substantially complete liquidation of the foreign entity. For sales of an equity method investment that is a foreign entity, a pro rata portion of cumulative translation adjustment attributable to the investment would be recognized in earnings upon sale of the investment. The guidance is effective for fiscal years beginning after December 15, 2013. The Company does not expect the adoption of this guidance to have any material impact on its financial position, results of operations, comprehensive income or liquidity.

In February 2013, the FASB issued ASU No. 2013-02, Comprehensive Income (Topic 220), Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. The ASU adds new disclosure requirements for items reclassified out of accumulated other comprehensive income. The ASU does not amend any existing requirements for reporting net income or other comprehensive income in the financial statements. The ASU is effective for the Company for interim and annual periods beginning after April 1, 2013. The adoption of the ASU had no effect on the Company's financial position, results of operations, comprehensive income or liquidity.

In July 2012, the FASB issued ASU No. 2012-02, Intangibles-Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment, which states that an entity has the option first to assess qualitative factors to determine whether the existence of events and circumstances indicates that it is more likely than not that an indefinite-lived intangible asset is impaired. If, after assessing the totality of events and circumstances, an entity concludes that it is not more likely than not that the indefinite-lived

Table of Contents

intangible asset is impaired, then the entity is not required to take further action. However, if an entity concludes otherwise, then it is required to determine the fair value of the indefinite-lived intangible asset and perform the quantitative impairment test by comparing the fair value with the carrying amount. This provision is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. This accounting guidance is not expected to have a material impact on the Company's financial position, results of operations, comprehensive income or liquidity.

There are currently no other accounting standards that have been issued that will have a significant impact on the Company's financial position, results of operations or cash flows upon adoption.

***Restricted Cash***

As discussed in Note 2, *Debt*, the Company received a \$24.0 million prepayment from an original equipment manufacturer ( OEM ) and utilized \$11.6 million for the purchase of manufacturing equipment; the remaining proceeds of \$12.4 million are classified as restricted cash at September 30, 2013.

A bank guarantee in the amount of EUR 1.5 million (\$2.0 million) was issued by a European bank on behalf of the Company in August 2006 in conjunction with the establishment of a Value-Added Tax ( VAT ) registration in The Netherlands. Accordingly, a deposit was placed with the European bank for EUR 1.7 million (\$2.2 million). While the deposit is in KEMET's name, and KEMET receives all interest earned by this deposit, the deposit is pledged to the European bank, and the bank can use the funds if a valid claim against the bank guarantee is made. The bank guarantee will remain valid until it is discharged by the beneficiary.

***Fair Value Measurement***

The Company utilizes three levels of inputs to measure the fair value of (a) nonfinancial assets and liabilities that are recognized or disclosed at fair value in the Company's consolidated financial statements on a recurring basis (at least annually) and (b) all financial assets and liabilities. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs.

The first two inputs are considered observable and the last is considered unobservable. The levels of inputs are as follows:

- Level 1 Quoted prices in active markets for identical assets or liabilities.

## Edgar Filing: KEMET CORP - Form 10-Q

- Level 2 Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
  
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Assets and liabilities measured at fair value on a recurring basis as of September 30, 2013 and March 31, 2013 are as follows (amounts in thousands):

	Carrying Value September 30, 2013	Fair Value September 30, 2013	Fair Value Measurement Using			Carrying Value March 31, 2013	Fair Value March 31, 2013	Fair Value Measurement Using

NEC TOKIN options, net (3)	106	106			106	489	489			489

(1) Included in the line item Cash and cash equivalents on the Condensed Consolidated Balance Sheets.

(2) The valuation approach used to calculate fair value was a discounted cash flow for each respective debt facility.

(3) See Note 5, Investment in NEC TOKIN, for a description of the NEC TOKIN options. The value of the options are interrelated and depend on the enterprise value of NEC TOKIN Corporation and its EBITDA over the duration of the instruments. Therefore, the options have been valued using option pricing methods in a Monte Carlo simulation.

