AECOM Technology Corporation

Notes to Consolidated Financial Statements

(unaudited)

1. Basis of Presentation

The accompanying consolidated financial statements of AECOM Technology Corporation (AECOM or the Company) are unaudited and, in the opinion of management, include all adjustments, including all normal recurring items necessary for a fair statement of the Company's financial position and results of operations for the periods presented. All inter-company balances and transactions are eliminated in consolidation.

The consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Form 10-K for the fiscal year ended September 30, 2013. The accompanying unaudited consolidated financial statements and related notes have been prepared in accordance with generally accepted accounting principles (GAAP) in the U.S. for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. Certain reclassifications were made to the prior year to conform to current year presentation.

The results of operations for the nine months ended June 30, 2014 are not necessarily indicative of the results to be expected for the fiscal year ending September 30, 2014.

The Company reports its annual results of operations based on 52 or 53-week periods ending on the Friday nearest September 30. The Company reports its quarterly results of operations based on periods ending on the Friday nearest December 31, March 31, and June 30. For clarity of presentation, all periods are presented as if the periods ended on September 30, December 31, March 31, and June 30.

2. New Accounting Pronouncements and Changes in Accounting

In February 2013, the Financial Accounting Standards Board (FASB) issued new accounting guidance to update the presentation of reclassifications from comprehensive income to net income in consolidated financial statements. Under this new guidance, an entity is required to present information about the amounts reclassified out of accumulated other comprehensive income either by the respective line items of net income or by cross-reference to other required disclosures. The new guidance does not change the requirements for reporting net income or other comprehensive income in financial statements. This guidance was effective for the Company's fiscal year beginning October 1, 2013 and did not have a material impact on the Company's consolidated financial statements.

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

In February 2013, the FASB issued new accounting guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation (within the scope of this guidance) is fixed at the reporting date. Examples of obligations within the scope of this guidance include debt arrangements, other contractual obligations, and settled litigation and judicial rulings. This new guidance was effective for annual reporting periods beginning after December 15, 2013 and subsequent interim periods. This guidance is effective for the Company's fiscal year beginning October 1, 2014 and it is not expected to have a material impact on the Company's consolidated financial statements.

In July 2013, the FASB issued new accounting guidance that requires the presentation of unrecognized tax benefits as a reduction of the deferred tax assets, when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists at the reporting date. This new guidance was effective for annual reporting periods beginning on or after December 15, 2013 and subsequent interim periods. This guidance is effective for the Company's fiscal year beginning October 1, 2014 and it is not expected to have a material impact on the Company's consolidated financial statements.

In May 2014, the FASB issued new accounting guidance which amended the existing accounting standards for revenue recognition. The new accounting guidance establishes principles for recognizing revenue upon the transfer of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. This guidance is effective for the Company's fiscal year beginning October 1, 2017. Early adoption is not permitted. The amendments may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of initial application. The Company is currently in the process of evaluating the impact of adoption of the new accounting guidance on its consolidated financial statements.

Table of Contents**3. Stock Repurchase Program**

The Company's Board of Directors have authorized a stock repurchase program (the Repurchase Program), the dollar value capacity of which has been authorized as follows:

Authorization Date	Increase in the Dollar Value Capacity	(amounts in millions)	Maximum Dollar Value Capacity at the Authorization Date
August 2011	\$	200.0	\$ 200.0
August 2012	\$	300.0	\$ 500.0
January 2013	\$	500.0	\$ 1,000.0

Share repurchases under the Repurchase Program can be made through open market purchases or other methods, including pursuant to a Rule 10b5-1 plan. The Company has purchased a total of 27.4 million shares at an average price of \$24.10 per share, for a total cost of \$660.1 million. As of June 30, 2014, \$339.9 million was available for the repurchase of the Company's common stock pursuant to the Repurchase Program. Repurchased shares are returned to treasury status, but remain authorized for registration and issuance in the future.

Accelerated Share Repurchase

In connection with the Repurchase Program, the Company entered into an agreement with a bank to repurchase 4.8 million shares for \$100 million. The share repurchases occurred primarily in the quarter ended September 30, 2011.

Rule 10b5-1 Repurchase Plan and Open Market Purchases

In connection with the Repurchase Program, the Company has also repurchased a total of 22.6 million shares at an average price of \$24.75 per share, for a total cost of \$560.1 million.

4. Business Acquisitions, Goodwill and Intangible Assets

The Company obtained control of an unconsolidated joint venture that resulted in its consolidation during the nine months ended June 30, 2014, as further discussed in Note 6. No other business acquisitions occurred during the nine months ended June 30, 2014.

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

At the time of acquisition, the Company preliminarily estimates the amount of the identifiable intangible assets acquired based upon historical valuations of similar acquisitions and the facts and circumstances available at the time. The Company determines the final value of the identifiable intangible assets as soon as information is available, but not more than 12 months from the date of acquisition. Post-acquisition adjustments primarily relate to project related liabilities.

The changes in the carrying value of goodwill by reportable segment for the nine months ended June 30, 2014 and 2013 were as follows:

	September 30, 2013	Post- Acquisition Adjustments	Foreign Exchange Impact (in millions)	Acquired	June 30, 2014
Professional Technical Services	\$ 1,645.0	\$ 5.0	\$ 0.4	\$ 79.2	\$ 1,729.6
Management Support Services	166.8				166.8
Total	\$ 1,811.8	\$ 5.0	\$ 0.4	\$ 79.2	\$ 1,896.4

	September 30, 2012	Post- Acquisition Adjustments	Foreign Exchange Impact (in millions)	Acquired	June 30, 2013
Professional Technical Services	\$ 1,608.6	\$	\$ (43.4)	\$ 65.3	\$ 1,630.5
Management Support Services	166.8				166.8
Total	\$ 1,775.4	\$	\$ (43.4)	\$ 65.3	\$ 1,797.3

Table of Contents

The gross amounts and accumulated amortization of the Company's acquired identifiable intangible assets with finite useful lives as of June 30, 2014 and September 30, 2013, included in intangible assets net, in the accompanying consolidated balance sheets, were as follows:

	Gross Amount	June 30, 2014 Accumulated Amortization	Intangible Assets, Net (in millions)	Gross Amount	September 30, 2013 Accumulated Amortization	Intangible Assets, Net	Amortization Period (years)
Backlog	\$ 104.3	\$ (95.0)	\$ 9.3	\$ 94.9	\$ (89.4)	\$ 5.5	1.5
Customer relationships	158.6	(81.2)	77.4	147.1	(69.5)	77.6	10
Trademark / tradename	7.8	(7.8)		7.8	(7.8)		2
Total	\$ 270.7	\$ (184.0)	\$ 86.7	\$ 249.8	\$ (166.7)	\$ 83.1	

Amortization expense of acquired intangible assets included within cost of revenue was \$17.3 million and \$16.1 million for the nine months ended June 30, 2014 and 2013, respectively. The following table presents estimated amortization expense of intangible assets for the remainder of fiscal 2014 and for the succeeding years:

Fiscal Year	(in millions)
2014 (three months remaining)	\$ 5.7
2015	21.7
2016	15.5
2017	13.0
2018	9.7
Thereafter	21.1
Total	\$ 86.7

5. Accounts Receivable Net

Net accounts receivable consisted of the following as of June 30, 2014 and September 30, 2013:

	June 30, 2014	September 30, 2013
	(in millions)	
Billed	\$ 1,083.6	\$ 1,177.6
Unbilled	1,240.2	1,076.8
Contract retentions	180.0	174.3
Total accounts receivable gross	2,503.8	2,428.7
Allowance for doubtful accounts	(72.3)	(86.4)
Total accounts receivable net	\$ 2,431.5	\$ 2,342.3

Billed accounts receivable represent amounts billed to clients that have yet to be collected. Unbilled accounts receivable represent revenue recognized but not yet billed pursuant to contract terms or accounts billed after the period end. Substantially all unbilled receivables as of June 30, 2014 and September 30, 2013 are expected to be billed and collected within twelve months. Contract retentions represent amounts

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

invoiced to clients where payments have been withheld pending the completion of certain milestones, or other contractual conditions, or upon the completion of a project. These retention agreements vary from project to project and could be outstanding for several months or years.

Allowances for doubtful accounts have been determined through specific identification of amounts considered to be uncollectible and potential write-offs, plus a non-specific allowance for other amounts for which some potential loss has been determined to be probable based on current and past experience.

Other than the U.S. government, no single client accounted for more than 10% of the Company's outstanding receivables at June 30, 2014 or September 30, 2013.

The Company has sold trade receivables to financial institutions, of which \$116.1 million and \$100.2 million was outstanding as of June 30, 2014 and September 30, 2013, respectively. The Company does not retain financial or legal obligations for these receivables that would result in material losses. The Company's ongoing involvement is limited to the remittance of customer payments to the financial institutions with respect to the sold trade receivables.

Table of Contents

6. Joint Ventures and Variable Interest Entities

The Company's joint ventures provide architecture, engineering, program management, construction management and operations and maintenance services. Joint ventures, the combination of two or more partners, are generally formed for a specific project. Management of the joint venture is typically controlled by a joint venture executive committee, comprised of representatives from the joint venture partners. The joint venture executive committee normally provides management oversight and controls decisions which could have significant impact on the joint venture.

Some of the Company's joint ventures have no employees and minimal operating expenses. For these joint ventures, the Company's employees perform work for the joint venture, which is then billed to a third-party customer by the joint venture. These joint ventures function as pass through entities to bill the third-party customer. For consolidated joint ventures of this type, the Company records the entire amount of the services performed and the costs associated with these services, including the services provided by the other joint venture partners, in the Company's results of operations. For certain of these joint ventures where a fee is added by an unconsolidated joint venture to client billings, the Company's portion of that fee is recorded in equity in earnings of joint ventures.

The Company also has joint ventures that have their own employees and operating expenses, and to which the Company generally makes a capital contribution. The Company accounts for these joint ventures either as consolidated entities or equity method investments based on the criteria further discussed below.

The Company follows guidance issued by the FASB on the consolidation of variable interest entities (VIEs) that requires companies to utilize a qualitative approach to determine whether it is the primary beneficiary of a VIE. The process for identifying the primary beneficiary of a VIE requires consideration of the factors that indicate a party has the power to direct the activities that most significantly impact the joint venture's economic performance, including powers granted to the joint venture's program manager, powers contained in the joint venture governing board and, to a certain extent, a company's economic interest in the joint venture. The Company analyzes its joint ventures and classifies them as either:

- a VIE that must be consolidated because the Company is the primary beneficiary or the joint venture is not a VIE and the Company holds the majority voting interest with no significant participative rights available to the other partners; or
- a VIE that does not require consolidation and is treated as an equity method investment because the Company is not the primary beneficiary or the joint venture is not a VIE and the Company does not hold the majority voting interest.

As part of the above analysis, if it is determined that the Company has the power to direct the activities that most significantly impact the joint venture's economic performance, the Company considers whether or not it has the obligation to absorb losses or rights to receive benefits of the VIE that could potentially be significant to the VIE.

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

The Company has not provided financial or other support during the periods presented to any of its VIEs that it was not previously contractually required to provide. Contractually required support provided to the Company's joint ventures is further discussed in Note 16.

Summary of unaudited financial information of the consolidated joint ventures is as follows:

	June 30, 2014	September 30, 2013
	(in millions)	
Current assets	\$ 236.2	\$ 185.7
Non-current assets	109.3	
Total assets	\$ 345.5	\$ 185.7
Current liabilities	\$ 172.1	\$ 38.9
Non-current liabilities		
Total liabilities	172.1	38.9
Total AECOM equity	99.5	106.8
Noncontrolling interests	73.9	40.0
Total owners' equity	173.4	146.8
Total liabilities and owners' equity	\$ 345.5	\$ 185.7

Total revenue of the consolidated joint ventures was \$380.2 million and \$392.6 million for the nine months ended June 30, 2014 and 2013, respectively. The assets of the Company's consolidated joint ventures are restricted for use only by the particular joint venture and are not available for the general operations of the Company.

Table of Contents

Summary of unaudited financial information of the unconsolidated joint ventures is as follows:

	June 30, 2014	September 30, 2013
	(in millions)	
Current assets	\$ 435.8	\$ 525.5
Non-current assets	244.8	98.7
Total assets	\$ 680.6	\$ 624.2
Current liabilities	\$ 337.8	\$ 384.1
Non-current liabilities	48.3	17.5
Total liabilities	386.1	401.6
Joint venturers' equity	294.5	222.6
Total liabilities and joint venturers' equity	\$ 680.6	\$ 624.2
AECOM's investment in joint ventures	\$ 133.8	\$ 106.4

Total revenue of the unconsolidated joint ventures was \$1,455.3 million and \$1,504.6 million for the nine months ended June 30, 2014 and 2013, respectively. Total gross profit, which also equates to net income, of the unconsolidated joint ventures was \$39.1 million and \$49.5 million for the nine months ended June 30, 2014 and 2013, respectively.

Summary of AECOM's equity in earnings of unconsolidated joint ventures is as follows:

	Nine Months Ended	
	June 30, 2014	June 30, 2013
	(in millions)	
Pass through joint ventures	\$ 5.5	\$ 4.8
Other joint ventures	44.0	13.1
Total	\$ 49.5	\$ 17.9

Included in equity in earnings above, the Company recorded a \$37.4 million gain upon change in control (\$23.4 million, net of tax) of an unconsolidated joint venture in the nine months ended June 30, 2014. The Company obtained control of the joint venture through modifications to the joint venture's operating agreement, which required the Company to consolidate the joint venture. The acquisition date fair value of the previously held equity interest was \$58.0 million, excluding control premium. The measurement of the fair value of the equity interest immediately before obtaining control of the joint venture resulted in the pre-tax gain of \$37.4 million. The Company utilized income and market approaches, in addition to obtaining an independent third party valuation, in determining the joint venture's fair value, which includes making assumptions about variables such as revenue growth rates, profitability, discount rates, and industry market multiples. These assumptions are subject to a high degree of judgment. Total assets and liabilities of this entity included in the accompanying consolidated balance sheet at the acquisition date were \$207.8 million and \$48.1 million, respectively. This acquisition did not meet the quantitative thresholds to require pro forma disclosures of operating results based on the Company's consolidated assets, investments and net income. This joint venture performs engineering and program management services in the Middle East and is included in the Company's PTS segment.

7. Pension Benefit Obligations

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

The following table details the components of net periodic cost for the Company's pension plans for the three and nine months ended June 30, 2014 and 2013:

	Three Months Ended				Nine months Ended			
	June 30, 2014		June 30, 2013		June 30, 2014		June 30, 2013	
	U.S.	Int 1	U.S.	Int 1	U.S.	Int 1	U.S.	Int 1
(in millions)								
Components of net periodic (benefit) cost:								
Service costs	\$	\$ 0.2	\$	\$ 0.2	\$	\$ 0.5	\$	\$ 0.7
Interest cost on projected benefit obligation	1.9	7.1	1.7	5.9	5.7	20.8	5.0	18.0
Expected return on plan assets	(2.1)	(6.6)	(2.1)	(5.6)	(6.3)	(19.5)	(6.4)	(17.1)
Amortization of prior service costs		(0.1)				(0.2)		(0.1)
Amortization of net loss	1.0	1.2	1.0	0.9	3.0	3.7	3.2	2.9
Settlement loss recognized								2.6
Net periodic (benefit) cost	\$ 0.8	\$ 1.8	\$ 0.6	\$ 1.4	\$ 2.4	\$ 5.3	\$ 1.8	\$ 7.0

Table of Contents

The total amounts of employer contributions paid for the nine months ended June 30, 2014 were \$3.6 million for U.S. plans and \$12.3 million for non-U.S. plans. The expected remaining scheduled annual employer contributions for the fiscal year ending September 30, 2014 are \$1.3 million for U.S. plans and \$4.1 million for non-U.S. plans. Included in other long-term liabilities on the Company's consolidated balance sheet are net pension liabilities of \$184.8 million and \$192.7 million as of June 30, 2014 and September 30, 2013, respectively.

