FORWARD-LOOKING STATEMENTS

This Form 10-Q contains “forward-looking statements” relating to NeoGenomics, Inc., a Nevada corporation (referred to individually as the “Parent Company” or collectively with all of its subsidiaries as “NeoGenomics” or the “Company” in this Form 10-Q), which represent the Company’s current expectations or beliefs including, but not limited to, statements concerning the Company’s operations, performance, financial condition and growth. For this purpose, any statements contained in this Form 10-Q that are not statements of historical fact are forward-looking statements. Without limiting the generality of the foregoing, words such as “may”, “anticipation”, “intend”, “could”, “estimate”, or “continue” or the negative or other comparable terminology are intended to identify forward-looking statements. These statements by their nature involve substantial risks and uncertainties, such as credit losses, dependence on management and key personnel, variability of quarterly results, competition and the ability of the Company to continue its growth strategy, certain of which are beyond the Company’s control. Should one or more of these risks or uncertainties materialize or should the underlying assumptions prove incorrect, actual outcomes and results could differ materially from those indicated in the forward-looking statements.

Any forward-looking statement speaks only as of the date on which such statement is made, and the Company undertakes no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time and it is not possible for management to predict all of such factors, nor can it assess the impact of each such factor on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

NEOGENOMICS, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

AS OF SEPTEMBER 30, 2008

NOTE A – NATURE OF BUSINESS AND BASIS OF FINANCIAL STATEMENT PRESENTATION

Nature of Business

NeoGenomics, Inc., a Nevada corporation, (the “Parent”) and its subsidiary, NeoGenomics, Inc., a Florida corporation, doing business as NeoGenomics Laboratories (“NEO”, “NeoGenomics” or the “Subsidiary”) (collectively referred to as “we”, “us”, “our”, or the “Company”) operates as a certified “high complexity” clinical laboratory in accordance with the federal government’s Clinical Laboratory Improvement Amendments of 1988 (“CLIA”), and is dedicated to the delivery of clinical diagnostic services to pathologists, oncologists, urologists, hospitals, and other laboratories throughout the United States.

Basis of Presentation

The accompanying condensed consolidated financial statements include the accounts of the Parent and the Subsidiary. All significant intercompany accounts and balances have been eliminated in consolidation.

The accompanying condensed consolidated financial statements of the Company are unaudited and include all adjustments, in the opinion of management, which are necessary to make the financial statements not misleading. Except as otherwise disclosed, all such adjustments are of a normal recurring nature. Interim results are not necessarily indicative of results for a full year.

The interim condensed consolidated financial statements and notes are presented in accordance with the rules and regulations of the Securities and Exchange Commission and do not contain certain information included in the Company’s 2007 Annual Report on Form 10-KSB. Therefore, the interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company’s annual report.

Net Income (Loss) Per Common Share

We compute net income (loss) per share in accordance with Financial Accounting Standards Statement No. 128 “Earnings per Share” (“SFAS 128”) and Securities and Exchange Commission (“SEC”) Staff Accounting Bulletin No. 98 (“SAB 98”). Under the provisions of SFAS No. 128 and SAB 98, basic net income (loss) per share is computed by dividing the net income (loss) available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted net income (loss) per share is computed by dividing the net income (loss) for the period by the weighted average number of common and common equivalent shares outstanding during the period. Common equivalent shares outstanding as of September 30, 2008 and 2007, which consisted of employee stock options and certain warrants issued to consultants and other providers of financing to the Company, were excluded from diluted net loss per common share calculations as of such dates because they were anti-dilutive. For the three and nine months ended September 30, 2008 and 2007, we reported net loss per share and as such basic and diluted loss per share were equivalent.

Recently Issued Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" ("SFAS 157"). SFAS 157 provides a new single authoritative definition of fair value and provides enhanced guidance for measuring the fair value of assets and liabilities and requires additional disclosures related to the extent to which companies measure assets and liabilities at fair value, the information used to measure fair value, and the effect of fair value measurements on earnings. SFAS 157 was effective for the Company as of January 1, 2008 for financial assets and financial liabilities within its scope and did not have a material impact on our consolidated financial statements.

In February 2008, the FASB issued FASB Staff Position No. FAS 157-2 “Effective Date of FASB Statement No. 157” (“FSP FAS 157-2”) which defers the effective date of SFAS 157 for all non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), to fiscal years beginning after November 15, 2008 and interim periods within those fiscal years for items within the scope of FSP FAS 157-2. The Company is currently assessing the impact, if any, of SFAS 157 and FSP FAS 157-2 for non-financial assets and non-financial liabilities on its consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159 “The Fair Value Option for Financial Assets and Financial Liabilities – Including an Amendment of FASB Statement No. 115.” (“SFAS 159”). SFAS 159 permits an entity to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. The Company adopted this Statement as of January 1, 2008 and has elected not to apply the fair value option to any of its financial instruments.

In December 2007, the FASB issued SFAS No. 160, “Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No. 51.” (“SFAS 160”). SFAS 160 requires all entities to report noncontrolling (minority) interests in subsidiaries as equity in the consolidated financial statements. Its intention is to eliminate the diversity in practice regarding the accounting for transactions between an entity and noncontrolling interests. This Statement is effective for the Company as of January 1, 2009 and currently, we do not expect it to have a material impact on the Company’s financial statements.

