LETTER TO SHAREHOLDERS

December 2009

W. Douglas Munn

President and Chief Executive Officer

Dear Shareholder:

We are pleased to provide the Semiannual Report for Evergreen Income Advantage Fund for the six-month period ended October 31, 2009 (the period).

The period was characterized by a strong equity market rally that spanned the first half of the period. U.S. and international stocks rallied off their March 9th lows, with international and small cap stocks leading the gains. Signs of stability emerged in the corporate credit markets, as both issuance and performance improved. Stocks finished a banner third quarter 2009, as major market indexes, both domestic and international, climbed by approximately 15% and investor sentiment was buoyed by signs of improvement in the economy and corporate earnings. At the end of the period, however, stocks closed lower for the first time in seven months as investors questioned whether the huge rally had exceeded the economy's ability to generate growth in output and profits. The weakness in U.S. markets failed to extend beyond our borders, as developed markets, which had also rallied off the lows of last year, experienced just a fractional loss in October 2009, and emerging markets managed to rise by 1%, adding to impressive year-to-date returns by the end of the period.

Fortunately, the fundamental picture has brightened. Better-than-expected economic data at period end suggests the possibility of improvements in corporate performance. Interest rates and inflation remain low, providing a healthy backdrop for corporations that have been very aggressive cutting costs from their expense structures.

Near the end of the period, the Federal Reserve Board (the Fed) reiterated its commitment to keeping the benchmark lending rate near zero for an extended period. Additionally, the Fed's statement changed somewhat from the previous meeting of the Federal Open Market Committee, altering text regarding economic activity from leveling out to activity that has picked up. It should be emphasized, however, that this shift, which might be construed as a signal from the Fed that the recession is over, is followed by a statement that household spending was still being constrained by job losses, sluggish income growth, lower housing wealth, and tight credit. While this data reflects an economy that is managing to climb from the depths reached in March, we question whether the fundamentals are in place for sustainable growth, given that economic reports continue to display data that is simply less bad than the previous depths of the recession. Until we see stabilization in home prices and employment, it is unlikely that activity will exceed much beyond what is considered to be below potential for any period of time.

LETTER TO SHAREHOLDERS continued

During a volatile and challenging period in the capital markets, the investment managers of Evergreen Income Advantage Fund maintained what they felt was a relatively conservative positioning in their investments in lower-rated, higher-yielding corporate bonds. They also made selective use of the fund's ability to borrow at short-term rates to make additional investments in higher-yielding securities.

We believe the changing conditions in the investment environment over the period have underscored the value of a well-diversified, long-term investment strategy to help soften the effects of volatility in any one market or asset class. As always, we encourage investors to maintain diversified investment portfolios in pursuit of their long-term investment goals.

Please visit us at **EvergreenInvestments.com** for more information about our funds and other investment products available to you. Thank you for your continued support of Evergreen Investments.

Sincerely,

W. Douglas Munn

President and Chief Executive Officer

Evergreen Funds

- 1 Per share amount is based on average common shares outstanding during the period.
 - 2 Total return is calculated assuming a purchase of common stock on the first day and a sale on the last day of the period reported. Dividends and distributions, if any, are assumed for purposes of these calculations to be reinvested at prices obtained under the Fund's Automatic Dividend Reinvestment Plan. Total return does not reflect brokerage commissions or sales charges.
 - 3 Annualized
 - 4 Interest expense ratio relates to interest associated with borrowings and/or leverage transactions.
 - 5 The net investment income ratio reflects distributions paid to preferred shareholders.
- See Notes to Financial Statements

- 144A Security that may be sold to qualified institutional buyers under Rule 144A of the Securities Act of 1933, as amended. This security has been determined to be liquid under guidelines established by the Board of Trustees, unless otherwise noted.
 Security which has defaulted on payment of interest and/or principal. The Fund has stopped accruing interest on this security.
 The rate shown is the stated rate at the current period end.
- @ Security is currently paying interest in-kind.
 Security initially issued in zero coupon form which converts to coupon form at a specified rate and date. An effective interest rate is applied to recognize interest income daily for the bond. This rate is based on total expected interest to be earned over the life of the bond which consists of the aggregate coupon-interest payments and discount at acquisition. The rate shown is the stated rate at the current period end.
- + Security is deemed illiquid.
- o Security is valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.
- * Restricted security
- < All or a portion of the position represents an unfunded loan commitment.
- q Rate shown is the 7-day annualized yield at period end.
- ø Evergreen Investment Management Company, LLC is the investment advisor to both the Fund and the money market fund.
- ## All or a portion of this security has been segregated for when-issued, delayed delivery securities and/or unfunded loans.

