AND ITS SUBSIDIARIES

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands

NOTE 1:- GENERAL

- a. Mer Telemanagement Solutions Ltd. (the "Company" or "MTS") was incorporated on December 27, 1995. MTS and its subsidiaries ("the Group") designs, develops, markets and supports a comprehensive line of telecommunication management and customer care & billing ("CC&B") solutions that enable business organizations and other enterprises to improve the efficiency and performance of all IP operations, and reduce

## Edgar Filing: MER TELEMANAGEMENT SOLUTIONS LTD - Form 6-K

associated costs. The Group products include call accounting and management products, fault management systems and web based management solutions for converged voice, voice over Internet Protocol, IP data and video and CC&B solutions.

- b. MTS's products are designed to provide telecommunication and information technology managers with tools to reduce communication costs, recover charges payable by third parties, and to detect and prevent abuse and misuse of telephone networks including fault telecommunication usage.

The Group markets its products worldwide through distributors, business telephone switching systems manufacturers and vendors and its direct sales force. Several international private automatic branch exchange ("PBX") manufacturers market the Group's products as part of their PBX selling efforts or on an Original Equipment Manufacturer ("OEM") basis. The Group is highly dependent upon the active marketing and distribution of its OEM's. If the Group is unable to effectively manage and maintain a relationship with its OEM or any event negatively affecting such dealer's financial condition, could cause a material adverse effect on the Group's results of operations and financial position.

Certain components and subassemblies included in the Group's products are obtained from a single source or a limited group of suppliers and subcontractors. If such supplier fails to deliver the necessary components or subassemblies, the Company may be required to seek alternative sources of supply. A change in supplier could result in manufacturing delays, which could cause a possible loss of sales and, consequently, could adversely affect the Company's results of operations and financial position.

MTS's shares are listed for trade on the Nasdaq SmallCap Market.

### NOTE 2:- SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies applied in the annual consolidated financial statements of the Company as of December 31, 2004, are applied consistently in these financial statements.

### NOTE 3:- UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States for interim financial information. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six months ended June 30, 2005 are not necessarily indicative of the results that may be expected for the year ended December 31, 2005. For further information, reference is made to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 20-F for the year ended December 31, 2004.

NOTE 4:- INVENTORIES

	June 30, 2005	December 31, 2004
	----- Unaudited -----	-----
Raw materials	\$ 78	\$ 76
Finished products	102	102
	-----	-----
	\$ 180	\$ 178
	=====	=====

The Group periodically assesses its inventory valuation in accordance with its revenues forecasts, technological obsolescence, and the market conditions. Marked down inventory that is expected to be sold at a price lower than the carrying value is not material.

NOTE 5:- GOODWILL

Goodwill represents excess of the costs over the net assets of businesses acquired. Statement of Financial Accounting Standard No. 142, "Goodwill and Other Intangible Assets" ("SFAS No. 142") requires goodwill to be tested for impairment annually or between annual tests in certain circumstances, and written down when impaired. No indications of impairment were identified during the six months ended June 30, 2005.

The changes in the carrying amount of goodwill for the year ended December 31, 2004 and for the period ended June 30, 2005 are as follows:

Balance as of December 31, 2004	\$ 3,415
Additional amount ascribed to goodwill resulting from realization of contingent consideration (see also note 7c(3))	96
	-----
Balance as of June 30, 2005	\$ 3,511

### NOTE 6:- GEOGRAPHIC INFORMATION AND MAJOR CUSTOMER

The Company adopted Statement of Financial Accounting Standard No. 131, "Disclosures About Segments of an Enterprise and Related Information" ("SFAS No. 131"). The Company operates in one reportable segment (see Note 1 for a brief description of the Company's business). The total revenues are attributed to geographic areas based on the location of the customer.

