EMVELCO CORP.
Notes to Unaudited Condensed Consolidated Financial Statements

1. Organization and Business

Emvelco Corp. ("Emvelco"), f/k/a Euroweb International Corp., is a Delaware Corporation, which was incorporated on November 9, 1992. Emvelco and its consolidated subsidiaries are collectively referred to herein as the "Company". The Company's authorized capital stock consists of 35,000,000 shares with a par value of \$0.001 per share. As of September 30, 2007, 5,889,074 shares are issued and 4,609,181 shares are outstanding.

The Company invests in real estate development and other businesses in the United States of America ("US"). The Company commenced operations in the investment real estate industry through the acquisition of an empty, non-operational, wholly-owned subsidiary, Emvelco RE Corp., a Nevada corporation ("ERC"), which was acquired in June 2006. Primary activity of ERC includes investment, development and subsequent sale of real estate, as well as investment in the form of loans provided to, or ownership acquired in, property development companies, directly or via majority or minority owned affiliates. The Company also has an investment in Micrologic, Inc., a Nevada corporation ("Micrologic"), a software development company. The Company's headquarters are located in Beverly Hills, California.

On December 15, 2005, the Board of Directors decided to sell 100% of Euroweb Internet Szolgaltato Rt. ("Euroweb Hungary") and Euroweb Romania S.A. ("Euroweb Romania"). On December 19, 2005, the Company entered into a share purchase agreement to sell 100% of the Company's interest in Euroweb Hungary and Euroweb Romania. The closing of the sale of Euroweb Hungary and Euroweb Romania occurred on May 23, 2006. For the period ended September 30, 2006, the Euroweb Hungary and Euroweb Romania operations have been presented as discontinued operations in the Company's consolidated financial statements.

Emvelco and its wholly-owned subsidiary ERC entered into an Agreement and Plan of Exchange ("Exchange Agreement") dated December 31, 2006 with Verge Living Corporation ("Verge"), a Nevada corporation, and Verge's sole shareholder, The International Holdings Group Ltd. ("TIHG") a corporation formed and registered in the Marshall Islands and controlled by a third party. The Exchange Agreement closed on December 31, 2006. Pursuant to the Exchange Agreement, ERC issued shares to TIHG in exchange for 100% of the outstanding securities of Verge. Subsequent to the exchange, Emvelco's ownership in ERC was diluted to 43.33%, while TIHG owned the remaining 56.67%. Verge became a wholly-owned subsidiary of ERC. ERC directly owns 33.33% of AP Holdings Limited ("AP Holdings"), a Jersey Island non operating holding company. Such interest was acquired prior to any affiliation with the Company. AP Holdings owns 100% of Atia Projekt d.o.o, a Croatian Company ("Atia project"), a real estate development company. AP Holdings is controlled by Mr. Shalom Atia, the brother of the Company's CEO.

On February 16, 2007, the Company entered into a Sale and Purchase Agreement (the "Navigator Agreement") to sell 100% of Navigator Informatika Rt. ("Navigator"), a wholly-owned subsidiary of the Company. For the period ended September 30, 2006, the operations of Navigator have been presented as discontinued operations in the Company's consolidated financial statements.

On May 14, 2007, the Company entered into a Stock Transfer and Assignment of Contract Rights Agreement (the "Stock Transfer Agreement") between ERC, ERC's principal shareholder TIHG and ERC's wholly owned subsidiary Verge. Pursuant to the Stock Transfer Agreement, the Company transferred and conveyed its 1,000 Shares (representing a 43.33% interest) (the "Shares") in ERC to TIHG to submit to ERC for cancellation and return to Treasury. Pursuant to this Agreement, the Company retains its original option to acquire Verge (see Notes 7, 12).

Based on series of agreements commencing June 5, 2007 and following by July 23, 2007 (as reported on the Company's Form 8-K filed June 11, 2007), the Company, the Company's chief executive officer Yossi Attia, and Darren Dunckel - CEO of ERC (collectively, the "Investors") entered into an Agreement (the "Upswing Agreement") with a third party, Upswing, Ltd. (also known as Appswing Ltd., hereinafter referred to as "Upswing"). Pursuant to the Upswing Agreement, the Investors intend to invest in an entity listed on the Tel Aviv Stock Exchange - Kidron Industrial Holdings Ltd (the "Investment Target" or "Kidron"). In addition, the Investors intend to transfer rights and control of various real estate projects to the Investment Target. Upswing has agreed to locate the Investment Target. The Investors and the Investment Target will then effect a transaction, pursuant to which the Investors and/or the Investors' affiliates will acquire about 76% of the Investment Target in consideration of the transfer of the rights to the various real estate projects (including Verge) to the Investment Target (the "Transaction"). Upswing, among other items, will advise the Investors on the steps necessary to effectuate the contemplated transfer of real estate project rights to the Investment Target.

Said transaction was closed on November 1, 2007 (see Note 12 Subsequent Events). Upon closing, Verge will become a fully owned subsidiary of the Investment Target, Kidron.

On October 15, 2007, Emvelco delivered that certain Notice of Exercise of Options ("Notice") to ERC, TIHG, Verge and Darren C. Dunkel, individual, President of ERC and/or representative of the foregoing parties. Pursuant to the Notice, Emvelco, subject to performance under the Upswing Agreement, intends to exercise its option (the "Verge Option") to purchase a multi-use condominium and commercial property in Las Vegas, Nevada, via the purchase and acquisition of all outstanding shares of common stock of Verge. The Verge Option is exercisable in the amount of \$5,000,000 payable in cash, but in no event is the option exercisable prior to Verge breaking ground, plus conversion of \$10,000,000 loans given to Verge into Equity as consideration for 75,000 shares of Verge.

Pursuant to the Notice, the Company, subject to performance under the Upswing Agreement, further intends to exercise its option (the "Sitnica Option") to purchase ERC's derivative rights and interest in Sitnica d.o.o. through ERC's holdings (one-third (1/3) interest) in AP Holdings Limited ("AP Holdings"), a company organized under the Companies (Jersey) Law 1991, which equates to a one-third interest in Sitnica d.o.o. (excluding ERC's interest in AP Holdings). The Sitnica Option is exercisable in the amount of \$4,000,000, payable by reducing the outstanding loan amount owing to the Company under the Investment Agreement by \$3,550,000 and reducing the Company's deposit with Shalom Atia, Trustee of AP Holdings, by \$450,000.

2. Summary of Significant Accounting Policies

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Basis of consolidation

The consolidated financial statements include the accounts of Emvelco, its majority-owned subsidiaries and all variable interest entities for which the Company is the primary beneficiary. All inter-company balances and transactions have been eliminated upon consolidation.

The consolidated financial statements include the accounts of Emvelco and the subsidiaries it controls. Control is determined based on ownership rights or, when applicable, whether the Company is considered the primary beneficiary of a variable interest entity. For the period from June 14, 2006 to December 30, 2006, ERC was a wholly owned subsidiary of Emvelco. From January 1 2007, after the exchange with TIHG, ERC is no longer a controlled subsidiary of the Company and is not consolidated. The Company's interest in Micrologic has been consolidated as of January 1, 2007 in accordance with FIN46R, "Consolidation of Variable Interest Entities", due to Micrologic's sole reliance on the Company to finance its' ongoing business activities. Emvelco has exposure to a majority of the expected losses and/or expected residual returns of Micrologic. (See Note 4 - Investment in Micrologic)

Unaudited Interim Financial Statements

The accompanying unaudited interim financial statements have been prepared in accordance with generally accepted accounting principals for interim financial information and with the instructions to Form 10-QSB of Regulation S-B. They do not include all information and footnotes required by United States generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there have been no material changes in the information disclosed in the notes to the financial statements for the year ended December 31, 2006 included in the Company's Form 10K filed with the Securities and Exchange Commission. The interim unaudited financial statements should be read in conjunction with those financial statements included in the Form 10K. In the opinion of management, all adjustments considered necessary for a fair presentation, consisting solely of normal recurring adjustments, have been made. Operating results for the nine months ended September 30, 2007 are not necessarily indicative of the results that may be expected for the year ending December 31, 2007.

Variable Interest Entities

Under Financial Accounting Standards Board ("FASB") Interpretation No. 46 (revised December 2003) "Consolidation of Variable Interest Entities" ("FIN 46R"), the Company is required to consolidate variable interest entities ("VIE's"), where it is the entity's primary beneficiary. VIE's are entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The primary beneficiary is the party that has exposure to a majority of the expected losses and/or expected residual returns of the VIE.

