NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2015

1. Basis of Presentation

Principles of Consolidation

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) for interim financial information and with the instructions of Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments, consisting only of normal recurring adjustments necessary for a fair presentation with respect to the interim financial statements, have been included. The results of operations for the nine months ended September 30, 2015 are not necessarily indicative of the results for the full year ending December 31, 2015. These financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto for the year ended December 31, 2014, included in Reliance Steel & Aluminum Co. s (Reliance , the Company , we , our or us) Annual Report on Form 10-K.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts and the disclosure of contingent amounts in our consolidated financial statements and the accompanying notes. Actual results could differ from those estimates.

Our consolidated financial statements include the assets, liabilities and operating results of majority-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated. The ownership of the other interest holders of consolidated subsidiaries is reflected as noncontrolling interests. Our investments in unconsolidated subsidiaries are recorded under the equity method of accounting.

2. Impact of Recently Issued Accounting Guidance

Impact of Recently Issued Accounting Standards Adopted

Simplifying the Presentation of Debt Issuance Costs In April 2015, the Financial Accounting Standards Board (FASB) issued accounting changes, which simplify the presentation of debt issuance costs. The guidance requires debt issuance costs related to a recognized debt liability to be presented in the balance sheet as a direct deduction from the carrying amount of the related debt liability, consistent with the presentation of debt discounts. The guidance is to be applied

retrospectively to all prior periods presented in the financial statements. We adopted these accounting changes on April 1, 2015, which resulted in a \$14.2 million reduction of our Intangible assets, net and Long-term debt at December 31, 2014.

Impact of Recently Issued Accounting Standards Not Yet Adopted

Simplifying the Measurement of Inventory In July 2015, the FASB issued accounting changes, which simplifies the subsequent measurement of inventory by requiring inventory to be measured at the lower of cost and net realizable value. Net realizable value is defined as the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. The new guidance is not applicable for inventory measured under the LIFO method or the retail inventory method. The guidance will be effective for fiscal years beginning after December 15, 2016 with early adoption permitted. We do not expect this standard will have a material impact on our consolidated financial statements.

Revenue from Contracts with Customers In May 2014, the FASB issued accounting changes, which replace most of the detailed guidance on revenue recognition that currently exists under U.S. GAAP. Under the new guidance, an entity should recognize revenue in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance will be effective for fiscal years beginning after December 15, 2017. Early adoption is permitted for fiscal years beginning after December 15, 2016. We are evaluating the new standard, but do not expect this standard will have a material impact on our consolidated financial statements.

3. Acquisitions

2014 Acquisitions

On December 1, 2014, we acquired Fox Metals and Alloys, Inc. (Fox), a Houston, Texas-based steel distributor specializing in alloy, carbon and stainless steel bar and plate products, primarily servicing OEMs and machine shops that manufacture or support the manufacturing of equipment for the oil, gas and petrochemical industries. Fox's in-house processing services include saw cutting, plate burning and testing. Net sales of Fox for the nine months ended September 30, 2015 were \$18.8 million.

On August 1, 2014, we acquired Aluminium Services UK Limited, the parent holding company of All Metal Services (AMS). AMS provides comprehensive materials management solutions to aerospace and defense OEMs and their subcontractors on a global basis, supporting customers in more than 40 countries worldwide. AMS offers a broad range of aerospace metals including aluminum, stainless, steel, titanium, nickel alloys and aluminum bronze, offering full or cut to size materials. AMS also offers in-house machining and water-jet cutting for more complex requirements. AMS has eight locations in four countries including China, France, Malaysia, and the United Kingdom. Net sales of AMS for the nine months ended September 30, 2015 were \$196.5 million.

On August 1, 2014, we acquired Northern Illinois Steel Supply Co. (NIS), a value-added distributor and fabricator of a variety of steel and non-ferrous metal products, primarily structural steel components and parts, located in Channahon, Illinois. Net sales of NIS for the nine months ended September 30, 2015 were \$14.5 million.

We funded these acquisitions with borrowings on our revolving credit facility and cash on hand.

The preliminary allocation of the total purchase price of our 2014 acquisitions to the fair values of the assets acquired and liabilities assumed was as follows:

	(in millions)	
Cash	\$	1.6
Accounts receivable		67.1
Inventories		89.2
Property, plant and equipment		23.4
Goodwill		51.3

Edgar Filing: RELIANCE STEEL & ALUMINUM CO - Form 10-Q

Intangible assets subject to amortization		37.5
Intangible assets not subject to amortization		39.0
Other current and long-term assets		1.5
Total assets acquired		310.6
Deferred taxes		9.0
Current and long-term debt		39.2
Other current and long-term liabilities		53.1
Total liabilities assumed		101.3
Net assets acquired	\$	209.3

Purchase price allocations

All of the acquisitions discussed in this note have been accounted for under the acquisition method of accounting and, accordingly, the respective purchase price has been allocated to the assets acquired and liabilities assumed based on their estimated fair values at the date of each acquisition. The accompanying consolidated statements of income include the revenues and expenses of each acquisition since its respective acquisition date. The consolidated balance sheets reflect the allocation of each acquisition's purchase price as of September 30, 2015 and December 31, 2014. The purchase price allocation for the 2014 acquisition of Fox is preliminary and is pending the completion of various pre-acquisition period income tax returns. The measurement periods for purchase price allocations do not exceed 12 months from the acquisition date.

