Third Quarter Report

For the quarter ended September 30, 2003

LETTER TO SHAREHOLDERS

In the third quarter of 2003, Oncolytics increased its working capital by \$3.8 million through a private placement. This transaction brought the Company's total cash and short-term investment position as of September, 30, 2003 to \$15.8 million.

The Company added an additional patent to its intellectual property portfolio during the third quarter of 2003. The Company announced that it had been granted a U.S. patent covering the treatment of Ras-mediated tumours using modified adenoviruses. Allowed claims cover the use of an adenovirus modified by deleting the gene encoding for VA1, for the treatment of Ras-mediated tumours.

The Company also announced that it had entered into a research collaboration with Dr. Ramon Alemany of the Institut Catala d Oncologia, Barcelona, Spain to further develop adenovirus vectors. Dr. Alemany's preclinical research, published September 1, 2003 in *Cancer Research*, shows that VA1 mutant adenoviruses selectively replicated in and killed pancreatic cancer cells with a Ras-activated pathway.

During the quarter, the Company announced the formation of a Scientific Advisory Board consisting of Ramon Alemany, Ph.D., Richard Gorlick, M.D., Alan Tuchman, M.D., and Frank Tufaro, Ph.D. The Board will provide scientific and clinical guidance on the development of REOLYSIN®, as well as future therapeutic candidates.

We are pleased to have such a distinguished Scientific Advisory Board and we look forward to their contributions in advancing REOLYSIN® and potential future products through the clinical process.

Thank you for your interest and encouragement.

November 3, 2003

Brad Thompson, Ph.D.
Chairman, President and CEO

Table of Contents

Management's Discussion and Analysis

This discussion and analysis should be read in conjunction with the unaudited financial statements of Oncolytics Biotech Inc. (Oncolytics or the Company) as at and for the three and nine months ended September 30, 2003 and 2002, and should also be read in conjunction with the audited financial statements and Management's Discussion and Analysis (MD&A) contained in Oncolytics' annual report for the year ended December 31, 2002. The financial statements have been prepared in accordance with Canadian generally accepted accounting principles (GAAP).

THIRD QUARTER HIGHLIGHTS

The Company increased its operating capital through a private placement by approximately \$3.8 million;

Received its ninth U.S. patent covering the treatment of Ras mediated tumours using modified adenoviruses;

Entered into a research collaboration with Dr. Ramon Alemany of the Institut Català d'Oncologia, Barcelona, Spain to develop modified adenoviruses that are selective for Ras mediated cancers; and

Formed a Scientific Advisory Board of four independent advisors that will provide scientific and clinical guidance on the development of REOLYSIN® as well as other future therapeutic candidates.

CAPITAL EXPENDITURES

The Company continues to expand and protect its intellectual property. Oncolytics received four U.S. patents during the first nine months of 2003. In the third quarter of 2003, the Company received its ninth U.S. patent, covering the treatment of Ras mediated tumours using modified adenoviruses. Oncolytics expended an additional \$251,600 for professional fees associated with its patent portfolio in the third quarter of 2003 compared to \$209,045 in the third quarter of 2002. Total patent costs for the nine months ended September 30, 2003 were \$892,532 compared to \$542,762 for the nine months ended September 30, 2002.

INVESTING ACTIVITIES

Investments

Transition Therapeutics Inc. (TTH)

In June 2003, the Company monetized its investment in TTH and sold 6.89 million common shares in TTH for net cash proceeds of \$2.6 million. The sale of TTH has provided the Company with additional operating capital that provides further cash resources to Oncolytics as it continues with its development of REOLYSIN®. As a result of the sale, an accounting loss of \$2.2 million was recorded.

BCY LifeSciences (BCY)

The Company continues to hold its ownership in BCY which represents less than 8% of the issued and outstanding share capital of BCY. As at September 30, 2003 the book value of the investment in BCY was \$0.30 million with a market value of \$0.67 million.

Short-Term Investments

Under its Investment Policy, the Company is permitted to invest in short-term instruments with a rating no less than R-1 (DBRS) with terms less than one year. The Company invested \$12 million under this policy and is currently earning interest at an effective rate of 2.69%.

