Notes to Condensed Consolidated Financial Statements (Unaudited)

Note 1. Nature of business

Nature of business: The accompanying Condensed Consolidated Financial Statements include the accounts of Hemisphere Media Group, Inc. (Hemisphere or the Company), the parent holding company of Cine Latino, Inc. (Cinelatino), WAPA Holdings, LLC (formerly known as InterMedia Español Holdings, LLC) (WAPA), and HMTV Cable, Inc., the parent company of the Acquired Cable Networks consisting of Pasiones, TV Dominicana, and Centroamerica TV (see below). The Company determines its operating segments based upon (i) financial information reviewed by the chief operating decision maker, the Chief Executive Officer, (ii) internal management and related reporting structure and (iii) the basis upon which the chief operating decision maker makes resource allocation decisions. We have one operating segment, Hemisphere. In these notes, the terms Company, we, us or our mean Hemisphere and all subsidiaries included in our Condensed Consolidated Financial Statements.

Basis of presentation: The accompanying unaudited Condensed Consolidated Financial Statements for Hemisphere and its subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain information and note disclosures normally included in annual financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to those rules and regulations, although we believe that the disclosures made are adequate to make the information not misleading. In our opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair statement have been included. Our financial condition as of, and operating results, for the three and six months ended June 30, 2016 are not necessarily indicative of the financial condition or results that may be expected for any future interim period or for the year ending December 31, 2016. These Condensed Consolidated Financial Statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2015.

Net earnings per common share: Basic earnings per share (EPS) are computed by dividing income attributable to common stockholders by the number of weighted-average outstanding shares of common stock. Diluted EPS reflects the effect of the assumed exercise of stock options and vesting of restricted shares only in the periods in which such effect would have been dilutive.

The following table sets forth the computation of the common shares outstanding used in determining basic and diluted EPS (*amounts in thousands, except per share amounts*):

Three Months Ended June 30,

Six Months Ended June 30,

Edgar Filing: HEMISPHERE MEDIA GROUP, INC. - Form 10-Q

	2016	2015	2016	2015
Numerator for earnings per common share calculation:				
Net income	\$ 5,029	\$ 3,431	\$ 7,729	\$ 5,894
Denominator for earnings per common share calculation:				
Weighted-average common shares, basic	42,546	42,737	42,844	42,566
Effect of dilutive securities				
Stock options, restricted stock and warrants	261	553	794	701
Weighted-average common shares, diluted	42,807	43,290	43,638	43,267
EPS				
Basic	\$ 0.12	\$ 0.08	\$ 0.18	\$ 0.14
Diluted	\$ 0.12	\$ 0.08	\$ 0.18	\$ 0.14

We apply the treasury stock method to measure the dilutive effect of our outstanding stock options and restricted stock awards and include the respective common share equivalents in the denominator of our diluted income per common share calculation. Potentially dilutive securities representing 1.1 million shares of common stock for the three and six months ended June 30, 2016, respectively, were excluded from the computation of diluted income per common share for this period because their effect would have been anti-dilutive. The net income per share amounts are the same for our Class A common stock, par value \$0.0001 per share (Class A common stock) and Class B common stock, par value \$0.0001 per share (Class B common stock), because the holders of each class are legally entitled to equal per share distributions whether through dividends or in liquidation.

Use of estimates: In preparing these financial statements, management had to make estimates and assumptions that affected the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities as of the balance sheet dates, and the reported revenues and expenses for the three and six months ended June 30, 2016 and 2015. Such estimates are based on historical

Table of Contents

experience and other assumptions that are considered appropriate in the circumstances. However, actual results could differ from those estimates.

Reclassification: Certain prior year amounts presented in Other accrued expenses have been reclassified to Taxes payable on the accompanying condensed consolidated balance sheet, which resulted in an increase to Taxes payable to conform with the fiscal 2016 presentation with no impact to current liabilities.

