EXPLANATORY NOTE

Diageo plc (Diageo) is furnishing this report on Form 6-K to provide restated financial statements as of and for the three years ended 30 June 2014, which supersede in their entirety the financial statements included in Diageo s Annual Report on Form 20-F for the financial year ended 30 June 2014 (the 2014 Form 20-F), and update certain other business and financial information included in the 2014 Form 20-F, in each case to reflect a change in Diageo s reporting segments in the six months ended 31 December 2014.

In the six months ended 31 December 2014, Diageo changed its internal reporting structure to reflect changes made to management responsibilities. The proposed changes to Diageo s Executive Committee were described in Diageo s report on Form 6-K furnished on 8 August 2014. As a result of these changes, Diageo now reports the following geographical segments both for management reporting purposes and in its external financial statements: North America; Europe; Africa; Latin America and Caribbean; Asia Pacific; and Corporate. Diageo has updated the following applicable items that were contained in the 2014 Form 20-F reflecting the above mentioned changes:

- Strategic report Business description Our structure

There is no change to Diageo s previously reported consolidated income statement, consolidated statement of comprehensive income, consolidated balance sheet, consolidated statement of changes in equity and consolidated statement of cash flows included in the 2014 Form 20-F. Other than the items listed above, Diageo is not updating any other portion of the 2014 Form 20-F previously filed and this document should be read in conjunction with the 2014 Form 20-F. This report on Form 6-K does not reflect any events occurring after filing of the 2014 Form 20-F on 12 August 2014. For significant developments since the filing of the 2014 Form 20-F on 12 August 2014, please refer to Diageo s subsequent furnished or filed reports on Form 6-K.

Diageo began to report comparative results reflecting the above mentioned changes in the report on Form 6-K furnished on 29 January 2015 for Diageo s interim results for the six months ended 31 December 2014. By virtue of this report on Form 6-K, Diageo will be able to incorporate the updated information by reference into future registration statements or post-effective amendments to existing registration statements.

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements. These statements can be identified by the fact that they do not relate only to historical or current facts. In particular, forward-looking statements include all statements that express forecasts, expectations, plans, outlook and projections with respect to future matters, including trends in results of operations, margins, growth rates, overall market trends, the impact of changes in interest or exchange rates, the availability or cost of financing to Diageo, anticipated cost savings or synergies, expected investments, the completion of Diageo s strategic transactions and restructuring programmes, anticipated tax rates, expected cash payments, outcomes of litigation, anticipated deficit reductions in relation to pension schemes and general economic conditions. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements, including factors that are outside Diageo s control.

These factors include, but are not limited to:

- changes in political or economic conditions in countries and markets in which Diageo operates, including changes in levels of consumer spending, failure of customer, supplier and financial counterparties or imposition of import, investment or currency restrictions;
- changes in consumer preferences and tastes, demographic trends or perceptions about health related issues, or contamination, counterfeiting or other circumstances which could harm the integrity or sales of Diageo s brands;
- developments in any litigation or other similar proceedings (including with tax, customs and other regulatory authorities) directed at the drinks and spirits industry generally or at Diageo in particular, or the impact of a product recall or product liability claim on Diageo s profitability or reputation;
- the effects of climate change and regulations and other measures to address climate change including any resulting impact on the cost and supply of water;
- changes in the cost or supply of raw materials, labour and/or energy;
- legal and regulatory developments, including changes in regulations regarding production, product liability, distribution, importation, labelling, packaging, consumption or advertising; changes in tax law, rates or requirements (including with respect to the impact of excise tax increases) or accounting standards; and changes in environmental laws, health regulations and the laws governing labour and pensions;
- the costs associated with monitoring and maintaining compliance with anti-corruption and other laws and regulations, and the costs associated with investigating alleged breaches of internal policies, laws or regulations, whether initiated internally or by external regulators, and any penalties or fines imposed as a result of any breaches;
- ability to maintain Diageo s brand image and corporate reputation, and exposure to adverse publicity, whether or not justified, and any resulting impacts on Diageo s reputation and the likelihood that consumers choose products offered by Diageo s competitors;
- increased competitive product and pricing pressures and unanticipated actions by competitors that could impact Diageo s market share, increase expenses and hinder growth potential;
- the effects of Diageo s strategic focus on premium drinks, the effects of business combinations, partnerships, acquisitions or disposals, existing or future, and the ability to realise expected synergies and/or costs savings;
- Diageo s ability to complete existing or future business combinations, restructuring programmes, acquisitions and disposals;