Unsecured Credit Facility

On April 4, 2013, we entered into a syndicated Third Amended and Restated Credit Agreement with 26 banks as lenders (Credit Agreement). The Credit Agreement amended and restated our existing \$1.5 billion unsecured revolving credit facility and provided for a \$500.0 million term loan and an option to increase the revolving credit facility for up to \$500.0 million at our request, subject to approval of the lenders and certain other conditions. The term loan due April 4, 2018 amortizes in quarterly installments, with an annual amortization of 10% until March 2018, with the balance to be paid at maturity. Interest on borrowings from the revolving credit facility and term loan during the three-month period ended September 30, 2015 was at variable rates based on LIBOR plus 1.25% or the bank prime rate plus 0.25% and included a commitment fee at an annual rate of 0.20% on the unused portion of the revolving credit facility. The applicable margins over LIBOR rate and base rate borrowings, along with commitment fees, are subject to adjustment every quarter based on our leverage ratio, as defined in the Credit Agreement.

Weighted average interest rates on borrowings outstanding on the revolving credit facility and term loan were 1.44% and 1.42% as of September 30, 2015 and December 31, 2014, respectively. As of September 30, 2015, we had \$489.0 million of outstanding borrowings, \$58.8 million of letters of credit issued and \$952.2 million available on the revolving credit facility.

Senior Unsecured Notes

Edgar Filing: RELIANCE STEEL & ALUMINUM CO - Form 10-Q

On November 20, 2006, we entered into an indenture (the 2006 Indenture), for the issuance of \$600.0 million of unsecured debt securities. The total debt issued was comprised of two tranches, (a) \$350.0 million aggregate principal amount of senior unsecured notes bearing interest at the rate of 6.20% per annum, maturing on November 15, 2016 and (b) \$250.0 million aggregate principal amount of senior unsecured notes bearing interest at the rate of 6.85% per annum, maturing on November 15, 2036.

On April 12, 2013, we entered into an indenture (the 2013 Indenture and, together with the 2006 Indenture, the Indentures), for the issuance of \$500.0 million aggregate principal amount of senior unsecured notes at the rate of 4.50% per annum, maturing on April 15, 2023. The net proceeds from the issuance of these notes were used to partially fund the acquisition of Metals USA Holdings Corp. (Metals USA).

Under the Indentures, the notes are senior unsecured obligations and rank equally in right of payment with all of our existing and future unsecured and unsubordinated obligations. The notes are guaranteed by certain of our 100%-owned domestic subsidiaries that guarantee our revolving credit facility. The senior unsecured notes include provisions that require us to make an offer to repurchase the notes at a price equal to 101% of their principal amount plus accrued and unpaid interest in the event of both a change in control and a downgrade of our credit rating.

Other Notes and Revolving Credit Facilities

Other revolving credit facilities with a combined credit limit of approximately \$77.9 million are in place for operations in Asia and Europe with combined outstanding balances of \$57.5 million and \$48.3 million as of September 30, 2015 and December 31, 2014, respectively.

In connection with our acquisition of Metals USA, we assumed industrial revenue bonds with combined outstanding balances of \$11.2 million and \$11.5 million as of September 30, 2015 and December 31, 2014, respectively, and maturities through 2027. Additionally, we assumed mortgage obligations pursuant to our acquisition of a portfolio of real estate properties that we were leasing, which have outstanding balances of \$40.8 million and \$41.8 million as of September 30, 2015 and December 31, 2014, respectively. The mortgages, which are secured by the underlying properties, have a fixed interest rate of 6.40% and scheduled amortization payments with a lump sum payment of \$39.2 million due October 2016.

Covenants

The Credit Agreement requires us to maintain an interest coverage ratio and a maximum leverage ratio, among other things.

Our obligations under the Credit Agreement and Indentures are required to be guaranteed by certain of our 100%-owned domestic subsidiaries. The subsidiary guarantors, together with Reliance, are required to collectively account for at least 80% of our consolidated EBITDA and 80% of consolidated tangible assets.

We were in compliance with all material covenants in our debt agreements at September 30, 2015.

7. Income Taxes

Our effective income tax rates for the three-month periods ended September 30, 2015 and 2014 were 32.1% and 25.7%, respectively. Our effective income tax rates for the nine-month periods ended September 30, 2015 and 2014 were 32.1% and 32.5%, respectively. Our 2014 three-month period effective income tax rate was favorably impacted by the resolution of certain tax matters. Permanent items that lowered our effective income tax rates from the federal statutory rate were not materially different during both years and relate mainly to company-owned

life insurance policies, domestic production activities deductions and foreign income levels that are taxed at rates lower than the U.S. statutory rate of 35%.

8. Equity

Reincorporation

During the second quarter of 2015, the Company's shareholders approved the reincorporation of the Company from California to Delaware by means of a merger with and into a wholly-owned Delaware subsidiary. The reincorporation did not result in any change in the Company's business, physical location, management, assets, liabilities, net worth or number of authorized shares. In the reincorporation, the Company's Restated Certificate of Incorporation established par value of the Company's common stock and unissued preferred stock of \$0.001 per share.

Common Stock and Share Repurchase Plan

We repurchase shares of our common stock through open market purchases under a plan complying with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended (the Exchange Act). Since initiating the share repurchase plan in 1994 we have purchased approximately 22.1 million shares at an average cost of \$30.93 per share. On October 20, 2015, our Board of Directors amended our share repurchase plan increasing the authorized number of shares available to be repurchased by 7.5 million and extending the program through December 31, 2018. As of October 30, 2015, we had authorization to purchase a total of 8.4 million shares under our existing share repurchase plan. Repurchased and subsequently retired shares are restored to the status of authorized but unissued shares.

Dividends

On October 20, 2015, our Board of Directors declared the 2015 fourth quarter cash dividend of \$0.40 per share. The dividend is payable on December 18, 2015 to stockholders of record as of November 20, 2015.

