Powder River Basin Gas Corp.  
Notes to Consolidated Financial Statements  
For the Nine Months Ended September 30, 2004

### Note 1 PREPARATION OF FINANCIAL STATEMENTS

The unaudited financial statements of Powder River Basin Gas Corp. for the nine months ended September 30, 2004, included herein have been prepared in accordance with generally accepted accounting principles and the rules and regulations of the Securities and Exchange Commission ("SEC") and should read in conjunction with the audited financial statements and notes thereto contained in the Company's latest Annual Report filed with the SEC on Form 10-KSB. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim period presented have been reflected herein. The results of operations for the interim period are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosures contained in the audited financial statements for the most recent year, 2003, as reported in the Form 10-KSB, have been omitted.

### NOTE 2 ORGANIZATION

The Company was incorporated under the laws of Colorado on August 27, 1999 as Celebrity Sports Network, Inc. The principal activities since inception have been organizational matters and obtaining financing. The Company was formed in an effort to broaden the scope of public appearances available to current and former professional athletes. The Company, however, changed their operations in 2001 through a reverse acquisition with Powder River Basin Gas Corp., an oil and gas company.

Powder River Basin Gas Corp. (PRGB) was incorporated in Colorado on June 13, 2001. The Company is engaged in the business of assembling and managing a portfolio of undeveloped acreage in the Powder River basin coal bed methane (CBM) play in Sheridan County, Wyoming. This acreage is located in a proven geological setting and near operators such as Western Gas Resources, Barrett Resources, Phillips Petroleum, J.M. Huber and others. The Company has leasehold interests in 8,096 net acres. Two wells have been drilled on one lease and eleven additional wells have been

## Edgar Filing: POWDER RIVER BASIN GAS CORP - Form 10QSB

spudded. The Company also purchased a 960 acre oil and gas lease in Louisiana which has nine wells. Two of the wells are in production and the other seven require re-work and clean-out to be activated. At September 30th, 2004 the Company had also purchased a 25% working interest in 9 wells in Osage County, Oklahoma.

Pursuant to a reverse acquisition and reorganization agreement, PRGB was acquired by Celebrity Sports on September 5, 2001. At the time of the acquisition, the Company changed its name to Powder River Basin Gas Corp. and issued 9 million shares of common stock for all the issued and outstanding stock of PRBG; thus, making PRGB a wholly-owned subsidiary of the Company. Because PRGB is the accounting acquirer in the reverse acquisition, all financial history in these financial statements are that of PRGB.

The Company issued 9 million shares of common stock for 9 million shares of PRGB, therefore, an adjustment to the shares outstanding was necessary to reflect the other shareholders of the Company at the time of acquisition. No goodwill was recorded in the acquisition and the purchase method of accounting was used to record the transaction.

5

### NOTE 3 OIL AND GAS PROPERTIES

The full cost method is used in accounting for oil and gas properties. Accordingly, all costs associated with acquisition, exploration, and development of oil and gas reserves, including directly related overhead costs, are capitalized. In addition, depreciation on property and equipment used in oil and gas exploration and interest costs incurred with respect to financing oil and gas acquisition, exploration and development activities are capitalized in accordance with full cost accounting. Capitalized interest for the quarter ended September 30, 2004 was \$0. All capitalized costs of proved oil and gas properties subject to amortization are being amortized on the unit-of-production method using estimates of proved reserves. Investments in unproved properties and major development projects not subject to amortization are not amortized until proved resources associated with the projects can be determined or until impairment occurs. If the results of an assessment indicate that the properties are impaired, the amount of the impairment is added to the capitalized costs to be amortized. Therefore amortization was taken at \$10,793 for the nine months ended September 30, 2004. As of September 30, 2004, proved oil and gas reserves had been activated on one of the Company's oil and gas properties. All other wells are incomplete as of September 30, 2004.

### NOTE 4 COMMON STOCK

In February 2004 the Company issued 3,640,856 shares of Common Stock in satisfaction of a convertible debenture entered into in previous years. In September 2004, 8,602,272 shares of Common Stock were issued in payment of an outstanding note. The Company also issued 7,000,000 shares of Common Stock for a private placement of \$280,000.00.

### ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

#### CAUTIONARY STATEMENT ON FORWARD-LOOKING INFORMATION

The Company is including the following cautionary statement to make

## Edgar Filing: POWDER RIVER BASIN GAS CORP - Form 10QSB

applicable and take advantage of the safe harbor provision of the Private Securities Litigation Reform Act of 1995 for any forward-looking statements made by, or on behalf of, the Company. This quarterly report on form 10QSB contains forward-looking statements. Forward-looking statements include statements concerning plans, objectives, goals, strategies, expectations, future events or performance and underlying assumptions and other statements which are other than statements of historical facts. Certain statements contained herein are forward-looking statements and, accordingly, involve risks and uncertainties which could cause actual results or outcomes to differ materially from third parties, but there can be no assurance that management's expectations, beliefs or projections will result of be achieved or accomplished. In addition to other factors and matters discussed elsewhere herein, the following are important factors that, in the view of the Company, could cause actual results to differ materially from those discussed in the forward-looking statements: the ability of the Company to respond to changes in the information system environment, competition, the availability of financing, and, if available, on terms and conditions acceptable to the Company, and the availability of personnel in the future.