Based on the Company's analysis at the date of acquisition, as well as all other reconsideration events as defined under FIN 46R, management determined that despite the various ownership interests, Emvelco was not the primary beneficiary of ERC and all of its subsidiaries, including Lorraine, Stanley, AP Holdings, and Huntley. Therefore, Emvelco does not consolidate ERC as of September 30, 2007. The primary beneficiary of ERC is TIHG, an unrelated company, which owns 100.00% of ERC, and will therefore consolidate ERC. The Company's interest in Micrologic has been consolidated at September 30, 2007 due to Micrologic's sole reliance on the Company to finance its' ongoing business activities. Emvelco has exposure to a majority of the expected losses and/or expected residual returns of Micrologic. Upon closing the Kidron acquisition, if at all, the Company should consolidate Kidron (which will consolidate Verge and Sitnica).

Use of estimates

The preparation of consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Fair value of financial instruments

The carrying values of cash equivalents, notes and loans receivable, accounts payable, loans payable and accrued expenses approximate fair values.

Revenue recognition

The Company applies the provisions of Securities and Exchange Commission's ("SEC") Staff Accounting Bulletin ("SAB") No. 104, "Revenue Recognition in Financial Statements" ("SAB 104"), which provides guidance on the recognition, presentation and disclosure of revenue in financial statements filed with the SEC. SAB 104 outlines the basic criteria that must be met to recognize revenue and provides guidance for disclosure related to revenue recognition policies. The Company recognizes revenue when persuasive evidence of an arrangement exists, the

product or service has been delivered, fees are fixed or determinable, collection is probable and all other significant obligations have been fulfilled.

10

Revenues from property sales are recognized in accordance with Statement of Financial Accounting Standards (“SFAS”) No. 66, “Accounting for Sales of Real Estate,” when the risks and rewards of ownership are transferred to the buyer, when the consideration received can be reasonably determined and when Emvelco has completed its obligations to perform certain supplementary development activities, if any exist, at the time of the sale. Consideration is reasonably determined and considered likely of collection when Emvelco has signed sales agreements and has determined that the buyer has demonstrated a commitment to pay. The buyer’s commitment to pay is supported by the level of their initial investment, Emvelco’s assessment of the buyer’s credit standing and Emvelco’s assessment of whether the buyer’s stake in the property is sufficient to motivate the buyer to honor their obligation to it.

Revenue from fixed price contracts is recognized on the percentage of completion method. The percentage of completion method is also used for condominium projects in which the Company is a real estate developer and all units have been sold prior to the completion of the preliminary stage and at least 25% of the project has been carried out. Percentage of completion is measured by the percentage of costs incurred to balance sheet date to estimated total costs. Selling, general, and administrative costs are charged to expense as incurred. Profit incentives are included in revenues, when their realization is reasonably assured. Provisions for estimated losses on uncompleted projects are made in the period in which such losses are first determined, in the amount of the estimated loss of the full contract. Differences between estimates and actual costs and revenues are recognized in the year in which such differences are determined. The provision for warranties is provided at certain percentage of revenues, based on the preliminary calculations and best estimates of the Company's management.

Cost of revenues

Cost of revenues includes the cost of real estate sold and rented as well as costs directly attributable to the properties sold such as marketing, selling and depreciation.

Treasury Stock

Treasury stock is recorded at cost. Issuance of treasury shares is accounted for on a first-in, first-out basis. Differences between the cost of treasury shares and the re-issuance proceeds are charged to additional paid-in capital.

Foreign currency translation

The Company considers the United States Dollar (“US Dollar” or “\$”) to be the functional currency of Emvelco and its subsidiaries, with the exception of Navigator (presented as a discontinued operation) which has the Hungarian Forint as its functional currency. The reporting currency of the Company is the US Dollar and accordingly, all amounts included in the consolidated financial statements have been presented or translated into US Dollars.

For non-US subsidiaries that do not utilize the US Dollar as its functional currency, assets and liabilities are translated to US Dollars at year-end exchange rates, and income and expense items are translated at weighted-average rates of exchange prevailing during the year. Translation adjustments are recorded in “Accumulated other comprehensive income” within stockholders’ equity.

Foreign currency transaction gains and losses are included in the consolidated results of operations for the periods presented.

Cash and cash equivalents

Cash and cash equivalents include cash at bank and money market funds with maturities of three months or less at the date of acquisition by the Company.

Marketable securities

The Company determines the appropriate classification of all marketable securities as held-to-maturity, available-for-sale or trading at the time of purchase, and re-evaluates such classification as of each balance sheet date in accordance with SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities" ("SFAS 115"). In accordance with Emerging Issues Task Force ("EITF") No. 03-01, "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investment" ("EITF 03-01"), the Company assesses whether temporary or other-than-temporary gains or losses on its marketable securities have occurred due to increases or declines in fair value or other market conditions.

Other than those classified within discontinued operations, the Company did not have any marketable securities within continuing operations for the period ended September 30, 2007, as the consideration received during the period.

Property and equipment

Property and equipment are stated at cost, less accumulated depreciation. The Company provides for depreciation of property and equipment using the straight-line method over the following estimated useful lives:

Software	3 years
Computer equipment	3-5 years
Other furniture equipment and fixtures	5-7 years

The Company's policy is to evaluate the appropriateness of the carrying value of long-lived assets. If such evaluation were to indicate an impairment of assets, such impairment would be recognized by a write-down of the applicable assets to the fair value. Based on the evaluation, no impairment was indicated in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144").

Equipment purchased under capital leases is stated at the lower of fair value and the present value of minimum lease payments at the inception of the lease, less accumulated depreciation. The Company provides for depreciation of leased equipment using the straight-line method over the shorter of estimated useful life and the lease term. During the periods ended September 30, 2007 and 2006, the Company did not enter into any capital leases.

Recurring maintenance on property and equipment is expensed as incurred.

Any gain or loss on retirements and disposals is included in the results of operations in the period of the retirement or disposal. No retirements and disposals occurred for the periods ended September 30, 2007 and 2006 for the Company's continuing operations.

Goodwill and intangible assets

Goodwill results from business acquisitions and represents the excess of purchase price over the fair value of identifiable net assets acquired at the acquisition date. In accordance with SFAS No. 142, "Goodwill and Other Intangible Assets", goodwill is tested for impairment annually and whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Management evaluates the recoverability of goodwill by comparing the carrying value of the Company's reporting units to their fair value. Fair value is determined based on discounted future cash flows. There was no goodwill related to the Company's continuing operations for the periods ended June 30 2007 and 2006, respectively - other than Navigator which was presented as discontinued operation.

Intangible assets that have finite useful lives, whether or not acquired in a business combination, are amortized over their estimated useful lives, and also reviewed for impairment in accordance with SFAS 144.

Earnings (loss) per share

Basic earnings (loss) per share are computed by dividing income (loss) attributable to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted earnings (loss) per share reflect the effect of dilutive potential common shares issuable upon exercise of stock options and warrants. There were no dilutive options and warrants for the periods ended September 30, 2007 and 2006. Stock options and warrants convertible into 690,125 and 779,067 shares of common stock, respectively, were excluded from the computation of diluted earnings per share since such options and warrants have an exercise price in excess of the average market value of the Company's common stock during the periods.

Comprehensive income (loss)

Comprehensive income (loss) includes all changes in equity except those resulting from investments by and distributions to owners.

Business segment reporting

The Company manages its continuing operations on a geographic basis, and accordingly had concluded that it has one operating segment, the US.

Income taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. Deferred tax assets are reduced by a valuation allowance if it is more likely than not that some portion or all of the deferred tax asset will not be realized. Deferred tax assets and liabilities, are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company adopted the provisions of FIN 48 on January 1, 2007. The Company did not make any adjustment to opening retained earnings as a result of the implementation. The Company recognizes interest accrued related to unrecognized tax benefits along with penalties in operating expenses. During the quarters ended September 30, 2007 and 2006, the Company did not recognize any interest and penalties relating to income taxes. The Company did not have any accrual for the payment of interest and penalties at September 30, 2007.

Software development

The Company's consolidated VIE, Micrologic, is engaged in the design and production of Electronic Design Automation ("EDA") applications and Integrated Circuit ("IC") design processes; specifically, the development and production of the NanoToolBox™ tools suite, which is a smart platform designed to accelerate IC's design time and shrink time to market factor. Micrologic expenses software development costs during the early stages of product development as the likelihood of earning future revenues is uncertain.

Stock-based compensation

Effective January 1, 2006, the Company adopted SFAS No. 123R, "Share-Based Payment" ("SFAS 123R"). Under SFAS 123R, the Company is required to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. The measured cost is recognized in the statement of operations over the period during which an employee is required to provide service in exchange for the award. Additionally, if an award of an equity instrument involves a performance condition, the related compensation cost is recognized only if it is probable that the performance condition will be achieved.

Prior to the adoption of SFAS 123R, the Company accounted for stock-based employee compensation using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25") and related interpretations, and chose to adopt the disclosure-only provisions of Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-based Compensation" ("SFAS 123"), as amended by SFAS No. 148, "Accounting for Stock-Based Compensation — Transition and Disclosure" ("SFAS 148"). Under APB 25, the Company did not recognize expense related to employee stock options because the exercise price of such options was equal to the quoted market price of the underlying stock at the grant date.