The following is a summary of revenues within geographic areas based on end customer location and long-lived assets:

AND ITS SUBSIDIARIES

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands

NOTE 7:- COMMITMENTS AND CONTINGENCIES

a. In April 2000, the tax authorities in Israel issued a demand for a tax payment for the period of 1997-1999, in the amount of approximately NIS 6.0 million (\$ 1,350). The Company has appealed to the Israeli District Court in respect of such tax demand. Based on the opinion of the Company's legal counsel, it believes that certain defenses can be raised against the demand of the tax authorities. The Company made a provision based on its current estimate of the potential liability. An evidentiary hearing has been scheduled for January 2, 2006.

b. On April 18, 2005, Amdocs (Israel) Ltd. and Amdocs Ltd. (the "Plaintiffs") filed a complaint with the Tel Aviv District Court against the Company, its Chief Executive Officer and others (the "Defendants") alleging, among other things, that professional and commercial information belonging to the plaintiffs was transferred to the defendants for use in the Company's activity. The Plaintiffs are seeking an injunction prohibiting the Defendants from making any use of the information and trade secrets that were allegedly transferred, injunctions requiring the return of such information and estimated damages of NIS 14,775 (approximately \$ 3,280), as of June 30, 2005.

On June 27, 2005, the defendants filed a statement of defense, in which the defendants claim that the factual and legal allegations by the plaintiffs are baseless, and the causes of action and relief requested are without merit.

Due to the preliminary stage of the litigation, the Company and its legal advisors cannot currently assess its outcome or its possible adverse effect on the Company's financial position or results of operations, and therefore no accrual has been recorded at this time.

c. Royalty commitments:

1. The Company is committed to pay royalties to the Office

## Edgar Filing: MER TELEMANAGEMENT SOLUTIONS LTD - Form 6-K

of the Chief Scientist of the Ministry of Trade ("OCS") of the Government of Israel on proceeds from sales of products resulting from the research and development projects in which the Government participated. In the event that development of a specific product in which the OCS participated is successful, the Company will be obligated to repay the grants through royalty payments at the rate of 3% to 5% based on the sales of the Company, up to 100%-150% of the grants received linked to the dollar. As of June 30, 2005, the Company has a contingent obligation to pay royalties in the amount of \$ 9,229. The obligation to pay these royalties is contingent upon actual sales of the products and, in the absence of such sales, no payment is required.

2. The Israeli Government, through the Fund for Encouragement of Marketing Activities, awarded the Company grants for participation in foreign marketing expenses. The Company is committed to pay royalties at the rate of 3% of the increase in export sales, up to the amount of the grants received linked to the U.S. dollar. As of June 30, 2005, the Company has a contingent obligation to pay royalties in the amount of \$ 259.
3. As part of the Teleknowledge acquisition of December 30, 2004 the Company committed to pay contingent consideration of up to an amount of \$3,650 based on post acquisition revenue performance (calculated as 10% of renewal maintenance fees and 20% of all other revenues from sales which included Teleknowledge products), over a period of three years. Such payments are recorded as additional goodwill, during the contingency period. As of June 30, 2005 the Company has a contingent obligation to pay and additional consideration in the amount of \$ 3,554.

### NOTE 8: ACCOUNTING FOR STOCK-BASED COMPENSATION

The Company accounts for stock-based compensation in accordance with the provisions of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB No. 25") and Financial Accounting Standards Board Interpretation No. 44, "Accounting for Certain Transactions Involving Stock Compensation" ("FIN No. 44"). Under APB No. 25, when the exercise price of an employee's options equals or is higher than the market price of the underlying Common Stock on the date of grant, no compensation expense is recognized. Under Statement of Financial Accounting Standard No. 123, "Accounting for Stock-Based Compensation" ("SFAS No. 123"), pro-forma information regarding net income and income per share is required, and has been determined as if the Company had accounted for its employee stock options under the fair

## Edgar Filing: MER TELEMANAGEMENT SOLUTIONS LTD - Form 6-K

value method of SFAS No. 123.