### PLAN OF OPERATION

The Company's business strategy for the next twelve months includes focused acquisitions and drilling operations which may be curtailed, delayed or cancelled as a result of a variety of factors, including unexpected drilling conditions, pressure or irregularities in formations, equipment failures or accidents, weather conditions and shortages or delays in equipment delivery. The Company has drilled two gas wells that will produce commercially viable gas resources once the appropriate infrastructure (i.e., pipeline) is in place. The Company plans on implementing its drilling plan and being recognizing revenues during the fiscal year 2004. The Company also plans to continue to increase production on the Louisiana project in the second quarter and is in the process of completing a project in Oklahoma.

6

### LIQUIDITY AND CAPITAL RESOURCES

The Company increased its revenue from oil and gas sales during the third quarter to \$66,000 as compared to \$49,766 for the second quarter making a nine month total of \$154,829. The Company also had a gain on the sale of a property of \$605,978 bringing total revenue to \$760,807 for the nine months ended September 30, 2004. There was no income in previous years. The Company is currently working to raise development capital to increase production and anticipates it will be successful in raising the funds necessary to complete work in progress.

### CURRENT LIABILITIES

On September 30, 2004 the Company had approximately \$28,110 in current liabilities and \$181,000 in long term liabilities. Of this amount approximately \$181,000 is related to the purchase of leasehold interests and related expenses incurred by the Company. The current accounts payable include payments to auditors, accounting and legal as well as start up costs. The accrued expenses include accumulated interest on the outstanding notes owed by the Company.

### NEED FOR ADDITIONAL FINANCING FOR GROWTH

The growth of the Company's business will require substantial capital on a

## Edgar Filing: POWDER RIVER BASIN GAS CORP - Form 10QSB

continuing basis, and there is no assurance that any such required additional capital will be available on satisfactory terms and conditions, if at all. The Company may pursue, from time to time, opportunities to acquire oil and natural gas properties and businesses that may utilize the capital currently expected to be available for its present operations. The amount and timing of the Company's future capital requirements, if any, may depend upon a number of factors, including drilling, transportation, and equipment costs, marketing expenses, staffing levels, competitive conditions, and purchases or dispositions of assets, many of which are not in the Company's control. Failure to obtain any required additional financing could materially adversely affect the growth, cash flow and earnings of the Company. In addition, the Company's pursuit of additional capital could result in the incurrence of additional debt or potentially dilutive issuances of equity securities.

The Company's ability to meet any future debt service will be dependant upon the Company's future performance, which will be subject to oil and natural gas prices, the Company's level of production, general economic conditions and financial, business and other factors affecting the operations of the Company, many of which are beyond its control. There can be no assurance that the Company's future performance will not be adversely affected by such changes in oil and natural gas prices and / or production nor by such economic conditions and / or financial, business and other factors. In addition, there can be no assurance that the Company's business will generate sufficient cash flow from operations or that future bank credit will be available in an amount to enable the Company to service its indebtedness or make necessary expenditures. In such event, the Company would be required to obtain such financing from the sale of equity securities or other debt financing. There can be no assurance that any such financing will be available on terms acceptable to the Company. Should sufficient capital not be available, the Company may not be able to continue to implement its business strategy.

### PART II: OTHER INFORMATION

#### ITEM 1: LEGAL PROCEEDINGS

The Company had an outstanding judgment which was settled prior to September 30, 2004.

7

#### ITEM 2: CHANGES IN SECURITIES

The Company effected the following transactions in reliance upon exemptions from registration under the Securities Act of 1933 as amended (the "Act") as provided in Section 4(2) thereof. Each certificate issued for unregistered securities contained a legend stating that the securities have not yet been registered under the Act and setting forth the restrictions on the transferability and the sale of the securities. No underwriter participated in, nor were any commissions or fees paid to any underwriter in connection with any of these transactions. None of the transactions involved a public offering. The Company believes that each person had knowledge and experience in financial and business matters which allowed them to evaluate the merits and risks of its securities; and that each person was knowledgeable about its operations and financial condition.

In February 2004 the Company issued 3, 640, 856 shares of its common stock to satisfy a previously negotiated convertible debenture. In September 2004 the Company issued 8,602,272 shares to settle a note and issued 7,000,000 restricted shares for a private placement of \$280,000.00
