NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – THE COMPANY AND BASIS OF PREPARATION.

T. Rowe Price Group derives its consolidated revenues and net income primarily from investment advisory services that its subsidiaries provide to individual and institutional investors in the sponsored T. Rowe Price U.S. mutual funds and other investment portfolios, including separately managed accounts, subadvised funds, and other sponsored investment portfolios. We also provide our investment advisory clients with related administrative services, including distribution, mutual fund transfer agent, accounting, and shareholder services; participant recordkeeping and transfer agent services for defined contribution retirement plans; brokerage; and trust services.

Investment advisory revenues depend largely on the total value and composition of assets under our management. Accordingly, fluctuations in financial markets and in the composition of assets under management impact our revenues and results of operations.

These unaudited condensed consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States, which require the use of estimates and reflect all adjustments that are, in the opinion of management, necessary to a fair statement of our results for the interim periods presented. All such adjustments are of a normal recurring nature. Actual results may vary from our estimates. Certain prior year amounts have been reclassified to conform to the 2015 presentation.

The unaudited interim financial information contained in these condensed consolidated financial statements should be read in conjunction with the consolidated financial statements contained in our 2014 Annual Report.

NOTE 2 – INFORMATION ABOUT RECEIVABLES, REVENUES, AND SERVICES.

Accounts receivable from our sponsored mutual funds for advisory fees and advisory-related administrative services aggregate \$245.8 million at December 31, 2014, and \$255.3 million at March 31, 2015.

Revenues (in millions) from advisory services provided under agreements with our sponsored mutual funds and other investment clients include:

NOTE 3 – INVESTMENTS IN SPONSORED FUNDS - AVAILABLE-FOR-SALE.

We make investments in our sponsored funds for general corporate investment purposes or to provide seed capital for newly formed funds. These sponsored funds (in millions) are voting interest entities and include:

	Aggregate cost	Unrealized holding gains	losses	Aggregate fair value
December 31, 2014				
Stock and blended asset funds	\$505.4	\$231.4	\$(4.2)) \$732.6

Total	\$1,618.7	\$285.0	\$(14.3)) \$1,889.4

The unrealized holding losses are attributable to 12 fund holdings with an aggregate fair value of \$788.5 million at December 31, 2014, and 14 fund holdings with an aggregate fair value of \$413.7 million at March 31, 2015. These unrealized losses are considered temporary.

NOTE 4 – OTHER INVESTMENTS.

These investments (in millions) include:

	12/31/2014	3/31/2015
Cost method investments		
10% interest in Daiwa SB Investments Ltd. (Japan)	\$3.0	\$3.0

Securities held by consolidated sponsored investment portfolios	69.6	73.8
U.S. Treasury note	1.0	1.0
Total	\$408.3	\$419.5

The securities held by consolidated sponsored investment portfolios, sponsored fund investments held as trading, and the sponsored fund investments treated as equity method investments relate to investment portfolios in which we provided initial seed capital at the time of its formation. We have determined at December 31, 2014 and March 31, 2015, that these investment portfolios are voting interest entities and, as a result, have consolidated those sponsored portfolios in which we own a majority of the voting interest.

NOTE 5 – FAIR VALUE MEASUREMENTS.

We determine the fair value of our investments using the following broad levels of inputs as defined by related accounting standards:

Level 1 – quoted prices in active markets for identical securities.

Level 2 – observable inputs other than Level 1 quoted prices including, but not limited to, quoted prices for similar securities, interest rates, prepayment speeds, and credit risk. These inputs are based on market data obtained from independent sources.

Level 3 – unobservable inputs reflecting our own assumptions based on the best information available. We do not value any investments using Level 3 inputs.

These levels are not necessarily an indication of the risk or liquidity associated with our investments. There have been no material transfers between the levels. The following table summarizes our investments (in millions) that are recognized in our condensed consolidated balance sheets using fair value measurements determined based on the differing levels of inputs.

NOTE 6 – STOCKHOLDERS' EQUITY.

Regular cash dividends declared per share in the first quarter were \$.44 in 2014 and \$.52 in 2015. On February 19, 2015, the Board of Directors also declared a special cash dividend of \$2.00 per share, payable on April 23, 2015 to stockholders of record as of the close of business on April 9, 2015.

