To the 401(k) Plan Administrative and Investment Committee and Participants  
Jason Pharmaceuticals, Inc. 401(k) Plan

We have audited the accompanying Statements of Net Assets Available for Plan Benefits of the Jason Pharmaceuticals, Inc 401(k) Plan as of December 31, 2008, and the related Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2008. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and performed the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan at December 31, 2008, and the changes in its net assets available for plan benefits for the year ended December 31, 2008, in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the 2008 basic financial statements taken as a whole. The supplemental Schedule H, Line 4(i) — Schedule Of Assets (Held At End Of Year) as of December 31, 2008 is presented for the purpose of additional analysis and is not a required part of the 2008 basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the 2008 basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the 2008 basic financial statements taken as a whole.

JASON PHARMACEUTICALS, INC 401(k) PLAN  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2008

NOTE 1—

DESCRIPTION OF PLAN

The following description of the Jason Pharmaceuticals, Inc (“Company”) 401(k) Plan (“Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General:

Jason Pharmaceuticals, Inc. 401 (k) Plan (the Plan) is a defined contribution plan covering all full-time employees of Jason Pharmaceuticals, Inc. who have completed 12 months of service or attained 1,000 hours of service, are age 21 or older and are employed by Jason Pharmaceuticals, Inc. on the last day of the Plan year. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Each year participants may contribute to the plan by signing a salary deferral agreement (as defined in the Plan), which then will be deducted on a pre-tax basis. The Company will contribute a matching contribution based upon the participant’s salary deferral for the Plan year. The Company has chosen to contribute 50% of the first 6% of a participant’s salary deferral. However, a participant’s total deferrals in any taxable year may not exceed a dollar limitation, which is set by law - \$15,500 for 2008. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. In 2008, catch-up contributions limit is set to \$5,000. These limits will be increased in future years for cost of living changes. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants may change contribution rates at any time after initial eligibility. Contributions are subject to certain limitations.

Participant Accounts:

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

NOTE 1—

DESCRIPTION OF PLAN (CONTINUED)

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service.

Participant Loans:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 6% to 10%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits:

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts.:

At December 31, 2008 forfeited non-vested accounts totaled \$4,455. These accounts will be used to reduce future employer contributions.

Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 2— SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits:

Benefits are recorded when paid.

Operating Expenses:

All expenses of maintaining the Plan are applied against forfeited amounts. Any excess is allocated to individual participants.

NOTE 3—

FAIR VALUE MEASUREMENTS (CONTINUED)

SFAS No. 157, Fair Value Measurements, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements:

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements:

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Fair Value Measurements:

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 5—

## PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 6—

## TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated September 27, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