FINANCING ACTIVITIES

On August 21, 2003, the Company closed a private placement raising net proceeds of \$3.8 million through the issue of 1,363,900 common shares and 681,943 common share purchase warrants. Each common share purchase warrant entitles the holder to purchase an additional common share for \$4.00 per share until February 21, 2005. In addition to the private placement, existing common share purchase warrants (warrants) and stock options were exercised with 17,825 warrants and 30,000 stock options exercised for proceeds of \$0.12 million in the third quarter of 2003.

Edgar Filing: ONCOLYTICS BIOTECH INC - Form 6-K

For the nine-month period ended September 30, 2003, the Company closed three private placements issuing 3,623,900 common shares and 2,162,533 warrants for net proceeds of \$9.8 million. Also, 131,175 warrants and 30,000 stock options were exercised for proceeds of \$0.46 million.

Table of Contents

Subsequent to the end of the third quarter of 2003, the Company closed a bought deal financing, through a public offering, whereby it issued 1,200,000 common shares, 600,000 common share purchase warrants, and 120,000 broker warrants for estimated net proceeds of \$5.4 million. Each common share purchase warrant entitles the holder to buy an additional common share of the Company for \$6.25 and each broker warrant entitles the broker to buy a common share of the Company for \$5.00. These warrants expire on April 14, 2005.

As at October 14, 2003, the Company had 3,301,358 warrants outstanding which include 495,825, 2,085,533, 120,000, and 600,000 warrants with exercise prices of \$3.00, \$4.00, \$5.00, and \$6.25 respectively. If the Company's stock price increases above these exercise prices it believes that these warrants will be exercised prior to their expiry dates. However, if the Company experiences a decline in its stock price it is expected that, to the extent that there are outstanding warrants with an exercise price above market price, these outstanding warrants will not be exercised. If all of the warrants were exercised the Company would realize over \$14.2 million in cash proceeds.

LIQUIDITY AND CAPITAL RESOURCES

The Company's cash (including short-term investments) and working capital positions at the end of the third quarter of 2003 were \$15,842,771 and \$15,406,056 respectively compared to cash and working capital positions as at December 31, 2002 of \$8,319,244 and \$7,184,699 respectively. The increase in working capital reflects cash inflows from the private placements, the exercise of common share purchase warrants and options, and the sale of the TTH shares. Cash outflows during the period arose primarily from research and development expenses, operational expenses and intellectual property expenses. As at October 31, 2003, the Company had 27,191,523 common shares issued and outstanding.

The Company desires to maintain adequate cash and short-term investment reserves to support its planned activities which include its clinical trial program, production manufacturing, and its intellectual property expansion and protection. Including the October 14, 2003 bought deal financing, the Company believes that its existing capital resources are adequate to fund its current plans for research and development activities into 2006. In the event that the Company chooses to seek additional capital, the Company will look to fund additional capital requirements primarily through the issue of additional equity. The Company recognizes the challenges and uncertainty inherent in the capital markets and the potential difficulties it might face. Market prices for securities in biotechnology companies are volatile and the ability to raise funds will be dependent on a number of factors, including the progress of R&D, availability of clinical trial information, and general market conditions.

CRITICAL ACCOUNTING POLICIES

Short-Term Investments

As a result of the short-term investments made during the third quarter of 2003, as permitted by its Investment Policy, the Company adopted a short-term investments accounting policy. Oncolytics' accounting policy is to record the short-term investments at the lower of amortized cost or market value. Gains and losses on disposal of short-term investments are included in income in the period of realization. Premiums or discounts are amortized over the remaining maturity of the instrument and reported in interest income. Short-term investments are liquid investments that are readily convertible into known amounts of cash and are subject to an insignificant risk of changes in value. Original maturities are greater than three months but less than one year.

Stock Based Compensation

During the third quarter of 2003, the Company elected to prospectively account for stock based compensation in accordance with the fair value method effective January 1, 2003. Therefore, the Company will expense the fair value of the stock options granted after January 1, 2003. The fair value will be determined by the Black Scholes Option Pricing Model. Previously, the Company used the intrinsic value method to account for stock based compensation.