The fair value of these options is amortized over their vesting period and estimated at the date of grant using a Black-Scholes multiple option pricing model with the following weighted average assumptions for the three and the six months periods ended June 30, 2005 and 2004:

	Six months ended June 30,		Three months ended June 30,	
	2005	2004	2005	2004
	Unaudited			
Risk free interest	3.53%	2.79%	3.52%	2.79%
Dividend yields	0%	0%	0%	0%
Volatility	61.3%	53.37%	61.4%	53.37%
Expected life	3.7	4.71	3.7	4.71

The following table illustrates the effect on net income and earnings per share, assuming that the Company had applied the fair value recognition provision of SFAS No. 123 on its stock-based employee compensation (in thousands, except per share amounts):

	Six months ended June 30,		Three months ended June 30,	
	2005	2004	2005	2004
	Unaudited			
Net income (loss) as reported	\$ (3,183)	\$ (1,126)	\$ (1,149)	\$ (1,149)
Add: Stock-based employee compensation - intrinsic value	32	33	17	17
Less - stock-based compensation expense determined under fair value method for all awards:	(151)	(148)	(72)	(72)
Pro forma net loss	\$ (3,302)	\$ (1,241)	\$ (1,204)	\$ (1,204)
Basic and diluted net earnings (loss) per share, as reported	\$ (0.68)	\$ (0.24)	\$ (0.68)	\$ (0.24)
Basic and diluted net loss per share, pro forma	\$ (0.71)	\$ (0.27)	\$ (0.26)	\$ (0.26)

AND ITS SUBSIDIARIES

## NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

---

U.S. dollars in thousands

### NOTE 9: RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

On December 16, 2004, the Financial Accounting Standards Board issued Statement No. 123R (revised 2004 Share Based Payment ("Statement 123R")), which is a revision of SFAS No. 123, "Accounting for Stock-Based Compensation" ("SFAS No. 123"). Generally, the approach in Statement 123R is similar to the approach described in SFAS No. 123. However, SFAS No. 123 permitted, but did not require, share-based payments to employees to be recognized in income based on their fair values while Statement 123R requires all share-based payments to employees to be recognized in income based on their fair values. Statement 123R also revises, clarifies and expands guidance in several areas, including measuring fair value, classifying an award as equity or as a liability and attributing compensation cost to reporting periods.

The Company will adopt the accounting provisions of Statement 123R Effective January 1, 2006. As permitted by Statement 123, the company currently accounts for share-based payments to employees using Opinion 25's intrinsic value method and, as such, generally recognizes no compensation cost for employee stock options. In addition, non-compensatory plans under APB 25 will be considered compensatory for FAS 123(R) purposes. Accordingly, the adoption of Statement 123(R)'s fair value method may have a significant impact on the Company's result of operations in the future, however, the impact of its adoption cannot be predicted at this time because it will depend on levels of share-based payments granted in the future. However, had the Company adopted Statement 123(R) in prior periods, the impact of that standard would have approximated the impact of Statement 123 as described in the disclosure of pro forma net income and earnings per share in Note 8 to the consolidated financial statements.

In May 2005, the FASB issued FASB Statement No. 154, "Accounting Changes and Error Corrections: a replacement of APB Opinion No. 20 ("APB 20") and FASB Statement No. 3" ("SFAS No. 154") which requires companies to apply voluntary changes in accounting principles retrospectively whenever it is practicable. The retrospective application requirement replaces APB 20's requirement to recognize most voluntary changes in accounting principle by including the cumulative effect of the change in net income during the period the change occurs. Retrospective application will be the required transition method for new accounting pronouncements in the event that a newly-issued pronouncement does not specify transition guidance. SFAS No. 154 is effective for accounting changes made in fiscal years beginning after December 15, 2005.

### NOTE 10: SUBSEQUENT EVENTS

On August 10, 2005, the Company entered into definitive agreements and consummated a transaction with institutional and private investors for a private placement of ordinary shares and warrants to purchase ordinary shares for a total consideration of \$2.8 million.

