**Costs Associated with Exit or Disposal Activities**

On June 14, 2017, Synchronoss Technologies, Inc. (the Company) commenced a management streamlining and realignment plan. The primary components of the plan involve reducing layers of management, where appropriate, to increase accountability and effectiveness and streamlining certain functions to reflect the new organizational structure. As a result of this reduction in force, the Company estimates that it will recognize a pre-tax charge of approximately \$22 million to \$25 million which consists of severance payments and other termination costs. The Company anticipates that the majority of the charge will be recognized in the second quarter of 2017 and the cash expenditures will be substantially paid out by the third quarter of 2017.

The plan, together with the management changes previously announced, is expected to realize approximately \$70 million of annualized pre-tax expense savings. These expected savings are in addition to the approximate \$20 million of annualized pre-tax expense synergies as a result of the staff reductions completed in connection with its acquisition of Intralinks Holdings, Inc.

The foregoing amounts and timing may vary materially based on various factors.