8. Debt

Debt consisted of the following:

	June 30, 2014	September 30, 2013
	(in millions)	
Unsecured term credit agreement	\$ 750.0	\$ 750.0
Unsecured senior notes	262.9	260.2
Unsecured revolving credit facility		114.7
Other debt	30.5	48.4
Total debt	1,043.4	1,173.3
Less: Current portion of debt and short-term borrowings	(66.5)	(84.3)
Long-term debt, less current portion	\$ 976.9	\$ 1,089.0

The following table presents, in millions, scheduled maturities of the Company's debt as of June 30, 2014:

Fiscal Year	
2014 (three months remaining)	\$ 66.0
2015	38.7
2016	38.1
2017	37.7
2018	600.0
Thereafter	262.9
Total	\$ 1,043.4

Unsecured Term Credit Agreement

In June 2013, the Company entered into a Second Amended and Restated Credit Agreement (Term Credit Agreement) with Bank of America, N.A., as administrative agent and a lender, and the other lenders party thereto. Pursuant to the Term Credit Agreement, the Company borrowed \$750 million and may borrow up to an additional \$100 million subject to certain conditions, including lender approval. The Company used approximately \$675 million of the proceeds from the loans to repay indebtedness under its prior term loan facility. The loans under the Term Credit Agreement bear interest, at the Company's option, at either the Base Rate (as defined in the Term Credit Agreement) plus an applicable margin or the Eurodollar Rate (as defined in the Term Credit Agreement) plus an applicable margin. The applicable margin for the Base Rate loans is a range of 0.125% to 1.250% and the applicable margin for Eurodollar Rate loans is a range of 1.125% to 2.250%, both based on the debt-to-earnings leverage ratio of the Company at the end of each fiscal quarter. For the nine months ended June 30, 2014 and 2013, the average interest rate of the Company's term loan facility was 1.66% and 1.98%, respectively. Payments of the initial principal amount outstanding under

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

the Term Credit Agreement are required on an annual basis beginning on June 30, 2014 with the final principal balance of \$600 million due on June 7, 2018. The Company may, at its option, prepay the loans at any time, without penalty. The Company's obligations under the Term Credit Agreement are guaranteed by certain subsidiaries of the Company pursuant to one or more subsidiary guarantees.

Unsecured Senior Notes

In July 2010, the Company issued \$300 million of notes to private institutional investors. The notes consisted of \$175.0 million of 5.43% Senior Notes, Series A, due July 2020 and \$125.0 million of 1.00% Senior Discount Notes, Series B, due July 2022 for net proceeds of \$249.8 million. The outstanding accreted balance of Series B Notes, which have an effective interest rate of 5.62%, was \$87.9 million and \$85.2 million at June 30, 2014 and September 30, 2013, respectively. The fair value of the Company's unsecured senior notes was approximately \$282.1 million and \$269.4 million at June 30, 2014 and September 30, 2013, respectively. The Company calculated the fair values based on model-derived valuations using market observable inputs, which are Level 2 inputs under the accounting guidance. The Company's obligations under the notes are guaranteed by certain subsidiaries of the Company pursuant to one or more subsidiary guarantees. The Company may, at its option, prepay the notes at any time at their called principal amount, together with any accrued and unpaid interest, plus a make-whole premium.

Table of Contents

Unsecured Revolving Credit Facility

In January 2014, the Company entered into a Fourth Amended and Restated Credit Agreement (Revolving Credit Agreement), which provides for a borrowing capacity of \$1.05 billion. The Revolving Credit Agreement expires January 29, 2019, and prior to this expiration date, principal amounts outstanding under the Revolving Credit Agreement may be repaid and reborrowed at the Company's option without prepayment or penalty, subject to certain conditions including the absence of any event of default. The Company may request an increase in capacity of up to a total of \$1.25 billion, subject to certain conditions including the absence of any event of default. The loans under the Revolving Credit Agreement may be borrowed in dollars or in certain foreign currencies and bear interest, at the Company's option, at either the Base Rate (as defined in the Revolving Credit Agreement) plus an applicable margin or the Eurocurrency Rate (as defined in the Revolving Credit Agreement) plus an applicable margin. The applicable margin for the Base Rate loans is a range of 0.125% to 1.250% and the applicable margin for the Eurocurrency Rate loans is a range of 1.125% to 2.250%, both based on the Company's debt-to-earnings leverage ratio at the end of each fiscal quarter. In addition to these borrowing rates, there is a commitment fee which ranges from 0.125% to 0.350% on any unused commitment. At June 30, 2014 and September 30, 2013, \$0.0 million and \$114.7 million, respectively, were outstanding under the Company's revolving credit facility. At June 30, 2014 and September 30, 2013, outstanding standby letters of credit totaled \$9.5 million and \$35.5 million, respectively, under the revolving credit facility. As of June 30, 2014, the Company had \$1,040.5 million available under its Revolving Credit Agreement.

Covenants and Restrictions

Under the Company's debt agreements relating to its unsecured revolving credit facility, unsecured term credit agreement, and unsecured senior notes, the Company is subject to a maximum consolidated leverage ratio at the end of each fiscal quarter. This ratio is calculated by dividing consolidated funded debt (including financial letters of credit and other adjustments per the Company's debt agreements) by consolidated earnings before interest, taxes, depreciation, and amortization (EBITDA). Subject to certain differences among the Company's debt agreements, EBITDA is defined as consolidated net income attributable to AECOM plus interest, depreciation and amortization expense, amounts set aside for taxes and other non-cash items (including a calculated annualized EBITDA from acquisitions). As of June 30, 2014, the Company's most restrictive consolidated leverage ratio under its debt agreements was 2.54, which did not exceed the Company's maximum consolidated leverage ratio permitted under the Company's debt agreements of 3.0.

The Company's Revolving Credit Agreement and Term Credit Agreement also contain certain covenants that limit the Company's ability to, among other things, (i) merge with other entities, (ii) enter into a transaction resulting in a change of control, (iii) create new liens, (iv) sell assets outside of the ordinary course of business, (v) enter into transactions with affiliates, (vi) substantially change the general nature of the Company and its subsidiaries taken as a whole, and (vii) incur indebtedness and contingent obligations.

Additionally, the Company's unsecured senior notes contain covenants that limit (i) certain types of indebtedness, which include indebtedness incurred by subsidiaries and indebtedness secured by a lien, (ii) merging with other entities, (iii) entering into a transaction resulting in a change of control, (iv) creating new liens, (v) selling assets outside of the ordinary course of business, (vi) entering into transactions with affiliates, and (vii) substantially changing the general nature of the Company and its subsidiaries taken as a whole. The unsecured senior notes also contain a financial covenant that requires the Company to maintain a net worth above a calculated threshold. The threshold is calculated as \$1.2 billion plus 40% of the consolidated net income for each fiscal quarter commencing with the fiscal quarter ending June 30, 2010. In the calculation of this threshold, the Company cannot include a consolidated net loss that may occur in any fiscal quarter. The Company's net worth for this financial covenant is defined as total AECOM stockholders' equity, which is consolidated stockholders' equity, including any redeemable common stock and stock units and the liquidation preference of any preferred stock. As of June 30, 2014, this amount was \$2.2 billion, which exceeds the calculated threshold of \$1.7 billion.

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

Should the Company fail to comply with these covenants, all or a portion of its borrowings under the unsecured senior notes and unsecured term credit agreements could become immediately payable and its unsecured revolving credit facility could be terminated. At June 30, 2014 and September 30, 2013, the Company was in compliance with all such covenants.

The Company's average effective interest rate on total borrowings, including the effects of the interest rate swap agreements, during the nine months ended June 30, 2014 and 2013 was 2.8% and 3.0%, respectively.

Other Debt

Other debt consists primarily of bank overdrafts and obligations under capital leases and other unsecured credit facilities. In addition to the unsecured revolving credit facility discussed above, the Company also has other unsecured credit facilities primarily used for standby letters of credit issued for payment and performance guarantees. At June 30, 2014 and September 30, 2013, these outstanding standby letters of credit totaled \$274.8 million and \$236.4 million, respectively. As of June 30, 2014, the Company had \$332.9 million available under these unsecured credit facilities.

Table of Contents**9. Derivative Financial Instruments**

The Company uses certain interest rate derivative contracts to hedge interest rate exposures on the Company's variable rate debt. The Company enters into foreign currency derivative contracts with financial institutions to reduce the risk that its cash flows and earnings will be adversely affected by foreign currency exchange rate fluctuations. The Company's hedging program is not designated for trading or speculative purposes.

The Company recognizes derivative instruments as either assets or liabilities on the accompanying consolidated balance sheets at fair value. The Company records changes in the fair value (i.e., gains or losses) of the derivatives that have been designated as accounting hedges in the accompanying consolidated statements of income as cost of revenue, interest expense or to accumulated other comprehensive loss in the accompanying consolidated balance sheets.

Cash Flow Hedges

The Company uses interest rate swap agreements designated as cash flow hedges to fix the variable interest rates on portions of the Company's debt. The Company also uses foreign currency options designated as cash flow hedges to hedge forecasted revenue transactions denominated in currencies other than the U.S. dollar. The Company initially reports any gain on the effective portion of a cash flow hedge as a component of accumulated other comprehensive loss. Depending on the type of cash flow hedge, the gain is subsequently reclassified to either interest expense when the interest expense on the variable rate debt is recognized, or to cost of revenue when the hedged revenues are recorded. If the hedged transaction becomes probable of not occurring, any gain or loss related to interest rate swap agreements or foreign currency options would be recognized in other income (expense). Further, the Company excludes the change in the time value of the foreign currency options from the assessment of hedge effectiveness. The Company records the premium paid or time value of an option on the date of purchase as an asset. Thereafter, the Company recognizes any change to this time value in cost of revenue.

The notional principal, fixed rates and related expiration dates of the Company's outstanding interest rate swap agreements were as follows:

Notional Amount (in millions)	June 30, 2014		Expiration Date
		Fixed Rate	
\$ 300.0	1.63%	June 2018	
250.0	0.95%	September 2015	
200.0	0.68%	December 2014	

Notional Amount (in millions)	September 30, 2013		Expiration Date
		Fixed Rate	
\$ 250.0	0.95%	September 2015	
200.0	0.68%	December 2014	
150.0	0.55%	December 2013	

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

The notional principal of foreign currency options to purchase British Pounds (GBP) with Brazilian Reals (BRL) was BRL 1.1 million and BRL 2.1 million (or approximately \$0.5 million and \$0.9 million) at June 30, 2014 and September 30, 2013, respectively. These foreign exchange contracts have maturities of 12 months or less.

Foreign Currency Forward Contracts

The Company uses foreign currency forward contracts, which are not designated as accounting hedges, to hedge intercompany transactions and other monetary assets or liabilities denominated in currencies other than the functional currency of a subsidiary. Gains and losses on these contracts are recognized in cost of revenue for those instruments related to the provision of their respective services or general and administrative expenses, along with the offsetting losses and gains of the related hedged items. The notional principal of foreign currency forward contracts to purchase U.S. dollars with foreign currencies was \$93.8 million and \$171.8 million at June 30, 2014 and September 30, 2013, respectively. The notional principal of foreign currency forward contracts to sell U.S. dollars for foreign currencies was \$59.9 million and \$174.2 million at June 30, 2014 and September 30, 2013, respectively. The notional principal of foreign currency forward contracts to purchase GBP with BRL was BRL 4.0 million (or approximately \$1.8 million) at September 30, 2013. There were no foreign currency forward contracts to purchase GBP with BRL at June 30, 2014. The notional principal of foreign currency forward contracts to sell GBP for BRL was BRL 4.1 million and BRL 8.2 million (or approximately \$1.9 million and \$3.6 million) at June 30, 2014 and September 30, 2013, respectively.

Table of Contents**Other Derivatives**

Other derivatives that are not designated as hedging instruments consist of option contracts that the Company uses to hedge anticipated transactions in currencies other than the functional currency of a subsidiary. The Company recognizes gains and losses on these contracts as well as the offsetting losses and gains of the related hedged item costs in cost of revenue. The Company records the premium paid or time value of an option on the date of purchase as an asset. Thereafter, the Company recognizes any change to this time value in cost of revenue. There was no such option contract outstanding during the periods presented.

The fair values of our outstanding derivative instruments were as follows (in millions):

	Balance Sheet Location	Fair Value of Derivative Instruments as of	
		Jun 30, 2014	Sep 30, 2013
Derivative assets			
Derivatives designated as hedging instruments:			
Foreign currency options	Prepaid expenses and other current assets	\$ 0.1	\$ 0.1
Derivatives not designated as hedging instruments:			
Foreign currency forward contracts	Prepaid expenses and other current assets	1.5	1.6
Total		\$ 1.6	\$ 1.7
Derivative liabilities			
Derivatives designated as hedging instruments:			
Interest rate swap agreements	Accrued expenses and other current liabilities	\$ 4.3	\$ 2.6
Interest rate swap agreements	Other long-term liabilities	0.4	1.1
Derivatives not designated as hedging instruments:			
Foreign currency forward contracts	Accrued expenses and other current liabilities	0.8	1.5
Total		\$ 5.5	\$ 5.2

At June 30, 2014, the effective portion of the Company's interest rate swap agreements designated as cash flow hedges before tax effect was \$4.6 million, of which \$4.3 million is expected to be reclassified from accumulated other comprehensive loss to interest expense within the next 12 months. At June 30, 2014, the effective portion of the Company's foreign currency options designated as cash flow hedges before tax effect were immaterial.

The effect of derivative instruments in cash flow hedging relationships on income and other comprehensive income is summarized below (in millions):

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

	Decrease/(Increase) in Losses Recognized in Accumulated Other Comprehensive Loss on Derivatives Before Tax Effect (Effective Portion) Three Months Ended June 30,		Decrease/(Increase) in Losses Recognized in Accumulated Other Comprehensive Loss on Derivatives Before Tax Effect (Effective Portion) Nine Months Ended June 30,	
	2014	2013	2014	2013
Derivatives in cash flow hedging relationship:

		2014	2013	2014	2013
Derivatives in cash flow hedging relationship:					
Foreign currency options	Cost of revenue	\$	\$ 0.1	\$	\$

(1) Losses related to the ineffective portion of the hedges were not material in all periods presented.

Table of Contents

The gain recognized in accumulated other comprehensive loss from the Company's foreign currency options was immaterial for the nine months ended June 30, 2014 and 2013. The gain reclassified from accumulated other comprehensive loss into income from the foreign currency options was immaterial in any of the periods presented. Additionally, there were no losses recognized in income due to amounts excluded from effectiveness testing from the Company's interest rate swap agreements.

The effect of derivative instruments not designated as hedging instruments on income is summarized below (in millions):

	Location	Gains / (Losses) Recognized in Income on Derivatives (Amount Excluded from Effectiveness Testing and Ineffective Portion) (1)		Gains / (Losses) Recognized in Income on Derivatives (Amount Excluded from Effectiveness Testing and Ineffective Portion) (1)	
		Three Months Ended June 30, 2014	2013	Nine Months Ended June 30, 2014	2013
Derivatives not designated as hedging instruments:					
Foreign currency forward contracts	General and administrative expenses	\$ 0.6	\$ (4.0)	\$	\$ (3.9)
Option contracts	Other income (expense)		0.1		(0.3)
		\$ 0.6	\$ (3.9)	\$	\$ (4.2)

(1) Losses related to the ineffective portion of the hedges were not material in all periods presented.

10. Fair Value Measurements

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining fair value, the Company considers the principal or most advantageous market in which it would transact, and the Company considers assumptions that market participants would use when pricing the asset or liability. It measures certain financial and nonfinancial assets and liabilities at fair value on a recurring and nonrecurring basis.

Nonfinancial assets and liabilities include items such as goodwill and long lived assets that are measured at fair value resulting from impairment, if deemed necessary. During the nine months ended June 30, 2014 and 2013, the Company did not record any fair value adjustments to those financial and nonfinancial assets and liabilities measured at fair value on a nonrecurring basis.

Fair Value Hierarchy

The three levels of inputs that may be used to measure fair value are as follows:

- *Level 1* Quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.
- *Level 2* Observable inputs other than quoted prices included within Level 1, such as quoted prices for similar assets or liabilities, quoted prices in markets with insufficient volume or infrequent transactions (less active markets), or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data for substantially the full term of the assets or liabilities.
- *Level 3* Unobservable inputs that are significant to the measurement of the fair value of assets or liabilities.

The following table summarizes the Company's non-pension financial assets and liabilities measured at fair value on a recurring basis (at least annually) in millions:

	June 30, 2014	Quoted Prices in Active Markets for Identical Assets (Level 2)		
Foreign currency options	\$	0.1	\$	0.1
Foreign currency forward contracts		1.5		1.5
Total assets	\$	1.6	\$	1.6
Interest rate swap agreements	\$	4.7	\$	4.7
Foreign currency forward contracts		0.8		0.8
Total liabilities	\$	5.5	\$	5.5

Table of Contents

	September 30, 2013		Quoted Prices in Active Markets for Similar Assets (Level 2)	
Foreign currency options	\$	0.1	\$	0.1
Foreign currency forward contracts		1.6		1.6
Total assets	\$	1.7	\$	1.7
Interest rate swap agreements	\$	3.7	\$	3.7
Foreign currency forward contracts		1.5		1.5
Total liabilities	\$	5.2	\$	5.2

11. Share-based Payments

The fair value of the Company's employee stock option awards is estimated on the date of grant. The expected term of awards granted represents the period of time the awards are expected to be outstanding. The risk-free interest rate is based on U.S. Treasury bond rates with maturities equal to the expected term of the option on the grant date. The Company uses historical data as a basis to estimate the probability of forfeitures.