During the three months ended September 30, 2015, we declared and paid a quarterly dividend of \$0.40 per share, or \$29.3 million in total, compared to a quarterly dividend of \$0.35 per share, or \$27.3 million in total, for the same period in 2014. During the nine months ended September 30, 2015, we declared and paid quarterly dividends of \$1.20 per share, or \$89.7 million in total, compared to quarterly dividends of \$1.05 per share, or \$81.7 million in total, for the same period in 2014. During the nine months ended September 30, 2015, we also paid \$1.0 million in dividend equivalents with respect to vested RSUs.

Stock-Based Compensation

We annually grant time-based and performance-based RSUs, which have both service and performance goal criteria, to officers and key employees that generally have 3-year vesting periods. Additionally, we grant restricted stock to the non-employee members of the Board of

9. Commitments and Contingencies*Environmental Contingencies*

We are currently involved with certain environmental remediation projects related to activities at former manufacturing operations of Earle M. Jorgensen Company (EMJ), our 100%-owned subsidiary, that were sold many years prior to Reliance's acquisition of EMJ in 2006. Although the potential cleanup costs could be significant, EMJ had insurance policies in place at the time they owned the manufacturing operations that have covered costs incurred to-date, and are expected to continue to cover the majority of the remaining costs. We do not expect that these obligations will have a material adverse impact on our consolidated financial position, results of operations or cash flows.

Legal Matters

Edgar Filing: RELIANCE STEEL & ALUMINUM CO - Form 10-Q

From time to time, we are named as a defendant in legal actions. Generally, these actions arise out of our normal course of business. We are not a party to any pending legal proceedings other than routine litigation incidental to the business. We expect that these matters will be resolved without a material adverse effect on our results of operations, financial condition or cash flows. We maintain liability insurance against risks arising out of our ordinary course of business.

11. Impairment of Long-Lived Assets

In the three months and nine months ended September 30, 2015, we recorded a \$53.3 million impairment charge of long-lived assets primarily related to certain of our energy-related businesses as a result of the impact to our businesses from continued low crude oil prices and the resulting decline in the demand for the products we sell to the energy market (oil and gas). This included a charge of \$17.7 million for property, plant, and equipment directly related to the planned closure of certain of our energy-related businesses where we anticipate losses on the disposition of certain assets and an impairment charge of \$35.6 million related to our intangible assets, net due to the loss of customers and lowered expectations of future profitability. The measurement of these assets at fair value was determined using a combination of discounted cash flow techniques for intangible assets and the market approach for property, plant, and equipment.

12. Condensed Consolidating Financial Statements

In November 2006 and April 2013, we issued senior unsecured notes in the aggregate principal amount of \$1.1 billion, at fixed interest rates that are guaranteed by certain of our 100%-owned domestic subsidiaries that also guarantee borrowings under the Credit Agreement. The accompanying consolidating financial information has been prepared and presented pursuant to Rule 3-10 of Regulation S-X *Financial Statements of Guarantors and Issuers of Guaranteed Securities Registered or Being Registered*. The guarantees are full and unconditional and joint and several obligations of each of the guarantor subsidiaries. There are no significant restrictions on our ability to obtain funds from any of the guarantor subsidiaries by dividends or loans. The supplemental consolidating financial information has been presented in lieu of separate financial statements of the guarantors as such separate financial statements are not considered meaningful.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This report contains certain statements that are, or may be deemed to be, forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Our forward-looking statements include discussions of our business strategies and our expectations concerning future operations, margins, profitability, liquidity and capital resources. In some cases, you can identify forward-looking statements by terminology such as may, will, should, could, would, expect, plan, anticipate, believe, estimate, predict, potential and continue, the negative of these terms, and similar expressions. All statements contained in this report, other than statements of historical fact, are forward-looking statements. These forward-looking statements are based on management's estimates, projections and assumptions as of the date of such statements.

Forward-looking statements involve known and unknown risks and uncertainties and are not guarantees of future performance. Actual outcomes and results may differ materially from what is expressed or forecasted in these forward-looking statements as a result of various important factors, including, but not limited to, those disclosed in this report and in other reports we have filed with the Securities and Exchange Commission (the SEC). As a result, these statements speak only as of the date that they were made, and we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by law. Important risks and uncertainties about our business can be found in our Annual Report on Form 10-K for the year ended December 31, 2014 filed with the SEC.

Overview

We achieved solid operational performance in the three-month and nine-month periods ended September 30, 2015 despite significant industry-wide challenges that negatively impacted metals pricing. Our sales for the three-month period ended September 30, 2015 were \$2.29 billion, down 15.5% from \$2.71 billion in the same period in 2014. During the nine-month period ended September 30, 2015, sales were \$7.32 billion, down 7.0% from \$7.87 billion in the same period in 2014.

Our same-store tons sold were down only 4.1% and 2.3% in the three-month and nine-month periods ended September 30, 2015, respectively, compared to the same 2014 periods and compared favorably to the 9.0% and 6.3% shipment declines for the industry reported by the Metals Service Center Institute (MSCI) over these same periods, respectively. Demand was relatively healthy in most of our end markets, with the exception of the energy market (oil and gas) that declined significantly throughout the first nine months of 2015. Our same-store average selling price has decreased sequentially for four quarters in a row largely due to the historically high levels of imports, supported in part by the strength of the U.S. dollar. Our 2015 third quarter same-store average selling price decreased 14.1% from the third quarter of 2014 and decreased 4.6% from the 2015 second quarter.