NOTES TO FINANCIAL STATEMENTS (unaudited)

1. ORGANIZATION

Evergreen Income Advantage Fund (the Fund) was organized as a statutory trust under the laws of the state of Delaware on December 3, 2002 and is registered as a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income. The Fund may, as a secondary objective, also seek capital appreciation to the extent consistent with its investment objective.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America, which require management to make estimates and assumptions that affect amounts reported herein. Actual results could differ from these estimates. Management has considered the circumstances under which the Fund should recognize or make disclosures regarding events or transactions occurring subsequent to the balance sheet date through December 23, 2009 which represents the date the financial statements are issued. Adjustments or additional disclosures, if any, have been included in these financial statements.

a. Valuation of investments

Portfolio debt securities acquired with more than 60 days to maturity are fair valued using matrix pricing methods determined by an independent pricing service which takes into consideration such factors as similar security prices, yields, maturities, liquidity and ratings. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of fair market value obtained from yield data relating to investments or securities with similar characteristics.

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded. If there has been no sale, the securities are valued at the mean between bid and asked prices.

Short-term securities of sufficient credit quality with remaining maturities of 60 days or less at the time of purchase are valued at amortized cost, which approximates fair value.

Investments in open-end mutual funds are valued at net asset value. Securities for which market quotations are not readily available or not reflective of current fair value are valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.

The valuation techniques used by the Fund to measure fair value are consistent with the market approach, income approach and/or cost approach, where applicable, for each security type.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

b. When-issued and delayed delivery transactions

The Fund records when-issued or delayed delivery securities as of trade date and maintains security positions such that sufficient liquid assets will be available to make payment for the securities purchased. Securities purchased on a when-issued or delayed delivery basis are marked-to-market daily and begin earning interest on the settlement date. Losses may occur on these transactions due to changes in market conditions or the failure of counterparties to perform under the contract.

c. Loans

The Fund may purchase loans through an agent, by assignment from another holder of the loan or as a participation interest in another holder's portion of the loan. Loans are purchased on a when-issued or delayed delivery basis. Interest income is accrued based on the terms of the securities. Fees earned on loan purchasing activities are recorded as income when earned. Loans involve interest rate risk, liquidity risk and credit risk, including the potential default or insolvency of the borrower.

d. Securities lending

The Fund may lend its securities to certain qualified brokers in order to earn additional income. The Fund receives compensation in the form of fees or interest earned on the investment of any cash collateral received. The Fund also continues to receive interest and dividends on the securities loaned. The Fund receives collateral in the form of cash or securities with a market value at least equal to the market value of the securities on loan, including accrued interest. In the event of default or bankruptcy by the borrower, the Fund could experience delays and costs in recovering the loaned securities or in gaining access to the collateral. In addition, the investment of any cash collateral received may lose all or part of its value. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

e. Interest rate swaps

The Fund is subject to interest rate risk in the normal course of pursuing its investment objectives. The Fund may enter into interest rate swap contracts for hedging purposes to manage the Fund's exposure to interest rates. Interest rate swaps involve the exchange between the Fund and another party of their commitments to pay or receive interest based on a notional principal amount.

The value of the swap contract is marked-to-market daily based upon quotations from brokers which use prices provided by market makers and any change in value is recorded as an unrealized gain or loss. Payments made or received are recorded as realized gains or losses. The Fund could be exposed to risks if the counterparty defaults on its obligation to perform or if there are unfavorable changes in the fluctuation of interest rates. The Fund's maximum risk of loss from counterparty credit risk is the discounted net value of the cash flows to be received from the counterparty over the contract's remaining life. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

f. Credit default swaps

The Fund is subject to credit risk in the normal course of pursuing its investment objectives. The Fund may enter into credit default swap contracts for hedging or speculative purposes to provide or receive a measure of protection against default on a referenced entity, obligation or index. Credit default swaps involve an exchange of a stream of payments for protection against the loss in value of an underlying security or index. Under the terms of the swap, one party acts as a guarantor (referred to as the seller of protection) and receives a periodic stream of payments, provided that there is no credit event, from another party (referred to as the buyer of protection) that is a fixed percentage applied to a notional principal amount over the term of the swap. An index credit default swap references all the names in the index, and if a credit event is triggered, the credit event is settled based on that name's weight in the index. A credit event includes bankruptcy, failure to pay, obligation default, obligation acceleration, repudiation/moratorium, and restructuring. The Fund may enter into credit default swaps as either the seller of protection or the buyer of protection. As the seller of protection, the Fund is subject to investment exposure on the notional amount of the swap and has assumed the risk of default of the underlying security or index. As the buyer of protection, the Fund could be exposed to risks if the seller of the protection defaults on its obligation to perform, or if there are unfavorable changes in the fluctuation of interest rates or in the price of the underlying security or index. The maximum potential amount of future payments (undiscounted) that the Fund as the seller of protection could be required to make under the credit default swap contract would be an amount equal to the notional amount of the swap contract. The Fund's maximum risk of loss from counterparty risk, either as the protection seller or as the protection buyer, is the fair value of the contract. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

If the Fund is the seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will pay to the buyer of protection the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index. If the Fund is the buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will receive from the seller of protection the notional amount of the swap and deliver the referenced obligation or underlying securities comprising the referenced index.

Any premiums paid or received on the transactions are recorded as an asset or liability on the Statement of Assets and Liabilities and amortized. The value of the swap contract is marked-to-market daily based on quotations from an independent pricing service or market makers and any change in value is recorded as an unrealized gain or loss. Periodic

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

payments made or received are recorded as realized gains or losses. In addition, payments received or made as a result of a credit event or termination of the contract are recognized as realized gains or losses.