Stock option activity for the nine months ended June 30 was as follows:

	2014		2013	
	Shares of stock under options (in millions)	Weighted average exercise price	Shares of stock under options (in millions)	Weighted average exercise price
Outstanding at September 30, prior year	1.6	\$ 24.73	2.5	\$ 22.81
Options granted	0.6	31.62		
Options exercised	(0.4)	22.99	(0.6)	17.55
Options forfeited or expired	(0.1)	26.86	(0.2)	26.95
Outstanding at June 30	1.7	27.57	1.7	24.32
Vested and expected to vest in the future as of June 30	1.7	\$ 27.57	1.7	\$ 24.32

The Company grants stock units to employees under its Performance Earnings Program (PEP), whereby units are earned and issued dependent upon meeting established cumulative performance objectives over a two or three-year period. Additionally, the Company issues restricted stock units to employees which are earned based on service conditions. Total compensation expense related to share-based payments was \$26.0 million and \$27.4 million during the nine months ended June 30, 2014 and 2013, respectively. Unrecognized compensation expense related to total share-based payments outstanding was \$68.9 million and \$52.6 million as of June 30, 2014 and September 30, 2013, respectively, to be recognized on a straight-line basis over the awards' respective vesting periods which are generally three years.

Cash flows attributable to tax benefits resulting from tax deductions in excess of compensation cost recognized for those stock options (excess tax benefits) is classified as financing cash flows. Excess tax benefits of \$0.6 million and \$1.8 million for the nine months ended June 30, 2014 and 2013, respectively, have been classified as financing cash inflows in the consolidated statements of cash flows.

12. Income Taxes

The Company's effective tax rate was 23.7% and 25.6% for the nine months ended June 30, 2014 and 2013, respectively. The Company's effective tax rate is lower than the federal statutory rate of 35.0% primarily due to the tax rate differential on foreign earnings where the statutory rates are generally lower than the federal statutory rate. Our effective tax rate fluctuates from quarter to quarter due to several factors including the change in the mix of foreign and domestic earnings, tax law changes, outcomes of administrative audits, changes in our assessment of valuation allowances and other tax contingencies.

13. Earnings Per Share

Basic earnings per share (EPS) excludes dilution and is computed by dividing net income available for common stockholders by the weighted average number of common shares outstanding for the period. Diluted EPS is computed by dividing net income by the weighted average number of common shares outstanding and potential common stock equivalent shares for the period. The Company includes as potential common shares the weighted average dilutive effects of outstanding stock options and restricted stock units using the treasury stock method.

Table of Contents

The following table sets forth a reconciliation of the denominators for basic and diluted earnings per share:

	Three Months Ended		Nine Months Ended	
	June 30, 2014	June 30, 2013	June 30, 2014	June 30, 2013
	(in millions)			
Denominator for basic earnings per share	97.5	99.3	96.9	101.5
Potential common shares	1.5	1.5	1.4	1.2
Denominator for diluted earnings per share	99.0	100.8	98.3	102.7

EPS includes the effect of repurchased shares, which are discussed in Note 3 herein. For the nine months ended June 30, 2014 and 2013, options excluded from the calculation of potential common shares were not significant.

14. Other Financial Information

Accrued expenses and other current liabilities consist of the following:

	June 30, 2014	September 30, 2013
	(in millions)	
Accrued salaries and benefits	\$ 419.4	\$ 410.6
Accrued contract costs	396.4	404.2
Other accrued expenses	114.9	100.5
	\$ 930.7	\$ 915.3

Accrued contract costs above include balances related to professional liability accruals of \$117.7 million and \$121.3 million as of June 30, 2014 and September 30, 2013, respectively. The remaining accrued contract costs primarily relate to costs for services provided by subcontractors and other non-employees.

Other long-term liabilities consist of the following:

	June 30, 2014	September 30, 2013
	(in millions)	
Pension liabilities (Note 7)	\$ 184.8	\$ 192.7
Reserve for uncertain tax positions	58.2	60.2
Other	196.4	196.0
	\$ 439.4	\$ 448.9

15. Reclassifications out of Accumulated Other Comprehensive Loss

The accumulated balances and reporting period activities for the three and nine months ended June 30, 2014 related to reclassifications out of accumulated other comprehensive loss are summarized as follows (in millions):

	Pension Related Adjustments	Foreign Currency Translation Adjustments	Loss on Derivative Instruments	Accumulated Other Comprehensive Loss
Balances at March 31, 2014	\$ (193.4)	\$ (89.4)	\$ (1.5)	\$ (284.3)
Other comprehensive income before reclassification	(3.3)	22.3	(1.6)	17.4
Amounts reclassified from accumulated other comprehensive loss:				
Actuarial losses, net of tax	1.5			1.5
Cash flow hedge losses, net of tax			0.4	0.4
Balances at June 30, 2014	\$ (195.2)	\$ (67.1)	\$ (2.7)	\$ (265.0)

Table of Contents

	Pension Related Adjustments	Foreign Currency Translation Adjustments	Loss on Derivative Instruments	Accumulated Other Comprehensive Loss
Balances at September 30, 2013	\$ (192.8)	\$ (66.4)	\$ (2.1)	\$ (261.3)
Other comprehensive income before reclassification	(6.9)	(0.7)	(1.9)	(9.5)
Amounts reclassified from accumulated other comprehensive loss:				
Actuarial losses, net of tax	4.5			4.5
Cash flow hedge losses, net of tax			1.3	1.3
Balances at June 30, 2014	\$ (195.2)	\$ (67.1)	\$ (2.7)	\$ (265.0)

Accumulated Other Comprehensive Loss Components	Three Months Ended June 30, 2014	Nine Months Ended June 30, 2014
Cash flow hedges(1)	\$ 0.7	\$ 2.3
Taxes	(0.3)	(1.0)
Cash flow hedges, net of tax	\$ 0.4	\$ 1.3
Actuarial losses(2)	\$ 2.2	\$ 6.5
Taxes	(0.7)	(2.0)
Actuarial losses, net of tax	\$ 1.5	\$ 4.5

(1) This accumulated other comprehensive component is reclassified in Interest expense in our Consolidated Statements of Income. See Note 9, Derivative Financial Instruments, for more information.

(2) This accumulated other comprehensive component is reclassified in Cost of revenue and General and administrative expenses in our Consolidated Statements of Income. See Note 7, Pension Benefit Obligations, for more information.

16. Commitments and Contingencies

The Company records amounts representing its probable estimated liabilities relating to claims, guarantees, litigation, audits and investigations. The Company relies in part on qualified actuaries to assist it in determining the level of reserves to establish for insurance-related claims that are known and have been asserted against it, and for insurance-related claims that are believed to have been incurred based on actuarial analysis, but have not yet been reported to the Company's claims administrators as of the respective balance sheet dates. The Company includes any adjustments to such insurance reserves in its consolidated results of operations.

The Company is a defendant in various lawsuits arising in the normal course of business. In the opinion of management, the ultimate resolution of these matters will not have a material adverse effect on its consolidated balance sheet or statements of income or cash flows.

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

In some instances, the Company guarantees that a project, when complete, will achieve specified performance standards. If the project subsequently fails to meet guaranteed performance standards, the Company may either incur additional costs or be held responsible for the costs incurred by the client to achieve the required performance standards. At June 30, 2014, the Company was contingently liable in the amount of approximately \$284.3 million under standby letters of credit issued primarily in connection with general and professional liability insurance programs and for payment and performance guarantees.

In the ordinary course of business, the Company enters into various agreements providing financial or performance assurances to clients on behalf of certain unconsolidated partnerships, joint ventures and other jointly executed contracts. These agreements are entered into primarily to support the project execution commitments of these entities. The guarantees have various expiration dates. The maximum potential payment amount of an outstanding performance guarantee is the remaining cost of work to be performed by or on behalf of third parties. On projects where the Company has additional exposure including for delay or consequential damages, the policy is to cap those damages in order to limit this exposure and, in any case, to cap the performance guarantees themselves. Generally, under joint venture arrangements, if a partner is financially unable to complete its share of the contract, the other partner(s) will be required to complete those activities. The Company generally only enters into joint venture arrangements with partners who are reputable, financially sound and who carry appropriate levels of surety bonds for the project in order to adequately assure completion of their assignments. The Company does not expect that these guarantees will have a material adverse effect on its consolidated balance sheet or statements of income or cash flows.

Table of Contents

AECOM Australia

In 2005 and 2006, the Company's main Australian subsidiary, AECOM Australia Pty Ltd (AECOM Australia), performed a traffic forecast assignment for a client consortium as part of their project to design, build, finance and operate a tolled motorway tunnel in Australia. To fund the motorway's design and construction, the client formed certain special purpose vehicles (SPV) that raised approximately \$700 million Australian dollars through an initial public offering (IPO) of equity units in 2006 and approximately an additional \$1.4 billion Australian dollars in long term bank loans. The SPV (and certain affiliated SPVs) went into insolvency administrations in February 2011.

KordaMentha, the receivers for the SPV and certain affiliated SPVs (the RCM Applicants), caused a lawsuit to be filed against AECOM Australia by the RCM Applicants in the Federal Court of Australia on May 14, 2012. Portigon AG (formerly WestLB AG), one of the lending banks to the SPVs, filed a lawsuit in the Federal Court of Australia against AECOM Australia on May 18, 2012. Separately, a class action lawsuit, which has been amended to include approximately 770 of the IPO investors, was filed against AECOM Australia in the Federal Court of Australia on May 31, 2012.

All of the lawsuits claim damages that purportedly resulted from AECOM Australia's role in connection with the above described traffic forecast. The RCM Applicants have claimed damages of approximately \$1.68 billion Australian dollars (including interest, as of March 31, 2014). The damages claimed by Portigon as of June 17, 2014 were also recently quantified at approximately \$76 million Australian dollars (including interest). This claim is duplicative of damages already included in the RCM Applicants' claim to the extent Portigon receives a portion of the RCM Applicants' recovery. The class action applicants claim that they represent investors who acquired approximately \$155 million Australian dollars of securities.

AECOM Australia disputes the claimed entitlements to damages asserted by all applicants and is vigorously defending the claims brought against it. The likely resolution of these matters cannot be reasonably determined at this time. However, if these matters are not resolved in AECOM Australia's favor then, depending upon the outcomes, it could have a material adverse effect on the Company's results of operations.

Litigation Related to the Merger

As discussed in Note 18, on July 11, 2014, we entered into a definitive merger agreement to acquire URS Corporation. In connection with the merger, beginning on July 21, 2014, five putative class action lawsuits were filed in the Court of Chancery of the State of Delaware by purported URS Corporation stockholders: *Falato v. URS Corp., et al.*, Case No. 9921; *City of Atlanta Firefighters' Pension Fund v. Creel, et al.*, Case No. 9924; *Petroutson v. URS Corp., et al.*, Case No. 9938; *Miller v. URS Corp., et al.*, Case No. 9939; and *Oklahoma Police Pension & Retirement System v. Creel, et al.*, Case No. 9975. The actions name as defendants URS Corporation, the members of the URS Corporation board of directors, AECOM, and two merger subsidiaries of AECOM formed for purposes of effecting the merger. Two of the actions also name as a defendant JANA Partners LLC. The complaints allege, among other things, that AECOM and its merger subsidiaries aided and abetted alleged breaches of fiduciary duties by URS Corporation and its board of directors. The complaints seek, among other relief, class certification, preliminary and permanent injunctive relief, and damages. AECOM believe the lawsuits are without merit and intends to defend vigorously against them.

17. Reportable Segments

The Company's operations are organized into two reportable segments: Professional Technical Services (PTS) and Management Support Services (MSS). The Company's PTS reportable segment delivers planning, consulting, architectural and engineering design, and program and construction management services to commercial and government clients worldwide. The Company's MSS reportable segment provides program and facilities management and maintenance, training, logistics, consulting, and technical assistance and systems integration services, primarily for agencies of the U.S. government. These reportable segments are organized by the types of services provided, the differing specialized needs of the respective clients, and how the Company manages its business. The Company has aggregated various operating segments into its PTS reportable segment based on their similar characteristics, including similar long-term financial performance, the nature of services provided, internal processes for delivering those services, and types of customers.

Management internally analyzes the results of its operations using several non-GAAP measures. A significant portion of the Company's revenues relates to services provided by subcontractors and other non-employees that it categorizes as other direct costs. Other direct costs are segregated from cost of revenues resulting in revenue, net of other direct costs, which is a measure of work performed by Company employees. The Company has included information on revenue, net of other direct costs, as it believes that it is useful to view its revenue exclusive of costs associated with external service providers.

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

Table of Contents

The following tables set forth summarized financial information concerning the Company's reportable segments:

Reportable Segments:	Professional Technical Services	Management Support Services	Corporate	Total

18. Subsequent Events

On July 11, 2014, the Company entered into a definitive merger agreement to acquire URS Corporation, a leading international provider of engineering, construction and technical services for approximately \$4.0 billion. The acquisition is subject to customary closing conditions, including regulatory approvals, adoption of the definition merger agreement by URS stockholders and approval of the stock issuance proposal by AECOM stockholders.

Both AECOM and URS may terminate the merger agreement under certain specified circumstances, including if the merger is not consummated on or before April 11, 2015 (or, if such date is extended pursuant to the terms of the merger agreement, if the merger is not consummated on or before July 11, 2015), if the approval of the AECOM or URS stockholders is not obtained, if there is a financing failure, if the other party's board of directors makes an adverse recommendation change with respect to the proposed transaction, or to enter into a superior acquisition proposal. In certain circumstances in connection with the termination of the merger agreement, including if AECOM's board of directors changes or withdraws its recommendation of the stock issuance or terminates the merger agreement to enter into an agreement with respect to a superior proposal, AECOM must pay to URS a termination fee equal to \$140 million, or \$240 million if the merger agreement is terminated under circumstances where all closing conditions have been satisfied but AECOM's debt financing is not available to complete the merger and AECOM fails to close the merger. In certain circumstances in connection with the termination of the merger agreement, including if URS's board of directors changes or withdraws its recommendation of the merger or terminates the merger agreement to enter into an agreement with respect to a superior proposal, URS must pay to AECOM a termination fee equal to \$140 million. If the merger agreement is terminated by a party as a result of certain breaches by the other party, then the non-terminating party will be required to reimburse the terminating party for its reasonable out-of-pocket fees and expenses up to \$40 million.

On July 24, 2014, the Company acquired Hunt Construction Group, a commercial construction management firm which serves clients in both the public and private sectors.

Item 2. Management's Discussion And Analysis Of Financial Condition And Results Of Operations

Forward-Looking Statements

This Quarterly Report contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 that are not limited to historical facts, but reflect the Company's current beliefs, expectations or intentions regarding future events. These statements include forward-looking statements with respect to the Company, the engineering and construction industry and the potential acquisition of URS Corporation, or URS. Statements that are not historical facts, without limitation, including statements that use terms such as anticipates, believes, expects, intends, plans, projects, seeks and will and that relate to our plans and objectives for future operations, are forward-looking statements. In light of the risks and uncertainties inherent in all forward-looking statements, the inclusion of such statements in this Quarterly Report should not be considered as a representation by us or any other person that our objectives or plans will be achieved. Although management believes that the assumptions underlying the forward-looking statements are reasonable, these assumptions and the forward-looking statements are subject to various factors, risks and uncertainties, many of which are beyond our control, including, but not limited to, our dependence on long-term government contracts, which are subject to uncertainties concerning the government's budgetary approval process, the possibility that our government contracts may be terminated by the government, the risk of employee misconduct or our failure to comply with laws and regulations, risks associated with the ability to consummate the merger and the timing of the closing of the merger; the failure to obtain the necessary debt financing arrangements set forth in the commitment letter received in connection with the merger; the interest rate on any borrowings incurred in connection with the transaction; the impact of the indebtedness incurred to finance the

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

transaction; the ability to successfully integrate our operations and employees; the ability to realize anticipated benefits and synergies of the transaction; the potential impact of the announcement of the transaction or consummation of the transaction on relationships, including with employees, customers and competitors; the outcome of any legal proceedings that have been or may be instituted against the Company and others following the announcement of the transaction; the ability to retain key personnel; the amount of the costs, fees, expenses and charges related to the merger and the actual terms of the financings that will be obtained for the merger; changes in financial markets, interest rates and foreign currency exchange rates; and those additional risks and factors discussed in this Quarterly Report on Form 10-Q and any subsequent reports we file with the SEC. Accordingly, actual results could differ materially from those contemplated by any forward-looking statement.