We exceeded our historical gross profit margin range of 25% to 27% in the 2015 third quarter despite the difficult pricing environment mainly due to our disciplined sales strategy, focus on small, quick-turn orders, value-added processing and effective inventory management. Due to the decline in metals pricing, especially for carbon steel products, our last-in, first-out (LIFO) inventory valuation adjustment, which is included in

Edgar Filing: RELIANCE STEEL & ALUMINUM CO - Form 10-Q

cost of sales and, in effect, reflects cost of sales at current replacement costs, resulted in net LIFO income in the first nine months of 2015, compared to LIFO expense in the comparable 2014 period, which contributed to our gross profit margin increasing to 27.9% in the 2015 third quarter from 25.1% in the 2014 third quarter and 26.8% in the 2015 nine-month period compared to 25.4% in the same 2014 period.

Our S,G&A expense decreased \$44.0 million, or 9.3%, and decreased \$43.0 million, or 3.2%, in the three-month and nine-month periods ended September 30, 2015, respectively, compared to the same periods in 2014. Our S,G&A expense as a percent of sales of 18.8% in the 2015 third quarter and 18.0% in the 2015 nine-month period increased compared to 17.5% and 17.3% in the same 2014 periods, respectively, due to the lower metals pricing environment during the 2015 periods.

Pursuant to our current outlook that oil prices will remain depressed for longer than we had previously anticipated, which has reduced demand and profitability levels for our energy-related businesses, we recorded an impairment of long-lived assets charge of \$53.3 million in the 2015 third quarter. The charge included losses relating to the planned closure of certain locations and the write-down of intangible assets due to the loss of customers and lower

Table of Contents

future earnings expectations for certain of our operations primarily servicing the energy market. Future decreases in oil prices, which could lead to further declines in the demand for the energy-related products we sell could result in further non-cash impairment charges.

Our inventory reduction efforts, combined with declining metals pricing in 2015, decreased our investment in working capital (primarily accounts receivable and inventory), generating significant cash flow from operations of \$716.3 million in the nine-month period ended September 30, 2015, compared to \$162.8 million in the same period in 2014. Our significant first-in, first-out (FIFO) inventory reductions of \$120.5 million in the 2015 third quarter and \$239.8 million in the first nine months of 2015 were a major contributor to our strong 2015 cash flow.

As of September 30, 2015, our net debt-to-total capital ratio was 33.8%, down from 34.9% as of December 31, 2014. We paid down \$106.1 million of debt in the third quarter of 2015 and \$209.1 million in the first nine months of 2015 with our strong cash flow, resulting in significant liquidity as of September 30, 2015, with only \$489.0 million outstanding on our \$1.5 billion revolving credit facility.

We invested \$119.4 million in capital expenditures in the nine months ended September 30, 2015, with the majority related to growth activities. In the nine months ended September 30, 2015, we repurchased \$342.3 million of our common stock, further reflecting our commitment to returning value to our stockholders. On October 20, 2015, our Board of Directors increased the authorized number of shares available to be repurchased by 7.5 million and extended the share repurchase program through December 31, 2018.

2014 Acquisitions

On December 1, 2014, we acquired Fox Metals and Alloys, Inc. (Fox), a Houston, Texas-based steel distributor specializing in alloy, carbon and stainless steel bar and plate products, primarily servicing OEMs and machine shops that manufacture or support the manufacturing of equipment for the oil, gas and petrochemical industries. Fox 's in-house processing services include saw cutting, plate burning and testing. Net sales of Fox for the nine months ended September 30, 2015 were \$18.8 million.

On August 1, 2014, we acquired Aluminium Services UK Limited, the parent holding company of All Metal Services (AMS). AMS provides comprehensive materials management solutions to aerospace and defense OEMs and their subcontractors on a global basis, supporting customers in more than 40 countries worldwide. AMS offers a broad range of aerospace metals including aluminum, steel, stainless, titanium, nickel alloys and aluminum bronze, offering full or cut to size materials. AMS also offers in-house machining and water-jet cutting for more complex requirements. AMS has eight locations in four countries including China, France, Malaysia, and the United Kingdom. Net sales of AMS for the nine months ended September 30, 2015 were \$196.5 million.

On August 1, 2014, we acquired Northern Illinois Steel Supply Co. (NIS), a value-added distributor and fabricator of a variety of steel and non-ferrous metal products, primarily structural steel components and parts, located in Channahon, Illinois. NIS focuses on customers requiring extensive fabrication services and/or critical delivery timelines with a large concentration in the energy and petrochemical sectors. Net sales of NIS for the nine months ended September 30, 2015 were \$14.5 million.

The following table sets forth certain income statement data for the three-month and nine-month periods ended September 30, 2015 and 2014 (dollars are shown in millions and certain amounts may not calculate due to rounding):

Operating income	\$ 101.7	4.4%	\$ 151.3	5.6%	\$ 431.2	5.9%	\$ 481.3	6.1%

(1) Gross profit, calculated as net sales less cost of sales, and gross profit margin, calculated as gross profit divided by net sales, are non-GAAP financial measures as they exclude depreciation and amortization expense associated with the corresponding sales. The majority of our orders are basic distribution with no processing services performed. For the remainder of our sales orders, we perform first-stage processing, which is generally not labor intensive as we are simply cutting the metal to size. Because of this, the amount of related labor and overhead, including depreciation and amortization, is not significant and is excluded from our cost of sales. Therefore, our cost of sales is primarily comprised of the cost of the material we sell. We use gross profit and gross profit margin as shown above as measures of operating performance. Gross profit and gross profit margin are important operating and financial measures, as their fluctuations can have a significant impact on our earnings. Gross profit and gross profit margin, as presented, are not necessarily comparable with similarly titled measures for other companies.