	\$ 208,836	\$	205,615

(1) During the six month period ended September 30, 2013, the Company recorded a \$3.9 million reserve for inventory held by a third party.

***Warrant***

As of September 30, 2013 and March 31, 2013, 8.4 million shares were subject to the warrant held by K Equity, LLC.

***Revenue Recognition***

The Company ships products to customers based upon firm orders and recognizes revenue when the sales process is complete. This occurs when products are shipped to the customer in accordance with the terms of an agreement of sale, there is a fixed or determinable selling price, title and risk of loss have been transferred and collectability is reasonably assured. Shipping and handling costs are included in cost of sales.

A portion of sales is related to products designed to meet customer specific requirements. These products typically have stricter tolerances making them useful to the specific customer requesting the product and to customers with similar or less stringent requirements. The Company

## Edgar Filing: KEMET CORP - Form 10-Q

recognizes revenue when title to the products transfers to the customer.

A portion of sales is made to distributors under agreements allowing certain rights of return, inventory price protection, and ship-from-stock and debit ( SFSD ) programs common in the industry.

The SFSD program provides a mechanism for the distributor to meet a competitive price after obtaining authorization from the Company's local sales office. This program allows the distributor to ship its higher-priced inventory and debit the Company for the difference between KEMET's list price and the lower authorized price for that specific transaction. Management analyzes historical SFSD activity to determine the SFSD exposure on the global distributor inventory at the balance sheet date. The establishment of these reserves is recognized as a component of the line item Net sales on the Condensed Consolidated Statements of Operations, while the associated reserves are included in the line item Accounts receivable, net on the Condensed Consolidated Balance Sheets.

Estimates used in determining sales allowances are subject to various factors including, but not limited to, changes in economic conditions, pricing changes, product demand, inventory levels in the supply chain, the effects of technological change, and other variables that might result in changes to our estimates.

The Company provides a limited warranty to customers that the Company's products meet certain specifications. The warranty period is generally limited to one year, and the Company's liability under the warranty is generally limited to a replacement of the product or refund of the purchase price of the product. Warranty costs as a percentage of net sales were 1.5% or less for the

Table of Contents

quarters and six month periods ended September 30, 2013 and 2012. The Company recognizes warranty costs when they are both probable and reasonably estimable.

***Revolving Line of Credit***

KEMET Electronics Corporation ( **KEC** ) and KEMET Electronics Marketing (S) Pte Ltd. ( **KEMET Singapore** ) (each a **Borrower** and, collectively, the **Borrowers** ) entered into a Loan and Security Agreement (the **Loan and Security Agreement** ) which provides a \$50 million revolving line of credit. A portion of the U.S. and Singapore facilities can be used to issue letters of credit **Letters of Credit** .

On September 24, 2013, the Company borrowed \$9.0 million from the revolving line of credit at a rate of 5.75% (Base Rate, as defined in the Loan and Security Agreement, plus 2.5%). As this is a base rate borrowing, there is not a specific repayment date and the amount can be repaid at any time prior to the expiration of the facility. On September 27, 2013, the Company borrowed \$12.0 million from the revolving line of credit

## Edgar Filing: KEMET CORP - Form 10-Q

at a rate of 4.0% (London Interbank Offer Rate ( LIBOR ) plus 3.75% based upon the fixed charge coverage ratio of KEMET Corporation and its subsidiaries on a consolidated basis as of June 30, 2013). The term on this borrowing is 31 days with total interest and principal payable at maturity on October 28, 2013, however it was extended to November 26, 2013 subsequent to September 30, 2013. These borrowings are classified as current as the facilities expire on September 30, 2014. These were the only borrowings under the revolving line of credit and they remained outstanding as of September 30, 2013.