The Company adopted SFAS 123R using the modified prospective method, which requires the application of the accounting standard as of January 1, 2006, the first day of the Company's fiscal year 2006. Under this method, compensation cost recognized during the year ended December 31, 2006 includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested, as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS 123 and amortized on a straight-line basis over the requisite service period, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant date fair value estimated in accordance with the provisions of SFAS 123R amortized on a straight-line basis over the requisite service period. Results for prior periods have not been restated.

As a result of adopting SFAS 123R on January 1, 2006, the Company's loss from continuing operations before income taxes and loss from continuing operations are \$270,695 higher and net income is \$270,695 lower than if it continued to account for share-based compensation under APB 25. Basic and diluted earnings per share are \$0.05 lower than if the Company continued to account for share-based compensation under APB 25. The adoption of SFAS 123R had no impact on cash flows.

See further discussion on stock-based compensation plans.

The Company estimates the fair value of each option award on the date of the grant using the Black-Scholes option valuation model. Expected volatilities are based on the historical volatility of the Company's common stock over a period commensurate with the options' expected term. The expected term represents the period of time that options granted are expected to be outstanding and is calculated in accordance with SEC guidance provided in the SAB 107, using a "simplified" method. The risk-free interest rate assumption is based upon observed interest rates appropriate for the expected term of the Company's stock options

The Company did not grant any share-based payments during the period ended September 30, 2007. The following table shows total non-cash stock-based employee compensation expense included in the consolidated statement of operations for the year ended December 31, 2006:

Categories of cost and expenses	Year ended December 31, 2006
Compensation and related costs	\$ 21,241
Consulting, professional and directors fees	249,454
Total stock-based compensation expense	\$ 270,695

In addition to stock-based compensation expense for employees and directors, the Company recognized in 2006 compensation expense of \$70,511 related to options and warrants granted to consultants.

3. Lines of Credit and Restricted Cash

On August 28, 2006, the Company entered into a \$4,000,000 Revolving Line of Credit ("line of credit") with a commercial bank. As security for this credit facility, the Company deposited \$4,000,000 into a certificate of deposit ("CD") as collateral for a two year period. The CD earns interest at a rate of 5.25% annually, and any interest earned on the CD is restricted from withdrawal and must remain in the account for the entire term. The interest rate on the line of credit is 6% annually.

On November 21, 2006, the Company deposited an additional \$4,000,000 into another CD with the same restrictions on withdrawal. This CD matures on November 21, 2008 and the deposit bears an interest rate of 5.12% annually.

The outstanding balance on the lines of credit was \$7,475,692 as of September 30, 2007 (see note 6).

On November 8, 2007, the lines of credits were increased to \$8,409,000 (see Note 12 - Subsequent Events)

4. Investment in Micrologic, Inc.

On October 11, 2006, the Company committed itself in the financing of Micrologic, Inc. ("Micrologic"), a Nevada corporation, engaged in the design and production of Electronic Design Automation ("EDA") applications and Integrated Circuit ("IC") design processes; specifically, the development and production of the NanoToolBox™ tools suite, which is a smart platform designed to accelerate IC's design time and shrink time to market factor. The agreement provides for an initial investment by the Company of up to \$1,000,000, with warrants to purchase additional equity for additional investment. The Company owns 25.10% of Micrologic; however such equity positions might be revised contingent upon the exercise of the warrants. As of September 30, 2007, \$400,000 was transferred as part of this commitment, and no warrants were issued.

On September 30, 2007, the Company determined that it would no longer fund the operations of Micrologic and that the amounts previously advanced to Micrologic would not be collectible. Therefore, the Company wrote off the \$400,000 loan. The Company consolidated the results of Micrologic's operations from October 11, 2006 through September 30, 2007, which resulted in a loss of \$335,957, and expensed the remaining \$64,043 to the Consolidated Statements of Operations, presented in the other selling, general and administrative expense classification.

The Company's interest in Micrologic has been consolidated from October 11, 2006 through September 30, 2007 in accordance with FIN46R, "Consolidation of Variable Interest Entities". The Company is the primary beneficiary of Micrologic due to the VIE's reliance on Emvelco to finance its' ongoing business and software development activities, however, based upon the Company's determination that it will no longer fund the activities, the balance sheets are not consolidated as of September 30, 2007.

5. Loans to Affiliates - Emvelco RE Corp and Verge Living Corporation

On June 14, 2006, Emvelco issued a \$10 million line of credit to ERC. Outstanding balances bear interest at an annual rate of 12% and the line of credit had an original maximum borrowing limit of \$10 million. Initially on October 26, 2006 and then again ratified on December 29, 2006, the Board of Directors of Emvelco approved an increase in the borrowing limit of the line of credit to \$20 million. The Board also restricted use of the funds to real estate development

On June 19, 2006, Verge and ERC entered into a Secured Investment Agreement with Emvelco ("The June Investment Agreement"), pursuant to which ERC, within its sole discretion, has agreed to provide secured loans to Verge not to exceed the amount of \$10,000,000. Verge owns a real property in downtown Las Vegas, Nevada, where it intends to build approximately 296 condominiums plus commercial space (the "Property"). Verge obtained entitlements to the Property, and it expects to break ground early in 2008. Each loan provided to Verge is due on demand or upon maturity on January 14, 2008. All loans secured by a first deed of trust, assignment of rents and security agreement with respect to the property, along with ALTA (American Land Title Association) title policy to be issued by a title company. If ERC requests that the funds be paid on demand prior to maturity, then Verge shall be entitled to reduce the amount requested to be prepaid by 10%. The 10% discount will be paid to Verge in the form of shares of common stock of Emvelco, which will be computed by dividing the dollar amount of the 10% discount by the market price of Emvelco's shares of common stock.

The terms of the loans require that ERC to be paid-off the greater of (i) the principal including 12% interest per annum or (ii) 33% of all gross profits derived from the Property

On May 14, 2007, the TIHG purchased its remaining 43.33% interest in ERC from Emvelco for \$500,000. Verge gave its consent for assignment of the June Investment Agreement to Emvelco, and not through ERC, as part of the purchase agreement. Based on said consent, the June Investment Agreement is deemed to be between Verge and Emvelco directly.

On October 15, 2007, Emvelco delivered that certain Notice of Exercise of Options ("Notice") to ERC, TIHG, Verge and Darren C. Dunckel, individual, President of ERC and/or representative of the foregoing parties.

The closing of the acquisitions set forth in the Notice is contingent upon the closing of that certain Agreement, dated as of June 5, 2007, by and between Emvelco, Emvelco's chief executive officer Yossi Attia, and Darren C. Dunckel (collectively, the "Investors"), on the one hand, and a third party, Upswing, Ltd., on the other hand (the "Upswing Agreement"). Pursuant to the Upswing Agreement, the Investors intend to invest in an entity listed on the Tel Aviv Stock Exchange (the "Investment Target"). In addition, the Investors intend to transfer rights and control of various real estate projects to the Investment Target.

Pursuant to the Notice, Emvelco, subject to performance under the Upswing Agreement, intends to exercise its option (the "Verge Option") to purchase a multi-use condominium and commercial property in Las Vegas, Nevada, via the purchase and acquisition of all outstanding shares of common stock of Verge. The Verge Option is exercisable in the amount of \$5,000,000 payable in cash - not prior of Verge breaking ground, plus conversion of \$10,000,000 loans given to Verge into Equity as consideration for 75,000 shares of Verge. Said transaction was closed on November 1, 2007 (see Note 12 Subsequent Events)

At September 30, 2007, the outstanding loan balances were as follows:

Emvelco RE Corp

*) Pursuant to exercise of said option on November 1, 2007, the sum of \$10,000,000 from the above loan proceeds will be capitalized into additional paid in capital of Verge on its last quarter of 2007. On November 2, 2007, the Company was paid off partially by Verge (see Note 12 Subsequent Events). On September 17, 2007, Emvelco Board of Directors voted to appoint Verge President, Darren C Dunckel as Director in the Company (see Note 12 - Subsequent Events).

6. Secured Bank Loans

The Company's real estate investment operations require substantial up-front expenditures for land development contracts and construction. Accordingly, the Company requires a substantial amount of cash on hand, as well as funds accessible through lines of credit with banks or third parties, to conduct its business. The Company has financed its working capital needs on a project-by-project basis, primarily with secured loans from banks (see note 3) and debt via the All Inclusive Trust Deed Agreement (AITDA), as well as with the existing cash of the Company.

At September 30, 2007, the outstanding secured loan balances were as follows:

Legal Proceedings

Except as set forth below, there are no known significant legal procedures that have been filed and are outstanding against the Company.