(2) S,G&A includes a \$13.5 million and \$25.0 million non-recurring charge in the three-month and nine-month periods ended September 30, 2014, respectively, related to certain settled litigation.

Edgar Filing: RELIANCE STEEL & ALUMINUM CO - Form 10-Q

(3) Impairment of long-lived assets includes \$17.7 million related to property, plant, and equipment and \$35.6 million related to intangible assets. See *Expenses* for further discussion.

Tons sold and average selling price per ton sold amounts exclude our toll processing sales. Same-store amounts exclude the results of our 2014 acquisitions.

Our consolidated sales and tons sold were down in the three-month and nine-month periods ended September 30, 2015 compared to the same periods in 2014 mainly due to lower metals prices and the continued significant decline in demand in the energy market (oil and gas). For the three-month and nine-month periods ended September 30, 2015, same-store tons sold were down 4.1% and 2.3%, respectively, from the comparable 2014 periods; however, our performance outpaced the industry data reported by the MSCI, which indicated industry shipments were down 9.0% and 6.3%, respectively, during the same periods.

End markets that continued to perform well for us in the three-month and nine-month periods ended September 30, 2015 when compared to the same 2014 periods were automotive, primarily through our toll processing businesses in the U.S. and Mexico, and aerospace. Heavy industry experienced downward pressure, primarily in the agricultural equipment market in the 2015 third quarter. Non-residential construction, our largest end market, continued to improve modestly during the three-month and nine-month periods ended September 30, 2015 albeit at significantly reduced demand levels from its peak in 2006. Sales to the energy market (oil and gas), estimated at approximately 8% to 10% of our total sales, declined significantly during the three-month and nine-month periods ended September 30, 2015 due to weak oil prices leading to reduced drilling activity.

Since we primarily purchase and sell our inventories in the spot market, the changes in our average selling prices generally fluctuate in accordance with changes in the costs of the various metals we purchase. The mix of products sold can also have an impact on our average selling prices.

The most significant challenge in the three-month and nine-month periods ended September 30, 2015 continued to be weaker metals pricing largely due to the historically high levels of imports in the U.S., lower raw material prices, a strong U.S. dollar, and a soft global economy, including a weakening Chinese market, placing significant downward pressure on pricing for many steel products.

Our major commodity selling prices changed year-over-year as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	Average Selling Price per Ton Sold (percentage change)	Same-store Average Selling Price per Ton Sold (percentage change)	Average Selling Price per Ton Sold (percentage change)	Same-store Average Selling Price per Ton Sold (percentage change)
Carbon steel	(14.6)%	(14.7)%	(8.0)%	(8.2)%

Edgar Filing: RELIANCE STEEL & ALUMINUM CO - Form 10-Q

Aluminum	0.1%	(0.9)%	4.2%	0.6%
Stainless steel	(14.7)%	(14.9)%	(4.7)%	(5.0)%
Alloy	(8.7)%	(8.8)%	(4.5)%	(4.9)%

Our acquisition of AMS in August 2014 contributed to changes in our company-wide mix and softened the decline in our overall average selling price as AMS's product mix is more heavily weighted toward heat-treated aluminum products than our overall company-wide mix and heat-treated aluminum products generally have higher selling prices than most of the other products we sell. In the nine months ended September 30, 2015, carbon steel sales decreased to 53% of total sales from 54% in the comparable period and aluminum sales increased to 19% from 15% during this same period.

Table of Contents*Cost of Sales*

	2015		September 30,		2014		Dollar Change	Percentage Change
	\$	% of Net Sales	(dollars in millions)	\$	% of Net Sales			
Cost of sales (three months ended)	\$ 1,647.9	72.1%	\$ 2,026.9	74.9%	\$ (379.0)	(18.7)%		
Cost of sales (nine months ended)	\$ 5,359.4	73.2%	\$ 5,876.2	74.6%	\$ (516.8)	(8.8)%		

The decrease in cost of sales in the three-month and nine-month periods ended September 30, 2015 is mainly due to decreases in our tons sold and a lower average selling price per ton sold. See *Net Sales* above for trends in both demand and costs of our products.

Our LIFO method inventory valuation reserve adjustment, which is included in cost of sales and, in effect, reflects cost of sales at current replacement costs, resulted in credits, or income, of \$35.0 million and \$75.0 million in the three-month and nine-month periods ended September 30, 2015 compared to charges, or expense, of \$20.0 million and \$30.0 million in the same periods of 2014. Lower metal costs in our inventory as of September 30, 2015 as compared to December 31, 2014 resulted in net LIFO income in 2015.

Gross Profit

	2015		September 30,		2014		Dollar Change	Percentage Change
	\$	% of Net Sales	(dollars in millions)	\$	% of Net Sales			
Gross profit (three months ended)	\$ 638.3	27.9%	\$ 678.2	25.1%	\$ (39.9)	(5.9)%		
Gross profit (nine months ended)	\$ 1,964.9	26.8%	\$ 1,998.7	25.4%	\$ (33.8)	(1.7)%		

Decreased tons sold and a lower average selling price per ton sold in the three-month and nine-month periods ended September 30, 2015 negatively impacted gross profit dollars. However, gross profit margins have increased in each sequential quarter of 2015 and over the comparable 2014 periods mainly due to our disciplined operational execution that focuses on small, quick-turn orders and value-added processing along with improved inventory management. In addition, our increased LIFO income contributed to the increase in our gross profit margins in the three-month and nine-month periods ended September 30, 2015. See *Net Sales* and *Cost of Sales* for further discussion on product pricing trends and our LIFO inventory valuation reserve adjustments, respectively.