Recent accounting pronouncements: In May 2014, the FASB and the International Accounting Standards Board updated the accounting guidance related to revenue recognition. The updated accounting guidance provides a single, contract-based revenue recognition model to help improve financial reporting by providing clearer guidance on when an entity should recognize revenue, and by reducing the number of standards to which an entity has to refer. In July 2015, the FASB voted to defer the effective date by one year to December 15, 2017 for annual reporting periods beginning after that date. The updated accounting guidance provides companies with alternative methods of adoption. In March 2016, the FASB issued *ASU 2016-08- Revenue from Contracts with Customers (Topic 606): Principle versus Agent Considerations (Reporting Revenue Gross versus Net)*. The amendments in this update do not change the core principle of the guidance in Topic 606; they clarify the implementation guidance on principal versus agent considerations. In April 2016, the FASB issued further guidance related to revenue recognition with *ASU 2016-10 Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing (Update 2016-10)*. The amendments in Update 2016-10 do not change the core principle of the guidance in Topic 606, rather it clarifies identifying performance obligations and licensing implementation. In May 2016, the Financial Accounting Standards Board (FASB) issued *Accounting Standards Updated (ASU) 2016-12 Revenue from contracts with Customers (Topic 605) Narrow-Scope Improvements and Practical Expedients*. Similar to ASU 2016-08 and ASU 2016-10, the amendments in ASU 2016-12 do not change the core principle of the guidance in Topic 606, rather if clarifies issues around assessing collectability and issues concerning implementation at transition to the ASU. The effective date for implementation remains unchanged and will impact the first interim period of our 2018 fiscal year. We are currently in the process of determining the impact that the updated accounting guidance will have on our consolidated financial statements and our method of adoption.

In March 2016, the FASB issued *ASU 2016-09 Compensation Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting* as part of its simplification initiative. The areas for simplification in this update involve several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The amendments in this update are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. We are currently in the process of determining the impact that the updated accounting guidance will have on our consolidated financial statements.

The FASB issued *ASU 2016-02 Leases (Topic 842)* in February 2016. ASU 2016-02 amends the FASB Accounting Standards Codification, creating Topic 842, Leases. Topic 842 affects any entity that enters into a lease, with specified scope exemptions, and supersedes Topic 840, Leases. The core principle of Topic 842 is that a lessee should recognize the assets and liabilities that arise from leases, including operating leases. The recognition, measurement and presentation of expenses and cash flows from a lease by a lessee have not changed significantly from previous GAAP. The principle difference from previous guidance is that the assets and liabilities arising from an operating lease should be recognized in the statement of financial position. The guidance will be effective for the first interim period of our 2019 fiscal year. Early application of the amendments in this update is permitted. We are currently evaluating the impact of the new standard.

Note 4. Income taxes

For the six months ended June 30, 2016 and 2015, our income tax expense has been computed utilizing the estimated annual effective rates of 35.8% and 40.1%, respectively. The decrease in the estimated annual effective tax rate is primarily due to the apportionment of income before income taxes for state income tax purposes in 2016 due to the expansion of our business, which

Table of Contents

resulted in a reduced state tax rate. The difference between the annual effective rate in both periods and the statutory Federal income tax rate of 35% is primarily due to state and foreign income and foreign withholding taxes offset by foreign tax credits.

Income tax expense for the three and six months ended June 30, 2016 was \$2.8 million and \$4.3 million, respectively. Income tax expense for the three and six months ended June 30, 2015 was \$2.3 million and \$4.0 million, respectively.

Note 5. Long-term debt

Long-term debt at June 30, 2016 and 2015 consists of the following (*amounts in thousands*):

	June 30, 2016		December 31, 2015	
Senior Notes due July 2020	\$	211,834	\$	219,923
Less: Current portion				(8,278)
	\$	211,834	\$	211,645

On July 30, 2014, certain of our subsidiaries (the Borrowers) entered into an amended credit agreement providing for a \$225.0 million senior secured term loan B facility (the Term Loan Facility), which matures on July 30, 2020. Pricing on the Term Loan Facility was set at LIBOR plus 400 basis points (subject to a LIBOR floor of 1.00%, resulting in an effective interest rate of 5.00% in the current quarter and 0.5% of original issue discount (OID)). The Term Loan Facility also provides an uncommitted accordion option (the Incremental Facility) allowing for additional borrowings under the Term Loan Facility up to an aggregate principal amount equal to (i) \$40.0 million plus (ii) an additional amount of up to 4.0x first lien net leverage. The obligations under the Term Loan Facility are guaranteed by HMTV, LLC, our direct wholly-owned subsidiary, and all of our existing and future subsidiaries (subject to certain exceptions in the case of immaterial subsidiaries). Additionally, the Term Loan Facility provides for an uncommitted incremental revolving loan option in an aggregate principal amount of up to \$20.0 million, which shall be secured on a *pari passu* basis by the collateral securing the Term Loan Facility. The Term Loan Facility is secured by a first-priority perfected security interest in substantially all of our assets.