On April 26, 2006, a lawsuit was filed in the Delaware Court of Chancery (the "Court") by a stockholder of the Company against the Company, each of the Company's Directors and CORCYRA d.o.o., a stockholder of the Company that beneficially owned 39.81% of the Company's outstanding common stock at the date of the lawsuit. The

Complaint is titled Laurence Paskowitz v. Csaba Toro et al., C.A. No. 2110-N (the "Complaint") and was brought individually, and as a class action on behalf of certain of the Company's common stockholders, excluding defendants and their affiliates. The plaintiff alleged that the proposed sale of 100% of the Company's interest in the Company's two Internet and telecom related operating subsidiaries (the "Subsidiaries") constitutes a sale of substantially all of the Company's assets and required approval by a majority of the voting power of the Company's outstanding common stock under Section 271 of the Delaware General Corporation Law. The plaintiff also alleged the defendants breached their fiduciary duties in connection with the sale of the Subsidiaries, as well as the disclosures contained in the proxy statement filed on April 24, 2006. The plaintiff applied for a temporary restraining order seeking to enjoin the special meeting on May 15, 2006.

The Company denied any and all allegations of wrongdoing; however, in the interests of conserving resources, on April 28, 2006, the parties to the litigation entered into a Memorandum of Understanding ("MOU") providing for, subject to confirmatory discovery by plaintiff, the negotiation of a formal stipulation of a settlement of the litigation. Pursuant to the MOU, the Board of Directors of the Company agreed to: (i) increase the vote required to approve the sale of 100% of the Company's interest in the Subsidiaries, (ii) revise the disclosure within the Proxy Statement to eliminate the bonus of up to US \$400,000, which the Compensation Committee of the Company had the option to pay to select members of management, as the Board of Directors had previously elected to terminate the ability to pay such bonus and (iii) provide supplemental disclosure as contained in the Supplemental Proxy Statement to be mailed to stockholders and filed with the SEC on May 3, 2006.

The parties entered into a stipulation of settlement on April 3, 2007. The settlement provided for dismissal of the litigation with prejudice and was subject to Court approval. As part of the settlement, the Company agreed to attorneys' fees and expenses to plaintiff's counsel in the amount of \$150,000. Pursuant to the stipulation of settlement, the Company sent out notices to the members of the class on May 3, 2007. A fairness hearing took place on June 8, 2007, where the Delaware Court of Chancery (the "Court") entered an Order and Final Judgment (the "Order"), approving the settlement of the Complaint, authorizing the parties to consummate the settlement in accordance with its terms, certifying the class and dismissing the litigation with prejudice. Pursuant to the settlement, the Company also sent out notices to the members of the class on May 3, 2007. A fairness hearing took place on June 8, 2007, and, as stated above, the Order was entered on June 8, 2007.

The Company filed a complaint in the Superior Court for the County of Los Angeles, against an attorney. The case was filed on February 14, 2007, and service of process has been done. In the complaint the Company is seeking judgment against this attorney in the amount of approximately 250,000 Euros (approximately \$316,000 as of the date of actual transferring the funds), plus interest, costs and fees. Defendant has not yet appeared in the action. The Company believes that it has a meritorious claim for the return of monies deposited with defendant in a trust capacity, and, from the documents in the Company's possession, there is no reason to doubt the validity of the claim. However, management does not have any information on the collectibility of any judgment that might be entered in court. During April 2007 defendant returned \$92,694 (70,000 Euros at the relevant time) which netted to \$72,694 post legal expenses; the Company has granted him a 15-day extension to file his defense. Post the extension and in lieu of not filing a defense, the Company filed for a default judgment. On October 25, 2007 the Company obtained a California Judgment by court after default against the attorney for the sum of \$249,340.65

The Company also agreed to have such registration statement declared effective within 150 days from the filing thereof. The number of shares to be received by Mr. Schnapp was calculated based on the average closing price 10 days prior to the commencement of each employment year. In 2005, the Plan was adjusted to increase the number of shares of common stock issuable under such plan from 800,000 shares to 1,200,000 shares. The adjustment was approved at the Company's Annual Meeting of Stockholders in June 2005. The Plan provides that incentive and nonqualified options may be granted to key employees, officers, directors and consultants of the Company for the purpose of providing an incentive to those persons. The Plan may be administered by either the Board of Directors or a committee of two directors appointed by the Board of Directors (the "Committee"). The options granted to the Chief Executive Officer were forfeited/ cancelled in August 2006 due to the termination of his employment. Of the 195,000 options originally granted to employees, 60,000 options were forfeited or cancelled during 2005, while the remaining 135,000 options were forfeited or cancelled in August 2006 due to termination of the five employee contracts. 15,000 options granted to one of the consultants were also forfeited or cancelled in April 2006 due to the termination of the consultant's contract.

The exercise price of the options (\$3.40) was equal to the market price on the date the options were granted. ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Emvelco operates in the US. For the period from June 11, 2006 through December 30, 2006, ERC was a wholly owned subsidiary of Emvelco. On December 31, 2006, the Company entered into an Exchange Agreement with TIHG, whereby TIHG became the primary beneficiary of ERC. Thus, the Company is not required to consolidate ERC, but rather report the Company's interest in ERC by using the equity method. On May 14, 2007, the Company entered into a Stock Transfer and Assignment of Contract Rights Agreement (the "ERC Agreement") with ERC, ERC's principal shareholder TIHG and ERC's wholly owned subsidiary Verge. Pursuant to the Agreement, the Company transferred and conveyed its 1,000 Shares (representing a 43.33% interest) (the "ERC Shares") in ERC to TIHG to submit to ERC for cancellation and return to Treasury. ERC, TIHG and Verge agreed to assign (the "Assignment") to the Company all rights in and to that certain Investment Agreement, dated as June 19, 2006, and all Amendments thereto (collectively, the "Investment Agreement") wherein ERC (from funds available to ERC from the Company) agreed to provide secured loans to Verge for the construction of a multi-use condominium and commercial property in Las Vegas, Nevada (the "Verge Property").

The Company's position is based on a detailed analysis conducted by management of FASB Interpretation No. 46R: Consolidation of Variable Interest Entities, an interpretation of ARB No. 51 ("FIN 46R"), the accounting pronouncements governing consolidation.

Under its FIN 46R analysis, the Company determined that ERC is a variable interest entity. This in turn required a determination as to which enterprise is the primary beneficiary. The Company determined that TIHG, rather than Emvelco, is the primary beneficiary. The Company performed an analysis of the calculated expected losses of ERC. Of these amounts 56.67% was allocated to TIHG. Because Emvelco is not the primary beneficiary of ERC, Emvelco should not consolidate ERC under FIN 46R, but should report the 43.33% interest in ERC using the equity method. Accordingly, TIHG should consolidate ERC.

As a result of the Company's analysis set forth above, the Company determined that, under FIN 46R, the Company did not consolidate ERC for the year ended December 31, 2006.

On October 11, 2006, the Company committed itself in the financing of Micrologic, Inc. ("Micrologic"), a Nevada corporation, engaged in the design and production of Electronic Design Automation ("EDA") applications and Integrated Circuit ("IC") design processes; specifically, the development and production of the NanoToolBox™ tools suite, which is a smart platform designed to accelerate IC's design time and shrink time to market factor. The agreement provides for an initial investment by the Company of up to \$1,000,000, with warrants to purchase additional equity for additional investment. The Company owns 25.10% of Micrologic; however such equity positions might be revised contingent upon the exercise of the warrants. As of September 30, 2007, \$400,000 was transferred as part of this commitment, and no warrants were issued.

The Company's interest in Micrologic has been consolidated in accordance with FIN46R, "Consolidation of Variable Interest Entities". The Company is the primary beneficiary of Micrologic due to the VIE's reliance on Emvelco to finance its' ongoing business and software development activities. On September 30, 2007, the Company determined that it would no longer fund the operations of Micrologic and that the amounts previously advanced to Micrologic would not be collectible. Therefore, the Company wrote off the \$400,000 loan. The Company consolidated the results of Micrologic's operations from October 11, 2006 through September 30, 2007.

On February 16, 2007, the Company completed the sale of Navigator for \$3,200,000 in cash and the transfer to the Company of 622,531 shares of the Company. The closing of the sale of Navigator occurred on February 16, 2007. On May 3, 2007 the Company surrendered said 622,531 stock certificates together with stock powers to American Stock Transfer & Trust Company the Company's transfer agent for return to Treasury and cancellation.

The sale of Euroweb Slovakia, Euroweb Hungary, Euroweb Romania and Navigator met the criteria for presentation as discontinued operations under the provisions of Statement of Financial Accounting Standards ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"). Therefore, Euroweb Slovakia, Euroweb Hungary, Euroweb Romania and Navigator are reclassified as discontinued operations in the financial statements of the Company in 2006.