In May 2008, the FASB issued SFAS No. 162 (“SFAS 162”), “The Hierarchy of Generally Accepted Accounting Principles” (“SFAS 162”). This statement identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with GAAP. While this statement formalizes the sources and hierarchy of GAAP within the authoritative accounting literature, it does not change the accounting principles that are already in place. This statement will be effective 60 days following the SEC’s approval of the Public Company Accounting Oversight Board amendments to AU Section 411, “The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles.” SFAS 162 is not expected to have a material impact on the Company’s financial statements.

NOTE B – DEBT OBLIGATION

Revolving Credit and Security Agreement

On February 1, 2008, our subsidiary, NeoGenomics, Inc., a Florida corporation (“Borrower”), entered into a Revolving Credit and Security Agreement (the “Credit Facility” or “Credit Agreement”) with CapitalSource Finance LLC (“CapitalSource”), the terms of which provide for borrowings based on eligible accounts receivable up to a maximum borrowing of \$3,000,000, as defined in the Credit Agreement. Subject to the provisions of the Credit Agreement, CapitalSource shall make advances to us from time to time during the three (3) year term, and the Credit Facility may be drawn, repaid and redrawn from time to time as permitted under the Credit Agreement.

Interest on outstanding advances under the Credit Facility are payable monthly in arrears on the first day of each calendar month at an annual rate based on the one-month LIBOR plus 3.25%, subject to a LIBOR floor of 3.14%. At September 30, 2008, the effective rate of interest was 6.50%.

To secure the payment and performance in full of the Obligations (as defined in the Credit Agreement), we granted CapitalSource a continuing security interest in and lien upon, all of our rights, title and interest in and to our Accounts (as defined in the Credit Agreement), which primarily consist of accounts receivable and cash balances held in lock box accounts. Furthermore, pursuant to the Credit Agreement, the Parent guaranteed the punctual payment when due, whether at stated maturity, by acceleration or otherwise, of all of our obligations. The Parent guaranty is a continuing guarantee and shall remain in force and effect until the indefeasible cash payment in full of the Guaranteed

Obligations (as defined in the Credit Agreement) and all other amounts payable under the Credit Agreement.

On September 30, 2008, the available credit under the Credit Facility was approximately \$851,000 and the outstanding borrowing was \$1,176,221 after netting of \$66,857 in compensating cash on hand. Subsequent to September 30, 2008, the Company and CapitalSource signed a first amendment to the Credit Agreement, as further explained in Note G.

NOTE C – LIQUIDITY

Our condensed consolidated financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern, which contemplate the realization of assets and liquidation of liabilities in the normal course of business. At September 30, 2008, we had stockholders' equity of \$2,487,001. On February 1, 2008, we entered into a revolving credit facility with CapitalSource Finance, LLC, which allows us to borrow up to \$3,000,000 based on a formula which is based upon our eligible accounts receivable, as defined in the Credit Agreement. As of September 30, 2008, we had approximately \$631,000 in cash on hand and \$851,000 of availability under our Credit Facility. On November 5, 2008, we entered into a common stock purchase agreement with Fusion Capital Fund II, LLC ("Fusion") that provides for future sales of our common stock to Fusion in amounts up to \$8.0 million over the next 30 months in amounts and at times that are solely in our discretion as described in Footnote G. On November 5, 2008, we also entered into a master lease agreement with Leasing Technologies International, Inc which allows us to draw as much as \$1.0 million over the next twelve months to purchase capital equipment as described in Footnote G. As such, we believe we have adequate resources to meet our operating commitments for the next twelve months and accordingly our condensed consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should we be unable to continue as a going concern.

NOTE D – COMMITMENTS AND CONTINGENCIES

US Labs Settlement

On October 26, 2006, Accupath Diagnostics Laboratories, Inc. d/b/a US Labs, a California corporation ("US Labs") filed a complaint in the Superior Court of the State of California for the County of Los Angeles (entitled Accupath Diagnostics Laboratories, Inc. v. NeoGenomics, Inc., et al., Case No. BC 360985) (the "Lawsuit") against the Company and Robert Gasparini, as an individual, and certain other employees and non-employees of NeoGenomics (the "Defendants") with respect to claims arising from discussions with current and former employees of US Labs. On March 18, 2008, we reached a preliminary agreement to settle US Labs' claims, and in accordance with SFAS No. 5, *Accounting For Contingencies*, as of December 31, 2007 we accrued a \$375,000 loss contingency, which consisted of \$250,000 to provide for the Company's expected share of this settlement, and \$125,000 to provide for the Company's share of the estimated legal fees up to the date of settlement.

On April 23, 2008, the Company and US Labs entered into a Settlement Agreement and Release (the "Settlement Agreement") whereby both parties agreed to settle and resolve all claims asserted in and arising out of the aforementioned lawsuit. Pursuant to the Settlement Agreement, the Defendants are required to pay \$500,000 to US Labs, of which \$250,000 was paid with funds from the Company's insurance carrier in May 2008 and the remaining \$250,000 is being paid by the Company in equal installments of \$31,250 commencing on May 31, 2008. Under the terms of the Settlement Agreement, there are certain provisions agreed to in the event of default. As of September 30, 2008, the remaining amount due was \$93,750, and no events of default had occurred.