Table of Contents**RESULTS OF OPERATIONS***For the three month period ended September 30, 2003*

SUMMARY	2003	2002	Change
Research and development expenses before refund	\$ 985,454	\$ 1,621,500	\$ (636,046)
Quebec scientific research and experimental development refund	(222,000)		(222,000)

Basic and diluted loss per common share	\$ 0.07	\$ 0.09	\$ (0.02)

Research and Development Expenses (R&D)

During the third quarter of 2003, the Company's R&D decreased \$636,046 compared to the third quarter of 2002. The main reason for this decline was that the Company commenced and completed a large toxicology study in the third quarter of 2002 that did not occur in 2003. The Company continued to incur costs associated with the manufacturing of REOLYSIN®, its manufacturing process, and its clinical trials.

In addition, during the third quarter of 2003, the Company recorded a Quebec scientific research and experimental development (SR&ED) refund of \$222,000 for work performed in Quebec in 2001. The Company recorded this as a reduction to R&D expenses.

Operating Expenses

During the third quarter of 2003, the Company incurred an increase in operating expenses of \$546,913 compared to the third quarter of 2002. Operating expenses for the third quarter of 2003 increased due to additions to Oncolytics' staff, increased professional fees and filing costs associated with public company filing requirements, an increase in liability insurance premiums and non-cash compensation associated with stock options granted to officers, directors and employees and stock based compensation paid to third parties.

For the nine month period ended September 30, 2003

SUMMARY	2003	2002	Change
Research and development expenses before refund	\$ 2,313,810	\$ 3,196,218	\$ (882,408)

Table of Contents

Research and Development Expenses (R&D)

During the nine month period ending September 30, 2003, the Company's R&D expenses declined \$1,104,408 compared to 2002. The reduction in R&D expenses compared to September 30, 2002 corresponds to a reduction in direct costs relating to patient enrolment for the Company's clinical trials which occurred in 2002, a large animal toxicology study that was performed and completed in the third quarter of 2002 and the recording of the 2001 Quebec SR&ED refund in 2003.

Operating Expenses

During the nine months ended September 30, 2003, the Company's operating expense increased \$711,215 compared to 2002. The increase in operating expenses was due to additions to Oncolytics' staff in 2002 and 2003, the increased professional fees and filing costs associated with public company filing requirements, an increase in liability insurance premiums and non-cash compensation associated with stock options granted to officers, directors and employees and stock based compensation paid to third parties.

FUTURE INCOME TAXES

For the nine month period ended September 30, 2003, the Company accrued \$942 for its estimate of capital taxes compared to a net future tax recovery of \$487,295 for 2002. The future tax recovery in 2002 related to the reversal of the Company's future tax liability as its future tax assets relating to non-capital losses, scientific research and development pools and other tax pools exceeded the value of the future tax liability.

LOSS ON SALE OF INVESTMENT IN TTH

As a result of the sale of the Company's ownership in TTH a loss of \$2,156,685 was recorded or \$0.09 per share (the TTH loss per share is considered to be a non-GAAP measure and reflects the Company's loss on sale of investment in TTH divided by its weighted average number of shares for the nine month period ended September 30, 2003). The loss represents the difference of the cash proceeds received on the sale of its TTH shares and the cost value ascribed to the investment when it was acquired through a share exchange in 2002.

FUTURE OUTLOOK

The Company expects to continue its clinical development of REOLYSIN® through broadening its clinical trial activities to include multi-center, multi-jurisdictional, intratumoural and systemic clinical trials. As the Company continues through its development it expects that its cash requirements will increase. Also, as it expands its activities into foreign jurisdictions the Company will be exposed to foreign currency risk.

FORWARD-LOOKING STATEMENTS

The MD&A contains forward-looking statements, within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements, including the Company's belief as to the potential of REOLYSIN® as a cancer therapeutic and the Company's expectations as to the success of its research and development programs in 2003 and beyond, involve known and unknown risks and uncertainties, which could cause the Company's actual results to differ materially from those in the forward-looking statements. Such risks and uncertainties include, among others, the availability of funds and resources to pursue research and development projects, the efficacy of REOLYSIN® as a cancer treatment, the success and timely completion of clinical studies and trials, the Company's ability to successfully commercialize REOLYSIN®, uncertainties related to the research and development of pharmaceuticals, uncertainties related to the regulatory process and general changes to the economic environment. Investors should consult the Company's quarterly and annual filings with the Canadian and U.S. securities commissions for additional information on risks and uncertainties relating to the forward-looking statements. Investors are cautioned against placing undue reliance on forward-looking statements. The Company does not undertake to update these forward-looking statements.