The Company operates in financial investment in real estate development for subsequent sales, investment and financing activities, directly or through affiliates currently in the USA.

In June 2006, the Company commenced operations in the real estate industry through ERC and its subsidiaries. ERC has commenced developments in the real estate industry, which must satisfy the parameters set by the Board of Directors as follows:

- Any investment in the real estate opportunity (the "Proposed RE Investment"), including loans, shall not exceed a planned period of three years;
- The expected return on investment on the Proposed RE Investment will be at minimum 15% per year;
- The Proposed RE Investment will not be leveraged in excess of \$1.50 for each \$1.00 invested in equity; and
- Each Proposed RE Investment will have a clear exit strategy (i.e. purchase, development and sale) and no Proposed RE Investment intent will be to acquire income producing real estate.

As stated above, on May 14, 2007, the Company entered into the ERC Agreement pursuant to which the Company transferred and conveyed the ERC Shares to TIHG to submit to ERC for cancellation and return to treasury. ERC, TIHG and Verge agreed to assign the Assignment.

The consideration payable to the Company under the Stock Transfer Agreement is \$500,000, which in TIHG's discretion, may be added to the outstanding loan amount owing to the Company by ERC (the "Loan Amount"). As of May 14, 2007, the current outstanding Loan Amount owing to the Company is approximately \$12 million. Under the Stock Transfer Agreement, in no event shall the Loan Amount exceed eighty percent (80%) of the fair market value of the Verge Property. Pursuant to the Stock Transfer Agreement, a current appraisal of the Verge Property was presented to the Company on May 22, 2007, valuing the Verge Property at \$14,800,000. On August 2007, Verge obtained an appraisal of said property, valued at \$15,500,000. The effective date of the Stock Transfer Agreement is January 1, 2007 (the "Effective Date"). All rights assigned to the Company under the Investment Agreement will be considered to be assigned as of the Effective Date. Accordingly, as of the Effective Date, the Company shall be the sole secured and primary beneficiary under the Investment Agreement.

As of the Effective Date, under the Investment Agreement, each loan made to Verge is due on demand or upon maturity on January 14, 2008. If the Company requests that the funds be paid on demand prior to maturity, then Verge shall be entitled to reduce the amount requested to be prepaid by 10%. The 10% discount will be paid in the form of shares of common stock of the Company, which will be computed by dividing the dollar amount of the 10% discount by the market price of the Company's shares of common stock. The terms of the loans require that the Company, be paid-off the greater of (i) the principal including 12% interest per annum or (ii) 33% of all gross profits derived from the Verge Property. In addition, the Company has the right to acquire the Verge Property for a purchase price of \$15,000,000 through January 1, 2015. The purchase is payable in \$10,000,000 in cash and \$5,000,000 in shares of common stock of the Company or all cash per the Company's discretion.

Based on a series of agreements executed in June and July 2007, Emvelco Corp., finalized its agreements with Appswing Ltd - A boutique Investment Banker - third party (the "Appswing Agreements"). The Appswing Agreements effectuates certain of the terms and provisions set forth in the agreements where Appswing purchased control of an entity traded on the Tel-Aviv Stock Exchange named Kidron Industrial Holdings Ltd. ("Kidron"). The Investors (The Company, ERC and AP) and Appswing will effectuate a transaction (the "Transaction") pursuant to which the Investors will acquire About 72.11% of Kidron), in exchange for the transfer of the rights to certain real estate projects in Las Vegas and Croatia to Kidron. Appswing, among other items, will advise the Investors on the steps necessary to effectuate the Transaction. Following the closing of the Transaction (the "Closing"), Kidron will undertake a financing to raise additional capital (the "Financing").

On July 19, 2007, as contemplated in the Appswing Agreement, Emvelco also entered into an agreement by and between Kidron, on the one side, and the Investors, on the other side (the "Kidron Agreement"). The Kidron Agreement provides that the Investors will transfer certain interests in real estate projects in Las Vegas and Croatia to Kidron in consideration of shares of Kidron, equal to about 72.11% of the issued capital stock of Kidron. Further, Kidron will issue to Appswing shares of Kidron, which shall constitute about 13.66% of the issued capital stock of Kidron.

The closing of the Kidron Agreement is subject to the completion of due diligence by the Investors and other conditions, including the approval of an agreement pursuant to which Mr. Yossi Attia, chief executive officer of the Company, will serve as chief executive officer of Kidron, and the approval of an agreement pursuant to which Mr. Shalom Attia, Mr. Yossi Attia's brother, will serve as Vice President to Kidron's operations in Europe. Mr. Yossi Attia will continue to serve as the chairman of the board and executive officer of the Company.

On October 15, 2007, Emvelco delivered that certain Notice of Exercise of Option ("Notice") to ERC, TIHG, Verge and Darren C. Dunckel, individual, President of ERC and/or representative of the foregoing parties. Pursuant to the Notice, the Company, subject to performance under the Upswing Agreement, further intends to exercise its option (the "Sitnica Option") to purchase ERC's derivative rights and interest in Sitnica d.o.o. through ERC's holdings (one-third (1/3) interest) in AP Holdings Limited ("AP Holdings"), a company organized under the Companies (Jersey) Law 1991, which equates to a one-third interest in Sitnica d.o.o. (excluding ERC's interest in AP Holdings). The Sitnica Option is exercisable in the amount of \$4,000,000, payable by reducing the outstanding loan amount owing to the Company under the Investment Agreement by \$3,550,000 and reducing the Company's deposit with Shalom Atia, Trustee of AP Holdings, by \$450,000.

On November 1, 2007, that certain closing (the "Closing") took place by and between Emvelco Corp. and AP Holdings, on the one hand and Kidron Industrial Holdings, Ltd. ("Kidron") on the other hand, in connection with that certain agreement dated July 19, 2007 with respect to the transfer of certain of the Company's assets to Kidron (the "Kidron Transaction"), as reported on Emvelco's 8-K filings dated June 11, 2007 and July 26, 2007. In the Minutes of Completion of the Agreement dated July 19, 2007 (the "Agreement") that was conducted on November 1, 2007, the Parties acknowledged that the preliminary conditions for the Kidron Transaction were satisfied, that due diligence on the acquired assets; namely, the capital stock of Verge Living Corporation ("Verge") and Sitnica, d.o.o. ("Sitnica")

had been completed and accepted, and that the Emvelco shall receive and be issued pursuant to the Closing 734,060,505 shares of stock in Kidron, representing about 58% of Kidron. Upon Closing, Verge became a fully owned subsidiary of Kidron.

On October 29, 2007 Verge entered into a loan agreement effective November 2, 2007 with Kidron. The loan is for a period of 12 months from November 2, 2007 and will bear interest at the rate of 12% per annum and is payable at maturity of said loan. On November 2, 2007, Kidron funded Verge with \$1,700,000., and Verge partially paid off the Emvelco Loans, whereas the amount of \$10,000,000 loan to Verge was capitalized into Verge equity.

Appswing will receive up to \$1,000,000, plus value added tax as applicable, in consideration from the Investors, payable as follows: (a) \$250,000 paid to Appswing in June 2007 under the First Agreement (all of which was paid by the Company) and (b) \$750,000 at the completion of the financing. In addition, upon the Closing, the Investors will purchase additional shares of Kidron, equal to approximately 4% of the outstanding shares of Kidron from Appswing, for \$3,250,000, payable as follows: (a) \$1,250,000.00 upon Closing, and (b) \$2,000,000.00 within 30 days of Closing. If the Investors elect not to effect the Transaction, the Appswing Agreement will be terminated, and the Company's \$250,000 initial payment made in June 2007 will be forfeited. On November 2007 the Company advanced \$700,000 to Appswing.

The Board of Directors of the Company has approved the Notice and ratified the transactions there under pursuant to Consent of the Board of Directors dated July 16, 2007; except that Yossi Attia abstained with respect to the vote and ratification of the Sitnica Option as his brother is an equity owner in AP Holdings.

In June 2006, the Company's Board of Directors approved a program to repurchase, from time to time, at management's discretion, up to 700,000 shares of the Company's common stock in the open market or in private transactions commencing on June 20, 2006 and continuing through December 15, 2006 at prevailing market prices. Repurchases will be made under the program using our own cash resources and will be in accordance with Rule 10b-18 under the Securities Exchange Act of 1934 and other applicable laws, rules and regulations. The Shemano Group act as agent for the Company's stock repurchase program. Pursuant to the unanimous consent of the Board of Directors in September 2006, the number of shares that may be purchased under the Repurchase Program was increased from 700,000 to 1,500,000 shares of common stock and the Repurchase Program was extended until October 1, 2007 or until the increased amount of shares is purchased.

As of September 30, 2007, the Company held 1,279,893 treasury shares at a cost of \$2,117,711.