- contamination, counterfeiting or other events that could adversely affect the perception of Diageo s brands;
- increased costs or shortages of talent;
- disruption to production facilities or business service centres, and systems change programmes, existing or future, and the ability to derive expected benefits from such programmes;
- changes in financial and equity markets, including significant interest rate and foreign currency exchange rate fluctuations and changes in the cost of capital, which may reduce or eliminate Diageo s access to or increase the cost of financing or which may affect Diageo s financial results and movements to the value of Diageo s pension funds;
- renewal of supply, distribution, manufacturing or licence agreements (or related rights) and licences on favourable terms when they expire;
- technological developments that may affect the distribution of products or impede Diageo s ability to protect its intellectual property rights.

All oral and written forward-looking statements made on or after the date of this document and attributable to Diageo are expressly qualified in their entirety by the above factors and the Risk factors contained in the 2014 Form 20-F filed with the US Securities and Exchange Commission (the SEC). Any forward-looking statements made by or on behalf of Diageo speak only as of the date they are made. Diageo does not undertake to update forward-looking statements to reflect any changes in Diageo s expectations with regard thereto or any changes in events, conditions or circumstances on which any such statement is based. The reader should, however, consult any additional disclosures that Diageo may make in any documents which it publishes and/or files with the SEC. All readers, wherever located, should take note of these disclosures.

Operating results 2014 compared with 2013

GROUP FINANCIAL REVIEW

This year was tougher than anticipated with mixed regional performance as North America delivered top-line growth and significant margin expansion; Western Europe was stable and performance in emerging markets reflected economic weakness and market specific challenges. Despite this tougher environment we have gained share in a number of markets, invested for the future, expanded margins and simplified the organisation.

Deirdre Mahlan,

Chief Financial Officer

HIGHLIGHTS OF THE YEAR

- Net sales, up 0.4%, reflecting mixed performance; growth in North America, stability in Western Europe and weakness in emerging market economies.
- Fourth quarter net sales up 0.8%.
- Positive consumer trends in higher priced categories, Diageo s reserve brands net sales were up 14% and targeted price increases drove 3ppt of positive price/mix.
- Operating margin improved 0.8ppt.
- Procurement driven savings, worth 4% of total marketing spend, more than offset the cost of increased activity, contributing 0.2ppt of the total margin improvement.
- Eps before exceptionals was down 7.6p to 95.5 pence per share as foreign exchange movements reduced eps by 10 pence per share.
- Free cash flow was £1,235 million.
- Recommended final dividend of 32.0 pence per share, up 9%.

The reduction in net operating charges primarily comprised lower costs in respect of global functions. For the reconciliation of reported to organic results, see pages 20-21.

EUROPE

Diageo is the largest premium drinks business in Western Europe. Consumer marketing programmes are developed at a market level to drive consistency, efficiency and scale across all countries. In Russia and Eastern Europe we are driving our premium core and reserve portfolio, whilst in Turkey, Diageo continues to focus its mainstream route to consumer presence to drive accelerated growth in international premium spirits.

Our markets

Europe comprises Western Europe, Russia and Eastern Europe and Turkey. Western Europe is managed as a single market with country teams focusing on sales and customer marketing execution. This market comprises Great Britain, Ireland, Iberia, France, Germany, Benelux, Italy, Nordics, Greece, Switzerland, Austria, Diageo Guinness Continental Europe beer business and European wines.

Route to market

In Great Britain we sell and market our products through three business units: Diageo GB (spirits, beer and ready-to-drink); Percy Fox & Co (wines); and Justerini & Brooks Retail (private client wines). Products are distributed both through independent wholesalers and directly to retailers. In the on trade, products are sold through major brewers, multiple retail groups and smaller regional independent brewers and wholesalers.

In both the Republic of Ireland and Northern Ireland, Diageo sells and distributes directly to both the on trade and the off trade through a telesales operation, sales calls to outlets and third-party logistics providers.