The OID of \$1.5 million, net of accumulated amortization of \$0.9 million at June 30, 2016, was recorded as a reduction to the principal amount of the Term Loan Facility outstanding and will be amortized as a component of interest expense over the term of the Term Loan Facility. We recorded \$2.0 million of deferred financing costs associated with the Term Loan Facility, net of accumulated amortization of \$1.3 million at June 30, 2016, which will be amortized utilizing the effective interest rate method over the remaining term of the Term Loan Facility.

The principal payments on the Term Loan Facility are payable on quarterly due dates, which commenced on September 30, 2014, with a final installment due on July 30, 2020.

In addition, pursuant to the terms of the Term Loan Facility, within 90 days after the end of each fiscal year (commencing with the fiscal year ended December 31, 2015), the Borrowers are required to make a prepayment of the loan principal in an amount equal to 50% of the excess cash flow of the most recently completed fiscal year. Excess cash flow is generally defined as net income plus depreciation and amortization expense, less mandatory prepayments of the term loan, interest charges, income taxes and capital expenditures, and adjusted for the change in working

Edgar Filing: HEMISPHERE MEDIA GROUP, INC. - Form 10-Q

capital. The percentage of the excess cash flow used to determine the amount of the prepayment of the loan declines from 50% to 25%, and again to 0% at lower leverage ratios. Pursuant to the terms of our Term Loan Facility, our net leverage ratio was 3.0x at December 31, 2015, resulting in an excess cash flow percentage of 25% being used to determine the principal payment of \$8.3 million in March 2016 allocated in direct order of maturity. As a result, we will not be required to make scheduled quarterly principal payments for several quarters.

The carrying value of the long-term debt approximates fair value at June 30, 2016 and December 31, 2015 and was derived from quoted market prices by independent dealers (Level 2 in the fair value hierarchy under ASC 820, *Fair Value Measurements and Disclosures*). The following are the maturities of our long-term debt as of June 30, 2016 (*amounts in thousands*):

Event-based Class A common stock awards

Pursuant to the Equity Restructuring and Warrant Purchase Agreement, dated as of January 22, 2013, by and among Azteca Acquisition Holdings, LLC and the Company and the other parties identified therein, certain initial stockholders of Azteca Acquisition Corporation (which merged with the Company in connection with its initial public offering), agreed to subject 378,788 shares of Class A common stock to certain forfeiture provisions if the market price of shares of Hemisphere Class A common stock did not equal or exceed \$15.00 per share for any 20 trading days within at least one 30-trading day period within 36 months of April 4, 2013. Effective the close of trading on April 4, 2016, such holders forfeited 378,788 shares of Class A common stock back to the Company as a result.

Equity incentive plans

Effective May 16, 2016, the stockholders of all classes of capital stock of the Company approved at the annual stockholder meeting the Hemisphere Media Group, Inc. Amended and Restated 2013 Equity Incentive Plan (the "2013 Equity Incentive Plan") to increase the number of shares of Class A common stock that may be delivered under the 2013 Equity Incentive Plan by 3,225,920 shares, provide limits on non-employee director awards and additional provisions as set forth in plan (a copy of which is provided in the Company's 2016 annual proxy statement). An aggregate of 7.2 million shares of our Class A common stock were authorized for issuance under the terms of the Hemisphere Media Group, Inc. 2013 Equity Incentive Plan. At June 30, 2016, 4.4 million shares remained available for issuance of stock options or other stock-based awards under our 2013 Equity Incentive Plan (including shares of restricted Class A common stock surrendered to the Company in payment of taxes required to be withheld in respect of vested shares of restricted Class A common stock, which are available for re-issuance). The expiration date of the 2013 Equity Incentive Plan, on and after which date no awards may be granted, is April 4, 2023. The Company's board of directors, or a committee thereof, administers the 2013 Equity Incentive Plan and has the sole and plenary authority to, among other things: (i) designate participants; (ii) determine the type, size, and terms and conditions of awards to be granted; and (iii) determine the method by which an award may be settled, exercised, canceled, forfeited or suspended.

