NEWS RELEASE

Enbridge Income Fund completes acquisition of wind power assets

CALGARY, Alberta, October 2, 2006 Enbridge Income Fund (the Fund) and Enbridge Inc. (Enbridge) today announced the closing of the Fund's acquisition of Enbridge's interests in three wind power projects in Western Canada. Effective October 1, 2006, the Fund acquired Enbridge's 50% interest in the SunBridge project at Gull Lake, Saskatchewan, and Enbridge's 33.3% interest in the Magrath and Chin Chute projects in southeast Alberta for \$42 million plus certain post-closing adjustments.

The acquisition is immediately accretive to the distributable cash flow of the Fund and is consistent with the Fund's objective to prudently increase cash available for distribution to unitholders through acquisitions of low-risk energy infrastructure. The impact of the acquisition will be factored into the Board of Trustees' year-end review of the distribution rate, which is undertaken in conjunction with the Fund's annual budgeting process. The Fund intends to initially finance the acquisition through its existing credit facility.

The three wind power projects will collectively have the capacity to generate 71 MW of power. The SunBridge project consists of 17 wind turbines capable of generating 11 MW, and has been operating since 2002. The Magrath project consists of 20 turbines capable of generating 30 MW, and has been operating since 2004. The Chin Chute project, which consists of 20 recently constructed turbines capable of generating 30 MW, is expected to begin commercial operations this fall.