Across the remainder of Western Europe, we distribute our spirits brands primarily through our own distribution companies, except for France where products are sold through a joint venture arrangement with Moët Hennessy. In Norway and Sweden, off trade sales are controlled by state monopolies, with alcohol tax rates among the highest in the world.

Diageo Guinness Continental Europe, a specialist unit, distributes our beer brands in mainland Europe, focusing particularly in Germany, Russia and France, which for us are the largest mainland European beer markets by net sales.

Russia and Eastern Europe comprises the principal markets of Russia and Poland, where we operate through wholly-owned subsidiaries and use third party distributors for other Eastern Europe countries.

In Turkey, we sell our products via the distribution network of our wholly-owned subsidiary, Mey İçki distributes both local brands (raki, other spirits and wine), which are produced in its distilleries and wineries, and Diageo s global spirits brands.

Supply operations

The International Supply Centre (ISC) comprises the supply operations in the United Kingdom, Ireland and Italy and distils, brews, matures and packages product for other Diageo companies throughout the world. The group owns 29 whisky distilleries in Scotland, an Irish whiskey distillery and a Dublin based beer brewery. The ISC ships whisk(e)y, vodka, gin, rum, beer, wine and other spirit-based drinks in a combination of bottles, cans, kegs and pouches to over 180 countries. In 2012, we announced a £1billion investment in Scotch whisky production and inventory.

To date we have focused on expanding malt distillation capacity across Scotland at existing sites and developed a major new warehousing site to mature our inventory investment. The investment program has generated additional employment and benefited local communities. We are also planning to build a new malt whisky distillery in Scotland. A brewing rationalisation programme will be completed in 2015.

Raki and vodka are produced in Turkey at a number of sites, and we produce Smirnov vodka in Russia.

Performance

Western Europe still has weak economies and fragile consumer confidence but there has been steady improvement and our business has stabilised year on year, gaining share of spirits. There was modest growth in Great Britain, Benelux, France and the Nordics which counter-balanced the slowing declines in Southern Europe and Ireland. Germany was weaker due to higher trade investment and an increasingly price competitive off trade. Marketing was targeted more effectively, and we kept our investment as a percentage of net sales flat while prioritising higher growth and margin brands. We have focused on fewer, bigger pan-regional innovation launches with Baileys Chocolat Luxe, Smirnoff Gold, frozen pouches and premix, and our reserve business was strong with net sales up 15% driven by the scotch malts, Cîroc, Zacapa and Johnnie Walker. Operating margin expansion of nearly 20bps was driven by product optimisation and reductions in warehousing and logistic costs. Our route to consumer programme focused on efficiency, effectiveness and expansion, increasing the focus of our sales people, improving their capabilities and putting more feet on the street, which has given us a strong platform as we move into next year. Net sales growth in Russia and Eastern Europe slowed this year to 2%. Following a much improved performance in the second half, net sales for Turkey grew 5%.

Key highlights

^{**} Spirits brands excluding ready to drink.

- In **Great Britain,** in a relatively flat beverage alcohol market, net sales were up 2%. Baileys delivered a strong performance with top line growth of 8% on the back of a new advertising campaign and the launch of Chocolat Luxe which was one of the top five spirits sold on Amazon over the week of Christmas. Captain Morgan and Cîroc also performed well. Bell s was weaker as it faced increasingly intense price pressure. Smirnoff net sales declined 3% given the weak vodka category but it gained volume share supported by the Great Drinks Made Easy with Smirnoff campaign and the launch of Smirnoff Gold. Ready to drink was up double digit led by the success of premix, providing popular brands, such as Diageo s Gordon s and Pimm s in more convenient formats.
- Following a significant increase in excise duties in the first half of the year, the market in **Ireland** remained challenging and net sales declined 4%. Spirits were impacted and net sales were down double digit. Roughly half of the decline was driven by weakness in agency beer brands. Guinness net sales declined 3%, but brand equity improved with the launch on television and YouTube of the Basketball campaign, and the launch of an on trade footfall driver, the GUINNESS Plus app which provides consumers with in outlet experiences and discounts.