Certain credit default swap contracts entered into by the Fund provide for conditions that result in events of default or termination that enable the counterparty to the agreement to cause an early termination of the transactions under those agreements. Any election by the counterparty to terminate early may impact the amounts reported on the financial statements.

g. Security transactions and investment income

Security transactions are recorded on trade date. Realized gains and losses are computed using the specific cost of the security sold. Interest income is recorded on the accrual basis and includes accretion of discounts and amortization of premiums. To the extent debt obligations are placed on non-accrual status, any related interest income may be reduced by writing off interest receivables when the collection of all or a portion of interest has become doubtful based on consistently applied procedures. If the issuer subsequently resumes interest payments or when the collectibility of interest is reasonably assured, the debt obligation is removed from non-accrual status. Dividend income is recorded on the ex-dividend date. Foreign income and capital gains realized on some securities may be subject to foreign taxes, which are accrued as applicable.

h. Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company and distribute all of its taxable income, including any net capital gains (which have already been offset by available capital loss carryovers). Accordingly, no provision for federal taxes is required. The Fund's income and excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal, Massachusetts and Delaware revenue authorities.

i. Distributions

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

3. ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Evergreen Investment Management Company, LLC (EIMC), a subsidiary of Wells Fargo & Company (Wells Fargo), is the investment advisor to the Fund and is paid an annual fee of 0.60% of the Fund's average daily total assets. Total assets consist of the net assets of the Fund plus borrowings or other leverage for investment purposes. For the six months ended October 31, 2009, the advisory fee was equivalent to an annual rate of 0.84% of the Fund's average daily net assets applicable to common shareholders.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

Tattersall Advisory Group, Inc., an affiliate of EIMC and an indirect, wholly-owned subsidiary of Wells Fargo, is an investment sub-advisor to the Fund and is paid by EIMC for its services to the Fund.

From time to time, EIMC may voluntarily or contractually waive its fee and/or reimburse expenses in order to limit operating expenses. During the six months ended October 31, 2009, EIMC contractually waived its advisory fee in the amount of \$1,659,769. This contractual waiver was put in place to ensure the costs incurred by the Fund under the Facility (see Note 4) would not exceed the sum of the costs that would have been incurred if the Preferred Shares had not been redeemed minus 0.05% of the average outstanding borrowings under the Facility.

The Fund may invest in money market funds which are advised by EIMC. Income earned on these investments is included in income from affiliated issuers on the Statement of Operations.

EIMC also serves as the administrator to the Fund providing the Fund with facilities, equipment and personnel. EIMC is paid an annual administrative fee of 0.05% of the Fund's average daily total assets. For the six months ended October 31, 2009, the administrative fee was equivalent to an annual rate of 0.07% of the Fund's average daily net assets applicable to common shareholders.

4. CAPITAL SHARE TRANSACTIONS

The Fund has authorized capital of 100,000,000 common shares with no par value. For the six months ended October 31, 2009 and the year ended April 30, 2009, the Fund issued 460,368 and 96,945 common shares, respectively.

The Fund currently has 7,840 shares of Auction Market Preferred Shares (Preferred Shares) issued and outstanding consisting of six series, each with a liquidation value of \$25,000 plus accumulated but unpaid dividends (whether or not earned or declared). Dividends on each series of Preferred Shares are cumulative at a rate, which is reset based on the result of an auction. During the six months ended October 31, 2009, the Preferred Shares experienced failed auctions and the Fund paid dividends to the holders of Preferred Shares based on the maximum rate allowed under the governing documents for the Preferred Shares. The annualized dividend rate of 0.35% during the six months ended October 31, 2009 included the maximum rate for the dates on which auctions failed. The Fund will not declare, pay or set apart for payment any dividend to its common shareholders unless the Fund has declared and paid or contemporaneously declares and pays full cumulative dividends on each series of Preferred Shares through its most recent dividend payment date.

Each series of Preferred Shares is redeemable, in whole or in part, at the option of the Fund on any dividend payment date at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared). Each series of Preferred Shares is also

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared) if the asset coverage with respect to the outstanding Preferred Shares fell below 200%.

The holders of Preferred Shares have voting rights equal to the holders of the Fund's common shares and will vote together with holders of common shares as a single class. Holders of Preferred Shares, voting separately as a single class, have the right to elect at least two Trustees at all times. The remaining Trustees will be elected by holders of common shares and Preferred Shares, voting together as a single class.