All subsequent written and oral forward-looking statements concerning the Company, the proposed transaction or other matters attributable to the Company or any person acting on its behalf are expressly qualified in their entirety by the cautionary statements above. You are cautioned not to place undue reliance on these forward-looking statements, which speak only to the date they are made. The Company is under no obligation (and expressly disclaims any such obligation) to update or revise any forward-looking statement that may be made from time to time, whether as a result of new information, future developments or otherwise. Please review [Part II, Item 1A Risk Factors](#) in this Quarterly Report for a discussion of the factors, risks and uncertainties that could affect our future results.

Table of Contents

Overview

We are a leading provider of professional technical and management support services for public and private clients around the world. We provide our services in a broad range of end markets through a network of approximately 43,400 employees.

Our business focuses primarily on providing fee-based professional technical and support services and therefore our business is labor and not capital intensive. We derive income from our ability to generate revenue and collect cash from our clients through the billing of our employees time spent on client projects and our ability to manage our costs. We report our business through two segments: Professional Technical Services (PTS) and Management Support Services (MSS).

Our PTS segment delivers planning, consulting, architectural and engineering design, and program and construction management services to commercial and government clients worldwide in major end markets such as transportation, facilities, environmental, energy, water and government markets. PTS revenue is primarily derived from fees from services that we provide, as opposed to pass-through fees from subcontractors and other direct costs.

Our MSS segment provides program and facilities management and maintenance, training, logistics, consulting, technical assistance and systems integration services, primarily for agencies of the U.S. government. MSS revenue typically includes a significant amount of pass-through fees from subcontractors and other direct costs.

Our revenue is dependent on our ability to attract and retain qualified and productive employees, identify business opportunities, integrate and maximize the value of our recent acquisitions, allocate our labor resources to profitable and high growth markets, secure new contracts and renew existing client agreements. Demand for our services is cyclical and may be vulnerable to sudden economic downturns and reductions in government and private industry spending, which may result in clients delaying, curtailing or canceling proposed and existing projects. Moreover, as a professional services company, maintaining the high quality of the work generated by our employees is integral to our revenue generation and profitability.

Our costs consist primarily of the compensation we pay to our employees, including salaries, fringe benefits, the costs of hiring subcontractors and other project-related expenses, and sales, general and administrative costs.

We define revenue provided by acquired companies as revenue included in the current period up to twelve months subsequent to their acquisition date. Throughout this section, we refer to companies we acquired in the last twelve months as acquired companies.

Components of Income and Expense

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

Our management analyzes the results of our operations using several financial measures not in accordance with generally accepted accounting principles (GAAP). A significant portion of our revenue relates to services provided by subcontractors and other non-employees that we categorize as other direct costs. Those costs are typically paid to service providers upon our receipt of payment from the client. We segregate other direct costs from revenue resulting in a measurement that we refer to as revenue, net of other direct costs, which is a measure of work performed by AECOM employees. A large portion of our fees are derived through work performed by AECOM employees rather than other parties. We have included information on revenue, net of other direct costs, as we believe that it is useful to view our revenue exclusive of costs associated with external service providers, and the related gross margins, as discussed in Results of Operations below. Because of the importance of maintaining the high quality of work generated by our employees, gross margin is an important metric that we review in evaluating our operating performance.

Table of Contents

The following table presents, for the periods indicated, a presentation of the non-GAAP financial measures reconciled to the closest GAAP measures:

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2014	2013	2014	2013

Revenue

Our revenue for the three months ended June 30, 2014 decreased \$99.3 million, or 4.8%, to \$1,968.2 million as compared to \$2,067.5 million for the corresponding period last year.

Our revenue for the nine months ended June 30, 2014 decreased \$280.1 million, or 4.6%, to \$5,794.3 million as compared to \$6,074.4 million for the corresponding period last year.

The decrease in revenue for the three months ended June 30, 2014 was primarily attributable to decreases in the Americas of approximately \$130 million substantially from engineering and program management services, in Australia of approximately \$30 million, and in our MSS segment of \$47 million, as noted below, partially offset by an increase in the Europe, Middle East, and Africa region of \$100 million, including \$50 million in revenue provided by AECOM Arabia.

The decrease in revenue for the nine months ended June 30, 2014 was primarily attributable to decreases in the Americas of approximately \$310 million substantially from engineering and program management services, in Australia of approximately \$140 million, and in our MSS segment of \$144 million, as noted below. These decreases were partially offset by an increase in the Europe, Middle East, and Africa region of \$240 million, including \$90 million provided by AECOM Arabia, and an increase in the Americas construction services of approximately \$70 million.

Revenue, Net of Other Direct Costs

Our revenue, net of other direct costs, for the three months ended June 30, 2014 decreased \$31.3 million, or 2.5%, to \$1,204.7 million as compared to \$1,236.0 million for the corresponding period last year.

Our revenue, net of other direct costs, for the nine months ended June 30, 2014 decreased \$196.5 million, or 5.3%, to \$3,536.4 million as compared to \$3,732.9 million for the corresponding period last year.

The decrease in revenue, net of other direct costs, for the three months ended June 30, 2014 was primarily due to decreases in our MSS segment of \$41 million, as noted below, in the Americas of approximately \$40 million substantially from engineering and program management services, and in Australia of approximately \$30 million. These decreases were partially offset by an increase in the Europe, Middle East, and Africa region of \$70 million, including revenue, net of other direct costs provided by AECOM Arabia of \$30 million.

The decrease in revenue, net of other direct costs, for the nine months ended June 30, 2014 was primarily due to decreases in our MSS segment of \$132 million, as noted below, and in the Americas of approximately \$130 million substantially from engineering and program management services, and in Australia of approximately \$100 million. These decreases were partially offset by an increase in the Europe, Middle East, and Africa region of \$150 million, including revenue, net of other direct costs provided by AECOM Arabia of \$60 million.

Table of Contents

Gross Profit

Our gross profit for the three months ended June 30, 2014 decreased \$23.3 million, or 17.7%, to \$108.5 million as compared to \$131.8 million for the corresponding period last year. For the three months ended June 30, 2014, gross profit, as a percentage of revenue, net of other direct costs, decreased to 9.0% from 10.7% for the three months ended June 30, 2013.

Our gross profit for the nine months ended June 30, 2014 decreased \$35.7 million, or 11.5%, to \$274.1 million as compared to \$309.8 million for the corresponding period last year. For the nine months ended June 30, 2014, gross profit, as a percentage of revenue, net of other direct costs, decreased to 7.8% from 8.3% for the nine months ended June 30, 2013.

The decreases in gross profit and gross profit as a percentage of revenue, net of other direct costs, for the three and nine months ended June 30, 2014 were primarily due to the reasons discussed within the reportable segments below.

Equity in Earnings of Joint Ventures

Our equity in earnings of joint ventures for the three months ended June 30, 2014 increased \$1.9 million, or 46.3%, to \$6.0 million as compared to \$4.1 million in the corresponding period last year.

Our equity in earnings of joint ventures for the nine months ended June 30, 2014 increased \$31.6 million, or 176.5%, to \$49.5 million as compared to \$17.9 million in the corresponding period last year.

The increase in earnings of joint ventures for the nine months ended June 30, 2014 was primarily due to a \$37.4 million gain on change in control of an unconsolidated joint venture that performs engineering and program management services in the Middle East and is included in the Company's PTS segment. The gain relates to the excess of fair value over the carrying value of the previously held equity interest in the unconsolidated joint venture. See further discussion in Note 6 to the accompanying financial statements. The gain on change in control was partially offset by an impairment of an unrelated joint venture investment.

General and Administrative Expenses

Our general and administrative expenses for the three months ended June 30, 2014 decreased \$1.1 million, or 4.6%, to \$22.9 million as compared to \$24.0 million for the corresponding period last year. As a percentage of revenue, net of other direct costs, general and administrative expenses was 1.9% for the three months ended June 30, 2014 and 2013.

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

Our general and administrative expenses for the nine months ended June 30, 2014 decreased \$0.2 million, or 0.3%, to \$73.2 million as compared to \$73.4 million for the corresponding period last year. As a percentage of revenue, net of other direct costs, general and administrative expenses increased to 2.1% for the nine months ended June 30, 2014 from 2.0% for the nine months ended June 30, 2013.

Other Income

Our other income for the three months ended June 30, 2014 decreased \$0.2 million to \$1.0 million as compared to \$1.2 million for the three months ended June 30, 2013.

Our other income for the nine months ended June 30, 2014 decreased \$1.2 million to \$0.8 million as compared to \$2.0 million for the nine months ended June 30, 2013.

Interest Expense

Our interest expense for the three months ended June 30, 2014 decreased \$1.9 million to \$9.8 million as compared to \$11.7 million for the three months ended June 30, 2013.

Our interest expense for the nine months ended June 30, 2014 decreased \$3.8 million to \$30.7 million as compared to \$34.5 million for the nine months ended June 30, 2013.

Income Tax Expense

Our income tax expense for the three months ended June 30, 2014 decreased \$16.4 million, or 54.5%, to \$13.7 million as compared to \$30.1 million for the three months ended June 30, 2013.

Table of Contents

Our income tax expense for the nine months ended June 30, 2014 decreased \$4.4 million, or 7.7%, to \$52.4 million as compared to \$56.8 million for the nine months ended June 30, 2013.

The decrease in income tax expense for the three months ended June 30, 2014 was primarily due to a change in the geographical mix of earnings and a benefit related to a US manufacturing deduction.

Net Income Attributable to AECOM

The factors described above resulted in net income attributable to AECOM of \$69.2 million and \$165.8 million for the three and nine months ended June 30, 2014, respectively, as compared to net income attributable to AECOM of \$70.8 million and \$162.7 million for the three and nine months ended June 30, 2013, respectively.

Results of Operations by Reportable Segment:

Professional Technical Services

	June 30,		Three Months Ended		June 30,		Nine Months Ended	
	2014	2013	Change	%	2014	2013	Change	%
	(in millions)							
Revenue	\$ 1,794.6	\$ 1,847.1	\$ (52.5)	(2.8)%	\$ 5,248.4	\$ 5,384.2	\$ (135.8)	(2.5)%

The following table presents the percentage relationship of certain items to revenue, net of other direct costs:

	Three Months Ended		Nine Months Ended	
	June 30, 2014	June 30, 2013	June 30, 2014	June 30, 2013
Revenue, net of other direct costs	100.0%	100.0%	100.0%	100.0%
Cost of revenue, net of other direct costs	91.1	89.1	92.5	91.5
Gross profit	8.9%	10.9%	7.5%	8.5%

Revenue

Revenue for our PTS segment for the three months ended June 30, 2014 decreased \$52.5 million, or 2.8%, to \$1,794.6 million as compared to \$1,847.1 million for the corresponding period last year.

Revenue for our PTS segment for the nine months ended June 30, 2014 decreased \$135.8 million, or 2.5%, to \$5,248.4 million as compared to \$5,384.2 million for the corresponding period last year.

The decrease in revenue for the three months ended June 30, 2014 was primarily attributable to decreases in the Americas of approximately \$130 million substantially from engineering and program management services and in Australia of approximately \$30 million. These decreases were partially offset by an increase in the Europe, Middle East, and Africa region of \$100 million, including \$50 million in revenue provided by AECOM Arabia.

The decrease in revenue for the nine months ended June 30, 2014 was primarily attributable to decreases in the Americas of approximately \$310 million substantially from engineering and program management services and in Australia of approximately \$140 million. These decreases were partially offset by an increase in the Europe, Middle East, and Africa region of \$240 million, including \$90 million provided by AECOM Arabia, and an increase in the Americas construction services of approximately \$70 million.

Revenue, Net of Other Direct Costs

Revenue, net of other direct costs, for our PTS segment for the three months ended June 30, 2014 increased \$10.0 million, or 0.9%, to \$1,112.0 million as compared to \$1,102.0 million for the corresponding period last year.

Table of Contents

Revenue, net of other direct costs, for our PTS segment for the nine months ended June 30, 2014 decreased \$64.4 million, or 1.9%, to \$3,241.7 million as compared to \$3,306.1 million for the corresponding period last year.

The increase in revenue, net of other direct costs, for the three months ended June 30, 2014 was primarily due to an increase in the Europe, Middle East, and Africa region of \$70 million, including revenue, net of other direct costs provided by AECOM Arabia of approximately \$30 million. This increase was partially offset by the decreases in the Americas of approximately \$40 million substantially from engineering and program management services and in Australia of approximately \$30 million.

The decrease in revenue, net of other direct costs, for the nine months ended June 30, 2014 was primarily due to decreases in the Americas of approximately \$130 million substantially from engineering and program management services and in Australia of approximately \$100 million. These decreases were partially offset by an increase in the Europe, Middle East, and Africa region of \$150 million, including revenue, net of other direct costs provided by AECOM Arabia of \$60 million.

Gross Profit

Gross profit for our PTS segment for the three months ended June 30, 2014 decreased \$20.3 million, or 16.9%, to \$99.5 million as compared to \$119.8 million for the corresponding period last year. As a percentage of revenue, net of other direct costs, gross profit decreased to 8.9% of revenue, net of other direct costs, for the three months ended June 30, 2014 from 10.9% in the corresponding period last year.

Gross profit for our PTS segment for the nine months ended June 30, 2014 decreased \$36.6 million, or 13.0%, to \$244.7 million as compared to \$281.3 million for the corresponding period last year. As a percentage of revenue, net of other direct costs, gross profit decreased to 7.5% of revenue, net of other direct costs, for the nine months ended June 30, 2014 from 8.5% in the corresponding period last year.

The decrease in gross profit and gross profit as a percentage of revenue, net of other direct costs, for the three months ended June 30, 2013 was primarily attributable to a decline in revenue in engineering and program management services in the Americas, as discussed above.

The decrease in gross profit and gross profit as a percentage of revenue, net of other direct costs, for the nine months ended June 30, 2013 was primarily attributable to a decline in revenue in engineering and program management services in the Americas, as discussed above, partially offset by the collection of a previously reserved receivable.

The following table presents the percentage relationship of certain items to revenue, net of other direct costs:

	Three Months Ended		Nine Months Ended	
	June 30, 2014	June 30, 2013	June 30, 2014	June 30, 2013
Revenue, net of other direct costs	100.0%	100.0%	100.0%	100.0%
Cost of revenue, net of other direct costs	90.3	91.0	90.0	93.3
Gross profit	9.7%	9.0%	10.0%	6.7%

Revenue

Revenue for our MSS segment for the three months ended June 30, 2014 decreased \$46.8 million, or 21.2%, to \$173.6 million as compared to \$220.4 million for the corresponding period last year.

Table of Contents

Revenue for our MSS segment for the nine months ended June 30, 2014 decreased \$144.3 million, or 20.9%, to \$545.9 million as compared to \$690.2 million for the corresponding period last year.

The decreases in revenue for the three and nine months ended June 30, 2014 were primarily due to decreased services provided to the U.S. government in the Middle East.

Revenue, Net of Other Direct Costs

Revenue, net of other direct costs, for our MSS segment for the three months ended June 30, 2014 decreased \$41.3 million, or 30.8%, to \$92.7 million as compared to \$134.0 million for the corresponding period last year.

Revenue, net of other direct costs, for our MSS segment for the nine months ended June 30, 2014 decreased \$132.1 million, or 31.0%, to \$294.7 million as compared to \$426.8 million for the corresponding period last year.

The decreases in revenue, net of other direct costs for the three and nine months ended June 30, 2014 were primarily due to decreased services provided to the U.S. government in the Middle East.

Gross Profit

Gross profit for our MSS segment for the three months ended June 30, 2014 decreased \$3.0 million to \$9.0 million as compared to \$12.0 million for the corresponding period last year. As a percentage of revenue, net of other direct costs, gross profit increased to 9.7% of revenue, net of other direct costs, for the three months ended June 30, 2014 from 9.0% in the corresponding period last year.

Gross profit for our MSS segment for the nine months ended June 30, 2014 increased \$0.9 million to \$29.4 million as compared to \$28.5 million for the corresponding period last year. As a percentage of revenue, net of other direct costs, gross profit increased to 10.0% of revenue, net of other direct costs, for the nine months ended June 30, 2014 from 6.7% in the corresponding period last year.

The increase in gross profit and gross profit as a percentage of revenue, net of other direct costs, for the nine months ended June 30, 2014 was primarily due to the collection of a previously reserved Libya-related project receivable, partially offset by decreased services provided to the U.S. government in the Middle East.

Seasonality

We experience seasonal trends in our business. The first quarter of our fiscal year (October 1 to December 31) is typically our weakest quarter. The harsher weather conditions impact our ability to complete work in parts of North America and the holiday season schedule affects our productivity during this period. Our revenue is typically higher in the last half of the fiscal year. Many U.S. state governments with fiscal years ending on June 30 tend to accelerate spending during their first quarter, when new funding becomes available. In addition, we find that the U.S. federal government tends to authorize more work during the period preceding the end of our fiscal year, September 30. Further, our construction management revenue typically increases during the high construction season of the summer months. Within the United States, as well as other parts of the world, our business generally benefits from milder weather conditions in our fiscal fourth quarter, which allows for more productivity from our on-site civil services. For these reasons, coupled with the number and significance of client contracts commenced and completed during a period, as well as the time of expenses incurred for corporate initiatives, it is not unusual for us to experience seasonal changes or fluctuations in our quarterly operating results.