Private Placement of Common Stock and Related SEC Review

During 2007, we received a comment letter from the SEC Staff questioning certain matters disclosed in our Form 10-KSB as of and for the year ended December 31, 2006. As a result, we were unable to effectively complete the Registration Statement filed in connection with the June 2007 private placement (the "Private Placement") of the Company's common stock. As of December 31, 2007 and pursuant to the terms of the Private Placement, the Company accrued \$282,000 in penalties as liquidated damages, which were expected to be incurred for the period commencing on the 120th day following the Private Placement through June 2008, the date we anticipated to be able to effectively complete the Registration Statement for the Private Placement shares.

On April 29, 2008, we filed an amended 2006 Form 10-KSB/A with the SEC, and on April 30, 2008 we received correspondence from the SEC that they have completed their review and that they had no further comments.

On June 3, 2008, we filed a Registration Statement on Form S-1/A, and received a notice of effectiveness for the Private Placement shares on July 1, 2008. In September, 2008 the Company paid \$40,500 in cash and issued 170,088 shares of common stock at \$1.00 per share for a value of \$170,088 for a total of \$210,588 to the holders of the Private Placement shares to settle the penalty amounts due. The remaining \$71,412 in accrued penalties was reversed in September, 2008 as certain shareholders had previously sold their shares, thus forfeiting their rights to any penalties paid.

NOTE E – RELATED PARTY TRANSACTIONS

During the nine month periods ended September 30, 2008 and 2007, Steven C. Jones, a director of the Company, earned \$105,000 and \$50,000, respectively, for various consulting work performed in connection with his duties as Acting Principal Financial Officer.

During the nine month periods ended September 30, 2008 and 2007, George O’Leary, a director of the Company, earned \$9,500 and \$9,500, respectively, in cash for various consulting work performed for the Company.

On September 30, 2008, the Company entered into a sale leaseback arrangement for approximately \$130,000 of used laboratory equipment with Gulfpointe Capital, LLC. Three members of our board of directors Steven Jones, Peter Petersen and Marvin Jaffe are affiliated with Gulfpointe Capital, LLC. This sale/leaseback transaction was entered into after it was determined that Leasing Technologies International Inc. was unable to consummate this transaction under the lease line described in Footnote G and Messrs Jones, Peterson and Jaffe recused themselves from all aspects of both sides of this transaction. The lease has a 30 month term and a lease rate factor of 0.0397/month, which equates to monthly payments of \$5,154.88 during the term. Gulfpointe Capital, LLC also received 32,475 warrants with an exercise price of \$1.08, and a five year term. 25% of the warrants vested upfront and 75% vested on October 2, 2008 when the lease was funded. At the end of the term the Company options are as follows:

- a) Purchase not less than all of the equipment for its then Fair Market Value (“FMV”) not to exceed 15% of the original equipment cost.
- b) Extend the lease term for a minimum of six (6) months.
- c) Return not less than all the equipment at conclusion of the lease term.

NOTE F – POWER 3 MEDICAL PRODUCTS, INC.

On April 2, 2007, we entered into an agreement (the “Letter Agreement”) with Power3 Medical Products, Inc., a New York Corporation (“Power3”), regarding the formation of a joint venture Contract Research Organization (“CRO”) and the issuance of convertible debentures and related securities by Power3 to us. Power3 is an early stage company engaged in the discovery, development, and commercialization of protein biomarkers. Under the terms of the agreement, NeoGenomics and Power3 agreed to enter into a joint venture agreement pursuant to which the parties would jointly own a CRO and begin commercializing Power3’s intellectual property portfolio of seventeen patents pending by developing diagnostic tests and other services around one or more of the more than 500 differentially expressed protein biomarkers that Power3 believes it has discovered to date. Power3 has agreed to license all of its intellectual property on a non-exclusive basis to the CRO for selected commercial applications as well as provide certain management personnel. We will provide access to cancer samples, management and sales & marketing personnel, laboratory facilities and working capital. Subject to final negotiation, we will own a minimum of 60% and up to 80% of the new CRO venture.