NOTE 7 – STOCK-BASED
COMPENSATION.

STOCK OPTIONS.

The following table summarizes the status of and changes in our stock option grants during the first quarter of 2015.

	Options	Weighted- average exercise price
Outstanding at December 31, 2014	29,761,519	\$56.95
Semiannual grants	1,931,325	\$82.97
New hire grants	6,000	\$80.01
Exercised	(1,251,758)	\$44.87
Forfeited	(202,113)	\$68.54
Outstanding at March 31, 2015	30,244,973	\$59.03
Exercisable at March 31, 2015	17,381,933	\$50.53

EFFECT OF SPECIAL CASH DIVIDEND.

As a result of the special cash dividend declared by the Board of Directors in February 2015, the anti-dilution provisions of our employee long-term incentive plans and non-employee director plans (collectively the LTI Plans) require an automatic adjustment to neutralize the effect of the special dividend. On the special dividend's ex-dividend date (April 7, 2015), the number of shares authorized and the number of stock options outstanding and their exercise price were adjusted resulting in an increase of 749,578 stock options outstanding on the ex-dividend date, and no incremental compensation expense. The stock option table above will be adjusted to reflect the impact in the second quarter of 2015.

RESTRICTED SHARES AND STOCK UNITS.

The following table summarizes the status of and changes in our nonvested restricted shares and restricted stock units during the first quarter of 2015.

	Restricted shares	Restricted stock units	Weighted-average fair value
Nonvested at December 31, 2014	2,061,559	1,006,753	\$ 72.79
Granted to employees - time-based	—	625,518	\$ 82.96
Granted to employees - performance-based	—	27,975	\$ 82.97
Vested	(1,758)	(1,080)	\$ 70.81

Nonvested at March 31, 2015	2,033,908	1,634,176	\$ 74.60

The nonvested at March 31, 2015, includes 28,800 performance-based restricted shares and 175,500 performance-based restricted stock units. These performance-based restricted shares and units include 22,800 restricted shares and 121,050 restricted stock units for which the performance period has lapsed and the performance threshold has been met.

FUTURE STOCK-BASED COMPENSATION EXPENSE.

The following table presents the compensation expense (in millions) to be recognized over the remaining vesting periods of the stock-based awards outstanding at March 31, 2015. Estimated future compensation expense will change to reflect future option grants; future awards of unrestricted shares, restricted stock units; changes in estimated forfeitures; changes in the probability of performance thresholds being met; and adjustments for actual forfeitures.

Second quarter 2015	\$35.4
Third quarter 2015	34.9
Fourth quarter 2015	31.4
2016	86.7
2017 through 2020	88.5
Total	\$276.9

NOTE 8 – EARNINGS PER SHARE CALCULATIONS.

The following table presents the reconciliation (in millions) of our net income to net income allocated to our common stockholders and the weighted-average shares (in millions) that are used in calculating the basic and diluted earnings per share on our common stock. Weighted-average common shares outstanding assuming dilution reflects the potential dilution, determined using the treasury stock method, that could occur if outstanding stock options were exercised and non-participating stock awards vested.

	Three months ended	
	3/31/2014	3/31/2015

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
T. Rowe Price Group, Inc.:

We have reviewed the condensed consolidated balance sheet of T. Rowe Price Group, Inc. and subsidiaries (“the Company”) as of March 31, 2015, the related condensed consolidated statements of income, comprehensive income, and cash flows for the three-month periods ended March 31, 2015 and 2014, and the related condensed consolidated statement of stockholders’ equity for the three-month period ended March 31, 2015. These condensed consolidated financial statements are the responsibility of the Company’s management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of T. Rowe Price Group, Inc. and subsidiaries as of December 31, 2014, and the related consolidated statements of income, comprehensive income, stockholders’ equity, and cash flows for the year then ended (not presented herein); and in our report dated February 5, 2015, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2014, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

GENERAL.

Our revenues and net income are derived primarily from investment advisory services provided to individual and institutional investors in our sponsored U.S. mutual funds and other investment portfolios. The other investment portfolios include separately managed accounts, subadvised funds, and other sponsored investment portfolios including collective investment trusts, target-date retirement trusts, Luxembourg-based funds offered to investors outside the U.S., and portfolios offered through variable annuity life insurance plans. Investment advisory clients domiciled outside the U.S. account for 5.1% of our assets under management at March 31, 2015.