Table of Contents

Our same-store S,G&A expenses in the three-month and nine-month periods ended September 30, 2015 decreased mainly due to our cost cutting efforts due to decreased tons sold, especially at our energy-related businesses. In addition, the three-month and nine-month periods ended September 30, 2014 included non-recurring charges related to certain settled litigation in the amounts of \$13.5 million and \$25.0 million, respectively. Our S,G&A expense as a percent of sales in the three-month and nine-month periods ended September 30, 2015 increased due to the decline in average selling prices.

The increase in depreciation and amortization expense was mainly due to our 2014 acquisitions and depreciation expense from our recent capital expenditures.

We recorded a \$53.3 million charge for the impairment of long-lived assets primarily related to certain of our energy-related businesses as a result of low crude oil prices and the significant decline in the demand for the products we sell to the energy market (oil and gas). This includes charges directly related to the planned closure of certain of our energy-related businesses where we anticipate losses on the recovery of certain assets and intangible asset write-downs due to the loss of customers and lowered expectations of future profitability. See Note 11 of the Notes to the Unaudited Consolidated Financial Statements for further information on our 2015 impairment charge.

Operating Income

	2015		September 30,		2014		Dollar Change	Percentage Change

Operating income (nine months ended)	\$ 431.2	5.9%	\$ 481.3	6.1%	\$ (50.1)	(10.4)%		

Our operating income was lower in the 2015 periods compared to the 2014 periods due mainly to our decreased gross profit dollars and impairment charge. Our operating income margin declined in the 2015 periods due to the impairment charge that offset the improvement in our gross profit margins.

Income Tax Rate

Our effective income tax rates for the three-month periods ended September 30, 2015 and 2014 were 32.1% and 25.7%, respectively. Our effective income tax rates for the nine-month periods ended September 30, 2015 and 2014 were 32.1% and 32.5%, respectively. Our 2014 three-month period effective income tax rate was favorably impacted by the resolution of certain tax matters. Permanent items that lowered our effective income tax rates from the federal statutory rate were not materially different during both years and relate mainly to company-owned life insurance policies, domestic production activities deductions and foreign income levels that are taxed at rates lower than the U.S. statutory rate of 35%.

Net Income

	2015		September 30,		2014			
	\$	% of Net Sales (dollars in millions)	\$	% of Net Sales	\$	% of Net Sales	Dollar Change	Percentage Change

Net income attributable to Reliance (nine months ended)	\$ 242.9	3.3%	\$ 279.2	3.5%	\$ (36.3)		(36.3)	(13.0)%

The decrease in our net income and net income as a percentage of net sales in the three-month period ended September 30, 2015 compared to the same period in 2014 was primarily the result of lower operating income due to the \$53.3 million impairment of long-lived assets charge.

Liquidity and Capital Resources

Operating Activities

Net cash provided by operating activities was \$716.3 million in the nine-month period ended September 30, 2015 compared to \$162.8 million provided in the same period in 2014. The increase was mainly due to a lower working capital investment (primarily accounts receivable and inventory) needs in 2015 due to significant declines in metal prices continuing throughout the year as well as lower demand levels. In addition, in 2015 we focused on lowering our inventory levels to react to market conditions as well as improved inventory management, reducing our FIFO inventory by \$239.8 million in the nine months ended September 30, 2015. To manage our working capital, we focus on our days sales outstanding and on our inventory turnover rate, as receivables and inventory are the two most significant elements of our working capital. At September 30, 2015, our days sales outstanding rate was approximately 42.3 days compared to 41.4 days at December 31, 2014. Our inventory turn rate (based on dollars) during the nine-month period ended September 30, 2015 was approximately 3.9 times (or 3.1 months on hand), compared to our 2014 annual rate of 4.2 times (or 2.9 months on hand).

Investing Activities

Net cash used in investing activities of \$113.8 million in the nine-month period ended September 30, 2015 was mainly comprised of our capital expenditures. Capital expenditures were \$119.4 million for the nine-month period ended September 30, 2015 compared to \$134.4 million during the same period in 2014. The majority of our 2015 capital expenditures relate to growth initiatives. During the 2014 nine-month period, we spent \$145.0 million, net of cash acquired for acquisitions and received \$26.2 million of net proceeds from the sale of certain non-core assets acquired as part of the Metals USA acquisition.

Financing Activities

Our net cash used in financing activities of \$608.2 million in the nine-month period ended September 30, 2015 was mainly comprised of share repurchases, dividend payments to our stockholders and net debt repayments. We used cash of \$313.9 million to repurchase shares of our common stock in the nine-month period ended September 30, 2015, while there were no repurchases during the same period in 2014. We paid dividends and dividend equivalents of \$90.7 million during the nine-month period ended September 30, 2015, an increase of \$9.0 million from the same period in 2014 due to an increase in our regular quarterly dividend rate offset by our 2015 share repurchases. Net debt repayments in the nine-month period ended September 30, 2015 were \$209.1 million compared to net borrowings of \$171.4 million in the same period in 2014.

On October 20, 2015, the Board declared the 2015 fourth quarter cash dividend of \$0.40 per share of common stock. We have increased our dividend 22 times since our IPO in 1994 and have paid regular quarterly dividends to our stockholders for 56 consecutive years.

On October 20, 2015, our Board of Directors increased the number of shares authorized to be repurchased by 7,500,000 shares and extended the duration of our share repurchase plan to December 31, 2018. During the nine months ended September 30, 2015, we repurchased 5,953,054

Edgar Filing: RELIANCE STEEL & ALUMINUM CO - Form 10-Q

shares of our common stock at an average cost of \$57.50 per share for \$342.3 million, including 526,800 for \$28.4 million that were pending settlement at September 30, 2015. During October 2015, we repurchased an additional 241,511 shares at an average cost of \$54.63 per share. Since initiating the share repurchase plan in 1994, we have repurchased approximately 22.1 million shares at an average cost of \$30.93 per share. As of October 30, 2015, we had authorization under the plan to purchase an additional 8,428,668 shares.