The Fund had secured debt financing from a multi-seller commercial paper conduit administered by a major financial institution (the Facility) in order to redeem a pro rata portion of each of its series of Preferred Shares. The Facility is available to the Fund until April 30, 2011. The Fund's borrowings under the Facility are generally charged interest at a rate based on the rates of the commercial paper notes issued by the Facility to fund the Fund's borrowings or at the London Interbank Offered Rate (LIBOR) plus 9.50%. During the six months ended October 31, 2009 the Fund incurred an effective interest rate of 0.50% on the borrowings, which was based on the rates of the commercial paper notes issued by the Facility. Interest expense of \$87,649, representing 0.03% of the Fund's average daily net assets applicable to common shareholders was incurred during the six months ended October 31, 2009. The Fund has pledged its assets to secure borrowings under the Facility. The Fund pays, on a monthly basis, a liquidity fee at an annual rate of 2.75% of the total commitment amount and a program fee at an annual rate of 2.75% on the daily average outstanding principal amount of borrowings. A structuring fee of \$2,940,000 was paid by EIMC on behalf of the Fund, which represents 1.00% of the financing available to the Fund under the Facility. This fee is being amortized over three years. During the six months ended October 31, 2009, the Fund recognized amortization expense of \$496,712. The Fund will reimburse EIMC over the three year period.

5. INVESTMENT TRANSACTIONS

Cost of purchases and proceeds from sales of investment securities (excluding short-term securities) were \$451,561,310 and \$431,201,327, respectively, for the six months ended October 31, 2009.

Fair value measurements are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. These inputs are summarized into three broad levels as follows:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

As of October 31, 2009, the inputs used in valuing the Fund's assets, which are carried at fair value, were as follows:

Investments in Securities	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Equity securities				
<i>Common stocks</i>	\$ 0	\$0	\$ 5,368,105	\$5,368,105
<i>Closed-end mutual fund shares</i>	4,758,877	0	0	4,758,877
Corporate debt securities	0	743,499,654	669,681	744,169,335
Loans	0	45,598,295	11,460,584	57,058,879
Short-term investments	45,455,819	0	0	45,455,819
	\$ 50,214,696	\$789,097,949	\$ 17,498,370	\$856,811,015

Further details on the major security types listed above can be found in the Schedule of Investments.

As of October 31, 2009, the inputs used in valuing the Fund's other financial instruments, which are carried at fair value, were as follows:

	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Other financial instruments*	\$0	\$(557,893)	\$0	\$(557,893)

* Other financial instruments include swap contracts. The value of swap contracts consists of unrealized gains/losses and premiums paid/received on swap contracts as reflected in the Statement of Assets and Liabilities.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

Common stocks	Corporate debt securities	Loans	Total
--------------------------	--	--------------	--------------

Balance as of May 1, 2009	\$0	\$ 0	\$0	\$0
Realized gains or losses	0	0	0	0
Change in unrealized gains or losses	(4,201,334)	0	0	(4,201,334)
Net purchases (sales)	9,569,439	0	0	9,569,439
Transfers in and/or out of Level 3	0	669,681	21,379,478	22,049,159
Balance as of October 31, 2009	\$5,368,105	\$ 669,681	\$21,379,478	\$27,417,264
Change in unrealized gains or losses included in earnings relating to securities still held at [Month xx, 200X]	\$ (4,201,334)		\$0	\$ (4,201,334)

As of October 31, 2009, the Fund had unfunded loan commitments of \$5,666,851.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

On October 31, 2009, the aggregate cost of securities for federal income tax purposes was \$846,308,045. The gross unrealized appreciation and depreciation on securities based on tax cost was \$53,246,128 and \$42,743,158, respectively, with a net unrealized appreciation of \$10,502,970.

As of April 30, 2009, the Fund had \$165,650,246 in capital loss carryovers for federal income tax purposes expiring as follows:

Expiration			
2014	2015	2016	2017
\$7,717,772	\$11,808,863	\$15,525,027	\$130,598,584

For income tax purposes, capital losses incurred after October 31 within the Fund's fiscal year are deemed to arise on the first business day of the following fiscal year. As of April 30, 2009, the Fund incurred and elected to defer post-October losses of \$162,390,514.

6. DERIVATIVE TRANSACTIONS

The Fund enters into credit default swap contracts as a substitute for taking a position in the underlying security or basket of securities or to potentially enhance the Fund's total return. At October 31, 2009, the Fund had the following credit default swap contracts outstanding:

Credit default swaps on debt obligations Buy protection

#

* Reflects the ratings of a nationally recognized ratings agency at period end. A rating of D would most likely indicate a trigger event of default has occurred although circumstances including bankruptcy, failure to pay, obligation default, obligation acceleration, repudiation/moratorium and restructuring may also cause a credit event to take place.

The Fund entered into the swap contract for speculative purposes.

The Fund had an average notional balance on credit default swaps of \$12,455,136 during the six months ended October 31, 2009.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

Certain of the Fund's derivative transactions may contain provisions for early termination in the event the net assets of the Fund declines below specific levels identified by the counterparty. If these levels are triggered, the counterparty may terminate the transaction and seek payment or request full collateralization of the derivative transaction in net liability positions. On October 31, 2009, the aggregate fair value of all derivative instruments with net asset contingent features that were in a liability positions amounted to \$614,815. As of October 31, 2009, the Fund had segregated \$1,099,000 as cash collateral for outstanding swap transactions.

The fair value, realized gains or losses and change in unrealized gains or losses on derivative instruments are reflected in the appropriate financial statements.

7. EXPENSE REDUCTIONS

Through expense offset arrangements with the Fund's custodian, a portion of fund expenses has been reduced.

