Team,

As you can see from Bill's note, we have a lot to celebrate today - our incredible 2017 results and our intent to acquire CallidusCloud. Personally, I could not be more excited that we are teaming up with a company recognized by IT industry analysts as the leader in the lead-to-money space. The close of the acquisition will put us in a position to take a huge step forward to address the changing needs of our customers, especially now when they must equip a modern salesforce, who are increasingly selling services rather than products.

I truly believe in putting the customer at the heart of everything we do and with CallidusCloud we accomplish just that, by helping our customers enable their salesforces. In fact, the SAP sales organization is using CallidusCloud for incentive management already, and will use it for quote and pricing configuration (CPQ).

The acquisition follows our strategy for CRM to build out a full front office suite. The combined strengths of CallidusCloud, SAP Hybris, SAP S/4HANA, and the SAP Cloud Platform will add up to a powerful, differentiated, complete, and open offering in the CRM segment that can address the entire digital customer experience. This is a bold strategic move on our part in a significant market with massive opportunity.

Today's announcement is only the first step in a legal process. The two companies will remain independent entities until the final closure of the transaction, which is expected to occur in the second quarter of 2018. Please respect the following communication guidelines as we will receive questions from customers.

1) Our message to customers should focus on awareness only e.g. This is an exciting move by SAP so we can help our customers reinvent the front office and transform sales for a new digital economy. Until the transaction closes, we are not in position to present CallidusCloud solutions. Any interest in CallidusCloud solutions should be directed to CallidusCloud.

2) This planned acquisition is highly complementary to SAP's existing solution portfolio especially SAP S/4HANA and SAP Hybris. For more information about the strategy behind this planned acquisition, please refer to my new blog ([link](#)).

Please join me and the leadership team to hear more about this exciting enhancement to our portfolio, as well as our priorities for 2018 during our next SAP Hybris All-Hands on February 7. In the meantime, familiarize yourselves with the CallidusCloud deal by reading the SAP News story or the FAQ ([links](#)).

Best,

Alex
