Notes to Condensed Consolidated Financial Statements

1. Organization and Basis of Presentation

HealthWarehouse.com, Inc. ("HEWA" or the "Company"), a Delaware company incorporated in 1998, is an online mail order pharmacy, licensed in 50 states and the District of Columbia to focus on the out-of-pocket prescription drug market. The Company is Verified Internet Pharmacy Practice Site ("VIPPS") accredited by the National Association of Boards of Pharmacy ("NABP"). The Company markets a complete range of generic, brand name, and pet prescription medications as well as over-the-counter ("OTC") medications and products.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial information. Accordingly, they do not include all of the information and disclosures required by U.S. GAAP for annual financial statements. In the opinion of management, such statements include all adjustments (consisting only of normal recurring items) which are considered necessary for a fair presentation of the condensed consolidated financial statements of the Company as of June 30, 2016 and for the six months ended June 30, 2016 and 2015. The results of operations for the three and six months ended June 30, 2016 are not necessarily indicative of the operating results for the full year ending December 31, 2016 or any other period. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related disclosures of the Company as of December 31, 2015 and for the year then ended, which were filed with the Securities and Exchange Commission on Form 10-K on March 25, 2016.

2. Going Concern and Management's Liquidity Plans

Since inception, the Company has financed its operations primarily through debt and equity financings and advances from related parties. As of June 30, 2016, the Company had a working capital deficiency of \$4,345,064 and an accumulated deficit of \$31,663,634. During the six months ended June 30, 2016 and the year ended December 31, 2015, the Company incurred net losses of \$333,118 and \$626,682, respectively, and used cash in operating activities of \$64,072 and \$548,281, respectively. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

Subsequent to June 30, 2016, the Company continues to incur net losses, use cash in operating activities and experience cash and working capital constraints.

The Company is subject to a 2013 Notice of Redemption related to its Series C Redeemable Preferred Stock aggregating \$1,000,000, whereby the Company must now apply all of its assets to redemption of the Series C Preferred Stock and to no other corporate purpose, except to the extent prohibited by Delaware law governing distributions to stockholders (the Company is not permitted to utilize toward the redemption those assets required to pay its debts as they come due and those assets required to continue as a going concern).

The Company recognizes it will need to raise additional capital in order to fund operations, meet its payment obligations, including its obligations under a loan and security agreement (see Note 5), and execute its business plan. There is no assurance that additional financing will be available when needed or that management will be able to obtain financing on terms acceptable to the Company and whether the Company will become profitable and generate positive operating cash flow. If the Company is unable to raise sufficient additional funds, it will have to develop and implement a plan to further extend payables, attempt to extend note repayments, attempt to negotiate the preferred

stock redemption and reduce overhead until sufficient additional capital is raised to support further operations. There can be no assurance that such a plan will be successful. If the Company is unable to obtain financing on a timely basis, the Company could be forced to sell its assets, discontinue its operation and /or seek reorganization under the U.S. bankruptcy code.

Accordingly, the accompanying condensed consolidated financial statements have been prepared in conformity with U.S. GAAP, which contemplates continuation of the Company as a going concern and the realization of assets and the satisfaction of liabilities in the normal course of business. The carrying amounts of assets and liabilities presented in the condensed consolidated financial statements do not necessarily represent realizable or settlement values. The condensed consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

3. Summary of Significant Accounting Policies

Principles of Consolidation

The condensed consolidated financial statements include the accounts of HealthWarehouse.com, Inc., Hwareh.com, Inc., Hocks.com, Inc., ION Holding NV and ION Belgium NV, its wholly-owned subsidiaries. ION Holding NV and ION Belgium NV are inactive subsidiaries. All material inter-company balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The Company's significant estimates include reserves related to accounts receivable and inventory, the recoverability and useful lives of long-lived assets, the valuation allowance related to deferred tax assets, the valuation of equity instruments and debt discounts.

Reclassifications

Certain accounts in the prior period condensed consolidated financial statements have been reclassified for comparison purposes to conform to the presentation of the current period condensed consolidated financial statements. These reclassifications had no effect on the previously reported net loss.