Pursuant to the agreements, MTS issued an aggregate 937,500 ordinary

## Edgar Filing: MER TELEMANAGEMENT SOLUTIONS LTD - Form 6-K

shares at \$3.00 per share. In addition, the Company provided the investors with warrants to purchase an aggregate 375,000 additional ordinary shares of MTS at an exercise price of \$4.00 per share. Each investor received warrants to purchase two ordinary shares for each five ordinary shares purchased. The warrants will become exercisable six months after their issuance and may be exercised within three and a half years after they become exercisable.

### Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of our results of operations should be read together with our interim consolidated financial statements and the related notes, which appear elsewhere in this report. The following discussion contains forward-looking statements that reflect our current plans, estimates and beliefs and involve risks and uncertainties. Our actual results may differ materially from those discussed in the forward-looking statements. Factors that could cause or contribute to such differences include those discussed below and elsewhere in this report.

#### Overview

We are a total solutions provider in the telecom expense and billing arenas. We design, develop, market and support a comprehensive line of telecommunication management and customer care and billing, or CC&B, solutions that enable business organizations and other enterprises to improve the efficiency and performance of all IP operations, and to significantly reduce associated costs. Our products include call accounting and management products, fault management systems and Web-based management solutions for converged voice, voice over IP, IP data and video and CC&B solutions. These products are designed to provide telecommunication and information technology managers with tools to reduce communication costs, recover charges payable by third parties, detect and report the abuse and misuse of telephone networks, monitor and detect hardware and software faults in telecommunications networks and generate telecommunications usage information for use in the management of an enterprise. We were among the first to offer PC-based call accounting systems when we introduced our TABS product in 1985. To date, over 60,000 TABS call accounting systems have been sold to end-users in more than 60 countries.

#### General

Our consolidated financial statements are stated in U.S. dollars and prepared in accordance with U.S. generally accepted accounting principles. Transactions and balances originally denominated in dollars are presented at their original amounts. Transactions and balances in other currencies are remeasured into dollars in accordance with the principles set forth in Financial Accounting Standards Board Statement No. 52. The majority of our sales are made outside Israel in dollars. In addition, substantial portions of our costs are incurred in dollars. Since the dollar is the primary currency of the economic environment in which we and certain of our subsidiaries operate, the dollar is our functional and reporting currency and, accordingly, monetary accounts maintained in currencies other than the U.S. dollar are remeasured using the foreign exchange rate at the balance sheet date. The resulting translation adjustments are reported as a financial income (loss) in the statement of operations. Operational accounts and non-monetary balance sheet accounts

## Edgar Filing: MER TELEMANAGEMENT SOLUTIONS LTD - Form 6-K

maintained in currencies other than the U.S. dollar are remeasured and recorded at the exchange rate in effect at the date of the transaction. The financial statements of certain foreign subsidiaries and an affiliate whose functional currency is not the U.S. dollar, have been translated into dollars. All balance sheet accounts have been translated using the exchange rates in effect at the balance sheet date. Statement of operations amounts have been translated using the weighted average exchange rate for the period. The resulting translation adjustments are reported as a component of shareholders' equity in accumulated other comprehensive income (loss).

### Critical Accounting Policies and Estimations

There has been no change to our critical accounting policies and estimates, contained in Item 5. "Operating and Financial Review and Prospects" of our Annual Report on Form 20-F filed for the year ended December 31, 2004.

### Recently Issued Accounting Standards

On December 16, 2004, the Financial Accounting Standards Board, or FASB, issued Statement of Financial Accounting Standards No. 123 (revised 2004), "Share-Based Payment", or SFAS 123(R), which is a revision of Statement of Financial Accounting Standards No. 123, "Accounting for Stock Based Compensation", or SFAS 123. Generally, the approach in SFAS 123(R) is similar to the approach described in SFAS 123. However, SFAS 123 permitted, but did not require, share-based payments to employees to be recognized based on their fair values while SFAS 123(R) requires all share-based payments to employees to be recognized based on their fair values. SFAS 123(R) also revises, clarifies and expands guidance in several areas, including measuring fair value, classifying an award as equity or as a liability and attributing compensation cost to reporting periods. The new standard will be effective for us commencing January 1, 2006.