As part of the agreement, we provided \$200,000 of working capital to Power3 by purchasing a convertible debenture on April 17, 2007 pursuant to a Securities Purchase Agreement (the "Purchase Agreement") between us and Power3. The debenture has a term of two years and a 6% per annum interest rate which is payable quarterly on the last calendar day of each quarter. We were also granted two options to increase our stake in Power3 to up to 60% of Power3's fully diluted shares. The first option (the "First Option") is a fixed option to purchase convertible preferred stock of Power3 that is convertible into such number of shares of Power3 Common Stock, in one or more transactions, up to 20% of Power3's voting Common Stock at a purchase price per share, which will also equal the initial conversion price per share, equal to the lesser of (a) \$0.20 per share, or (b) \$20,000,000 divided by the fully-diluted shares outstanding on the date of the exercise of the First Option. This First Option is exercisable for a period starting on the date of purchase of the convertible debenture by NeoGenomics and extending until the day which is the later of (y) November 16, 2007 or (z) the date that certain milestones specified in the agreement have been achieved. As of September 30, 2008, the milestones described in the letter agreement had not been met. The First Option is exercisable in cash or NeoGenomics Common Stock at our option, provided, however, that we must include at least \$1.0 million of cash in the consideration if we elect to exercise this First Option. The second option (the "Second Option"), which is only exercisable to the extent that we have exercised the First Option, provides that we will have the option to increase our stake in Power3 to up to 60% of fully diluted shares of Power3 over the twelve month period beginning on the expiration date of the First Option in one or a series of transactions by purchasing additional convertible preferred stock of Power3 that is convertible into voting Common Stock and the right to receive additional warrants. The purchase price per share, and the initial conversion price of the Second Option convertible preferred stock will, to the extent such Second Option is exercised within six months of exercise of the First Option, be the lesser of (a) \$0.40 per share or (b) \$40,000,000 divided by the fully diluted shares outstanding on the date of exercise of the Second Option. The purchase price per share, and the initial conversion price of the Second Option convertible preferred stock will, to the extent such Second Option is exercised after six months, but within twelve months of exercise of the First Option, be the lesser of (y) \$0.50 per share or (z) an equity price per share equal to \$50,000,000 divided by the fully diluted shares outstanding on the date of any purchase. The exercise price of the Second Option may be paid in cash or in any combination of cash and our Common Stock at our option.

As of September 30, 2008, the parties were engaged in negotiations to clarify and amend certain terms of the Letter Agreement. Until such time as an agreement can be reached with Power3 modifying the original terms of the Letter Agreement, it is the position of NeoGenomics that Power3 has not yet met the milestones outlined in the original agreement and, as a result, the First Option and Second Option are still valid.

The convertible debenture, because it is convertible into restricted shares of stock, is recorded under the fair value method at its initial cost of \$200,000 if the stock price of Power3 is less than \$0.20 per share or at fair value if the stock price of Power3 is greater than \$0.20 per share. As of September 30, 2008, the stock price of Power3 was less than \$0.20 per share and, accordingly, the convertible debenture is carried at cost and is included in Other Assets.

NOTE G – SUBSEQUENT EVENTS

Common Stock Purchase Agreement

On November 5, 2008, we entered into a common stock purchase agreement (the "Stock Agreement") with Fusion Capital Fund II, LLC an Illinois limited liability company ("Fusion"). The Stock Agreement, which has a term of 30 months, provides for the future funding of up to \$8.0 million from sales of our common stock to Fusion on a when and if needed basis as determined by us in our sole discretion. In consideration for entering into this Stock Agreement, on October 10, 2008, we issued to Fusion 17,500 shares of our common stock (valued at \$14,700 on the date of issuance) and \$17,500 as a due diligence expense reimbursement. In addition, on November 5, 2008, we issued to Fusion 400,000 shares of our common stock (valued at \$280,000 on the date of issuance) as a commitment fee. Concurrently with entering into the Stock Agreement, we entered into a registration rights agreement with Fusion. Under the registration rights agreement, we agreed to file a registration statement with the SEC covering the 417,500 shares that

have already been issued to Fusion and at least 3.0 million shares that may be issued to Fusion under the Stock Agreement. Presently, we expect to sell no more than this initial 3.0 million shares to Fusion during the term of this Stock Agreement.

Under the Stock Agreement, after the SEC has declared effective the registration statement related to the transaction, we have the right to sell to Fusion shares of our common stock from time to time in amounts between \$50,000 and \$1.0 million, depending on the market price of our common stock. The purchase price of the shares related to any future funding under the Stock Agreement will be based on the prevailing market prices of our stock at the time of such sales without any fixed discount, and the Company will control the timing and amount of any sales of shares to Fusion. Fusion shall not have the right or the obligation to purchase any shares of our common stock on any business day that the price of our common stock is below \$0.45 per share. The Stock Agreement may be terminated by us at any time at our discretion without any cost to us. There are no negative covenants, restrictions on future funding from other sources, penalties, further fees or liquidated damages in the agreement.

Given our current liquidity position from cash on hand and our availability under our Credit Facility with CapitalSource, we have no immediate plans to issue common stock under the Stock Agreement. If and when we do elect to sell shares to Fusion under this agreement, we expect to do so opportunistically and only under conditions deemed favorable by the Company. Any proceeds received by the Company from sales under the Stock Agreement will be used for general corporate purposes, working capital, and/or for expansion activities.

Equipment Lease Line

On November 5, 2008, the Subsidiary entered into a master lease agreement with Leasing Technologies International, Inc. The master lease agreement establishes the general terms and conditions pursuant to which the Subsidiary may lease equipment pursuant to a \$1,000,000 lease line. Advances under the lease line may be made for one year by executing equipment schedules for each advance. The lease term of any equipment schedules issued under the lease line will be for 36 months. The lease rate factor applicable for each equipment schedule is 0.0327/month. If the Subsidiary makes use of the entire lease line, the monthly rent would be \$32,700. Monthly rent for the leased equipment is payable in advance on the first day of each month. The obligations of the Subsidiary are guaranteed by the Parent Company. At the end of the term of each equipment schedule the Subsidiary may:

- (a) Renew the lease with respect to such equipment for an additional 12 months at fair market value;
- (b) Purchase the equipment at fair market value, which price will not be less than 10% of cost nor more than 14% of cost;
- (c) Extend the term for an additional six months at 35% of the monthly rent paid by lessee during the initial term, equipment may then be purchased for the lesser of fair market value or 8% of cost; or
- (a) Return the equipment subject to a remarketing charge equal to 6% of cost.