Table of Contents**Notes to Financial Statements**

For the three and nine months ended September 30, 2003 (Unaudited)

1. ACCOUNTING POLICIES

These unaudited interim financial statements do not include all of the disclosures included in the Company's annual financial statements. Accordingly, these unaudited interim financial statements should be read in conjunction with the Company's most recent annual financial statements.

The accounting policies used in the preparation of these unaudited interim financial statements conform with those used in the Company's most recent annual financial statements except for the following:

Short-term investments

Short-term investments, which are liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and with original maturities greater than three months and less than one year at the time of purchase, are carried at the lower of amortized cost and market value. Gains and losses on disposal of short-term investments are included in income in the period of realization. Premiums or discounts are amortized over the remaining maturity of the instrument and reported in interest income.

Stock based compensation

During the third quarter of 2003, the Company elected to prospectively adopt the fair value method of accounting for awards granted under its stock option plan subsequent to January 1, 2003. This policy has been adopted effective January 1, 2003 and the impact of this change in accounting policy is insignificant on the first and second quarters of 2003. Previously, the intrinsic value method was used. The following tables provide pro forma net loss and pro forma basic and diluted net loss per share had compensation expense, for awards granted prior to 2003, been based on the fair value method of accounting for stock based compensation:

	9 MONTHS ENDED SEPTEMBER 30, 2003	9 MONTHS ENDED SEPTEMBER 30, 2002

Table of Contents

- (a) Pursuant to a private placement, 140,000 units were issued at an issue price of \$2 per unit net of issue costs of \$37,369. Each unit included one common share (ascribed value of \$1.90) and one-half of one common share purchase warrant (ascribed value of \$0.10) for a total of 70,000 warrants. Each whole common share purchase warrant entitles the holder to acquire one common share in the capital of the Company upon payment of \$3 per share until August 10, 2004. In addition, the Company issued 7,000 common share purchase warrants on the same terms to the brokerage firm assisting with the transaction. The ascribed value of these broker warrants was \$1,540 and has been included in the issue costs. The ascribed values of the warrants were based on the Black Scholes Option Pricing Model.
- (b) Pursuant to a private placement, 2,120,000 units were issued at an issue price of \$3 per unit net of issue costs of \$637,986. Each unit included one common share (ascribed value of \$2.79) and one-half of one common share purchase warrant (ascribed value of \$0.21) for a total of 1,060,000 warrants. Each whole common share purchase warrant entitles the holder to acquire one common share in the capital of the Company upon payment of \$4 per share until December 19, 2004. In addition, the Company issued 212,000 common share purchase warrants on the same terms to the brokerage firms assisting with the transaction. The ascribed value of these broker warrants was \$95,400 and has been included in the issue costs. The ascribed values of the warrants were based on the Black Scholes Option Pricing Model.
- (c) Pursuant to a private placement, 1,363,900 common shares and 681,943 common share purchase warrants were issued for gross proceeds of \$4,091,738. Each common share and whole common share purchase warrant have ascribed values of \$2.79 and \$0.425 respectively. Each common share purchase warrant will entitle the holder to acquire one common share in the capital of the Company upon payment of \$4 per share until February 21, 2005. Share issue costs related to this private placement were \$367,839. In addition, the Company issued 131,590 common share purchase warrants on the same terms to the advisors assisting with the transaction. The ascribed value of these broker warrants was \$59,216 and has been included in the issue costs. The ascribed values of the warrants were based on the Black Scholes Option Pricing Model.