As described below in the section titled *Advance Payment from OEM* , a standby Letter of Credit for \$16.0 million was delivered to the OEM on October 8, 2012 and in the six months ended September 30, 2013, the Company issued two Letters of Credit for EUR 1.1 million (\$1.5 million) and EUR 0.7 million (\$0.9 million), respectively, related to the construction of the new manufacturing location in Italy. These three letters of credit reduced the Company's availability under the Loan and Security Agreement. As of September 30, 2013, the Company's borrowing capacity under the revolving line of credit was \$3.0 million.

### *Advanced Payment from OEM*

On August 28, 2012, the Company entered into and amended an agreement (the *Agreement* ) with the OEM, pursuant to which the OEM agreed to advance the Company \$24.0 million (the *Advance Payment* ). As of September 30, 2013 and March 31, 2013, the Company had \$22.6 million and \$24.0 million, respectively, outstanding to the OEM. On a monthly basis starting in June 2013, the Company began repaying the OEM an amount equal to a percentage of the aggregate purchase price of the capacitors

Table of Contents

sold to the OEM the preceding month, not to exceed \$1.0 million per month. Pursuant to the terms of the Agreement, the percentage of the aggregate purchase price of capacitors sold to the OEM that will be used to repay the Advance Payment will double, not to exceed \$2.0 million per month, in the event that (1) the OEM provides evidence that the price charged by KEMET for a particular capacitor during any prior quarter was equal to or greater than 110% of the price paid by the OEM or its affiliates for a third-party part qualified for the same product, and shipping in volume during such period, and (2) agreement cannot be reached between the OEM and the Company for a price adjustment during the current quarter which would bring KEMET's price within 110% of the third-party price. In June 2015, the outstanding balance, if any, is due in full. Pursuant to the terms of the Agreement, the Company delivered to the OEM an irrevocable standby Letter of Credit in the amount of \$16.0 million on October 8, 2012 and on October 22, 2012, the Company received the Advance Payment from the OEM.

The OEM may demand repayment of the entire balance outstanding or draw upon the Letter of Credit if any of the following events occur while the Agreement is still in effect: (i) the Company commits a material breach of the Agreement, the statement of work or the master purchase agreement between the OEM and the Company; (ii) the Company's credit rating issued by Standard & Poor's Financial Services LLC or its successor or Moody's Investors Services, Inc. or its successors drops below CCC+ or Caa1, respectively; (iii) the Company's cash balance on the last day of any fiscal quarter is less than \$60.0 million; (iv) the Letter of Credit has been terminated without being replaced prior to repayment of the Advance Payment amount; (v) the Company or substantially all of its assets are sold to a party other than a subsidiary of the Company; (vi) all or substantially all of the assets of a subsidiary of the Company, or any of the shares of such subsidiary, are sold, whose assets are used to develop and produce the Goods; (vii) the Company or any subsidiary which accounts for 20% or more of the Company's consolidated total assets ( Company Entity ) applies for judicial or extra judicial settlement with its creditors, makes an assignment for the benefit of its creditors, voluntarily files for bankruptcy or has a receiver or trustee in bankruptcy appointed by reason of its insolvency, or in the event of an involuntary bankruptcy action, liquidation proceeding, dissolution or similar proceeding is filed against a Company Entity and not dismissed within sixty (60) days. To the Company's best knowledge and belief, none of these triggers have been met including maintaining a minimum cash balance since our cash balance (including restricted cash under the OEM agreement) exceeds the \$60.0 million threshold.

**10.5% Senior Notes**

As of September 30, 2013 and March 31, 2013, the Company had outstanding \$355.0 million in aggregate principal amount of the Company's 10.5% Senior Notes due May 1, 2018 (the 10.5% Senior Notes ). The Company had interest payable related to the 10.5% Senior Notes included in the line Accrued expenses on its Condensed Consolidated balance sheets of \$15.5 million at September 30, 2013 and March 31, 2013.

**Note 3. Restructuring Charges**

In the second quarter of fiscal year 2010, the Company initiated the first phase of a plan to restructure the Film and Electrolytic Business Group ( Film and Electrolytic ) and to reduce overhead. Since that time, the restructuring plan was expanded to both business groups and includes implementing programs to make the Company more competitive by removing excess capacity, relocating production to lower cost locations, and eliminating unnecessary costs throughout the Company.