8. DEFERRED TRUSTEES FEES

Each Trustee of the Fund may defer any or all compensation related to performance of his or her duties as a Trustee. The Trustees' deferred balances are allocated to deferral accounts, which are included in the accrued expenses for the Fund. The investment performance of the deferral accounts is based on the investment performance of certain Evergreen funds. Any gains earned or losses incurred in the deferral accounts are reported in the Fund's Trustees' fees and expenses. At the election of the Trustees, the deferral account will be paid either in one lump sum or in quarterly installments for up to ten years.

9. REGULATORY MATTERS AND LEGAL PROCEEDINGS

The Evergreen funds, EIMC and certain of EIMC's affiliates are involved in various legal actions, including private litigation and class action lawsuits, and are and may in the future be subject to regulatory inquiries and investigations.

EIMC and Evergreen Investment Services, Inc. (EIS) have reached final settlements with the Securities and Exchange Commission (SEC) and the Securities Division of the Secretary of the Commonwealth of Massachusetts (Commonwealth) primarily relating to the liquidation of Evergreen Ultra Short Opportunities Fund (Ultra Short Fund). The claims settled include the following: first, that during the period February 2007 through Ultra Short Fund's liquidation on June 18, 2008, Ultra Short Fund's former portfolio management team failed to properly take into account readily available information in valuing certain non-agency residential mortgage-backed securities held by the Ultra Short Fund, resulting in the Ultra Short Fund's net asset value (NAV) being overstated during the period; second, that EIMC and EIS acted inappropriately when, in an effort to explain the decline in Ultra Short Fund's NAV, certain information regarding the decline was communicated to some, but not all, shareholders and financial intermediaries;

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

third, that the Ultra Short Fund portfolio management team did not adhere to regulatory requirements for affiliated cross trades in executing trades with other Evergreen funds; and finally, that from at least September 2007 to August 2008, EIS did not preserve certain text and instant messages transmitted via personal digital assistant devices. In settling these matters, EIMC and EIS have agreed to payments totaling \$41,125,000, up to \$40,125,000 of which will be distributed to eligible shareholders of Ultra Short Fund pursuant to a methodology and plan approved by the regulators. EIMC and EIS neither admitted nor denied the regulators' conclusions.

Three purported class actions have also been filed in the U.S. District Court for the District of Massachusetts relating to the same events; defendants include various Evergreen entities, including EIMC and EIS, and Evergreen Fixed Income Trust and its Trustees. The cases generally allege that investors in the Ultra Short Fund suffered losses as a result of (i) misleading statements in Ultra Short Fund's registration statement and prospectus, (ii) the failure to accurately price securities in the Ultra Short Fund at different points in time and (iii) the failure of the Ultra Short Fund's risk disclosures and description of its investment strategy to inform investors adequately of the actual risks of the fund.

EIMC does not expect that any of the legal actions, inquiries or settlement of regulatory matters will have a material adverse impact on the financial position or operations of the Fund to which these financial statements relate. Any publicity surrounding or resulting from any legal actions or regulatory inquiries involving EIMC or its affiliates or any of the Evergreen Funds could result in reduced sales or increased redemptions of Evergreen fund shares, which could increase Evergreen fund transaction costs or operating expenses or have other adverse consequences on the Evergreen funds, including the Fund.

10. SUBSEQUENT DISTRIBUTIONS

The Fund declared the following distributions to common shareholders:

Declaration Date	Record Date	Payable Date	Net Investment Income
10/16/2009	11/16/2009	12/01/2009	\$0.09290
11/20/2009	12/15/2009	01/04/2010	\$0.09290
12/11/2009	01/19/2010	02/01/2010	\$0.09290

These distributions are not reflected in the accompanying financial statements.

ADDITIONAL INFORMATION (unaudited)

ANNUAL MEETING OF SHAREHOLDERS

On August 7, 2009, the Annual Meeting of Shareholders was held to consider the following proposal. The results of the proposal are indicated below.

Proposal 1 Election of Trustees:

	Net Assets Voted For	Net Assets Voted Withheld
K. Dun Gifford	\$484,090,750	\$19,711,036
Dr. Leroy Keith, Jr.	483,846,052	19,955,734
Patricia B. Norris	483,853,128	19,948,658
Michael S. Scofield	484,129,762	19,672,024

ADDITIONAL INFORMATION (unaudited) continued

INFORMATION ABOUT THE REVIEW AND APPROVAL OF THE FUND S INVESTMENT ADVISORY AGREEMENT

Each year, as required by law, the Fund s Board of Trustees determines whether to approve the continuation of the Fund s investment advisory agreements. At an in person meeting on September 23-24, 2009, the Trustees, including a majority of the Trustees who are not interested persons (as that term is defined in the 1940 Act) of the Fund, Tattersall Advisory Group, Inc. (the Sub-Advisor), or EIMC (the independent Trustees), approved the continuation of the Fund s investment advisory agreements. (References below to the Fund are to Evergreen Income Advantage Fund; references to the funds are to the Evergreen funds generally.)