- In **Southern Europe**, which now represents 16% of Western Europe, net sales declined 3%. Greece and Italy net sales were down 7% and 5% respectively, as economic weakness continued to weigh on scotch and Smirnoff performance in both countries, and on Baileys performance in Italy. In Iberia the net sales decline moderated to 1%. Scotch net sales declined 8% as J B was impacted by an increasingly price competitive off trade environment but the brand gained share in the second half of the year. This was partly offset by the performance of Tanqueray which was up 14% on the back of a double digit increase in media spend and Baileys, which was up 2%. Increased investment in the Spanish route to consumer was partially offset by cost saving initiatives.
- In **France**, in an environment of intensified price competition amongst major off trade retailers, net sales grew 1%. The strong performance of scotch malts, which were up 7% led by The Singleton, Cardhu and Talisker, and of Captain Morgan where net sales more than doubled, offset weakness in J B.
- In **Germany**, following a number of years of double digit growth which has built Captain Morgan to be Diageo s second biggest brand, performance was weaker this year as Baileys and Smirnoff continued to decline.
- Net sales in **wine** declined 2%, with innovations on Blossom Hill and strong growth of [yellow tail] partially offsetting soft Bordeaux En Primeur performance and the decision to exit unprofitable sales channels and distribution agreements.
- In **Russia** net sales grew 4%. While performance was impacted by reduced consumer confidence and higher excise taxes, Diageo grew share in whisk(e)y with growth of White Horse and double digit growth of Bushmills and Bell s and in rum with strong growth of Captain Morgan.
- The impact of the crisis in Ukraine offset high single digit growth in the rest of Diageo s distributor markets in Eastern Europe. In Poland we retained leadership of the scotch category in softer than expected market conditions.
- In **Turkey** following two years of decline, the raki category volume is stabilising and through price increases and premiumisation, the business s raki net sales grew low single digit and contributed significantly to the markets positive price/mix. The scotch market has continued to show solid growth and scotch net sales grew double digit led by Johnnie Walker on the back of increased distribution and visibility in the off trade. Vodka net sales grew in the second half and recovered to flat for the full year with festivals and the new Apple Bite serve driving share gains and growth of Smirnoff.
- Marketing spend in Western Europe as a percentage of net sales was held at 15%. Spend in premium core, innovation and reserve were prioritised over lower margin local brands. In Russia and Eastern Europe and in Turkey, in response to marketing restrictions, investment was increasingly focused on commercial activations, driving improved visibility across trade channels, supporting new serves and bartender programmes to build brands.

AFRICA

In Africa our strategy is to grow Diageo s leadership across beer and spirits by providing brand choice across a broad range of consumer motivations, profiles, and occasions. We are focused on growing beer faster than the market and accelerating the growth of spirits through continued investment in infrastructure and brands.

Our markets

The region comprises Nigeria, East Africa (Kenya, Tanzania, Uganda, Burundi, Rwanda and South Sudan), Africa Regional Markets (including Ghana, Cameroon, Ethiopia, Angola and Mozambique) and South Africa.

Route to market

In Africa our largest businesses are in Nigeria, where we own 54.3% of a listed company whose principal brands are Guinness, Harp and Malta, and in East Africa, where we own 50.03% of East African Breweries Limited (EABL). EABL produces and distributes beer and spirits brands to a range of consumers in Kenya and Uganda, and has a 51% equity interest in Serengeti Breweries Limited, Tanzania. Within Africa Regional Markets, we have wholly-owned subsidiaries in Cameroon, Ethiopia, Mozambique and Reunion and majority-owned subsidiaries in Ghana and the Seychelles. Angola is supplied via a third-party distributor. In South Africa we sell spirits through a wholly-owned subsidiary and our beer, cider and ready-to-drink products through our 42.25% stake in DHN Ltd, a joint venture with Heineken and Namibia Breweries Ltd. In addition, we own a 50% equity stake in United National Breweries, a sorghum beer business. Diageo has brewing arrangements with the Castel Group to license, brew and distribute Guinness in the Democratic Republic of Congo, Gambia, Gabon, Ivory Coast, Togo, Benin, Burkina Faso, Chad, Mali and Guinea. Diageo sells spirits through distributors in most other sub-Saharan countries.

Supply operations

We have 14 breweries in Africa, including our 25% stake in Sedibeng in South Africa.