Net Earnings (Loss) Per Share of Common Stock

Basic net earnings (loss) per share is computed by dividing net earnings (loss) attributable to Common Stockholders by the weighted average number of common shares outstanding during the period. Diluted net earnings (loss) per share reflects the potential dilution that could occur if securities or other instruments to issue Common Stock were exercised or converted into Common Stock. Potentially dilutive securities are excluded from the computation of diluted net earnings (loss) per share if their inclusion would be anti-dilutive and consist of the following:

	June 30,	
	2016	2015
Options	5,109,386	5,008,830
Warrants	10,046,198	9,976,474

Total potentially dilutive shares	21,048,304	20,492,506

4. Accrued Expenses and Other Current Liabilities

TABLE OF CONTENTS

5. Notes Payable

The Company is a party to a Loan and Security Agreement (the "Loan Agreement") with a lender (the "Lender"). Under the terms of the Loan Agreement, the Company borrowed an aggregate of \$1,000,000 from the Lender (the "Loan"). The Loan is evidenced by a promissory note (the "Senior Note") in the face amount of \$1,000,000 (as amended). The Senior Note bears interest on the unpaid principal balance of the Note until the full amount of principal has been paid at a floating rate equal to the Prime Rate plus 4.25% per annum (7.75% as of June 30, 2016). Under the terms of the Loan Agreement, the Company has agreed to make monthly payments of accrued interest on the first day of every month. The principal amount and all unpaid accrued interest on the Note is payable on August 31, 2016, or earlier in the event of default or a sale or liquidation of the Company. The Loan may be prepaid in whole or in part at any time by the Company without penalty. The Senior Note contains financial covenants which require the Company to meet certain minimum targets for earnings before interest, taxes and non-cash expenses, including depreciation, amortization and stock-based compensation ("EBITDAS"). The Company granted the Lender a first, priority security interest in all of the Company's assets, in order to secure the Company's obligation to repay the Loan, including a Deposit Account Control Agreement, which grants the Lender a security interest in certain bank accounts. In addition, the Company is required to direct the proceeds of its credit card receipts to a cash collateral account controlled by the Lender.

On January 11, 2016, the Company entered into an Amendment to Promissory Note in the face amount of \$100,000 with a different lender, effective October 31, 2015, which extended the maturity date of the note payable from November 1, 2015 to October 31, 2016. In consideration of the extension of the maturity date of the note payable, the Company issued to the lender a five-year warrant to purchase 75,000 shares of Common Stock at an exercise price of \$0.25 per share. The warrants had a fair value of \$15,500 using the Black-Scholes model (see note 6) which was established as debt discount during the six months ended June 30, 2016 and is being amortized using the effective interest method over the remaining term of the Promissory Note. Including the value of the warrants issued in connection with the extension of the maturity date of the Promissory Note, the Promissory Note has an effective interest rate of 23% per annum during the extension period.

The Company recorded amortization of debt discount associated with notes payable of \$5,167 and \$8,611 for the three and six months ended June 30, 2016, respectively, and \$25,250 and \$79,767 for the three and six months ended June 30, 2015, respectively.

6. Stockholders' Deficiency

Preferred Stock

As of June 30, 2016 and December 31, 2015, the Company had accrued contractual dividends of \$171,116 and \$319,853, respectively, related to the Series B Preferred Stock. On January 1, 2016 and 2015, the Company issued 33,847 and 31,633 shares of Series B convertible preferred stock valued at approximately \$320,000 and \$299,000, respectively, representing approximately \$0.66 in value per share of Series B Preferred Stock outstanding on each date, to the Series B convertible preferred stock holders as payment in kind for dividends.

Net sales for the three months ended June 30, 2016 increased to \$2,403,974 from \$1,870,840 for the three months ended June 30, 2015, an increase of \$533,134, or 28.5% due to an increase in core consumer prescription and over-the-counter sales offset by a reduction in business-to-business sales which declined by \$280,801. The core prescription sales grew by \$598,002 or 49.3% as new customers grew 140.0% and repeat customers grew 63.1%, in comparison to the same quarter of the prior year, continuing the upward trend experienced during 2015. Core over-the-counter sales grew by \$181,273 or 58.3% and order volume increased by 83.6% due to continued advertising efforts and improved order fulfillment rates and customer satisfaction. The combined second quarter core consumer prescription and over-the-counter sales increased 51.2% while order volume increased 75.9% when compared to order levels of the same quarter of the prior year due to new customer acquisition through advertising and customer retention.