Stock Options**Issued**

	WARRANTS	WEIGHTED AVERAGE EXERCISE PRICE \$
Balance, December 31, 2002	2,653,500	4.40
Granted during period	333,000	3.08
Exercised during period	(30,000)	2.21
	2,956,500	4.28
Options exercisable, September 30, 2003	2,859,000	4.36

Stock Based Compensation

The estimated fair value of the stock options issued during the three and nine months ended September 30, 2003 was determined using the Black-Scholes Option Pricing Model with the following weighted average assumptions resulting in a weighted average fair value of \$1.20 per option (2002 - \$1.75). The assumptions used in 2002 were used to calculate the pro forma disclosure in Note 1.

	2003	2002
Risk-free interest rate	3.08%	3.9%
Expected hold period to exercise	2 years	2 years
Volatility in the price of the corporation's shares	68.1%	77%
Dividend yield	0%	0%

For the three and nine month periods ending September 30, 2003, the Company recorded compensation expense of \$337,715 and \$342,986, respectively, relating to stock options granted to the Company's officers, directors and employees in 2003.

3. LOSS ON SALE OF INVESTMENT IN TRANSITION THERAPEUTICS INC.

On June 14, 2002, the Company acquired 6,890,000 common shares of Transition Therapeutics Inc. (TTH), a public company, through the issuance of 1,913,889 common shares of the Company from treasury. The investment was recorded at \$4,709,380 (including acquisition costs of \$20,352) based on the trading price of the Company's shares at the time of acquisition. On June 6, 2003, the Company sold all of its 6,890,000 common shares of Transition Therapeutics Inc. (TTH) for net cash proceeds of \$2,552,695 recording a loss on sale of investment of \$2,156,685.

4. CONTINGENCIES

During 1999, the Company assumed certain obligations in connection with a Share Purchase Agreement (the Agreement) between SYNSORB Biotech Inc. and the former shareholders of the Company to make milestone payments and royalty payments.

As of September 30, 2003, a milestone payment was still outstanding for \$1.0 million, due within 90 days of the first receipt from a designated Regulatory Authority, for marketing approval to sell REOLYSIN® to the public or the approval of a new drug application for REOLYSIN®.

Table of Contents

This milestone payment, when payable, will be accounted for as a research and development expense and will not be deductible for tax purposes.

In addition to the milestone payment, payments may become due and payable in accordance with the Agreement upon realization of sales of REOLYSIN®. During the period ended September 30, 2003, the Company completed amendments and revisions to the contingent obligations to its five founding shareholders. The amendments and revisions reduced the amount and clarified the determination of potential obligations of the Company to these shareholders arising from the Agreement and Assumption Agreement entered into in 1999. If the Company receives royalty payments or other payments as a result of entering into partnerships or other arrangements for the development of the reovirus technology, the Company is obligated to pay to the founding shareholders, 14.25% (December 31, 2002 – 20%) of the royalty payments and other payments received. Alternatively, if the Company develops the reovirus treatment to the point where it may be marketed at a commercial level, the payments referred to in the foregoing sentence will be amended to a royalty payment of 2.85% (December 31, 2002 – 4%) of Net Sales received by the Company for such products.

5. INDEMNIFICATION OF OFFICERS AND DIRECTORS

The Company's corporate by-laws require that, except to the extent expressly prohibited by law, the Company will indemnify its officers and directors against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment reasonably incurred in respect of any civil, criminal or administrative action or proceeding as it relates to their services to the Company. The by-laws provide no limit to the amount of the indemnification. The Company has purchased directors' and officers' insurance coverage to cover claims made against the directors and officers during the applicable policy periods. The amounts and types of coverage have varied from period to period as dictated by market conditions. The Company believes that it has adequate insurance coverage, however there is no guarantee that all indemnification payments will be covered under the Company's existing insurance policy.

6. COMPARATIVE BALANCES

Certain comparative figures have been restated to conform to the current period's presentation.

7. SUBSEQUENT EVENT

On October 14, 2003, the Company closed a bought deal financing through a public offering and issued 1,200,000 units. Each unit consisting of one common share and one-half of one common share purchase warrant, for aggregate gross proceeds of \$6 million. The Company also issued 120,000 broker warrants. Each whole common share purchase warrant and the broker warrants entitles the holder to acquire, on or before April 14, 2005, one common share of the Company for \$6.25 or \$5.00 per share, respectively. Net proceeds are estimated to be approximately \$5.4 million.