First Amendment to Revolving Credit and Security Agreement

On November 3, 2008 the Company and CapitalSource signed a first amendment to the Credit Agreement. This amendment increased the amount allowable under the Credit Agreement to pay towards the settlement of the US Labs lawsuit to \$250,000 from \$100,000 and documented other administrative agreements between NeoGenomics and CapitalSource.

END OF FINANCIAL STATEMENTS.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with the Condensed Consolidated Financial Statements, and the Notes thereto included herein. The information contained below includes statements of the Company's or management's beliefs, expectations, hopes, goals and plans that, if not historical, are forward-looking statements subject to certain risks and uncertainties that could cause actual results to differ materially from those anticipated in the forward-looking statements. For a discussion on forward-looking statements, see the information set forth in the Introductory Note to this Quarterly Report under the caption "Forward Looking Statements", which information is incorporated herein by reference.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions and select accounting policies that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

While many operational aspects of our business are subject to complex federal, state and local regulations, the accounting for our business is generally straightforward with net revenues primarily recognized upon completion of the testing process. Our revenues are primarily comprised of a high volume of relatively low dollar transactions, and about one-half of total operating costs and expenses consist of employee compensation and benefits. Due to the nature of our business, several of our accounting policies involve significant estimates and judgments. These accounting policies have been described in our Annual Report on Form 10-KSB for the year ended December 31, 2007, and there have been no material changes in the nine months ended September 30, 2008.

Overview

NeoGenomics operates a network of cancer testing laboratories that specifically target the rapidly growing genetic and molecular testing segment of the medical laboratory industry. We currently operate in three laboratory locations: Fort Myers, Florida, Nashville, Tennessee and Irvine, California. We currently offer throughout the United States the following types of testing services to oncologists, pathologists, urologists, hospitals, and other laboratories: a) cytogenetics testing, which analyzes human chromosomes, b) Fluorescence In-Situ Hybridization (FISH) testing, which analyzes abnormalities at the chromosome and gene levels, c) flow cytometry testing services, which analyzes gene expression of specific markers inside cells and on cell surfaces, d) morphological testing, which analyzes cellular structures and e) molecular testing which involves analysis of DNA and RNA and prediction of the clinical significance of various cancers. All of these testing services are widely used in the diagnosis and prognosis of various types of cancer.

Our common stock is listed on the NASDAQ Over-the-Counter Bulletin Board (the "OTCBB") under the symbol "NGNM."

Results of Operations for the Three and Nine Months Ended September 30, 2008 as Compared to the Three and Nine Months Ended September 30, 2007

Revenue

Revenues increased 61.7%, or \$1.9 million, to \$5.1 million for the three months ended September 30, 2008 as compared to \$3.1 million for the three months ended September 30, 2007. For the nine months ended September 30,

2008, revenues increased 82.8%, or \$6.4 million, to \$14.1 million as compared to \$7.7 million for the nine months ended September 30, 2007. The increase in revenues for the three and nine month periods ended September 30, 2008, as compared to the same periods in the prior year was primarily attributable to increases in case and testing volume resulting from wide acceptance of our bundled testing product offering and our industry leading turnaround times, which has resulted in new customers.

Test volume increased 48.3%, or 2,730 tests, to 8,384 tests for the three months ended September 30, 2008 as compared to 5,654 tests for the three months ended September 30, 2007. For the nine months ended September 30, 2008, test volume increased 60.8%, or 8,717 tests, to 23,049 tests as compared to 14,332 tests for the nine months ended September 30, 2007. Average revenue per test increased 9.1% to \$602.43 for the three months ended September 30, 2008 as compared to \$552.30 for the three months ended September 30, 2007. For the nine months ended September 30, 2008, average revenue per test increased 13.7% to \$611.52 as compared to \$537.91 for the nine months ended September 30, 2007. The increase in average revenue per test is primarily attributable to an increase in certain Medicare reimbursements for 2008, and an increase in our test mix of flow cytometry testing, which has the highest reimbursement rate of any test we offer. Revenues per test are a function of both the nature of the test and the payer (Medicare, Medicaid, third party insurer, institutional client etc.).

Our policy is to record as revenue the amounts that we expect to collect based on published or contracted amounts and/or prior experience with each payer. We have established a reserve for uncollectible amounts based on estimates of what we will collect from a) third-party payers with whom we do not have a contractual arrangement or sufficient experience to accurately estimate the amount of reimbursement we will receive, b) co-payments directly from patients, and c) those procedures that are not covered by insurance or other third party payers. The Company's allowance for doubtful accounts decreased 31.7%, or approximately \$132,000 to \$283,000, as compared to \$415,000 at December 31, 2007. The allowance for doubtful accounts was approximately 7.7% and 11.4% of accounts receivable on September 30, 2008 and December 31, 2007, respectively. This decrease is primarily attributed to our new billing system that went live in the first quarter of 2008, and the strong billings and collections team we built in the last year. We expect to return to an allowance between 6%-7% of our gross receivables by the end of the year, as we continue to resolve claims that are greater than 150 days outstanding.