The Company continues to benefit from being prominently featured in two nationally recognized consumer magazines during the fourth quarter of 2015 as having the lowest price among top US Pharmacies for five commonly prescribed medications. In 2016, those articles and subsequent articles continue to be featured and rebroadcasted by the national media outlets as the cost of prescription drugs has developed into a national issue. The favorable articles had an immediate impact on new customer acquisition and order volume beginning in December 2015 with combined consumer prescription and over-the-counter orders from new customers in June 2016 increasing by 85% in comparison to order levels in October 2015, prior to the release of the articles. This trend in new customer acquisition growth has positively impacted repeat customer orders which increased during the first and second quarters of 2016 and we believe will continue through the remainder of 2016 as the Company will continue to focus on customer acquisition, conversion and retention.

Cost of sales were \$858,836 for the three months ended June 30, 2016 as compared to \$618,391 for the three months ended June 30, 2015, an increase of \$240,445, or 38.9%, primarily as a result of an increase in consumer prescription and over-the-counter order volume offset by a reduction in business-to-business orders. Gross margin percentage decreased from 66.9% for the three months ended June 30, 2015 to 64.3% for the three months ended June 30, 2016, primarily due to one-time higher margin business-to-business opportunities in 2015. Management will continue to focus its advertising and operational efforts on promoting and offering its higher margin product lines to consumers and strategic purchasing efforts to further improve costs.

Adjusted EBITDAS

We believe Adjusted Earnings Before Interest, Taxes, Depreciation, Amortization and Stock-Based Compensation ("Adjusted EBITDAS"), a non-GAAP financial measure, is useful in evaluating our operating performance compared to that of other companies in our industry, as this metric generally eliminates the effects of certain items that may vary for different companies for reasons unrelated to overall operating performance. We believe that:

Adjusted EBITDAS provides investors and other users of our financial information consistency and comparability with our past financial performance, facilitates period-to-period comparisons of operations and facilitates comparisons with other companies, many of which use similar non-GAAP financial measures to supplement their GAAP results; and

Adjusted EBITDAS is useful because it excludes non-cash charges, such as depreciation and amortization, stock-based compensation and one-time charges, which the amount of such expense in any specific period may not directly correlate to the underlying performance of our business operations and these expenses can vary significantly between periods.

We use Adjusted EBITDAS in conjunction with traditional GAAP measures as part of our overall assessment of our performance, to evaluate the effectiveness of our business strategies and to communicate with our lenders, stockholders and board of directors concerning our financial performance.

Adjusted EBITDAS should not be considered as a substitute for other measures of financial performance reported in accordance with GAAP. There are limitations to using non-GAAP financial measures, including that other companies may calculate these measures differently than we do. We compensate for the inherent limitations associated with using Adjusted EBITDAS through disclosure of these limitations, presentation of our financial statements in accordance with GAAP and reconciliation of Adjusted EBITDAS to the most directly comparable GAAP measure, specifically net loss.

The following provides a reconciliation of net loss to Adjusted EBITDAS:

Off-Balance Sheet Arrangements

We have not entered into any transactions with unconsolidated entities in which we have financial guarantees, subordinated retained interests, derivative instruments or other contingent arrangements that expose us to material continuing risks, contingent liabilities or any other obligations under a variable interest in an unconsolidated entity that provides us with financing, liquidity, market risk or credit risk support.

Impact of Inflation

We believe that inflation has not had a material impact on our results of operations for the six months ended June 30, 2016 and 2015. We cannot assure you that future inflation will not have an adverse impact on our operating results and financial condition.

Liquidity and Capital Resources

Since inception, we have financed operations primarily through debt and equity financings and advances from stockholders. As of June 30, 2016 we had a working capital deficiency of \$4,345,064 and an accumulated deficit of \$31,663,634. During the six months ended June 30, 2016 and the year ended December 31, 2015, we incurred net losses of \$333,118 and \$626,682 and used cash in operating activities of \$64,072 and \$548,281, respectively. These conditions raise substantial doubt about our ability to continue as a going concern.

Subsequent to June 30, 2016, we continue to incur net losses, use cash in operating activities and experience cash and working capital constraints.

The Company is subject to a Notice of Redemption related to our Series C Redeemable Preferred Stock aggregating \$1,000,000 and must apply all of our assets to redemption of the Series C Preferred Stock and to no other corporate purpose, except to the extent prohibited by Delaware law governing distributions to stockholders (we are not permitted to utilize toward the redemption those assets required to pay our debts as they come due and those assets required to continue as a going concern).