The Company's time-based restricted stock awards and option awards generally vest in three equal annual installments beginning on the first anniversary of the grant date, subject to the grantee's continued employment or service with the Company. The Company's event-based restricted stock awards and option awards generally vest upon the Company's Class A common stock attaining a \$15.00 closing price per share, as quoted on the NASDAQ Global Market, on at least 10 trading days, subject to the grantee's continued employment or service with the Company.

Stock-based compensation

Stock-based compensation expense related to stock options and restricted stock was \$0.6 million and \$1.4 million for the three months ended June 30, 2016 and 2015, respectively, and \$2.0 million and \$2.7 million for the six months ended June 30, 2016 and 2015, respectively. At June 30, 2016, there was \$1.5 million of total unrecognized compensation cost related to unvested stock options, which is expected to be recognized over a weighted-average period of 2.1 years. At June 30, 2016, there was \$1.1 million of total unrecognized compensation cost related to unvested restricted stock, which is expected to be recognized over a weighted-average period of 1.1 years.

Stock options

The fair value of stock options granted is estimated at the date of grant using the Black-Scholes option pricing model for time-based options and the Monte Carlo simulation model for event-based options. The expected term of options granted is derived using the simplified method under ASC 718-10-S99-1/SEC Topic 14.D for plain vanilla options and the Monte Carlo simulation for event-based options. Expected volatility is based on the historical volatility of the Company's competitors given its lack of trading history. The risk-free interest rate is based on the U.S. Treasury yield for a period consistent with the expected term of the option in effect at the time of the grant. The Company has estimated forfeitures of 1.5%, as the awards are to management for which the Company expects lower turnover, and has assumed no dividend yield, as dividends have never been paid to stock or option holders and will not be paid for the foreseeable future.

Warrants may be exercised only through the date of expiration and are only exercisable for a whole number of shares of common stock (i.e. only an even number of warrants may be exercised at any given time by a registered holder). As a result, a holder must exercise a least two warrants at an effective exercise price of \$12.00 per share. At the option of the Company, 7.6 million warrants may be called for redemption, provided that the last sale price of our Class A common stock reported has been at least \$18.00 per share on each of twenty trading days within the thirty-day period ending on the third business day prior to the date on which notice of redemption is given. Our two primary sources of revenues are advertising revenues and retransmission/subscriber fees. Advertising revenues are generated from the sale of advertising time which are typically pursuant to advertising arrangements with advertisers providing for a set number of advertising units to run over a specific period of time at a negotiated price per unit. Our advertising revenues are tied to the success of our programming, including the popularity of our programming as measured by Nielsen Media Research (Nielsen). But unlike some of our peers, our Networks do not currently guarantee specified viewer ratings, and are not required to provide additional units at no charge if the guaranteed viewer ratings are not met. Our advertising is variable in nature and tends to reflect seasonal patterns of our advertisers demand, which is generally greatest during the fourth quarter of each year, driven by the holiday buying season. In addition, Puerto Rico s political election cycle occurs every four years, and we benefit from increased advertising sales in an election year. For example, in 2012, we experienced higher advertising sales as a result of political advertising spending during the 2012 gubernatorial elections. We expect to benefit from political advertising sales in 2016. Prior to July 2015, Cinelatino was commercial free, and now all of our Networks generate advertising revenues.

Table of Contents

All of our Networks receive fees paid by distributors, including cable, satellite and telecommunications service providers. These revenues are generally based on a per subscriber fee pursuant to multi-year contracts, commonly referred to as affiliation agreements, which generally provide for annual rate increases. The specific retransmission/subscriber fees we earn vary from period to period, distributor to distributor and also vary among our Networks, but are generally based upon the number of each distributor's subscribers who receive our Networks. The terms of certain non-U.S. affiliation agreements provide that the fee revenues are paid as a fixed contractual monthly fee. Changes in retransmission/subscriber fees are primarily derived from changes in contractual affiliation rates charged for our Networks and changes in the number of subscribers. We seek to grow our revenues by increasing the number of viewing subscribers of the distributors that carry our services. Accordingly, we continually review the quality of our programming to ensure that it is maximizing our Networks' viewership and giving our Networks' subscribers a premium, high-value experience. The continued growth in our retransmission/subscriber fees will, to a certain extent, be dependent on the growth in subscribers of the cable, satellite and telecommunication service providers distributing our Networks and new system launches. Our revenues may also increase over time through contractual rate increases stipulated in most of our affiliation agreements.