Cost of Revenue

Cost of revenue includes payroll and payroll related costs for performing tests, depreciation of laboratory equipment, rent for laboratory facilities, laboratory reagents, probes and supplies, and delivery and courier costs relating to the transportation of specimens to be tested.

Cost of revenue increased 66.7%, or \$1.0 million, to \$2.5 million for the three months ended September 30, 2008 as compared to \$1.5 million for the three months ended September 30, 2007. For the nine months ended September 30, 2008, cost of revenue increased 81.5%, or \$3.0 million, to \$6.6 million as compared to \$3.6 million for the nine months ended September 30, 2007. The increase in cost of revenue for the three and nine month periods ended September 30, 2008, as compared to the same periods in the prior year was primarily attributable to increases in all areas of costs of revenue as the Company scaled its operations in order to meet increasing demand. Cost of revenue as a percentage of revenue increased to 50.2% for the three months ended September 30, 2008 as compared to 48.7% for the three months ended September 30, 2007. For the nine months ended September 30, 2008 cost of revenue as a percentage of sales decreased to 46.7% as compared to 47.0% for the nine months ended September 30, 2007.

Accordingly, this resulted in gross margin decreasing to 49.8% for the three months ended September 30, 2008 as compared to 51.0% for the three months ended September 30, 2007. For the nine months ended September 30, 2008 gross margin increased to 53.3% as compared to 53.0% for the nine months ended September 30, 2007. The decrease in gross margins for the three months ended September 30, 2008 as compared to the three months ended September 30, 2007 is primarily attributable to increased courier cost and personnel and related expenses as well as certain one-time charges associated with validating our new Immunohistochemistry test offerings and the completion of a low margin contract in our contract research organization. In addition, during the three months ended September 30, 2008, we had higher than usual outsourcing fees related to the performance of certain molecular tests that we have now brought back in house.

General and Administrative Expenses

General and administrative expenses increased 21.0%, or \$457,000, to \$2.6 million for the three months ended September 30, 2008 as compared to \$2.2 million for the three months ended September 30, 2007. For the nine months ended September 30, 2008 general and administrative expenses increased 36.1%, or \$2.0 million, to \$7.7 million as compared to \$5.7 million for the nine months ended September 30, 2007. The increases in general and administrative expenses are primarily a result of adding sales and marketing personnel as well as corporate personnel to generate and support revenue growth. We anticipate general and administrative expenses will continue to grow as a result of our expected revenue growth. However, we expect these expenses to decline as a percentage of revenue as our infrastructure costs stabilize.

General and administrative expenses as a percentage of revenue decreased to 52.2% for the three months ended September 30, 2008 as compared to 69.8% for the three months ended September 30, 2007. For the nine months ended September 30, 2008 general and administrative expenses as a percentage of revenue decreased to 54.7% as compared to 73.5% for the nine months ended September 30, 2007. These decreases as compared to the same periods last year were primarily a result of greater economies of scale in our business from spreading our wage expense over a greater revenue base as well as a decrease in professional fees as a result of settling the litigation with US Labs earlier this year.

Bad debt expense increased 22.8%, or \$52,000, to \$280,000 for the three months ended September 30, 2008 as compared to \$228,000 for the three months ended September 30, 2007. For the nine months ended September 30, 2008 bad debt expense increased 116.4%, or \$589,000 to \$1,095,000 as compared to \$506,000 for the nine months ended September 30, 2007. This increase was a result of the significant increases in revenue. Bad debt expense as a percentage of revenue was 5.6% for the three months ended September 30, 2008 as compared to 7.3% for the months ended September 30, 2007. For the nine months ended September 30, 2008 bad debt expense as a percentage of revenue was 7.8% as compared to 6.6% for the nine months ended September 30, 2007.

The decrease in bad debt expense as a percentage of revenue for the three months ended September 30, 2008 as compared to three months ended September 30, 2007 is the result of many changes we have made in our billing practices as well as the implementation of a more effective billing system, which we believe have corrected the billing issues we experienced towards the end of last year. Moving forward, we expect that bad debt expense as a percentage of revenue will run between 5%-7% of revenue.

The increase in bad debt expense as a percentage of revenue for the nine months ended September 30, 2008 as compared to the nine months ended September 30, 2007 was a result of the increased reserves that we took earlier this year to address the previously discussed billing issues we experienced in late 2007.