We recognize that we will need to raise additional capital in order to fund operations, meet our payment obligations, including its obligations under a loan and security agreement (see Note 5 to our condensed consolidated financial statements) and the redemption of the Series C Redeemable Preferred Stock, and execute our business plan. There is no assurance that additional financing will be available when needed or that management will be able to obtain financing on terms acceptable to us and whether we will become profitable and generate positive operating cash flow. If we are unable to raise sufficient additional funds, we will have to develop and implement a plan to further extend payables, extend note repayments, extend the preferred stock redemption and reduce overhead until sufficient additional capital is raised to support further operations. There can be no assurance that such a plan will be successful. If we are unable to obtain financing on a timely basis, we could be forced to sell our assets, discontinue our operations and/or seek reorganization under the U.S. bankruptcy code.

Accordingly, the accompanying condensed consolidated financial statements have been prepared in conformity with U.S. GAAP, which contemplate our continuation as a going concern and the realization of assets and the satisfaction of liabilities in the normal course of business. The carrying amounts of assets and liabilities presented in the condensed consolidated financial statements do not necessarily represent realizable or settlement values. The condensed consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

This amount included a decrease in operating cash related to a net loss of \$333,118, partially offset by aggregate non-cash adjustments of \$206,982 and aggregate cash provided by changes in operating assets and liabilities of \$62,064 (primarily a result of increased accounts payable offset by increased inventories). For the six months ended June 30, 2015, cash flows included net cash used in operating activities of \$288,044. This amount included a decrease in operating cash related to a net loss of \$280,469, offset by aggregate non-cash adjustments of \$284,483, plus aggregate cash used by changes in operating assets and liabilities of \$292,058 (primarily a result of a reduction of accounts payable).

For the six months ended June 30, 2016, net cash provided by investing activities was \$159 related to a decrease in restricted cash. For the six months ended June 30, 2015, net cash provided by investing activities was \$51,524 related to a reduction in restricted cash offset by the capitalization of website development costs and the purchase of computer equipment.

Critical Accounting Policies and Estimates

There are no material changes from the critical accounting policies set forth in "Management's Discussion and Analysis of Financial Condition and Results of Operations" of our Form 10-K filed on March 25, 2016. Please refer to that document for disclosures regarding the critical accounting policies related to our business.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) are designed to provide reasonable assurance that information required to be disclosed in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the forms and rules of the SEC and that such information is accumulated and communicated to management, including the Chief Executive Officer, in a manner to allow timely decisions regarding required disclosures.

In connection with the preparation of this Form 10-Q, our management, (Chief Executive and Principal Financial Officer), evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2016. Management had previously identified material weaknesses in our internal control over financial reporting as of December 31, 2015 (see Form 10-K filed with the SEC on March 25, 2016), which is an integral component of our disclosure controls and procedures. During the year ended December 31, 2015, management implemented policies, procedures and controls to address the weaknesses in various areas including operational and financial systems integration, separation of duties in review and approval of disbursement, cash handling, purchasing, receiving, shipping and invoicing functions, daily transaction processing and monthly financial closing procedures and

timelines and board approval of related party and other significant transactions. Management believes that the controls implemented in these specific areas are sufficient to address the above weaknesses, however, they have concluded that such controls have not been in place for a sufficient period of time in order to conclude that the identified material weaknesses described above have been fully remediated. Therefore, management has concluded that as of June 30, 2016, our disclosure controls were not effective.

Effective January 1, 2016, the Company hired a Chief Financial Officer with sufficient experience with United States generally accepted accounting principles to address the accounting for complex transactions. The Chief Financial Officer is developing a plan to continue to evaluate the controls and procedures implemented in the prior year.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting or in other factors during the six months ended June 30, 2016, that have materially affected, or were reasonably likely to materially affect, our internal control over financial reporting, except as discussed above.

Limitations of the Effectiveness of Control

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations of any control system, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

In the ordinary course of business, we may become subject to lawsuits and other claims and proceedings that might arise from litigation matters or regulatory audits. Such matters are subject to uncertainty and outcomes are often not predictable with assurance. Our management does not presently expect that any such matters will have a material adverse effect on the Company's consolidated financial condition or consolidated results of operations. We are not currently involved in any pending or threatened material litigation or other material legal proceedings nor have we been made aware of any penalties from regulatory audits, except as described below.

On May 13, 2016, Taft Stettinius & Hollister, LLP (the "Plaintiff") filed a complaint in the Court of Common Pleas for Hamilton County, Ohio against Healthwarehouse.com, Inc. (the "Company"). The complaint seeks damages against the Company in the amount of \$936,777 plus interest. The Company is in the process of investigating such claims and intends to defend the action vigorously.