We manage a broad range of U.S., international and global stock, bond, and money market mutual funds and other investment portfolios, which meet the varied needs and objectives of individual and institutional investors. Investment advisory revenues depend largely on the total value and composition of assets under our management. Accordingly, fluctuations in financial markets and in the composition of assets under management affect our revenues and results of operations.

We remain debt-free with substantial liquidity and resources that allow us to take advantage of attractive growth opportunities, invest in key capabilities, including investment professionals, technologies, and new fund offerings; and, most importantly, provide our clients with strong investment management expertise and service both now and in the future. We expect to continue our investment in long-term initiatives to sustain and deepen our investment talent, add investment capabilities both in terms of new strategies and new investment vehicles, expand capabilities through enhanced technology, and broaden our distribution reach globally.

BACKGROUND.

U.S. stocks rose in the first quarter of 2015 despite occasional bouts of volatility and uncertainty about when the Federal Reserve would begin tightening monetary policy. Most major U.S. equity indexes reached all-time highs during March. Corporate merger activity, reduced energy costs, low interest rates, and massive quantitative easing efforts in the eurozone and Japan supported stock prices.

Stocks in developed non-U.S. markets generally outperformed U.S. shares, despite the stronger dollar. Asian markets outperformed European peers, with Japanese shares rising more than 10% and reaching a 15-year high. European markets did very well in local currency terms, but a sharp drop in the euro resulted in milder returns in dollar terms. Equities in developing markets underperformed shares in developed non-U.S. markets, hurt by weaker currencies.

Returns of several major equity market indexes for the first quarter of 2015 are as follows:

Index	
S&P 500 Index	1.0%
NASDAQ Composite Index ⁽¹⁾	3.5%
Russell 2000 Index	4.3%
MSCI EAFE (Europe, Australasia, and Far East) Index	5.0%
MSCI Emerging Markets Index	2.3%

⁽¹⁾ returns exclude dividends

Global bonds were mixed in the first quarter of 2015. In the U.S., investment-grade bonds produced positive returns amid weak inflation readings, decelerating economic growth, falling long-term interest rates, and strong foreign demand for U.S. Treasuries, whose yields are higher than sovereign debt yields in Europe and Japan. The yield on the benchmark 10-year Treasury note dropped from 2.17% to 1.94% during the quarter. High yield bonds outperformed

high-quality issues, as the market rebounded from some oil-related weakness late last year.

Bonds in developed non-U.S. markets produced negative returns in dollar terms as the U.S. dollar appreciated against most currencies. Emerging markets bonds were mixed, generally, as bonds denominated in local currencies declined in dollar terms, but dollar-denominated debt registered gains.

Returns for several major bond market indexes for the first quarter of 2015 are as follows:

Index	
Barclays U.S. Aggregate Bond Index	1.6%
Credit Suisse High Yield Index	2.6%
Barclays Municipal Bond Index	1.0%
Barclays Global Aggregate Ex-U.S. Dollar Bond Index	(4.6)%
JPMorgan Emerging Markets Bond Index Plus	1.9%

ASSETS UNDER MANAGEMENT.

Assets under management ended the first quarter of 2015 at \$772.7 billion, an increase of \$25.9 billion from the end of 2014. Market appreciation and income added \$24.0 billion and net cash inflows added \$1.9 billion in assets under management during the first quarter of 2015.

Assets under management (in billions) as of December 31, 2014 and March 31, 2015, are presented by investment portfolio and investment objective in the following table.

