

Edgar Filing: IMA EXPLORATION INC - Form 6-K

IMA EXPLORATION INC
Form 6-K
January 21, 2003

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 6-K

REPORT OF FOREIGN PRIVATE ISSUER
PURSUANT TO RULE 13a-16 OR 15d-16 UNDER
THE SECURITIES EXCHANGE ACT OF 1934

For the month of JANUARY , 2003 .

IMA EXPLORATION INC.

(Translation of registrant's name into English)

#709 - 837 West Hastings Street, Vancouver, British Columbia, V6C 3N6, Canada

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F:

Form 20-F X Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1): _____

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7): _____

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's "home country"), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the

Edgar Filing: IMA EXPLORATION INC - Form 6-K

Laguna Veins, 550m in 4 holes (see attached drill plan). At each of these targets, IMA plans to test the vein structure at depths of 50 to 150 metres, where IMA's geologists interpret that the "boiling" or gold-enriched zone should be present. This interpretation fits the well documented geological model for a low-sulphidation epithermal gold vein system, such as Esquel.

The Company is encouraged with the surface results announced to date and feels that its geological and geochemical compilation and interpretation demonstrates compelling evidence for the discovery potential of an economic gold deposit at Las Bayas.

IMA's geological team conducting the drill program has an intimate knowledge of the local geology. The exploration team on Las Bayas includes: Paul Lhotka, Ph.D., P.Ge., who has extensive experience in low sulphidation epithermal gold vein systems; Sergio Kain, B.Sc., who was a member of Brancote PLC's geological team that was credited with the Esquel discovery; and Daniel Bussandri, B.Sc., a local Argentine geologist with substantial experience in the Patagonia region. The drill program will be overseen by Keith Patterson, M.Sc., IMA's Exploration Manager.

IMA is a pioneer and veteran of Argentina's mining exploration industry and is well positioned to take advantage of highly prospective gold projects as they become available. The Company's network of contacts has been developed over the past 10 years, enabling IMA to quickly identify new opportunities and negotiate advantageous terms, especially since the recent devaluation of the Argentine peso.

ON BEHALF OF THE BOARD

/s/ Gerald G. Carlson

Dr. Gerald G. Carlson, P.Ge., Chairman