Interest Expense, net

Interest expense net, which primarily represents interest on borrowing arrangements, increased 423.5%, or \$61,000 to \$75,000 for the three months ended September 30, 2008 as compared to \$14,000 for the three months ended September 30, 2007. For the nine months ended September 30, 2008 interest expense, net decreased 3.1%, or \$6,000 to \$199,000 as compared to \$206,000 for the nine months ended September 30, 2007. Interest expense for the three and nine months ended September 30, 2008 is related to our new credit facility with Capital Source, while interest expense for the three and nine months ended September 30, 2007 was related to our previous credit facility with Aspen Select Healthcare, which had a higher average balance and higher interest rate, but was paid off in the second quarter of 2007, thus resulting in no interest expense in the third quarter of 2007 as compared to the third quarter of 2008.

Net Income (Loss)

As a result of the foregoing, we reported a net loss of approximately \$(195,000) or (\$0.01) per share for the three months ended September 30, 2008 as compared to a net loss of approximately (\$591,000) or (\$0.02) per share for the three months ended September 30, 2007, an improvement of \$396,000. For the nine months ended September 30, 2008, we reported a net loss of approximately (\$388,000) or (\$0.01) per share as compared to a net loss of (\$1,784,000) or (\$0.06) per share for the nine months ended September 30, 2007, an improvement of almost \$1.4 million.

Liquidity and Capital Resources

During the nine months ended September 30, 2008, our operating activities used approximately \$182,000 in cash compared with approximately \$2,189,000 used in the nine months ended September 30, 2007. We invested approximately \$370,000 on new equipment during the nine months ended September 30, 2008, compared with approximately \$607,000 for the nine months ended September 30, 2007. As of November 5, 2008, we had approximately \$625,000 in cash on hand and \$1,250,000 of availability under our Credit Facility with CapitalSource. On November 5, 2008, we entered into a common stock purchase agreement (the "Stock Agreement") with Fusion Capital Fund II, LLC ("Fusion") that provides for future sales of our common stock to Fusion in amounts up to \$8.0 million over the next 30 months in amounts and at times that are solely in our discretion. If we elect to sell stock to Fusion under the Stock Agreement, any proceeds received by us would be used for general corporate purposes or to pursue strategic opportunities that may arise. On November 5, 2008, we also entered into a master lease agreement with Leasing Technologies International, Inc. ("LTI"), which allows us to draw as much as \$1.0 million over the next twelve months to purchase capital equipment. At the present time, we anticipate that based on i) our current business plan and operations, ii) our existing cash balances, iii) the availability of our accounts receivable Credit Facility with CapitalSource, iv) the availability of equity capital under the Fusion Stock Agreement, and v) the availability of equipment financing under the master lease agreement with LTI, we will have adequate liquidity for at least the next twelve months. This estimate of our cash needs does not include any additional funding which may be required for growth in our business beyond that which is planned or cash that may be required to pursue strategic transactions or acquisitions. In the event that the Company grows faster than we currently anticipate or we engage in strategic transactions or acquisitions and our cash on hand and/or our availability under the CapitalSource Credit Facility, the Fusion Stock Agreement, or the LTI master lease agreement is not sufficient to meet our financing needs, we may need to raise additional capital from other sources. In such event, we may not be able to obtain such funding on attractive terms, or at all, and the Company may be required to curtail its operations. In the event that we do need to raise additional capital, we would seek to raise this additional money through issuing a combination of debt and/or equity securities primarily through banks and/or other large institutional investors. At September 30, 2008, we had stockholders' equity of \$2,487,000.

Capital Expenditures

We currently forecast capital expenditures in order to execute on our business plan. The amount and timing of such capital expenditures will be determined by the volume of business, but we currently anticipate that we will need to purchase approximately \$1.5 million to \$2.0 million of additional capital equipment during the next twelve months. We plan to fund these expenditures through capital lease financing arrangements and through our master lease agreement with LTI. If we are unable to obtain such funding, we will need to pay cash for these items or we will be required to curtail our equipment purchases, which may have an impact on our ability to continue to grow our revenues.

Subsequent Events

Common Stock Purchase Agreement

On November 5, 2008, we entered into a common stock purchase agreement (the "Stock Agreement") with Fusion Capital Fund II, LLC an Illinois limited liability company ("Fusion"). The Stock Agreement, which has a term of 30 months, provides for the future funding of up to \$8.0 million from sales of our common stock to Fusion on a when and if needed basis as determined by us in our sole discretion. In consideration for entering into this Stock Agreement, on October 10, 2008, we issued to Fusion 17,500 shares of our common stock (valued at \$14,700 on the date of issuance) and \$17,500 as a due diligence expense reimbursement. In addition, on November 5, 2008, we issued to Fusion 400,000 shares of our common stock (valued at \$280,000 on the date of issuance) as a commitment fee. Concurrently with entering into the Stock Agreement, we entered into a registration rights agreement with Fusion. Under the

registration rights agreement, we agreed to file a registration statement with the SEC covering the 417,500 shares that have already been issued to Fusion and at least 3.0 million shares that may be issued to Fusion under the Stock Agreement. Presently, we expect to sell no more than this initial 3.0 million shares to Fusion during the term of this Stock Agreement.