	As of	
	12/31/2014	3/31/2015
Sponsored U.S. mutual funds	\$477.6	\$497.2
Other investment portfolios	269.2	275.5
Total	\$746.8	\$772.7

	As of	
	12/31/2014	3/31/2015
Stock and blended asset portfolios	\$579.9	\$602.9
Fixed income portfolios	166.9	169.8
Total	\$746.8	\$772.7

The following table details the changes in our assets under management (in billions) during the first quarter of 2015:

	Sponsored U.S. mutual funds	Other investment portfolios	Total
Assets under management at December 31, 2014	\$477.6	\$269.2	\$746.8
Net cash flows before client transfers	6.2	(4.3)) 1.9
Client transfers from mutual funds to other portfolios	(2.8)) 2.8	—
Net cash flows after client transfers	3.4	(1.5)) 1.9
Net market appreciation and income	16.2	7.8	24.0
Change during the period	19.6	6.3	25.9
Assets under management at March 31, 2015	\$497.2	\$275.5	\$772.7

More than half of the client transfers from mutual funds to other investment portfolios noted in the table above were moved from our target-date retirement funds to our collective investment trusts and target-date retirement trusts.

The net cash inflows, after client transfers, into the mutual funds of \$3.4 billion, include net inflows of \$2.1 billion into the stock and blended asset funds and \$1.6 billion into the fixed income funds. The money market funds had net outflows of \$.3 billion. The net cash outflows from the other investment portfolios were largely concentrated among a

small number of clients who redeemed from large-cap U.S. equity strategies.

Our target-date retirement portfolios invest in a broadly diversified portfolio of other T. Rowe Price funds or T. Rowe Price collective investment trusts, and automatically rebalance to maintain their specific asset allocation weightings.

Total net cash

Page 15

flows for the first quarter of 2015 include \$7.5 billion that originated in these portfolios. Assets under management in these retirement portfolios at March 31, 2015 totaled \$160.9 billion, including \$134.2 billion in target-date retirement funds and \$26.7 billion in target-date retirement trusts.

At December 31, 2014, assets under management in retirement related accounts and variable annuity portfolios were approximately \$510 billion, of which about 60% were defined contribution assets.

We incur significant expenditures to attract new investment advisory clients and additional investments from our existing clients. These efforts involve costs that generally precede any future revenues that we might recognize from additions to our assets under management.

RESULTS OF OPERATIONS.

First quarter of 2015 versus first quarter of 2014.

(in millions, except per-share data)	Three months ended		Dollar change	Percent change	
	3/31/2015	3/31/2014			
Investment advisory fees	\$896.5	\$826.4	\$70.1	8.5	%
Net revenues	\$1,027.0	\$954.6	\$72.4	7.6	%
Operating expenses	\$549.2	\$505.5	\$43.7	8.6	%
Net operating income	\$477.8	\$449.1	\$28.7	6.4	%
Non-operating investment income	\$26.8	\$42.1	\$(15.3)	(36.3))%
Net income	\$309.5	\$304.3	\$5.2	1.7	%
Diluted earnings per share on common stock	\$1.13	\$1.12	\$.01	.9	%
Average assets under management (in billions)	\$759.0	\$701.2	\$57.8	8.2	%

Investment advisory fees earned in the first quarter of 2015 increased over the comparable 2014 quarter as average assets under our management increased \$57.8 billion, or 8.2%, to \$759.0 billion. The average annualized effective fee rate earned on our assets under management during the first quarter of 2015 was 47.9 basis points, which is virtually unchanged from the 47.8 basis points earned during the first quarter of 2014 and during the full year 2014. We voluntarily waived \$13.7 million in money market related fees, including advisory fees and fund expenses, in the first quarter of 2015, in order to maintain a positive yield for fund investors. The fee waivers in the first quarter of 2015 were down \$.6 million from the comparable 2014 quarter and represent about 2% of total investment advisory fees earned during the first quarter of 2015. Fees were waived from each of our money market mutual funds and trusts, which have combined net assets of \$15.8 billion at March 31, 2015. We expect that these fee waivers will continue for the remainder of 2015.

Our operating margin in the first quarter of 2015 was 46.5%, a slight decline compared to 47.0% in the 2014 quarter, as we continue to make investments to broaden and deepen our investment management, distribution, and service capabilities around the world.

Net revenues

Investment advisory revenues earned from the T. Rowe Price mutual funds distributed in the U.S. were \$645.9 million, an increase of \$55.1 million, or 9.3%, on higher average assets under management. Average mutual fund assets under management in the first quarter of 2015 were \$487.1 billion, an increase of 10.0% from the average in the first quarter of 2014.