In addition, our beer and spirits brands are produced by third-parties under licence in 20 other African countries. We also own six manufacturing facilities including glass, blending, malting and cider plants.

Performance

In a tough year and despite facing significant challenges, net sales were flat as the region responded to the specific market challenges that it faced. In Nigeria, where beer performance was weak, we adjusted prices and increased our presence in the growing value segment. Innovation was a key enabler for responding to changing consumer trends through new formats and brands and the region delivered the highest growth rate for innovation through the success of brands such as Snapp in Nigeria, Jebel in Kenya, Smirnoff Black Ice in Cameroon and Ghana. We have expanded our route to consumer, revitalised the Guinness brand across its key markets in Africa and reserve brands grew 34%. Under recovery of fixed costs in supply due to lower beer volumes and cost and salary inflation drove an overall reduction in organic operating margin, although significant procurement and supply chain savings partly mitigated this impact.

Key highlights

• Nigeria net sales declined 9% for the full year driven by beer, while spirits and ready to drink grew double digit. The beer market has become more price competitive, significantly impacting Harp, which lost share and some distribution. Although pricing was adjusted in the third quarter this was not fully passed through to consumers. Malta performance was similarly impacted by increased competition and pricing pressure. Despite these challenges, performance slightly improved in the second half, driven by growth of Guinness following reinvigoration of the brand, including a new pack, media campaign and trade promotion and the launch of Orijin, a new local spirit and ready to drink brand, which sold over 100k cases of the spirit format in the year.

- East Africa s net sales grew and price increases taken across the beer portfolio led to strong price/mix. For the market s two largest beer brands, Guinness and Tusker, double digit growth was driven by price increases, supported by increased investment behind strong marketing campaigns. Innovations such as Jebel and Senator Dark Extra, targeted at providing value for money offering to consumers, have driven growth. Balozi lager, launched last year and priced just below mainstream beer, has also contributed to growth. This strong performance was partly offset by Senator keg in Kenya where the brand declined around 80% post the duty change.
- In Africa Regional Markets, net sales grew 2% with growth of beer partly offset by the decline in spirits largely as a result of distributor changes in Angola. Growth was led by Malta both in its existing markets, aided by a new pack, as well as its launch in Ethiopia, the growth of Meta in Ethiopia and the launch of Harp Premium and the recovery of Guinness in Cameroon. Following the changes in Angola, while spirits shipments declined overall, depletions and share continued to grow and performance improved in the second half.
- South Africa. Despite softness in the economy, share gains and price increases resulted in spirits net sales growth of 2%. Johnnie Walker grew double digit with growth across price segments supported by the King of Flavours campaign and trade activation. This growth was partly offset by the decline of Smirnoff 1818 due to reduced inventory levels, although depletions and share of spirits grew and performance improved in the second half. South Africa s strong net sales performance includes the sale of Smirnoff Ice Double Black & Guarana at cost to Diageo Heineken Namibia Drinks (DHN Drinks) to cover demand in excess of supply capacity following the strong performance of the brand. This capacity shortage has now been resolved.
- Marketing spend increased 3%, benefiting from procurement efficiencies.

^{**} Including Corporate. Corporate net sales were £76 million in the year ended 30 June 2013, up £6 million compared to last year. Corporate net operating charges were £151 million in the year ended 30 June 2013 having been £167 million in the year ended 30 June 2012. The reduction comprised, a £10 million decrease in corporate costs, primarily due to a reduction in acquisition costs and a £6 million favourable exchange rate movement.