A summary of the expenses aggregated on the Condensed Consolidated Statements of Operations line item Restructuring charges in the quarters ended September 30, 2013 and 2012, are as follows (amounts in thousands):

Cost of relocating manufacturing equipment	\$	548	\$	1,015	\$	1,023	\$	1,161
Personnel reduction costs		817		7,507		4,952		8,625
	\$	1,365	\$	8,522	\$	5,975	\$	9,786

*Six month period ended September 30, 2013*

The Company incurred \$6.0 million in restructuring charges in the six month period ended September 30, 2013 including \$5.0 million related to personnel reduction costs which is comprised of the following: \$1.9 million related to the closure of a portion of our innovation center in the U.S., \$1.2 million related to a reduction of the solid capacitor production workforce in Mexico, \$1.1 million related to the Company's initiative to reduce overhead, \$0.4 million in termination benefits associated with converting the Weymouth, United Kingdom manufacturing facility into a technology center and \$0.4 million related to an additional Cassia Integrazione Guadagni Straordinaria ( CIGS ) plan in Italy. The additional expense related to CIGS is an agreement with the labor union which allowed the Company to place up to 170 workers, on a rotation basis, on the CIGS plan to save labor costs. CIGS is a temporary plan to save labor costs whereby a company may temporarily lay off employees while the government

continues to pay their wages for a maximum of 12 months for the program. The employees who are in CIGS are not working, but are still employed by the Company. Only employees that are not classified as management or executive level personnel can participate in the CIGS program. Upon termination of the plan, the affected employees return to work.

In addition to these personnel reduction costs, the Company incurred manufacturing relocation costs of \$1.0 million for the consolidation of manufacturing operations within Italy and relocation of equipment to Evora, Portugal and Skopje, Macedonia.

*Six month period Ended September 30, 2012*

Restructuring charges in the six months ended September 30, 2012 included personnel reduction costs of \$8.6 million and manufacturing relocation costs of \$1.2 million. The personnel reduction costs were comprised of the following: \$2.8 million in termination benefits associated with converting the Landsberg, Germany manufacturing facility into a technology center and \$1.7 million in termination benefits associated with converting the Weymouth, United Kingdom manufacturing facility into a technology center. The Company also incurred \$4.1 million for reductions in production workforce across the entire Company and reducing overhead. In addition to these personnel reduction costs, the Company incurred manufacturing relocation costs of \$1.2 million for relocation of equipment to Bulgaria, China, Macedonia and Mexico and for the consolidation of manufacturing operations within Italy.

*Reconciliation of restructuring liability*

A reconciliation of the beginning and ending liability balances for restructuring charges included in the line items Accrued expenses and Other non-current obligations on the Condensed Consolidated Balance Sheets for the quarters and six month periods ended September 30, 2013 and 2012 are as follows (amounts in thousands):

(1) Due primarily to the Company's permanent re-investment assertion relating to foreign earnings, there was no significant deferred tax effect associated with the cumulative currency translation gains and losses during the quarters and six month periods ended September 30, 2013 and 2012.

(2) Ending balance is net of tax of \$2.3 million and \$2.9 million as of September 30, 2013 and September 30, 2012, respectively.

**Note 5. Investment in NEC TOKIN**

On March 12, 2012, KEMET Electronics Corporation ( KEC ), a wholly owned subsidiary of the Company, entered into a Stock Purchase Agreement (the Stock Purchase Agreement ) to acquire 51% of the common stock (representing a 34% economic interest) of NEC TOKIN Corporation ( NEC TOKIN ), a manufacturer of tantalum capacitors, electro-magnetic, electro-mechanical and access devices, (the Initial Purchase ) from NEC Corporation ( NEC ) of Japan. The transaction closed on February 1, 2013, at which time KEC paid a purchase price of \$50.0 million for new shares of common stock of NEC TOKIN (the Initial Closing ). The

Table of Contents

Company accounts for the equity investment using the equity method in a non-consolidated variable interest entity since KEC does not have the power to direct significant activities of NEC TOKIN.