At the same time, the Trustees considered the continuation of the investment advisory agreements for all of the Evergreen funds. The description below refers in many cases to the Trustees process for considering, and conclusions regarding, all of the funds agreements. In all of their deliberations, the Board of Trustees and the independent Trustees were advised by independent counsel to the independent Trustees and counsel to the funds.

The review process. In connection with its review of the funds investment advisory agreements, the Board of Trustees requests and evaluates, and EIMC and any sub-advisors are required to furnish, such information as the Trustees consider to be reasonably necessary in the circumstances. Over the course of the year preceding their September 2009 meeting, the Trustees regularly reviewed information regarding the investment performance of all of the funds. As part of their ongoing review of investment performance, the Trustees monitored for changes in performance and for the results of any changes in a fund s investment process or investment team. The Trustees paid particular attention to funds whose performance since September 2008 (when the Trustees completed their 2008 review of the funds investment advisory agreements) indicated short-term or longer-term performance issues and to funds that they had identified during their 2008 review process as having short- or longer-term performance issues.

In spring 2009, a committee of the Board of Trustees (the Committee), working with EIMC management, determined generally the types of information the Trustees would review as part of the 2009 review process and set a timeline detailing the information required and the dates for its delivery to the Trustees. The Board engaged the independent data provider Keil Fiduciary Strategies LLC (Keil) to provide fund-specific and industry-wide data containing information of a nature and in a format generally prescribed by the Committee, and the Committee worked with Keil and EIMC to develop appropriate groups of peer funds for each fund. The Committee also identified a number of expense, performance, and other areas of review and requested specific information as to those areas of review.

ADDITIONAL INFORMATION (unaudited) continued

The Trustees formed small groups to review individual funds in greater detail. They reviewed, with the assistance of an independent industry consultant that they retained, the information that EIMC, the Sub-Advisor, and Keil provided. In addition, the Trustees considered information regarding, among other things, the funds' brokerage practices, the funds' use of derivatives, analyst and research support available to the portfolio management teams, risk management practices, and certain fall-out benefits received directly and indirectly by EIMC and its affiliates from the funds. The Trustees requested and received additional information following that review.

In December 2008 Wells Fargo & Company (Wells Fargo) acquired Wachovia Corporation (Wachovia), EIMC's parent company. Wells Fargo and EIMC have taken steps to combine the operations of Wells Fargo's investment management affiliates and EIMC during the past year and have proposed to the Trustees the combination of the mutual fund families managed by them. During the course of the year, and during their review, the Trustees requested and received information about Wells Fargo and its advisory and broker-dealer operations, the status of efforts to combine the Wells Fargo and Evergreen investment management operations, and the effects on the funds and on the services provided by EIMC and its affiliates to the funds. In their deliberations, the Trustees were mindful that it was possible that the proposed combination of the two fund families might be effected during the coming 12-month period.

The Committee met several times by telephone during the 2009 review process to consider the information provided to it. The Committee then met with representatives of EIMC and its affiliates, including Wells Fargo. In addition, during the course of their review, the Trustees discussed the continuation of the funds' advisory agreements with representatives of EIMC, and in meetings with independent legal counsel in multiple private sessions at which no personnel of EIMC were present. At a meeting of the full Board of Trustees held on September 23-24, 2009, the Committee reported the results of its discussions with EIMC. The full Board met with representatives of EIMC and its affiliates and engaged in further review of the materials provided to it, after which the independent Trustees and the full Board approved the continuation of each of the advisory and sub-advisory agreements.

The Trustees' determination to approve the continuation of the advisory and sub-advisory agreements was based on a comprehensive evaluation of all of the information provided to them. In considering the continuation of the agreements, the Trustees did not identify any particular information or consideration that was all-important or controlling, and each Trustee attributed different weights to various factors. The Trustees evaluated information provided to them both in terms of the funds generally and with respect to each fund, including the Fund, specifically as they considered appropriate. Although the Trustees considered the continuation of the agreements for each of the funds as part of the

ADDITIONAL INFORMATION (unaudited) continued

larger process of considering the continuation of the advisory contracts for all of the funds, their determination to continue the advisory agreements for each of the funds was ultimately made on a fund-by-fund basis.

This summary describes a number of the most important, but not necessarily all, of the factors considered by the Board and the independent Trustees.

Information reviewed. The Board of Trustees and committees of the Board of Trustees met periodically during the course of the year. EIMC presented a wide variety of information at those meetings regarding the services it provides for the funds, the investment performance of the funds, and other aspects of the business and operations of the funds. At those meetings, and in the process of considering the continuation of the agreements, the Trustees considered information regarding, for example, the funds' investment results; the portfolio management teams for the funds and the experience of the members of the teams, and any recent changes in the membership of the teams; portfolio trading practices; compliance by the funds, EIMC, and the Sub-Advisor with applicable laws and regulations and with the funds' and EIMC's compliance policies and procedures; risk evaluation and oversight procedures at EIMC; services provided by affiliates of EIMC to the funds and shareholders of the funds; and other information relating to the nature, extent, and quality of services provided by EIMC and the Sub-Advisor. The Trustees considered a number of changes in portfolio management personnel at EIMC and its advisory affiliates in the year since September 2008. The Trustees also considered changes in personnel at the funds and EIMC, including the appointment of a new President of the funds, who also serves as President and Chief Operating Officer of EIMC, and a new Chief Investment Officer of EIMC in August of 2008.