Liquidity

Our primary sources of liquidity are our internally generated funds from operations and our \$1.5 billion revolving credit facility. Our total outstanding debt at September 30, 2015 was \$2.10 billion, down from \$2.30 billion at December 31, 2014. At September 30, 2015, we had \$489.0 million in outstanding borrowings, \$58.8 million of issued letters of credit and \$952.2 million available on our revolving credit facility. As of September 30, 2015, our net debt-to-total capital ratio was 33.8%, down from 34.9% as of December 31, 2014.

On April 4, 2013, we entered into a syndicated Third Amended and Restated Credit Agreement (Credit Agreement) with 26 banks as lenders. The Credit Agreement amended and restated our existing \$1.5 billion unsecured revolving credit facility and provided for a \$500.0 million term loan and an option to increase the revolving credit

facility for up to \$500.0 million at our request, subject to approval of the lenders and certain other conditions. We intend to use the credit facility for working capital and general corporate purposes, including, but not limited to, capital expenditures, dividend payments, repayment of debt, share repurchases, internal growth initiatives and acquisitions.

Other revolving credit facilities with a combined credit limit of approximately \$77.9 million are in place for operations in Asia and Europe with combined outstanding balances of \$57.5 million and \$48.3 million as of September 30, 2015 and December 31, 2014, respectively.

Capital Resources

On November 20, 2006, we entered into an indenture (the 2006 Indenture), for the issuance of \$600.0 million of unsecured debt securities. The total debt issued was comprised of two tranches, (a) \$350.0 million aggregate principal amount of senior unsecured notes bearing interest at the rate of 6.20% per annum, maturing on November 15, 2016; and (b) \$250.0 million aggregate principal amount of senior unsecured notes bearing interest at the rate of 6.85% per annum, maturing on November 15, 2036.

On April 12, 2013, we entered into an indenture (the 2013 Indenture and, together with the 2006 Indenture, the Indentures), for the issuance of \$500.0 million aggregate principal amount of senior unsecured notes at the rate of 4.50% per annum, maturing on April 15, 2023. The net proceeds from the issuance of these notes were used to partially fund the acquisition of Metals USA.

Under the Indentures, the notes are senior unsecured obligations and rank equally in right of payment with all of our existing and future unsecured and unsubordinated obligations. The notes are guaranteed by certain of our 100%-owned domestic subsidiaries that guarantee our revolving credit facility. The senior unsecured notes include provisions that require us to make an offer to repurchase the notes at a price equal to 101% of their principal amount plus accrued and unpaid interest in the event of both a change in control and a downgrade of our credit rating.

The \$500.0 million term loan due April 4, 2018 amortizes in quarterly installments, with an annual amortization of 10% until March 2018, with the balance to be paid at maturity. The term loan may be prepaid without penalty.

In connection with our acquisition of Metals USA, we assumed industrial revenue bonds with combined outstanding balances of \$11.2 million as of September 30, 2015 and maturities through 2027. Additionally, we assumed mortgage obligations pursuant to our acquisition of a portfolio of real estate properties that we were leasing, which have outstanding balances of \$40.8 million as of September 30, 2015. The mortgages, which are secured by the underlying properties, have a fixed interest rate of 6.40% and scheduled amortization payments with a lump sum payment of \$39.2 million due October 2016.

As of September 30, 2015, we had \$562.0 million of debt obligations coming due before our \$1.5 billion revolving credit facility expires on April 4, 2018. We believe that we will continue to have sufficient operating flexibility, cash resources, and funding sources to maintain adequate amounts of liquidity and to meet future operating needs. We believe our investment grade credit rating enhances our ability to effectively raise funding, if needed. We expect to

continue our acquisition and other growth activities in the future and anticipate that we will be able to fund such activities as they arise.

Covenants

Our Credit Agreement, including our term loan, requires us to maintain a minimum interest coverage ratio and a maximum leverage ratio, among other things. Our interest coverage ratio for the twelve-month period ended September 30, 2015 was approximately 7.3 times compared to the debt covenant minimum requirement of 3.0 times (interest coverage ratio is calculated as net income attributable to Reliance plus interest expense and provision for income taxes and plus or minus any non-operating non-recurring loss or gain, respectively, divided by interest expense). Our leverage ratio as of September 30, 2015, calculated in accordance with the terms of the Credit Agreement, was 35.4% compared to the debt covenant maximum amount of 60% (leverage ratio is calculated as total debt, inclusive of capital lease obligations and outstanding letters of credit, divided by Reliance stockholders' equity plus total debt).

Our obligations under the Credit Agreement and Indentures are required to be guaranteed by certain of our 100%-owned domestic subsidiaries. The subsidiary guarantors, together with Reliance, are required collectively to account for at least 80% of our consolidated EBITDA and 80% of consolidated tangible assets. Reliance and the subsidiary guarantors accounted for approximately 88% of our consolidated EBITDA for the last twelve months and approximately 84% of consolidated tangible assets as of September 30, 2015.

Table of Contents

We were in compliance with all material covenants in our debt agreements at September 30, 2015.

Off-Balance-Sheet Arrangements

We do not have any off-balance-sheet arrangements or relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or variable interest entities, which are typically established for the purpose of facilitating off-balance-sheet arrangements or other contractually narrow or limited purposes.