Liquidity and Capital Resources

Cash Flows

Our principal sources of liquidity are cash flows from operations, borrowings under our credit facilities, and access to financial markets. Our principal uses of cash are operating expenses, capital expenditures, working capital requirements, acquisitions, repurchases of stock under our stock repurchase program and repayment of debt. We believe our anticipated sources of liquidity including operating cash flows, existing cash and cash equivalents, borrowing capacity under our revolving credit facility, the financing contemplated to be provided by the debt commitment letter entered into in connection with the merger agreement, and our ability to issue debt or equity, if required, will be sufficient to meet our projected cash requirements for at least the next 12 months.

At June 30, 2014, cash and cash equivalents were \$510.1 million, a decrease of \$90.6 million, or 15.1%, from \$600.7 million at September 30, 2013. The decrease in cash and cash equivalents was primarily attributable to net repayments of borrowings under credit agreements, cash payments for stock repurchases, capital expenditures, and investments, including joint ventures, partially offset by cash provided by operating activities.

Table of Contents

Net cash provided by operating activities was \$185.7 million for the nine months ended June 30, 2014, a decrease of \$62.8 million, or 25.3%, from \$248.5 million for the nine months ended June 30, 2013. The decrease was primarily attributable to the timing of receipts and payments of working capital, which include accounts receivable, accounts payable, accrued expenses, and billings in excess of costs on uncompleted contracts. The sale of trade receivables to financial institutions during the nine months ended June 30, 2014 provided a net benefit of \$11.7 million as compared to \$67.0 million during the nine months ended June 30, 2013. We expect to continue to sell trade receivables in the future as long as the terms continue to remain favorable to AECOM.

Net cash used in investing activities was \$78.8 million for the nine months ended June 30, 2014, compared with \$109.7 million for the nine months ended June 30, 2013. This decrease was primarily attributable to a \$36.6 million decrease in payments for business acquisitions, net of cash acquired, coupled with \$19.0 million of cash acquired from the consolidation of a joint venture, partially offset by an increase in cash payments for capital expenditures of \$12.5 million and an increase in the net investment in joint ventures and other investments of \$9.4 million.

Net cash used in financing activities was \$192.9 million for the nine months ended June 30, 2014, compared with \$212.3 million for the nine months ended June 30, 2013. The decrease was primarily attributable to a decrease in payments to repurchase common stock under the Repurchase Program of \$286.0 million, partially offset by an increase in net repayments and borrowings under credit agreements of \$248.4 million and an increase in distributions to noncontrolling interests of \$15.2 million.

Working Capital

Working capital, or current assets less current liabilities, decreased \$10.1 million, or 0.9%, to \$1,068.0 million at June 30, 2014 from \$1,078.1 million at September 30, 2013. Net accounts receivable, which includes billed and unbilled costs and fees, net of billings in excess of costs on uncompleted contracts, increased \$60.0 million, or 3.0%, to \$2,079.8 million at June 30, 2014.

Accounts receivable increased 3.8%, or \$89.2 million, to \$2,431.5 million at June 30, 2014 from \$2,342.3 million at September 30, 2013.

Days Sales Outstanding (DSO), which includes accounts receivable, net of billings in excess of costs on uncompleted contracts, was 96 days at June 30, 2014 compared to 88 days at September 30, 2013.

In Note 5, Accounts Receivable Net, in the notes to our consolidated financial statements, a comparative analysis of the various components of accounts receivable is provided. Substantially all unbilled receivables are expected to be billed and collected within twelve months.

Unbilled receivables related to claims are recorded only if it is probable that the claim will result in additional contract revenue and if the amount can be reliably estimated. In such cases, revenue is recorded only to the extent that contract costs relating to the claim have been incurred. Other than as disclosed, there were no significant net receivables related to contract claims as of June 30, 2014 and September 30, 2013. Award fees in unbilled receivables are accrued only when there is sufficient information to assess contract performance. On contracts that represent higher than normal risk or technical difficulty, award fees are generally deferred until an award fee letter is received.

Because our revenue depends to a great extent on billable labor hours, most of our charges are invoiced following the end of the month in which the hours were worked, the majority usually within 15 days. Other direct costs are normally billed along with labor hours. However, as opposed to salary costs, which are generally paid on either a bi-weekly or monthly basis, other direct costs are generally not paid until payment is received (in some cases in the form of advances) from the customers.

Debt

Debt consisted of the following:

	June 30, 2014	(in millions)	September 30, 2013
Unsecured term credit agreement	\$ 750.0		\$ 750.0
Unsecured senior notes	262.9		260.2
Unsecured revolving credit facility			114.7
Other debt	30.5		48.4
Total debt	1,043.4		1,173.3
Less: Current portion of debt and short-term borrowings	(66.5)		(84.3)
Long-term debt, less current portion	\$ 976.9		\$ 1,089.0

Table of Contents

The following table presents, in millions, scheduled maturities of our debt as of June 30, 2014:

Fiscal Year		
2014 (three months remaining)	\$	66.0
2015		38.7
2016		38.1
2017		37.7
2018		600.0
Thereafter		262.9
Total	\$	1,043.4

Unsecured Term Credit Agreement

In June 2013, we entered into a Second Amended and Restated Credit Agreement (Term Credit Agreement) with Bank of America, N.A., as administrative agent and a lender, and the other lenders party thereto. Pursuant to the Term Credit Agreement, we borrowed \$750 million and may borrow up to an additional \$100 million subject to certain conditions, including Company and lender approval. We used approximately \$675 million of the proceeds from the loans to repay indebtedness under our prior term loan facility. The loans under the Term Credit Agreement bear interest, at our option, at either the Base Rate (as defined in the Term Credit Agreement) plus an applicable margin or the Eurodollar Rate (as defined in the Term Credit Agreement) plus an applicable margin. The applicable margin for the Base Rate loans is a range of 0.125% to 1.250% and the applicable margin for Eurodollar Rate loans is a range of 1.125% to 2.250%, both based on our debt-to-earnings leverage ratio at the end of each fiscal quarter. For the nine months ended June 30, 2014 and 2013, the average interest rate of our term loan facility was 1.66% and 1.98%, respectively. Payments of the initial principal amount outstanding under the Term Credit Agreement are required on an annual basis beginning on June 30, 2014 with the final principal balance of \$600 million due on June 7, 2018. We may, at our option, prepay the loans at any time, without penalty. Our obligations under the Term Credit Agreement are guaranteed by certain of our subsidiaries pursuant to one or more subsidiary guarantees.

Unsecured Senior Notes

In July 2010, we issued \$300 million of notes to private institutional investors. The notes consisted of \$175.0 million of 5.43% Senior Notes, Series A, due July 2020 and \$125.0 million of 1.00% Senior Discount Notes, Series B, due July 2022 for net proceeds of \$249.8 million. The outstanding accreted balance of Series B Notes, which have an effective interest rate of 5.62%, was \$87.9 million and \$85.2 million at June 30, 2014 and September 30, 2013, respectively. The fair value of our unsecured senior notes was approximately \$282.1 million and \$269.4 million at June 30, 2014 and September 30, 2013, respectively. We calculated the fair values based on model-derived valuations using market observable inputs, which are Level 2 inputs under the accounting guidance. Our obligations under the notes are guaranteed by certain of our subsidiaries pursuant to one or more subsidiary guarantees. We have the option to prepay the notes at any time at their called principal amount, together with any accrued and unpaid interest, plus a make-whole premium.

Unsecured Revolving Credit Facility

In January 2014, we entered into a Fourth Amended and Restated Credit Agreement (Revolving Credit Agreement), which provides for a borrowing capacity of \$1.05 billion. The Revolving Credit Agreement expires on January 29, 2019, and prior to this expiration date, principal

amounts outstanding under the Revolving Credit Agreement may be repaid and reborrowed at our option without prepayment or penalty, subject to certain conditions including the absence of any event of default. We may request an increase in capacity of up to a total of \$1.25 billion, subject to certain conditions including the absence of any event of default. The loans under the Revolving Credit Agreement may be borrowed in dollars or in certain foreign currencies and bear interest, at our option, at either the Base Rate (as defined in the Revolving Credit Agreement) plus an applicable margin or the Eurocurrency Rate (as defined in the Revolving Credit Agreement) plus an applicable margin. The applicable margin for the Base Rate loans is a range of 0.125% to 1.250% and the applicable margin for the Eurocurrency Rate loans is a range of 1.125% to 2.250%, both based on our debt-to-earnings leverage ratio at the end of each fiscal quarter. In addition to these borrowing rates, there is a commitment fee which ranges from 0.125% to 0.350% on any unused commitment. At June 30, 2014 and September 30, 2013, \$0.0 million and \$114.7 million, respectively, were outstanding under our revolving credit facility. At June 30, 2014 and September 30, 2013, outstanding standby letters of credit totaled \$9.5 million and \$35.5 million, respectively, under our revolving credit facility. As of June 30, 2014, we had \$1,040.5 million available under our Revolving Credit Agreement.

Covenants and Restrictions

Under our debt agreements relating to our unsecured revolving credit facility, unsecured term credit agreement, and unsecured senior notes, we are subject to a maximum consolidated leverage ratio at the end of each fiscal quarter. This ratio is calculated by dividing consolidated funded debt (including financial letters of credit and other adjustments per our debt agreements) by consolidated earnings before interest, taxes, depreciation, and amortization (EBITDA). Subject to certain differences among our debt agreements, EBITDA is defined as consolidated net income attributable to AECOM plus interest, depreciation and amortization expense, amounts set aside for taxes and other non-cash items (including a calculated annualized EBITDA from our acquisitions). As of June 30, 2014, our most restrictive consolidated leverage ratio under our debt agreements was 2.54, which did not exceed our maximum consolidated leverage ratio permitted under our debt agreements of 3.0.

Table of Contents

Our Revolving Credit Agreement and Term Credit Agreement also contain certain covenants that limit our ability to, among other things, (i) merge with other entities, (ii) enter into a transaction resulting in a change of control, (iii) create new liens, (iv) sell assets outside of the ordinary course of business, (v) enter into transactions with affiliates, (vi) substantially change the general nature of our Company and our subsidiaries taken as a whole, and (vii) incur indebtedness and contingent obligations.

Additionally, our unsecured senior notes contain covenants that limit (i) certain types of indebtedness, which include indebtedness incurred by subsidiaries and indebtedness secured by a lien, (ii) merging with other entities, (iii) entering into a transaction resulting in a change of control, (iv) creating new liens, (v) selling assets outside of the ordinary course of business, (vi) entering into transactions with affiliates, and (vii) substantially changing the general nature of our Company and our subsidiaries taken as a whole. The unsecured senior notes also contain a financial covenant that requires us to maintain a net worth above a calculated threshold. The threshold is calculated as \$1.2 billion plus 40% of the consolidated net income for each fiscal quarter commencing with the fiscal quarter ending June 30, 2010. In the calculation of this threshold, we cannot include a consolidated net loss that may occur in any fiscal quarter. Our net worth for this financial covenant is defined as total AECOM stockholders' equity, which is consolidated stockholders' equity, including any redeemable common stock and stock units and the liquidation preference of any preferred stock. As of June 30, 2014, this amount was \$2.2 billion, which exceeds the calculated threshold of \$1.7 billion.

Should we fail to comply with these covenants, all or a portion of our borrowings under the unsecured senior notes and unsecured term credit agreements could become immediately payable and our unsecured revolving credit facility could be terminated. At June 30, 2014 and September 30, 2013, we were in compliance with all such covenants.

Our average effective interest rate on total borrowings, including the effects of the interest rate swap agreements, during the nine months ended June 30, 2014 and 2013 was 2.8% and 3.0%, respectively.

Other Debt

Other debt consists primarily of bank overdrafts and obligations under capital leases and other unsecured credit facilities. In addition to the unsecured revolving credit facility discussed above, we also have other unsecured credit facilities primarily used for standby letters of credit issued for payment and performance guarantees. At June 30, 2014 and September 30, 2013, these outstanding standby letters of credit totaled \$274.8 million and \$236.4 million, respectively. As of June 30, 2014, we had \$332.9 million available under these unsecured credit facilities.

Debt Commitment Letter

In connection with the merger agreement, on August 2, 2014, AECOM entered into an amended and restated commitment letter with Bank of America, N.A., Merrill Lynch, Pierce, Fenner & Smith Incorporated, MUFG Union Bank, N.A., The Bank of Nova Scotia, BNP Paribas, BNP Paribas Securities Corp., JPMorgan Chase Bank, N.A., J.P. Morgan Securities LLC, BBVA Compass, Wells Fargo Bank, National Association, Sumitomo Mitsui Banking Corporation, Crédit Agricole Corporate and Investment Bank, Morgan Stanley Senior Funding, Inc., HSBC Bank USA, National Association and HSBC Securities (USA) Inc. (the debt financing sources), pursuant to which the debt financing sources have committed, subject to customary conditions, to provide AECOM with financing for the transactions contemplated by the merger agreement. The debt financing under the commitment letter is anticipated to consist of (1) a term loan A facility in an aggregate principal amount of \$712.5

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

million and a revolving credit facility in an aggregate principal amount of \$1.05 billion, either pursuant to amendments to AECOM's existing credit facilities if required lender consent is obtained or as new facilities and (2) incremental term loans in the aggregate principal amount of \$4.0 billion, consisting of a \$575 million term loan A and a \$3.425 billion term loan B, and an incremental performance letter of credit facility in an aggregate amount of \$500 million available solely for the issuance of performance letters of credit. AECOM anticipates that \$1.6 billion of the term loan B facility under the commitment letter will be replaced by issuance of \$800 million in 8-year senior unsecured notes, and \$800 million in 10-year senior unsecured notes.

Commitments and Contingencies

Other than normal property and equipment additions and replacements, expenditures to further the implementation of our Enterprise Resource Planning system, commitments under our incentive compensation programs, amounts we may expend to repurchase stock under our stock repurchase program and acquisitions from time to time, we currently do not have any significant capital expenditures or outlays planned except as described below. However, as we acquire additional businesses in the future or if we embark on other capital-intensive initiatives, additional working capital may be required.

Under our unsecured revolving credit facility and other facilities discussed in Other Debt above, as of June 30, 2014, there was approximately \$284.3 million outstanding under standby letters of credit issued primarily in connection with general and professional liability insurance programs and for contract performance guarantees. For those projects for which we have issued a performance guarantee, if the project subsequently fails to meet guaranteed performance standards, we may either incur significant additional costs or be held responsible for the costs incurred by the client to achieve the required performance standards.

We recognized on our balance sheet the funded status (measured as the difference between the fair value of plan assets and the projected benefit obligation) of our pension plans. The total amounts of employer contributions paid for the nine months ended June 30, 2014 were \$3.6 million for U.S. plans and \$12.3 million for non-U.S. plans. Funding requirements for each plan are determined based on the local laws of the country where such plan resides. In certain countries, the funding requirements are mandatory while in other countries, they are discretionary. We do not have a required minimum contribution for our domestic plans; however, we may make additional discretionary contributions. In the future, such pension funding may increase or decrease depending on changes in the levels of interest rates, pension plan performance and other factors.

AECOM Australia

In 2005 and 2006, the Company's main Australian subsidiary, AECOM Australia Pty Ltd (AECOM Australia), performed a traffic forecast assignment for a client consortium as part of their project to design, build, finance and operate a tolled motorway tunnel in Australia. To fund the motorway's design and construction, the client formed certain special purpose vehicles (SPV) that raised approximately \$700 million Australian dollars through an initial public offering (IPO) of equity units in 2006 and approximately an additional \$1.4 billion Australian dollars in long term bank loans. The SPV (and certain affiliated SPVs) went into insolvency administrations in February 2011.

KordaMentha, the receivers for the SPV and certain affiliated SPVs (the RCM Applicants), caused a lawsuit to be filed against AECOM Australia by the RCM Applicants in the Federal Court of Australia on May 14, 2012. Portigon AG (formerly WestLB AG), one of the lending banks to the SPVs, filed a lawsuit in the Federal Court of Australia against AECOM Australia on May 18, 2012. Separately, a class action lawsuit, which has been amended to include approximately 770 of the IPO investors, was filed against AECOM Australia in the Federal Court of Australia on May 31, 2012.

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

All of the lawsuits claim damages that purportedly resulted from AECOM Australia's role in connection with the above described traffic forecast. The RCM Applicants have claimed damages of approximately \$1.68 billion Australian dollars (including interest, as of March 31, 2014). The damages claimed by Portigon as of June 17, 2014 were also recently quantified at approximately \$76 million Australian dollars (including interest). This claim is duplicative of damages already included in the RCM Applicants' claim to the extent Portigon receives a portion of the RCM Applicants' recovery. The class action applicants claim that they represent investors who acquired approximately \$155 million Australian dollars of securities.