Acquisitions and disposals

(a) On December 31, 2006, the Company and its subsidiary ERC entered into an Agreement and Plan of Exchange with Verge and its sole shareholder, TIHG. Pursuant to the Exchange Agreement, ERC issued shares to TIHG in exchange for 100% of the outstanding securities of Verge. After the exchange, the Company owned 43.33% of ERC, TIHG owned 56.67% and Verge became a wholly-owned subsidiary of ERC.

In accordance with FAS141, *Business Combinations*, the transaction was valued based on the fair value of Verge, the acquired company, which was supported by a current appraisal at the time of the transaction.

Dunkel, individual, President of ERC and/or representative of the foregoing parties.

On November 1, 2007, that certain closing (the "Closing") took place by and between Emvelco Corp. and AP Holdings, on the one hand and Kidron Industrial Holdings, Ltd. ("Kidron") on the other hand, in connection with that certain agreement dated July 19, 2007 with respect to the transfer of certain of the Company's assets to Kidron (the "Kidron Transaction"), as reported on Emvelco's 8-K filings dated June 11, 2007 and July 26, 2007. Mr. Yossi Attia will continue to serve as the chief executive officer of the Company.

The Board of Directors of the Company have approved the Appswing Agreement and the Kidron Agreement and ratified the transactions there under. Yossi Attia abstained with respect to the votes.

Plan of operation

The Company's plan of operation for the next 12 months will include the following components:

We plan to finance and invest in real estate developments, including obtaining financing of Verge Living for the purpose of commencing or continuing the project in 2008. Our plan is to proceed with financial investment in real estate developments in the US. This phase of development will include the following elements:

(a) Attempting to take a financing role in raising bond or debt financing through Verge and AP Holdings if possible. Any cash receipt from financing will be utilized partly by the Company's financial investment in real estate developments in the US. In connection with Verge and AP Holdings' financing, the Company anticipates spending approximately \$400,000 on professional fees over the next 12 months in order to pursue these attempts.

(b) Verge Project - Verge is pursuing construction loan and mezzanine financing for the Verge Property. The Company is seeking to participate in financing of a construction loan through a commercial bank and/or private investors potentially as equity holder.

(c) The Company completed the sale of the Company's ownership interest in ERC, pursuant to which all rights in and to the Investment Agreement were assigned to the Company. The Board of Directors wishes to maintain cash liquidity, and, therefore has instructed management to limit the line of credit provided to Verge as a percentage of the fair value of the Verge Property.

(d) The Company anticipates spending approximately \$150,000 on professional fees over the next 12 months on the filing of a registration statement on Form SB-2 under the Securities Act of 1933, as amended.

(e) Subject to obtaining adequate financing, the Company anticipates that it will be spending approximately \$5,000,000 over the next 12 month period pursuing its stated plan of investment operation. The Company's present cash reserves are not sufficient for it to carry out its plan of operation without substantial additional financing. The Company is currently attempting to arrange for financing through financial arrangements that would enable it to proceed with its plan of investment operation.

(f) The Company will not continue with the treasury share repurchase program, as it expired per its original terms.

(g) The outstanding amount of commitment to the Company's investment in Micrologic is \$400,000. Micrologic believes it will have developed products in 2007 of which there is no guarantee. On September 30, 2007, the Company determined that it would no longer fund the operations of Micrologic and that the amounts previously advanced to Micrologic would not be collectible. The Company is under negotiations with Micrologic to void the Company's obligations in connection with further financing and restructure Micrologic in a way that the Company will be released from any further funding commitment.

The current situation in the US mortgage market is one of tight money in lieu of the Sub-Prime crises, whereby many borrowers are having a difficult time obtaining financing. This "tight money" policy is the result of several factors: an increase in home foreclosures; an increase in the failure of mortgage companies; a steep decline in funding available mortgages (primarily sub prime mortgage but also "A" credit mortgages) and a decline in housing prices. As relates to the Company project's involvements the current crises will be monitored closely by the Company that may lead to certain delays or termination in the Company plan of operation. The Company's actual expenditures and business plan may differ from the one stated above. Its board of directors may decide not to pursue this plan as a whole or part of it. In addition, the Company may modify the plan based on available financing. The US real estate market trends are toward a soft market in the last year. Management believes that the "softer market" is due to the Federal Reserve Bank Policy of raising interest rates (in order to depress inflation trends). Fluctuations in interest rates make financing more

expensive, and more difficult to obtain.

The residential real estate markets in Southern California, Nevada and Croatia are more active during spring and summer. It is the Company's desire to complete its financial development during the summer, to increase the potential for a fast sale. In some jurisdictions, such as Nevada, regulations allow selling of units off-plans. The Company anticipates that these seasonal factors should not affect the Company's financial condition or results of operation, though they may moderately affect the liquidity position of the Company.

33

Summery Plan of Operation:

The Company believes that its liquidity will be enough for implementing its plan, and the Company anticipates that subject to actual pre-sales, it will obtain financing to complete its projects in the short-term as well as in the long-term. If actual sales are inadequate, the Company will not continue spending its existing cash, and therefore anticipates that it can avoid liquidity problems.

The Company's primary source of liquidity comes from divesting its ISP business in Central Eastern Europe, which was concluded on May 2006, when it completed the disposal of Euroweb Hungary and Euroweb Romania to Invitel. In February 2007, the Company closed the disposal of Navigator, which added approximately \$3.2 million net of cash to its internal source of liquidity.

Our external source of liquidity is based on a project by project basis. The Company intends to obtain financial investment in land and construction loans from commercial lenders for its development activities.

Critical Accounting Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements that have been prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP"). This preparation requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. US GAAP provides the framework from which to make these estimates, assumptions and disclosures. We choose accounting policies within US GAAP that management believes are appropriate to accurately and fairly report our operating results and financial position in a consistent manner. Management regularly assesses these policies in light of current and forecasted economic conditions. Although we believe that our estimates, assumptions and judgments are reasonable, they are based upon information presently available. Actual results may differ significantly from these estimates under different assumptions, judgments or conditions for a number of reasons. Our accounting policies are stated in Note 2 to the 2006 Consolidated Financial Statements, as well as in our 2007 interim financials. We identified the following accounting policies as critical to understanding the results of operations and representative of the more significant judgments and estimates used in the preparation of the consolidated financial statements: impairment of goodwill, allowance for doubtful accounts, acquisition related assets and liabilities, accounting of income taxes and analysis of FIN46R as well as FASB 67.

- **Investment in Real Estate and Commercial Leasing Assets.** Real estate held for sale and construction in progress is stated at the lower of cost or fair value less costs to sell and includes acreage, development, construction and carrying costs and other related costs through the development stage. Commercial leasing assets, which are held for use, are stated at cost. When events or circumstances indicate that an asset's carrying amount may not be recoverable, an impairment test is performed in accordance with the provisions of SFAS 144. For properties held for sale, if estimated fair value less costs to sell is less than the related carrying amount, then a reduction of the assets carrying value to fair value less costs to sell is required. For properties held for use, if the projected undiscounted cash flow from the asset is less than the related carrying amount, then a reduction of the carrying amount of the asset to fair value is required. Measurement of the impairment loss is based on the fair value of the asset. Generally, we determine fair value using valuation techniques such as discounted expected future cash flows.

Our expected future cash flows are affected by many factors including:

- a) The economic condition in the US, especially in Las Vegas, Nevada and Los Angeles, California markets;
- b) The performance of the real estate industry in the markets where our properties are located;
- c) Our financial condition, which may influence our ability to develop our real estate; and
- d) Governmental regulations.

Because any one of these factors could substantially affect our estimate of future cash flows, this is a critical accounting policy because these estimates could result in us either recording or not recording an impairment loss based on different assumptions. Impairment losses are generally substantial charges. We are currently in the beginning state of development of real estates, therefore no impairment is required. Any impairment charge would more likely than not have a material effect on our results of operations.

The estimate of our future revenues is also important because it is the basis of our development plans and also a factor in our ability to obtain the financing necessary to complete our development plans. If our estimates of future cash flows from our properties differ from expectations, then our financial and liquidity position may be compromised, which could result in our default under certain debt instruments or result in our suspending some or all of our development activities.

- **Allocation of Overhead Costs.** We periodically capitalize a portion of our overhead costs and also allocate a portion of these overhead costs to cost of sales based on the activities of our employees that are directly engaged in these activities. In order to accomplish this procedure, we periodically evaluate our "corporate" personnel activities to see what, if any, time is associated with activities that would normally be capitalized or considered part of cost of sales. After determining the appropriate aggregate allocation rates, we apply these factors to our overhead costs to determine the appropriate allocations. This is a critical accounting policy because it affects our net results of operations for that portion which is capitalized. In accordance with paragraph 7 of SFAS No. 67, we only capitalize direct and indirect project costs associated with the acquisition, development and construction of a real estate project. Indirect costs include allocated costs associated with certain pooled resources (such as office supplies, telephone and postage) which are used to support our development projects, as well as general and administrative functions. Allocations of pooled resources are based only on those employees directly responsible for development (i.e. project manager and subordinates). We charge to expense indirect costs that do not clearly relate to a real estate project such as salaries and allocated expenses related to the Chief Executive Officer and Chief Financial Officer.