As permitted by SFAS 123, we currently account for share-based payments to employees using APB 25, the intrinsic value method, and, as such, recognize no compensation cost for employee stock options. The impact of the adoption of SFAS 123(R) cannot be predicted at this time, as it depends on levels of share-based payments for future grant. Had we adopted Statement 123(R) in prior periods, the impact of that standard would have approximated the impact of Statement 123 as described in the disclosure of pro forma net income and earnings per share in our consolidated financial statements.

In May 2005, the FASB issued FASB Statement No. 154, "Accounting Changes and Error Corrections: a replacement of APB Opinion No. 20 ("APB 20") and FASB Statement No. 3" ("SFAS No. 154") which requires companies to apply voluntary changes in accounting principles retrospectively whenever it is practicable. The retrospective application requirement replaces APB 20's requirement to recognize most voluntary changes in accounting principle by including the cumulative effect of the change in net income during the period the change occurs. Retrospective application will be the required transition method for new accounting pronouncements in the event that a newly-issued pronouncement does not specify transition guidance. SFAS No. 154 is effective for accounting changes made in fiscal years beginning after December 15, 2005.

### Operating Results

The following table presents certain financial data expressed as a percentage of total revenues for the periods indicated:

Edgar Filing: MER TELEMANAGEMENT SOLUTIONS LTD - Form 6-K

Six Months Ended June 30, 2004 and 2005

Revenues from products and services. Revenues consist primarily of software license fees sales, hardware sales and revenues from services, including service bureau, maintenance, training, professional services and support. Revenues increased 27.3% to \$5.54 million in the six months ended June 30, 2005, compared to \$4.35 million reported in the first six months of 2004. Revenues in the second quarter of 2005 increased 41% to \$2.81 million, compared to \$2.0 million in the second quarter of 2004. Revenues from our wholly owned U.S. subsidiary, MTS IntegraTRAK, increased 25.7 % from the six months ended June 30, 2004 and accounted for 54.7% of our total revenues in the six months ended June 30, 2005. The increase in revenues was primarily attributable to revenues from billing solutions that we started to recognize in January 2005 as a result of the inclusion of the technology acquired from Teleknowledge and revenues from sales of our new telemanagement solutions.

Cost of Revenues from products and services. Cost of revenues consists primarily of (i) production costs (including hardware, media, packaging, freight and documentation); (ii) certain royalties and licenses payable to third parties (including the Office of the Chief Scientist of the Ministry of Industry and Trade of the State of Israel), (iii) professional services costs; and (iv) warranty and support costs for up to one year for end-users and up to 15 months for our "OEM" distributors. Cost of revenues increased by 63.0% to \$1.70 million in the six months ended June 30, 2005 from \$1.05 million in the six months ended June 30, 2004. Cost of revenues increased by 71.7% to \$869,000 thousand in the second quarter of 2005 from \$506,000 in the second quarter of 2004. This

## Edgar Filing: MER TELEMANAGEMENT SOLUTIONS LTD - Form 6-K

increase is in accordance with the increase in revenues and principally a result of the significant number of new employees recruitments in professional services and tech support departments and their travel expenditures.

**Research and Development.** Research and development expenses consist primarily of salaries of employees engaged in on-going research and development activities, outsourcing subcontractor development and other related costs. Research and development costs increased by 128.2% to \$2.51 million in the six months ended June 30, 2005 from \$1.10 million in the six months ended June 30, 2004. Research and development costs increased by 206% to \$1.17 million in the second quarter of 2005 from \$569,000 in the second quarter of 2004. Total research and development expenses increased in the 2005 period primarily due to the continued integration of TeleKnowledge's research and development group, as well as to our continuing investment in products development.

**Selling and Marketing.** Selling and marketing expenses consist primarily of costs relating to sales representatives and their travel expenses, trade shows and marketing exhibitions, advertising and presales support. Selling and marketing expenses were \$2.90 million in the six months ended June 30, 2005, an increase of approximately 14.9% from \$2.52 million in the six months ended June 30, 2004. This increase in selling and marketing expenses is primarily attributable to the increase in our personnel globally across our sales division. We reduced our selling and marketing expenditures in the second quarter of 2005 compared to the first quarter of 2005 as part of our commitment to focus on the growing areas of our business. Selling and marketing expenses were \$1.37 million in the second quarter of 2005, reflecting a modest decline from \$1.40 million reported in the second quarter of 2004.