The Trustees considered the rates at which the funds pay investment advisory fees, and the efforts generally by EIMC and its affiliates as sponsors of the funds. The data provided by Keil showed the management fees paid by each fund in comparison to the management fees of other peer mutual funds, in addition to data regarding the investment performance of the funds in comparison to other peer mutual funds. The Trustees were assisted by an independent industry consultant in reviewing the information presented to them.

The Trustees noted that, in certain cases, EIMC and/or its affiliates provide advisory services to other clients that are comparable to the advisory services they provide to certain funds. The Trustees considered the information EIMC provided regarding the rates at which those other clients pay advisory fees to EIMC. Fees charged to those other clients were generally lower than those charged to the respective funds. In respect of these other accounts, EIMC noted that the compliance, reporting, and other legal burdens of providing investment advice to mutual funds generally exceed those required to provide advisory services to non-mutual fund clients such as retirement or pension plans.

ADDITIONAL INFORMATION (unaudited) continued

The Trustees considered the transfer agency fees paid by the funds to an affiliate of EIMC. They reviewed information presented to them showing that the transfer agency fees charged to the funds were generally consistent with industry norms.

The Trustees also considered that EIMC serves as administrator to the funds and receives a fee for its services as administrator. In their comparison of fees paid by the funds with those paid by other mutual funds, the Trustees considered administrative fees paid by the funds and those other mutual funds. They considered that EIS, an affiliate of EIMC, would serve as distributor to the funds until January 3, 2010, and that Wells Fargo Funds Distributor, LLC, also an affiliate of EIMC, would serve as distributor to the funds beginning on January 4, 2010, and noted that the distributor receives fees from the funds for those services. The Trustees also considered other so-called fall-out benefits to EIMC and its affiliates due to their other relationships with the funds, including, for example, soft-dollar services received by EIMC attributable to transactions entered into by EIMC on behalf of the funds and brokerage commissions received by Wells Fargo Advisors, LLC (Wells Fargo Advisors) (formerly Wachovia Securities, LLC), an affiliate of EIMC, from transactions effected by it for the funds. The Trustees noted that the funds (other than the closed-end funds) pay sub-transfer agency fees to various financial institutions that hold fund shares in omnibus accounts, that Wells Fargo Advisors and its affiliates receive such payments from the funds in respect of client accounts they hold in omnibus arrangements, and that an affiliate of EIMC receives fees for administering the sub-transfer agency payment program. In reviewing the services provided by an affiliate of EIMC, the Trustees noted that the affiliate of EIMC that provides transfer agency services to the funds had won recognition from Dalbar customer service each year since 1998, and also won recognition from National Quality Review for customer service and for accuracy in processing transactions in 2008. They also considered that Wells Fargo Advisors and its affiliates receive distribution-related fees and shareholder servicing payments (including amounts derived from payments under the funds Rule 12b-1 plans) in respect of shares sold or held through them and that an affiliate of EIMC receives compensation for serving as a securities lending agent for a number of the funds.

The Trustees considered regulatory actions taken against EIMC or its affiliates in the past year, and on-going reviews of the operations of EIMC and its affiliates as they might affect the funds. They considered the findings of the regulators, the cooperation of EIMC and its affiliates with those regulators and with the Trustees in respect of those actions and reviews, and the remedial steps EIMC and its affiliates have taken in response. They also considered the scope and nature of on-going reviews being conducted by EIMC and its affiliates, and communications to the Trustees relating to those reviews.

Nature and quality of the services provided. The Trustees considered that EIMC and its affiliates generally provide a comprehensive investment management service to the funds. They noted that EIMC and the Sub-Advisor formulate and implement an investment

ADDITIONAL INFORMATION (unaudited) continued

program for the Fund. They noted that EIMC makes its personnel available to serve as officers of the funds, and concluded that the reporting and management functions provided by EIMC with respect to the funds were generally satisfactory. The Trustees considered the investment philosophy of the Fund's portfolio management team and the in-house research capabilities of EIMC and its affiliates, as well as other resources available to EIMC, including research services available to it from third parties.

The Trustees considered the managerial and financial resources available to EIMC and its affiliates and the commitment that the Evergreen/Wells Fargo organization has made to the funds generally. They considered assurances from representatives of Wells Fargo that the merger of Wells Fargo and Wachovia and the integration of those firms' advisory and broker-dealer operations was not expected to result in any adverse effect on the funds, on the quality and level of services that EIMC provides to the funds, or on the resources available to the funds and to EIMC, and that Wells Fargo is committed to continue providing the funds with high-quality services.