Investment advisory revenues earned in the first quarter of 2015 from the other investment portfolios were \$250.6 million, an increase of \$15.0 million, or 6.4%, from the comparable 2014 quarter. Average assets under management in the first quarter of 2015 were \$271.9 billion, an increase of 5.2%, from the average in the first quarter of 2014.

Administrative fee revenues decreased \$1.5 million to \$93.0 million in the first quarter of 2015. The decrease is primarily due to a reduction in certain administrative services fees provided to certain fund shareholders. Changes in administrative fee

revenues are generally offset by similar changes in related operating expenses that are incurred to provide services to the funds and their shareholders.

Distribution and servicing fee revenues earned from 12b-1 plans of the Advisor Class, R Class, and variable annuity class shares of our sponsored funds and portfolios increased \$3.8 million from the first quarter of 2014 on greater average assets under management in these share classes. The 12b-1 fees earned are offset entirely by the costs paid to third-party intermediaries who source these assets. These costs are reported as distribution and servicing costs in the condensed consolidated statements of income.

Operating expenses

Compensation and related costs were \$346.5 million in the first quarter of 2015, an increase of \$27.6 million, or 8.7%, compared to the first quarter of 2014. The largest part of the change is attributable to a \$9.6 million increase in the interim accrual for our annual variable compensation programs and \$12.6 million in higher base salaries and related benefits, which result from a modest increase in salaries at the beginning of 2015 combined with a 3.7% increase in our average staff size from the first quarter of 2014. The balance of the change from the 2014 quarter is attributable to an increase in non-cash stock-based compensation expense, an increase in temporary personnel to support our continued investment in our capabilities, and higher other employee-related costs. At March 31, 2015, we employed 5,905 associates.

Advertising and promotion costs were \$25.3 million in the first quarter of 2015, an increase of \$2.7 million from the comparable 2014 period. The increase in cost is primarily attributable to the creation and launch of a new advertising campaign. We currently expect advertising and promotion costs for the full-year 2015 could increase about 5% from 2014 levels.

Occupancy and facility costs, together with depreciation and amortization expense, were \$67.4 million in the first quarter of 2015, up \$4.9 million compared to the first quarter of 2014. The increase is primarily attributable to the added costs to update and enhance technology capabilities, including related maintenance programs.

Other operating expenses in the first quarter of 2015 were up \$4.7 million from the comparable 2014 quarter, as increased business demands and our continued investment in our operating capabilities have increased costs. These higher costs in the first quarter of 2015 include those related to the firm's defined contribution recordkeeping business, information and other third-party service costs, travel costs, and other general and administrative costs.

Non-operating investment income

Net non-operating investment income, which includes the recognition of investment gains and losses, in the first quarter of 2015 decreased \$15.3 million from the 2014 quarter to \$26.8 million. We realized gains of \$16.6 million from the sale of certain of our sponsored fund investments in the first quarter of 2015 compared with \$32.0 million in the 2014 quarter.

Provision for income taxes

The effective tax rate for the first quarter of 2015 was 38.7%, and we currently estimate that our effective tax rate for the full-year 2015 will be about 38.8%. Our effective income tax rate reflects the relative contribution of pre-tax income generated by our non-U.S. subsidiaries that are subject to tax rates that are lower than our U.S. rates. Changes in the relative contribution of pre-tax income from U.S. and non-U.S. sources or changes in tax rates in the U.S. or relevant non-U.S. jurisdictions may affect our effective income tax rate and overall net income in the future.

CAPITAL RESOURCES AND LIQUIDITY.

Operating activities during the first quarter of 2015 provided cash flows of \$543.8 million, up \$56.7 million from the 2014 period. We used \$20.1 million less cash in the first quarter of 2015 compared with the 2014 period to seed new sponsored investment portfolios that we consolidate and treat their underlying investment holdings as trading securities. Our cash flows were also only reduced by a \$16.6 million adjustment for realized gains in the 2015 quarter compared with \$32.0 million in 2014 as we sold fewer investments in sponsored funds in 2015. This adjustment backs out the realized gains from cash flows provided by operating activities as they are included in the proceeds reported as an investing activity in our consolidated statements of cash flows. Higher net income, non-cash depreciation and amortization, and non-cash stock-based compensation in 2015 period increased cash flows by \$9.0 million. Timing differences on the cash settlement of our assets and liabilities increased our operating cash flows by \$12.7 million compared to the 2014 period. Our interim operating cash flows do not

include the cash impact of variable compensation that is accrued throughout the year before being substantially paid out in December.

