F-5

GLOBAL RESOURCE CORPORATION
FORMERLY ADVANCED HEALTHCARE TECHNOLOGIES, INC.
Notes to the Financial Statements
December 31, 2004 and March 31, 2004

NOTE 1 - FINANCIAL STATEMENTS

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows at December 31, 2004 and for all periods presented have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these financial statements be read in conjunction with the financial statements and notes thereto included in the Company's March 31, 2004 audited consolidated financial statements. The results of operations for the period ended December 31, 2004 are not necessarily indicative of the operating results for the full year.

NOTE 2 - GOING CONCERN

The Company's financial statements are prepared using the accounting principles generally accepted in the United States of America applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, the Company has had a change in control and has changed its business plan and it has not generated any revenues. The future of the Company is dependent upon its ability to obtain financing and upon future profitable operations from the development of its new business opportunities. Management plans to research possible acquisitions of various entities and an officer of the Company has agreed to loan the Company funds as needed to sustain business for a period of twelve months. However, the Company is dependent upon its ability to secure equity and/or debt financing and there are no assurances that the Company will be successful, without sufficient financing it would be unlikely for the Company to continue as a going concern.

These conditions raise substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments that might arise from this uncertainty.

NOTE 3 - DISCONTINUED OPERATIONS

Edgar Filing: Global Resource CORP - Form 10QSB

On June 30, 2004, the Company's CEO entered into an agreement to sell 1,260,000 of the Company's common stock and his controlling interest to an unrelated individual. This resulted in the Company's wholly owned subsidiary, NutraTek, LLC, being spun off and left Advanced Healthcare Technologies Inc. as the remaining shell company.

All assets were associated with the discontinued operations as well as all of the liabilities except for \$247,546 which was associated with Advanced.

GLOBAL RESOURCE CORPORATION
FORMERLY ADVANCED HEALTHCARE TECHNOLOGIES, INC.
Notes to the Financial Statements
December 31, 2004 and March 31, 2004

NOTE 4 - BENEFICIAL COVERSION FEATURES OF DEBT

The Company recognized a beneficial conversion feature for a \$25,000 convertible debenture, due February 1, 2005, with an 8% interest rate per year, that was issued in the second quarter. The Company also recognized two additional beneficial conversion features for two \$50,000 convertible debentures, both due April 1, 2005, both with an 8% interest rate per year, which were issued in the third quarter. All of the convertible debentures were convertible into shares of common stock at a price per share equal to a 50% discount to the lowest closing bid on the day of conversion, or at the lowest price allowable as set by The Company in an effective registration statement or exemption notification as filed with the Securities and Exchange Commission. A total discount of \$125,000 for all three debentures has been amortized as non-cash interest expense as of December 31, 2004

NOTE 5 - SIGNIFICANT EVENTS

During the second quarter the Company amended their Articles of Incorporation to increase their shares of common stock authorized from 500,000,000 to 2,000,000,000 and to increase their shares of preferred stock authorized from 5,000,000 to 50,000,000. In addition, during the second quarter, the Company had a 1 for 100 reverse stock split. All references to common stock have been retroactively restated.

During the second quarter the Company changed the name of the Company from Advanced Healthcare Technologies, Inc. to Global Resources Corporation. Additionally, the Company notified the Securities and Exchange Commission of their desire to be regulated as a Business Development Company, pursuant to the provisions of section 54(a) of the Investment Company Act of 1940 (the "Act") to be subject to the provisions of sections 55 through 65 of the Act.

NOTE 6 - SUBSEQUENT EVENTS

Subsequent to December 31, 2004, the Company issued two convertible debentures, one for \$25,000 and one for \$30,000, both due June 2005, both with an 8% interest rate per year. The convertible debentures are convertible into shares of common stock at a price per share equal to a 50% discount to the lowest closing bid on the day of conversion, or at the lowest price allowable as set by the Company in an effective

Edgar Filing: Global Resource CORP - Form 10QSB

registration statement or exemption notification as filed with the Securities and Exchange Commission.

Subsequent to December 31, 2004, the Company obtained a 50% controlling interest in a Nevada limited liability company called Well Renewal, LLC ("Well Renewal"). The interest was obtained with a capital contribution of \$150,000. The business plan of Well Renewal is to obtain revenues via the management and operation of thirty oil wells located in Oklahoma.

F-9

ITEM 2 - PLAN OF OPERATION

The following discussion and analysis should be read in conjunction with our unaudited consolidated condensed financial statements and related notes included in this report. This report contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. The statements contained in this report that are not historic in nature, particularly those that utilize terminology such as "may," "will," "should," "expects," "anticipates," "estimates," "believes," or "plans" or comparable terminology are forward-looking statements based on current expectations and assumptions.

Various risks and uncertainties could cause actual results to differ materially from those expressed in forward-looking statements. All forward-looking statements in this document are based on information currently available to us as of the date of this report, and we assume no obligation to update any forward-looking statements. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results to differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements.