WAPA has been the #1-rated broadcast television network in Puerto Rico for the last seven years and management believes it is highly valued by its viewers and distributors. WAPA is distributed by all pay-TV distributors in Puerto Rico and has been successfully growing retransmission fees. WAPA's primetime household rating in 2015 was nearly four times higher than the most highly rated English-language U.S. broadcast network in the U.S., CBS, and higher than the combined ratings of CBS, NBC, ABC and FOX. As a result of its ratings success in the last seven years, management believes WAPA is well positioned for future growth in retransmission fees, similar to the growth in retransmission fees that the four major U.S. networks (ABC, CBS, NBC and Fox) have experienced in the U.S.

WAPA America, Cinelatino, Pasiones, Centroamerica TV and Television Dominicana occupy a valuable and unique position as they are among the small group of Hispanic cable networks to have achieved broad distribution in the U.S. As a result, management believes our U.S. Networks are well-positioned to benefit from growth in both the growing national advertising spend targeted at the highly sought-after U.S. Hispanic cable television audience and significant growth in subscribers, as the U.S. Hispanic population continues its long-term growth. Cinelatino and WAPA America are presently rated by Nielsen.

Hispanics represent over 17% of the total U.S. population and approximately 10% of the total U.S. buying power, but only 7% of the aggregate media spend targets U.S. Hispanics. As a result, while advertisers have been allocating a higher proportion of marketing dollars to the Hispanic market, U.S. Hispanic cable advertising still under-indexes relative to its consumption. U.S. Hispanic cable network advertising revenue grew at a 13% CAGR from 2009 to 2015, more than doubling from \$204 million to \$436 million. Going forward, U.S. Hispanic cable advertising is expected to continue to grow at a 13% CAGR from 2015 to 2019, outpacing forecasted growth for U.S. cable advertising, U.S. Hispanic broadcast advertising and U.S. general market broadcast advertising.

Management expects our U.S. Networks to benefit from significant growth in subscribers as the U.S. Hispanic population continues its long-term growth. The U.S. Census Department estimated that over 55 million Hispanics resided in the United States in 2014, representing an increase of approximately 20 million people between 2000 and 2014 and that number is projected to grow to 70 million by 2025. Hispanic television households grew by 35% during the period from 2006 to 2016, from 11.2 million households to 15.1 million households. Similarly, Hispanic pay-TV subscribers increased 53% since 2006 to 12.1 million subscribers in 2016. The continued long-term growth of Hispanic television households and pay-TV subscribers creates a significant opportunity for all of our Networks.

Similarly, management expects Cinelatino and Pasiones to benefit from significant growth in Latin America. Fueled by a sizeable and growing population, a strong macroeconomic backdrop, rising disposable incomes and investments in network infrastructure resulting in improved service and performance, pay-TV subscribers in Latin America (excluding Brazil) grew by 32% from 2012 to 2015 and are projected to grow an additional 15 million from 51 million in 2015 to 66 million by 2020, representing projected growth of approximately 29%. Furthermore, Cinelatino and Pasiones are each presently distributed to only 23% and 20%, respectively, of total pay-TV subscribers throughout Latin

America. Accordingly, growth through new system launches represents a significant growth opportunity. Management believes Cinelatino and Pasioness have widespread appeal throughout Latin America and therefore will be able to expand distribution throughout the region