Net cash used in investing activities totaled \$34.1 million in the first quarter of 2015, an increase of \$4.3 million from the comparable 2014 period. We increased our property and equipment additions by \$15.9 million during the first quarter of 2015 compared to the 2014 period. This increase in capital expenditures was offset by a \$12.2 million decline in net investments made into our sponsored funds in the 2015 quarter.

Net cash used in financing activities was \$205.4 million in the first quarter of 2015, up \$89.4 million from the comparable 2014 period. We increased our common stock repurchases by \$82.3 million during the first quarter of 2015 compared with the 2014 period. Our cash outflow for dividends paid in 2015 increased \$19.6 million over the prior year period due primarily to the 18% increase in our regular quarterly per-share dividend. These increases in net cash used in financing activities are offset in part by the \$10.3 million in proceeds received from option exercises. Our financing cash flows for the first quarter of 2015 do not include the \$524 million cash impact of the special dividend that was declared in February 2015 but payable on April 23, 2015.

Our cash and sponsored investment holdings at March 31, 2015, were \$3.7 billion, and we have no debt. We anticipate property and equipment expenditures for the full year 2015 could be up to \$175 million and expect to fund them from our operating resources. We generally repurchase shares of our common stock over time to offset the dilution created by our equity-based compensation plans. Given the availability of our financial resources, we do not maintain an available external source of liquidity.

NEW ACCOUNTING STANDARDS.

In May 2014, the FASB issued Accounting Standards Update No. 2014-09 - Revenue from Contracts with Customers. The objective of the new standard is to provide a single, comprehensive revenue recognition model for all contracts with customers to improve comparability within industries, across industries, and across capital markets. The revenue standard contains principles that will be applied to determine the measurement of revenue and timing of when it is recognized. In April 2015, the FASB voted to propose a one-year delay in the effective date of the standard. We would be required to adopt the new standard on January 1, 2018. We are currently evaluating the impact this standard will have on our financial position and results of operations.

In February 2015, the FASB issued Accounting Standards Update No. 2015-02 - Consolidation (Topic 810): Amendments to the Consolidation Analysis. This standard modifies existing consolidation guidance for reporting companies that are required to evaluate whether they should consolidate certain legal entities. ASU 2015-02 is effective for fiscal years and interim periods within those years beginning after December 15, 2015, and requires either a retrospective or a modified retrospective approach to adoption. The guidance does permit early adoption. We are currently evaluating the impact this standard will have on our financial position and results of operations.

We have considered all other newly issued accounting guidance that is applicable to our operations and the preparation of our condensed consolidated statements, including that which we have not yet adopted. We do not believe that any such guidance has or will have a material effect on our financial position or results of operations.

FORWARD-LOOKING INFORMATION.

From time to time, information or statements provided by or on behalf of T. Rowe Price, including those within this report, may contain certain forward-looking information, including information or anticipated information relating to: our revenues, net income and earnings per share on common stock; changes in the amount and composition of our assets under management; our expense levels; our estimated effective income tax rate; and our expectations regarding

financial markets, future transactions, dividends, investments, capital expenditures, and other conditions. Readers are cautioned that any forward-looking information provided by or on behalf of T. Rowe Price is not a guarantee of future performance. Actual results may differ materially from those in forward-looking information because of various factors including, but not limited to, those discussed below and in Item 1A, Risk Factors, of our Form 10-K Annual Report for 2014. Further, forward-looking statements speak only as of the date on which they are made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which it is made or to reflect the occurrence of unanticipated events.