Change of Control

On June 30, 2004, Richard Mangiarelli purchased 126,000,000 shares of Global Resource common stock from its former President, Chief Executive Officer, Director, and majority stockholder, Johnny Sanchez. As a result, Mr. Mangiarelli now holds approximately 52.5% of the issued and outstanding common stock of Global Resource.

In connection with this change in control, Mr. Sanchez resigned as Global Resource's President and Chief Executive Officer, Joel Rockwood resigned as its Vice President and Chief Scientific Officer, and Michael MacArthur resigned as its Secretary. The board of directors appointed Mr. Mangiarelli as the new President, Chief Financial Officer, and Secretary. In addition, Mr. Sanchez, Mr. Rockwood, Virginia Sanchez, Carmen Sanchez, and Joe V. Overcash resigned as directors of Global Resource. The outgoing directors appointed Richard Mangiarelli to fill the vacancies on the board.

On June 30, 2004, Global Resource entered into a Release and Indemnity Agreement with Johnny Sanchez, its former President, Chief Executive Officer, Director, and majority stockholder, pursuant to which Global Resource sold the all of its membership interest in NutraTek to Mr. Sanchez in exchange for Mr. Sanchez's agreement to do the following: (a) release Global Resource from any and all claims that Mr. Sanchez may have had against Global Resource; (b) indemnify Global Resource for any and all claims against or liabilities of Global Resource that existed before June 30, 2004, and (c) to cooperate with and assist Global Resource in connection with its reporting obligations or filing requirements under the Securities Act of 1933, as amended, and Securities

Edgar Filing: Global Resource CORP - Form 10QSB

Exchange Act of 1934, as amended, and to deliver such other instruments and take such other actions as may be reasonably requested by Global Resource in order to carry out the intent of the agreement.

Before the change of control described above, Global Resource's principal business and operations were those of NutraTek. NutraTek researched, developed, and thereafter contracted with third parties to manufacture its own line of nutritional dietary supplements, functional food products and natural sweeteners.

Business Development Company Election

Global Resource's new management has decided to terminate the nutritional products business and become a business development company. On September 17, 2004, Global Resource filed a notice with the Securities and Exchange Commission electing to be regulated as a business development company under the Investment Company Act of 1940, as amended. As a business development company, Global Resource shall focus on making investments in securities, and making available significant managerial assistance with respect to the issuers of such securities, of companies that meet the following criteria:

A. is organized under the laws of, and has its principal place of business in, one of the states of the United States;

B. is not an investment company, as defined in the Investment Company Act of 1940; and

2

C. satisfies one of the following:

1. it does not have any class of securities with respect to which a member of a national securities exchange, broker, or dealer may extend or maintain credit to or for a customer pursuant to rules or regulations adopted by the Board of Governors of the Federal Reserve System under section 7 of the Securities Exchange Act of 1934;

2. it is controlled by a business development company, either alone or as part of a group acting together, and such business development company in fact exercises a controlling influence over the management or policies of such eligible portfolio company and, as a result of such control, has an affiliated person who is a director of such eligible portfolio company;

3. it has total assets of not more than \$4,000,000, and capital and surplus (shareholders' equity less retained earnings) of not less than \$2,000,000, except otherwise allowed by the Securities and Exchange Commission; or

4. it meets such other criteria as management may establish consistent with the rules and regulations of the Securities and Exchange Commission.

Effective January 11, 2005, Global Resource entered into an operating agreement with Well Renewal, Inc., an Oklahoma corporation, for the operation and management of Well Renewal, LLC, a newly formed Nevada limited liability company. Well Renewal, LLC was formed to obtain revenues via the management and operation of thirty oil wells located in various locations in Oklahoma by utilizing a nitrogen and carbon dioxide gas injection unit to "pump up" and re-pressure the wells to increase oil output. Global Resource's capital

Edgar Filing: Global Resource CORP - Form 10QSB

contribution to Well Renewal, LLC was \$150,000 for a fifty percent membership interest. Well Renewal, Inc.'s capital contribution to Well Renewal, LLC was comprised of (i) the assignment and sale of a NCO2 Injection Machine, and (ii) the assignment and sale of various leases held by Well Renewal, Inc., for a fifty percent membership interest.

Global Resource is currently evaluating other prospective eligible portfolio companies for investment, and it intends to continue to do so over the next twelve months. In that time period, Global Resource intends to hire from six to up to fifty employees, depending on the nature of the portfolio companies in which it invests. Global Resource has established a stock option plan in order to attract and retain employees and to provide employees who make significant and extraordinary contributions to Global Resource's long-term growth and performance with equity-based compensation incentives.

Global Resource intends to retain any future earnings to finance the expansion of its business and any necessary capital expenditures, and for general corporate purposes.