MVS, one of our stockholders, provides operational and technical services to Cinelatino pursuant to several agreements. Upon consummation of our initial public offering, certain of the agreements were amended or terminated to what management believes to be to the benefit of Cinelatino. As consideration for the terminated agreement, we made a one-time payment of \$3.8 million to MVS. An agreement which had granted MVS the exclusive right to distribute the service in the U.S. was terminated upon consummation of our initial public offering. We have assumed responsibility for those activities previously provided by MVS, thus having no impact on Cinelatino's operations. A similar agreement which had granted MVS the exclusive right to distribute the service throughout Latin America was amended upon consummation of our initial public offering so that MVS's rights would be on a

non-exclusive basis except for distribution agreements then in effect. Management believes that the amendment to this agreement will not impact Cinelatino's current distribution and should enhance Cinelatino's ability to drive new distribution in Latin America. MVS has terminated this agreement effective February 29, 2016. We continue to operate under the terms of the terminated agreement until a transition arrangement has been finalized. Also upon consummation of our initial public offering, Cinelatino's affiliation agreement with Dish Mexico (an affiliate of MVS), pursuant to which Dish Mexico distributes the network and Cinelatino receives revenue, was extended through August 1, 2017.

Table of Contents

Operating Expenses

Cost of Revenues: Cost of revenues consists primarily of programming and production costs, programming amortization and distribution costs. Cost of revenues increased \$0.7 million, or 7%, for the three months ended June 30, 2016, and increased \$1.5 million, or 8%, for the six months ended June 30, 2016. The increases, in both the three and six month periods, were driven by increased investment in programming, consistent with our previously stated strategy. The increase in programming was driven by the introduction of several new Turkish drama series on WAPA, higher news costs related to the coverage of the 2016 elections, the launch of *Calle 7*, a daily reality series on Centroamerica TV, and the timing of certain sports rights. The increases were also due to higher costs related to the launch of advertising on Cinelatino in July 2015.

Selling, General and Administrative: Selling, general and administrative expenses consist primarily of sales, promotion, marketing and research, stock-based compensation, employee costs, rent and other general administrative costs. Selling, general and administrative expenses increased \$0.2 million, or 2%, for the three months ended June 30, 2016, and increased \$0.9 million, or 5%, for the six months ended June 30, 2016. The increases in both the three and six month periods were primarily due to higher personnel expenses as we expanded our infrastructure to support the growth of our business in the second half of 2015, annual salary increases, and higher marketing expenses to support advertising on Cinelatino, a one-time separation payment for retired employees, offset by lower stock-based compensation.

Depreciation and Amortization: Depreciation and amortization expense consists of depreciation of fixed assets and amortization of intangibles. Depreciation and amortization expense decreased \$0.2 million, or 5%, for the three months ended June 30, 2016, and decreased \$0.2 million, or 3%, for the six months ended June 30, 2016. The decreases, in both the three and six month periods, were primarily due to the expiration of the useful lives of certain fixed assets, which were fully reflected in the prior year periods, but not in the current quarter. These fixed assets continue to be used in the operations of the business.

Other Expenses: Other expenses include legal, financial advisory and other fees incurred in connection with corporate finance activities, including debt and equity financings, equity repurchases and acquisition activities. Other expenses decreased \$0.2 million, or 61%, for the three months ended June 30, 2016, and decreased \$0.2 million, or 57%, for the six months ended June 30, 2016. The decreases, in both the three and six month periods, were primarily due to the incurrence of fees in connection with the secondary equity offering in the prior year's second quarter. For more information, see Note 6, *Stockholders' Equity*, of Notes to our Condensed Consolidated Financial Statements, included elsewhere in this Quarterly Report.

Loss on Disposition of Assets: Loss on disposition of assets reflects losses on disposal of equipment no longer used in our operations.

Other Expenses

Other expenses consist primarily of interest expense. Other expenses decreased \$0.1 million for the three months ended June 30, 2016, and decreased \$0.2 million for the six months ended June 30, 2016. The decreases, in both the three and six month periods, were due to a decrease in the average outstanding balance on our Term Loan Facility.

Income Tax Expense

Income tax expense increased by \$0.4 million and \$0.3 million for the three and six months ended June 30, 2016, respectively, primarily due to higher income before income taxes, offset by a lower annual effective tax rate.⁶ For more information, see Note 4, *Income taxes* of Notes to Condensed Consolidated Financial Statements, included elsewhere in this Quarterly Report.

Net Income

Net income increased by \$1.6 million and \$1.8 million for the three and six months ended June 30, 2016, respectively.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off-balance sheet financing arrangements.

LIQUIDITY AND CAPITAL RESOURCES

Sources and Uses of Cash

Our principal sources of cash are cash on hand and cash flows from operating activities. At June 30, 2016, we had \$147.2 million of cash on hand. Our primary uses of cash include the production and acquisition of programming, operational costs, personnel costs, equipment purchases, principal and interest payments on our outstanding debt and income tax payments, and cash may be used to fund acquisitions.

