Item 8.01 Other Events.

As previously reported, Public Service Company of New Mexico (“PNM”), a wholly-owned subsidiary of PNM Resources, Inc. (the “Company”), made a filing with the New Mexico Public Regulation Commission (the “Commission”) in December 2016 requesting a general rate increase in its non-fuel retail electric rates. On May 23, 2017, PNM and thirteen intervenors to the case filed a revised comprehensive settlement stipulation (the “Settlement Stipulation”) requesting a non-fuel revenue increase totaling \$62.3 million, to be implemented over a two-year period beginning January 1, 2018.

On January 17, 2018, the Commission issued an order accepting the Settlement Stipulation with certain modifications. On January 19, 2018, all of the signatories to the Settlement Stipulation filed pleadings accepting modifications, as required by the order. The most significant elements of the settlement, including modifications, are:

• An increase in PNM’s non-fuel retail electric rates of \$57.9 million, before the impacts of federal tax reform, reflecting the proposed \$62.3 million increase reduced by \$4.4 million;

• An ROE of 9.575%;

• Implementation of rates, adjusted for changes to the federal corporate income tax rate and a true-up to the cost of debt, in two phases with 50% of the increase applied to services rendered after February 1, 2018 and the remaining 50% applied to services rendered after January 1, 2019;

• Permitting PNM’s recovery of approximately \$148 million of investments in the Four Corners Power Plant at PNM’s embedded cost of debt, but disallowing recovery of an equity return on such investments;

• A temporary disallowance of approximately \$36 million of PNM’s planned investments in the San Juan Generating Station, but permitting PNM to seek recovery of actual investments in future rate cases;

• Accelerated amortization of excess deferred state income taxes resulting from previous reductions in the New Mexico state corporate income tax from 20 years to 3 years; and

• Rate design as proposed in the Settlement Stipulation.

After implementation of changes to the federal corporate income tax rate and cost of debt, the order results in a net increase to PNM’s non-fuel revenue requirement of \$10.3 million. The disallowed recovery of an equity return on certain investments at Four Corners Power Plant results in an after-tax write off of approximately \$17 million.