As of September 30, 2015 and December 31, 2014, we were contingently liable under standby letters of credit in the aggregate amount of \$58.8 million and \$59.2 million, respectively. The letters of credit relate to insurance policies, construction projects and outstanding bonds.

Contractual Obligations and Other Commitments

We had no material changes in commitments for capital expenditures, operating lease obligations or purchase obligations as of September 30, 2015, as compared to those disclosed in our table of contractual obligations included in our Annual Report on Form 10-K for the year ended December 31, 2014.

Inflation

Our operations have not been, and we do not expect them to be, materially affected by general inflation. Historically, we have been successful in adjusting prices to our customers to reflect changes in metal prices.

Seasonality

Some of our customers are in seasonal businesses, especially customers in the construction industry and related businesses. As a result of our geographic, product and customer diversity our overall operations have not shown any material seasonal trends. Typically, revenues in the months of July, November and December have been lower than in other months because of a reduced number of working days for shipments of our products, resulting from vacation and extended holiday closures at some of our customers. We cannot assure you that period-to-period fluctuations will be consistent with historical patterns. Results of any one or more quarters are therefore not necessarily indicative of annual results.

Goodwill and Other Intangible Assets

Goodwill, which represents the excess of cost over the fair value of net assets acquired, amounted to \$1.73 billion at September 30, 2015, or approximately 23.2% of total assets, or 44.1% of Reliance stockholders' equity. Additionally, other intangible assets, net amounted to \$1.14 billion at September 30, 2015, or approximately 15.3% of total assets, or 29.1% of Reliance stockholders' equity. Goodwill and other intangible assets deemed to have indefinite lives are not amortized but are subject to annual impairment tests. Other intangible assets with finite useful lives continue to be amortized over their useful lives. We review the recoverability of our long-lived assets whenever events or changes in circumstances indicate the carrying amount of such assets may not be recoverable. During the three months and nine months ended September 30, 2015, we recorded a \$35.6 million impairment charge related to our other intangible assets. See *Note 11 Impairment of Long-Lived Assets* to our Unaudited Consolidated Financial Statements included in this Quarterly Report on Form 10-Q for further information on our 2015 impairment charge.

Critical Accounting Policies and Estimates

Management's Discussion and Analysis of Financial Condition and Results of Operations discusses our Unaudited Consolidated Financial Statements, which have been prepared in accordance with U.S. generally accepted accounting principles. When we prepare these consolidated financial statements, we are required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Some of our accounting policies require that we make subjective judgments, including estimates that involve matters that are inherently uncertain. Our most critical accounting estimates include those related to accounts receivable, inventories, income taxes, goodwill and intangible assets and long-lived assets. We base our estimates and judgments on historical experience and on various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for our judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Our actual results may differ from these estimates under different assumptions or conditions.

Table of Contents

See *Critical Accounting Policies and Estimates* in our Annual Report on Form 10-K for the year ended December 31, 2014 for further information regarding the accounting policies that we believe to be critical accounting policies and that affect our more significant judgments and estimates used in preparing our consolidated financial statements. We do not believe that the new accounting guidance implemented in 2015 changed our critical accounting policies.

New Accounting Guidance

See *Note 2 Impact of Recently Issued Accounting Guidance* to our Unaudited Consolidated Financial Statements included in this Quarterly Report on Form 10-Q for disclosure on new accounting guidance issued or implemented.

Item 3. Quantitative And Qualitative Disclosures About Market Risk

In the ordinary course of business, we are exposed to various market risk factors, including fluctuations in interest rates, changes in general economic conditions, domestic and foreign competition, foreign currency exchange rates, metals pricing, demand and availability. There have been no significant changes in our market risk exposures since December 31, 2014. See *Item 7A - Quantitative and Qualitative Disclosures About Market Risk* in our Annual Report on Form 10-K for the year ended December 31, 2014 for further discussion on quantitative and qualitative disclosures about market risk.

Item 4. Controls And Procedures

Under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, the Company carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to and as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that, as of the end of the period covered in this report, the Company's disclosure controls and procedures are effective.

There have been no changes in the Company's internal control over financial reporting during the quarter ended September 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1A. Risk Factors

Edgar Filing: RELIANCE STEEL & ALUMINUM CO - Form 10-Q

There have been no material changes to the risk factors disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

Table of Contents**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

Share repurchase activity during the three months ended September 30, 2015 was as follows:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan	Maximum Number of Shares That May Yet Be Purchased Under the Plan(1)
July 1 - July 31, 2015	1,206,586	\$ 59.11	1,206,586	2,478,247
August 1 - August 31, 2015	191,032	54.95	191,032	2,287,215
September 1 - September 30, 2015	1,117,036	54.18	1,117,036	1,170,179
Total	2,514,654		2,514,654	

(1) In May 2005, our Board of Directors amended and restated our share repurchase plan authorizing the repurchase of up to 12,000,000 shares of our common stock through December 31, 2014. On October 21, 2014, our Board of Directors amended and restated our share repurchase plan extending its duration to December 31, 2017. On October 20, 2015, our Board of Directors again amended our share repurchase plan increasing the number of shares authorized to be repurchased by 7,500,000 shares and extending the program through December 31, 2018. Our share repurchase plan does not obligate us to acquire any specific number of shares. Under the share repurchase plan, shares may be repurchased in the open market or privately negotiated transactions, including under plans complying with Rule 10b5-1 under the Exchange Act. The 1,170,179 remaining shares available for repurchase under the authorized repurchase plan at September 30, 2015 does not reflect 241,511 shares repurchased in October 2015 or the amendment to our share repurchase plan on October 20, 2015 increasing the authorized number of shares available to be repurchased by 7,500,000. As of October 30, 2015, 8,428,668 shares were available to be repurchased.