In connection with KEC's execution of the Stock Purchase Agreement, KEC entered into a Stockholders' Agreement (the "Stockholders Agreement") with NEC TOKIN and NEC, which provides for restrictions on transfers of NEC TOKIN's capital stock, certain tag-along and first refusal rights on transfer, restrictions on NEC's ability to convert the preferred stock of NEC TOKIN held by it, certain management services to be provided to NEC TOKIN by KEC (or an affiliate of KEC) and certain board representation rights. KEC holds four of seven NEC TOKIN director positions. However, NEC has significant board rights.

Concurrent with execution of the Stock Purchase Agreement and the Stockholders' Agreement, KEC entered into an Option Agreement (the "Option Agreement") with NEC whereby KEC may purchase additional shares of NEC TOKIN common stock from NEC TOKIN for a purchase price of \$50.0 million resulting in an economic interest of approximately 49% while maintaining ownership of 51% of NEC TOKIN's common stock (the "First Call Option") by providing notice of the First Call Option between the Initial Closing and August 31, 2014. Upon providing such notice, but not before August 1, 2014, KEC may also exercise an option to purchase all outstanding capital stock of NEC TOKIN from its stockholders, primarily NEC, for a purchase price based on the greater of six times LTM EBITDA (as defined in the Option Agreement) less the previous payments and certain other adjustments, or the outstanding amount of NEC TOKIN's debt obligation to NEC (the "Second Call Option") by providing notice of the Second Call Option by May 31, 2018. From August 1, 2014 through May 31, 2018, NEC may require KEC to purchase all outstanding capital stock of NEC TOKIN from its stockholders, primarily NEC. However, NEC may only exercise this right (the "Put Option") from August 1, 2014 through April 1, 2016 if NEC TOKIN achieves certain financial performance measures. The purchase price for the Put Option will be based on the greater of six times LTM EBITDA less previous payments and certain other adjustments, or the outstanding amount of NEC TOKIN's debt obligation to NEC as of the date the Put Option is exercised. The purchase price for the Put Option is reduced by the amount of NEC TOKIN's debt obligation to NEC which KEC will assume. The determination of the purchase price will be modified in the event there is a disagreement between NEC and KEC under the Stockholders' Agreement. In the event the Put Option is exercised, NEC will be required to maintain in place the outstanding debt obligation owed by NEC TOKIN to NEC. The valuation of these options as of March 31, 2013 resulted in a net long-term asset of \$0.5 million which is included in the line item "Other assets" on the Condensed Consolidated Balance Sheets. As of September 30, 2013, the Company has marked these options to fair value and recognized a \$0.4 million loss included on the line item "Other expense, net" in the Condensed Consolidated Statement of Operations. The value included for the options in the line item "Other assets" on the Condensed Consolidated Balance Sheets as of September 30, 2013 is \$0.1 million.

KEC's total investment in NEC TOKIN including the net options described above on February 1, 2013 was \$54.5 million which included \$50.0 million cash consideration plus approximately \$4.5 million in transaction expenses (fees for legal, accounting, due diligence, investment banking and other various services necessary to complete the transactions). The Company has made a preliminary allocation of the aggregate purchase price, which are based upon estimates that the Company believes are reasonable and are subject to revision as additional information becomes available.