- **Revenue Recognition.** In accordance with SFAS No. 66, "Accounting for Sales of Real Estate," we recognize revenues from property sales when the risks and rewards of ownership are transferred to the buyer, when the consideration received can be reasonably determined and when we have completed our obligations to perform certain supplementary development activities, if any exist, at the time of the sale. Consideration is reasonably determined and considered likely of collection when we have signed sales agreements and have determined that the buyer has demonstrated a commitment to pay. The buyer's commitment to pay is supported by the level of their initial investment, our assessment of the buyer's credit standing and our assessment of whether the buyer's stake in the property is sufficient to motivate the buyer to honor its obligation to us. This is a critical accounting policy because for certain sales, we use our judgment to determine the buyer's commitment to pay us and thus determine when it is proper to recognize revenues.

We recognize our rental income based on the terms of our signed leases with tenants on a straight-line basis. We recognize sales commissions and management and development fees when earned, as lots or acreages are sold or when the services are performed.

- **Accounting for Income Taxes:** We recognize deferred tax assets and liabilities for the expected future tax consequences of transactions and events. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. If necessary, deferred tax assets are reduced by a valuation allowance to an amount that is determined to be more likely than not recoverable. We must make significant estimates and assumptions about future taxable income and future tax consequences when determining the amount of the valuation allowance. In addition, tax reserves are based on significant estimates and assumptions as to the relative filing positions and potential audit and litigation exposures related thereto. To the extent the Company establishes a valuation allowance or increases this allowance in a period, the impact will be included in the tax provision in the statement of operations.

Commitments and contingencies

Employment Agreements

Effective July 1, 2006, the Company entered into a five-year employment agreement with Yossi Attia as the President of ERC which commenced on July 1, 2006 and provides for annual compensation in the amount of \$240,000, an annual bonus not less than \$120,000 per year, and an annual car allowance. At December 31, 2006, the car allowance expense amounted to \$19,220. Mr. Attia is also entitled to a special bonus equal to 10% of the earnings before income tax, depreciation and amortization ("EBITDA") of ERC, which such bonus is payable in shares of common stock of the Company; provided, however, the special bonus is only payable in the event that Mr. Attia remains continuously employed by ERC, and Mr. Attia shall not have sold shares of common stock of the Company on or before the payment date of the special bonus, unless such shares were received in connection with the exercise of an option that was scheduled to expire within one year of the date of exercise. In addition, on August 14, 2006, the Company amended the agreement to provide that Mr. Attia shall serve as the Chief Executive Officer of the Company for a term of two years commencing August 14, 2006 and granting annual compensation of \$250,000 to be paid in the form of Company shares of common stock. The number of shares to be received by Mr. Attia is calculated based on the average closing price 10 days prior to the commencement of each employment year. Mr. Attia will receive 111,458 Emvelco shares of common stock for his first year service. Mr. Attia also agreed to not directly or indirectly compete with the business of the Company or ERC during his employment and for a period of two years following termination of employment. No shares were issued to Mr. Attia in 2006.

On May 31, 2007 the Company, ERC and Mr. Attia entered into a Memorandum of Understanding, pursuant to which, the August 14, 2006 amendment to Mr. Attia's employment agreement was terminated, and effective as of January 1, 2007, all of ERC's rights and obligations under Mr. Attia's employment agreement were transferred to the Company.

On September 17, 2007, the Board of Directors voted to appoint Darren C. Dunckel as a director of the Company. Liquidity and Capital Resources

The Company currently anticipates that its available cash resources will be sufficient to meet its presently anticipated working capital requirements for at least the next 12 months

As of September 30, 2007, our cash, cash equivalents and marketable securities were approximately \$68,000, a decrease of approximately \$2.8 million from the end of fiscal year 2006. The decrease in our cash, cash equivalents and marketable securities is the result of our investment policy.

Cash flow provided by/(used in) operating activities for the nine months ended September 30, 2007 was \$(1,845,079) and \$(2,390,287) for the same period last year. The change is due to disposal of operations of some units incurring losses.

Cash flow provided by/(used in) investing activities for the nine months ended September 30, 2007 and 2006 was \$(5.8) million and \$5.8 million, respectively. The change was due to the net proceeds of the sale of Euroweb Hungary and Euroweb Romania being received in the prior year.

Cash provided by/(used in) financing activities was \$4.9 million for the nine months ended September 30, 2007 and \$4.2 million for the nine months ended September 30, 2006. This increase is due to increased funding to establish loans to Verge Living Corp in the current period.

The Company currently anticipates that its available cash resources will be sufficient to meet its presently anticipated working capital and capital expenditure requirements for at least the next 12 months.

The Company holds restricted Certificates of Deposit (CD's) with the Bank to access a revolving line of credit. These deposits are interest bearing and approximated \$8.4 million as of September 30, 2007. On November 8, 2007, the lines of credits were increased and extended as the following: \$4,180,000 until October 16, 2008 and \$4,229,000 until September 1, 2008. Both line bearing interest of 5.87% and secured by restricted cash deposited in CD's with the bank.

In the event the Company makes future acquisitions or investments, additional bank loans or fund raising may be used to finance such future acquisitions. The Company may consider the sale of non-strategic assets.

Inflation and Foreign Currency

The Company maintains its books in local currency: Hungarian Forint for Navigator and US Dollars for the Parent Company registered in the State of Delaware.

The Company's operations are primarily in the United States through its wholly owned subsidiary. Some of the Company's customers were in Hungary. As a result, fluctuations in currency exchange rates may significantly affect the Company's sales, profitability and financial position when the foreign currencies, primarily the Hungarian Forint, of its international operations are translated into U.S. dollars for financial reporting. In addition, we are also subject to currency fluctuation risk with respect to certain foreign currency denominated receivables and payables. Although the Company cannot predict the extent to which currency fluctuations may or will affect the Company's business and financial position, there is a risk that such fluctuations will have an adverse impact on the Company's sales, profits and financial position. Because differing portions of our revenues and costs are denominated in foreign currency, movements could impact our margins by, for example, decreasing our foreign revenues when the dollar strengthens and not correspondingly decreasing our expenses. The Company does not currently hedge its currency exposure. In the future, we may engage in hedging transactions to mitigate foreign exchange risk.

Effect of Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, “Fair Value Measurements” (“SFAS 157”). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the FASB having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. This Statement is required to be adopted by the Company on July 1, 2008. Management is currently assessing the impact of the adoption of this Statement.

In February 2007, the FASB issued SFAS No. 159, “The Fair Value Option for Financial Assets and Financial Liabilities—including an amendment of FASB Statement No. 115” (“SFAS 159”). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. This statement provides entities the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is effective as of the beginning of an entity’s first fiscal year that begins after November 15, 2007. Management is currently evaluating the impact of adopting this Statement.

Forward-Looking Statements

When used in this Form, in other filings by the Company with the SEC, in the Company’s press releases or other public or stockholder communications, or in oral statements made with the approval of an authorized executive officer of the Company, the words or phrases “would be,” “will allow,” “intends to,” “will likely result,” “are expected to,” “continue,” “is anticipated,” “estimate,” “project,” or similar expressions are intended to identify “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995.

The Company cautions readers not to place undue reliance on any forward-looking statements, which speak only as of the date made, are based on certain assumptions and expectations which may or may not be valid or actually occur, and which involve various risks and uncertainties, including but not limited to the risks set forth above. See “Risk Factors.” In addition, sales and other revenues may not commence and/or continue as anticipated due to delays or otherwise. As a result, the Company’s actual results for future periods could differ materially from those anticipated or projected.

Unless otherwise required by applicable law, the Company does not undertake, and specifically disclaims any obligation, to update any forward-looking statements to reflect occurrences, developments, unanticipated events or circumstances after the date of such statement.

Item 3. Controls and Procedures

As of September 30, 2007, an evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer, the Principal Financial Officer and the Audit Committee members, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's management, including the Chief Executive Officer and the Principal Financial Officer concluded that the Company's disclosure controls and procedures were effective as of September 30, 2007. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect internal controls in the quarter ended June 30, 2007 that materially affected or are reasonably likely to materially affect the Company's internal controls.