**General and Administrative.** General and administrative expenses consist primarily of compensation costs for administration, finance and general management personnel, professional fees and office maintenance and administrative costs. General and administrative expenses increased by 95.5% to \$1.72 million in the six months ended June 30, 2005 from \$887,000 in the six months ended June 30, 2004. General and administrative expenses increased by 38.45% to \$677,000 in the second quarter of 2005 compared to \$489,000 in the second quarter of 2004. This increase is attributable to the increase in our overall activity. .

**Financial Income, Net.** Financial income consists primarily of interest income on bank deposits and foreign currency translation adjustments. Financial income increased by 57.9% to \$30,000 in the six months ended June 30, 2005 from \$19,000 in the six months ended June 30, 2004. Financial income in the second quarter of 2005 was \$11,000 compared to financial expenses of \$9,000 in the second quarter of 2004.

**Net Loss.** Net loss for the six months ended June 30, 2005 was \$3.18 million, or \$0.68 per ordinary share on a basic and diluted basis, compared to a net loss \$1.13 million, or \$0.24 per ordinary share on a basic and diluted basis, reported for the six months ended June 30, 2004. Net loss for the second quarter of 2005 was \$1.15 million, or \$0.24 per ordinary share on a basic and diluted basis, compared to \$929,000, or \$0.20 per ordinary share on a basic and diluted basis in the second quarter of 2004. The increased loss is primarily attributable to increased expenses associated with our growth strategy and the further integration of the TeleKnowledge acquisition.

### Seasonality

Our operating results are generally not characterized by a seasonal pattern except that our volume of sales in Europe are generally lower in the summer months.

## Edgar Filing: MER TELEMANAGEMENT SOLUTIONS LTD - Form 6-K

### Liquidity and Capital Resources

On June 30, 2005, we had \$1.75 million in cash and cash equivalents, \$126,000 in marketable securities and working capital of \$249,000 as compared to \$3.8 million in cash and cash equivalents, \$1.1 million in marketable securities and working capital of \$2.8 million on December 31, 2004. The decrease in working capital was mainly due to our losses in the period, research and development expenses associated with the integration of the Teleknowledge activity, as well as for the increase in our business activity that resulted in increased trade payables and accrued expenses and other liabilities. We improved our cash position on August 10, 2005 when we entered into definitive agreements and consummated a transaction with institutional and private investors for a private placement of our ordinary shares and warrants to purchase ordinary shares that raised \$2.8 million. If the warrants are exercised in full we will raise an additional \$1.5 million.

One of the principal factors affecting our working capital is the payment cycle on our sales. Payment for goods shipped is generally received from 60 to 70 days after shipment. Any material change in the aging of our accounts receivable could have an adverse effect on our working capital.

Our operations used \$ 3.3 million during the six months ended June 30, 2005, compared to \$ 465,000 that was used in the six months ended June 30 , 2004, due to our research and development expenses associated with the integration of the TeleKnowledge activity, as well as to our continuing investment in products development. The increase also relates to increased selling and marketing expenses that are primarily attribute to the increase in our personnel globally across our sales division.

We currently do not have significant capital spending or purchase commitments, but we expect to continue to engage in capital spending consistent with the level of our operations. We anticipate that our cash on hand and cash flow from operations will be sufficient to meet our working capital and capital expenditure requirements for at least 12 months. However, if we do not generate sufficient cash from operations, we may be required to obtain additional financing or to reduce level of expenditure. There can be no assurance that such financing will be available in the future, or, if available, will be on terms satisfactory to us.

We are not a party to any material off-balance sheet arrangements. In addition, we have no unconsolidated special purpose financing or partnership entities that are likely to create material contingent obligations.