Business review (continued) **EUROPE** Key highlights In the stronger economies of Germany, Austria, and Benelux double digit net sales growth was delivered. Germany and Austria maintained strong momentum on the back of increased marketing investment and expansion of the sales force in the off trade. Captain Morgan and Smirnoff both grew volume and share while net sales of Mey İcki brands in Germany, the largest export market for raki, grew following increased marketing. In Great Britain, innovation and growth of reserve brands offset the impact of a weaker beer market. Innovations included Pimm s Blackberry & Elderflower and a further range extension of pre-mix cans. Growth in reserve was driven by the introduction of Cîroc. Guinness net sales declined 3%, however in the last quarter Guinness gained share as a result of increased marketing investment. In Ireland, the beer market contracted across all channels due to the weak economy, and Guinness declined 5%. However, as a result of increased investment, the brand has gained share in the last quarter. Net sales in France declined 8% in a weak trading environment and J B lost share as promotional activity by competitors increased. Iberia, Greece and Italy now represent 3% of Diageo s net sales after a number of years of tough trading. In these Southern European markets, volume declined 13% and net sales declined 16% as deeper austerity measures affected overall consumption and sales mix. J B and Baileys were impacted the most, declining 30% and 18%, respectively. Russia and Eastern Europe delivered 16% net sales growth. Scotch contributed over half of this growth. Johnnie Walker maintained its leadership, posting its biggest share gains in Poland, Bulgaria, and Ukraine. In the standard segment, Bell s and Black&White drove volume growth recruiting emerging middle class consumers into the whisky category. Increased marketing investment was focused behind the strategic brands and innovation, which is one of the key growth drivers in the market. Captain Morgan performed strongly with net sales growth of over 30%, as did Bushmills.

• Turkey net sales were up 8% while volume declined 4% driven by raki category, which was impacted by excise duty increases. Yeni Raki, which remains the most recognised raki brand in Turkey, grew net sales 7% as a result of price increases and better mix. Johnnie Walker and Smirnoff grew net sales double digit and gained share. Johnnie Walker Double Black, Johnnie Walker Gold Label Reserve, Smirnoff Gold, and Cîroc were introduced to widen the range of international brands. Captain Morgan Spiced Gold was introduced to meet the opportunity in

cocktail consumption occasions. Marketing investment grew 12% and supported new brand introductions, as well as Johnnie Walker and Smirnoff.

- Captain Morgan was the best performing brand in Western Europe with 15% net sales growth primarily in Great Britain and Germany driven by higher marketing investment. Reserve continues to show significant growth across Western Europe, with strong growth from the Malts portfolio, while Tanqueray performed well in Great Britain, Benelux, and Germany and gained share in the key gin market of Spain.
- In Western Europe, innovation plays an increasingly important role. Innovation is focused on both sustaining prior year launches, such as Captain Morgan in Germany, and The Singleton in Northern Europe, and on ensuring successful new launches in this year, such as Pimm s Limited Editions, Johnnie Walker Gold Label Reserve, and Johnnie Walker Platinum Label.
- Net sales in **Diageo Wines Europe** declined 10% in the financial year, mainly due to the lapping of very strong En Primeur sales in the previous year, and the decision to exit from some low value wines.

Key highlights

- **Africa** delivered 9% net sales growth, with spirits net sales up 15% and beer net sales up 5% and therefore spirits have driven 41% of the region s net sales growth. Volume in the region was up 4% despite a challenging beer market. Ready to drink net sales grew 28%.
- Nigeria proved to be a challenging market as consumer confidence was negatively impacted by low government spending and the beer market continued to decline. Volume decreased 1%, however, net sales grew 5% as a result of 52% net sales growth in spirits and price/mix in beer. Beer volume decreased 4%, largely due to Harp and Guinness, however Diageo s beer business delivered net sales growth of 1% as the beer route to market was reinforced through investment in Guinness distribution network, and an increased sales force. Malta Guinness delivered 15% net sales growth following the introduction of Malta Guinness Low Sugar last year, price increases, and marketing investment. In spirits, Johnnie Walker net sales grew 63% and Baileys net sales were up 30%, as a result of increased distribution and marketing investment. Johnnie Walker spend was focused behind outdoor advertising, the Keep Walking campaign, and event sponsorship while Baileys increased visibility and promotions, coupled with a new bottle launch. Snapp, an apple flavoured ready to drink, targeting the female audience, performed well, benefiting from marketing support, strong distribution and launch events.
- East Africa delivered 10% net sales growth from 3% volume growth. Beer net sales increased by 9%, driven by beer brands in Kenya. Guinness delivered 19% net sales driven by the Made of More advertising campaign, and the Guinness Football Challenge promotion and grew margin as a result of price increases. Tusker net sales were up 13% largely because of favourable price/mix, and volume also grew due to strong marketing support through soccer sponsorships and the It s Our Time campaign. Senator beer net sales grew 9% driven by growth of Senator Keg in Kenya, and the introduction of Senator in Tanzania. There was some weakness in local spirits, however, international spirits performed particularly well with Johnnie Walker and Smirnoff delivering 22% and 24% incremental net sales, respectively. Johnnie Walker s performance was delivered through a mix of growth drivers, including building bar staff capability in premium spirits, educational whisky events for consumers, and on trade activations to promote smaller sized bottles. Key drivers of Smirnoff growth were price increase and geographic mix. Ready to drink net sales were up 48% as Smirnoff Ice and Snapp continued to grow.
- In Africa Regional Markets spirits growth was driven by Johnnie Walker which delivered double digit increases in net sales across all key markets. Beer net sales were driven by price increases in Ghana, Cameroon, and Seychelles. In Ghana, beer benefited from the government s tax concessions on products containing a majority of local raw materials. This helped to offset supply constraints, such as water shortages and increased energy costs. In Cameroon, growing competition from lagers and beer price increases impacted volume. Strong performance of Meta in Ethiopia contributed to total beer net sales growth. Marketing investment was focused behind Johnnie Walker in spirits as well as Ruut Extra in Ghana, Malta Guinness in Cameroon, and Meta beer.
- South Africa delivered a strong performance in spirits driving net sales growth of 17%. Scotch was the largest contributor following national roll out of VAT 69 and J B promotion campaigns. The expansion of the Johnnie Walker Red Label Step Up campaign and the launch of the Keep Walking campaign targeted at emerging middle class consumers drove premiumisation. As a result, Johnnie Walker net sales grew 31% and share increased. In vodka, Smirnoff maintained last year s performance trajectory and grew net sales 19%. As pricing and value are key