The Trustees noted the resources EIMC and its affiliates have committed to the regulatory, compliance, accounting, tax and oversight of tax reporting, and shareholder servicing functions, and the number and quality of staff committed to those functions, which they concluded were appropriate and generally in line with EIMC's responsibilities to the Fund and to the funds generally. The Board and the independent Trustees concluded, within the context of their overall conclusions regarding the funds' advisory agreements, that they were generally satisfied with the nature, extent, and quality of the services provided by the Sub-Advisor and EIMC, including services provided by EIMC under its administrative services agreements with the funds. They determined that the nature and scope of the services provided by EIMC and the Sub-Advisor were consistent with EIMC's and the Sub-Advisor's respective duties under the investment advisory agreements and appropriate and consistent with the investment programs and best interests of the funds.

Investment performance. The Trustees considered the investment performance of each fund, both by comparison to other comparable mutual funds and to broad market indices. The Trustees noted that, for the one- and three-year periods ended December 31, 2008, the total return performance of the Fund (measured at net asset value) was below that of the Fund's benchmark index, the BofA Merrill Lynch High Yield Master Index, and was in the third quintile of the non-Evergreen funds against which the Trustees compared the Fund's performance. The Trustees noted that for the five-year period ended December 31, 2008, the total return performance of the Fund (measured at net asset value) was below that of the Fund's benchmark index, and was in the fourth quintile of the non-Evergreen funds against which the Trustees compared the Fund's performance.

The Trustees discussed each fund's performance with representatives of EIMC. In each instance where a fund experienced a substantial period of underperformance relative to its

ADDITIONAL INFORMATION (unaudited) continued

benchmark index and/or the non-Evergreen fund peers against which the Trustees compared the fund's performance, the Trustees considered EIMC's explanation of the reasons for the relative underperformance and the steps being taken to address the relative underperformance. The Trustees emphasized that the continuation of the investment advisory agreement for a fund should not be taken as any indication that the Trustees did not believe investment performance for any specific fund might not be improved, and they noted that they would continue to monitor closely the investment performance of the funds going forward.

Advisory and administrative fees. The Trustees recognized that EIMC does not seek to provide the lowest cost investment advisory service, but to provide a high quality, full-service investment management product at a reasonable price. They also noted that EIMC has in many cases sought to set its investment advisory fees at levels consistent with industry norms. The Trustees noted that, in certain cases, a fund's management fees were higher than many or most other mutual funds in the same Keil peer group. However, in each case, the Trustees determined on the basis of the information presented that the level of management fees was not excessive. The Trustees noted that the management fee paid by the Fund was slightly higher than the median and at the average of the management fees paid by the non-Evergreen funds against which the Trustees compared the Fund's management fee, and that the level of profitability realized by EIMC in respect of the fee did not appear excessive.

Economies of scale. The Trustees considered that, in light of the fact that the Fund was not making a continuous offering of its shares, the likelihood of economies of scale following the Fund's initial offering was relatively low, although they determined to continue to monitor the Fund's expense ratio and the profitability of the investment advisory agreements to EIMC in light of future growth of the Fund.

Profitability. The Trustees considered information provided to them regarding the profitability to the EIMC organization of the investment advisory, administration, and transfer agency (with respect to the open-end funds only) fees paid to EIMC and its affiliates by each of the funds. They considered that the information provided to them was necessarily estimated, and that the profitability information provided to them, especially on a fund-by-fund basis, did not necessarily provide a definitive tool for evaluating the appropriateness of each fund's advisory fee. They noted that the levels of profitability of the funds to EIMC varied widely, depending on, among other things, the size and type of fund. They considered the profitability of the funds in light of such factors as, for example, the information they had received regarding the relation of the fees paid by the funds to those paid by other mutual funds, the investment performance of the funds, and the amount of revenues involved. In light of these factors, the Trustees concluded that the profitability to EIMC of the services provided to any of the funds, individually or in the aggregate, should not prevent the Trustees from approving the continuation of the agreements.

AUTOMATIC DIVIDEND REINVESTMENT PLAN (unaudited)

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan (the Plan). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan (Plan Agent), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as dividends) payable either in shares or in cash, nonparticipating the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant s account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (newly issued common shares) or (ii) by purchase of outstanding common shares on the open-market (open-market purchases) on the NYSE Amex or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions (market premium), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant s account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium (market discount), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent s open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.

1 The Board of Trustees is classified into three classes of which one class is elected annually. Each Trustee serves a three-year term concurrent with the class from which the Trustee is elected. Each Trustee oversaw 77 Evergreen funds as of December 31, 2008. Correspondence for each Trustee

- may be sent to Evergreen Board of Trustees, P.O. Box 20083, Charlotte, NC 28202.
- 2 It is possible that Mr. Pettit may be viewed as an interested person of the Evergreen funds, as defined in the 1940 Act, because of his law firm's previous representation of affiliates of Wells Fargo & Company (Wells Fargo), the parent to the Evergreen funds' investment advisor, EIMC. The Trustees are treating Mr. Pettit as an interested trustee for the time being.
 - 3 Mr. Wagoner is an interested person of the Evergreen funds because of his ownership of shares in Wells Fargo & Company, the parent to the Evergreen funds' investment advisor.
 - 4 The address of the Officer is 200 Berkeley Street, Boston, MA 02116.