AECOM Australia disputes the claimed entitlements to damages asserted by all applicants and is vigorously defending the claims brought against it. The likely resolution of these matters cannot be reasonably determined at this time. However, if these matters are not resolved in AECOM Australia's favor then, depending upon the outcomes, it could have a material adverse effect on the Company's results of operations.

Table of Contents

Acquisition of URS Corporation

On July 11, 2014, we entered into a definitive merger agreement to acquire URS Corporation, a leading international provider of engineering, construction and technical services, for approximately \$4.0 billion. The acquisition of URS Corporation is expected to close in October 2014. The acquisition is subject to customary closing conditions, including regulatory approvals, adoption of the definitive merger agreement by URS stockholders and approval of the stock issuance proposal by AECOM stockholders. We intend to finance all or a portion of the cash component of the merger consideration with debt financing. At closing of the merger, we expect to incur additional debt of approximately \$4.2 billion to finance the cash portion of the merger consideration and to refinance certain existing URS debt obligations of approximately \$1.6 billion, which will result in the combined company having total debt obligations of approximately \$5.2 billion following the completion of the merger.

Both AECOM and URS may terminate the merger agreement under certain specified circumstances, including if the merger is not consummated on or before April 11, 2015 (or, if such date is extended pursuant to the terms of the merger agreement, if the merger is not consummated on or before July 11, 2015), if the approval of the AECOM or URS stockholders is not obtained, if there is a financing failure, if the other party's board of directors makes an adverse recommendation change with respect to the proposed transaction, or to enter into a superior acquisition proposal. In certain circumstances in connection with the termination of the merger agreement, including if AECOM's board of directors changes or withdraws its recommendation of the stock issuance or terminates the merger agreement to enter into an agreement with respect to a superior proposal, AECOM must pay to URS a termination fee equal to \$140 million, or \$240 million if the merger agreement is terminated under circumstances where all closing conditions have been satisfied but AECOM's debt financing is not available to complete the merger and AECOM fails to close the merger. In certain circumstances in connection with the termination of the merger agreement, including if URS's board of directors changes or withdraws its recommendation of the merger or terminates the merger agreement to enter into an agreement with respect to a superior proposal, URS must pay to AECOM a termination fee equal to \$140 million. If the merger agreement is terminated by a party as a result of certain breaches by the other party, then the non-terminating party will be required to reimburse the terminating party for its reasonable out-of-pocket fees and expenses up to \$40 million.

New Accounting Pronouncements and Changes in Accounting

In February 2013, the Financial Accounting Standards Board (FASB) issued new accounting guidance to update the presentation of reclassifications from comprehensive income to net income in consolidated financial statements. Under this new guidance, an entity is required to present information about the amounts reclassified out of accumulated other comprehensive income either by the respective line items of net income or by cross-reference to other required disclosures. The new guidance does not change the requirements for reporting net income or other comprehensive income in financial statements. This guidance was effective for our fiscal year beginning October 1, 2013 and did not have a material impact on our consolidated financial statements.

In February 2013, the FASB issued new accounting guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation (within the scope of this guidance) is fixed at the reporting date. Examples of obligations within the scope of this guidance include debt arrangements, other contractual obligations, and settled litigation and judicial rulings. This new guidance was effective for annual reporting periods beginning after December 15, 2013 and subsequent interim periods. This guidance is effective for our fiscal year beginning October 1, 2014 and it is not expected to have a material impact on our consolidated financial statements.

In July 2013, the FASB issued new accounting guidance that requires the presentation of unrecognized tax benefits as a reduction of the deferred tax assets, when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists at the reporting date. This new guidance

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

was effective for annual reporting periods beginning on or after December 15, 2013 and subsequent interim periods. This guidance is effective for our fiscal year beginning October 1, 2014 and it is not expected to have a material impact on our consolidated financial statements.

In May 2014, the FASB issued new accounting guidance which amended the existing accounting standards for revenue recognition. The new accounting guidance establishes principles for recognizing revenue upon the transfer of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. This guidance is effective for our fiscal year beginning October 1, 2017. Early adoption is not permitted. The amendments may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of initial application. We are currently in the process of evaluating the impact of adoption of the new accounting guidance on our consolidated financial statements.

Off-Balance Sheet Arrangements

We enter into various joint venture arrangements to provide architectural, engineering, program management, construction management and operations and maintenance services. The ownership percentage of these joint ventures is typically representative of the work to be performed or the amount of risk assumed by each joint venture partner. Some of these joint ventures are considered variable interest. We have consolidated all joint ventures for which we have control. For all others, our portion of the earnings are recorded in equity in earnings of joint ventures. See Note 6 in the notes to our consolidated financial statements. We do not believe that we have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that would be material to investors.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Financial Market Risks

Financial Market Risks

We are exposed to market risk, primarily related to foreign currency exchange rates and interest rate exposure of our debt obligations that bear interest based on floating rates. We actively monitor these exposures. Our objective is to reduce, where we deem appropriate to do so, fluctuations in earnings and cash flows associated with changes in foreign exchange rates and interest rates. In order to accomplish this objective, we sometimes enter into derivative financial instruments, such as forward contracts and interest rate hedge contracts. It is our policy and practice to use derivative financial instruments only to the extent necessary to manage our exposures. We do not use derivative financial instruments for trading purposes.

Foreign Exchange Rates

We are exposed to foreign currency exchange rate risk resulting from our operations outside of the U.S. We do not comprehensively hedge our exposure to currency rate changes; however, our exposure to foreign currency fluctuations is limited in that most of our contracts require client payments to be in currencies corresponding to the currency in which costs are incurred. As a result, we typically do not need to hedge foreign currency cash flows for contract work performed. The functional currency of our significant foreign operations is the local currency.

Interest Rates

Our senior revolving credit facility and certain other debt obligations are subject to variable rate interest which could be adversely affected by an increase in interest rates. As of June 30, 2014 and September 30, 2013, we had \$750 million and \$864.7 million, respectively, in outstanding borrowings under our unsecured term credit agreements and our unsecured revolving credit facility. Interest on amounts borrowed under these agreements is subject to adjustment based on certain levels of financial performance. The applicable margin that is added to the borrowing's base rate can range from 0.0% to 2.5%. For the nine months ended June 30, 2014, our weighted average floating rate borrowings were \$965.5 million, or \$466 million excluding borrowings with effective fixed interest rates due to interest rate swap agreements. If short term floating interest rates had increased or decreased by 1%, our interest expense for the nine months ended June 30, 2014 would have increased or decreased by \$3.5 million. We invest our cash in a variety of financial instruments, consisting principally of money market securities or other highly liquid, short-term securities that are subject to minimal credit and market risk.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Based on an evaluation under the supervision and with the participation of our management, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act), were effective as of June 30, 2014 to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during our quarter ended June 30, 2014 which were identified in connection with management's evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

As a government contractor, we are subject to various laws and regulations that are more restrictive than those applicable to non-government contractors. Intense government scrutiny of contractors' compliance with those laws and regulations through audits and investigations is inherent in government contracting, and, from time to time, we receive inquiries, subpoenas, and similar demands related to our ongoing business with government entities. Violations can result in civil or criminal liability as well as suspension or debarment from eligibility for awards of new government contracts or option renewals.

We are involved in various investigations, claims and lawsuits in the normal conduct of our business. Although the outcome of our legal proceedings cannot be predicted with certainty and no assurances can be provided, in the opinion of our management, based upon current information and discussions with counsel, with the exception of the matters noted below, none of the investigations, claims and lawsuits in which we are involved is expected to have a material adverse effect on our consolidated financial position, results of operations, cash flows or our ability to conduct business. See Note 16, Commitments and Contingencies, to the financial statements contained in this report for a discussion of certain matters to which we are a party. The information set forth in such note is incorporated by reference into this Item 1. The resolution of these matters are subject to inherent uncertainty, and it is reasonably possible that resolution of any of these outstanding matters could have a material adverse effect on us. From time to time, we establish reserves for litigation when we consider it probable that a loss will occur.

Item 1A. Risk Factors

We operate in a changing environment that involves numerous known and unknown risks and uncertainties that could materially adversely affect our operations. The risks described below highlight some of the factors that have affected, and in the future could affect our operations. Additional risks we do not yet know of or that we currently think are immaterial may also affect our business operations. If any of the events or circumstances described in the following risks actually occur, our business, financial condition or results of operations could be materially adversely affected.

We depend on long-term government contracts, some of which are only funded on an annual basis. If appropriations for funding are not made in subsequent years of a multiple-year contract, we may not be able to realize all of our anticipated revenue and profits from that project.

A substantial majority of our revenue is derived from contracts with agencies and departments of national, state and local governments. During fiscal 2013, 2012 and 2011, approximately 59%, 60% and 64%, respectively, of our revenue was derived from contracts with government entities.

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

Most government contracts are subject to the government's budgetary approval process. Legislatures typically appropriate funds for a given program on a year-by-year basis, even though contract performance may take more than one year. As a result, at the beginning of a program, the related contract is only partially funded, and additional funding is normally committed only as appropriations are made in each subsequent fiscal year. These appropriations, and the timing of payment of appropriated amounts, may be influenced by, among other things, the state of the economy, competing priorities for appropriation, changes in administration or control of legislatures and the timing and amount of tax receipts and the overall level of government expenditures. If appropriations are not made in subsequent years on our government contracts, then we will not realize all of our potential revenue and profit from that contract.

The Budget Control Act of 2011 could significantly reduce U.S. government spending for the services we provide.

Under the Budget Control Act of 2011, an automatic sequestration process, or across-the-board budget cuts, was triggered when the Joint Select Committee on Deficit Reduction, a committee of twelve members of Congress, failed to agree on a deficit reduction plan for the U.S. federal budget. The sequestration began on March 1, 2013. Although the Bipartisan Budget Act of 2013 provided some sequester relief, absent additional legislative or other remedial action, the sequestration requires reduced U.S. federal government spending over a ten-year period. A significant reduction in federal government spending could reduce demand for our services, cancel or delay federal projects, and result in the closure of federal facilities and significant personnel reductions, which could have a material adverse effect on our results of operations and financial condition.

Table of Contents

Governmental agencies may modify, curtail or terminate our contracts at any time prior to their completion and, if we do not replace them, we may suffer a decline in revenue.

Most government contracts may be modified, curtailed or terminated by the government either at its discretion or upon the default of the contractor. If the government terminates a contract at its discretion, then we typically are able to recover only costs incurred or committed, settlement expenses and profit on work completed prior to termination, which could prevent us from recognizing all of our potential revenue and profits from that contract. In addition, the U.S. government has announced its intention to scale back outsourcing of services in favor of insourcing jobs to its employees, which could reduce the number of contracts awarded to us. The adoption of similar practices by other government entities could also adversely affect our revenues. If a government terminates a contract due to our default, we could be liable for excess costs incurred by the government in obtaining services from another source.

Demand for our services is cyclical and may be vulnerable to sudden economic downturns and reductions in government and private industry spending. If economic conditions remain weak and decline further, our revenue and profitability could be adversely affected.

Demand for our services is cyclical and may be vulnerable to sudden economic downturns and reductions in government and private industry spending, which may result in clients delaying, curtailing or canceling proposed and existing projects. Economic conditions in the U.S. and a number of other countries and regions, including the United Kingdom and Australia, have been weak and may remain difficult for the foreseeable future. If global economic and financial market conditions remain weak and/or decline further, some of our clients may face considerable budget shortfalls that may limit their overall demand for our services. In addition, our clients may find it more difficult to raise capital in the future to fund their projects due to uncertainty in the municipal and general credit markets.

Where economies are weakening, our clients may demand more favorable pricing or other terms while their ability to pay our invoices or to pay them in a timely manner may be adversely affected. Our government clients may face budget deficits that prohibit them from funding proposed and existing projects. If economic conditions remain uncertain and/or weaken and/or government spending is reduced, our revenue and profitability could be adversely affected.

Our contracts with governmental agencies are subject to audit, which could result in adjustments to reimbursable contract costs or, if we are charged with wrongdoing, possible temporary or permanent suspension from participating in government programs.

Our books and records are subject to audit by the various governmental agencies we serve and their representatives. These audits can result in adjustments to the amount of contract costs we believe are reimbursable by the agencies and the amount of our overhead costs allocated to the agencies. If such matters are not resolved in our favor, they could have a material adverse effect on our business. In addition, if one of our subsidiaries is charged with wrongdoing as a result of an audit, that subsidiary, and possibly our company as a whole, could be temporarily suspended or could be prohibited from bidding on and receiving future government contracts for a period of time. Furthermore, as a government contractor, we are subject to an increased risk of investigations, criminal prosecution, civil fraud actions, whistleblower lawsuits and other legal actions and liabilities to which purely private sector companies are not, the results of which could materially adversely impact our business.

An impairment charge of goodwill could have a material adverse impact on our financial condition and results of operations.

Because we have grown in part through acquisitions, goodwill and intangible assets-net represent a substantial portion of our assets. Goodwill and intangible assets-net were \$2.0 billion as of June 30, 2014. Under accounting principles generally accepted in the United States, we are required to test goodwill carried in our Consolidated Balance Sheets for possible impairment on an annual basis based upon a fair value approach and whenever events occur that indicate impairment could exist. These events or circumstances could include a significant change in the business climate, including a significant sustained decline in a reporting unit's market value, legal factors, operating performance indicators, competition, sale or disposition of a significant portion of our business, a significant sustained decline in our market capitalization and other factors.

In connection with our annual goodwill impairment testing for fiscal 2012, we recorded an impairment charge of \$336 million due to market conditions and business trends within the Europe, Middle East, and Africa (EMEA) and MSS reporting units. We cannot accurately predict the amount and timing of any future impairment. In addition to the goodwill impairment charge we recorded in fiscal 2012, we may be required to take additional goodwill impairment charges relating to certain of our reporting units if the fair value of our reporting units is less than their carrying value. Similarly, certain Company transactions, such as merger and acquisition transactions, could result in additional goodwill impairment charges being recorded.

In addition, if we experience a decrease in our stock price and market capitalization over a sustained period, we would have to record an impairment charge in the future. The amount of any impairment could be significant and could have a material adverse impact on our financial condition and results of operations for the period in which the charge is taken.

Table of Contents

Our operations worldwide expose us to legal, political and economic risks in different countries as well as currency exchange rate fluctuations that could harm our business and financial results.

During fiscal 2013, revenue attributable to our services provided outside of the United States to non-U.S. clients was approximately 41% of our total revenue. There are risks inherent in doing business internationally, including:

- imposition of governmental controls and changes in laws, regulations or policies;
- political and economic instability;
- civil unrest, acts of terrorism, force majeure, war, or other armed conflict;
- changes in U.S. and other national government trade policies affecting the markets for our services;
- changes in regulatory practices, tariffs and taxes;
- potential non-compliance with a wide variety of laws and regulations, including anti-corruption, export control and anti-boycott laws and similar non-U.S. laws and regulations;
- changes in labor conditions;
- logistical and communication challenges; and
- currency exchange rate fluctuations, devaluations and other conversion restrictions.

Any of these factors could have a material adverse effect on our business, results of operations or financial condition.

Political, economic and military conditions in the Middle East, Africa and other regions could negatively impact our business.

In recent years, there has been a substantial amount of hostilities, civil unrest and other political uncertainty in certain areas in the Middle East, North Africa and beyond. If civil unrest were to disrupt our business in any of these regions, and particularly if political activities were to result in prolonged hostilities, unrest or civil war, it could result in operating losses and asset write downs and our financial condition could be adversely affected.

We operate in many different jurisdictions and we could be adversely affected by violations of the U.S. Foreign Corrupt Practices Act and similar worldwide anti-corruption laws.

The U.S. Foreign Corrupt Practices Act (FCPA) and similar worldwide anti-corruption laws, including the U.K. Bribery Act of 2010, generally prohibit companies and their intermediaries from making improper payments to non-U.S. officials for the purpose of obtaining or retaining business. Our internal policies mandate compliance with these anti-corruption laws, including the requirements to maintain accurate information and internal controls which may fall within the purview of the FCPA, its books and records provisions or its anti-bribery provisions. We operate in many parts of the world that have experienced governmental corruption to some degree and, in certain circumstances, strict compliance with anti-corruption laws may conflict with local customs and practices. Despite our training and compliance programs, we cannot assure that our internal control policies and procedures always will protect us from reckless or criminal acts committed by our employees or agents. Our continued expansion outside the U.S., including in developing countries, could increase the risk of such violations in the future. In addition, from time to time, government investigations of corruption in construction-related industries affect us and our peers. Violations of these laws, or allegations of such violations, could disrupt our business and result in a material adverse effect on our results of operations or financial condition.