to growth of spirits against local beer and brandy, 500ml PET packaging was launched, following the successful introduction of the 200ml PET pack last year. Smirnoff introduced new flavours, Smirnoff Iced Cake and Smirnoff Kissed Caramel.

• Marketing investment in the region was up 13%, mainly driven by significant increases on spirits brands and beer, which grew 8%.

Directors Remuneration Report

Key management personnel related party transactions (audited)

Key management personnel of the group comprises the Executive and Non-Executive Directors, the members of the Executive Committee and the Company Secretary. As previously disclosed, Paul S Walsh has purchased a seasonal development at Gleneagles from a subsidiary of the company, Gleneagles Resort Developments Limited. The transaction was priced on the same basis as all the external seasonal development transactions and was at arm s length. The value of the transaction at the date of purchase was £43,000. Paul S Walsh continued to hold this seasonal development at 19 September 2013.

Diageo plc has granted rolling indemnities to the Directors and the Company Secretary, uncapped in amount, in relation to certain losses and liabilities which they may incur in the course of acting as Directors or Company Secretary (as applicable) of Diageo plc or of one or more of its subsidiaries. These indemnities continue to be in place at 30 June 2014.

Other than disclosed in this report, no Director had any interest, beneficial or non-beneficial, in the share capital of the company. Save as disclosed above, no Director has or has had any interest in any transaction which is or was unusual in its nature, or which is or was significant to the business of the group and which was effected by any member of the group during the financial year, or which having been effected during an earlier financial year, remains in any respect outstanding or unperformed. There have been no material transactions during the last three years to which any Director or officer, or 3% or greater shareholder, or any spouse or dependent thereof, was a party. There is no significant outstanding indebtedness to the company from any Directors or officer or 3% or greater shareholder.

Financial statements

Diageo plc:

Reports of independent registered public accounting firms
The Board of Directors and Stockholders

We have audited the accompanying consolidated balance sheet of Diageo plc and subsidiaries as of 30 June 2014, and the related consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended on pages 30 to 87, including the disclosures identified as part of the audited financial statements within the section. Share and other interests on page 26, and the section. Key management personnel related party transactions on page 27. These consolidated financial statements are the responsibility of Diageo plc s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Diageo plc and subsidiaries as of 30 June 2014, and the results of their operations and their cash flows for the year then ended, in conformity with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board and IFRS as adopted by the European Union.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Diageo plc s internal control over financial reporting as of 30 June 2014, based on criteria established in *Internal Control Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated 30 July 2014 expressed an unqualified opinion on the effectiveness of the company s internal control over financial reporting.
