Yes No ...

If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b):
82-_____

Evaluation of Disclosure Controls and Procedures

TransAlta has designed disclosure controls and procedures to ensure that material information relating to the Company, including its consolidated subsidiaries, is made known to the Chief Executive Officer and Chief Financial Officer by others within the Company, including its consolidated subsidiaries, on a regular basis, in particular during the period in which its Current Reports on Form 6-K relating to quarterly financial results are being prepared. The Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the disclosure controls and procedures as of a date within 90 days of the date of this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded, as of that evaluation date, that the Company's disclosure controls and procedures were effective to ensure that material information relating to the Company, including its consolidated subsidiaries, was made known to them by others within those entities during the period in which this report was being prepared. There have been no significant changes in the internal controls or in other factors that could significantly affect internal controls subsequent to the date of the most recent evaluation by the Chief Executive Officer and Chief Financial Officer, including any corrective action with regard to significant deficiencies and material weaknesses.

EXHIBITS

Exhibit 1 Press release dated November 24, 2004.

TransAlta Corporation enters into agreement to sell units of TransAlta Power, L.P.

CALGARY, Alberta (Nov. 24, 2004) TransAlta Corporation (TSX: TA; NYSE: TAC) announced that it has entered into an agreement with CIBC World Markets Inc. and Scotia Capital Inc. to act as exclusive agents to sell up to 7.114 million units of TransAlta Power, L.P. (TSX: TPW.UN). These units are the remaining TransAlta Power, L.P. units that TransAlta Corporation owns, representing approximately 10 per cent of TransAlta Power, L.P.'s outstanding units.

TransAlta Corporation's ownership of these units results from the expiration of warrants on Aug. 3, 2004, which TransAlta Power, L.P. issued on July 31, 2003 when purchasing an indirect 25 per cent interest in the Sheerness Generating Station. TransAlta Corporation had previously announced its intention to sell these units.

The sale will be made through the facilities of the Toronto Stock Exchange and it is expected that the sale will be completed by way of a block trade or a series of block trades. Pursuant to applicable securities laws, such sale may not occur prior to Nov. 30, 2004.

TransAlta is among Canada's largest non-regulated power generation and wholesale marketing companies. We have coal-fired, gas-fired, hydro and renewable generation assets in Canada, the U.S., Mexico and Australia. With approximately 10,000 megawatts of capacity either in operation, under construction or in development, our focus is to efficiently operate our assets in order to provide our wholesale customers with a reliable, low-cost source of power.