Summarized financial information for NEC TOKIN follows (in thousands):

## Edgar Filing: KEMET CORP - Form 10-Q

As of September 30, 2013, the excess of the carrying value for its investment in NEC TOKIN over KEMET's share of NEC TOKIN's equity is \$15.9 million. As of September 30, 2013, KEC's maximum loss exposure as a result of its investments in NEC TOKIN is limited to the aggregate of the carrying value of the investment and any accounts receivable balance due from NEC TOKIN. For the six month period ended September 30, 2013, KEMET recorded sales of \$1.9 million to NEC TOKIN. As of September 30, 2013 KEMET's accounts receivable and accounts payable balances with NEC TOKIN were \$0.2 million and \$0.1 million respectively. In accordance with the Stockholders' Agreement, KEC entered into a management services agreement to provide services for which KEC would be reimbursed. As of September 30, 2013 KEMET's receivable balances under this agreement is \$0.7 million.

Table of Contents**Note 6. Segment and Geographic Information**

In the first quarter of fiscal year 2014, the Company reorganized its business by combining its Tantalum Business Group and Ceramic Business Group into one business group, Solid Capacitors Business Group ( Solid Capacitors ). Following the reorganization, based on information regularly reviewed by the chief operating decision maker, KEMET's two business groups are comprised of the Film and Electrolytic Business Group ( Film and Electrolytic ) and the Solid Capacitors. These business groups are responsible for their respective manufacturing sites as well as related research and development efforts.

Consistent with management reporting, the Company does not allocate indirect Selling, general and administrative ( SG&A ) and Research and development ( R&D ) expenses to the business groups. Prior period information has been reclassified to conform to current year presentation.

*Solid Capacitors*

Operating in ten manufacturing sites in the United States, Mexico, China and Portugal, Solid Capacitors primarily produces tantalum, aluminum, polymer and ceramic capacitors which are sold globally. Solid Capacitors also produces tantalum powder used in the production of tantalum capacitors and has a product innovation center in the United States.

*Film and Electrolytic*

Film and Electrolytic operates fifteen manufacturing sites throughout Europe, Asia, and the United States and produces film, paper, and electrolytic capacitors which are sold globally. Film and Electrolytic also manufactures etched foils utilized as a core component in the manufacture of electrolytic capacitors and operates a machinery division located in Italy that provides automation solutions for the manufacture, processing and assembly of metalized films, film/foil and electrolytic capacitors; and designs, assembles and installs automation solutions for the production of energy storage devices. In addition, this business group has product innovation centers in the United Kingdom, Italy, Germany and Sweden.

In fiscal year 2014, the Company expects to contribute up to \$1.6 million to the pension plans, \$0.6 million of which has already been contributed as of September 30, 2013. The Company's policy is to pay benefits as costs are incurred for the postretirement benefit plan.

**Note 8. Stock-based Compensation**

The Company's stock-based compensation plans are broad-based, long-term retention programs intended to attract and retain talented employees and align stockholder and employee interests. At September 30, 2013, the Company had four stock option plans that reserved shares of common stock for issuance to executives and key employees: the 1992 Key Employee Stock Option Plan, the 1995 Executive Stock Option Plan, the 2004 Long-Term Equity Incentive Plan (collectively, the Prior Plans) and the 2011 Omnibus Equity Incentive Plan (the 2011 Incentive Plan). The 2011 Incentive Plan authorizes the Company to provide equity-based compensation in the form of (1) stock options, including incentive stock options, entitling the optionee to favorable tax treatment under Section 422 of the Code; (2) stock appreciation rights; (3) restricted stock and restricted stock units; (4) other share-based awards; and (5) performance awards. Options issued under these plans vest within one to three years and expire ten years from the grant date. The Company grants restricted stock units to members of the Board of Directors, the Chief Executive Officer and a limited group of executives. Once vested and settled, restricted stock units are converted into restricted stock and cannot be sold until 90 days after the Chief Executive Officer, the executive or the member of the Board of Directors, as applicable, resigns from his or her position, or until the individual achieves the targeted ownership under the Company's stock ownership guidelines, and only to the extent that such ownership exceeds the target. This expense is being recognized over the respective vesting periods.