Our future revenues and results of operations will fluctuate primarily due to changes in the total value and composition of assets under our management. Such changes result from many factors including, among other things: cash inflows and outflows in the T. Rowe Price U.S. mutual funds (Price funds) and other managed investment portfolios; fluctuations in global financial markets that result in appreciation or depreciation of the assets under our management; our introduction of new mutual funds

and investment portfolios; and changes in retirement savings trends relative to participant-directed investments and defined contribution plans. The ability to attract and retain investors' assets under our management is dependent on investor sentiment and confidence; the relative investment performance of the Price funds and other managed investment portfolios as compared to competing offerings and market indexes; the ability to maintain our investment management and administrative fees at appropriate levels; competitive conditions in the mutual fund, asset management, and broader financial services sectors; and our level of success in implementing our strategy to expand our business. Our revenues are substantially dependent on fees earned under contracts with the Price funds and could be adversely affected if the independent directors of one or more of the Price funds terminated or significantly altered the terms of the investment management or related administrative services agreements. Non-operating investment income will also fluctuate primarily due to the size of our investments, changes in their market valuations, and any other-than-temporary impairments that may arise, or in the case of our equity method investments, our proportionate share of the investee's net income.

Our future results are also dependent upon the level of our expenses, which are subject to fluctuation for the following or other reasons: changes in the level of our advertising expenses in response to market conditions, including our efforts to expand our investment advisory business to investors outside the U.S. and to further penetrate our distribution channels within the U.S.; variations in the level of total compensation expense due to, among other things, bonuses, stock option grants and other equity grants, other incentive awards, changes in our employee count and mix, and competitive factors; any goodwill or other asset impairment that may arise; fluctuation in foreign currency exchange rates applicable to our investment in and the costs of our international operations; expenses and capital costs, such as technology assets, depreciation, amortization, and research and development, incurred to maintain and enhance our administrative and operating services infrastructure; unanticipated costs that may be incurred to protect investor accounts and the goodwill of our clients; and disruptions of services, including those provided by third parties, such as facilities, communications, power, and the mutual fund transfer agent and accounting systems.

Our business is also subject to substantial governmental regulation, and changes in legal, regulatory, accounting, tax, and compliance requirements may have a substantial effect on our operations and results, including but not limited to effects on costs that we incur and effects on investor interest in mutual funds and investing in general, or in particular classes of mutual funds or other investments.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There has been no material change in the information provided in Item 7A of the Form 10-K Annual Report for 2014.

Item 4. Controls and Procedures.

Our management, including our principal executive and principal financial officers, has evaluated the effectiveness of our disclosure controls and procedures as of March 31, 2015. Based on that evaluation, our principal executive and principal financial officers have concluded that our disclosure controls and procedures as of March 31, 2015, are effective at the reasonable assurance level to ensure that the information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, including this Form 10-Q quarterly report, is recorded, processed, summarized, and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms, and to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Our management, including our principal executive and principal financial officers, has evaluated any change in our internal control over financial reporting that occurred during the first quarter of 2015, and has concluded that there

was no change during the first quarter of 2015 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

From time to time, various claims against us arise in the ordinary course of business, including employment-related claims. In the opinion of management, after consultation with counsel, the likelihood that an adverse determination in one or more pending claims would have a material adverse effect on our financial position or results of operations is remote.

Item 1A. Risk Factors.

There have been no material changes in the information provided in Item 1A of our Form 10-K Annual Report for 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

(c) Repurchase activity during the first quarter of 2015 is as follows.

Month	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares that May Yet Be Purchased Under the Program
January	511,465	\$79.47	461,661	20,439,143
February	725,511	\$81.32	600,000	19,839,143
March	434,663	\$82.22	349,388	19,489,755
Total	1,671,639	\$80.99	1,411,049	

Shares repurchased by us in a quarter may include repurchases conducted pursuant to publicly announced board authorizations, outstanding shares surrendered to the company to pay the exercise price in connection with swap exercises of employee stock options, and shares withheld to cover the minimum tax withholding obligation associated with the vesting of restricted stock awards. Of the total number of shares purchased during the first quarter of 2015, 259,903 were related to shares surrendered in connection with employee stock option exercises and 687 were related to shares withheld to cover tax withholdings associated with the vesting of restricted stock awards.

The maximum number of shares that may be purchased are available under the Board of Directors' September 8, 2010 and December 11, 2014, publicly announced authorization. The 1,411,049 shares of our common stock were repurchased pursuant to the Board of Directors' September 8, 2010, publicly announced authorizations.

Item 4. Mine Safety Disclosures.

Not applicable.