Management believes cash on hand and cash flow from operations will be sufficient to meet our current contractual financial obligations and to fund anticipated working capital and capital expenditure requirements for existing operations. Our current financial obligations include maturities of debt, operating lease obligations and other commitments from the ordinary course of business that require cash payments to vendors and suppliers.

Comparison for the Six Months Ended June 30, 2016 and June 30, 2015

Operating Activities

Cash provided by operating activities was primarily driven by our net income, adjusted for non-cash items and changes in working capital. Non-cash items consist primarily of depreciation of property and equipment, amortization of intangibles, programming amortization, amortization of deferred financing costs, stock-based compensation expense and provision for bad debts.

Net cash provided by operating activities for the six months ended June 30, 2016 was \$9.8 million, a decrease of \$6.2 million, as compared to \$16.0 million in the prior year period, due primarily to a \$7.5 million decrease in net working capital and a \$0.5 million decrease in non-cash items, offset by a \$1.8 million increase in net income. Working capital decreased primarily as a result of an increase in programming rights and prepaid taxes and other assets totaling \$3.6 million, a decrease in accrued expenses of \$3.0 million, and a decrease in taxes payable of \$1.5 million offset by an increase in programming rights payable of \$0.7 million. Non-cash items decreased primarily as a result of a \$0.7 million decrease in stock-based compensation, a \$0.3 million decrease in the provision for bad debts and a \$0.2 million decrease in depreciation and amortization, offset by a \$0.4 million increase in programming amortization and a \$0.3 million increase in deferred taxes.

Investing Activities

Net cash used in investing activities for the six months ended June 30, 2016, was \$1.9 million, as compared to \$1.8 million in the prior year period. The increase is primarily due to an increase in capital expenditures of \$0.1 million.

Financing Activities

For the six months ended June 30, 2016, net cash used in financing activities was \$40.3 million, as compared to net cash provided of \$3.5 million in the prior year period. This decrease is primarily due to current year period repurchases of Class A common stock of \$30.7 million and warrant repurchases of \$1.0 million, and higher principal debt payments made in the current year

Table of Contents

period driven by the excess cash flow payment of \$8.3 million pursuant to the terms of the Term Loan Facility. The prior year period also benefitted from \$5.4 million of net proceeds from the secondary equity offering in May 2015. For more information, see Note 5, Long-term debt and Note 6, Stockholders' equity of Notes to Condensed Consolidated Financial Statements, included elsewhere in this Quarterly Report.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We finance our capital needs through our Term Loan Facility at our indirect wholly-owned subsidiary, Hemisphere Media Holdings, LLC.

The variable rate of interest on the Term Loan Facility exposes us to market risk for changes in interest rates. Loans thereunder bear interest at rates that vary with changes in prevailing market rates. With respect to the Term Loan Facility, we do not speculate on the future direction of interest rates. As of June 30, 2016, our exposure to changing market rates with respect to the Term Loan Facility was as follows (*amounts in thousands*):

	June 30, 2016	
Variable rate debt	\$	213.3
Interest rate		5.00%

As of June 30, 2016, the total outstanding balance on the Term Loan Facility was approximately \$213.3 million. In the event of an increase in the interest rate of 100 basis points, assuming a principal of \$213.3 million, we would incur an increase in interest expense of approximately \$2.1 million per year. Such potential increases or decreases in interest expense are based on certain simplifying assumptions, including a constant level of debt, no interest rate swap or hedge in place, and an immediate, across-the-board increase in the level of interest rates with no other subsequent changes for one year.

Foreign Currency Exchange Risk

Although we currently conduct business in various countries outside the United States, we are not subject to any material currency risk because our cash flows are collected primarily in U.S. Dollars. Reported earnings and assets may be reduced in periods in which the U.S. dollar increases in value relative to those currencies.