Under the Stock Agreement, after the SEC has declared effective the registration statement related to the transaction, we have the right to sell to Fusion shares of our common stock from time to time in amounts between \$50,000 and \$1.0 million, depending on the market price of our common stock. The purchase price of the shares related to any future funding under the Stock Agreement will be based on the prevailing market prices of our stock at the time of such sales without any fixed discount, and the Company will control the timing and amount of any sales of shares to Fusion. Fusion shall not have the right or the obligation to purchase any shares of our common stock on any business day that the price of our common stock is below \$0.45 per share. The Stock Agreement may be terminated by us at any time at our discretion without any cost to us. There are no negative covenants, restrictions on future funding from other sources, penalties, further fees or liquidated damages in the agreement.

Given our current liquidity position from cash on hand and our availability under our Credit Facility with CapitalSource, we have no immediate plans to issue common stock under the Stock Agreement. If and when we do elect to sell shares to Fusion under this agreement, we expect to do so opportunistically and only under conditions deemed favorable by the Company. Any proceeds received by the Company from sales under the Stock Agreement will be used for general corporate purposes, working capital, and/or for expansion activities.

Equipment Lease Line

On November 5, 2008, the Subsidiary entered into a master lease agreement with Leasing Technologies International, Inc. The master lease agreement establishes the general terms and conditions pursuant to which the Subsidiary may lease equipment pursuant to a \$1,000,000 lease line. Advances under the lease line may be made for one year by executing equipment schedules for each advance. The lease term of any equipment schedules issued under the lease line will be for 36 months. The lease rate factor applicable for each equipment schedule is 0.0327/month. If the Subsidiary makes use of the entire lease line, the monthly rent would be \$32,700. Monthly rent for the leased equipment is payable in advance on the first day of each month. The obligations of the Subsidiary are guaranteed by the Parent Company. At the end of the term of each equipment schedule the Subsidiary may:

- (d) Renew the lease with respect to such equipment for an additional 12 months at fair market value;
- (e) Purchase the equipment at fair market value, which price will not be less than 10% of cost nor more than 14% of cost;
- (f) Extend the term for an additional six months at 35% of the monthly rent paid by lessee during the initial term, equipment may then be purchased for the lesser of fair market value or 8% of cost; or
- (b) Return the equipment subject to a remarketing charge equal to 6% of cost.

First Amendment to Revolving Credit and Security Agreement

On November 3, 2008 the Company and CapitalSource signed a first amendment to the Credit Agreement. This amendment increased the amount allowable under the Credit Agreement to pay towards the settlement of the US Labs lawsuit to \$250,000 from \$100,000 and documented other administrative agreements between NeoGenomics and CapitalSource.

ITEM 3 – Quantitative and Qualitative Disclosures About Market Risk

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide information under this item.

ITEM 4 – Controls and Procedures

Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer, principal financial officer, and principal accounting officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), we carried out an evaluation, under the supervision and with the participation of the Company's management, including our principal executive officer, principal financial officer, and principal accounting officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, our principal executive officer, principal financial officer, and principal accounting officer concluded that our disclosure controls and procedures were not effective at a reasonable assurance level as of the end of the period covered by this report due to the material weaknesses that were originally described more fully in our Annual Report on Form 10-KSB for the fiscal year ended December 31, 2007 relating to (i) our failure to develop and maintain a company wide anti-fraud program over the initiating and processing of financial transactions, as well as other company wide procedures which may have an impact on internal controls over financial reporting, (ii) failure by senior management to maintain sufficient controls related to the establishing, maintaining, and assigning of user access security levels in the accounting and billing software packages used to initiate, process, record, and report financial transactions and financial statements and (iii) failure to maintain proper spreadsheet controls.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 4T – Controls and Procedures

Not applicable.

PART II – OTHER INFORMATION

ITEM 1 – LEGAL PROCEEDINGS

US Labs Settlement

A civil lawsuit is currently pending between the Company and its liability insurer, FCCI Commercial Insurance Company ("FCCI") in the 20th Judicial Circuit Court in and for Lee County, Florida (Case No. 07-CA-017150). FCCI filed the suit on December 12, 2007 in response to the Company's demands for insurance benefits with respect to an underlying action involving US Labs (a settlement agreement has since been reached in the underlying action, and thus that case has now concluded). Specifically, the Company maintains that the underlying plaintiff's allegations triggered the subject insurance policy's personal and advertising injury coverage. In the lawsuit, FCCI seeks a court judgment that it owes no obligation to the Company regarding the underlying action (FCCI does not seek monetary damages). The Company has counterclaimed against FCCI for breach of the subject insurance policy, and seeks recovery of defense costs incurred in the underlying matter, amounts paid in settlement thereof, and fees and expenses incurred in litigating with FCCI. The court recently denied a motion by FCCI for judgment on the pleadings, and the parties are proceeding with discovery. We intend to aggressively pursue all remedies in this matter and believe that the courts will ultimately find that FCCI had a duty to provide coverage in the US Labs litigation.

ITEM 1A – RISK FACTORS

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide information under this item.

ITEM 2 - UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Not Applicable

ITEM 3 – DEFAULTS UPON SENIOR SECURITIES

Not Applicable

ITEM 4 – SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Not Applicable

ITEM 5 – OTHER INFORMATION

The Company's disclosure in this Quarterly Report on Form 10-Q under the heading "Subsequent Events" included in "Management's Discussion and Analysis of Financial Condition and Results of Operations" is hereby incorporated by reference into this item.