As the Company disclosed in its Form 8-K filed on April 30, 2007, on April 25, 2007, Deloitte Kft. (the "Former Auditor") advised the Company that it has resigned as the Company's independent auditor. The Former Auditor maintained, among other things, that the Company failed to provide adequate records with respect to certain transactions. The Company disputes this contention and maintains that its disclosure controls and procedures were effective as of March 31, 2007. The Former Auditor furnished a letter to the Company, which letter was filed May 14, 2007, as an exhibit to Form 8-K/A.

Notwithstanding the foregoing, on April 19, 2007, the Company received a NASDAQ Staff Determination (the "Determination") indicating that the Company has failed to comply with the requirement for continued listing set forth in Marketplace Rule 4310(c)(14) requiring the Company to file its Form 10-KSB for the year ended December 31, 2006 with the Securities and Exchange Commission and that its securities are, therefore, subject to delisting from the NASDAQ Capital Market. The Company requested and received a hearing before a NASDAQ Listing Qualifications Panel (the "Panel") to review the Determination.

On May 17, 2007, the Company received a NASDAQ Additional Staff Determination (the "Additional Determination") indicating that the Company has failed to comply with the requirement for continued listing set forth in Marketplace Rule 4310(c)(14) requiring the Company to file its Form 10-QSB for the quarter ended March 31, 2007 with the Securities and Exchange Commission and that that this failure serves as an additional basis for why its securities are subject to delisting from the NASDAQ Capital Market. The Company reviewed the Additional Determination at its Panel hearing, which took place on May 31, 2007.

On June 12, 2007, the Company received a decision letter from The NASDAQ Stock Market LLC ("NASDAQ") informing the Company that it has regained compliance with the filing requirement of The NASDAQ Capital Market. The decision letter noted, among other things, that the Company became current in its filings shortly after the Company's May 31, 2007 hearing before the Panel on June 5, 2007; that the Panel was satisfied with the Company's responses to the Panel's questions related to disclosures by the Company's former auditors; and that the Company's new auditors issued an unqualified opinion on the Company's 2006 financial statements.

In July and August 2007, NASDAQ approached the Company in regard to complying with NASDAQ Marketplace Rules 4300 and 4330(c) pertaining that the Company is a shell per these rules. The Company responded to all NASDAQ questions, and the Company's position is that the Company is not a shell.

On November 1, 2007, the Company received a NASDAQ Staff Determination (the "Determination") indicating that the Company has failed to comply with the requirement for continued listing set forth in Marketplace Rule 4310(c)(4) requiring the Company to maintain a minimum bid price of \$1.00 and that its securities are, therefore, subject to delisting from the NASDAQ Capital Market if it does not regain compliance by April 29, 2008. If the bid price of the Company's common stock closes at \$1.00 per share or more for a minimum of 10 consecutive business days anytime prior to April 29, 2008, then the NASDAQ Staff will provide written notification that it complies with the Rule. In the event that the Company does not meet the minimum bid requirement by April 29, 2008, but satisfies all initial listing

criteria, the Company will be given a 180 day extension to meet the minimum bid price. In the event that the Company does not meet the initial listing criteria, NASDAQ will provide the Company with written notification that the Company's securities will be de-listed, which such determination may be appealed by the Company.

PART II

ITEM 1. LEGAL PROCEEDINGS

From time to time, we are a party to litigation or other legal proceedings that we consider to be a part of the ordinary course of our business. We are not involved currently in legal proceedings other than detailed below that could reasonably be expected to have a material adverse effect on our business, prospects, financial condition or results of operations. We may become involved in material legal proceedings in the future.

Except as set forth below, there are no known significant legal procedures that have been filed and are outstanding against the Company.

On April 26, 2006, a lawsuit was filed in the Delaware Court of Chancery (the "Court") by a stockholder of the Company against the Company, each of the Company's Directors and CORCYRA d.o.o., a stockholder of the Company that beneficially owned 39.81% of the Company's outstanding common stock at the date of the lawsuit. The Complaint is titled Laurence Paskowitz v. Csaba Toro et al., C.A. No. 2110-N (the "Complaint") and was brought individually, and as a class action on behalf of certain of the Company's common stockholders, excluding defendants and their affiliates. The plaintiff alleged that the proposed sale of 100% of the Company's interest in the Company's two Internet and telecom related operating subsidiaries (the "Subsidiaries") constitutes a sale of substantially all of the Company's assets and required approval by a majority of the voting power of the Company's outstanding common stock under Section 271 of the Delaware General Corporation Law. The plaintiff also alleged the defendants breached their fiduciary duties in connection with the sale of the Subsidiaries, as well as the disclosures contained in the proxy statement filed on April 24, 2006. The plaintiff applied for a temporary restraining order seeking to enjoin the special meeting on May 15, 2006.

The Company denied any and all allegations of wrongdoing; however, in the interests of conserving resources, on April 28, 2006, the parties to the litigation entered into a Memorandum of Understanding ("MOU") providing for, subject to confirmatory discovery by plaintiff, the negotiation of a formal stipulation of a settlement of the litigation. Pursuant to the MOU, the Board of Directors of the Company agreed to: (i) increase the vote required to approve the sale of 100% of the Company's interest in the Subsidiaries, (ii) revise the disclosure within the Proxy Statement to eliminate the bonus of up to US \$400,000, which the Compensation Committee of the Company had the option to pay to select members of management, as the Board of Directors had previously elected to terminate the ability to pay such bonus and (iii) provide supplemental disclosure as contained in the Supplemental Proxy Statement to be mailed to stockholders and filed with the SEC on May 3, 2006.

The parties entered into a stipulation of settlement on April 3, 2007. The settlement provided for dismissal of the litigation with prejudice and was subject to Court approval. As part of the settlement, the Company agreed to attorneys' fees and expenses to plaintiff's counsel in the amount of \$150,000. Pursuant to the stipulation of settlement, the Company sent out notices to the members of the class on May 3, 2007. A fairness hearing took place on June 8, 2007, where the Delaware Court of Chancery (the "Court") entered an Order and Final Judgment (the "Order"), approving the settlement of the Complaint, authorizing the parties to consummate the settlement in accordance with its terms, certifying the class and dismissing the litigation with prejudice. Pursuant to the settlement, the Company also sent out notices to the members of the class on May 3, 2007. A fairness hearing took place on June 8, 2007, and, as stated above, the Order was entered on June 8, 2007.

The Company filed a complaint in the Superior Court for the County of Los Angeles, against an attorney. The case was filed on February 14, 2007, and service of process has been done. In the complaint the Company is seeking judgment against this attorney in the amount of approximately 250,000 Euros (approximately \$316,000 as of the date of actual transferring the funds), plus interest, costs and fees. Defendant has not yet appeared in the action. The Company believes that it has a meritorious claim for the return of monies deposited with defendant in a trust capacity,

and, from the documents in the Company's possession, there is no reason to doubt the validity of the claim. However, management does not have any information on the collectibility of any judgment that might be entered in court. During April 2007 defendant returned \$92,694 (70,000 Euros at the relevant time) which netted to \$72,694 post legal expenses; the Company has granted him a 15-day extension to file his defense. Post the extension and in lieu of not filing a defense, the Company filed for a default judgment. On October 25, 2007 the Company obtained a California Judgment by court after default against the attorney for the sum of \$249,340.65

DELOITTE RESIGNATION -

On April 25, 2007 (the "Resignation Date"), Deloitte Kft. (the "Former Auditor") advised the Company that it has resigned as the Company's independent auditor. The Former Auditor performed the audit for the one year period ended December 31, 2005, which report for the one year ended December 31, 2005 did not contain any adverse opinion or a disclaimer of opinion, nor was it qualified as to audit scope or accounting principles. During the Company's two most recent fiscal years and during any subsequent interim period prior to the Resignation Date, there were no disagreements with the Former Auditor, with respect to accounting or auditing issues of the type discussed in Item 304(a)(iv) of Regulation S-B.

Prior to the Resignation Date, the Former Auditor advised the Company that it had raised certain issues relating to the accounting of ERC. The Former Auditor believes that this communication is a disclosable event pursuant to Item 304(a)(v). The issues raised by the Former Auditor related to the recording of the cost of real estate purchased by Verge (a wholly owned subsidiary of ERC), the production of records relating to loans made to VLC and the valuation of land in connection with Lorraine LLC (a wholly owned subsidiary of ERC). Management of the Company disagrees with the aforementioned statements and believes that it has adequately explained each of the above inquiries made by the Former Auditor. Further, prior to being advised of the above issues, the Company maintained that ERC and its subsidiaries do not need to be consolidated in the Company's financial statements, which such position was subsequently confirmed by a detailed analysis by management and an independent third party consultant of the accounting pronouncements governing consolidation.

The Company provided the Former Auditor with a copy of this disclosure. The Former Auditor advised the Company that it intended to furnish a letter to the Company, addressed to the SEC, stating that it agreed with the statements made herein or the reasons why it disagreed. The letter from the Former Auditor was filed as an exhibit to Form 8-K/A filed May 14, 2007.