Our objective in managing exposure to foreign currency fluctuations is to reduce volatility of earnings and cash flow. Accordingly, we may enter into foreign currency derivative instruments that change in value as foreign exchange rates change, such as foreign currency forward contracts or foreign currency options. Any gains and losses on the fair value of derivative contracts would be largely offset by gains and losses on the underlying assets being hedged. We held no foreign currency derivative financial instruments at June 30, 2016.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated our disclosure controls and procedures, as of June 30, 2016. Our Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2016, our disclosure controls and procedures were effective to ensure that all information required to be disclosed is recorded, processed, summarized and reported within the time periods specified, and that information required to be filed in the reports that we file or submit under the Securities Exchange Act of 1934 (the Exchange Act) is accumulated and communicated to our management, including our principal executive and principal financial officers, to allow timely decisions regarding required disclosure.

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error and mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of controls.

Table of Contents

The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, a control may become inadequate because of changes in conditions or because the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected.

Changes in Internal Controls

No change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the fiscal quarter ended June 30, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we or our subsidiaries may become involved in various lawsuits and legal proceedings which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties and determination as to the amount of the accrual required for such contingencies is highly subjective and requires judgments about future events. An adverse result in these or other matters may arise from time to time that may harm our Business. Neither we nor any of our subsidiaries are presently a party to any material litigation, nor to the knowledge of management is any litigation threatened against us or our subsidiaries, which may materially affect us.

ITEM 1A. RISK FACTORS

You should carefully consider the risk factors included in our Annual Report on Form 10-K for the year ended December 31, 2015, in addition to other information included in this Quarterly Report on Form 10-Q, including under the section entitled, *Forward-Looking Statements*, and in other documents we file with the SEC, in evaluating our Company and our Business. If any of the risks occur, our Business, financial condition, liquidity and results of operations could be materially adversely affected. We caution the reader that these risk factors may not be exhaustive. We operate in a continually changing business environment and new risks emerge from time to time. Management cannot predict such new risk factors, nor can we assess the impact, if any, of such new risk factors on our Business or the extent to which any factor or combination of factors may impact our Business. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our Business, financial condition and/or operating results.

Except as set forth in this Item 1A, there have not been any material changes during the quarter ended June 30, 2016 from the risk factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2015.

The broadcast incentive auction could result in the modification of our broadcast licenses for WAPA by requiring us to operate on other channels.

The FCC has commenced an incentive auction to recapture and repurpose certain spectrum currently used by television broadcasters. The incentive auction will be conducted in three phases.

Bidding in the reverse auction, the first phase of the auction, began on May 31, 2016. During the reverse auction, participating television broadcasters elected either to retain their rights to a 6 MHz channel of spectrum or volunteer, in return for payment, to relinquish their station's spectrum by surrendering the station's license and share spectrum with another station thereafter; or, for stations operating in the UHF spectrum, to modify the station's UHF channel license to a VHF channel license. The reverse auction concluded on June 29, 2016.

In the second phase of the auction, the FCC will conduct a forward auction of the relinquished broadcast spectrum to new users. The first stage of the forward auction is scheduled to begin on August 16, 2016.

Following the conclusion of the forward auction, the FCC will repack television stations that have not relinquished spectrum in the auction in remaining television broadcast spectrum, which may require certain television stations that did not participate in the reverse auction to modify their transmission facilities, including requiring such stations to operate on other channel designations. The FCC is authorized to reimburse stations for reasonable relocation costs up to a total across all stations of \$1.75 billion. The FCC, when repacking the television broadcast spectrum, will use reasonable efforts to preserve a station's coverage area and population served. The FCC is prohibited from requiring a station to move involuntarily from the UHF spectrum band, the band in which our broadcast licenses operate, to the VHF spectrum band or from the high VHF band to the low VHF band.

We cannot predict (i) the outcome of the incentive auction, (ii) whether the FCC will require any of our television stations to modify our transmission facilities in the repacking process, (iii) whether following repacking, the coverage area and population served by our licenses will be completely preserved or (iv) whether the \$1.75 billion set aside for reimbursing repacking expenses will be sufficient to cover all our repacking expenses. Nevertheless, we do not believe that the auction will have a material negative impact on our Business, because (i) during repacking the FCC is required to keep our stations in the more desirable UHF band, (ii) our three television licenses have overlapping coverage areas, so it is unlikely that we will lose service to a significant portion of the households that we serve and (iii) if the FCC is unable to reimburse all of our repacking expenses, the amount of the shortfall is unlikely to be material to our Business as a whole.