Historically, the Board of Directors of the Company has approved annual Long Term Incentive Plans (LTIP) which cover two year periods and are primarily based upon the achievement of an Adjusted EBITDA target for the two-year period. At the time of the award, the individual plans entitle the participants to receive cash or restricted stock units, or a combination of both as determined by the Company's Board of Directors. The 2014/2015 LTIP and 2013/2014 LTIP also awarded restricted stock units which vest over the course of three years from the anniversary of the establishment of the plan and are not subject to a performance metric. The Company assesses the likelihood of meeting the Adjusted EBITDA financial metric on a quarterly basis and adjusts compensation expense to match expectations. Any related liability is reflected in the line item Accrued expenses on the Consolidated Balance Sheets and any restricted stock unit commitment is reflected in the line item Additional paid-in capital on the Consolidated Balance Sheets.

The compensation expense associated with stock-based compensation for the quarters ended September 30, 2013 and 2012 are recorded on the Condensed Consolidated Statements of Operations as follows (amounts in thousands):

In the Operating activities section of the Condensed Consolidated Statements of Cash Flows, stock-based compensation expense was treated as an adjustment to Net loss for the six month periods ended September 30, 2013 and 2012. Approximately twenty-eight thousand and twenty-one thousand stock options were exercised in the six month periods ended September 30, 2013 and 2012, respectively.

Table of Contents**Note 9. Income Taxes**

During the quarter ended September 30, 2013, the Company incurred \$1.3 million of income tax expense which is related to income taxes for foreign operations. Income tax expense for the six month period ended September 30, 2013 was \$2.9 million, comprised of \$2.8 million related to income taxes for foreign operations and \$0.1 million of state income tax expense.

During the quarter ended September 30, 2012, the Company incurred \$1.8 million of income tax expense which was related to income taxes for foreign operations. Income tax expense for the six month period ended September 30, 2012 was \$3.6 million, comprised of \$3.5 million related to income taxes for foreign operations and \$0.1 million of state income tax expense.

There is no U.S. federal income tax benefit from the quarter and six month periods ended September 30, 2013 and September 30, 2012 due to a valuation allowance on deferred tax assets.

**Note 10. Basic and Diluted Net Loss Per Common Share**

The following table presents basic EPS and diluted EPS (amounts in thousands, except per share data):

	Quarters Ended September 30,		Six Month Periods Ended September 30,	
	2013	2012	2013	2012
<b>Numerator:</b>				
Net loss	\$ (13,098)	\$ (24,921)	\$ (48,237)	\$ (42,674)

Assumed conversion of warrants	6,371	6,591	6,540	6,929

**Note 11. Concentrations of Risks**

The Company sells to customers globally and on a monthly basis the Company evaluates customer account balances in order to assess the Company's financial risks of collection, as the Company generally does not require collateral from its customers. One customer accounted for over 10% of the Company's net sales in the quarters and six month periods ended September 30, 2013 and 2012. There were no accounts receivable balances from any customer exceeding 10% of gross accounts receivable at September 30, 2013 and March 31, 2013.

Electronics distributors are an important distribution channel in the electronics industry and accounted for 44% of the Company's net sales in the six month periods ended September 30, 2013 and 2012. As a result of the Company's concentration of sales to electronics distributors, the Company may experience fluctuations in the Company's operating results as electronics distributors experience fluctuations in end-market demand or adjust their inventory stocking levels.

**Note 12. Condensed Consolidating Financial Statements**

The 10.5% Senior Notes are fully and unconditionally guaranteed, jointly and severally, on a senior basis by certain of the Company's 100% owned domestic subsidiaries ( Guarantor Subsidiaries ) and secured by a first priority lien on 51% of the capital stock of certain of our foreign restricted subsidiaries ( Non-Guarantor Subsidiaries ). The Company's Guarantor Subsidiaries and Non-Guarantor Subsidiaries are not consistent with the Company's business groups or geographic operations; accordingly this basis of presentation is not intended to present the Company's financial condition, results of operations or cash flows for any purpose other than to comply with the specific requirements for subsidiary guarantor reporting. The Company is required to present condensed
