FOR IMMEDIATE RELEASE

ONCOLYTICS BIOTECH INC. ANNOUNCES ISSUANCE OF EIGHTH U.S. PATENT

CALGARY, Alberta, June 10, 2003 Oncolytics Biotech Inc. (TSX: ONC, NASDAQ: ONCY) (Oncolytics) announced that it has been granted U.S. Patent 6,576,234 entitled Reovirus for the Treatment of Neoplasia. Allowed claims in this patent cover the use of combinations of reovirus strains for the treatment of Ras-mediated tumours.

We are pleased with the expansion of our intellectual property portfolio, said Dr. Matt Coffey, Vice President, Product Development of Oncolytics. This is the Company s third U.S. patent to issue in 2003, and the first patent to include composition of matter claims.

About Oncolytics Biotech Inc.

Oncolytics is a Calgary-based biotechnology company focused on the development of REOLYSIN®, its proprietary formulation of the human reovirus, as a potential cancer therapeutic. Oncolytics researchers have demonstrated that the reovirus is able to selectively kill human cancer cells in vitro that are derived from many types of cancer, including breast, prostate, pancreatic and brain tumours, and have also demonstrated successful cancer treatment results in a number of animal models. Phase I clinical trial results have indicated that REOLYSIN® was well tolerated and that the reovirus demonstrated activity in tumours injected with REOLYSIN®.

This news release contains forward looking statements, within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Forward looking statements, including the Company s belief as to the safety and efficacy of the use of combinations of reovirus strains; the Company s expectations as to the design, timing and success of its planned clinical trial programs, including the anticipated enrollment and commencement of additional clinical trials; and other statements related to anticipated developments in the Company s business and technologies, all of which involve known and unknown risks and uncertainties that could cause the Company s actual results to differ materially from those in the forward looking statements. Such risks and uncertainties include, among others, the efficacy of REOLYSIN® as a cancer treatment, the success and timely completion of clinical studies and trials, uncertainties related to the research and development of pharmaceuticals, uncertainties related to the regulatory process and general changes to the economic environment. Investors should consult the Company s quarterly and annual filings with the Canadian and U.S. securities commissions for additional information on risks and uncertainties relating to the forward looking statements. The Company does not undertake to update these forward looking statements.