Liquidity and Capital Resources

Global Resource currently has limited working capital with which to satisfy its cash requirements, and it will require additional capital in order to conduct operations. Global Resource anticipates that we will at least \$250,000 in additional working capital in order to sustain operations for the next 12 months. This requirement may increase substantially, depending on the nature and capital requirements of the business opportunities it elects to pursue.

In order to obtain working capital, from October, 2004 to January, 2005, Global Resource issued convertible debentures in the aggregate principal amount of \$155,000 in a private placement. The notes are due approximately five (5) months after issuance and bear interest at a rate of eight percent (8%). The notes are convertible into shares of Global Resource's common stock, at the option of either Global Resource or the holder of the note, at a floating conversion price of fifty percent (50%) of the closing bid price per share on the day of conversion, or at the lowest price allowable as set by Global Resource in an effective registration statement or exemption notification as filed with the Securities and Exchange Commission. Global Resource is obligated to register the resale of the shares of common stock issuable upon conversion of the debenture under the Securities Act of 1933, as amended, or to otherwise provide an acceptable exemption to registration under Regulation E of the Securities Act of 1933, as amended.

3

In addition, in September 2004, Global Resource commenced an offering of its common stock pursuant to Regulation E of the Securities Act of 1933, as amended. Pursuant to this offering, holders of the debentures referenced above have converted, in the aggregate, approximately \$31,000 of principal and interest due under the debentures into an aggregate of 4,815,000 shares of our common stock.

In January, 2005, we amended this offering to reduce the range of the price per share of the offering. The Division of Investment Management of the Securities and Exchange Commission has delivered comments to Global Resource regarding this amended offering, and Global Resource is currently working with the Division of Investment Management to address these comments. This offering may not provide Global Resources with the capital necessary to fund its operations. In the event that Global Resource is unable to obtain necessary capital from this offering, management may provide additional financing for

Edgar Filing: Global Resource CORP - Form 10QSB

Global Resource.

Off Balance Sheet Arrangements

Global Resource does not have any off-balance sheet financing arrangements.

ITEM 3 - CONTROLS AND PROCEDURES

Our disclosure controls and procedures are designed to ensure that information required to be disclosed in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. Our Chief Executive Officer and Chief Financial Officer has reviewed the effectiveness of our "disclosure controls and procedures" (as defined in the Securities Exchange Act of 1934 Rules 13a-14(c) and 15d-14(c)) within the last ninety days and has concluded that the disclosure controls and procedures are effective to ensure that material information relating to Global Resource Corporation is recorded, processed, summarized, and reported in a timely manner. There were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the last day they were evaluated by our Chief Executive Officer and Chief Financial Officer.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. As a small organization, the effectiveness of our controls heavily depends on the direct involvement of our Chief Executive Officer and Chief Financial Officer.

PART II: OTHER INFORMATION

ITEM 1 - LEGAL PROCEEDINGS

None.

ITEM 2 - UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(a)

1. On September 15, 2004, Global Resource issued a convertible debenture to Javelin Holdings in the principal amount of \$25,000 for services rendered. The note is due on February 1, 2005 and bears interest at a rate of eight percent (8%). The note is convertible into shares of Global Resource's common stock at a floating conversion price of fifty percent (50%) of the closing bid price per share on the day of conversion, or at the lowest price allowable as set by Global Resource in an effective registration statement or exemption notification as filed with the Securities and Exchange Commission. Global Resource is obligated to register the resale of the shares of common stock issuable upon conversion of the debenture under the Securities Act of 1933, as amended, or to otherwise provide an acceptable exemption to registration under Regulation E of the Securities Act of 1933, as amended. The issuance was exempt under Section 4(2) of the Securities Act.

4

2. From October, 2004 to January, 2005, Global Resource issued convertible debentures in the aggregate principal amount of \$155,000 in a

Edgar Filing: Global Resource CORP - Form 10QSB

private placement. The notes are due approximately five (5) months after issuance and bear interest at a rate of eight percent (8%). The notes are convertible into shares of Global Resource's common stock, at the option of either Global Resource or the holder of the note, at a floating conversion price of fifty percent (50%) of the closing bid price per share on the day of conversion, or at the lowest price allowable as set by Global Resource in an effective registration statement or exemption notification as filed with the Securities and Exchange Commission. Global Resource is obligated to register the resale of the shares of common stock issuable upon conversion of the debenture under the Securities Act of 1933, as amended, or to otherwise provide an acceptable exemption to registration under Regulation E of the Securities Act of 1933, as amended. The issuances were exempt under Section 4(2) of the Securities Act.

3. On September 27, 2004, Global Resource commenced an offering of up to 1,000,000,000 shares its common stock at an offering price per share between \$0.005 and \$0.05. To date, Global Resource has sold approximately 4,815,000 shares pursuant to the offering upon conversion of a portion of the debentures described above. The issuance was exempt pursuant to Section 3(b) of the Securities Act and Regulation E thereunder.