We work in international locations where there are high security risks, which could result in harm to our employees and contractors or material costs to us.

Some of our services are performed in high-risk locations, such as Afghanistan, and, until relatively recently, Iraq and Libya, where the country or location is suffering from political, social or economic problems, or war or civil unrest. In those locations where we have employees or operations, we may incur material costs to maintain the safety of our personnel. Despite these precautions, the safety of our personnel in these locations may continue to be at risk. Acts of terrorism and threats of armed conflicts in or around various areas in which we operate could limit or disrupt markets and our operations, including disruptions resulting from the evacuation of personnel, cancellation of contracts, or the loss of key employees, contractors or assets.

Table of Contents

Our business and operating results could be adversely affected by losses under fixed-price contracts.

Fixed-price contracts require us to either perform all work under the contract for a specified lump-sum or to perform an estimated number of units of work at an agreed price per unit, with the total payment determined by the actual number of units performed. In fiscal 2013, approximately 42% of our revenue was recognized under fixed-price contracts. Fixed-price contracts expose us to a number of risks not inherent in cost-plus and time and material contracts, including underestimation of costs, ambiguities in specifications, unforeseen costs or difficulties, problems with new technologies, delays beyond our control, failures of subcontractors to perform and economic or other changes that may occur during the contract period. In addition, our exposure to construction cost overruns may increase over time as we increase our construction services. Losses under fixed-price contracts could be substantial and adversely impact our results of operations.

Our failure to meet contractual schedule or performance requirements that we have guaranteed could adversely affect our operating results.

In certain circumstances, we can incur liquidated or other damages if we do not achieve project completion by a scheduled date. If we or an entity for which we have provided a guarantee subsequently fails to complete the project as scheduled and the matter cannot be satisfactorily resolved with the client, we may be responsible for cost impacts to the client resulting from any delay or the cost to complete the project. Our costs generally increase from schedule delays and/or could exceed our projections for a particular project. Although we have not suffered material impacts to our results of operations due to any schedule or performance issues for the periods presented in this report, material performance problems for existing and future contracts could cause actual results of operations to differ from those anticipated by us and also could cause us to suffer damage to our reputation within our industry and client base.

We participate in certain joint ventures where we provide guarantees and may be adversely impacted by the failure of the joint venture or its participants to fulfill their obligations.

We have investments in and commitments to certain joint ventures with unrelated parties, including in connection with the investment activities of AECOM Capital. These joint ventures from time to time borrow money to help finance their activities and in certain circumstances, we are required to provide guarantees of certain obligations of our affiliated entities, including guarantees for completion of projects, repayment of debt, environmental indemnity obligations and acts of willful misconduct. If these entities are not able to honor their obligations, under the guarantees, we may be required to expend additional resources or suffer losses, which could be significant.

We conduct a portion of our operations through joint venture entities, over which we may have limited control.

Approximately 12% of our fiscal 2013 revenue was derived from our operations through joint ventures or similar partnership arrangements, where control may be shared with unaffiliated third parties. As with most joint venture arrangements, differences in views among the joint venture participants may result in delayed decisions or disputes. We also cannot control the actions of our joint venture partners, and we typically have joint and several liability with our joint venture partners under the applicable contracts for joint venture projects. These factors could potentially adversely impact the business and operations of a joint venture and, in turn, our business and operations.

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

Operating through joint ventures in which we are minority holders results in us having limited control over many decisions made with respect to projects and internal controls relating to projects. Sales of our services provided to our unconsolidated joint ventures were approximately 6% of our fiscal 2013 revenue. We generally do not have control of these unconsolidated joint ventures. These joint ventures may not be subject to the same requirements regarding internal controls and internal control over financial reporting that we follow. As a result, internal control problems may arise with respect to these joint ventures, which could have a material adverse effect on our financial condition and results of operations.

Our debt agreements contain restrictive covenants and financial ratio tests that restrict or prohibit our ability to engage in or enter into a variety of transactions. If we fail to comply with these covenants or tests, our indebtedness under these agreements could become accelerated, which could adversely affect us.

Our debt agreements, including our senior credit facility and the agreement governing our senior notes, contain various covenants that may have the effect of limiting, among other things, our ability and the ability of certain of our subsidiaries to: merge with other entities, enter into a transaction resulting in a change in control, create new liens, incur additional indebtedness, sell assets outside of the ordinary course of business, enter into transactions with affiliates (other than subsidiaries) or substantially change the general nature of our and our subsidiaries' business, taken as a whole, and, in the case of our senior credit facility, make certain investments, enter into restrictive agreements, or make certain dividends or other distributions. These restrictions could limit our ability to take advantage of financing, merger, acquisition or other opportunities, to fund our business operations or to fully implement our current and future operating strategies.

All of our debt agreements relating to our unsecured revolving credit facility, unsecured term credit agreements, and unsecured senior notes require us to maintain compliance with a maximum consolidated leverage ratio at the end of any fiscal quarter. The agreement governing our senior notes also requires us to maintain a net worth above a required threshold. As of June 30, 2014, our consolidated leverage ratio was 2.54, which did not exceed our most restrictive maximum consolidated leverage ratio of 3.0. As of June 30, 2014, our net worth was \$2.2 billion, which exceeds the required threshold of \$1.7 billion. Our ability to continue to meet these financial ratios and tests will be dependent upon our future performance and may be affected by events beyond our control (including factors discussed in this *Risk Factors* section). If we fail to satisfy these requirements, our indebtedness under these agreements could become accelerated and payable at a time when we are unable to pay them. This would adversely affect our ability to implement our operating strategies and would have a material adverse effect on our financial condition.

Systems and information technology interruption and cyber security breaches could adversely impact our ability to operate.

We rely heavily on computer, information and communications technology and related systems in order to properly operate. From time to time, we experience occasional system interruptions and delays. If we are unable to continually add software and hardware, effectively upgrade our systems and network infrastructure and take other steps to improve the efficiency of and protect our systems, the operation of our systems could be interrupted or delayed. Our computer and communications systems and operations could be damaged or interrupted by natural disasters, telecommunications failures, acts of war or terrorism and similar events or disruptions. Any of these or other events could cause system interruption, delays and loss of critical data, or delay or prevent operations, and adversely affect our operating results.

In addition, we face the threat to our computer systems of unauthorized access, computer hackers, computer viruses, malicious code, organized cyber attacks and other security problems and system disruptions, including possible unauthorized access to our and our clients' proprietary or classified information. We rely on industry-accepted security measures and technology to securely maintain all confidential and proprietary information on our information systems. We have devoted and will continue to devote significant resources to the security of our computer systems, but they may still be vulnerable to these threats. A user who circumvents security measures could misappropriate confidential or proprietary information, including information regarding us, our personnel and/or our clients, or cause interruptions or malfunctions in operations. As a result, we may be required to expend significant resources to protect against the threat of these system disruptions and security breaches or to alleviate problems caused by these disruptions and breaches. Any of these events could damage our reputation and have a material adverse effect on our business, financial condition, results of operations and cash flows.

Misconduct by our employees or consultants or our failure to comply with laws or regulations applicable to our business could cause us to lose customers or lose our ability to contract with government agencies.

As a government contractor, misconduct, fraud or other improper activities caused by our employees or consultants failure to comply with laws or regulations could have a significant negative impact on our business and reputation. Such misconduct could include the failure to comply with federal procurement regulations, environmental regulations, regulations regarding the protection of sensitive government information, legislation regarding the pricing of labor and other costs in government contracts, regulations on lobbying or similar activities, and anti-corruption, export control and other applicable laws or regulations. Our failure to comply with applicable laws or regulations, misconduct by any of our employees or consultants or our failure to make timely and accurate certifications to government agencies regarding misconduct or potential misconduct could subject us to fines and penalties, loss of government granted eligibility, cancellation of contracts and suspension or debarment from contracting with government agencies, any of which may adversely affect our business.

Table of Contents

Our defined benefit plans have significant deficits that could grow in the future and cause us to incur additional costs.

We have defined benefit pension plans for employees in the United States, United Kingdom, Australia, and Ireland. At June 30, 2014, our defined benefit pension plans had an aggregate deficit (the excess of projected benefit obligations over the fair value of plan assets) of approximately \$184.8 million. In the future, our pension deficits may increase or decrease depending on changes in the levels of interest rates, pension plan performance and other factors. Because the current economic environment has resulted in declining investment returns and interest rates, we may be required to make additional cash contributions to our pension plans and recognize further increases in our net pension cost to satisfy our funding requirements. If we are forced or elect to make up all or a portion of the deficit for unfunded benefit plans, our results of operations could be materially and adversely affected.

New legal requirements could adversely affect our operating results.

Our business and results of operations could be adversely affected by the passage of U.S. health care reform, climate change, and other environmental legislation and regulations. We are continually assessing the impact that health care reform could have on our employer-sponsored medical plans. Growing concerns about climate change may result in the imposition of additional environmental regulations. For example, legislation, international protocols, regulation or other restrictions on emissions could increase the costs of projects for our clients or, in some cases, prevent a project from going forward, thereby potentially reducing the need for our services.

However, these changes could also increase the pace of development of other projects, which could have a positive impact on our business. We cannot predict when or whether any of these various proposals may be enacted or what their effect will be on us or on our customers.

Failure to successfully execute our acquisition strategy may inhibit our growth.

We have grown in part as a result of our acquisitions over the last several years, and we expect continued growth in the form of additional acquisitions and expansion into new markets. If we are unable to pursue suitable acquisition opportunities, as a result of global economic uncertainty or other factors, our growth may be inhibited. We cannot assure that suitable acquisitions or investment opportunities will continue to be identified or that any of these transactions can be consummated on favorable terms or at all. Any future acquisitions will involve various inherent risks, such as:

- our ability to accurately assess the value, strengths, weaknesses, liabilities and potential profitability of acquisition candidates;
- the potential loss of key personnel of an acquired business;

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

- increased burdens on our staff and on our administrative, internal control and operating systems, which may hinder our legal and regulatory compliance activities;
- liabilities related to pre-acquisition activities of an acquired business and the burdens on our staff and resources to comply with, conduct or resolve investigations into such activities;
- post-acquisition integration challenges; and
- post-acquisition deterioration in an acquired business that could result in lower or negative earnings contribution and/or goodwill impairment charges.

Furthermore, during the acquisition process and thereafter, our management may need to assume significant transaction-related responsibilities, which may cause them to divert their attention from our existing operations. If our management is unable to successfully integrate acquired companies or implement our growth strategy, our operating results could be harmed. Moreover, we cannot assure that we will continue to successfully expand or that growth or expansion will result in profitability.

Our ability to grow and to compete in our industry will be harmed if we do not retain the continued services of our key technical and management personnel and identify, hire, and retain additional qualified personnel.

There is strong competition for qualified technical and management personnel in the sectors in which we compete. We may not be able to continue to attract and retain qualified technical and management personnel, such as engineers, architects and project managers, who are necessary for the development of our business or to replace qualified personnel. Our planned growth may place increased demands on our resources and will likely require the addition of technical and management personnel and the development of additional expertise by existing personnel. Also, some of our personnel hold government granted eligibility that may be required to obtain certain government projects. If we were to lose some or all of these personnel, they would be difficult to replace. Loss of the services of, or failure to recruit, key technical and management personnel could limit our ability to successfully complete existing projects and compete for new projects.

Table of Contents

Our revenue and growth prospects may be harmed if we or our employees are unable to obtain government granted eligibility or other qualifications we and they need to perform services for our customers.

A number of government programs require contractors to have certain kinds of government granted eligibility, such as security clearance credentials. Depending on the project, eligibility can be difficult and time-consuming to obtain. If we or our employees are unable to obtain or retain the necessary eligibility, including local ownership requirements, we may not be able to win new business, and our existing customers could terminate their contracts with us or decide not to renew them. To the extent we cannot obtain or maintain the required security clearances for our employees working on a particular contract, we may not derive the revenue or profit anticipated from such contract.

Our industry is highly competitive and we may be unable to compete effectively, which could result in reduced revenue, profitability and market share.

We are engaged in a highly competitive business. The professional technical and management support services markets we serve are highly fragmented and we compete with a large number of regional, national and international companies. Certain of these competitors have greater financial and other resources than we do. Others are smaller and more specialized, and concentrate their resources in particular areas of expertise. The extent of our competition varies according to the particular markets and geographic area.

The degree and type of competition we face is also influenced by the type and scope of a particular project. Our clients make competitive determinations based upon qualifications, experience, performance, reputation, technology, customer relationships and ability to provide the relevant services in a timely, safe and cost-efficient manner. Increased competition may result in our inability to win bids for future projects and loss of revenue, profitability and market share.

If we extend a significant portion of our credit to clients in a specific geographic area or industry, we may experience disproportionately high levels of collection risk and nonpayment if those clients are adversely affected by factors particular to their geographic area or industry.

Our clients include public and private entities that have been, and may continue to be, negatively impacted by the changing landscape in the global economy. While outside of the U.S. Federal Government no one client accounts for over 10% of our revenue, we face collection risk as a normal part of our business where we perform services and subsequently bill our clients for such services. In the event that we have concentrated credit risk from clients in a specific geographic area or industry, continuing negative trends or a worsening in the financial condition of that specific geographic area or industry could make us susceptible to disproportionately high levels of default by those clients. Such defaults could materially adversely impact our revenues and our results of operations.

Our services expose us to significant risks of liability and our insurance policies may not provide adequate coverage.

Our services involve significant risks of professional and other liabilities that may substantially exceed the fees that we derive from our services. In addition, we sometimes contractually assume liability to clients on projects under indemnification agreements. We cannot predict the magnitude of potential liabilities from the operation of our business.

Our professional liability policies cover only claims made during the term of the policy. Additionally, our insurance policies may not protect us against potential liability due to various exclusions in the policies and self-insured retention amounts. Partially or completely uninsured claims, if successful and of significant magnitude, could have a material adverse effect on our business.

Our backlog of uncompleted projects under contract is subject to unexpected adjustments and cancellations and, thus, may not accurately reflect future revenue and profits.

At June 30, 2014, our contracted backlog was approximately \$9.6 billion and our awarded backlog was approximately \$10.9 billion for a total backlog of \$20.5 billion. Our contracted backlog includes revenue we expect to record in the future from signed contracts and, in the case of a public sector client, where the project has been funded. Our awarded backlog includes revenue we expect to record in the future where we have been awarded the work, but the contractual agreement has not yet been signed. We cannot guarantee that future revenue will be realized from either category of backlog or, if realized, will result in profits. Many projects may remain in our backlog for an extended period of time because of the size or long-term nature of the contract. In addition, from time to time, projects are delayed, scaled back or canceled. These types of backlog reductions adversely affect the revenue and profits that we ultimately receive from contracts reflected in our backlog.

Table of Contents

We have submitted claims to clients for work we performed beyond the initial scope of some of our contracts. If these clients do not approve these claims, our results of operations could be adversely impacted.

We typically have pending claims submitted under some of our contracts for payment of work performed beyond the initial contractual requirements for which we have already recorded revenue. In general, we cannot guarantee that such claims will be approved in whole, in part, or at all. If these claims are not approved, our revenue may be reduced in future periods.

In conducting our business, we depend on other contractors and subcontractors. If these parties fail to satisfy their obligations to us or other parties or if we are unable to maintain these relationships, our revenue, profitability and growth prospects could be adversely affected.

We depend on contractors and subcontractors in conducting our business. There is a risk that we may have disputes with our subcontractors arising from, among other things, the quality and timeliness of work performed by the subcontractor, customer concerns about the subcontractor, or our failure to extend existing task orders or issue new task orders under a subcontract. In addition, if any of our subcontractors fail to deliver on a timely basis the agreed-upon supplies and/or perform the agreed-upon services, our ability to fulfill our obligations as a prime contractor may be jeopardized and/or we could be held responsible for such failures.

We also rely on relationships with other contractors when we act as their subcontractor or joint venture partner. Our future revenue and growth prospects could be adversely affected if other contractors eliminate or reduce their subcontracts or joint venture relationships with us, or if a government agency terminates or reduces these other contractors' programs, does not award them new contracts or refuses to pay under a contract. In addition, due to "pay when paid" provisions that are common in subcontracts in certain countries, including the U.S., we could experience delays in receiving payment if the prime contractor experiences payment delays.

If clients use our reports or other work product without appropriate disclaimers or in a misleading or incomplete manner, our business could be adversely affected.

The reports and other work product we produce for clients sometimes include projections, forecasts and other forward-looking statements. Such information by its nature is subject to numerous risks and uncertainties, any of which could cause the information produced by us to ultimately prove inaccurate. While we include appropriate disclaimers in the reports that we prepare for our clients, once we produce such written work product, we do not always have the ability to control the manner in which our clients use such information. As a result, if our clients reproduce such information to solicit funds from investors for projects without appropriate disclaimers and the information proves to be incorrect, or if our clients reproduce such information for potential investors in a misleading or incomplete manner, our clients or such investors may threaten to or file suit against us for, among other things, securities law violations. If we were found to be liable for any claims related to our client work product, our business could be adversely affected.

