Item 2.02 Results of Operations and Financial Condition.

ReWalk Robotics Ltd.'s ("*ReWalk*" or the "*Company*") preliminary results of operations for the three and nine months ended September 30, 2017 are below.

Revenues were approximately \$1.7 million and \$6.2 million for the three and nine months ended September 30, 2017, respectively, compared to revenues of \$1.4 million and \$4.3 million for the three and nine months ended September 30, 2016, respectively. The Company derived approximately 68% of its revenues from the United States for the nine months ended September 30, 2017, compared to 70% for the nine months ended September 30, 2016. The remaining 32% in revenues originated in Europe for the nine months ended September 30, 2017, compared to 21% originating in Europe and 9% originating in Asia-Pacific for the nine months ended September 30, 2016. This increase in revenue for the three and nine months ended September 30, 2017, compared to the same periods in 2016, was primarily due to sales mix, including higher sales to the Veterans' Administration for use in an ongoing clinical study (reaching, as of September 30, 2017, 60 units placed as part of the study since its inception in the fourth quarter of 2015) and an increase in the conversion of rental units into purchases. The Company placed 16 and 84 units during the three and nine months ended September 30, 2017, respectively, compared to 23 and 80 units during the three and nine months ended September 30, 2016, respectively. During the three and nine months ended September 30, 2017, seven and 34 unit placements were covered by insurance, respectively, compared to 13 and 41 unit placements covered by insurance, respectively, during the three and nine months ended September 30, 2016. As of September 30, 2017, there were 218 pending insurance claims relating to coverage for ReWalk devices, compared to 149 as of September 30, 2016.

In addition, cash and cash equivalents were approximately \$12.9 million as of September 30, 2017, compared to \$12.4 million as of September 30, 2016 and \$23.7 million as of December 31, 2016.

The above preliminary results are based on management's preliminary financial analysis, and the unaudited consolidated condensed financial statements of the Company for the three and nine months ended September 30, 2017 are not yet available. These results are subject to the completion of the Company's financial closing procedures and any adjustments that may result from the completion of the quarterly review of the Company's unaudited consolidated condensed financial statements. The Company's independent registered public accounting firm has not audited, reviewed or performed any procedures with respect to these preliminary results. These preliminary results may differ materially from the actual results that will be reflected in the Company's unaudited consolidated condensed financial statements for the three and nine months ended September 30, 2017 when they are completed.