Our quarterly operating results may fluctuate significantly.

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

We experience seasonal trends in our business with our revenue typically being higher in the last half of the fiscal year. Our fourth quarter (July 1 to September 30) typically is our strongest quarter, and our first quarter is typically our weakest quarter. Our quarterly revenue, expenses and operating results may fluctuate significantly because of a number of factors, including:

- the spending cycle of our public sector clients;
- employee hiring and utilization rates;
- the number and significance of client engagements commenced and completed during a quarter;
- the ability of clients to terminate engagements without penalties;
- the ability of our project managers to accurately estimate the percentage of the project completed;
- delays incurred as a result of weather conditions;
- delays incurred in connection with an engagement;
- the size and scope of engagements;
- the timing and magnitude of expenses incurred for, or savings realized from, corporate initiatives;
- changes in foreign currency rates;
- the seasonality of our business;
- the impairment of goodwill or other intangible assets; and

- general economic and political conditions.

Variations in any of these factors could cause significant fluctuations in our operating results from quarter to quarter.

Table of Contents

If we are unable to continue to access credit on acceptable terms, our business may be adversely affected.

The state of the global credit markets could make it more difficult for us to access funds, refinance our existing indebtedness, enter into agreements for uncommitted bond facilities and new indebtedness, replace our existing revolving and term credit agreements on or before their respective expirations in 2019 and 2018 or obtain funding through the issuance of our securities. We use credit facilities to support our working capital and acquisition needs. There is no guarantee that we can continue to renew our credit facility on terms as favorable as those in our existing credit facility and, if we are unable to do so, our costs of borrowing and our business may be adversely affected.

Table of Contents

Failure to adequately protect, maintain, or enforce our rights in our intellectual property may adversely limit our competitive position.

Our success depends, in part, upon our ability to protect our intellectual property. We rely on a combination of intellectual property policies and other contractual arrangements to protect much of our intellectual property where we do not believe that trademark, patent or copyright protection is appropriate or obtainable. Trade secrets are generally difficult to protect. Although our employees are subject to confidentiality obligations, this protection may be inadequate to deter or prevent misappropriation of our confidential information and/or the infringement of our patents and copyrights. Further, we may be unable to detect unauthorized use of our intellectual property or otherwise take appropriate steps to enforce our rights. Failure to adequately protect, maintain, or enforce our intellectual property rights may adversely limit our competitive position.

Our charter documents contain provisions that may delay, defer or prevent a change of control.

Provisions of our certificate of incorporation and bylaws could make it more difficult for a third party to acquire control of us, even if the change in control would be beneficial to stockholders. These provisions include the following:

- removal of directors for cause only;
- ability of our Board of Directors to authorize the issuance of preferred stock in series without stockholder approval;
- two-thirds stockholder vote requirement to approve specified business combinations, which include a sale of substantially all of our assets;
- vesting of exclusive authority in our Board of Directors to determine the size of the board (subject to limited exceptions) and to fill vacancies;
- advance notice requirements for stockholder proposals and nominations for election to our Board of Directors; and
- prohibitions on our stockholders from acting by written consent and limitations on calling special meetings

Risk Factors Relating to Pending Acquisition of URS Corporation

The merger is subject to a number of conditions, including certain governmental and regulatory conditions that may not be satisfied, and the merger may not be completed on a timely basis, or at all. Failure to complete the merger could have material and adverse effects on us.

As described in Note 18, Subsequent Events to the financial statements contained in this report, we have entered into a definitive agreement to acquire URS through a merger transaction. Completion of the merger is conditioned upon, among other matters, the receipt of certain governmental authorizations, consents, orders or other approvals, including the expiration or termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, the receipt of antitrust clearance under the Competition Act (Canada) and the Ireland Competition Act (which condition the parties have agreed to waive with respect to Ireland), the authorization of the listing on the New York Stock Exchange of our shares of common stock to be issued in the merger, the declaration of the effectiveness of the Registration Statement on Form S-4 and related joint proxy statement/prospectus filed by us with the United States Securities and Exchange Commission (SEC) under the Securities Act of 1933, as amended, and the receipt of any other consents or approvals of any governmental entity required to be obtained in connection with the merger. In deciding whether to grant antitrust or other regulatory clearances, the relevant governmental entities will consider the effect of the merger within their relevant jurisdictions. The governmental agencies from which we and URS will seek the approvals have broad discretion in administering the governing regulations. The terms and conditions of the approvals that are granted may impose requirements, limitations or costs or place restrictions on the conduct of our business after the merger. There can be no assurance that regulators will not impose conditions, terms, obligations or restrictions and that such conditions, terms, obligations or restrictions will not have the effect of delaying completion of the merger or imposing additional material costs on us or materially limiting our revenues following the merger. In addition, we cannot provide assurances that any such conditions, terms, obligations or restrictions will not result in the delay or abandonment of the merger.

Table of Contents

If the merger is not completed on a timely basis, or at all, our and URS' s respective ongoing businesses may be adversely affected. Additionally, in the event the merger is not completed, we will be subject to a number of risks without realizing any of the benefits of having completed the merger, including (i) the payment of certain fees and costs relating to the merger, such as legal, accounting, debt financing source, financial advisor and printing fees, (ii) the potential decline in the market price of our shares of common stock, (iii) the risk that may not find a party willing to enter into a merger agreement on terms equivalent to or more attractive than the terms set forth in the merger agreement with URS and (iv) the loss of time and resources.

Uncertainties associated with the merger may cause a loss of management personnel and other key employees which could adversely affect our future business, operations and financial results following the merger.

Whether or not the merger is completed, the announcement and pendency of the merger could disrupt our and URS' s businesses. We are dependent on the experience and industry knowledge of our senior management and other key employees to execute our business plans. Our success after the merger will depend in part upon our and URS' s ability to retain key management personnel and other key employees. Our and URS' s current and prospective employees may experience uncertainty about their roles within our company following the merger, which may have an adverse effect on the ability of each of us to attract or retain key management and other key personnel.

Accordingly, no assurance can be given that we will be able to attract or retain our and URS' s key management personnel and other key employees to the same extent that our companies have previously been able to attract or retain employees. In addition, following the merger we might not be able to locate suitable replacements for any such key employees who leave us or offer employment to potential replacements on reasonable terms.

Lawsuits have been filed against URS and/or us challenging the merger, and an adverse ruling may prevent the merger from being completed.

We and/or URS, as well as the members of the URS Board of Directors, have been named as defendants in lawsuits brought by purported stockholders of URS challenging the URS Board of Directors' actions in connection with the merger agreement and seeking, among other things, injunctive relief to enjoin the defendants from completing the merger on the agreed-upon terms.

One of the conditions to the closing of the merger is that no temporary restraining order, preliminary or permanent injunction or other judgment, order or decree issued by any court of competent jurisdiction or other legal restraint or prohibition shall be in effect, and no law shall have been enacted, entered, promulgated, enforced or deemed applicable by any governmental entity that, in any such case, prohibits or makes illegal the consummation of the merger. Consequently, if a settlement or other resolution is not reached in the lawsuits referenced above and the plaintiffs secure injunctive or other relief prohibiting, delaying or otherwise adversely affecting our and/or URS' s ability to complete the merger, then such injunctive or other relief may prevent the merger from becoming effective within the expected timeframe or at all.

The merger agreement contains provisions that could discourage a potential competing acquiror of us.

Edgar Filing: AECOM TECHNOLOGY CORP - Form 10-Q

The merger agreement contains no shop provisions that, subject to limited exceptions, restrict our ability to solicit, initiate or endorse, encourage or facilitate competing third-party proposals for the acquisition of its company's shares or assets. Further, even if the our Board of Directors withdraws or changes its recommendation with respect to the merger, we will still be required to submit the stock issuance proposal to a vote at our stockholder meeting. In certain circumstances in connection with the termination of the merger agreement, we must pay to URS a termination fee equal to \$140 million, or \$240 million if the merger agreement is terminated by URS under circumstances where all closing conditions have been satisfied but our debt financing is not available to complete the merger and we fail to close the merger. If the merger agreement is terminated by URS as a result of certain breaches by us, then we will be required to reimburse URS for its reasonable out-of-pocket fees and expenses up to \$40 million.

These provisions could discourage a potential third-party acquiror that might have an interest in acquiring all or a significant portion of us from considering or proposing that acquisition because of the added expense of the termination fee and/or expense reimbursement that may become payable in certain circumstances.

Table of Contents

Although we expect to realize certain benefits as a result of the merger, there is the possibility that following the merger we may be unable to successfully integrate our and URS's businesses in order to realize the anticipated benefits of the merger or do so within the intended timeframe.

We will be required to devote significant management attention and resources to integrating the business practices and operations of URS with our business. Due to legal restrictions, we and URS have been able to conduct limited planning regarding the integration of URS into our business after completion of the merger and have not yet determined the exact nature of how the businesses and operations of URS will be run following the merger. Potential difficulties we may encounter as part of the integration process include the following:

- the consequences of a change in tax treatment, including the costs of integration and compliance and the possibility that the full benefits anticipated to result from the merger will not be realized;
- any delay in the integration of management teams, strategies, operations, products and services;
- diversion of the attention of each company's management as a result of the merger;
- differences in business backgrounds, corporate cultures and management philosophies that may delay successful integration;
- the ability to retain key employees;
- the ability to create and enforce uniform standards, controls, procedures, policies and information systems;
- the challenge of integrating complex systems, technology, networks and other assets of URS into those of us in a seamless manner that minimizes any adverse impact on customers, suppliers, employees and other constituencies;
- potential unknown liabilities and unforeseen increased expenses or delays associated with the merger, including costs to integrate URS beyond current estimates; and
- the disruption of, or the loss of momentum in, each company's ongoing businesses or inconsistencies in standards, controls, procedures and policies.

Any of these factors could adversely affect each company's ability to maintain relationships with customers, suppliers, employees and other constituencies or our ability to achieve the anticipated benefits of the merger or could reduce each company's earnings or otherwise adversely affect our business and financial results after the merger. In addition, following the merger, we likely will be subject to many of the risks described in URS's Annual Report on Form 10-K for the fiscal year ended January 3, 2014, as updated by URS's subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, all of which are filed with the SEC.

Our results after the merger may suffer if we do not effectively manage our expanded operations following the merger.

Following the merger, the size of our business will increase significantly beyond the current size of either our or URS's existing business. Our future success depends, in part, upon our ability to manage this expanded business, which will pose substantial challenges for management, including challenges related to the management and monitoring of new global operations and associated increased costs and complexity. There can be no assurances that we will be successful after completion of the merger or that we will realize the expected benefits currently anticipated from the merger.

The merger may not be accretive and may cause dilution to our earnings per share, which may negatively affect the market price of our common stock.

We currently anticipate that the merger will be accretive to GAAP earnings per share in fiscal year 2015. This expectation is based on preliminary estimates which may materially change. We could also encounter additional transaction and integration-related costs or other factors such as the failure to realize all of the benefits anticipated in the merger. All of these factors could cause dilution to our earnings per share or decrease or delay the expected accretive effect of the merger, which could cause a decrease in the price of our stock.

We expect to incur substantial expenses related to the merger.

We expect to incur substantial expenses in connection with the merger. While we and URS have assumed that a certain level of expenses would be incurred, there are many factors beyond the control of either us or URS that could affect the total amount or the timing of the expenses. Moreover, many of the expenses that will be incurred are, by their nature, difficult to estimate accurately.

Table of Contents

If our debt financing for the merger becomes unavailable, the merger may not be completed.

We intend to finance all or a portion of the cash component of the merger consideration with debt financing. We have entered into a commitment letter with Bank of America, N.A., Merrill Lynch, Pierce, Fenner & Smith Incorporated, MUFG Union Bank, N.A., The Bank of Nova Scotia, BNP Paribas, BNP Paribas Securities Corp., JPMorgan Chase Bank, N.A., J.P. Morgan Securities LLC, BBVA Compass, Wells Fargo Bank, National Association, Sumitomo Mitsui Banking Corporation, Crédit Agricole Corporate and Investment Bank, Morgan Stanley Senior Funding, Inc., HSBC Bank USA, National Association and HSBC Securities (USA) Inc. (the debt financing sources) pursuant to which the debt financing sources have committed, subject to customary conditions, to provide us with financing for the transactions contemplated by the merger agreement. The debt financing under the commitment letter is anticipated to consist of (1) a term loan A facility in an aggregate principal amount of \$712.5 million and a revolving credit facility in an aggregate principal amount of \$1.05 billion, either pursuant to amendments to our existing credit facilities if required lender consent is obtained or as new facilities and (2) incremental term loans in the aggregate principal amount of \$4.0 billion, consisting of a \$575 million term loan A and a \$3.425 billion term loan B, and an incremental performance letter of credit facility in an aggregate amount of \$500 million available solely for the issuance of performance letters of credit. We anticipate that \$1.6 billion of the term loan B facility under the commitment letter will be replaced by issuance of \$800 million in 8-year senior notes, and \$800 million in 10-year senior notes. The proceeds from the debt financing will be used by us to, among other things, fund all or a portion of the cash consideration to be paid in the merger, to refinance existing indebtedness of URS and its subsidiaries and certain existing indebtedness of us and our subsidiaries and to pay transaction related fees and expenses.

In the event that the debt financing contemplated by the commitment letter is not available, other financing may not be available on acceptable terms, in a timely manner or at all. If other financing becomes necessary and we are unable to secure such additional financing, the merger may not be completed and we may be required to pay a termination fee of \$240 million to URS. Completion of the merger is not subject to a financing condition.

We expect to incur substantial additional indebtedness to finance the merger, which may decrease our business flexibility after the merger and adversely affect our financial results.

We expect to incur additional debt of approximately \$4.2 billion to finance the cash portion of the merger consideration and to refinance certain existing URS debt obligations of approximately \$1.6 billion, which will result in the combined company having total debt obligations of approximately \$5.2 billion following the completion of the merger. The financial and other covenants to which we have agreed or may agree in connection with the incurrence of such debt, and our increased indebtedness in comparison to that of us on a recent historical basis may have the effect, among other things, of reducing our flexibility to respond to changing business and economic conditions, thereby making us more vulnerable to general adverse economic and industry conditions. The increased indebtedness will also increase borrowing costs and the covenants pertaining thereto may also limit our ability to obtain additional financing to fund working capital, capital expenditures, additional acquisitions or general corporate requirements. We will also be required to dedicate a larger portion of its cash flow from operations to payments on its indebtedness, thereby reducing the availability of its cash flow for other purposes, including working capital, capital expenditures and general corporate purposes.

In addition, the terms and conditions of the indebtedness incurred to finance the merger may not be favorable to us, and as such, could further increase the cost of the merger, as well as the overall burden of such debt upon us and our business flexibility. It is anticipated that the debt financing will be secured, whereas our and URS's current debt facilities are unsecured. Further, if any portion of our borrowings is at variable rates of interest, we will be exposed to the risk of increased interest rates. Although we and URS expect that the combined company will use appropriate hedging strategies to manage this risk and that the combined company will generate significant cash flows that will be used to reduce the combined company's level of indebtedness, we and URS cannot provide assurance that its hedging strategies will be successful in managing the combined company's interest rate related risks or that the combined company will generate the level of cash flows required to reduce its

outstanding indebtedness. Any of the foregoing consequences could adversely affect our financial results.

In addition, following the merger, AECOM likely will be subject to many of the risks described in URS's Annual Report on Form 10-K for the fiscal year ended January 3, 2014, as updated by URS's subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, all of which are filed with the SEC.

Item 2. Unregistered Sales of Equity Securities, Use of Proceeds and Issuer Purchases of Equity Securities

Stock Repurchase Program

In August 2011, the Board of Directors initially authorized a stock repurchase program (Repurchase Program), pursuant to which we could purchase our common stock, which was subsequently increased. The dollar value capacity of the Repurchase Program was authorized as follows:

Authorization Date	Increase in the Dollar Value Capacity	Maximum Dollar Value Capacity at the Authorization Date
	(amounts in millions)	
August 2011	\$ 200.0	\$ 200.0
August 2012	\$ 300.0	\$ 500.0
January 2013	\$ 500.0	\$ 1,000.0

Table of Contents

Share repurchases under this program can be made through open market purchases, unsolicited or solicited privately negotiated transactions or other methods, including pursuant to a Rule 10b5-1 plan. The timing, nature and amount of purchases depended on a variety of factors, including market conditions and the volume limit defined by Rule 10b-18. Repurchased shares are retired, but remain authorized for registration and issuance in the future.

No shares were repurchased during the three months ended June 30, 2014.
